a. **Training Performance Statements, Workplace Training Task Books and Role Performance Standard.** On successful completion of the PQC for AB, LH or PO, a CT rating will have attained the Training Performance Statement (TPS) for that rate. Individuals will then be issued with the appropriate Workplace Training Task Book (WTTB). In the subsequent assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant WTTB (TPS + OJT = RPS) for AB/LH. On achievement of RPS as an AB1, LH or PO, the Warfare Training Co-ordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annexes for details) to be inputted to JPA. When an individual is advanced to AB1 or LH, the HR administrator is to ensure that a Promotion Authorisation Request (PAR) is sent to the Career Manager, who will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date, thus stating that the rating has achieved RPS before attempting to be advanced to AB1 or LH. A rating's RPS is defined and owned by the relevant Branch Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the CT Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB1. It must be realised that AB1s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB1 is an application for administrative discharge on the grounds of un-employability. Within the CT specialisation, an initial warning is set at 12 months from commencement of the WTTB (unless it has been given earlier, supported with unequivocal statements of non-recommendation for advancement in an Appraisal Report). Warnings will then continue 3-monthly, within the Appraisal process, up to an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. **Pre-Joining Training.** PJTs are the method of training CT ratings for a specific role, prior to joining a sea-going unit, as required by the UPL. Whilst undertaking a PQC, a rating who has been assigned to a unit in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC. The following outcomes are possible:

(1) **Pass.** Schools are responsible for conducting PJTs and are to report successful completion and ensure that HR administrators input the relevant competences to JPA.

(2) **Failure.** In the event of failure, a written report is to be forwarded by the School to the individual's parent unit. The individual may be considered for Discharge SHORE, in accordance with Chapter 54 or, in the case of LH, immediately warned formally for reversion by the parent unit. As PJTs are taught at the end of a PQC pipeline, the rating will have to wait until the end of the next training pipeline before re-commencing the PJT.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability. Ratings who fail a PJT a second time are not to be employed in any UPL position number that requires that competence and are not to attempt that PJT for further 12 months. The rating’s parent unit is to assess the individual's employability. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Professions Manager.

(4) **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format and is to be included in their WTTB.

d. **TEMs.** In addition to WTTB, LHs attending TEMs will also be issued with the relevant On Job Training TB in loose leaf format for inclusion in their current WTTBs.

e. **Completion of AB1 CBRNDC Task Book.** The CBRNDC task book is to be issued upon a person's first sea assignment, irrelevant of the Rate/Rank and should be completed within 6 months, considerations of a ship's maintenance period can be taken into consideration. Failure to complete the Task book within 6 months, requires the divisional warning system to be utilised iaw BR3.

f. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless the individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC/SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CM to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of, at least, PQC within 12 months of selection. On implementation, it is possible that a surge in applications may exceed available places. The Career Manager's judgment will be required to manage points of excessive demand.

g. **Failure to Complete Professional and/or Leadership Course.** Refer to Ch 67 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). If the LH or PO PQC is refused, Para 6911 will apply. In the event of failure during a LH or PO PQC, Para 6910 will apply.

h. **RPS Lead Authority.** A database of LH CT level tasks will be maintained by CT TE WTG and made available to each unit employing CTs as required. When units need to conduct an RPS check OiC CT TE WTG should be contacted to issue a selection of general task questions. Additional oral questions are then to be added by the employing unit to probe the CT's knowledge of their own ship/unit and operational experience.

8413. JPA Recording - Competences, Annual RPS Check

a. **Recording of Competences.** Once a CT rating has successfully completed a PQC, WTTB, PJT/TEM and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. HQ MIXG will define and regulate the standards required to pass an Annual OPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

(1) Maintenance of RPS is to be monitored through an Annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the workforce planning cycle.

(2) In exceptional circumstances some individuals may be unable to achieve the mandatory RPS checks. Where this is the case, HQ MIXG (RN CT Spec Ad) should be consulted for advice.

(3) An Annual RPS Check is not a pre-selection requirement.

(4) An Annual RPS Check is a pre-requisite for all promotion career courses for AB-LH and LH-PO.

(5) RPS qualifications will be checked on attendance of PO PQC. Ratings who are not in date for an Annual RPS Check will be returned to Unit.

8414. Appraisal Reports

a. **Appraisal Reports.** Appraisal Reports are required in order to provide Selection Boards with details of an individual's performance and suitability for promotion. Appraisal Reports are to be raised annually (31 Jan for all LH; 31 Mar for PO and 30 Sep for CPO). Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in an SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the relevant Professions Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Selection Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on not having achieved OPS.

8415. Language Training - Aptitude Test

Ratings selected for CT training will undergo the Modern Languages Aptitude Test (MLAT) during basic training (CESM100A) - results will be recorded and held within Training Delivery Division (TDD) at JITG Chicksands and CT TE WTG. Language training will be provided only in order to satisfy a Service need. When such a need is identified, CTs with an appropriate MLAT score will undergo further assessment of their commitment, attitude and suitability - success at which is a prerequisite for a language training assignment.

8416. Signal Development Training

Signal Development (SD) is an advanced, intensive, non-language, communications signals analysis skill. SD training will be provided only in order to satisfy a Service need and requires the individual to pass an aptitude assessment process as a pre-requisite.

CHAPTER 85

LOGISTICS AND PERSONNEL PROFESSION – WRITER, SUPPLY CHAIN AND CATERING SERVICES

8501. Promotion Boards and Eligibility

a. Logistics and Personnel Profession Promotion Boards consider all candidates from each respective specialisation on the basis of merit.

b. Promotion to Leading Hand, Petty Officer, Chief Petty Officer and Warrant Officer Class 2 and 1 will be authorised by vacancies and dependent upon selection by a Promotion Board. Details of the selection system are given in Chapter 67.

c. Reporting Officers making recommendations for promotion, confirmation or course, are to pay due regard to the regulations shown in Para 6901. As is already the case, adequate selections will also have to be made to ensure there are sufficient seagoing personnel to meet the SM requirement. To ensure that the separate GS and SM workforce requirements are met, all those selected and fit for SM service will be considered for either Arm, depending on the needs of the Service. The liability to serve in submarines is laid down in Chapter 51.

d. An individual is recommended for promotion when awarded 'Exceptional', 'High' or 'Yes' for 'Promotion - 1 Rank Up' on SJAR by the final Reporting Officer. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

e. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6714 for rules on the impact on a rating's promotion if they fail to complete a Professional Qualifying Course (PQC) and/or LRLC/SRLC before the CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).

8502. Professional Qualifying Courses

a. All Logistics PQCs are held at the Defence School of Logistics and Administration (DSLA). Candidates are nominated by Career Managers from those ratings who have been selected for promotion.

b. Failure of the PQCs will entail the penalties in Para 6911.

c. All Logistics Ratings are required to complete the Role Performance Statement Confirmation Check (RPSCC) within 3 months of attendance at PQC and have the relevant JPA competence recorded ahead of course attendance[1]. Personnel not completing RPSCC within the permitted timescales may not be permitted to attend their PQC and risk de-selection if a further place does not become available within 12 months of their CPD[2].

[1] e.g. NCT|RPSCC for LH Logistician|Navy| or NCT|RPSCC for AB Logistician|Navy|.
[2] BRd 3(1) Chapter 67 Para 6716.

Note. *There is no longer a requirement to undertake the VLE administered pre course examination. However, to aid preparation, those selected for promotion will be given unrestricted access 3 months prior to attendance at PQC as a training/revision aid. Note that the VLE is now hosted on the Defence Learning Environment (DLE) which is accessed via the Defence Gateway[3].*

d. Personnel are to be given 3 months' notice to attend PQC in order to prepare sufficiently. Individuals may waive their right to the 3 month preparation period by completing the proforma at Annex 85A and sending it to the LTO of the relevant DSLA Squadron.

e. **Day 1 Assessment at DSLA.** Noting that all course attendees will have adequately prepared for their PQC and arrived at RPS, an assessment on Day 1 (with the exception of Writers) will be undertaken based on topics covered within the RPSCC to measure the students' base knowledge at their current rate. A failure to meet the course requirements (i.e. a signed and completed RPSCC book and a failure of the Day 1 assessment) may lead to a range of formal administrative measures, including a Tier 1 Warning or RTU and/or de-selection in accordance with current DSLA policy[4]. The Day 1 assessment also allows DSLA and NCHQ to monitor the current knowledge level of those attending the course, to identify common weak areas, target mentoring appropriately and also reinforces the importance of appropriate preparation for PQC. In order to drive continual improvement, DSLA Head of Naval Training (HoNT) will provide feedback to units of personnel who fail their Day 1 assessment.

f. **Responsibility.** It is a personal responsibility to fully prepare ahead of attendance on any PQC. The nominated unit Logistics sub-specialisation Section Head is required to confirm the individual's suitability to attend PQC using the RPSCC. Additionally, the unit Logistics Officer, or nominated Officer in Charge of Logistics Duties, must ensure that individuals are given sufficient time and opportunity to undertake this task. Both will be obliged to certify an individual's RPSCC certificate within the completed RPSCC booklet and the booklet must be presented to DSLA by the individual on the first day of their PQC. The RPSCC booklets are hosted on the training page of the FLO Intranet site[4].

8503. Professional Qualifying Courses - Attendance Pre-Selection

a. The overriding principle and policy of assigning personnel to PQC is Select, Train, Promote. However, course frequency, relative short course duration and the vagaries of the Fleet's operational tempo has traditionally resulted in a degree of unused capacity on these courses. In order to capitalise on this modest capacity, Career Managers are authorised to assign appropriate personnel to LH and PO Qualifying Courses prior to selection for promotion. This will be done on an ad-hoc basis where course capacity exists and relies on Divisional Officers and Career Managers nominating only those personnel who have both the ability to successfully pass the course and sufficient opportunity to undertake the requisite pre-course preparation.

[3] It remains the responsibility of the individual to ensure they have activated their Defence Gateway account and that their contact details are correct. Access to the Defence Gateway via Dii requires an IGS account.
[4] https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/Fleet-logistics.aspx

b. In order to ensure that no personnel are disadvantaged, no credit or positive weighting will be given at promotion boards to those personnel who have had the opportunity to undertake a career course pre-selection. In all circumstances, individuals selected for promotion will take priority and excess course places will be opened up by Career Managers 12 weeks from course start.

8504. Workplace Training Booklet

a. On completion of a Logistics PQC, individuals reach RPS in their rank when they have completed their Workplace Training Booklet (WTB). This should be achieved within 12 months of completing Phase 2 Training or the LH PQC and is to be recorded as a competence on JPA. WTBs are issued by individual DSLA Squadrons.

b. Completion of Phase 2 and Phase 3 results in Junior Ratings (JRs) leaving the DSLA at Training Performance Statement (TPS). In order to integrate that classroom training with the realities of the workplace and bring the newly qualified JRs up to the required Role Performance Statement (RPS), individuals are required to complete a WTB in their subsequent assignments.

c. Previously, completion of the WTB alone was deemed sufficient. However, following feedback from frontline units and after discussions with other training establishments, a level of assurance is required to ensure parity across the Fleet. Therefore, once the WTB has been completed, the individual will be required to sit a short oral board examination following which, if they are successful, they will be confirmed at RPS[5].

d. **Procedure.** All personnel completing Phase 2 and Phase 3 training will be issued with a WTB by DSLA which has to be completed within 12 months[6] of the date of issue (following completion of Phase 2 training or LHPQC).

e. On completion (or when nearing completion) of a WTB, the departmental SR is to contact[7] the Deputy Logistics Training Officer (DLTO) of the relevant lead squadron at DSLA. To reduce the risk of plagiarism, each squadron will be responsible for managing the provision of oral board questions on request and for all other guidance.

f. **LHPQC - Level 3 NVQ Certificate in Business and Administration.** Leading Hands attending Phase 3 LHQC at DSLA undertake the Level 3 NVQ Certificate in Business and Administration. If chosen to be undertaken, the learner is committed to making every effort to complete the qualification whilst on the LHQC and the subsequent work required afterwards. Completion of the NVQ is not a mandated requirement for achieving RPS and subsequent promotion.

[5] AB2 must complete the WTB and be at RPS to be advanced to AB1. Achievement of RPS for logistics Leading Hands is a pre-selection requirement for Petty Officer.
[6] Line managers of personnel who are struggling to complete their WTB within the 12 months are to liaise with the LTO of the relevant Squadron at DSLA.
[7] The full process for requesting oral board questions is detailed in the WTB.

g. **Recording.** Once the WTB and subsequent oral board is complete, units are to forward the completed Statement of Competency to the DLTO of the relevant lead squadron, which will annotate the competence on JPA and provide a certificate of achievement. Units are not to take independent JPA action. A suitable comment is to be included in the individual's next SJAR and the Departmental Training Log updated. A PAR, for non-selective promotion, should also be raised at this time and be forwarded to the relevant CM, who will take JPA action to promote to AB1.

h. **WTB Content Assurance.** The content of the WTB is derived directly from the RPS which is owned by NCHQ FLO Policy. These are regularly scrutinised by the Fleet Logistic WOs to ensure currency. Whenever there is a requirement to change the RPS then the WTB documentation will also be amended. Feedback from units is encouraged via the Fleet Logistic WOs and the submission of an S3018 Training Feedback Report.

ANNEX 85A

LOGISTICS AND PERSONNEL PROFESSION - PROFESSIONAL QUALIFYING COURSE - THREE MONTH PREPARATION WAIVER

Section 1 (to be completed by the individual)

Name		**Service No.**	
Course No.		**Course Start Date**	
Date Notified			

I hereby waive the three month preparation time to attend Professional Qualifying Course (PQC). I understand it is my responsibility to be fully prepared for professional training and that failure could result in de-selection for promotion.

Signed: .....

Name: .....

Date: .....

Section 2 (to be completed by Line Manager/Divisional Officer)

I approve the above-named ratings request to waive their right to the stipulated preparation time. I have advised on the requirement to ensure they are fully prepared for PQC, including the completion of the OPSCC assessment.

Signed: .....

Name: .....

Date: .....

This form is to be forwarded to the LTO of the relevant squadron in DSLA and retained for a period of two years post course start date.

ANNEX 85B

LOGISTICS AND PERSONNEL PROFESSION - FAST TRACK PROCESS AND AWARD OF HIGHER STARTING PAY FOR ROYAL NAVY CATERING SERVICES TRAINEES

1. Introduction

a. A Fast Track (FT) scheme for Phase 2 trainees who join with pre-existing catering qualifications OR sufficient demonstrable practical experience has been in effective operation since Jul 21. Those trainees joining with pre-existing qualifications or experience will attempt 2-day Skills Test. Successful trainees will be accepted onto the FT scheme and will not be required to complete the DCB(M) phase. Instead, they will be accelerated by 8 weeks to proceed directly to DCB(B) phase.

b. The Armed Forces Pay Steering Group (AFPSG) approved the introduction of Higher Starting Pay (HSP) for those CS ratings achieving the FT competence, and completing a FT probationary period, with effect from 1 Sep 23.

2. Capture of Qualifications and/or Experience

a. Where possible, personnel are to declare their catering qualifications and/or experience during Phase 2 holdover at HMS RALEIGH to CORPORATE staff. Whilst there are no specific criteria to apply for the FT scheme, a judgement will be made by the DSLA staff to determine suitability based upon evidence provided. Applicants will be required to support their application with a Reference or evidence of their existing Catering Qualifications. Irrespective of qualifications or prior experience, FT progression will be determined by successful completion of the skills test – details are provided below.

b. When informed, CORPORATE staff are to liaise directly with CTW(M) DLTO at least 3 weeks prior to trainees' arrival date at DSLA. This does not preclude a potential applicant raising their interest on arrival at DSLA. DLTO will oversee the necessary arrangements for trainees to undertake the skills test.

3. Fast Track Procedure

a. The following procedure is to be taken:

(1) Upon arrival at DSLA, all FT candidates will undertake the site induction, mandatory food hygiene and Health & Safety training in week one of the course.

(2) A 2-day skills test compromising of one theory and two craft examinations are to be undertaken early into week two of DCB(M) course. Failure of any single element will result in candidate re-joining their original class and continuing with DCB(M) phase.

(3) The successful pass of all skills test elements will negate the need for candidates to undertake the remaining 8-week DCB(M) course and they will proceed directly to DCB(B) phase. DCB(B) phase will not be shortened.

(4) Candidates who meet the experience criteria and not minimal qualification requirement and who pass the FT assessments will automatically be enrolled onto L2 Production Chef Apprenticeship.

4. Award of Higher Starting Pay (HSP)

a. Those trainees who pass the DCB(M) skills test and therefore proceed directly to DCB(B) phase will be awarded the FT competence.

b. The award of HSP at OR2-6 is based upon completion of a CS FT probationary period which is determined to be the completion of the DCB(B) Phase of training. On successful completion of DCB(B), DSLA DLTO will upload the FT Competence in JPA for successful candidates, with an effective date of the first day of the individual's Ph 2 training.

c. Those personnel achieving the FT competence will be awarded HSP backdated to the first day of their Ph 2 training. A lump sum of 'back pay' will be paid. SP will increment in the normal course thereafter.

d. Any trainee accepted into the FT scheme who fails to meet the required standard, may be required to return to the DCB(M) phase. Furthermore, any trainee who is back phased or who receives a training extension during DCB(B) phase will be withdrawn from the FT scheme. In these instances, HSP will not be awarded.

e. The award of HSP will only apply for trainees who are awarded the FT competence with an effective date on or after 1 Sep 23. There are no transitional arrangements for those who entered the FT scheme prior to that date.

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).			

Promoted to
WARRANT OFFICER 1 LOGISTICIAN (Catering Services)

Notes:

1. RM Logistician (Catering Services) will follow the promotion flowchart described above in Para 8506. However, this cadre of personnel can undertake either JCC/SCC, or LRLC/SRLC, and this will count towards their Command training for promotion. Additionally, promotion from CSGT to WO1 does not require completion of RM Advanced Command Course (ACC) although the WO1 course should be completed in common with all Logs WO1s.

2. LLog(Stewards) who have cross-trained to LLog(Catering Services) will be eligible if they have previously achieved RPS for LLog(Steward).

3. A Fast Track (FT) scheme for Phase 2 trainees who join with pre-existing qualifications OR sufficient demonstratable practical experience has been in effective operation since Jul 21. Full details are contained in Annex 85B.

Annex 86A: RN Welfare (RNW) – Promotion Flowchart

CHAPTER 86

ROYAL NAVY WELFARE

8601. Introduction

The Royal Navy Welfare specialisation (RNW), as part of the Royal Navy Family and People Support Organisation (RN FPS), provides high quality personal and community based support services to all Royal Navy personnel, reservists and their families across the wide range of social circumstances. RN FPS works in partnership with the Executive, Medical Services, Divisional and Regimental System to provide advice, guidance and professional recommendations to Commanding Officers including the outcomes of investigations relating to compassionate action. RN FPS seeks to develop and deploy resources to anticipate and prevent personal or family circumstances from reaching crisis point and which promote resilience, improved morale and wellbeing.

The RN FPS Mission Statement is:

'To provide accessible support services that strengthen and enhance the resilience and resourcefulness of Royal Navy personnel, their families and communities in order to contribute to the Moral Component and optimise Operational Capability.'

8602. Applying for Entry into the Royal Navy Welfare (RNW) Specialisation

Applications will be called for annually via a RNTM; applicants must meet the following criteria:

Table 86-1. RNW Selection Criteria

Requirement	Competency	Proficiency Level	Notes
A substantive OR4 (LH/CPL) with a minimum of 1 Year seniority and has completed Leading Rates Leadership Course with a positive recommendation for PO/Sgt (At least B OPG) or a substantive OR6.	Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|		
Must have workforce clearance.			IAW Para 5125(b1).
Be in date for PES/RMFT.	Physical Education|RN Physical Employment Standard (RNPES)|Navy|CMS|RMFT|RM|		

(Continued)

Requirement	Competency	Proficiency Level	Notes
Have a minimum of 5 years left to serve on completion of the DSWWC. Tx date to be 6 months or more from the close of RNW interview phase iaw latest RNTM.			ES3(5) may be awarded upon successful completion of training if required. There is a minimum of 36 months ROS following completion of the DSWWC.
Have at least 12 months since last Career Check (if any) at nominated CPD or date due promotion.			
Hold a Full Civilian Driving Licence (recorded on JPA at point of application.	Drivers|Dvr Lic Cat B|Joint|		
Medically Fully Deployable (MFD).			Those in a Medically Limited Deployable (MLD) MEDCAT will be considered on a case by case-by-case basis dependent on their restrictions.

8603. Selection Process

a. Individuals are to obtain CO's approval for sideways entry, forwarded to NAVYPEOPLE-CMMAILBOX@MOD.GOV.UK for workforce clearance[1].

b. Submit an application pack to RNW in accordance with the current RNTM for RNW recruitment.

c. Successful applicants will be invited to attend a RNW selection day. It is an essential requirement of selection that applicants possess the required attributes, attitude and maturity to effectively perform as Specialist Case Workers and to develop their potential in the RNW specialisation.

d. The Selection Board will consider the following factors:

(1) **Suitability.** For intensive academic (Diploma in Specialist Welfare Work) and specialist welfare vocational training and continued personal and professional development throughout the time spent in the specialisation.

[1] Para 5125.

(2) **Potential.** To perform effectively in the RNW specialisation, demonstrate agility and resilience to manage the challenging life-changing/traumatic events that will be encountered.

(3) **Motivation.** Demonstration of a genuine interest in working with people, empathy and overwhelming motivation by this desire (rather than looking for an escape from current specialisation) whilst recognising the requirement to balance the needs of the Service.

(4) **Effective Communication.** Ability to communicate to all regardless of status. Communication skills (both verbal and written) are integral to the Specialist Case Worker's role.

(5) **Preparation.** Demonstrate a sound understanding of how the RNW Organisation and specialisation operates and works in direct support of CoC/Ops/Divisional and Regimental system, plus knowledge of the range of work they could get involved in and how staff are trained, supported and developed.

e. Enhanced Disclosure and Barring Service and Protecting Vulnerable Groups (Scotland) clearances achieved prior to commencement of DSWWC. Applications will be initiated by the People Support Organisation.

f. Selected applicants will attend the 7-month DSWWC to train alongside contemporaries from the Army Welfare Service at DSLA, Worthy Down.

g. Whilst on the DSWWC, candidates remain in their source specialisation; on passing the DSWWC, candidates will be eligible to transfer into RNW specialisation.

h. If transferred at OR4, candidates will be promoted to Acting PO/Sgt (unpaid) from commencement of DSWWC. They will not be rated substantive OR6 until completion of DSWWC and/or SRLC, whichever is the later. SRLC must be completed in source profession or within 12 months of DSWWC. Successful completion will then allow for seniority to be backdated to completion date of DSWWC. Failure to complete SRLC within this time frame will result in reversion and/or return to source profession or specialisation.

i. Point of contact for all enquiries is the RNW Career Manager (NAVY PEOPLE-CM LOGS SRSC RNFPS).

8604. Transfer Requirements

a. Successfully pass DSWWC and be recommended for transfer to the RNW specialisation.

b. On completion of DSWWC, all transferees will be rated PO/Sgt (RNW). CPO/CSgt RM will relinquish their rate/rank to OR6[2] (i.e. PO/Sgt) with one year's seniority[3]. If transferred as an OR4, candidates will become substantive as detailed in Para 8603.h.

c. On completion of DSWWC, a 36-month Return of Service requirement will commence.

d. All individuals transferring to the RNW specialisation will no longer be considered for promotion in their source specialisation/trade once training has started (see para 6704).

[2] RNW personnel are in Pay Supplement 1. JSP 754 Chapter 2 Section 10 details the regulations regarding pay on sideways entry and transfer to a lower pay supplement, including details on Marked Time Rate of Pay for 2 years.
[3] Seniority in rank is different to pay increment level. Pay increment level will be determined on sideways transfer iaw with Footnote 2.

CHAPTER 87

HEALTHCARE AND MEDICAL PROFESSION - MEDICAL ASSISTANT AND MEDICAL TECHNICIAN

8701. General and General Terminology

This Chapter covers Promotion Pathways for Medical Assistants and Medical Technicians in the Royal Navy and/or Royal Marines. In this Chapter, Medical Assistant and Medical Technician refers to all ratings and other ranks of the Royal Navy, Submarine Service or Royal Marines.

8702. Medical Assistant

All Medical Assistants, including its sub-specialisations, are career managed and profession managed by the Royal Navy.

8703. Medical Technician – Unified Career Management

a. Since 2024 all Medical Technician cadres are Career Managed by the Unified Career Management (UCM) team.

b. Personnel joining after 1 Jan 24 are subject to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

c. Personnel in-Service or undergoing Phase 1 or 2 training on 1 Jan 24 remained on legacy sS TACOS as per BRd 3(1) Chapters 48 and 49.

d. Personnel promoted or who have received a change of engagement post 1 Jan 24 will transfer to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

e. Promotion zones for personnel on legacy sS TACOS will be modified to ensure the most beneficial terms are applied to the individual. As such, harmonised UCM and legacy sS promotion timelines will be compared to ensure personnel will enter promotion zone at the earlier of the two timelines and exit the promotion zone at the latest of the two timelines.

f. Further detailed UCM Policy information is available via the UCM Policy – Healthcare and Medical SharePoint site.

8704. Promotion Flowcharts

Detailed promotion flows for the Medical Assistant and Medical Technician Specialisations are at Annexes 87A-F.

ANNEX 87A

MEDICAL ASSISTANT SPECIALISATION – PROMOTION FLOWCHART

New Entry HMS RALEIGH

Entry: 17.5-39 years of age (see Note 1).

RN / RM MEDICAL ASSISTANT 2

Medical Assistant 1 - Advancement Criteria

a. Complete Phase 1 Initial Naval Training (INT).

b. Complete Phase 2 Medical Training.

c. Complete Phase 2 Consolidation Period (see Note 3).

d. Promotion Authorisation Request to be raised by DO for CO approval (Para 6708).

e. At least 6 months since last Career Check (if any) on advancement.

f. Completion of Able Rates Leadership Course or have received Branch Manager waiver.

Advanced to
RN / RM MEDICAL ASSISTANT 1

Leading Medical Assistant (or Corporal) - Pre-Selection Requirements

a. Minimum of 18 months' seniority as a MA1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (see Note 3).

b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

d. Achieved MA CPD Taskbook at CRD and recorded as JPA competence **Medical|AB Medical Assistant Annual CPD Check|NAVY|.**

Leading Medical Assistant (or Corporal) - Pre-Promotion Requirements

a. Passed Professional Qualifying Course (PQC) (4) (see Note 8).

b. Completed Leading Rates' Leadership Course (LRLC) and recorded on JPA (see Note 8).

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum or Level 2 Functional Skills (or equivalent) in English and Mathematics at Common Reporting Date (CRD) and appropriate competences recorded on JPA.

Promoted to
LEADING MEDICAL ASSISTANT / CORPORAL

Petty Officer Medical Assistant (or Sergeant) - Pre-Selection Requirements

a. Minimum of 2 years' seniority as an LMA or Cpl 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

d. Achieved LMA CPD Taskbook (see Note 3, 9) at CRD and recorded as JPA competence **Medical|LH Medical Assistant Annual CPD Check|Navy|.**

Petty Officer Medical Assistant (or Sergeant) - Pre-Promotion Requirements

a. Passed Professional Qualifying Course (PQC) (see Notes 5 and 8).

b. Completed Senior Rates' Leadership Course (SRLC) and recorded on JPA (see Note 8).

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER MEDICAL ASSISTANT / SERGEANT

Chief Petty Officer Medical Assistant / Colour Sergeant - Pre-Selection Requirements

a. Minimum of 1 year seniority as a POMA or Sergeant 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed Senior Rates' Leadership Course (SRLC) and recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD (see Note 7).

f. Achieved POMA CPD Taskbook at CRD and recorded on JPA as competence **Medical|PO Medical Assistant Annual CPD Check|Navy|.**

Chief Petty Officer Medical Assistant / Colour Sergeant - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER MEDICAL ASSISTANT / COLOUR SERGEANT

Warrant Officer 2 Medical Assistant - Pre-Selection Requirements

a. Minimum of 1 year seniority as a CPOMA / CSGT 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

Warrant Officer 2 - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 2 MEDICAL ASSISTANT

Warrant Officer 1 - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

b. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 MEDICAL ASSISTANT

Notes:

1. Entry

a. ***Educational Standard.*** *Passed the Defence Aptitude Assessment.*

b. ***Age on Entry.*** *17.5-39 years.*

c. ***Rate on Entry.*** *Medical Assistant 2 (MA2).*

2. Phase 2 Medical Training (MA2)

a. ***Course.*** *Conducted at Defence Medical Academy, Lichfield including external placements. Written and practical examinations will be conducted as part of course assessment criteria.*

b. ***MASM.*** *A separate training pathway exists for Medical Assistant (Submarines) – see 8702 Annex 87B.*

c. ***RMMA.*** *An amended pathway exists for Royal Marine MA (6).*

d. All Branch Transfers will be subject to a 30-month TRoS iaw Chapter 53 Annex C and JSP 755 Part 2 Vol 2.

3. Phase 2 Consolidation Period

a. On successful completion of Phase 2 Training all MAs will undertake the MA consolidation period in which time they are to complete the mandated CPD workbook. All MA2 MAs will be assigned to an appropriately supported Healthcare Unit. During their consolidation period, they will not be available for position trawls and only on completion of their Workbook will they be eligible.

b. One hundred percent completion of the workbook is to be achieved by the 6-month point post Phase 2. MAs' Divisional Officers are to document a review in the workbook monthly and conduct a formal review at the 3-month point using the template provided within the workbook. The purpose of the formal review is to ensure the MA is on track for completion and to facilitate an opportunity to performance manage as required.

c. Failure to complete the workbook at the 6-month point will lead to the individual being placed on Divisional Warning for Discharge Shore (Inadequacy) iaw BRd 3(1) and direct referral to the Governing Body for MA Cadre (GBMAC) iaw BRd 1991. Additionally, the individual will remain at MA2 and undergo onward assignment for a further 6-month period. In exceptional cases, WFPM may consider whether a CPD workbook extension may be offered.

(Continued)

Notes: (Continued)

d. On successful completion of the MA CPD workbook, the Divisional Officer/Senior Officer and MA are to sign and date the Statement of Competency Certificate in the workbook. This Certificate is to be held within the individual's Personal Development Record (PDR) and the following Role Performance Statement (RPS) competency is to be recorded by the UPO on JPA: ***MEDICAL\|AB Medical Assistant Annual CPD Check\|Navy****.*

e. JPA competencies at the appropriate level are a requirement for advancement to MA1 and further. Following advancement to MA1, see Note 9 below

4. Leading Rates' Professional Qualifying Course (LRPQC)

a. ***PQCs.*** *PQCs are held at the RNMSS INM and the dates of the course will be published annually by a DIN By passing the PQC, Medical Assistants will be professionally qualified for LMA. The general rules for examinations at Para 6911 will apply. Failures are to be dealt with in accordance with Para 6912.*

b. ***Loading of PQC.*** *Candidates for the course will be nominated and assigned by the Career Manager from those selected at an annual Promotion Board*

5. Senior Rates' Professional Qualifying Course (SRPQC)

a. ***PQC.*** *A PQC is held in RNMSS INM and the dates of the course will be published annually by a DIN. By passing the PQC, LMAs will be professionally qualified for POMA. The general rules for examinations, given in Para 6911, will apply to these examinations. Failures are to be dealt with under Para 6912.*

b. ***Loading of PQC.*** *Candidates for the course will be nominated and assigned by the Career Manager from those selected at an annual Promotion Board.*

6. Royal Marine Medical Assistant (RMMA)

a. Promotion for RMMA will follow the Promotional Flowchart described in Para 8701 for RN MAs, with the exception of completion of Corporals Leadership Development Course (CLDC) / Sergeants Leadership Development Course (SLDC) is required in lieu of LRLC/SRLC. Additionally, promotion to WO2 RMMA then WO1 RMMA will also require completion of Warrant Officer Leadership Development Course (WLDC) and the WO1 course in common with all other RMOR (see Annex 91C).

(i) Whilst RM leadership and promotion courses follow the same path as non-Medical RMORs, selection to WO1 RMMA is selective.

b. RMs transferring PSQ to RMMA will retain their RM seniority date on qualifying as an MA but must achieve a minimum of 18 months seniority as a MA1, 12 months prior to CPD as a Pre-Selection requirement for LMA / CPL.

(Continued)

Notes: (Continued)

c. RMMAs may be awarded the local, unpaid rank of L/Cpl for attendance on CLDC. This local, unpaid rank can be held on return to Unit on successful completion of CLDC until subsequent promotion to Cpl.

7. Recommendation. *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

8. Failure to Complete Professional and/or Leadership Course and/or MASM2 (SM Only). *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/CLDC, SRLC/SLDC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

9. Annual MA CPD Taskbook

a. Further to Note 3.e., after advancement to MA1 and beyond, there is a requirement to complete an annual MA CPD Taskbook. It is recognised that occasionally there may be factors beyond the control of the individual which preclude them from completing the Taskbook. In these circumstances an extension to the period in which to satisfy the check, or in exceptional circumstances a waiver, may be requested. Applications for extensions or waivers will be dealt with on a case by case basis and should be made in writing by the individual's Divisional Officer or Divisional Senior Rate to the RNMSS Warrant Officer (Training), INM Alverstoke (FAO Warrant Officer (Training) (WO(T)).

b. An extension or waiver may only be issued by WO(T), who may consult with the Healthcare and Medical Profession Manager, who will record the decision on a local database, held at INM, of all waivers and extensions which will be forwarded to the Promotions Office before each board. ***Individuals can still be presented at Promotion Boards provided the waiver is current and mention made of it in the SP's appraisal report in the performance section.*** *The Healthcare and Medical Profession Manager SO1 will be the final authority for any issues regarding eligibility for promotion.*

c. Failure to achieve completion of the annual MA CPD Taskbook will be treated as a serious matter. Should a ***unit*** *be unable to complete then RNMSS Warrant Officer (Training) (WO(T)) should be engaged for advice at the earliest opportunity. Should an* ***individual*** *consistently fail to meet the required standards of knowledge and skill throughout the year then the Divisional system should be employed appropriately and consideration should be given to warning the rating for Discharge SHORE (Professional Inadequacy).*

ANNEX 87B

MEDICAL ASSISTANT (SUBMARINE) SPECIALISATION – ADVANCEMENT FLOWCHART

Medical Assistant (Submarine) Specialisation

Entry: 17.5-39 years (see Annex 87A, Note 1).

MEDICAL ASSISTANT 2 (SUBMARINE)

Advancement to MA1 in accordance with Para 8701-8704.

Advanced to
MEDICAL ASSISTANT 1 (SUBMARINE)

Acting Leading Medical Assistant - Advancement Requirements

a. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at date of advancement and appropriate competences recorded on JPA.

b. Serving on ES1/FC/OE1 that expires after advancement to Acting LMA (see Note 2).

c. Recommended for advancement iaw para 6802.c (Authority to Advance) (see Note 1).

d. Achieved MA CPD Taskbook at date of advancement and recorded as JPA competence Medical|AB Medical Assistant Annual CPD Check|Navy|.

e. Completed MASM 1 course and recorded with JPA competence: Medical|Medical Assistant Submariner 1 Course (MASM1) (ME841N)|Navy|No.

f. Completed Basic Submarine Qualification and recorded with JPA competence: SM|Submarine Service|Navy|.

g. Completed MASM 1 task book and recorded with JPA competence: Medical|Medical Profession Submarine Training MASM1 Task Book|Navy| (see Note 2a).

h. At least 6 months since last Career Check (if any) at date of advancement.

i. The effective date for advancement to Acting LMA(SM) will be when all elements of 8702 (Annex 87B) have been achieved[1].

Advanced to
ACTING LEADING MEDICAL ASSISTANT (SUBMARINE)

[1] RNTM 01-032-24 Confirmation of Advancement Requirements for Medical Assistant (Submarines)

Leading Medical Assistant - Advancement Requirements

a. Passed Professional Qualifying Course (PQC) within 12 months of acting role (see Annex 87A Note 4).

b. Completed Leading Rates' Leadership Course (LRLC) and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' within 12 months of acting role.

c. At least 6 months since last Career Check (if any) at date of advancement.

e. Complete 12 months in the rate of Acting LMA(SM).

Advanced to
LEADING MEDICAL ASSISTANT (SUBMARINE)

Petty Officer Medical Assistant - Pre Selection Requirements

a. Minimum of 2 years' seniority as an LMA(SM) 12 months prior to the CPD. The 2 year minimum seniority as an LMA(SM) 12 months prior to CPD is reduced to 1 year for Branch Transfers from MA (General Service).

b. Recommended for promotion as an LMA SM on Appraisal Report at CRD (see Note 4).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after advancement to POMA.

d. Achieved LMA CPD Taskbook at CRD and recorded as JPA competence Medical|LH Medical Assistant Annual CPD Check|Navy (see Note 3).

Petty Officer Medical Assistant - Advancement Requirements

a. Passed Professional Qualifying Course (PQC) for Medical Profession Senior Rating (see Note 2b).

b. Completed Senior Rates' Leadership Course (SRLC) and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|' (see Note 2b).

c. Complete MASM 2 training course and recorded as JPA competence Medical|SM Medical Profession Ratings Advanced Course MASM2 (ND835)|Navy| (see Note 2c).

d. At least 6 months since last Career Check (if any) at date of advancement.

e. EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER MEDICAL ASSISTANT (SUBMARINE)

Further promotion beyond Petty Office Medical Assistant (Submarine) is in accordance with Chief Petty Officer Medical Assistant selection / promotion pathway at 8704 Annex 87A.

Notes:

1. Advancement to Acting LMA(SM) on Completion of MASM1 Training. *The effective date of advancement will be when all elements of 8202 have been achieved. The recommendation is an important part of this advancement and, before making recommendations to their CO, Line Managers are to satisfy themselves that MASM meets the necessary requirements in BRd 3(1) Chapters 68 and 69 and 87.*

2. Failures.

a. Ratings who fail to complete the MASM 1 task book within 12 months post MASM 1 course will have their cases reviewed in the first instance by the Head of Cadre prior to referral to the Medical Ratings Branch Manager to ensure that all opportunities have been taken to complete the task book. This part of their training at any stage will be assessed by their Commanding Officer and Healthcare and Medical Ratings Profession Manager SO1 to determine whether a further period of training should be undertaken or whether the rating should be discharged SHORE iaw Article 6901b and 6902.

b. The acting higher rate will be for a maximum of 12 months, after which time ratings will, exceptional reasons apart, relinquish the rate if they fail to attain the outstanding qualifications iaw 6802 and 6803.

c. Ratings who fail MASM 2 course outright or are removed from MASM 2 training will be deselected from the POMA(SM) selection signal and will see a requirement to spend a minimum of 12 months in the lower rate and the need to re-qualify, by way of a Commanding Officer's recommendation for subsequent consideration for selection for POMA(SM).

3. MA CPD Taskbook Refer to Para Annex 87A Note 9.

4. ***Recommendation.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

ANNEX 87C

MEDICAL TECHNICIAN SPECIALISATON (ENTRY AS STUDENT MEDICAL TECHNICIAN) – PROMOTION FLOWCHART

Entry: 17½ - 39 years of age (see Note 1).

STUDENT MEDICAL TECHNICIAN

a. Complete Phase 1 Initial Naval Training (INT).

b. Conduct Phase 2 professional course (see Note 2).

c. Graduate on completion of professional course.

Advanced to
MEDICAL TECHNICIAN

Leading Medical Technician - Advancement Criteria

a. Seniority as Medical Technician to be date of completing professional registration.

b. Obtained Full Registration with appropriate civilian professional body.

c. Provide documentary evidence of registration with civilian professional body; recorded under JPA competence Professional Healthcare Staff.

d. Recommended for advancement (Promotion Authority Request).

e. At least 6 months since last Career Check (if any) on advancement.

f. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

Advanced to
ACTING LEADING MEDICAL TECHNICIAN

a. Completed Leading Rates' Leadership Course (LRLC) and recorded on JPA within 12 months of Phase 2 Training (see Note 3)

b. At least 6 months since last Career Check (if any) on advancement.

SUBSEQUENT PROMOTION IAW PROMOTION FLOWCHARTS AT ANNEX 87C

Notes:

1. Internal recruitment of Medical Technicians

a. When volunteers are called for by the Healthcare and Medical Profession Manager, RN and QARNNS ratings may apply to be considered for any one of the following Medical Technician courses:

(1) Medical Technician (Radiographer).

(2) Medical Technician (Biomedical Scientist).

(3) Medical Technician (Operating Department Practitioner).

(4) Medical Technician (Pharmacy Technician).

(5) Medical Technician (Paramedic). STBC, under development[1].

b. Applications for workforce clearance should be made to the Navy Command HQ (Strategic Workforce Planning WO1) in accordance with current regulations. Workforce clearance, if approved, will be valid for two years. If clearance is approved, applications are to be forwarded to R&A SR MED PO, together with full Service Documents and documentary evidence of academic attainments held by the applicant. Inter-Service transfers, however, are to be processed through R&A, Room 202, Building 1/080, MP 73A, Jago Road, HM Naval Base, Portsmouth. PO1 3LU and applicants' units are advised to make preliminary enquiries of R&A regarding the possibility of release from the parent Service before applications are forwarded.

c. Applicants will be notified by R&A whether they are eligible to appear before a Selection Board. If ineligible, they will be made aware of any further educational qualifications required. In addition, they will be advised whether vacancies exist in their preferred specialisation and, if not, whether vacancies exist in any of the other specialisations.

d. Applicants will be eligible to appear before a Medical Technician Selection Board provided they fulfil the mandated academic requirements and also provide evidence of satisfying the following conditions:

(1) Evidence of Medical Category JMES MFD/P2 or another JMES that allows Sea Service and Land Operational Deployment. Applicants who are MLD will be considered in exceptional circumstances, advice will be taken from ROHC with Healthcare and Medical Profession Manager's decision being final.

(Continued)

[1] As at May 2026, the RN Paramedic Cadre is under development in conjunction with Unified Career Management.

Notes (Continued):

(2) Recommended for transfer on the candidate's latest SJAR.

(3) Evidence of in date workforce clearance to transfer from current branch/trade.

(4) Passed the Defence Aptitude Assessment.

(5) Provide Nurse Recruitment Assistant with a curriculum vitae, emailed to NAVY CNR-COHERENCE SR MED PO.

(6) Completed evidence of two weeks clinical experience obtained in a relevant Health Care setting with a recommendation to train in radiography/biomedical science/ODP.

(7) Provide copies of last three years' SJARs.

e. R&A, in consultation with the Healthcare and Medical Profession Manager, will convene Selection Boards as necessary and will inform Commanding Officers, copy to DDPD.

f. Subject to confirmation of availability by the Healthcare and Medical Profession/Career Manager, selected candidates will be assigned to the Margin for training.

g. The individual will remain in their current Profession/Specialisation and rate until completion of specialist training.

h. In a transfer where the rating is a Petty Officer, the new rate will be determined by the Healthcare and Medical Profession Manager on a case by case basis, dependent upon the Service requirement.

i. Seniority as Medical Technician will be the date of completing Phase I training.

j. All candidates must comply with the current ROS regulations and sign a Notice of Waiver of Right of Discharge in Consideration of Course of Training (Form S2658) in accordance with Para 5313.

3. Advancement of Students During Training. *Individuals will not be eligible for selection for promotion in their source specialisation whilst on course.*

(Continued)

Notes (Continued):

4. Transfer to Medical Technician

a. Ratings will be transferred to the Medical Technician structure when they have successfully completed professional training.

b. The effective date of transfer will be the date of completion of professional registration. The date of seniority will also be amended to this date.

c. Transfer will be to the rates shown below:

Present Rate	***Transfer To***
Able Rate	*Acting Leading Medical Technician*
Leading Hand	*Leading Medical Technician (See Para 6909 re LRLC)*
Petty Officer	*Leading Medical Technician*

1. *Requirements:*

a. ***Education****. Minimum educational qualifications required are 2 GCSEs Grade C or above, or equivalent, to include English Language.*

b. ***DBS****. Dental duties at all rates may require interaction with minors or vulnerable adults on a one-to-one basis. It has therefore been ruled that all personnel wishing to join the Dental Branch must have a valid DBS Enhanced Disclosure certificate before they can be confirmed as a dental rating (see Para 6050).Commanding Officers are to ensure that applicants for transfer to a Dental specialisation are made fully aware of this requirement before approving the application.*

2. *New entries undergo Phase 1* Initial Naval Training (INT) *followed by Phase 2 tri-Service training at Defence Medical Academy Lichfield.*

3. ***Recommendation.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

4. ***Failure to Complete or Leadership Course.*** *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

ANNEX 88B

DENTAL NURSE SPECIALISATION (DIRECT ENTRY QUALIFIED) – PROMOTION FLOWCHART

1. Dental Nurse Specialisation (Direct Entry Qualified) - Promotion Flowchart

DENTAL NURSE 2

a. Complete Phase 1 Initial Naval Training (INT).

b. Hold a Registerable Dental Nurse Qualification.

c. Provide documentary evidence of registration with the GDC; recorded on JPA as competency 'Educational|General Dental Council – Registration Certificate|Joint|'.

d. Recommended for advancement (Promotion Authority Request).

Advanced to
DENTAL NURSE 1

(Then as per Annex 88A Section Dental Nurse 1)

ANNEX 88C

DENTAL NURSE SPECIALISATION (BRANCH TRANSFER UNTRAINED) – PROMOTION FLOWCHART

1. Dental Nurse Specialisation (Branch Transfer Untrained) - Promotion Flowchart

a. Engagement required between donor and receiving BM to ascertain WF requirement and individual suitability (Education / JMES Deployability).

b. If accepted as a Branch Transfer, route as per Chapter 51.

c. Individual TACOS will be designed on a case by case basis as per BM requirements.

d. Promotion will be as per Annex 88A.

ANNEX 88D

DENTAL NURSE SPECIALISATION (SERVICE TRANSFER QUALIFIED) – PROMOTION FLOWCHART

1. Dental Nurse Specialisation (Service Transfer Qualified) - Promotion Flowchart

a. Entry upper age limit - 39 years of age.

b. Provide documentary evidence of passing the appropriate civilian professional course and evidence of registration with civilian professional body.

c. Individual TACOS will be designed on a case by case basis as per BM requirements.

d. Gain entry approval (see Note 1).

e. Entered for Initial Naval Training or waiver (see Note 1).

f. Promotion will be as per Annex 88A.

Notes:

1. *Requirements:*

a. Applications for Service transfers should be made by letter to R&A. Applicants' units are advised to make preliminary enquiries of R&A regarding the possibility of release from the parent Service before applications are forwarded.

b. Applicants will be notified by R&A whether they are eligible to appear before a Selection Board. In addition, they will be advised whether vacancies exist in their specialisation and it should be noted that vacancies are very limited and vary according to the requirement of the Service.

c. The Healthcare and Medical Profession Manager will seek approval through HMS RALEIGH Cdr Training to waive Phase 1 Initial Naval Training and instead the transferee will undertake the 5 day bespoke HMS RALEIGH Transferee Induction package.

d. All candidates must comply with the current ROS regulations and sign a Notice of Waiver of Right of Discharge in Consideration of Course of Training (Form S2658) in accordance with Para 5303 sub para c.

HEALTHCARE AND MEDICAL PROFESSION – QUEEN ALEXANDRA'S ROYAL NAVAL NURSING SERVICE

8901. Unified Career Management

a. Personnel joining after 1 Jan 24 will be subject to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

b. Personnel in-Service or undergoing Phase 1 or 2 training on 1 Jan 24 will remain on legacy TACOS as per Chapters 48 & 49.

c. Personnel promoted or who have received a change of engagement post 1 Jan 24 will transfer to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

d. Promotion zones for personnel on legacy TACOS will be modified to the most beneficial between harmonised UCM or legacy timings, e.g. personnel will enter promotion zone at the earlier of the two timings and exit the promotion zone at the latest of the two dates.

ANNEX 89A

NAVAL NURSE SPECIALISATION (IN SERVICE TRAINED) – PROMOTION FLOWCHART

Naval Nurse Specialisation (In Service Trained) - Promotion Flowchart

New Entry: 17 years 10 months - 39 years (see Note 1).

NAVAL NURSE (STUDENT) (4)

Naval Nurse - Advancement Criteria

a. Complete Initial Naval Training (INT)

b. Successfully complete Registered Nurse training and register with the Nursing and Midwifery Council (NMC).

c. Recommendation for advancement (see Note 2).

d. At least 6 months since last Career Check (if any) on advancement.

NAVAL NURSE

Acting Leading Naval Nurse - Advancement Criteria

a. Recommended for advancement (see Note 3).

b. Provide Commanding Officer or delegated authority with documentary evidence of registration with the NMC.

c. At least 6 months since last Career Check (if any) on advancement.

d. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

Advanced to
ACTING LEADING NAVAL NURSE

Leading Naval Nurse - Advancement Criteria

a. Completed Leading Rates' Leadership Course (LRLC) and recorded on JPA. within 12 months of Phase II Training (see Note 3)

b. Complete the Transition to Military Practice (TtMP) course (3) within 12 months of Phase II Training (see Note 3).

c. At least 6 months since last Career Check (if any) on advancement.

Advanced to
LEADING NAVAL NURSE

Petty Officer Naval Nurse - Pre-Selection Requirements

a. Minimum of 2 years' seniority as a LNN 12 months prior to the Common Promotion Date (CPD).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD) (see Note 5).

Petty Officer Naval Nurse - Pre-Promotion Requirements

d. Completed Senior Rates' Leadership Course (SRLC) and recorded on JPA competence (see Note 6).

e. Evidence of continuing registration with the NMC recorded on JPA.

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
PETTY OFFICER NAVAL NURSE

Chief Petty Officer Naval Nurse - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a PONN 12 months prior to the CPD (Para 6703 b sub para (2)).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

Chief Petty Officer Naval Nurse - Pre-Promotion Requirements

d. Evidence of continuing registration with the NMC recorded on JPA.

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER NAVAL NURSE

Warrant Officer 2 Naval Nurse - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a CPONN 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 2 Naval Nurse - Pre-Promotion Requirements

d. Evidence of continuing registration with the NMC recorded on JPA.

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

f. Complete the Warrant Officers Staff Course (WOSC).

Promoted to
WARRANT OFFICER 2 NAVAL NURSE

Warrant Officer 1 - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

b. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 - Pre-Promotion Requirements

c. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 NAVAL NURSE

Notes:

1. *Candidates must fulfil the following conditions to become eligible for entry:*

a. Be between 17 years 10 months and 39 years of age. Candidates must have achieved 18 years of age by the end of the calendar month in which the Common Foundation Programme course begins.

b. The following educational qualifications provide eligibility to be considered for QARNNS student nurse selection (BSc (Hons) Nursing). The degree only entry programme commenced in 2008.

c. 120 UCAS tariff points from a maximum of three A/A2 Level Passes (or equivalent) and must include a Science–based subject:

(1) A minimum of three GCSEs at Grade 4 or above (previously Grade C) which must include English Language, Mathematics and a Science.

(2) Other Level 2 and Level 3 qualifications may be acceptable but must be endorsed by SR MED in the first instance.

(3) Any qualifications achieved overseas are to be ratified and a Statement of Comparability to be obtained from the United Kingdom National Agency for the Recognition and Comparison of International Qualifications and Skills (UK NARIC).

d. Pass an Assessment Board by the Specialist Medical Recruitment Team. The Adult Nursing board takes place in February and the Mental Health Nursing board takes place in November.

2. Advancement to Naval Nurse. *Student Naval Nurses will be advanced to Naval Nurse on successful completion of Registered Nurse Training and eligibility for registration with the Nursing and Midwifery Council (NMC). The date of advancement to Naval Nurse will be that of successful completion of Naval Nurse Training.*

(Continued)

Notes (Continued):

3. Advancement to Acting Leading Naval Nurse and Leading Naval Nurse

a. The seniority date for LNN will be the date of registration with the NMC.

b. Should a rating, on completion of Phase II Training, not be recommended for Acting LNN, the Unit Commanding Officer icw CM/Head of Discipline has the authority to withhold the advancement and recommend that the rating be reviewed by the parent establishment not less than 3 months and not more than 6 months. The rate held during this assessment period will be that of Naval Nurse. If subsequently recommended for advancement to Acting LNN (in writing to the CM), the seniority date will be the actual date of recommendation. If not recommended, consideration should be given to Discharge SHORE.

c. To enable advancement action by CM, the end of pre-registration training reports (appraisal report) provided by the DSHE for Naval Nurses must include a recommendation for advancement to Acting LNN.

d. Upon receipt of notification from the RN Leadership Academy confirming successful completion of LRLC, Unit Admin staffs are to ensure that individuals meet the requirements for substantive advancement laid down at Para 8902 and arrange for the individual to submit a request for substantive advancement by the Commanding Officer. Upon granting of substantive promotion, Unit Admin staffs are to raise a Promotion Authority Request signal to DDPD, copy to the Ratings' Promotions Section, requesting JPA action to reflect the award of substantive advancement and adjustment of seniority date.

4. Student Entry

a. Naval Nurses (Student) follow a 3 year course of practical and theoretical instruction based on the current syllabus of General Training stipulated by the Nursing and Midwifery Council (NMC). Naval Nurses (Student) undertake training at Birmingham City University (BCU), administered by the Defence School of Healthcare Education (DSHE), which is embedded within BCU.

b. QARNNS Student Naval Nurses may be seconded to certain civilian hospitals or Joint Hospital Groups (JHGs) in order to obtain specialist experience.

c. Failure will result in specialisation/branch/Service transfer if available and approved, or Discharge Unsuitable During Training.

(Continued)

Notes (Continued):

5. Recommendation. *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

6. Failure to Complete Professional and/or Leadership Course. *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

ANNEX 89B

NAVAL NURSE SPECIALISATION (DIRECT ENTRY) – PROMOTION FLOWCHART

Naval Nurse Specialisation (Direct Entry) - Promotion Flowchart

New Entry: 20½ - 39 years (see Note 1).

NAVAL NURSE

Acting Leading Naval Nurse - Advancement Criteria

a. Provide documentary proof of Registration of the NMC Register (Registered Nurses trained in Adult Nursing or Mental Health Nursing).

b. Complete Initial Naval Training (INT) (see Notes 2/3/4).

c. Recommended for advancement (see Note 3).

d. Education For Promotion (EFP) qualified in accordance with Para 9615. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics recorded on JPA.

Advanced to
ACTING LEADING NAVAL NURSE

a. Attend Transition to Military Practice (TtMP) Course within 12 months of Phase I Training (see Note 2).

b. Completed Leading Rates' Leadership Course (LRLC) within 12 months of Phase I Training; recorded on JPA.

c. At least 6 months since last Career Check (if any) on advancement.

Advanced to
LEADING NAVAL NURSE

(Further promotion will be as per Annex 89A)

Notes:

1. *Candidates for Direct Entry as fully qualified and Registered Nurses must fulfil the following conditions:*

a. Be aged between 20½ and 39 years.

b. Provide documentary proof of Registration of the NMC Register (Registered Nurses trained in, Adult Nursing or Mental Health Nursing).

c. Pass a Professional Interview Board.

2. *Candidates accepted for entry will join* Initial Naval Training (INT) *in the rate of Naval Nurse:*

a. All entrants will undergo Initial Naval Training (INT).

b. All entrants will attend a Transition to Military Practice course (TtMP).

3. *On successful completion of Phase 1 Training and, if recommended for advancement, direct entrants will be advanced to Acting Leading Naval Nurse. On successful completion of TtMP and LRLC, if recommended for advancement, entrants will be confirmed Leading Naval Nurse. Further advancement will be in accordance with the regulations for Naval Nurses laid down at Para 8902. The seniority date for Direct Entry qualified LNN will be from the date of enlistment in the RN.*

4. *If not recommended for advancement or for failure of LRLC, action should be taken in accordance with Para 6714.*

ANNEX 89C

NAVAL NURSE SPECIALISATION – SIDEWAYS ENTRY/TRANSFER FROM OTHER SERVICE

Naval Nurse Specialisation - Sideways Entry/Transfer from Other Service

a. Ratings of confirmed Petty Officer (PO) rate and below may apply at any time to be considered for Naval Nurse training.

b. Applications for workforce clearance should be made to the Navy Command HQ (NAVY PEOPLE-TRG-HQ-N5 SWP WO1 in accordance with current regulations. Workforce clearance, if approved, will be valid for 2 years. If workforce clearance is approved, applications are to be forwarded to NAVY RA-SAT MED PO Inter-Service transfers are processed through Recruit & Attract (R&A), Room 202, Building 1/080, MP 73A, Jago Road, HM Naval Base, Portsmouth, PO1 3LU and applicants' units are advised to make enquiries of R&A regarding the possibility of release from the parent Service.

c. Applicants will be eligible to appear before a Naval Nurse Selection Board provided they fulfil the following conditions:

(1) Be at least an NATO Rank OR2 but not more than a confirmed OR6.

(2) Hold 120 UCAS tariff points from a maximum of three A/A2 Level Passes (or equivalent) which must include a Science-based subject.

(3) Evidence of Medical Category (JMES) MFD or another JMES that allows Sea Service and Land Operational Deployment. Exceptionally, those in MLD category may be approved, RHOC advice will be taken with NAVY PEOPLE-WFPT MED SO1 holding the overall approval.

(4) Recommended for transfer on the candidate's latest SJAR.

(5) Evidence of in date workforce clearance to transfer from current branch/trade.

(6) Passed the Defence Aptitude Assessment.

(7) Provide curriculum vitae, emailed to NAVY RA-SAT MED PO.

(8) Gain a recommendation to train in health care from current CoC.

(9) Have completed a minimum of 2 weeks clinical exposure obtained in a relevant adult Health Care setting.

(10) Provide copies of SJARs for the last 3 years.

(11) Evidence of Service Leadership course.

d. R&A will convene all Selection Boards when necessary, and will inform Commanding Officers, copy to RCMNAHP.

e. Selected candidates will, subject to confirmation of availability by Ratings Career Manager (R&A for Inter-Service transfers), be assigned to the Defence School of Health Care Education (DSHE) for course. The rate at which Inter-Service personnel transfer, and the limitations on advancement during training, where applicable, will be confirmed by R&A after consultation with the Healthcare and Medical Profession Manager.

f. All candidates must comply with the current Return of Service regulations and sign a Waiver of Notice of Discharge as of Right in Consideration of a Course of Training (Form S2658) in accordance with Para 5305.

g. Failure to meet the standards required will result in discontinuation of training and either return to their original Service/branch/specialisation or Discharge Unsuitable During Training.

h. Ratings returned to their original Service/branch/specialisation who subsequently qualify at their own expense in the civilian examination and obtain registration with the NMC, may apply through their Commanding Officer for transfer to the Naval Nurse structure. If recommended the rating may, subject to approval by the Medical Branch Manager (R&A for inter-Service transfers), transfer from the date of the rating's registration with the NMC.

i. **Promotion in Source Specialisation whilst undergoing Naval Nurse Training.** See Para 6704. LHs will not be eligible for selection for promotion to Petty Officer whilst undergoing Naval Nurse training.

j. Ratings will be transferred to the QARNNS Naval Nurse structure subject to the following conditions:

(1) They have successfully completed Naval Nurse training and registered with the NMC (effective date of transfer will be date of successful completion of the course).

(2) Are recommended.

(3) Have minimum of 6 months since last Career Check (if any).

k. Ratings will transfer to the Naval Nurse structure as shown below:

Present Rate	Transfer To
Able Rating	A/LNN (see Para 6909 re LRLC)
Leading Hand	Leading Naval Nurse (see Para 6909 re LRLC)
Petty Officer	Petty Officer

l. Further promotion within the Naval Nurse structure for sideways entry is in accordance with Annex 89A.

CHAPTER 90

ROYAL NAVY SPECIAL FORCES PROFESSION

SECTION ONE

GENERAL

Notes:

1. Chapter 90 relates to the RNSF Profession which was established in 2020. The RNSF policy within is drawn from extant policy due to its legacy of being an RM Specialisation. Work to reflect RNSF across BRd 3(1) is in progress, as such there may be some duplication which will be addressed in future reviews.

2. Any questions or queries are to be forwarded via email to the NCHQ Desk Officer: NAVY PEOPLE-CM RNSF SO1.

9001. Introduction

a. This Chapter covers the career regulations for Royal Navy Special Forces (RNSF) Profession which includes the SBS and RNSFC Disciplines. Specifically, the career management of RNSF ORs and Late Entry Officers (LE).

b. RNSF are the Navy's contribution to UKSF, a Tri-Service organisation that is primarily managed through a Joint Force HQ commanded by Commander UKSF.

c. Where feasible RNSF policy will align with UKSF Tri-Service Terms and Conditions of Service (TACOS) managed through HQ MAB. This Chapter relates specifically to the sS requirements of RNSF.

SECTION TWO

CAREER STRUCTURES

9002. Entry into RNSF

Entry into RNSF is through lateral transfer only. The selection pathways are managed by Special Forces Training Command on behalf of Commander UKSF which is covered in detail through other Defence publications. Entry may be achieved in one of the following ways:

a. Op ELECTUS for entry into SBS/22SAS

b. Op NEPHITE for entry into 18 Signals Regiment

c. Op COEUS for entry into SRR

9003. Assignment to UKSF

RN/RM candidates are assigned to Special Forces Training Command (SFTC) only from the post-aptitude phase of Selection.[1] Should an RN/RM candidate withdraw or Removed From Course (RFC) from Selection during the aptitude phase then their Assignment Order to SFTC is to be cancelled. In most cases, ranks will be returned to their parent Unit unless directed otherwise.

9004. Return of Service

For ratings and other ranks, a Return of Service (ROS) is required to consolidate an individual's training and give a reasonable return on the investment made by the UKSF. Having completed six months' selection pathway and been successful, ratings and other ranks become eligible to apply for Early Termination 2 years after they have joined the Trained Strength.

9005. Sideways Transfer

RNSF will consider and accept other nations forces for transfer on a case-by-case basis to meet the needs of the Service. All transfer activity will be conducted by the MAB profession team and the relevant Recruit and Attraction Headquarters.

a. Request received from the individual.

b. Endorsement and approvals requested (AFCO 101).

c. Medical department issue medical questionnaire. Service details are sent to SYVETT (DV transfer if applicable).

d. MAB HQ informed - Disclosure Cell informed.

e. Letter of Offer issues to SP post approvals process completion.

f. Transfer to the RN letter of Offer accepted and returned.

[1] From the start of the course until completion of the aptitude phase, candidates are to be 'Move and Tracked' only, not assigned by their parent unit. This is due to the probability of being unsuccessful during this phase of selection.

9006. Reversion in Rank and Mark Time Rate of Pay

An NCO who is accepted for transfer to RNSF will be reverted to OR2 to ensure the Profession structure can be sustained. On transfer, where pay is less than their former rate of pay due to a reversion in rank, individuals will be provided a Mark Time Rate of Pay (MTRP). These SP will remain on MTRP until pensionable salary equals (or is greater than) the previous salary[2].

9007. RNSF Probation

On passing Selection[3] into UK Special Forces, All ORs[4] transfer into RNSF. From badging they will be on Probation for 24 months. The purpose of probation is to allow RNSF Head of Discipline to make an objective assessment of the individual's ability and suitability to remain within the organisation. The process consists of:

a. Assignment Order.

b. JPA main trade competencies being added.

c. SF Recruitment and Retention pay (RRP) applied.

d. Probation competency record on JPA for the period commencing.

e. Added to the protected community.

9008. Options During Probation

If SP on probation do not meet the required RNSF standards during probation, the RNSF Profession Manager may consider the following:

a. **Probation extension**. With concurrence from the respective Head of Discipline the probation period can be extended with six monthly reviews for individuals where standards have not been met, serious injury or absence has occurred or doubt still exists over suitability.

b. **RTU**. Individuals may be returned to their Single Service parent unit or offered a Service Contract on authority of the respective Head of Discipline at any time during the probation period if work ethic, behaviour or performance does not meet the standards expected of RNSF personnel.

9009. Permanent Cadre

After successful probation, RNSF individuals will achieve Permanent Cadre (PC) status. This provides RNSF personnel a greater degree of career security and simplifies administration. To be eligible for PC, the individual needs to:

a. Have met all training and professional requirements.

b. Have a clean disciplinary record during probation.

c. Be medically fit to deploy (MFD).

[2] This does not apply to Foreign Nationals on lateral entry.
[3] Via Op ELECTUS or Op NEPHITE.
[4] RNSF consists of MAB6 and RN MAB1 individuals.

On successful transfer to Permanent Cadre, the individual's probation competency is to be end-dated and their record correctly updated with a valid PC competency recorded on JPA. The proforma for submission is at Annex 90A.

9010. Re-Entry into RNSF

The administration for the re-entry of ratings and other ranks is undertaken by Head Recruit & Attraction (Hd R&A).

a. Rs wishing to re-enter RNSF should contact R&A/Armed Forces Recruiting Offices[5]. Rank, seniority, and training requirements will be determined by the RNSF Branch Manager in association with R&A, this will primarily be based on the currency of Knowledge, Skills, Experience from previous service. For those wishing to re-enter RNSF, previous reckonable service will count for length of service purposes, irrespective of the duration of any break in service.

b. Candidates seeking re-entry whilst serving on a Full Time Reserve Service (FTRS) engagement should be aware that periods of FTRS cannot be added to periods of regular service, including former regular service, for the purposes of counting time towards service on a normal commission. Neither does FTRS count towards the determination of entitlement for terminal benefits[6]. Any offer of service will be made in close consultation with the Terms of Service Team and the re-entry process will be administered by R&A as detailed in Chapter 12.

[5] See BRd 3(1) Ch 12 for detailed instructions.
[6] JSP 754 Ch 2 Para 1104.

SECTION THREE

PROMOTIONS AND APPOINTMENT BOARDS

9011. OR Promotion Requirements

To be eligible for promotion (at CPD), candidates must be in date for NCT1 and have met the qualifying education criteria/courses required for each rank.

a. **Promotion to OR3 (Lance Corporal)**. Heads of Disciplines are authorised to promote OR2 to the rank of Acting (Paid) OR3 on successful completion of probation. The only exception will be for RNSFCs who will promote to OR3 on successful completion of their respective selection pathway (NEPHITE Badging Day).

b. **Promotion beyond OR3**. Promotion beyond OR3 is based-on merit and seniority, subject to Service requirements. The Common Reporting Period for every OR is 1 December to 30 November with a CPD 12 months after.

9012. OR Substantive Promotion

RN Proms must be satisfied that the individual to be administratively promoted can perform the full duties of the next rank. Therefore, the RNSF individual should meet the following criteria:

a. The individual must be eligible for promotion prior to CPD.

b. The individual should have been recommended for promotion 1 Rank Up with EXCP, HIGH or YES on their latest SJAR.

c. For promotion to OR4 and OR6 all individuals must have successfully passed the respective RNSF Career, Leadership and Management training. Any command courses conducted by individuals in their previous employment outside of RNSF do not qualify for promotion within RNSF. Promotion to OR8 and OR9 requires RNSF individuals to successfully conduct the MAB 12 delivered Joint Warrant Officers' Course.

9013. Promotion Process

All promotions are subject to Service requirements. The RNSF OR promotion cycle consists of 3 stages[7]:

a. **Grading Conference (GC).** Two GCs[8] will be conducted annually. Head of Discipline will chair these, with governance support provided from RNSF Profession Manager and RN PROMS. All 1ROs and 2ROs are required to attend. The purpose of the GC is to place all eligible candidates into an order of merit. Further guidance can be found in the RNSF Staff Reporting Directive.

b. **Internal Review Board (IRB).** The IRB consists of 3 Board members (OF3 and above) with the aim of ratifying the appraisal reports.

[7] Prior to the process commencing the RNSF BM WOs conduct an administrative alignment board.
[8] RNSF MAB6 and RNSFC.

c. **Final Selection Board (FSB)**. The FSB consists of 3 Board members (OF3 and above). On completion of the FSB the Maximum Authorised Number (MAuN) will be applied to confirm the candidates who are to be selected for promotion.

9014. Promotional Reserves

Those who sit outside of the MAuN but still meet RNSF requirements will remain as promotional reserves. Service requirements will dictate the selection of reserves, as authorised by RNSF PM.

9015. De-Selection for Promotion prior to CPD

There are few instances where individuals may be de-selected for promotion prior to CPD. Whilst rare, these occasions may include:

a. **Permanent Medical Downgrade (PMD).** PMD is regarded when an individual has been graded below the medical standards required for RNSF service. Individuals in a PMD category will have had their capabilities specifically defined by the Royal Naval Medical Board of Survey (RNMBOS)/Royal Navy Medical Employability Board (RNMEB) and may be exempt from the RMFT and have other restrictions placed upon them. However, the individual may be promoted in line with the regulations set out in BR1750.

b. **Does Not Want Promotion (DNWP) or receives a DEV/NO SJAR.** When an individual DNWP or has been awarded a DEV SJAR 1 Rank Up prior to CPD, they will have their promotion selection rescinded and will automatically be deselected. It is unlikely that the deselected rank will be considered for promotion at the next annual FSB following promotion refusal[9]. Ranks will be presented to FSBs thereafter providing they continue to meet the eligibility criteria.

c. **Early Termination.** Any rank selected for promotion who requests Early Termination prior to CPD will be deselected for promotion.

Ranks who have requested Early Termination will be considered for promotion at the FSB but will not be selected for promotion. Ranks may, on Withdrawal of Early Termination (WoET), be subsequently selected pending authorisation by the RNSF BM.

9016. Erroneous Promotion

If a promotion is subsequently found to be erroneous the promotion will be rescinded from the date that it was authorised.

9017. OR Acting Higher Rank (AHR)

The administrative promotion to Acting or LAHR of RNSF NCOs and Mnes to one rank above their substantive rank may be appropriate in the following circumstances:

a. Where a shortage of individuals, in a particular rank, leads to a vacancy in that rank against the complement of MAB6 or RNSFC, which is not expected to be filled for at least 21 days.

[9] RNSF BM may allow exceptions in line with Service requirements.

b. Where an NCO is absent for reasons of sickness, compassionate leave, or service requirements (excluding Command course or margin action), where the vacancy is not expected to be filled within 21 days.

9018. OR Acting Higher Rank (AHR) process

a. Acting and Local Acting Higher Rank (LAHR) can be requested by RNSF PM and authorised by RN Proms. Acting or LAHR may be refused, or withdrawn, if RNSF workforce ceilings are likely to be exceeded. In all cases, substantive promotion takes precedence over Acting or LAHR. Any such decision must mitigate the duty of care implications of employing an Other Rank in the next higher rank who has not completed all prerequisite training, both on behalf of the individual and those whom they will lead.

b. Relinquishment or reversion from Acting or Local Acting rank has no consequential effect on the individual's consideration for substantive promotion by the FSB, other than those instances where reversion is for poor performance.

(1) **Acting Higher Rank.** Acting Higher Rank may only be awarded to those RNSF ranks who have a positive recommendation for employment in the next higher rank which must be reflected in reporting. A review of the Acting promotion must be reviewed by the RNSF BM at CPD.

(2) **Local Acting Higher Rank.** LAHR may be awarded to Mnes, Cpls, Sgts or CSgts who have not been selected for promotion and are identified in UKSF as capable of filling a gap at the next higher rank. The individual must have a positive recommendation for promotion in their reporting to support the LAHR. A review of Local Acting promotion must be reviewed by the RNSF BM twelve-months post award.

9019. AHR/LAHR Eligibility

Commanding Officers must be satisfied that the individual to be administratively promoted is capable of performing the full duties of AHR and is the most suitable person within the Unit and can satisfy the following criteria:

a. The individual should have a positive recommendation for promotion on their latest SJAR.

b. An individual must not have failed a Command course within the last 12 months.

c. In the case of promotion to Acting WO1 an individual must have already been selected for promotion to WO1 at the RNSF FSB.

d. The award of the Acting rank should be reviewed 12 months post award to ensure that the rank is performing at an acceptable standard in the position. If the latter does not apply or the rank has failed to successfully complete the respective Command Course, they should be reverted to their substantive rank. Consideration may be given to awarding the acting rank to another, more suitable rank, should this occur.

9020. Circumstances for Reversion

A rank holding Acting or LAHR is to be reverted to their substantive rank[10] when the vacancy which resulted in their administrative promotion ceases to exist. Consideration should also be given to reversion from Acting or LAHR rank when an individual:

a. Fails to achieve a positive recommendation for promotion 1 Rank Up in their SJAR.

b. Declines or fails a Command and/or Career course deemed a prerequisite for role unless exceptions are authorised by the RNSF BM.

9021. Promotion to Local (Unpaid) Acting Higher Rank

LAHR can be Authorised by the RN Proms. Promotion to LAHR, which carries no entitlement to pay, allowances or pension rights, may be awarded in the following circumstances:

a. Where it is desired to temporarily exceed the authorised complement for such purposes as special operations and training.

b. Where it is necessary for attendance on courses or duties with other Services.

c. Where, subject to workforce constraints, it is necessary for prestige purposes, or to enable an NCO/WO to carry out their duties more effectively.

d. The individual must not have failed a Command course within the last 12 months.

e. The award of LAHR must be reviewed by RNSF BM every twelve months post promotion. Any rank awarded Local rank may be entitled to SUPA in accordance with JSP754.

9022. Disciplinary Procedure

BRd 3(1) Chapter 70 details the discipline procedure relating to AHR and LAHR.

9023. RSM Board

RNSF are responsible for the conduct of the RSM[11] appointment process. Adj MAB6 will act as board secretary and provide administrative requirements. Board members will include:

a. CO MAB6.

b. Designated CO MAB6 (where available).

c. RNSF Profession Manager.

d. An externally employed RNSF Board Member.

[10] RNSF ORs will remain minimum of OR3.
[11] For the RNSFC Branch the board is conducted iaw MAB1 policy.

e. An HQ MAB Board Member.

Selected RSMs must have attended the JWOC prior to substantive promotion and before taking appointment.

SECTION FOUR

COMMISSIONS

9024. Commissioning and Late Entry Officer Promotion

Independent management of commissioning Officers from the ranks allows RNSF to effectively identify ORs to be selected for commission and adequately train those Officers to meet RNSF Work Force requirements.

9025. Commissioning Schemes

For eligible ranks there are two commissioning schemes that have discrete purposes with differing Terms and Conditions of Service (TACOS):

a. Warrant Officer Class 1 Commissioning Scheme (WO1CS) - awarded an Initial Commission Stage (ICS) of 6 years.

b. RNSF Late Entry (LE) Commissioning Scheme - ICS of 12 years or to the day before fifty-fifth birthday, whichever is soonest.

9026. Commission Transfers

For LE Officers opportunities to transfer to Career Commission Stage (CCS) and/or a Full Commission Stage (FCS) are dependent on eligibility and reporting recommendations. Specific information on commission transfers can be found at BRd 3(1) Chapter 49.

9027. Warrant Officer 1 Commissioning Scheme (WO1CS)

a. The WO1CS offers bespoke Officer selection, training and in-Profession Service employment opportunities and will provide RNSF OR9s with a continued career with a limited contract. It recognises and utilises the considerable KSE-B accrued in an OR career.

b. The promotion of individuals through this process remains specific to the Profession and Discipline of the candidate and employment will be determined through the RNSF PM. It follows, therefore, that prospective WO1CS candidates should discuss the specific range of Officer appointments that will be available in the forthcoming annual cycle with the RNSF PM before commissioning.

9028. WO1CS Board

RN Promotions will convene a RNSF WOCS Board annually which will consider applicants and select the requirement based on the MAuN provided by the RNSF BM. The WO1CS Board will use the candidates' promotion dossier to determine an order of merit for the candidates.

9029. WO1CS Training Pathway

Successful candidates at the WO1CS Board will be allocated to the WO Commissioning Programme (WOCP) at BRNC Dartmouth. RNSF BM will align entry dates with LE Officer appointments or additional training (if applicable). The WOCP is delivered separately to the LE course which is conducted at CTCRM.

9030. Eligibility for WO1CS

Candidates for the RNSF WOCS must fulfil all the minimum criteria below:

a. Be aged 54 years or younger on commencing the BRNC WOCP. Branch Managers may grant age waivers through Branch Recording Authorities where the relevant extension has been awarded.

b. Be a substantive WO1.

c. Have a positive recommendation for the scheme on their latest SJAR. No spec report is required for this scheme.

d. Be Medically Fit for promotion.

e. Carry a recommendation from CO MAB6.

9031. Generic Terms and Conditions of Service

The generic Terms and Conditions of Service (TACOS) for the WO1CS have been developed to reflect the additional experience and skills gained through longer service up to and including time in rank of WO1. The key features of the TACOS include:

a. Promotion to Capt (plus one-year's seniority) on commencing the WOCP.

b. Commencing on Initial Commission Stage with six years' Officer service (ICS6).

c. Commissioned WO1s will become eligible for promotion to Maj in line with extant policy[12].

d. AHR appointments for WO1CS Officers are made in accordance with BRd 3(1) Chapter 66 Section 4.

e. WOCS Officers will enter the zone for Commission transfer on completion of 3 years Officer service. They will exit at Termination minus 1 year as detailed in BRd 3(1) Para 4912.

9032. MAB Command Sergeant Major

The MAB Command Sergeant Major appointment is awarded in a manner that warrants commissioning. This recognises the seniority of the individual that fulfils the role and the responsibilities that are fulfilled This compares to the RSM role as below

WO1 CS		
Appointment	**Rank on appointment**	**Promotion to Captain**
MAB 1/6/12 RSM	WO1	Post appointment
MAB Comd SM	Captain with 1 year of seniority	N/A

[12] BRd 3(1) Ch 66 – Officers' Promotions.

9033. RNSF LE Commissioning

RNSF ranks will be considered for RNSF Late Entry commissioning on recommendation by respective COs. To be considered for RNSF LE, candidates must be a minimum substantive CSgt with a positive recommend for 1Up promotion. Exceptions can be authorised by RNSF PM where workforce demands necessitate.

9034. Educational Qualification

The minimum general educational qualification required for RNSF LE candidacy is four GCSEs at Grade C, or equivalent, which must include English Language and Mathematics.

9035. RNSF LE Selection Process

RNSF are responsible for the conduct of the RNSF LE selection process. Adj MAB6 will act as board secretary and assist with administrative requirements. The process includes:

a. **RNSF Commissioning Board**. A successful pass on this board does not automatically entitle the candidate to be commissioned. This will be according to service requirements.[13] Any rank successful but not selected will need to reapply for the board the following year. Board members:

(1) OF5 Board Chair.

(2) Respective Head of Discipline (MAB6/1)

(3) 2 external members (RNSF BM and a RM OF3.

b. The Final Selection Board (FSB) where the MAuN figure is applied.

c. Successful completion of the Senior Corps Commission Course.

9036. Term of Commission

RNSF LE candidates will be offered an initial commission of 12 years or until the age of 55, whichever is soonest. Transition to Career Commission Stage 60 (CCS60) is available in line with a Service Requirement.

9037. Seniority Levels

Seniority levels and promotion timescales on commissioning through the RNSF LE scheme are as follows:

Rank Prior to Commissioning	RNSF LE Commissioning Rank on entry	Promotion to Capt
WO2 or below	Lieutenant with 6 months' seniority and on promotion to Captain awarded an additional year of seniority	24 months from commissioning
WO1	Lieutenant with 18 months' seniority and on promotion to Captain awarded an additional year of seniority	12 months from commissioning.
Command RSM	Capt with 3 years seniority	N/A

[13] If the SF LE Maximum Authorised Number (MAuN) does not allow the applicant to be commissioned, the pass will expire and the applicant will need to re-apply on a further commissioning board to compete against current RNSF peers.

9038. Officer Promotion

a. **Eligibility.** Detailed prerequisites for Officer promotion is in Chapter 66.

b. **Acting Higher Rank (AHR) - Officers selected for promotion.** There is no requirement to seek approval of an AHR where an individual has already been selected at the preceding Promotion Board and is assigned to a role in the new higher rank prior to CPD.

c. **AHR - Officers not selected for promotion.** AHR requests must be approved via RN Strategic Workforce Planners to assess impact on Promotion MAuNs and compliance with policy. A positive recommendation for employment in next higher rank is essential.

9039. Eligibility to Promote OF3 and OF4

RNSF LE Officer promotion is Zoned as per Chapter 66 (Annex 66B) with the below exceptions that recognise the seniority RNSF Officers who are reverted in rank post selection:

a. OF2 to OF3:

(1) Reference point for zone calculation is 01 Oct of the year of the Board.

(2) Promotion zone entry point for all - 3 years' seniority at OF2.

(3) Promotion zone exit point for all - TX date minus 1 year.

b. OF3 to OF4:

(1) Reference point for zone calculation: 30 Jun of the year after the Board.

(2) Promotion zone entry point for all – 3 years' seniority at Major.

(3) Promotion zone exit point for all – TX date minus 1 year.

9040. Officer Career Development (OCD)

SF LE Officers are not required to conduct RN Officer Career Development (OCD)[14] prior to promotion. With the PM's permission, and where availability allows, RNSF LE Officers can attend ICSC(M) or ICSC(L) which will increase the opportunity to board and apply for positions that have Staff College training as a prerequisite. Attendance may be considered by those aspiring broader employment.

[14] Consisting of a second Military Analysis (MA)(B) course or a Naval Analysis Course (NAC), an Amphibious Warfare course (AWC), and the Walcheren Essay.

SECTION FIVE

CAREER EXTENSION

9041. Service Extensions

Where a service requirement exists there are a number of options are available for both ORs and OFs for extending in service.

9042. OR Longer Engagements

Ranks enlist in the Armed Forces on a 12-year Engagement Stage 1 (ES1). Beyond that, extensions are as follows:

a. **Transfer to Engagement Stage 2 (ES2).** A transfer to Engagement Stage 2 (ES2) is awarded automatically on badging, where required. An ES2 extends a career to 20 years' length of service or 40th birthday, whichever is later.

b. **Extensions to Engagement Stage 3 (ES3).** ES3 is awarded by selection to meet the RNSF requirements. Options to transfer to an ES3 will be managed by the RNSF PM according to workforce requirements.

9043. Eligibility

All RNSF ORs may be considered for an ES3, provided they:

a. Are serving in the last 4 years of current contract. This includes those ORs who have submitted Early Termination and who would have been serving in their last 4 years of regular engagement.

b. Are volunteers and are recommended for further service on their latest SJAR.

9044. ES3 Requirement

The Strategic Workforce Planner, in conjunction with RNSF PM, will formally set the requirement for the number of ES3 per rank and Discipline.

9045. Selection for ES3

Selection is based primarily on workforce demands. Reserve may also be selected at the same time as the main selection.

9046. ES3 Non-Select

Those serving on an ES2 who are not selected for transfer to ES3 may continue to serve past the 20 year or date of 40th birthday on an Extension of Service (EOS) to meet workforce requirements. Candidates will continue to be eligible for selection to ES3 from EOS.

9047. Offer and Acceptance

Selected ranks will be provisionally offered an ES3 by signal, specifying the new engagement expiry date; a date which is non-negotiable. Having accepted an offer of ES3 the new Termination Date will be reflected in JPA.

9048. Promotion Eligibility

Individuals serving on an ES3 will be eligible for promotion whereas those serving on an EOS will not.

9049. Extensions of Service (EOS)

EOS may be awarded where the RNSF BM considers it necessary to meet workforce requirements. There are 2 types of EOS currently available:

a. **RNSF PM EOS.** An extension of up to 6 months of an individual's contract expiry date can be awarded by the RNSF PM to meet workforce requirements. Any EOS which results in a cumulative total of over six months will be treated as 'Full EOS'.

b. **Full EOS**. Typically, this is an extension of between 6 months and 2½ years and requires staffing. Consideration of the long-term liability against the forecast strength must be made. In exceptional circumstances, an EOS of up to 5 years may be awarded by the RNSF BM.

9050. Eligibility for EOS

Individuals will be eligible for EOS under the following conditions:

a. Applicants must be certified as medically fit for service.[15]

b. Applicants should not have applied for Early Termination.

c. Applicants should be able to complete their EOS by the age of 55.[16]

d. Extensions to an ICS must not take officers beyond a maximum of 14 years' service under any circumstances. Similarly, the normal maximum extension which may be granted to officers serving on a CCS (or equivalent commission) is 5 years.

9051. EOS beyond Age 60

Extensions beyond age 60 may be granted by exception for certain specialisations by RN P&T Hd BM.

9052. Timing of Application

The timing of an EOS application is generally from 4 years, to 1 year before the individual's current Engagement Expiry Date (EED). At this stage, it will usually be possible for the RNSF PM to predict shortages, which may generate a requirement for an EOS.

[15] Applications from individuals in restricted medical categories may be considered in exceptional circumstances.
[16] See BRd 3(1) Ch 49 Para 4928 sub para a, for service beyond age 55 in exceptional circumstances.

SECTION SIX

CAREER TERMINATIONS

9053. Termination of Service

Termination of Service may be through expiry of existing contract or following the submission of a Notice to Terminate. Terminal benefits are detailed in JSP 534.

9054. Valedictory Certificate Process for RNSF

The Valedictory process is to ensure that RNSF personnel receive the appropriate recognition before they leave the Service; this can be found at Annex 90B and its associated Appendix.

ANNEX 90A

PERMANENT CADRE PROFORMA

PERMANENT CADRE PROFORMA (FORMS)

ANNEX 90B

VALEDICTORY PROCESS

1. Eligibility

All personnel within RNSF who complete a minimum of 5 years by their final day of service will receive a form of valediction on retirement. A tiered system reflected in the table below shows the relevant signatory level in relation to the years of service.

Valedictory Certificate	Years of Service	Signatory Level
Standard	5 to under 15 years	Commanding Officer
Bronze	15 to under 25 years	DSF
Silver	25 to under 35 years	2SL
Gold	35 years and above	1SL

2. Non-Eligible Personnel

a. Personnel with less than 5 years' service.

b. Personnel required to leave the Service for disciplinary reasons.

c. In the case of those required to leave for administrative reasons, a decision or recommendation will be made on a case-by-case basis at the discretion of their respective Commanding Officer.

3. Administration

RNSF Profession Administrator is to run a JPA Termination Forecast report as a part of monthly checks in consultation with Unit Adjutants. Those who are eligible for a Standard Valedictory Certificate will have their certificate produced within unit and then signed by the Commanding Officer. The RNSF PM will be responsible for checking and processing individuals who are entitled to a Bronze, Silver, or Gold Valedictory Certificate.

4. Timing

To permit timely staffing, Valedictory Certificates should be prepared no less than six months before the individual is due to leave service. It is essential that Release dates and the reason for leaving are correctly administered onto JPA by the RNSF PM.

5. Full-Time Reserve Service (FTRS)

The principle behind the Valedictory Certificate is to acknowledge Service. RNSF on FTRS contracts will continue to accrue service towards their Valedictory Certificate. Those who seamlessly transfer to FTRS will not receive a Valedictory Certificate when leaving the Regular Service. Those who have a gap in service will continue to accumulate service but may end up with two Valedictory Certificates. These cases will be considered by the RNSF BM.

6. Presentation

Once signed, the Bronze, Silver and Gold Certificates must be despatched to the respective Unit for presentation by the Commanding Officer. All Valedictory Certificates should be presented at an appropriate ceremony, consideration should be given to:

a. The rank/grade of the presenting officer.

b. The use of other formal occasions in which presentations can be made (passing out parades, formal dinners, conferences, clear lower decks, etc).

c. The involvement of family members.

All Valedictory Certificates are to be printed in colour, on quality card.

APPENDIX 1 TO ANNEX 90B

VALEDICTION CERTIFICATE AND CITATION PROFORMA

The Admiralty Board

CERTIFICATE OF VALEDICTION

<<Rank>> <<Name>> - <<Service Number>>

I am charged by the Admiralty Board with conferring to you the gratitude of the Service on the occasion of your release from the Royal Naval Special Forces on the DATE.

You have discharged your responsibilities faithfully over the last XX years and your service to your Sovereign and the Nation is of the highest calling. You have played your part in the safeguarding of the United Kingdom, the Commonwealth and our other allies, providing for the security of those who pass on land and the seas; an integral part of our Nations' Special Forces overarching mission to act as a force for stability and peace around the world.

Having embodied the finest traditions of the Service, you can be immensely proud of your career in Royal Naval Special Forces. I trust that you and your family, without whose support this would not have been possible, will always consider yourselves to be part of the Special Forces family.

ROYAL NAVY

RANK NAME
Commanding Officer

1. Citation Proforma

Service Number	
Rank and Full Name (including any middle initials)	
Final day of Service	
Total Length of Service in full years	
Citation of no more than 400 characters (Not 400 words) **See Notes below**	
Current Unit Address and Commanding Officer or Line Managers name	

Notes:

1. Line Managers are requested to read the pre-loaded text on the Gold Certificate, as displayed below, to avoid duplication of words or phrases. The citation is to be written in the same style as the pre-loaded text.

2. Look to highlight State Honours and Awards, for example MSM, MBE or 2* Commendations and above (avoid highlighting OSMs and LS&GC). Any units that can be singled out for praise, enjoyment or high profile.

2. 1. Line Managers are requested to read the pre-loaded text on the Gold Certificate, as displayed below, to avoid duplication of words or phrases. The citation is to be written in the same style as the pre-loaded text.

2. Look to highlight State Honours and Awards, for example MSM, MBE or 2* Commendations and above (avoid highlighting OSMs and LS&GC). Any units that can be singled out for praise, enjoyment or high profile.

Pre-loaded Text on the Gold Certificate

On behalf of His Majesty the King and the Admiralty Board, I would like to record our sincere gratitude for your long service and dedication on the occasion of your retirement from the (Royal Navy/Royal Marine/Royal Naval Reserve/Royal Marines Reserve) on the (DATE).

Your extraordinary dedication to your Sovereign and the Nation through a remarkable (XX) years' service in the (Royal Navy/Royal Marine/Royal Naval Reserve/Royal Marines Reserve) is of the highest order and exemplifies the finest traditions of the service. In responding to the many operational demands you have faced throughout your distinguished career, you have played a significant role in the safeguarding of the United Kingdom, the Commonwealth and our other allies, providing for the security of those who pass on the seas. Your successes are too numerous to record individually, but they have each been due to your infinite professionalism, dedication and loyalty; you should be justifiably proud of your achievements and the legacy you leave behind.

3. Career Precis (as provided by RNSF BMs)

I trust that you and your family, without whose support this would not have been possible and for whose sacrifices we are also grateful, will always consider yourselves to be part of the (Naval/Marines) family. The board joins me in sending you our very best wishes for every happiness and success in the future.

CHAPTER 91

ROYAL MARINES OTHER RANKS PROMOTION

SECTION 1

PROMOTION GENERAL

9101. Introduction

The following regulations are specific to promotion of Royal Marines Other Ranks (ORs). RM ORs employed in the following Royal Navy Specialisations must refer to their specific BRd 3(1) promotion regulations: RN Aircrewman (RM ACMN) - Chapter 81, RN Logistician (Catering Services) (LOG(CS)) - Chapter 85, RN Medical Assistant (RMMA) - Chapter 87, RN Family and People Support (RN FPS) – Chapter 86, People Capability Team Royal Marines and RM Career Managers will be referred as DDPD.

9102. Education

a. **Qualifications.** The educational qualifications required for each rank up to and including the rank of WO1 are given at Annex 91D and Annex 91E.

b. **Exemptions.** An individual who has, at minimum, GCSE ‘C’ grades in English Language and Mathematics, or equivalent examination grades, may be exempt from further educational testing in the Royal Navy.

9103. Professional Qualifications

a. The professional employment of each rank within specialisation is governed by the requirement to achieve Command and Primary Specialist Qualification (PSQ) within the selection year specified by the Promotion Notification (PN) prior to a Common Promotion Date (CPD).

b. **JNCOs/SNCOs:**

(1) **Cpls.** Qualification to PSQ2 level or RM Skill At Arms Course (RMSAA) is mandatory. Waiver of Command courses for RN Special Forces (RNSF) with Army qualifications and RMR Corporals is detailed at Annex 91D.

(2) **Sgts.** Promotion is governed by the requirement to upgrade to PSQ1 where applicable.

c. **CSgt.** Nil requirement.

d. **WO2 RM.** Successful attendance on the Warrant Officer’s Leadership Development Course (WLDC) is mandatory for promotion to WO2 RM.

e. **WO2 Bandmaster.** Selection for promotion is governed by the requirement to have passed the Bandmasters’ Course prior to the Promotion Selection Board (PSB).

f. **WO1 RM.** WO2s who are selected for promotion must attend the WO1 RM course.

9104. Candidature for Promotion

a. Normally a Mne will be accepted as a candidate once they have completed recruit training or, in the case of the RMBS, when a rank attains the M2/B2 qualification (the M2/B2 qualification may only be attempted after serving 12 months from attaining the M3/B3 qualification, unless they have been awarded advancement). In addition, candidates must be Qualified Educationally for Cpl having achieved Functional Skills (FS) Level 1 in Literacy and Numeracy.

b. **Royal Marines Band Service (RMBS) Accelerated Candidature.** On successful completion of the M3/B3 examinations, holders of Prince's Badge, Wing Captain, House Captain, and Section Commanders will be awarded the following advancement for eligibility to attend M2/B2 course:

Prince's Badge	6 months (eligible 6 months after M3/B3 SQ)
Wing Captain	6 months (eligible 6 months after M3/B3 SQ)
House Captain	3 months (eligible 9 months after M3/B3 SQ)
Section Commander	1 month (eligible 11 months after M3/B3 SQ)

c. As a Candidate, an individual is a potential NCO and is to be given every encouragement and opportunity to improve their Command ability and to obtain the qualifications required for promotion.

d. **Seniority.** The seniority of a candidate is determined by the RM Workforce Appraisal and Career Progression (WA&CP) Team and will normally be the day they start recruit training.

e. **Removal.** Commanding Officers (COs) may recommend that candidates be removed from the Corps Roll of Candidates for the following reasons:

(1) At the candidate's own request.

(2) On the grounds of unsuitability arising from disciplinary or other reasons.

Recommendations for removal are to be forwarded to the RM WA&CP Team by special SJAR in the case of an enforced removal or, in the case of voluntary removals, via JPA.

f. **Reinstatement.** An individual who has been removed from the Corps Roll of Candidates may apply to their CO for reinstatement. This request, if supported by the CO's recommendation, must be forwarded to the RM WA&CP Team for approval. The following caveats apply:

(1) The individual is not to be reinstated until a minimum period of 12 months and one day has elapsed since removal.

(2) Individuals reinstated on the Corps Roll of Candidates will have their former seniority as a candidate taken into account if they have been removed at their own request. If they have been removed for any other reason, however, their seniority will normally be the date of recommendation for reinstatement, with all former seniority being forfeit.

9105. Eligibility for Promotion

a. Ranks on EC/ES3 are considered for promotion selection in order to support structural sustainability.

b. Ranks on Extension of Service (EoS) will not be considered for promotion selection.

c. Individuals serving in N/A specific Continuity positions will not be considered for promotion, as there is no substantive promotion requirement for those in Continuity positions.

d. Ranks who have a Termination Date prior to the Common Promotion Date (CPD) will not be considered by the Promotion Selection Board (PSB) subject to an authorised ES3.

e. A rank will still be considered for selection in their source branch whilst on a long training course.

9106. Promotion to Acting (Paid) Lance Corporal

a. COs of Units (RM, Army and RAF), HM ships and RN establishments are authorised to promote Mnes to the rank of Acting (Paid) LCpl where NCO rank is considered appropriate for leadership, prestige status or training reasons. Details of Units allocated quotas are held by RM BM. Approval to promote above these ceilings must be secured from the BM WO before any action can take place. Individuals who have attended and passed Corporal Leadership Development Course (CLDC) are to remain Acting (Paid) LCpl whilst awaiting their CPD.

(1) On completion of trade training, individuals in the following specialisations will automatically be promoted to LCpl: CI, GD|MP, GD|UAS, RMCX, SFC and TES.

(2) All ranks attending CLDC are to be promoted to the rank of Acting (Paid) LCpl whilst on their respective Command Course.

(3) All ranks attending PSQ2/1 training who have been selected for promotion are to be promoted to the rank of Acting (Paid) LCpl whilst on their respective PSQ2/1 training course.

(4) On successful completion of CLDC and or PSQ2/1 training, ranks will retain their Acting (Paid) LCpl status, as long as they continue to be selected for promotion.

(5) Those ranks who have **not** been selected for promotion at PSB, but hold the rank of Acting (Paid) LCpl, will retain their rank and pay whilst on course.

(6) Those ranks who have **not** been selected for promotion and do not hold the rank of Acting (Paid) LCpl, will **not** be promoted for PSQ2/1 training courses.

(7) Musicians and Buglers (Musns and Bugs) must be qualified either M2 or B2 to be eligible to be promoted to the rank of Acting (Paid) LCpl.

(8) Those ranks who have **not** previously been selected for promotion, but are selected after they have commenced their relevant PSQ2/1 course, will be promoted to Acting (Paid) LCpl with effect from the date of the Promotion Notification.

(9) If an individual in the ET|WT, ET|FT or ET|VT PSQ has completed formal PSQ 1 training and does not already hold the rank of Acting (Paid) LCpl, they will be promoted to Acting (Paid) LCpl on receipt of that qualification.

b. **Administrative Reversion.** COs are to revert a LCpl to Mne when:

(1) An individual ceases to hold an assignment for which the rank is considered necessary, or is assigned out of the unit.

(2) When a rank is selected to attend a PSQ3 course.

c. In the following circumstances, COs must not revert:

(1) LCpls in the following PSQs: CI, GD|MP, RMCX, SFC, and TES.

(2) LCpls who are selected for promotion and have passed CLDC.

(3) LCpls who are selected for promotion and have passed PSQ2/1 training.

(4) LCpls who have passed PSQ2/1 training or are in receipt of Acting (Paid) LCpl prior to their respective PSQ2/1.

9107. Selection and Promotion up to the Rank of WO2 RM General Service

a. **Promotion Eligibility** (further guidance is at Annex 91D)

(1) **Marine to Corporal.** All Mnes (including LCpls) will be considered for promotion to Cpl if they are EFP and have a positive recommendation for promotion.

(2) **OR4 Level Entry Specialisation.** Candidates can volunteer for one of the OR4 Level Entry PSQs by annotating the correct PSQ2 Preference as their first Preference on JPA; on receipt of a positive recommendation for promotion on their SJAR they will then be eligible to go to the PSB for that PSQ. The OR4 level entry PSQs are as follows: GD|IM, GD|GM, GD|DL, GD|ML, GD|PTI, GD|PW, GD|COMM, GD|LOG(SC) and IS|IS. Ranks must pass the relevant aptitude for the following PSQs: GD|DL, GD|ML, GD|PTI and IS|IS and pass the respective Secondary Specialist Qualification (SSQ) course for the following PSQs: GD|AE, GD|AS, GD|HW(ATK), GD|COMM and GD|LOG|(SC) prior to any PSQ2 training course.

(3) **OR2 Level Entry Specialisation.** Candidates must hold the PSQ3 competence for an OR2 Level Entry PSQ to be eligible to attend the PSB for that PSQ**.** The OR2 level entry PSQs are as follows: CI, GD|AE, GD|AS, GD|HW(AD), GD|HW(ATK), GD|HW(MOR), GD|LC, GD|MP, GD|ScS, GD|UAS, ET|WT, ET|FT, ET|VT, RMCX and TES

(4) **Corporal to Sergeant.** All substantive Cpls will be considered for promotion to Sgt if they are EFP and have a positive recommendation for promotion.

(5) **Sergeant to Colour Sergeant.** All substantive Sgts will be considered for promotion to CSgt if they have a positive recommendation for promotion.

(6) **Sergeant to Colour Sergeant Technical.**

(a) **Promotion to Colour Sergeant - ET|VT/ART|ARTV.** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2. Whilst PSBs will consider this as a single cohort, the requirement will be split into ET|VT and ART|ARTV.

(b) **Promotion to Colour Sergeant - ART|AES.** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2.

(c) **Promotion to Colour Sergeant - IS|IS/IS|FofS(IS).** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2. Whilst PSBs will consider this as a single cohort, the requirement will be split into IS|IS and IS|FofS(IS).

(7) **Colour Sergeant to WO2 RM.** All substantive CSgts will be considered for promotion to WO2 RM if they are EFP and have a positive recommendation for promotion.

b. **Promotion Selection Boards.** PSBs will take place on an annual basis and additionally exceptional PSBs will take place when required. The PSBs will be conducted as follows:

(1) PSB Board Member Composition:

(a) OR7 to OR8: OF4, OF3, OR9 and above.

(b) OR6 to OR7: OF4, OF3, OR9 and above.

(c) OR4 to OR6: OF3, OF2, OR8 and above.

(d) OR2 to OR4: OF3, OF2, OR8 and above.

(2) **Conduct.** PSBs will consider all candidates by rank within PSQ. The PSBs will produce an Order of Merit (OoM) from which, based on the promotion requirement, ranks will be nominated for promotion or identified as Reserves. The OoM and subsequent nominations form the basis of the Promotions Notification (PN). The OoM formulated by a PSB remains valid until the subsequent annual PSB. Reserves may be called forward throughout the Year dependent on the requirement.

c. **Accept/Decline Promotion.** All Accept/Decline forms must be returned to the RM WA&CP Team within one calendar month following the release of, and as directed on, the PN.

d. **Training Requirement.** In order to be substantively promoted, ranks selected for promotion are required to complete mandatory Command, PSQ and RMSAA training prior to a CPD. To ensure that selected ranks are trained on the most appropriate Comd and PSQ courses, specialisation advisers (Spec Advs) will co-ordinate with the RM WA&CP Team to identify Command Course loading priorities. All Command, PSQ and RMSAA course loading will be promulgated on SCIO.

e. **Common Promotion Date (CPD).** Fully qualified ranks will be promoted to their substantive rank on the relevant CPD:

WO1 RM - 31 Mar.

WO2 RM - 31 May.

CSgt - 31 Jul.

Sgt - 31 Oct.

Cpl - 31 Jan.

f. **SBS Selection and Promotion up to WO1.** SBS ranks will be selected for promotion using the same principles of Merit Based Promotion (MBP) as the RM General Service (GS). Taking into consideration the special nature of their employment, the PSBs will incorporate representation from SBS. Fully qualified ranks will be promoted to the substantive rank on 30 Nov.

g. **RMBS Policy** (further guidance is at Annex 91E).

(1) **Merit Based Promotion (MBP).** RM Band Service substantive promotions are selected through MBP.

(2) **Promotion to Corporal.** All Mnes (including LCpls) will be considered for promotion to Cpl if they are EFP, have attained M2/B2 PSQ and have a positive recommendation for promotion.

(3) **Promotion to Sergeant.** All substantive Cpls will be considered for promotion to Sgt if they are EFP and have a positive recommendation for promotion.

(4) **Promotion to Colour Sergeant**. All substantive Sgts will be considered for promotion to CSgt if they have a positive recommendation for promotion.

(5) **Bandmaster Course Selection.** Band NCOs will not be selected to attend the WO Bandmaster Course unless they have passed the SLDC, are M1 PSQ and are EFP to WO2 Bandmaster.

(6) **Promotion to Colour Sergeant (Bandmaster).** Sgts must have the Bandmaster qualification and a positive recommendation for promotion.

(7) **Promotion to WO2 Bugler/Bandmaster.** All substantive CSgts will be considered for promotion to WO2 RM if they are EFP and have a positive recommendation for promotion.

h. **RM and RMBS Promotion Progression.** RM and RMBS Promotion Progression flow diagrams can be found at Annex 91D and Annex 91E.

9108. Selection and Promotion to the Rank of WO1 RM (further guidance is at Annex 91A).

a. **Introduction.** WO2s may volunteer for WO1(Specialisation/Any/RMBS). The selection is based on a generic WO1 RM PSB which will ensure a common standard.

b. **Terminology.** Whilst there is a distinction between WO1, WO1 (RSM) and WO1 (RMBS) for the purposes of this section WO1 RM will be used throughout.

c. **Eligibility.** Individuals selected for promotion must meet the specific promotion criteria set out in Annex 91D and Annex 91E.

d. **Reporting Requirements.** WO2 SJARs require a positive recommendation for promotion and should reflect an individual's suitability for promotion to WO1 RM. Reporting Officers should also specify suitability for a WO1 appointment (e.g. JCTTAT, RSM, AADJT, CM/BM, Spec Adv etc.).

e. **Training for WO1 RM.** WO2s who are selected for promotion must attend the WO1 RM course.

f. **Subsequent Appointing of WO1s.** Additional appointing of WO1 RMs is at the discretion of the Corps Drafting Officer (CDO) in consultation with the RM BM.

9109. Substantive Promotion

a. **Selection of Royal Marines for Promotion.** Substantive promotion of WOs and NCOs is announced through the PN issued by the RM WA&CP Team on behalf of Hd of the Royal Navy WA&CP Team and promulgated on completion of PSBs or periodically according to the promotion requirement. The PN will be published according to rank. It will identify those ranks selected for promotion to the next higher rank and give a CPD on which substantive promotion is to take effect.

b. **Eligibility Criteria.** Individuals selected for promotion must meet the promotion eligibility criteria set out in Annex 91D and Annex 91E.

c. **Confirmation.** The substantive promotion date promulgated by a PN is not effective until confirmed by the Promotion Confirmation Notification (PCN). The CO must effect the promotion from the date reflected in the PCN.

d. **Deferment.** A CO is authorised to withhold or defer promotion in the following circumstances:

(1) **Poor Performance or Conduct.** Where an individual has shown by their recent conduct or inefficiency that they are unsuitable for promotion. Further guidance can be found at Para 6710.

(2) **RM Fitness Test (RMFT) Failure.** Where an individual fails the RMFT or RMFT(A) due to a lack of personal fitness, the deferment will remain in force until they have passed the RMFT or RMFT(A). Ranks unable to attempt the RMFT or RMFT(A), owing to their medical category, may be promoted provided a Medical Officer can confirm the individual is expected to reach the necessary standard within 12 months (Para 6908 (JMES Criteria) and BR 1750A (Handbook of Naval Medical Standards) refer). Units are to ensure the RMFT, RMFT(A) or NCT1 competence (Medical Exempt/Fail) is correctly recorded by a Physical Training Instructor (PTI). The PTI must ensure that the previous RMFT, RMFT(A) or NCT1 competence is correctly end-dated and a new RMFT, RMFT(A) or NCT1 competence is entered on JPA.

e. **Permanent Medical Downgrade (PMD).** PMD is regarded as being when an individual has been graded below the medical standards required for service in their particular Specialisation. Individuals in a PMD category will have had their capabilities specifically defined by the Royal Navy Medical Board of Survey (RNMBOS)/Royal Navy Medical Employability Board (RNMEB) and may be exempt from the RMFT, RMFT(A) and have other restrictions placed upon them. The individual may be promoted, however, in accordance with the regulations set out in Para 6908 and BR1750. In the case of individuals who have been assessed by the RNMBOS/RNMEB for suitability to attend Command Course Training, Unit MOs/COs must refer to Para 9118 to form a considered decision on a rank's suitability to attend WLDC, Sergeant Leadership Development Course (SLDC) or CLDC Command Course Training.

9110. Failure to Achieve Qualifications in Selection Period

Further guidance may be found at Table 91-1.

a. Ideally, a rank would complete command and then subsequently PSQ training but, due to course programming, this is not always possible. It follows, therefore, that individuals may be loaded onto a PSQ course prior to command course. It is important to remember that successful completion of both command and PSQ training together is required to qualify for substantive promotion. Those ranks who are unable to achieve promotion qualifications in the year following Selection for Promotion will fall into the following categories:

(1) **A Rank's PSQ Training Overruns the Year.** A rank who, having successfully completed command training, is unable to complete PSQ training within the year due to course clashes or a non-programmed Operational Deployment will be loaded to the next available PSQ course. If this course overruns the individual's CPD, once they have successfully completed the course, they will receive seniority of the originally intended CPD.

(2) **A Rank Fails either Command or PSQ Training.** Individuals who Fail a Command or PSQ training course will, if possible, be loaded to another course within the year after Selection for Promotion. If the rank fails the second course, they will be de-selected and a reserve nominated to take the vacant position. This rule also applies to PSQs that have only one course per year. In the event that a rank fails the only PSQ course, they will be de-selected for that year.

(3) **A Rank Passes a Course on a Second Attempt.** In the event that a rank passes on a second attempt, and the end of the second course falls within the same year after Selection for Promotion, they will receive the same CPD as other ranks selected in the same year. If, however, the second course ends after the selection year the rank will receive a CPD at the end of the year in which they qualify.

b. There will be occasions when ranks who have been selected for promotion will be unable to pass Command Training within two attempts during the year as described above. In order that promotion vacancies are filled within the selection year, some ranks may have to be de-selected and reserves nominated to fill vacant selection places. In these cases, the following rules will be applied, and in each of these, Hd RN WA&CP Team will be the final arbiter for de-selection (see Table 91-1).

c. In accordance with the needs of the Service, a candidate who has not been selected for promotion may be selected by the RM BM to attend Command Training. This will normally be where critical gaps exist and where training places on Command Courses are available. Should this rank pass the Command Course they will be eligible for Acting Higher Rank (AHR), but only where gaps exist and must be selected for promotion and pass a PSQ2/1 Level Course before being promoted substantively. Passing Command Training does not guarantee selection for promotion.

Table 91-1. Rules Concerning De-selection

Serial	Occasion	Resulting Action	Remarks
1	Failure to achieve pre-requisite LDC Joining Instructions (JIs) criteria.	Individual is removed from cse to allow loading of reserves.	Deselect if rank fails second JIs criteria. (See note 1).
2	Attempts – LDC or PSQ cse.	Individuals are permitted two attempts at a LDC or PSQ cse.	
3	Strikes per Module.	Maximum of two strikes per module per LDC attempt.	LDC Modules: Navigation, Physical, Professional.
4	Two strikes in any single module.	Failure of that LDC attempt.	(See note 1).
5	Failure of first LDC or PSQ cse attempt.	Reload to next available LDC or PSQ cse.	Full retake required. (See note 2).
6	Failure of second LDC or PSQ cse attempt.	Deselection.	(See note 3).
7	Failure of an LDC or PSQ cse.	Ineligible for Acting Higher Rank (Paid) for 12 months.	Para 9130 d sub para (3).
8	Failure to attend due to being Operationally Deployed.	Rank is loaded to first available LDC or PSQ cse.	(See note 4).
9	Voluntary Withdrawal (VW) from Command or PSQ cse.	Deselection.	(See note 3).
10	Medical or Welfare Withdrawal.	Reload when cleared by relevant authorities; counts as a strike.	(See note 5 & 6).
11	Failure leads to missed CPD.	CPD slipped to end of Selection Year in which qualified.	Para 9110 a sub para (3).
12	Failure to complete promotional criteria within 12 months of CPD.	Deselection.	Para 6713 e.

Notes:

1. *If ranks are unable to address their shortfalls due to Operational, Welfare, Medical, Maternity, or other reasons, Units are to state their case to the RM WA&CP Team in writing. Submissions will be judged on a case-by-case basis.*

2. *The RM WA&CP Team will assess the necessity of completing the full LDC after a module fail on a case-by-case basis.*

3. *The RM WA&CP Team will assess all representations by Units concerning individual selection, de-selection, or CPD on a case-by-case basis.*

4. *This does not include programmed deployments where LDC and PSQ training continue regardless. Exceptions to this ruling will only be granted with the agreement, in writing, of the RM WA&CP Team (e.g. preserved CPD).*

5. *If a rank is RFC Medically from an LDC, they will receive a Medical Strike. If they are RFC Medically a second time (i.e. two Medical Strikes), the rank will be de-selected.*

6. *If a rank is RFC Welfare from an LDC, they will receive a Welfare Strike. If they are RFC Welfare a second time (i.e. two Welfare Strikes), the rank will be de-selected.*

9111. Erroneous Promotion

If a promotion is subsequently found to be erroneous the promotion will be rescinded from the date that it was authorised.

9112. Does Not Warrant Promotion (DNWP)/DEV SJAR

a. When an individual DNWP or has been awarded a DEV SJAR 1 Rank Up waiting CPD, they will have their promotion selection rescinded and will automatically be deselected. Ranks will be presented to Promotion Selection Boards thereafter providing they continue to meet the eligibility criteria. Individuals with an approved Termination Date or Transferred to another Service/Spec on JPA will have their promotion selection rescinded and will be deselected.

b. Individuals selected for promotion who wish to decline must follow the formal de-selection process outlined in Annex 91F. This requires engaging with a Specialist Advisor within 28 days of the promotion signal to discuss the decision and complete the required form. The request then follows a structured approval chain: review by the Officer Commanding (OC), endorsement by the Commanding Officer (CO), and final recording by Career Management. This process ensures accountability, visibility, and proper documentation of decisions, aligning Royal Marines practice with wider Naval Service standards.

9113. Unit Administrative Action for Promotion and Relinquishment

a. **The RM WA&CP Team will Issue PCN (PORMs).** Units are to email NAVY PEOPLE-Proms WO1 RM, having checked promotion qualifications criteria at Annex 91D and Annex 91E and completed Orderly Room procedure. Once an individual has been either promoted or reverted at CO's Orderly Room, units must ensure that the following actions are undertaken:

(1) Details of the promotion/reversion are published in Unit Daily Routine Orders (DROs).

(2) With the exception of promotions to and reversions from substantive rank, where JPA action will be taken by the RM WA&CP Team.

b. For promotions that are withheld or deferred by COs and then confirmed at a later date, Units are to email NAVY PEOPLE-Proms WO1 RM when Orderly Room procedures are completed, then the RM WA&CP Team will complete JPA action.

SECTION 2

SELECTION FOR COMMAND AND SPECIALIST TRAINING

9114. General Provisions

a. The RM BM is responsible for forecasting the requirements for command, PSQ, RM Band and other specialist training. The numbers required are ratified by means of the Customer Executive Boards (CEB) process and the annual RMC training plan is published as the RM Customer Statement of Training Requirement (SOTR).

b. On completion of recruit training, all Mnes will be assigned to the Commando Duties GD|CD specialisation, except those that volunteer for PSQ training direct from recruit training and RMBS personnel who are assigned direct to the Band Service. The selection of those to undergo specialisation training is made from approximately 12 months after completion of recruit training and following a Career Counselling Interview (CCI). DDPD RM is authorised to assign accordingly.

9115. Command and Specialist Training

a. **Command Training.** The RM BM is responsible for forecasting the annual requirement for Command Training. The RM WA&CP Team is responsible for selecting individual WOs, NCOs and Mnes for promotion and thus those attending such courses. DDPD RM is responsible for assigning individuals to attend Command Training.

b. **PSQ Training.** DDPD RM is responsible for assigning WOs, NCOs and Mnes to attend PSQ training. The number of ranks required for promotion or for Mne PSQ training is set by the RM BM.

9116. Eligibility for Courses and Return of Service (ROS) for Training

Details of the ROS for higher training courses undertaken by RM personnel can be found in Chapter 53.

9117. Re-entries

Details of the rules concerning basic, Command, PSQ for re-entries are contained in Chapter 48. In all cases, the RM BM will consider each re-entry application on its merits in view of the RM workforce level at the time of application and re-training requirement in conjunction with Specialisation Advisers.

9118. Attendance at RM Leadership Development Courses for RM Personnel in a Permanent Medical Category with Restrictions

a. **Introduction.** RM Personnel who have been reviewed at the RNMBOS/RNMEB and have been retained but with permanent medical restrictions, may attend a LDC if their restrictions allow.

b. **RNMBOS.** An important part of the RNMBOS process, which relates solely to RM ranks, is an individual's general suitability to attend a RM LDC which is 'physically and mentally demanding. There remains the opportunity, however, for permanently medically downgraded ranks to attend RM LDC in order to allow career progression and assist RM workforce planning. Consideration should therefore be given to a rank's sustainability if likely to attend a RM LDC, if retained following RNMBOS/RNMEB but with medical restrictions. The Medical Limitation (MedLim) of 1100 (fit for Modified SCC/JCC or SCC(Band) only) will **not** be awarded after Feb 21 but RM personnel already holding the MedLim of 1100 and subsequently selected for promotion **must** be given a Medical Risk Assessment (MRA) prior to attendance at CLDC/SLDC. With effective from Feb 21, the award of MedLim 1100 will be replaced by MedLim 5504 (requires MRA prior to attendance on RM Command Course (LDC)).

c. **Medical Risk Assessment.** Following an award of MedLim 5504 at RNMEB, the MRA must consider and detail precisely what individuals may and must not conduct physically on the respective CLDC and SLDC and, to a lesser extent, the WLDC. Unit MOs may therefore make an informed decision on a rank's suitability to attend the appropriate training and an MRA specific for RM LDC (see sub-para d) must be completed before being loaded to the respective LDC.

d. **Command Course Training.** LDC training is not specifically designed to be a test of physical ability. The training and assessments, however, place practical Command, Leadership and Management (CLM) tasks in a simulated operational environment. Consequently, both CLDC and SLDC, and to a lesser extent the WLDC, contain serials that are both mentally challenging and physically demanding. Furthermore, busy course programmes afford very little time for recovery. Ranks nominated for LDC training must be physically and mentally robust; they must **not** be allowed to commence training with an injury or illness that is likely to preclude them from successfully completing set criteria of the course. Therefore, the MRA must be completed with the following course content in mind and in all cases the rifle may be substituted or supplemented with another weapon system e.g. GPMG.

(1) **Combat Equipment Fighting Order (CEFO).** 20-30lbs of equipment with an 11lb rifle.

(2) **Patrol Order.** As above, but including day sack, 50-60lbs of equipment and an 11lb rifle.

(3) **Combat Equipment Marching Order (CEMO).** As above, but including Full Bergen, 75lbs of equipment and an 11lb rifle.

(4) **Physical Assessments.** The following are now summative physical assessments (on the CLDC and SLDC) and personnel **must** pass 2 of the 3 assessments in order to pass the course.

(a) RM Fitness Assessment (RMFA). Candidates are required to achieve the following repetitions at each discipline to pass.

i. Multi-Stage Fitness Test (MSFT) = 9.7

ii. Press ups = 40

iii. Sit ups = 50

iv. Pull ups = 5

(b) **4 Mile Speed March (4MSM).** A 4-mile formed body march carrying CEFO (min 21lbs) and a rifle in a maximum of 40mins (total minimum weight of 14.5kg (32lbs)).

(c) **Leadership Fitness Assessment (LFA).** A 4km run carrying belt order webbing, issued daysack (combined weight of 35lbs), Weapon sling and SA80, (11lbs). Total combined weight 46lbs. Pass time 25:30.

(5) **Navigation Exercise.** Day and Night Navigation Exercises (NAVEX), which are particularly challenging and can be up to 11km across rough ground with CEFO and rifle at 3km per hour.

(6) CLDC candidates must be capable of completing all stipulated physical assessments. Additionally, CLDC personnel also complete the Endurance Course and a weighted stretcher race including overnight in a tactical harbour, which are both formative assessments.

e. **Permanently Medically Downgraded MLD and MND (Medically Limited/Not Deployable)**

(1) Downgraded individuals who can meet the minimum requirements will be considered on an individual basis depending upon the nature of their injury. Their treatment in principle will be no different from those who are injured during the course. In order to allow them to progress, there is the opportunity for permanently medically downgraded ranks to undertake a CLDC or SLDC. If a rank appearing before the RNMBOS is unable to complete any of the above physical tests as a result of a medical condition then, for their own protection, they must be medically downgraded, either for a review period or permanently. Additionally, should an individual present themselves at RNMBOS, the Board must consider potential future attendance on a RM LDC, which will necessitate a MRA being carried out in Unit prior to attendance. Based on a RM Commando's primary role, a rank attending CLDC or SLDC must be able to carry out the tasks laid out in Para 9118.d sub paras (1)-(5) (above).

(2) If any rank appearing before RNMBOS is unable to complete any of the above physical tests as a result of a medical condition then for their own protection they must be declared UNFIT CLDC/SLDC and their retention in the RM, based primarily on medical risk and future employment under the CF operating model, will be considered on a case by case basis.

f. **Guidance Notes.** Unit Medical Officers/delegated Medical Staff are to complete an MRA, which **must** be included with the respective CLDC/SLDC Medical Return. This forms part of the pre LDC paperwork and may be found in the relevant JIs. JSP950 Leaflet 1-2-12 policy regarding medical assessment of fitness for training courses is generic and already provides for supplemental Course Organiser determination and promulgation of course-specific medical eligibility (JMES) criteria within course JIs or other appropriate SS policy. This will devolve responsibility for assessing medical suitability to the unit MO, whilst the Command will be responsible for the non-medical aspects such as motivation, attitude and commitment.

SECTION 3

COMMAND COURSE REPORT (CCR)

9119. Introduction

The assessment and reporting procedures for the CLDC, SLDC and WLDC will be recorded in the SJAR Format.

9120. Guidance for Assessment

Information on assessment criteria can be found at Table 91-2 below.

9121. Deferred Pass Procedure

An individual may be awarded a C2 Deferred pass on the CLDC and SLDC. In these instances, the student will have met most of the training objectives, but with clearly identified weaknesses in one module. The individual must return to CTCRM, Command Wing (CW), for the specific phase or phases on subsequent Command Course to be re-taught and re-assessed within six months, to the satisfaction of CO CW. The individual can only return to CW once during the six months period. The point at which the individual should re-join Command Training will be discussed between CW staff, respective Spec Advs and the Individual's Chain of Command.

9122. Command Course Fail (CCF) Procedure

Failures are those students who have not achieved Role Performance Standard (RPS). In all but exceptional circumstances, they must not return to re-attempt CCF, or a subsequent course, for at least six months.

9123. Removal from Course (RFC)

RFC individuals can be removed from Command Training on the authority of CW at any stage during the Course. CW must email the details of RFC to the parent Unit, DDPD RM and the RM WA&CP Team. This must be followed by a letter from CO CW giving reasons for the RFC. RFC action will fall into three main categories: CCF, RFC and Medical/Welfare[1].

Table 91-2. Guidance for Completion of Command Course Report

Individual Module Percentage Boundary[2]	Overall Grade (SJAR-aligned)	
85-100	A	Performing to the **highest standard** in **all** respects.
80-84	A-	Performing **above the standard** expected in **all** respects.
75-79	B+	Performing **above the standard** expected in **most** respects.
70-74	B	Performing **to the standard** expected in **all** respects.
65-69	B-	Performing **to the standard** expected in **most** respects.
60-64	C	Performing **to the standard** expected in **some** respects.
55-59	C2	Has failed to achieve the standard pass in **one** respect. **Not applicable to the WLDC.**
Less than 55	D	Performing **below the standard** expected in **some or all** respects.

[1] Further guidance can be found at Table 91-1.
[2] Grade boundaries are rounded up from the .5 mark, for instance a student with a score of 74.5 would be awarded a B+ a student who scores 74.4 would be awarded a B.

SECTION 4

OTHER ISSUES

9124. Relative Seniority of NCOs

a. NCOs holding substantive rank take precedence over other NCOs holding the same acting rank, irrespective of seniority. Reserve NCOs who are mobilised or undergoing training with Regular NCOs take precedence according to the date of seniority of their substantive rank.

b. NCOs holding acting rank take precedence over NCOs holding a substantive rank junior to the acting rank. This applies irrespective of type of service or seniority in substantive rank. NCOs holding the same acting rank take precedence according to seniority in their substantive rank.

c. Regular and Reserve NCOs of identical seniority under the foregoing rules take precedence as follows:

(1) Regular;

(2) Recall Reserve Liability;

(3) Royal Fleet Reserve;

(4) Royal Marines Reserve.

9125. Promotion of Prisoners of War, Internees and Those Kidnapped

a. Promotion is not to be authorised during an individual's captivity or internment except under the following provisions:

(1) **Individuals due for Promotion before Capture.** Fully qualified NCOs, Mnes/Bug/Musns whose promotion was authorised, or to be effected on a date earlier than that of capture or internment, but who were not actually promoted, may be granted the higher rank whilst in captivity or internment with effect from the original promotion date.

(2) **Individuals Reported Missing or who Die in Captivity.**

(a) Individuals reported missing and who remain unaccounted for until death is presumed may be promoted for the purposes of pay, dependants' pensions etc, from the date on which promotion would have been authorised provided that the date of authorisation is earlier than the official date of presumption of death.

(b) Individuals reported missing who are subsequently reported officially as having died, POWs and internees who die in captivity, are to be treated as at Para 9125.a (2) sub para (a). The period subsequent to the date on which the rank was reported missing or taken prisoner is to be taken into account. Such individuals are to be allowed promotion to the rank for which they would have qualified by service alone, prior to the known or calculated date of death. It is to be assumed that such individuals would have obtained the necessary qualifications for promotion within the period.

b. **Acting Rank.** Acting rank (granted under the provisions of Para 9130) held at the time of capture may be retained during captivity and for a period of 61 days after date of repatriation or until the date of re-joining a unit for effective service, whichever is earlier. The NCO is then to be reverted to their substantive rank.

c. **Promotion after Repatriation or Liberation.** Provided an individual is not to be discharged from the Service on completion of hospital treatment or following leave granted having been a POW or an internee, and they return to full duty with an unbroken record of service, their promotion may be authorised under the following rules:

(1) The individual must first successfully complete all the mandatory training required for promotion to the higher rank.

(2) The effective date from which their promotion may be authorised is then to be calculated by adding the length of time taken to undertake mandatory training since return to duty from the date of capture.

d. **Further Promotion.** Eligibility to qualify for further promotion following the implementation of the rules in Para 9125.c is to be determined as follows:

(1) The date of eligibility to undertake mandatory training is to be calculated from the adjusted seniority in rank.

(2) The effective date of completing the mandatory training is to be antedated as in Para 9125.c sub para (2). Selections for further promotion will be made on this basis, provided that the individual has applied to undertake mandatory training within a reasonable period after return to full duty and that they pass at the first attempt.

(3) When no professional or other qualifications are required for a higher rank, further promotion may be authorised in retrospect.

9126. Formal Reversion

a. **At Own Request.** Commanding Officers may approve the reversion of WOs or NCOs at their own request, either to a lower NCO rank or to the rank of Mne, and are to report such reversions to the RM BM and the RM WA&CP Team by letter. The latter will undertake the necessary JPA action. The individual is to assume their original seniority in the lower rank, and is not to be considered for promotion until they so request. Any such request must be submitted in writing (by letter or via JPA). An NCO who is reverted to the rank of Mne at their own request may not retain a PSQ1 specialisation except in certain specialisations where the holding of such PSQ1 is permitted (e.g. ET|WT, ET|VT).

b. **SBS Specialisation Transfer.** A NCO who is accepted for transfer to the SBS specialisation, is likely to be required to revert to a lower non-commissioned rank.

9127. Reduction

The procedure for reduction in rank is set out in Chapter 70.

9128. Promotion of Former NCO Re-entries

Former NCOs who re-enter the Corps are subject to approval by the RM BM.

9129. NCOs Under Warning

The Warning procedure is set out in Chapter 57.

9130. Promotion to Acting or Local Acting (Paid) Rank (Cpl and above)

a. **Introduction.** Acting and Local Acting Rank is authorised by the RM WA&CP Team. Acting or Local Acting rank may be refused, or withdrawn, if RM workforce ceilings are likely to be exceeded. In all cases, substantive promotion takes precedence over Acting or Local Acting rank. Relinquishment or reversion from Acting or Local Acting rank has no consequential effect on the individual's consideration by PSB for substantive promotion other than those instances where reversion is for poor performance.

b. **Acting and Local Acting Rank.**

(1) Acting rank may only be awarded to those ranks who have been selected for promotion. The administrative Acting promotion must be reviewed by DDPD RM at the twelve-month point.

(2) Local Acting rank may be awarded to Mnes, Cpls or Sgts who have not been selected for promotion but are candidates for such and are identified in Unit as capable of filling a gap at the next higher rank. The administrative Local Acting promotion must be reviewed by DDPD RM at the six-month point.

(3) There is no difference in pay or status, but this is simply a means of identifying those who have been selected for promotion and are awaiting a CPD and those that have not been selected.

c. **Circumstances.** The administrative promotion to Acting or Local Acting rank of NCOs and Mnes to one rank above their substantive rank may be appropriate in the following circumstances:

(1) Where a shortage of individuals of a particular rank and/or PSQ leads to a vacancy in that rank and/or PSQ against the complement of a unit, which is not expected to be filled for at least 21 days.

(2) Where an NCO is absent for reasons of sickness, compassionate leave or service requirements (excluding Command or PSQ course, or margin action), where the vacancy is not expected to be filled within 21 days.

d. **Criteria.** COs must be satisfied that the individual to be administratively promoted is capable of performing the full duties of AHR and is the most suitable person within the Unit i.e. the individual should normally satisfy the following criteria:

(1) The individual must be EFP for promotion to the higher rank.

(2) The individual should have been recommended for promotion 1 Rank Up with EXCP, HIGH or YES on their latest SJAR.

(3) An individual should not have failed a Command or PSQ upgrading course within the last 12 months.

(4) An individual who has received a Deferred Pass on Command Course may be promoted to AHR subject to workforce restraints.

(5) In the case of promotion to Acting (Paid) WO2, individuals must have been selected for promotion to WO2 RM.

(6) In the case of promotion to Acting (Paid) WO1 RM, an individual must have already passed the WO1 RM Selection Board.

e. If no suitable command trained other rank is available to fill a position, COs may consider someone who has a place booked on a Command Course scheduled to start within the following 12 months. Any such decision must mitigate the duty of care implications of employing an Other Rank in the next higher rank who has not completed all prerequisite training, both on behalf of the individual and those whom they will lead.

(1) The award of the acting rank should be reviewed at the 12 month point to ensure that the individual is performing well in the temporary vacancy. If the latter does not apply or the individual has failed to successfully complete the respective command course, unless under exceptional circumstances, they should be reverted to their substantive rank and consideration should be given to awarding the acting rank to another individual, preferably one who has completed the relevant Command Course.

(2) Exceptionally, a suitable Other Rank who has not been selected for promotion may be promoted to local acting rank, in which case it is to be reviewed at the six-month point.

f. **Authority for Administrative Promotion.** Where there is a gapped liability driven position, COs are to seek authority for AHR from the RM WA&CP Team.

g. **Relinquishment.** A rank is to relinquish their acting or local acting rank as a result of any of the following events:

(1) The vacancy which resulted in their administrative promotion ceases to exist.

(2) They are assigned from the ship or unit.

(3) They attend a course within the unit, or elsewhere, from which they are expected to return, involving an absence of more than 35 days from the duties for which the acting or local acting rank was granted.

(4) They are absent from duty through sickness or leave for longer than 28 days.

h. Consideration should be given to reversion when an individual:

(1) Fails to achieve a recommendation for promotion 1 Rank Up (EXCP, HIGH or YES grade) in their SJAR.

(2) Rejects selection for a command or PSQ upgrading course, unless for compelling reasons (i.e. legitimate welfare or medical etc).

i. **Disciplinary.** The discipline procedure is set out in Chapter 70.

j. **Award and Removal Action.** The JPA Award and Removal of Acting and Local Acting rank is to be taken by DDPD RM, following confirmation from the Unit.

9131. Promotion to Local (Unpaid) Rank (Cpl to WO2 only)

a. **Local Rank is Authorised by the RM WA&CP Team.** Promotion to Local rank, which carries no entitlement to pay, allowances or pension rights, may be given in the following circumstances, and must be reviewed by DDPD RM at the six-month point:

(1) Where, subject to workforce constraints, it is desired to exceed, temporarily, the authorised complement for such purposes as special operations and training.

(2) Where it is necessary for attendance on courses or duties with other Services.

(3) Where, subject to workforce constraints, it is necessary for prestige purposes, or to enable an NCO to carry out their duties more effectively.

(4) The individual must not have failed a Command or PSQ upgrading course within the last 12 months.

b. An NCO/OR who has been awarded the Local rank may be entitled to SUPA in accordance with JSP754.

c. **Local WO2.** Promotion to local WO2 will not ordinarily be granted unless the applicant has been selected for promotion to WO2 at the PSB. Exceptions to this can be considered on a case-by-case basis and may be authorised in exceptional circumstances.

d. **Local WO1.** Promotion to local WO1 will not be granted unless the applicant has passed the WO1 RM Selection Board. Those ranks selected for promotion are to be promoted to Local WO1 for the WO1 RM Course, however those ranks not employed in an OR9 liability driven position on completion of the WO1 RM Course will be reverted to their substantive rank.

e. **Award and Removal Action.** The JPA Award and Removal of Local rank is to be taken by DDPD RM following confirmation from the Unit.

f. **Relinquishment.** The relinquishment procedure is set out in Chapter 70.

9132. UK Joint Special Forces Selection - Assignment Process for RN/RM Candidates

a. From 29 Jun 19, RN/RM candidates are to be assigned to Special Forces Training Command (SFTC) only from the post-aptitude phase of Selection. From the start of the course until completion of the aptitude phase, candidates are to be ‘Move and Tracked’ only (i.e. not permanently assigned) by their parent unit.

b. Should a RN/RM candidate withdraw or RFC from Selection during the aptitude phase then their Assignment Order to SFTC is to be cancelled. In most cases, ranks will be returned to their parent Unit unless directed otherwise by DDPD.

c. UPOs are to conduct the necessary ‘Move and Track’ action to grant candidates the correct allowances on selection for SF training. Joining Instructions for UK Joint Special Forces Selection will include the dates and allowances for the Move and Track period and subsequent assignment RDD. Candidates must submit this information to their respective UPO before attending the course.

d. DDPD should consider the impact on candidates returning from course in line with Personnel Functional Standards before making their next assignment.

ANNEX 91A

WO1 RM SELECTION PROCEDURE

1. Introduction

The selection for promotion to WO1 RM will consist of a common Promotion Selection Board (PSB) procedure to be administered by the RM WA&CP Team.

a. Substantive WO2s may apply for more than one appointment at the Board, however they will be required to attend the One Day Personal Assessment for only one of the appointments. Their score from that assessment will be considered alongside the applicants of their additional appointment.

b. Substantive WO2s may attempt the WO1 RM PSB up to a maximum of three times. However, in exceptional circumstances a candidate maybe allowed to return if they have already completed the WO1 RM PSB three times. CDO and the RM BM will consult on a case-by-case basis.

2. Selection Board Format

The common WO1 PSB is based on four steps, as follows:

a. **Step 1 - Career Reports Assessment.** A pre-selection process involving the scrutiny of all candidates' reports; this will narrow the field of candidates to no more than 3 candidates for each appointment in all bar the most exceptional of circumstances. Those selected during Step 1 will be called forward by email for Steps 2 and 3. All candidates require a positive recommendation for promotion to advance to step 2.

b. **Step 2 - Academic Assessment.** This is an in-unit assessment conducted under exam conditions. The RM WA&CP Team will co-ordinate between Unit Adjutants, Unit Education Officers and the Corps Tutor who will set and mark the assessment. The content is as follows:

(1) A 1500-word IRTB on a topic not previously notified.

(2) Additionally, and to be completed in candidate's own time:

(a) An action plan supporting their IRTB.

(b) A Personal Questionnaire (Q101) for all candidates.

c. **Step 3 - One Day Personal Assessment.** The One Day Personal Assessment involves a Planning Exercise Assessment and an Interview Assessment. On completion of the Personal Assessment, candidates are divided into various pools and informed of whether their names will be forwarded to Step 4. The pools are graded as follows:

(1) Unsuitable WO1 RM - Names not forwarded to Step 4.

(2) Suitable WO1 RM (RSM/Spec tied/non-Spec tied).

d. **Step 4 - Final Selection Board (FSB).** The FSB completes the selection process and comprises CDO and the CRSM. If required consultation with board presidents from Step 3 will be facilitated. It is conducted after all the One Day Personal Assessments. Candidates will be individually informed by CDO on the outcome of the FSB. A consolidated Selection Notification (SN) of those selected will be published to inform the wider audience. The SN will place those not selected for WO1 RM as reserves in order of merit and some will be liable to conduct training alongside the selected candidates. Reserves, if not selected, must re-attend the PSB if they aspire to be substantive WO1 RM.

3. RSM Selection

Substantive or Acting WO1s can board for RSM appointments. Candidates will be evaluated for RSM suitability against their packs and must attend the one-day personal assessment. There is no requirement for a substantive or acting WO1 to conduct the academic assessment, their previous academic score will be used.

APPENDIX 1 TO ANNEX 91A

WO1 RM PRELIMINARY SELECTION BOARD INSTRUCTIONS

1. Introduction

a. These instructions relate to RM Preliminary Selection Boards (Pre-PSB) for promotion to WO1 RM.

b. The WO1 RM Pre-PSB is to select ranks for further consideration by the WO1 RM Promotion Selection Board (PSB) in an objective, impartial and diligent manner in order to meet the Requirement.

c. Eligibility for promotion to WO1 RM is detailed at Para 9108.

2. Promotion Requirement (PR)

The Pre-PSB should not feel obliged to select candidates for call-forward to the PSB if there are insufficient candidates of the required quality. When assessing candidates, and to facilitate the smooth running of the process and not generate unrealistic expectations, Board Members should aim to forward 2-3 times the PR of candidates for consideration by the PSB.

3. Merit Based Selection

Candidates will be selected on merit, therefore, Pre-PSB Members' assessment of merit should be based upon their reading of all the papers in the individual's Promotion Dossier. The Definition of Merit is at Para 6508.

4. Candidate Grading

a. Board Members are required to grade candidates on merit against their peers (ie. the other candidates). Candidates are awarded a score between 1 and 16 where 1 is the highest level of merit and 16 is the lowest . The combined scores of the Board Members will provide an Order of Merit (OOM), from which candidates will be selected to go forward to the PSB.

b. In considering how to grade Warrant Officers, the following observations may be helpful:

(1) Junior Warrant Officers will have had limited opportunity to build up a track record which demonstrates, unequivocally, their full potential and suitability for promotion to the higher ranks. If that Warrant Officer has demonstrated outstanding promise in the relatively short time they have been a WO2, however, they should be graded accordingly.

(2) More senior Warrant Officers should have a wealth of broad experience by virtue of their age. As the best of their contemporaries will have been promoted already, however, it is unlikely that they will be truly outstanding. Nonetheless, such Warrant Officers can still merit promotion, as their attributes may better equip them than a less experienced candidate for a variety of jobs, or they meet the requirement in a narrower field where deep specialist skills are important.

b. Candidates are to be considered for promotion on the basis of their whole record. Therefore, the Preliminary Selection Board is not bound to accept the recommendation of a current Reporting Officer. If a candidate receives a recommendation identifying unsuitability for promotion, the reason should be stated in the report. Nevertheless, the Board may choose to select a Warrant Officer if they feel that other considerations outweigh the recommendation to defer promotion, or if they disagree with the reason given for deferment. If the recommendation is Insufficient Knowledge (IK), the Board should base its judgement on earlier reports; in this way, no Warrant Officer will be unfairly treated due to discontinuity of reporting.

5. Supporting Documentation

The Promotion Paperwork is a pack of Periodic, Special and other relevant authorised reports/letters written on the Warrant Officer that is collated and prepared by the RM WA&CP Team . The Warrant Officer's PS, a standard print taken from SCIO, is contained within the Promotion Paperwork to provide Board Members with an overall picture of the candidate.

6. Selection Board

a. The Preliminary Selection Board will consist of:

President	RM OF5	To be invited by RM WA&CP WO
Member 1	RM OF4	CDO
Member 2	RM OF4	To be invited by RM WA&CP WO
Secretary	RM WO1	WO1 RM WA&CP
Advisers	RM OF/OR9	Corps RSM/Specialist Officer as Necessary

b. The Preliminary Selection Board involves the following activity:

(1) The Board will consider any specific matter raised, such as the Terms of Reference for a particular Specialisation Adviser’s position, the Promotion Requirement and the number of candidates etc.

(2) Board Members are to declare personal knowledge of candidates.

(3) RM WA&CP will conduct a time estimate and brief the Board Members on the amount of time available for the consideration of each candidate.

(4) Board Members read the Promotion Dossiers of all Warrant Officers nominated as candidates by their COs, in isolation and without discussion.

(5) Board Members assess the merit of all eligible candidates and grade them with a score from 1 to 16, where 1 is the highest level of merit and 16 is the lowest. Board Members should be prepared to justify their grades and should appreciate that it is essential to identify, and then maintain, a consistent scoring standard.

(6) Once in session, the Board reviews the overall OOM generated by individual Members' votes. Where large discrepancies appear between Members’ scores, notes will be used to discuss the candidate until consensus is achieved.

(7) The Board agrees the list of Candidates to be called forward to the PSB. Unless the most exceptional of circumstances prevail, this is to be no more than three times the Promotion Requirement.

(8) On completion of the Pre-PSB, the RM WA&CP Team will prepare a closing statement to be signed by the Board President. This document will contain details of all the Warrant Officers considered by the Pre-PSB, their position within the OOM and the decision of the Board regarding which candidates have been nominated to be called forward to the PSB. All other records, including the votes cast by individual Pre-PSB members, will be destroyed by RM WA&CP, in accordance with the General Data Protection Regulations (GDPR)

APPENDIX 2 TO ANNEX 91A

WO1 RM PROMOTION SELECTION BOARD INSTRUCTIONS

1. The Promotion Selection Board (PSB) will assess candidates in accordance with the procedures at Annex 91A. The PSB members are to be as follows:

President	RM OF5	To be invited by the RM WA&CP WO
Member 1	RM OF4	CDO
Member 2	RM OF4	To be invited by the RM WA&CP WO
Secretary	RM OR9	RM WA&CP WO1
Advisers	RM OR9	Corps RSM

2. The PSB will assess candidates against the following criteria:

a. Current performance.

b. Future potential.

c. Experience.

d. Adaptability and Initiative.

e. Awareness and Understanding.

f. Breadth of Perspective.

g. Communication and Influence.

h. Delivering Results.

i. Leadership.

j. Physical and Mental Resilience.

k. Problem Solving and Decision Making.

l. Teamwork and Collaboration.

m. Values and Standards.

3. Candidates assessed as suitable for WO1 RM by the PSB will be forwarded to the FSB in accordance with the procedure detailed at Annex 91A.

ANNEX 91B

RM ARTIFICER SELECTION PROCEDURE

1. Introduction

The selection process for RM Artificer Trade Training has been delinked from promotion as many RM JNCOs & SNCOs have potential for Artificer Training yet opportunities to select have been missed or delayed, while their promotion potential is assessed and graded against their peers. This selection process enables Corporals, with a positive recommend for promotion 1 & 2 Ranks Up and Sergeants without a positive recommend for promotion, who are suitable for Artificer Training, to volunteer and be nominated for the Artificer Selection Board (ASB).

a. The selection for Artificer training will consist of a common ASB procedure to be administered by the RM WA&CP Team and is applicable to RM candidates in the following PSQs: ET|VT for ART|ARTV, IS|IS for IS|FofS(IS), TES for ART|AES and GD|COMM for ART|YofS.

b. The ASB procedure will be conducted in the same format as the WO1 RM Promotion Selection Boards as detailed in Annex 91A, with the following amendments.

(1) There will be no requirement to conduct the timed current affairs essay.

(2) The planning exercise will be replaced with a Group Discussion Exercise.

2. Selection

a. Trade specific technical training requires high calibre individuals to conduct an academically intense course and, on completion, assume a role with significant responsibility. The selection process will identify individuals who are capable of successfully completing a demanding, highly technical course.

b. **Criteria.** The following criteria are required for Artificer training selection:

(1) Candidates must be a substantive Cpl, with a positive recommend for promotion 1 & 2 Ranks Up or Sgt and passed their respective PSQ1 course.

(2) Candidates must have a positive recommendation for Artificer training in their SJAR recommendations, with supporting evidence on suitability in the Reporting Officer narrative.

(3) Candidates must be either qualified as Artificer exempt or have passed the Potential Artificer Development Course (PADC) at the Defence School of Electronic and Mechanical Engineers (DSEME), MOD Lyneham. (IS|FofS(IS) and ART|YofS are not required to pass PADC.)

(4) Candidates must have signed the Waiver of Right to Discharge Form (S2658).

c. The Artificer Selection Board will consist of:

President	RM OF4	To be invited by the RM WA&CP WO (specialisation tied)
Member 1	RM OF4	CDO
Member 2	RM OF4 or 3	To be invited by the RM WA&CP WO (non-specialisation tied)
Secretary	RM WO1	WO1 RM WA&CP
Advisers	RM OR9	Spec Advs

3. Promotion

a. Successful Cpls at the board, will be selected for promotion to Sgt at the next Sgt CPD and loaded to SLDC. On successful completion of Artificer Training they will be selected for promotion to CSgt at the next CPD, providing they have received a recommendation of 'Yes' or higher for promotion 1 Rank Up on SJAR.

b. Further eligibility for promotion to CSgt is detailed at Para 9107 and Annex 91D.

c. Successful Sgts at the Board, with a recommendation of 'Yes' or higher for promotion 1 Rank Up on SJAR prior to the ASB, will be selected for promotion to CSgt.

d. Successful Sgts at the board, who receive a recommend of 'Yes' or higher for promotion 1 Rank Up on SJAR by the end of Artificer Training will be selected for promotion to substantive CSgt at the next CPD after they have completed their Artificer Training, dependant on continued available spaces within the PSQ structure.

e. If candidates do not achieve a recommend of 'Yes' or higher for promotion 1 Rank Up on SJAR by the end of Artificer Training, they will be employed in a Sgt (OR6) position. Once a recommendation for promotion is received, they will be selected for promotion to CSgt at the next CPD.

4. Return of Service (ROS)

Details of the ROS for Artificer Training Courses may be found in Chapter 53.

ANNEX 91C

MERIT BASED PROMOTION

1. MBP Promotion Selection Board Documentation

PSB members will be provided with the following documentation:

a. A copy of the PSB instructions.

b. A complete set of Promotion Documents for all ranks under consideration.

c. Consideration lists.

d. The Requirement by rank and PSQ.

APPENDIX 1 TO ANNEX 91C

POST PSB ACTION

1. The Selection Notification (SN) will be released electronically at 1000hrs on the Monday following the completion of each week of PSBs.

2. This Notification will initiate liaison between the RM WA&CP Team and the Spec Advs. Following issue of the SN, the Spec Advs/Units are to liaise directly with the RM WA&CP Team, in order to co-ordinate Command Course loading and DDPD RM for PSQ course loading and assignment of the individual. This co-ordination is to de-conflict (where possible, and secondary to the exigencies of the Service) the following factors:

a. Command course availability.

b. PSQ course availability.

c. The preferences of, or any constraints (e.g. welfare) upon, the individual.

d. Onward assignment following course completion.

3. Course loading nominals will be available via SCIO once ranks have been loaded to a course.

4. Once ranks nominated for promotion have been allocated places on Command and PSQ courses (subject to the Requirement), they will receive an Assignment Order, issued by DDPD RM, which will contain the following information:

a. The rank's CPD.

b. Command Course.

c. PSQ Course.

d. Onward assignment/New Appointment (where confirmed).

e. Authority for Acting Rank (where applicable, authorised by RM WA&CP).

APPENDIX 2 TO ANNEX 91C

SPECIALISATION ADVISERS' TASKS AND RESPONSIBILITIES

1. The Spec Advs tasks and responsibilities are detailed below. The provision of accurate information, advice and assistance from the Spec Advs is critical to the success of Merit Based Promotion (MBP). Spec Advs provide intra-specialisation management.

2. Under the remit of MBP, Spec Advs are to:

a. Provide accurate termly 'State of the Specialisation' reports to the RM BM and DDPD RM, which are central to the formulation of an accurate Requirement and assist the effective management of the Specialisation.

b. Be prepared to offer specialist advice to the WA&CP Team and the Promotion Selection Boards (PSBs).

c. Liaise, following the publication of the Selection Notification Signal (SNS), and taking account of RM Programming, between the following parties:

(1) CTCRM and other course agencies.

(2) The individual.

(3) RM WA&CP and DDPD RM.

d. Provide the RM WA&CP Team with a list of course preferences, by rank, of the entire PSQ.

3. Specialisation Advisers are to ensure:

a. An individual's preferences (secondary to the exigencies of the Service).

b. Any constraints (eg. anticipated welfare situations, such as childbirth) are taken into consideration when allocating courses and onward assignments. Furthermore, Spec Advs are to counsel each individual nominated in the SNS on the implications of refusing a Command or PSQ Course.

4. It is intended that this liaison and de-confliction will have the following benefits:

a. Maximise an individual's warning and preparation time between notification by the SNS and Day 1 of the Command or PSQ Course.

b. Optimise an individual's opportunity to prepare for Command and PSQ Courses and therefore maximise the number of ranks passing Command training, thus reducing the NCO under-bearing at the optimum rate possible.

c. Reduce domestic turbulence and 'churn'.

d. Permit increased assignment flexibility.

5. This mission and these tasks are to be included in Spec Advs' TORs.

6. For the duration of the Boarding process, Hd RN WA&CP Team will have priority regarding the employment of the Spec Advs.

ANNEX 91D

RM OTHER RANKS (GENERAL SERVICE) AND SPECIAL FORCES - CAREER PROGRESSION PATH

New Entry

1. Complete recruit training.

2. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competence. To be educationally qualified for promotion (EFP) in accordance with Para 9614 and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

3. Automatically become a Candidate.

Candidate for Promotion to Corporal

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. Selected for promotion at PSB.

4. Nominated to attend DTc, CLDC, TCM & PSQ2 Course.

5. Promoted to Lance Corporal to attend DTc, CLDC, TCM & PSQ2 Course (see Note 4 (MAB6 only)).

6. Pass DTc, CLDC & TCM (see Note 1 and Note 4 (MAB6 only)).

7. Qualified PSQ2 (see Note 2).

8. Medically fit for promotion at CPD.

9. Promotion Confirmation Notification issued by the RM WA&CP Team.

10. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

11. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Corporal to Sergeant

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

4. Selected for promotion at PSB.

5. Nominated to attend SLDC & PSQ1 Course.

6. Pass SLDC (see Note 4 (MAB6 only)).

7. Qualified PSQ1 (see Note 5).

8. Medically fit for promotion at CPD.

9. Promotion Confirmation Notification issued by the RM WA&CP Team.

10. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

11. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Sergeant to Colour Sergeant

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. Qualified PSQ1.

4. Selected for promotion by PSB.

5. Medically fit for promotion at CPD.

6. Promotion Confirmation Notification issued by the RM WA&CP Team.

7. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

8. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Colour Sergeant to Warrant Officer 2nd Class

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9614. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

4. Selected for promotion by PSB.

5. Nominated to attend WLDC.

6. Pass WLDC.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by the RM WA&CP Team.

9. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Warrant Officer 2nd Class to Warrant Officer 1st Class

1. Promotion to Warrant Officer 1st Class is by personal interview and Selection Board.

2. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

3. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

4. To be EFP in accordance with Para 9614. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

5. Selection for promotion at WO1 RM PSB.

6. Nominated to attend WO1 RM Course.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by the RM WA&CP Team.

9. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Warrant Officer 1st Class

Notes:

1. *In exceptional circumstances, RMR Corporals may be considered for a CLDC waiver on transferring to a Full Career (FC) Engagement as a substantive Corporal. This requires 1* approval – the RM BM can advise on the procedures.*

2. *GD|CD ranks must complete RMSAA before promotion to Cpl.*

3. *Candidates attending CLDC must hold the minimum rank of Lance Corporal (LCpl). On successful completion of the course, ranks are to retain LCpl rank.*

4. *The Career Progression Path for MAB6 ranks is contained in their Handbook. The three key points are as follows:*

a. All ranks on joining MAB6 revert to Mne rank.

b. MAB6 ranks are required to pass CLDC, SLDC and WLDC for promotion to Cpl, Sgt and WO2 respectively in accordance with the RM GS rules. Given the routine transfer of Army and RM Mne ranks between MAB6 and MAB2, involving a change of Service, the Army Command Courses (Junior and Senior Brecon) will be considered as equivalent to CLDC/SLDC.

c. ***Shadow Rank Assessment Board (SRAB).*** *Badged MAB ranks (either 6 or 2) are only entitled to MAB Pension and Terminal Benefits on becoming Permanent Cadre (PC) at 6 years' MAB service. If a rank dies or leaves the service for medical reasons prior to achieving PC, their terminal benefits will be based on assessed Shadow rank, which is the rank that they could have been expected to achieve had they remained in their previous PSQ. The RM Branch Manager can advise on the SRAB procedures.*

5. *In exceptional circumstances and subject to requirement, suitably qualified JTAC ranks can be promoted in the absence of a PSQ1 within their MTfP.*

ANNEX 91E

RM OTHER RANKS (BAND SERVICE) - CAREER PROGRESSION PATH

New Entry Musician/Bugler (Musn/Bug)

1. Complete recruit training.

2. Musns complete 2 yrs 8 months musical training, Bugs complete 1 yr 8 months musical training.

3. Complete all training, achieve M2 PSQ (Musn), B2 PSQ (Bugs) normally after 12 months after completion of training following a recommendation from Director of Music (DoM).

4. Commence receiving annual Appraisal Reports (SJARs).

5. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competence. To be educationally qualified for promotion (EFP) in accordance with Para 9614 and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

6. Automatically become a Candidate.

Candidate for Promotion to Corporal

1. Recommended 'Yes' or higher for promotion 1 Rank Up in annual SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. Selected for promotion at PSB.

4. Nominated to attend DTc & CLDC (see Note 1).

5. Promoted to Lance Corporal to attend DTc & CLDC .

6. Pass DTc & CLDC .

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by the RM WA&CP Team.

9. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Corporal to Sergeant

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

4. Selected for promotion at PSB.

5. Nominated to attend SLDC and M1/B1 PSQ Course (see Note 1).

6. Pass M1/B1 PSQ course and SLDC (see Note 2).

7. BdCpls with M1 PSQ become eligible for selection to WO Bandmasters' Course.

8. Medically fit for promotion at CPD.

9. Promotion Confirmation Notification issued by the RM WA&CP Team.

10. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

11. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Sergeant to Colour Sergeant/Bandmaster Colour Sergeant

1. Recommended 'Yes' or higher for promotion 1 Rank Up (see Note 3 and Note 4).

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. Selected for promotion by PSB.

4. Qualified M1/B1/BM PSQ dependant on promotion route.

5. Medically fit for promotion at CPD.

6. Promotion Confirmation Notification issued by the RM WA&CP Team.

7. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

8. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Colour Sergeant to Warrant Officer 2nd Class

1. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9614. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

4. Selected for promotion by PSB.

5. Nominated to attend WLDC.

6. Pass WLDC.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by the RM WA&CP Team.

9. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Warrant Officer 2nd Class to Warrant Officer 1st Class

1. Promotion to Warrant Officer 1st Class is by personal interview and Selection Board.

2. Recommended 'Yes' or higher for promotion 1 Rank Up on SJAR.

3. Must have a valid RM Fitness Test (RMFT) or RMFT(A) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(A) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

4. To be EFP in accordance with Para 9614. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA at the Common Reporting Date (CRD).

5. Selection for promotion at WO1 RM PSB.

6. Nominated to attend WO1 RM Course.

7. Pass WO1 RM Course.

8. Medically fit for promotion at CPD.

9. Promotion Confirmation Notification issued by the RM WA&CP Team.

10. Unit HR confirms rank's eligibility and submits a Promotion Authority Request (PAR).

11. Substantive promotion endorsed and actioned on JPA by the RM WA&CP Team.

Warrant Officer 1st Class

Notes:

1. *In exceptional circumstances, candidates not yet selected for promotion can be loaded onto command courses or M1/B1 courses at the discretion of Headquarters Band Service.*

2. *Ranks failing command training will be loaded onto the next available course if all MBP criteria are met. Ranks failing M1/B1 SQ course return to Royal Marines School of Music (RMSoM) to retake course elements as directed by RMSoM.*

3. *No command/PSQ training is required for promotion to BdCSgt/CSgt Bug.*

4. *DDPD authorises accelerated promotion on PSB in order to avoid possible shortages of SNCOs qualified to WO2. BdSgts will be divided into Bandmaster and Non-Bandmaster qualified promotion pools to ensure pull-through to WO2 Bandmaster.*

ANNEX 91F

DE-SELECTION FROM PROMOTION

1. This proforma is for personnel who, following Specialist Advisor (SA) interview within 28 days of the promotion notification, wish to decline promotion. The questions below ensure that both the unit and individual are aware of the consequences and set the background for the subsequent Chain of Command interview.

2. Those refusing promotion must book a SA interview within the subsequent 28-day period. The SA will provide an individual with additional advice and options that should be considered prior to seeking final approval from an individual's Commanding Officer.

Name: …… Service No: ……

3. Specialist Advisor (SA) report:

a. What are your reasons for refusing promotion?

b. Is there anything that might encourage you to reconsider this decision?

CHAPTER 92

WARFARE PROFESSION - PHOTOGRAPHER

9201. General

This Chapter covers the career regulations for General Service Warfare Profession - Photographer. Divisional Officers are to ensure that a copy of this Chapter and Annex is placed in the PDR of each member of the Photographer specialisation.

9202. Entry into the Photographer Specialisation

The following criteria must be met for entry into the Photographer specialisation:

a. An AB1 or Mne with at least 12 months' service since attaining Role Performance Standard (RPS) at the date of application, a Leading Hand (LH) or Corporal (Cpl).

b. In date for source Specialisation Annual RPS Check.

c. An individual attending the Defence Photographic Selection and interview must have received a positive recommendation of ‘Yes’ or above for LH/Cpl (if AB1, Mne or L/Cpl) on their current SJAR.

d. Recommended for the Photographer Specialisation by their Commanding Officer.

e. Received a provisional assessment of suitability for photographic training by the Photographic Specialisation Adviser (NAVY COMMS-PHOT SPEC AD).

f. Have a permanent medical category of MEDCAT MFD A4/L1/M1/E1.

g. Have a colour perception of Grade 2.

h. Be Educationally Qualified for Promotion (EFP) to LH in accordance with Para 9634. When applying for workforce clearance, must have achieved minimum Level 1 Functional Skills (FS) (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. Six months or more since last Career Check (if any).

j. Have at least 3 years to serve on completion of the Defence Photographer Qualifying Course (DPQC).

k. Have workforce clearance for transfer.

l. Hold a full UK driving licence.

m. Accept that they may be required to undertake flying duties in the course of their employment.

9203. Application Process

An individual must have passed a Photographer aptitude and interview before workforce clearance is authorised. No individual can attend an aptitude without WFPM approval; the following procedure is to be used:

a. **Defence Photographer Selection Clearance.** When an individual has been recommended for the Photography specialisation in accordance with Para 9202. and found suitable for training i an application is to be submitted **iaw Ch 51, Profession and Specialisation Transfers** to proceed to Defence Photographic Selection and interview.

b. When permission is granted, the individual's unit is to liaise with NAVY COMMS-PHOT SPEC AD to request a place on a Photography Selection and interview board.

9204. Defence Photographer Selection and Interview

The selection and interview process is held at the Defence School of Photography over a period of 5 days.

a. **Conduct of the Selection and Interview.** The candidate will be required to demonstrate, to the satisfaction of the Instructor, that they have the qualities and potential required of a Leading Photographer.

b. On completion of the selection and interview, candidates and their Commanding Officer will be informed if the candidate passed or failed. The Photographic Specialisation Adviser will also inform relevant Professions & Career Managers of the results.

c. If successful, a copy of the letter is to be placed in the candidate's Service Documents and is to be retained until the rating is assigned to the Defence School of Photography, or their name is withdrawn.

9205. Post Photographic Selection and Interview Actions

a. **Specialisation Transfer Workforce Clearance.** Once an individual has passed the Photography aptitude and interview process, workforce clearance to specialisation transfer is to be requested in accordance with current regulations.

(1) Workforce clearance, if granted, will be valid for 2 years.

(2) The individual will then be allocated a provisional place on a LH (Phot) PQC.

b. On receipt of an Assignment Order detailing a candidate for Defence Photographer Course, Divisional Officers are to check that the rating meets all the requirements for the Course listed at Para 9202. Queries regarding eligibility, which cannot be answered in this Chapter, should be referred to the Professions Manager immediately, particularly if they concern a Career Check, seniority or current recommendation for LH.

9206. Passing Defence Photographer Qualifying Course (DPQC)

On successful completion of DPQC the following rules apply:

a. On being rated LH Photographer, ratings leave their original specialisation and join the Photographer specialisation.

b. An individual will be advanced to LH Photographer once all the criteria at Annex 92A have been satisfied. The following gives further guidance:

(1) LHs or equivalent rates who pass DPQC will be rated LH Photographer with a seniority date adjusted to the last day of LH DPQC.

(2) ABs or equivalent rates who have passed the LRLC will be rated LH Photographer with a seniority of the last day of DPQC.

(3) ABs or equivalent rates who pass DPQC but have not passed the LRLC will be rated LH Photographer on successful completion of LRLC with seniority back-dated to the last day of DPQC.

c. All LH Photographers are subject to a 12-month probationary period as described at Para 9207.

d. LH Photographers are required to give a minimum of 3 years Return of Service from completion of DPQC (see Chapter 53) (the 3-year period may include the 12 month notice period).

e. See Para 6907 and Para 6914 regarding non completion of LRLC and advancement to AHR in exceptional circumstances.

f. The Defence School of Photography will notify R&A of any RM personnel successfully completing course. Royal Marines will then be instructed to join HMS RALEIGH for the issue of clothing and documentation.

9207. Reversion and Disrating

a. **Leading Photographer.** The first 12 months' service as a LH Photographer will be a probationary period during which personnel will be required to complete a Task Book (TB). Any rating who fails to complete the TB and/or does not perform satisfactorily is to be considered for reversion to source specialisation with original seniority as an AB1 or LH.

b. In common with other sideways entry specialisations, ratings who are reverted or disrated to AB will be returned to their former specialisation and categories. Re-promotion and future employment within the Photographer Specialisation will be considered by the Professions Manager on a 'case by case' basis in consultation with the Navy Command Terms of Service team.

9208. JPA Recording - Competences, Annual RPS Check.

a. **Recording of Competences.** Once a Photographer rating has successfully completed DPQC, TB and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator.

b. In exceptional circumstances, some individuals may be unable to achieve the mandatory RPS. Where this is the case, the Professions Manager should be consulted for advice.

9209. Education For Promotion

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications (see Para 9634 for further information).

9210. Failure to Complete Leadership Course

Refer to Para 6713 for rules on the impact on a rating's promotion if they fail to complete DPQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

CHAPTER 93

WARFARE PROFESSION FAST TRACK SCHEME

9301. General

a. This Chapter covers the General and Submarine Service Warfare Profession specialisations included on the Fast Track (FT) scheme and outlines the selection and management protocols for all potential Warfare Profession FT personnel. Divisional Officers are to ensure that a copy of this Chapter and the appropriate Annex is placed in the PDR of each member of those specialisations listed at Para 9302 who is recommended for the FT scheme.

b. The FT scheme is an important element of Warfare Profession career pipeline managing the talent of suitable individuals, by selecting those ratings who are suitably motivated and demonstrate the necessary standards of leadership, Warfare aptitude and ability. This scheme will allow Warfare Profession ratings the opportunity to accelerate their progression and be advanced based on time, qualification and CO's recommendation rather than selective promotion.

9302. FT Specialisations of the Warfare Branch (General and Submarine Service)

The following specialisations (and sub-specialisations) are currently being selected for the FT[1] scheme:

a. **Warfare Specialist (WS).**

(AWT)	Abovewater Warfare Tactical
(AWW)	Abovewater Warfare Weapons
(EW)	Electronic Warfare
(SSM)	Sonar Submariner
(TSM)	Tactical Submariner
(UW)	Underwater Warfare

b. **Warfare Specialisations.**

(SEA)	Seamanship
(MW)	Mine Warfare
(H)	Hydrographic
METOC	Meteorological and Oceanographic
(D)	Diver
(INT)	Intelligence

9303. Warfare Profession FT Background

The aim of the FT scheme is to afford individuals an accelerated advancement route. This takes account of individuals who develop at differing rates and, when combined with the standard route to promotion, gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities and expectations of Warfare Personnel. Selection will be via a two-stage process with two entry points available:

[1] CT and Phot Specialisations are not included in the Warfare Profession FT scheme.

a. **AB-LH.** Phase 2 Professional Qualifying Course (PQC) for FT AB (for accelerated advancement to LH); and

b. **LH-PO.** LH PQC/LRLC for FT LH (for accelerated advancement to PO).

9304. Fast Track Scheme Overview

a. The FT scheme seeks to offer the necessary training, experience and continuous assessment to permit advancement to LH and PO earlier than is currently the case for most personnel.

b. To deliver success, an additional level of management and oversight of FT personnel is required. This will seek to ensure standards and assist to manage the available opportunities to acquire sea experience for FT personnel. This will be provided by the Fast Track Authority (FTA)[2] by the Fast Track Managers (FTM)[3] and Fast Track Recording Authorities (FTRA) within HMS Collingwood Warfare Training Group (WTG)[4], RNSMS Raleigh[5], RNSoS Raleigh[6], FOST HM[7] and MWS DDS[8].

c. The FTRAs will be responsible for the co-ordination of the recommendation process during Phase 2 and 3 Training, supported by the Fast Track Through Life Managers (FTTLM's)[9] who are the focal point for any advice and administrative issues relating to FT personnel. The FTTLM will report to the FTMs, ensuring that all FT timelines are strictly adhered to.

9305. Non-Selective Promotion (Advancement)

Individuals on the FT scheme will, subject to the necessary qualifications being obtained, be subject to non-selective advancement, based on their Due Date for Advancement. Individuals will be advanced provided that they are eligible in all respects as detailed within the flow charts at the Annexes.

a. **FT AB.** An AB selected for FT AB (AB2-LH) will be awarded a Due Date[10] to LH of 24 months from the Fast Track Start Date (FTSD)[11]. For FT AB (Diver) only, the Due Date will be 36 months from FTSD[12]. The FTSDs given below for a FT AB will be determined for GS by the date they join their sea going unit, or for SM the date of passing SMQ(Wet), as follows:

(1) Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ between 1 Apr and 31 Jul will be awarded a FTSD of 31 Jul.

---

[2] Warfare Professions Manager SO1.
[3] WFPM WAR GS WO1 for WS(AWT), WS(AWW), WS(EW), WS(UW), INT and SEA: WFPM WAR SM WO1 for WS(SSM), WS(TSM), (MW), H, METOC and Divers.
[4] WT WTG OiC Warskills for support to War FT personnel.
[5] RN SMS OiC War Trg for support to SM personnel.
[6] RNSoS OC.
[7] FOST HM OiC H/OiC METOC.
[8] MWS DDS CO.
[9] The FTTLM for WS(AWT), WS(AWW), WS(EW), WS(UW), INT, SEA, H, METOC and Divers is position (Navy People-WFPM WAR TRA FTLM) while the FTTLM for WS(SSM) and WS(TSM) is position (NAVY PEOPLE-TMG RNSMS AWTO).
[10] Due Date for Advancement is the equivalent of Common Promotion Date (CPD) for selective promotion in determining seniority in the higher rate.
[11] The 24 months comprise 12 months sea time and 12 months for completion of PQC and LRLC.
[12] FT AB (Diver)s require 36 months to gain sufficient experience to comply with Diving At Work Regulations 1997.

(2) Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ between 1 Aug and 30 Nov will be awarded a FTSD of 30 Nov.

(3) Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ between 1 Dec and 31 Mar will be awarded a FTSD of 31 Mar.

b. **FT LH.** An AB1/LH selected for FT LH in Phase 3 Training will retain their seniority date as a LH, with a Due Date to PO of 36 months from their FTSD[13]. FT LH FTSDs will be standardised to 31 Jul, 30 Nov or 31 Mar, as above.

c. **FT LH (Optional Accelerated Advancement).** In the case of Optional Accelerated Advancement, the Due Date will be advanced from the standard FTSD plus 36 months to FTSD plus 24 months.

9306. Selection, Recommendation and Transfer to the FT Scheme

A selection process will be conducted by the FTRA prior to an individual being recommended for entry onto the FT scheme. There will be two selection points:

a. **FT AB to LH.** The selection point will be on completion of Phase 2 Training (AB PQC)[14]. This will provide the opportunity for the individual to demonstrate that they have the necessary ability and leadership potential to succeed on the FT scheme, and have potential to operate as a competent Leading Hand in a short timeframe.

b. **FT LH to PO.** The selection point will be on completion of Phase 3 LH PQC[15] and LRLC. This will provide the opportunity for an individual to demonstrate that they have the necessary ability and leadership skills to succeed on the FT scheme, and have the potential to operate as a competent Petty Officer in a short timeframe. This selection point will consider individuals who are currently on the FT scheme to LH, those who have an AB1 FT CO Recommendation from sea as well as all other LH selectees who complete LH PQC and LRLC.

c. Personnel selected for FT AB during Phase 2 Training who remain on the scheme (subject to completing all eligibility criteria and CO's recommendation) will be advanced to LH. On completion, they will be removed from the FT scheme and revert to selective promotion for PO, unless they are subsequently selected for FT LH. Personnel selected for FT LH during Phase 3 training who remain on the scheme (subject to completing all eligibility criteria and CO's recommendation) will be advanced to PO. On completion, they will be removed from the FT scheme and revert to selective promotion for CPO.

[13] LH to PO FTSD will commence when rating joins their sea assignment. The 24 or 36 months includes 12 months for completion of PQC and SRLC.
[14] To include SMQ(Dry) for War SM, and EOD training for (Diver).
[15] To include EOD training for (Diver).

9307. Selection/Recommendation Process

The selection/recommendation process will be co-ordinated by the FTRA and include an interview and an assessment of an individual's training and experience to date, in order to determine their suitability based on the key selection criteria outlined below.

Table 93-1. Key Selection Criteria

Selection Point	Key Selection Criteria	Candidate Pool
Phase 2 AB PQC	1. Functional Skills Level 1 or above achieved. 2. Serving on a Full Career ES1/FC/OE1 that expires after the nominated Due Date. 3. Above average score during Phase 2 Module Assessments (Formative & Summative). 4. Level of potential for Command, Leadership and Management in the next higher rate. 5. Recommended from Phase 2 Training to be a FT AB (to LH). 6. At least 6 months since last Career Check (if any). 7. Passed Selection Interview. 8. For sideways entry Divers, previous service will replace Talybont and Phase 1 reports.	All AB2s recommended for FT during Phase 2 Training.
Phase 3 LH PQC	1. Functional Skills Level 2 achieved. 2. Serving on a Full Career ES1/FC/OE1 that expires after the nominated Due Date. 3. CO's Recommendation from sea[16] (not mandatory). 4. Above average score or training school equivalent during Phase 3 Module Assessments (Formative & Summative). 5. Potential for Command, Leadership and Management in the next higher rate. 6. Recommended from Phase 3 Training to be a FT LH to PO. 7. Passed LRLC. 8. At least 6 months since last Career Check (if any). 9. Passed Selection Interview.	All LHs recommended for FT during Phase 3 Training.

9308. AB1 CO's Recommendation for FT LH from Sea

Non-FT selected substantive AB1s who are eligible for promotion to LH and who demonstrate suitable levels of competence during their routine sea employment can be recommended as a potential FT LH - PO candidate. The recommendation is to be recorded on JPA as 'ProfessionalIFast Track LH CandidateINavy', with supporting comments on recommendation included by the 3RO in their next SJAR[17]. This is to be reflected with the appropriate grading in the Promotion – 1 Rank Up and 2 Ranks Up tab. The FT sea recommendation from the SJAR will be taken into consideration during the standard selective promotion process for AB to LH and will form part of the LH FT Selection process.

[16] CO's Recommendation can also be from shore assignment for AB1 (Diver).
[17] 3RO will normally be CO.

9309. Transfer to Fast Track

Candidates who are successful at the selection interview will then be recommended to the FTM for inclusion on the FT Scheme. Upon approval, the FTTLM will liaise with the relevant CM to identify and assign FT ratings to suitable platforms. Individuals on the FT scheme will continue to be assigned by the relevant Career Management Cell (CMC).

9310. Service on the Fast Track Scheme

a. The FT scheme is designed to accelerate individuals through the advancement system in a timescale that is at least as quick as, and in most cases faster than, the normal selective promotion process. In order to facilitate this, individuals will be carefully managed and therefore the following exceptions to normal career management need to be applied. These exceptions will be acknowledged by successful candidates when they sign the Certificate of Understanding (Part A); accepting the terms of service of FT scheme:

(1) **Waiver of Minimum Assignment Notice.** In order to maximise the at sea training opportunities, individuals selected for FT may require shorter than the usual minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for sea and between platforms, as well as courses and employment associated with their advancement.

(2) **Waiver of Rights to Selective Promotion whilst on FT.** The requirement to carefully manage individuals on the FT scheme, together with the bespoke nature of the selection and advancement criteria, precludes individuals from following the dual paths of FT advancement and selective promotion simultaneously.

b. FT ABs will transfer to the normal selective promotion scheme on successfully achieving advancement to LH, and FT LHs on successfully achieving advancement to PO. Individuals removed from the FT scheme will also transfer to normal selective promotion. On transfer from FT to selective promotion, either on successful advancement or de-selection from FT, the Certificate of Understanding (Part B) will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. Certificates will be produced by the FTTLM and signed copies will be retained by both the FTTLM and individual. The FTTLM is to ensure that each individual is seamlessly transferred to selective promotion and all competences achieved are correctly recorded. An SJAR is to be raised at the next CRD as part of the transfer process.

9311. Accelerated TPS to OPS

a. FT personnel should, where possible, be employed in optimum billets as assigned by their CMC for the rate they hold. This will require close management by Career Managers (CMs) and the FTTLM. The FT scheme timeline does not allow for employment ashore[18] (except courses) and CMCs should, wherever possible, assign FT personnel to sea positions on completion of their PQC, as FTSD is set to the date of joining first sea unit, and hence determines the Due Date.

[18] With the exception of AB1(Diver) – see para 9311 C.

b. FT personnel are to be employed within unit departments in the same manner as their non-FT counterparts, and are to perform all aspects expected of their role. In order to achieve their training requirements, a FT individual will be required to maintain a high degree of personal motivation, and will need to be fully supported by their platform and afforded suitable opportunities to develop. Unit staff will need to carefully balance the training burdens of FT and non-FT personnel to ensure all are provided with fair opportunities to undertake training whilst noting the aspiration for FT personnel to complete the required training within a shorter time frame than normal.

c. FT AB (Diver)s will spend an additional 12 months prior to the Recommendation for Advancement to LH point. The 24-month period will be split between an initial 12 months at sea in an MCMV crew, followed by 12 months at FDS. This additional phase is necessary to ensure that the FT AB gains sufficient diving experience to safely complete LH PQC.

d. Where a units's programme changes, or a FT individual cannot be suitably employed (such as a unit undergoing Upkeep), and the individual will be unable to achieve their advancement criteria, the Units' Staff are to liaise, well in advance, with the FTTLM to discuss alternative employment options.

e. All FT personnel will be expected to proactively manage and 'own' their training, and should therefore present a training plan to the unit Training Co-ordinator detailing when they believe they will achieve the required training milestones. This could be achieved as part of the joining interview, in consultation with the Divisional SR. The training plan should be reviewed and recorded as objectives for the individual as part of the SJAR process.

f. The FTTLM will maintain a record of all individuals' progress towards achieving the training requirements to meet their advancement Due Date. Unit Staff are to liaise directly and regularly with the FTTLM to enable this process.

g. All FT personnel must achieve Professional OPS in their current rate and remain in date for annual OPS checks. FT AB will achieve OPS as an AB1, and should therefore be in date for Annual OPS, providing that all other criteria are met. They are encouraged to undertake an Annual OPS Check prior to attending PQC to ensure that they are still in date, and as a refresher for the course itself. FT LH must achieve OPS as a LH, but will be required to be in date for their Annual OPS Check prior to the 24-month SJAR 2 and for attendance at PQC.

9312. SJAR Reporting Requirements

a. SJARs and MPARs remain a mandatory requirement for all FT individuals and comment should be made on their current performance (including OPS/OPS Check status), CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual's potential for the next FT stage. The SJAR must contain evidence to support these recommendations.

b. Due to the limited time FT ratings spend in sea assignments there is a requirement to increase the level of reporting. During the LH to PO FT reporting time frame an opportunity exists to accelerate advancement from 24 to 12 months, based on a CO's recommendation for early advancement based on merit and previous experience.

(1) **AB to LH Reporting Timeframe from FTSD.**

(a) 3 Months MPAR.

(b) 6 Months SJAR 1 (progress SJAR[19]).

(c) 9 Months MPAR.

(d) 12 Months SJAR 2 (CO recommend for advancement to LH).

(2) **AB to LH (Diver) Reporting Timeframe from FTSD.**

(a) 6 Months MPAR.

(b) 12 Months SJAR 1 (on completion of 12 months sea time - to include recommendation to remain on FT).

(c) 18 Months MPAR.

(d) 24 Months SJAR 2 (CO's recommendation for advancement to LH)[20].

(3) **LH to PO Reporting Timeframe from FTSD.**

(a) 6 Months MPAR.

(b) 12 Months SJAR 1. To include:

i. Recommendation to remain on FT.

ii. (If applicable) recommendation for Optional Accelerated Advancement[21].

(c) 18 Months MPAR.

(d) 24 Months SJAR 2 (CO's recommendation for advancement)[22].

[19] Progress SJAR compiled on JPA to enable capturing of recommendation and overall grading.
[20] SJAR 2 should record that subject is in date Annual OPS Check.
[21] FT LH recommended for Optional Accelerated Advancement must be in date Annual OPS Check on arrival at PQC.
[22] SJAR 2 should record that subject is in date Annual OPS Check.

c. The 12 Months SJAR 2 for FT AB and the 12 Months SJAR 1 for FT LH (for Optional Accelerated Advancement Point only) should not be raised until 12 months sea service has been accrued. The reporting unit should inform the FTTLM of any expected delays in order that career management adjustments can be made. Applications to delay the 'recommend' SJAR should be made to the FTTLM, who will seek approval from the FTM. If the delay is approved, the default position will be to defer the recommendation for advancement and the Due Date by 4 months, to the next standard date. The 12/24-month SJAR should still be raised, stating reasons for deferral. A subsequent SJAR will then be required to support the delayed recommendation.

d. On removal from the FT scheme through successful advancement to the higher rank, an annual SJAR must be raised at the next CRD for the individual's substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

e. On removal from the FT scheme through de-selection, a SPEC AR[23] must be raised to record the circumstances of the removal from the FT scheme. An annual SJAR must be raised at the next CRD for the individual's substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

9313. Substantive Advancement

a. **Attending a PQC.** The planning and enrolling of individuals onto a PQC will be completed by the CMC in liaison with the FTTLM. In general, FT personnel will be provisionally allocated a PQC and LRLC/SRLC start date at, or shortly after, transfer to Fast Track. The FT LH will be provisionally booked on PO PQC 12 months prior to course start[24]. Attendance on both the LH and PO PQC will be dependent upon the completion of all of the relevant advancement criteria. Frequent liaison between the employing unit and the FTTLM will ensure that Training Schools, CMCs and employing units will be able to effectively plan the movement of FT personnel.

b. **Leadership Training.** All FT personnel must complete LRLC or SRLC, as appropriate, as part of their next higher rate. Preparation for and completion of these courses is essential and although the responsibility to be fully prepared rests firmly with the individual, it is to be supplemented with appropriate coaching and mentoring by unit staff. The unit lead for the FT scheme is considered to be the Head of Department who must take an active interest in the performance of FT personnel.

[23] JSP 757 Pt 2 Vol 1 para 1c(1).
[24] Or place reserved if course not yet loaded on to JPA.

c. **Advancement.** Personnel who remain on the FT AB scheme will be advanced to LH (subject to completing all eligibility criteria and receiving their CO's recommendation) at 24 months from FTSD on their Due Date. Personnel who remain on the FT LH scheme will be advanced to PO (subject to completing all eligibility criteria and receiving CO's recommendation) at 36 months from FTSD (Due Date), or at 24 months if selected for the Optional Accelerated Advancement point (Due Date). In all cases, individuals who complete the eligibility criteria prior to Due Date can be advanced to the acting higher rate[25]. The FTTLM is to ensure that all JPA administrative action is taken for the FT Rating's substantive advancement.

d. There may be occasions where a FT AB or LH is at their Due Date by time but has failed to satisfy the advancement criteria by their Due Date. An award of the acting higher rate may be considered by their CO[26], keeping the FTTLM informed.

9314. Fast Track Failure Policy and De-Selection from Scheme

Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they choose voluntarily to remove themselves. Where an individual, through their own actions or ability, has not been able to maintain FT accelerated training they may be de-selected from the FT scheme. If de-selected, personnel revert back to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at Annex G.

9315. Fast Track Notes

a. **Educationally Qualified for Advancement.** It is mandatory that the appropriate educational qualification is held prior to starting Fast Track – Functional Skills Level 1 or higher for AB and Level 2 for LH.

b. **Career Check.** Due to the tight timescales, receipt of a Career Check will result in automatic deselection from the Fast Track scheme.

c. **24 Month Due Date.** During the LH to PO FT reporting time frame an opportunity exists to accelerate advancement where a CO can recommend a FT rating for early advancement based on merit and previous experience.

d. **Unsuitable Candidates.** Where, during the period of the PQC, candidates are found to be unsuitable[27] for advancement to the next higher rate, they may be withdrawn from training by the CO of the relevant Training School. In such cases, individuals will be deselected from Fast Track scheme. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.

e. **Refusal to Undertake the QC.** Individuals who refuse to undertake the PQC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.

[25] BRd 3(1) para 6913.
[26] BRd 3(1) para 6802.
[27] The required attributes of the next higher rate.

f. **Achieved OPS/Annual OPS Check.** It is a requirement that individuals achieve OPS in the new rank within the timescales outlined, and remain in date for Annual OPS Check throughout to ensure that each key stage is achieved without delay. Individuals must be in date for Annual OPS Check at start of PQC.

ANNEX 93A

WARFARE SPECIALIST (AWT/AWW/UW/EW) FAST TRACK ADVANCEMENT FLOWCHART

Table 93A-1. AB WS (AWT/AWW/UW/EW)1 Pre-Advancement Requirements

Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to LH of 24 months from this date.

Requirement	Competency	Proficiency Level	Notes
Assigned to sea billet (join date determines FTSD)			
Completed WTTB - achieved RPS as AB(WS), authorised by Warfare HOD.	Professional|RPS for AB1 WS(AWT)|Navy| Professional|RPS for AB1 WS(AWW)|Navy| Professional|RPS for AB1 WS(EW)|Navy| Professional|RPS for AB1 WS(UW)|Navy|	Pass

ANNEX 93G

FAST TRACK SCHEME TERMS OF SERVICE AND FAILURE POLICY

1. FT Terms of Service

a. The FT scheme affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that FT personnel will perform at a higher than average level of competence in all aspects of training and employment. The scheme's success is dependent on both the individual and the unit's organisation to ensure sufficient progress is made towards the next higher rate. To ensure this occurs the scheme will be externally assured by the FTMs and their teams.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date. It is expected that FT personnel will be appropriately supported in their unit and placed on warning in a timely manner to highlight where progress is not sufficient in order to support recovery and indicate not only the failure but the potential impact to the Due Date achievement and how to recover the situation. At all times an FT individual must maintain a positive recommendation to remain in the scheme and for the next advancement. Any training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the scheme.

c. To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including being advanced, in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand, whilst on the FT scheme, that they will:

(1) Not be considered at Selective Promotion Boards until removed from FT scheme,

(2) Be required to waive their minimum time for assignment to sea and shore, and

(3) Be required to waive their 660/3 Separated Service Allowance.

d. On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual reversing the process, with an individual returning to Selective Promotion and minimal notice for future assignments.

2. FT Scheme Failure Policy

a. Where it is suspected that agreed targets may not be achieved, for reasons within the control of the individual, FT personnel are to be placed on warning in a timely manner to highlight the concern to the individual and ensure a recovery plan is created and followed. This will also highlight to the FTTLM the potential delay in the individual's progression and potential for removal from the scheme.

b. There may be extenuating circumstances[1], both Service (e.g. ship's programme) and non-Service (e.g. compassionate or medical reasons) which may prolong an individual's time within the training pipeline. Delays may have an effect on the ability to meet progression to LH or PO within the expected time and in all circumstances the FTTLM should be informed at the earliest point.

c. The FTM has the authority to remove personnel from the FT scheme and will do so where it is deemed appropriate in all the circumstances. Prior to making a decision, the FTM should seek advice from the relevant FTA and the FTTLM.

3. Removal from the FT Scheme

a. A Rating may be removed from the scheme in any of the following circumstances:

(1) Submission of an Early Termination request or request to leave the scheme.

(2) Failure to achieve RPS.

(3) Not being recommended for advancement by CO.

(4) Failure of Leadership Course (LRLC or SRLC).

(5) Removal from course.

(6) Career Intermission[2].

(7) Poor performance relating to professional performance or CLM failings.

(8) Imposition of a Career Check.

(9) Other significant reason which the FTM deems sufficient to justify removal.

b. On submission of a request for Early Termination an individual will be de-selected from the FT scheme. Unit Staff and Career Managers are to ensure they liaise with the FTTLM prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

[1] These occasions should be rare, as the CO and FTTLM should be working to meet the tight FT timescales.
[2] Previously called Career Break.

c. When being de-selected from the FT scheme, the FTTLM will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(1) Individual is to be fully briefed on all aspects of removal and that future promotion will be by selection.

(2) A SPEC AR raised detailing reasons for the de-selection.

(3) FT Certificate of Understanding (Part B) to be completed by the FTTLM.

(4) FTTLM to remove the JPA FT competence.

(5) Individual's seniority date to be agreed with FTM and recorded on JPA.

4. Volunteer for Removal from the FT scheme

a. At any stage of the scheme an individual can volunteer to be removed from FT and revert to selective promotion. The process is detailed below, and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this action be carried out by the unit HOD.

b. A request by an individual for removal from the FT scheme is to be forwarded to the FTTLM for review and consideration. The FTM will retain the authority to remove any rating from the FT scheme. The process to be followed is indicated below:

(1) The FT rating is to submit a formal request to the CO detailing the explanation why they wish to be removed from the FT Scheme.

(2) If the request for removal is associated with submission of Early Termination, the FTTLM will liaise with CMC Career Manager before advising the HOD on future employment plans.

(3) If at sea the rating is expected to remain in that position.

(4) If the request for removal is not associated with an Early Termination request but occurs on LH PQC or PO PQC, the individual will be removed from the course and reassigned at their substantive rank. All cases will be treated individually and be approved by the FTM.

c. Individuals removed from the FT scheme will be career managed by their appropriate CMC and employed according to the Needs of the Service. It is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore to be expected that these individuals will be assigned back to sea at the earliest opportunity by CMC.

5. Failure within Professional Qualifying Courses

a. FT personnel who fail on AB, LH or PO PQC will be managed by the Training Schools PQC Training Failure Policy.

b. Back-classing of FT personnel is to be considered only for exceptional reasons outside of any professional training failure. Where back-classing is necessary, then the individual case will be reviewed by the Training School, FTRA and FTM to assess the impacts to the individual's training. Where a FT individual is being back-classed then, following liaison with the FTRA, the Training School will review the circumstances of the back-classing and consider on a case by case basis if the individual is to remain on the FT scheme.

c. Where FT personnel fail or miss course module(s), then the Training School policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or non-Service reasons, **in all cases** the FTRA is to be notified. Whether an individual remains on the FT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, FTRA and the FTM.

6. Failure of Leadership Courses

a. As Fast Track ratings, it is expected that all FT personnel will allocate sufficient time and preparation to pass the required leadership courses.

b. FT personnel who fail LRLC or SRLC may be de-selected from the scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation is made by Royal Navy Leadership Academy (RNLA) Staff for return to leadership course, a de-selection from the FT scheme waiver may be considered. This must be approved by the FTM.

c. On removal from the FT scheme following failure at LRLC or SRLC, the individual will be transferred to the selective promotion route at their current rank. The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

7. Ratings Removal from the Fast Track Scheme

In all other cases, units should make application to the FTTLM for the rating's removal. The FTTLM will conduct all administrative actions for a rating's removal from the FT scheme.

ANNEX 93H

FAST TRACK CERTIFICATE OF UNDERSTANDING PART A

TRANSFER TO THE WARFARE FAST TRACK SCHEME

Being subject to: Advancement by time in accordance with BRd 3(1) Chapter 68 and possible changes in minimum notice for assignment to sea and shore.

Part 1 - Individual's Details

FULL NAME (in Capitals)	SERVICE No.	RATE

Date of Selection	Fast Track Start Date	Due Date Advancement	Remarks

Part 2 - Individual's Declaration[1]

I understand that during my time on the Warfare Fast Track scheme:

I will be subject to advancement by time, as detailed in BRd 3(1) Chapter 68, rather than selective promotion and, therefore, I will not be considered by Selection Boards for Promotion.

I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59.

Signed: ..... Date: .....

Part 3 - Fast Track Through-Life Manager[2]

The above-named rating has been transferred to the Warfare Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

Advancement To	Due Date Advancement
LH/PO*	

** delete as applicable*

Signed: ..... Rate/Rank*: .....

Name*: ..... Date: ..... **Block Capitals*

[1] A copy of the Certificate of Understanding Part A is to be retained by the individual.
[2] The Certificate of Understanding Part A is to be retained by the FTTLM for a period of 3 years after the individual leaves the Warfare Fast Track scheme.

FAST TRACK CERTIFICATE OF UNDERSTANDING PART B

REMOVAL FROM THE WARFARE FAST TRACK SCHEME

Part 1 - Individual's Details

FULL NAME (in Capitals)	SERVICE No.	RATE

The above-named rating has been removed from the Warfare LH/PO (delete as appropriate) Fast Track scheme and will no longer be subject to time-based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

RATE	SENIORITY DATE

Part 2 - Individual's Declaration[3]

I understand that on removal from the Warfare Fast Track scheme:

I will return to being subject to selective promotion as detailed in BRd 3(1) Chapter 67.

I will be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59.

Signed: ..... Date: .....

Part 3 - Fast Track Through-Life Manager[4]

The above-named rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date:

The following actions have been completed:

The individual has been fully briefed on implications of removal from the Warfare Fast Track scheme.

All Warfare Fast Track competences have been removed from JPA.

The Individual's seniority date has been agreed with the Fast Track Authority and recorded in JPA.

Signed: ..... Rate/Rate*:.....

Name*: ..... Date:..... **Block Capitals*

[3] A copy of the Certificate of Understanding Part B is to be given to the individual.
[4] The Certificate of Understanding Part B is to be retained by the FTTLM for a period of 3 years after the individual leaves the Warfare Fast Track scheme.

ANNEX 93I

METEOROLOGY AND OCEANOGRAPHIC FAST TRACK ADVANCEMENT FLOWCHART

Table 93D-1. AB METOC 1 Pre-Advancement Requirements

Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to LH of 24 months from this date.

Requirement	Competency	Proficiency Level	Notes
Assigned to shore billet (join date determines FTSD)

CHAPTER 94

WARFARE PROFESSION - INTELLIGENCE SPECIALISATION

9401. General

This Chapter covers the career regulations for the Intelligence Specialisation (INT Spec). Divisional Officers are to ensure access to this chapter is retained as necessary for every member of the INT Spec.

9402. Entry Into the Intelligence Specialisation

Criteria for Direct Entry (DE) personnel into the INT Spec is in accordance with the Job Eligibility Matrix maintained by People and Training (P&T) Directorate.

9403. Intelligence Specialisation Eligibility Criteria for Sideways Entry

Sideways Entry (SE) applicants who meet the initial eligibility criteria highlighted in this para may be considered for transfer into the INT Spec. This will be subject to the Service requirement[1], successful completion of the Naval Intelligence Aptitude Board (Ratings) (NIAB (Ratings) (NIAB(OR)), and the training capacity of the Professional Qualifying Course (PQC)[2]. The following initial Specialisation transfer eligibility criteria will apply for all OR applicants up to the rate of OR9:

a. Have a minimum of three years to serve on completion of INT 100 PQC.

b. Hold minimum rate of AB1 and completed First Complement Assignment (FCA) as trained strength in their source Specialisation (to include 12 months sea time and RPS check recorded on JPA for their current rate). Personnel on the untrained strength will not be permitted to apply for transfer to the INT Spec.

c. All source Specialisation PQCs and the leadership courses corresponding to their rate to have been successfully completed.

d. Educationally qualified for their rate. (BRd 3(1) Para 0934).[3]

e. Medical Employment Standard (MES) Category is Medically Fully Deployable (MFD). Permanent Medical Limited Deployable (MLD) will be considered by exception and will be determined by the INT Professions Manager/Workforce Planner.

f. Not be subject to administrative action, unspent convictions, or disciplinary matters at the time of application or selection. (Minimum of six months since last career check).

[1] As set by the Workforce Planning and Professions Manager (WFPM) within the P&T Directorate.
[2] INT 100 PQC - (Phase 2). Eight weeks in duration and conducted at the Warfare Training Group (WTG) HMS COLLINGWOOD.
[3] Education for Promotion.

g. Hold British nationality[1] with an ability to gain a DV clearance[2] and meet the requirements to be read-on to STRAP.

h. Obtain a strong recommendation from their Commanding Officer, which must consider the Service Person's (SPs) potential to handle vast quantities of information and process into clearly written assessments and effective oral briefings.

9404. Intelligence Specialisation Application Process

The general arrangements for Specialisation transfers are in accordance with BRd 3(1) Ch 51[3]. Applicants are reminded that Specialisation transfers are not a right, as acknowledged by Ratings and Other Ranks on Form S3049 when they enlist in the Service.

a. Due to limited NIAB(OR) and Intelligence PQC places available each training year, full workforce clearance will need to be applied for and approved prior to the applicant attending the NIAB(OR).

b. If the eligibility criteria in Para 9403 is met, the applicant must then seek approval from their Divisional Officer (DO). Their DO must then arrange for the applicant to be seen by the CO/OC at Table/Orderly Room. If the application is supported by CO/OC, the applicant is to apply for formal Workforce clearance and permission to attend the NIAB(OR) iaw Ch 51.4[4].

c. On receipt of the workforce clearance application, Professions and Career Managers will record all details provided and will confirm all criteria has been met. A decision will then be made iaw the process in BRd 3(1) Ch 51 whether to approve workforce clearance and permission to attend the NIAB(OR)5. The results will be promulgated in an email to the applicant's Chain of Command (CoC) as well as other relevant stakeholders.

d. If workforce clearance and permission to attend the NIAB(OR) is approved, the applicant's unit is to liaise with both the INT Spec Advisor (INT SPECAD) and the Intelligence Training Element (INT TE) within the Warfare Training Group (WTG)[6] to arrange loading onto the next available NIAB(OR). Applicants should note that it can take up to 12 months from successful workforce clearance to be loaded onto a NIAB(OR).

[1] A MoD approved nationality waiver is acceptable.
[2] DV application is only authorised following the candidate and their Chain of Command (CoC) receiving formal notification from the INT Spec Ad, that they have been successfully extracted at the NIAB(OR) Extraction Board and awarded a confirmed place by the Career Manager (CM) on the next INT 100 PQC.
[3] Profession and Specialisation Transfers.
[4] The following information must be included: applicant's name, rate and service number, confirmation they meet all the INT Spec initial eligibility criteria and BRd 3(1) requirements listed in para 9403, and they have received CO/OC support to transfer.
[5] This will consider workforce requirements of both the applicant's source Specialisation and the INT Spec.
[6] At HMS COLLINGWOOD.

e. If workforce clearance has not been approved the reason(s) why and any remedial action required before submitting another application will be listed on the email.

9405. Flexible Service (FS)

SP are permitted to apply for Specialisation transfer to the INT Spec and undertake the NIAB(OR) whilst undertaking a period of FS but will be required to terminate this arrangement prior to commencement of the INT 100 PQC. SP can apply to reduce the normal 90 days' notice[1] period required to terminate the FS agreement in order to attend the INT 100 PQC.

9406. Naval Intelligence Aptitude Board (Ratings) for Sideways Entry Candidates

All prospective Intelligence Ratings are assessed for aptitude at the INT TE WTG. The NIAB(OR) consists of a two-day selection process and consists of a number of elements to assess a candidate's suitability for transferring to the INT Spec.[2] The NIAB(OR) is designed to:

a. Identify suitable candidates who demonstrate the necessary professional and personal attributes required to successfully attempt and pass intelligence training (INT 100 PQC) and undertake future intelligence employment.

b. Identify candidates who demonstrate the cognitive capacity and ability to operate under pressure.

c. Provide the candidates with an understanding of the characteristics[3] expected of an RN Intelligence Rating.

(1) Provide the candidates with an understanding of the rigors of Intelligence employment, deployable requirements, and their contribution to the RN's ability to achieve Information Advantage over potential adversaries.

(2) Offer the candidates a chance to determine whether the INT Spec is the career path they wish to pursue.

d. The applicant will be required to attend the NIAB(OR) with a fully completed Annex A of the NIAB(OR) joining instructions. Annex A must include their CO/OC's signature stating the applicant continues to meet all criteria as listed in Para 9403, has been briefed on any career implications, and that they retain their recommend.

e. NIAB(OR) dates and joining instructions will be promulgated via email by the INT SPECAD six weeks before the board start date. NIAB(OR) dates will vary throughout the training year, based upon workforce clearance numbers and Service requirements.

[1] Refer to JSP 750 Ch 2, Section 2, para 11 (c).
[2] Personnel who have successfully passed the NIAB(Officers) (NIAB(OF)) at the Naval Intelligence Division will not be required to sit the NIAB(OR). A NIAB(OF) assessment and performance feedback report will be supplied to the OiC INT TE WTG and INT Spec Ad. This report will assist with the remainder of the Int Ratings selection process iaw Para 9406 - 9409.
[3] These characteristics (i.e. required skills and interests) are outlined in the Intelligence Warfare Rating recruitment leaflets held on the RN recruitment website and AFCOs. https://www.royalnavy.mod.uk/careers/roles-and-specialisations/services/surface-fleet/warfare-specialist-intelligence.

f. **MEDCAT**. It is the responsibility of all candidates to ensure that their MEDCAT or MES limitations do not preclude them from carrying out the required selection tasks. If in doubt, they are to contact the INT TE within WTG about the requirements of the NIAB(OR). The staff will not give direction on whether a person is fit to carry out the NIAB(OR) but can give guidance on what is involved. If in doubt, it is the duty of every candidate to check with their unit medical centre for specialist advice on whether they are fit to carry out the selection process.

g. **Board content**. The NIAB(OR) will contain written and verbal assessments covering the following subjects:

(1) Current affairs general knowledge (to include key national and international individuals/groups, geography, military equipment and recent global events).

(2) Analytical, processing and information extraction abilities.

(3) Essay writing.

(4) Briefing (written and verbal).

(5) Formal interview.

h. **Assessment and Reporting**. Assessment scores for each task, as well as the formal interview, will be used to inform the board of the receptiveness of each candidate to formal intelligence training and suitability for future intelligence employment. This will result in one of the following grades:

(1) **SUITABLE.** The applicant has displayed the necessary attributes to be considered for extraction to undertake professional intelligence training.

(2) **UNSUITABLE.** The applicant has not displayed the necessary attributes to be considered for a transfer into the INT Spec.

(3) **DEFER.** The board wishes to liaise with external stakeholders before pronouncing on the applicant's suitability for transfer.[1]

i. All candidates will be informed of their result on the final day of the NIAB(OR). Regardless of the final assessment grade, all candidates will receive verbal constructive feedback at the end of the selection process.

9407. Post NIAB (Ratings) Process

a. The INT Spec Ad will email the DO of each candidate, PM and CM with their result within **one week** of the conclusion of the board.

[1] This can include the need to consult with PSyA/UKSV over potential issues in holding Developed Vetting (DV), a wish to speak directly to the applicant's CoC or clarification of eligibility criteria iaw Para 9403.

b. All candidates will have the following competency annotated on JPA: **Professional|Naval Intelligence Aptitude Board-Ratings|Navy|**. The competency will include one of the grades at Para 9406 sub para h 1-3. The candidate's Unit Personnel Office (UPO) will be responsible for uploading this competence, utilising the INT Spec Ad's email as authority to do so. This competence will remain valid for **two years** from the date of the INT Spec Ad's email.

c. Candidates who have been assessed as **SUITABLE** by the NIAB(OR) will be:

(1) Loaded onto the INT 100 Extraction Board (EB), as detailed in Para 9408.

(2) Required to inform WFPM, INT TE WTG and the INT SPEC AD of **any** change in professional or personal circumstances which may alter their eligibility iaw Para 9403 and Para 9406 sub para d. Failure to do so would display a significant lack of integrity and therefore result in an immediate **UNSUITABLE** NIAB(OR) assessment and restriction on submitting any further workforce clearance request to transfer into the INT Spec for **two years**.[1]

d. Candidates who have been assessed as **UNSUITABLE** by the NIAB(OR) will be informed as to whether they will be invited to re-attempt the NIAB(OR) in the future. Workforce clearance is no longer extant, and this will need to be reapplied for again if the candidate is invited back to the NIAB(OR) and they are still interested in joining the INT Spec. A minimum period of **12 months** is required between NIAB(OR) attempts and a candidate may only attempt the NIAB(OR) **twice** in total.

e. Candidates who have been assessed as **DEFER** by the NIAB(OR) will be:

(1) Informed during the NIAB(OR) assessment why the board has decided to Defer, what action will now be taken within a clear and agreed timeframe.

(2) Retained as a volunteer for transfer by WFPM, pending the outcome of Para 9407 sub para e 1.

9408. INT 100 Professional Qualifying Course Extraction Board

a. Candidates who meet the required standards on the NIAB(OR) will have their names presented at the INT 100 PQC Extraction Board (EB). The purpose of the EB is to assess the relative merit of successful NIAB(OR) candidates against each other and to provide a priority list of personnel to proceed onto professional intelligence training.

b. The INT 100 PQC EB is convened by the INT SPpecAd and OiC INT TE, WTG.

[1] If a candidate becomes ineligible, but engages early with WFPM, the INT TE or the INT Spec Ad to discuss the specifics of the case, this policy will not necessarily apply. An UNSUITABLE NIAB(OR) assessment and two-year Specialisation transfer restriction will be enforced against those candidates who do not comply with this paragraph.

c. The EB will then scrutinise a candidate's conduct and scores against all other successful NIAB(OR) candidates, based upon the workforce planning requirements for SE Ratings and the general health of the INT Spec.

d. Successful NIAB(OR) candidates who did not score competitively enough at the EB to gain a place on the INT 100 PQC will remain as **SUITABLE** for a maximum of **two years** from the date of the INT Spec Ad's email. The candidate will remain on record as a volunteer for the INT Spec but will be required to re-apply for full workforce clearance once their original clearance has expired (**two years** from date of initial approval).

e. The requirement to extract SE personnel into the INT Spec is set by WFPM within P&T, and therefore the total number extracted per training year will fluctuate depending on Service requirements. Subsequently, EBs will be held *ad hoc* throughout the year, dependent on SE extraction numbers and current inflow requirements for the INT Spec. EB dates will not be promulgated but successful NIAB(OR) candidates will be contacted as outlined in Para 9409 sub para b.

f. Successful NIAB(OR) candidates are to retain their CO's recommend for employment in the INT Spec throughout this process. Candidates who do not retain their recommend will have their INT 100 PQC place revoked, even if successful at the EB.

9409. Post Extraction Board Process

a. It is important to note that success at the NIAB(OR) is not a guarantee that a candidate will make a permanent transfer to the INT Spec. Candidates must also be extracted at an EB and successfully pass INT 100 PQC.

b. On completion of the EB, the INT Spec Ad will inform both the successful candidate and their CoC, WFPM WO1 and the Int CM by email of the result of the EB.

c. Following allocation to an INT 100 PQC, the Rating's current CM will assign them to the next available course. All SPs regardless of rate, will be enrolled onto the INT 100 PQC to act as their baseline professional intelligence training. All SE OR6-OR9 personnel will also be enrolled onto the PO(INT) Career Course (INT 101 PQC) - Joint RN/RM Intelligence Manager Course.

d. Final transfer to the INT Spec will be on successful completion of the eight-week Phase 2 INT 100 PQC and three-week Phase 3 intelligence training consolidation package. Personnel failing to meet the training standards required on the PQC will be returned to their source specialisation.

9410. Intelligence Specialisation Sideways Entry Transfer from Another Service

a. Personnel applying to join the INT Spec from the other Services (including Royal Marines) are to apply for workforce clearance iaw BRd 3(1) Ch 13[1] as well as the provisions outlined in this chapter. These personnel will be required to meet the eligibility requirements in Para 9403, Para 9404 sub para b. (1) and Para 9406 sub para d, as well as achieve a **SUITABLE** recommendation at a NIAB(OR) and be successfully extracted from an INT 100 PQC EB. (Para 9408).

b. If successful at both the NIAB(OR) and EB, the candidate will need to transfer Service prior to the commencement of the INT 100 PQC, iaw with BRd 3(1) Ch 13. The SP is to contact RISTT to commence this process. It is important to note that should the candidate fail to complete the INT 100 PQC for whatever reason, there will be **no** automatic right to re-enter their former Service.

9411. Source Specialisation Matters

If an individual, having been accepted for Specialisation transfer to join the INT Spec, has not started training but is selected for promotion in their source Specialisation, the following rules will apply:

a. Candidates should attend relevant Leadership courses iaw source Specialisation BRd 3(1) promotion flow charts. Successful loading on to Leadership course is not a pre-requisite for Specialisation transfer.

b. Those personnel who are selected for promotion in their source Specialisation after having been successfully extracted at the EB and commencing the INT 100 PQC can exercise either of the following options:

(1) Refuse promotion in their source Specialisation and commence the INT 100 PQC as planned.

(2) Accept promotion and remain in their source Specialisation. The NIAB(OR) pass will not be affected by Para 9406.

c. Once the INT 100 PQC has commenced, SE personnel will remain in their source Specialisation but will be ineligible for promotion.

d. Any individual in receipt of RRP will automatically lose it effective from the first day of the INT 100 PQC[2].

[1] Transferring into the Royal Navy.
[2] JSP 754 Pt 1 Ch 2 - Sec 13 - Pay on change of Branch and Trade.

9412. Security Clearances

The minimum security requirement for employment in the INT Spec is for the individual to hold a DV clearance. The process for when to make a DV application is as follows:

a. DE candidates will apply for DV clearance during the initial recruitment phase at their AFCO.

b. SE candidates will only be permitted to apply for a DV once they have been extracted at the EB and has been allocated a place on the next available INT 100 PQC. (Para 9403 sub-para j).

c. Any individual unable to secure DV clearance during the application process is unemployable within the INT Spec. The application process will end immediately at this point and they will subsequently be returned to their source Specialisation.

9413. Loss of DV and/or Special Clearances

The withdrawal of a DV and/or the suspension/removal of Special Clearances will severely restrict an individual's employment as an Int Rating. This could adversely impact the individual's Naval career. The decision to remove or suspend DVs or Special Clearances rests with RN PSyA and the relevant controlling authorities respectively. Such decisions are made on a case-by-case basis and the impact on the individual will generally depend on the reason for suspension/withdrawal. A range of options for future employment will be considered, involving a degree of personal preference where possible. For serving personnel who have lost their DV and/or special clearance the following will be considered:

a. Transfer to another Profession or specialisation in their substantive rate, within the constraints of Specialisation transfer regulations. (BRd 3(1) Ch 51).

b. For those within their final two years' service, or who elect to submit 12 months' notice following the removal of the DV, employment in existing rate in an 'out of specialisation' position, if a suitable one is available, until completion of career or engagement or period of notice.

c. Discharge SHORE, in accordance with BRd 3(1) Ch 54.

9414. Withdrawal from Phase 1 or Phase 2 Training

In the event of training and professional standards not been met during any stage of Phase 1 and Phase 2, and Ratings being deemed unsuitable for intelligence training, the following options will be made available iaw extant HMS RALEIGH Phase 1 and Warfare Training Group (WTG) policy:

a. DE personnel will be given career counselling and where applicable suitable Specialisation transfer options proposed after consultation with the Under Trained Strength (UTS) Pipeline Manager, Phase 2 Victory Squadron and INT TE WTG.

b. SE personnel may be offered alternative employment within the Warfare Profession or return to their source Specialisation after consultation with the WFPM teams dependent on the needs of the Service.

c. Discharge SHORE, in accordance with BRd 3(1) Ch 54.

d. Individuals who wish to withdraw from the INT 100 PQC training voluntarily may be permitted to do so only after full consultation with the GSW Workforce Planner, OiC INT TE WTG and INT Spec Ad.

9415. Training Performance Statements, Workplace Training Task Books, and Role Performance Statement (Professional and Annual)

a. On successful completion of Phase 2 Intelligence Training - INT 100 PQC and Phase 3 Training - Operational Maritime Intelligence Course (OPMIC) for OR2-OR9 personnel, the Training Performance Statement (TPS) for that rate will have been attained. Individuals will then be issued with the appropriate Workplace Training Task Book (WTTB). In the subsequent intelligence assignment, a Rating will be deemed to have achieved Role Performance Statement (RPS) on successful completion of the core career workplace training section of the relevant WTTB **(TPS + OJT = RPS)**.

(1) **Recording of Competency - INT 100 PQC.** To be input to JPA by the appropriate unit HR administrator under the following:

Warfare|AB (INT) Career Course (INT 100)|Navy|

(2) **Recording of Competency - OPMIC.** To be input to JPA by the appropriate unit HR administrator under the following:

Intelligence|Operational Maritime Intelligence Course|Navy|

b. On achievement of RPS for AB1, the unit Warfare Training Co-ordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure that a **Promotion Authorisation Request (PAR)** is sent to the CM, who will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date, thus stating that the rating has achieved RPS before attempting to be advanced to AB1.

c. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some Ratings may not achieve RPS. Within the INT Spec there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is an application for administrative discharge on the grounds of unemployability.

(1) Within the INT Spec, an initial warning is set at **12 months** from completion of the INT 100 PQC (with WTTB issued), and subsequent failure of the core career workplace training section of the WTTB and RPS. This initial warning will be given by the Rating's unit in consultation with the INT TE WTG. This warning will then be recorded by the INT TE WTG, unless it has been given earlier, supported with unequivocal statements of non-recommendation for advancement in an Appraisal Report. The unit, again with consultation with the INT TE WTG, will produce a remedial training plan, implemented prior to resitting the RPS check in order to give the Rating the best chance of a successful conclusion.

(2) Warnings will then continue **3-monthly**, within the Appraisal process, up to an aggregate total of **12 months** under warning, whereupon application for administrative discharge on the grounds of unemployability will be sought.

d. **RPS Lead Authority.** The RPS Lead Authority is OiC INT TE WTG and is responsible for defining and regulating the standards required to pass an Annual RPS Check. These will be promulgated to Fleet units as required. A database of the tasks is held in the back of the INT WTTB and additional advice can be sought from the RPS Lead Authority. RPS checks can consist of both verbal and written questions and must be conducted by an in date RPS INT Senior Rate and/or in date RPS GSX(INT) Officer at least two ranks above the individual being assessed. For personnel employed in singleton units with minimal access to RN INT SQEP, personnel are to contact the INT Spec Ad, who will liaise with N2 unit training co-ordinators to facilitate the delivery of an RPS check.

e. **Recording of Competency Professional RPS.** Once AB(INT) and LH(INT) Ratings have successfully completed their WTTB and achieved Professional RPS, and LH(INT) Ratings have successfully completed their INT 101 PQC and achieved Professional RPS; those competences are to be input to JPA by the appropriate unit HR administrator under the following: (BRd 3(1) Ch 77 Para 7703, sub-para a and sub-para b and Para 7704).

Professional|RPS for AB1(INT)|Navy|

Professional|RPS for LH(INT)|Navy|

Professional|RPS for PO(INT)|Navy|

Professional RPS is a one-off competency award with no end date but will be required as a **pre-selection requirement** for the next higher rate (AB1(INT) to LH(INT), LH(INT) to PO(INT) and PO(INT) to CPO(INT).

f. **Recording of Competency - Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations[1].

(1) Maintenance of RPS is to be monitored through an Annual RPS Check process co-ordinated by the unit Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the workforce planning cycle.

(2) In exceptional circumstances some individuals may be unable to achieve the mandatory RPS checks. Where this is the case, the OiC INT TE WTG should be consulted for advice.

(3) An Annual RPS Check is not a pre-selection requirement but is required to be conducted by all AB1(INT), LH(INT) and PO(INT) Ratings. The Annual RPS check has a 12-month end date on JPA and therefore the assessment is to be conducted and recorded on JPA **every 12 months** from the date of achieving the Professional RPS for that specific rate. This is to continue until the Rating is selected for the next higher rate, whereupon this process in to be repeated when promoted into the next higher rate.

(4) The Annual RPS input to JPA by the appropriate unit HR administrator is under the following:

NCT|Annual RPS Check AB1|Navy

NCT|Annual RPS Check LH|Navy

NCT|Annual RPS Check PO|Navy

g. **Attendance on next Professional Qualifying Course (Applies to OR4 and above only).** An Annual in-date RPS Check is a **pre-requisite** requirement for LHs and above enrolled onto the INT 101 promotion career course. The RPS check conducted in the lower rate is to be conducted **no earlier** than **three months** prior to INT 101 PQC start date and recorded on JPA. RPS qualifications will be checked on attendance of the INT 101 PQC by the Lead Instructor. Ratings who are not in date for an Annual RPS Check will be returned to unit.

h. The PO PQC and Senior Rates Leadership Course (SRLC) should normally be undertaken as a package. The PO Selection Signal will be the trigger for the CM to load LHs onto the INT 101 PQC (Joint RN/RM Intelligence Managers Course) and SRLC. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of, at least, PQC within 12 months of selection. On implementation, it is possible that a surge in applications may exceed available places. The CM's judgment in consultation with the INT Spec Ad will be required to manage points of excessive demand.

[1] BR 1984 Ch 5 - Role Performance Standard (RPS) Checks - Guidance

(1) Should spare places become available on the INT 101 PQC[1], then these will be offered up to Senior Rates (OR6 - OR7) who transferred to the INT Spec under Project BLINKER HALL as Senior Rates. All personnel to whom this applies are strongly encouraged to take up this opportunity in order to uphold professional credibility amongst other Senior Rate INT 101 graduates and SNCOs from the other Services[2].

(2) A JPA competency will be awarded to Ratings on successfully passing the INT 101 PQC. This competency is to be input to JPA by the appropriate unit HR administrator under the following:

Intelligence|RM RN Intelligence Manager Class 1|Navy|

i. **Failure to Complete Professional and/or Leadership Course.** Refer to BRd 3(1) Ch 67[3] for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control), or non-service reasons (within own control). If the PO PQC is refused, BRd 3(1) Ch 69 Para 69114 will apply. In the event of failure during the PO PQC, BRd 3(1) Ch 69 Para 6910[5] will apply.

j. **Completion of AB1 CBRNDC Task Book.** The CBRNDC task book is to be issued upon a person's first sea assignment, irrelevant of the Rate/Rank and should be completed within 6 months, considerations of a ships maintenance period can be taken into consideration. Failure to complete the Task book within 6 months, requires the divisional warning system to be utilised iaw BRd 3(1).

9416. Level 4 Intelligence Analysis Apprenticeship

As part of 2SL's civilian accreditation direction, candidates joining the INT Spec will be enrolled onto the 24-month Level 4 Intelligence Analysis (L4 IA) Apprenticeship. This includes both Direct Entry (DE) AB Ratings and Sideways Entry (SE) AB and LH Ratings. Registration for the L4 IA Apprenticeship will take place on the **first day** of INT 100 PQC.

[1] INT 101 PQC loading priority will go to newly selected PO(INT)s who have come through the existing training pipeline.
[2] Any Project BLINKER HALL Senior Rate who has graduated from the 16 Week - Joint Intelligence Maritime Course (JMIC) and has the competency recorded on JPA, will not be required to do the INT 101 PQC.
[3] Ratings Policy - Selective Promotion.
[4] Refusal to Take a Professional Qualifying Course or Professional Qualifying Examination for Confirmation.
[5] Failure of Examinations or OPS Assessments

a. **The Apprenticeship Standard.** An Apprenticeship Standard contains a list of **K**nowledge, **S**kills, and **B**ehaviours (**KSBs**) that the INT Apprentice will need to have learned and developed by the end of their apprenticeship. Standards are occupation focused; they are not qualification led. The INT Apprentice must prove they can carry out all aspects of their job at the end of the apprenticeship in order to pass. The Intelligence Analysis Level 4 Standard has been fully mapped to the apprentice's job role as an Intelligence Analyst.

b. The INT Apprentice needs to be able to evidence that they have developed their KSBs based on the Apprenticeship Standard Criteria. This criteria has been mapped against the Role Performance Statement (RPS), Formal Training Statement (FTS) and the Qualifying INT 100 PQC Training Modules. The Apprenticeship Standard Criteria is made up of five key stages:

(1) **Stage One - (Functional Skills (FS) Level 2).** All Ratings will require to obtain FS Level 2 qualification or equivalent, in English and Maths, by the end of the apprenticeship.

(2) **Stage Two - (Development Phase - Career Qualification Course (CQC)).** During the CQC - (INT 100 PQC and OPMIC), Ratings are taught the theory elements of the apprenticeship, developing their understanding and knowledge.

(3) **Stage Three - (Consolidation Phase - Initial Sea Training and First Shore Intelligence Assignment).** This is the practical element (**Skills**) phase, putting into practice the knowledge gained during the development stage. As the apprenticeship has been aligned to the RN job role, completion of the INT Apprentice's WTTB forms part of the consolidation phase. On completion of the consolidation phase, the INT Apprentice is deemed to be '**Gateway'** ready.

(4) **Stage Four - (Gateway Readiness and Professional Qualifying Board).** 'Gateway' is essentially the doorway to the final stage of the apprenticeship. This is reached when:

(a) The INT Apprentice has achieved FS Level 2 (or equivalent) in Maths and English, (if not previously acquired).

(b) The INT Apprentice's CoC is confident that the INT Apprentice is deemed to have achieved occupational competence (RPS) and is competent in their job role.

(c) At this point the INT Apprentice is deemed to be '**Gateway Ready**' and can start the **End Point Assessment (EPA)** which will take place approximately **18 Months** post L4 IA Apprenticeship registration.

(5) **Stage Five - (End Point Assessment (EPA))** The L4 IA Apprenticeship requires the INT Apprentice to complete an EPA to complete the qualification and this is conducted by an independent civilian apprenticeship assessment team. Once the INT Apprentice has completed the first four stages; their CoC is to contact the Apprenticeship Team and arrange the EPA.

(a) The EPA includes an assessment of all the requirements of the standard including KSBs mapped to the tasks in the WTTB. This takes place in the final six months of the 24-month apprenticeship using three assessment methods:

i. **A Work-Based Research Project.** Which will be completed once the INT Apprentice has reached **'Gateway',** followed by a presentation with Q&A based on the project. This will be 40 minutes in duration, split equally between the presentation and the Q&A.

ii. Knowledge and Skills Test. Consisting of ten multiple-choice questions and eight scenario-based questions.

iii. **Professional Interview.** Which will consist of 6 competency-based questions and will last 75 minutes.

(b) In the exceptional case of temporary changes in job role or assignments outside intelligence related work, this EPA period can be extended by 3 months (9 months in total). The INT apprenticeship champion and RN Apprenticeship Team are to be consulted in advance for advice and guidance before permission for an extension is approved.

(c) Performance in the EPA will determine the apprenticeship grade of 'Fail', 'Pass' or 'Distinction'. To achieve final certification, the INT Apprentice must have achieved a minimum of a 'Pass' in each assessment method. A 'Pass' in the EPA will demonstrate that the INT Apprentice can apply the KSBs required by this apprenticeship standard. Apprentices achieving a 'Distinction' will be demonstrating above the minimum requirements of the occupational standard.

(d) A JPA competency will also be awarded to those INT Apprentices who achieve a 'Pass' or 'Distinction' and to formally record the L4 IA apprenticeship successful completion. This competency is to be input to JPA by the appropriate unit HR administrator under the following:

Professional|Level 4-Intelligence Analysis-Apprenticeship|Navy|

(e) Should an INT Apprentice not meet the required EPA standards; they will be required to re-sit the PQB prior to making another EPA attempt. In consultation with the INT TE WTG, a three-month remedial training plan will be implemented prior to resitting the PQQ, in order to give the Rating, the best chance of a successful conclusion1. Upon successfully passing the PQB, the INT Apprentice's CoC is to contact the Apprenticeship Team and re-arrange another EPA. (Para 9416 sub para b-5).

9417. Appraisal Reports

Appraisal Reports are required in order to provide Selection Boards with details of an individual's performance and suitability for promotion. Appraisal Reports are to be raised annually (31 Jan for all LHs; 31 Mar for POs and 30 Sep for CPOs).

a. Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in an SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within **3-6 months**, individuals should be issued with a formal DO, HOD or COs warning for inadequacy.

b. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6-month period, the Professions Manager is to be consulted for advice.

c. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Selection Board.

(1) Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at the last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

(2) Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on not having achieved RPS.

9418. Education for Promotion

A Leading Hand not undertaking the L4 IA Apprenticeship must be educationally qualified to FS Level 1 and a Petty Officer to FS Level 2 in English and Mathematics, or a suitable equivalent for either or both of these qualifications. (BRd 3(1) Ch 96). Leadings Hands enrolled onto the L4 IA Apprenticeship must achieve minimum FS Level 2 (or equivalent) in English and Mathematics.

[1] PQB JPA Competency will be suspended during this period until the INT Apprentice passes the PQB again. The JPA competency will then be reinstated providing they pass the PQB.

9419. Intelligence Specialist Badges

a. INT Spec badges are to be presented on completion of Phase 2 training (INT 100 PQC).

b. Stars and Crowns are to be presented as follows:

(1) **1 Star.** On advancement to AB1(INT) (Professional RPS achieved).

(2) **2 Stars.** On completion of LRLC and on first assignment as an Acting LH(INT) or at CPD (whatever is soonest).

(3) **Crown.** On completion of the POs Career Course (INT 101 PQC).

9420. Intelligence Specialist Training

Career Progression for INT Ratings is detailed within Annex 94A (as appropriate). In addition to Career training, individuals may be required to undertake some bespoke Targeted Employment Modules (TEMs) in accordance with the Unit Platform List (UPL). These include:

a. Imagery Analyst. All INT Analysts must volunteer for Imagery Analyst (IA) training although this will be provided only in order to satisfy a Service need. When such a need is identified, INT Ratings who have successfully passed the Defence Imagery Analyst Aptitude Assessment (IAAA) will undertake further assessment of their commitment, attitude and suitability; success at which is a pre-requisite for IA training on the Defence Imagery Intelligence Analysis Course (DIIAC). All INT Ratings on OPMIC will conduct the IAAA during their training. While volunteers for IA roles among INT ratings are encouraged and preferred, final selection and allocation will be determined by the operational priorities and requirements of the Service. Any INT ratings who have not completed the IAAA can apply via the DIA course portal or by contacting UKStratCom-DI-DITG-DSI-NIDSI.

b. **Open Source Intelligence (OSINT).** All INT Ratings on OPMIC will conduct OSINT training (CARDINAL course). There is also the opportunity for personnel to be enrolled onto specialist OSINT training if employed in some PIDs (e.g. MIFC OSINT and TESC).

c. **Defence Counter Intelligence Operations Practitioner (DCIOP).** Certain PIDs such as RNCI and DICI may require personnel to specialise in the CI discipline and will therefore be enrolled onto DCIOP.

d. **Defence Intelligence Analyst Module (DIAM).** Not a routine requirement but all INT OR2-OR9 above can apply for enrolment via their unit once Professional RPS is achieved.

e. **Joint Information Operations Course.** Not a routine requirement, although some specialist PIDs may require personnel to be enrolled.

f. **Human Intelligence (HUMINT) Training - Defence Debriefing Course (DDC).** Certain PIDs may require personnel to qualify as Defence debriefers in order to support the new single Service Debriefing capability.

g. The following bespoke TEM is not necessarily associated with being a traditional intelligence role but may be required should INT Ratings be assigned to specific specialist units: **Joint Operational Targeting Course (JOTC) and Collateral Damage Estimate Course**. Only required when assigned to ISTE, TESC or any other Defence Targeting Enterprise role.

ANNEX 94A

INTELLIGENCE SPECIALISATION PROMOTION FLOWCHART

Entry Qualifications: (Ref Ch 7)

ABLE RATE 2 (INT)

a. Completed - Phase 1 Initial Naval Training.

b. Continue instruction to achieve FS Level certificates in Adult Literacy and Numeracy (Ch 77 Para 07).

c. Phase 2 Intelligence Training. Completed 8-week INT 100 PQC. To be recorded under JPA competence:

Warfare|AB (INT) Career Course (INT100)|Navy|

d. Phase 3 Intelligence Training. Completed Operational Maritime Intelligence. To be recorded under JPA competence:

Intelligence|Operational Maritime Intelligence Course |Navy|

e. Completed Initial Sea Training (IST) (3 months duration).

f. Assigned to first Intelligence complement billet.

g. Completed WTTB - achieved Professional RPS as AB1(INT), authorised by HOD. This is also a pre-selection requirement for LH. RPS is to be recorded under JPA competence:

Professional|RPS for AB1(INT)|Navy|

h. At least six months since last Career Check (if any) on date due advancement.

i. Awarded AB1 Badge (single star) (9419).

Advanced to **ABLE RATE 1 (INT)**

LEADING HAND (INT) - Pre-Selection Requirements

a. Serving on ES1/FC/OE1 that expires after the nominated CPD (Ch 67 Para 6703, sub para 5).

b. Completed WTTB - achieved Professional RPS as AB1(INT), authorised by HOD. RPS is to be recorded under JPA competence:

Professional|RPS for AB1(INT)|Navy|

c. Recommended for promotion on Appraisal Report at (CRD) (Ch 77 Para 7705).

LEADING HAND (INT) - Pre-Promotion Requirements

a. Educationally qualified for promotion (EFP) in accordance with Para 9634. Achieved minimum Level 1 FS (or equivalent) in English and Maths and appropriate competences recorded on JPA. (LHs enrolled on the L4 IA Apprenticeship must achieve minimum Level 2 FS (or equivalent) in English and Mathematics).

b. Completed LRLC. Recorded as JPA competence:

Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy| (Ch 77 Para 7703 sub para e-f).

c. At least six months since last Career Check (if any) on CPD or date due promotion (if later).

d. Although not Mandatory, recommended to maintain parity with individual Apprenticeship initiatives. Passed Level 4 Intelligence Analysis Apprenticeship End Point Assessment (Para 9416 sub para c-f and Annex 94B). To be recorded under JPA competence:

Professional|L4 INT Analysis-Apprenticeship|Navy|

Promoted to **LEADING HAND (INT)**

PETTY OFFICER (INT) - Pre-Selection Requirements

a. Achieved Professional RPS as LH(INT), authorised by HOD. This is to be recorded under JPA competence:

Professional|RPS for LH(INT)|Navy| Para 9415 sub para e)

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

c. Recommended for promotion on Appraisal Report at CRD (Para 7705).

PETTY OFFICER (INT) - Pre-Promotion Requirements

a. Completed SRLC and recorded as JPA competence:

Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy| (Para 7703 sub-para e-f).

b. Passed PO PQC by nominated CPD (awarded PO specialisation badge (Crown)) (Para 7703 sub para g - h). Recorded as JPA competence:

Intelligence|RM RN Intelligence Manager Class 1|Navy| (Para 9415 sub para h 2)

c. At least six months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. EFP in accordance with Para 9634. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Maths and appropriate competences recorded on JPA.

Promoted to **PETTY OFFICER (INT)**

CHIEF PETTY OFFICER (INT) - Pre-Selection Requirements

a. Achieved Professional RPS as a PO. Recorded as JPA Competence:

Professional|RPS for PO(INT)|Navy| (Para 9415 sub para e).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed SRLC; recorded as JPA competence:

Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy| (Para 7703 sub-para e-f).

d. Recommended for promotion on Appraisal Report at CRD (Ch 77 Para 7705).

CHIEF PETTY OFFICER (INT) - Pre-Promotion Requirements

a. At least six months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to **CHIEF PETTY OFFICER (INT)**

WARRANT OFFICER 2 (INT) - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

b. EFP in accordance with Para 9634. Must have achieved minimum FS Level 2 (or equivalent) in English and Maths and the appropriate competences recorded on JPA.

c. Recommended for promotion on Appraisal Report at CRD (Para 7705).

WARRANT OFFICER 2 (INT) - Pre-Promotion Requirements

a. At least six months since last Career Check (if any) on CPD or date due promotion (if later).

b. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to **WARRANT OFFICER 2 (INT)**

WARRANT OFFICER 1 (INT) - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

b. EFP in accordance with Para 9634. Must have achieved minimum FS Level 2 (or equivalent) in English and Maths and the appropriate competences recorded on JPA.

c. Recommended for promotion on Appraisal Report at CRD (Para 7705).

WARRANT OFFICER 1 (INT) - Pre-Promotion Requirements

a. At least six months since last Career Check (if any) on CPD or date due promotion (if later).

b. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to **WARRANT OFFICER 1 (INT)**

CHAPTER 95

INDIVIDUAL TRAINING POLICY

SECTION 1

GENERAL

Note. *JSP 822 Defence Training and Education Policy, Chapter 3: Individual Training, Version 8.0 (Jan 26), introduced revised terminology, this chapter retains primacy and should clarification be required it should be sought from the sponsor.*

9501. Introduction

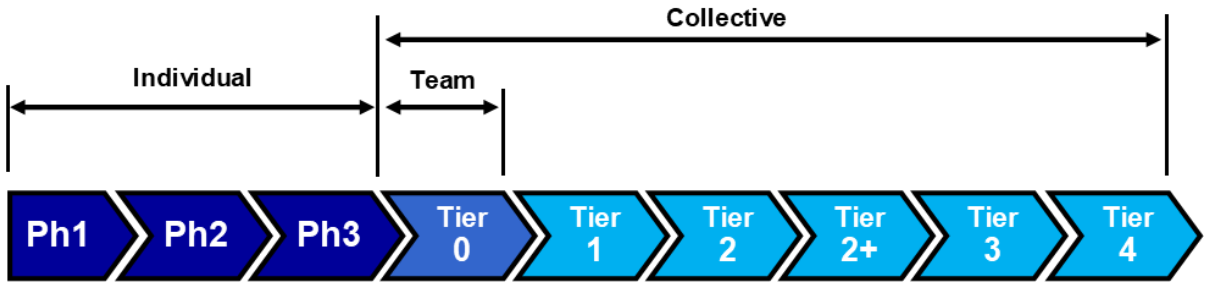
a. Defence training policy is laid down in JSP 822. This chapter outlines the RN specific interpretation and application of that policy and should be considered normative. Where there is a perceived discontinuity between Defence and RN policy, this chapter should be taken as primary. Like all doctrine and policy, the direction contained in this chapter should be considered authoritative but requires judgement in application. Requests for clarification or exemption, or recommendations for amendment, should be directed to the Sponsor, who also acts as RN-MOD liaison for JSP 822.

b. The policies within this chapter are to be applied to all Individual Training (IT) conducted in the RN: training delivered to RN personnel within Defence TEs under Army, RAF or UKStratCom command will be conducted in accordance with Defence and respective Military Command policy.

c. Operational Capability (OC) depends, along with other factors, on the employment of a sufficient number of trained personnel to deliver military effect. IT is concerned with developing the right mix of Knowledge, Skills, Experience and Behaviours (KSE-B) in individuals to function effectively in defined roles. IT therefore straddles both the People and Training Lines of Development (PLOD and TLOD) and is the responsibility of Director People & Training (Dir P&T). Together, the TLOD and PLOD form a supply chain for Military Capability. Training is necessary, but not sufficient alone, to ensure the demand for capable people, units and formations is met. This also depends on other DLoDs.

d. **The Training Continuum.** IT is distinguished from, but forms part of a continuum with and enables, Collective Training (CT) which deals with improving the ability of teams, units or formations to function as a cohesive entity and so enhance OC (see Fig 1 below) through mission-focused training. CT is the responsibility of FOST Ships and COMFOST, with Director Force Generation (Dir FGen) acting as the CT Requirements Authority. The generation of Force Elements at Readiness (FE@R) depends on the right mix of capable, specialist personnel, delivered to appropriate roles at the right time and developed into effective teams, to provide the People dimension of Military Capability.

Figure 95.1 The Training Continuum



9502. The Training Management Function

a. Training Management refers to the overarching principles, processes, and procedures by which the People element of Force Generation, is optimised as efficiently and effectively as possible. Training is an integral component of military capability but is complex and encompasses a significant range of interdependencies, stakeholders, and resource limitations, all operating against frequently changing priorities and an evolving strategic context. Training Management is therefore concerned with the 'end-to-end' operation of the 'training system' – from Concept and Acquisition, through-life, to Disposal. The optimisation of a single element will not yield an increase in output unless the system is considered as a whole and orientated towards the final desired military effect.

b. 'Training' must therefore be Capability-focused and should never be artificially divorced from 'operations'. Requirements for training are ultimately orientated on a discrete contribution towards a defined Military Task, and the effectiveness of training should be considered against the delivery of that Task. Training requirements thus flow 'down' rather than 'up': Training exists to enable the organisation to meet its mandated roles and specified duties. The Training Management function must ensure this 'golden thread' of operational readiness remains prioritised.

c. Training is fundamentally a mitigation of risk. The risk of employing personnel without sufficient training is ultimately to capability, though risks to life, safety, and reputation are also often present. The nature and amount of training required for a task is therefore dependent on the risk appetite surrounding a capability or a contributory element of it. Where the risk appetite is high, training may constitute a minimum viable product. Where risk appetite is low, training will be more robust. The competing resources of time, equipment availability, and financial resource mean that not all training solutions will receive prioritisation. An agile risk-based approach is therefore commended, noting that such analyses must be evidenced and recorded, and a named Risk Owner nominated.

d. The Systems Approach to Training has four stages: Requirements Analysis, Training Design, Training Delivery, and Assurance. These should be considered a 'quality loop', rather than a linear process. Although these stages will normally occur in the order listed, for operation exigencies, or other reasons, the process can be entered at any point of the loop at conscious risk and providing that sufficient consideration is given to how the full process loop will be completed. For example, in a context of rapidly advancing technology and high geopolitical uncertainty, it may be required to rapidly create interim training solutions before a full Concept of Employment for a new technology is developed. The risk associated with doing so can be mitigated by the establishment of highly effective evaluation mechanisms which will, in turn, enable subsequent development of the concept documentation, incorporating lessons already identified from trial use.

e. Expertise in a subject being trained is distinct from experience in Training Management as outlined above. There must exist sufficient experienced and qualified RN personnel to effectively manage the training system and provide command advice and options to achieve the required outputs. For this reason, although the range of personnel involved in Training Management encompasses members of multiple branches and disciplines, and military and civilians alike, the RN also retains a dedicated cadre of embedded Training Manager (TM) specialists, operating at sea and ashore across all functional areas to provide military advice to Command, at organisational and sub-organisational level, for the management of all training-related issues and risks.

9503. The Nature of Maritime Training

a. The purpose of Maritime Training, both individual and collective, is to provide a key enabler of battle-winning capability, now and in the future, through delivery of the right mix of capable and motivated people. Training prepares people, units and formations with the knowledge and skills necessary to deliver success on operations against the specified Military Tasks; indeed, it should be understood as the primary way that Defence achieves Force Generation and manages risk.

b. New Entry training (Phase 1 – Ph1) feeds professional foundation training (Phase 2 – Ph2), which has some limited commonality between professional streams. As people become more senior, and the specialism of their employment increases, the diversity of (Phase 3 – Ph3) training grows, while the numbers attending courses fall. Progress through the various phases of training is non-linear with individuals routinely moving back and forth through the training continuum up to Tier 0, sometimes to receive refresher or continuation training, sometimes to broaden or deepen their skills as their careers progress, and sometimes to develop the knowledge, skills and attributes of the next higher rank or rate.

c. **Training Pipelines.** Maritime training is complex: more than 2,500 different maritime training courses are provided across the RN and other Defence organisations. Some courses are common across different cadres while others are highly specialised. Many courses fit into broader schemes of training (‘pipelines’) where the sequencing of events is important. Scheduling training is a challenging, multi-dimensional activity with high time-sensitivity. Conflicting demands for resources are common. In TEs where there are facilities which can be used for both IT and CT scheduling is normally built around the needs of the former with CT supported through spare capacity. On occasions where there is a defined operational need to prioritise CT, the process is outlined at Annex A.

d. Training is enabled by and is complementary to education; both contribute to the learning and development necessary to maintain an intellectual advantage over our adversaries by optimising human performance. Elective Learning policy is found in BRd3 Ch 96 and the Officer Professional Military Education pathway in Chapter 97.

SECTION 2

THE GOVERNANCE OF INDIVIDUAL TRAINING

9504. Intent of the training system

a. JSP 822 sets out the Defence Systems Approach to Training (DSAT). As with any Systems Approach, it consists of a suite of processes and procedures designed to deliver an optimal output. Large amounts of JSP 822 are discretionary and DSAT is intended as an agile process. The JSP's various sections and subordinate manuals are fundamentally concerned with four considerations:

(1) Is there a requirement for new or revised training?

(2) What should the training activity look like? Who will deliver it, and with what resources?

(3) Once running, is the resulting training being delivered correctly and does it meet the requirement?

(4) Is the whole training system fit for purpose?

b. Consideration of these questions, and the ability to evidence their answers, therefore constitute the *essential principles* of Defence and RN training policy. Unnecessary adherence to bureaucratic processes is to be avoided: justifiable deviation from the JSP and this Chapter, following specialist TM advice, and based on suitable risk analysis, should always be recorded and referred to the NCHQ Training Policy desk.

9505. Roles and responsibilities within the governance of individual training

a. In accordance with the Defence Systems Approach to Training (DSAT), the governance of RN IT is founded on the interaction of a number of defined roles. There are variances and nuances between RN practice and that outlined by JSP 822, particularly regarding the roles of the Training Requirements and Delivery Authorities. All the positions and organisations below sit under Dir P&T and receive formal, written delegations for the following responsibilities.

b. **Training Policy.** The Learning & Development Policy (Training) SO2 position within the NCHQ P&T Policy, Strategy & Plans department acts as Sponsor for this Chapter and as RN single point of contact for JSP 822 Volumes 1 and 2 and 4-6. The purpose of this role is to provide coherence to the management of IT policy across the RN and translate relevant Defence policy change into RN action. They represent the RN as lead desk officer for Defence-wide training policy activity and provide SME advice and briefings to Senior Officers ahead of the Training, Skills, Learning & Development (TSLD) Policy Assurance Group (PAG) and other similar steering groups. They report to the RN Learning & Development Policy SO1 and Hd People Policy, Strategy and Plans.

c. **Training Requirements Authorities (TRAs).** Director People and Training (Dir P&T) is the RN's ultimate delegated TRA for Individual Training, responsible for setting the training Requirement. Dir P&T delegates elements of this responsibility to a number of positions. Overall TRA responsibilities are delegated to Hd Workforce Planning & Talent Management (WFPT) and further sub-delegated to respective Branch Managers who manage the capability for their workforce disciplines and act as end-user of the trained output. These delegated TRAs are responsible for defining and articulating the Training Requirement in terms of content and volume[1]. NAVY PEOPLE-WFPT TRA Gen SO1 acts as TRA for generic, non-Branch-specific training (for example Ph1 and Naval Mandatory Training, see Paras 9511 and 9509 below respectively). For RN Air training, elements of TRA responsibility are shared with Navy FGen-NAvn Head Air Eng for Air Engineering training and Navy FGen-NAvn Head Op War for Aviation training. Specifically, TRAs are responsible for the following functions, although their execution may be further-delegated:

(1) Production and maintenance of Role Performance Statements (RPS) and as co-signatory of the Training Authorisation Document (TrAD), *i.e. 'who must be trained, what, and to what standard?'*

(2) Production and maintenance of the Statement of Trained Requirement (SOTR) (see Annex D), *i.e. how many people each year require the training?*

(3) Planning and prioritisation of External Validation (ExVal) activity in conjunction with the Training Management Group (TMG), *i.e. is the training effective in achieving the required subject matter competence?*

(4) The identification of training gaps and to direct steps to close them, for example the commissioning of a Human Capability Training Needs Analysis via the TMG.

(5) Where a major training change must be resourced, the TRA acts as the lead desk in identifying and securing additional required funding.

d. **Training Delivery Authorities (TDA).** Dir P&T is the RN's ultimate delegated TDA for individual training, responsible for effective, efficient and safe training delivery. Elements of these responsibilities are delegated to subordinate TDAs. These TDAs are organisations responsible for the delivery of individual training detailed in the Training Performance Statement (TPS – see sub-para (1) below)[2]. Responsibility for delivery of Workplace Training sits with the relevant 1* employing area (see para 9508). TDA responsibilities for the majority of RN IT are delegated to Deputy Director People Training (DDPT) as head of the TMG, which is tasked with the governance and management of the SELBORNE (SEL) contract (see Para 9506). A full list of RN TDAs is at Annex 95B. The TDA delivers the following functions:

[1] JSP 822 Defence Training and Education Policy, Chapter 3: Individual Training, Version 8.0 (Jan 26), paras 3.19 and 3.29.
[2] JSP 822 Defence Training and Education Policy, Chapter 3: Individual Training, Version 8.0 (Jan 26), paras 3.20 and 3.88.

(1) Deriving and maintaining the entirety of the Formal Training Statement (FTS) in conjunction with the TRA. The FTS consists of three separate documents:

(a) The TPS – usually for delivery in a RN Training Establishment (TE), although elements may be delivered by other Military Commands or by external training providers (see para 9507).

(b) The Workplace Training Statement (WTS) – for contextual delivery in the workplace, on completion of residential training. Although responsibility for delivery, management, and assurance of the WTS sits within the 1* employing area, the TDA is responsible for the generation and maintenance of the document(s).

(c) The Residual Training Gap Statement (RTGS) – those elements of required training that it acknowledged, on risk, cannot be delivered.

(2) Ensuring that Training Design activity has been appropriately conducted.

(3) Assuring training through conducting 2nd Party Audits of TEs and ExVal of individual training.

(4) Generating and completing the Statement of Training Task (SOTT) in response to the SOTR and developing this into a deliverable training plan). For IT delivered under SEL, this function is contracted to TF.

(5) Coordinating and managing the Customer Executive Board (CEB) training governance process (see CEB section below).

(6) Acting as lead IT stakeholder for in-service projects, programmes, or capabilities (see Training Capabilities section below), prioritising competing demands across programmes.

(7) Determining the necessary number, specialisation, grade, competences and qualifications of all Service, civilian, and Contracted personnel required for the management, evaluation, quality assurance, design and development, delivery and assessment of training and the supervision of trainees.

(a) For complement staff, this information is to be detailed in Staff Training and Development Records, Terms of Reference and the Unit Personnel List (UPL) as it is used by CMs to identify and select personnel suitable for employment in the training roles. It is to be subject to regular review. The UPL must be annotated with the extended hand-over period/pre-employment training requirement. DCTS courses provide the minimum level of training required by training practitioners.

(b) **Adventurous Training.** Where training involves an element of Adventurous Training (such as the Brecon Beacons element of Command Courses), trainers, in addition to undertaking DTc, are to be trained in the appropriate skills in accordance with JSP 419 Adventurous Training in the UK Armed Forces. Advice on where and how this training may be obtained should be sought from Staff Officer Adventurous Training, HMS TEMERAIRE.

(c) **Visiting Lecturers / Tutors.** Consideration is to be given to the requirements for training of visiting lecturers. The following factors should be among those taken into account: frequency of delivery, existing qualifications, employing organisation, degree of contact with trainees and subject matter. If visiting lecturers (for example music tutors) have unsupervised access to Ph1 or Ph2 trainees, they are to attend the Advanced COT course.

e. **Training Provider (TP).** The TP is the organisation that conducts the training. For elements of RN training fully delivered under SEL TPs are known as Training Delivery Units (TDUs)[3]. For the majority of RN IT delivered against the TPS, the TP is Team Fisher (see Section 2 – The Management of Individual Training). Any RN TP is responsible for following activities:

(1) Providing functional management of Defence Trainers. These can be military, civil service, or contractors, but all must be qualified iaw Defence Trainer Capability (DTC) policy (see JSP 822 Vol 2 Chap 8).

(2) Programming, scheduling and resource allocation of training. For IT delivered under SEL this is managed centrally by TF staff embedded in the TMG.

(3) SME support to the TDA with regard to Training Design.

(4) Providing training support staff.

(5) Assuring training through Internal Validation (InVal) and 1st Party Auditing.

(6) Maintaining training records.

(7) Maintaining the Training Quality Management System (QMS) in conjunction with the TDA.

(8) Delivering training in accordance with the agreed SOTT.

[3] JSP 822 Defence Training and Education Policy, Chapter 3: Individual Training, Version 8.0 (Jan 26), paras 3.21 and 3.99.

f. **Commanding Officers of Training Establishments (COTE).** COTEs are responsible for the safe delivery of training to meet the required output, except in those TEs within the SEL contract where this responsibility is retained formally by DDPT and functionally executed by the TF Regional Training Manager (RTM) . Notwithstanding their status under SEL, all COTEs have responsibility for the following activities:

(1) Welfare and Duty of Care (WCoD) for trainees as detailed in the CO's Risk Assessment and Supervisory Care Directive (SCD).

(2) Establishment security.

(3) Provision of safe training place in which to conduct safe training activities with safe people.

(4) Provision of Executive Department personnel to support training, specifically Physical Trainers, Chaplains, Ceremonial Training staff.

g. **Customer Executive Boards (CEBs).** A CEB is, ultimately, simply the meeting of the TRA, TDA, or TP (or their empowered representatives) and any other relevant stakeholders to provide the empowered governance mechanism for stakeholders to develop the scale and content of training to match the RN requirement within the available resource. In so doing, the process should hold all parties, including the TDA and the TRA, to account for the execution of their responsibilities in relation to the quantity, quality, timeliness and effectiveness of the training. Although a CEB is usually a scheduled meeting which follows the sample agenda laid down in JSP 822, however, as long as the TRA, TDA, and TP are present and the requirements listed below are met and formally recorded, a CEB may be considered to have taken place[4].

(1) Endorsing or re-endorsing a Training Authorisation Document (TrAD). Although referred to as a 'document', the TrAD is essentially a cover sheet or other formal means of recording the existence and accuracy of the:

(a) RPS

(b) FTS

(c) AStrat

(d) ASpec

(e) A full suite of Lesson Specifications (LSpecs)

(2) Agreement of the projected volumetric throughput (the SOTR / SOTT) of personnel to be trained over the next three years – see Annex 95D.

[4] JSP 822 Defence Training and Education Policy, Chapter 3: Individual Training, Version 8.0 (Jan 26), paras 3.13-3.16 and 3.25-3.26.

h. **Strategic CEB (Strat CEB).** The Strat CEB provides overarching direction and guidance to all subordinate RN CEBs and their respective WGs. Assuming that individual CEBs have been successful in endorsing their respective SOTR / SOTT (or in identifying the risk to be carried), the Strat CEB should be able to maintain a 'high-level' discussion to endorse the overall SOTR / SOTT. As such, the following are to be in attendance (noting that other personnel may attend in support):

(1) DDPT and Hd WFPT – Co-Chairs as delegated TDA and TRA respectively.

(2) CEB Chairs (TMG Ops and Perf Pillar) to escalate issues from their respective CEBs and take direction from the Strat CEB.

(3) Capability sponsor representatives from FGen, NAvn, UKCF, COMFOST, CMR, and Navy Healthcare to represent end user issues, including prioritisation between individual and collective training.

(4) COTEs to represent establishment issues, including training and WDoC. This is to include representatives from Joint TEs that deliver training to RN personnel.

(5) SOTR team to present the annual SOTR.

(6) TMG Cdr Training Plans to represent pipeline and GTS issues.

(7) SO1 Learning & Development Policy.

(8) Fisher Director Learning to represent the Training Provider and training delivery issues.

(9) TMG SO1 TGA to provide assurance input and provide the Secretary.

SECTION 3

THE MANAGEMENT OF INDIVIDUAL TRAINING

9506. An Outsourced-Approach to the Management of Individual Training

a. **Introduction.** The RN has chosen an outsourced model for the delivery of the majority of its individual training. Project SELBORNE (SEL) is a 12-year training delivery contract, delivered by Capita as the Tier 1 (Lead) Contractor with Raytheon, Fujitsu, Elbit and University of Lincoln who are collaboratively known as Team Fisher (TF) who will work over the life of the contract to transform and modernise maritime training. TF delivers the full range of training services for in-scope elements, from analysis and design through to planning, deliver, support, assurance and the maintenance and support of training equipment. For the purpose of SEL, the RN is referred to as 'The Authority' and TF 'The Contractor'.

b. **Scope.** Ph1, Ph2 and Ph3 training is delivered and supported through a mix of Service personnel, Civil Servants and TF employees. The scope includes the transition of the Training Services at HMS Sultan (METG) in May 2025. This is the final Service Commencement Date (SCD) planned within the SEL Scope; there have been nine previous SCDs to bring in all the historical TEs / contracts under one single service.

c. **Training Management Group (TMG).** The TMG is a joint RN-industry organisation, providing the basis of a Whole Force approach to IT. The TMG is accountable for the effective and efficient governance, control and commercial delivery of the SEL contract. In addition, the TMG executes certain TDA functions to TPs outwith SEL as the RN's 'super-TDA'. The TMG HQ is divided into four functional areas, each led by an OF5 / B2:

(1) **Training Change**, which comprises five elements:

(a) **Modernisation and Transition**. Monitors progress and evaluates delivery of all projects, activities and deliverables within the extant contracted Modernisation Plan. Develops and recommends priorities, requirements and resourcing for future SEL contract Modernisation Periods ('epochs'). Assures TF activity to prepare for, manage and implement the transition of additional scope and /or services into the SEL contract.

(b) **Modelling and Synthetics**. Provides intelligent customer oversight of Synthetic Training being developed in TMG. Delivers the next generation of surface warfare synthetic training for the RN.

(c) **Underwater Training Change**. Provides consultancy advice and guidance on all aspects of the PLOD (Individual Training) to DE&S / SDA Delivery Teams and Joint and RN Programme Teams for all New Capability Underwater Programmes and Projects. Supports the integration of all New Capabilities into the SEL Contract. Provides advice on contracting options for TNA and Training Design work. Assures the Support Solution Envelope (SSE) Core Development Area (CDA)7 submission for all new DE&S/SDA Projects and Programmes to ensure training has been properly considered. Provides general SM advice to Underwater New Capabilities Projects and Programmes and In-Service change requests. Supports and monitors Underwater Tasking Orders and In Year Changes submitted by the Authority.

(d) **Above Water Training Change**. Provides consultancy advice and guidance on all aspects of the PLOD (Individual Training) to DE&S Delivery Teams and Joint and RN Programme Teams for all New Capability Above Water Programmes and Projects. Supports the integration of all New Capabilities into the SEL Contract. Provides advice on contracting options for TNA and Training Design work. Assures the Support Solution Envelope (SSE) CDA7 submission for all new DE&S Projects and Programmes to ensure training has been properly considered. Provides branch SME advice to Above Water New Capabilities and In-Service change requests. Support and monitor Above Water Tasking Orders and In Year Changes submitted by the Authority.

(e) **Plans and Assurance**. Provides quality assurance of TNAs for Above Water and Underwater capabilities. Coordinates pan-pillar activity within the Change area. Support the TF change process including through continuous improvement activity.

(2) **Training Delivery**. This area is further sub-divided into five OF4-led teams:

(a) **Training Plans**. Previously referred to as Training Pipeline Coherence, which is responsible for setting requirement targets and the planning and tracking of Ph1 and Ph2 trainees from initial entry Untrained Strength (UTS) to Gains to Trained Strength (GTS). It also oversees the Ph3 training pipelines, the Sea SOTR and includes the Course Booking Cell (CBC). The objectives are to ensure the correct timely entry of new recruits to specific branches into Ph1 training such that a seamless transition into Ph2 training is achieved. This includes all aspects of RN and RM training, including Flying Training and some Maritime Reserves training, and also covers training provided for the RFA. This includes the following:

i. **GTS Targets**. GTS targets are set by WFPT based on detailed workforce modelling conducted with Defence Statistics (Navy) (DS(N)). They take account of the whole workforce requirements and are used against projected inflow / outflow rates. These figures are utilised to establish the recruiting targets which are subsequently set on Navy Recruit and Attract (R&A).

ii. **Management of UTS**. The planning of Ph1 and Ph2 trainees is the responsibility of the UTS Pipeline Manager. They will produce and instruct R&A of the required recruitment loading profile into Ph1 training such that on completion (10 weeks) the trainee will move directly into their Ph2 Trade training while additionally ensuring all relevant courses are booked and recorded in TAFMIS. In the event of any training delays the UTS Pipeline manager will also programme a re-entry point into training pipeline to ensure that branches GTS requirements are fulfilled.

iii. **Post-GTS**. Once a trainee has achieved GTS their career path is managed by their branch Career Manager. Training Plans provides a coherent training flow through Ph3 Professional Career Courses, however, and will provide oversight of course bottlenecks and un-programmed time through the Ph3 Pipeline Manager role. The team will also assist in the tracking of TAFMIS data and KPIs for SEL based around training success rates.

(b) **Training Operations (T Ops)**. Leads modernisation of training in collaboration with TF and acts as Authority representatives at TDUs as:

i. Delegated local TDA.

ii. Provider of Training Management consultancy to resolve issues related to training delivery.

(c) Training Governance Assurance and Analytics (TGAA), which is tasked:

i. To ensure RN Training conforms to policy requirements, with formal dispensations from relevant duty holder chain(s) where divergence is required.

ii. To continually improve RN training to meet the current and future requirements of Naval and Joint operations.

iii. To support training staff in enhancing the quality of training and the lived experience for the trainee, ensuring a degree of creative freedom where appropriate.

iv. To ensure trainers and training adhere to appropriate constraints and standards to safeguard trainees (in particular, vulnerable trainees) and ensure training is fair and uniform in standards, conduct and experience where appropriate and as far as is practical.

v. Support TDUs in raising and escalating issues that are impacting their capacity to deliver training.

(d) **Training Equipment Support**. Responsible for leadership and management of all equipment support elements of the TMG to enable the successful delivery of the SOTT.

(e) **Learning and Development Organisation (LDO)**. Delivers education and resettlement services, including frontline delivery for these and general IT consultancy, support, and assurance through the LDO (Operations) team.

(3) **Commercial**. Lead and manage the delivery of all commercial aspects of the SEL contract.

(4) **Business Support**. Responsible for the delivery of all business management services, including Finance, HR and Risk.

9507. OEM-Delivered Training / 'K-Courses'

a. **Introduction.** Occasionally, time, cost, or performance considerations will recommend against (or outright preclude) the implementation of a training solution within the RN Training Estate. In such instances, it may be identified that an external provider's solution constitutes better VfM. Frequently, the external provider best placed to deliver timely, relevant training of this nature is the Original Equipment Manufacturer (OEM). This OEM solution may be employed either as an Interim Training Solution (ITS) until an in-service Steady State Training Solution (SSTS) is developed, or it may be decided that the OEM course is itself to be regarded as the SSTS.

b. **Terminology.** OEM (or other third-party) training solutions are designated 'K-courses'. For management and administrative purposes, interim iterations are labelled 'K1', while steady state iterations are labelled 'K2'. Transition from K1 to K2 is not always clear and depends on a number of factors. As a rule, once the Delivery Agency Project Team has fulfilled their obligations under Core Development Area 7 (Training and Training Equipment) of the Support Solutions Envelope, a K-course should be considered to be steady state.

c. **Considerations.** The range of K-courses is significant, and they vary in length, throughput, and cost. Nonetheless, the decision to employ a K-course must always be weighed against three considerations:

(1) How can the RN assure that OEM-delivered training closes the identified training gap to ensure Operational Capability?

(2) How can the RN ensure that the proposed solution represents the best VfM for Defence? The cost to the Authority for running K-courses are often high and tend to increase over time. There is a duty to understand these costs and realistic future increases to inform the decision whether an Authority-owned SSTS should be developed, with a view to end-dating the K-course.

(3) How will the supervisory care of those personnel assigned to such training be managed? Although delivered externally, the RN retains its legal obligations with regard to WDoC of trainees.

d. **Governance of K-courses.** The decision to adopt a K-course solution carries with it the acceptance that that the resultant training will not conform with all the usual processes and procedures of DSAT-compliance. Nonetheless, the key principles of DSAT (as summarised in Para 9504) apply, along with the considerations above, should be applied. While their responsibilities and remit are variously constrained when compared to SSTS, there should nonetheless exist designated holders for the following roles:

(1) **TRA**. The Branch Manager within WFPT ultimately owns the requirement for training, to meet the needs of the Capability Sponsor. For K1-courses, the TRA will be facilitated by the Project Team in selecting an appropriate course or courses that meets those requirements not met by RN-delivered training.

(2) **TDA.** The TMG act as TDA for all K-courses but has significant latitude in designing processes and procedures for their management. For K1-courses, the Project Team is again a stakeholder, with the TDA conducting agreed administrative elements and ensuring observance with this policy. For K2-courses, the TRA conduct the contractual and mandated assurance activities (see sub-para (f) below).

e. As with all training, there must be a formal capture of agreement between the TRA and TDA as to the assurance mechanisms and their periodicity relating to a K-course, along with the annual throughput. A process must be established by the TDA for the regular review of this agreement. Where the validity of the training solution or its costs give cause for concern, the relevant stakeholders (as determined by the nature of the K-Course) should convene a Training Steering Group to identify COAs. These might include a decision to tolerate and continue, or else to seek an alternative solution to the requirement.

f. **Management of K-courses.** The formal agreement between TRA and TDA is designated a TrAD. As always, this term refers principally to the proper capture of the required information, rather than any specific template used. A non-standard approach to TrADs (as compared to either the templates offered by JSP 822 or by those drafted by Team Fisher) may be more appropriate where K-courses are concerned. However captured, the following information must be recorded:

(1) A Requirement document detailing what elements of one or more RPS, not met by RN-delivered training, are to be met as training objectives by the K-Course(s).

(2) An external validation process, including timelines, to ensure the K-course solution continues to meet the RN requirement.

(3) Risk assessments covering all K-course activities. These may be provided by the OEM, although the TDA remains the risk holder.

(4) An Assessment Strategy (AStrat). Again, this can be OEM-provided and does not need to take the form of an RN AStrat, except that it must contain any information deemed necessary for effective workforce management (e.g. any assessment criteria, consequences of failures, etc). A suitable process for the recording of competence on JPA must be in place. The requirement for an AStrat is not circumstantial. Even where a K-Course provider cannot commit to formal assessment of trainees, the non-provision of an assessment would itself constitute an Assessment Strategy (albeit likely not the one the TRA would prefer). A formal record of such is essential.

(5) A statement concerning WDoC provision for trainees on the course. Where trainees are in Ph1 or Ph2, these arrangements must be captured within the Commanding Officer's Risk Assessment and Supervisory Care Directive, with designated supervisory staff oversight. In all other cases, the usual Divisional System should apply.

9508. Workplace Training

a. The workplace is a fertile learning environment, where people can learn quickly and powerfully in ways that complement learning from feedback and from formal courses. Here, our people are immersed in their role and are surrounded by others who share their experience and will go on to face real operational circumstances together.

b. Formal Training Statements will usually apportion specific elements of required individual training to be delivered in the workplace, upon completion of a residential training course. Although a JPA training competency may be awarded on completion of the residential elements, full competence is not achieved until successful completion of the Workplace Training Statement (WTS).

c. Workplace Individual Training forms part of Operational (Capability) Assurance. It is distinct from, but contributes to, Tier 0 and 1 Collective Training. Responsibility for the delivery, management, and assurance of the WTS sits with the employing 1* organisation (e.g. SURFLOT, SUBFLOT, NAvn,3 UKCF, etc), with Flotillas / Air Squadrons / UKCF units as the Workplace Training Provider (WTP). Close liaison is required, however, with the TDA responsible for the management and delivery of a related TPS, to ensure all individual formal training requirements are met. Regulations for unit-level assessment of operational requirements and standards are laid down in BR 9274, owned by Force Plans.

d. There is a collective responsibility on all WT stakeholders to validate through measuring and monitoring the extent to which operational roles are populated by appropriately skilled people, and a system must be in place for the recording and rectification of any training shortfalls with regard to the TPS for personnel joining complement billets from a residential training course. The increased use of Acting Higher Rate inevitably increases the amount of Training Gaps for individuals, which Units must track and actively mitigate the risk from.

e. The LDO (Operations) team can support employing areas and WTPs in the Continuous Improvement of individual training delivery within operational units. One element of this will be through the provision of individual and team coaching, specific policy for which can be found in BRd3 Ch21 sect 40.

f. **On-the-Job Training.** On-the-Job Training (OJT) is non-formal WT that takes place in the workplace but does not form part of a WTS. Examples include: training required in the workplace to facilitate the development and/or continuation training of personnel (including local briefing requirements and mandatory training delivery); training needed for a specific local task not carried out elsewhere and therefore not part of an FTS. OJT must be delivered safely and with appropriate record-keeping to enable effective tracking of completion, but otherwise is not governed by the policies within this section.

g. **Workplace Trainer competence.** JSP 822 policy states that all trainers – including those delivering the WTS in the workplace – must be DTc qualified. This requirement is deemed aspirational, but unachievable by the RN. Instead, personnel delivering Formal WT are classed as RNWTs, and must meet a lower-minimum level of trainer competence, aligned to leadership & coaching skills and subject matter expertise.

(1) **Achieving RNWT Status.** An individual may be awarded the *Instructional|RN Workplace Trainer|Navy* competence if the following criteria are met:

(a) **Leadership & Coaching skills.** Ratings must have completed LRLC or equivalent; Officers must have completed JOLC 1 or equivalent. RM OR3s assisting in the delivery of training must do so under the supervision of a nominated OR4 or above.

(b) **Subject Matter Expertise.** Full qualification in their own role (including completion of all WT requirements – e.g. taskbook, career development journal, competency board, etc).

(c) **Trainer Familiarisation.** Personnel with existing DTC trainer qualifications are automatically qualified as RNWTs. Otherwise, an RNWT must complete DTc Stage 1 – the online pre-learning for DTc – to familiarise themselves with Defence training principles.

(2) **Responsibility for RNWT assurance.** Each WTP should have a Training Coordinator who should identify those personnel involved in the delivery or assessment of workplace training within their department and ensure appropriate training and JPA competence recording is conducted in accordance with this policy. Smaller ships that do not carry departmental Training Coordinators should fulfil this requirement as a wholeship function. Assurance that RNWT competence is being tracked ultimately lies with the employing organisation.

h. **Continuation Training.** Continuation Training refers to directed formal learning and / or assessment required for an individual or team to be deemed 'in-date' and retain competence. Individual Continuation Training maintains the competence of an individual – or selection of individuals – even where the activity is conducted as a group. By contrast, Collective Continuation Training maintains the competence of a team or unit. Requirements for such training should be captured in a course Assessment Strategy and Specification by the TRA.

Note. *There is a need for further policy development to drive the creation of more robust management and assurance structures for individual Workplace Training in support of wider Operational Capability Assurance. In particular, consideration should be given for whether CEBs should be established to ensure 1* employing areas, who are tasked with delivery of the WTS, have representation when the FTS is endorsed. Clarification of roles and responsibilities of the TRA, FGen, and receiving employing areas as personnel transition between the TPS and WTS elements of training, and in the management of individual Continuation Training is also desirable.*

9509. Mandatory Training

a. Mandatory training refers to specific learning interventions which are directed universally for all military RN personnel and require periodic repetition throughout the career of the individual. These interventions are mandated to either fulfil legal obligations on the MOD, or as part as mitigation of a formal organisational-level risk, or both. Mandatory training directed at Defence-level is known as Defence Mandatory Training (DMT); where directed at RN-level it is term Naval Core Learning (NCL).

b. As universal training - directed indiscriminately and repeatably to all military personnel – mandatory training represents a considerable investment of time and human resource. Careful attention must also be given to the total volume of mandated training requirements which – beyond a certain level – become inversely effective. Over-training is wasteful and bad for morale; while incorrectly targeted training, or that based simply on rote knowledge recall, can represent a greater risk than no training at all - by giving the organisation false confidence of risk mitigation. The delivery of mandatory training must therefore be subject to strict governance and management to ensure effectiveness and efficiency.

c. The decision to introduce a universal mandatory training burden must be carefully justified and the presumption will normally be against it. Universally mandated training, where employed, should be succinct, memorable, and designed to elicit behavioural change. Consideration must always be given to alternative ways of delivering desired content through existing training opportunities, such as in specialist and command courses. Where desired behavioural changes can be achieved without a dedicated learning intervention (for example, through signage, email bulletins, and campaigns) this should always be preferred. Repeated mandatory training should never be the first or sole learning intervention for a topic. Neither should it be the sole mitigation for a Defence or Service held risk.

d. **Governance of Mandatory Training.** Proposals for mandatory training often arise from recommendations from wider policy areas who own organisational-level risks which are believed could be mitigated by a universal training intervention. A clear governance process is in place:

(1) **Training Requirements Authority (TRA).** NAVY PEOPLE-WFPT TRA Gen SO1, as owner of all non-Profession training requirements acts as TRA for all mandatory training within the RN. The TRA ultimately defines the Learning Outcomes (articulated as desired behaviours) and Assessment Strategy for training, based on SME advice from the Training Delivery Authorities and Professional Standards Advisors (below).

(2) **Training Delivery Authority (TDA).** The role of the TDA is to take the Learning Outcomes and determine how best these should be achieved by determining the Learning Activity (including format, content, periodicity and assessment) based on advice from the Professional Standards Advisors. The TDA is also responsible for assurance of training. There are two TDAs for RN mandatory training, distinguishing between when it is delivered in Initial Training subsequent periodic delivery:

(a) **Initial Delivery.** NAVY PEOPLE-TMG OP SO1.

(b) **Periodic Delivery**. NAVY PEOPLE-PSP LD Pol SO1.

(3) **Professional Standards Advisors (PSA).** These are policy areas, either at Defence or RN level, who advise the TRA, TDAs and Training Policy desk as to training requirements and assist in the development of training content. In many cases they will represent the Risk Owners and thus have overall responsibility for tracking completion rates of any training. PSAs advise on any legal and policy considerations.

(4) **Training Provider (TP).** Mandatory training is delivered via multiple mechanisms and therefore has several TPs:

(a) **Initial Delivery.** This occurs within Initial Training and therefore the TP is the Ph1 or Ph2 TE. Such training may either be delivered as face-to-face training or as a Defence Learning Environment (DLE) package provided by the PSA. Initial delivery must occur within one year of joining the Service and be delivered within a formal TE, with completion recorded.

(b) **Periodic Delivery.** Subsequent mandatory training may comprise either:

i. Entirely as online learning via the DLE, in which case the TP is functionally the Category Managers and the TMG DLE Support Cell.

ii. Optionally, NCL1, NCL2 and NCL3 may be delivered as formal face-to-face briefs, delivered by suitably qualified personnel who act as TP/WTP in these instances. NCL4 (Diversity & Inclusion) must always be delivered as a workshop discussion.

(5) **Royal Navy Mandated Training Working Group (RNMT WG)**. The RNMT WG meets every six months and is responsible for all issues relating to Mandatory Training within the RN. Even when mandated by Defence, via the Defence Mandatory Training Working Group (DMT WG), no mandatory training 'requirement' is accepted without formal recommendation by the RNMT WG and endorsement by Dir P&T. NAVY PEOPLE-PSP LD Pol (Training) SO2 chairs the RNMT WG on behalf of the TRA and TDAs.

e. **Management of Mandatory Training.** The RNMT WG is the primary management body for mandatory training and meets twice a year. It is chaired by NAVY PEOPLE-PSP LD Pol (Training) SO2 and its terms of reference are:

(1) The review of existing mandatory training requirements to determine if they are still valid (including whether they apply to all personnel), and the scrutiny of any proposals for additional training areas.

(2) Review of training material and the authorisation of amendments where required.

(3) Ownership of the NCL e-Handbook and responsibility for its routine update.

(4) Assurance of mandatory training, including discussion of feedback on received and its action (Internal Validation).

(5) Management of associated competences and the reporting of completion statistics to PSAs and other senior stakeholders.

(6) The coordination and scheduling of NCL campaigns.

(7) The review of the efficacy of mandatory training against endorsed Measures of Effect for each training area

f. **Proposals for new Mandatory Training.** Mandatory training should be underpinned by a Training Needs Analysis that demonstrates there exists a *universal* training requirement for personnel in order to safely or legally discharge their duties. Where a TNA suggests that training may be required, sponsoring areas should engage with NAVY PEOPLE-PSP LD Pol (Training) SO2 to discuss. Where training is clearly more applicable to personnel in only certain contexts (e.g. on operations or in specialist employment), or where the risk to personnel not employed in such environments is low, the presumption is that learning should be delivered as pre-job / pre-deployment training.

9510. International Defence Training

a. **Introduction.** International Defence Training (Royal Navy) (IDT(RN)) is part of the TMG and is tasked to achieve effective defence engagement with partner nations through UK-based IT at the International & Commonwealth Training Unit, as well as securing spaces on RN courses arranged through Government to Government (G2G) activity or larger training contracts under the Wider Markets team. IDT(RN) sponsors and produces a catalogue of maritime training courses available to partner nations. An electronic version is available at the International Defence Training website[5]. Bespoke IDT requests will also be considered. These will usually be covered under the banner of Wider Market activity, with requirements met through RN spare capacity.

b. **Prioritising and Allocating IDT**. IDT(RN) training requirements feed into the RN training planning process and captures all IDT(RN) G2G training requirements approximately 15 months ahead of the relevant Training Year. At eight weeks prior to the delivery of training, changes to dates or course schedules are frozen.

[5] https://www.royalnavy.mod.uk/idt

c. IDT is grouped into three tiers to optimise its effect. Tiering reflects the importance and value of particular training to meet Defence Engagement objectives and consequently controls how IDT is offered and allocated:

(1) **Tier 1.** Selected training courses with prestigious status and high defence engagement value, where demand exceeds capacity. Places are formally allocated by MOD Head Office through the Forward Allocation Baseline (FAB) process.

(2) **Tier 2.** Selected training courses with recognised defence engagement value, where demand often exceeds supply. Prioritisation of course places is managed by MOD Head Office through IPS programmers.

(3) **Tier 3.** All other IDT courses, the allocation of which is delegated to the single-Service IDTs, who will refer to MOD Head Office for guidance on allocation by exception only.

d. **WDoC for International & Commonwealth Trainees.** G2G trainees will be afforded the same level of welfare and medical support as that provided to UK personnel.

SECTION 4

THE DELIVERY OF INDIVIDUAL TRAINING

9511. Management of Trainees

a. RN training should occur in a manner that delivers the required trained output whilst guaranteeing trainee welfare and positive lived experience. These elements may sometimes be in conflict with operational requirements and, while the generation of frontline capability takes precedence, efforts should be made to ensure an appropriate balance of these priorities.

b. All training must be conducted safely, legally and ethically, but it must also prepare our people to operate in dangerous environments, against an adaptable, intelligent enemy. Various standards and controls apply to training activities. These processes and procedures for the management of trainees are mostly delegated to the TDA, although the sub-paras below establishes general direction which must be adhered to.

(1) **Naval General Training (NGT).** The RN expects the highest standards from its personnel, befitting membership in a disciplined military fighting force. Training regarding Core Values and standards of bearing and behaviour must be conducted throughout Initial Training. This includes, but is not limited to, the Beliefs and Values in the Royal Navy curriculum delivered by the Naval Chaplaincy Service and the initial delivery of Royal Navy Mandatory Training (see Para 9509). Training related to the NGT Role PS should be complete by the end of Ph1.

(2) **Handovers.** Handover procedures for trainees between TEs, especially when moving between Ph1 and elements of Ph2, must be robust. Where trainees have been placed on NGT warnings this should be communicated to the receiving Divisional staff. End of Course reports should also be forwarded between TEs and to subsequent employing units.

(3) **Parity.** Every attempt should be made to maintain and communicate a consistent set of expectations regarding dress and discipline across TEs for trainees at an equivalent stage of training. In general, as an individual passes through the Phases of Training, greater expectation and encouragement should be placed upon them regarding self-leadership and responsible behaviour. Attention should be paid by Command to the significantly varying lengths of Ph2 and Ph3 training to ensure that both expected conduct and received treatment are consistent, as far as possible, with trainee's peers across different TEs and wider RN employment.

(4) **Unprogrammed Time (UPT).** Personnel in receipt of training are on duty and the TP has a responsibility to fill UPT falling within core working hours with meaningful employment or learning (for example, information regarding the appraisal system, additional Core Values training, or wider briefings on topics such as the RN Culture Blueprint or Command Plan).

(5) **Out of Hours (OOHs).** The SCD must consider adequate OOH supervision for U18s and Vulnerable Adults. The use of OOHs for additional training (for example Ceremonial or Physical Training) must be fair, retention positive, and observe the principles of parity in sub-para (3) above as far as is practical given individual role requirements.

Note. *Multiple – and divergent – Failure and Warning policies are in place across Naval TEs. It is unclear whether these reflect a genuine need for distinction in this regard or this has merely developed over time. By default, parity across TEs and courses should be applied by the TDA, unless a positive reason can be articulated by the TRA for why a different system is needed. This is particularly true when training is managed under Projected SELBORNE but TEs outside the Contract should also seek to ensure consistency.*

9512. Training Quality Manual (TQM).

TDAs and TPs must cooperate to put in place a TQM, which include the following quality procedures:

a. Training Management Review of the Management of Training System (MTS).

b. Production and review of the SOTT.

c. Training Design, including document control, and accreditation.

d. Review of published course information.

e. Procurement and Support of Training Equipment.

f. Control and review of customer supplied services via Customer Supplier Agreements (CSA), Service Level Agreements (SLA), and contracts.

g. Verification of trainee course prerequisites.

h. Assessment and testing, including analysis of results, records and review

i. Management and reporting of training deficiencies.

j. Training failure policy including reporting procedures following a trainee failure and remedial training guidelines (but see the Note under Para 9511 above). TDAs are to ensure that, within this procedure, they include an action to inform the relevant Career Manager of any trainee failure at the earliest opportunity in order to avoid the individual being employed in an inappropriate manner.

k. Management of trainees.

l. Definitions for the working (training) week, day and period.

m. Identification and recording of staff training.

n. Internal Validation (InVal) of Training.

o. Conduct of internal (1st Party) training audits, including corrective and preventative actions.

p. Control of Quality Records. In addition to any other quality records identified in JSP 822 or locally, the following are to be retained by RN TDAs for the period specified.

Table 95-1. RN Training Quality Record Retention

Quality Record	Minimum Retention Requirements
SOTT	For life of the course.
TrADs	Until superseded, then archived in perpetuity.
Management review records	Until superseded by a later management review.
JPA Establishment	Maintain continually and update as required.
Training documentation	For 5 years after changes to, or cessation of, course then archived in perpetuity.
Contract review records	For the duration of the contract (regardless of any amendments).
Job scalar and other appropriate analysis and design source documentation	For life of the course.
Records of unsuitable customer-supplied product	Until cessation of the course.
Course and test result forms	For life of the course and then archived in perpetuity.
InVal reports	Until after completion of next course review or 5 years, whichever is the shorter.
ExVal reports	Until after completion of next course review or 5 years, whichever is the shorter.
Training and customer feedback reports/reply (e.g. TFAs, S3018s)	Until after completion of next course review or 5 years, whichever is the shorter.
Document review and management plans	Continually update and maintain.
Test software and hardware status records	Continually update and maintain.
Non-conformity concessions[6]	For 5 years after changes to, or cessation of, course then archived in perpetuity.
Training audit reports	For 5 years.
Records of action taken to correct non-conformities reported in training audits (e.g. Quality Improvement and Action Plans)	For 5 years.
Records of staff training	Duration of training staff appointment.
Dispensation for training system or documentation to vary from DSAT[7]	For 5 years after changes to, or cessation of, course then archived in perpetuity.

[6] Non-conformity concessions are only to be approved by NAVY PEOPLE-TMG TGA SO1 in consultation with NAVY PEOPLE-PSP LD Pol SO1. Any non-conformity concessions approved prior to 1 Jan 19 are to be re-submitted to NAVY PEOPLE-TMG TGA SO1 for approval.
[7] As above.

9513. Trainee Feedback Mechanisms

a. **Training Feedback Application (TFA).** The TFA is a SCIO-based tool for RN personnel to use to highlight issues with training and replaces the previous S3018 process.

(1) **Purpose.** Training feedback will continue to be captured as part of the ExVal assurance process and should be used to highlight:

(a) Undertraining. Part of a role is missed or not covered in sufficient detail during training.

(b) Overtraining. During a training course, there might have been a section, or sections, of the training that was considered excessive or not required for a role.

(c) No formal training currently exists. A TFA submission should be completed if an individual is conducting a task or using equipment when there has been no formal training received but is considered to be a requirement.

(2) **Submission.** There are three routes to submit training feedback via the TFA process:

(a) Through the individual SCIO profile page under ‘Listed Courses’. This is the simplest route to submit feedback on a specific course by capturing data already available through JPA.

(b) Directly from the TFA by clicking the “Create Submission” button. This is a suitable option for submitting feedback not related to a specific course. For example, where no formal training is provided or to submit feedback on the training of other personnel.

(c) Via the PDF offline submission form. This is the best route if you do not have a RN SCIO account, such as RFA, or connectivity to SCIO/TFA is unsuccessful. Units are recommended to download the form to their system from the link above to facilitate access later if required.

(3) **Review.** Once feedback is submitted, the TFA investigation process can take a few weeks to several months, depending on the issues raised within the submission. The investigating analyst will update via the SCIO app when there have been developments, or if they require further information. The submission Originator can also leave comments on their feedback if they have any questions. The TFA facilitates a number of different automatic email notifications throughout the whole investigation process. To prevent them going into a junk folder, the SCIO-NoReply@ahe.r.mil.uk should be added to the "safe senders" list on the device. Automated emails are expected to be received when:

(a) A training feedback form has been successfully received by the TFA.

(b) An analyst has been assigned to the investigation process.

(c) The investigation is complete with the closure statement ready to view via the TFA.

(4) **User Guide.** A full user guide for the TFA is available at Annex 95E.

b. **Recruit Trainee Survey (RTS) / Officer Cadet Survey (OCS).** The RTS and OCS are surveys that are independently managed by IFF Research with the annual summaries reported to Ministers. The surveys are administered in Ph1 and Ph2 TEs, with the data collated and visible via an online system. Establishment Executive teams and training providers are to ensure processes are in place that enable exploitation of the survey data, allow identification of problems and improvement of delivery areas quickly, usually via the QIAP. All trainees must be encouraged to complete the survey during their time in Ph1 and Ph2 Training, or on discharge from the Service, as it is their opportunity to raise any issues of concern anonymously and provide feedback to improve the training for future recruits. Access to RTS / OCS Portal staff training is available from IFF Research via NAVY PEOPLE-TMG EVAL SO2 who can advise on dates and details of the training. This policy is the responsibility of Navy Sec-2. Further advice can be obtained from NAVY SEC-2 DISCIPLINE 1.

SECTION 5

THE ASSURANCE OF RN INDIVIDUAL TRAINING

9514. Individual Training Assurance

a. **Requirement**. JSP 822 Vol 5 requires the RN to undertake assurance of individual training. This is achieved via the processes of Audit, ExVal, InVal and to a lesser extent, Inspection.

b. **Responsibilities.** The following individual training assurance responsibilities apply for the majority of training in the RN. The Assurance function for RN IT sits within the TMG TGAA pillar, however, assurance chains may vary where RN training sits under another Military Command.

(1) **First Party Audit (1PA).** 1PA responsibilities differ depending on whether the TP is a TF TDU or not.

(a) **TF TDU.** TF is responsible for conducting 1PA.

(b) **Non-TF TP.** Where 1PA is not contracted via TF, 1PA is to be conducted by the TP or as a peer review provided by another TP.

(2) **Second Party Audit (2PA)**. Conducted by TMG Audit team for both TF and non-TF training units. Planning for these audits is conducted by TMG Audit SO2 with endorsement required at the Strat CEB each year. Follow up of audit findings is essential to ensure the training environment risk is ALARP and effective. It is the responsibilities of TDUs/TPs to deal with audit findings iaw the timeframe stipulated in their Action Plan. The TMG Audit team should report issues of significant Non-Conformity or Deviation (see sub-para d, below) to the Training Policy desk.

(3) **Third Party Audit (3PA) / Inspection.** Required for Ph1 & Ph2 TEs and conducted by the Office for Standards in Education (Ofsted).

(4) **Evaluation.** External Validation (ExVal) and wider Evaluation of Individual Training, delivered at a TDU and in the workplace is conducted by the TMG Evaluation Team, on behalf of the Individual Training TRAs, and includes following:

(a) Course ExVal.

(b) Role ExVal.

(c) Pipeline Evaluation.

(d) Bespoke Evaluation.

(5) All the above Evaluation must be explicitly operationally and capability focused. JSP 822 articulates the use of Kirkpatrick's Evaluation Model[8] as to how Evaluation may be undertaken by a TRA. The RN's approach to Evaluation also adopts Pulley's 'Responsive Evaluation Model'[9] to enable a risk-based approach in terms of prioritisation and resource allocation. This risk based approach supports the prioritisation of workforce and time dedicated to Evaluation. An Evaluation prioritisation meeting is to be held no less than twice per annum, chaired by Hd WFPM; detail can be found in Annex 95F.

(6) **RN Evaluation Strategy.** The production of an Evaluation Strategy (EStrat) for Individual Training undertaken is, per JSP 822, the responsibility of a TRA. The TMG Evaluation Team will produce a pan-RN Evaluation Strategy on behalf of all IT TRAs. The endorsed EStrat can be found in Annex 95F. Any iteration must contain the following:

(a) **Scope.** The extent to which the Evaluation can be undertaken, any limitations in terms of responsibilities, and what activities, specifically, will constitute the outputs.

(b) **Objectives.** A clear outline of what the purpose of the Evaluation Strategy is and exactly what processes it articulates.

(c) **Detailed Methodology.** Information regarding how the theoretical underpinning of Evaluation pertain to the processes and procedures of conducting the specific outputs, such as activity prioritisation or primacy of data sources.

(d) **Data Sources.** A comprehensive list of the key sources of information that support all aspects of an Evaluation process. This must include detail on how AI is utilised and be coherent and compliant with JSP 936[10] and JSP 822 Annex C.

(e) Key Stakeholders and Responsibilities.

(f) Reporting Outputs.

(g) **Escalation Processes.** The procedures by which Evaluation Observations, Deviations, Non-Conformities, and Good Practice are appropriately managed, assigned to stakeholders for resolution/rectification, and subsequently escalated where needed. This process must be linked to the CEB cycle.

(h) **Interface with Collective Training domain.** How the findings and analysis undertaken via IT Evaluation processes can inform and support improvements in Collective Training.

(i) **Whole Force.** Any Evaluation approach must capture, where applicable, Reserve- and RFA-specific elements.

[8] Defence Training Support Manual 5: Evaluation of Individual Training p8
[9] Pulley, M. (1994). Navigating the Evaluation Rapids, Training and Development, Vol 48.
[10] JSP 936 – Dependable Artificial Intelligence in Defence.

(7) **InVal.** InVal responsibilities differ depending on whether the TP is a TF or TDU or not.

(a) **TF TDU.** Where contracted for by the Statement of Requirement, TF is responsible for conducting InVal iaw TF QMS.

(b) **Non-TF TP.** Where InVal support is not contracted via TF, InVal is to be conducted by the TP.

c. **Self-Assessment Report (SAR).** All TP / TDUs are to maintain a regime of Continuous Improvement through the maintenance of a SAR and a 'live' Quality Improvement and Action Plan (QIAP) which should monitor progress against, and active management of, identified risks and issues. TPs are encouraged to adopt a peer review process through links with other similar units to help inform the development of their SARs. SARs should be reviewed, updated and re-published prior to summer leave each year so that they are ready for subsequent Ofsted inspection between Sep and Feb. SARs are to be made available to P&T / TMG HQ staff on request.

d. **Findings.** In addition to the JSP 822 nomenclature of Non-Conformities, Observations, and Good Practice, RN Assurance uses a fourth term: **Deviation**. RN assurance assists both 3* areas with ensuring the Service is equipped with required capabilities, including SQEP. TMG 2PA & ExVal teams will classify a finding as a Deviation when they ascertain that the finding is likely to have downstream impact to the sustainable delivery of enduring operations due to insufficient SQEP. This includes (but is not limited to): insufficient quality or quantity of training, insufficient equipment, retention negative activity, failure to address institutional / foundational issues impacting the attraction, training and / or deployment of personnel downstream.

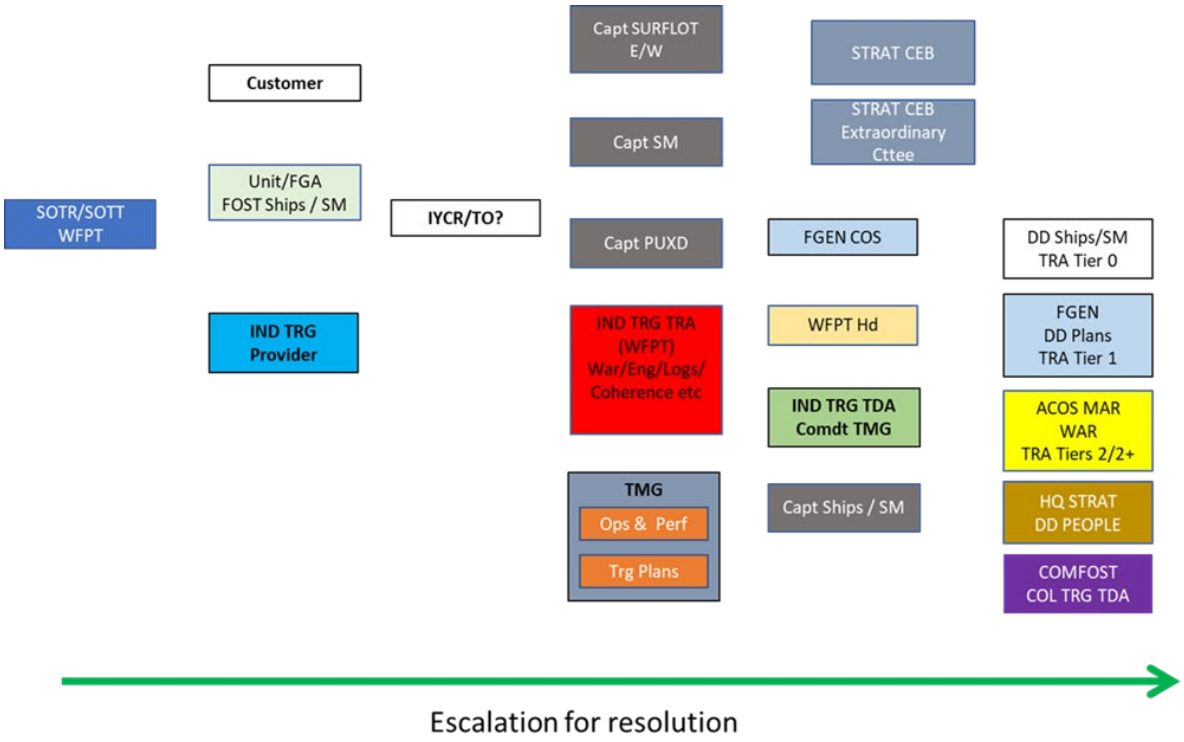
ANNEX 95A

PRIORITISATION OF INDIVIDUAL AND COLLECTIVE TRAINING

1. In certain TEs there are facilities which can be utilised for both Individual Training (IT) and Collective Training (CT), good examples being the MCTS facility at COLLINGWOOD and Devonport, bridge simulators, and the RAS rig at RALEIGH. While the scheduling is normally built around the needs of IT, there is sometimes spare capacity that can be used to support CT, and this can be routinely reserved through the training planners. Equally, there can be times where there is a defined operational need for a ship's teams to be trained prior to deployment. As such the needs of IT versus CT need to be prioritised.

2. The diagram below illustrates the escalation of prioritisation process. Starting at the lowest level of the SOTR/SOTT demands, the escalation process will need to consider whether In Year Change Requests or Tasking Orders need to be raised, or further escalation is needed to OF5, ultimately through the Strategic CEB or to the 1* level.

Figure 95A-1. Escalation Of Prioritisation Process



ANNEX 95B

RN INDIVIDUAL TRAINING DELIVERY ORGANISATIONS

1. TMG. The following organisations deliver an RN Individual Training Requirement under the TDA authority of the TMG.

TDA	TP
Training Management Group (TMG)	Astute-Class Training System (ACTS)
	Chalfont Shore Facility (CSF)
	Nuclear Ship Control Operator Trainer (NUSCOT)
	Trident Training Facility (TFF)
	Command Wing (CW)
	Commando Training Wing (CTW)
	Defence Diving School (DDS)
	Engineering Training Squadron[1] (ETS)
	Initial Naval Training Officers (INT(O))
	Initial Naval Training Ratings (INT(R))
	Marine Engineering Training Group (METG)
	Military Training Unit (MTU)
	Military Information Exploitation Group (MIXG)
	Nuclear Department (ND)
	RN Flight Safety Centre (RNFSC)
	RN School of Aircraft Control (RNSAC)
	RN School of Flight Deck Ops (RNSFDO)
	RN School of Music (RN SoM)
	RN School of Physical Training (RNSPT)
	RN School of Seamanship (RNSoS)
	RN Submarine Training Centre (RNSTC)
	RN Submarine School (RNSMS)
	Royal Naval Leadership Academy (RNLA)
	SM Escape, Rescue, Abandonment, Rescue (SMERAS)
	Royal Navy Submarine Training Centre (RNSTC)
	Underwater Escape Training Unit (UETU)
	Warfare Training Group (WTG) – including the Military Training Unit (MTU), the Chemical, Biological, Radiological, and Nuclear Damage Control Training Unit (CBRNDCTU), and Royal Navy School of Survival (RNSoS)
	Weapons Engineering Training Group (WETG)

[1] Those elements included within the SELBORNE Statement of Requirement (v4.3 p. 20).

2. Other RN. The following organisations deliver an RN Individual Training Requirement under the authority of TDAs other than the TMG.

TDA	TP
CO CU	700X Naval Air Squadron
	750 Naval Air Squadron
	814 Naval Air Squadron
	820 Naval Air Squadron
	824 Naval Air Squadron
	Merlin Training Facility
CO VL	727 Naval Air Squadron
	815 Naval Air Squadron
	825 Naval Air Squadron
	Engineering Training Squadron[2]
	RN Centre of Maritime Survival (RNCMS)
	Wildcat Training Centre (WTC)
CO CHF	845 Naval Air Squadron
	846 Naval Air Squadron
	847 Naval Air Squadron
	Command Support Squadron (CSS)
	Military Training Unit (MTU)
CO Commando Forces	40 Commando
	42 Commando
	43 Commando
	45 Commando
	47 Commando
	Commando Logistics Regiment (CLR)
COMMARRES DACOS T	All Maritime Reserve units
Other[3]	Royal Navy Medical Service School (RNMSS)
	Legal Training
	Training Manager Officers' Courses

3. Other TLBs. Although not exhaustive, the list below articulates other non-RN TDAs and TPs that deliver an RN Individual Training requirement:

a. **Defence College of Support (DCSp).** Delivers Phase 2 and 3 training to the Logistics Branch through its subordinate schools and training wings, which act as the TP[4].

b. **Defence Intelligence Training Group (DITG).** Delivers Phase 2 and 3 training to the Warfare and RM Branch through its subordinate schools, which act as the TP[5].

c. **Defence College of Technical Training (DCTT).** Delivers Air Engineers through the RN Air Engineering and Survival School (RNAESS) which, along with the ETS units at CD and VL, act as TPs.

[2] Elements not included within the SELBORNE Statement of Requirement (v4.3 p. 20).
[3] TDA ownership for these Training Providers / courses is unresolved.
[4] Defence School of Logistics and Security (DSLA); Defence School of Policing and Security (DSPS) and Defence School of Transport (DST).
[5] Defence School of Intelligence (DSI) and Defence School of Geospatial intelligence (DSGI). Transformation expected in Q2-25 ad DITG becomes the Defence Intelligence and Targeting Academy.

d. **22 Group, RAF.** Delivers initial aircrew officer training through the UK Military Flying Training System's Flying Training Schools (FTS)[6] and through the Defence SERE Training Organisation (DSTO), who act as TPs. It also delivers Warfare Phase 2 and Phase 3 training through the Defence College of Air and Space Operations as the TP.

[6] 1 FTS. Delivers Rotary training at RAF Shawbury; 3 FTS. Delivers initial Fast Jet training at RAF Cranwell and 4 FTS. Delivers secondary Fast Jet training at RAF Valley.

ANNEX 95C

CUSTOMER EXECUTIVE BOARD – TERMS OF REFERENCE

1. Structure. The Strategic CEB is supported by a series of CEBs governing training by capability or functional areas of activity and these CEBs in turn are supported by a series of CEB Working Groups (WG) that govern training at the Training Delivery Unit (TDU) level. This structure is intended to provide a more streamlined relationship between the TDA and TRA, as well as link up into NCHQ capability areas. Whilst the CEBs provide the forum for the TDA and TRA to hold each other to account, for those training elements delivered through the SEL contract, the TDA and Training Provider (TP) – Team Fisher – hold each other to account through monthly SEL Management Boards and quarterly SEL Leadership Boards, the latter chaired by Dir P&T. The CEBs and supporting WGs are held biannually, reporting into a spring Strategic CEB that will oversee production of the SOTR, and a summer Strategic CEB that will endorse the annual SOTT. The CEB process is managed by the TMG's Governance and Assurance pillar.

Table 95C-1. CEB Battle Rhythm

Timing	Serial	Lead	Comment
Nov	SOTR updated	Respective BMs	
Jan	SOTR Screenings	Trg Req SO2	
Jan	Pre-CEBs	TMG SO1 Trg Ops	Resolve issues in training delivery. Those that cannot be resolved should be taken to CEBs
Feb	Interim CEBs	TMG SO1 Trg Ops	Aim: Tactical in-year management. To endorse respective SOTR and to consider impact on training resources as well as Yrs 2-4 issues.
Mar	Interim Strat CEB	DDPT / Hd WFPT	im: to discuss in year changes and consider GTS Targets.
Mar-May	Compilation of draft SOTT	TMG SO1 Trg Plans and Team Fisher	Note: SOTR locked down. No adjustments can be made until draft SOTT compiled.
Jun	Interim CEBs	TMG SO1 Trg Ops	As per Feb
Jun	Individual CEBs	TMG SO1 Trg Ops	Aim: to approve respective SOTR/SOTT and understand risks not resolved at WGs.
Jul	Strat CEB	DDPT / Hd WFPT	Aim: to endorse the SOTT for the next training year such that the Training Plan can be completed by end Sep, thereby giving Career Managers 6 months' notice to assign personnel to courses commencing the following Apr.

2. Procedure for CEB Process. Each CEB will be chaired by the relevant TDA, normally from the TMG Ops and Perf pillar, the rationale being that the TDA will be best placed to provide the necessary training data and, additionally, understand the resources required to deliver that training. Defence CEBs are to be attended by the RN TRA and their representatives as the SOTR/SOTT and requirements setting are integral to Naval training.

3. The Chair will be responsible for determining the shortfall or surplus between the training demand (SOTR) and the training supply (SOTT) that cannot be resolved by SOTR SO2 before the CEB and ensure clear articulation of actions. The product should be a clear holding to account of people and organisations that are responsible for managing resources, setting the requirement and delivering the training, including endorsement of key training documentation iaw JSP 822 and this BR. Unresolved issues and risks should be raised to the Strat CEB.

4. The Lead TRA plays a vital role in developing the SOTR and it is critical that the Yr 1 figures agreed at the end of the SOTR process are valid and accurate. It is recognised that the figures for Years 2, 3 and 4 will require increasing refinement as the SOTR progresses year on year. In compiling the SOTR, the following issues are among those that should be taken into account:

a. New capability/capability upgrades.

b. Changes to policy and legislation.

c. Impact of ABC measures.

d. Defence priorities.

e. Results of external validation.

f. Changes to infrastructure.

g. Changes to workforce structures.

h. Known difficulties of recruiting in specific trades/branches.

i. Historic data on take up and pass rates on courses.

j. Requirements for team and collective training.

5. In order to build up meaningful data on the accuracy and validity of SOTR figures, at the end of each training year a comparison of the relevant forecast requirement (SOTR) versus actual achievement is to be undertaken by the training organisation/school. The results of this comparison are to be reported at the CEB, with records maintained to establish trends3.

6. Two weeks before the annual Strategic CEB meeting, the Chair of each CEB should forward a short briefing note to the Strat CEB Secretary (TMG SO1 TGAA) to inform the ensuing Strat CEB. This will permit the Strat CEB to record formally the areas where risk has been agreed.

7. Management of Risk. SOTR screening meetings and review of outturn data by BMs and CMs should refine the SOTR figures on an annual basis and thereby ensure that the requirement identified is as close to likely ‘take up’ as possible. In areas where outturn data indicates that course take up is consistently below the requirement, then CEB chairs are permitted to take qualified ‘risk’ against the SOTR (by up to 10%) without further approval, taking into account the ‘risk’ already incorporated into these figures by improved screening meetings. The level of risk should be articulated and justified in the Strat CEB brief. It is accepted that this ‘risk’ will be taken by the TDA, rather than collaboratively, unless circumstances otherwise deem it appropriate.

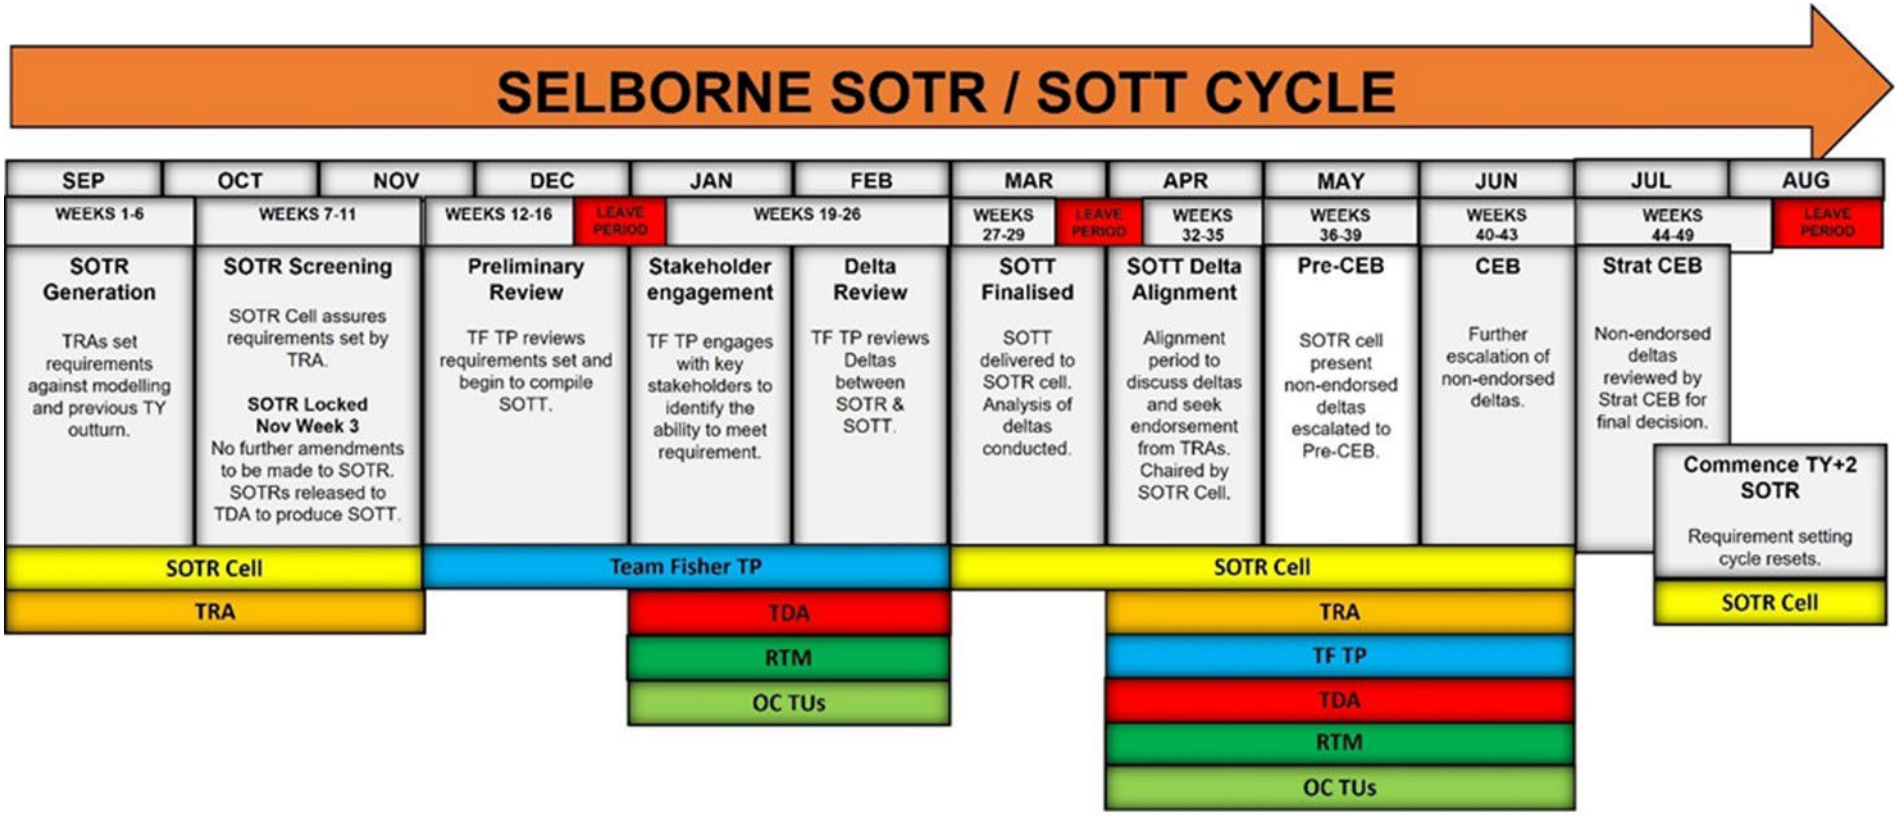
ANNEX 95D

SOTR / SOTT CYCLE

1. SOTR Production. The SOTR is to be produced in accordance with the diagram below. The SOTR should capture all individual training requirements, as well as those from FGen for ships' teams that are generating and need to make use of individual training facilities such as MCTS, bridge simulators, RAS Rig, etc. The same is true for FOST Ships and FOST SM where they also need to use individual training facilities to deliver elements of Operational Sea Training (see BRd 9275). Capturing both individual and team/collective training requirements will enable a SOTT to be produced that has capacity for both individual and team/collective training. The SOTT needs to be endorsed by the Strat CEB in sufficient time for the TP to produce a training plan against which Career Managers can assign personnel to respective courses. In order to give individuals the recommended six months' assignment notice, training plans need to be complete by the end of each September for courses to be loaded from the following April.

2. There are two RN SOTR/SOTT processes for training in and out of scope of the SEL outsourced training contract. For SEL training managed by the TMG please see diagram below. Non-SEL SOTRs are screened in Jan/Feb and SOTTs completed by Mar May of the preceding training year.

Figure 95D-1. SOTR/SOTT Cycle



ANNEX 95E

TRAINING FEEDBACK APP (TFA) SUBMISSION GUIDE

1. Introduction

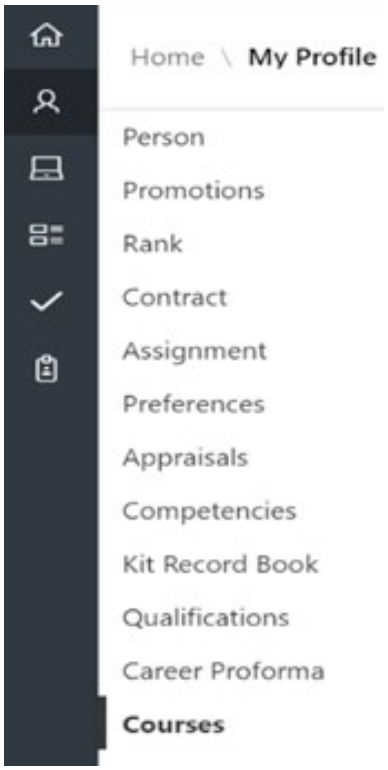
a. To access via the online routes, you need access to SCIO. If you are using MODNET you can access via the MODNET button using your usual PUID and MODNET password. If you are not on a MODNET terminal, then you should access via the deployed route.

b. If you cannot connect to SCIO then you will need to download the offline submission form.

2. SCIO Submission Routes

a. **"My Profile" Route.** If you are submitting feedback on a course that you have attended personally, then this is the easiest way to submit feedback.

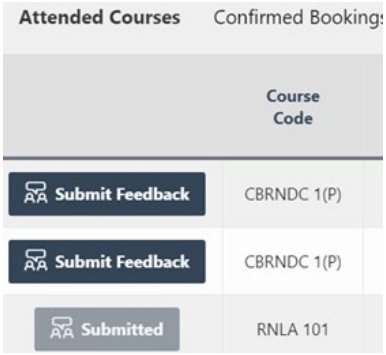
(1) Click on the "my profile" icon found on the top left-hand side under the "My SCIO" title (*pictured right*).



(2) Then select the "Courses" tab near the bottom of the list.

(3) On this page you should have a list of all the courses you have attended. On the left-hand side of the course code you can click on "Submit Feedback" button (pictured right). This will open the TFA submission form and also auto populate your personal, professional, and course information, allowing you to move straight to logging your issues.

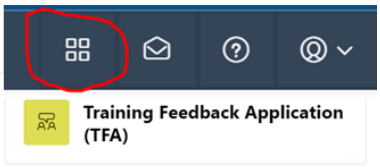
(4) After your submitting your feedback, you will return to the same page and the course you selected will have changed from “Submit Feedback” to “Submitted”.



(5) In order to review your submission and track it you will need to go into the TFA itself. Refer to the second submission route below on how to access the app.

b. **TFA Submission Route.** This is the best route for providing feedback if no formal training currently exists, or you are submitting on the behalf of, or about someone else’s training. To access the app, to review your submissions, or to raise a new one:

(1) Click on the four tiles button, located at the top, right hand side. You should see the TFA from the drop-down menu, it will look like the picture below.



(2) Once in you can create a submission using the button found on the right side of the page. This route does not auto-populate so provides you the ability to search for courses or select no training course provided. Mandatory information fields are highlighted with a red corner depicted on the right.

3. TFA Offline Submission Form

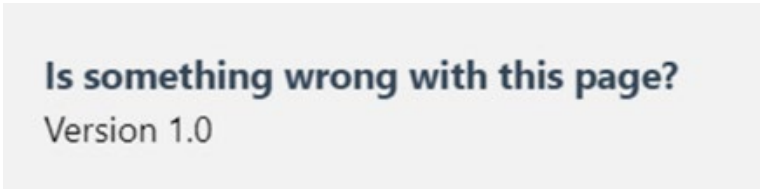
If you cannot utilise either of the online routes, then submit using the offline pdf form[1]. You can submit up to five issues per form. Once complete send to NAVYPEOPLE-TMGTRGFEEDBACK@mod.gov.uk.

[1] modgovuk.sharepoint.com/teams/60086/Shared Documents/Forms/AllItems.aspx?id=%2Fteams%2F60086%2FShared Documents%2FTraining Feedback App %28TFA%29 Offline Submission Form%2Epdf&parent=%2Fteams%2F60086%2FShared Documents

4. Points to Note

a. Notifications can take a while to receive, please wait at least 5-10 minutes before assuming it has not worked and check your junk folder. If they start to go into your junk folder, then right click on the email and select “not junk” and this will prevent future notifications ending up in your junk.

b. If you find any issues with the TFA, or would like to suggest future enhancements, submit feedback by the link on the bottom of the application home page depicted in the picture below.



ANNEX 95F

ROYAL NAVY INDIVIDUAL TRAINING EVALUATION STRATEGY

1. Introduction

This Evaluation Strategy (EStrat) and the contents therein apply to all Individual Training undertaken by the RN, inclusive of those both within and outwith the SELBORNE contract, the RM, and the MR; all Individual Training TRAs are to adhere this.

2. Purpose

a. The purpose of a unified, whole-force RN Evaluation Strategy (EStrat) is to improve how Individual Training Evaluation is conducted. This enables the Training Management Group (TMG), the wider People and Training Directorate, and other stakeholders to assess and enhance the effectiveness of training programmes, operational processes, and individual performance within the Royal Navy. The EStrat serves as a comprehensive framework for current and future practices, providing detailed guidance where necessary. It supports the systematic evaluation of roles, training courses, workplace training, exercises, and operational activities related to Individual Training, ensuring they align with strategic objectives and meet operational needs.

b. By conducting Evaluation and External Validation (ExVal), the Royal Navy can identify strengths, weaknesses, and areas for improvement in training and how that training prepares its individuals for conducting their various roles. The underpinning policy that drives this Evaluation activity is enhanced by this single service Strategy and is contextualised to the specific needs of the Royal Navy. Undertaken successfully, adherence to the detail contained within will lead to more informed decision-making, continuous improvement, and the enhancement of operational readiness and capability. The strategy also serves to promote accountability, transparency, and a culture of learning and development within the Royal Navy.

3. Scope

This EStrat sets out the processes, data inputs, and responsibilities for conducting Evaluation and External Validation across RN Individual Training, including Workplace Training and the Maritime Reserves. It outlines the function of TMG's Training, Governance, Assurance, and Analytics (TGAA) team in delivering Evaluation via continually improving data triangulation, enhanced analytics, and clarity of ownership. It specifies the inputs, reporting processes, and hand-offs required to prioritise, deliver, and act on any Evaluation/ExVal findings. These efforts aim to ensure that Evaluation outputs are actionable, transparent, and aligned with the Royal Navy's commitment to operational excellence and Whole Force integration.

4. Objectives

a. The singular objective of this EStrat is to meet the clear, simple and two-part focus of Evaluation/ExVal[1], namely:

(1) To determine the degree to which training prepares individuals for the specified Role.

(2) To determine whether the Role (or elements of training thereof) remains valid.

b. To achieve this aim, this EStrat sets out further detail to enable the above, namely:

(1) **Enhance Training Effectiveness.** Establish a structured, risk- and operationally-based approach to evaluating Roles, training courses, and workplace training, ensuring alignment with strategic objectives and operational requirements whilst addressing critical gaps.

(2) **Integrate Data and Expand Scope.** Leverage multiple data sources and broaden Evaluation to more explicitly and robustly include Individual Training Workplace Training, Maritime Reserve-specific training, and feedback from Collective Training.

(3) **Promote Continuous Improvement and Accountability.** Implement and outline the contents of mechanisms such as a QIP, or any other data coherence mechanisms, and Quarterly Assurance Report due to ongoing monitoring, feedback, and refinement of training programmes, ensuring transparency and stakeholder collaboration.

(4) **Support Whole Force Integration and Flexibility.** Ensure the inclusion of Maritime Reserve training in Evaluation processes, provide bespoke evaluation outputs, and foster a culture of continuous improvement.

(5) **Standardisation of Activity.** Seek to ensure that all activity pertaining to Evaluation is standardised across TRAs and wider areas, and where deviations are required that they are captured formally and by exception.

5. Methodology

Whilst adherence to the Level-based approach as outlined in Kirkpatrick's Evaluation Model, in accordance with JSP 822, is key across all three Services, RN Individual Training Evaluation will additionally utilise Pulley's 'Responsive Evaluation' model to support prioritisation of activity and utilisation of resource. Broadly, this entails the following:

[1] DTSM 5 Evaluation of Individual Training para 2.1.2

a. **Risk Identification.** Mechanisms to identify potential risks shall be utilised and triangulated where these risks might impact operational readiness, performance in Role, or wider mission success. Risks may include but not be limited to: consistent evidence of gaps in training content delivery, training resource constraints, workplace training shortfalls, workforce gapping, trends from Training Feedback App data, findings from Collective Training assurance, and emerging changes in operational environments.

b. **Evaluation Prioritisation.** This methodology utilises the risks identified to enable a more flexible and responsive approach to planning particular foci of Evaluation, across the RN Professions, ensuring that the allocation of staff, time, and resource is towards those Roles (and associated courses) that will have the greatest impact on achieving operational outcomes. See Prioritisation at Section 15.

c. **Data Collection and Analysis.** As Evaluation relies on the collection and subsequent analysis of data, to both identify risk and assess any impact on training effectiveness, as comprehensive a range of data sources as possible must be utilised, with a standardised approach to this the default across the Training Requirements Authorities. Further detail can be seen at Section 6 to this Annex.

d. **Continuous Monitoring.** This Strategy must include a mechanism for the continuous monitoring of risks and evaluation outcomes to track progress, adapt strategies, and ensure that any prioritisation is fully aligned with operation requirements. Regular reviews and updates to any prioritisation processes, as well as escalation processes, to enable the EStrat itself able to remain responsive to changing circumstances.

6. Data Sources

The wider process of Evaluation and the subsequent quality of its outputs depend on an increasingly triangulated approach to data that not only enables feedback to key stakeholders, but which also supports responsive prioritisation and iterative improvements to Evaluation. Each data source plays a crucial role in in providing valuable insights, and any Evaluation should utilise, as a minimum, the following:

a. **Previous ExVal Reports and Findings.** Such reports, and the findings therein, offer a historical perspective on training evaluations, conducted by external assessors and enabled the TMG and wider RN to identify strengths, weaknesses, and areas for improvement, as well as enable an understanding of issues and actions that remain open.

b. **Elements from InVal Findings.** InVal findings provide detailed assessments conducted internally, and aim to evaluate specific training exercises, scenarios, or courses. These include specific feedback on training delivery, content relevance, instructor effectiveness, and trainee performance. Information from InVal may be useful to triangulate against both previous and current ExVal findings, and should be considered, where appropriate, to support in ExVal prioritisation. InVal findings should not be used when ascertaining validity of the Role.

c. **MI Hub.** The Management Information (MI) Hub is an evolving repository for various training-related data and metrics, much of which is used to provide quantitative data for performance analysis, trend identification, and decision-making. Key content, which include metrics on training completion rates, assessment scores, course uptake rates, and first-time pass rates, should be considered within any ExVal where the data exists.

d. **Training Feedback App.** The Training Feedback App (TFA) (see Annex 95E for submission guide) allows service personnel (Regular and Reserve) to provide real-time feedback on their training experiences following training and whilst undertaking the Role, and looks to consider factors such as Undertraining, Overtraining, and where Training Objectives are not being trained. It captures immediate concerns in support of ExVal and empowers service personnel to drive improvements in their lived experience and is a clear route to make views heard. TFA is also vital in enabling Line Managers to offer a different perspective and support the TRA in adjudging where Role requirements may have altered.

7. Evaluation Outputs

a. **Course ExVal.** An assessment of the appropriateness/suitability of the training undertaken to the Operational PS/CF from which the TOs/EOs are mapped. This provides detailed snapshots of training efficacy to the TRA and beyond and enables feedback as to the validity of elements of the Operational PS as relates to those TOs/EOs assessed.

b. **Role ExVal.** The comprehensive analysis of a particular Role, comprising of the various elements that entail conduct of that Role (both technical/specialisation specific as well as Leadership and Management training), with an emphasis on the workplace training across platforms that engenders a deeper understanding of how the totality of training impacts on the knowledge, skills, and attributes gained and therefore assurance that the business/operational focus of training is being maintained.

c. **Pipeline Evaluation.** A holistic and qualitative undertaking providing understanding of an entire career pipeline, with further emphasis on Value for Money (VfM) and applicability to new platforms and proposed crewing solutions to future platforms.

d. **Bespoke Evaluation.** The ability to provide ad-hoc work in support of Programmes, to provide information regarding training efficacy as needed.

8. Feedback Populations

a. As part of the conduct of ExVal, and for the full output required as per Defence Training Support Manual (DTSM) 5, there are different populations that must provide feedback. These are:

(1) **Trainees.** These comprise of individuals who have undertaken the training that is being assessed within the last 6-18 months upon completion of a particular course or commencement of a new Role. This population will provide feedback as to whether they are able to conduct the Role based on the training that has been provided to them.

(2) **Line Managers.** As the Line Managers of the above population, they will provide further detail, often due a more holistic level of awareness, as to the ability of the former trainees in completing the Role, but also as to changes to the Role over time and the overall Role (and thus Operational PS) validity.

b. Additionally, the following population may be consulted to provide information in support of Evaluation:

(1) **Subject Matter Experts.** Where there are recognised experts in the subject matter for which the training was designed, they should be identified and consulted. This may include individuals no longer directly working in roles ordinarily in scope for Evaluation, however they should not be disqualified from contributing purely on the grounds of their current employment.

9. Findings

a. The findings of any ExVal are a key output that enables empowered stakeholders to effect change. ExVal will be focussed on ascertaining, when referenced against key training documentation, whether the following has taken place:

(1) **Undertraining.** Where either the volume of training or the format of training undertaken is less than the specified requirement, or where de facto in-Role activity demonstrates an incorrect Training Category that is lower than it should be, this will constitute Undertraining.

(2) **Overtraining.** Where either the volume of training or the format of training undertaken is more than the specified requirement, or where de facto in-Role activity demonstrates an incorrect Training Category that is higher than it should be, this will constitute Overtraining. If possible, any finding captured as such should articulate any financial savings that correction would provide.

(3) **No training.** Where a required element of training contained within the TPS or WTS has not been carried out, or where de facto in-Role activity is found to be undertaken without a commensurate mapping to the FTS and/or any type of training to conduct this activity has not been provided, this will constitute No Training.

b. To support higher level, pan-RN analyses, the capturing of these findings must contain the following:

(1) **Stakeholder(s).** Individuals who are able to enact the proposed recommendation(s).

(2) **Profession/Specialisation.** The Profession and/or Specialisation against which the Role is borne.

(3) **Type**. See Paragraph 9c of this Annex for further explanation.

(4) **Category/Sub-Category.** A grouping of related finding types, further broken down where appropriate. For all ExVal-related findings, a sub-category of either **No Training**, **Undertraining**, or **Overtraining** will be given, as related to specific Training Objectives (or Task, Sub-Task etc when linked to an Operational PS).

(5) **Operational PS/FTS Element.** Categorisation as to whether the issue pertains to the Training Performance Statement derived training, Workplace Training Statement, Residual Training Gap Statement, or the Role Performance Statement.

(6) **Recommendation.** Detail as to what the proposed course of action should be to mitigate any deficit or shortfall.

(7) **Location.** The TDU/Training Establishment (or Unit for Workplace Training) linked to the finding.

(8) **SOTR.** Which SOTR the related Course features on.

(9) **Service Type**. Whether this finding is related to Regular, Reserve, or Royal Fleet Auxiliary courses.

(10) **Proposed Review Point.** A proposed review date for the mitigation of the finding, to be endorsed or amended at Stakeholder meetings (see para 12).

(11) **Provisional '4T'.** The analyst will recommend the assignation of one of the '4Ts' (see para 12b), to be endorsed or amended at Stakeholder meetings (see para 12).

(12) **RAG Status.**

c. RN Evaluation findings must be categorised in a manner aligned with the nomenclature of JSP 822 and BR3(1) Chap 95 Paragraph 9514d. For Evaluation findings specifically, these will be:

(1) **Non-Conformity.** Any finding showing evidence of No Training is to be classified as such.

(2) **Observation.** Where evidence has been found that changes to current practices would be beneficial, but of a level that does not meet the threshold for **Deviation.**

(3) **Good Practice.** Any finding showing evidence that the practices of the organisation require positive comment, with a view to improve practices across the RN via continuous improvement.

(4) **Deviation.** This includes any finding that is assessed as likely to have downstream impact to the sustainable delivery of enduring operations due to insufficient SQEP. This includes (but is not limited to): insufficient quality or quantity of training, insufficient equipment, retention negative activity, failure to address institutional / foundational issues impacting the attraction, training and / or deployment of personnel downstream. Whilst it is expected that the majority of these will be Undertraining findings, when considering attractional issues or issues relating to the deployment of personnel, Overtraining may be the categorisation applied.

10. Coherence of Findings

a. The capturing of key findings should be undertaken in a unified manner and in a format that supports a wider Assurance view and analysis. A data coherence system, featuring findings from Evaluation, Audits, and Internal Validation should be the primary method by which this is achieved.

b. Every Evaluation task undertaken must have the evidence presented and captured formally to the requisite Professions Manager, with the findings and proposed actionees clearly stated (see Para 10).

c. Where, during the process of conducting Evaluation, evidence arises showing that there are Assurance deficits in areas outwith Evaluation/ExVal, the findings are to be added to the any data coherence system and appropriately tagged.

11. Products

a. The primary output of any Evaluation or ExVal undertaken is the findings captured within a data coherence system, accessible to all key stakeholders. Additionally, access to the analysis, methodology, supporting DSAT documentation, question set, ethical declarations, is required and all such data is to be retained in accordance with organisational requirements.

b. **Quarterly Report.** A three-monthly report providing a summary of Evaluation undertaken, those findings/actions that require first level of escalation, as well as trend analyses of key findings. This will be undertaken in conjunction with the TMG TGAA 2PA team. This report will be provided to DDPT, DDPC, and COMMARRES.

12. Stakeholders

There will likely be several stakeholders linked to any one Evaluation output. These will generally include (but are not limited to) the following, which each has differing responsibilities:

a. **Training Requirements Authority:** Has overall responsibility for Evaluation. Leads in the prioritisation of Evaluation outputs. Responsible for actioning Evaluation feedback relating to the Operational PS and FTS.

b. **Training Delivery Authority:** Responsible for actioning Evaluation feedback relating to the management and delivery of Individual Training[2] as well providing valid information that may support the prioritisation process, especially as relates to known risks and issues with delivered training.

c. **Training Provider:** Responsible for actioning Evaluation feedback relating to the conduct of training where this is separate from the TDA. This also includes the Workplace Training Provider[3] (WTP) when considering Individual Workplace Training.

d. **TMG Audit Team:** Responsible for the provision of information where necessary to support the prioritisation of Evaluation.

e. **Career Managers:** Where feedback or findings relate to career pipelines or the appropriateness of training for a Role or Roles, Career Managers may be added as a stakeholder.

f. **Training Capability Managers:** Where feedback or findings relate to new capabilities or training, the relevant Capability Managers may be added as a stakeholder.

g. **Team Fisher:** Where relevant, Team Fisher personnel may be added as a stakeholder.

h. **WFPM Role Analysis:** The TRA may call on WFPM Role Analysis where Evaluation findings suggest an issue with the Operational PS. Supports prioritisation.

i. **Non-RN Single Service Representatives:** Where non-RN personnel attend RN courses, Single Service Representatives will be added as stakeholders to input on any single-service considerations.

j. **Collective Training/FOST Representatives:** Will be added as a stakeholder on findings relating to Collective Training. They will also feed into the Evaluation team any findings from their own work relating to training. Supports prioritisation.

[2] BRd 3(1) Chapter 95 Paragraph 9505d.
[3] BRd 3(1) Chapter 95 Paragraph 9508c.

13. Stakeholder Meetings

a. Training Evaluation analysts and the key stakeholders linked to ExVal must discuss findings at Stakeholder meetings. These meetings should be held at intervals no less than two months apart. These meetings will enable the provisional findings contained within any report to be amended where necessary, particularly when considering the category details as described in paragraph 9b and 9c of this Annex.

b. Every finding will be required to have a '4T' categorisation confirmed. These will have been provisionally assigned within an initial report, however a Stakeholder Meeting is the point at which the empowered actionee for such a finding will formally confirm (or amend). Where there is a fundamental disagreement as to assignation, the action is to be immediately tagged **Red** (as per para 9b (12)) and raised at the next OF5 CEB. These assignations may have impact on the escalation of these findings (see para 13). The '4Ts' and their values are as such:

(1) **Tolerate.** Where no action is required, or where any risk associated with no action being taken is deemed within tolerable threshold. Reviewed annually and captured in Quarterly Report (see para 10b) for TMG Hd Delivery/Hd WFPM awareness and reassigned if necessary.

(2) **Transfer.** Where transfer of risk to a suitably empowered role holder or organisation is required to resolve any action. This will often be required where training requirements or training delivery sits outside RN control, or where a non-RN third party provides the best path to action resolution.

(3) **Terminate.** Where the risk revealed by a finding poses an unacceptable level of risk, and which cannot be reduced to an acceptable level by any other means, the root cause action will cease.

(4) **Treat.** Where action is to be taken to reduce risk likelihood or impact of finding issue, through the implementation of mitigation measures. Each action assigned as such will be required, at the relevant Stakeholder Meeting, to have a Review Point assigned that is between a minimum of two months post-meeting and a maximum of twelve months post-meeting.

14. Escalation Process

a. Any finding that requires addressing, particularly those Non-Conformities and Deviations, must be embedded into a process that enables the appropriate and timely escalation to an appropriate stakeholder if and when it becomes evident that the initial stakeholder assigned the action does not possess the levers required to address the issue, or where the level of risk associated with the '4T' assignation of 'Tolerate' or 'Terminate' is such that it requires higher level decision making.

b. To support this, as well as ensure that Evaluation processes are linked to the CEB processes, a clear sequence of escalation for findings is a necessity.

c. Following the capturing of a finding from Evaluation, the below process will be triggered:

(1) As per paragraph 12.b(1), where an assignation of **Tolerate** is agreed at a Stakeholder Meeting, a Review Point will be agreed for 12 months hence, RAG rating on the requisite data coherence system is to be set to **Green,** and the details added to the Quarterly Report for 1* awareness.

(2) As per paragraph 12.b (3), where an assignation of **Terminate** is agreed at a Stakeholder Meeting, RAG rating on the requisite data coherence system set to **Red,** and this action will be immediately raised to the requisite Duty Risk Holder.

(3) As per paragraph 12.b (4), where an assignation of **Treat** is agreed at a Stakeholder Meeting, the following escalation process will follow:

(a) Review Point confirmed (per paragraph 12b). RAG rating on the requisite data coherence system set to **Green**.

(b) By the set Review Point, if the proposed action has not been achieved, RAG rating on the requisite data coherence system set to **Amber** and a second period, with a second Review Point of no later than 12 months hence set to enact the action. These outstanding actions will be added to the Quarterly Report and should be raised at the requisite pre-CEB.

(c) By the second Review Point, if the proposed action has still not been achieved, RAG rating on QIP set to **Red** and immediately added as an action point at the OF5 CEB for higher level deliberation and decision.

(d) Where the levers required to enact the change required are such that action requires raising at the OF5 CEB, then **Red** can be immediately assigned at the stakeholder meeting.

15. Prioritisation of Evaluation

a. As well as the underpinning methodology contained in Paragraph 5a of this Annex, a singular process for Evaluation Prioritisation and the subsequent workplans that derive from this is an essential activity, and one that is to be undertaken twice annually, post-Strategic CEB.

b. Each Individual Training TRA is to ensure a list of proposed Evaluations/ExVal are compiled, based on a range of data sources. These are to be prioritised via consideration against four main metrics, namely:

(1) **Operational Criticality.** The extent to which the Role being trained for and conducted is critical for the conduct of Defence Operations.

(2) **Strategic Alignment.** Whether the Role being trained for and conducted directly supports the RN's top strategic priorities.

(3) **Training Risk.** Where there are known issues and risks associated with the training pipeline that means a high likelihood of risk to individuals, the delivery of courses, and the subsequent degree to which the individual is sufficiently trained.

(4) **Workforce Capability Gap.** Where the related Role is classified as being in a Workforce Capability Gap, and thus the likelihood of issues/training shortfalls is higher.

c. Each TRA will be required to present this proposed workplan at the biannual prioritisation meeting for review by Hd WFPM; this will form the finalisation of the process and enable the management of workforce to meet the agreed Evaluation need following further input from other stakeholders.

d. The composition of the biannual prioritisation meeting should include:

(1) Hd WFPM – Chair

(2) Individual Training TRAs.

(3) SO2 TRG EVAL. Representative from the TMG TGAA Eval.

(4) WFPM RA Coherence Hd. Representative from Role Analysis team.

(5) Collective Training/FOST QMC. Representative to provide Collective Training input in support of prioritisation.

(6) TMG Ops. Representative to provide additional insight on training risk and issues pertaining to Training Establishments.

e. Where a TRA for Individual Training exists that sits outside of WFPM, they should follow any prioritisation processes promulgated by TMG TGAA Eval and should where possible cohere WFPM prioritisation activity.

16. Workplace Training

a. Workplace Training is an essential component of RN Individual Training and is integral to the achievement and maintenance of competence in Role. As such, Workplace Training is within scope of this EStrat and must be evaluated in a manner that is proportionate, risk-based, and aligned with the two-part objective at para 4a of this Annex.

b. Evaluation of Workplace Training is to consider, as a minimum:

(1) **Adequacy of the Workplace Training Statement (WTS).** Whether workplace training requirements remain current, complete, and aligned to the Operational PS and operational need.

(2) **Transfer of Learning.** Whether formal course learning is effectively translated into competent performance in the workplace, including confidence, frequency of task performance, and readiness for independent duty.

(3) **Supervision and Assurance.** Whether supervisors, coaches, and assessors are appropriately prepared and resourced to deliver and assure workplace learning, including consistency of assessment and recording.

(4) **Enablers and Constraints.** Whether time, equipment, platform availability, operational tempo, and local processes enable delivery of workplace training, and where these factors create risk or variance.

(5) **Variability Across Units and Platforms.** Whether workplace training is delivered consistently across locations, and where variation exists, whether it is justified by context or indicates an assurance deficit.

c. Workplace Training evidence is to be triangulated using trainee and Line Manager feedback (para 8), relevant training documentation (Operational PS, WTS, and RTGS where applicable), and available performance data. Where workplace training shortfalls indicate an issue in the WTS or Operational PS validity, this is to be recorded as a finding and managed through Stakeholder Meeting process.

d. Findings relating to Workplace Training are to be categorised in accordance with para 9, assigned a provisional 4T, and actioned through the standard escalation process at para 14. Where workplace training delivery is constrained by factors outside the immediate control of the actionee, Transfer should be considered to ensure the risk is held at the appropriate level.

17. Maritime Reserves

a. All policy surrounding the conducting of Evaluation equally applies to the Maritime Reserve, however nuances around differences in Reserve training procedures may necessitate commensurate differences to Evaluation procedures when focussing on RNR or RMR training. This, however, should be by exception and all efforts made to align with the Regular service. Where possible, specialist Reservist input to any RN Evaluation team should occur.

b. There are several key considerations pertaining to Reserve Evaluation that must feature in any processes, namely:

(1) **Periodicity of Activity.** The baseline requirement for PTVR activity is 24 Reserve Service Days (RSDs) per annum. This should be accounted for when understanding the impact of training on a PTVR's ability to conduct a Role.

(2) **Training Sequencing.** The MR differs from the Regular service in that training, as part of the Certificate of Professional Qualification (CPQ) (BR3(1) Chap 101 para 10128) requires key training to be undertaken as pre-promotion or pre-selection requirements. As there is no timing requirement attached to this, key training for *future* Roles may often occur years in advance of the actual conduct of said Role.

(3) **Mobilised Output.** As the function of MR mobilised Roles can be either contingent or auxiliary and are often the focus of the PTVR training pipeline, Role validity should be ascertained against these outputs.

18. Value for Money

Value for Money considerations are integral to any Evaluation undertaken and underpin proportionate, risk-based decision making across the training system. Evaluation undertaken needs to incorporate a focus on identifying whether training outcomes are being achieved efficiently, whether alternative delivery models could equivalent or improved effect at lower cost, and whether continued investment remains justified. This approach ensures that Evaluation and External Validation activity provides demonstrable value, supports informed resource allocation, and contributes directly to improved capability outcomes while making best use of public funds.

19. Use of Artificial Intelligence

a. Use of Artificial Intelligence (AI) in support of Evaluation is to be encouraged, should that use increase the effectiveness or volume of work undertaken, however any such use must adhere to the policy contained within JSP 936 and JSP 822 Vol 3 Annex C. Where the raw data obtained during the undertaking of Evaluation/ExVal contains sensitive information, AI must be used ethically and if a medium to high risk by such use is a possibility, then the requisite RAISO is to be informed.

b. An ethical risk assessment is to be undertaken to ensure that the use of AI for Evaluation purposes complies with MOD's AI ethical principles, with the Probability Impact Diagram contained within JSP 892 used to achieve this.

20. Strategy Review

Any EStrat must be reviewed for currency and to update on any wider policy or procedural changes; it is to be re-endorsed by Hd WFPM and TMG Hd Delivery annually.

CHAPTER 96

LEARNING AND DEVELOPMENT

SECTION 1

ROYAL NAVY LEARNING AND DEVELOPMENT OVERVIEW

9601. Introduction

a. The Royal Navy recognises Learning and Development (L&D) as the golden thread to the through-life development of personnel. Through L&D we can develop agile and adaptive thinkers, capable of operating in complex environments and delivering operational effect. The provision of through-life development and life skills training also helps to prepare our personnel to transition from the military into the national workforce. The Learning and Development Organisation (LDO) and wider P&T works to bring greater cohesion to the Service Person's individual development pathway.

b. It remains a command responsibility to ensure that personnel have the chance to access L&D opportunities and that 'time for learning' is prioritised wherever possible. Any individual who is engaged in L&D activity should be recognised within the reporting system for their educational endeavour, thus helping to encourage a L&D culture. There is a significant L&D offer within the RN and all personnel, regardless of rank, rate, or time in Service should aim to maximise the opportunities throughout their career and inspire those around them to develop.

c. This Chapter outlines the responsibilities and opportunities for L&D within the RN, aligned to MOD and RN L&D Strategy.

9602. Governance

a. Royal Navy Learning and Development is governed in accordance with BRd 2 Chapter 76.

b. Responsibility for the education of members of the Armed Forces rests with Commanders of all formations and units at their respective levels of command.

c. Responsibility for the provision of education services, within the framework of policy laid down by the Defence Council, rests with the Services' Directors of Education.

d. Deputy Director People Training is the RN Service Director of Education, responsible for delivery.

e. Responsibility for Education and Resettlement policy sits with Deputy Director People Strategy, executed through the People Policy Strategy and Plans team.

f. The Service's Directors of Education are responsible to their respective Principal Personnel Officers for the provision of Learning and Development policy and provision, and education and resettlement services in accordance with the requirements contained in BRd 3(1), Naval Personnel Management, Chapter 96, JSP 822 Defence Training and Education Policy and Guidance and JSP 534 the Tri-Service Resettlement and Employment Support Manual.

9603. Time for Learning

a. The RN places great importance on improving the general standard of education, learning and the development of its people. The ability of our people to think in an agile and adaptive manner is an important force multiplier and contributor to operational capability. Education, in its broadest sense, is how mental agility can be developed and therefore personnel should be given the opportunity and encouragement to take full advantage of the diverse educational provision available.

b. Time for learning may be requested by any member of the RN once they are considered part of the trained strength. It can be requested for the attainment of knowledge or skills, or the experience of developmental activities. Where the individual resides in a training manning margin, for time to be considered as a duty it must be supported by the Chain of Command (CoC) and/or Career Manager (CM).

c. For those who are in their final two years of service, careful consideration should be given to time for learning over and above that which is supported through Graduated Resettlement Time (GRT). Return of service for funded L&D may be applicable in accordance with JSP 750.

d. The amount of time agreed as duty is dependent on the extent to which the L&D activity is contributing, or can be demonstrated to contribute to, the output of the RN. Whilst this may at times be difficult to establish, the following criteria are provided as guidance and should be fully supported where possible:

(1) Academic qualifications required for promotion – GCSE mathematics and English, or undergraduate courses leading to a recognised degree required for service reasons, including promotion.

(2) Courses or L&D which directly supports the role currently filled by the individual but not a requirement of pre-employment training – examples include qualifications or experiences deemed desirable within a job specification or role.

(3) Academic progression qualifications which are deemed likely to support future promotion or the development of an individual and which are identified and supported by a Learning Development Plan, supported by the CM.

(4) Elective Learning and Development that is fully funded by the RN and the time for learning does not impact on the operational output of a team or unit.

e. Elective education is defined as that which is undertaken at the behest of an individual while providing benefit to the service, but is not always required for career or professional reasons. Notwithstanding this, elective education is supported by the RN and can be considered as personal, professional or in some cases both. Given the broad developmental benefits of elective education and where the needs of the Service allow, time for learning should be considered as a duty. The benefits to the service and individual include the following:

(1) Improvement of the overall skill-base of Naval personnel, which will provide a more flexible workforce better able to absorb professional training as required.

(2) Preparation for transition to civilian life which is not only to the benefit of the individual but to the greater UK skills base.

(3) Enhancing the RN's reputation as an employer of choice.

f. Where L&D activity/opportunity spans more than one assignment or where it is agreed before taking up an assignment, agreement must be sought from the CM and is to be recorded as a note on the Assignment Order for future employment. Should the opportunity or activity be no longer suitable/achievable/complementary to a particular role or assignment, the line manager or CM can revoke previous agreements, citing the Needs of the Service. This should be confirmed in writing by the individual's CM.

g. Where an individual considers that a line manager has not fairly assessed a reasonable request for Time for Learning to be classed as duty, the individual should speak in the first instance to an LDA within a L&D Hub (the issue will be escalated through the L&D Pol Team as required).

h. The Needs of the Service can restrict or curtail a L&D opportunity at any time, but due process should be followed.

SECTION 2

EDUCATIONAL OPPORTUNITINES AND FUNDING

9604. Learning Credits

a. Detailed information on Learning Credits and publicly funder further/higher education can be found in JSP822.

b. **Standard Learning Credits.**

(1) SLCs provide support throughout a service person's career for multiple, small scale learning activities. The SLC funding is a yearly facility that allows an individual to claim 80% of course fees, up to a maximum of £175 a year; the remaining 20% must be met by the individual. It cannot be rolled over to the following year; as such any funds not used will be lost, but applications may still be made for the following year.

(2) The range of learning activities that can be undertaken using SLCs is broad and seeks to enable the learner to develop existing skill sets or gain new skills. Learning must be delivered by a recognised provider and must represent a legitimate learning activity. In accordance with JSP 822 Vol 9 there must be a clear rationale for the work-related learning, which should be reflected in the individual's Personal Development Plan and Personal Development Record. EROs or local L&D Hubs can help build a case for learning, and wherever possible, the aim will be to support individuals in their studies.

(3) Where an individual is in the resettlement stage of their career, SLCs can be used in conjunction with the Individual Resettlement Training Cost (IRTC) grant and the learning should align with their resettlement goals. L&D Hub and Service Resettlement Advisers are to ensure individuals fully understand the learning opportunities available to them.

(4) The SLC scheme is open to all Regular and Reserve personnel and applications are to be submitted iaw JSP 822 through the L&D Hub L&D function within the MyNavy platform. It is important individuals engage early with their L&D team, on shore or at sea, to ensure that their PDR supports their application to use SLCs effectively.

c. **Enhanced Learning Credits.**

(1) [NC1][WR2][3]Personnel who have completed the required qualifying service may be eligible to claim ELC's to support higher level learning and professional development. The Lower Tier is available for those completing 6 years eligible service. Lower Tier funding provides up to £1000 per claim towards 80% of the course fees for a nationally recognised Level 3 qualification or above, with up to three claims available and one claim permitted per financial year. Personnel who have not yet reached Higher Tier eligibility and have not used any Lower Tier may also choose to aggregate all

three Lower Tier claims into a single one-off claim worth 80% of a course cost up to £3000.

(2) The higher tier is available to personnel who have completed at least 8 years eligible service. This tier provides increased support of up to £2000 per claim towards 80% of course fees for approved Level 3 of higher qualifications.

(3) ELC must be used with an approved learning provider and cannot be used in conjunction with SLC. For the full scheme rules please refer to JSP 822.

9605. Centrally Funded Elective GCSE/GCE Courses

a. Administered through Defence Examination Centre, the MoD has an arrangement with the Cambridge International Examination Board for the delivery of examinations within MoD Units; this includes RN L&D Hubs and Deployed units.

b. The core requirement for the RN is the delivery of English and mathematics GCSEs. Details of courses delivered through L&D Hubs are published annually via RNTMs and local notices. Personnel wishing to undertake either English Language or mathematics GCSEs at public expense should have confirmation from an LDO hub that they are working at the relevant Level in English and/or mathematics. Undertaking a diagnostic assessment or proving they have achieved a Level 2 Functional Skills (FS) in the appropriate subject will provide appropriate assurance they are working at the relevant level.

c. Other subjects may only be examined under this scheme where there is no alternative local provider[2]. Prior permission must be sought from the L&D Hub team before this facility is offered.

d. Personnel wishing to sit a GCSE/GCE at public expense are to complete the application form at Annex 96A. Individuals are to ensure that their line manager completes the relevant section of the form.

9606. In-Service Degree Schemes - Officers

a. Where an In-Service degree scheme is in place it is mandated that all non-graduate officers will be registered for the In-Service degree.

b. **Warfare Branch.** The ‘Foundation for the Future’ (F3) scheme was introduced to provide a civilian qualification that recognises officer training from the start of Initial Naval Training (Officer) (INT(O)) to the end of professional training prior to first assignment.

(1) On joining BRNC, all Warfare Branch Naval College Entrants (NCE) who have not previously attained a first degree will be registered on a Foundation Degree programme. Achievement of the degree will require no additional work other than that required to complete the appropriate Branch professional course; registration is mandatory, there will be no costs to the individual.

(2) Those not meeting the criteria but undertaking the full Warfare training pipeline (e.g. Direct Graduate Entrants (DGEs)) and hence achieving all the learning outcomes for the Foundation Degree, will be entitled to register for the scheme at their own expense. To register they should contact the Degree Registration Manager at BRNC; contact details are at (3) below.

(3) The F3 scheme is managed by a Board of Study and is under the overall supervision of the BRNC Director of Training. Registration/queries for the FdSc elements of the scheme will be administered by the BRNC Degree Registration Manager, address as follows:

Degree Registration Manager
Britannia Royal Naval College
Dartmouth
TOTNES
Devon
TQ6 0HJ

Tel Civ: 01803 677110
Tel Mil: 93749 7110
E-mail: NAVY TRG BRNC-ITSO

(4) **Certificate of Higher Education (CertHE).** Officers who, for whatever reason, fail to complete their training pipeline will be awarded Credit Accumulation and Transfer Scheme (CATS) points for all modules completed successfully. Where the total number of CATS points is equal to, or greater than 120, the individual will be awarded a Certificate of Higher Education (CertHE). Where the total is less than 120, the individual will be provided with a transcript of the modules completed successfully and the points awarded. This transcript may then be presented to any higher education institution that recognises the CATS scheme and may be transferred to a new programme of study.

c. **Logistics Branch.** Until 2013, non-graduate Logistics Officers were awarded the same Foundation Degree as their Warfare counterparts. Changes in elements of the Logs INT(O) programme made this no longer viable, however accreditation to a BSc Logistics Management from Basic Logistics Officer Course (BLOC) is in place. Details are available from the Defence Maritime Logistics School (DMLS) or NAVY PEOPLE-TMG PACC EFP MAILBOX.

d. **Non-Graduate Senior Upper Yardman.** Non-graduate SUYs should contact the Scheme Manager (NAVY PEOPLE-TMG PACC EFP MAILBOX) to explore degree options that may be available to them.

e. **Fleet Air Arm.** The UK Armed Forces Military Aviation Academy (UKAF MAA) was established in 2020, when the RAF and AAC joined the extant Fleet Air Arm Military Aviation Academy. It delivers a Foundation Degree (FD) and BSc(Hons) in Aviation Systems Management, awarded on completion of operational flying training and on gaining Certificate of Competence (CoC) (or Combat Ready for Fast Jet)

respectively. It also delivers both an FD and BSC(Hons) for ATC Officers in Airspace Management.

(1) **Study Programme.** The Aviation Systems Management FD comprises modules that make up:

(a) Elementary and/or Basic Flying Training (BFT), Conversion to Type (CTT) and Conversion to Role (CTR). Nothing is added to what the Service requires for flying training.

(b) The BSc (Hons) comprises completion of the Aviation and Military General Training Task Books on the front line and examined in the CoC board.

(c) The FD in Airspace Management for Air Traffic Control Officers comprises modules at JATC and in the first year controlling at an Air Station. The BSc comprises further ATCO career courses.

(d) Registration is automatic for all students (whether NCE or DGE).

(2) Further information can be obtained by contacting Unit Squadron or ATC Training Officers in the first instance or the UKAF Programme Manager by email: NAVY CU-AIR UKAF MAA PM or Tel: 01326 5565 Mil: 93781 2365.

Note. *No further study is required for achievement of the FD or BSc(Hons).*

f. **Royal Marines.** The In-service Degree scheme was introduced for the Royal Marines to accredit officer training.

(1) On joining CTCRM, all Royal Marine Young Officers (RMYOs) who have not previously attained a first degree will be registered for a Leadership and Management Foundation Degree with the University of Lincoln. As with other In-Service degree schemes, registration for non-graduate RMYOs is mandatory.

(2) The costs of registration for the In-Service Degree will be funded for eligible officers.

(3) Those not meeting the criteria but undertaking the training pipeline (e.g. Graduate Entrants) and having achieved all the learning outcomes for In-Service Degree, will be entitled to register for the scheme at their own expense.

(4) Further information is available from the Corps Tutors at CTCRM[3].

9607. Greenwich Hospital Higher Education Bursary Scheme

a. Greenwich Hospital is a Crown Naval Charity[4]. It was founded in 1694 for the charitable support of former RN personnel and their dependents and for the encouragement of serving seafarers. In recognition of the increasing costs of Higher Education (HE), Greenwich Hospital awards several bursaries a year to Service Personnel (SP) studying towards HE access qualifications and Level 4-7 degrees.

b. The GHHEBs are to help those who would otherwise struggle to meet the study costs of higher education. They are paid direct to the university or training provider to cover up to two thirds of tuition fees per academic year.

c. Bursaries are awarded for the duration of study, either three years full-time or six years part-time, to a maximum of £6,000[5] in total for the duration.

d. Where an Applicant is eligible for Lower Tier Enhanced Learning Credit (ELC) funding, the GHHEB may be sought. However, once an applicant becomes eligible for the Higher Tier of ELC[6], then the GHHEB is put in abeyance until ELCs are used up. After which time, the GHHEB may be reapplied for.

e. Greenwich Hospital will award 12 bursaries for degree courses each year and a further four bursaries for those intending to complete access to HE courses.

f. **Eligibility.** GHHEBs are for personnel who meet the criteria below:

(1) Service Person (SP) in Regular or FTRS Service.

(2) SP has served more than 18 months at the start of the intended course.

(3) SP not in resettlement[7].

(4) Intend to undertake/continue first UK degree or Access to HE course leading to a first UK degree with a provider listed on the ELC website[8].

(5) Be unable to use ELC at the time of application, due to either, not having served long enough to qualify (6 years); or having already exhausted ELCs on **the same course of study or access to the proposed course of study.**

(6) Self-fund at least one third of the tuition fees.

(7) Use Standard Learning Credits (SLC) towards the cost if not using ELC's.

(8) Use Lower Tier ELCs towards tuition fees when they become available.

[4] www.grenhosp.org.uk
[5] This is up to a maximum of £2000 per year or less if awarded over 6 years. Applicants and advisers should consider this as part of the application and study plan.
[6] JSP 822 Volume 9 Section 3
[7] IAW JSP 534
[8] www.enhancedlearningcredits.com

(9) At eight years' service the Learner MUST use Higher Tier ELCs. At eight years' service the Learner becomes ineligible for the GHHEB.

(10) Present a (maximum) 6-year learning plan to degree award.

(11) Have their study plan endorsed in a Learning Development Interview by Learning and Development Organisation (LDO) staff – through an LDO Hub, an LDO Ops Officer or a RM TMO.

(12) Have an individual income not exceeding £45,000 – Greenwich Hospital will consider applicants above this threshold where personal circumstances and financial commitments make a convincing case for the bursary support.

(13) Personnel in resettlement are not eligible under this scheme as a route exists through the Publicly Funded Further and Higher Education Support for Service Leavers Scheme[9]. Greenwich Hospital supports Service veterans through other channels.

(14) The Bursary may be reapplied for if required for the same course of study once ELCs have been exhausted.

g. **Bursary Details.** Each bursary is for tuition fees and worth up to £2000 per academic year of study, for up to six years. The maximum available in total to any one applicant is £6,000. Once a SP becomes eligible to spend ELCs their bursary funding will be reviewed.

(1) The intent is to make the best use of Public Funding so the GHHEB is to be used in conjunction with Lower Tier ELCs.

(2) Once eligible for Higher rate ELCs, the GHHEB is placed in abeyance until Higher Tier ELCs are exhausted.

(3) For students that are not eligible for ELC's, they must use Standard Learning Credits (SLC) towards the cost to make best use of Public Funding. Once eligible for ELC's, SLC's can no longer be used.

(4) It is crucial that learners maintain contact with Greenwich Hospital and inform them as soon as possible if you are being deployed or if there are any significant changes to your financial circumstances. In the event of deployment, should you wish to pause your studies, Greenwich Hospital will defer your bursary for up to one year, reactivating it upon resuming your studies, following your return. Should your studies be interrupted for any reason, and you fail to inform Greenwich Hospital (within six months), your bursary will be terminated.

[9] JSP 822 Volume 9 Section 4

h. **Application Process.** New applicants should contact their L&D Hub for an interview to discuss their intended course of study, have their eligibility checked and begin to form a long-term study plan.

(1) The purpose of the LDO interview is to endorse the plan of study and to ensure it meets Greenwich Hospital's award criteria. The interview does NOT approve the award of a bursary. The decision to award a bursary rests with Greenwich Hospital.

(2) Bursary applicants will complete the form at Annex 96B. Completed forms should be submitted through the individual's Line Manager to their LDO staff in order to maintain a record of approval.

(3) LDO staff will endorse the application and submit by email to NAVYPEOPLE-TMGLDORNHQ@mod.gov.uk no later than the last day of March in any year; commencing 2026. Receipt will be acknowledged, and the application forwarded to Greenwich Hospital for their Bursary Panel's consideration.

(4) During this process Greenwich Hospital may contact applicants if further information is required. It is therefore essential that the LDO staff are informed if there are any changes to contact details or if an individual cannot be contacted during this period.

(5) LDO staff must check that the funding breakdown section of the form has been completed correctly. The student contribution is a minimum of one third, and SLC's are to be taken off the tuition fee, and not the student contribution. A generic example is shown:

Table 96-1. Funding Breakdown for First Year

Funding breakdown for first year (Tuition fee – third personal contribution – SLC or ELC = Bursary amount requested)				
Module code(s) and cost	Module code.	£	1946	
	Module code.	£	1946	
SLC/ELC funding amount	£	175 SLC		
Personal contribution (min of a third of total)	£	2384		
Bursary application amount requested	£	1333		
Total	£	3892		

Table 96-2. Funding Breakdown for Subsequent Years

Funding breakdown for subsequent years (Tuition fee – third personal contribution – SLC or ELC = Bursary amount requested)						
Year	SLC (£)	LT ELC (£)	HT ELC (£)	GHHEB (£)	Personal Contribution (£)	Total (£)
2	175			1333	2384	3892
3	175			1333	2384	3892
4		1000		1000	1892	3892
5		1000		1000	1892	3892
6			2000	-	1892	3892
Totals (Plus Year 1 from above)	525	2000	2000	5999	12828	23352

(6) The Greenwich Hospital Bursary Panel will judge all applications and inform the applicants of their decision before the last day of April in any year by letter. Successful applicants should then liaise directly with Greenwich Hospital to ensure correct payment details. Greenwich Hospital will pay the bursary direct to the university or learning provider.

i. **Continuing Applicants.**

(1) Once an applicant has successfully enrolled on the bursary scheme, they do not usually need to reapply in full for subsequent years unless there is a significant change in their circumstances. Continuation of the bursary will be determined based on success in the previous year and confirmation of continuation of study. It is crucial that bursary students maintain close contact with Greenwich Hospital to ensure support throughout their studies.

(2) Ongoing studies can be 60 or 30 credit modules (30 credit modules will only be eligible to receive a bursary of up to £1000). It is also possible to take a break in studies for Service or personal reasons, the overall qualification must be completed within six years of commencing study.

(3) Continuing applicants will complete the form at Annex 96C, which will be checked and counter-signed by their Line Manager and a LDO staff member. They must include a printout of their Student Record (either for the entire module or, where the module result is not available for the completed assignments) to confirm their rate of progress. Please note that Greenwich Hospital will not fund any resits.

(4) SLCs may not be used simultaneously to fund elements of a course of study which is supported by ELC funding. However, it is permissible to use SLC funding in combination with the bursary. Please note, SLC funding DOES NOT help towards your personal contribution. Public funds need to be accessed in the first instance to reduce the amount of charity funding requested.

j. **Further Advice and Guidance.** More information about Greenwich Hospital contact your local Learning and Development Organisation.

9608. Dir P&T Undergraduate Academic Scholarship Scheme

a. The Royal Navy (RN) promotes the professional and personal development of its people through academic scholarship opportunities. Academic study enhances professional growth, expands an individual's self-awareness, develops their knowledge, and enhances the RN's conceptual capability.

b. Part-time and distance learning undergraduate courses are available through the following Undergraduate Academic Scholarship opportunities:

(1) Part time Foundation Degree Operations Management Scholarships through University of Lincoln (UoL) (Annex 96E).

(2) Part time Level 6 top-up Undergraduate courses through UoL (Annex 96D).

(3) Undergraduate Degree Scholarships through other Universities (Annex 96F).

c. The UoL[10] is the RN's provider of choice, however, applications to study with other providers will be considered, where the UoL does not offer a realistic/suitable alternative and a strong justification can be made. Full details of UoL's degree programmes can be found on its website[11].

d. **Eligibility.**

(1) Individuals should, in the first instance, discuss with their Career Manager (CM) the timing and nature of such academic study, which will need to be tailored to personal circumstances, aspirations and their overall career management. CM support and approval will be a pre-requisite for all applications prior to consideration at the Academic Selection Board (ASB).

(2) For education at the undergraduate level, individuals are expected to have previously demonstrated their academic ability and achieved the academic requirements for their chosen course. Most universities will take into consideration an individual's life and professional experience; however it is incumbent on the individual to ensure they meet the eligibility requirements with the University[12] before completing their application on SCIO. Applications must state that all entry requirements have been met or it will not be read at the board. Further advice is available via the LDO.

[10] UoL is the RN's Higher Education partner under Project Selborne.
[11] www.lincoln.ac.uk/servicesforbusiness/whoweworkwith/defenceandsecurity
[12] Individuals without standard academic qualifications may be required to provide evidence of suitable qualifications from a recognised institution (e.g. ILM/CMI) to their university of choice.

f. Successful candidates are expected to act as ambassadors for the RN at their respective academic institutions, upholding the values and standards of the Service at all times.

g. **Commitment.** There is significant professional and personal commitment required to complete the part-time undergraduate courses listed in Annexes 96D, 96E and 96F; applicants should expect to study during evenings and weekends. The Chain of Command (CoC) will need to support release for residential elements of the course and, where possible, allow time for studying. Consequently, all applicants should consult their CoC to gain approval prior to an application being made. Successful applicants are to notify their CM and LD POL ElectSO2[13] of any change in circumstance that impacts their ability to meet the requirements of the course. The UoL Work-Based Distance Learning Team (WBDLT) has a close working relationship with the RN L&D PoI team, therefore changes in circumstances must be communicated with the RN in the first instance.

h. **Application Process.**

(1) RN Undergraduate Academic Scholarships are managed by the ASB on behalf of Dir P&T. All applications will be read and scored by the ASB, which will be held in Jun each year. There is currently no requirement for applicants to be interviewed as part of the ASB, however if this changes or the ASB would like further information the Board Secretary will contact applicants individually. Results will be promulgated by email by the end of Jun and the application status in SCIO updated accordingly.

(2) The ASB comprises of the following personnel:

NAVY PEOPLE-CM OF ENG TMSO1 – Board Chair
NAVY PEOPLE-WFPT TRA GEN SO1 – Independent Board Member
NAVY PEOPLE-PSP LDPOL ELECT SO2 – Board Secretary
NAVY PEOPLE-TMG PACC EDU Del – TMG Pipeline Accreditation Education Delivery
Navy-PEOPLE-TRG-HQBUSMGT-BMB – HQ Business Manager

(3) The application process is detailed in Annex 96H.The application form is accessed through SCIO and will be live from 1 Sep every year, for applications for the following September start[14]. Details on how to access the application form can be found at Annex 96G. Applications should be completed and submitted on SCIO by **31 May each year**. If individuals cannot access SCIO due to MODNET unavailability, please inform the Board Secretary[15] who can provide an alternative application form.

[13] NAVY PEOPLE-PSP LD PoI ElectSO2
[14] E.g., for applicants wishing to apply for the Undergraduate Academic Scholarship for Academic Year 26/27 (Sep 26 start), the application window will open from 1 Sep 25.
[15] NAVY PEOPLE-PSP LD PoI ElectSO2

(4) The application form includes the individual's justification, as well as their respective CM's statement; CM guidance can be found at Annex 96T. The ASB will be looking for applications that demonstrate best value for money, have a strong justification for the personal and professional benefits that the academic study will provide, and how completion of the course will fit into their career plans. Applicants are to indicate how their work will benefit the Service, as well as how they intend to feed research findings back into the RN. There is a limited budget, therefore funding is allocated to those with the most compelling justification.

(5) The CM's statement must include a viable plan(s) of how the CM intends to employ the individual on completion of their academic study to ensure there is always a benefit to the Service (beyond the associated Return of Service). Whilst investment in personal development through academic scholarships is retention positive, Defence should be seen to benefit positively from the wealth of skills and academic knowledge that individuals acquire during their studies through appropriate employment plans. If a CM cannot make a clear case that the Service will benefit from an individual undertaking additional academic study, then the application will be rejected by the ASB. Applications cannot be finalised on SCIO without the CM's comments. Applications will only be presented to the ASB if the CM supports the individual's application. The application process is detailed in Annex 96H.

(6) The RN reserves the right to guide service-funded students in their choice of course modules (where appropriate) and subject areas for research and dissertations to ensure that they benefit both the individual and the Service.

(8) Additionally, successful candidates will be required to submit an electronic copy of their dissertation/research projects (and other work of note) to the Board Secretary so that they can be made available to support subsequent research and policy development.

i. **Return of Service.** All Undergraduate Academic Scholarships attract a Training Return of Service (TRoS)[16]. Liability for the relevant TRoS is incurred from the start date of the course, with all TRoS periods commencing on completion of the course[17]. The following TRoS are applicable:

(1) Undergraduate degree (full time) – 36-month TRoS

(2) Undergraduate degree (part time) – 18-month TRoS

j. All applicants and CMs must ensure that individuals have sufficient service remaining to complete the relevant TRoS. This check is incorporated into the application form on SCIO.

[16] JSP 750 Centrally Determined Terms of Service, Chapter 3: Training Return of Service/Return on Investment Policy
[17] Completion of the course is defined as when the period of study ends (e.g., if a degree sponsored candidate prematurely exits the course once they have engaged with their CM and Board Secretary, the RoS will commence on completion of study or when the university ends enrolment, whether that is the full course or part of it.

k. **Voluntary Withdrawal from Undergraduate Study Schemes.** Individuals wishing to withdraw from Dir P&T undergraduate Study courses due to exceptional circumstances must first seek approval from their CoC and provide a robust supporting case for withdrawal to NAVY PEOPLE-PSP LDPOL ELECT SO2 including the last date of study. SP may still be eligible for the associated TRoS iaw JSP 750 Pt 1 Ch 3[18]

l. Prior to funding being released all Academic Sponsorship candidates are to complete the RoS certificate[19] and return it to their CM (via email is preferred). CMs are to complete the necessary actions on JPA[20]. Once invoices are received, NAVY PEOPLE-TMG PACC EDU Del will conduct a TRoS check on SCIO prior to releasing funds directly to the individual's chosen institution[21]. Failure to action RoS requirements will result in RN sponsorship being withdrawn.

m. It is incumbent on the successful candidates to notify their CM and the Board Secretary[22] of any change in circumstance that impacts their ability to meet the requirements of their TRoS commitment.

n. **Reporting.** The RN places considerable importance on education as it contributes to our people having a "battle-winning edge". The definition of merit that underpins the reporting and promotion processes already distinguishes the strongest of candidates as those who have the "ability to think at a level above their peer group". Given that education enhances and hones the ability to think, selection boards will be directed to give academic attainment due consideration in their deliberations. To enable this:

(1) Personnel undertaking part-time education will be reported on by their assigned reporting chain[23]. However, may request a short email synopsis of their progress from their Personal Tutor which can be sent to them and their Line Manager. This can then be considered by Line Managers for inclusion within the individuals' OJAR/SJAR. Note, it is the individual's responsibility to make the request and then forward to their reporting chain/CM.

(2) Selected personnel should ensure that their enrolment on a degree programme is discussed with their line management and must be recorded as a personal objective in their OJAR/SJAR.

(3) Further guidance on reporting can be sought from the appropriate Promotion Board Secretary[24].

o. **Research Repository at the Centre of Defence Education, Research and Analysis (CDERA) at the Defence Academy (DEFAC).** Research completed whilst undertaking any funded course must be submitted by the author to the Defence Academic Research Environment (DARE)[25]. Guidance on how to use DARE for research and submit papers can be found by watching the DARE video guidance[26].. DARE is a research capability developed by the CDERA, at the DefAc, for Defence. It consists of a research repository, for collecting, curating, and disseminating Defence and Security related research, and a research topics list to facilitate the application of the knowledge, experience, and intellect of the Defence community, to issues of key importance to Defence.

p. Using DARE, CDERA collates research authored by members of the DefAc and from across the wider Defence community. They also enable members of the Defence community to offer potential, contemporary, topics for research, which can then be undertaken by course members and researchers. The DARE team[27] are available to provide support to students, particularly around DARE usage (including finding a topic and uploading papers).

q. **Ethical Approval to Conduct Research.** In addition to meeting the requirements of their respective university, students are to ensure that their research complies with the requirements for ethical approval laid out in JSP 536[28]. The MOD Research Ethics Committee (MODREC) provides formal ethical opinion on research projects and a favourable opinion must be obtained prior to commencing any research activity[29].

9609. Dir P&T Postgraduate Academic Scholarship Scheme

a. Funding for full, part-time and distance learning postgraduate courses is available through the following Postgraduate Academic Scholarship Scheme:

(1) Full and part-time postgraduate courses at the Defence Academy (DefAc) – delivered through its academic partner, Cranfield University.

(2) Various full time, part time and distance learning Masters at other universities, funded by Dir P&T Academic Scholarship scheme.

(3) Doctorates funded by Dir P&T.

b. The DefAc and the University of Lincoln[30] are the RN's providers of choice, however, applications to study with other providers will be considered, where DefAc/University of Lincoln does not offer a realistic/suitable alternative and a strong justification can be made, dependent on cost.

[25] https://dare.da.mod.uk

[26] https://share.synthesia.io/8cf71efe-933c-4975-90e4-6d226279a766

[27] defac-dare@da.mod.uk

[28] JSP 536 Defence research involving human participants.

[29] MOD Research Ethics Committee (MODREC) (https://modgovuk.sharepoint.com/teams/6127/SitePages/MOD-Research-Ethic-Committee-(MODREC).aspx)

[30] This is due to the existing, established funding lines in place with Cranfield University and the University of Lincoln.

c. **Eligibility.** Individuals should, in the first instance, discuss with their Career Manager (CM) the timing and nature of such academic study, which will need to be tailored to personal circumstances, aspirations and their overall career management. CM support and approval will be a pre-requisite for any application prior to consideration at the Academic Selection Board (ASB).

d. For education at the postgraduate level, individuals are expected to have previously demonstrated their academic ability and achieved the academic requirements for their chosen course. However, most universities will take into consideration an individual's life and professional experience. It is incumbent on the individual to ensure they meet the eligibility requirements with the University of their chosen course before completing their application on SCIO.

e. Successful candidates are expected to act as ambassadors for the RN at their respective academic institutions, upholding the values and standards of the Service at all times.

f. **Commitment.**

(1) there is significant professional and personal commitment required to complete postgraduate level courses; applicants should expect to study during evenings and weekends. The Chain of Command (CoC) will need to support release for residential elements of the course and, where possible, allow time for studying. Consequently, all applicants should consult their CoC prior to an application being made to gain approval.

(2) It is incumbent on the successful candidates to notify their CM and LD PoI ElectSO2[31] of any change in circumstance that impacts their ability to meet the requirements of the course.

g. **Application Process.** RN Postgraduate Academic Scholarships are managed by the ASB on behalf of Dir P&T. All applications will be read and scored by the ASB, which will be held in Jun each year. There is currently no requirement for applicants to be interviewed as part of the ASB, however if this changes or the ASB would like further information the Board Secretary will contact applicants individually. Results will be promulgated by email by the end of Jun and the application status in SCIO updated accordingly.

(1) The application process is detailed in Annex 96H.The application form is accessed through SCIO and will be live from 1 Sep every year, for applications for the following September start[32]. Details on how to access the application form can be found at Annex 96G. Applications should be completed and submitted on SCIO before the 31 May each year. If individuals cannot access SCIO due to MODNET unavailability, please inform the Board Secretary[33] who can provide an alternative application form.

[31] NAVY PEOPLE-PSP LD PoI ElectSO2
[32] E.g., for applicants wishing to apply for the Undergraduate Academic Scholarship for Academic Year 26/27 (Sep 26 start), the application window will open from 1 Sep 25.
[33] NAVY PEOPLE-PSP LD PoI ElectSO2

(2) The application form includes the individual's justification, as well as their respective CM's statement; CM guidance can be found at Annex 96T. The ASB will be looking for applications that demonstrate best value for money, have a strong justification for the personal and professional benefits that the academic study will provide, and how completion of the course will fit into their career plans. Applicants are to indicate how their work will benefit the Service, as well as how they intend to feed research findings back into the RN. There is a limited budget, therefore funding is allocated to those with the most compelling justification.

(3) The CM's statement must include a viable plan(s) of how the CM intends to employ the individual on completion of their academic study to ensure there is always a benefit to the Service (beyond the associated Return of Service). Whilst investment in personal development through academic scholarships is retention positive, Defence should be seen to benefit positively from the wealth of skills and academic knowledge that individuals acquire during their studies through appropriate employment plans. If a CM cannot make a clear case that the Service will benefit from an individual undertaking additional academic study, then the application will be rejected by the ASB. Applications cannot be finalised on SCIO without the CM's comments. Applications will only be presented to the ASB if the CM supports the individual's application.

(4) The ASB comprises of the following personnel:

NAVY PEOPLE-CM OF ENG TMSO1 – Board Chair
NAVY PEOPLE-WFPT TRA GEN SO1 – Independent Board Member
NAVY PEOPLE-PSP LDPOL ELECT SO2 – Board Secretary
NAVY PEOPLE-HQ N8 SO2 B – P&T Business Manager

(5) The RN reserves the right to guide service-funded students in their choice of course modules (where appropriate) and subject areas for research and dissertations to ensure that they benefit both the individual and the Service.

h. **Return of Service.** All Postgraduate Academic Scholarships attract a Training Return of Service (TRoS)[34]. Liability for the relevant TRoS is incurred from the start date of the course, with all TRoS periods commencing on completion of the course[35]. The following TRoS are applicable:

(1) Postgraduate degree (full time) – 36-month TRoS

(2) Postgraduate degree (part time) – 18-month TRoS

i. All applicants and CMs must ensure that individuals have sufficient service remaining to complete the relevant TRoS. This check is incorporated into the application form on SCIO.

[34] JSP 750 Centrally Determined Terms of Service, Chapter 3: Training Return of Service/Return on Investment Policy
[35] Completion of the course is defined as when the period of study ends (e.g., if a degree sponsored candidate prematurely exits the course once they have engaged with their CM and Board Secretary, the RoS will commence on completion of study or when the university ends enrolment, whether that is the full course or part of it.

j. **Voluntary Withdrawal from Postgraduate Study Schemes.** Individuals wishing to withdraw from Dir P&T Postgraduate Study courses due to exceptional circumstances must first seek approval from their CoC and provide a robust supporting case for withdrawal to NAVY PEOPLE-PSP LDPOL ELECT SO2 and, for DefAc courses, DEFAC-DCMCI-HQ SO2PGEd, including the last date of study. SP may still be eligible for the associated TRoS iaw JSP 750 Pt 1 Ch 3[36].

k. Prior to funding being released all Academic Sponsorship candidates are to complete the TRoS certificate[37] and return it to their CM via email, with PEOPLE-TRG-HQBUSMGT-BMB at CC. CMs are to complete the necessary actions on JPA[38] and send a confirmation email to PEOPLE-TRG-HQBUSMGT-BMB , who will release funds directly to the individual's chosen institution once invoices are received[39]. Failure to action TRoS requirements will result in RN sponsorship being withdrawn.

l. It is incumbent on the successful candidates to notify their CM and the Board Secretary of any change in circumstance that impacts their ability to meet the requirements of their TRoS commitment.

m. **Reporting.** The RN places considerable importance on education as it contributes to our people having a "battle-winning edge". The definition of merit that underpins the reporting and promotion processes already distinguishes the strongest of candidates as those who have the "ability to think at a level above their peer group". Given that education enhances and hones the ability to think, selection boards will be directed to give academic attainment due consideration in their deliberations. To enable this:

(1) All personnel undertaking full time fully funded education, are to have reports raised, detailing the academic attainment, and read at promotion and transfer selection boards[40]. This report may either be a course report (S2020E) or full OJAR (S2020).

(2) Reports should be raised at the start of the course ensuring that a 1RO, normally the course manager or academic tutor, and 2RO are nominated. If there is a requirement to extend the reporting period beyond the Common Reporting Date (CRD) for the appraisal year, then guidance should be first sought from the appropriate Promotion Board Secretary[41].

(3) Personnel undertaking part-time education will be reported on by their assigned reporting chain. However, individuals should engage with their academic tutors and/or supervisors to request an annual academic report, in a format appropriate to the course, that can then be incorporated into their OJAR/SJAR. Note it is the individual's responsibility to request this report and then forward these academic reports to both their reporting chain and CM.

n. **Research Repository at the Centre of Defence Education, Research and Analysis (CDERA) at the Defence Academy (DEFAC).** Research completed whilst undertaking any funded course must be submitted by the author to the Defence Academic Research Environment (DARE)[42]. Guidance on how to use DARE for research and submit papers can be found by watching the DARE video guidance[43]. DARE is a research capability developed by the CDERA, at the DefAc, for Defence. It consists of a research repository, for collecting, curating, and disseminating Defence and Security related research, and a research topics list to facilitate the application of the knowledge, experience, and intellect of the Defence community, to issues of key importance to Defence.

o. Using DARE, CDERA collates research authored by members of the DefAc and from across the wider Defence community. They also enable members of the Defence community to offer potential, contemporary, topics for research, which can then be undertaken by course members and researchers. The DARE team[44] are available to provide support to students, particularly around DARE usage (including finding a topic and uploading papers).

p. **Ethical Approval to Conduct Research.** In addition to meeting the requirements of their respective university, students are to ensure that their research complies with the requirements for ethical approval laid out in JSP 536[45]. The MOD Research Ethics Committee (MODREC) provides formal ethical opinion on research projects, and a favourable opinion must be obtained prior to commencing any research activity[46].

9610. Postgraduate Fellowship Opportunities

a. There are currently 3 Fellowships open to RN/RM applicants; the Hudson Fellowship at Oxford University, the Mountbatten Fellowship (Master of Philosophy in Politics and International Studies) at Cambridge University, and the Wemyss Fellowship at St Andrews' University. All Fellowships are primarily targeted at experienced service personnel of OF3 and above who have served circa 8+ years within the military.

Hudson Fellowship (University of Oxford).

(1) **Hudson Fellowship (University of Oxford).** The Hudson Trust funds one-year and termly Fellowships for Naval personnel at the University of Oxford. The Fellowships offer a rewarding opportunity for study alongside international academic and government representatives, whilst conducting specific research in an area relevant to Defence and an individual's particular career interests.

[42] https://www.dare.da.mod.uk

[43] https://share.synthesia.io/8cf71efe-933c-4975-90e4-6d226279a766

[44] defac-dare@da.mod.uk

[45] JSP 536 Defence research involving human participants.

[46] MOD Research Ethics Committee (MODREC)

(2) Fellowships are primarily targeted at experienced service personnel who are educated to Master's level and with demonstrable reach, although all applications will be considered. The Fellow will conduct mutually agreed research for up to one complete academic year (Sep-Jul inclusive). Typically, Fellows will be placed in St Anthony's College and will also attend the Changing Character of War programme, with a view to publishing a 30–40,000-word thesis (length dependent on publication route). Where a shorter opportunity exists (e.g., one or two terms) the expectation is reduced on a pro rata basis. The successful candidate will normally have Senior Common Room status at St Antony's College.

Mountbatten Fellowship (Cambridge University).

(3) **Mountbatten Fellowship (Cambridge University).** The MPhil is a nine-month full-time postgraduate course in International Relations and Politics. The RN funds up to two places per annum (commencing early Oct). Historically preference has been given to senior OF3s and above, however strong applications from across the rank range will be considered.

(4) The aim of the MPhil is to enable officers to develop their intellectual thinking and to extend their professional knowledge through a part taught / part research programme of lectures, seminars and individual supervision in International Relations Theory, International History, Politics, Economics, Security, and International Law. For further details of the course content please see the Cambridge University website.

(5) **Wemyss Fellowship (St Andrews' University).** The Wemyss Fellowship is a one-year Fellowship for mid-career Naval personnel at the University of St Andrews' Institute for the Study of War and Strategy (ISWS). The Fellowship offers successful candidates the opportunity to contribute meaningfully to scholar-practitioner discourse on war and security in the High North and Arctic regions.

(6) Fellowships are primarily targeted at experienced service personnel at senior OF3-4, educated to Masters' level, and with demonstrable reach, although all applications will be considered. The Fellow will conduct mutually agreed research for up to one complete academic year (Sep-Jul inclusive), with a view to publishing a 30-40,000-word thesis (length dependent on publication route). Where a shorter opportunity exists (e.g., one or 2 terms) the expectation is reduced on a pro rata basis.

(7) The aim of the Fellowship is to enable personnel to develop their intellectual thinking and to extend their professional knowledge through a research programme of lectures, seminars and individual supervision in a multi-disciplinary Institute. Areas of study include but are not limited to: International Relations; History; Computer Science; Physics; Philosophy; Classics; Geography; and Management Studies. For further details of the centre's activities please see the ISWS website.

(8) Successful applicants will be accommodated at RAF Leuchars in the first instance. Individual travel and subsistence for related activities will be against the Naval Staff Research Team UIN.

b. **Application Process.**

(1) Applications open on 1 Sep every year for all Fellowships, for applications for the following academic year[47]. Applications are to be submitted via SCIO (see Annex 96G for instructions). The closing date for applications for all Fellowships is the 14 Nov each year.

(2) If no MOD access to SCIO is available, please email the Board Secretary[48], for a hardcopy application form.

(3) All applications are to include a personal statement and an endorsement from the SP's CM. Applications will not be read by the ASB, unless the applicant has the support of their CM.

(4) Alongside the SCIO application form, applicants are to submit their CV and Research Proposals to the Board Secretary via email prior to the deadline stated above. These will be read by all board members ahead of the Academic Selection Board (ASB).

(5) The ASB will be held late Nov/early Dec each year and will include candidate interviews with RN Board members and academic staff from the respective Universities. The candidates' CVs, research proposals and their personal and professional motivation will be topics of discussion. The Board Secretary will promulgate ASB dates and confirm interviewing timings with each applicant.

(6) Upon completion of the ASB, deliberations between the board members will take place. Applicants and their respective CMs will be informed of the board outcome. Successful candidates will be required to complete the respective University application form[49].

c. **Research Proposal.**

(1) Candidates are required to submit a research proposal for consideration by the Board and should be prepared to be interviewed at ASB. Prior to preparing their proposal, Fellowship candidates are to contact Hd Naval Staff and Hd Strategy[50] to discuss prospective research topics and demonstrate benefit to the Service. Candidates for Mountbatten and Wemyss Fellowships are also encouraged to contact the respective University departments direct to discuss potential thesis topics and supervisors. All candidates are to indicate during the application process how their work will benefit the Service, as well as how they intend to feed research findings back into the RN.

---

[47] . For example, if an applicant wishes to apply to the Hudson Fellowship for academic year 27/28, the application window in SCIO opens the Sep of the year before (1 Sep 26).
[48] NAVY PEOPLE-PSP LD Pol ElectSO2
[49] The Hudson Fellowship deadline is usually in Jan each year, whereas the Cambridge University MPhil application deadline is the beginning of December each year. Applicants will need to be aware of the University deadlines, so that they can apply as soon as they have been informed of their success at ASB. It is therefore recommended that prospective candidates start collecting the required information and identifying suitable referees prior to the ASB.
[50] Navy StratPol-Dep Dir Pol Eng and Navy StratPol-StratPlans-HdStrat

(2) As per the direction of The Hudson Memorial Fund[52] the ASB places as much weight on the educational benefit of the Fellowship *to the applicant* as they do on the RN/Defence need. The ASB must ensure that the best balance and return on investment is struck between the Fund's purpose of educating Royal Navy and Royal Marine officers and the considerable capitation rate of the Fellowship applicants. Additionally, proposals must demonstrate how they will utilise the departments specific to St Anthony's College, as well as the Changing Character of War programme.

(3) The RN reserves the right to guide Service-funded students in their choice of course modules (where appropriate) and subject areas for research and dissertations to ensure that they benefit both the individual and the Service. Additionally, students are required to submit an electronic copy of their dissertation / research projects (and other work of note) to the ASB Secretary on completion of their studies, so that they can be made available to support subsequent research and policy development.

d. **Return of Service.** In accordance with JSP 750 all sponsored higher education attracts a Training Return of Service (TRoS). Liability for the relevant TRoS is incurred from the start date of the course, with all TRoS periods commencing on completion of the course[53]. The following TRoS is applicable:

(1) The Mountbatten Fellowship will incur a full-time postgraduate degree TRoS of 36 months from completion of the course. All applicants must ensure their current Tx date supports the above TRoS.

(2) The Hudson Fellow is not MOD funded and therefore no TRoS applies.

(3) Whilst funded by MOD, the Wemyss Fellow is not a formal educational qualification and therefore does not attract a TRoS.

(4) Prior to funding being released, all Mountbatten Fellowship applicants are to complete the TRoS certificate[54] and return it to their CM (via email is preferred), with NAVY PEOPLE-HQ N8 SO2 B at CC. CMs are to complete the necessary actions on JPA[55] and send a confirmation email to NAVY PEOPLE-HQ N8 SO2 B, who will release funds directly to the individual's chosen institution once invoices are received[56]. Failure to action TRoS requirements will result in RN sponsorship being withdrawn.

[52] https://governance.admin.ox.ac.uk/legislation/hudson-memorial-fund
[53] Completion of the course is defined as when the period of study ends (e.g., if a degree sponsored candidate prematurely exits the course once they have engaged with their CM and Board Secretary, the RoS will commence on completion of study or when the university ends enrolment, whether that is the full course or part of it.
[54] JSP 750 Centrally Determined Terms of Service Chapter 3 Part 1 Chapter 3 Annex E – Training return of Service Certificate
[55] Recording and Viewing Return of Service and Earliest Exit Date on JPA: PR912002
[56] Note that all Travel and Subsistence (T&S) will lie where it falls (to the individual or parent unit through prior agreement) and should be agreed by the individuals' local budget manager in advance. The Postgraduate Academic Scholarship fund will not pay for T&S for individuals studying on full or part time courses.

e. **Voluntary Withdrawal from Postgraduate Fellowships.** Individuals wishing to withdraw from Postgraduate Fellowship Opportunities due to exceptional circumstances must first seek approval from their CoC and provide a robust supporting case to the Fellowship ASB Secretary, including the last date of study. SP may still be eligible for the associated TRoS iaw JSP 750 Pt 1 Ch 3[57]

f. **Reporting.** The RN places considerable importance on education as it contributes to our people having a "battle-winning edge". The definition of merit that underpins the reporting and promotion processes already distinguishes the strongest of candidates as those who have the "ability to think at a level above their peer group". Given that education enhances and hones the ability to think, selection boards will be directed to give academic attainment due consideration in their deliberations. To enable this:

(1) All personnel undertaking full time fully funded education, are to have reports raised, detailing the academic attainment, and read at promotion and transfer selection boards[58]. This report may either be a course report (S2020E) or full OJAR (S2020).

(2) Reports should be raised at the start of the course ensuring that a 1RO, normally the course manager or academic tutor, and 2RO are nominated. If there is a requirement to extend the reporting period beyond the Common Reporting Date (CRD) for the appraisal year, then guidance should be first sought from the appropriate Promotion Board Secretary[59].

9611. Additional Postgraduate Study Opportunities

a. **The US National Resource Strategy (NRS) Master's Programme.**

(1) UK armed forces personnel at or above OF4 and Civil Servants at or above B2/C1 focussed on Defence Support can apply to obtain an MSc in National Resource Strategy through a year of in-person study at The Eisenhower School for National Security and Resource Strategy at the National Defence University (NDU) in Washington DC, USA.

(2) The MSc in NRS offers applicants the opportunity to gain an understanding of the US logistics and acquisition ecosystem, alongside strategic security and leadership studies. Eisenhower School attendance would provide invaluable pre-employment training for those assigned to strategic functional logistic roles in the US, or international and industry facing roles in the UK

[57] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/Documents/JSP750_Part1.pdf
[58] JSP757 Tri Service Appraisal Reporting Instructions Part 2 Guidance Volume 1 Chapter 2
[59] Contact details can be found on SharePoint at Royal Navy Workforce Appraisals and Career Progression Team

(3) The Eisenhower School mission is to “Educate joint war fighters and other national security leaders for strategic leadership and success in analysing national security strategy and in evaluating, marshalling, and managing resources to execute that strategy.” The Eisenhower School is unique in combining master’s level study of security, leadership, industrial and economic theory alongside current issues. Aimed at key future strategic leaders, UK OF4/ OF5 equivalents, the course is cohered around the integration, analysis and evaluation of resources and strategy[60]

(4) The Eisenhower School academic calendar for International Fellows students (including a six-week preparation course) commences mid-June each year, and aligns with the US student program below in early August, concluding in mid-June the following year. UK attendees should expect to arrive in the US two weeks before preparation course start date and will regularly travel within the US on site visits related to their Industry Studies research.

(5) During their time in the US, personnel will be governed by the US processes and status that comes from being an International Military Student (IMS) issued with an International Training Order (ITO) by the US Government. Entry will require a NATO2 visa. Those attending Eisenhower School are eligible for Accompanied Posting overseas.

(6) **Reporting.** British Defence Staff United States (BDSUS) based at the British Embassy in Washington DC will provide UK Chain of Command functions, as well as location specific administration and support. Individuals will be assigned into the training/ resilience margins via single Service overseas staff course JPANs. Once enrolled at the NDU, the International Student Management Office (ISMO) based there will provide US administrative oversight.

(7) **Return of Service.** Military applicants should note that a TRoS 36 months, iaw JSP 750, applies. CS applicants should note that they may be required to complete a Funding Agreement.

(8) **Eligibility and Application Process.** Applications are invited in accordance with Annex 96U no later than 1 Oct of the year before the course start date. Following approval with applicant OF4 CM, applications should be forwarded to the Single Service or CS POC[61] For military personnel this opportunity is a Tri-Service competition, with those applying requiring experience of or potential for Joint Service appointments and likely to have a Career Field history of Operations Support, Management of Defence or Capability, Acquisition or Project Delivery.

[60] https://es.ndu.edu/ for detailed course information.

[61] NAVY PEOPLE-CM OF LOGS BAR SO and UKStratCom-DefSp-People-DHd

(9) Potential candidates are advised to submit convincingly articulated applications early and ensure that the supporting justification by line managers is robust enough for 3* scrutiny. The quality and strength of application will be an important determining factor as the senior selection board will not have access to Service Records and weighting will apply to those applicants with identified beneficial follow-on assignment options. Individuals must demonstrate the ability and willingness for the academic rigour of post-graduate study and the knowledge to advise US peers on UK defence organisation, policy and processes.

(10) Application and career management timings for each academic year are outlined in Annex 96U.

(11) Further information on the Eisenhower School can be obtained from Def Sp COS/XO - UKStratCom-CDLS-Team@mod.gov.uk or the single Service and organisation contacts.

b. **Wilkie Calvert PhD Scheme (University of Reading).**

(1) The Wilkie Calvert Scheme is aimed at supporting professionals to undertake PhD research on a part-time basis, which will both support their own career development and be of strategic importance to their employer. The University will provide funding to cover the cost of tuition fees for part-time PhD study for six years. Successful applicants will be supported by a supervision team with expertise relevant to the research and have access to a suite of researcher development training.

(2) **Eligibility.** Individuals will be expected to hold an undergraduate degree at or above 2:1 level or equivalent, and a master's degree. This may be waived if candidates can evidence a body of relevant professional experience.

(3) **Application Process.** Candidates must first seek approval from their LM and CM and obtain a formal letter of support before submitting an online application by 1 May each year. Full details can be found on the university website[62]. As candidates are selected by the University of Reading there is no ASB process, but successful applicants are required to notify the Board Secretary[63] for record-keeping purposes

(4) Candidates are encouraged to contact Hd Naval Staff and Hd Strategy[64] to discuss prospective research topics and demonstrate benefit to the Service, as well as how they intend to feed research findings back into the RN.

(5) **Return of Service.** As this scheme is funded by the University of Reading it does not attract a TRoS. T&S Costs will fall where they lie.

9612. Educational Prizes

a. Each year, educational prizes are awarded to Junior Ratings, Senior Ratings and Officers. The competitions involve either writing an essay or completion of exams. The details of eligibility, subjects and entry requirements are announced annually by RNTM.

b. **Lieutenant Commander Hooper Prize.** The Lt Cdr Hooper Prize is an annual essay competition in memory of the late Lt Cdr Geoffrey Hooper OBE RN. The prizes originated from a trust fund established in 1952 by Lt Cdr Hooper's mother, however, are now provided by the Royal Navy and Royal Marines Charity (RNRMC).

c. Changes have been made which returns the competition to as close as its original format as practicable and to the original intent of Mrs Hooper.

d. The prize will be run and managed annually by LDO Ops, who will determine who will coordinate the competition. LDO Ops will set the question(s), manage the entrants and form the judging panel.

e. **Eligibility.** The competition is open to Junior Ratings in all branches of the Royal Navy, Royal Marines, Royal Fleet Auxiliary and Maritime Reserves, including those holding acting higher rank (i.e., Substantive Leading Hand/Corporal and below). Entrants are only allowed to submit one essay per competition.

f. **Prizes.** Prize funds are subject to annual confirmation by the RNRMC and will be announced via RNTM to launch the competition.

g. This competition is sponsored by Cdr LDO who reserves the right to:

(1) Increase the value and number of prizes and combine prizes and divide them equally where prize-winning essays are of equal merit.

(2) Withhold the award of some, or all, of the prizes if essays of insufficient merit are submitted.

h. **Essay Format.** The essay title(s) will be released annually via an RNTM. Essays must be on the designated subject(s), be written in English, and be between 1200 and 2000 words long. The RNTM will outline details of the submission procedure including guidance and rules covering plagiarism, collusion, and the use of Artificial Intelligence.

i. **Marking Criteria.** Essays will be marked against a marking scheme aligned with Blooms Taxonomy and City & Guilds Functional Skills Level 2 Writing Assessment Specification. Essays will be anonymised ahead of marking and moderated by an independent panel.

j. **Publication.** Once submitted, the essay's content may be used for learning purposes and inclusion in publications such as the Naval Review. This will be anonymous, and the entrant's name will not be used unless they explicitly wish to be acknowledged.

SECTION 3

MANAGEMENT AND DELIVERY OF LEARNING AND DEVELOPMENT

9613. Structure

The Learning and Development Organisation is the Royal Navy's delivery mechanism for all education, L&D, resettlement and training support activity under the strategic direction of Dir P&T's Policy Strategy and Plans Team.

a. **NAVY PEOPLE-PSP LD Pol SO1.** The Learning and Development Policy SO1 position within the NCHQ P&T Policy, Strategy and Plans department acts as Sponsor for this Chapter. They oversee the RN Single Points of contact for individual training policy, elective learning and resettlement. They report to Hd Policy, Strategy and Plans.

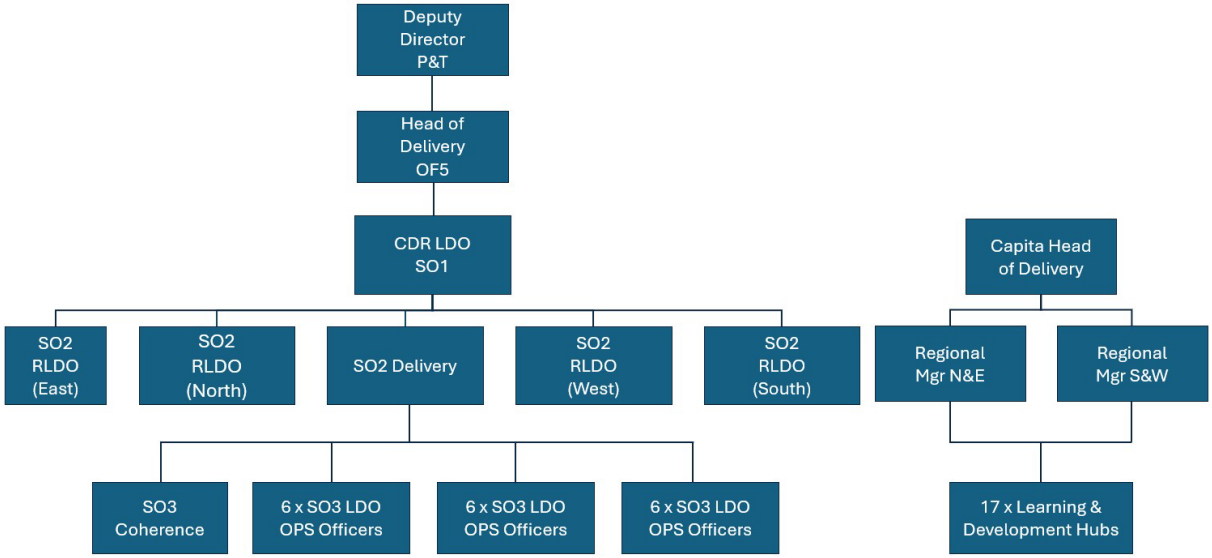
b. **NAVY PEOPLE-PSP LD Pol ElectSO2.** The L&D Policy (Elective) position works to NAVY PEOPLE-PSP LD Pol SO1, as the RN Single Point of Contact for all elective education opportunities available within the RN. This role primarily is to provide coherence to the management of L&D policy across the RN and translate relevant Defence policy change into RN action. They represent the RN as lead desk officer for education, lifelong learning and development policy, attending tri-service steering groups lead by the Training, Skills, Learning and Development team.

c. **Commander Learning and Development Organisation (Cdr LDO).** Cdr LDO, in partnership with Team Fisher, is responsible for LDO output, and has Line Management Authority for the Learning and Development Operations Officers (LDO Ops) and functional authority, in line with the LDO Charter, over Unit Education Officers/Unit Training Management Officers (TMOs) and Learning and Development Hubs.

d. **Learning and Development Organisation (LDO).** The LDO (Delivery) headquarters is based at the L&D Hub (Waterfront), HM Naval Base Portsmouth. The LDO is responsible for the coherent delivery of individual education and development and training and resettlement support.

e. **Regional Learning & Development Officer (RLDO).** Four RLDOs work to CDR LDO, assuring and collaboratively supporting all aspects of LDO delivery. RLDOs are based locally within their respective Regional L&D Hubs and lead & encourage collaborative working across their region by delivery staff. RLDOs each lead a Functional Pillar to support high quality delivery and modernisation of a specific area of LDO delivery. RLDOs work closely with Team Fisher Regional Managers to communicate CDR LDO intent and provide support & guidance in partnership with them to L&D Hub Managers. RLDOs support Outreach tasks into their respective regions, facilitating communication between local Command and LDO to ensure all SP are aware of the LDO Offer.

Figure. 96-1. The Learning and Development Organisation



Note. *This Section requires further development. Future editions will include a breakdown of each of the military roles held by the LDO organisation. This includes the role of the OF3s and OF2s that are located across the country at various LDO Hubs.*

9614. Purpose

a. The purpose of the LDO is to support 2SL and Commanding Officers to develop the intellectual potential of their people to maximise Operational Capability (OC) and ultimately prepare them for return to the national workforce. This is to be met by delivery against the six endorsed L&D commitments below:

(1) Professional Development.

(2) Elective Learning and Personal Development.

(3) Neurodiversity awareness and support.

(4) Apprenticeships and accreditation.

(5) Coaching interventions and upskilling.

(6) Transition and resettlement guidance.

b. The LDO is to support the six L&D commitments by delivery of L&D outputs mandated by Government and MOD, as follows:

(1) English and mathematics tuition, support and recording in accordance with JSP 822 Vol 8;

(2) Provide a system for recording personal development in accordance with JSP 822 Vol 8;

(3) Administer Standard Learning Credits (SLC), Enhanced Learning Credits (ELC) and the Further Education/Higher Education (FE/HE) schemes in accordance with JSP 822 Vol 9;

(4) Provide opportunities for the civilian accreditation of Naval training, education and experience in accordance with JSP 822 Vol 8;

(5) Provide support and guidance, and assessment where appropriate, for personnel with Specific Learning Differences (SpLD) in accordance with JSP 822 Vol 7;

(6) Resettlement training, support and guidance in accordance with JSP 534;

(7) Provide feedback to MOD in accordance with JSP 822 and as required.

c. To further support L&D within the RN, the LDO will:

(1) Provide relevant L&D feedback to Commanding Officers, Deputy Director People – Training (DDPT) and Team Fisher Director of Learning;

(2) Raise L&D delivery issues with potential impacts on policy through the appropriate L&D policy desks;

(3) Support and provide education for promotion[66] opportunities;

(4) Provide support, guidance and learning opportunities for personnel, throughout their career, to enable them to develop agile and adaptive thinking to better contribute to OC, including protected time for learning for the completion of formal L&D which is required by the Service.

9615. Assurance

The LDO's assurance process aims to drive continuous improvement by providing an objective, evidence-based judgement on the extent to which L&D providers are complying with mandated policies and achieving principal outputs and effects. The assurance process uses the fundamentals of Ofsted's Common Inspection Framework (CIF), aligned with BRd 3(1) and JSPs 534 and 822.

[66] Currently English and mathematics requirements iaw Education for Promotion (EFP) policy; GCSEs for UY and SUY.

9616. Learning and Development Hubs (L&D Hubs)

a. There are 17 L&D Hubs across the UK; contact details can be found at Annex 96K. Each L&D Hub supports or signposts Service personnel to the following:

(1) Access to a trained Learning and Development Adviser (LDA) for a Learning and Development Interview (LDI).

(2) Provide support and information on learning opportunities for personnel to gain qualifications required by the Service for them to be qualified educationally for promotion.

(3) Learning, training and study skills support.

(4) Assessment facilities and support for neurodiverse thinkers (including those with Specific Learning Differences (SpLDs)) and their line managers.

(5) Advice on the Standard Learning Credits (SLC), Enhanced Learning Credits (ELC) and Publicly Funded Further Education/Higher Education (PF FE/HE) schemes.

(6) Administration and processing of SLC and ELC applications for both serving and retired Service Personnel where appropriate.

(7) Access to recreation and reference libraries.

(8) Provide advice and guidance on in-service academic opportunities, including the undergraduate and postgraduate academic scholarship schemes, and Fellowship opportunities.

(9) Advice and access to external learning providers.

(10) Advice and access to e-Learning packages.

(11) Advice and access to the Greenwich Hospital Bursary scheme, offering means tested financial support towards undergraduate studies.

(12) Access to language learning and Military Language Aptitude Tests (MLAT).

(13) Advice about MoD Cyber courses.

(14) Advice on membership of professional bodies.

(15) Advice on available education and accreditation schemes, including those funded by the RN.

(16) Access to a trained Service Resettlement Adviser, resettlement provision and resources.

(17) Access to professional neurodiversity and specific learning differences support and coaching.

(18) Deliver Functional Skills English and mathematics tuition to enable Service Personnel the opportunity to gain qualification for Education for Promotion and for Apprenticeships.

(19) To provide invigilation support for those undergoing examinations (authorised personnel only) in accordance with the guidance for the invigilation of exams at Annex 96L).

b. L&D Hubs, in collaboration with LDO Ops, can provide Units with:

(1) L&D and resettlement briefs.

(2) Mentoring and support for Part Time Service Instructors (PTSI).

(3) Advice and support to develop learning and coaching cultures.

(4) L&D Hubs are to comply with the L&D Charter.

9617. Deployed Learning and Development

a. The RN's LDO Operations (LDO Ops) Team provides L&D support for deployed units. LDO Ops Officers will conduct visits on a priority basis to focus on supporting retention strategy. They target seagoing units/cohorts considered to be at increased risk of Premature Voluntary Release (PVR):

(1) **Priority 1.** Units/crews in UK waters displaced from an RN base port for more than 30 days.

(2) **Priority 2.** Units/crews at Very High Readiness (VHR) or forward-deployed units without regular access to a UK-operated overseas base port.

(3) **Priority 3.** Forward deployed units/crews with regular access to a UK-operated overseas base port.

(4) **Priority 4 (Routine).** Units/crews that have not had access to an LDO Ops visit programme for at least 18 months.

b. LDO Ops will, on an annual basis, forecast and deliver a budgeted visits programme in accordance with the above priorities. Visits will last for an appropriate period to enable primary outputs to be delivered including the L&D Brief, FS exams, LDIs and ERO training.

c. Secondary and tertiary deliverables will be offered to include Neurodiversity guidance, PTSI support, library updates, administration of the Modern Language Aptitude Test (MLAT), performance coaching, apprenticeship support and delivery of Royal Navy Leadership Academy (RNLA) Coaching Workshops and Level 3 courses.

d. LDO Ops will collaborate with L&D Hubs across UK-operated base ports to ensure unit Command and their crews have access to primary L&D deliverables and L&D advice wherever they are located.

9618. Ships' Library Service

a. The Ships' Library Officer (SLO)[67] provides advice to unit Education and Resettlement Officers (EROs) and supplies educational and recreational books.

b. The ERO or Library Officer in a ship/unit/establishment is responsible for the care of the books, for their proper issue and return by borrowers. In a ship or submarine, it is recommended that a ship's librarian be appointed to maintain regular contact with the SLO.

c. It is the responsibility of the ship or establishment to demand books. Demands should be forwarded as early as possible to the SLO, stating the reason for the demand and the number of entitled personnel.

d. Recreational books will be replenished periodically throughout each year, automatically, by the SLO. This should be sufficient to replace all losses and books discarded due to fair wear and tear. SLO should be informed in good time when, for any reason, replenishments are either no longer required or need to be resumed.

e. Accounting for ship's library books remains a Command responsibility:

(1) Recreational books are regarded as consumable items but should be properly cared for, securely stored and issued on loan against a signature.

(2) Ship's library books are not to be offered for sale or auction under any circumstances. Advice on disposal of surplus books should be requested from the SLO.

f. The Ship's Core Professional Academic Library is specifically issued to all major ships and units within the RN in support of the RN Education Strategy, covering a broad spectrum of security and leadership issues. As texts are relatively expensive there will be a requirement to manage and account for the collection. It is suggested that responsibility for this will fall to the Ship's ERO/Library Officer. Whilst the temptation may be to place books on a shelf in the Wardroom, it must be stressed that the intent is to provide access for all.

g. **Language Learning.** Language learning materials (e.g. language books, dictionaries, grammar books) may be requested from the SLO for permanent addition to the Ship's Library. Books will be from the Routledge Colloquial series and will require audio download prior to deployment if internet access in unavailable.

[67] The SLO can be contacted during working hours via NAVY PEOPLE-TMG LDO Ship Lib Off

h. **GCSE/A Level Textbooks.** On request, Ships' Libraries will be supplied with a selection of IGCSE/A level textbooks to support study on board. These books are supplied as a whole-ship resource and, as such, records must be kept of issue on loan. At the end of the course or period of study they must be returned to the ship's library or ERO. The cost of these items is significant and therefore appropriate action for lost or damaged books must be considered. Personnel undertaking guided study will require sole use of textbooks and SLCs should be used for their purchase.

i. **Access to Other Libraries.** Use may be made of the considerable non-fiction stock at the Joint Services Central Library and the wider MOD library network.

9619. Learning and Development Adviser (LDA)

a. **Purpose.** The LDA provides a vital resource for personnel seeking to access L&D opportunities and should be engaged with by the learner as early as possible in the process. Unlike EROs, who hold the post as a secondary duty, the LDA's primary purpose is to support the learner on their development path. LDAs are located within all the L&D Hubs, with the service provided by Team Fisher.

b. **Primary Responsibilities.**

(1) To provide advice and guidance to personnel in operational units, shore establishments and outlying stations on individual learning and development opportunities and resettlement entitlements.

(2) To support, advise and guide personnel in devising their individual learning and development plan.

(3) Promote and facilitate opportunities for accessing and funding externally delivered, or MOD sponsored elective learning opportunities.

(4) To advise Command on the opportunities, processes and administrative arrangements supporting development of their personnel.

(5) To conduct L&D briefings and support the unit ERO.

(6) To conduct one-on-one LDIs and any follow-up interviews required by the individual to generate their learning and development plan.

(7) To coordinate and approve Publicly Funded Learning Credit Schemes for learners (Standard and Enhanced Learning Credits schemes).

(8) To identify, advise and support learners with Specific Learning Differences (SpLDs) and neurodiverse conditions and signpost them to the Regional L&D Hub SpLD Adviser.

c. **Qualifications.** As a minimum, all LDAs, must be qualified to the following level of Coaching:

(1) Level 3 Coaching and Mentoring on assignment; and

(2) Level 5 Coaching and Mentoring after 12 months in-post.

9620. Learning and Development Coordinator (Coord)

a. **Purpose.** The Coord role is a key member of the LDO, providing front of house initial signposting, and administration services at an LDO Hub. The Coord will contribute to ensuring Service Personnel have the educational skills, knowledge and qualifications to undertake their learning and to continually develop their personal and professional skills.

b. **Primary Responsibilities.**

(1) Act as the initial contact point for people attending or contacting the LDO Hub creating a welcoming environment and service that signposts individuals to the relevant team members or materials.

(2) Coordinate and book all appointments, enrolments, course bookings and classroom bookings for LDO Hub events including the annual learning and development open days, Learning & Development briefings to units, induction briefings, L&D Interviews (LDIs).

(3) Set up and maintain any specific accounts at the LDO Hub that are required for Learners to access digital resources.

(4) Administer, maintain, and update LDO Hub records including exam related activities and monthly data reports.

(5) Provide, where applicable, administrative support to Service Personnel who are applying for and accessing bursaries or other programmes for L&D including forwarding applications to the bursary provider and/or Higher/Further Education provider.

(6) Complete administrative actions associated with the Standard Learning Credit scheme (e.g. collection of certificates and evidence and JPA actions).

(7) Complete administrative actions associated with the Enhanced Learning Credit scheme (e.g. checking account details are correct and advising learners on the submission process).

(8) Perform other agreed administrative tasks including exam invigilation and other tasks allied with the function of the LDO Hub at the site it is located.

(9) Provide administrative support for Service Personnel with Specific Learning Difficulties (SpLDs).

9621. Unit Education and Resettlement Officer (ERO)

a. **Introduction.** BRd 2 Article 3101 stipulates that each unit is to appoint an ERO. The ERO is the linchpin linking Service personnel in the unit with both shore-based Learning and Development Advisers (LDAs) and deployed LDO Ops personnel. It is important that the Commanding Officer selects an individual with the appropriate skills and personal attributes to undertake this role. The responsibilities of the ERO are at Annex 96M.

b. **Purpose.** The ERO's primary role is to provide information and support to facilitate personal and professional development to the Ship's Company to the standards laid down in this BR. In so doing, the ERO will contribute directly to the following:

(1) Operational Capability, by meeting the Service's requirement for a sufficiently educated workforce.

(2) The retention of trained workforce.

c. **Sources of Support and Advice.** It is recognised that most EROs undertake this role as a secondary duty and will be inexperienced in delivering education and resettlement advice. Support will be provided through the LDO Hubs, and briefings conducted by the LDO Ops team.

d. **Initial Actions.** On assuming ERO duties, the following initial actions are to be completed:

(1) **ERO Handover.** Contact the LDO Ops team to update the ERO contact details and to arrange for an ERO Brief.

(2) **ERO Brief and Resource Pack.** Arrange to receive the ERO Brief at the earliest opportunity. In addition, obtain an up-to-date ERO resource pack from the LDO Ops team. LDO Ops will arrange for the JPA competence to be recorded. These actions are to be completed within their first two months of assuming the role. A familiarisation visit to the unit's base port Learning Hub is highly recommended.

(3) **Resettlement Brief.** Although a Resettlement Brief is provided as part of the ERO Brief, it is recommended that EROs contact an L&D Hub within the first two months of accepting the ERO role.

9622. Unit Education and Resettlement Officer's Assistant (EROA)

EROA duties include the following:

a. Custody and issue of all accountable equipment, materials, books, stores and stationery.

b. Detailed arrangements for classes, maintenance of records and the display of relevant information.

c. Administration, including correspondence, and liaison with L&D staff over the recording of qualifications, examination schedules, maintenance of a Unit Education and Resettlement (E&R) database.

9623. Part Time Service Instructors (PTSI)

a. **Introduction and Purpose.** PTSIA is an allowance which compensates Service personnel for their time delivering structured education programmes in deployed units. PTSIs are employed to deliver unit organised programmes of instruction towards the achievement of qualifications, predominantly relating to Education for Promotion (EFP) and the completion of Apprenticeships.

b. For individuals in sea-going units who do not have regular access to LDO Hubs, e-learning material or civilian tutors, PTSIs provide a recognised route to enable Service personnel to continue their learning at sea. PTSIs are volunteers who are willing and able to impart their knowledge to teach other Service personnel.

c. The aim of PTSIA is to recompense individuals who provide instruction to other Service personnel in deployed units, where the employment of full-time instructors or attendance at part-time civilian courses is impractical or not financially viable to meet the educational needs of the unit.

d. PTSIs are primarily employed to deliver English and mathematics instruction to other Service personnel working towards either Functional Skills (FS) or GCSE level qualifications. This could be as an extension of a formal course delivered via the LDO Hub or as an opportunity to study whilst on deployment.

e. Information on LDO delivered learning, the requirements for promotion, gaining qualifications through accredited training or the completion of Apprenticeships can be found in this chapter or via the LDO.

f. **Qualifications.** Prospective Level 1[68] PTSIs require a qualification in the subject to be instructed at least one level higher than the level being taught. For example, for FS or GCSE (English and mathematics), PTSIs need to hold a minimum AS Level/Scottish Higher in the subject being taught. To teach AS Level English for example, PTSIs need to hold a minimum A Level/Scottish Advanced Higher in that subject. To teach A Levels, PTSIs must hold a Foundation degree or higher. Level 2 PTSIs require a demonstratable competence level as agreed with their Commanding Officer.

g. To claim the allowance; PTSIs must also hold a Service or civilian teaching qualification. The minimum level of teaching qualification is either the Defence Trainer Capability (DTC) Course (or legacy equivalent)[69] or a civilian minimum Level 3 Award in Education and Training (AET)[70].

[68] PTSIA has two levels of payment (Level 1 and Level 2), dependent on the subject taught. See below Levels of Allowance for more information.
[69] Defence Trainer course (DTC) as either a standalone competency or with the Awareness or Practitioner proficiency, Defence Train the Trainer v2 (DTTT v2) or Defence Awarding Organisation's Level 3 Award in
[70] Formal teaching qualification at Level 4 or higher are also acceptable. Examples include Bachelor of Education (BEd), Bachelor of Arts (BA) with Qualified Teacher Status, Bachelor of Science (BSc) with Qualified Teacher Status, Post Graduate Certificate in Education (PGCE)

h. For queries relating to teaching qualifications, or to discuss individual cases where the required qualifications are not held, please contact NAVY PEOPLE-PSP LearnDev Elect. In exceptional circumstances waivers may be considered for those individuals who demonstrate the skill and enthusiasm to teach.

i. **Civilian-Provided Training.** The following civilian-awarded training qualifies personnel to become a PTSI and claim PTSIA. Personnel have the option to embark on a period of study, at a provider of their choice, to enable them to gain the required teaching qualification.

(1) Level 3 Award in Education and Teaching. Personnel can select their own provider to undertake a Level 3 Award in Education and Teaching and use their Standard Learning Credits to claim up to £175 to offset the cost. The MoD's Career Transition Partnership resettlement partner, www.reed.co.uk, advertise several training providers, accessible to all, regardless of whether you are in resettlement or not. Other training providers are available and further information can be sought from the LDO.

(2) The Ofqual-audited courses provide sufficient training quality and assessments to enable a Service Person to become a PTSI. This includes the Certificate in Teaching English to Speakers of Other Languages (CELTA) – Cambridge CELTA and the Certificate in Teaching English to Speakers of Other Languages (CertTESOL) – Trinity CertTESOL

(3) Teaching English as a Foreign Language (TEFL) courses vary in their quality, therefore TEFL courses do not qualify personnel to become PTSIs. Further advice about accepted courses can be sought from the LDO.

j. Entitlement to claim PTSIA. Except for RN Training Managers, all Service personnel (including Reserve personnel), irrespective of rank, with suitable educational and teaching qualifications, who undertake part-time educational instruction are eligible for PTSIA. The following must be met to claim PTSIA[71].

(1) Instruction must involve delivery of classes outside an individual's normal Service duties and must be conducted outside normal working hours. Payments for time spent in preparing classes or marking work may not be claimed but are implicit in the rates of payment. Personnel will not be eligible for payment if the terms of reference for their post require them to undertake instructional duties that fall outside either their normal working hours or their normal Service duties.

(2) Instruction should only be arranged when sufficient demand for a course has been identified, and only after an assessment that the applicable Service persons' attendance at an existing local civilian educational establishment is deemed as impractical or not financially viable. Instruction is to be authorised by the ERO, UEO, Commanding Officer, or delegated officer (minimum rank of OF3).

[71] In accordance with JSP 752 Chapter 13 Section 5.

(3) The subjects studied must be educational and should normally be in direct preparation for an examination (Level 1) or be vocational subjects such as word processing or foreign language conversation classes, studied for their own enjoyment (Level 2). Recreational subjects such as the training of bands, dancing, sport, physical training etc are excluded. Service Physical Training Instructors are not eligible to receive payment for sport, or other physical training subjects. The prior approval of single Service education authorities must be sought in cases of doubt.

(4) Instruction must not form part of any Service person's professional or trade training.

(5) A course must comprise a minimum of 4 lessons or lectures. Tutorials[72] do not qualify for payment, however exemptions can be requested by contacting SO2 LearnDev Elect.

(6) A class is not to be started for fewer than 6 students. Payments must cease if the number falls permanently below 3. In ships or units with less than 200 Service personnel, classes may be started for fewer than 3 people. Waivers will be granted with the express permission of SO2 LearnDev Elect[73]. All waivers are to be requested via email[74].

(7) If a unit cannot find part-time instructors from its own resources, part-time instructors from the other Services may be used. In such cases, payment to the instructor will be made by the unit to which the individual belongs.

(8) Further advice can be sought from the LDO in the first instance. Waivers must be requested through the policy desk via SO2 LearnDev Elect.

k. **Levels of Allowance.** PTSIA has two levels of payment based on an hourly rate. It is only paid for 'contact time' but rates include recognition of any time spent by instructors in marking and preparation outside these hours. The two levels are:

(1) Academic/Leading to Examination or Qualification – Functional Skills, GCSEs and 'A' Levels. Any delivery attracting Level 1 PTSIA must be delivered as part of a programme leading to examination and a recognised qualification.

(2) Vocational - Word processing, foreign language conversation classes etc. Delivery attracting Level 2 PTSIA can be vocational in nature and does not require a programme leading to an examination and recognised qualification.

l. **Levels of Allowance.** PTSIA rates can be found at JSP 752 Chapter 3 Section 1. They are £22.82 per hour (Level 1) and £17.62 per hour (Level 2).

[72] Tutorials are structured, interactive learning sessions where a small group of students work closely with an instructor to deepen their understanding of a specific topic. Tutorials typically involve discussions, problem-solving, clarification of complex contexts or personalised feedback on assignments. They are often more informal and participatory than traditional lessons.
[73] This is outwith the policy laid down in JSP 752, however has been adjusted to ensure its applicability to the Naval Service.
[74] NAVY PEOPLE-PSP LD Pol ElectSO2.

m. **Application process.** The chain of command should seek advice from their unit ERO in the first instance regarding the selection and administration of a PTSI. Where units have no access to a dedicated ERO, command should contact the LDO Ops Team (NAVY PEOPLE-TMG LDO Ops Help) for advice and guidance.

n. Once applicants meet the eligibility requirements stated above, an application to add the PTSI JPA competency to their profile can be submitted using the application form at Annex 96N. Applications made by the prospective PTSI are to be submitted to the ERO for signature, prior to forwarding to the LDO Ops Team[75]. In the absence of an ERO, a designated officer (minimum OF3) or LDO Ops Officer can provide the suitability declaration.

o. The LDO Ops Team will confirm the prospective PTSI's application form and confirm that the PTSI competency (Instructional|Part-Time Service Instructor (PTSI)|NAVY|) can be added to their JPA profile. It is the responsibility of the PTSI's unit to award the JPA competency, however the LDO can also award the JPA competency once they have approved the application.

p. Prospective PTSIs should not commence service instruction until their eligibility requirements have been checked by the ERO and LDO Ops Team. PTSIA cannot be claimed until the PTSI competency has been awarded.

q. **Method of Claim.** PTSIs must complete Annex 96A to JSP 752 Chapter 13 Section 5. Individual monthly PTSIA Authorisation Control Sheet as a record of their instruction to claim PTSIA. Completed copies are to be authorised by the ERO, Commanding Officer or delegated officer (minimum rank of OF3) and are to be submitted monthly in arrears to the Unit Personnel Office (UPO). The forms will be processed and entered onto JPA using an 'Element Entry' for payment to the entitled personnel.

r. **Quality Assurance.** The ERO must ensure that the quality and frequency of instruction delivered under the PTSI is in accordance with the plans and expectations which led to the initial recommendation. In deployed units, PTSIs can be assessed, coached, and supported by LDO Ops where possible. If, after support, an individual's PTSI delivery is not at the required standard, the LDO have the right to revoke the PTSI JPA competency from their profile until such time their ERO is content that their performance has improved. The ERO should then recommend to LDO Ops that the PTSIA JPA competency be reinstated. The LDO Ops team, when deployed, can support the ERO and Logistics Officer in ensuring their records are complete and accurate to meet their internal assurance inspections. The ERO should ensure the following:

(1) PTSI JPA competencies are accurately recorded on JPA and the ERO is aware of who holds the competency onboard.

(2) PTSIA Control Sheets are accurate with all instructional hours recorded.

[75] NAVY PEOPLE-TMG LDO Ops Help.

s. **Summary.** PTSIs allow Service personnel studying at sea to continue their learning in the absence of civilian instructors or shoreside teaching support. PTSIA is an allowance which compensates Service personnel for their time delivering structured education programmes in deployed units. PTSIs must hold a qualification in the subject to be instructed at least one level higher than the level being taught, in addition to holding a recognised teaching qualification. Applications to be awarded the PTSI competency are to be made through the ERO/LDO Ops Team by submitting Annex 96N. To claim PTSIA, Service personnel are to record their hours of instruction using Annex 96A[76] and submit the PTSIA Authorisation Control Sheet monthly to the UPO.

9624. Personal Development Record

Note. *This section is out of date and under review. For any questions relating to the PDR, please contact a member of the LDO staff.*

a. The Personal Development Record (PDR) supports individuals by providing an excellent means of helping them progress their service career and make the transition into civilian life. The PDR Concept is used today throughout organisations in the public, private, and voluntary sectors and is regarded as 'good practice'. It supports both Officer Career Development and the Through Life Education Pathway Ratings (TLEP(R)) and its use should be actively encouraged. It should be distributed at the following opportunities:

(1) New entrants to the RN are provided with a link to the on-line PDR[77], accessed via the DLE. All trainees are encouraged to create their own PDR from the link and to maintain it throughout their career

(2) The PDR is available to reservists, via their parent units. Reserve units' requirements are co-ordinated by the appropriate reserves' authority.

b. **PDR Ownership and Upkeep.** The PDR is owned and maintained by the individual. Only the owner has 'right of access'. It is an organisational responsibility, however, to inform individuals that to gain full benefit from their PDR, they will need to discuss it with those in a position to help and advice. This will certainly include Divisional Officers (DOs)/Line Managers (LMs), EROs, LDAs and LDO(Ops). Individuals should be encouraged to review their PDRs on the following occasions:

(1) Shortly after starting a new assignment, or on arrival at a new unit.

(2) Shortly before and after appraisal interviews when training and development needs are identified. PDRs can be used as evidence to demonstrate a development aim where RN funding is required, such as using the Learning Credits Scheme.

(3) Shortly before and after any educational career or professional training course.

[76] Annex A to JSP 752 Chapter 13 Section 5
[77] https://dle.ice.mod.gov.uk/pluginfile.php/6639665/mod_resource/content/0/Personal%20Development%20Record%20-%20V4.pdf

c. Personnel leaving the Service for civilian employment will often need to compose a CV, write letters of application and attend interviews. This means gathering details of work history, training and development, qualifications and achievements. The PDR provides an excellent means of doing this.

d. Personnel should be encouraged by DOs and LMs to complete their PDRs, primarily by example. LM's familiarity with the concept, and support for it, is essential for its success.

e. The PDR is voluntary. Individuals should be encouraged to use their PDR.

f. **Structure and Content.** The PDR is an on-line document, available via the DLE, comprising of printable inserts grouped into six sections, outlined below, including space to hold reports, certificates, appraisals, digital media etc. It enables individuals to record, review, and plan their personal development and can be used to keep evidence for civilian accreditation, promote through-career development and provide source material to support CVs, job applications and interviews.

(1) **Section 1 -Welcome to your Personal Development Record (PDR).** The introduction welcomes the user to the PDR and gives them an overview of its features, benefits and contents.

(2) **Section 2 - Personal Profile.** The Personal Profile assists individuals to collate their personal details, academic, vocational and Service qualifications, employment details, training and development records, curriculum vitae, and to record their Standard & Enhanced Learning Credit Scheme opportunities,

(3) **Section 3 – Apprenticeship and Trade Development.** The Trade Development section of the PDR is sponsored by the relevant branch. It should be used to record trade-specific training and development activities. It should contain a generic career template for the branch or trade and details accreditation opportunities. Each training/development module should detail the knowledge, skills and competences gained.

(4) **Section 4 - Current and Future Employment.** The Current Employment section is used to collate data relevant to the individual's current job. In most cases this will simply mean the individual placing a copy of their Terms of Reference or SJAR Roles and Responsibilities in this section.

(5) **Section 5 - Personal Development Plan.** The Personal Development Plan (PDP) section shows an individual how to prepare a PDP. It contains simple analytical tools to help individuals to identify their personal goals and plan how to achieve them.

(6) **Section 6 - Certificates and Personal Records.** The Certificates and Personal Records section should be used as an archive for documents. It will need to be updated from time to time to ensure that only the most relevant material is included, otherwise the PDR will become just a storage folder.

g. **Support.** Support for PDR is provided at 3 levels:

(1) **Department.** At Unit Departmental level, first line advice and guidance are provided by the individual's Divisional Officer/Line Manager. The DO/LM will help the individual to identify the individual's role and responsibilities; key work objectives and how they will be measured and Training and development required to help achieve them.

(2) **Unit.** At unit level, staff advice and expertise are provided by the unit Education and Resettlement Officer (ERO) or local L&D Hub. Advice can include educational and vocational courses, membership of Professional Bodies, accreditation and resettlement provision.

(3) **Headquarters.** At the policy level, the L&D Policy team manages implementation of RN PDR policy.

SECTION 4

APPRENTICESHIPS

9625. Apprenticeship Delivery

The RN delivers industry created Apprenticeship Standards to the majority of Phase 2 courses and all LET courses.

a. Table 96-3 details current courses.

b. Apprenticeship completion times vary between programmes and range from 12 to 36 months. Progression routes are being developed for all branches.

c. Apprenticeship Standards have three distinct phases:

(1) **Foundation:** Training delivery within a Phase 2 Establishment.

(2) **Development:** Consolidation of training within a Unit.

(3) **EPA:** Independent assessment conducted within Unit.

d. All RN apprenticeship programmes are subject to the DSAT processes laid down in JSP 822. The training is therefore subject to internal establishment Quality Assurance (QA), as well as second party assurance by the TMG.

9626. Functional Skills

Functional Skills are practical skills in English and Mathematics that enable leaners to deal with practical problems and challenges. Mandated standards in Functional Skills ensure that all SP have the literacy and numeracy skills needed to undertake training and operate effectively.

a. **English and Mathematics Level 2.** It is Apprenticeship policy to test everyone at Level 2. If this cannot be achieved, a support package will be created with a student's progress monitored throughout the duration of the programme.

Table 96-3. RN Apprenticeships

Employment Area	Branch	Apprenticeship Standard
Engineering		
	ETME, ETWE, ETWE(CIS-Tech) Army & RFA	L2 Electrical/Mechanical Mechanic (ST0276)
	LETME, LETWE, Army & RFA	L3 Maritime Mechanical Fitter (ST1402) / L3 Engineering Technician (ST0457)
	LETWE, LETWE(CIS-Tech)	L3 Maritime Electrical Fitter (ST1403) / L3 Engineering Technician (ST0457)
	ETWE(CIS-Spec)	L3 Information Communication Technician (Digital Communications Technician) (ST0973)
	LETWE(CIS-Spec)	L4 Network Engineer (ST0127)
	AET	L2 Aviation Maintenance Mechanic (ST0014)
	NA(SET)	L3 Survival Equipment Fitter (ST0015)

Employment Area	Branch	Apprenticeship Standard
Warfare		
	Warfare Specialist Electronic Warfare (EW)	L3 Data Technician (ST0795)
	Warfare Specialist Above Water Weapons (AWW)	L3 Data Technician (ST0795)
	Warfare Specialist Above Water Tactical (AWT)	L3 Data Technician (ST0795)
	Warfare Specialist Under Water (UW)	L3 Data Technician (ST0795)
	Seaman Specialist	Currently no suitable apprenticeship available – EDH awarded at LH.
	Hydrographic	Alternative Accreditation Route
	Meteorology & Oceanography Specialist	Currently no apprenticeship
	Mine Warfare Specialist	L3 Data Technician (ST0795)
	Communications Technician	L3 Data Technician (ST0795)
	Intelligence Branch	L3 Intelligence Analyst (ST0516)
	Warfare Specialist Sonar (SSM)	L3 Data Technician (ST0795)
	Warfare Specialist Tactical (TSM)	L3 Data Technician (ST0795)
	Diver	No Industry Apprenticeship Available
	Royal Naval Police	Delivered by the Army (see table below)
	Leading Physical Trainer	L3 Personal Trainer (ST0302)
	Photographers	Delivered by the RAF (see table below)

Employment Area	Branch	Apprenticeship Standard
Royal Marines		
	Royal Marines (Commando)	L2 HM Forces Serviceperson (ST0222)
	Royal Marine Intelligence Analysts	L3 Intelligence Analyst (ST0516)
	Royal Marines Communications Expert	L3 Data Technician (ST0795)
	Royal Marine Police	Delivered by the Army (see table below)
	Royal Marine Band Service	No Industry Apprenticeship Available

Employment Area	Branch	Apprenticeship Standard
Logistics		
	(RFA) Chefs	L2 Production Chef (ST0589)
	(RFA) Seafarer	L2 Able Seafarer - deck (ST0274)
	(RFA) Stewards	To be introduced if required: L2 Food & Beverage Team Member (ST1488)
	Catering Services	L2 Production Chef (ST0589)
	Leading Chefs	L3 Snr Production Chef (ST0232) (In development)
	Supply Chain	L2 Supply Chain Warehouse Operative (ST0259

	Writers	Delivered by the Army (see table below)
	Medics	L5 Assistant Practitioner Healthcare Support Worker (ST0217) (University of Lancashire

Employment Area	Branch	Apprenticeship Standard
Airside Ops		
	Naval Airman Aircraft Handler	L2 Aviation Ground Operative (ST0037)
	Leading Aircraft Controller	L3 Data Technician (ST0795) / L3 Aviation Flight Operations Coordinator (ST1007) in development for mid 2026
	Leading Aircrewman	Alternative accreditation
	Air Traffic Controller	Delivered by the RAF (see table below)

Delivered by other Services		
Specialisation	**Apprenticeship Standard**	**Remarks**
Writers	L3 Business Administrator (ST0070)	Delivered under Pearsons at DCLPA – Worthy Down (Army)
Photographers	L4 Photographer (ST1388)	Delivered by the RAF at RAF Cosford.
Royal Navy Police	L4 Non-Home Office Police Officer (ST0764)	Delivered by the Army at the Defence School of Policing, Security and Guarding, Southwick Park.
Air Traffic Controller	L5 Air Traffic Controller (ST0595)	Conducted by RAF at RAF Shawbury

9627. Apprenticeship Learning Cycle. Each trainee will undergo the following process as part of the Apprenticeship Learning Cycle:

a. **Initial Assessment.** Upon enrolment, learners undertake an Enhanced Skill Scan (ESS) to evaluate their prior learning and qualifications against the apprenticeship Standard's Knowledge, Skills, and Behaviours (KSBs), including a numeracy and literacy Initial Assessment. Trainees assessed as suitable for an Apprenticeship, but exhibiting Specific Learning Differences (SpLD), will receive support in accordance with JSP 822 Vol 7 and BRd 3(1) Chapter 96.

b. **Induction and Training.** All RN trainees enrolled onto an Apprenticeship will require an apprenticeship brief.

c. **Reviewing Progress.** Regular learner reviews will be carried out at a minimum of every 12 weeks to evidence a learner's active involvement in learning progression. This process involves the learner and employer setting realistic targets, mentoring and updating the Individual Learning Plan (ILP), and providing support and assistance as appropriate. The ILP has been mapped to the content of the training pipeline which clearly defines what the learner will achieve during their Apprenticeship programme. Learner reviews will also offer an insight for the Military Independent Assessment Authority (MIAA) which will be used in the EPA process.

d. **Embedded Qualifications.** All personnel conducting Apprenticeships are tracked, with the embedded qualification being assessed by formally qualified assessors or SMEs. The outcome of the assessment and verification process ensures that qualification learning outcomes are met. Tracking and assessment in the wider Fleet will include visiting Quality Assurers. Units must recognise the importance of these visits and acknowledge that a complete apprenticeship task book must be forwarded to the learner's registering establishment.

e. **End Point Assessment (EPA).** Apprenticeships across the UK have changed to fit a new government standard and now require an EPA to test the apprentice's competence in their apprenticeship role. To reduce the burden on deployed units and the stress of having two separate (yet similar) assessments, where applicable (e.g. engineering), this new EPA will be aligned to PEs and RPS boards. An Apprentice will only be awarded their Apprenticeship on successful completion of the EPA. The PE and RPS board results still fall to the Unit's decision. However, the EPA aspect of the board will be decided by the Military Independent Assessment Authority (MIAA). There is now a requirement for written evidence to be recorded for the EPA aspect of these boards so it can be effectively evaluated by the MIAA to award the apprentices with their final grade. Apprentice and Assessor guides providing further detail and explanation on the EPA will be sent out individually when an apprentice reaches Gateway. This assessment is particular to each Standard and as such the delivery will vary between programmes. Normally, they will take place within a Unit[78] and, where practicable, will be aligned with current career processes. The TMG PACC will ensure support measures are put in place to prepare the learner for their EPA; these could include:

(1) Task Book/Career Development Journal insert.

(2) Visits from Apprenticeship staff.

(3) Computer based training with offline capability.

EPAs will be conducted by an EPA Organisation (EPAO), in several cases, such as engineering, this EPAO will be the MIAA. Units will be provided with information and support to help with the continuation of training. Information on EPAs will be promulgated via RNTM once a delivery route is developed.

f. **Apprenticeship Encouragement.** Trainees who have yet to achieve the appropriate FS level are to be encouraged and, where possible, given maximum access to L&D Hubs to achieve the necessary grade. Certified copies of FS certificates should be sent to the lead school to claim the Apprenticeship.

9628. Higher Level Apprenticeships

a. Higher Level Apprenticeships (Level 4-7) are increasing in availability and delivery with several Higher Education Establishments, including universities, offering them. If an opportunity is identified as feasible for any number of RN personnel, then SO1 PACC should be contacted in the first instance.

[78] Other options include Realistic Working Environments.

b. The Civil Service (CS) has its own Apprenticeship offering and there may be opportunities for RN personnel to use this offer. The point of contact for enquiries is NAVYPT-TMG-ApprenticeshipTeam@mod.gov.uk.

9629. Audits and Inspections - Ofsted

All RN/RM Phase 2 and a high proportion of Phase 3 training has Apprenticeship qualifications mapped to the training delivered. Any MoD training that receives such civilian recognised qualifications, and attracts government support funding, is liable to be inspected by Ofsted.

a. As the Ofsted nominee, Hd of RN Apprenticeships (NAVY PEOPLE-TMG PACC SO1) will receive the notification of an inspection with 6 days warning. This will be communicated to all appropriate stakeholders and Training Establishments. The inspection will be managed centrally by Apprenticeship HQ with assistance from establishment sub-nominees. Hd of RN Apprenticeships is the owner of the RN Apprenticeship SAR and QIP.

b. **Internal Apprenticeship Reviews within Training Schools (Education Inspection Framework).** In addition to the QA processes delivered as part of JSP 822, Team Fisher is contracted to deliver an annual programme of internal Apprenticeship assessment reviews. These assessment reviews are based on the Ofsted Education Inspection Framework (EIF).

c. **Provider Financial Assurance Audits (PFA).** PFA audits are conducted by the DFE to ensure eligibility and authenticity of funding claims and correct contractual adherence to funding rules and regulations. They will inspect a sample of learner files against their records and the Training Provider's records. They expect to find, or be provided with, evidence that the records meet contractual regulations of continuous learning for the periods of funding (learner reviews etc). Where records do not concur, or if evidence cannot be provided to demonstrate an individual was in continuous learning, the funds provided for those Learners/periods will be reclaimed by the DFE.

9630. Management and Governance of Apprenticeship Funding

a. If an Establishment/Unit identifies an area where the facilities or opportunities for Apprenticeship delivery could be improved, then an application can be made to use Apprenticeship Funds (AF).

b. All applications from unit sponsors for Apprenticeship Funding should use the Short Business Case Template at Annex 96O. Completed forms should be sent to the Pipeline Accreditation Team (based in HMS COLLINGWOOD) to the Group Mailbox NAVY-TMGPAAC-GRANT-APPLICATIONS@mod.gov.uk where they will be processed, and the approval route will commence. A business case appropriate to the value of the project will be required to justify the request.

c. In the case of equipment with maintenance requirements and/or limited life, a clear statement of how the sponsor intends to meet those requirements/replacements is required. This funding does support through-life aspects of a project.

d. **Approvals Process.** Applications to utilise the AF may be submitted from any Unit or Establishment which supports apprentices. All applications are approved by DDPT via SO1 PACC and the TMG Business Support Team.

(1) Requests under £10,000 may be submitted using the EAF Template[79].

(2) Requests over £10,000 must be submitted using the Business Case form to the PACC team who will process, log and send to the TMG Business Support Team.

(3) DDPT's decision is communicated to the application sponsor by the PACC team with further details on how to proceed.

(4) All applications are managed in line with MoD commercial and financial regulations. The PACC team undertakes the required due diligence to ensure the correct routes are, and can be, followed prior to submission to DDPT.

(5) A full documentary audit trail is maintained within the PACC Limited SharePoint.

(6) Once funding is allocated and spent, the Royal Navy must evaluate the effectiveness of apprenticeship programmes to ensure they meet ESFA requirements, learner outcomes, and operational objectives.

e. **Financial Propriety.** All financial approvers are accountable to their Chain of Command for the proper management and expenditure of Apprenticeship funding drawn down through national contracts. In addition, the following must be adhered to:

(1) Expenditure and accounting procedures must be in accordance with departmental policy and procedures for MOD funds. Accounts may be subjected to scrutiny by Defence Internal Audit and the National Audit Office.

(2) Funding shall not directly underpin core RN training.

(3) Double funding (the use of Apprenticeship funding for activities, supporting personnel or resources already paid for within the MOD budget) is to be avoided.

(4) Equipment is to be considered MoD property and be entered into a Fixed Asset Register, created by the receiving establishment for each permanent item of expenditure. In the case of new/additional IT equipment directly relating to SELBORNE and requiring Team Fisher maintenance support, the sponsor will need to engage with the Authority contract management to establish approval to add equipment to the SOR.

(5) Disposal and write off will be in accordance with normal business guidelines, ensuring that efficiency and effectiveness of delivery is maintained.

[79] 20240418-EAF_Template FY 2425.docx

f. **Sponsor's Responsibility.** Sponsors of an Apprenticeship Fund Application are to ensure that:

(1) The PACC Team are informed of any invoices/payments due quoting your grant reference, designated UIN and RAC code.

(2) Termly progress review is provided to RNAP HQ, significant delays/issues should be reported as soon as practicable.

(3) Details of the project are handed over to an appropriate person when leaving a role.

(4) RNAP HQ is consulted regarding appropriate branding, signage and PR prior to the completion of the project.

g. **Apprenticeship Fund Stakeholders.** The individuals and teams associated with the administration, financial scrutiny and deciding authority for Apprenticeship Funds are as follows:

(1) **DDPT.** Budget holder for Apprenticeship Fund.

(2) **TMG Head Delivery.** Provides monthly feedback on the AF to DDPT and inputs on major Business Case applications to ensure they align with TMG Delivery.

(3) **PACC Team.** Led by SO1 PACC, the team ensure all applications and Business as Usual (BAU) expenditure complies with MoD regulations and a full audit trail is maintained for income and outgoings.

(4) **PACC WO.** Conducts all administration on the Apprenticeship Service System which enables the drawdown from the tri-service levy.

(5) **Navy Finance Team.** Produce the monthly reports which detail the income and outgoings and offer support with compliance of financial regulations.

(6) **TMG Business Support Team.** Manage Business Cases for DDPT and support with all processing and compliance requirements.

(7) **CWD UPO.** Process the income received from the DFE.

(8) **Navy Commercial.** Support with the commercial requirements of an Apprenticeship Fund Application.

SECTION 5

EDUCATION FOR PROMOTION

9631. Defence Literacy and Numeracy Direction

For all members of the Armed Forces, the English and mathematics requirement is encapsulated in the Literacy and Numeracy Direction, details of which are contained in JSP 822 Vol 8. This policy aims to ensure that the Functional Skills (FS) needs of Armed Forces personnel are addressed at the earliest opportunity to enhance their operational effectiveness, and potential for personal and career development.

9632. Education For Promotion

a. The Education for Promotion (EFP) Policy builds on the Defence Literacy and Numeracy Direction and is the collective term used to describe how the RN will deliver Functional Skills (FS) in English and mathematics in specified time scales. All Ratings/OR will be trained and assessed to L2 FS English and mathematics during Phase 1 and Phase 2 Training. Those who do not achieve the standard will be supported by regional hubs and LDO Ops teams. The EFP requirement is:

(1) A FS Initial Assessment is required for all personnel who do not hold GCSE Grade 9 - 4 (2017 onwards) or Grade A* - C (pre-2017), FS Level 2 or equivalent qualifications in English Language and Mathematics. See Annex 96P for a list of MOD approved proxy qualifications that give FS equivalences.

(2) Promotion to Leading Hand/Corporal. All personnel must attain a Level 1 FS qualification in English and mathematics in order to be educationally qualified for LH/Cpl[80]. The GCSE equivalent acceptable grades for promotion are minimum 3-1 (D-G).

Note. *For Level 2 Apprenticeships the minimum acceptable GCSE grade equivalent is 3-1 (D-G), effective from 1 Aug 24.*

(3) Promotion to Petty Officer/Sergeant (PO/Sgt). All personnel must attain a FS Level 2 qualification in English and mathematics prior to promotion to substantive PO/Sgt.

(4) There is no additional educational requirement for promotion to Chief Petty Officer/Colour Sergeant.

[80] Promotion Regulations (see BRd 3(1) Part 8) are to be consulted for specific branch selection criteria.

(5) The Qualified Educationally Warrant Officer (QEWO) competence is no longer valid or required; to be qualified for promotion to Warrant Officer, personnel will require English and Mathematics competences at FS Level 2. There will be no legacy rights and individuals will require English and mathematics competences at Level 2 to be annotated on their JPA competence profile, which may be obtained from the various competences listed below (competencies listed in italics are no longer available on JPA, but remain valid):

Educational|RN/RM Basic Skills Numeracy Level 2|Navy|
Educational|RN/RM Basic Skills Literacy Level 2|Navy|
Educational|RN/RM Key Skills AON Level 2|Navy|
Educational|RN/RM Key Skills Communication Level 2|Navy|
Educational|RN/RM Functional Skills Mathematics Level 2|Navy|
Educational|RN/RM Mathematics Level 2|Navy|
Educational|RN/RM Functional Skills English Level 2|Navy|
Educational|RN/RM English Level 2|Navy|
Educational|RN/RM English Proxy A*- C|Navy|Navy|
Educational|RN/RM Mathematics Proxy A*- C|Navy|
Educational|RN/RM Basic Skills Proxy Numeracy Level 2|Navy|
Educational|RN/RM Basic Skills Proxy Literacy Level 2|Navy|

(6) Where a competence is not annotated but an appropriate qualification is held, it is the individual's responsibility to provide evidence that they are educationally qualified. Requests for changes to educational status are to be submitted to NAVY PEOPLE-TMG PACC EFP Mailbox, together with certified true copies of the relevant certificates, or taken to a L&D Hub, ERO, UEO or the LDO Ops team. Once qualifications are confirmed as suitable, the new educational status will be entered directly onto JPA.

(7) Commonwealth and Non-British qualification evaluation will be conducted by NAVY PEOPLE-TMG PACC EFP Mailbox. Full qualification certificates are required; preliminary/provisional result slips are not acceptable. if the certificates have been lost, a letter direct from the institute must be emailed to NAVYPEOPLE-TMGPACCEFPmailbox@mod.gov.uk. Commonwealth and non-British qualification evaluations are for RN (accreditation or promotion) purposes only. Evaluation for any other reason, e.g., upon leaving the Service, is the individual's responsibility.

(8) TMG PACC TEAM will ensure that all qualifications gained outside of the UK are recognised to the comparable level, as advised by the Department for Education approved ENIC system. This comparability can be used for Apprenticeships and JPA EFP[81]. UK ENIC screenshots will be provided and JPA actioned accordingly.

[81] For RN mandated purposes (accreditation or promotion) any costs will be the responsibility of the RN, not the individual.

b. **Legacy Qualifications prior to 1 Apr 06**[82]

(1) NAMET scores of 5:5 and above will remain extant for the purposes of promotion to LH/Cpl and for Branch Transfer (BT) and Specialist Qualification (SQ) selection[83]. NAMET scores will not be taken into consideration when assessing whether an individual is at the correct educational standard for promotion to PO/Sgt[84].

(2) Personnel who do not hold a FS at Level 2 or a proxy qualification will need to attain the requisite FS qualifications in English and mathematics prior to promotion to PO/Sgt.

9633. Educational Criteria for Upper Yardman/Senior Upper Yardman and Warrant Officer Commissioning Schemes

a. Commissions and Warrant (CW) papers should be raised only for Upper Yardman/Corps Commission (UY/CC) candidates who meet, or are expected to meet, the educational criteria of five GCSEs in non-overlapping subjects at grades 9-4 / A*-C (or equivalent), including both mathematics and English Language. Functional Skills Level 2 in English and/or mathematics cannot be used in lieu of a GCSE A*-C/9-4.

b. The educational requirement for Senior Upper Yardman/Senior Corps Commission (SUY/SCC) candidates to have CW papers raised is two GCSEs grade A*-C/9-4 (or equivalent), one of which must be mathematics or English Language. To be eligible for the Final Selection Board, SUY and SCC candidates are required to have GCSEs Grade A*-C/9-4 in mathematics, English Language and two other non-overlapping subjects, a total of four GCSEs (or equivalent). Functional Skills Level 2 in English and/or mathematics cannot be used in lieu of a GCSE A*-C/9-4.

c. For the Warrant Officer 1st Class Commissioning Scheme (WOCS), the minimum Educational Standard is two GCSEs Grade 9 – 4/A*- C in both English Language and mathematics prior to the date of the Commissioning Board.

d. Common equivalent qualifications that are accepted in lieu of the GCSE are as follows:

(1) Scottish Intermediate 2. Standard Grade 1, National Grade 5 (A-C)

(2) GCE Ordinary Level (Grade A, B or C).

(3) Certificate of Secondary Education (CSE) Grade 1.

[82] Individuals who rejoin the Service as ABs have legacy rights if their initial date of entry was prior to 1 Apr 06.
[83] Results can be split e.g. NAMET for one element and Functional Skills for the other, in order to be most beneficial for the individual.
[84] NAMET 0:0 denotes GCSEs in English and Mathematics at Grade C or above, further clarification on NAMET scores can be obtained from NAVY PEOPLE-TMG PACC EFP Mailbox.

e. The qualifications above are by no means exhaustive. In cases of doubt regarding the acceptability of qualifications or subjects, upon submission of certified true copies of certificates, NAVY PEOPLE-TMG PACC EFP Mailbox will evaluate academic/vocational qualifications.

f. A pass at the Admiralty Interview Board (AIB) will not negate the requirement to meet the educational criteria; consequently, candidates who fail to obtain the required educational standards will not be considered by the Final Selection Board (FSB) and will need to re-submit their application for the relevant scheme once they are educationally qualified. In circumstances where a candidate's education results are due after their attendance at the AIB, result must be received before an otherwise eligible candidate can be considered at the FSB.

g. Requests for changes to educational status are to be submitted to NAVY PEOPLE-TMG PACC EFP Mailbox with certified true copies of the qualification certificates. Once qualifications are confirmed as suitable, the individual's new competence profile will be recorded directly onto JPA. The authority for recording on JPA the competence Qualified Educationally for UY/SUY rests solely with the TMG PACC TEAM.

9634. Additional Educational Criteria for Upper Yardman and Senior Upper Yardman

a. **Candidates for Upper Yardman Engineer Officer (UY(E)).** Candidates for Engineering specialisations are required to have additional qualifications over and above the basic requirement listed at Para 9615. They are required to have successfully completed degree level study leading to the award of an appropriate engineering degree which is accredited to Incorporated Engineer level by the Engineering Council. SUY Engineer Officer candidates are subject to different requirements, as detailed in Chapter 50. The Service has three routes available to enable candidates to achieve the UY(E) requirement: UY(E) University of Portsmouth Degree Scheme (UY(E) UoPDS), a Degree Apprenticeship or the Defence Technical Undergraduate Scheme (DTUS). Selection to the DTUS will be limited to those candidates who display outstanding officer and academic potential early in their Service career and who achieve an AIB Final Board Score of at least 250 marks, commensurate with that of a potential University Cadet Entry (UCE) candidate. Detailed pre-educational requirements for UY(E) candidates may be found in Chapter 50.

Note. *Reporting Officers are advised to discuss a potential UY(E) candidate's current academic achievement and any study being undertaken with the appropriate Upper Yardman Recording Authority (UYRA) before commencement of CW papers. Such action will avoid nugatory reporting for ratings who are unlikely to meet the educational standard required to study for an Engineering degree.*

b. **Upper Yardman/Senior Upper Yardman.** Those qualifications required for entry into specialisations, over and above the basic requirement, are as follows:

(1) **Candidates for Training Manager (TM).** Candidates for TM must have gained, or be in the process of gaining, a degree that is recognised within the UK. Candidates will not normally be able to attend the AIB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of AIB Cdr(E), will candidates be permitted to attend the AIB without written evidence of their degree results. It should be noted that entry into the Officer Corps will be on production of either the degree certificate or a document containing the candidate's final results.

(2) **Candidates for QARNNS.** In-Service candidates for QARNNS must be registered with the Nursing and Midwifery Council (NMC). At the discretion of the QARNNS Recording Authority (RA), candidates may be deferred when there are already too many nominations or when, in the Recording Authority's judgement, and with the agreement of the Commanding Officer, a candidate is not yet ready to attend the AIB.

c. **Recording of Results.** Results should be recorded by following the guidelines below:

(1) **Data Capture.** Accurate recording of FS information is critical in support of the personal development of the individual, as such details of FS assessments and qualifications need to be captured at the earliest opportunity on JPA as a competence. New Entry training establishments are to ensure that the appropriate results are recorded on entry to the Service. Phase 2 training establishments are to update records to reflect any improvement in an individual's qualifications generated by successful completion of FS elements of the relevant Apprenticeship Programmes.

(2) Authority for updating English and mathematics competences to JPA has been delegated to a limited number of authorised personnel within L&D Hubs. The TMG PACC Team is the central point of contact and competence recording authority for FS qualifications, English and mathematics GCSEs and educational equivalencies. Verification of education equivalences remains the sole responsibility of the TMG PACC Team.

(3) It is not a requirement for individual qualifications to be recorded within the qualifications area of JPA. The main priority is that the individual's JPA competence profile accurately reflects the Educational/Professional Qualified competence and that the individual is educationally qualification for promotion. It is the responsibility of individuals, Divisional Officers/Troop Commanders to ensure that JPA is updated with any other qualifications (JSP 794 refers).

(4) Due to GDPR and limited storage space, paper records of individuals' qualifications will no longer be retained by the TMG PACC Team.

9635. Access to English and Mathematics Support and Testing Provision

a. Opportunities to achieve the pre-requisite level of FS certification for promotion are available through accredited training, such as the Apprenticeship Programmes integrated as part of Phase 2 Training and the Advanced Apprenticeship Schemes associated with career courses. These schemes enable achievement of FS Level 1 and 2 qualifications through the completion of nationally recognised assessments in English and mathematics. Personnel registered on the Apprenticeship and Advanced Apprenticeship Schemes who successfully complete the FS tests at the appropriate level will qualify educationally for promotion to either LH/Cpl or PO/Sgt as appropriate.

b. Where personnel need to achieve FS outside of the formal training system, opportunities exist through the network of L&D Hubs. The programmes offered in the Hubs are tailored to suit the individual's current knowledge, circumstances and abilities. Usually, most of the programme is delivered via an e-learning medium with assistance from an E-Learning / Functional Skills Coach (EL/FSC) or equivalent. Such programmes are supplemented with 1:1 tuition from the English or Mathematics Tutor and, where tutors are not available, EROs, LDO Ops and UEOs or equivalent should be able to assist. If needed, the help of Specific Learning Differences Advisers (SpLDA) can also be accessed. When e-learning is deemed to be unsuitable for an individual, face to face tuition will be offered. A choice of electronic or paper-based examination is also available.

c. Onboard a ship, individuals can achieve FS qualifications if help is available from an LDO Ops officer or an ERO. Offline learning materials and 1:1 or small group tuition is usually used, leading to a paper-based test. The test must be invigilated by an LDO Ops officer or trained ERO.

9636. English and Mathematics Programme

The sequence of FS provision may be summarised as follows:

a. **Initial Assessment.** Initial assessment (IA) establishes an individual's English or mathematics skill level in terms of the Regulated Qualifications Framework (RQF) levels (from Entry Level 1 to Level 2). Note: IA is not a qualification and cannot be used to qualify an individual for promotion.

b. **Diagnostic Assessment.** Diagnostic Assessment identifies an individual's specific ability and highlights areas of weakness. This provides a description of learning needs and assists the FS specialists in the compilation of a learner's programme planner, also known as an Individual Learning Plan (ILP). The ILP outlines short- and longer-term learning targets, a detailed programme to address the FS needs and a record of progress and achievement.

c. **Learning Support.** Learning Support is the programme of support developed by the FS specialist for the learner. It may comprise 1:1 or classroom tuition, group work, intensive courses, e-learning based programmes and distance learning.

d. **Mock Assessment(s).** Mock assessments would usually resemble the ‘live’ examination and are offered to the learner as an exam preparation tool.

e. **Testing For Qualification.** All FS programmes offered to Service personnel lead to a nationally recognised qualification that is awarded on successful completion of the final assessment(s).

f. **Tracking.** Accurate recording of FS information is critical in support of the personal development of the individual. It is therefore important that data on FS achievement by the individual follows them through their training and throughout their service career.

9637. Educational Qualification for Promotion, Branch Transfer or Specialist Qualification Selection

a. EFP does not affect the education requirements of those branches or specialisations with a requirement for specific GCSE qualifications for entry.

b. NAMET scores achieved by legacy personnel for the purposes of selection for BT and SQ will remain extant for the service lifetime of the individual (this is applicable to AB/Mne’s only: once promoted to LH/Cpl they no longer retain legacy rights). All other personnel (LH and above) who wish to be considered for BT and SQ will be required to achieve the relevant FS in English and mathematics.

SECTION 6

ACCREDITATION

9638. Accreditation of Naval Training and Experience

a. The Royal Navy is fully committed to the overarching Defence Direction for accreditation, which is contained within JSP 822 Vol 8.

b. Accreditation is the gaining of a whole or partial civilian qualification through the recognition of training and experience. Where accreditation does not meet the requirements for the full national qualification, schemes should provide opportunities for individuals to 'top-up' their learning to enable them to achieve the full qualification.

c. The purpose of this section is to:

(1) Provide an overview of the principles of accreditation.

(2) Identify RN specific issues.

9639. Accreditation Categories

Accreditation may be achieved in three ways:

a. **Career Course.** A service funded course that an individual is required to attend.

b. **Elective.** Additional training designed to complement a career course or extension of a Foundation Degree to an Honours Degree.

c. Through a combination of the above.

9640. Accreditation Sponsors.

The responsibility for accreditation within the RN falls to either Deputy Director People - Training (DDPT) for RN training or Branch Managers for branch specific training.

a. **TMG RN Training.** RN training comprises Leadership and Management training and University of Lincoln Courses (UoL). UoL courses include Royal Marines Young Officer Foundation Degree, International Defence Training Degree, BRNC Foundation Degree, Social Work Degree and Royal Marine Band Service Degree. Overall responsibility for the accreditation of these courses lies with DDPT, delegated to SO1 Pipeline Accreditation, working in conjunction with the appropriate lead schools and providers.

b. **Branch Led Training.** Branch Led Training is the responsibility of lead schools/heads of profession who will liaise directly with the appropriate accreditation bodies in consultation with NAVY PEOPLE-TMG PACC C2 and NAVY PEOPLE-PSP LD Pol ElectSO2, within the rules laid down in JSP 822 Vol 8. DDPT provides an advice/consultancy service in these cases.

9641. Overarching Principles

a. Accreditation is to be sought for all formal training, subject to it being able to meet the policy criteria and the necessary resources being available[85].

b. The RN will facilitate and fund accreditation in accordance with the following principles:

(1) Negotiate with Awarding Bodies, the highest level of recognition of all RN training and experience which contributes towards a Role Performance Statement (Role PS) or educational outcomes. The choice of accreditation to be pursued will depend upon the following:

(a) An assessment of the value of the qualification in the current and future civilian employment market and its associated value to recruitment and retention. Particular attention should be given to the likely completion rates of the chosen route.

(b) The nature and scale of the gap between Role PS and the standard required by the civilian qualification.

(c) The availability of resources to bridge the gap to a higher civilian standard.

(d) The value (skills, professional contacts) that may benefit the RN as a result of holding that award whilst the individual remains in Service.

(e) Government policies and the related ability to access Education and Skills Funding Agency (ESFA) funding to support any additional training or administrative effort, (over and above the Role PS), that is required to facilitate accreditation.

(2) Provide opportunities for Service personnel to gain civilian accreditation in a structured and cost-effective manner, on a through career basis.

(3) Provide qualifications and accreditation mandated by national legislation.

9642. Awarding Organisations

Accreditation is to be sought for all formal training, as follows:

a. Selection of the most appropriate awarding organisation is a key consideration and will aid the overall development of any accreditation scheme.

b. Apprenticeship opportunities must be explored[86].

c. At the highest possible level as measured on the Regulated Qualification Framework (RQF).

[85] JSP 822 Vol 8 Ch 2.
[86] If in doubt NAVY PEOPLE-TMG PACC C2 can advise.

9643. Governance

Note. *This section is under review by SO1 Pipeline Accreditation as part of the SELBORNE programme. Any queries should be directed to NAVYPT-TMG-ApprenticeshipsTeam@mod.gov.uk.*

9644. Funding

All new accreditation requests must follow the Training Change Working Group (TCWG) and Customer Executive Board (CEB) process.

a. Accreditation can be funded either by the Service or by individuals, depending on the course. The availability of financial resources must be carefully considered prior to commitment to a given accreditation scheme.

b. Potential funding routes include the following:

(1) **NCHQ Funding.** For accreditation derived wholly from generic RN career courses, for example Leadership and Management courses, Service funding may be provided from a central budget by the TMG.

(2) **Other Service Funding.** For accreditation derived wholly from Branch specific career courses, Service funding will be provided by the requirements desk/lead school in question. TMG PACC C2 must be informed of all intended accreditation, including costs. Desk officers must seek advice from TMG PACC C2 before embarking on an accreditation route.

(3) **Individual Funding.** Where there is no service requirement for accreditation, individuals will be expected to self-fund their accreditation. This includes accreditation derived from courses which are not part of an individual's career requirement, or from personal elective learning.

(4) **Learning Credits.** Service personnel may be able to use Standard Learning Credits and Enhanced Learning Credits to fund accreditation provided that the qualification falls within the scope of the regulations in JSP 822.

9645. Responsibilities

a. The TMG is to:

(1) Inform Service Accreditation Policy;

(2) In conjunction with Branch Managers, maintain an Accreditation Database;

(3) Support wider MOD requirements and data collection;

(4) Maintain records of Quality Assurance Activities for all accreditations including site visits and reports.

(5) Maintain close working relationships with Branch/Career Managers and Accreditation Cells regarding RN Accreditation.

(6) Provide SME support to Schools/Establishments on Accreditation and explore further opportunities.

b. SME School Leads are to:

(1) Identify training that may attract civilian recognition and liaise with Awarding Bodies for the accreditation of branch specific training.

(2) Provide adequately trained assessors to support/undertake workplace assessments. Where practicable, assessments are to be based upon existing task book regimes.

(3) Ensure all quality assurance documentation, including Course Approval Activity Reports, are sent to NAVY PEOPLE-TMG PACC C2.

SECTION 7

OFFICER CAREER DEVELOPMENT

9646. Officer Career Development Programme (OCD)

Note. *This section is under review and will be transitioned to Chapter 97 at the next BRd 3(1) review.*

a. The regulations for the current programme for OCD apply to all RN Officers. Additional guidance for RNR Officers is currently under development but all stages are available where capacity exists.

b. OCD regulations are published in BRd 3(1) Chapter 97, Professional Military Education (PME)

c. Further OCD details and course dates are published by RNTM

d. **OCD Regulations.** The regulations relating to attendance on the separate elements of the OCD are as follows:

Table 96-4. OCD Regulations

Course	Regulations	Comment
1 – Junior Officer Leadership Course 1	Prerequisite for JOLC2	To be attended prior to completion of Phase 2 Training. Due to the experience gained during their Naval careers, SUY (and some UY) officers have acquired considerable management and leadership experience in comparison to Direct Entry officers. For SUY and UY Officers who have successfully passed SRLC, they will no longer be required to attend JOLC1. The requirement to attend JOLC1 remains for those SUY and UY officers who have only passed LRLC.
2 – Junior Officer Leadership Course 2	Prerequisite for ICSC(M)[87]	To be completed prior to selection/attendance for ICSC(M).
3 – Naval Analysis Course	Prerequisite for ICSC(M)	To be completed prior to selection/attendance for ICSC(M). Primarily attended by OF2s of 2+ years of seniority.
4 – Intermediate Command and Staff Course (Maritime)	Aspirational prerequisite for Full Commission Stage (FCS) transfer	Contact your CM for details. Those officers who have not successfully completed ICSC(M) may be considered less favourably by transfer selection boards. Note that it is unlikely that an individual will be selected for ACSC who is not Full Commission Stage (FCS).
5 – Pre-ACSC Critical Thinking Skills Course (CTSC)	To be completed post selection for ACSC (but prior to the start of ACSC)	Mandatory for RN personnel and desirable for RM personnel.

[87] There is no requirement for RM, RFA, WOs or International students to have completed JOLC2 prior to attending ICSC(M).

SECTION 8

PROFESSIONAL MEMBERSHIPS

9647. Professional Membership

Professional Bodies are typically non-profit making organisations which seek to further a particular profession, the interests of the individuals engaged in that profession and the public interest in general. Membership of a professional body indicates a level of competence within a particular field and is normally accompanied by post-nominal letters (e.g. MIEE, CEng, etc). From a Naval perspective, professional bodies can be seen as falling into one of two categories:

a. **Branch Specific.** Certain branches or trades will have an obvious linkage to a particular professional body, for example, the various engineering branches.

b. **Generic.** In addition to branch specific skills all Naval personnel will, throughout their career, build up expertise in leadership and management. These skill sets can also be mapped across to professional bodies. One example of this is through the Professional Recognition Awards (PRA), details of which may be found in the PRA DIN.

c. **Level of Professional Membership**.

Each professional body will have its own rules of admission and criteria for membership, but as a guideline the following are the levels that commonly exist:

(1) **Associate/Affiliate.** The lowest grade of membership, normally offered to those who have either recently qualified at the graduate level and have little or no practical experience, or those with experience but a level of achievement deemed to be lower than graduate level (typically junior officers and LH/PO).

(2) **Full Membership.** Typically offered to those with qualifications at a graduate level and/or significant experience at working in a responsible position within their field of expertise (typically senior Lt/Lt Cdr and CPO/WO2/WO1).

(3) **Fellow.** Normally only offered to those in more senior positions with a wealth of experience and/or knowledge at a Master’s degree level (normally Cdr+, sometimes senior Lt Cdr/WO1).

(4) **Chartered Status.** An additional level of professional competence can be indicated by achieving Chartered Status. This indicates a range of relevant professional skills as well as technical and commercial leadership, interpersonal skills and commitment to professional development.

d. **Mandated Membership.** In general, the RN[88] does not require personnel to be a member of any professional body, and thus does not normally mandate or centrally fund any schemes. In exceptional cases, if a particular assignment requires membership, then it may be funded by the organisation which sets the requirement for the membership, but only for the duration of that assignment.

e. **Elective Membership.** RN personnel may elect to join any professional body for which they are qualified. The rules governing membership are those of the professional body in question and not of the RN.

f. Standard and Enhanced Learning Credits cannot be used to pay for membership fees[89]. The only exception may be where both substantial additional work and an examination, assessment or assignment is undertaken which is not an integral part of the service course syllabus. Each case will be considered on its merits.

9648. Corporate Membership Schemes

a. A number of professional bodies offer corporate membership schemes to RN personnel. In each case certain elements of RN training and experience will have been mapped onto the membership criteria of the body in question, and this mapping exercise is normally in lieu of the portfolio of evidence that a professional body would typically require for membership.

b. It must be emphasised that the rules and regulations of each corporate scheme are dictated by the relevant professional body, not by the RN. It is entirely possible therefore that the levels of membership offered to naval personnel will vary, depending on the rules of the body in question. All fees associated with these membership schemes are paid directly to the professional bodies, although in some cases the RN may collect the fees to simplify administration.

9649. City and Guilds Professional Recognition Award in Leadership and Management

a. The City & Guilds Professional Recognition Award (PRA) has replaced the old Senior Awards. The PRA grants two certificates; a Regulated Qualification Framework (RQF) award and a City & Guilds Award (which entitles the holder to a post nominal). PRAs allow individuals to gain valuable recognition for their personal achievement and application of professional knowledge within the military. In addition, it provides future civilian employers with a recognised performance benchmark offered under the City & Guilds Royal Charter. They are most useful to those about to leave the Naval Service who wish to have their service experience recognised by a Civilian provider. The application form can be found at Annex 96R and the application and payment procedure can be found at Annex 96S.

[88] Special rules may apply to Engineering and Medical Branches.
[89] By definition, these schemes are intended to fund Learning. Full details of both schemes in JSP 822 Vol 9.

b. **Accreditation Levels and minimum eligibility criteria.** PRAs have been mapped directly to Command, Leadership and Management (CLM) courses have been mapped across to the equivalent qualification level.

(1) **Licentiateship (LCGI) (RQF 4)** is mapped to LRLC/CLDC and is awarded to Leading Rates and Corporals.

(2) **Affiliateship (ACGI) (RQF 5)** is mapped to SRLC/SLDC and Phase One Officer Training, and awarded to Petty Officers, Sergeants, Chief Petty Officers, Colour Sergeants, Sub Lieutenants and Lieutenants (RM).

(3) **Graduateship (GCGI) (RQF 6)** is awarded to Warrant Officers Class One and Two, Lieutenants (RN) and Captains (RM)[90].

(4) **Membership (MCGI) (RQF 7)** is mapped to Intermediate Command and Staff Course Maritime/Land and awarded to Lieutenant Commanders and Majors.

c. **Retired Personnel.** Retired Naval Service personnel are eligible to apply for the PRA up to two years after leaving the Service, provided they meet the above eligibility. Where retired personnel cannot complete Section 2 of the Application Form at Annex R, comprehensive proof of their eligibility must be supplied. A copy of their **discharge documents is mandatory** as part of the application process.

d. **Reserve Personnel.** Reserve Forces personnel are eligible to apply for the PRAs at the same level as Regular personnel, provided the eligibility criteria are met.

e. The Naval Service has established Delegated Authority status with City and Guilds, enabling a substantial reduction in fees for military personnel compared to the standard rates. This is a one-off cost. The table below outlines the PRA cost **effective from 01 Sep 25.** PRA costs are revised annually with effect from 01 Sep; applications for PRA received after 15 Aug will be required to pay the revised cost. Personnel submitting PRA applications from Jul – Sep are to contact NAVY PEOPLE-TMG PACC EDU Del to confirm the final cost.

Level	Current cost effective from 1 Sep 25 to 15 Aug 26
Licentiate	£123
Affiliate	£153
Graduate	£160
Member	£195

f. The PRA is **not eligible** for Standard Learning Credit (SLC) use.

[90] Current requirement of 2 years in substantive rank.

UNIVERSITY OF LINCOLN PART TIME TOP-UP UNDERGRADUATE SCHOLARSHIPS

1. P&T will fund up to 20 places per annum on part time Level 6 top-up undergraduate courses to those who have been awarded a foundation degree via previous study. Part time top-up undergraduate courses run remotely for 12-18 months from the University of Lincoln (UoL). For full details please visit the UoL website for the course details (linked below).

2. Top-up courses to full undergraduate degree are offered to Service Personnel in the following subjects and are subject to the University's entry requirements and RN's eligibility criteria. This includes candidates being in possession of a Level 5 foundation degree, or have experience gained through rank or work-based distance learning. Personnel must have discussed their chosen course with their CM ahead of their application to discuss onward employment and how the subject area is relevant and applicable to their future career. The following Undergraduate degrees are available:

a. **BSc (Hons) Maritime and Defence Studies.** Applicants to undertake this programme must ensure they have completed the FdSc in Maritime Studies as part of the Intermediate Warfare Officer Foundation (IWOF) course[1].

b. **BSc (Hons) Leadership and Management**[2]. This programme is open to anyone with an existing Level 5 qualification/foundation degree. This programme is the natural Route to Honours for Royal Marines officers who have completed the FdA in Leadership and Management.

c. **BSc (Hons) Logistics Management**[3]. The BSc (Hons) Logistics Management programme has been designed to develop students' capacity to successfully manage people, operations, and systems within a logistics environment.

d. **BSc (Hons) Human Resource Management**[4]. The BSc (Hons) Human Resource Management, a final year top up course, is designed to build on HR military professionals' skills, linking practical experience with academic theory to provide them with the opportunity to enhance their knowledge and expertise in Human Resource Management.

e. **BSc (Hons) Engineering Management**[5]. The BSc (Hons) Engineering Management as a final year top-up course. The degree presents military engineers and technicians at all levels with an opportunity to enhance their managerial and academic skills within their particular area of operational expertise. Qualified applicants will join the degree in the third year.

ANNEX 96E

UNIVERSITY OF LINCOLN FOUNDATION DEGREE OPERATIONS MANAGEMENT SCHOLARSHIPS

1. P&T will fund up to five places per annum on this part-time, two-year foundation degree at UoL. The Foundation Degree in Science (FdSc) Operations Management is open to all ranks, who have direct responsibility for tasks and resources. Modules include Operations Management, Managing People, Planning and Control Systems, Academic Study Skills, Developing Skills as a Leader, and an Operations work-based project (see Table 1).

2. Method of study. The FdSc Operations Management is a Work-Based Distance Learning (WBDL) degree which aims to bridge the gap between learning at work and learning at university. The programme considers the high level of skills and learning which are demonstrated every day in the workplace and provides a degree framework to support and accredit this learning. This is a flexible learning package with the ability to pause studies and re-join a later cohort. There is no face-to-face teaching or on campus attendance required with all teaching delivered online.

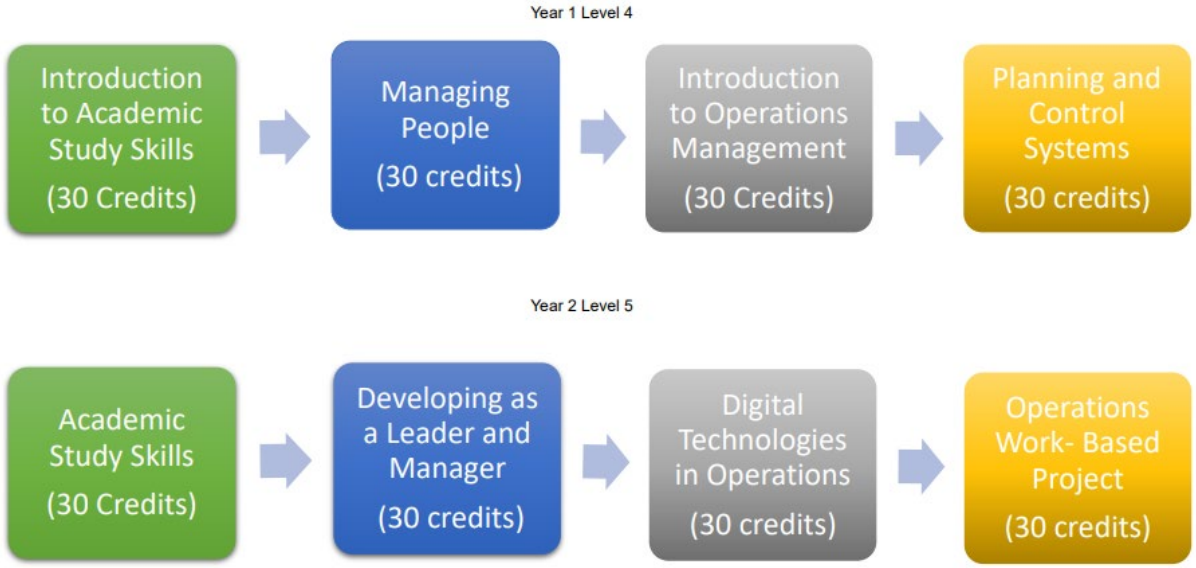
3. Course eligibility. The FdSc Operations Management provides those without formal higher education qualifications to get started with their management qualification journey, utilising their team leadership experience. The course starting point will be managed on a case-by-case basis, considering the individual's rank and level of experience. Recognised prior learning (RPL) will be considered and may be used to determine a shorter period of study (e.g., one year where possible). For example, Able Ratings with secondary associated duties such as secretary of a sports club could use their rank and experiences to achieve a place on the foundation degree. To get started using your rank alone you will need to hold the minimum of Leading Hand or Corporal. Leading Hands (with two years' experience and above) could expect to start the course from the second year and complete within a one-year period. Individuals who have reached the rate of Petty Officer (with two years' experience) could expect to be entered on to one of the one-year part time BSc (Hons) programmes. It is incumbent on the applicant to discuss their potential entry point with UoL[1] before completing their application on SCIO.

4. Commitment. The course and associated assessments are at foundation degree level and therefore, applicants should be prepared to offer the commitment and dedication to produce work of an appropriate standard. Throughout the programme, assessment methods are designed to enable students to develop their potential and are based on the development of close working relationships between the tutor and student. Hence, assessment strategies aim to reflect the focus of the course being on independent self-managed learning.

[1] For further enquiries, please contact the UoL Work-Based Distance Learning team on WBDLAdmin@lincoln.ac.uk.

5. Application. There are three intakes per year (Oct, Feb, and May – Oct and Feb available to RN). Funding for each intake should be sought from the annual ASB, which is held in May each year. When candidates apply to the FdSc Operations Management on SCIO, they are to state their preferred entry point in their application, which associated reasoning provided (e.g. I would like to apply for the FdSc commencing in Jan 26 due to operational commitments which will see me return from deployment in Dec 25). If a preferred date is not given, then the Oct 25 entry will be assumed. For more information on the course and how to apply, please contact the Work-Based Distance Learning Team[2].

Figure 96E-1: FdSc Operations Management modules (Level 4 and Level 5)



[2] WBDLAdmin@lincoln.ac.uk

ANNEX 96F

DIR P&T UNDERGRADUATE ACADEMIC SCHOLARSHIPS

1. Dir P&T will fund a limited number of places per annum on part time Foundation Degree (Fd)/full Undergraduate Degree courses. The UoL is the provider of choice[1], however, applications to study with other providers will be considered where UoL does not offer a realistic/similar alternative and a strong justification can be made, dependent on cost.

2. Courses can be on any subject (e.g. HR/Leadership and Management, Strategic Studies, Intelligence and Terrorism Studies), but applicants must provide compelling reasons when applying and justify their choice against benefit to the service and their own personal development.

3. Part-funded or part-completed degree courses cannot be funded by Dir P&Ts Undergraduate Academic Scholarship Scheme. Top-ups are permitted[2] under the rules of this scheme, however if an individual's course has already commenced, Dir P&T cannot part-fund the remaining course fees[3].

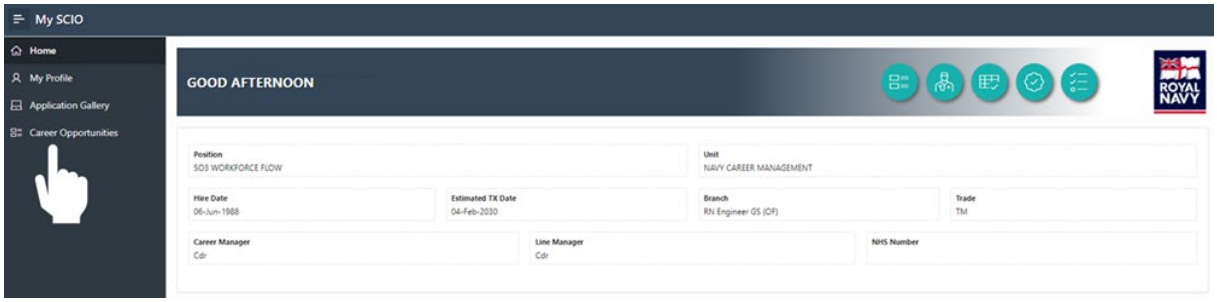
[1] UoL is the RN's Higher Education partner under Project Selborne.
[2] E.g., if a PgCert is already held, applications can be made to top-up that course to either a PgDip or Degree in the same subject.
[3] E.g., if an applicant has completed year one of a three year part-time undergraduate degree, they cannot claim for the remaining two years under this scheme.

ANNEX 96G

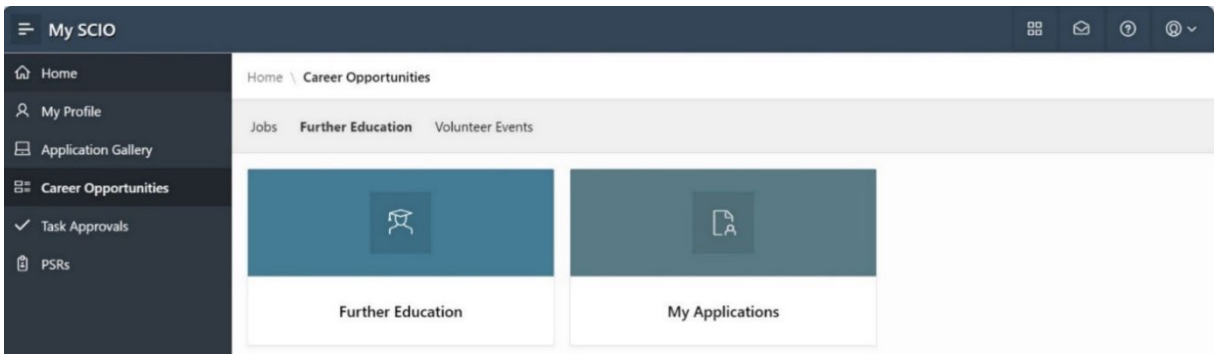
SCIO GUIDE TO APPLYING FOR ACADEMIC SCHOLARSHIPS

1. Logon to SCIO[1].

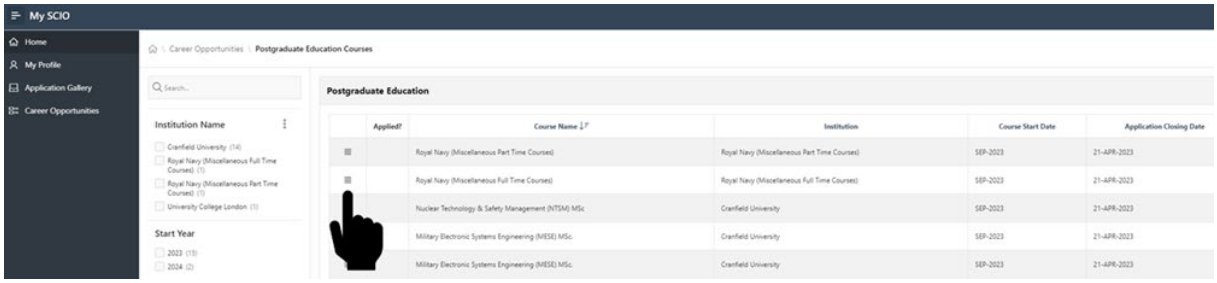
2. In the menu on the top left-hand side of the screen, click ‘Career Opportunities’.



3. There are three options n the second horizontal banner (‘Jobs’ is automatically selected). Click ‘Further Education’ in the banner then the ’Further Education’ box.



4. Filter by postgraduate or undergraduate courses using the menu on the left, then select your preferred course by clicking the hamburger menu. You will receive two options; ‘Course Details’ or ‘Apply’. Click ‘Course Details’ to ensure you have selected the correct course. Click ‘Apply’ to start your application.



5. If you are applying for a course that is not one of the taught programmes delivered by Cranfield, University College London, or UoL, select ‘Royal Navy (Miscellaneous Part Time Courses)’ or ‘Royal Navy (Miscellaneous Full Time Courses)[2]

[1] https://navyapps.jmt.cns.r.mil.uk/scio/f?p=444:1::::::
[2] Only applicable to FT postgraduate applications

6. If selecting ‘Miscellaneous Part Time/Full Time Course’ (as either a Foundation, Full Undergraduate, or Postgraduate Degree), you must submit the following information within the 'Justification' box, so that the ASB has all the information about your application:

a. The name of the course.

b. Qualification gained.

c. The name of the University/College.

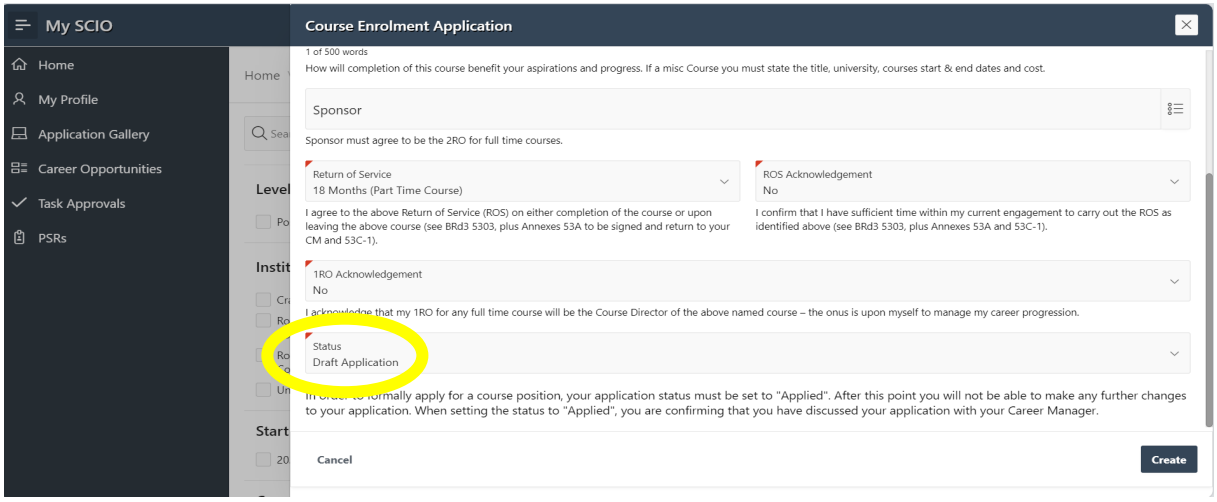
d. The course start date.

e. The length of the course being applied for.

f. The total cost of the course.

7. The application form includes the individual’s justification, as well as their CM’s statement. The ASB will be looking for applications that demonstrate best value for money, have a strong justification for the personal and professional benefits that the academic study will provide, and how completion of the course will fit into their career plans. Applicants are to indicate how their work will benefit the Service, as well as how they intend to feed research findings back into the RN. There is a limited budget, therefore funding is allocated to those with the most compelling justification.

8. Once applicants have completed the form, they **must change the status to ‘Applied’** in the drop-down menu[3] in order for their CM to access it. Applications can remain in draft form until the individual is content, but the status must be changed for the CM to complete their input[4].



9. Click ‘Create’ to save the application form. Note that the status can remain as ‘Draft Application’ when ‘Create’ is selected. To change the status, individuals will need to return to their application and change the status to ‘Applied’.

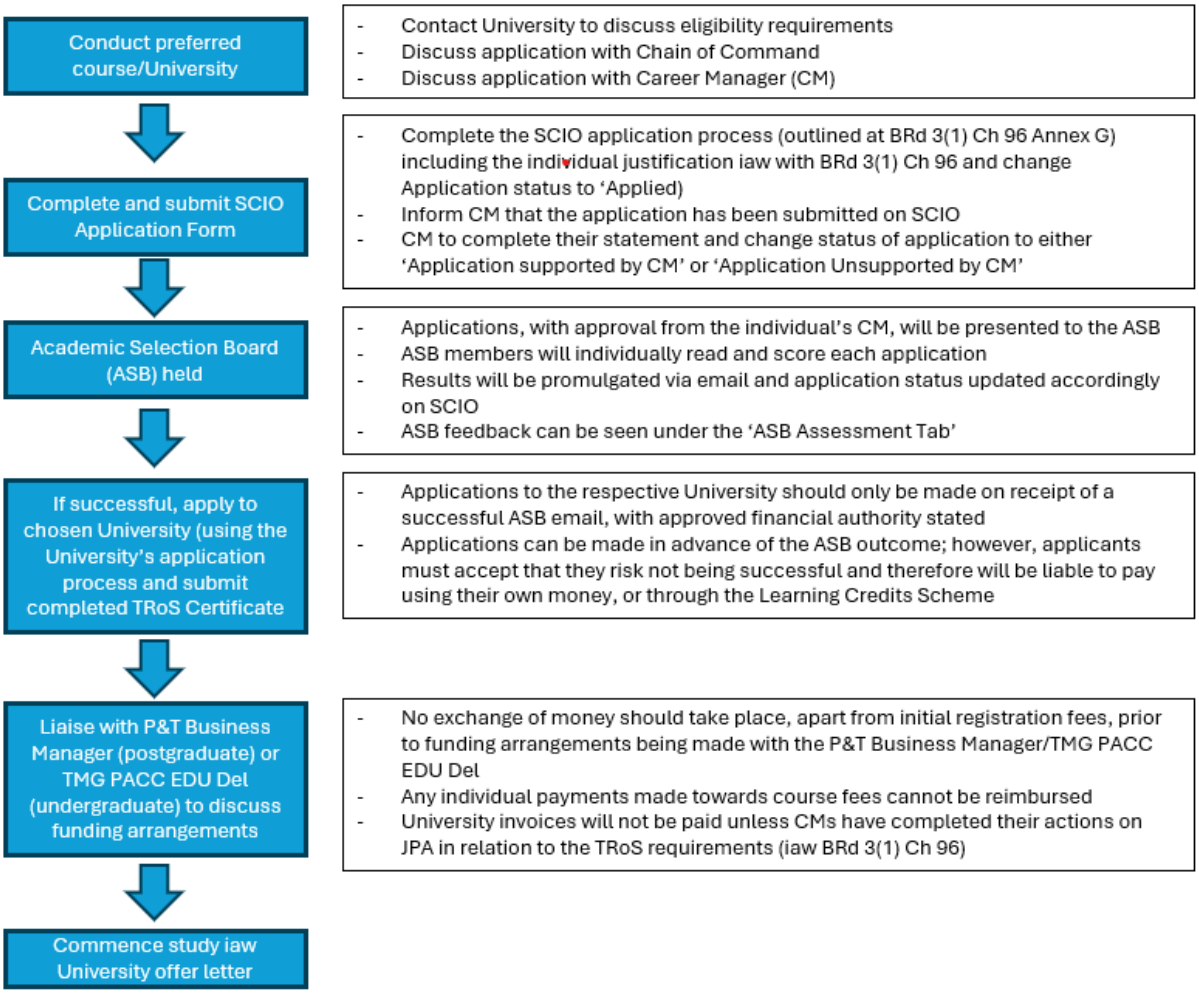
[3] ‘Draft Application’ is automatically selected upon starting the application.
[4] Applicants who do not amend their status to ‘Applied’ will prevent the CM from inputting their statement and therefore will not be presented to the ASB.

10. CMs **do not receive an automatic notification from SCIO;** it is incumbent upon the applicant to personally inform their CM that an application has been submitted. CM guidance can be found at Annex 96T.

ANNEX 96H

ACADEMIC SCHOLARSHIPS APPLICATION PROCESS

Figure 96H-1. Academic Scholarships Application Process



ANNEX 96I

FULL AND PART TIME POSTGRADUATE OPPORTUNITIES AT THE DEFENCE ACADEMY, DELIVERED BY CRANFIELD UNIVERSITY

Note. *The number of course places and dates listed below are correct for the year stated. These may change on an annual basis depending on the SOTR for that year. The number of places will be updated at the BR review points; however, enquiries can be directed to NAVY PEOPLE-PSP LD Pol ElectSO2 for up-to-date figures and information.*

1. The Defence Academy (DefAc) provides a range of full and part time Postgraduate degree courses through its academic partner, Cranfield University at Shrivenham. A summary of the courses available are in the table below. For full details of DefAc full and part time offerings please refer to the 'Course Prospectus' on the DefAc website[1].

2. For students on part time courses, agreement is required from employers for their release and T&S funding approval for all residential modules. Where employers decline T&S funding, students agree to self-fund residential accommodation and associated costs.

3. Part time MSc course dates are 1 Sep 25 – 31 Jul 28. Part time PgCert and PgDip course dates are 1 Sep 25 – 31 Jul 27. Full time course dates are listed under the course headings below.

Course	Number of RN Places TY25/26
Full time	
Cyber Defence Information and Assurance MSc and Cyberspace Operations MSc	2
Defence Simulation and Modelling MSc	1
Explosives Ordnance Engineering MSc	3
Guided Weapons Systems MSc	2
Information Capability Management MSc	1
Military Electronic Systems Engineering MSc	1
Aerospace Vehicle Design MSc	3 (AE)
No 55 AeroSystems Course	

Course	Number of RN Places TY25/26
Part time	
Cyber Defence Information & Assurance MSc	9
Defence Simulation & Modelling MSc	1
Explosives Ordnance Engineering MSc	1
Guided Weapons Systems MSc	1
Information Capability Management MSc	2
Military Aerospace & Airworthiness MSc	2
Military Electronic Systems Engineering (MESE)	1

[1] https://www.da.mod.uk/

4. Cyber Defence & Information Assurance (CDIA) MSc and Cyberspace Operations (CSO) MSc. Full time course duration - 11 months. Course start date: 1 Sep 25

a. The CDIA MSc is designed to develop professionals who can effectively manage and exploit the threats and opportunities of cyberspace at the organisational level with both a defensive and corporate focus. The CSO MSc is designed to develop professionals who will be able to think, plan and operate in the cyberspace environment. The CSO and CDIA MScs share core modules and are of similar construct. The modules are delivered through a blend of ten 5-day mandatory residential classes at the DefAc and two online learning modules, in addition to approximately 600 hours of self-study per year (12-15 hours per week private study). Candidates should not underestimate the amount of private study required.

b. The target audience is OR7 – OF4 and candidates should be in or expect to be appointed to a cyber-related position. The courses are aimed at developing leaders in cyber within the MOD; they are not technical courses. Candidates should expect to undertake a cyber related leadership role in the future, rather than a more technical appointment. Further information can be found on Cranfield's website[2].

c. Note that the difference between the CDIA MSc and CSO MSc is one module only. The CSO MSc has a secret module that is not included in the CDIA MSc. Therefore, applicants can apply to either the CDIA MSc or CSO MSc on SCIO.

5. Defence Simulation and Modelling (DSM) MSc. Full time course duration – 1 year. Course start date: 1 Sep 25

a. The DSM MSc is intended to develop professionals who understand the benefits and challenges of the technologies, methodologies, principles and terminology of Modelling and Simulation as used across Defence. The course focuses mainly on representation at the battlespace level and above and covers applications such as experimentation, training, education, testing, analysis and the assessment of military forces, systems, and equipment. It is designed to develop intelligent customers who can provide advice on the design, development, procurement, use and management of Defence models, simulations and Synthetic Environments in order to achieve improved capability in a cost-effective manner.

b. DSM MSc Students will need to attend for two consecutive weeks at the beginning of study. Students must complete a taught phase consisting of eight residential modules, plus four advanced (self-study mini project) modules, followed by an individual research project and a written dissertation/thesis on a relevant topic. Further details about the course can be found on Cranfield University's website[3].

[2] https://www.cranfield.ac.uk/courses/taught/cyber-defence-and-information-assurance and https://www.cranfield.ac.uk/courses/taught/cyberspace-operations.
[3] https://www.cranfield.ac.uk/courses/taught/defence-simulation-and-modelling.

6. Explosives Ordnance Engineering (EOE) MSc. Full time course duration – 11 months. Course start date: 1 Sep 25

a. The EOE MSc is designed to provide practitioners, teachers and researchers in the fields of explosives and EOE with the advanced academic background necessary for them to contribute effectively to any military or commercial project requiring their expertise. The taught phase of the course contributes 120 credits to the MSc award in the form of a mixture of compulsory and elective residential modules. Most modules are 5 working days long and worth 10 credits. The exception to this rule is: 'Munitions and Target Response' (10 working days) and 'Addressing EOE Capability Gaps and Futures' (20 credits each and run over two academic terms). After successfully completing these modules which is equivalent to a PGDip award, the final part of the MSc requires the completion of a thesis project.

b. Dependent on experience, students may also need to attend some elements of Introductory Studies running 1 - 12 Sep 25. A detailed Timetable for this module will be provided by the Student and Academic Support lead for the course nearer the start date. In addition, students will need to attend Introduction to Explosives Engineering (22 - 26 Sep 25 dates tbc) and Research Tools Part 1 and Part 2 (29 Sep – 3 Oct 25 dates tbc). Further details about the course can be found Further details about the course can be found on Cranfield University's website[4].

7. Guided Weapons Systems (GWS) MSc. Full time course duration – 11 months. Course start date: 1 Sep 25

a. The GWS MSc is designed to educate students in the principles of guided weapons technology. It is suited for those who will be involved in defence intelligence and capability acquisition functions; whom may be involved the specification and analysis of such systems. The GWS MSc is a technical degree and assumes a level of knowledge of mathematics and science commensurate with an undergraduate science degree. The course will develop students' technical knowledge of all the component parts of guided weapon systems. It also enables students to carry out an in-depth investigation (part of their thesis requirement) into an area of GW technology to further enhance their analytical capability.

b. It is of primary benefit to services personnel who are about to be posted into GW-related positions with organisations such as DI, DSTL and DE&S (and their international equivalents). The taught phase of the course consists of twelve 5-day residential modules. After successfully completing the 12 modules, the final part of the MSc requires the completion of an 80-credit thesis project. Most candidates will be technical officers and scientists in government defence establishments, OR7 – OF4 officers and SNCOs with appropriate educational background and experience. Further details about the course can be found on Cranfield University's website[5].

[4] https://www.cranfield.ac.uk/courses/taught/explosives-ordnance-engineering
[5] https://www.cranfield.ac.uk/courses/taught/guided-weapon-systems.

8. Information Capability Management (ICM) MSc. Full time course duration – 11 months. Course start date: 1 Sep 25

a. Successive defence reviews, including the 2021 Integrated Review, have identified the need to deliver strategic advantage across all domains through the delivery and exploitation of information using joined-up systems of people, processes, and technology. Consequently, there is an increasing need for personnel with the appropriate skills and understanding of the principles, practices, methods and tools required to enable this advantage to be realised. The ICM MSc has been developed to meet this requirement, providing students with postgraduate level education in the principles and practices that underlie the delivery of effective, efficient, sustainable, and secure information systems and digital services across business and the battle space. The modules span areas such as Digital Business Strategy; Programme & Project Management; Cyber Security & Information Assurance; Software Engineering; Systems Architecture; Emerging Technology Monitoring; Systems Thinking; Data Modelling, Storage & Management; Data led Decision Support & AI; Methods and Tools, and Professional Issues.

b. The course is accredited by two professional bodies, representing IT professionals and Information professionals, these are The British Computer Society (BCS), and the Chartered Institute of Library and Information Professionals (CILIP).

c. The taught phase of the course consists of ten 5-day residential modules delivered at Shrivenham (which also include directed pre-module reading) and two distance learning modules. After successfully completing 12 taught modules, the final part of the MSc requires the completion of a thesis allowing the student to demonstrate their ability to make use of the knowledge gained during the course in a real-world situation aimed at delivering strategic benefit. The course is also offered as a PgDip and a PgCert, and individual modules are available as Short Courses for Credit for those operating in specialist areas.

d. Students must be in an appointment that will permit both release to the residential phases, and the completion of the distance learning modules and thesis. The course is aimed at upskilling those entering appointments that will influence future acquisition and policy in the Digital Domain. Open to senior OF2 – OF4. Other ranks will be considered by exception. Further details about the course can be found on Cranfield University's website[6].

[6] https://www.cranfield.ac.uk/courses/taught/information-capability-management

9. Military Electronic Systems Engineering (MESE) MSc. Full time course duration – 11 months. Course start date: 1 Sep 25

The MESE MSc is designed to provide education and training in electronic military systems and electronic warfare. It is suited for those who will be involved in the specification, analysis, development, technical management, or operation of military electronic systems. It covers military RADAR, electro optics, communications, and information systems emphasising the technology used in sub-system and systems. The taught phase of the course consists of twelve 5-day residential modules delivered over 2 years. After successfully completing 12 taught modules, the final part of the MSc requires the completion of an 80-credit thesis project. Most candidates will be technical officers in government defence establishments, OR7 – OF4 officers and SNCOs with appropriate educational background and experience and scientists. Further details about the course can be found on Cranfield University's website[7].

10. Aerospace Vehicle Design (AVD) MSc. Full time only

a. This MSc course provides a taught engineering programme with a focus on the technical, business and management aspects that encompass aircraft design in the civil and military aerospace sectors. Teaching integrates a range of disciplines required for modern aircraft design, for example: Aircraft systems design; Avionic systems design; Design for manufacture; Initial aircraft design; Operation and cost; Propulsion integration; Stability and performance; Structural design and airframe.

b. The AVD MSc is for AE Officers only and is tagged as a pre-requisite to specific RN role only. It is taught on a full-time basis for one academic year at the Cranfield University campus. For more information see the AVD MSc Cranfield website[8].

c. This course is paid for out of Dir P&Ts postgraduate fund and is not centrally funded by the MOD/Cranfield University Academic Partner contract.

11. No 55 AeroSystems Course. Course duration – 11 months. Course start date: 1 Sep 25

a. The AeroSystems Course is a postgraduate-level degree programme in AeroSystems and is designed to provide specialist education for personnel of the three Services, Civil Service, and international military personnel. Course duration is 46-weeks full-time which enhances knowledge and expertise in the realm of electronic warfare, aero-engineering, mission integration and role specific themes with the goal of training MAA approved test and evaluation qualified personnel and capability acquisition managers (QAS – Qualified AeroSystems).

[7] https://www.cranfield.ac.uk/courses/taught/military-electronic-systems-engineering.
[8] https://www.cranfield.ac.uk/Courses/Taught/Aerospace-Vehicle-Design?gad_source=1&gad_campaignid=22024783634&gbraid=0AAAAA-LoCDeVIWCSNFISqgzS8NKWRSJCK&gclid=EAIaIQobChMItYmunqGRjgMV2IRQBh2hAjI_EAAYASAAEgJO4PD_BwE

b. The AeroSystems course is multidisciplinary, covering the areas of uninhabited aircraft systems, guided weapons, electro-optics, communications, radar, electronic warfare, and information networks. The course covers the key concepts, fundamental principles, Space, test and evaluation, considerations of design, and critical thinking. The course includes the Cranfield Masters of AeroSystems (MSc), Air and Space Warfare Centre Intermediate Space Operations course, and Empire Test Pilots School Evaluator Aircrew course.

c. Graduates of the course can expect to be posted to appointments in Test and Evaluation, Requirements and Capability Management, Defence Equipment and Support (DE&S), research posts (including DSTL), and ASWC posts relating to Mission Support.

d. There are a finite number of funded places available, and applications are boarded and selected by the Air and Space Warfare Centre. UK military personnel should be Officers, WOs or SNCOs and have at least 3 years to serve or be prepared to extend as the course attracts an RoS commitment. The applicant's academic background will dictate the academic administrative enrolment process, to align with the University's academic entry standards.

e. Pre-sessional studies and a Research Workshop will take place in Aug 25 (date TBC). .DIN 2024DIN07-090 Aerospace Course Applicants provides more detail. The application closing date is 17 Mar 25. Queries should be directed to the AeroSystems Course Manager (aswc-aerosystems@mod.gov.uk).

ANNEX 96J

P&T POSTGRADUATE SCHOLARSHIPS

1. Full Time Masters Scholarships

P&T will fund **up to three** places per annum on other, full-time, Masters level courses of one academic years' duration at a mutually agreed University - harmony may be considered as a reason for choice. Courses can be on any subject (e.g. Maritime Management, HR/Leadership and Management, Strategic Studies, Intelligence and Terrorism Studies, etc), but applicants must provide compelling reasons when applying. Support from CM must be sought from outset.

2. Full Time Marine Engineering MSc

P&T will fund **up to two** places per annum on the full-time Marine Engineering MSc at University College, London (UCL). The aim of the course is to prepare Marine Engineer OF2 (and occasionally OF3) for immediate and longer-term career field employment in Capability and Acquisition by exposing them to the academic aspects of the design, analysis and operation of machinery and systems for warships, submarines, and auxiliary vessels. The programme covers a wide range of engineering subjects relevant to the development and procurement of marine engineering. The programme features two parallel streams: mechanical and electrical. Further details about the course can be found on the UCL website[1]. Support from CM must be sought from the outset.

3. Part Time/Distance Learning Postgraduate Scholarships

An increasing number of universities offer e-based distance learning courses at Master's level, where minimal (if any) attendance is required. P&T will fund approximately **20 new candidates** per annum seeking a complete Master's level qualification (and not just modules). The onus will be on the individual to demonstrate sufficient personal intellectual stamina and lifestyle capacity (including career plans) to complete the course.

4. Further advice on courses and universities can be sought from your local LDO Hub in advance of applications being made. It is important to note that all course fee payments (for those selected) must be made by the RN directly to the university, individuals **must not** make payments themselves as these will not be reimbursed. The financial arrangements will be managed by (NAVY PEOPLE-TRG-HQ N8 SO1).

5. Part Time Doctorate Scholarships

P&T will fund **up to two** applications for part-time Doctorates per annum for up to five years each in areas of mutually agreed research. These includes both academically focussed, traditional PhDs and the shorter professional doctorates that build on life experience. Candidates should already have demonstrated their suitability for study at this highest of levels through a proven academic record at postgraduate level and may need to undertake a research techniques module. An example of the type of research that could be undertaken is Cranfield University are currently searching for potential military candidates to undertake two research opportunities in Underwater Warfare. For more information regarding this opportunity please contact Dr Temple – t.temple@cranfield.ac.uk).

[1] https://www.ucl.ac.uk/prospective-students/graduate/taught-degrees/marine-engineering-mechanical-electrical-msc.

6. Wilkie Calvert co-supported PHd Studentship at Reading University

This scheme run by the University of Reading is aimed to build research focused partnerships with selected employers, and to support the career development of their talented individuals. Through the scheme, the University and employers will co-support early to mid-career professionals who are keen to develop their career by studying for and gaining a PhD whilst conducting research on a topic that is relevant to their organisation. For those selected Reading will provide funding to cover the cost of fees for part-time study for up to six years. Employers are expected to provide support in some tangible way such as time for study and access to facilities. For further details please contact the ASB Sec. Further information can be found on the Reading University website[2].

ANNEX 96L

INSTRUCTIONS FOR THE MANAGEMENT AND INVIGILATION OF EXAMINATIONS

1. Introduction

The following generic instructions detail the processes to be followed by Commanding Officers (COs) and those Supervisors or Invigilators[1] for academic examinations, which include GCSEs and Functional Skills. Those nominated to invigilate examinations must also fully adhere to the instructions supplied by the Awarding Body for the specific examination; those instructions take precedence over the instructions detailed below. For examinations centrally funded through the Defence Examinations Centre, applicable instructions must be followed by Exams Officers. For the Functional Skills (FS), British Computer Society (BCS) qualifications and other recognised qualifications delivered in the L&D Hubs and onboard ship, SOP Q3, published on the LDO SharePoint site must be followed[2].

2. Instructions for Commanding Officers and Authorised Team Fisher Employees

a. It is the responsibility of the CO to see that examinations are held on the occasions required. The CO is responsible for the safe custody of examination papers, which are to be locked away on receipt and not handed to the Supervisor until the day of the examination.

b. Examinations are to be held on the date and at the time specified, although it is recognised that operational requirements are paramount. Should COs of operational units wish to change either the date or time of an examination, then prior permission must be sought from the Examining Authority in question. The risk of compromising the examination is to be minimised.

c. The CO is to ensure that the individual selected to act as the Supervisor/Invigilator Officer meets the criteria below and fully understands the responsibility of the role.

3. Instructions for Supervisors

a. Each examination held in a Unit or establishment is to be supervised by an officer not below the rank of Warrant Officer or, exceptionally, by other Senior Rates when specifically authorised by the CO to do so. The Supervisor is responsible for the proper conduct of the examination. The Supervisor is to be present throughout the examination. Where the Supervisor is not the Invigilator, then they are to be present at the beginning and at the finish of each paper.

b. The Supervisor is to arrange the space allocated for any examination such that candidates can be seated at a satisfactory distance apart (minimum 1.25 metres) and can be properly invigilated.

---

[1] For example, authorised Team Fisher employees.
[2] https://modgovuk.sharepoint.com/teams/55461/DeliverELearning/Forms/AllItems.aspx?id=%2Fteams%2F55461%2FDeliverELearning%2FStaff Guidance%2F20200807-SOPQ3v9.pdf&parent=%2Fteams%2F55461%2FDeliverELearning%2FStaff Guidance

4. Instructions for Invigilators

a. Supervisors may call upon Invigilators to assist them. Invigilators are not to be below the rank of Warrant Officer, although COs may, exceptionally, specifically authorise other SRs to perform these duties. Invigilators are to be fully briefed before an examination about their duties, which are summarised as follows:

b. Under no circumstances during an examination are Invigilators to take any action which:

(1) Could distract or divert their attention as invigilators.

(2) Could cause a distraction for the candidates.

(3) Causes them to leave the examination room/compartment.

(4) Could create an opportunity for candidates to cheat.

c. A seating plan showing the names of candidates is to be produced by the Supervising Officer. This plan is to be retained by the UEO/ERO/Team Fisher for a period of six months after the date of the examination.

d. At least one Invigilator is always to be present in the examination room. If the number of candidates for an examination exceeds 30, a second Invigilator is to be appointed and situated at the back of the examination room. Where any room has only one Invigilator, another Invigilator should be on standby.

e. The sealed envelopes containing the question papers are to be opened only by the Supervisor, at the time of the examination and in the presence of the candidates.

f. Candidates are not allowed to bring into the examination room any books, notes or personal belongings which may prejudice the conduct of the examination, including any digital watches or personal devices which may connect to the internet, unless specifically authorised to do so in the instructions for the examination in question. All wall posters etc. or other matter in the room which could be of any help to candidates must be removed before the examination commences.

g. Candidates are to provide pens, pencils, rubbers and mathematical instruments as appropriate. They are required to write their answers in black ink only.

h. Where possible, candidates from the same ship, and candidates who have been working together in courses leading up to the examination, should be separated by random seating arrangements.

i. No candidate may enter the examination room once 30 minutes have elapsed from the beginning of an examination.

j. No candidate may leave the examination room within the first 30 minutes of an examination. Any candidate that leaves the examination room must then be supervised until the exam is completed by the other candidates.

k. A candidate who leaves the examination room intending to return is to be accompanied by an Invigilator throughout their absence from the room.

l. Candidates found giving or receiving assistance are to be dismissed from the examination room and reported to the CO of the ship or establishment in which the examination is taking place.

m. All examination material, including answer books, rough working sheets etc. and question papers are to be collected before candidates leave their desks. Specific examination instructions as stipulated by the examining authority are also to be followed. It is the responsibility of the invigilator to remind all candidates that they must not discuss the contents of any Functional Skills exam once they have completed it.

n. Scripts must be sent onwards using a traceable postal service or tracked email, such as Royal Mail ‘Signed For’ delivery. Authorised Examinations Officers are to ensure that receipt of postage is retained until arrival of candidates’ certificates.

ANNEX 96M

DUTIES OF THE EDUCATION AND RESETTLEMENT OFFICER

1. The purpose of the Royal Navy Learning and Development Organisation (LDO) is: “to support 2SL, Dir P&T and Commanding Officers to develop the intellectual potential of their people to maximise Operational Capability (OC) and ultimately prepare them for return to the national workforce”. The Education and Resettlement Officer’s primary role is to provide information and support to facilitate personal and professional development to the Unit.

2. The specific education duties include:

a. Liaising with the LDO (Ops) Officer assigned to the Unit for all L&D queries and for relevant information.

b. Maintaining the PFS requirement of access to an educational professional by arranging LDO (Ops) visits at least once in every 18 month period: alongside before deployment, during deployments and when in long refit.

c. Receiving the Education and Resettlement Officer Brief within two months of assuming the role.

d. Arranging deployed visits by LDO (Ops) and acting as host during that visit.

e. Maintaining an Education for Promotion (EFP) record based upon JPA-extracted data (provided by LDO (Ops)), and liaising with Divisional Staff to ensure personnel are aware of EFP requirements.

f. Liaising with LDO (Ops) NAVY PEOPLE-TMG LDO Ops Help (MULTIUSER) and NAVY PEOPLE-TMG PACC EFP MAILBOX (MULTIUSER) to ensure accurate recording of EFP qualifications and Upper Yardman/Senior Upper Yardman competences.

g. Supervising and maintaining the Ship’s Library and the Ship’s Core Professional Academic Library (SCPAL).

h. Providing information on Service Academic Qualifications:

(1) EFP maths and English.

(a) Act as or nominate a unit Functional Skills mentor.

(b) Refer learner to English and mathematics Tutor or LDO (Ops).

(c) Advise on EFP examinations and reporting procedures.

(2) University Short Course Programme.

(3) Route to Honours for Officers.

(4) Sponsored Post-Graduate Study opportunities.

i. Providing access to non-Service academic qualifications:

(1) GCSEs and A Levels:

(a) Advise on provision by distance learning providers.

(b) Act as Exams Officer for Unit through Defence Examinations Centre (DEC).

(c) Ensure that candidates have sufficient chance of passing the examination to justify the spending of Service funds.

(d) Arrange tuition onboard or at Learning and Development Hubs.

(e) Act as Invigilator, or delegate appropriately.

(2) Degree or other academic examinations:
Liaise with LDO and appropriate bodies to provide access to non-DEC examinations should they be requested by learners.

j. Providing advice on Educational allowances:

(1) Standard Learning Credits (SLCs):

Act as signatory for SLC Claims and maintain records.

(2) Enhanced Learning Credits (ELCs):

Refer ELC claims to LDO (Ops) or local L&D Hub.

k. Supervising Part Time Service Instructors (PTSI), ensuring provision is in accordance with BRd 3(1) Chapter 96 and JSP 752.

l. Directing personnel to Regional L&D Hubs for advice on Neurodiversity and Specific Learning Differences (SpLD).

m. Maintaining relevant Temporary Memoranda, noticeboards and personal development areas on the shared computer drives pertaining to Learning and Development, including (but not limited to) information on:

(1) Elective Education.

(2) Language learning and testing.

(3) Royal Navy Through Life Education Pathway (Ratings) and Officers Through Life Development Pathway.

(4) Royal Marine Officer Career Development Programme.

3. Specific resettlement duties include:

a. Directing Service Leavers to the local L&D Hub Service Resettlement Advisers (SRA) or Learning and Development Advisers (LDA) for mandatory resettlement interview.

b. Advising personnel on core resettlement entitlement:

(1) Advise on GRT.

(2) Advise on IRTC.

(3) Advise on support available from NAVY PEOPLE-PSP LearnDev Reset.

(4) Advise on support available from the Career Transition Partnership (CTP).

ANNEX 96P

ENGLISH AND MATHEMATICS - QUALIFICATIONS, LEVELS AND PROXY QUALIFICATIONS

Table 96P-1. Certificates in Adult English and Mathematics Qualification Levels

Adult English and Mathematics Level	National Curriculum Equivalence
Level 2	GCSE 9-4/A* - C[1]
Level 1	GCSE 3-1/D - G
Entry Level 3	Entry levels are intended specifically for adults with limited Basic Skills to enable them to return to learning. Consequently, they do not have qualification equivalents.
Entry Level 2	
Entry Level 1	

1. Functional Skills (FS) sit at either Level 1 or 2 on the National Qualifying Framework NQF).

a. Functional Skills Level 2 in English and Mathematics cannot be used in lieu of a GCSE A*-C/9-4 for QEUY/SUY.

b. A proxy qualification is a recognised substitute qualification. An equivalent qualification is one has the same recognised attainment standards but may vary significantly in the breadth of curriculum covered. For example, a Cert in Adult English at Level 2 could be compared to a module that forms part of a GCSE. Both the certificate and full GCSE are at the same level, but the Certificate only covers one part of the full GCSE syllabus. The awards are equivalent, and a GCSE grade 9-4/A*-C is a recognised proxy for the Level 2 certificate, but not vice-versa.

2. MOD Approved Proxy Qualifications For Functional Skills Qualifications

Where an FS is required to meet a statutory requirement e.g. for completion of an Apprenticeship, only FS are acceptable; HM Government has directed that there are to be no proxy qualifications for FS. MOD, however, is free to determine its own range of proxies for FS. Tables 96P-2 and 96P-3 outline UK qualifications that are acceptable to the Royal Navy as proxies to the Level 1 and 2 Functional Skills Qualifications.

3. The lists of proxy qualifications are not exhaustive, and confirmation of proxy qualifications or education equivalencies can be sought from NAVYPEOPLE-TMGPACCEFPMAILBOX@mod.gov.uk. If required, additional advice will be sought from the apprenticeship teams iaw with Apprenticeship Standards. Non-British, commonwealth & foreign international qualifications will be evaluated by the TMG PACC Team.

[1] From Summer 2017 the GCSE grading system was progressively reformed, English and Mathematics GCSEs being the first to be changed; grades 9 - 4 equate to A* - C, grades 3 - 1 equate to D - G.

ANNEX 96Q

EDUCATION CONCESSIONS TO ENTITLED PERSONNEL OVERSEAS

1. Entitled Personnel

Service dependants and UK-based Service Department civilians and their dependants are entitled to join part-time education classes provided for Service personnel and will count towards the minimum number of six needed to set up a class (i.e. a mixed Service/Civilian class).

2. Classes

Classes may be established for entitled civilians in the absence of any initial demand from Service personnel, subject to the following requirements:

a. A prior application must be made in each case to LDO Hubs where new classes are set up as a direct result of this concession.

b. Part-time classes set up as a result of this regulation should take place in existing educational premises (including Service children's schools), or in other suitable Service accommodation which may be available without incurring additional expense to public funds.

c. Expenditure from public funds is permissible for incidental expenses, such as lighting, heating, and cleaning, arising from this concession, and for also for additional equipment, provided expenditure on this item is of a minor nature.

d. Local instructors must be used.

e. All classes must be equally available to Service personnel of all Services and their dependants and to UK-based Service Department civilians and their dependants.

f. Applications to establish a class should not be made unless minimum numbers are at least six and are likely to remain at or above that level for at least one term. The class is to be discontinued if numbers fall permanently below three.

g. Course fees should not be charged to students who attend courses run through the Part Time Service Instructor scheme. However, a small charge may be levied if there is a need to provide specialist materials for the course.

h. Textbooks, stationery and material for civilian students will not be supplied at public expense, except where textbooks are available from Service libraries.

i. When classes close after having run for more than three consecutive meetings, the current term's fee will be charged, but any fees paid to cover consequent terms will be refunded. Where classes close after not more than three consecutive meetings, tuition fees should be refunded in full, but not the cost of textbooks, stationery or materials.

j. The following qualifications must be met to employ an individual as a part time teacher:

(1) **A Level Qualifications and Equivalent.** Applicants should be a qualified teacher, and have an honours degree in the subject, or one closely related to the one they wish to teach.

(2) **GCSE Qualification and Equivalent.** Applicants should have a minimum of an A level in the subject and preferably experience of teaching at a similar level.

3. Vocational/Recreational

Applicants should provide an outline of the intended course prior to commencement, unless a syllabus exists e.g. from bodies such as City and Guilds.

4. Hourly rates of pay for Part Time Service Instructors (PTSIs) are detailed in BRd 3(1) Chapter 96 and in the tri-Service Regulations for Allowances JSP 752.

ANNEX 96R

APPLICATION FOR CITY AND GUILDS PROFESSIONAL RECOGNITION AWARD – ROYAL NAVY AND ROYAL MARINES

Section 1 – to be completed by the applicant

I wish to apply for the Award as follows:

Level of Award:	

Please complete your details below in BLOCK CAPITALS – the name you provide will appear on your certificates.

Surname:	Forename(s):
Date of Birth:	Tx Date (if you have left the RN/RM*):
Rank:	Service Number:
Service (RN/RM):	Substantive Rank Date:
Contact Tel No:	Email:
Address the certificates are to be sent to:	
Signature**:	

* Applications can only be accepted up to two years after discharge and must be accompanied by a copy of your discharge documents.

** Electronic signatures are accepted.

This form **must** be accompanied with:

- Confirmation of Payment email sent to you by DBS.
- A short CV (Service details will be verified from official sources)

- Proof of your substantive rank and seniority date (e.g. JPA personal/service details summary).
- For service leavers only, a copy of your discharge documentation.

Application forms will be returned if any of the above is missing. Ensure all signatures are provided. Note that Learning Credits may not be used to fund a Professional Recognition Award.

APPLICANT'S DECLARATION

I hereby apply for a City and Guilds Professional Recognition Award. I certify that all information provided in support of this application is authentic and accurate.

Applicants Signature:	Date:

Section 2 – to be completed by the applicant's current unit (or previous unit if a service leaver) by serving personnel of OF3 or above (OF4 or above for Membership/Level 7 PRA).

I certify that the above-named individual is eligible to apply for a Professional Recognition Award as indicated, and is aware that SLC may not be used to fund this application.

Name:	
Rank:	
Role:	
Unit:	
Email address:	
Telephone:	
Signature of certifying Officer:	

When completed, this form should be emailed to PRA Support Administrator (NAVY PEOPLE-TMG PACC EDU Del) with all accompanying documentation.

ANNEX 96S

PAYMENT PROCEDURE FOR CITY AND GUILDS PROFESSIONAL RECOGNITION AWARD – ROYAL NAVY AND ROYAL MARINES

1. Payments are to be made through https://www.gov.uk/payments/mod-dbs-fps/mod-invoice-payment.

2. When prompted to enter an invoice number, type in C&G, immediately followed by your service number (e.g., C&G30001234). You will then be asked to submit payment amount, followed by payment details. Once this has been done, you will receive a confirmation message, and an email will be sent to your account.

3. Following successful payment, personnel are to email the PRA Support Administrator, with the following details:

a. Copy of the confirmation of payment email from Defence Business Services (DBS).

b. A short CV outlining relevant experience, responsibilities, training & education.

c. Proof of your substantive rank and seniority date (e.g. JPA personal/service details summary).

d. For service leavers only, a copy of your discharge documentation.

4. Claim Processing. Applications will be processed by the 15th of the month. Prices increase on 1 Sep each year, therefore anyone applying after 15 Aug will be required to pay the revised price. If you have not received confirmation of your PRA within 8 weeks of submitting your application, please contact the PRA Support Administrator Email: NAVY PEOPLE-TMG PACC EDU Del.

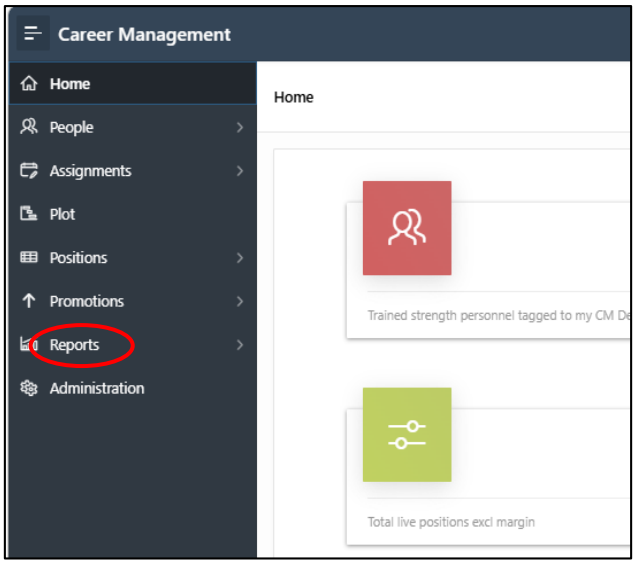
ANNEX 96T

CM SCIO GUIDANCE FOR ACADEMIC SCHOLARSHIP APPLICATIONS

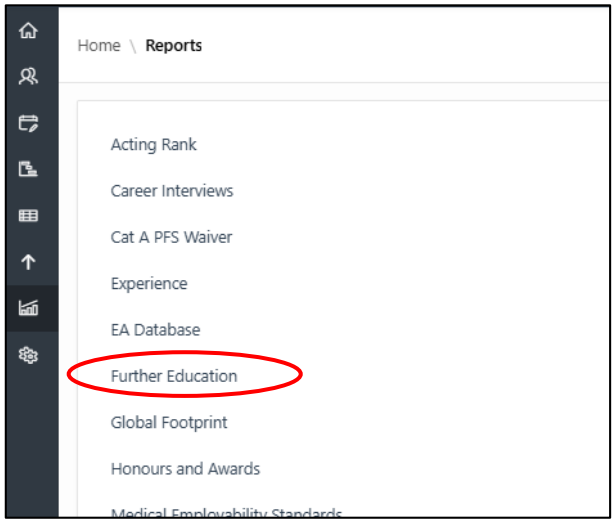
1. CMs do not get a notification from SCIO when a candidate applies for P&T sponsored study; individuals will need to inform you that they have completed their application and changed the status to 'Applied'.

2. Log on to SCIO.

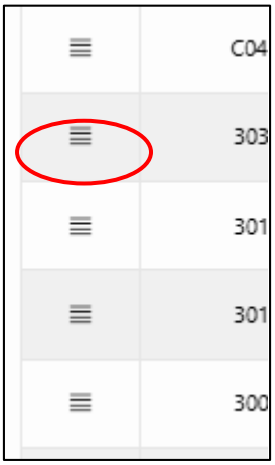
3. Click on word 'Reports' (do not click arrow).



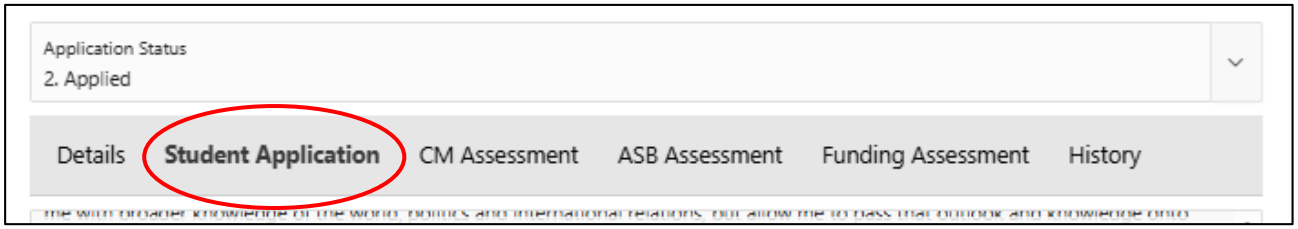
4. Click on 'Further Education'.



5. Click on the lines next to a candidate to open their application.



6. CMs are to review the student application by clicking on the Student Application Tab.



a. CMs are to look at the Justification paragraph to confirm:

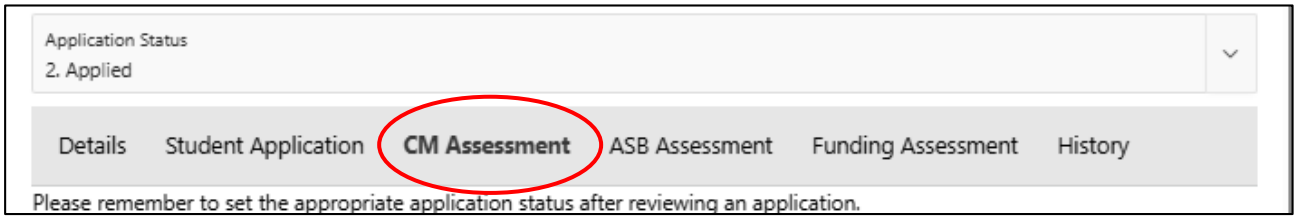
(1) The student has the previous experience and evidence of academic acumen, suitable drive, and capacity to complete the course.

(2) The application supports a service need as well as support the individuals' personal development aspirations.

(3) Are to note the Return of Service and confirm that they student has enough time until TX to complete their studies and RoS.

(4) The applicant has a Sponsor who has supported their application.

6. When content with the justification, click on the 'CM Assessment' tab.



a. Answer all the drop-down menu questions

b. Provide a short but compelling Future Career Benefit narrative.

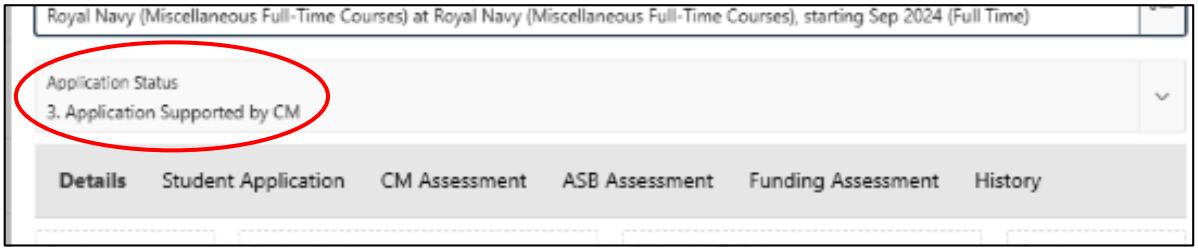
c. As detailed in BRd 3(1) CMs are to provide an assessment including a career plan for the individual which utilises the academic skills gained through the funded qualification.

BRd 3(1), Chap 96, para 9608 (5). *The CM's statement must include a viable plan(s) of how the CM intends to employ the individual on completion of their academic study to ensure there is always a benefit to the Service (beyond the associated Return of Service). Whilst investment in personal development through academic scholarships is retention positive, Defence should be seen to benefit positively from the wealth of skills and academic knowledge that individuals acquire during their studies through appropriate employment plans. If a CM cannot make a clear case that the Service will benefit from an individual undertaking additional academic study, then the application will be rejected by the ASB. Applications cannot be finalised on SCIO without the CM's comments. Applications will only be presented to the ASB if the CM supports the individual's application.*

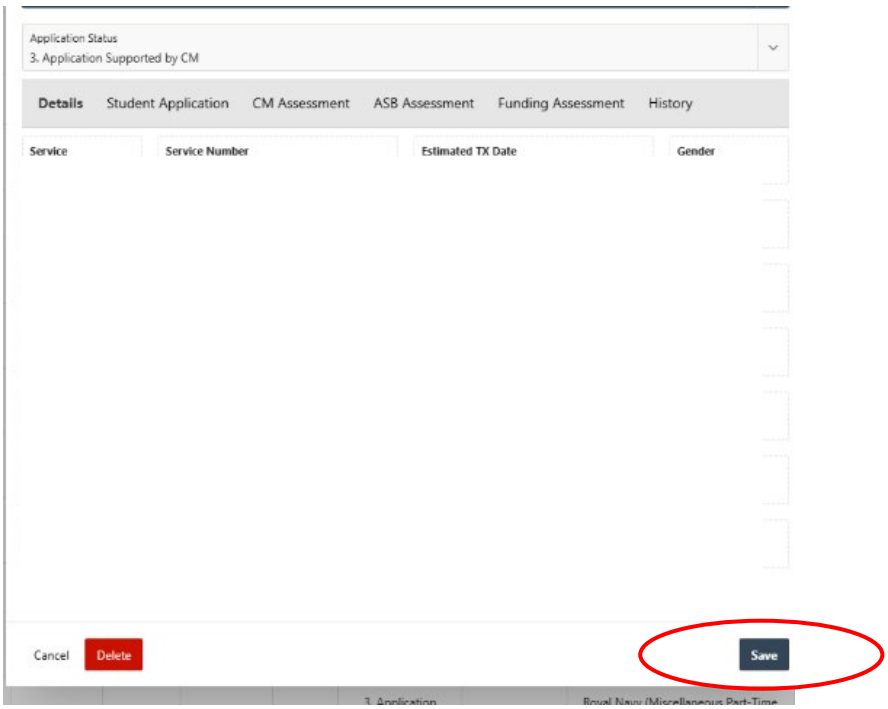
7. CMs **must** change Application Status from Applied to either:

a. Application Supported by CM

b. Application Unsupported by CM



8. Save application.



ANNEX 96U

APPLICATION FOR THE US NATIONAL RESOURCE STRATEGY MASTERS PROGRAMME

1. Completed applications are to be sent to NAVY PEOPLE-CM OF LOGS BAR SO1, NLT 01 Oct

Service No:	**Rank:**	**Name:**
Service:	**Branch/Specialisation:**	
DOB:	**Current Appointment and Full Work Address:**	
Contact Telephone No:	**Email Address:**	

Academic and Staff Training History:
(including all academic qualifications and those for which study is ongoing and all notable Service courses attended)

Subject	**Qualification** (including grade if applicable)	**Year**

Applicant's Reasons for Applying for Eisenhower School (max 500 words)**:**

Applicant Statement:
I am aware that:

a. For military officers the course attracts a Training Return of Service of 30 months.

b. Civil servants may be responsible for repaying the costs of the course should they withdraw, resign or fail to complete the course without the agreement of the course sponsor. If/when civilian applicants are offered a confirmed place on the course they will be provided with appropriate forms by DES or Civil Service POCs.

Date:	**Signature:**

Line Manager's Supporting Statement[1] (Max 250 words)**:**

LM Name:	**Appointment:**
LM Rank:	

[1] Line Managers should comment on the individuals professional experience and personal suitability to conduct a staff course overseas, both as a student but also the singleton UK representative and informal educator to US and international peers.

2. Applications are invited **no later than 1 Oct** of the year before the course start date. Applications, after discussions with individuals OF4 or OF5 Career Managers, should be forwarded to the relevant single service POC[2]. For military personnel this opportunity is a Tri-Service competition, with those applying requiring experience of or potential for Joint Service appointments and likely to have a Career Field history of Operations Support, Management of Defence or Capability, Acquisition or Project Delivery.

3. Application and career management timings for Academic Year 2027.

NLT 1 Oct 26	Individuals submit application to appropriate Single Service / Civil Service POC
NLT 1 Nov 26	Following respective Single Service/ Civil Service selection processes and initial suitability checks, POCs forward maximum of two recommended candidate's applications to DIN sponsor. A covering email must amplify individual career utilisation options after Eisenhower School. Unsuccessful applicants notified.
NLT 1 Dec 26	CDLS chaired Selection Board selects a candidate and a reserve. Unsuccessful applicants notified.
NLT six months before IF Preparatory Course start date	Single-Service Career Managers issue Assignment Order and individual can engage formally with BDSUS and US Office of Defence Cooperation to commence administrative processes.
Two weeks before IF Preparatory Course start date	Eisenhower School attendee arrives in Washington DC

4. Potential candidates are advised to submit convincingly articulated applications early and ensure that the supporting justification by line managers is robust enough for 3* scrutiny. The quality and strength of application will be an important determining factor, as the senior selection board will not have access to Service Records. Selection weighting will apply to those applicants with identified beneficial follow-on assignment options. It is important that individuals have the ability and willingness for the academic rigour of post-graduate study and the knowledge to advise US peers on UK defence organisation, policy and processes.

5. Applications from current and/ or ex-students who for Service and/ or other commitments have not been able complete their studies on any previous legacy Defence Logistics Staff Course programme are eligible. Such applications should include a statement on the reasons for not being able to complete the previous academic course.

[2] For RN personnel NAVY PEOPLE-CM OF LOGS BAR SO1; Civil Service personnel to UKStratCom-DefSp-People-DHd

CHAPTER 97

SECTION 1

ROYAL NAVY OFFICER PROFESSIONAL MILITARY EDUCATION

9701. Introduction

a. This section is to inform RN Officers, and where relevant RM Officers, and their chain of command about the requirements and opportunities of Professional Military Education. It has recently been moved from BRd 8374 and is due to be fully reviewed and updated for the next edition of BRd 3(1).

9702. RN Intermediate Command and Staff Course (Maritime) (ICSC(M))

a. The RN ICSC(M) is a single Service staff course aimed to equip officers for the full range of junior staff and command assignments and to evaluate their potential for further staff training. There are five courses each year, each lasting eight weeks. Typically, some 30-40 students attend each course. Career Managers select students to attend at a time best suited to their individual careers, specialist training and employment. Most students will have spent some eight to ten years in the service, but age and seniority ranges can vary.

b. The ICSC(M) syllabus includes staff skills, knowledge of the UK Armed Forces and defence studies. The course is structured to provide a useful lead into the ACSC. Reports of a student's performance on the course include a graded recommendation for a staff assignment, an assessment of the student's potential for further staff training and of their performance in relation to that of other course members. If an officer's overall assessment is unsatisfactory, they may not be credited with an ISC qualification.

c. RM officers may attend the ICSC(M) but normally they will attend the Army Junior Division Staff Course (JDSC) which is better suited to their junior assignments and preparation for command. They may also attend the RM International Maritime Strategy Course (RMIMSC) at JSCSC.

d. **ICSC(MR).**

(1) ICSC(MR) is designed for senior Lts RNR, Capts RMR and for WOs. The course is a condensed version of the 10-week Regular ICSC(M) and consists of a mandatory residential foundation weekend, a period of approximately eight weeks self-study preparation and a 12-day main residential phase. With an emphasis on development of staff skills it aims to prepare Officers and Warrant Officers for Command and Staff appointments at the Staff Officer 2 (SO2) or senior Warrant Officer level:

(a) Within the MR Forces in Unit senior management positions or on the staff of Commander Maritime Reserves (CMR);

(b) In operational staff roles, ashore or afloat, either deployed or in the UK.

(2) Successful completion of ICSC(MR) is a pre-selection requirement for promotion to Lt Cdr RNR/Maj RMR[1] and for selection to senior CMR WO1 appointments.

9703. Advanced Command and Staff Course (ACSC)

a. The purpose of the ACSC is to prepare selected officers for high grade joint and single-Service assignments, up to and including the rank of Captain RN and other Service equivalents, by developing their command, analytical and communication skills and by providing a broad understanding and knowledge of joint, single-Service and combined operations, the management of Defence in the UK and the wider aspects of Defence as a whole. Selected students are eligible to read for an MA in Defence Studies through King's College, London.

b. Students are drawn from officers of Lieutenant Commander rank or those newly promoted to Commander. Selections are made by Branch Committees, led by the appropriate Naval Personnel Teams, taking account of an officer's performance, potential and overall career management.

c. For RM officers, the guidance and regulations described in the Army Junior Officers' Training and Education Scheme and Staff Selection Handbook (Army Code 71418) are followed closely (although not to the exclusion of discrete RM considerations) reflecting the relevance of Army non-specialist training to the RM.

d. Under Army regulations, RM officers become eligible for selection for staff training in the calendar year in which they reach 31 years, for earliest attendance at ACSC in the calendar year in which they reach age 32. Officers remain eligible to attend until the calendar year in which they reach age 35.

e. Occasionally, RM officers may be selected to attend staff training under the regulations that apply to RN officers.

f. **ACSC(R).**

(1) ACSC(R) is a tri-Service course for senior OF3[2] from each Service. The course includes a mandatory induction weekend, 8 weeks self-study preparation, and a 15-day main residential phase. ACSC(R) aims to develop understanding of policy and strategic issues, single-Service and Joint operations, operational planning, aspects of Command and the management of the Reserve Forces.

[1] Maj RMR are normally required to complete ICSC(Land) but ICSC(MR) is an acceptable alternative – BRd 3(1) Ch 101.
[2] In some cases, OF4s attend.

(2) For MR students, the course provides Command and Staff training in preparation for appointment as an SO1:

(a) Within the MR Forces in Unit Command or on the staff of CMR;

(b) In operational staff roles, ashore or afloat, either deployed or in the UK.

(3) Successful completion of ACSC(R) is a pre-requisite for selection for promotion to Cdr RNR/Lt Col RMR.

9704. Higher Command and Staff Course

The Higher Command and Staff Course takes place annually at the Joint Services Command and Staff College during the period January to April. Attendance is drawn from selected officers of Commodore/Captain rank and equivalent and senior staff from the Civil Service and certain foreign countries. The aim of the course is to prepare selected senior officers and officials for higher command and senior staff assignments. The main themes covered are strategic and operational doctrine, operational art, the nature of high command, campaign planning, the conduct of joint and combined operations and the present and future operational environments.

9705. Overseas Defence Colleges and Single Service Staff Courses

Opportunities exist for reciprocal or exchange attendance of officers on various courses or on the directing staffs of these courses at defence and single-service colleges in other countries. Some vacancies arise on a regular basis and others by special invitation. The Naval Secretary selects officers to meet the requirement. A graduation symbol may be awarded as shown in the Navy List, for example, psc(o) (passed staff course (overseas)) followed by the abbreviation of the country. Countries involved on a regular basis are Australia, Canada, India, Pakistan, Germany, France and Spain. Officers should seek any further advice from their Career Manager.

9706. NATO Defence College

a. The aims of the NATO Defence College in Rome are as follows:

(1) To prepare selected senior service officers and civilian officials, normally of Captain RN rank and equivalent, of NATO member nations for the exercise of high level policy, command and staff functions within the organisation, by studying the military, political, economic, psychological, social, scientific and geographical factors which influence the NATO defence effort.

(2) To promote the development of understanding, the broadening of outlook and the exploration of new approaches to the factors and problems of NATO to assist in strengthening its unity and effectiveness.

b. Courses start in February and September annually and last 23 weeks. Graduates are awarded the symbol 'nadc' in the Navy List. The Naval Secretary selects officers for attendance.

9707. Royal College of Defence Studies (RCDS)

a. The purpose of the RCDS is to give selected members of the Armed Forces (of Captain RN rank and equivalent) and the UK Civil Service the opportunity to study in depth the problems of defence related to international relations and public policy (with emphasis on strategic aspects) in company with representatives of Commonwealth and foreign governments; 40 countries are represented. The aim is to prepare members for senior positions in the direction and management of defence and security and related areas of public policy.

b. The aim is achieved by developing strategic thinking, global perspectives, and a world-wide network of professional contacts through a wide-ranging programme covering political, economic, technological, sociological and management issues, thematic analysis of each region in the world and all aspects of foreign and security policy and international relations. The syllabus involves a broad spectrum of institutional visits as well as study tours to the UK's regions and overseas.

c. Courses start in January and last for one year. Graduates of the College are awarded the symbol 'rcds' in the Navy List. Officers selected to attend the College receive full details of the course on assignment.

d. The training return of service (ROS) obligation for this course, and all other Staff Courses, Defence Fellowships and Degree courses, is shown in the following paragraphs (see also BRd 3(1) Chapter 53).

9708. Maritime Reserves – Command and Staff Training

a. **ICSC(M).** The ICSC(M) follows a modular approach to training, in line with the delivery for regulars. The reserve course is made up of several modules. Each module runs several times a year, controlled by the Royal Navy Division at the JSCSC. The courses are: Naval Analysis Course (NAC) (five days), Preparation Phase (five days) and Foundation Module (12 days based at Shrivenham). Remote learning modules are Understanding Learning (five days), Business Skills (three days), Planning Operations (10 days based at Shrivenham) and a Consolidation Weekend of two days. This is a total requirement of 42 days, over two years. Once the learning pathway has commenced, the course member must complete it within two years. Individuals applying for Command and Staff training must have at least two years seniority as a substantive Lt RNR, Capt RMR or WO.

b. **ACSC(R).** The ACSC(R) follows an initial weekend, followed by a period of study and a 15-day Main Residential Phase:

(1) **Initial Weekend.** Normally a weekend mid-March.

(2) **Main Residential Phase.** Last two weeks of July.

Students on ACSC(R) will need to complete a significant amount of pre-course reading to gain the most from the course. JSCSC will advise what preparations and pre-course reading is required. In addition, students must meet the following criteria:

(1) At least two years seniority as a substantive Lt Cdr or Maj.

(2) Completion of ICSC(MR) or ICSC(M) or ICSC(Land) (RMR Officers).

(3) A recommendation to attend the course in the most recent OJAR.

or

(4) Regular Service equivalents to (3) to (5) above.

c. **Co-ordination and Selection Process.** A CMRTM will be issued each year detailing the process for selection onto the course. Individuals who meet the eligibility criteria and wish to apply are to submit a Training Authorisation Order (TAO) via their unit co-ordinator. All nominations will be provisionally 'enrolled' onto the course by the Course Booking Cell pending final selection. A Command and Staff Training selection board will be convened as per the CMRTM comprising CM RES SO1, SO1 CST and SO1 RNR Training to consider the candidates. Selection is competitive and only those individuals recommended and considered ready for training will be selected by the board. Should the number of candidates exceed the spaces available, a reserve list will be maintained. Successful candidates will be promulgated by signal by the end of January; any reserves will be notified in person. Following promulgation of the signal, the CBC will update JPA and this will generate a JPA workflow to all candidates to confirm or cancel their course booking. JSCSC is responsible for sending out the relevant course joining instructions, specific pre-course reading and overseeing administrative arrangements. Reserve units will remain responsible for administration of pay, allowances and travel to and from the course.

9709. RM International Maritime Strategy Course

The RM IMSC aims to prepare selected RM and RN officers for ACSC and amphibious warfare assignments by developing their analytical and communications skills. The course, which provides a broad understanding and knowledge of the principles and roles of naval warfare with particular reference to the part played by amphibious operations, takes place twice annually and lasts for four weeks. The focus is on all aspects of amphibious operations drawing on amphibious doctrine past and present, historical case studies and analysis of current and future practise. Students are examined on two presentations and three written essays and the course concludes with a viva voce examination with a senior RM Officer and The Dean or Deputy Dean of Studies.

9710. Defence Fellowship Scheme

a. The Defence Fellowship scheme enables high calibre officers with a keen interest in problems of defence to develop their intellectual powers by studying or researching a chosen subject at an advanced level in a University. Defence fellowships are highly regarded, justify diversion from normal employment and, on submission of an acceptable thesis, earn the symbol ‘df’ in the Navy List which is taken into consideration by promotion boards.

b. The subject for study must have application to, or influence on, Defence in a wide interpretation, or direct relevance to the officer’s specialisation. The normal field of choice is higher defence studies, such as, strategy, politics, economics and technology, but consideration may be given to other subjects including personnel management, history and psychology. Candidates are required to approach an appropriate University with their proposed topic of study and to produce a thoroughly prepared analysis of the study, in 750 words, which is considered in the selection process.

c. On completion of the fellowship, officers are required to submit a thesis to MOD (Directorate of Defence Policy) within three months which, including appendices, may not exceed 30,000 words. Copyright belongs to the Crown and approval to publish is required in accordance with BRd 2 Chapter 68. Submission of a thesis for any higher degree is the responsibility of the officer concerned but, if eligible under the statutes of the University, they are encouraged to do so. Officers are to write a short report on their defence fellowship to accompany their thesis.

9711. MPhil Degree in International Relations - Cambridge University

a. The Master of Philosophy degree scheme at Cambridge University enables officers to develop their intellectual powers and extend professional knowledge to meet the demands of staff and other future assignments. The course lasts one academic year and is open to Lieutenant Commanders/equivalent and above, normally aged 35-45. Applicants do not need to be graduates but they must satisfy the University that they are capable of undertaking post-graduate study.

b. Two Defence lecturers are sponsored by MOD in the History Faculty and are known as Teaching Fellows in Defence Studies. These fellows assist in teaching and helping supervise officers. The course includes lectures and seminars which are selected from those given by the faculties of History, Law and Economics, and Politics, and additional special ones covering strategic issues which are of interest to MOD students. Candidates propose a thesis topic related to defence from several fields.

9712. Master of Business Administration (Defence) (MBA(D)) and Master of Business Administration

a. The MBA(D) forms part of the higher education contract administered by DCMT Shrivenham. It confers a higher management qualification orientated to the needs of the Armed Forces. There are two forms of MBA(D), as follows:

(1) The residential MBA begins at the start of the academic year and lasts for 12 months (four academic terms). The RN normally has six places on the course.

(2) The Executive MBA(D) lasts for two years and is based primarily on distance learning, although permission may be given for attendance at eight residential modules (each of eight days' duration) during the course. Commitment to a substantial amount of private study throughout the course will be required. The RN normally has four places on the course.

b. Students will normally be drawn from Lieutenant Commanders or Commanders. Nominations for attendance will be considered within the Navy Command Headquarters/Dir P&T directorate. Considerations will include the applicant's intellectual ability, their potential and the number of years' service remaining. Officers who wish to be considered should seek more information from their Career Manager.

c. While officers may initiate MBA training at any UK University, Service funding is unlikely to be agreed in view of the availability of MBA(D) training.

9713. The Programmes and Projects Master of Science (PPM MSc)

The PPM MSc forms part of the higher education contract administered by DCMT Shrivenham. It confers a higher management qualification orientated to the needs of the Armed Forces and is designed for participants who are developing their roles as programme and project managers. Graduates from the programme will be equipped to be contributors to the implementation of strategic change or the delivery of complex products and/or services through major projects and programmes. The course is designed to enable participants to study for a range of post-graduate qualifications leading to an MSc. The intermediate qualifications leading to this degree are the Postgraduate Certificate and Postgraduate Diploma.

9714. Master of Science (MSc) in Leadership Studies (Defence)

The MSc in Leadership Studies (Defence) forms part of the higher education contract administered by DCMT Shrivenham. It confers a higher management qualification orientated to the needs of the Armed Forces and is designed to appeal to all those who are interested in, or involved with, leadership. Its primary audience will be those who already have some personal experience of leadership practice and who are keen to expand their knowledge and understanding of leadership theory, and to improve their leadership practice. It is not an MSc restricted to the defence sector and will include security and the public services more generally.

9715. Master of Science (MSc) in Defence Acquisition Management

The Cranfield University MSc (and Post Graduate Diploma (PG Dip)/Post Graduate Certificate (PG Cert)) Course in Defence Acquisition Management (DAM) has been developed in concert with the MOD to meet both a defence and educational need. The course is delivered by the Department of Defence Management and Security Analysis (DDMSA). This department includes groups covering Acquisition and Logistics, Mine Action, Disaster Management, Security Studies and Defence Management. The Department is responsible for teaching and researching all concepts of defence management and security studies.

9716. Hudson Fellowship

a. The Hudson Fellowship, usually undertaken at St Anthony's College, Oxford enables senior officers to study International Relations alongside international academic and governmental representatives, whilst conducting specific research in an area relevant to Defence and the officer's particular strategic interests. The Fellowship lasts for one academic year and is aimed primarily at officers of Captain/Colonel rank although those at Commanders/Lieutenant Colonel rank may also apply. The Naval candidate is proposed by the Naval Assistant to the Naval Secretary, through the Assistant Director of Naval Staff (Studies) to the St Anthony's College Fellowship Committee for ratification in June each year.

b. Study at St Anthony's includes participation in the International Relations MPhil seminars, lectures and classes series, presenting a research paper to the MPhil course and producing research for regular consultation with college Professors, culminating in a written thesis of at least 20,000 words.

c. A Junior Hudson Fellowship, of broadly similar content to that described above, is open to Lieutenants or Lieutenant Commanders of any branch. The Fellowship is for one academic year at Christ Church, Oxford. Candidates are proposed to the University by Dir P&T through the Head of Defence Studies.

SECTION 2

RM OFFICER CAREER DEVELOPMENT (RMOCD)

9717. Aim

a. To lay out the requirements of the RMOCD programme covering command, leadership and management (CLM), staff training and education, and core skills to RM, RMR, and Royal Marine Band Service (RMBS) officers. This chapter does not capture personal professional military education (PME), or professional qualifying courses for specific in-branch advancement.

b. This chapter is to inform RM officers[3] and the RM chain of command of the RM OCD programme, including the timescales for completion and requirements for promotion. RM OCD is designed to develop the mental agility, cognition, and professional attributes to operate effectively in the contemporary and future operating environment.

c. The RM OCD model continually evolves to reflect changing Defence, security, political and budgetary imperatives. Change initiatives in the Army, Navy and Joint environments may impact RM OCD. The OCD programme is progressive and provides continuous development. It encourages personal ownership through career progression but is also influenced by the needs of the Service.

9718. Background

a. **Governance and pan-Defence Links.** RM OCD policy is overseen by the RM OCD Steering Group[4], with the RM OCD Working Group[5] coordinating programme delivery. Driven by the requirement for RM officers to operate in both the maritime and land environments, RM OCD draws on elements of both the Army and Royal Navy's OCD programmes, and RM-specific courses as required.

b. **OCD Policy Anomalies.** Annex 97A articulates a standard OCD requirement for RM officers, separated into areas for regular, RMR and RMBS. An individual officer's OCD requirement may however differ from this, and clarification of requirements may be needed[6]. The Corps Tutor should be the initial point of contact for all OCD related enquiries, with career managers (CMs) giving formal/final decisions when needed[7].

[3] RM Officers' covers regular, RMR and RMBS Officers.
[4] DCGRM chaired.
[5] CO Command Wing CTCRM chaired.
[6] For example, an individual who had conducted a legacy MA(C) and MA(A) before the issuing of this DIN would not be expected to conduct an additional MA(B).
[7] This is particularly important around promotion requirements – see para 9 & 10.

c. **RM OCD Principles.** The key principles governing RM OCD are as follows:

(1) The RM chain of command is responsible for monitoring and mentoring officers throughout the programme and providing officers with the time to complete OCD during working days. There remains an enduring need for Cdo Units to provide complementary battlegroup level estimate training and staff writing development as routine development.

(2) Individual officers are responsible for ensuring they complete each element of the OCD programme at the appropriate stage of their career and for ensuring the results are recorded in an accurate and timely manner on JPA. Where they exist, and in liaison with CMs, opportunities should be sought and exploited between appointments to complete courses. All elements of RM OCD are required for promotion eligibility; individual officers must be aware of their specific requirements and progression. CMs will proactively liaise with units to deconflict appropriate times for officers to attend mandated training courses.

(3) The RM Corps Tutors provide advice to RM officers, CMs and the Command on policy matters, including course attendance criteria and content. The Corps Tutors are also responsible for delivering Naval Analysis Courses (NACs), Military Analysis (Module B) (MA(B)) and the Advanced Amphibious Warfare Course (AAWC).

(4) The RM CMs are responsible for career and assignment advice and hold the decision on an officer's eligibility for promotion boards (PBs). CM are also responsible for assigning officers to the key residential command and staff courses.

d. **Revised Officer Entry Scheme/Criteria for Promotion.** Under the terms of the RN's Revised Officer Entry Scheme, from Feb 13, RM Captains with four years of seniority (Capt+4) may be considered for promotion to Major. Officers will not be put forward for PBs without completing the OCD requirement.

9719. RM OCD Pathway until Promotion to Major

Annex 97A tabulates the below requirements and timeline following the completion of RMIOT training (including SCCO, RMR and RMBS) which are also at Ref A. The Junior Officer Leadership Programme 1 (JOLP1) is included in RMYO training.

a. **Junior Officer Leadership Programme Part 2 (JOLP2). (Direct Graduate Entry (DGE) and Direct Entry (DE) only).**

(1) **Aim.** Continuous development of the leadership ability of a junior officer.

(2) **Structure.** Training is conducted during initial Troop Command. It is the chain of command responsibility to ensure individual completion of the JOLP 2 proforma at Annex 97D for all DGE/DE RM officers[8]. JPA action also sits with the unit chain of command.

(3) **Requirement.** JOLP2 is to be completed within an officer's first 12 months as a Troop Commander.

b. **Walcheren Essay (WE).** (DGE/DE/SCCO/RMR).

(1) **Aim.** To develop critical thinking, writing skills, and awareness of RM-related defence issues.

(2) **Structure.** A 2500-word researched essay on a choice of two strategic studies questions (different questions set annually) set by the Corps Academic and CGRM.

(3) **Requirement.** DE, DGE, SCCO, and RMR officers[9] are to complete the WE to be eligible for the PB, the WE is to be completed at any point from initial Tp Comd up to OF2 +4 years[10].

c. **Junior Officer Tactical Awareness Course (JOTAC). (DGE/DE regular; RMR and SCCO at CM discretion).**

(1) **Aim.** To educate junior officers by developing their military knowledge and tactical understanding of sub-unit and BG operations in a combined arms environment in order to prepare them for employment as a junior Captain.

(2) **Structure.** JOTAC is a 4-week residential course at the Junior Division (Jnr Div – Warminster) of Land Command and Staff College (LCSC) (See Ref C). Course applications should be made by RM officers directly via the after CM approval has been given. Students should be conversant with the staff standard for the Army and have completed the below eligibility requirement:

(3) **Eligibility.** MK JOTAC (Regular and Reserve) summative test pass within 6 months of the start of JOTAC (there will be a 1-hour MK entrance assessment on day 1 of the course).

(4) **Requirement.** From the start of TY24/25, RM DE/DGE officers should complete JOTAC ideally as a Lt RM (in line with Army policy). This requirement is only for RM officers from the RMYO 21 Batch onwards. It must be completed to be eligible for OF3 PB, but is not a requirement for promotion for Capt RM.

[8] Once completed, the individual officer can request for the JOLP2 JPA competency to be added to his profile; the hard copy of the signed JOLP2 proforma should be retained by the individual officer for their personal records.
[9] RM Band officers do not need to complete the WE.
[10] This is a substantive timeline change from training year 2023/24.

d. **Military Knowledge Captain's Warfare Course.** (MK CWC - previously Junior Command and Staff Course (Land) (JCSC(L)). (DGE/DE only, SCCO at CM discretion).

(1) **Aim.** To deliver the additional underpinning military knowledge required by Captains attending CWC.

(2) **Structure.** MK CWC is an on-line course accessible via the Intranet/Internet. Further details on MK JCSC(L) can be found at Ref B.

(3) **Eligibility.** MK CWC is a pre-requisite for attendance on the CWC.

e. **Captain's Warfare Course (CWC) (6 weeks).** (DGE/DE only, SCCO at CM discretion).

(1) **Aim.** To provide the functional knowledge and understanding of combat and staff procedures in a combined arms environment at battlegroup and brigade levels in order to prepare Capts for staff appts within units and brigades.

(2) **Structure.** Based at Land Warfare Centre (LWC), The CWC End State is to deliver Captains with the requisite analytical and communication skills, professional knowledge and understanding to fill senior Captain appointments at Regimental Duty, and on the Staff, within the Littoral/Land domain.

(3) **Eligibility.** RM officers are to have completed MA(B) and MK CWC prior to applying for CWC.

(4) **Requirement.** RM officers should complete CWC by Capt +2 in line with Army policy. As SCCO do not need to attend CWC, it is not considered an entry requirement if they are selected for ICSC(L) (see para 8k for details on ICSC(L)). CWC is considered go/no-go criteria for DGE/DE PSB attendance. It is highly unlikely waivers will be granted for non-attendance.

f. **Amphibious Warfare Course (AmphWarC).** (All DE/DGE/SCCR regular and reserves RM officers – once course restarts).

(1) **Aim.** A one-week introduction to the conduct and planning of amphibious operations.

(2) **Structure.** A series of lectures and exercises focusing on the planning of amphibious operations.

(3) **Eligibility.** No strict eligibility criteria for AmphWarC.

(4) **Requirement.** RM officers are encouraged to complete the course by Capt +4; it must be completed to be eligible for OF3 PB (DE/DGE/SCCO and RMR).

(5) **The Course is Currently in Abeyance.** No further delivery of the course planned in the near/mid-term. For RM OF3 PB, AmphWarC will not be required, no action is required by individuals going forward to the OF3 PB.

g. **Military Analysis B (MA(B)) and Naval Analysis Course (NAC).** (All RM officers – RMBS NAC only).

(1) **Aim.** To develop the ability to challenge and test hypotheses, through the medium of contemporary defence studies, so producing the flexibility of mind and analytical skills required by officers. Delivered as two stand-alone one-week modules.

(2) **Structure.** Separate one-week modules:

(a) The MA(B) - 'Britain and International Security' is a one-week module held at various Army Education Centres (AEC) and CTCRM. RM officers may apply to any of these delivery centres (details at Ref D).

(b) The NAC is delivered at CTCRM and Britannia Royal Naval College (BRNC) Dartmouth. Details on application and course dates are at Annex 97C.

(c) The package will develop Captains' powers of analysis and communication skills.

(d) The courses are run at a post-graduate level, featuring a programme of lectures, reading, writing, and seminars.

(3) **Eligibility.** There are no strict eligibility criteria for MA(B)/NAC; RM officers should wait 12 months after passing out of YO training before applying for their first MA(B)/NAC course, additionally there should be a period of at least 6 months between each MA(B)/NAC. Officers who may be loaded onto ICSC(M) (mostly RMBS/SCCO) should attend NAC with a plan to commence the residential elements of ICSC(M) within a further 6-month period.

(4) **Exemptions.** Officers who successfully complete MOD Officers Week and Officer Education Residential are exempt from MA(B).

(5) **Requirement.** DE/DGE and SCCO must complete both modules to be eligible for PB. Legacy MA(A) & MA(C) remain valid qualifications; however, RM officers will no longer be able to enrol on either of these courses. RMR Officers must complete both modules to be eligible for PB. RMBS officers must complete NAC to be eligible for PB. Refs D & E contains course dates and application details. Annex 97C highlights the application process and dates for the NAC delivered by the Corps Tutors at CTCRM. For DE/DGE and SCCO the following additional points apply:

(a) For SCCO 11&12, the academic programme from the SCCO Commissioning Course will count as a MA module.

(b) Successful completion of SF Officers' Week will count as completion of the MA(B) course.

h. **Military Knowledge ICSC(L).** (All officers selected to attend ICSC(L)).

(1) **Aim.** An online distance-learning course delivering the additional underpinning military knowledge required by senior Captains and junior Majors. This is not a criteria for packs to be forwarded to the OF-3 PB.

(2) **Structure.** MK ICSC(L) is an approximately 8-hour online course that must be completed directly before ICSC(L), after selection for promotion.

i. **Advanced Amphibious Warfare Course (AAWC).** (All officers selected to attend ICSC(L), in coordination with CMs).

(1) **Aim.** A four-week academic course to provide an understanding of the principles and roles of naval warfare in British defence policy, with reference to amphibious operations as a service specific update immediately prior to attendance on ICSC(L). This is a CTCRM course that is run by the Corps Tutors at the Joint Services Command and Staff College (JSCSC).

(2) **Structure.** The key themes are as follows:

(a) An update on higher level RN and RM issues and policy.

(b) An overview of international affairs, with a focus on actual and potential conflict zones which might be of concern to British foreign and defence policy.

(c) An examination of historical case studies of amphibious warfare.

(d) The role of the RN and RM in the context of British defence policy.

(e) Current and future developments in naval and amphibious strategy and practice.

(3) **Eligibility.** No strict criteria prior to AAWC.

(4) **Requirement.** This is a mandatory course for DE/DGE RM Officers promoted to Major prior to attendance on ICSC(L). The CM will load the course and will be able to make decisions about individual attendance if operational commitments present attendance difficulties. This is not a criteria for packs to be forwarded to the OF-3 PB.

(a) SCCO Officers will attend at CM discretion if selected to attend ICSC(L).

(b) Any other officer (from UK tri-services or from a foreign service) who would benefit from an academic overview of amphibious warfare.

j. **Director of Music (DoM) Qualification. (RMBS Officers).**

(1) **Aim.** To develop the required skillset to lead and direct a RM Band.

(2) **Structure.** Candidates attend a university or conservatoire. Duration is up to 2 years, managed, administered and assessed by the university or conservatoire attended by the candidate. Both the course and the candidate's progress are monitored by the Royal Marines School of Music (RMSoM).

(3) **Requirement.** This is a mandatory course to be eligible for RMBS PB.

k. **Intermediate Command and Staff Course (Land).** (ICSC(L)) and Intermediate Command and Staff Course (Land Reservist) (ICSC(LR)). (DE/DGE regular and reserve, SCCO at CM discretion).

(1) **Aim.** To prepare Majors for appointments in Sub-Unit command and staff officer up to and including Lieutenant Colonel. They will develop the requisite analytical and communication skills, professional knowledge, understanding and motivation.

(2) **Structure.** ICSC(L) is a 26-week course delivered in two terms.

(a) Term 1. Instils the command and staff fundamentals before students then analyse the UK Defence capability within the international, national strategic and operational context.

(b) Term 2. Focuses on the tactical planning and execution of land operations within a combined, joint, international, and/or multi-agency context. It includes an exchange with US contemporaries.

(3) **Requirement.** All DE/DGE officers on promotion to Major. SCCO will attend at CM discretion[11]. RMR officers will attend Initial Command and Staff Course (Land Reservist) (ICSC(LR)), a 2-week bespoke package, to be eligible for PB.

l. **Intermediate Command and Staff Course (Maritime) (ICSC(M)).** (SCCO (at CM discretion) / RMB offices selected for OF3).

(1) **Aim.** To prepare RN[12] officers for OF3 command, charge and staff (SO2) appointments by further developing their leadership, analytical and communication skills, knowledge of Defence and UK military capabilities and understanding of maritime power.

[11] SCCO attendance on ICSC(L) or ICSC(M) will be at CM discretion.
[12] RN refers to all elements of the Royal Navy including the RN, RM, RFA, QARNNS (1SL direction 2020).

(2) **Structure.** ICSC(M) consists of two residential modules delivered at the Joint Services Command and Staff College (JSCSC), the Defence Academy (DEFAC) of the United Kingdom, Shrivenham.

(a) **Module 1.** The conceptual element. It lasts 4 weeks and covers: the international environment, maritime power, joint operations, and self-awareness. Completion of Module 1 is a pre-requisite to attendance on Module 2, including for RNR students.

(b) **Module 2.** The practical element. It requires successful completion of Module 1, lasts 5 weeks and covers: planning, organisational leadership, and wider command and staff skills.

(3) **Eligibility.** RM officers selected for ICSC(M) will need to have completed NAC within the 6 months prior to being loaded onto the course.

(4) **Requirement.** SCCO Officers will attend at CM discretion. RMBS Officers will attend ICSC(M) within 12 months of promotion to Major. This is not a criteria for packs to be forwarded to the OF-3 PB.

9720. OF3 Promotion Process

a. For Captains to be considered at the PB, they must have completed **all required** elements of the RM OCD package for their seniority. The criteria for attendance at the OF3 Promotion Selection Board are in accordance with para 9719, and summarised at Annex 97A. Criteria vary between cohorts (DE, SCCO, RMBS, and RMR), but must be completed no later than 31 July for eligible candidates' packs to be forwarded to the PSB. Exemptions must be sought through direct communications with the relevant CM no later than 31 Jul as per para 9705. Once selected at the PB, criteria for substantive promotion is to be in date for the annual mandated fitness test[13].

b. It is responsibility of the subject officer to ensure that requisite OCD competencies are recorded on JPA once complete. The list of OCD JPA competencies is at Annex 97B.

9721. OCD Waiver Policy

Individuals who cannot attend required elements of OCD may apply to their CM for a waiver to be eligible for PB. Waivers will only be granted due to significant, extenuating and unpredicted circumstances. A waiver request should be endorsed by the subject officer's CO and emailed to the RM CM no later than 31 Jul. Waiver requests should contain the following:

a. Name, Service Number, Rank, Seniority and SQ.

b. Dates of OCD courses completed.

c. Details of reason that required element of OCD could not be completed.

d. Estimate of when required element of OCD could be completed.

[13] Subject to specific medical criteria.

9722. Points Of Contact. The RM Corps Tutors are the principal source of advice on all aspects of RM OCD. Contact details are as follows:

a. Mil: 93785 4595 Tel: 01392 414595.

b. Email: NAVY TRG CTCRM-CW CORPSTUTOR01

CHAPTER 98

NEURODIVERSITY AND SPECIFIC LEARNING DIFFERENCES

SECTION 1

GENERAL

9801. Background

Neurodiversity (ND) refers to differences that exist in the brain. Our brains naturally vary from person to person, our education varies from person to person, and these variations make up our different strengths and abilities. We all think, move, process information, and communicate differently; we are all cognitively abled in different ways. A Force for Inclusion – Defence's Diversity and Inclusion Policy[1] recognises that we are all different, people work better when they are themselves, and our differences can be used to benefit the team. Embracing ND increases our people's ability to achieve their potential and ultimately contributes to the RN successfully achieving its mission.

9802. Terminology

Within Defence, the term **Specific Learning Differences (SpLDs)** refers to conditions such as dyslexia, developmental coordination disorder, dyscalculia and dyspraxia. More widely in the UK, the terms **neurodivergent or neurodistinct** are used to describe people who have conditions such as autism, visual difficulties and attention deficit and hyperactivity disorder (ADHD). **Learning skills** is also a term used within educational settings. We all learn in different ways and many of us have been taught skills that help us learn more effectively such as time management, note-taking and reading efficiently. **Learning skills** help us acquire new knowledge and can be learnt and developed over time. It is worth noting that how well an individual has had their learning skills developed in the past will impact on the way they learn, and work in the present. The RN ND policy covers all recognised SpLDs, learning skills and neurodistinct traits, whether diagnosed or not, within the RN training and workplace environment.

9803. Governance

In order to provide coherence and accountability of the delivery of this RN policy, an ND Steering Group (ND SG) has been established. Championed by the RN ND Advocate[2] and chaired by Head Policy, Strategy and Plans, members include empowered representatives, ND experts, Phase 1 and 2 representatives, as well as representation from the Neurodiversity Working Group.

[2] Search 'Introducing the Royal Navy Neurodiversity Advocate' on MODNet.

9804. Policy

To support the diversity of neurodivergence within our workforce, the ND SG aims to:

a. Raise understanding and remove stigma regarding neurodistinct conditions and traits across the Wholeforce RN to contribute to providing all service personnel[3] and civilian staff[4] with a career where their ambitions can be achieved, and they feel valued.

b. Encourage creativity, using appropriate reasonable adjustment allowing everyone to perform to their best and remove barriers within the RN training and workplace environment.

c. Provide consistent specialist learning skills, SpLD and ND advice and support through our Learning and Development (LDO) Hubs to RN Regular and FTRS Full Commitment (FC) personnel and their service and civilian managers. Service Personnel may self-refer if they are struggling to cope with learning or work (regardless of whether they have a diagnosed condition).

d. Provide opportunities for RN Learners[5] (within formal RN training pipelines), RN Regular and FTRS(FC) Personnel[6] to be screened for SpLDs and neurodistinct traits, which may lead to a formal diagnosis and targeted support to be offered.

e. Ensure Civil Servants and their line managers are aware of support available through the Employee Assistance Programme (EAP) and Occupational Health services.

f. Engage with Defence Medical Services to ensure appropriate and coherent pathways are developed for diagnoses and support of neurodistinct conditions for all Regular Service and FTRS(FC) personnel.

9805. Application

Under the Equality Act 2010 the Armed Forces are exempt from disability discrimination legislation; however, this policy document serves as a framework for meeting the spirit of the legislation and goes further by actively promoting equality of opportunity, thus enabling every member of the RN to maximise their talent and contribution. It applies to all full-time personnel (regular and full-time Reserve Service) and RN Learner. Ex-regular personnel with a Reserve liability and volunteer Reservists attending for obligatory training or voluntary duties will be eligible only for support when mobilised into service. For non-mobilised Reservists, responsibility for learning support rests with the individual and is not covered by this policy.

[3] Regular, FTRS and Reserve
[4] Civil Servant (including RFA) and Civilian employees.
[5] Any Service or Civilian Personnel enrolled on a RN course.
[6] Regular or Full Time Commitment FTRS Service Personnel.

9806. The Individual's Responsibilities

Although this policy provides details of specific support provided to RN personnel with learning support needs, individuals are primarily responsible for addressing their own needs. Individuals with a learning support need are encouraged to discuss those needs and share their learning plan with their line managers/Divisional Officers/Instructors/English and Maths Tutors on arrival at a new establishment/Unit prior to commencing duties/training. This handover will enable the provision of any necessary remediation and the updating of their Individual Learning Plan (ILP). Individuals are to employ all reasonable remediation recommended by their ILP, coaching support team, or English and Maths Tutors.

SECTION 2

EDUCATION AND TRAINING

9807. Training Delivery Standards

Training for RN personnel is to be delivered without discriminating against those with learning support needs and, therefore, those individuals delivering training must have an awareness of, and be sensitive to, such issues. Course format and style of delivery should be universally designed and structured to accommodate varied learning needs. Training delivery standards are to be reviewed on a regular basis and modified where necessary to achieve maximum effectiveness.

9808. Responsibilities of Phase 1 and Phase 2 Training Schools

Within initial training establishments (Phases 1 and 2) Team Fisher (via the LDO and Education and Training Organisation) have the following responsibilities:

a. Without compromising the agreed Training Performance Statement (TPS), to provide appropriate support for trainees with suspected ND conditions.

b. All Phase 1 and 2 recruits should receive a Learning and Development brief that covers ND conditions and support.

c. Equip Phase 1 and 2 recruits with learning skills through the delivery of formal training sessions[7] within the first 4 weeks of INT(R)/(O) or Foundation Phase of Initial Training.

d. Ensure that instructors and staff involved in student management are aware of ND conditions and the learning needs of trainees[8].

e. Apply any appropriate exam concessions[9]. These allowances apply only to assessments which are explicitly dependent on information processing, knowledge-based or written examinations. For externally moderated exams, authorisation to grant extra time requires approval by the appropriate examining authority. Removal of training professional warnings (see BRd 3(1) Chapter 57) could be considered if an individual has been assessed as requiring learning support after failing modular written exams. This must not, however, compromise the attainment of Training Performance Statement (TPS) or pass training risk to another part of the training pipeline. SpLDAs and English and Maths Tutors can authorise additional time for internal exams following a screening assessment. For external exams where the completion of a Form 8 is required, the SpLDA will refer the learner for further assessment.

[7] Memory techniques, mind mapping, sequencing, state, and time management.
[8] Poor performance in training should not automatically be attributed to a learning difference but may be due to another problem such as poor basic skills, poor memory, or lack of awareness of revision techniques.

[9] JSP 822 Vol 7 Ch 2 Para 2.1.12

f. Ensure that the learning support needs and details of support provided to individuals are documented within an ILP and, with the agreement of the individual, when trainees leave the training establishments the ILPs are forwarded promptly to the receiving/parent unit English and Maths Tutors/SpLDA (under appropriate protective markings).

g. Universal training design, alternative methodologies and approaches to training delivery should be actively sought and promoted, subject to the individual continuing to meet the conditions and standards set within the Formal Training Statement.

h. Where trainees with a learning support need are, after suitable remediation, unable to achieve the Role Performance Statement (Role PS) for their Profession or Discipline, the Chain of Command may, in the interest of the individual or the Service, seek advice from the Trade/Branch Sponsor on the possible re-allocation of the individual to another Trade Branch (see BRd 3(1) Chapter 51). Where there is evidence that the individual's learning support needs are so unique that they are unlikely to achieve TPS in any other Specialisation or Branch, then a case may be made for discharge from the Service (see BRd 3(1) Chapter 54).

9809. Learning and Development Adviser (LDA), English and Mathematics Tutors and Specific Learning Differences Adviser (SpLDA) Responsibilities

All LDAs and English and Maths Tutors are to have undertaken relevant awareness training[10]. SpLDAs are to be qualified and experienced to support LDAs and English and Maths Tutors, who should be involved in the following:

a. Promoting an understanding of ND conditions within the establishment, including conducting an induction brief on local ND Support processes for all trainers and DOs upon arrival, and at least annually thereafter.

b. Undertaking interviews of the individual and line manager to scope the workplace need.

c. Carrying out an initial assessment and recommending further action based on the results.

d. Interpreting Educational/Occupational Psychologists' reports on behalf of the individual.

e. Creating an ILP with the individual, line manager and or instructor.

f. Reviewing support regularly and updating the ILP with the individual and the line manager or instructor as and when necessary.

g. Liaising closely with both losing and receiving units to ensure that suitable provision is available for the individual to continue training and/or productive service.

[10] JSP822 Vol 7.

9810. Management Responsibilities

The following principles apply to the management of a learning support case:

a. Create a culture of declaration that allows a partnership between the line manager and the individual to be developed to optimise available support.

b. Recognise workplace differences associated with ND conditions and the challengers they may present. Workplace differences include but are not limited to:

(1) Time management.

(2) Organisational Skills.

(3) Prioritising of tasks.

(4) Processing verbal instructions.

(5) Short-term memory.

(6) Note taking or report writing.

c. Reports, ILPs and learning support programmes that are produced on individuals with learning support needs are to be treated as 'OFFICIAL-SENSITIVE' and are to be held by the English and Maths Tutors or SpLDA and the individual.

d. Reports should identify learning and coping strategies (reasonable remediation) that will assist the individual but not compromise the standards required to meet TPS. These strategies should be provided to the individual's line manager or Divisional staff and the individual's instructors; they are to be treated as 'OFFICIAL-SENSITIVE'. The individual's consent is required to share this information.

e. If appropriate, line managers may make reasonable adjustments to tasks and roles, as indicated as beneficial within the strategies developed by the education specialist. Individuals must demonstrate, however, that they have achieved full competence across the entire Role PS.

f. After the individual has been provided with learning or workplace support recorded in an ILP, their case is to be reviewed regularly with the line manager and SpLDA to assess the effectiveness of this support.

g. The needs of an individual in relation to a ND condition are not to be mentioned, whether positive or negative[11], in annual appraisal reports.

[11] JSP 757 Part 1 Para 15 Guidance for reporting Officers, Inappropriate Comments.

9811. Procedures

The RN will provide support to those individuals who have voluntarily come forward or have been identified by their line manager or trainers as possibly having learning support needs in accordance with JSP 822 Vol 7. To ensure consistency, reliability and validity in the process, the following procedures apply:

a. Line managers and Divisional staff become responsible for initial coaching of individuals in line with current RN Coaching policy (see BR 3 Chapter 21). In many situations, a simple discussion will resolve the issue. Where the issue is complex, the line manager should refer the individual to the establishment's Coaching support team, LDA, English and/or Maths Tutor or SpLDA.

b. Where possible, the Coaching support team, LDA, English and Maths Tutors or SpLDA should interview the individual to identify barriers to learning and scope their learning support needs.

c. The nominated personnel carry out assessments using the appropriate diagnostic tool[12]. Screenings can be conducted face-to-face or remotely. From these assessments, the SpLDA will identify the likelihood of the individual being neurodivergent, or having an SpLD, and where appropriate, will work with the individual to develop an Individual Learning Plan (ILP). The ILP will identify strengths areas as well as challenging areas and will highlight coping strategies to support them to successfully continue their learning and career. The ILP will also recommend reasonable adjustments that may assist the individual, such as coloured overlays, text to speak software and, in some cases, additional time for exams. The English and Maths Tutors or SpLDA will work with the line manager, the relevant trainers and the individual to make the changes necessary to support both the individual and their line manager.

d. ILPs will list coping strategies and remediation recognised as reasonable. Only coping strategies and reasonable remediation deliverable within the scope of TPS will be permissible.

e. Extra time for examinations should only be awarded where study skills and coping strategies are not sufficient, and the additional time is appropriate to the individual's needs; it must not be awarded automatically because of a suspected ND condition. The SpLDAs are authorised to award additional time for internal examinations only, where extra time does not bring into question the ability of the individual to conduct time critical tasks. The awarding of additional time must be discussed with the individual's instructor, course manager, or TRA to ensure it does not detract from them achieving Role PS.

[12] L&D Hubs and training establishments have access to several screening tools, for example DAST, LUCID LADS or the Do-IT Profiler

f. For external examinations (such as GCSEs and Functional Skills), the awarding of additional time can only be made by a Level 7 SpLD/ND Specialist, such as an Educational or Occupational Psychologist[13]. Where possible, the assessments by the Level 7 should provide sufficient detail to inform an ILP and details exam access arrangements but should not routinely include a diagnosis. A formal statement of needs is appropriate in most cases. A diagnosis may be requested, but must be cleared with financial approval through NAVY PEOPLE-TMG PACC EDU Del.

9812. Tracking

On identifying an individual with a potential learning support need, clear and concise individual records, marked appropriately (OFFICIAL-SENSITIVE) are to be kept. If appropriate, there must be prompt transfer of individual records when an individual is posted or detached. Records will be sent to the individual. There must also be close liaison between losing and receiving units to ensure that adequate provisions are in place for any learning support requirements.

9813. Funding

a. Public funding for the provision of eligible learning support will be provided by TMG PACC, applications should be made by e-mail to NAVY PEOPLE-TMG PACC EDU Del. The definition of eligible learning support is under review as part of the SELBORNE programme.

b. **Standard Learning Credit (SLC).** RN personnel with a recommendation from an SpLDA in an ILP are eligible (during any phase of training) to claim SLC support for Specialist tuition, recognised SpLD products (such as a reading pen) and computer software support, provided that the following provisions are met:

(1) The learning support resource software has been recommended by the Team Fisher Level 7 SpLD advisor or occupational Psychologist's report.

(2) The learning support resource is bought in direct support of the individual's SpLD. The individual's line manager is also required to provide a report, via the unit SpLDA.

(3) All other requirements for claiming SLC are observed.

c. **Enhanced Learning Credit (ELC).** Financial support for personnel with SpLD may be eligible available under the ELC scheme[14] from a scheme registered provider.

[13] If appropriate, a specialist teacher registered with PATOSS may be utilised.
[14] JSP 822 Vol 9 Para 3.5.9

SECTION 3

WORKPLACE

9814. Guidance for Managing Neurodiversity in the Workplace

a. **Understanding Neurodiversity in the Workplace.** Commanding Officers and line managers should ensure that they all have a basic understanding of neurodiverse conditions[15] and how they can assist their personnel to get the best out of them in their working environments. This information can be sourced from DLE training, the D&I Policy Desk, RNRMC and the RN Neurodiversity booklet.

b. The challenges faced by personnel with neurodivergent conditions varies significantly. Common to most unsupported conditions is that a lack of understanding within the workplace can lead to low self-esteem, anxiety, and depression. However, this can be mitigated through making reasonable adjustments to the working environment.

9815. Reasonable adjustments

a. Commanding Officers and line managers are responsible for the wellbeing of all their personnel and should actively encourage creating a working environment that helps meet the needs of all its personnel where operational capability allows. Small and cost neutral adjustments can have a significant impact, not only on the individual but also on the whole team.

b. There are several factors to consider when thinking about reasonable adjustments for those with neurodiverse conditions. The list below suggests different adjustments that might be considered. Any actions to introduce reasonable adjustments must be decided in discussion with the individual.

(1) **Physical.** Fixed desk location, chair suitable for seating position, identifying quiet spaces or remote space to work if necessary; Physical items worn or used to lower sensory input, this could be in the form or noise-cancelling headphones, noise-reducing ear plugs or focus devices. These items can be paid for utilising SLC's or via a referral from LDO or Occupational Health.

(2) **Environment.** It is not always possible to avoid loud or busy workspaces, however where appropriate quieter working spaces can be used, whether that includes remote working or a designated quiet office within the workplace.

(3) **Mental.** CoC should implement good mental resilience practices within the workplace, allowing times for adequate breaks, where operationally appropriate, and establishing stable routines. Where possible, individuals should be warned of any significant change which allows for preparation time for those that may require extra support during a change period.

[15] DLE training on Neurodiversity can be accessed on DLE: https://dle.ice.mod.gov.uk/mod/page/view.php?id=1323295

(4) **Time.** Requesting for more time for certain tasks, assistance with planning tasks, taking regular breaks, utilising smart working. Arrange to be able to work remotely if the working environment is becoming overwhelming or distracting.

(5) **Communication.** Utilise a range of communication methods that suit the individual's needs, whether this be emails, phone calls or meetings in person. Following up with typed notes after in person discussions to ensure all information was acknowledged and understood. Using different fonts in written work, where appropriate.

(6) **Behaviours.** There are several behaviours that can manifest as a result of neurodiversity. For example, fidgeting for excessive energy and to aid concentration, asking additional questions or procrastinating tasks. CoC should ensure that they question the presentation of specific behaviours and demonstrate curiosity regarding the impact of neurodivergence. Discuss any experiences of emotional overwhelm with the CoC and how to best cope or manage this.

(7) **Tasking and Reviews.** Ensure clear, concise, and non-ambiguous instructions are given to individuals. Aid with setting task priorities to keep in line with deadlines. Discuss areas that are challenging and ways that you can be held accountable, considering the complexity of a task.

(8) **IT Equipment.** Discuss any software needs with CoC, utilising the IT team on board platforms or IHUB ashore to enable access to software that will aid your work output. These can be requested for all MODNet laptops, with programmes such as CalroRead and Dragon. These and other applications can be viewed via the Applications and Peripherals Portal[16]. Microsoft accessibility features provide a guide[17] of how to make accounts more accessible. Requests can be submitted via the Navy Digital Front Door[18], with permission from your line manager and ITSO, quoting your current UIN. Queries should be directed to navydigital-frontdoor@mod.gov.uk.

c. The use of a check list can aid in the understanding of an individual's needs for any reasonable adjustments within the workplace. An example of a checklist can be found at Annex 96Q. This tool should be used in divisional interviews or where there is a requirement. Further guidance on workplace adjustments can be found on the MOD's D&I toolkits, guides and resources webpage[19].

[19] Workplace Adjustments (https://modgovuk.sharepoint.com/sites/IntranetDiversityAndInclusion/SitePages/ReasonableAdjustments-and-Access-to-Work.aspx)

9816. Workplace Adjustment Passport

a. Where there is a requirement for workplace adjustment that requires sourcing of additional or new equipment, then the DES Form 221 Workplace Adjustment Passport should be filled out as appropriate. This form is to be signed by the individual requesting items as well as their line manager.

b. When requesting IT modifications, a display Screen Equipment (DSE) Self-assessment should have been carried out by the individual in the first instance and MOD Form 5016 and 5013 filled out iaw JSP 375[20]. This should be accompanying the DES Form 221 when requesting additional equipment.

9817. Workplace Support Plan (WSP)

a. Personnel are able to obtain a workplace support plan, which is bespoke to the individual and is created by a SpLDA in the Learning and Development Organisation. The support plan will specify the individuals' current struggles with ways of working or learning as well as their strengths and will identify areas where the individual will benefit from some reasonable adjustments in the workplace.

b. The WSP specific section will detail methods of support which where appropriate in the operational environment should be used with the individual, this will ensure the individual is performing effectively, allowing them to succeed at work and not hinder them.

c. Further information about SpLDs (Dyslexia, Dyscalculia, DCD) can be found in JSP 822[21].

d. Further advice and guidance on Neurodiversity policy related matters can be sought from the RN D&I team[22] or on the D&I Portal. The RN's Infinite Network[23] is also a hub of knowledge to support personnel who may be impacted by neurodiversity.

ANNEX 98A

LINE MANAGER CHECKLIST FOR REASONABLE ADJUSTMENTS

Reasonable adjustment checklist	Confirmation of action taken
Step 1 Is there an indication or a requirement for reasonable adjustments? Ensure you are familiar with the RN's Neurodiversity policy found in BRd 3(1) Ch 96, and what constitutes as a reasonable adjustment.	
Step 2 Does the individual have a learning or workplace plan from an SpLD advisor? Does it require a review or amendment?	
Step 3 Discuss the individuals best working practices. Are there any areas they are concerned with?	
Step 4 Are there any reasonable adjustments that would benefit the individual? Are they reasonable? Will they significantly aid the individual in the workplace? Will it negatively impact others? Are they relevant? Relevant to the adjustment required that does not impact operational capability.	
Step 5 Are you able to assist the individual by putting reasonable adjustments into place. Yes: Implement changes (e.g. new working plan). No: Seek further guidance from RN D&I team and/or refer individual to occupational health or LDO if deemed necessary.

CHAPTER 101

MARITIME RESERVES

SECTION 1

REGULATIONS FOR PERSONNEL MANAGEMENT

10101. The Regulations, Command and Organisation of the Reserve Naval and Marine Forces

The Maritime Reserves exists to provide sufficient, capable and motivated personnel, at readiness, to reinforce Regular Forces. The Regulations, Command and Organisation of the Royal Naval Reserve and Royal Marines Reserves are contained within BRd 3(2); procedures and process information are contained within BRd 3(1) Part 10.

10102. Annual Training Obligations and Operational Deployment Beyond Normal Retirement Age

A member of the MR is required to train in the United Kingdom or elsewhere in any one year. Regulations governing Annual Training Obligations are contained within BRd 3(2). In certain situations, there will be a requirement to consider deploying individuals to an operational environment who are beyond Normal Retirement Age (NRA). This is to be assessed on a case-by-case basis, considering the operational need where SQEP is otherwise unavailable, providing the individual meets medical and fitness requirements. Requests for service beyond 55 in the MRs is via Extensions of Service or Engagement/Commission Transfer Boards.

10103. Reporting Changes of Circumstances

All Officers, Ratings and ORs of the MR are responsible for ensuring that their personal details (address, contact numbers, next of kin details, nature of other employment etc.), recorded in JPA, are correct at all times or as soon as practicable following a material change in circumstance. Irrespective of whether any such changes have occurred during the year, individuals are to certify annually that their details are correct on JPA. Commanding Officers are to ensure that the annual certification has been conducted prior to awarding the Certificate of Efficiency (CoE).

SECTION 2

MARITIME RESERVES ENTRY

10104. General Entry Standards

Entry and medical standards (MFD) into the MR are the same for the Regular Service and may be found in Part 4 of this BR. Additionally:

a. **Age Limits and Waivers.** Normal age limits are detailed in the Recruit and Attract (RA) Eligibility Matrix (Chapter 7, Para 0759). However, WFPM RES SO2 may approve age waivers for candidates who do not meet the age criteria. Royal Navy Careers Service staff who are also Part Time Volunteer Reservists (PTVRs) are to make a formal application for an age waiver to RA using the standard approval process method. Once received, the application will be forwarded to WFPM RES SO2 for consideration. If approved, eligible and recommended, the candidate is to be processed in the normal way.

b. **URNU Students Joining the RNR.** In the final year at university, a student member of an URNU can apply to join the RNR Accelerated Officer Programme and, on successful completion of the AIB, they will join the RNR in the rank of Officer Cadet on List 1. They will be administered and paid by their RNR Unit but be seconded back, in their RNR rank, to their original URNU until the completion of their university studies with no obligation to attend their RNR Unit. Upon award of the URNU CoE, they will have been deemed to have achieved the requirements for Bounty at the List 1a rate. On completion of their studies or leaving the URNU they will be required to meet the full criteria for award of a List 1 Bounty.

10105. RNR Ratings and RMORs Attestation Papers

On entry Ratings and ORs are enlisted in accordance with RFA 96 s9. Attestation is the evidencing of the validity of the process leading to a recruit's enlistment and in the genuineness of a recruit's answers on the form. Enlistment occurs when the declaration is made and signed on the Attestation Form. The procedure for attestation is as follows: On entry Ratings and ORs are enlisted in accordance with RFA 96 s9. Attestation is the evidencing of the validity of the process leading to a recruit's enlistment and in the genuineness of a recruit's answers on the form. Enlistment occurs when the declaration is made and signed on the Attestation Form. The procedure for attestation is as follows:

a. The Enlisting Officer (EO) (defined as a commissioned officer of the Regular Services or of any Reserve Force (RFA 96)) must warn the recruit that they must answer questions on the Attestation Form truthfully. The Attestation Form is available on the CMR HQ Site[1].

b. For RNR Ratings this is the Notice Paper and Attestation Form provided at Annex 2A; for RMR ORs this is the Notice Paper and Attestation Form provided at Annex 2B. These Notice Papers can only be amended by the Admiralty Board of the Defence Council.

[1] https://modgovuk.sharepoint.com/teams/55961/CMRHGtemp/Forms/AllItems.aspx

c. The EO must provide the recruit with a copy of the Notice Paper and satisfy themself that the recruit understands it and wishes to be enlisted. The EO must then read out to the recruit the questions set out in the Attestation Form.

d. The EO must ensure that Question 13 in the Attestation Form is correctly populated as per the Terms of Enlistment stated in the appropriate Notice Paper. For RNR Ratings this is as per paragraph 12 of the Notice Paper at Annex 101T; for RMR OR this is as per paragraph 8 of the Notice Paper at Annex 101U.

e. The EO must satisfy themself that the recruit understands the questions and must record their answers on the Attestation Form.

f. The EO must ask the recruit to sign the declaration on the Attestation Form. The EO must witness the recruit signing the declaration.

g. Upon signing the declaration, the recruit becomes a member of the Maritime Reserves.

h. The EO signs the Attestation Form.

i. When the recruit is finally approved for service, the recruit may be provided with a certified copy of the Attestation Form on request.

10106. Oath of Allegiance

a. The Armed Forces Act 2006 introduced an oath of allegiance for Ratings and ORs entering the Naval Service. This is available in secular and non-secular forms.

b. The signed declaration made at enlistment is a legal requirement whereas the oath of allegiance serves an educational, symbolic and solemn purpose. The oath of allegiance may be sworn during the first day of training or at another suitable point shortly after enlistment but note that swearing the oath of allegiance is a requirement for service i.e. recruits are not permitted to decline.

10107. Rank on Entry - RNR Officers

a. **Officer Cadets and Upper Yardmen.** On passing the AIB, and subject to final selection by COMMARRES, RNR candidates will be promoted to the rank of Midshipman (paid as OF1 IL1) but will not wear the rank insignia and will be addresses as Officer Cadets. Promotion thereafter will be in accordance with BRd 3(1) Chapter 66.

b. **Seamless Entries/Trained Re-entrants.** Seamless Entrants and Trained Re-entrants will generally be commissioned into the RNR in accordance with the principles and guidance in BRd 3(1) Chapter 48, Section 4 with SO1 RES CM, in consultation with SO2 RES WFPM, assessing each application.

c. **Promotion to Officer by Ratings and Other Ranks.** For Upper Yardmen (UY), Senior Upper Yardmen (SUY), Corps Commission (CC) and Senior Corps Commission (SCC) policy refer to BRd 3(1) Chapter 50 and BRd 3(1) Part 10. COMMARRES (SO2 Training) acts as the Recording Authority for Reservists.

SECTION 3

MR OFFICER COMMISSIONS

10108. MR Commissions and Commission Parchment

a. RNR Officers are awarded the King's Commission on being promoted to confirmed Sub Lieutenant or above and are eligible for a Commissioning Parchment which they must request in accordance with Annex 101S.

b. RMR Officers are eligible for a Commissioning Parchment once they have completed Part 1 of Officer Training.

c. On commissioning, MR Officers retain their commission in perpetuity, unless they are permitted to resign their commission, or it is terminated on a compulsory basis. Whilst holding a commission, officers have no absolute right to give notice or seek discharge from the Service.

d. Officers who have served in the Royal Navy or Royal Marines are not entitled to a second Commission Parchment upon joining the RNR or RMR.

10109. MR Commissions from 1 Apr 15

a. From 1 Apr 15, the MR adopted a common commissioning structure. Entry and re-entry policy guidance is at Chapter 48. Commissions, Transfers and continuance in the Service policy guidance is at Chapter 49.

b. **Commission Stages.** The 3-stage commission career pathway is as follows:

(1) **Initial Commission Stage (ICS(RNR)).** 12 years from date of entry into service.

(2) **Career Commission Stage (CCS(RNR)).** An additional 8 years to either 20 years' service or aged 40, whichever is later. Selection by CT Board.

(3) **Full Commission Stage (FCS(RNR)).** To age 55. Selection by CT Board.

10110. Eligibility for MR Commission Transfer

Commission Transfers require the following.

a. **ICS(MR) to CCS(MR).** To be eligible for a commission transfer to CCS an officer must be on the trained strength and:

(1) Be able to complete a further period of service beyond an ICS/IC/SC up to retirement age.

(2) Be recommended by their 2RO in their latest OJAR.

(3) On either List 1, List 2 or List 5 (those on List 5 must have a MR Specialisation Short Appraisal Report (SAR)[2].

(4) Be within the appropriate zone. Those over-zone for selective promotion may still be considered exceptionally for a CCS(RNR) within the normal transfer zones. If transferred will thereafter be eligible for promotion within the appropriate zone on the new commission.

(5) Have achieved Certificate of Efficiency for 4 out of the last 5 training years[3].

b. **CCS(MR) to FCS(MR).** To be eligible for a commission transfer to a CCS an officer must be on the trained strength and:

(1) Be able to complete a further period of service beyond a CCS/CC/MC up to retirement age.

(2) Be recommended by their 2RO in their latest OJAR.

(3) Be on either List 1, 2 or 5 (those on List 5 must have an MR Specialisation Short Appraisal Report (SAR)demonstrating meaningful output and a recommendation for further service).

(4) Be medically fit for transfer.

(5) Be within the appropriate zone. Those over-zone for selective promotion may still be considered for an FCS(RNR) within the normal transfer zones, and if transferred will thereafter be eligible for promotion within the appropriate zone on the new commission.

(6) Have achieved Certificate of Efficiency for 4 out of the last 5 years.

(7) For RMR Officers, in addition, successful completion of:

(a) Walcheren Essay.

(b) RMFT. And in-date RMFT is required at the OF2 CRD (31 May) and on the date of commission transfer eligibility checks/OF3 CPD (1 Oct). This will ensure commission transfer eligibility, OF2-OF3 promotion eligibility, and substantive promotion to OF3 if selected.

c. Those officers who do not wish to accept a transfer to CCS are permitted to opt-out provided they declare their intention[4]. There will be no minimum time served to be considered eligible for commission transfer. All candidates meeting the criteria above will be identified by RN Proms and OCM RM1. Once the relevant checks have been completed, the named individuals will be transferred to CCS approx. 3 Oct each year.

[2] Chap 49 para 4904.
[3] For those who seamlessly enter from Regular service can be deemed to have achieved CoE for those years not as PTVR.
[4] Para 4908.

10111. MR Officer Entry Prior to 1 Apr 15

All general officers who joined before 1 Apr 15 joined on a continuous Reserve Commission until age 55 and will not transfer to a NEM Commission Stage but will continue to serve on their existing CC to NRA. On reaching NRA, further service may be offered as either a Commission Extension or Extension of Service in accordance with the guidance in Chapter 49, Section 1.

10112. Commission Transfer and Continuance in Service

a. **Extensions of Service (EOS).** Personnel may apply or be invited to apply to extend their service beyond the Normal Retirement Age (NRA). EoS for the MR is managed in accordance with BRd 3(1) Chapter 49 and the following:

(1) Applicants must have achieved 4 out of 5 Certificates of Efficiency in the last 5 years.

(2) Applications are to be initiated by the individual no later than 6 months prior to their final date in service, by submitting their MR EoS Application Form to their Divisional Officer.

(3) The MR EoS Application Form is to be requested from navypeople-cmreservesmailbox@mod.gov.uk.

b. **Commission Extension to 60 (CE60).** CE60 is an additional workforce lever that provides an additional opportunity for some Officers to serve beyond NRA55, up to retirement age 60, strictly to meet Service needs. Award of CE60, made on an annual basis subject to Workforce Requirement needs, will be to age 60; this will not replace the full commission transfer process, but will lengthen service to 60 for those selected. Eligible candidates will:

(1) Be Reservists serving on Lists 1, 2 or 5 who are between the ages of 51 and 59 on the 1 May.

(2) Have a minimum OPG of B with at least one OJAR from the previous three years reporting rounds.

(3) Have a recommendation for further service from their 1RO and 2RO.

(4) Not have submitted notice.

(5) Not be identified as a Long Term Non Participant.

(6) Be in an MFD or MLD (perm) MEDCAT.

(7) Have achieved Certificate of Efficiency for 4 out of the last 5 training years[5].

[5] For those who seamlessly enter from Regular service can be deemed to have achieved CoE for those years not as PTVR, though evidence of Reserve activity would be expected for award of any ES.

c. Selected officers will be transferred to CE60 unless they opt out within 3 months of the selection notification.

d. **Selection Criteria**. Selection will be based primarily on merit as applicable to commission transfer and made on employability in current rank (promotion potential will not be considered) with consideration given to future employability, aligned with an individual's potential termination (Tx) date[6]. Additionally, medical deployability, as recorded on JPA and determined by the Naval Service Medical Employability Board, will be considered as part of the selection process. Consideration will also be given to professional qualifications, specialist skills and experience achieved when assessing individual officers.

e. **Selection Process**. Selection will be by a 'panel' comprising of:

(1) For OF4s: Hd WFPM, Hd CM and an MR OF5.

(2) For OF3s and below: CM RES SO1 (or SO2 as appropriate), SO2 STRAT WFPM RES and SO1 representative from WFPM or CMRHQ as the Chair.

f. Where the CE60 MAuN exceeds the number of those candidates meeting the eligibility criteria, the panel can agree to waive the requirement for individual selections and recommend to COMMARRES that CE60 is awarded to all eligible volunteers. Additionally, where a branch is in surplus, officers may have the opportunity to branch transfer[7] subject to meeting the eligibility criteria of the receiving branch. Where candidates exceed MAuN the panel will score each candidate based on eligibility, employability and suitability. These scores will be added and list produced. The MAuN line will be added to determine those to be awarded CE60.

g. Any Officer selected for CE60 will serve until the day before their 60th birthday thereby affording them the opportunity to re-enter the zone for promotion up to their 57th birthday.

h. OF3 officers who are subsequently selected for promotion to OF4 will revert to RA55 or promotion date plus 3 years, whichever is the longer, allowing at least one full job at OF4. Further service would be subject to successful application for CE60 as an OF4 or EoS if required by the Service. Similar arrangements would apply to OF4 officers promoted to OF5.

i. **Notification and JPA TX Date Action**. Notification of selection will be made via MyNavyApp and SCIO TX dates on JPA will be adjusted by Navy PROMS. Where practicable, CMs will also notify those selected by e-mail.

[6] The length of service remaining to an individual will be considered alongside the other selection criteria to permit a holistic assessment of the benefit to the Service in offering CE60.
[7] IAW BR3(1) Chapter 51.

SECTION 4

MR OFFICER CAREER DEVELOPMENT

10113. MR Career Management

Overall responsibility for the Career Management of RNR Officers up to and including OF4 rests with CMRES SO1. In recognition of the fact that up to OF2 there are no posts outside RNR Units, Career Management for OF1 and OR2-OR6 is delegated to Unit Commanding Officers under the overall guidance of CM RES SO1Career Management of OF5 and above is the responsibility of the Naval Assistant.

10114. MR National Assignments Plot

a. Specialist Roles and Common Assignments are captured in the MR National Plot. This is managed and administered by CM RES SO1, who reviews all positions on a quarterly basis. They are filled through a competitive process, co-ordinated by CM RES SO1 in accordance with career management principles (BR3(1) Ch 59). The most suitably qualified, experienced and available person is selected. These are endorsed by COMMARRES.

b. The MR National Plot is constructed from the MR Directive (MRD). It is to be reviewed and validated against the MRD whenever it is re-issued. Changes to the MR National Plot that occur outside of this validation process must be authorised by DACOS FP and approved by COMMARRES.

10115. MR National Assignments Plot Principles

a. MR National Plot assignments are normally for two years. CMR HQ issues an annual CMRTM detailing the number of additional RSDs that are allocated to fulfil the roles and responsibilities of these posts.

b. Personnel serving on Mobilised Service will not normally be assigned to a post on the MR National Plot. Exceptions will be considered on a case-by-case basis and presented by CM RES SO1 to COMMARRES for approval.

c. Personnel will not normally be assigned to more than one position on the MR National Plot. Neither will they normally hold a National Appointment and an administrative role in their Specialisation/Unit. Exceptions will be considered on a case-by-case basis and presented by CM RES SO1 to COMMARRES for approval.

d. Personnel serving on List 4 will not be eligible for a National Appointment.

10116. MR Command Boards

The Command Board process generally follows the procedures laid down for Regular personnel.

a. There are unique nuances to selection for Command of an RNR unit (vice Regular Command Selection) that must also be factored in:

(1) **Geography.** Volunteer Reserves (VR) do not, traditionally, change units on assignment as such there is a requirement for an individual to be able to routinely achieve a reasonable and practical commute to a unit.

(2) **Time.** As with all National Roles the time commitments required to Command an RNR unit are above the standard CoE requirement. As such not all VRs may be able to take up a Command position due to their time availability.

b. **Process.**

(1) **Command Board Pool Selection.** A board will convene to select candidates based solely upon merit for command as evidenced in an individual's selection file. The board will score candidates as A (considered suitable for Command Now) or B+ / B / C (considered not yet ready). All candidates graded A will be eligible for extraction, subject to geographical requirements and the availability of the individual during the pool window[8]. The board composition will follow the same structure for all selection boards and comprise 1 x profession chair, 1 x profession member and 1 x independent member at the appropriate rank for the candidates being boarded. The results of the selection process will be published by SCIO/MyNavy, together with a pool selection notification on the Proms Defnet webpage as normal.

(2) **Develop Assignment Recommendations.** On completion of the Command board, the Res CM will be presented with a pool of selectees, in order of merit, available for Command assignments. The CM will then be afforded time[9] prior to the Command Assignment Stakeholder Engagement, to determine recommendations for optimal command assignment outcomes, recognising other career management factors including individual preferences, longer-term career trajectory factors and any geographic and domestic considerations.

(3) **Command Assignment Stakeholder Engagement.** Having identified the right people for the right jobs, Res CM will engage with employers and other stakeholders as part of the nomination process.

[8] 1 Jul to 30 Jun.
[9] Two weeks set as a realistic maximum.

(4) **Head of Specialisation Endorsement.** The final phase would see the ratified list of command assignments passed to CMR as Head of Specialisation (HoS) for final endorsement. This phase will offer HoS the opportunity to discuss and raise any concerns which may necessitate additional stakeholder engagement prior to HoS endorsement[10]. Prior to assignment orders being issued, individuals will be informed of the outcome by the relevant CM with congratulatory messages being sent by HoS as necessary.

(5) **Duration of Selection.** Selectees not extracted during the pool window will be re-presented the following year providing they continue to meet the eligibility criteria.

c. **Eligibility Criteria.** The eligibility criteria are as follows:

(1) Candidates for OF3 Command should hold a recommendation for Unit Command in the most recent OJAR, have at least one report in rank, with at least 2 years to serve on current commission, and have completed ICSC (see para10128.h).

(2) Candidates for OF4 Command should hold a recommendation for Unit Command in the most recent OJAR and be either a substantive OF4 or in the OF3-4 promotion pool aligned to the command pool year, with at least 2 years to serve on current commission[11], and have completed ACSC or equivalent (see para 10128.h).

(3) RMR officers (within the parameters above) will be eligible to command RNR units.

(4) Personnel serving on FTRS or mobilised service (within the parameters above) will be eligible for the Command Board. However, personnel serving on either FTRS or Mobilised Service will not normally be assigned to a Command position.

(5) Personnel currently in, assigned to, or have completed a Command role will not be considered at future Command Boards for the same rank.

(6) All eligible candidates should be considered ‘in scope’. Individuals can turn down a Command assignment if subsequently offered an extraction from the Pool. This should not disadvantage them from subsequent boards.

[10] Dir P&T will adjudicate on any disagreement.
[11] Effective from the beginning of the pool year..

(7) Whilst personnel who have completed OF4 Command will not be considered at future Command Boards, they do however remain available for the CM to consider them for future Command if there are no 'pooled' candidates available. If no Command-selected OF4 candidates are available for an OF4-tagged command position, AHR options will be sought from the OF3 Command pool. If no Command-selected OF3 candidates are available for an OF3-tagged command position, candidates will be considered from the OF4 pool[12].

(8) Should no Command-selected RNR or RMR officer be available, SO1 Res CM will discuss alternative candidates with CMR. RFR officers may be considered but will have to transfer to the RNR for this purpose.

10117. MR Senior Officer Assignments

All assignments for MR OF5 will be considered by the Naval Assistant in consultation with COMMARRES for 1SL approval. Assignments are normally for three years. Officers substantively promoted to OF5 or above will be subject to SOCR in accordance with BRd 3(1) Annex 66A.

10118. MR Officers without Assignments

A number of MR Officers (OF4 and above) will, from time to time, be without assignment. These officers will be captured and tracked by SO1 List Manager and be subject to periodic review in accordance with the requirement. If it is decided by COMMARRES that the service of an officer is no longer required on List 1, then they are to be transferred to List 3 or the Retired List.

10119. RNR Officer to RN Officer Transfer

All serving or ex RNR Officers who join the RN and are required to undertake full INT(O) will be paid at the level of their RN entry cohort as OF1-01. They will join in the rank of Midshipman and advance as detailed in BRd3(1). Where previous service and experience results in a reduction in training, this can be taken into account for appropriate award of seniority on entry (Chapter 13, para 1308.h. also refers)

10120. RMR Officers Career Management

At present the overall responsibility for Career Management of RMR Officers rests with Col RMR. In recognition of the fact that up to OF3 there are normally no posts outside of RMR Units and that Officers are not assigned between Units, however, the Career Management for OF1 and OF2 Officers is delegated to Unit COs under the overall guidance of a suitably qualified Career Manager.

10121. Employment Outside of RMR Units

a. Other than under FTRS or mobilisation, RMR Officers will normally be employed exclusively in RMR Units up to the rank of Captain, the main exceptions being SBS(R) and HUMINT.

b. At the rank of Major, Officers will predominantly be employed in RMR Units; however, in addition to SBS(R) and HUMINT, some broader roles are available in COMMARRES HQ and MR CAPPS at OF3.

[12] These positions are rank ranged OF3-4, with OF3 being the preferred rank.

c. At Lieutenant Colonel, other than when employed as Commanding Officer of a Unit, RMR Officers will be employed either in COMMARRES HQ, MR CAPPS or broader MOD roles.

d. When taking up a position outside of their Unit, RMR Officers will, other than in the case of mobilisation, be transferred from that Unit's Establishment List and onto the receiving Unit's Establishment List or COMMARRES' Establishment List.

e. RMR Officers serving outside of RMR Units will be administered in all respects by that Unit and meet the requirements of that Unit for their annual Certificate of Efficiency.

10122. Assignment as Commanding Officer of RMR Units

The selection of suitably qualified by rank and seniority RM Commanding Officers will be via the Military Command Board 2 (MCB2).

10123. RMR Applicants with Previous Commissioned Service

a. **Eligibility.** Applicants for a commission who have previously held regular or temporary commissions in any of the regular or reserve forces of the Crown and who meet the nationality criteria for RMR Officers may be granted direct commissions at the discretion of the RMR Officer Transfer Board. Passing the Commando Tests and being awarded a Green Beret is mandatory for every RMR Officer and must be achieved by any non-Commando trained officer. Failure to do so will result in a commission being terminated. Applicants must be made aware of the consequences before they resign their existing commission.

b. **Application to Transfer.** In order to request transfer into the RMR, the applicant should write to R&A (Officer Entry). R&A will log the applicant's details and send out a standard proforma in order to obtain the required details on the man and request that serving officers arrange for their current Unit to forward copies of their personal file to R&A and that officers who are no longer serving forward copies of their service papers (discharge certificate, appraisals et al) to R&A themselves.

c. **Commanding Officer's Interview.** The Unit CO will invite the applicant for an interview and will provide written feedback to R&A. For ex-Regulars, the CO will probe as to whether the candidate understands, and is realistic about, the time commitment required to be an RMR Officer in addition to a civilian career. The Unit CO will return their interview notes and recommendation to R&A along with confirming whether there are vacancies in their Unit at present and if so in what rank.

d. **RMR Officer Transfer Board.**

(1) The RMR Officer Transfer Board consists of:

DCMR/Col RMR
SO1 RMR
RMR RSM
CM RES SO1
WFPM RES

(2) The RMR Officer Transfer Board will convene as required and establish:

(a) Whether the applicant is to be offered an RMR commission.

(b) The rank and seniority applicable.

(c) Additional training required for the applicant to be considered a fully trained RMR Officer.

(d) Probationary terms (if any) pending completion of above training.

(e) Start date.

e. **Security and Medical.** R&A will write to the successful applicant with details of the appropriate AFCO to arrange medical and security clearance.

f. **Offer of RMR Commission.** Subject to a satisfactory medical and security clearance, R&A will write to the applicant with an offer of an RMR commission. Formal terms of commission will be attached and will cover the detail established by the RMR Transfer Board.

g. **Non-Commando Trained Officers.** Non-Commando trained officers will be placed on the RMR untrained strength until they successfully pass Commando training. Should officers subsequently be unsuccessful at Commando training within two years of the date of their commission then the commission will be terminated. On completion of Commando training and any additional training specified by the RMR Officer Transfer Board, officers will be moved onto the RMR trained strength.

h. **Acceptance of Commission.** The applicant will write back to CNR confirming acceptance of their terms of commission. Applicants transferring from other Services must resign their commission the day before they are awarded a commission in the RMR.

i. **On Boarding.** The Unit CO will liaise with the candidate reference on boarding and will arrange for the originals of service documentation to be forwarded to Navy DDPD Hd Promotions as the custodian of RMR Officers' service records.

10124. Direct Entry Royal Marines Reserve Officer

There is currently no Direct Entry scheme for the RMR.

10125. Specialisation Selection

On completion of Phase 1/Phase 2 training, RNR Officers can select their branch of preference depending on liability. Branch Sub-Specialisation selection processes are at Section 13.

10126. Branch Transfer Between Specialisations

a. **Principles**. The overarching principle governing Branch Transfer is that the needs of their service are paramount, and that the workforce requirement is the primary driver as to whether an individual is able to transfer or not. Transfer out of a shortage category Specialisation or Sub Specialisation will only be permitted under exceptional circumstances. No service person has a right to transfer.

b. **Process**[13]**.** All Branch Transfer requestions are to be raised via the individual's divisional structure, with visibility of the application given to Commanding Officers. A Divisional Officer is required to outline the implications for such a request, as well as managing the expectations of the individual. To initiate the process, RNR Specialisations are to apply on behalf of the individual by submitting a Branch Transfer request form (Annex 101A), with full supporting documentation, to NAVYPEOPLE-CMRESERVESMAILBOX@mod.gov.uk.

c. **Eligibility.** In order to be eligible for Branch Transfer, and for the transfer to be actioned, the individual must:

(1) Hold or be able to obtain the required level of security clearance must be achieved[14].

(2) Have a permanent JMES and meet the minimum JMES of the gaining specialisation.

(3) Be on List 1, 2 or 5 (if on List 5, evidence of activity for the Specialisation must be demonstrable)[15].

(4) Be on a valid engagement (those on and Extension of Service will not be eligible).

(5) In-date (pass) RNPES.

(6) Have been awarded Certificate of Efficiency in 4 out of the last 5 training years[16].

d. **Selection Boards.** The Maritime Intelligence (Annex 101J), Cyber (Annex 101K) and the Media Operations Specialisation Areas are the only specialisations who hold selection interviews/weekends that individuals need to pass prior to Branch Transfer. These are only to be attended following authorisation from the Career Manager and approval for Branch Transfer from the losing specialisation. Individuals or Divisional Officers are not to arrange attendance on the Selection Board outwith this process.

[13] See Annex 101A for RNR Branch Transfer Process Flowchart.
[14] If an individual intends to transfer to a branch or Specialisation but is unable to obtain the requisite level of security clearance, the request will not be actioned.
[15] Where an individual has applied to return to the Active List from List 3, but is unable to do so due to lack of Workforce Requirement in source Specialisation, applications may be made for Branch Transfer into a shortage category whilst on List 3.
[16] Where this has not been possible due to transfer from Regular service, or total service being less than 5 years, eligibility will be determined on a case-by-case basis by the Branch Management function.

e. **Rank and Seniority**. Branch Transfer will impact in almost all instances the seniority of the individual being transferred; no individual will be overly advantaged by transferring into branch over those already in branch. As a general rule, seniority will be adjusted to the date of the transfer. In some circumstances, depending on the competence profile of the individual requesting Branch Transfer and the training requirements of the gaining specialisation, a reduction in rank or rate may occur upon transfer.

f. **Certificate of Professional Qualification**. Any previously held Certificate of Professional Qualification (CPQ) will be removed upon entry to the new branch; a new CPQ Log will be issued with the required training of the new branch. No training can be waived without agreement from the appropriate Training Requirements Authority; and waivers that are granted are to be explicitly recorded in the Branch Transfer documentation and in the individual's P-file.

g. **Terms and Conditions of Service.** Prior to the Branch Transfer start date, new Terms and Conditions of Service (TACOS), in the form of a TACOS letter, will be issued by the Career Manager. A signed return of the issued TACOS letter must be received by the Career Manager for the Branch Transfer to be finalised. This letter will contain any changes to rank/rate, seniority, incremental base date, as well as any training waivers authorised.

10127. Transfer Between MR Units

Transfers between Units should be proposed by the 'providing' Commanding Officer and agreed by the 'receiving' CO.

SECTION 5

MR OFFICER PROMOTION

10128. Promotion of MR Officers

Promotion in the MR, as far as is practicable, mirrors that of the Regular Service and this is described in Chapter 65 and Chapter 66.

a. The general principles and regulations for promotion are contained in the Chapters referenced above. These are to be read in conjunction with the following paragraphs aimed specifically at promotion of MR officers. Specific training requirements for RNR Branches and Specialisations are published in Training Matrices. For officers who have already completed an equivalent course, applications for waivers for mandatory courses are to be made to WFPM RES SO2.

b. **Promotion to Captain/Surgeon Captain/Colonel (OF5).** Promotion to OF5 is by selection from eligible OF4s (see Para 10128.a). A board will be convened during March with suitable candidates selected for a 'pool' from which subsequent promotion may be authorised should the officer concerned be assigned into a suitable post. Officers who have not been assigned into a suitable post prior to the next Promotion Board will remain in their current rank and be reconsidered at this board. To be eligible, RMR officers must be in date for BFT or in receipt of an approved waiver recorded on JPA at the CRD. Eligibility for promotion to OF5 would normally include the requirement to have completed an assignment as Commanding Officer/Head of Branch and a senior management assignment.

c. **Promotion to Commander/Surgeon Commander/Lieutenant Colonel (OF4).** Promotion to OF4 is by selection from those eligible OF3s (see Para 10128.a). A board will be convened during February with suitable candidates selected for a 'pool' from which subsequent promotion may be authorised, should the officer concerned be assigned into a suitable post. Officers who have not been assigned into a suitable post prior to the next Promotion Board will remain in their current rank and be reconsidered at this board. For RNR officers, the relevant Training Matrix must have been completed and a Certificate of Professional Qualification submitted to the MR Promotions Office within three months following the CRD. RMR officers must be in date for BFT or in receipt of an approved waiver recorded on JPA at the CRD.

d. **Promotion to Lieutenant Commander/Major (OF3).** Promotion to OF3 is by selection from those eligible personnel (see Para 10128.a). A board will be convened in November with promotions effective on the following 1 October. For RNR officers to be eligible, the relevant Training Matrix must have been completed and a Certificate of Professional Qualification submitted to the MR Promotions Office within three months following the CRD. RMR officers must have received a Yes recommend (or higher) for 1UP in the latest OJAR and be in date for RMFT or in receipt of an approved waiver recorded on JPA at the CRD. Captains RMR (DE and SCCO) must also have completed the following:

(1) Military Analysis (MA) B;

(2) Amphibious Warfare Course (AmphWarC) (once reinstated);

(3) Naval Analysis Course (NAC);

(4) Walcheren Essay[17].

e. **Time spent in Acting Higher Rank.**, Time spent in acting higher rank will not count towards seniority for promotion. RNR officers who have spent time in acting higher rank prior to 30 Jun 14 will be deemed to have accrued seniority for promotion but at least one year must be served in the substantive rank to be eligible for promotion – e.g. time spent as an Acting Lieutenant prior to 30 Jun 14 will count towards seniority for promotion to Lieutenant Commander but at least one year must be served in the substantive rank of Lieutenant to be eligible for promotion to the next rank.

f. **Non-Selective Promotion.** Promotion up to the rank of Lieutenant RNR/Captain RMR (OF2) is subject to approval of MR Unit Commanding Officers and Specialisation Heads on satisfactory completion of branch qualifications Officers must also be in date for RNPES or in receipt of an approved waiver recorded on JPA. The following considerations apply:

(1) **Midshipman RNR.** (Paid at IL2). On successful completion of BRNC Confirmation Course (end of Phase 1A Training).

(2) **To Sub Lieutenant RNR (OF1).** (Paid at IL3). On achieving the following criteria:

(a) Successful completion of Fleet Board at the end of Phase 1B Training.

(b) Have spent a minimum of 12 months in the rank of Midshipman.

(c) Recommended by their Commanding Officer.

(3) **To Lieutenant RNR (OF2).** On achieving the following criteria:

(a) On successful completion of branch-specific YO training.

(b) Achieved CPQ for Lt in branch.

(c) Achieved a minimum of three years seniority as a Sub Lieutenant.

(d) Recommended by CO.

[17] Walcheren Essay – this can be completed as either a Lt or Capt but is a prerequisite for promotion to Maj RMR.

(4) **Promotion to Lieutenant RMR (OF1).** On completion of one year as a Second Lieutenant. To be eligible the officer concerned must have successfully completed the following courses:

(a) For Officers with No Previous Commissioned Service and Direct Entry Reserve Officers: as laid down in Para 10154.

(b) For Officers with Previous Commissioned Service: as determined by the RMR Officer Transfer Board.

(5) **Promotion to Captain RMR (OF2).** On completion of 30 months seniority as a Lieutenant. To be eligible the officer concerned must have successfully completed the following courses:

(a) Military Knowledge - Junior Officer's Tactical Awareness Course (MK JOTAC);

(b) JOTAC - minimum of 'core' block weeks 2-3;

(6) **Promotion to Captain RMR (SCCO) (OF2).** On completion of 24 months seniority as a Lieutenant. To be eligible the officer concerned must have successfully completed a minimum of two weeks on the RM Regular Senior Corps Commission Course.

g. **Promotion of Medical Officers.** Promotion of Medical Officers is in accordance with Chapter 66. Promotion to Surg Lt is automatic on date of full registration with the GMC. Promotion to Surg Lt Cdr is automatic on attaining 5 years seniority in the substantive Surg Lt rank and for promotion to Surg Cdr, officers require 6 years seniority as a Surg Lt Cdr.

h. **Command and Staff Training.**

(1) The following apply to all eligible MR Officers with effect from 1 Apr 25[18]:

(a) ICSC[19] is **not** required as either a pre-selection or pre-promotion requirement for promotion of Lt Cdr RNR or Maj RMR. Completion of ICSC(LR) is however required for all RMR OF3 (DE and SCCO) as part of RMR Offr PME and to enable them to fulfil internal to RMR Unit command roles and commensurate command and staff roles in CFs.

(b) ACSC[20] is **not** required as either a pre-selection or pre-promotion requirement for promotion of Cdr RNR or Lt Col RMR.

(c) Completion of ICSC will remain a pre-requisite for attendance on ACSC.

[18] Initially published in RNTM 07-012/25
[19] This includes ICSC(M) and ICSC(MR). ICSC(LR) is also accepted for RMR Officers.
[20] This includes ACSC and ACSC(R).

(d) Completion of ICSC will become a pre-requisite for consideration for OF3 Command in the MR.

(e) A *psc*[21] competence will become a pre-requisite for consideration for OF4 Command in the MR.

(2) **Eligibility.**

(a) Attendance on ICSC(MR) or ICSC(LR) remains open to substantive OF2s and above only.

(b) Attendance on ICSC(MR) or ICSC(LR) requires prior completion of the Naval Analysis Course (NAC).

(c) Attendance on ACSC(R) remains open to substantive OF3s and above only.

(d) Attendance on either ICSC or ACSC remains open only to those with 'YES' or above recommend in their latest OJAR, from the individual's 2RO.

(3) **Application.** Applications to attend Command and Staff Training will be invited via an annual CMRTM. Course loading will be undertaken by the CMR Command and Staff Training Team.

(4) **Waivers.** Where an individual believes they have relevant alternative experience, including as a result of transferring from Regular Service (for example, attendance at a foreign staff course or completion of MPhil in lieu of ACSC), they may apply for a waiver (see Para 10128.a).

10129. Non-Substantive Promotion - Local and Acting Higher Rank

a. Non-Substantive promotion to the Local or Acting Higher Rank mirrors, in as much as it is practicable, those principles applied in the Regular Service and as described at Chapter 66, Section 4.

b. There are two types of non-substantive promotion:

(1) **Acting Higher Rank (AHR).** AHR may be authorised by the Career Manager in accordance with the guidance in Part 8 of this BR and the following:

(a) AHR may only be granted by Career Managers on submission of the approval's paperwork detailed in Annex 66C. Any individual to be considered for AHR must have a minimum "Yes" Recommend for 1Up on their latest appraisal.

[21] Which may be achieved as a result of ACSC (Regular or Reserve), overseas staff course (where it qualifies for the psc competency) , or Accreditation of Prior Learning.

(b) Use of AHR will be considered in all throughflow calculations, including promotion MAuNs, where the Future Availability Date (FAD) of an individual on AHR exceeds the Common Promotion Date (CPD) in a given year.

(c) Individuals holding CPQ for the rate/rank above will be considered for AHR over those who do not.

(d) Award of AHR is only to be awarded for MR National Roles. Where a PID is rank-ranged an individual holding the lower substantive rank will not be eligible for AHR.

(e) For UMS positions, SUPA should be considered before AHR. When considering MR Unit, only COs and XOs of MR Units (excluding RMR COs) are to attract AHR (in extremis, for reasons such as geographical constraint)[22].

(f) For OF4 and OF5 pool promotions, AHR will not be awarded where there are suitable and eligible candidates in the pool who remain unextracted.

(g) For mobilised service, MR FGen must seek approval from the CM prior to processing any mobilisation paperwork.

(h) OF1s in the MR, unless possessing RFR liability due to previous regular service, are not permitted to undertake FTRS unless 'CPQ for Lt' in their source specialisation.

(i) RMR personnel must be in date for BFT to be awarded AHR.

(2) **Local Rank.** Local rank may be granted occasionally by the Career Manager for representational or traditional purposes. Local rank may be higher or lower than substantive rank but pay remains at the substantive rank level.

10130. Certificate of Professional Qualification (CPQ)

a. The CPQ ensures that individuals are fully qualified for promotion. The management, application and assurance of CPQs was revised in May 24[23].

b. **CPQ Log.** The CPQ Log template is available at Annex 101Q. Completion of the CPQ is the responsibility of the individual, who must ensure that the correct signatories are obtained, in the orders required on the CPQ Log. The individual's Specialisation SO1 is responsible for forwarding a copy of the CPQ Log to the MR Promotion Section (MRPS) iaw Para 10130. This only applies to PTVRs on List 1, 2 or 5.

[22] For other UMS/Unit positions, SUPA should be considered when there is a lack of suitable personnel.
[23] Archived policy records are available from NAVY PEOPLE-MR HQ POLICY SO1.

c. **Training Matrices.** The content of the CPQ will be determined by the relevant Training Matrix. Training Matrices are managed by NAVY PEOPLE-WFPM RES SO2 and endorsed by the MR Customer Executive Board (CEB). Details of any changes to the Training Matrix is to be reflected in the individual's CPQ Log. A period of 24 months from the 'date of change' will be given to allow time for any new training requirements to be completed. During this period, any completed CPQs will remain extant, however, they will be annotated with an end date – the relevant Specialisation SO2 is responsible for end-dating the CPQ competency.

d. **Waivers.** In some instances, equivalent or higher-level training or qualifications may be held by an individual, which negate the need for RSDs to be spent on completing some training iaw the Training Matrix. These will normally be captured in course Assessment Strategies as Recognition of Prior Learning (RPL). CPQ Waivers for RPL can only be awarded by NAVY PEOPLE-WFPM RES SO2 and must be submitted by email via the individual's Specialisation SO1 or Commanding Officer.

SECTION 6

MR OFFICER APPRAISAL

10131. Appraisal Reports for MR Officers

a. Appraisal Reports (AR) for MR Officers are to be completed in accordance with JSP 757. A Certificate of Professional Qualification must be submitted to the Maritime Reserves Promotion Section (MRPS) at each rank certifying that the officer concerned has completed all mandated training for promotion to the next higher substantive rank.

b. **FTRS.** MR Officers on FTRS will have the AR completed by their employing unit; however, a Short Appraisal Report is to be provided by the Specialisation or Unit CO.

SECTION 7

MR OFFICERS LEAVING THE SERVICE

10132. Leave Well Process

Guidance for Service leavers and Unit staff regarding the Leave Well Process, including Valedictory Certificates, can be found at Annex 101B.

10133. Honorary Higher Rank on Retirement

a. An officer who has held Acting Higher Rank (AHR) may, on retirement, be awarded that rank in an honorary capacity at the Dir P&T/NavSec's discretion delegated to COMMARRES, provided they have held the AHR for a minimum period of two years immediately prior to retirement.

b. This honorary rank will entitle the officer to use the title of the higher rank in civilian life and to wear the uniform of that rank on occasions of ceremony. It does not give entitlement to the higher rank if they are required to return to service for any reason.

c. An officer wishing to apply for the award of honorary rank must do so in writing to COMMARRES, requesting use of the title of the higher rank. COMMARRES may, at their discretion, approve or decline the request.

d. To qualify for the Retired List, officers must have a satisfactory record of Service. COMMARRES reserves the right to refuse admission to the Retired List for officers who are considered in any way unsuitable for further naval service. For further information on the MR Officers Retired List see BRd 3(2) Chapter 2.

10134. Wearing of Uniform by Former Members of the Maritime Reserves

a. Former members of the MRs and RFR are not permitted to wear the Naval Uniform without authority and any attempt to do so will be in contravention of the Uniforms Act 1894 (UK Public General Acts 1894 c. 45 (Regnal. 57 and 58 Vict) Section 2).

(1) *Military uniforms not to be worn without authority.*

(a) It shall not be lawful for any person not serving in His Majesty's Military Forces to wear without His Majesty's permission the uniform of any of those forces, or any dress having the appearance or bearing any of the regimental or other distinctive marks of any such uniform: Provided that this enactment shall not prevent any persons from wearing any uniform or dress in the course of a stage play performed in a place duly licensed or authorised for the public performance of stage plays, or in the course of a music hall or circus performance, or in the course of any bona fide military representation.

(b) If any person contravenes this section, they shall be liable on summary conviction to a fine.

b. Former members of the Maritime Reserves (MR) who have been placed on the Retired Lists of the RN or who have voluntarily or compulsorily been discharged from the MRs prior to TX date or Normal Retirement Age are not eligible to continue to wear uniform once they have left service unless specifically requested to do so and if there is no other Naval Service Representation available[24].

c. As Veterans, ex-members of the MR can wear the dress code characteristically worn amongst the veteran community:

(1) Civilians may wear items of uniform such as caps and berets with badges in public displays, performances and at special events, provided that such action is not to the detriment of the Royal Navy.

(2) By custom, ex-service personnel may wear caps or berets with badges on remembrance and memorial occasions. Medals earnt in service are to be worn on the left side above the breast pocket. If desired, medals not earnt by the individual but awarded to deceased family members can also be worn but on the right-hand side above the breast pocket.

(3) Historical re-enactment groups and staff in preserved historic ships are to be authorised to wear obsolete uniforms.

d. **MR Unit Functions.** Former members of the RNR/RMR are welcomed and encouraged to attend unit functions/activities. However, to ensure correct propriety is given, prior to attending events, COs are to ensure all former members are informed of the civilian attire suitable for the occasion. Unit COs/Specialisation SO1s are to enforce the following:

(1) **Formal Mess Functions.** Black Tie or equivalent.

(2) **Unit Engagement.** (i.e. Remembrance Day Parades): Veterans' attire.

e. It is highly unlikely that Veterans will be required to represent the RN at official functions. However, if circumstances do arise, COs/SO1 CAs are to engage with SO1 Policy in the first instance to ensure Higher Authority is obtained from Dir P&T.

[24] BR3(1) Chapter 38 Para 3824.

SECTION 8

MR RATING/RMR OR CAREER DEVELOPMENT

10135. RNR Ratings Career Management

Overall responsibility for the Career Management of RNR ratings rests with CM RES SO1. Warrant Officers will be actively Career Managed by CM RES SO2 into a selection of regional and specialisation assignments and also positions on the RNR National Plot. Below this rank, Career Management will be provided by Specialisations and Units via the Divisional System and under the overall guidance of CM RES SO2.

10136. RMR OR Career Management

Overall responsibility for the Career Management of RMR ORs rest with RM CM.

10137. Employment

a. Specialist and Common Assignments for Warrant Officers are captured in the MR National Plot. This is managed by CM RES SO2 who reviews all positions on a quarterly basis. The plot is managed and filled in accordance with the MR National Plot assignment principles.

b. RNR Ratings will otherwise be employed in their Branch and Specialisation.

10138. MR Entry for Ratings and ORs

Following introduction of New Employment Model, Regular and Reserve Engagement Stages (ES) are now aligned as below:

a. Direct entrants join on Employment Stage 1 (ES1) in accordance with BRd 3(1) Chapter 48 which provides for 12 years of service. On transition to the Trained Strength (TS), ES2 will be automatically awarded on receipt of the “Re-Engagement of RNR Personnel to ES2” Request Form, which is available from NAVY PEOPLE-CM RES CPO. This will provide further service to a total of 20 years’ Length of Service (LOS), or service to age 40, whichever is later. Failure to satisfactorily complete training will result in removal from the Royal Navy during ES1 as a training failure. Beyond ES2, ES3 will offer further extensions of service or career to suitable individuals in blocks of five years to a maximum age of 60.

b. Beyond ES2, transfer to ES3 will be strictly by selection in accordance with Chapter 49 with the additional requirement that members of the MR must have achieved Certificate of Efficiency in 4 out of the last 5 years.

c. The Royal Naval Reserve Declaration on Re-Engagement Form is to be completed on each further term of service. The form is at Annex 101C.

10139. Specialisation Selection

On completion of Phase 1/Phase 2 training, Ratings can select their branch of preference depending on liability. Branch Sub-Specialisation selection processes are at Section 13.

10140. Branch Transfer Between Specialisations

a. **Principles.** The overarching principle governing Branch Transfer is that the needs of their service are paramount, and that the workforce requirement is the primary driver as to whether an individual is able to transfer or not. Transfer out of a shortage category Specialisation or Sub Specialisation will only be permitted under exceptional circumstances. No service person has a right to transfer.

b. **Process**[25]**.** All Branch Transfer requestions are to be raised via the individual's divisional structure, with visibility of the application given to Commanding Officers. A Divisional Officer is required to outline the implications for such a request, as well as managing the expectations of the individual. To initiate the process, RNR Specialisations are to apply on behalf of the individual by submitting a Branch Transfer request form (Annex 101A), with full supporting documentation, to NAVYPEOPLE-CMRESERVESMAILBOX@mod.gov.uk.

c. **Eligibility.** In order to be eligible for Branch Transfer, and for the transfer to be actioned, the individual must:

(1) Hold or be able to obtain the required level of security clearance must be achieved[26].

(2) Have a permanent JMES and meet the minimum JMES of the gaining specialisation.

(3) Be on List 1, 2 or 5 (if on List 5, evidence of activity for the Specialisation must be demonstrable)[27].

(4) Be on a valid engagement (those on and Extension of Service will not be eligible).

(5) In-date (pass) RNPES.

(6) Have been awarded Certificate of Efficiency in 4 out of the last 5 training years[28].

d. **Selection Boards.** The Maritime Intelligence (Annex 101J), Cyber (Annex 101K) and the Media Operations specialisms are the only specialisations who hold selection interviews/weekends that individuals need to pass prior to Branch Transfer. These are only to be attended following authorisation from both the Career Manager and approval for Branch Transfer from the losing specialisation. Individuals or Divisional Officers are not to arrange attendance on the Selection Board outwith this process.

[25] See Annex 101A for RNR Branch Transfer Process Flowchart.
[26] If an individual intends to transfer to a branch or Specialisation but is unable to obtain the requisite level of security clearance, the request will not be actioned.
[27] Where an individual has applied to return to the Active List from List 3, but is unable to do so due to lack of Workforce Requirement in source Specialisation, applications may be made for Branch Transfer into a shortage category whilst on List 3.
[28] Where this has not been possible due to transfer from Regular service, or total service being less than 5 years, eligibility will be determined on a case-by-case basis by the Branch Management function.

e. **Rank and Seniority.** Branch Transfer will impact in almost all instances the seniority of the individual being transferred; no individual will be overly advantaged by transferring into branch over those already in branch. *Ratings/ORs transferred from one specialisation to another are not allowed to count time in their previous specialisation for promotion purposes in the branch to which they have transferred*. As a general rule, seniority will be adjusted to the date of the transfer. In some circumstances, depending on the competence profile of the individual requesting Branch Transfer and the training requirements of the gaining specialisation, a reduction in rank or rate may occur upon transfer.

f. **Certificate of Professional Qualification.** Any previously held Certificate of Professional Qualification (CPQ) will be removed from JPA upon entry to the new branch; a new CPQ Log will be issued with the required training of the new branch. A copy of any previously achieved CPQ is to be held by the individual. No training can be waived without agreement from the appropriate Training Requirements Authority; and waivers that are granted are to be explicitly recorded in the Branch Transfer documentation and in the individual's P-file.

g. **Terms and Conditions of Service.** Prior to the Branch Transfer start date, new Terms and Conditions of Service (TACOS), in the form of a TACOS letter, will be issued by the Career Manager. A signed return of the issued TACOS letter must be received by the Career Manager for the Branch Transfer to be finalised. This letter will contain any changes to rank/rate, seniority, incremental base date, as well as any training waivers authorised.

10141. Transfer Between MR Units

Transfers between Units should be proposed by the 'providing' Commanding Officer and agreed by the 'receiving' CO.

10142. RNR Ratings Transfer Between Specialisations - Counting of Time

RNR Ratings wishing to transfer between specialisations are to refer to BRd3(1) Chapter 51.

10143. Assignment as Senior Warrant Officer (SWO)

The Maritime Reserves Senior Warrant Officer (MR SWO) is the Senior Non-Commissioned Reservist in the RNR, responsible for all matters relating to the MCofOC. The assignment is normally for three years. The role is FTRS and advertised/filled iaw Chapter 102.

10144. Assignment as Maritime Reserves Regimental Sergeant Major (RSM)

The Maritime Reserves RSM is a Regular position and appointed iaw Appendix 1 to Annex 91A – WO1 RM Preliminary Selection Board.

SECTION 9

MR RATING/OR PROMOTION AND APPRAISAL

10145. Principles of Promotion

Promotion in the MR, in as far as is practicable, mirrors that of the Regular Service and this is described in Chapter 65. A Certificate of Professional Qualification (CPQ) must be submitted to the Maritime Reserves Promotion Section (MRPS) at each rate certifying that the rating concerned has completed all mandated training for promotion to the next higher substantive rank. The CPQ process for Rating/OR is iaw Para 10130.

10146. MR Ratings and OR Promotion

a. **Seniority and Common Promotion.** Seniority and Common Promotion Dates in the MR for Ratings are show in the table below:

Promotion Board	Common Reporting Date (CRD)	Seniority Requirement (in year board sits)	Date to arrive in WFC	Board Date	Common Promotion Date (CPD)
WO2 to WO1	30 Sep	0	30 Nov	Feb	N/A
CPO to WO2	30 Sep	0	30 Nov	Feb	N/A
PO to CPO	31 Mar	0	31 May	Oct	31 Mar
LH to PO	31 Jan	3 years by CPD	31 Mar	Jul	31 Jul
AB to LH	30 Nov	18 months by CPD	31 Jan	Jun	31 Jul

b. **Pool Promotion.**

(1) To satisfy the unpredictable nature of the WO2 and WO1 requirements in the RNR and to ensure that the potential for promotion of all eligible candidates is properly recognised, a process used for promotion to OF4 RNR is used. For promotion to WO2 and WO1 RNR, the Promotion Board considers the eligible CPO/WO2 population and produces a ‘pool’ of promotable candidates. SO2 RES CM will utilise this list to run suitable candidates for assignments that need to be filled in the forthcoming year.

(2) The lists generated by the Promotion Boards, which will not be published, will be valid from 1 Apr of the year of the Board to 31 Mar of the year following the Board. Those identified as being ready in all respects now and selected for the ‘pool’ will be informed via MyNavy/SCIO.

(3) As promotion will be dictated by the requirement, CPO/WO2 selected for the ‘pool’ by the Promotion Board are not guaranteed promotion. CPO/WO2 short-listed, who are not selected for promotion by 31 Mar of the year following the Board, will be reconsidered by the next Board providing they remain eligible. Skills, experience and availability of the individual are all major factors in determining who is actually promoted.

(4) Promotion to WO2 RNR and WO1 RNR will be effective from the date of assignment in the higher rank.

c. **Acting Higher Rate (AHR).** AHR mirrors, in as much as it is practicable, those principles applied in the Regular Service and as described at Chapter 69, Section 5 and the following:

(1) AHR may only be granted in accordance with Chapter 69. Any individual to be considered for AHR must have a minimum “Yes” Recommend for 1Up on their latest appraisal.

(2) Use of AHR will be considered in all throughflow calculations, including promotion MAuNs, where the Future Availability Date (FAD) of an individual on AHR exceeds the Common Promotion Date (CPD) in a given year.

(3) Individuals holding CPQ for the rate/rank above will be considered for AHR over those who do not.

(4) Award of AHR is only to be awarded for MR National Roles. Where a PID is rank-ranged an individual holding the lower substantive rank will not be eligible for AHR.

(5) For UMS positions, SUPA should be considered before AHR.

(6) For mobilised service, MR FGen must seek approval from the CM prior to processing any mobilisation paperwork.

(7) RMR personnel must be in date for BFT to be awarded AHR.

d. **Local Rank.** Local rank may be granted occasionally by the Career Manager for representational or traditional purposes. Local rank may be higher or lower than substantive rank but pay remains at the substantive rank level.

10147. MR Upper Yardman (UY) and Senior Upper Yardmen (SUY) Commissioning Schemes

The Upper Yardman (UY) and Senior Upper Yardman (SUY) Commissioning Schemes are designed to provide opportunities for the promotion of Ratings to Commissioned rank thus enabling the individuals to reach their potential and the Naval Service to build its pool of officer talent.

a. All UY and SUY officer candidates must pass selection by the Admiralty Interview Board (AIB)[29], which acts as the primary method of determining officer potential.

b. Ratings may apply to be considered for any officer branch, and where appropriate specialisation, providing that they are able to satisfy the entry criteria.

c. Successful candidates will be selected for an Initial Commissioning Scheme (ICS) of 12 years with appropriate seniority given in accordance with Regular Service regulations[30].

[29] Annex 50G for pre-requisite actions for attendance at AIB.
[30] Chapter 50, Table 50-1.

d. **Age Waivers.** In exceptional circumstances, consideration may be given to granting an age waiver. COs should submit any case which is considered to deserve exceptional treatment to WFPM RES SO2 for a decision.

e. **Failure to Complete Officer Training.** Individuals promoted to the Officer Corps through the UY/SUY Commissioning schemes who fail to make satisfactory progress and are compulsorily withdrawn from training may request to revert to their former rating or other rank branch/specialisation as an alternative to leaving the Service. On reversion to the ranks, personnel will continue to serve the balance of their engagement as a rating.

f. **FTRS/ADC.**

(1) Most military PIDs in the RN are based on the lowest appropriate rank/rate to undertake the roles and responsibilities for the position. SUY candidates can continue in their present FTRS/ADC role if the post is rank ranged to accommodate commissioning rank[31] but the FTRS commitment is to be terminated whilst the SUY attends BRNC. Incumbents will take of the rank of Midshipman until all SUY training has been completed. Thereafter, a new FTRS/ADC commitment is to be raised to reflect commissioning rank but end date of the commitment is to remain the same as the previous commitment length. If unsuccessful at Officer Training, SUY are to resume the role held in the previous rate until completion of the commitment.

(2) Those personnel undertaking FTRS/ADC in a non-rank ranged PiD will normally be required to make one of the following choices:

(a) A Reservist will be required to resign from their FTRS/ADC Commitment to take up a commission prior to the start of training.

(b) Delay Officer Training until completion of the FTRS/ADC Commitment.

10148. UY Scheme Eligibility Criteria and Administrative Process

Ratings may apply to be considered for officer training providing that they are able to satisfy the entry requirements. Personnel seeking promotion to the Officer Corps via this scheme will be in competition with non-Service candidates.

a. The eligibility criteria are:

(1) Be over the age of 17½ and under the age of 42 prior to application for AIB.

(2) Satisfy the educational criteria (see Paras 9615 and 9616).

(3) Have successfully completed Phase 1 training.

[31] SUY candidates undertaking responsibilities in a rank ranged PiD are to be considered Trained Strength.

(4) Not have exercised, or be in the process of exercising, notice to leave the Service.

(5) Be in-date (pass) for RNPES.

(6) Satisfy the **Medical** criteria (see Para 5014).

(7) Be recommended by Unit CO.

b. To ensure that suitable candidates are identified early and are able to gain any missing qualifications, accurate and careful reporting by ROs in Unit/Specialisation Areas and during exercises, deployments, and courses etc is essential. Units should ensure that the reports for which they are responsible are raised. The candidate is responsible for requesting reports whilst on exercise etc.

c. Although ROs, DOs and COs are vital in identifying candidates for AIB the ultimate decision lies with the AIB who will apply a common standard for assessing officer potential and competencies[32].

d. All AIB application are to be processed via the CMR HQ Recording Authority[33,] (RA).

e. The following flow diagram outlines the process for candidates and Units to follow:

Applicant posts intent by completing the Volunteer for a Commission Field on JPA

↓

Divisional Officer's Interview (raise the SJAR)

↓

Candidate to complete AIB Nomination Form (Annex 50H)
Pass to nominated Divisional Officer

↓

Divisional Officer to check the candidate's educational qualifications, discuss future Specialisation options within the RNR, the AIB process and any future training requirements

↓

Commanding Officers' Request
If considered ready in all respect's CO to complete AIB Nomination Form (Annex 50H)

↓

Unit forward AIB Nomination Form (Annex 50H) to CMR HQ RA

f. CMR RA will process the application and forward to the AIB who will confirm receipt, contact the candidate to arrange a suitably convenient date and inform the Unit.

g. If a candidate changes Unit, or withdraws, both AIB and CMRHQ RA must be informed.

[32] Leadership and Management Potential, Effective Intelligence, Courage, Powers of Communication, Values and Motivation.
[33] CMR SO2 Training acts as the Recording Authority for CMR.

h. If successful at the AIB, an Offer of Entry Letter from AIB is issued. Once accepted, CMR HQ RA issue an Officers Entry letter. If extracted, successful candidates will be formally entered into the RNR's Initial Naval Training (Officer) programme, with the option to attend the Accelerated Officers Programme. Unsuccessful candidates will remain in their current specialisation.

i. **Seniority.** On completion of Fleetboard and award of RNR GTS status, seniority will be assessed by STRAT RES WFP SO2.

10149. SUY Scheme Eligibility Criteria and Administrative Process

Senior Ratings may apply to be considered for officer training providing that they are able to satisfy the entry requirements.

a. The eligibility criteria are:

(1) Be under the age of 42 prior to application for AIB[34].

(2) Satisfy the educational criteria Para 9635

(3) Have completed a minimum of 12 months as a substantive Petty Officer.

(4) Not have exercised, or be in the process of exercising, notice to leave the Service.

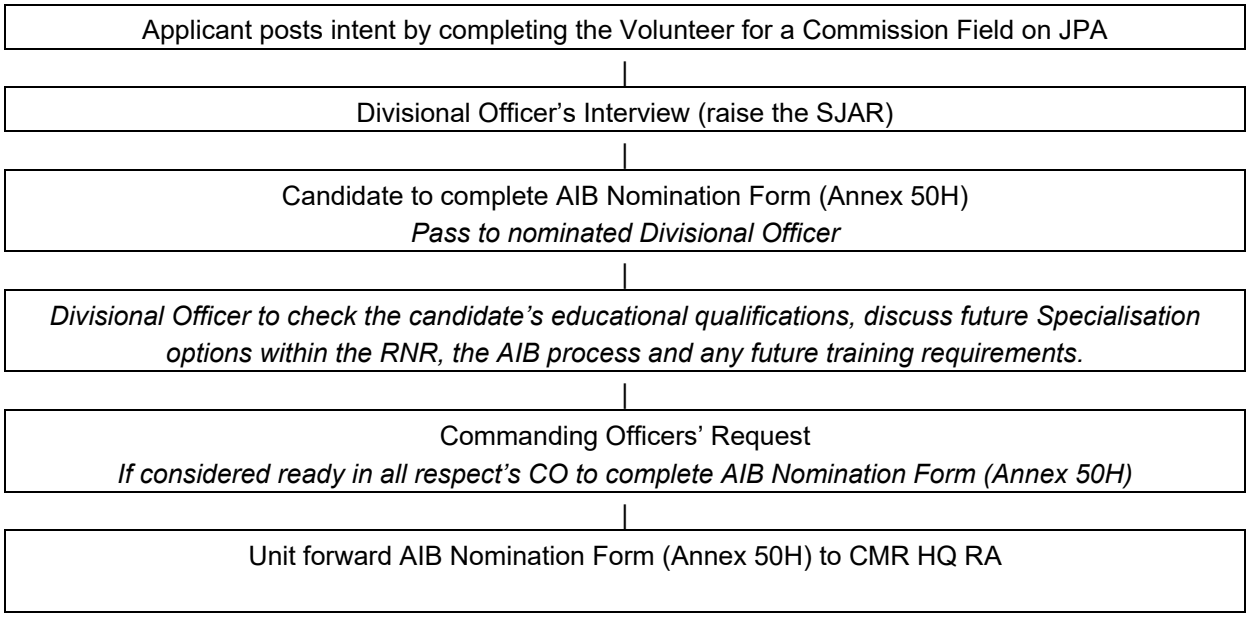
(5) Satisfy the **Medical and RNPES** criteria (see Para 5026).

(6) Be recommended by Unit CO.

b. All AIB application are to be processed via the CMR HQ Recording Authority[35], (RA).

[34] A waiver is to be requested from WFPM RES SO2 for the nomination of exceptional candidates over 42 years of age and will be on a case-by case basis.
[35] CMR SO2 Training acts as the Recording Authority for CMR.

c. The following flow diagram outlines the process for candidates and Units to follow:



d. CMR RA will process the application and forward to AIB who will confirm receipt, contact the candidate to arrange a suitably convenient date and inform the Unit.

e. If a candidate changes Unit, or withdraws, both AIB and CMRHQ RA must be informed.

f. If successful at the AIB, an Offer of Entry Letter from AIB is issued. Once accepted, CMR HQ RA issue an Officers Entry letter. Successful candidates will be formally entered into the RNR's Initial Naval Training (Officer) programme. Unsuccessful candidates will remain in their current specialisation.

g. **SUY Training.** Each SUY officer training package will need to be considered on a case-by-case basis accounting for qualifications, experience and competencies already gained in the RN. For a RNR commission the following will need to be completed. Alternatively, the RN SUY Course can be undertaken in its place.

(1) Confirmation Course.

(2) Flex Weekend.

(3) Fleetboard.

h. For RNR Officer Phase 2 training, the following courses are required.

(1) Junior Officers Leadership Course (JOLC)[36].

(2) Divisional Officers Course (DO)[37].

i. SUY Training options are:

(1) Attendance on the 8-week RN SUY course at BRNC[38].

(2) Undertake sections or all of the RNR Phase 1 Officer training if competencies not already held.

j. RTO BRNC, after consultation with Res BM and SO1 Training if required, will be the final arbiter of training requirements needed to ensure successful extraction to the officer corps.

10150. RNR WO1 Commissioning Scheme (WOCS)

The WOCS offers bespoke Officer selection and employment opportunities and will provide the RNR's most capable Warrant Officer 1s with continued career progression to Lieutenant and beyond, time permitting, in a way which recognises and utilises their considerable Reservists skills and experience.

a. The Commissioned Warrant Officer scheme is separate and in addition to the SUY process. This scheme is aimed at experienced WO1s and only a minority will be likely to have enough time on their commission to accrue sufficient evidence to merit promotion to Lt Cdr RNR. Therefore, those WO&SRs who still have a considerable number of years still to serve should consider the SUY scheme as this offers a broader Officer career.

b. **Eligibility Criteria and Application Process.**

(1) Serving MR WO1s who would be age 54 on date of extraction or under are eligible for commissioning under the Commissioned Warrant Officer (CWO) Scheme. WO1s commissioned under the scheme will need to undertake the Warrant Officer Commissioning Programme (WOCP) at BRNC Dartmouth. Acceptance onto the scheme will be approved once WO1s have been boarded for the MR JO posts below. Individuals must be capable of taking up the appointment after successfully completing training (assignments will be within 12 months of selection). Two positions have been identified for fill by commissioned WOs:

(a) **Training.** RNR AOP SO3 on 40/60 RSDs.

(b) **Assurance.** MR Assurance SO3 on 40/60 RSDs.

[36] Only required if SUY has not already undertaken Senior Rates Leadership Course (SRLC).
[37] Only required if SUY has not already undertaken.
[38] Subject to clearance by BRNC and availability on course loading.

(2) The Scheme will be run annually based on requirement and a calling notice will be issued each year. Volunteers will be reviewed each year until they are no longer eligible.

(3) **Conditions of Eligibility.** All candidates must fulfil the following criteria:

(a) Have a positive SJAR recommendation for the WO Commissioning Scheme.

(b) Hold a permanent JMES of A4 L1 M1 E1 MFD or be in receipt of an executive waiver of the medical entry standard.

(c) Be in-date (pass) for RNPES.

(d) Have obtained the minimum Educational Standards of two GCSEs Grade A* - C (or equivalent) in English language and Mathematics prior to the WO Commissioning Board sitting.

c. Exceptionally, requests for variations to the eligibility criteria are to be addressed to DACOS MR FP via WFPM RES SO2.

10151. WOCS Terms and Conditions of Service

The generic terms of the Warrant Officer 1 Commissioning Scheme have been developed to reflect the additional experience and skills gained through longer service up to and in the rank of WO1. This is a niche process designed to be able to commission senior WO1s on a short six-year commission and employ them in a specialist area with minimal additional training.

a. **Initial Commission/Engagement Length.** Officers commissioned under the CWO Scheme will be given a six years' Officer service (ICS6) or to age 55 whichever is earlier. If they are extracted beyond the age of 52, they will be given a 3-year Commission only. Extensions of Service and opportunities to transfer to longer commissions exist in line with extant policy. Appointment to a commission takes place at the start of the WOCP.

b. **Rank, Seniority and Promotion.** Officers commissioned under the CWO Scheme will be commissioned in the rank of Lieutenant RNR (Lt RNR) on commencing the WOCP at BRNC, with one years' seniority, and will be eligible for promotion after 4 years seniority to the rank of Lt Cdr on the basis of merit for employment in executive functions.

c. **Pay**. A minimum 5% pay rise will be awarded on commissioning.

10152. Selection Process - WO1 Commissioning Board (WO1 CB)

a. The design and intent of the WO1 Commissioning Scheme is to employ ex-WO1s in one to two specialist Officer roles on a relatively limited commission and therefore the requirement to sit the Admiralty Interview Board (AIB) is waived. Those candidates that have previously been unsuccessful at AIB are eligible to apply.

b. RN PROMS will convene a WO1 CB annually and successful Candidates will be placed into a WO Pool to await assignment. If not assigned on selection, WO1s will remain in the pool until the following board sits. Specialist OJARs will not be required as PROMs will utilise the candidates' ordinary promotion dossier using the recognised Definition of Merit for selection.

10153. WOCS Training

a. WO Commissioning Programme (WOCP) at BRNC Dartmouth. This comprises three weeks of unassessed academic lectures, intellectual forums and ceremonial training to support the transition to Officer. There are three courses per year that culminate with a full commissioning Passing Out Parade alongside all other Officer Cadets at the end of their Phase 1 Training. The options for this training requirement are:

(1) **Option 1.** Complete a full 3-week course as a single block of training.

(2) **Option 2.** Complete weeks 1 and 3 of a WOCP, then complete the Naval Analysis Course (NAC) prior to, or 6 months after completion of WOCP week 3.

(3) **Option 3.** Split the WOCP into 1-week and 2-week blocks over separate WOCP courses.

b. Commissioned WO1s will enter the trained strength on passing out of WOCP. Should any additional training involve an assessment with a pass/fail criteria, however, and the newly appointed WO1 ultimately fail that assessment, they will exceptionally be given the option of discharge or reversion back to WO1. Failure to complete the WOCP course within 6 months of passing out will cause reversion to WO1 or discharge.

10154. RMR Corps Commission

a. **Eligibility.** Applicants for commission who have no previous commissioned service must:

(1) Have passed a minimum of five GCSEs or equivalent, two of which must be Mathematics and English Language.

(2) Be between the ages of 18 and 30 on commissioning.

(3) Be serving in the RMR.

b. **Selection.**

(1) **Application for Commission.** An individual may apply for an RMR Commission at any stage after they have successfully completed their Phase 1a recruit course. The application is to be submitted using Annex 101E and forwarded to the Unit CO.

(2) **Unit Selection Board.** Subject to the applicant meeting the eligibility criteria for a commission, the Commanding Officer will convene a Unit Selection Board to review the application and to interview the candidate. The Board will submit its findings to the Commanding Officer using Annex 101E.

(3) **Commanding Officer's Interview.** The Commanding Officer will interview separately all candidates for commission. If satisfied, they will then raise an SJAR specific to the application for a commission.

(4) **Admiralty Interview Board (AIB).** In accordance with BRd 3(1) Chapter 50 Para 5009. On successful completion of the AIB, candidates will be presented to the FSB.

(5) **Candidates who Pass AIB Whilst Recruits.** Candidates need to complete Recruit Phase 2 Training successfully before they can be commissioned.

(6) **Commissioning as a Second Lieutenant RMR.** Once a candidate has passed AIB, they are to undertake RMR Part 1 YO officers training. On completion, application is to be made by the Commanding Officer to COMMARRES for the candidate to promote to Second Lieutenant RMR.

(7) **Corps Commission Part 2 Officers Training.** All RMR CC candidates are to undertake Part 2 RMR Officers Training, Junior Officers Leadership Course and Divisional Officers Course prior to promotion to Lieutenant RMR.

10155. Senior Corps Commission (SCC)

a. **Eligibility.** Candidates for the SCC Scheme must satisfy the minimum criteria given below:

(1) Aged over 26.

(2) Have completed a minimum of 12 months as a substantive Corporal.

(3) Meet the educational criteria.

(4) Be MFD.

(5) Have a valid RM Fitness Test (RMFT) or RMFT(A) pass recorded on JPA.

b. **Application to Transfer.** To request to be considered for a Senior Corps Commission, applicants are to put their request in writing to their CO.

c. **Unit Selection Board.** Once the CO is satisfied that the applicant meets the criteria for a Senior Corps Commission, they will arrange for a Unit Selection Board. Where the Unit Selection Board is satisfied that the candidate has the necessary attributes for a Senior Corps Commission, the CO will forward their written recommendation, along with Annex 101E, in a specially raised SJAR to the RMR Colonel.

d. **AIB.** Subject to the RMR Colonel's endorsement, RMR Units will liaise with AIB staff to load the candidate onto an AIB in accordance with BRd 3(1) Chapter 50 Para 5009.

e. **Commissioning.** Subject to a pass at AIB, the Unit CO will write to COMMARRES to confirm the existence of a suitable vacancy in the Unit. Officers undertaking the Senior Corps Commission will be required to attend a minimum of two weeks of the regular RM Senior Corps Commission Officer course as specified by the RM BM as being the most relevant for Command and G1 training. On completion of the RM SCC Officers Course, the candidate will be commissioned in the rank of Lt RMR. They will also be required to undergo Part 2 of Officer Training but may be granted exemption from specific parts by their Commanding Officer, depending on their previous experience.

SECTION 10

MR RATING/OR LEAVING THE SERVICE

10156. Normal Retirement Age for those who Joined Prior to 1 Apr 15

All ratings must expect to be discharged on reaching the age of 55, unless exceptional approval is granted. All ORs must normally expect to be discharged on reaching the age of 45, unless exceptional approval is granted by the WF Cell RM.

10157. Extensions of Service (EoS)

Personnel may apply or be invited to apply to extend their service beyond the Normal Retirement Age (NRA). EoS for the MR is managed in accordance with BRd 3(1) Chapter 49 and the following:

a. Applicants must have achieved 4 out of 5 Certificates of Efficiency in the last 5 years.

b. Applications are to be initiated by the individual no later than 6 months prior to their final date in service, by submitting their MR EoS Application Form to their Divisional Officer.

c. The MR EoS Application Form is to be requested from navypeople-cmreservesmailbox@mod.gov.uk.

10158. RMR Extensions of Service for Joiners Prior to 1 Apr 15

RMR service will not normally continue after the age of 45 years. Further extensions may be permitted with the approval of the Col RMR. Applications for such extensions are to be submitted at least six months before service is due to expire, with CO's reasons and recommendation. All RMR EOS are to be requested via RMR SO2 and approved by the Col RMR. EOS may be used for the following reasons:

a. To act as a short-term workforce regulator to increase the total bearing of all specialisations to match the global requirement.

b. To assist in alleviating shortages in any particular specialisation or sub-specialisation that cannot be solved by using ORs of other specialisations.

c. To retain ORs with deep specialist skills or knowledge of which there is a shortage.

10159. Leave Well Process

Guidance for Service leavers and Unit staff regarding the Leave Well Process, including Valedictory Certificates, can be found at Annex 101B.

10160. Wearing of Uniform by Former Members of the Maritime Reserves

a. Former members of the Maritime Reserves (MR) who have voluntarily or compulsorily been discharged from the MRs prior to TX date or Normal Retirement Age are not eligible to continue to wear uniform once they have left service unless specifically requested to do so and if there is no other Naval Service Representation available[39].

b. As Veterans, ex members of the MR can wear the dress code characteristically worn amongst the veteran community:

(1) Civilians may wear items of uniform such as caps and berets with badges in public displays, performances and at special events, provided that such action is not to the detriment of the Royal Navy.

(2) By custom, ex-service personnel may wear caps or berets with badges on remembrance and memorial occasions. Medals earnt in service are to be worn on the left side above the breast pocket. If desired, medals not earnt by the individual but awarded to deceased family members can also be worn but on the right-hand side above the breast pocket.

(3) Historical re-enactment groups and staff in preserved historic ships are to be authorised to wear obsolete uniforms.

c. **MR Unit Functions.** Former members of the RNR/RMR are of course most welcome and encouraged to attend unit functions/activities. However, to ensure correct propriety is given, prior to attending events, COs are to ensure all former members are informed of the civilian attire suitable for the occasion. Unit COs/Specialisation SO1s are to enforce the following:

(1) **Formal Mess Functions.** Black Tie/Female equivalent.

(2) **Unit Engagement.** (i.e. Remembrance Day Parades): Veterans' attire.

d. It is highly unlikely that Veterans will be required to represent the RN at official functions. However, if circumstances do arise, COs/SO1 CAs are to engage with SO1 Policy in the first instance to ensure Higher Authority is obtained from Dir P&T.

[39] Chapter 38 Para 3824.

e. In conclusion, former members of the MRs and RFR are not permitted to wear the Naval Uniform without authority and any attempt to do so will be in contravention of the Uniforms Act 1894 (UK Public General Acts 1894 c. 45 (Regnal. 57 and 58 Vict) Section 2).

(1) *Military uniforms not to be worn without authority.*

(a) It shall not be lawful for any person not serving in His Majesty's Military Forces to wear without His Majesty's permission the uniform of any of those forces, or any dress having the appearance or bearing any of the regimental or other distinctive marks of any such uniform: Provided that this enactment shall not prevent any persons from wearing any uniform or dress in the course of a stage play performed in a place duly licensed or authorised for the public performance of stage plays, or in the course of a music hall or circus performance, or in the course of any bona fide military representation.

(b) If any person contravenes this section, they shall be liable on summary conviction to a fine.

SECTION 11

GENERAL ADMINISTRATION

10161. Certificate of Efficiency (CoE)/Bounty

a. **CoE/Bounty CMRTM.** The annual Certification of Efficiency (CoE) is awarded to MRs who have met the minimum training, attendance and mandated requirements as stated in the CMRTM issued annually. This provides assurance to Command that all training performance standards have been achieved and an indication of the Operational Capability status of the Maritime Reserves. The specified criteria for receiving the CoE will be detailed in the annual TM, with further application in JSP 754. If a Reservist can provide a valid and justifiable reason why they were unable to meet the mandated requirements for the award of CoE, they may request a waiver through their Unit CO to CMR HQ.

b. **Annual Training Commitment (ATC).**

(1) **Exemptions.** MR Unit Commanding Officers may authorise exemption from ATC but, to ensure equality and uniformity across the MR, prior approval must be sought from DACOS(MRFP) before such exemption is authorised. Prior to Commanding Officers authorising exemptions from training, consideration must be given to the effect of such decisions upon the award of CoE and Bounty Qualification. In addition, where it is the intention for officers of the rank of SO1 and above to be granted such waivers, approval is to be sought from DACOS(MRFP).

(2) **URNU.** Where a student member of an URNU applies to join an RNR Accelerated Officers Programme (AOP) they will, on successful completion of the AIB, join the RNR in the rank of Officer Cadet on List 1. They will be administered and paid by their RNR Unit but be seconded back, in their RNR rank, to their original URNU until the completion of their university studies, with no obligation to attend their RNR Unit. Upon award of the URNU CoE, they will have been deemed to have achieved the requirements for Bounty at the List 1 rate. On completion of their studies or leaving the URNU they will be required to meet the full criteria for award of a List 1 Bounty.

(3) **Additional Unit Activity.** Unit COs must obtain written approval from NAVY PEOPLE-MR HQ DACOS MRFP prior to setting any additional requirement(s) for CoE. These must be promulgated to all applicable personnel nlt 30 Apr via Unit Temporary Memorandum. It is not within CO's delegated powers to deduct a proportion of bounty against the additional training.

(4) **Extensions to the Training Year.** A one-month extension to the TY (to 30 Apr) can be granted by the Unit CO[40]. Further extensions to a maximum of 30 Jun can only be granted by NAVY PEOPLE-MR HQ DACOS MRFP, delegated to NAVY PEOPLE-MR HQ POLICY SO1. Extensions to the TY should be requested, by email, where such an extension will allow an individual to meet the minimum OCO requirements. Extensions are not to be granted to achieve SA. Applications for extensions are to be submitted at the earliest opportunity and before the end of the TY.

c. **Proportional Bounties.** The only circumstance where proportional bounty may be paid is when an individual's Service Year and Reserve Year are not aligned. Bounty payments may be paid on a proportionate basis in the first and last years of Maritime Reserve service **only** if the Reservist has met all the minimum training requirements set out in the annual CoE CMRTM. For example, if an individual joins the MR on 1 Oct and completes all of their mandated activities and ATC by the end of the TY then they could receive CoE and 50% of the bounty award (6/12ths of the bounty award for the 6 months they have been in the MR). These Proportional Bounty rules also apply to Firefly personnel.

d. **Certificate of Efficiency Waiver Board.**

(1) **Instructions.** These instructions relate to the board that considers Bounty Waivers in the Maritime Reserves. In session the Board reads the applications, votes on the Reservists presented and makes a decision as to whether a CoE and Bounty payment is to be awarded or not. To make a decision on the award of CoE and Bounty, the Board's tasks are to:

(a) Read the file containing applications of all candidates presented. Note that discussion on applications should not normally occur until after voting; however, clarification of fact and personal detail should take place before voting.

(b) Consider any additional matters placed before the board by the Board Adviser and the Specialist advisers in Training and Medical matters.

(c) Finalise the list of decisions against each application.

(2) Each board member is provided with a voting sheet that lists all the applications. A file containing information on all officers, ratings and other ranks will also be provided. Prior to the COE Waiver Board, the Chair will be briefed by the Board Adviser on the process and any issues with mandated requirements, and reserved rights issues to be considered.

[40] JSP 754 Chapter 3, Section 5, 03.0515.d.

(3) **Formal Record.** On completion of the COE Waiver Board, the Board Adviser will prepare a closing statement for signature by the Chair. This document will contain the name, initials, branch and specialisation of the applicants and the decision recorded against them. Once completed and signed, the Board Adviser will inform Commanding Officers and Specified Authorising Officers of the decision and retain the list as a formal historical record of the board. All other records and electronic data including the votes cast by individual board members will be destroyed by the Branch Adviser.

(4) **1998 Data Protection Act.** The data contained in the historical record of the board and any other information generated during the board process as it affects an individual is disclosable under DPA98, but only after the announcement of the decisions have been made. Given that the board's decision is a corporate one and that minutes of the proceedings are not taken, it follows that individual board members' votes and personal notes may not be truly representative of the final outcome. It is for this reason that the Branch Adviser destroys all records and data other than the closing statements signed by the Chair. Individual board members should not knowingly retain their jottings as they are disclosable under DPA98.

(5) **Unlawful Discrimination.** These instructions reflect the Equality Act 2010. Board Chairs, members and Board secretaries are to be constantly mindful of these equality provisions throughout the selection process and whilst deliberating on the relative merits of applicants. The Board Chair is to remind members of this responsibility at the start of the Board and confirm on the Official Record that these principles have been adhered to.

(a) The Equality Act 2010 protects people from discrimination on the basis of ‘protected characteristics’ which are Age, Disability, Gender Reassignment, Marriage or Civil Partnership, Pregnancy and Maternity, Race, Religion or Belief, Sex and Sexual Orientation.

(b) The protection from discrimination generally applies to those serving in the Armed Forces. However, given the need for the Armed Forces to maintain combat effectiveness, the Equality Act 2010 preserves the Armed Forces exemptions from disability and age discrimination.

(c) Discrimination can be direct or indirect:

i. **Direct Discrimination.** The Equality Act 2010 defines direct discrimination as less favourable treatment of a protected characteristic that someone has, or are thought to have (perceptive discrimination), or because they are associated with somebody who has a protected characteristic (associative discrimination).

ii. **Indirect Discrimination.** This is a less obvious form of discrimination and can occur when an organisation has a policy, condition/rule or practice that applies to everyone and is therefore apparently neutral, but which particularly disadvantages people who share a protected characteristic. This may mean maintaining traditions and practices 'because this is what we do'.

iii. **Unconscious Bias.** Studies show that people can be conscientiously committed to equality, and deliberately work to behave without prejudice, yet still possess hidden prejudices or stereotypes; a person who behaves in a discriminatory way does not necessarily have negative intent. This concept of unconscious bias applies to everyone, it governs some of the most important decisions we make and can have a profound effect in many ways. Board members need to be cognisant of unconscious bias throughout the board process.

(6) **D&I Training.** All board members are to be in date for D&I Training. For OF5 and below this is the Advanced Level D&I Training RN/RM and for OF6 it is the Senior Officers' D&I Awareness Course.

d. **Terms of Reference.** The COE Waiver Board will form and operate against the Terms of Reference detailed in Annex 101F.

10162. MR Participation in Civil Events

a. Guidance on participation in civil events is contained in current DINs. Individuals must notify their MR Units who in turn are to seek prior approval of COMMARRES HQ, copy to the Naval Regional Commander, before participation in, and training for, civil events, including Remembrance Sunday parades, local affiliations, tattoos, festivals and carnivals. The application should be in the following format:

(1) MR unit involved.

(2) Details of the event.

(3) Date.

(4) Display it is intended to mount.

(5) Any equipment required.

(6) Estimated cost to the MR of unit participation shown under the appropriate headings.

b. Prior written approval is to be sought before any firm commitment of MR personnel or resources is made. Due regard is to be given to ensure that the necessary security organisations are informed of the intention to be involved in a Public Military or Civil Event, in accordance with current regulations.

c. **Indemnity and Insurance.** When it is necessary to safeguard the Ministry of Defence against claims arising as a result of Service participation in an event, sponsors of the event will be required to give an indemnity, covered by insurance, against third party risks, and on some occasions to cover personnel and property as well. The insurance requirement may be waived if the sponsoring organisation can show that they are already sufficiently covered by insurance to make further cover unnecessary. The comprehensive form of indemnity in BRd 2, Chapter 60 applies.

10163. Publications, Lectures and Presentations

The regulations governing publications, lectures and presentations relating to the Royal Navy are contained in BRd 2 Chapter 68. All MR personnel are similarly prohibited, in the same way as regular RN/RM personnel, from conducting a private representation to Government departments and officials on matters concerning MR policy and/or conditions of service. Such representations are to be conducted via normal Service channels through individual Commanding Officers.

10164. Conflicts of Interest - Declaration of Outside Interests

BRd 2 Chapter 86 and The MOD Conflicts of Interest policy sets out what MOD requires of Crown Servants when their outside business and other private, charitable and commercial activities may conflict with their official duties. COMMARRES is to approve all Declaration Forms.

10165. Military Aid to the Civil Authorities

Reservists are permitted to undertake both Military Aid to the Civil Authorities (MACA) and Military Aid to the Civil Community duties or training whilst serving under the provisions of s27 of RFA 96. Whilst extant and emerging legislation will generally seek to offer mobilisation for such tasks wherever possible, the short notice and short-term nature of assistance to the community at times of disaster may require periods of duty under the provisions of s27. Under all circumstances, Reservists should be qualified and prepared to the same standard as regular personnel for the task they are to undertake.

10166. Employer Support

The aim of Employer Support is to develop and sustain the relationships between the Royal Navy, the Maritime Reservist and their Employer so that an Employer will support a Reservist's release for routine training and, when necessary, mobilisation for operations. Detailed instructions are contained in JSP 766 and Annex 101G.

10167. Employer Notification (EN)

All PTVRs must supply the full contact details of their civilian employer and confirm whether or not they give permission for the MOD to contact their employer directly (a Permanent Exemption or Temporary Waiver may be applied for and granted should a concern be raised by the individual).

10168. Foreign Residence Military Reserve Exchange Programme (FRMREP)

The employment of RNR and RMR personnel under the Foreign Residence Military Reserve Exchange Programme between the United States Department of Defense (DoD) and the UK Ministry of Defence (FRMREP UK/US), as defined in the Memorandum of Understanding (U.S. DoD/UK MOD FRMREP MOU) dated 27 Jul 2015 and 2015DIN01-174[41]. Further detailed instructions are contained in Annex 101H.

[41] 2015DIN01-174.

10169. Leave

Maritime Reserve personnel are entitled to leave iaw JSP 760.

10170. Leave of Absence.

a. COs may grant up to six months leave of absence to any Maritime Reservist who requests it for civilian employment or other reasons. Such leave will not affect seniority or reckonable service in the Maritime Reserves. All applications for leave of absence exceeding six months are to be submitted to the CM. Such submissions are to contain an assessment of the likelihood that the individual will resume training on completion of the stipulated period of absence.

b. **Extended Leave of Absence.** The detailed regulations for extended leave of absence (i.e. more than one year) for RNR are given below. Extended leave of absence may be granted only by COMMARRES.

(1) **Junior Officers under Training.** Junior Officers under Training will normally be required to be removed from the RNR/RMR Active List and apply for re-entry on their return.

(2) **Officers with Under 15 years' Service.** Officers with under 15 years' service will be placed on List 3 for up to three years, thereafter they will be Compulsory Removed from the Active List. Only one such period of absence will be permitted.

(3) **Officers with Over 15 years' Service.** Officers with over 15 years' service are no longer restricted to one period on List 3 and the only restriction on their reversion to this List is that the period spent in this List, over their entire career, does not then amount to more than five years. Thereafter they may be placed on the Retired List.

(4) **Ratings.** Ratings may be placed on List 3 for periods of up to three years; each period being cumulative. For periods in excess of three years they are to be discharged. Should they wish to re-join at some future point, they may be permitted to re-enter in their previous rate, subject to the prevailing workforce situation, and in accordance with current re-entry regulations. Re-entry is not a right and cannot be guaranteed.

(5) **Commanding Officers.** COs who for any reason intend taking a period of leave of absence in excess of one month are to report details to COMMARRES.

10171. Identity Cards

a. Personnel are to carry their ID cards (MOD Form 90) when on duty, including travel to and from training.

b. A new ID Card should be applied for when required e.g. by change in rank etc., in accordance with current instructions.

c. Alteration, unauthorised destruction, loss as a result of lack of care by the individual or failure to take adequate care, or the transfer to another person of an ID Card, is an offence under the AFA 06. MRs should have their attention drawn to the risks to security that may result from loss of an ID Card and the required notification process to be taken.

d. ID Cards of personnel leaving the MR are to be withdrawn and destroyed.

10172. Uniform Regulations

a. The provision, wearing and maintenance of uniform in the MR is to be in accordance with Chapter 45 and JSP 752.

b. MR personnel granted AHR for their FTRS commitment they are to seek the approval of their MR CoC to wear the higher rank whilst attending undertaking MR activity.

c. MR Personnel granted AHR in a MR National Role will not automatically be able to wear the higher rank / rate whilst undertaking their FTRS employment.

10173. Ceremonial

Instructions on ceremonial in MR units are in BRd 2, Chapters 91 and 92.

10174. Service Funerals

Instructions on Service funerals for MR personnel are in BRd 2, Chapter 95.

10175. Regulations for Wearing the Blue Ensign

a. MR Officers on the Active and Retired Lists, appointed in command of British merchant ships and fishing vessels, are allowed to fly the Blue Ensign (undefaced) under the authority of a Warrant issued by the Secretary of State for Defence, subject to the conditions laid down in BRd 2 Article 9153.

b. Applications for Blue Ensign warrants are to be submitted direct to COMMARRES.

10176. Service Funds (Non-Public Funds)

a. Service Funds are to be maintained and audited in accordance with BRd 18, Management and Accounting Instructions for Service Funds and BRd 2, Chapter 80, Section 4.

b. In MR Units a Central Fund, normally comprising the following subsidiary funds, is to be authorised by the CO in Standing Orders:

(1) General Purpose Fund.

(2) Wardroom Mess Fund.

(3) Senior Ratings' Mess and Bar Fund.

(4) Junior Ratings' Club or Mess and Bar Fund.

c. A suitably qualified individual within the unit is to act as Treasurer of the Central Fund with the Support Manager (or Executive Officer where no Support Manager exists) appointed as Supervising Officer. Sub-treasurers are also to be nominated to run the individual Service Funds. The Support Manager (or Executive Officer where no Support Manager exists) is to provide the Command with advice on Service Funds in accordance with BRd 18.

d. Where reasonably practicable, formal Audit teams are to be drawn from civilian external auditors. Units are to fund this requirement internally.

10177. MR Trophies

a. All MR trophies should be registered with the RN Trophy Centre and the holding Unit is responsible for meeting the annual hire charge. Trophies are to be held on the Unit Articles in Use (AinU).

b. Calling Notice for the award of MR Trophies will be issued annually via CMRAI.

10178. Annual Inspection of Personal Details held on JPA

MR personnel are mandated to check and update their personal details held on JPA annually and confirm to their CO that those details are correct.

10179. Final Disposal of RNR/RMR Ratings' Service Documents

a. JPA Records of Ratings/OR service are to be kept up to date by parent units. On release, the JPA account will be closed by CM Res.

b. If held a Ratings/OR Service Documents are to be retained within the MR Unit and the FTRS Cell for a period of six months from the date of discharge. Thereafter, they are to be forwarded as follows:

(1) **Service Documents.** Any paper Service Documents are to be compiled alphabetically in year of discharge order and sent to:

Defence Records Office
TNT Archive Services
Tetron Point
William Nadin Way
Swadlingcote
Derbyshire
DE11 0TB

Tel 01283 227913
Fax 01283 227942

(2) **Receipt/Despatch Note.** All documents forwarded are to be accompanied by a Receipt Note (MOD Form 24). This form is to be clearly marked with the RNR/RMR Unit's address on the reverse side.

10180. Officer Records - Documentation and Disposal

a. JPA Records of Officers' service are to be kept up to date by parent units. In accordance with RFA 96 s.75, all officers are to ensure that they inform their CO of any changes in their circumstances.

b. On discharge, Officers' Personal files and OJARs held in units are to be forwarded to Navy Search, TNT Archive.

10181. Long Term Non-Participant (LTNP)

a. All Maritime Reserve (MR) personnel on Lists 1 and 2 are required to achieve their annual Certificate of Efficiency (CoE), which includes undertaking a minimum number of OCO and SA days throughout the training year. MR Personnel who wish to remain in the MR but, for individual circumstances are temporarily unable to achieve their annual commitment, are entitled to apply for transfer to List 3 for a maximum of 3 years[42] or Leave of Absence (Para 10170). MR Personnel may also request discharge from the MR[43]. These options must be discussed between the Reservist and their Divisional Officer (DO) / Troop Commander (TC) at the earliest opportunity and not left until the Reservist is classed as being an LTNP.

b. **Definition.** MR personnel on List 1 or List 2 who have not undertaken any MR activity for 6 consecutive months will be classed as being an LTNP.

c. **LTNP Management Process.** The process map for managing LTNPs is at Annex 101D and templates of all letters are available on the CMR HQ SharePoint site[44]. The following stakeholders have an active role in managing LTNPs:

(1) **Divisional.** The DO / TC is required to maintain regular engagement with personnel in their Division / Troop, which will provide an early indication that an individual may become an LTNP. This engagement, whether informally or at the MPAR, must include a review of attendance and progress towards achieving CoE. The DO/TC is to ensure that personnel in their Division are aware of the options available to them if they are unable to undertake MR activity for more than 6 consecutive months. The DO / TC is to notify their Command / Specialisation SO1 of all personnel in their Division who have not undertaken any MR activity for more than 6 consecutive months.

[42] BRd 3(2) Para 0107: http://web.apps.royalnavy.r.mil.uk/fpgo/BRd_0001_4999/BRd_0003/BRd_3_2/brd3_2.pdf.
[43] BRd 3(2) Para 0212 (Officers) and Para 0220 (Ratings): http://web.apps.royalnavy.r.mil.uk/fpgo/BRd_0001_4999/BRd_0003/BRd_3_2/brd3_2.pdf
[44] https://modgovuk.sharepoint.com/teams/55961/CMRHGtemp/Forms/AllItems.aspx.

(2) **Specialisation Management.** Specialisations are to provide their Administering Unit with the details of any LTNP within their Specialisation. Specialisations are not empowered to authorise LoA, Transfer to List 3 or discharge from the MR – this is the responsibility of the CO in their Administering Unit.

(3) **Command.** All formal correspondence to LTNPs is to be sent from their Unit's Commanding Officer (CO), or Administering Unit's CO for Specialisations, as Recorded Delivery to the last known address on JPA. Copies of all correspondence and proof of postage are to be retained by the Unit.

(4) **Command Adviser.** The Regional Support Unit (RSU) Officer-in-Charge (OiC) is responsible for providing advice to the Command and must be contacted in the first instance by the CO. The RSU OiC will liaise with the Regional Legal Office for all discharge proceedings.

d. **Discharge.** All discharge proceedings are to be followed in accordance with BRd 3(1) Chapter 20 Section 25[45].

(1) **Ratings.** MR Unit COs have authority to discharge Ratings and RM Other Ranks under their Command[46]. NAVY PEOPLE-MR HQ POL SO1 is to be notified of all LTNP discharges.

(2) **Officers.** NAVSEC has delegated authority to authorise Compulsory Removal from the Active List (CRFAL) to COMMARRES[47]. COs are to make their recommendation to COMMARRES[48] as to whether CRFAL is appropriate and if the Officer should be placed on the Retired List or have their Commission terminated.

(3) **Appeals.** All MR personnel discharged for being an LTNP have the right of appeal.

10182. List Transfer

MRs wishing to transfer from one list to another are to submit a request to the Reserves Career Manager Cell (Res CM Cell). The request is to outline the reasons for transfer and an assessment of the likelihood of a return to full MR activity. The Res CM Cell will make a recommendation, in consultation with the SO2 RES WFPM, Specialisation SO1 and Unit Commanding Officer. Personnel taking up an FTRS Commitment will be moved by the Res CM Cell to List 5 from the date of commencement of the Commitment. At the time of granting an extension of service, consideration will be given as to the most appropriate List on which to place the individual for the period of the extension and if deemed appropriate to change the List, the Res CM Cell will advise the Reservist.

[45] http://web.apps.royalnavy.r.mil.uk/fpgo/BRd_0001_4999/BRd_0003/BRd_3_1/ch20.pdf.
[46] In accordance with RFA 1996 s15(1) and BRd3(2) Chapter 2 Paragraph 0222.b.(5).
[47] In accordance with BRd3(2) Chapter 2 Paragraph 0213.a.
[48] In accordance with BRd3(2) Chapter 2 Paragraph 0213.c.(5).

10183. Discipline

a. The MR are governed by AFA 06 for discipline purposes as prescribed by that Act. The Discipline policy for the MR is in BRd 3(1) Chapter 20 Section 25.

b. **Disciplinary Investigation - Suspension from Training.** When Maritime Reservists engaged in training under RFA 96 Section 22 (1) (Obligatory Training for Bounty) and Section 27 (Voluntary Training Other Duties) are suspended from training for the purpose of a disciplinary investigation, and when such investigation finds that no breach of Service Law was committed, the individual may be paid Bounty if the CO concludes that, on the balance of probability, the Reservist would have received such a payment had they not been suspended.

10184. Parliamentary Candidature and Political Activities

The regulations governing political activities are contained in BRd 2 Chapter 66 and JSP 492.

SECTION 12

MARITIME RESERVES TRAINING

10185. Aims of Training

Reserve training aims to instil and inculcate the professional and personal attitudes, skills and knowledge, through individual and collective interventions and experiences, to enable Reservists to meet COMMARRES operational tasking, whilst also providing a foundation for enduring commitment, retention and development. This Section should be read in conjunction with the Training Chapters contained elsewhere in BRd 3(1.

10186. Training Management and Education

a. RNR training will be conducted in accordance with the Defence Systems Approach to Training (DSAT) quality standard as detailed in JSP 822 and coherent with Defence Direction and Guidance on Training, Education and Skills. Appropriate management processes will be articulated by TRA and TDAs or Training Providers where appropriate and applied by Units and Specialisations; this will enable audits and continual improvement.

b. Legislative compliance demands a robust personnel, training and education governance process and data assurance is a vital component of the process. The Chain of Command must have confidence that individuals are properly qualified for the activities which they have been trained to conduct, or train others in, and that risks can be effectively mitigated or managed. Where JPA competencies do not result from a training event or activity, a record should nevertheless be made in the Reservist's JPA Individual Training History to provide a data reference of the date, its location, nature and result. Reference should be made to JSP 794.

10187. OCO/CT and SA/NCL Application Codes

a. COMMARRES is required to conduct analysis in support of their expenditure and to provide outside authorities with data to support wider Defence initiatives. To support this requirement, and to aid in identification of effort and action, the activities of RNR personnel are split into a number of categories.

b. Units must ensure the correct JPA input form is used when activity is being recorded.

(1) Training Codes for activities that are classed as SA or NCL:

A	Normal Training
B	Training Overseas
C1	Normal Training Unpaid
C2	Training of Restricted Value
D	Not Classed as Training
E	Sponsored Reserves
F	ADC
G	Camp in excess of 15 Days
H	Other duties
L	Leave (ADC)

(2) Training Codes for activities that are classed as OCO or CT:

CT1 CT Camp
CT2 Course
CT3 Attachment
CT4 Modular Training
CT5 Split Camp
CT6 Additional Normal Training

10188. Fitness and Medical

a. **Medical Self-Certification.** It is incumbent upon a Reservist to ensure they are medically and physically fit to conduct training. As part of the medical self-certification[49] required before attending courses, a Reservist who is not fit for unrestricted duties i.e., not in JMES Code MFD A4/L1/M1/E1 must highlight this to their Unit prior to undertaking any training activity. The Unit will liaise with Maritime Reserves Medical Office to confirm those activities that the Reservist may undertake. Further policy on Self-Certification can be found at Annex 101L and associated Appendices.

b. **RNPES.** It is mandatory for Reservists to remain in date for the RNPES, in accordance with the regulations in BRd 3(1) Chapter 29 Section 3. Reservists who are out of date for the RNPES are only to conduct training activities with the direct authority of their Commanding Officer. Personnel who are in date, but failed RNPES, are to ensure they are given every opportunity to re-take the RNPES at the earliest opportunity and, where necessary, Reservists will be required to undertake a remedial training package. As failure to successfully pass the RNPES affects the Call-Out Liability of Reserves, Discharge action will be instigated by the CO after 4 failed attempts. Policy for Discharge SHORE of MR personnel following RNPES failure may be found in BRd 3(2) Chapter 2.

c. **Phase 1 RNPES and Fitness Assessment.** The PES is to be conducted and passed in-unit prior to attending Confirmation Course for both recruits and Officer Cadets (OCs). An RNPES (pass) is required to successfully progress on to Phase 2 Training for INT(R) or Phase 1B training for INT(O). A fitness assessment on Confirmation Course is used to assess a trainee as ‘safe to train’ for the physical challenges of training on Dartmoor, and preparedness for Ex BLD. Failure to pass fitness assessment during Confirmation Course will result in Return To Unit (RTU) action. This is not classed as a formal Confirmation Course failure. The OC/Recruit will be required to retake Confirmation Course at a later date. A hot handover will be sent to the MR Unit advising of the training shortfall.

d. **Naval Swim Test (NST).** Is conducted at HMS RALEIGH on the Recruit Development and OC Development Weekends. Failure to pass NST will prevent a trainee proceeding on to BRNC Development Weekends for marinisation training and Confirmation Course. A trainee who fails NST will be required to reattend the Recruit/OC Development Weekend at HMS RALEIGH to retake, subject to a maximum of two attempts.

[49] JSP950 Pt1 Lft 1-2-12.

e. **Exertional Collapse.** MR Units are to ensure that OCs/Recruits are fully prepared to undertake the RNPES in unit and the fitness assessment on Confirmation Course. Completion of the 12-week RNR INT Physical Training Programme (PTP) is mandatory prior to attempting any maximal physical exertion, including fitness assessments in unit and on Confirmation Course. The PTP has been implemented to prepare OCs and recruits for maximal physical exertion in a safe, progressive manner and reduce the risk of Exertional Collapse in association with Sickle Cell Trait (ECAST) to ALARP.

f. The PTP programme has 5 stages:

(1) **Physical Training Brief.** Delivered to OCs/Recruits at the Recruit Development Weekend at HMS RALEIGH.

(2) **Physical Training Programme 1 (PTP1).** A 6-week self-certified, physical training programme completed in the OC's/Recruit's own time between the RALEIGH Recruit Development Weekend and the BRNC Recruit Development Weekend.

(3) **Physical Training Programme 2 (PTP2).** A further 6-week self-certified, physical training programme completed in the OC's/Recruit's own time in the run up to Confirmation Course.

(4) **Fitness Assessment.** To be completed on Confirmation Course.

g. Only OCs/Recruits who have self-certified they have completed the full training package and had this counter-signed by INT Trainers at the Parent Unit will be permitted to attempt fitness assessment on Confirmation Course.

h. OCs and Recruits attending either the Accelerated Officer Programme (AOP) or the Accelerated Ratings Programme (ARP) received the PTP1 brief 8 weeks prior to course start to prepare them physically for the course. They then undertake further supervised PT sessions during the course before attempting the fitness assessment during either AOP or ARP.

10189. Physical Development (PDev)

a. All PDev is to be conducted in accordance with Joint Service Regulations[50] and extant DINs/RNTMs/CMRTMs. It is expected that AT and Representative Sport should not be conducted at the expense of completion of RNR INT and achieving TS within COMMARRES' stated timelines.

b. Reservists who are either out-of-date for RNPES or who have failed the RNPES are **not** to undertake any form of AT or Representative Sport.

[50] JSP 419 Adventurous Training in the UK Armed Forces.

c. AT is primarily intended to develop leadership, teamwork, physical fitness, stamina and self-reliance, or enhance sea-sense training. It also serves to develop the moral component of operational capability, *esprit de corps*, and is retention positive. It must, however, also be relevant and it is incumbent upon COs to ensure that the AT conducted is of benefit both to the Service and the individual's development as a Reservist.

d. The amount of PDev conducted by any individual is at the discretion of RNR Unit CO, who will decide whether such training should be paid or unpaid. It should not be taken at the expense of the Annual training Commitment to achieve CoE. A maximum of three days AT per annum may be allowed to accrue for bounty qualification purposes. Paid AT in excess of five days per annum is subject to the prior approval of COMMARRES.

e. RSD funding for all Representative Sport is subject to COMMARRES approval.

f. Each activity must aim to develop at least three of the qualities outlined in BRd 51 Vol 3, Chap 1, sub para 0105.

10190. Welfare and Duty of Care (WDoC)

a. MR Units and organisers of training activities must use reasonable endeavours to ensure personnel are not placed at risk travelling to/from training events. The most suitable travel option should be considered not only in terms of economic value but with consideration of event completion time, individual travel requirements, security risk assessments and distances to be travelled.

b. If, due to the exigencies of the Service (unexpected changes to a ship's programme, etc.) it is not possible to release from training an officer or rating on the correct date, COs should approve payment for any additional days.

c. No officer or rating is to be released from training to shore at their own request before completion of the period of training/duty for which they are authorised to be borne, except with the approval of the CO or, in urgent cases, of the senior person present.

d. If a Reservist fails to arrive for MR organised training the co-ordinator is, in the first instance, to attempt to contact the individual. If this fails, the appropriate Unit's Duty PSI should be contacted. Individuals who are unexpectedly unable to attend must inform the co-ordinator as soon as possible. Unit duty staffs are to be aware of those attending training at any given point and should be prepared to implement local procedures.

e. All Units are to provide a nominated member of the Ship's Company to attend the Training Assurance, Welfare and Duty of Care (TAWDoC) Working Group held 6 monthly.

10191. Handover of Recruits and Trainees Considered At Risk

a. The Handover of recruits and trainees' procedure[51] is to be implemented whenever a MR recruit or trainee[52] (Phase 1 and 2) is deemed to be 'At Risk', either due to professional, attitudinal, compassionate, medical, or disciplinary reasons. The names of such individuals must be recorded in their parent Unit Risk Register. RNR units must also inform the relevant Regional Pipeline Manager (RPM) of any individuals considered at risk to allow proper oversight and management. This is especially important under the model of regionalisation of training where trainees may be routinely travelling between Units in their region on a regular basis.

b. A MR recruit or trainee may be a cause for concern for a variety of reasons whilst they are on the Untrained Strength (UTS). There may be evidence of professional failings, poor attitude during Initial Naval Training (INT) or, compassionate, medical, or disciplinary issues that may affect their performance and, if unchecked, their suitability for continued service. In all cases they need tailored management; either pastoral, welfare or coaching to achieve the training objectives and potentially avoid loss from the Service. Delivery of this tailored management and care is reliant upon good communications and efficient transfer of information within and between the MR Unit and Lead Schools. This transfer of information applies when recruits or trainees move through the various elements of the Phase 1 pipeline, onto subsequent Phase 2 training establishments or transfer to another RNR or RMR Unit whilst UTS.

c. Whilst not fully prescriptive, the handover procedure should be conducted whenever a recruit or trainee of concern meets one or more of the following:

(1) transferring from MR Unit to Lead School Phase 1 or Phase 2 training under a Training warning[53].

(2) assessed to be at Risk of harming themselves, others, or materiel. The recruit or trainee would have been the subject of a Case Conference.

(3) under significant personal stress due to compassionate or welfare reasons which are ongoing and require continued divisional management.

(4) subject to Service or civilian Police investigation or is awaiting disciplinary action.

(5) has a medical condition that necessitates an extension or alteration of their training programme.

[51] BRd 3(1) Ch 57 Para 5751 Handover of Information on trainees deemed of concern.
[52] Including RNR Officer Candidates, Young Officers and RMR.
[53] BRd 3(1) Ch 57 Article 5729-31, 5748-9, 5735 & Annex 57B UTS Warning Process.

d. **Handover Procedure (RNR)**

(1) The RPM or Unit Training Officer (UTO) is to arrange for the relevant information to be passed to the receiving establishment or Unit at least 5 working days prior to the physical transfer of the individual and commencement of training. As a minimum, the information below is to be passed using the document at Annex 101P:

(a) Professional / academic warnings.

(b) INT warnings.

(c) Compassionate issues of a relevant or urgent nature.

(d) Limitations on training resulting from a medical issue.

(e) Any other information that the Training Staff thinks might be of use to the receiving establishment or Unit Divisional Staff.

(2) Where appropriate, especially when dealing with complex welfare or medical cases, a face-to-face briefing or telephone conversation between the current and future DO / Training Staff is to be conducted.

(3) **Personnel Risk Register.** Units are to capture those trainees considered at Risk and/or vulnerable in their Unit/Specialisation Personnel Risk Register and report at the Unit Health and Wellbeing Committee. Additionally, details of any trainees at risk should be submitted to CMR HQ SO2 RNR on a termly basis for audit purposes and where necessary, will be used to populate and maintain CMR's 'Register of Vulnerable Persons.'

(4) **Lead Schools.** Training teams at Lead Schools are to complete Annex 101P and submit to an individual's parent Unit within 24 hours in the instance of a trainee being Returned to Unit (RTU'd) to ensure appropriate oversight and management of the individual. The Lead School is to contact the parent Unit to agree travel arrangements and expected arrival times.

e. **Handover Procedure (RMR)**. For RMR personnel attending CTCRM delivered courses (RMR Phase1, BPT Pass-out Weekend, 6MSM weekend and Reserve Forces Commando Courses (RFCC)), the RMR Training Officer prior to attendance on one these courses is to identify any recruit of concern (professional, attitudinal, compassionate, medical or discipline reasons) and ensure a 'hot handover' is conducted with the Reserve Forces Training Team. Annex 101P is to be completed by the parent RMR Unit and forwarded to the Chief Instructor of the Reserve Forces Training Team at CTCRM at least 5 working days prior to the course start date.

f. **Data Protection.** Annex 101P is to be classified as OFFICIAL SENSITIVE – PERSONAL when completed, and the information is only to be shared / retained / stored iaw Data Protection Regulations and policy.

g. **CMRHQ Command Health and Wellbeing Committee (CHWC).** The CHWC chaired will review the Unit Health & Wellbeing Register and conduct Case Conferences with relevant Unit personnel as required.

10192. Leave During Training

a. Reservists accrue pro-rata leave aligned with the number of Reserve Service Days undertaken during the training year. This is calculated automatically by JPA. The entitlement to paid leave and policy of how this is administered is detailed in JSP 760 Chapter 1.

b. Officers and Ratings are therefore not to be granted leave whilst employed on RSDs. Reservists serving on RSDs onboard ships may take shore leave as permitted by the ship's programme.

10193. Overseas Training

a. No Reservist is to proceed on training overseas, or training with an overseas Regular or Reserve Force, unless authorised by COMMARRES HQ. No member of an overseas Armed Force is to train with the MR without prior approval being obtained from COMMARRES HQ.

b. Reservists are not to apply for overseas travel for an exercise billet unless the exercise has been authorised as a supported Defence activity. Approved billets will have a Local Serial Number (LSN) which must be quoted on all applications.

10194. Training Matrices

Training Matrices are derived from a collaborative process with the stakeholders of each specialisation's Training Requirements Authority (TRA) and aligned to the Specialisation's role articulated in Navy Command's Maritime Reserves Directive. Matrices contain a blend of Individual and Collective Training developed through DSAT to enable Reservists to become SQEP (Suitably Qualified and Experienced Person) in each rank or rate and identify when an individual is considered Trained Strength (TS) in their Specialisation. Proposed changes are to be endorsed biannually at the MR CEB.

a. **Individual Professional Qualifying Courses (Individual Training).** Individual Training consists of Professional Qualifying Courses developed through DSAT and endorsed by the TRA. Professional Qualification Courses are the formal individual training solutions required to achieve professional qualifications (SQ).

b. **Continuous Personal and Professional Development (inc. Collective Training).** Other training and activity endorsed by the TRA and/or COMMARRES to broaden qualifications and gain workplace experience via collective training and exercises.

c. Collective Training is aimed at improving the ability of teams, units, or formations, to function as a cohesive entity and so enhance operational capability. It supports the generation of the Experienced Person (EP). Collective Training in the form of exercises will be identified by the Specialisation Manager and specific details will be promulgated separately. The responsibility for managing the update, content and distribution to individual Reservists lies with the appropriate specialisation SO1, in conjunction with the Specialisation Manager.

10195. Training Delivery

a. Training courses and weekends delivered through a Lead School are articulated in the Customer Executive Board (CEB) governance process, which generates the approved annual Statement of Trained Requirement (SOTR). No changes are to be made without advice being sought from WFPM RES SO2, COMMARRES Training Team and the relevant Lead School.

b. Formal branch or specialisation weekend training must be conducted in accordance with JSP 822. Appropriate Supervisory and Duty of Care routines must be provided in accordance with JSP 822.

10196. Remote Working

Where training and education is delivered by virtual means, Reservists are to be paid up to and not more than the number of hours of learning stipulated by the training provider, and in accordance with COMMARRES policy.

10197. RNR Initial Uniform Issue

a. Chapter 39 provides the NS regulations for wearing uniform with Annex 39B specific to RNR officers and Annex 39C Scale 14 specific to RNR ratings.

b. Service issue uniform is **not** to be worn by Phase 0s. Phase 0 probationary recruits are to be attired in accordance with Unit directive.

10198. RNR Phase 1 Training

a. The RNR INT pipeline is a blend of material hosted on the Defence Learning Environment (DLE) for use on Unit drill nights, by the individual Reservist through their own devices, and national weekends leading to a Confirmation Course at HMS RALEIGH for Recruits and BRNC for Officers. Recruits and Officer Cadets will all undertake Phase 1A to instil military skills, and Young Officers will then undertake Phase 1B for further Marinisation training, prior to attending Final Leadership Exercise (FLEX) at BRNC and then Fleet Board.

b. RNR INT operates a 3 Term Entry System with programmed national training dates for each entry. Each unit Recruit Pipeline Manager (RPM) will coordinate with the recruit/ OC and national UTS Pipeline Manager (UTS PM) to book a Reservist onto their INT courses. There is an expectation that Phase 1A is completed within 12 months and Phase 1B (Officers only) within a further 12 months.

c. A limited number of spaces have been made available to the RNR on the RN Ratings Phase 1 (INT) course to allow Reservists with capacity to reduce time in training. The UTS PM should be contacted in the first instance to identify suitable opportunities.

d. The Accelerated Officer Programme provides a 8-week training package during the summer months, including 3 weeks of Initial Sea Time (IST) for a further 3 weeks. Following AOP YOs must then complete FLEX and Fleet Board.

e. The Accelerated Ratings Programme condenses RNR Ratings Phase 1 Training into a 5-week training package, during the summer months.

f. All Officers and Ratings are required to complete an INT Task Book during their Phase 1 training. Task Books are available via the CMR HQ SharePoint[54].

10199. RNR Young Officers' Fleet Board

a. The RNR Fleet Board is the final summative assessment of INT(O) training. Convened by DACOS Training (Reserves), the Board is designed to determine whether the individual has achieved the Training Objectives identified within the Formal Training Statement (FTS) Performance Statement (TPS) generated from the RNR All Officers' First Common Appointment (AOFCA) Role Performance Standard (RPS) and is ready in all respects to proceed to Phase 2 Training.

b. A pass at the YO FLEX and completion of the Task book are pre-requisites for progression to the Board.

c. Young Officers (YOs) are to attend Fleet Board at a point no more than two years from date of entry to officer training. Where, due to exceptional circumstances, a YO needs more time, the Unit CO is to submit an application to COMMARRES for an extension, giving details of the circumstances and timescale for eventual completion. At this point the individual is to be placed on Warning for discharge. Should they fail to pass the Board within the following 12 months, the facts are to be presented to COMMARRES who will either confirm discharge or, where there is clear evidence of mitigating circumstances, authorise a further extension.

d. The Fleet Board is a pass/fail examination. Each candidate may have two attempts to pass the Board. At the first Board the Board President will advise the YO verbally of their success/failure to achieve the required standard.

[54] https://modgovuk.sharepoint.com/teams/56020/AOPDiv/Forms/AllItems.aspx

e. In the event of failure at the first Board, the Board President must recommend the following:

Re-attend a Future Board. The President must recommend a reasonable timescale in which the candidate may re-attend, based on the severity of the failure and other mitigating circumstances, but no more than 12 months. The candidate will be placed on a Tier 3 INT Character and Leadership Warning by their Unit Commanding Officer and will be closely monitored and mentored by their assigned Unit and RNR INT Staff until attendance at a future Fleet Board.

f. In the event of failure at a second Board, the Board President must recommend the following:

Failure with Recommendation to be Removed from Training. Any YO failing Fleet Board with a recommendation to be removed from the Active List will be subject to discharge in accordance with BRd 3(2) and the RNR INT(O) Trainee Assessment and Failure Policy. Commissions will be automatically terminated on Discharge. Individuals promoted to the Officer Corps through the UY scheme who have failed to make satisfactory progress and are therefore recommended to be compulsorily withdrawn from training may, as an alternative to leaving the RNR, request to revert to their former rate. Application for reversion is subject to approval by COMMARRES and the WFPM RES SO2 (i.e. it cannot be guaranteed).

101100. RMR Young Officer Training

a. **Phase 1 YO Training.** Phase 1 Training will be undertaken during a 12-month period and will consist of a modular 4-week syllabus. Phase 1 Training will be delivered by RM Initial Officer Training (IOT) and the RMR YO will be fully integrated into the RM YO Batch. It will consist of the following modules:

(1) **Orders and Estimate.** One-week module on the YO Tactics 1 package.

(2) **Section Level Final Training Exercise (FTX).** One-week section level FTX conducted with the YO Batch.

(3) **Troop Estimate and Orders.** One-week module on the YO Tactics 3 package.

(4) **Troop Level FTX.** One-week troop level FTX with the YO Batch.

b. **Phase 1A YO Training.** Phase 1A Training will be undertaken during the subsequent 12-month period and again consist of a four-week modular syllabus. Phase 1A Training will be delivered through a combination of RMIOT, Command Training Week (CTW) and in-Unit training. It will consist of:

(1) **WADER Package.** One-week module conducted with the YO Batch.

(2) **Tactical Exercise Without Troops (TEWT).** One-week module conducted with the YO Batch.

(3) **Regimental Duties.** One-week module covering Defence Writing, JPA, SJARs, Bde Structures, etc.

(4) **Troop Commander Training.** One-week module leading a RM or RMR Recruit Troop on their final exercise.

c. **Part 2 Training.** The second part of RMR Young Officer training is conducted in Unit and focuses on the broader, non-tactical development (leadership/management, military skills/knowledge, communication skills, ceremonial and social) of the Young Officer. In signing the Training Log, the CO is confirming that the Young Officer is ready in all respects to be an RMR Lt which marks the end of 'Young Officer' training.

d. **Record of Training.** A Training Log (see Annex 101E) is to be raised for each candidate and used to record elements of YO training as they are completed.

101101. RMR Senior Corps Commission Training

Officers commissioned by Senior Corps Commission will be required to attend a minimum of 2 weeks of the regular RM Senior Corps Commission Officer course as specified by the RM BM as being the most relevant for Command and G1 training. They will be required to undergo Part 2 of Officer Training but may be granted exemption from specific parts by their Commanding Officer, depending on their previous experience.

SECTION 13

MARITIME RESERVES SPECIALISATIONS

101102. MR Specialisations

MR Specialisations are established to identify, manage and deliver the training and development requirements of the MR workforce to retain, prepare and generate in order to meet current and future operational and MR Unit activity. Some Specialisations require a formalised selection process details of which are contained in this Section.

101103. Maritime Reserves Intelligence Specialisation (MRIS)

HMS FERRET is home to the Maritime Reserves Intelligence Specialisation. The specialisation recruits individuals to undertake training and subsequent employment by the Royal Navy within the Defence Intelligence Community.

101104. MRIS Recruitment Process

The recruitment process consists of an initial interview, exam and presentation, undertaken virtually and successful candidates will be invited to a one-day assessment at the Defence Intelligence Training Group (DITG), Chicksands. Detailed guidance for applicants, including the essential criteria and application process are contained in Annex 101J.

101105. MRIS Eligible Ranks and Rates

a. RN/RNR and RM/RMR Rates may apply from OR2 to OR9. However, to maintain the structure of HMS FERRET and meet manning requirements applications are primarily sought from OR7, OR6 and OR4.

b. Officers may apply up to the rank of Lieutenant Commander (RN/RNR) or Major (RM/RMR).

c. Only applicants meeting the criteria below will be advanced to the assessment phase. The criteria are:

(1) A minimum of 5 years' experience working in an intelligence environment, *or*

(2) Where the recruitment panel recommends to the CO of HMS FERRET that an individual has specific skills and experience that must be retained, and the CO accepts this recommendation.[55]

(3) Applicants who feel they match this description must state their justification on the application form (see Annex 101J, section 6), which will be considered by the sifting panel in relation to the Unit's manning requirements.

d. Ranks wishing to join HMS FERRET from the Regular RM require approval of the EWO HMS FERRET and the WO1 CI Spec Advisor prior to loading onto an assessment.

[55] The CO may delegate this authority as necessary.

101106. MRIS Essential Criteria for Application

In order to apply, candidates must meet the following criteria:

a. Applicants must be current serving members of the armed forces (Regular or Reserve). All regular service personnel wishing to transfer to the MRIS must have engaged in the Project Firefly transfer process and are subject to the same application, sift and selection processes as their reserve counterparts.

b. Applicants must have successfully completed all aspects of Phase 1 and 2 training (RNR), Commando Training (RMR) or the equivalent in other services.

c. Applicants must be in date for their fitness test in accordance with the relevant policy of their service/branch (regular or reserve).

d. Applicants must not have any outstanding disciplinary or performance issues arising from military service.

e. Applicants are normally expected to be able to give a minimum of 2 years return of service to HMS FERRET before their TX date and applicants should be aware that the normal retirement age from the RNR is 55. Applicants with less than 2 years of return of service will only be considered if they meet the specific criteria in para 101105. The applicant should state their justification on the application form (Annex 101J, section 6), which will be considered by the sifting panel in relation to the Unit's manning requirements.

f. HMS FERRET provides essential operational support and augmentation for the RN. There is a constant requirement to support mobilisations and candidates must be satisfied that their current personal and employment circumstances would permit them to do this.

g. A willingness to undergo Developed Vetting (DV) and enhanced security vetting is mandatory for the MRIS specialisation. Details of a DV requirements and restrictions are available on the UK Government Website. Candidates who do not meet nationality requirements to obtain a DV and enhanced vetting, or who are not prepared to undergo what can be an intrusive process should not apply. Those personnel who attempt but are unable to achieve the required level of vetting will be returned to their previous unit or specialisation.

h. HMS FERRET does not undertake phase 1 or 2 training. HMS FERRET personnel who are successful at the AIB are transferred to a local unit for junior officer training. After successfully passing Phase 2, they may reapply to join HMS FERRET, subject to the process set out in this section. **However, there is no guarantee that personnel can return to HMS FERRET and this is subject to the needs of RNR manning**. As this is the case, applications from personnel who have recently taken, or intend to take, the AIB and who plan to undertake officer training will be automatically sifted out.

101107. MRIS Application Process

All applicants are to forward the following items electronically to the HMS FERRET Recruitment email address:

a. A completed application form, including photograph (see Annex 101J section 7).

b. The candidates current CV:

(1) The CV should include complete and accurate details of all employment, both military and civilian. Any breaks in employment should be documented.

(2) Candidates must declare all previous employment or experience in the military or intelligence fields, including Regular Service or civilian employment.

(3) The CV is an opportunity for candidates to highlight examples (roles held or qualifications gained) which demonstrate they possess the Core Competencies contained in the HMS FERRET Recruit Assessment Framework (see 'Application Process' – Step 5).

(4) The CV is also an opportunity for applicants to highlight any achievements, awards or commendations that they wish to be considered.

(5) Candidates should be aware that their CV will be considered by a panel who may have differing service, technical and educational backgrounds. A CV should be clear, accurate and unambiguous. The use of obscure acronyms, technical references or jargon should be avoided and could count against an applicant.

(6) Written communication skills (accuracy, brevity and clarity) are a particular requirement in Intelligence, and the CV is an opportunity to demonstrate these in itself.

c. A copy of their last SJAR / OJAR or Phase 1 Training Report.

d. Formal approval of application by their unit (see Annex 101J, section 9).

e. CI Specialisation Advisor approval letter (Ex RM CI only).

101108. Cyber Specialisation

The Cyber Reservists (CyRes) provide specialist Cyber support to Defence, allowing UK Strategic Command (StratCom) and the Single Services (sSs) to benefit from the high-end cyber expertise that CyRes have gained in their civilian careers. Regular personnel rarely have the opportunity to spend years developing highly specialised Cyber skills, so having the opportunity to work alongside CyRes can be hugely beneficial in upskilling the regular component. The MR Cyber Specialisation deploys individuals and small teams in support of operations and exercises both ashore and afloat[56], providing both offensive and defensive Cyber skillsets. The CO of the Maritime C5ISR Support Unit (MCSU) articulated the RN's requirement for Cyber skills in 2021[57] which is considered still relevant.

101109. Cyber Organisation

a. The MR Cyber Specialisation is led and managed by SO1 Cyber, assisted by SO2 Cyber. It is administered on a day-to-day basis by the FTRS Maritime Cyber Unit (Reserve) (MCU(R)) SO3 Ops and FTRS MCU(R) Co-ord, overseen by the PTVR MCU(R) OC. MCU(R) is co-located with MCSU at Portsdown Technology Park, Portsmouth. The FTRS team manage the outputs of MCU(R) as well as co-ordinating pan-unit aspects of the MR Cyber Specialisation, including MR Cyber Specialisation personnel appointed to UK StratCom CyRes units in Corsham and Cheltenham.

b. Further detail on the organisation of the MR Cyber Specialisation can be found at Annex 101K.

101110. Cyber Employment

a. MR CyRes are employed under specialised Terms and Conditions of Service (TCOS) as detailed in Annex 101L and managed under the Unified Career Management. As such all ORs joining the Cyber Reserve (ex-Regular, Trained Strength PTVR and Direct Entry) transfer to the bespoke TCOS. These include time-based advancement subject to recommendation (based on merit) and good conduct, with no requirement to attend leadership courses. MR CyRes are not required to conduct the RNPES[58] or RMFT as applicable.

b. MR Cyber Officers are not currently part of the CyRes[59] and as such are subject to standard RNR or RMR Officer TCOS as applicable.

c. Some MR CyRes are required to undertake training in core RN skills such as the Embarked Forces Sea Survival Course (EFSSC), and all OR7s and above are required to attend Divisional Officers' (DO's) course in order to undertake their role[60]. Such training is arranged by unit staff and funded by CMR HQ / UK StratCom as applicable.

[56] Deployment of MR CyRes is subject to the same medical, physical and Theatre Entry requirements as other MR personnel.
[57] Maritime Cyber Reserve – Contemporary and Future Requirement dated May 21. https://modgovuk.sharepoint.com/:w:/r/teams/55975/CMRTMs/05%20-%20Archived/2021/20210514_Maritime%20Cyber%20Reserve%20%E2%80%93%20Contemporary%20and%20Future%20Requirement_O.docx?d=w0b8b794cd25e4bc9a659c41913df3161&csf=1&web=1&e=dAO9eA
[58] CyRes deployed onboard ships will be required to conduct RN PES. Operational waivers could be requested, but would need to be considered on a case-by-case basis with the CO of the unit holding the risk.
[59] This may change if UCM CR evolves to include Officers.
[60] These training requirements are tagged to PIDs, and individuals only allocated to courses when assigned to a tagged PID.

d. The bespoke MR Cyber Specialisation TCOS are laid out at Annex 101K.

101111. Cyber Recruitment

CyRes personnel are recruited by UK StratCom based on their specialist Cyber skills, with their suitability for employment assessed by the Joint Cyber Reserve Selection Board (JCRSB). Direct entrant CyRes applicants who have been successful at JCRSB and who opt to join the MR are processed in accordance with Recruiting Instruction 53/21[61].

a. Ex-Regular RN or RM ORs, and trained strength ab-initio MRs, may apply to join the MR Cyber Specialisation on successful completion of the JCRSB.

b. A direct entry route into the MR Cyber Specialisation as an ab-Initio Officer, or as a RMR, does not exist.

c. Further detail on the recruitment of MR CyRes, including the process for internal applicants can be found at Annex 101K.

101112. Training Branch (Acting Leading Hand) Scheme

The recruitment, entry criteria and TACOS are in Annex 101R.

[61] Recruiting Instruction 53/21 Processing of RNR & RMR Cyber Reserve Candidates dated Dec 21. https://modgovuk.sharepoint.com/:w:/r/sites/defnet/Navy/_layouts/15/Doc.aspx?sourcedoc=%7B2B470CE9-789E-4285-BC03-0E57CADD7D29%7D&file=RI53_21.docx&action=default&mobileredirect=true

SECTION 14

MARITIME RESERVES MEDICAL ADMINISTRATION

101113. Reserves Medical Policy

The entitlement of Reservists to welfare support and medical care is described in JSP 770 Tri-Service Operational and Non-Operational Welfare Policy. In addition, see Naval policy on provision of medical support to members of the Reserves, at Para 2809, JSP 950 Leaflet 1-3-6 (Reserves in the Future 2020: Healthcare Provision for Reserve Forces Personnel) and, for those mobilised, JSP 753 (Tri Service Regulations for the Mobilisation of Reserves).

101114. Medical Standards for Reserve Personnel

a. Entry medicals and career standards of all RNR, RMR and Sponsored Reserve (SR) personnel are the same as the RN and RM and are contained in BRd 1750A (Handbook of Naval Medical Standards) and JSP 950 Volume 6, Chapter 7 (Medical Employment Standards Policy).

b. Reservists are required to be medically and physically fit to undergo training in accordance with the standards laid down in BRd 1750A. Reservists are responsible for ensuring they remain in date for medical examinations and report any changes in their health, significant injuries or the development of long-term medical conditions that may affect their ability to undergo training or mobilisation to the Maritime Reserves Medical Office (MRMO).

101115. Role of the Maritime Reserves Medical Office (MRMO)

The MRMO is an administrative office and does not have the facilities to carry out any clinical requirements. All clinical actions need to be processed through military medical centres or the regional reserve medical teams. Those teams provide guidance and assistance to Reserve Units. DPHC facilities and MR HQ provide advice and guidance in relation to processes and policy.

a. The instructions for medical administration are contained in BRd 1991 and BRd 1750. Additionally, JSP 950 applies to all Reservists.

b. **Establishment of Medical Documentation**. The MRMO will initiate a DMICP account and manually transfer all relevant information from the contract entry service into the individual's medical records as well as completing the required templates. DMICP accounts are not to be established for personnel who have been declared Permanently Medically Unfit for Service (PMUS). For personnel re-joining the Reserves the MRMO will reactivate the previous service account and upload the required documentation if completed.

c. **Electronic Records.** All Reservists have electronic records held on DMICP. This system is managed and maintained by the MRMO, thus ensuring an accurate and full audit trail. Any information received or communicated pertaining to the individual's medical condition is recorded on DMICP. For personnel who joined pre-2014, their FMED 4 (hard copy of medical records) has now been summarised and archived. The documentation management requirements are laid down in BRd 1991.

d. **Sponsored Reserves – Custody of Medical Documents.** Sponsored Reserves' medical documents will be maintained by an appropriate medical authority as arranged by their Operational Tasking Authority (OTA), dependent upon the location of employment. Advice can be sought from SO3 Med Op Cap.

e. **MRMO Contact Details**

MRMO
HMS KING ALFRED
Semaphore Tower
HMNB Portsmouth
PORTSMOUTH
Hants
PO1 3LT

Email: navymr-hqmedicalmailbox@mod.gov.uk
Skype: 0300 1537869 or 0300 1623287

101116. Medical Examinations

a. **Entry Medical Examinations.** Entry medical examinations are only to be conducted by Contracted Medical Examiners (MEs) via Armed Forces Careers Offices (AFCOs).

b. **Re-Entry Medical Examinations.** Personnel with former Regular Service may be exempt from the full entry medical requirements provided they were 'Recommended for Further Naval Service' and their PULHHEEMS profile at their termination medical meets the specific requirements of their prospective specialisation. A further medical will be required, however, if there have been any changes in their medical status since leaving the Service, or if 24 months have elapsed since leaving.

c. Sponsored Reserves (SRs) are subject to the standards and routine medical examination requirements of BRd 1750A, unless they are given a specific exemption by NCHQ Navy Healthcare Division and will be expected to maintain a reasonable level of personal fitness.

101117. Entitlement to Care

Reservists are only entitled to occupational health care from the military. Their primary health care remains with their General Practitioner (GP) unless they are on FTRS Full Commitment (FC), then their primary health care will be managed by the military. Occupational Health (OC) assessments serve to inform the CoC of a service person's (SP) health and deployability, and protect those who are injured by identifying what they can and cannot do. Below is further clarification of what Reservists are entitled to receive:

a. **Routine Medical Examinations.** PULHHEEMS remain a requirement for Reservists who are not in Permanent Service or undertaking FTRS (FC). These are to be conducted every 5 years from the date of joining until the Reservist leaves the service. These medicals are conducted by Defence Primary Healthcare (DPHC) in accordance with current general and clinical governance requirements.

b. **Occupational Health Medical Examinations.** These are to be carried out as and when required by Command and include service aircrew medicals, mobilisation/demobilisation medicals, HGV and Special Forces medicals etc.

c. **Joint Medical Employment Standards (JMES) Reviews.** These are carried out when issues are identified to ensure command/units are aware of the employability and deployability of their personnel. Those who are awarded permanent JMES MND will be processed to NSMBOS.

d. **Vaccinations.** Reservists are not entitled to receive any vaccinations from the military unless they are to be mobilised and have received a mobilisation order or are deploying on exercise abroad and a Force Health Protection Information (FHPI) document has been issued detailing the medical requirements. All Reservists are to maintain a minimum level of immunisation for operations to ensure the process is easier when activated. Reservists are required to provide a copy of their vaccination history to the MRMO to upload into their records and to provide any updates when required.

e. **Rehabilitation.** Reservists are entitled to rehabilitation if they have been injured whilst on duty. An accident form (NSAR) should be raised, and a copy held within their medical records. An individual can self-refer to the rehabilitation team or they can be referred by a DPHC Medical Officer (MO).

f. **Mental Health.** Personnel can be referred to the Defence Mental Health Care (DMHC) teams if their condition is attributable to their service. This referral can be carried out whilst in service via DPHC MO or their GP can refer them directly to Colchester DMCH if the individual has left the service.

g. **Audiogram.** Personnel are required to undertake this investigation every two years in accordance with the hearing conservation programme. The test is carried out at any DPHC facility. Depending on the results further tests may need to be completed or a referral to an MO carried out.

h. **Dental Care.** Reservists are not entitled to any dental care unless they are mobilising abroad, then they are allowed to undertake a dental assessment. If mobilised in the UK, they are not entitled to dental care. If injured whilst training, then personnel are entitled to emergency care only and should return to their NHS dentist or private dentist to complete the treatment via NHS services or at their own expense. However, if the injury is attributable to their service, they may be able to reclaim the cost of treatment. They will only be reimbursed for equivalent treatment carried out by the NHS e.g., dentures, removal of teeth. Work such as dental implants will not be reimbursed. The level of reimbursement must be agreed with the MRMO before any work is undertaken and an accident form must have been raised.

i. If entitled, dental assessment/examinations are conducted by DPHC in accordance with current general and clinical governance requirements.

101118. Long Term Medical Conditions

Some long-term or life-altering medical conditions mean that personnel may require a more permanent medical downgrade. Therefore, in accordance with policy, these individuals may be referred to Occupational Health departments or the Naval Service Medical Board of Survey (NSMBOS) for this process to be completed. These processes can be completed by the DPHC facility that is managing the temporarily downgraded individual or by the MRMO. If the medical condition is of a permanent nature, the Reservist will be forwarded to NSMBOS and subsequent Employability Board for potential Discharge.

101119. Treatment in Civilian Hospital/Clinic

When a Reservist is treated in a civilian hospital, the individual is to inform the MRMO, and request that a medical report outlining their diagnosis, treatment and prognosis is forwarded to the MRMO to input into the Defence Medical Information Capability Programme (DMICP) and, where necessary, initiate any military medical follow-up.

101120. Self-Declaration

a. Monitoring and assessment of the medical fitness state of the Reserve Forces relies primarily on individual's self-certification of their status. If a Reservist is unable to attend training through illness or injury, they are to report this to their Unit and the MRMO. No clinical information needs to be provided to the unit if the individual does not wish to divulge this information. However, the unit or the MRMO need to be made aware that there is an issue, and that it is being managed. The MRMO will require this information to allow it to be recorded in the electronic Medical Records and where necessary, initiate any military medical follow-up.

b. Prior to undertaking any reserve activity, if not included as part of the joining instructions, the policy detailed in JSP 950 Leaflet 1-2-12 (Assessment of Medical Suitability to Attend Courses and Training) and the specific MR process contained in Annex 101L is to be followed. Not all courses will require this information.

101121. Fitness for Training - Illness after Self-Certification

Personnel who suffer injury or illness after self-certification, but prior to commencement of training, are to report the details to the MRMO who will interview the individual and refer them for medical review if necessary. When sickness causes non-attendance at authorised Operational Capability Output and alternative training has not proved possible, documentary evidence of the circumstances – e.g., a medical certificate – must be provided by the individual. Medical records will be updated to record that an individual has been deemed unfit for training, their CO informed and their electronic medical records updated to reflect the facts. Personnel found to be unfit on joining for training will be returned to their parent unit. The circumstances of their RTU are to be reported by their Reserve Unit to the MRMO.

101122. Mobilisation/Demobilisation Actions

a. Medical administration and consequent actions are carried out to ensure Reservists are operationally deployable. On activation, the MRMO will contact the individual concerned to support and advise on the requirements for their deployment, and how to get these actioned.

b. On mobilisation, an FMed 965 (Operational Medical Record) will be raised by the DPHC MF conducting the mobilisation medical or the MRMO. The FMed 965 includes a summary of an individual's medical history, allergies, blood group and record of vaccinations.

101123. MR Medical History on the Defence Medical Information Capability Programme (DMICP)

a. Medical information pertaining to Reservists is held by the Medical Reserves Medical Office (MRMO) on the DMICP system. Up-to-date medical records which correctly reflect an individual's medical status are vital to:

(1) ensure that only the correct and necessary treatment is administered through DPHC;

(2) provide a more comprehensive and robust understanding of the medical status of the individual which impacts on operational capability and

(3) provide correct information for use when an individual is conducting reserve activity; this will help to assess whether an individual can, or cannot, undertake the activity and may reduce the risk of an individual being unnecessarily stopped from participating in the event.

b. **Requirement.** The following medical related information must be stored on DMICP for Maritime Reserves (MR) personnel:

(1) NHS number.

(2) Blood Group (required for ID tags).

(3) Vaccination history.

(4) Audiogram test[62].

(5) Any on-going medical conditions.

On joining the MR, individuals will provide a significant amount of personal information to the Armed Forces Careers Office (AFCO), including some medical details. Upon receipt in the MRMO this information is transferred to the DMICP. There will be some instances where some of this information is missing. For example, where a reservist joined prior to 2006 (before JPA and DMICP) and their information hasn't been transferred from the paper FMED4 record, or where the record has been lost or misplaced. The full details of the baseline medical information required for Reservists, and how to obtain it if it is missing, is outlined in Annex 101M.

c. **Individual Reservist's Actions**. Reservists should ensure that their medical related data is correct within JPA. Some medical related data can additionally be viewed in the MyNavy app in the "Healthcare" section.

d. **Unit Actions.** Unit permanent staff are to review their personnel's medical data and to work methodically through their list of personnel to update and correct the information held by the MRMO. This is an on-going process; to that end the work is to be conducted in the following order of priority:

(1) Deploying personnel.

(2) Personnel due to conduct MR activity overseas.

(3) New entry personnel.

(4) Ship's Company.

Unit permanent staff can interrogate JPA to review the status of audiogram tests, where there is no record of NHS Number and to check for out of date JMES for their personnel. Such searches should be run monthly. Annex 101N contains a detailed guide on how the searches are to be run.

e. **MRMO Actions**. The MRMO will run searches on a quarterly basis to check the status of other medical related information e.g. vaccination history. The MRMO will then contact the relevant unit requesting they contact the individuals concerned to carry out the required action(s). The quarterly searches will additionally be used to provide statistical information to CMR HQ.

101124. Notification of a Casualty (NOTICAS) Process for the Maritime Reserves

A NOTICAS for a member of the MR is **ONLY** to be raised when the Service Person (SP) is taken seriously ill, hospitalised or dies when:

a. mobilised into permanent service;

[62] To be undertaken every 2 years in accordance with BR1750A Chap 7 0708.c.

b. in Full Time Reserve Service (FTRS) (FC, LC, HC), or

c. on duty as a Part Time Volunteer Reservist (PTVR) whether on Additional Duty Commitment (ADC) or on paid or unpaid Reservist Service Days (RSD).

d. Further details can be found at Annex 101O and its associated Appendices.

RNR BRANCH TRANSFER FORM (FORMS)

ANNEX 101B

MARITIME RESERVES LEAVE WELL POLICY

1. Applicability

a. The MR Leave Well Policy applies to all MR personnel on Lists 1,2,3,4 and 5, and supplements the policy in Chapter 55.

b. Where there is less than 12 months to the TX date, the Leave Well process in this Annex is to be condensed and completed within the available time prior to TX.

2. Categories of Leavers

The Leave Well process applies in all situations where MR personnel routinely leave the Service:

a. **TX date.** The TX date is a PTVRs final date in the MR. Personnel also serving on FTRS/ADC are to note that the end date of their Commitment may not align with their MR TX date. In the event that the MR TX date is earlier than the Commitment end date, personnel are to contact NAVY PEOPLE-CM RES FTRS WO1.

b. **Voluntarily Outflow.** PTVRs wishing to leave the Service earlier than the end of their Commission or Engagement are to inform their CO in writing, giving a minimum of 3 months' notice.

c. **Discharge to join other Armed Forces.** Personnel who are transferring to the Regular Services or other Reserve Forces must be discharged from the MR in order to enter another Armed Force using the process in Part 4 of this BR.

d. **Discharge or Compulsory Removal of the Active List (CRFAL).** COs have the authority to Discharge a Rating/OR in certain circumstances[1]. CO's are to submit their recommendations for CRFAL and, where appropriate Termination of Commission, to CMR HQ[2].

3. The MR Leave Well Process. RNR UOOs and RMR AOs are responsible to their CoC for ensuring all personnel in their Unit leave well. The responsibilities and actions of those involved in the leave well process are detailed below and also available in a downloadable format on Defence Connect[3] for Units to update locally.

a. **Service Leaver:**

(1) **12 months prior to TX:**

(a) Download and complete the MR Service Leaver's guide[4].

b) Advise your DO/1RO, Unit and Specialisation of your TX date.

[1] BRd 3(2) para 0222.
[2] BRd 3(2) para 0213.
[3] https://jive.defencegateway.mod.uk/docs/DOC-1191495
[4] https://jive.defencegateway.mod.uk/docs/DOC-1191496

(2) **9 months prior to TX:**

(a) Engage with your DO/1RO and Unit to request EoS, if entitled and applicable. This is to be submitted no later than 6 months prior to TX date. See paras 10110 and 10155.

(b) If serving on FTRS/ADC, liaise with your employer to inform them of your TX. The FTRS employer is not responsible for the MR leave well process, however, they may need to contribute to Valedictory Certificate citation.

(3) **6 months prior to TX:** Review MR Service Leaver's guide to ensure all activity will be complete prior to TX date.

(4) **3 months prior to TX:** Review MR Service Leaver's guide to ensure all activity will be complete prior to TX date.

(5) **1 month prior to TX:**

(a) Submit final pay claim.

(b) Attend exit interview with CO.

(c) Return MOD90, MODNet Laptop, and any other kit and/or equipment to your Unit.

b. **Divisional Officer (DO) (RNR)/1st Reporting Officer (RMR)/List Manager[5]:**

(1) **9 months prior to TX:** Initiate EOS if applicable and if requested by the Service Leaver. See paras 10110 and 10155.

(2) **6 months prior to TX:**

(a) Apply for Valedictory Certificate and/or LSRA via UOO/USM/AO.

(b) Signpost the Service Leaver to available support, including MH services, Pension societies, veteran's associations etc, as applicable.

(3) **3 months prior to TX:**

(a) Initiate and write final appraisal.

(b) Conduct Exit Interview using Appendix 1 and report to the Unit CoC using Appendix 2.

(c) Ensure a Leaving Call and Exit Interview has been arranged between the Service Leaver and CO.

[5] SO1 List Manager is responsible to ensure the Leave Well process for unassigned OF4s and WO1s is correctly undertaken, liaising with Command and Units as appropriate.
[5] RSUs can provide assistance on determining length of service.

(d) Ensure a Leaving Call has been arranged between the Service Leaver and Specialisation SO1, if applicable.

c. **RNR UOO/RMR AO:**

(1) **Monthly:** Review the Service Leavers report from SCIO/JPA to ensure the Leave Well process is initiated for all eligible personnel.

(2) **9 months prior to TX:** Ensure that the EoS application for all eligible personnel, where applicable, is submitted no later than 6 months prior to the TX date.

(3) **3 months prior to TX:** Ensure 2iC Leaver's Lunch organised (only if paying Corps subscriptions). **RMR Officers ONLY.**

d. **RPM/USM/RMR AO:**

(1) **Monthly:**

(a) Run the Unit Service Leavers report from SCIO/JPA and present to the UOO/AO to ensure the Leave Well process is initiated for all eligible personnel.

(b) Update the Unit Leave Well spreadsheet to show PTVRs in their Unit who are leaving the MR within 12 months, and report this to their Command Chain.

(2) **12 months prior to TX:**
Check the status and entitlement to any Honours and Awards, including Long Service Awards (VRSM and Clasps), Good Conduct Badges (GCB) and Long Service Recognition Award (LRSA)[6]. Submit a request for any that are due/overdue.

(3) **6 months prior to TX:**

(a) Ensure that the Leave Well process has been initiated and that the DO/1RO, Command and Res CM are aware of the TX date for all Service Leavers.

(b) Engage with NAVY PEOPLE-CM RES FTRS WO1 and NAVY PEOPLE-CM RES CPO to ensure that the MR TX date for personnel on FTRS/ADC is not before the FTRS/ADC end date. **FTRS/ADC personnel only.**

[6] The LSRA is open to all ranks and rates, regular and reservist personnel with Qualifying service set at a minimum of 40 years. Further details can be found in the latest RNTM.

(4) **3 months prior to TX:**

(a) Remind the Service Leaver to apply for their pension via JPA using Pension Form 01, if applicable.

(b) Provide the latest RN's Service Leaver Events information to the Service Leaver.

(c) Ensure the Mess President has arranged the Leavers Top Table. **RMR SNCOs only if paying Corps subscriptions.**

(5) **1 month prior to TX:**

(a) Ensure that the Unit Leaving Routine is completed prior to TX date, including the return of all service issued items (uniform, Articles in Use (AinU)), MODNet laptop etc.

(b) Ensure the Service Leaver's MOD90 is received by the Unit by the TX date[7].

(c) Submit Termination Form[8] to NAVY PEOPLE-CM RES CPO.

(6) **On TX date:**

(a) Request closure of Service Leaver's MODNet and Defence Gateway account.

(b) Update all Unit distribution lists.

e. **CO:**

1 month prior to TX:

(a) Conduct a Leaving Call with the Service Leaver.

(b) Present any Honours and Awards, if applicable.

(c) Submit feedback obtained during Exit Interviews to CMR HQ RSM / SWO on the quarterly ASSESSREP (no personal identifiable information is to be included).

f. **Specialisation SO1:**

(1) On request from the DO, provide supporting evidence, as applicable, for the Service Leaver's EOS request and Valedictory Certificate citation.

(2) **1 month prior to TX:** Conduct a Leaving Call with the Service Leaver.

[7] AOs in Unit can also be a point of contact for the receipt or collection of MOD 90.
[8] https://modgovuk.sharepoint.com/teams/61290

g. **Res CM:** The MR Career Manager will undertake all JPA termination actions for personnel on the GTS.

4. Personnel serving on FTRS/ADC.

a. The FTRS/ADC employer of MR personnel is not responsible for the Leave Well process for personnel leaving the MR. However, they may be requested to provide input to the Service Leaver's Valedictory Certificate citation.

b. MR personnel undertaking FTRS/ADC are to ensure that their TX from the MR does not impact any concurrent FTRS/ADC employment. Where MR TX date and FTRS/ADC contract end dates do not align, the individual is to contact NAVY PEOPLE-CM RES FTRS WO1.

5. Personnel on List 4.

a. The CMR HQ List Manager is responsible for initiating the Leave Well process for all personnel that they manage on List 4.

b. Personnel moved on to List 4 to enable continued employment on FTRS/ADC are only to commence their Leave Well process iaw the process in this Annex.

APPENDIX 1 TO ANNEX 101B

EXIT INTERVIEW SCRIPT TEMPLATE

1. All of the following questions can be used during the Exit Interview to explore the reasons provided when an individual is leaving the Service. However, you may wish to add your own follow-up questions to obtain necessary information. Specified questions should be asked until you have enough information to rate the answer confidently.

a. **Reasons for Leaving.**

(1) What is your single main reason for leaving?

(2) How does this decision impact you and your family?

(3) What is it about this reason that prompted you to leave?

(4) Are there any other reasons why you decided to leave?

(5) When did you reach the tipping point between choosing to stay or go?

(6) What could have been done by the Service to change your decision to leave?

b. **Job Satisfaction.**

(1) Reflecting on your time in the Naval Service, can you think of any highlights or situations you will remember as very positive?

(2) Was there anything especially challenging or difficult?

(3) How would you describe the amount of variety in your work?

(4) How often were you mobilised during your time in the RNR?

(5) What would you suggest that might improve the training of future Reservists?

c. **Career Management/Training.**

(1) How do you feel about the supervision you received throughout your time in the Naval Service?

(2) What do you think of the training opportunities offered to you?

2. Are there any other comments you would like to make?

A post interview report found at Appendix 101B2 should be forwarded through the RNR Unit's Chain of Command (CoC) to the CO.

ANNEX 101D

LONG-TERM NON-PARTICIPANT MANAGEMENT PROCESS

Figure 101D-1. LTNP Management Process – Ratings and Other Ranks

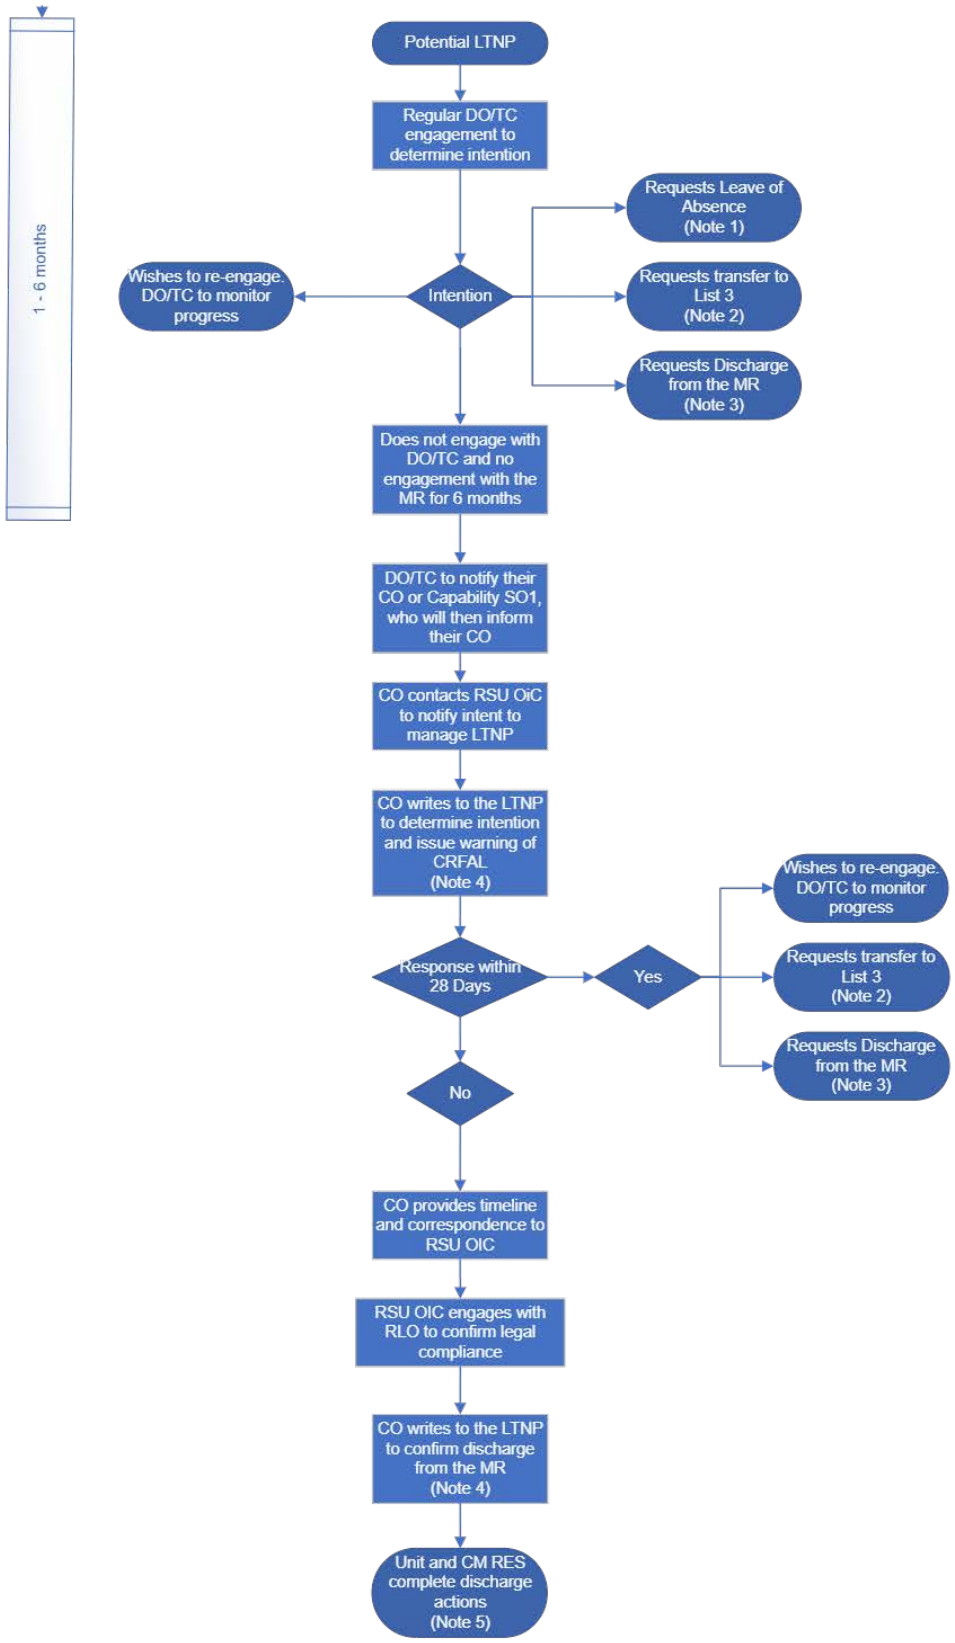

Figure 101D-2. LTNP Management Process – Officers

	Notes: *1. Leave of Absence (LoA) is to be requested in accordance with Para 10167. If the Reservist does not meet the eligibility criteria for LoA, they must request either transfer to List 3 or discharge from the MR, or elect to re-engage with the MR.* *2. Transfer to List 3 is to be requested in accordance with BRd 3(2) Para 0107[1]. If the Reservist does not meet the eligibility criteria for List Transfer, they must request either LoA or discharge from the MR, or elect to re-engage with the MR.* *3. Requests for Discharge from the MR are to be made in accordance with BRd 3(2) Para 0212 (Officers) and Para 0220 (Ratings).* *4. The templates for all letters are available on the CMR HQ SharePoint Site[2]. All correspondence is to be checked by the RSU OiC, who will engage with the Regional Legal Office as required. Letters are to be sent to LTNPs via Recorded Delivery, using the last known home address on JPA. An electronic copy of all correspondence is to be retained by the Unit, along with proof of postage.* *5. The Unit/Administering Unit is to confirm with NAVY PEOPLE-CM RES CPO that all JPA/discharge action is complete and that the LTNP has returned any items/kit/IT equipment/MOD-90 etc to the Unit within 28 days of the discharge letter.*

ANNEX 101E

APPLICATION FOR APPOINTMENT TO A COMMISSION IN THE ROYAL MARINES RESERVE

APPLICATION FOR APPOINTMENT TO A COMMISSION IN THE ROYAL MARINES RESERVE (FORMS)

ANNEX 101F

CERTIFICATE OF EFFICIENCY (CoE) WAIVER BOARD TERMS OF REFERENCE

1. Preamble

a. Bounties are paid to entitled individuals who must be in receipt of a Certificate of Efficiency (CoE) upon meeting the minimum training, attendance and mandatory requirements for the Reserve Year. The policy and guidance for the award of CoE and Bounty is laid down in JSP 754 Chapter 3 Section 5 and is amplified by the issue of an annual CMRTM which further highlights additional Command requirements.

b. There are times, however, when a Reservist is unable to meet the minimum training, attendance and mandated requirements for the award of CoE and requests a waiver. To ensure parity, transparency of process and financial governance, a CoE/Bounty Waiver Board is convened to assess and judge all waiver applications.

c. The CoE Waiver Board for RNR waiver applications is to be chaired by SO1 Policy.

2. Primary Purpose

The primary purpose is to assess CoE/Bounty waivers and award CoE and/or bounty if appropriate and justified against the waiver criteria.

3. Authority

The CoE Waiver Board will act under the authority of CMR. The Board will consider OF5 applications and make a recommendation but the final decision on OF5 Waiver applications will be made by DACOS FP.

4. Accountability

The CoE/ Waiver Boards are accountable to CMR through its Chair.

5. Composition

a. The RNR CoE Waiver Board membership is as follows:

SO1 Pol - Chair
SO1 Training
SO1 RNR
RNR SWO
SO2 N1 MR - Secretary
MRMO CPO - Medical Adviser

b. The RMR CoE Waiver Board membership is:

SO1 Pol - Chair
SO1 Training
SO1 RMR
RSM
SO2 N1 MR – Secretary
MRMO CPO – Medical Adviser

c. CMR HQ SO2 N1 MR and MRMO CPO are both non-voting members.

6. Timings

The CoE Waiver Board is to convene in May of each year and the decision of the Board will be issued on completion. If a waiver request is upheld, the earliest payment of Bounty will be the June pay-run.

7. Waiver Criteria

The Waiver Board must be able to clearly justify the exceptional award of CoE/Bounty or why it is not awarded. Although the list below is not exhaustive, the CoE Wavier Board is to consider each waiver request against the following criteria:

a. Each waiver must be made by the Applicant through the Commanding Officer.

b. Each waiver applicant is to provide a valid and justifiable reason why they were unable to meet the mandated requirements for the award of the CoE.

c. Each waiver application must be endorsed by the CO or Branch HOD.

d. The waiver application must be received in CMRHQ no later than the date promulgated in the annual CMRTM for CoE and Bounty requirements.

e. All waiver applications must contain:

(1) The individual letter/email request to the CO or Branch HOD.

(2) A completed MR Certificate of Efficiency Form.

(3) The CO/Branch HOD’s written recommendation detailing why the application is supported.

f. Each waiver application will also be considered against one or more of the following:

(1) Is the waiver request fair and reasonable?

(2) The overall attendance record of the individual.

(3) The number of RSDs undertaken for Operational Capability Output (OCO)/Support Activity (SA) during the year.

(4) Assignment into a Unit Management Position and the appropriateness to undertake Branch training.

(5) Support to wider defence.

(6) Medical illness or injury.

(7) Pregnancy.

(8) Overall contribution to the MRs in the Reserve Year.

8. Decision

The Waiver Board is to assess each waiver application and make the following determination:

a. Certificate of Efficiency and Bounty- Awarded/Not Awarded.

b. Certificate of Efficiency only – Awarded/Not Awarded.

c. IK – Insufficient Knowledge.

9. Administration

CMR HQ SO2 N1 MR will act as the Board Secretary and Adviser. Their role is to provide an initial briefing including any mandated requirements. The Waiver Board Secretary is to ensure an auditable system is in place to justify CoE and associated Bounty. The Secretary will seek additional advice on training and medical matters from a nominated SME who will remain present throughout the board. Each application is to contain the determination of the Waiver Board and be kept for audit purposes for 6 years.

10. Appeals

The final Arbiter for the award of CoE and/or Bounty through the CoE Waiver Board is DACOS MR FP; appeals from OF5s are to be arbitrated by COMMARRES. The Waiver Board Secretary is to remind the Applicant of the right of Appeal. Appeals must be received by no later than 30 Sep of each TY and will be considered by DACOS FP in the first instance, and subsequently by Service Complaint if that route is required.

ANNEX 101G

EMPLOYER ENGAGEMENT AND EMPLOYER SUPPORT

1. Employer Engagement and Employer Support - Introduction

a. Employer Engagement (EE) and Employer Support (ES) form the two elements of the spectrum of Defence activity that support civilian employers in their relationship with Defence and line management of reservists, whilst also supporting reservists in managing their relationship with their civilian employer within the context of their commitment to the Reserve Forces. Conceptually, EE is the general campaign to encourage civilian employers to engage positively with Defence, whilst ES is the management of an individual reservist's circumstances within the EE construct.

b. The 2018 edition of JSP 766 'The Defence Directive on Employer Support and Employer Notification' states that ES and Employer Notification (EN) are described as being "central to the relationship between Defence, Reservists and Employers. The evidence shows that employers are increasingly supportive of – and value - Reserve service". It goes on to say that "the benefits of effective EN to Reservists, Defence and employers are significant, and it is a leadership responsibility to ensure that notification is delivered effectively".

c. EE and ES responsibilities are devolved from the Ministry of Defence (MOD) through the Chain of Command to Units; the successful delivery of EE and ES responsibilities are contingent upon positive and proactive relationships between the Reserves Engagement Team and individual MR Units with Defence Relationship Management (DRM) and Reserve Forces and Cadets Association (RFCA) Regional Employer Engagement Directors (REEDs).

2. Management of ES within the Maritime Reserves

a. COMMARRES has responsibility for EE across the Royal Navy in accordance with 2SL's EE Directive and ES within the MR and in line with the tri-Service MOD policy laid down in JSP 766.

b. Unit Commanding Officers (COs) have primary responsibility for the delivery of EE activity and the provision of ES to MR personnel at a Unit or Branch level. The relationship supported is principally that between the Reservist and their Employer. It must be noted that the provision of Welfare to a Reservist and his/her family takes priority over ES.

c. Captain Reserves Engagement is responsible for the overall day-to-day implementation and management of EN and ES within the MR.

d. COs will appoint a Unit Employer Support Officer (UESO) to execute the tasks specified in this Annex.

e. Senior Management Board/Team meetings are to have an agenda item of Reserves Engagement (to cover both EE and ES, and include EN as appropriate). Engagement (to include EE and ES/EN) is to be a standing item on the Unit's (or Branch) Command Brief.

f. EE and ES are critical success factors in the maintenance of Operational Capability. Unit effectiveness in these domains will be measured and reported on during Assurance visits.

g. COMMARRES HQ will act as a conduit between the Employer and MOD/RF&C/NCHQ or HQ Theatre Troops with regard to the provision of ES to deployed Maritime Reservists.

3. Unit Employer Support Officer (UESO)

a. Each MR Unit or Branch has been directed to appoint a UESO to undertake primary EE and ES activity on behalf of its Reservists.

b. UESOs are typically OF3 ranked, with demonstrable experience in both the military and civilian workplace. To aid continuity, the Unit Warrant Officer or Whole Ship Coordinator (WSC)), Unit Operations Officer (UOO) or Support Manager (SM) will assist the UESO in managing all ES activities and deliver day-to-day activity.

c. Where a Regular RN Officer is responsible, a Deputy Reservist UESO should be appointed for balance. This is a good broadening experience for a junior officer.

d. Within the Air Branch, the UESO role is to be undertaken by the Permanent Staff at Yeovilton or Culdrose, as appropriate.

e. For the Media Operations Specialisation, the UESO role is to be undertaken by the MOS SO2 Coord/SO2 MOS.

f. UESO Terms of Reference are to be included within Unit Standing Orders.

4. UESO Primary Tasks

There are six areas of employer support activity which UESOs should ensure are delivered:

a. **Employer Notification.** EN is an important activity. After attestation (within the Reservist's first year), COs should write to the Reservist's line manager and then subsequently annually (no later than 31 Jan), detailing annual and routine training commitments where possible. The EN process is explained in detail at Para 7.

b. **Pre-mobilisation and Routine Training.** Before a Reservist undertakes routine training or is mobilised, it is important that a relationship has been established between the Unit and the employer. EN is an important first step in this. COs should decide the most appropriate approach for each relationship, in conjunction with their Reservists. The importance of the Reservist in establishing and developing this relationship should not be overlooked; they are often best placed to explain the commitment to their employer (supported by the chain of command).

c. **Mobilisation and Operations.** When a Reservist enters a high readiness period, it is important that this information is conveyed to the Reservist's line manager during the EN process. During mobilisation, units should inform employers of their employee's activities, location and their expected date of return.

d. **Demobilisation and Post-Mobilisation.** Following mobilisation, ES activities should be focussed on ensuring the employer knows their own and their employee's rights and obligations. Units should also write to employers following mobilisation outlining what the Reservist has achieved and the mutual benefit gained through the mobilisation. This should not be a redraft of an annual report but should focus purely on positive messaging following the period of mobilisation.

e. **Casework.** Casework takes place when, as a result of an individual's Reserve service, either party requires detailed advice and help, or the normal relationship between the Reservist and employer breaks down. The circumstances under which this could occur vary from a welfare situation to an administrative misunderstanding.

f. **Employer Recognition Scheme (ERS).** Engage with the scheme as follows:

(1) Encourage individual Reservists to ask their employer to self-register as Bronze Award holders.

(2) Liaise with REEDs to target which employers to encourage signing the Armed Forces Covenant.

(3) Draft citation for COs to nominate employers of their employee Reservists considered deserving of a Silver or Gold Award.

5. UESO Responsibilities

a. Provide first line support and advice to the Reservist and their employer, troubleshooting specific problems and representing the CO in ES activity that affects the unit.

b. Remain up-to-date with DRM guidance.

c. **Internal Activity.**

(1) Establish a regular schedule of initial briefings about EN for Reservists, and to maintain a list of those Reservists who have and have not been briefed.

(2) Establish a rolling programme of ongoing ES briefings for Reservists.

(3) Establish and maintain noticeboards in unit locations dedicated to ES, ensuring they are clear, current and consistent across sub-unit locations.

(4) Provide regular briefings up the chain of command to the CO about ES issues and maintain an overview of casework.

(5) Assist in individual cases where a Reservist is experiencing difficulties with their employer. Whilst the UESO will coordinate activity and ensure all parties are kept informed, advice can be sought from the Reserves Engagement Team and REEDs as appropriate, as well as utilising the information available via DRM. Recording all communications (including notes of phone calls and meetings) is important in casework.

(6) Maintain the JPA database, updating information on the unit's Reservists' employers, including whether they are supportive or not, what events they have been invited to and attended, and any communication that has occurred.

d. **Outward Facing Activity.**

(1) Liaise with REEDs to plan, deliver and evaluate EE and ES activity. Working under the direction and line management of the RFCA CEs, the REEDs deliver EN and ES on behalf of DRM. They focus mainly on HR departments and senior managers of smaller organisations employing Reservists within their region, thereby helping to create a favourable environment within which EE and ES can flourish at unit level.

(2) Brief on and implement the EN process, working with SO2 Reserves Engagement and the CO to ensure that employer data is up to date and that any requests for EN waivers are processed in good time ahead of the unit's planned notification schedule. In Northern Ireland the EN process should be followed as per para 8 sub para e.

(3) Re-direct questions from employers regarding applications for deferrals or exemption from mobilisation to the single Service personnel centre that issued the call out notice - this is beyond the UESO remit.

e. **Mobilisation and Operations.** Once Reservists have been mobilised, UESOs should write to employers as soon as possible introducing themselves as a point of contact within the unit. The UESO should maintain contact throughout the Reservist's period of mobilisation, ensuring information such as the following is included:

(1) What the Reservist is doing;

(2) Where they are;

(3) When they are coming back;

(4) Whether they can be contacted whilst serving and how to go about it.

f. **Demobilisation and Post-mobilisation.** As the period of mobilisation comes to an end, the UESO should write to the employer outlining the process of de-mobilisation, including timetables for normalisation and leave, and to highlight the detail of the Reserve Forces (Safeguarding of Employment) Act 1985. Employers should also be reminded to carry out the process for reinstatement to employment outlined in JSP 532 Guidance for Reservists Returning to Civilian Employment following a Period of Mobilised Service. The UESO's role is, in advance of the Reservist's return, to prepare the ground with the employer in easing the process of re-instatement. It is also important for the CO to write to employers thanking them for releasing the Reservist and explaining what the Reservist has done throughout the period of mobilisation. This should not be a re-run of their annual report, but instead a summary of the Reservist's achievements, and where possible how these translate into benefits for the employer. This letter should not include any reference to areas for development or potential shortfalls.

g. **Short Notice Returners.** Under some circumstances a Reservist may be demobilised earlier than expected. In this situation it is likely that the UESO will need to provide greater support to both the Reservist and the employer. Whilst the procedures in JSP 532 continue to apply, the employer/Reservist relationship may be more fragile due to the unplanned early return, and the UESO role may be to act as a mediator to support both parties.

h. **Delayed Returners.** On rare occasions, a Reservist may be required for longer than initially expected (although they will not be mobilised for a period greater than one year unless they require medical treatment prior to demobilisation). Where this happens the mobilisation centre will communicate the change in requirement to the employer, however the UESO should be prepared to provide the employer with any further information, and act as a link to the Reservist if the cause of the delay is injury.

i. **Return to Work.** When a Reservist returns from a one-year period of mobilisation they are normally given up to eight weeks' paid leave on a pro-rata basis, while still in the employment of the MOD. The UESO will need to explain this process to the employer and, in some circumstances, help facilitate an earlier return to work if that is what the Reservist wishes. This can be achieved only if the Reservist has the prior approval of the CO of the demobilisation centre or unit.

6. Reservist's Responsibilities

Reservists should communicate with their employers in addition to unit communication activity. They are best placed to understand the workings of their workplace and the best method for engaging with their employer.

7. Employer Notification (EN)

a. The EN process is designed to establish and maintain a positive relationship between Defence, the Unit CO and the Reservist's line manager and employer. The more employers know about the implications of employing a Reservist, the more supportive they are likely to be. It is unreasonable to expect employers to support the mobilisation of an employee if they did not know that the individual was a Reservist.

b. Specific guidance on the EN process will be issued by COMMARRES annually following direction given by RF&C.

c. Prior to delivering EN letters, employer data must be assured, and any waiver applications submitted to and approved by the unit CO in accordance with the annual direction issued by COMMARRES. It is recommended that employer data be gathered throughout the year through the Divisional System and waivers submitted and approved in good time to allow sufficient opportunity to ensure that letters can be completed and sent prior to the annual deadline. To achieve assurance of the data, all MRs shall undertake an annual check of their employer details held on JPA. In accordance with the Data Protection Act 1998, all Reservists retain the right to inspect information held about them on JPA.

d. MOD EN policy is detailed in JSP 766.

e. It is recognised that a high proportion of Ratings/Other Ranks do not complete initial training. The Unit or Branch can decide whether to carry out EN at the outset; otherwise it must be completed on return of the individual from their New Entry Course.

f. It is a condition of membership that all officers who join or re-engage in the MR must supply full contact details of their employer and give permission for the MOD to contact their employer directly (unless a Permanent Exemption or Temporary Waiver applies).

g. EN does not apply to Reservists who are unemployed, self-employed, students, work on temporary contracts or work abroad for a UK Registered Company. EN does not apply to a Reservist employed by a foreign company, which has its Registered Office outside the UK.

8. Request for EN Waiver

a. Waivers to prevent EN may be applied for by Reservists annually, and the authority for granting waivers rests with the unit CO. Waivers may be granted for the following reasons, at the discretion of the CO:

(1) To maintain a Reservist's security.

(2) If a Reservist's employment would be compromised by an unsupportive employer.

(3) If EN could exacerbate a short-term employment issue.

b. Applications, including as much information as possible as to why a Reservist wishes to obtain a waiver, should be made to the unit CO under unit arrangements. Once granted, notification of the number of waivers granted should be reported in accordance with COMMARRES annual guidance. Waivers may be granted in successive years if the CO judges that the reason for the application remains extant.

c. Where waivers have been granted, the unit should work to understand and try to overcome the reasons for the waiver being granted. The RFCAs and DRM may be able to provide advice on the employer's corporate position and help to alter the view of line managers. They may also help to overcome the misconceptions of Reservists who might incorrectly fear they will be penalised by their employer for being a Reservist. Throughout, it is important to be guided by the Reservist, so as to not inadvertently compromise their civilian employment.

d. EN has been beneficial to Reservists and has resulted in some employers granting their Reservist paid annual leave. It also has the benefit of allowing employers time to consider what they would do in the event of a mobilisation. These benefits should be explained in order that Reservists understand the potential benefits to them.

e. **Northern Ireland.** EN in Northern Ireland is administered by the RFCA rather than the unit CO and an 'opt in' rather than 'opt out' approach is taken.

ANNEX 101H

EMPLOYMENT OF MARITIME RESERVES UNDER THE FOREIGN RESIDENCE MILITARY EXCHANGE PROGRAMME (FRMREP)

1. Introduction

a. Foreign Residence Military Reserve Exchange Program (FRMREP) is an agreement between the US DoD and the UK MOD to allow reservists to perform reserve duties and related reserve assignments whilst residing temporarily in the other participant country. FRMREP is intended to support the training requirements of the Participants' Reserve Forces members when those members are temporarily residing overseas. Through the programme, Reservists living temporarily overseas can maintain training currency, gain valuable new skills from, and insights on, partner nations whilst maintaining formal links to their units in the UK. It is a powerful retention tool, and a professional development opportunity. The programme also supports Defence Engagement effect as it fosters an active relationship between the participants' Reserve Forces.

b. Whilst all eligible applicants are encouraged to apply for this scheme, there is no automatic right to it. Deputy Commander Maritime Reserves (DCMR), has the discretion to accept or decline each application depending on the suitability of applicants and the nature of the opportunity. Each case is to be assessed on merit. Criteria will include candidate suitability, affordability, PID availability and the extent to which the attachment will benefit both the candidate and the RN. All successful candidates will continue to serve their parent unit in a manner consistent with the requirements of maintaining currency as a member of the Maritime Reserves, and as directed by their Commanding Officer.

c. Successful applicants are to be held on the strength of their UK sponsoring unit.

2. Participating Nations

This policy covers the employment of MRs under the FRMREP agreement between the United Kingdom and the United States only. Other Reserve Forces Foreign Service Arrangements (RFFSA), including those with Australia, Canada, and New Zealand are covered under separate policies.

3. Eligibility

The FRMREP programme is designed for the RN Reserve Forces (Officers and Ratings) temporarily living overseas. The basic eligibility criteria to be considered for employment under FRMREP are:

a. A recommendation from their Commanding Officer.

b. The quality to act as a role model/ambassador for the Royal Navy overseas.

c. Valid Security Clearance to the level required by the Receiving Service.

d. To be Trained Strength with recommendation from Capability Area.

e. Medical status MFD.

4. Employment Caveats

Detailed caveats on the employment of reservists on FRMREP attachments are laid down in the FRMREP MOU; these are to be reiterated and updated in individual Authority to Train and Authority to Host letters issued under the authority of the SO1 Policy at CMRHQ. The primary caveat is that, as a training attachment, FRMREP participants are not to be used in any form of operational role nor placed in situations that exceed their individual level of skills, qualifications and experience.

a. Employment on MACA tasks in the host nation is not permitted.

b. Training in third countries may be permitted but only with the specific prior authority of both sending and receiving service HQs.

5. Application Process

UK Personnel Overseas. The following process is to be followed for MRs applying to train in the United States under FRMREP.

a. Pre-application. Seek UK unit CO's support in principle and identify a suitable host unit in the receiving nation. Action: Applicant

b. CMRHQ Approval. Complete and submit the form at Appendix 1, with CO's signed endorsement, to CMR SO1 Policy. Action: Applicant, CO

c. Application. CMR SO1 Policy on behalf of DCMR will review and approve or reject the application. If approved, application to be forward to Army International Engagement (AIE). Action: Applicant, SO1 Policy.

d. International Staffing. AIE review and approve or reject the application. If approved, submit it to the National Guard Bureau at the US DoD. Action: AIE.

6. Approval Process

On receipt of approval from the US National Guard Bureau, AIE is to request confirmation of the terms of the FRMREP attachment with an *Authority to Train* note issued by the CMR SO1 Policy, copied to the receiving service HQ and unit CO. That note will specify the duration of attachment, the maximum funded training (annual RSDs agreed by UK Unit CO) and be based on an agreed Personal Commitment Plan (PCP) aligned to the MR Branch Training Matrix. Specific caveats on training, medical limitations or employment overseas are also to be included. British Defence Staff US (BDSUS) is to be informed that a Royal Navy Reservist will be active in-country, and Duty of Care responsibilities agreed. Action: AIE, SO1 Policy

a. **Tracking.** Move and Track, in accordance with LOC policy, is a sending unit responsibility. Action: Sending unit

b. **Extension.** Applications to extend FRMREP attachments are to be submitted to AIE, through the participant's UK CO, no less than 10 weeks before the agreed end of attachment. Action: Applicant

c. **Early Termination.** MRs may terminate their attachment at any stage; they are to notify both receiving and sending unit COs, copied to AIE.

d. **Return to Unit.** MR would normally be expected to return to their sponsoring UK unit. In some circumstances, following negotiation between the sending unit and CMRHQ, a follow-on posting may be arranged.

7. Service Support

a. **Dress.** MR are to wear their own national service uniform when on duty overseas and maintain the standards and bearing expected of a member of the Naval Service.

b. **Pay and Allowances.** The parent unit is responsible for the pay and allowances of their SP for the duration of the attachment. As part of the application process, the parent unit CO is to stipulate the maximum allowable RSDs the SP may work. Additional unpaid reservist work overseas is not permissible[1]. Direct liaison should be established between the sending and receiving units to facilitate processing of pay and allowances.

(1) The host unit is responsible for travel, subsistence, and lodging costs in connection with the performance of any duty carried out by the SP pursuant to a requirement or request of the host unit.

(2) Home to duty travel allowances are payable at the parent unit CO's discretion. SP on FRMREP attachments are not eligible for LOA, deployment or recovery movement costs.

c. **Certificate of Efficiency/Bounty.** Meeting the PCP training obligations set down in Service Command Regulations is mandatory for reservists to be eligible for the Certificate of Efficiency and Training Bounty. However, acknowledging that exact NCL training may not be available overseas, COs have the discretion to sign off Certificates of Efficiency if they are content their SP overseas have met a comparable version of the minimum training standards. Discussion between sending and hosting units is required to support such assessments.

d. **Training Costs.** Training costs; including rations, fuel, etc. are borne by the receiving nation on a non-cost recoverable basis.

e. **Safety Risk Management (SRM) and Duty Holding (DH).** BRd10[2] sets out the Navy Command Safety and Environmental Management System (NC SEMS). Almost all routine training activities likely to be conducted under the FRMREP will be covered under the appropriate Safe System of Work (SSW). Duty Holding will only apply if any activity goes outside the SSW. In such circumstances DH responsibility lies with the SP's sponsoring chain of command, usually at OF6-level. Duty of Care oversight responsibilities for SP overseas will be allocated to a named in-country British officer, usually the BLO or the DA[3], but the UK chain of command must continue to support and advise their SP on risk and safety issues. Any individual invited to conduct training which appears to fall outside SSW is to notify, in advance, their UK chain of command requesting an Escalation of Risk assessment. If there is any doubt, SP have the duty to withdraw from those activities.

---

[1] A stipulation within the RFFSA and FRMREP MOUs is that no unpaid training is permitted under these schemes.
[2] BRd10 link: BRd 10
[3] This allocation will be confirmed in the deployment instructions issued by Army International Engagement (AIE).

f. **DIRLAUTH.** Direct and regular liaison between parent and receiving unit COs is required to support Duty Holding, Duty of Care and reporting responsibilities, and to exploit the defence engagement benefits of the schemes.

g. **Discipline.** In addition to UK Service Law, SP on FRMREP attachments are subject to the receiving nation's laws and policies at all times, whether on duty or not. Whilst they are not subject to the receiving Service's military discipline system, they are expected to comply with instructions and customs of the receiving Service. They are to obey orders given by appropriate members of the receiving Service, provided those orders do not contravene the laws of their own Service. The receiving Service is required (by the MOU) immediately to advise the sending Service of any allegations regarding disciplinary offences involving a member of the sending Service. In addition, applicants are to be reminded of their individual responsibilities. When an SP is charged by a civil court in respect of a criminal offence, they are to report the matter immediately through their national chain of command to their CO[4].

h. **Medical.**

(1) Primary healthcare for FRMREP personnel should be provided through personal arrangements, i.e. healthcare insurance, provisions offered by their civilian employer, or as available to citizens in the host nation. This could be via access to local medical services or private medical care etc. Tasking authorities are to ensure that the FRMREP reservist has sufficient medical cover for the long-term care of illness or injuries that may result from duties carried out, as subject to TACOS; UK Reserve Service does not confer entitlement to primary care from Defence.

(2) When a reservist is on duty overseas, as with all members of the Reserve Forces, there is no entitlement to the provision of Defence Primary Care, but, in accordance with 2017DIN01-096, JSP 770 and single Service Reserve Regulations, all service personnel are eligible for urgent or emergency care.

i. **Insurance.** Reservists are to take out private medical, personal liability and kit insurance for the duration of their attachments.

j. **NOTICAS.** All serious incidents involving detached UK SP are to be reported immediately to the British Defence Staff United States (BDSUS) who will invoke the appropriate NOTICAS/JCCC action. Incidents involving foreign SP on duty in the UK are to be reported immediately to Navy Command.

k. **Assessment and Reporting.** The parent unit CO remains responsible for the applicant's annual appraisal repots. Input from the hosting unit chain of command would normally be sought.

[4] BRd 2 The King's Regulations for the Royal Navy.

8. Points of Contact

The following points of contact are to be used for staffing and advice:

a. MR SO1 Training and SO1 Policy

b. SO1 Reserves AIE, Army HQ

c. AIE mailbox: ArmyEandC-IntlEngt-Mailbox@mod.gov.uk

d. ARNG International Programs and Exchanges Coordinator

APPENDIX 1 TO ANNEX 101H

FRMREP APPLICATION FORM

FRMREP APPLICATION FORM (FORMS)

ANNEX 101I

MARITIME RESERVE MEDICAL BRANCH – RECOGNITION OF NHS ACTIVITY

1. Guiding Principles

Training and clinical practice undertaken within the NHS can account for a maximum of 25% of an individual's total Annual Training Commitment. NHS activities suitable for recognition as Operational Capability Output (OCO) include but are not limited to, training courses undertaken within the NHS, other continuous professional development (CPD) activities as well as participation in appraisal and revalidation activities required to maintain professional registration. Judgement on the suitability of NHS activities for recognition as OCO is to be approved on PCPs at the start of the Training Year.

2. Criteria

Activities undertaken within the NHS but recognised as OCO will not attract pay from the Maritime Reserves. Members of the MRMB may only seek recognition for NHS activities towards the award of a Certificate of Efficiency (CoE) and Bounty if they have met the following criteria:

a. Attended a minimum of one MRMB Training Weekend during the current Training Year.

b. Completed and remained in date for all elements of their Training Matrix at their current rank.

c. Completed and remained in date for all Pre-Appointment/Deployment training listed on the Maritime Deployed Hospital Group (MDHG) or Commando Forward Surgical Group (CFSG) Operational Job Specification for their deployed role. In the absence of a published MDHG Operational Job Specification, confirmation that the individual is fully compliant with this requirement will be sought from the relevant Consultant Advisor (CA), Clinical Specialist Advisor (CSA), Specialist Nursing Advisor (SNA) or equivalent.

d. If the training undertaken within the NHS is also included in the individual's Maritime Reserves Training Matrix or in the MDHG/CFSG Operational Job Specification for their deployed role, then it can be recognised as OCO even if the criteria described in point 7 are not fulfilled.

3. Process for recognition

Any member of the MRMB planning to seek recognition of NHS activities as OCO should include these on their PCP following discussion with the relevant capability SO1/SO2. In addition:

a. The individual is to submit evidence of having completed the activities for which recognition is being sought to the relevant capability SO1/SO2. The relevant capability SO1/SO2 will then confirm the number of days of NHS activity that have been recognised as OCO.

b. At the end of the Training Year, the individual must also submit a submit a Bounty Waiver request including the justification, *"[INSERT NUMBER OF DAYS] of NHS activity recognised as OCO, iaw BR3(1)"*, attaching Capability SO1/SO2 approval.

ANNEX 101J

MR INTELLIGENCE SPECIALISATION APPLICATION PROCESS AND ENTRY PROCEDURE

Step 1:

Applicants must read the 'Essential Criteria for Application' contained at para 101100. The attention of applicants is particularly drawn to sub paras a. – d., which set out the ranks and rates currently required by HMS FERRET and the need for all other ranks and rates to meet specific criteria, before they will be considered.

Step 2:

Once satisfied that they are eligible, the applicant completes the application form at Appendix 1 (including comments from their parent unit).

Step 3:

a. The applicant sends a completed application form to the HMS FERRET Recruitment email address navymr-ferretrecruitment@mod.gov.uk, including in addition:

- Their current military and civilian CV (see guidance above).
- Their last fully completed annual report.

b. Applicants will receive an automated reply from the recruitment inbox, acknowledging receipt of their application.

Step 4:

A panel of three personnel from HMS FERRET will sift all applications. The sift will automatically sift out:

- Incomplete applications, including those without the enclosures cited in Step 3.
- Applications which the panel believe do not have enough information in Sections 3 to 9.
- Applications where the word limit has been exceeded in any section.
- Unsigned applications.
- Applications from personnel who have recently taken, or intend to take the AIB and plan to attend officer training. See para 101100.h.

Step 5:

a. The sifting panel will look for evidence that the application contains some evidence of the Core Competencies contained in the HMS FERRET Recruit Assessment Framework, cognisant of the applicant's rank or rate. These are:

- Leadership and Management.
- Teamwork.
- Communication.
- Decision Making.
- Understanding: (Assessing, Analysing and Applying information)

b. Where an application fails to meet the standards in all or most respects (a score of 0 or 1) the application will be sifted out and the applicant provided with feedback. Applicants sifted out at Steps 4 and 5 may reapply.

Step 6:

The sifting panel will also review the applications from individuals who, although HMS FERRET has a full complement at their rank or rate, believe they meet the necessary criteria. Applicants sifted out at this stage may not reapply within 12 months.

Step 7:

Occasionally, concerns may arise regarding apparent inconsistencies or ambiguity in an application. In this case, the panel will request clarification on these points from the applicant, before deciding whether to sift the application out.

Step 8:

Candidates who are successful at the sift stage will be invited to the first stage of the recruitment process, which is the virtual interview, exam and presentation. Candidates who complete these successfully will be invited to the face-to-face assessment at DITG. The purpose of each section of the process is to identify whether candidates possess the competencies, motivation, intent and capacity required to undertake training and subsequently conduct intelligence duties.

Step 9:

Candidates will be informed of the outcome of the assessment. Candidates who are unsuccessful at either the virtual or face-to-face sections of the recruitment process will be provided with feedback and advice on whether it is considered a further application would be successful. Those who are considered unlikely to succeed may not reapply.

Step 10:

RNR personnel wishing to join HMS FERRET will be required to complete both Branch and Unit transfer processes. HMS FERRET will assist successful candidates in completing this process, but individuals must request a transfer from their own unit to HMS FERRET.

Step 11:

Successful RMR candidates will be required to apply for a Unit transfer to HMS FERRET via their USM and Career Manager. The previously held RMR line number will not be gapped in the interim. Once transfer is complete, the individual will hold a PID within HMS FERRET. If at any point the individual requires to return to the RMR mainstream, then they will have to apply via the USM of their Regional Unit and the RMR Career Manager. Retaining a link to the regional RMR Unit is crucial for the individual's career management, green skills training and ethos.

Candidates should note that a significant delay (over 3 months) in accepting a place at HMS FERRET following successful selection may result in an offer withdrawal and a requirement to re-apply.

Step 12:

a. Successful candidates will be informed of course dates of the Joint Maritime Intelligence Course (Reserves) (JMIC(R)). This training is three weeks long and residential. The first section 5 days in duration, the second 12 days in duration (which includes the weekend). JMIC(R) is mandatory for all untrained personnel and failure to successfully pass the course will result in RTU.

b. If applicants have any questions or require further information, they should email the HMS FERRET Recruitment email address navymr-ferretrecruitment@mod.gov.uk

APPENDIX 1 TO ANNEX 101J

MRIS RECRUITMENT PROCESS APPLICATION FORM

MRIS RECRUITMENT PROCESS APPLICATION FORM (FORMS)

ANNEX 101K

MARITIME RESERVES CYBER CAPABILITY

1. Organisation

Having completed their induction training CyRes joining the MR will be assigned to either MCU(R) or to one of the two UK StratCom CyRes units (CSU Corsham and JCU(R) Cheltenham). There are also a small number of MR Cyber capability OF PIDs attached to HQ JCU(R).

2. Leadership and Management

a. MR Cyber Capability leadership and management is the responsibility of SO1 Cyber and SO2 Cyber. SO1 Cyber reports to MR DACOS Information Warfare (IW) and is responsible for the delivery of MR Cyber capability and pan-IW co-ordination and collaboration.

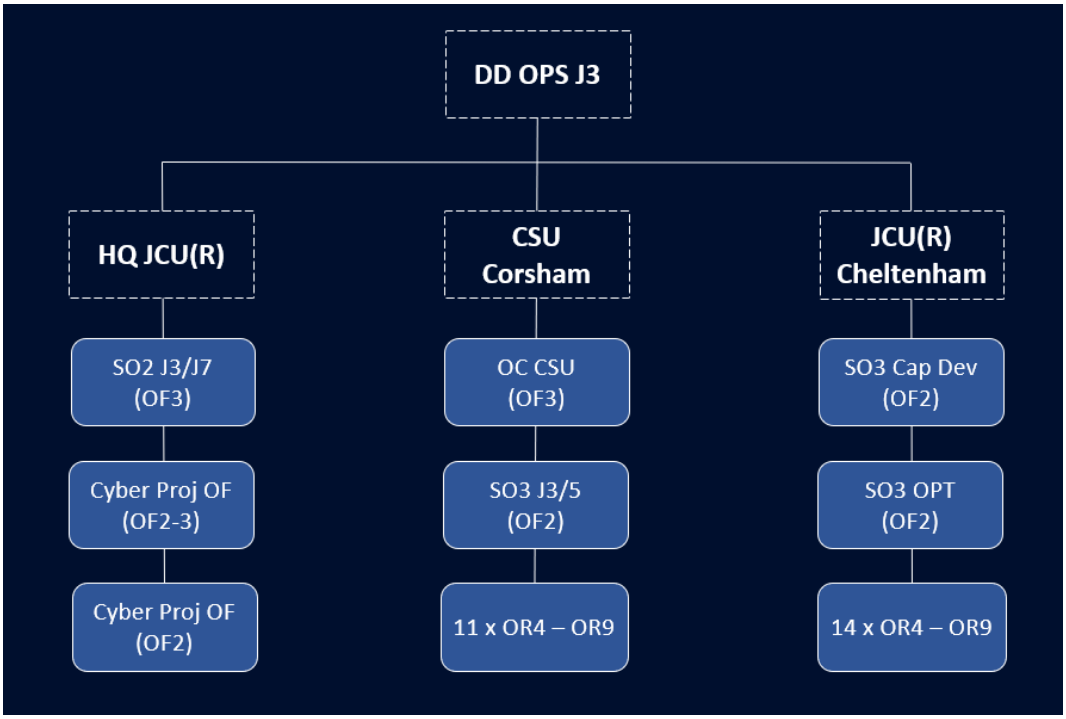
b. Officer Commanding (OC) MCU(R) is responsible for the leadership and management of all MR Cyber Capability and FTRS personnel assigned to MCU(R). OC MCU(R) is line managed by SO1 Cyber.

c. As with any Joint assignment personnel assigned to CSU Corsham or JCU(R) Cheltenham are led and managed by their respective unit OC.

3. Branch Structure

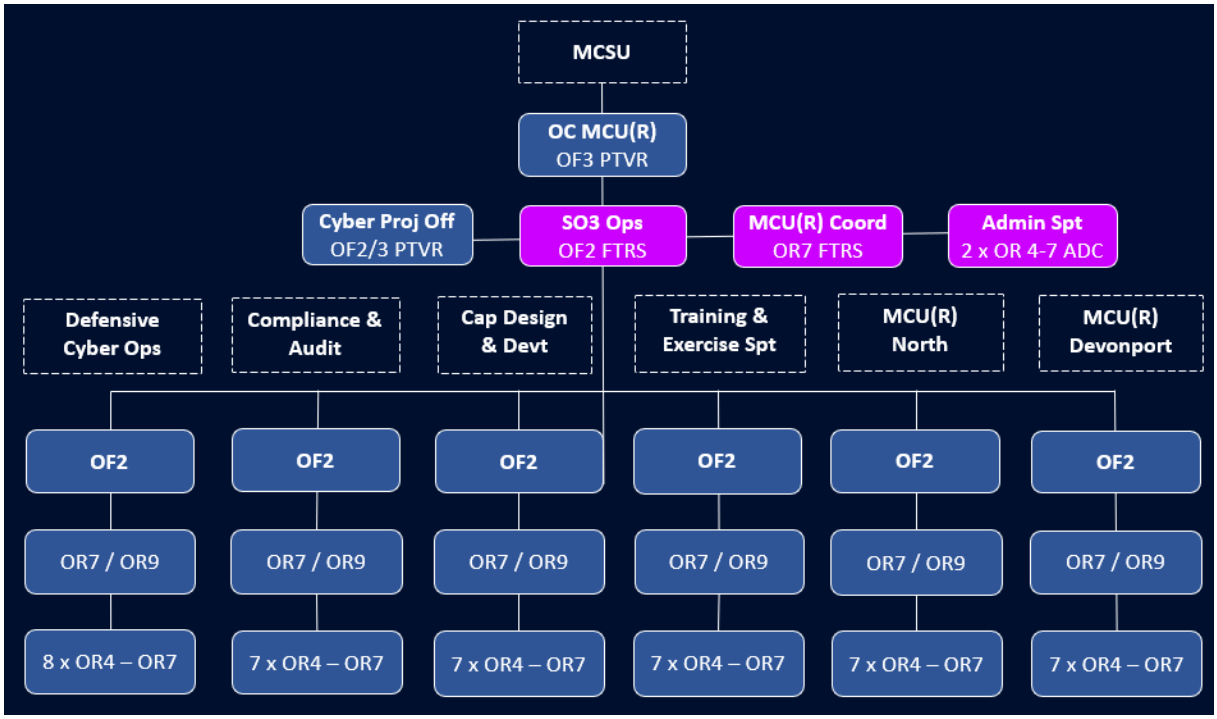
a. There is a total of 32 (7xOF and 25xORs) MR Cyber Capability PTVR PIDs in UK StratCom which are split between the three units as shown in Figure 101K-1:

Figure 101K-1: MR Cyber Capability PIDs in UK StratCom



b. In addition, there are a further 57 (8xOF and 49xORs) MR Cyber Capability PTVR PIDs in MCU(R) as shown in Figure 101K-2.

Figure 101K-2: MR Cyber Capability PIDs in MCU(R)



4. Branch Administration

a. Routine administrative arrangements for pay, training, employment and reporting responsibilities will be undertaken by the relevant unit administrative function at the unit[1] personnel are assigned to.

b. MCU(R) provides its own tasking co-ordination administrative functions through the SO3 Ops, OR7 Coord and admin support posts. Budgetary responsibilities are managed by OC MCU(R) on behalf of SO1 Cyber and administered on a day-to-day basis by the administrative team.

c. Travel and subsistence are funded by HQ JCU(R) for personnel under their OPCOM, and by the unit requesting support for personnel employed on tasking for the Royal Navy or other TLB.

5. Terms and Conditions of Service

a. The CyRes began as a pilot scheme following a Joint Forces Command (now UK StratCom) initiative in 2014, as originally detailed in CMRTM 24/14[2]. The CyRes aims to attract individuals with specialist Cyber skillsets which are not commonly found in Defence. As such, it is acknowledged that not all individuals with such skills will meet the normal age, fitness, medical or appearance standards to join the MR.

[1] i.e. HQ JCU(R), Cyber Specialist Unit (CSU) Corsham and JCU(R) Cheltenham, and by the MCU(R).
[2] CMRTM 24/14 Maritime Cyber Reserves and Formation of the RNR Cyber Unit dated Jun 14.

b. The employment of MR CyRes has therefore evolved differently from mainstream MR personnel and as such carries specialist Terms and Conditions of Service (TCOS). These TCOS only apply to ORs in the MR Cyber Capability; OFs currently remain subject to standard MR OF TCOS.

6. MR CyRes TCOS

a. MR CyRes are employed in accordance with standard MR TCOS as detailed in the Royal Naval Reserve Notice Paper[3] or Royal Marines Reserve Notice Paper[4] as appropriate, with some specific adjustments for MR CyRes personnel:

(1) **Fitness Test.** MR CyRes are not required to pass or remain in date for the Royal Navy Fitness Test (RNFT), RN Physical Employment Standards (PES) or Royal Marines Fitness Test (RMFT), although are encouraged to do so if they meet the requisite medical and physical standards, and may require to achieve a suitable fitness standard to deploy onboard ships or overseas.

(2) **Weapons Training.** MR CyRes are not routinely be weapons trained, but dedicated training will be undertaken if specific roles require it.

(3) **Security Clearance.** All MR CyRes require Developed Vetting (DV) Clearance. If this level of clearance is unattainable for any reason, then the individual in question will be deemed unsuitable for service, or further service, in the MR Cyber Capability.

(4) **Deployment.** MR CyRes will only be deployed to a Joint Operations Area (JOA) if they meet Theatre Entry Standards (TES)[5] for the location, operation or exercise in question, and have a Medical Deployment Standard of Medically Fit to Deploy (MFD). Deployment outside of a JOA for tasks and exercises will be permissible depending on JMES requirements. Personnel graded Medically Non-Deployable (MND) will not deploy. Personnel graded Medically Limited Deployable (MLD) may be deployed following a Medical Risk Assessment[6] (MRA), provided that the deployed Commander is made aware and is prepared to accept the risk.

(5) **Transfer.** Due to the unique bespoke entry process undertaken by MR CyRes, direct entrants are not eligible to transfer to another MR branch. Any individual wishing to leave the CyRes capability will need to re-join as an OR1 in order to complete the full MR Phase 1 and Phase 2 training programme. A Firefly transferee or entrant from the trained strength of the MR wishing to transfer back to their source branch would need to apply for a branch transfer as with any other MR capability and would be considered at the rate/rank held in previous Service.

[3] BRd 3(2) Annex 2A RNR Notice Paper dated Dec 20.
[4] BRd 3(2) Annex 2B RMR Notice Paper dated Dec 20.
[5] Unless a TES waiver is granted.
[6] A grade of MLD requires a medical risk assessment (MRA) to be carried out for deployment iaw BRd 1750A Handbook of Naval Medical Standards dated Apr 22. The decision on that deployment will depend on the medical condition, individual function, the proposed employment, length of the deployment and the medical support available.

b. All other TCOS are as detailed in the Royal Naval Reserve Notice Paper or Royal Marines Reserve Notice Paper as appropriate. For clarity:

(1) **Engagement.** Direct Entry MR CyRes will join on Engagement Stage 1 (ES1) (12 years' service) and will automatically transfer to ES2 (additional 8 years' service) on advancement to AB1 on completion of CyRIP. Transferees will remain on their original ES2 engagement. Extension of Service (EoS) can be applied for.

(2) **List.** MR CyRes will serve on List 1 (General – Higher)[7].

(3) **Certificate of Efficiency.** Certificate of Efficiency (CoE) requirements are laid down in BRd 3(1) and detailed in the annual CoE CMRTM.

(4) **Reserve Service Days.** MR CyRes are required to complete a minimum of 16 Operational Capability Output (OCO) and 8 Support Activity (SA) days per year to achieve CoE[8].

(5) **Naval Core Training.** MR CyRes are to complete and to remain in date for all Naval Core Training (NCL) modules[9] with the exception of NCL 1 (Fitness Test).

7. Advancement

a. CyRes across the sSs have a bespoke advancement framework which has been developed to recognise their exceptional skillset and employability. This framework is aligned across Cyber Reserve Force (CRF) units such that individuals are not unfairly advantaged or disadvantaged due to the Service they choose to join after completing JCRSB.

b. Advancement is not automatic, but is based on time in rate/rank, merit, competence and SJAR recommendation. The advancement matrix is shown in Appendix 1[10]. The following criteria apply:

(1) There is no requirement for MR CyRes to undertake leadership courses prior to advancement.

(2) Transferees from the RNR, RMR, RN or RM who transfer into the MR Cyber Capability will retain their current rate/rank but will be required to 'mark time' until they have achieved the requisite time in rate/rank to achieve advancement, and must also satisfy the other criteria of merit, competence and SJAR recommendation. For example, a PO transferring from the wider MR or a Sgt transferring from the RM would need to complete at least 6 years at that rate/rank in the MR Cyber Capability before becoming eligible for advancement to CPO/CSgt, regardless of previous SJAR recommendations or promotion board gradings.

[7] BRd 3(2) Naval Personnel Management (Reserves) dated Dec 20 para 0106: List Structure of the RNR.
[8] BRd 3(2) Naval Personnel Management (Reserves) dated Dec 20 para 0201 Annual Training Obligations.
[9] RNTM_07_056-23_Naval_Core_Training_and_Defence_Mandated_Training1.docx.
[10] Advancement from OR7 to OR9 is subject to review as part of UCM Cyber Reserve TCOS harmonisation work.

(3) As most billets are rank ranged, advancement within post is possible. Advancement beyond the scope of a rate/rank ranged PID will require a change in PID.

8. Unified Career Management

a. Unified Career Management (UCM) is a new approach to managing cadres of individuals where the capabilities they deliver and the specialist skills they possess are the same or similar across two or more of the single Services. The UCM model does not change the Service an individual belongs to, but makes a Lead Command responsible for the career management and employment of individuals within a specific capability area[11].

b. UK StratCom is the Lead Command for both UCM CyRes and UCM Cyber (for Regular personnel) and are seeking to harmonise TCOS across the CRF which may result in changes to the way that MR CyRes are employed. This harmonisation review includes rank structures, Appraisal Reporting & associated Promotion Boards, Assignments, Fitness Testing, Professional & Leadership Courses and Training Commitment.

9. Recruitment and Training

MR CyRes do not follow the conventional recruitment and training pipeline for mainstream MR ORs. Instead, they follow a recruitment process which has been developed to enable their unique skillsets to be utilised by Defence in a timely manner whilst providing them with a basic level of military familiarisation.

10. Direct Entrant Recruitment of ORs

a. MR CyRes are recruited nationally by the Joint Cyber Unit (Reserve) (JCU(R)) HQ team. On successfully passing the JCRSB, they are assigned to one of three units (one RN and two UKStratCom)[12]. Successful CyRes applicants who opt to join the MR are processed in accordance with Recruiting Instruction 53/21[13].

b. Individuals who have demonstrated the necessary Cyber expertise, but who do not meet MR standard criteria for age, fitness, medical or appearance may still be considered for service in the MR Cyber Capability. Such candidates will be considered if appropriate waivers can be agreed with HQ CMR in accordance with Recruiting Instruction 53/21. All such candidates are assessed on a case-by-case basis by OC MCU(R) in the first instance, with medical appeals reviewed by the Service Entry Medical Cell (SEMC).

c. There is no direct entry route into the MR Cyber Capability as an RMR rank therefore all direct entrants will be entered into the RNR.

[11] https://modgovuk.sharepoint.com/teams/22079/SitePages/Home.aspx
[12] Maritime Cyber Unit Reserve (MCU(R)), Cyber Specialist Unit (CSU) Corsham, JCU(R) Cheltenham.
[13] Recruiting Instruction 53/21 Processing of RNR & RMR Cyber Reserve Candidates dated Dec 21.

11. Sideways Entrant Recruitment

a. MR ORs can apply to join the MR Cyber Capability either as transferees on leaving regular service via Project Firefly, or by applying to join the MR Cyber Capability from the trained strength of the MR.

b. MR trained strength candidates (both RNR and RMR, including ex Regular) with Cyber SQEP are strongly encouraged to apply to join the MR Cyber Capability but must be aware that due to the unique TCOS that CyRes are employed under this transfer route is one-way; individuals will be unable to transfer back to another MR capability.

12. Training Pipeline

a. After successful completion of the single-Service training weekend at MCSU, pre-course learning package on the Defence Learning Environment (DLE) and 12-day Cyber Reserve Induction Package (CyRIP), CyRes will be considered to be at Training Performance Standard (TPS). Role Performance Standard (RPS) will be achieved for CyRes on completion of the Workplace Induction Package (WIP).

b. Candidates failing to successfully complete sS training weekend, CyRIP or WIP will be offered the opportunity to re-attempt the element in question. Failure on the second attempt will result in the individual being deemed unsuitable for further Cyber Reserve service. Unsuccessful direct entrants will be discharged[14], and transferees returned to source Branch

c. MR CyRes will be considered as Trained Strength on completion of the WIP, and those in the RNR who have achieved RPS will be entitled to wear the Cyber branch badge.

13. Cyber OF Development

To generate the MR Cyber OF cadre of the future, selected MR Cyber Capability ORs will be encouraged to apply for the Upper Yardman (UY) and Senior Upper Yardman (SUY) schemes[15]. Ex-Regular OFs entering via the Firefly scheme with Cyber expertise will also be considered, as will sideways transferees from the wider MR; in both instances applicants will have to pass the JCRSB.

14. Application Process

a. Serving MR personnel on the trained strength and Firefly transferees interested in transferring to the MR Cyber Capability are to register an Expression of Interest (EOI) by emailing the SO2 Selection, Cyber Reserve Force at: UKStratCom-CyberRes-GpMailBox@mod.gov.uk. Information and details regarding the EOI requirements can be found at https://www.gov.uk/government/groups/joint-cyber-reserve-force.

b. Applicants will be invited to complete and submit an application form, and if their Cyber skillset is assessed to be in demand by Defence, they will be invited to attend the JCRSB.

[14] Discharge Shore (Unsuitable During Training) (DUDT).
[15] CMRTM 21/21 Upper Yardman (UY) And Senior Upper Yardman (SUY) Commissioning Schemes

c. Advice on the process of joining the MR Cyber Capability on successful completion of JCRSB can be obtained from MR SO2 Cyber (email: NAVY PEOPLE-MR RNR CYBER SO2).

APPENDIX 1 TO ANNEX 101K

MARITIME RESERVES CYBER ADVANCEMENT MATRIX

Establishment type	Career stage	Starting rank	Requirement for progression	Next rank
None	Cyber Reserve Selection	N/A	• Selection by Joint Cyber Reserve Selection Board (JCRSB) for an OR PID.	NA
Untrained establishment	Attested and placed on a UTE bucket PID. Requires Phase 1 Cyber Reserve training.	OR1 (AB2 / Mne)	• Completion of Joint Cyber Reserve Induction Package (CyRIP)	OR2 (AB1 / Mne)
Untrained establishment	Phase 1 Cyber Reserve trained, achieved Training Performance Standard (TPS). Requires the equivalent of Phase 2 training.	OR2 (AB1 / Mne)	• Completion of Workplace Induction Package (WIP) in MCU(R), JCU(R) Cor or JCU(R) Ch.	OR6 (PO / Sgt)
Trained Strength	Phase 2 Cyber Reserve trained, joins the Trained Strength, achieved Role Performance Standard (RPS). Serving in a Cyber Reserve PID.	OR6 (PO / Sgt)	• Minimum 6 years of satisfactory service in the MR Cyber Capability (Note 1). • Certificate of Efficiency required for each year. • Recommendation for promotion required in latest SJAR.	OR7 (CPO / CSgt)
Trained Strength	Serving in a Cyber Reserve PID.	OR7 (CPO / CSgt)	• Minimum 3 years of satisfactory service in the MR Cyber Capability (Note 1). • Certificate of Efficiency required for each year. • Recommendation for promotion required in latest SJAR.	OR9 (Note 2) (WO1)

Notes:

1. A years' satisfactory service is defined by the award of the MR Certificate of Efficiency (CoE)[1]. Satisfactory service does not need to be continuous; there may be gaps when CoE was not awarded, as long as the total number of years when CoE was awarded meets the minimum requirement.

2. Advancement from OR7 to OR9 is subject to review as part of UCM Cyber Reserve TCOS harmonisation work.

[1] BRd 3(1) Naval Personnel Management Chapter 101 Section 10 para 10151 Certificate of Efficiency (CoE) and detailed in annual CMRTM.

ANNEX 101L

MARITIME RESERVES SELF CERTIFICATION TO ATTEND COURSES AND TRAINING ACTIVITIES

1. Policy

It is the responsibility of the Chain of Command (CoC) to authorise Service Personnel (SP) to attend MR Activities (via TAO submission) and ensure the SP meets the physical and functional requirements stated in the Joining Instructions (JI). JI must state the minimum JMES/MDS[1] required to enable the CoC to make an informed decision about whether a SP can attend or not. JSP 950, Leaflet 1-2-12 (V2.2 Oct 23) covers the assessment of medical suitability to attend courses and training. Training providers are to require the provision of medical self-certification by SP in their JI; MR personnel are to follow the self-certification process when carrying out the MR Activity identified in Appendix 1 to Annex 101L.

2. Medical Employment Standards

All SP have a JMES which informs service employers and CoC of any employment restrictions the individual may have. All SP can see their JMES on the Medical Employment Standards section of JPA and Ny Health App. Furthermore, nominated/authorising officers (minimum of CPO or above) within the Permanent Staff at units should have visibility of the JMES for those SP in their CoC. If the CoC or individual is unsure about the validity of a JMES they must, in the first instance, contact the MR Medical Office or liaise with the course organisers if uncertain about the physical requirements of the MR Activity.

3. Changes in Circumstances

MR personnel are required to inform the MR Medical Office of any changes to their health, significant injuries or the development of long-term medical conditions that may affect their ability to undergo training or mobilisation[2]. This action must be carried out immediately either by the SP or the unit.

4. Requirement

a. **Individual reservists.** If MR Activity requires medical self-certification to attend, normally specified in the JI, then the individual must complete the required JSP 950 Annex A and provide to the Training Provider ahead of attending the Activity.

b. Where MR Activity is regarded as “arduous”, CoC sign off will additionally be required. JSP 950 Annex B will be completed by the CoC and additional medical advice sought if required. Once approval has been given then the individual is to provide JSP 950 Annex A and B to the Training Provider ahead of their attending the Activity. Appendix 2 to this Annex outlines the process flow for simple self-certification and for arduous courses.

[1] Joint Medical Employment Standards / Medical Deployment Standard
[2] BRd 3(2) Chapter 3 Article 0310 Annex 3B.

c. Some MR activity may require additional medical screening to be undertaken to gauge suitability for attendance.[3] On completion of screening, JSP 950 Annex E should be completed and provided to the Unit and SP. Where screening is successful then Annex E should additionally be provided to the Training Provider. Appendix 3 to this Annex to outlines this process in more detail.

5. CoC Authorisation

a. Commanding Officers are responsible for authorising the attendance of their personnel on certain courses[4]. However, with the centralised administration of a number of capabilities in certain RNR units[5], it is necessary to expand the authorising officers to reflect the changes to the RNR laydown. The required JPA checks to support authorisation for arduous activities should be carried out by the individual's administering unit's Admin Officer, or their Capability Ops Officer, where one exists. The CoC authorisation should be performed as follows:

(1) For personnel in GW, Logistics, Chaplaincy, HMS FERRET and HMS PEGASUS, the unit's Commanding Officer should authorise.

(2) For personnel in IW, Training Branch, MNC and Engineers, the Capability SO1 should authorise.

(3) For RMR personnel, the USM should authorise.

b. The authorising officer is to ensure they are satisfied the individual is fit to participate in the training and that the appropriate certification has been completed to meet the course requirements. JSP 950 Annex B should be completed and provided to the SP. If the Commanding Officer/Capability SO1 is in any doubt about the validity of the JMES then they should contact the MR Medical Office for advice. Annex B to this CMRTM outlines the process in more detail.

6. Training Providers

a. Units that are co-ordinating or running courses, national, regional or local events, must conduct a suitable and sufficient risk assessment to assess their training to determine the level of fitness and functional capabilities of the activities. Appendix 4 to this CMRTM contains a flow-chart of the self-certification process from the training provider's perspective.

b. For many training courses, for example classroom-based training, a risk assessment will identify that there are no specific risks or physical fitness requirements, and therefore no medical assessment is required. Course organisers should state within JI that the course is "**open to all grades of JMES/MDS**".

[3] The list of courses requiring such additional screening can be found at JSP950 Annex D.
[4] A commander's certificate of medical suitability is appropriate for more arduous courses.
[5] At time of writing this refers to IW in HMS KING ALFRED, Engineers and Training Branch in HMS VIVID, Medics and Nurses in HMS FORWARD.

7. Documentation

Any documentation raised and assessed or seen by a military MO/Medical Staff, a copy will be retained within the individual's medical records. All other documentation is to be held within the individual's P file.

8. Completion of Self-Certification Proformas

The JSP forms are Tri-Service and therefore do not always use terminology familiar to the MR. Therefore, when completing the self-certification form, the following is to be considered:

a. the term 'course' is a generic term used to cover all aspects of MR activity;

b. the term 'rank' covers 'rate' and,

c. the term 'trade' is equal to 'Branch' or 'Specialisation';

9. Further guidance.

For further guidance or assistance in this matter contact MRMO.

APPENDIX 1 TO ANNEX 101L

MR ACTIVITY REQUIRING MEDICAL SELF-CERTIFICATION

The following MR activities require the submission of medical self-certification forms for SP to attend:

- Phase 1 INT Trainees/Instructors.
- Pre LRLC/SRLC training weekends.
- BSSC/ISSC.
- Crowborough Challenge.
- Unit organised expeditions.
- RNR SailEx.
- MREP.
- MR Field Gun.
- Sporting competitions e.g. MR 5-a-side competition.
- Unit RYA training

.

- Sea-training.
- Any training undertaken overseas (outside the UK).

APPENDIX 2 TO ANNEX 101L

SELF-CERTIFICATION PROCESS – STANDARD AND ARDUOUS ACTIVITIES

ANNEX 101M

DMICP BASELINE MEDICAL INFORMATION REQUIRED FOR RESERVISTS

1. It is necessary to record and maintain the following medical related information on DMICP for MR personnel:

a. NHS number.

b. Blood Group.

c. Vaccination history.

d. Audiogram test.

e. Any on-going medical conditions.

2. Medical Information

a. **NHS Number.** This should have been provided during the AFCO recruitment process. However, if it is not recorded then the individual should contact their GP to obtain their NHS Number. It is normally a 10-digit number and can additionally be found on an individual's records held on the NHS website.

b. **Blood Group.** An individual's blood group is normally recorded whilst undertaking Phase 1 training at HMS RALEIGH/BRNC/CTCRM. This information is normally required for ID tags for mobilisation. If this information is missing from an individual's record, the following methods for obtaining the blood group can be followed:

(1) **Blood Donors.** A copy of the Blood Group card and a copy of a Blood Group letter showing the individual's home address are acceptable as proof of an individual's blood group.

(2) **Blood Test.** When an individual knows they are due to attend for a military medical appointment or they are visiting a main military base, they are to contact the MRMO as there may be an opportunity to arrange an appointment at a DPHC medical facility able to conduct blood testing.

c. **Vaccination History.** All Maritime Reserve personnel should be in date for various routine UK vaccinations however they are not entitled to be given these by military sources unless they are mobilising, @R5 High Readiness or are deploying on exercise abroad and a Force Health Protection Information (FHPI)[1] has been issued. If their GP will administer the vaccines for no charge, then they should do this and provide documentary evidence to the MRMO in order to update their medical records. Any outstanding vaccinations will be carried out by DPHC once the MRMO has confirmed personnel are eligible and what is required [2] . Personnel should not undertake vaccinations that incur a charge without gaining approval from the MRMO in the first instance. If approval is not obtained prior to receiving paid for vaccinations, it is likely that the individual will not be eligible to be reimbursed.

d. For some vaccinations it is standard practice that they will have been administered in childhood and a repeat will not be necessary; others time-expire and will require re-administering, or a booster provided. Records of such vaccinations are usually held by GPs. For personnel where DMICP does not contain this information, individuals will be required to obtain and verify their vaccination history. There is no requirement for individuals to have any missing vaccinations administered unless they are required to undertake military activity.

e. For MR personnel needing to obtain their vaccination history the following methods can be used:

(1) **NHS Online Access.** The reservist should contact their GP surgery and request online access to their records; they will have to complete some paperwork and provide proof of their identity. They should then be provided with their log on details and will be able to extract the necessary information from the NHS website. Details of how to do this can be found at: 'How to access your records – NHS Choices'[3]. However, this service may not be available for all GP surgeries.

(2) **Paper Copy.** The reservist can request a print-out directly from their GP. There should be no charge for the provision of this information. If payment is requested, the reservist should decline and contact the MRMO who will assist in obtaining the records via other means.

(3) **Audio.** An audiogram is conducted during the initial entry medical, and the information is transferred to DMICP on joining. All personnel should then undergo an audio test every two years. If out of date, an individual should contact the MRMO to arrange an appointment.

[1] FHPI is the document that states the medical/dental requirements for the exercise or operation.
[2] 2021DIN01-089 Medical Preparation for Reservist Deploying Overseas.
[3] View your GP health rhttps://www.nhs.uk/nhs-services/gps/view-your-gp-health-record/#:~:text=You%20can%20get%20your%20GP,when%20you%20create%20an%20account.ecord - NHS (www.nhs.uk)

3. Individual Information Checks

a. There is no provision for information to be automatically transferred from JPA to DMICP. Therefore, when going through the process of a JMES review, PULHHEEMS or any other medical process, individuals are to ensure their contact details are provided to the MRMO when requested. This will facilitate easier communications between the MRMO and the individual to resolve any queries or issues.

b. Personnel should review and take action if required for certain medical details (JMES, vaccination status) within JPA under the “additional information” menu. Additionally, it can be viewed within the MyNavy app within the ‘Healthcare’ section.

ANNEX 101N

UNIT PERMANENT STAFF MEDICAL SEARCH PROCESSES

1. Process for Audiogram Search within JPA

a. **Stage 1.** Log on to JPA at JPA Portal (mil.uk)[1].

(1) Click on "**Unit MI Manager, Armed Forces**".

(2) Click on "**Reporting**".

(3) Click on "**JPA Dashboard**" Function.

(4) Click on "**ARMY**" button.

(5) In the GENERAL Box select "**Force Health Protection Dashboard**".

b. **Stage 2.** Scroll down to bottom of page and ensure your unit is listed in the Parent Org Name - if not;

(1) Click on the drop-down box.

(2) Click search at the bottom.

(3) Remove the tick in the match course and then type your unit in to the box-search.

(4) This should produce your unit in the left side of the box.

(5) Highlight your unit and click on the sing arrow pointing to the right. This then moves it into right box.

(6) Click on **OK** and then **APPLY**.

(7) The search will then run.

c. **Stage 3.** Scroll back up to the top and click on the fourth tab - "**Non-Routine Interventions**" This will then gather data.

(1) Top of the screen in the box labelled as **Intervention Name,** click on the drop-down box. This produces a list. Unclick all the boxes except the "**Hearing Conservation Programme**" and then press **APPLY**.

(2) One you see the Pie Charts you then need to click on "**MISR3003257-FHP Data (non-routine**)" - Can be located in the middle of the screen.

[1] JPA Portal (mhttp://jpa-portal.afpaa.r.mil.uk/mains2.aspxil.uk).

(3) Scroll down and click on **Export** at the bottom of the table, select “Excel 2007”. This produces a table of all your personnel with relation whether they are in or out date for audiogram.

2. Process for “No NHS Number” search within JPA

a. Carry out the steps detailed in Stage 1 above.

b. Identify the High-level reporting box and select “**Commander Reports MIS3002265**”.

c. Click on “**Service Box**” and ensure that RM or RN is selected, check organisational name has your unit record and the correct UIN number is in the box.

d. Click on “**OK**” and then “**Apply**“.

e. Click on Tab “**Sub-Unit**” (Top of the screen).

f. Click on **Export** at the bottom of the table, select Excel 2007. This produces a table of all your personnel and whether they have an NHS Number.

3. Process for JMES Search within JPA

a. Log on to JPA.

b. Click on “**Unit MI Manager, Armed Forces**”.

c. Click on “**Reporting**”.

d. Click on JPA Dashboard Function.

e. Click on “**Navy**” button.

f. Click on “**Command HR (Unit Management)**” - This should automatically select your unit (Shown on the right side).

g. Select “**Medically Deployability**” Tab at the top of the screen - This should then produce a list of personnel for your unit.

h. Identify the box that states MFD and clink on the arrow to produce a drop-down box (midway down the main sheet) of MFD/MLD/MND or Not Stated. Select the correct one.

i. Scroll down and click on **Export** at the bottom of the table, select Excel 2007. This produces a table of all your personnel and what their current JMES is, whether they are in or out of date, or no record.

ANNEX 101O

NOTIFICATION OF A CASUALTY (NOTICAS) PROCESS FOR THE MARITIME RESERVES

Note. *JSP751 is the authoritative document and this Annex is to be read in conjunction with the JSP.*

1. Introduction

If a member of the Naval Service is hospitalised for any reason, or severely injured or dies, a Notification of Casualty (NOTICAS) is to be raised. The NOTICAS is sent to the Joint Casualty and Compassionate Cell (JCCC) who notify the Naval Service Casualty Cell (NSCC) who ensures the Service Person is closely tracked and arranges for any support required. However, a NOTICAS for a member of the Maritime Reserves (MR) is only to be raised when the Service Person (SP) is taken seriously ill, hospitalised or dies whilst:

a. mobilised into permanent service;

b. in Full Time Reserve Service (FTRS) (FC, LC, HC), or;

c. on duty as a Part Time Volunteer Reservist (PTVR) whether on Additional Duty Commitment (ADC) or on paid or unpaid Reservist Service Days (RSD).

2. NOTICAS process for eligible Reservists

Whenever an incident occurs and a casualty has resulted or a serious illness is notified, the parent / Employing Unit of the Service Person (SP) involved raises a NOTICAS signal to the JCCC who will then disseminate the information to the NSCC. Depending on the seriousness of the injury/illness the first action the NSCC will take, is to check whether the Emergency Contact (EC) / Next of Kin (NoK) of the SP involved has been informed. With most minor injuries, it is normally the SP involved who informs their EC / NoK themselves. However, for Deaths, Very Seriously Ill, Seriously Ill or Missing personnel the NSCC is responsible for informing the family.

a. The NSCC maintains a database of RN / RM Casualty Notification Officers (CNOs) and the overriding priority for the NSCC is to inform the EC / NoK of a casualty as quickly, accurately and compassionately as possible where required.

b. The process does not end when it is confirmed that that the EC / NoK has been informed. The NSCC will arrange for a Visiting Officer's (VO) to establish communications with the family. The VOs are part of the Royal Navy and Royal Marine Welfare (RNRMW) organisation and will remain the principal link between the NS and the families for as long as is required and able to assist with any queries or problems that they may have.

c. For all Service deaths the NSCC also maintain a database of trained Funeral Officers (FOs) who are allocated as required. As with CNOs, all FOs are volunteers from the NS.

d. There are 2 ways to raise a NOTICAS: via JPA by logging in to Duty Casualty User and following the prompts, or via Email to DBS-JCCCGroupMailbox@mod.gov.uk following the format at Appendix 1. For initial contact, and any further guidance, JCCC is to be contacted directly on **01452 519951** (available 24/7).

3. Reporting Process for PTVR Not On Duty

a. **Off-Duty Reservists.** While reservists serving on FTRS, MPGS, ADC or NRPS terms are always notifiable casualties (necessitating the generation of JPA NOTICAS or an immediate signal) casualty events involving off-duty volunteer reservists are not notifiable. The death or any illness/injury of non-mobilised volunteer reservists which occurred whilst the individual was off duty is not to be reported via JPA NOTICAS or immediate signal. Units learning of the death of an off-duty volunteer reservist must report the event via an email to the JCCC group mailbox at DBS-JCCCGroupMailbox@mod.gov.uk using the heading 'Death of an Off-Duty Reservist - Individual's Name' for the attention of JCCC Deceased Estates staff (copied to single Service points of contact detailed below).

b. The following information must be included:

(1) Service Number.

(2) Rank.

(3) Full Name.

(4) Unit.

(5) Date and location of death.

(6) Name and Address of NOK (or other person) who informed MOD of the death.

(7) Confirmation that the deceased was a reservist who died off duty.

(8) POC on unit (Rank, Name, Post and Contact Number).

This will facilitate checks for any will and activates the process to make any payments from MOD to the individual's estate[1].

c. Unlike regular / permanent service personnel, CMRHQ has no visibility when a PTVR falls seriously ill and it is usually via informal means (colleague / friends) that a Unit is eventually contacted. It is therefore incumbent on every member of the Maritime Reserves to keep their Units informed if they are likely to be hospitalised over 72 hours and to ensure their families or EC / NoK know who to contact at the Unit if their health deteriorates. This provides the opportunity for the Unit and / or CMRHQ to provide the appropriate support.

[1] **Important**: The death of a reservist off duty (other than when mobilised or serving on FTRS, MPGS, ADC or NRPS terms) incurs no entitlement to a service-funded funeral / funeral grant or requirement to appoint a CNO/VO.

d. Unit COs are directed to inform the Duty Officer by phone when they become aware that a member of the MRs is seriously ill, very seriously ill or has died. The call is to be followed up by the reporting form at Appendix 2 and is to be forwarded by email to SWO or RSM.

e. Part time HQ staff are to report their welfare state direct to their parent Units. Capability Areas are to report their casualty status via their Spec SO1 who is to raise the necessary form.

APPENDIX 1 TO ANNEX 101O

MARITIME RESERVISTS ON PERMANENT SERVICE / DUTY – NOTICAS FORMAT

1. This **does not** replace the formal guidance in JSP 751 Vol 1 'Management of The Casualty.' Raising of a NOTICAS is a Unit Executive function and should normally be initiated by the UOO. If a SP becomes sick/injured (and requires to be admitted to hospital) or dies, a NOTICAS must be raised if it meets the following criteria:

- Death: there must be absolutely no doubt of this fact.

- Very Seriously Ill (VSI): this could be due to trauma / disease where it is considered that there is imminent threat to life.

- Seriously Ill (SI): due to trauma/disease where there is cause for concern but no imminent danger to life.

In all cases contact JCCC on **01452 519951** first.

2. Via JPA

Log in, go to **Duty Casualty User** and add all the Casualty details as prompted. Submit and contact JCCC to inform them that you have done so.

3. Via Email on MODNet

You can send a NOTICAS via email, use the following format (table format not required) and send to: DBS-JCCCGroupMailbox@mod.gov.uk

A.	INITIAL	Subsequent updates will follow in number sequence
B.	LH, J (JOHN) EVANS, RN, 30012354, HMS BLANKSHIRE	Casualty's full service details
C.	VSI/SI/III/ UL	Listing Category as recommended by a *Medical Officer*
D.	070330Z, ON A303 NEAR ANDOVER, WILTS	Date, time and location of incident
E.	RTI, REGULAR	Brief description of cause (must be known facts) and what service individual is on (Regular, FTRS, etc)
F.	RIDING CIVILIAN MOTORCYCLE, IN COLLISION WITH LORRY	Incident details if known, include facts only
G.	MULTIPLE INJURIES. MEDICAL CONTACT DR JAMES, A&E DEPT, ANDOVER HOSPITAL 01980 123456	Clinical details if known - will not be published in NOTICAS
H.	ANDOVER HOSPITAL AT 070550Z	Location of Casualty at time of NOTICAS action
I.	KINNOTFORMED. EC MRS MARY EVANS, 15 RIVER ROAD, NEWTOWN, BUCKS BT8 3RF	EC = Emergency Contact; KINFORMED, SELF KINFORMING, KINNOTFORMED. Critical piece of information.
J.	ACCIDENT IS SUBJECT TO POLICE INVESTIGATION. UNIT POC LT CDR P SMITH, 1ST LT, HMS BLANKSHIRE + telephone number	Contact details for UNIT POC (must be current and accurate)

APPENDIX 2 TO ANNEX 101O

MARITIME RESERVES NOT ON DUTY - MR REPORTING FORMAT

1. Units learning of the death of an off-duty volunteer reservist must report the event via an email to the JCCC group mailbox at DBS-JCCCGroupMailbox@mod.gov.uk using the heading 'Death of an Off-Duty Reservist - Individual's Name' for the attention of JCCC Deceased Estates staff.

2. If a PTVR becomes seriously ill/injured (and requires to be admitted to hospital) or dies, a MR report is to be raised[1] if it meets the following criteria:

- Death: there must be absolutely no doubt of this fact.

- Very Seriously Ill (VSI): this could be due to trauma / disease where it is considered that there is imminent threat to life.

- Seriously Ill (SI): due to trauma/disease where there is cause for concern but no imminent danger to life.

3. The reporting email is to be forwarded to the SWO for RNR personnel or to the RSM for RMR personnel (table format not required), copied to Duty Officer.

A.	INITIAL	Subsequent updates will follow in number sequence
B.	LH, J (JOHN) EVANS, RN, 30012354, HMS BLANKSHIRE	Casualty's full service details and Unit
C.	N/K, SI, VSI, Deceased	Condition of the Casualty if known.
D.	070330Z, Apr 20	Date, time Unit informed.
E.	RTI, PTVR	Brief description of cause (must be known facts), date occurred and whether RNR/RMR
F.	Informed by NoK.	Who reported the incident and whether EC/NOK aware

[1] This is a Unit Executive function and should normally be initiated by the UOO.

RECRUITS AND TRAINEES AT RISK – HANDOVER FORM (FORMS)

ANNEX 101Q

ROYAL NAVAL RESERVE - CERTIFICATE OF PROFESSIONAL QUALIFICATION LOG

ROYAL NAVAL RESERVE – CERTIFICATE OF PROFESSIONAL QUALIFICATION LOG (FORMS)

ANNEX 101R

TRAINING BRANCH (ACTING LEADING HAND) SCHEME

1. Introduction

There are three routes to entry on the RNR TB (Acting Leading Hand) scheme based on the SQEP and previous military experience. This will generate qualified Leading Hand Trainers (Res) in up to a maximum of three years[1] of joining the RNR.

a. **Direct Entry.** For those joining the RNR as an *ab-initio* who already hold a recognised civilian training or educational qualification and who have utilised that experience for a sufficient period.

b. **Lateral Entry[2].** For those transferring from Regular Service to the RNR at the rate of AB1, or via Branch Transfer for those already serving within the RNR at the rate of AB1.

c. **Re-Joiner Entry or Inter-Service Transfer.** For those wishing to join the RNR having left the Regular Services at the rate of AB1[3].

2. Entry Standards

a. The entry standards are based on the RNR Training Branch Statement of Requirement (SOR), as endorsed by the Reserves Professions Manager.

b. **Lateral or Re-Joiner Entrant:**

(1) Be an AB1.

(2) Have completed Initial Naval Training[4].

(3) Have a 'YES' recommend (or higher) for promotion on a previous SJAR[5].

(4) Be recommended for any instructional environment, including Phase 1 Training, in their latest SJAR[6].

c. **Direct Entrant:**

(1) Aged 18-40.

(2) A minimum of 2 years demonstrable employment in a civilian training or educational setting whilst holding a Level 3 or above recognised civilian training or educational qualification[7].

---

[1] To allow for Phase 1 training (1 year); Defence Trainer course (10 days); LRLC (12 days) for ab-initio.
[2] Includes those who can enter under Firefly 36 scheme.
[3] Or equivalent OR2 rate for Inter-Service Transfers
[4] Inter-Service transfers will be considered by WFPM RES SO3 RNR.
[5] If already in service (Reserve or Regular) or on last SJAR before leaving the Regulars if a Re-Joiner.
[6] AB1s may not have this recommend and whilst this should not be a bar to consideration a formal recommendation of suitability as a Phase 1 Trainer will be required to be given by the individual's line manager in the application for transfer.
[7] Whilst the list of potential qualifications is not exhaustive, final decision as to suitability of qualification lies with the MR TRA.

3. Recruitment

a. The recruitment of Direct Entry and Re-Joiner candidates takes specific elements from the current R&A recruitment process but tailored to the perceived increased value of the RNR TB. The standard RNR entry requirements, defined in the entry SOR and Job Eligibility Matrix, will be managed through the AFCO (Direct Entry) or Re-joiner and Inter-Service Transfer Team (RISTT) organisations with additional support from the leadership team within the RNR TB.

b. Upon initial attraction of a candidate, R&A will assess the candidate's basic eligibility and suitability against the entry SOR. There will also be an initial interview conducted between the candidate and the RNR TB WO2 INT to assess whether their training experience meets RNR TB requirements. This interview will also clarify to the candidate the exact Terms and Conditions of Service (TACOS) and recruiting process that will be undertaken. If successful at this interview the candidate will be passed to an AFCO / RISTT for management.

c. Applications from existing members of the RNR are to follow the Branch Transfer process in Section 8 of this Chapter. If the candidate is suitable a recommendation from SO1 TB will be made to permit a transfer into the RNR TB.

d. Lateral Entry candidates will be interviewed by RNR TB WO2 prior to any transfer being approved.

4. Terms and Conditions of Service

Successful candidates will enter the RNR on a bespoke Tailored Career (if *ab-initio* entrants) or on the balance of their current engagement (if branch transferring). The TACOS include:

a. Entry on an ES1 of 12 years length of service with an automatic transfer to ES2 on confirmation.

b. Join the RNR as an Acting LH RNR Trainer on IL1[8] with seniority and IBD set to date of joining.

c. For professionally qualified Direct Entrants or Lateral Entrants who have not undertaken LRLC, removal of the Acting rank will be upon completion of LRLC.

d. The following criteria are to be achieved for promotion to LH:

(1) Have achieved at least one Certificate of Efficiency during time as an Acting LH RNR Trainer.

(2) Recommended on latest SJAR for confirmation as LH RNR Trainer.

(3) Be in-date for Advanced Care of Trainees (ACoT).

[8] Unless any other previous service in the Armed Forces has been conducted where a tailored pay scale will be developed.

(4) Have completed Defence Trainer course (DTc) and hold Practitioner status[9].

(5) Attend pre-Leading Rates Leadership Course Weekend (RNLA 202 RNR) if LRLC not held.

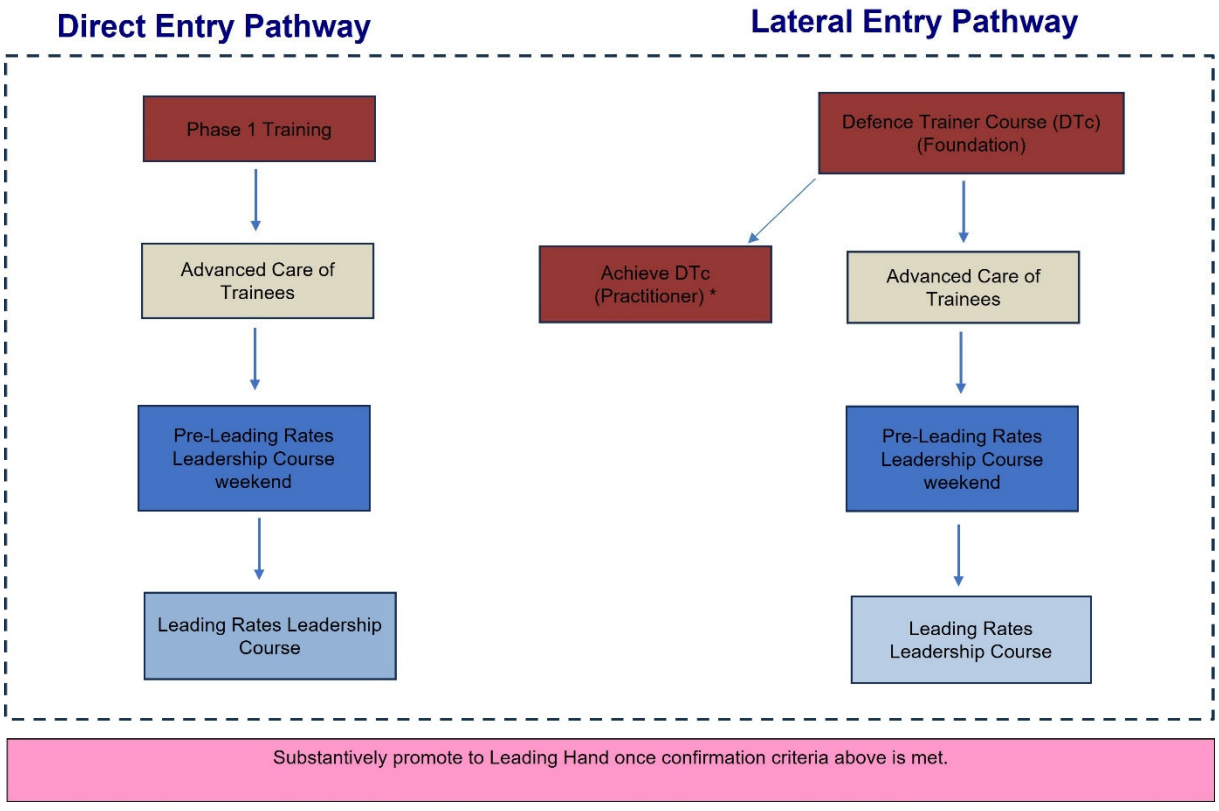
(6) Pass Leading Rates Leadership Course (LRLC) (RNLA 102 RNR).

(7) In-date PES or in possession of a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS).

e. Failure to be confirmed as a LH RNR Trainer within 2 (or 3 for DE) years of joining/allocation will result in reversion to source branch as an OR2, transfer as an OR2 to another available branch, or discharged[10]. Exceptional circumstances that prevent confirmation should be referred to WFPM RES SO3 RNR for consideration of a training extension.

f. Individual TACOS will be provided on a case-by-case basis for those applying through Lateral Entry or RISTT.

g. A summary of the training pathway is below:



* For DE – RPL Pathway (if required to DTc (Practitioner)

[9] If equivalent or higher civilian qualification held, then the Recognition of Prior Learning pathway, as contained within JSP 822, will need to be followed. Responsibility for this lies with SO2 DTC, and the requisite competency, inclusive of Advanced Care of Trainees, needs to be followed.

[10] This does not include those undertaking maternity or shared parental leave, where commensurate extensions in time will be awarded.

5. Employment

When the Acting LH RNR Trainer complete LRLC they will be assigned into an RNR TB stream specific PID (either INT or CLM) based on the needs of the organisation at the time.

ANNEX 101S

APPLICATION FOR COMMISSION PARCHMENT

1. (Officers who have served in the RN/QARNNS are not entitled to a second Commission Parchment in the Royal Naval Reserve / Royal Marines Reserve).

2. Ranks at which Officers become eligible for Commission Parchment.

a. **Surgeons.** Confirmed Lieutenant.

b. **QARNNS.** Confirmed Sub Lieutenant.

c. **Other Branches.** Confirmed Sub Lieutenant.

ANNEX 101T

ROYAL NAVAL RESERVE NOTICE PAPER

(EXCLUDING LIST 7 AND THE SPONSORED RESERVE LIST)

Notice to be given under Paragraph 1 of Schedule 1 to the Reserve Forces Act 1996.

1. Explanatory Notes

This paper sets out:

a. General terms of enlistment.

b. Terms of the engagement offered to you.

c. Re-engagement, Termination, Discharge and Retention in Service.

d. Call-out liabilities.

e. Training and employment.

f. Pay, Expenses and Allowances.

g. Leave.

h. Armed Forces Pension Scheme.

i. Armed Forces Compensation Scheme.

j. Employer Notification.

k. General Conditions of Service.

2. General Information

a. The Royal Naval Reserve (RNR) is an integral part of the Naval Service and is maintained as one of the Naval and Marine Reserve Forces as defined in the Reserve Forces Act 1996 (RFA 96).

b. The RNR may be used to support the Royal Navy during periods of crisis, tensions of war or any purpose for which members of the Regular services may be used including peacekeeping and humanitarian operations and disaster relief worldwide.

3. Reserve Service and the UK Benefits System

Whether employed, self-employed or unemployed you must be absolutely certain of your financial situation and the effect upon household income and support from serving as a Reservist. It is your responsibility to speak to the appropriate Jobcentre staff, local council staff or to consult www.gov.uk to check the financial impact, if any, of earnings paid as a member of the Reserve Forces. Reservists should not rely on earnings paid for reserve service to supplement/support monthly incomes owing to the variances of the Attendance Based Pay system and meeting the JPA pay run. EPICs will only be awarded in exceptional circumstances iaw JSP 754.

Note. *All revenue earned will be declared by the MOD through Real Time Information to HMRC and the withdrawal or reduction in benefits will be instantaneous with the receipt of pay.*

4. General Terms of Enlistment

a. If you are under the age of 17½ years, the consent of a person with parental responsibility for you (within the meaning of the Children Act 1989 or the Children (Northern Ireland) Order 1995 or Section 1(3) of the Children (Scotland) Act 1995) must be given before you are enlisted.

b. In order to obtain security clearance, all candidates should have resided in the UK (including Northern Ireland) or the Republic of Ireland for a continuous period prior to application. For Foreign and Commonwealth citizens, and non-Commonwealth citizens, the general requirement is to have resided in the UK (including Northern Ireland) for a period of five years prior to application. For specific regulations BRd 3(1) is to be consulted. Applicants are required to demonstrate that they have an indefinite Leave to Remain.

c. Although enlistment in the RNR is open to Sole British, Sole Irish, Sole Commonwealth citizens, Dual Nationals or Gurkhas, certain employment paths are closed to particular groups; BRd 3(1) is to be consulted for specific restrictions.

d. RNR Air Branch personnel will be enlisted into RNAS Yeovilton. Maritime Intelligence personnel will be enlisted into HMS FERRET, Chicksands.

e. Your Volunteer Reserve commitment will consist of periods of continuous and non-continuous training, unless you are called out for permanent service or volunteer for a period of Full Time Reserve Service (FTRS).

f. Mandatory periods of continuous training will not exceed 16 days in aggregate with no period of non-continuous training exceeding 36 hours without your consent.

g. Once you attain Trained Strength (TS) status and CPQ in Specialisation, you may voluntarily enter into a commitment for periods of FTRS as defined in RFA 96, subject to requirement, suitable levels of qualification and experience and, where appropriate, employer consent.

h. You will be subject to the Armed Forces Act 2006, i.e., the service justice system, when in permanent service, when undertaking a period of FTRS and when undertaking any training or duty.

i. You will be subject at all times to the more limited disciplinary provisions of sections 95 to 97 of RFA 96 which deal with offences against good order and discipline, and desertion and absence without leave from service, duty or training.

5. Probationary Period

a. Your initial enlistment will be on a probationary basis, subject to satisfactory completion of the remaining elements of the recruiting process prior to final acceptance into service. These include:

(1) Medical examination.

(2) Fitness test.

(3) Security Clearance check.

b. If you do not successfully complete the recruiting process then you will be discharged from the RNR as Not Finally Accepted (NFA).

c. If your final acceptance into service or re-enlistment is not approved, then pay is not permissible for any period after this decision has been communicated to you.

6. Rehabilitation of Offenders Act

a. You are required to give details of any civil or military convictions which are considered ‘unspent’ under the Rehabilitation of Offenders Act 1974 before you are enlisted.

b. After enlistment you will be required to apply for Security Clearance checks as a mandatory requirement for final acceptance. At that time, you must declare all past convictions, whether ‘spent’ or ‘unspent’, to the security authorities.

c. It is your responsibility to distinguish between ‘spent’ and ‘unspent’ convictions. You may wish to consult a Citizen’s Advice Bureau, a Community Law Centre or the Clerk to the Court where you were convicted, or a Solicitor or Probation Officer or any other competent authority.

d. If you fail to disclose a conviction which is not ‘spent’, you may become liable to prosecution, either by the Service or civilian authorities and may be discharged from the Service. An ‘unspent’ conviction will not necessarily prohibit you from enlistment.

e. There are a number of posts, activities and occupations which are exempt from the Rehabilitation of Offenders Act 1974. If the position you are being enlisted into is exempt from the Act you must disclose both ‘spent’ and ‘unspent’ cautions and convictions. A regularly updated list of exempt posts, occupations and activities can be found on the Disclosure and Barring Service website. The list includes:

(1) Any work which is defined as regulated activity relating to children or vulnerable adults within the meaning of the Safeguarding Vulnerable Groups Act 2006 (as amended by the Protection of Freedoms Act 2012).

(2) Certain occupations and employments in the healthcare professions. f. You must declare if you are prohibited from having a firearm or ammunition in your possession under section 21 of the Firearms Act 1968.

7. Terms of Engagement

You will be enlisted under the terms of one of the following engagements:

a. Engagement Stage 1 (ES1) providing for 12 years’ service.

b. Engagement Stage 2 (ES2) providing for a further eight years’ service normally running consecutively with ES1 i.e., 20 years’ service in total.

c. Engagement Stage 3 (ES3) providing for further service beyond ES2 in blocks of between one and five years, by exception, and based on the requirements of the Service.

d. Extension of Service (EoS) of varying lengths but of not less than one year may be offered instead of transition to the next engagement stage.

8. Terms of Re-Engagement

a. You may apply to re-engage for further service not more than 12 months before the end of your current engagement stage.

b. Enlistment on further engagements or on extension of service remains subject to:

(1) The prevailing Service requirement at the time.

(2) Satisfactory performance during your current and previous engagements.

(3) A positive recommendation for further service from your Commanding Officer.

9. Terms of Termination of Engagement (Discharge)

a. The Defence Council has the authority to discharge you at any time.

b. Your Commanding Officer is empowered to discharge you in accordance with RFA 96 s.15(1), in the circumstances permitted for Regular Naval Personnel in BRd 3(1) including Discharge Shore (for example, Ratings/ORs who fail to fulfil their annual training obligations and are persistent bad attendees) and Discharge SNLR (see BRd 3(1) Ch 54) and:

(1) **Engagement Completed.** Ratings/ORs are to be discharged on the day on which they complete their engagement, provided they are not at the time in permanent service or full-time service under a FTRS commitment or ADC commitment; or

(2) **For Age.** RNR Ratings are to be discharged on the day preceding their 55th birthday, this being the current age for discharge; or

(3) **Promoted to Commissioned Rank.** Ratings/ORs promoted to commissioned rank in any of the Regular or Reserve forces are to be discharged the day prior to their effective date of promotion; or

(4) **Fraudulent Entry.** If Ratings/ORs have given a false answer during the attestation process, they may be discharged at the Commanding Officer's discretion; or

(5) **Discharge SHORE.** Ratings/ORs who fail to fulfil their annual training obligations and are persistent bad attendees; or

(6) **Discharge SHORE (DUDT).** Phase 1 & 2 Trainees in accordance with the guidance in BRd 3(1) Chapter 54.

c. Your Commanding Officer may discharge you in accordance with RFA 96 s.15(1) once legal advice has been sought under the following circumstances:

(1) **Discharge SHORE (Inadequacy - Attitude to Fitness).** The warning procedure for a poor attitude to the required levels of fitness is detailed in BRd 51 Volume 2, Chapter 2 – (PES Policy, Protocols, Instructions and Guidance). Persistent poor attitude to fitness may result in Discharge SHORE on the grounds of inadequacy.

(2) **Medically Unfit for Further Service.** Ratings/ORs who fail to maintain the physical standard required for service in the MR are to be processed to the Naval Service Medical Board of Survey (NSMBOS) / Medical Employability Board (MEB) in accordance with regular service procedures.

(3) **Conviction by a Civil Court.** Discharge will depend on the gravity of the offence and its relevance to Naval Service. Advice must be sought from Naval Legal Services.

(4) **Discharge Services No Longer Required (SNLR).** Ratings/ORs whose conduct is persistently a cause for concern are liable for discharge. Consultation between reporting officers and thorough counselling of the subject play a key role in the warning process. Every effort must be made to ensure that the shortcomings are identified and the proposed solution explained to and understood by the subject, who must also acknowledge in writing the advice given, the future process and consequences. BRd 3(1) Chapter 57 contains further guidance where Discharge SNLR is being considered. MR Unit COs must consult with COMMARRES HQ prior to implementation of formal action.

(5) **Discharge SHORE (Best Interests of the Service).** Although the above types of Discharge SHORE are the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of their unsuitability, it is not possible for the regulations to cover every eventuality. Where Command is unable to determine an appropriate method as detailed above, then an application may be considered on the basis of the Best Interests of the Service. For further information see BRd 3(1) Chapter 54.

d. **Right to Appeal.** Appeal against a decision to discharge a Rating/OR in accordance with s.15(2) RFA 96, is by way of complaint to the Defence Council in accordance with JSP 831 and BRd 3(1) Chapter 23. The Defence Council may give directions (including a direction annulling the discharge) as is appropriate.

10. Entitlement to Discharge

a. Provided that you are not at that time in permanent service or serving under FTRS or Additional Duties Commitment (ADC) or an order is in force authorising the call out of the Reserves, you are entitled to be discharged:

(1) On completion of each engagement.

(2) Before the end of the period for which you enlisted, provided that you give at least three (3) months' notice in writing to your Commanding Officer and you return in good order, fair wear and tear excepted, all arms, clothing and other public property issued to you or pay for the deficiencies. Your Commanding Officer may dispense with either or both of these conditions if it appears that the reasons for discharge are of sufficient urgency or weight.

b. You will be discharged with all convenient speed but remain a member of the RNR until actually discharged.

11. Terms of Call-Out (Mobilisation)

a. You will be liable to be called out for permanent service in any part of the world whenever an Order is in force authorising call-out. Call-out may be authorised in the following situations:

(1) When national danger is imminent or a great emergency has arisen, or in the event of actual or apprehended attack of the United Kingdom.

(2) When warlike operations are in preparation or progress.

(3) Where it is necessary or desirable to use members of a Reserve Force for any purpose for which members of the Regular services may be used, or on operations anywhere in the world for the alleviation of distress or the preservation of life or property in time of disaster or anticipated disaster.

b. If you fail to report at the time and place as specified in the notice calling you out for permanent service without leave of absence, sickness or other reasonable excuse you will render yourself liable to arrest and prosecution.

12. Retention in Service

You may lose your entitlement to discharge or be required to extend your service whilst an order under section 52, 54 or 56 of RFA96 is in force authorising the call-out of members of the Reserves or if you are already in permanent service under such an Order.

13. Training and Employment

a. On completion of Phase 1 training you will be assigned to one of the following RNR Professions:

(1) Warfare.

(2) Logistics and Personnel.

(3) Engineering.

(4) Healthcare and Medical.

(5) Chaplains.

b. Wherever possible and subject to the prevailing Service requirement, you will be assigned to the Specialisations of your choice.

c. Training may be conducted in Reserve Units, HM Ships or in Training Establishments in the United Kingdom (UK) or any part of the world and is organised in two ways:

(1) Non-continuous training, typically comprising evenings and weekends at a Reserve Unit or other UK Training Establishment.

(2) Continuous training, typically comprising a period of at least one week within the UK or any part of the world.

d. You will be required to carry out whatever duties may be ordered by those in authority to you. The nature of your employment is always subject to the needs of the Service, and no guarantee is given that you will serve in any particular employment, professional or specialisation. Nevertheless, if you are enlisted for a particular employment with the view to being trained and employed in it you will normally be so trained and employed.

14. Pay

a. Reserve remuneration package includes attendance-based pay, travel expenses and allowances for attending training and other authorised duties, a non-contributory pension and an annual paid leave entitlement, based on paid attendance.

b. Your rate of basic pay is determined by:

(1) Type of Reserve Forces commitment or form of service.

(2) Substantive Rate.

(3) Profession or Specialisation.

(4) Length of service.

(5) Qualifications held.

(6) Satisfactory performance.

15. Pay on Initial Entry (No Previous Military Service)

a. Your entitlement to pay will commence from, and include, the day of your first period of training or duty after attestation.

b. On enlistment into the Reserve Forces you will be allocated to the New Entrant Rate of Pay (NERP). You will remain on this rate of pay for one calendar year or until completion of basic trade training, whichever is the earlier.

c. Thereafter, you will be allocated to a specialisation for pay purposes and be paid from the relevant main pay spine of the appropriate pay range for your rate, professional or specialisation. Yearly incremental progression will occur, in accordance with published pay regulations, on the anniversary of the date of your transfer to this pay spine.

16. Pay on Initial Entry (Transfer from the Regular Forces)

If you have transferred or re-engaged into the Reserve Forces from the Regular Forces you will be paid at the same increment level within the pay spine and range on the Reserve pay structure as applied in the Regular Forces, assuming there are no other changes in employment status (such as a change of Professional or Specialisation). Your pay will be reassessed to count former Service towards incremental pay from the date of engagement.

17. Bounty

You will be paid an annual tax-free bounty if you complete your specified annual training requirement as an entitled Volunteer Reservist. Your bounty will only be paid on receipt of a Certificate of Efficiency from your Commanding Officer confirming that you have met the appropriate attendance, training requirements, mandated requirements as set by CMRHQ and training performance standards.

18. Leave

a. You are entitled to paid leave, in accordance with JSP 760, proportionate to your attendance for required training or paid voluntary training and other duties. You are ineligible for paid leave not based on attendance e.g., sickness absence, compassionate leave.

b. Payment will be at the appropriate rate of daily pay for your rank, made in arrears via your pay account at the rate of approximately 1 days' leave for every 10 days' paid attendance.

19. Proportionate Payments

Service Year runs from your date of enlistment on your current engagement. However, a number of payments including annual training bounties and paid leave are based on the Reserve Year which commences on 1 April and ends on 31 March. As your Service Year and Reserve Year are unlikely to coincide, depending upon when you start or terminate service during the Reserve Year, certain payments will be made on a proportionate basis in your first and final years of service.

20. Expenses and Allowances

You are entitled to a range of expenses and allowances to cover the costs incurred for accommodation, food and travel when on authorised duty, as detailed in the appropriate publications.

21. Armed Forces Pension Scheme 2015 (AFPS 15)

a. You will automatically become an active member of the non-contributory Armed Forces Pension Scheme 2015 (AFPS 15) from your first day of paid service unless you have either Transitional (Full) Protection in other Armed Forces pension schemes or you have opted out of or left the scheme.

b. You may pay into a stakeholder or personal pension subject to HMRC limits.

c. In order to receive pension benefits you must serve for a vesting period of two calendar years, starting from your first day of paid service and excluding periods of unauthorised absence, unpaid leave, service detention and/or imprisonment.

22. Option not to join, leave or rejoin AFPS 15

a. You may opt not to join, leave or rejoin AFPS 15 by submitting a request through your Commanding Officer.

b. If you are opting not to join the scheme this form must be submitted within three months of enlistment. You may rejoin the scheme once in any 12-month period providing you are still in Service.

c. MoD and Service personnel are not accredited to give specific financial advice. The Services Insurance and Investment Advisory Panel (SIIAP) (www.siiap.org) can give specialist independent financial advice to Service personnel.

23. Armed Forces Compensation Scheme

a. Armed Forces Compensation Scheme (AFCS) provides compensation for injury, illness or death which is caused by service. It is entirely separate from personal accident cover; any personal accident cover you may have is not taken into account when determining an AFCS award.

b. In the event of service-related death, the Scheme pays benefits to eligible partners and children. An 'eligible partner' is someone with whom you are cohabiting in an exclusive and substantial relationship with financial and wider dependence.

c. You can submit a claim for injury or illness which occurs while you are participating in an authorised service-related activity, including Adventurous Training (AT), physical exercise and organised sport.

24. Employer Notification

a. The Ministry of Defence (MOD) has a policy of annual Employer Notification. Each year your Commanding Officer will write to your employer informing them of your status as a Reservist and highlighting your key training periods and commitments in the coming year. If you have more than one employer you will be required to nominate one as your main employer to meet the Defence commitment to inform employers wherever possible.

b. For Reservists in Northern Ireland and Special Forces this policy is opt-in.

c. Waivers may be granted by your Commanding Officer for the following reasons:

(1) To maintain a Reservist's security.

(2) Where Employer Notification could exacerbate a short-term employment issue.

25. General Conditions of Service

a. **Individual Responsibility.** You are responsible for ensuring that personal data held in the Joint Personnel Administration (JPA) system is correct and up to date. You must notify Unit administration staff of errors or concerns regarding pay and allowances, or any changes in circumstances that may affect your eligibility to pay and allowances as soon as they occur. Failure to do so may result in you becoming liable for subsequent recovery action of over-payments.

b. **Medical Support.** You will continue to receive your primary medical care from your NHS GP unless you are in permanent service or serving under an FTRS(FC) commitment.

c. **Medical Assessment.** You are required to make yourself available for periodic assessment of your health by a Service Medical Officer to ensure that you remain fit to serve and have the appropriate medical category assigned to you. Routine assessments are conducted at age 30 and then every five years until the age of 50. Thereafter assessments occur every two years.

26. Navy Fitness Test

You are to remain in-date for the Physical Employment Standard (PES) throughout the year. You are responsible for ensuring that the outcome of the test is correctly recorded in your personal details.

27. Attestation Paper

The Attestation Paper sets out the questions you will be asked by the officer who will formally enlist you into His Majesty's Royal Naval Reserve and which you must answer. You will be asked to confirm that you have received a copy of this Notice Paper setting out the general terms and conditions of the engagement you are entering into.

ANNEX 101U

ROYAL MARINES RESERVE NOTICE PAPER

Notice to be given under Paragraph 1 of Schedule 1 to the Reserve Forces Act 1996.

1. Explanatory Notes

This paper sets out:

a. General terms of enlistment.

b. Terms of the engagement offered to you.

c. Re-engagement, Termination, Discharge and Retention in Service.

d. Call-out liabilities.

e. Training and employment.

f. Pay, Expenses and Allowances.

g. Leave.

h. Armed Forces Pension Scheme.

i. Armed Forces Compensation Scheme.

j. Employer Notification.

k. General Conditions of Service.

2. General Information

a. The Royal Marines Reserve (RMR) is an integral part of the Naval Service and is maintained as one of the Naval and Marine Reserve Forces as defined in the Reserve Forces Act 1996 (RFA 96).

b. The RMR may be used to support the Royal Navy and Royal Marines during periods of crisis, tensions of war or any purpose for which members of the Regular services may be used including peacekeeping and humanitarian operations and disaster relief worldwide.

3. Reserve Service and the UK Benefits System

Whether employed, self-employed or unemployed you must be absolutely certain of your financial situation and the effect upon household income and support from serving as a Reservist. It is your responsibility to speak to the appropriate Jobcentre staff, local council staff or to consult www.gov.uk to check the financial impact, if any, of earnings paid as a member of the Reserve Forces.

Note. *All revenue earned will be declared by the MOD through Real Time Information to HMRC and the withdrawal or reduction in benefits will be instantaneous with the receipt of pay.*

4. General Terms of Enlistment

a. If you are under the age of 17½ years, the consent of a person with parental responsibility for you (within the meaning of the Children Act 1989 or the Children (Northern Ireland) Order 1995 or Section 1(3) of the Children (Scotland) Act 1995) must be given before you are enlisted.

b. Your first period of engagement will not commence until the age of 17.

c. In order to obtain security clearance all candidates should have resided in the UK (including Northern Ireland) or the Republic of Ireland for a continuous period prior to application. For Foreign and Commonwealth citizens, and non-commonwealth citizens, the general requirement is to have resided in the UK (including Northern Ireland) for a period of five years prior to application. For specific regulations BRd 3(1) is to be consulted. Applicants are required to demonstrate that they have an indefinite Leave to Remain.

d. Although enlistment in the RMR is open to Sole British, Sole Irish, Sole Commonwealth citizens, Dual Nationals or Gurkhas, certain employment paths are closed to particular groups; BRd 3(1) is to be consulted for specific restrictions.

e. You will normally be enlisted into your geographically closest RMR Unit or sub-ordinate detachment.

f. Your Volunteer Reserve commitment will consist of periods of continuous and non-continuous training unless you are called out for permanent service or volunteer for a period of Full Time Reserve Service (FTRS).

g. Mandatory periods of continuous training will not exceed 16 days in aggregate with no period of non-continuous training exceeding 36 hours without your consent.

h. Once you attain Trained Strength (TS) status, you may voluntarily enter into a commitment for periods of FTRS as defined in RFA 96 subject to requirement, suitable levels of qualification and experience and, where appropriate, employer consent.

i. You will be subject to the Armed Forces Act 2006, i.e., the service justice system, when in permanent service, when undertaking a period of FTRS and when undertaking any training or duty.

j. You will be subject at all times to the more limited disciplinary provisions of sections 95 to 97 of RFA 96 which deal with offences against good order and discipline, and desertion and absence without leave from service, duty or training.

5. Probationary Period

a. Your initial enlistment will be on a probationary basis subject to satisfactory completion of the remaining elements of the recruiting process prior to final acceptance into service. These include:

(1) Medical examination.

(2) Potential Royal Marines Course (Reserve).

(3) Security Clearance check.

b. If you do not successfully complete the recruiting process then you will be discharged from the RMR as Not Finally Accepted (NFA).

c. If your final acceptance into service or re-enlistment is not approved then pay is not permissible for any period after this decision has been communicated to you.

6. Rehabilitation of Offenders Act

a. You are required to give details of any civil or military convictions which are considered ‘unspent’ under the Rehabilitation of Offenders Act 1974 before you are enlisted.

b. After enlistment you will be required to apply for Security Clearance checks as a mandatory requirement for final acceptance. At that time, you must declare all past convictions, whether ‘spent’ or ‘unspent’, to the security authorities.

c. It is your responsibility to distinguish between ‘spent’ and ‘unspent’ convictions. You may wish to consult a Citizen’s Advice Bureau, a Community Law Centre or the Clerk to the Court where you were convicted, or a Solicitor or Probation Officer or any other competent authority.

d. If you fail to disclose a conviction which is not ‘spent’, you may become liable to prosecution, either by the Service or civilian authorities and may be discharged from the Service. An ‘unspent’ conviction will not necessarily prohibit you from enlistment.

e. There are a number of posts, activities and occupations which are exempt from the Rehabilitation of Offenders Act 1974. If the position you are being enlisted into is exempt from the Act you must disclose both ‘spent’ and ‘unspent’ cautions and convictions. A regularly updated list of exempt posts, occupations and activities can be found on the Disclosure and Barring Service website. The list includes:

(1) Any work which is defined as regulated activity relating to children or vulnerable adults within the meaning of the Safeguarding Vulnerable Groups Act 2006 (as amended by the Protection of Freedoms Act 2012).

(2) Certain occupations and employments in the healthcare professions.

f. You must declare if you are prohibited from having a firearm or ammunition in your possession under section 21 of the Firearms Act 1968.

7. Terms of Engagement

You will be enlisted under the terms of one of the following engagements:

a. Engagement Stage 1 (ES1) providing for 12 years' service.

b. Engagement Stage 2 (ES2) providing for a further eight years' service normally running consecutively with ES1 i.e., 20 years' service in total.

c. Engagement Stage 3 (ES3) providing for further service beyond ES2 in blocks of between one and five years to a maximum age of 60.

d. Extension of Service (EoS) of varying lengths but of not less than one year may be offered instead of transition to the next engagement stage.

8. Terms of Re-Engagement

a. You may apply to re-engage for further service not more than 12 months before the end of your current engagement stage.

b. Enlistment on further engagements, or on extension of service, remains subject to:

(1) The prevailing Service requirement at the time.

(2) You being under the upper age limit for your rank on expiry of your next engagement.

(3) Satisfactory performance during your current and previous engagement.

(4) A positive recommendation for further service from your Commanding Officer.

9. Terms of Termination of Engagement (Discharge)

a. The Defence Council has the authority to discharge you at any time.

b. Your Commanding Officer is empowered to discharge you in accordance with RFA 96 s.15(1), in the circumstances permitted for Regular Naval Personnel in BRd 3(1) including Discharge Shore (for example, Ratings/ORs who fail to fulfil their annual training obligations and are persistent bad attendees) and Discharge SNLR (see BRd 3(1) Ch 54) and:

(1) **Engagement Completed.** Ratings/ORs are to be discharged on the day on which they complete their engagement, provided they are not at the time in permanent service or full-time service under a FTRS commitment or ADC commitment; or

(2) **For Age.** RMR ORs are to be discharged on the day preceding the end of their NEM engagement; or

(3) **Promoted to Commissioned Rank.** Ratings/ORs promoted to commissioned rank in any of the Regular or Reserve forces are to be discharged the day prior to their effective date of promotion; or

(4) **Fraudulent Entry.** If Ratings/ORs have given a false answer during the attestation process, they may be discharged at the Commanding Officer's discretion; or

(5) **Discharge SHORE.** Ratings/ORs who fail to fulfil their annual training obligations and are persistent bad attendees; or

(6) **Discharge SHORE (DUDT).** Phase 1 & 2 Trainees in accordance with the guidance in BRd 3(1) Chapter 54.

c. Your Commanding Officer may discharge you in accordance with RFA 96 s.15(1) once legal advice has been sought under the following circumstances:

(1) **Discharge SHORE (Inadequacy - Attitude to Fitness).** The warning procedure for a poor attitude to the required levels of fitness is detailed in BRd 51 Volume 2, Chapter 2 – (PES Policy, Protocols, Instructions and Guidance). Persistent poor attitude to fitness may result in Discharge SHORE on the grounds of inadequacy.

(2) **Medically Unfit for Further Service.** Ratings/ORs who fail to maintain the physical standard required for service in the MR are to be processed to the Naval Service Medical Board of Survey (NSMBOS) / Medical Employability Board (MEB) in accordance with regular service procedures.

(3) **Conviction by a Civil Court.** Discharge will depend on the gravity of the offence and its relevance to Naval Service. Advice must be sought from Naval Legal Services.

(4) **Discharge Services No Longer Required (SNLR).** Ratings/ORs whose conduct is persistently a cause for concern are liable for discharge. Consultation between reporting officers and thorough counselling of the subject play a key role in the warning process. Every effort must be made to ensure that the shortcomings are identified and the proposed solution explained to and understood by the subject, who must also acknowledge in writing the advice given, the future process and consequences. BRd 3(1) Chapter 57 contains further guidance where Discharge SNLR is being considered. MR Unit COs must consult with COMMARRES HQ prior to implementation of formal action.

(5) **Discharge SHORE (Best Interests of the Service).** Although the above types of Discharge SHORE are the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of their unsuitability, it is not possible for the regulations to cover every eventuality. Where Command is unable to determine an appropriate method as detailed above, then an application may be considered on the basis of the Best Interests of the Service. For further information see BRd 3 (1) Chapter 54.

d. **Right to Appeal.** Appeal against a decision to discharge a Rating/OR in accordance with s.15(2) RFA 96, is by way of complaint to the Defence Council in accordance with JSP 831 and BRd 3(1) Chapter 23. The Defence Council may give directions (including a direction annulling the discharge) as is appropriate.

10. Entitlement to Discharge

a. Provided that you are not at that time in permanent service or serving under FTRS or Additional Duties Commitment (ADC) or an order is in force authorising the call out of the Reserves, you are entitled to be discharged:

(1) On completion of each engagement.

(2) Before the end of the period for which you enlisted, provided that you give at least three (3) months' notice in writing to your Commanding Officer and you return in good order, fair wear and tear excepted, all arms, clothing and other public property issued to you or pay for the deficiencies. Your Commanding Officer may dispense with either or both of these conditions if it appears that the reasons for discharge are of sufficient urgency or weight.

b. You will be discharged with all convenient speed but remain a member of the RMR until actually discharged.

11. Terms of Call Out (Mobilisation)

a. You will be liable to be called out for permanent service in any part of the world whenever an Order is in force authorising call-out. Call-out may be authorised in the following situations:

(1) When national danger is imminent or a great emergency has arisen; or in the event of actual or apprehended attack of the United Kingdom.

(2) When warlike operations are in preparation or progress.

(3) Where it is necessary or desirable to use members of a Reserve Force for any purpose for which members of the Regular services may be used, or on operations anywhere in the world for the alleviation of distress or the preservation of life or property in time of disaster or anticipated disaster.

b. If you fail to report at the time and place as specified in the notice calling you out for permanent service without leave of absence, sickness or other reasonable excuse, you will render yourself liable to arrest and prosecution.

12. Retention in Service

You may lose your entitlement to discharge or be required to extend your service whilst an order under section 52, 54 or 56 of RFA96 is in force authorising the call-out of members of the Reserves or if you are already in permanent service under such an Order.

13. Training and Employment

a. Training may be conducted in Reserve Units, HM Ships or in Training Establishments in the United Kingdom (UK) or any part of the world and is organised in two ways:

(1) Non-continuous training, typically comprising evenings and weekends at a Reserve Unit or other UK Training Establishment.

(2) Continuous training, typically comprising a period of at least 1 week within the UK or any part of the world.

b. You will be required to carry out whatever duties may be ordered by those in authority to you. The nature of your employment is always subject to the needs of the Service, and no guarantee is given that you will serve in any particular employment, trade or Branch. Nevertheless, if you are enlisted for a particular employment with the view to being trained and employed in it, you will normally be so trained and employed.

14. Pay

a. The Reserve remuneration package includes attendance-based pay, travel expenses and allowances for attending training and other authorised duties, a non-contributory pension and an annual paid leave entitlement based on paid attendance.

b. Your rate of basic pay is determined by:

(1) Type of Reserve Forces commitment or form of service.

(2) Substantive Rank.

(3) Profession or Specialisation.

(4) Length of service.

(5) Qualifications held.

(6) Satisfactory performance.

15. Pay on Initial Entry (No Previous Military Service)

a. Your entitlement to pay will commence from, and include, the day of your first period of training or duty after attestation.

b. On enlistment into the Reserve Forces you will be allocated to the New Entrant Rate of Pay (NERP). You will remain on this rate of pay for one calendar year or until completion of basic trade training whichever is the earlier.

c. Thereafter you will be allocated to a trained trade for pay purposes and be paid from the relevant main pay spine of the appropriate pay range for your rank, branch or trade. Yearly incremental progression will occur, in accordance with published pay regulations, on the anniversary of the date of your transfer to this pay spine.

16. Pay on Initial Entry (Transfer from the Regular Forces)

If you have transferred or re-engaged into the Reserve Forces from the Regular Forces you will be paid at the same increment level within the pay spine and range on the Reserve pay structure as applied in the Regular Forces, assuming there are no other changes in employment status (such as a change of trade or branch). Your pay will be reassessed to count former Service towards incremental pay from the date of engagement.

17. Bounty

You will be paid an annual tax-free bounty if you complete your specified annual training requirement as an entitled Volunteer Reservist. Your bounty will only be paid on receipt of a Certificate of Efficiency from your Commanding Officer confirming that you have met the appropriate attendance, training requirements and training performance standards.

18. Leave

a. You are entitled to paid leave proportionate to your attendance for required training or paid voluntary training and other duties. You are ineligible for paid leave not based on attendance, e.g., sickness absence, compassionate leave.

b. Payment will be at the appropriate rate of daily pay for your rank, made in arrears via your pay account at the rate of approximately 1 days' leave for every 10 days' paid attendance.

19. Proportionate Payments

The Service Year runs from your date of enlistment on your current engagement. However, a number of payments including annual training bounties and paid leave are based on the Reserve Year which commences on 1 April and ends on 31 March. As your Service Year and Reserve Year are unlikely to coincide, depending upon when you start or terminate service during the Reserve Year, certain payments will be made on a proportionate basis in your first and final years of service.

20. Expenses and Allowances

You are entitled to a range of expenses and allowances to cover the costs incurred for accommodation, food and travel when on authorised duty, as detailed in the appropriate publications.

21. Armed Forces Pension Scheme 2015 (AFPS 15)

a. You will automatically become an active member of the non-contributory Armed Forces Pension Scheme 2015 (AFPS 15) from your first day of paid service unless you have either Transitional (Full) Protection in other Armed Forces pension schemes or you have opted out of or left the scheme.

b. You may pay into a stakeholder or personal pension subject to HMRC limits.

c. In order to receive pension benefits you must serve for a vesting period of two calendar years, starting from your first day of paid service and excluding periods of unauthorised absence, unpaid leave, service detention and/or imprisonment.

22. Option not to join, leave or rejoin AFPS 15

a. You may opt not to join, leave or rejoin AFPS 15 by submitting a request through your Commanding Officer.

b. If you are opting not to join the scheme this form must be submitted within three months of enlistment. You may rejoin the scheme once in any 12-month period providing you are still in Service.

c. MOD and Service personnel are not accredited to give specific financial advice. The Services Insurance and Investment Advisory Panel (SIIAP) (www.siiap.org) can give specialist independent financial advice to Service personnel.

23. Armed Forces Compensation Scheme

a. The Armed Forces Compensation Scheme (AFCS) provides compensation for injury, illness or death which is caused by service. It is entirely separate from personal accident cover; any personal accident cover you may have is not taken into account when determining an AFCS award.

b. In the event of service-related death, the Scheme pays benefits to eligible partners and children. An ‘eligible partner’ is someone with whom you are cohabiting in an exclusive and substantial relationship with financial and wider dependence.

c. You can submit a claim for injury or illness which occurs while you are participating in an authorised service-related activity, including Adventurous Training (AT), physical exercise and organised sport.

24. Employer Notification

a. The Ministry of Defence (MOD) has a policy of annual Employer Notification. Each year your Commanding Officer will write to your employer informing them of your status as a Reservist and highlighting your key training periods and commitments in the coming year. If you have more than one employer, you will be required to nominate one as your main employer to meet the Defence commitment to inform employers wherever possible.

b. For Reservists in Northern Ireland and Special Forces this policy is opt-in.

c. Waivers may be granted by your Commanding Officer for the following reasons:

(1) To maintain a Reservist’s security.

(2) Where Employer Notification could exacerbate a short-term employment issue.

25. General Conditions of Service

a. **Individual Responsibility.** You are responsible for ensuring that personal data held in the Joint Personnel Administration (JPA) system is correct and up to date. You must notify Unit administration staff of errors or concerns regarding pay and allowances, or any changes in circumstances that may affect your eligibility to pay and allowances as soon as they occur. Failure to do so may result in you becoming liable for subsequent recovery action of over-payments.

b. **Medical Support.** You will continue to receive your primary medical care from your NHS GP unless in permanent service or serving under a specific type of FTRS commitment.

c. **Medical Assessment.** You are required to make yourself available for periodic assessment of your health by a Service Medical Officer to ensure that you remain fit to serve and have the appropriate medical category assigned to you. Routine assessments are conducted at age 30 and then every five years until the age of 50. Thereafter assessments occur every two years.

d. **Royal Marines Basic Fitness Test.** You must be in-date for the Royal Marines Basic Fitness Test (BFT) throughout the year and in particular on a certain date each year which is dependent upon your substantive rank. Failure to be so will mean you are ineligible for promotion and may affect award of the annual Certificate of Efficiency unless you have a permanent or temporary waiver from the requirement. You are responsible for ensuring that the outcome of the test is correctly recorded in your personal details.

26. Attestation Paper

The Attestation Paper sets out the questions you will be asked by the officer who will formally enlist you into His Majesty's Royal Marines Reserve and which you must answer. You will be asked to confirm that you have received a copy of this Notice Paper setting out the general terms and conditions of the engagement you are entering into.

FULL TIME RESERVE SERVICE - TERMS AND CONDITIONS OF SERVICE

SECTION 1

SCOPE

10201. Policy and Accountability

The policy for the requirement of FTRS to fill both Regular positions and the creation of FTRS fill only (FTRS-only) positions, including coherence with Workforce Delegation, is determined by PSP SO1 Supply on behalf of DDPS. FTRS strength and liability is monitored and reported monthly by PSP SO1 Supply. CM RES SO1 (Registrar of Reserves) is responsible for both the Career Management of Reserve Force personnel employed on FTRS and the issuing and managing of commitments.

10202. Regular Positions

FTRS may be used, subject to approval, to fill Regular liability-driving positions. Requests to fill Regular non-liability driving positions are to be staffed via the same process as FTRS-only positions. When FTRS is used to fill Regular Positions the Regular Career Manager for that position should complete an FTRS Request form that informs the Cell of the JPA Position Number, the employer's details and the proposed start date. The FTRS Cell will engage with the Line Manager who will provide the TORs and complete an FTRS Commitment Level Justification Form. This will be forwarded by the FTRS Cell to the Regular Branch Manager, requesting an FTRS fill. The FTRS Cell will then seek CM RES SO1 and the appropriate Branch Manager's approval prior to initiating the recruitment process.

10203. FTRS Only Positions

a. FTRS-only positions constitute any position to be filled by FTRS that is not a Regular liability-driving position. As well as standard TLB-funded FTRS-only positions, FTRS-only positions include all non-Regular RN Careers Service positions, FTRS positions funded from the Treasury Reserve (i.e. under RfR2 funding arrangements) and any third party funded FTRS position.

b. Authority for the creation, extension and/or enrichment/de-enrichment of FTRS-only positions rests with the WFPT who should ensure that:

(1) Advice on the feasibility of recruiting into the post has been obtained from the CM RES SO1.

(2) An audit trail of the financial authority from the appropriate TLB has been received.

c. Regular personnel are not to fill FTRS only positions.

d. The CM RES SO1 will career manage these FTRS-only positions and recruit and apply extensions of service or further periods of FTRS, to those positions as required in accordance with these regulations.

e. FTRS commitment lengths will, other than in exceptional circumstances, be a minimum of 3 months and not normally exceed 3 years.

10204. Eligibility of Personnel

a. Application to volunteer to undertake FTRS may be made by any officer, rating or other rank in the Royal Fleet Reserve (RFR), Royal Naval Reserve (RNR) or Royal Marines Reserve (RMR) within the age range, rank and category authorised by the FTRS Cell providing that the applicant is able to meet the following criteria:

(1) Can satisfy the FTRS Cell that they are prepared to undertake a set period of service as stipulated in a written commitment.

(2) Holds the minimum required rank/rate or is prepared to serve at a lower rank/rate.

(3) Is Trained Strength and has completed the necessary professional training to undertake the specified duties in the role and rank/rate of the position.

(4) At the time of application and commencement of the commitment is medically fit for service in the commitment for which they apply.

(5) Is not a Transitional Member of the Reserve Forces who has irrevocably elected to become fully subject to the call out powers in RFA96, as extended by the Defence Reform Act 2014, including section 56(b) of RFA 96. See BRd 3(2) for further policy guidance.

b. Application to volunteer to undertake FTRS may be made by any officer, rating or other rank in the RNR or RMR who are approaching the end of their commission or engagement, providing the applicant is able to meet the following criteria:

(1) Are in their last two years of service.

(2) Have no RFR liability.

(3) Have not submitted their notice.

(4) Are applying for a new FTRS that commences prior to their termination date or who are seeking a further period of FTRS that will require an extension to their RNR/ RMR commission or engagement.

(5) All other eligibility criteria and minimum medical standards in Para 10204.a.

10205. Applying for FTRS

The sole method of applying for FTRS is via SERVE.

a. Once received all applications will be acknowledged via an automated SERVE message. Eligible candidates are to be processed to a suitability interview. Personnel should be aware that applications do not always result in being forwarded to a suitability interview or an offer of a commitment. Reservists should not jeopardise any current employment until a firm offer has been made.

b. Only the FTRS Cell can make an offer of FTRS employment; individuals should be aware that any verbal or written reference to possible employment on FTRS terms, prior to the commitment being signed by both parties, does not constitute an official offer of FTRS employment.

c. For personnel already in the regular service and wishing to apply for the scheme when they leave, selection criteria will be applied. Specifically, the applicant must be:

(1) Medically fit for further Naval Service and/or the type of commitment applied for beyond termination.

(2) Security Cleared beyond their Termination Date.

(3) Recommended for further service in their final OJAR/SJAR.

d. Regular personnel who are electing to submit notice to enter FTRS will normally have to complete the standard notice period before taking up FTRS employment; any deviation from this policy must be approved by the regular Branch and Career Managers.

e. For RNR and RMR personnel who are applying for FTRS in accordance with Para 10204.b, the following application procedure applies:

(1) The applicant must submit a List-4 Application[1] [2] to NAVY PEOPLE-CM RES CPO, cc'ing NAVY PEOPLE-CM RES FTRS WO1, ensuring that the justification in Part-2 references the FTRS role the applicant wishes to apply for[3]. Applications made within the last 8-weeks of service will be rejected as there will be insufficient time to process the List-4 transfer and undertake FTRS applicant sift and interview.

(2) Applications will be presented at the next available EOS and List-4 Transfer Board. Successful applicants will be notified by the NAVY PEOPLE-CM RES CPO that their application is conditional on being offered the FTRS role applied for. Unsuccessful applicants may re-apply for EOS with List-4 Transfer if they apply for a subsequent FTRS post, however, their existing MR commission/ engagement termination remains extant unless successful at both list transfer and being offered the FTRS role.

(3) EOS with List-4 Transfer applications for FTRS advertisements that commence prior to their termination date, must be made no later than 8 weeks prior to their last date in service.

[1] https://modgovuk.sharepoint.com/teams/61290
[2] Part 2 of this form must be completed by the Capability/ Specialisation SO1 for new applications, or the FTRS Employer for extension applications for continued employment in the same role.
[3] Only one List-4 application can be submitted at any one time and a separate List-4 application is required for each FTRS role.

(4) If successful at interview, the FTRS Cell will notify NAVY PEOPLE-CM RES CPO who will action the List-4 transfer and align the applicant's commission/engagement end-date with the FTRS end-date. This will be no longer than 24-months and will be reflected in the applicant's FTRS TACOS. Transfer on to List-4 will only be effective from original termination date and personnel transferred to List-4 will remain subject to the extant conditions for this List.

SECTION 2

EMPLOYMENT PROCEDURES

10206. Advertising Positions

a. FTRS positions are normally advertised no more than 6 months before FAD in order to attract the widest pool of candidates. At the CM RES SO1 discretion, however, in exceptional circumstances individuals can be offered an FTRS commitment without advertising the vacancy[4]. Approval to dispense with an FTRS advert can be authorised by CM RES SO1 and is limited to a maximum of two dispensations. Under no circumstances are employers to make the decision to dispense with an advert. Whilst not exhaustive, waivers may be granted by CM RES SO1 in the following circumstances:

(1) Advertising would not meet short notice demand considered urgent. In this context, short notice demand should be considered as anything up to 3 months.

(2) Where known skills are generally in short supply or where retention of an individual's experience is highly desirable.

(3) Where known locations or positions are difficult to recruit to and where an individual is readily available.

b. In cases where there is sufficient time to trawl for specific skills and competence, or where a wider trawl of potential candidates might be beneficial, opportunities will be advertised and subject to the standard recruitment process.

c. FTRS-only PIDs, or regular PIDs filled by FTRS, that have had previous dispensation not to be advertised or have been filled with the same incumbent for six years or more are to be re-advertised at the next rotation. This is to ensure open and fair competition, to provide opportunity to increase KSE for the employing unit, to reduce the burden of single points of failure and to allow for change of ToRs. If eligible, the current incumbent[5] can also re-apply for the role. Requests for exemptions to the six-year rule will be considered in exceptional cases only, which are to be submitted to the FTRS Cell for SO1 Res CM to consider no earlier than 6-months prior to the end of the current incumbent's commitment end-date.

10207. Offer of Employment

a. When an applicant has been successful at interview or 'career managed' into the post by CM RES SO1 and the staff checks have been completed, FTRS WO1 will forward an offer of employment for consideration, signature and return. **Under no circumstances are employers to offer a position to an individual.** It is possible that the offer of employment may differ from that applied for; for instance, the tenure offered may be shorter or longer.

[4] For example, if the fill is required under 2 months' notice.
[5] If the current incumbent holds AHR/AHR on a LA basis, they may apply for the role and be considered by the employer alongside other applicants.

b. FTRS is subject to the needs of the Service and no Reservist has any right to undertake a period of FTRS.

10208. The Commitment

a. Personnel who are offered FTRS commitments should read the associated document carefully. If satisfied, they should sign acknowledging their acceptance of the terms of the commitment and return the signed paperwork to the FTRS Section. Commitments that are dispatched and not returned and signed within 14 calendar days of the date on that commitment may be revoked.

b. The Registrar of Reserves or delegated personnel will countersign the commitment documentation within 14 calendar days to bring the individual into Service and a copy will be returned to the individual as the authority to commence service on the date specified. Personnel should not anticipate commencing FTRS, however, until their commitment has been agreed and signed by both parties.

c. Employers of RNR or RMR personnel on FTRS are encouraged to support reasonable requests by those individuals to undertake Maritime Reserve activity during the period of their Commitment.

SECTION 3

TERMS AND CONDITIONS OF SERVICE

10209. General

Section 24 of RFA 96 provides for a member of the Reserve Forces to enter into a commitment in writing to undertake a period of FTRS performing specified duties for a specified period, in a broadly similar way to Regular personnel. This is a formal binding commitment under which the Reservist agrees to undertake duties.[6] There are three central, full-time types of FTRS: Full Commitment (FC), Limited Commitment (LC), and Home Commitment (HC). Each commitment comes with a different liability and attracts different benefits and entitlements.[7] JSP 753 provides policy guidance on the Terms and Conditions (TACOS) of several Reserve commitment types. FTRS personnel are posted to a specific assignment within a unit. They should normally be employed in the assignment stated and may not be moved to alternative employment without the agreement of the individual, the FTRS Cell and the Workforce Planning Team (WFPT).

10210. Definitions

The following are owned centrally by Reserve Forces and Cadets (RF&C). They cannot be altered without consultation with AH PolStrat RF&C. The policy intent is to ensure a 'golden thread' runs between primary legislation (RFA 96), central policy (JSPs), and single Service Regulations:

a. **Full Commitment (FC).** Routinely only used to either (1) fill vacant Regular posts for a defined term, **or** (2) where the terms of reference of the post require more than 35 days of Separated Service[8] (in the UK or overseas) per year, for Service reasons. In both cases, the Reservist may undertake the same range of duties and worldwide deployment liability as Regular SP. Periods of Separated Service are to be 'Move and Track' recorded on JPA. There are no limits on voluntary Separated Service, associated with the role.[9] Within role, the Reservist may deploy to an operational theatre or attend exercises or training without the need for mobilisation; however, the liability of a Reservist to be mobilised and called into permanent service as per RFA 96 remains. In addition, FTRS (FC) Reservists are liable to short-notice trawls to augment Defence activity.[10] A declaration acknowledging this must be included in individual commitments, signed by the Reservist. The nature of the trawl will determine if FTRS (FC) TACOS or mobilisation are more appropriate).[11] Within the description of the role (specified in the commitment and/or job specification), continuous 24/7/365 liability for duty if required.

---

[6] Commitments are not (employment) contracts that are subject to the Employment Rights Act 1996. For this reason, outside of HR systems (i.e. JPA), FTRS commitments are not referred to as contracts. Commitments, like all forms of military employment, are subject to the Equality Act 2010, albeit it with a total exemption on age and disability and a partial exemption on sex, and the Working Time Regulations 1998.

[7] The Royal Navy and British Army also utilise the FTRS framework to provide bespoke employment models (that largely mirror FTRS(HC) for posts that require military continuity and expertise. The RN Naval Career Service (NCS) and Army Reserve Staff Group (RSG) constructs are not determined centrally; see single Service publications.

[8] As defined in JSP 756.

[9] Both JSP 756 and single Service regulations concerning Individual Harmony Guidelines must be adhered to.

[10] This may include augmentation, exercises, and operational tours not related to the primary FTRS role.

[11] Employing organisation will assess the nature, location, and threat level of the task to help determine the most appropriate mechanism (mobilisation, or under the existing FTRS (FC) commitment). Consideration should also be given to the mechanism that provides the Reservist with the same protections and benefits as any Regular personnel they will serve alongside; they should not be disadvantaged by the selection.

b. **Limited Commitment (LC).** Fulfils a range of duties in one assigned location, with limited liability for role-related compulsory Separated Service in the UK or overseas (including operational theatres) for up to 35 days in one year, with no single period of Separated Service typically lasting in excess of 21 days.[12] In addition, if required the Reservist will have liability for compulsory Separated Service to complete mandated training courses necessary for the current post (or future progression) which does not contribute to the 35 days. Periods of Separated Service are to be 'Move and Track' recorded on JPA. There are no limits on voluntary Separated Service, associated with the role. The Reservist may be mobilised and called into Permanent Service (for example, but not limited to, under Section 52), but should not routinely respond to (and cannot be directed to) undertake a trawl task. Within the description of the role (specified in the commitment and/or job specification), continuous 24/7/365 liability for duty is required.

c. **Home Commitment (HC).** Fulfils a range of duties in one assigned location, with no liability for compulsory Separated Service in the UK or overseas, with the exception of mandated training courses necessary for the current post (or future progression). There are no limits on voluntary Separated Service, associated with the role. Periods of Separated Service are to be 'Move and Track' recorded on JPA. The Reservist may be mobilised and called into Permanent Service (for example, but not limited to, under Section 52) - and must be for deployment to an operational theatre - but cannot respond to or be directed to undertake a trawl task. Within the description of the role (specified in the commitment and/or job specification), continuous 24/7/365 liability for duty if required.

10211. Age Limits

a. Applicants for FTRS should normally be under the age of 60. The maximum normal retirement age limits for FTRS are given below; there is no guarantee of employment to these age limits. Any employment past these age limits will be by exception only[13] and require the approval of CM RES SO1:

(1) All FTRS FC personnel - 60

(2) FTRS HC/LC personnel - 60

(3) FTRS RNCS personnel - 55

b. All FTRS posts are to be advertised when a further commitment is sought and the current incumbent is, or will be, over 60 when the further commitment commences. If eligible, the current incumbent[14] can apply for the role. Requests for exemptions to this rule will be considered in exceptional cases only, which are to be submitted to the FTRS Cell for SO1 Res CM to consider no earlier than 6-months prior to the end of the current incumbent's commitment end-date.

[12] Where essential for scheduled exercises inherent in the employing Units planned annual programme (for example but not limited to, Cadet Training Teams), an extended maximum continuous Separated Service of 28 days will apply. Where this is the case, it is to be clearly listed on the post's Job Specification and made known to the individual applying during the selection process.
[13] Examples may include (but are not limited to) niche SQEP, DPP/SPP cadres, time bound projects, difficult to recruit to geographic areas, and where a position has been advertised and attracted no applicants.
[14] If the current incumbent holds AHR/AHR on a LA basis, they may apply for the role and be considered by the employer alongside other applicants.

10212. Completion of Commitments

a. Where FTRS personnel do not wish to apply to renew on completion of their commitment they should inform the FTRS Cell no less than three months prior to the last day of service. All accrued annual leave and terminal leave[15] must be taken before the last day of the commitment. Where a Reservist finishes one commitment in order to take up a new post and there is no break in service between the old and new commitment, or the period of time between one commitment and another is less than one month, there is no entitlement to terminal leave on the change of commitment. However, where there is a break in service of one month or more between one commitment and the take up of another, terminal leave is admissible on completion of the former commitment. The same entitlement applies if the change of commitment is to ADC or vice versa. Individuals who consider that their employing unit is not taking adequate steps to ensure that they receive their entitled leave prior to their last paid day of FTRS are to bring this to the attention of their local Chain of Command[16]. The amount of FTRS terminal leave is calculated in accordance with JSP 760.

b. Where personnel are transferring from FTRS to an Additional Duties Commitment (ADC) they are entitled to their accrued FTRS terminal leave before commencing ADC.

c. Notice periods are as follows:

(1) FTRS (FC) - 6 months

(2) FTRS (LC) - 3 months

(3) FTRS (HC) - 4 weeks

10213. Extension of FTRS Commitments and Further Periods of FTRS

a. There is no automatic right to an extension to a FTRS commitment or for further periods of FTRS. A Reservist accepting an FTRS commitment must be conscious that opportunity for further periods of FTRS are entirely dependent on a continuing Service requirement and suitability (including medical fitness) for the role. Additionally, a positive recommendation for further Naval Service on their Appraisal report is required.

b. **Extensions.** Extensions to extant FTRS Commitments extend the final date of FTRS service. The Commitment cannot be revoked before the beginning of the specified period of extension, whether at the request of individual or the Service. FTRS Commitments extensions will normally be instigated by CM RES SO1 up to a maximum of 6 months. Authority for longer periods of extension rests with Hd PSP.

[15] Terminal leave may only be taken once, and at the end of continuous commitments.
[16] The FTRS Cell will assign individuals into an appropriate MA5 position for their Terminal Leave.

c. **Further Periods of Full Time Service**. Further periods of full-time Service can be applied to extant Commitments but the FTRS Cell may at any time revoke, in writing this further period of FTRS Service before the start of the specified period. Applications to further periods of FTRS may be made as follows:

(1) **FTRS Commitments in Regular Positions (Reg (FTRS)).** Applications should be made by the Employing Unit to the FTRS Cell of at least six months before the current commitment expires. FTRS Cell will seek approval from the position CM to continue the fill with FTRS and once formal clearance has been given, approval by Regular BM and Strat WFPT is to be obtained.

(2) **FTRS only Positions.** Applications may be made by the Employing Unit up to 6 months before the current commitment expires. Employing Units are to ensure the position End Date is not compromised or is sufficient to cover the further period of FTRS requested. Commitment Level Justification will be required for all further periods of FTRS with evidence of Separated Service produced.

10214. Grievance Procedures

The normal grievances procedures will apply if appropriate (BR 2 (KRRN) Chapter 42). Individuals should also be aware of their rights to submit a Service Complaint in accordance with JSP 831 and BRd 3(1) Chapter 23.

10215. Medical Fitness

Reservists must be medically fit for the FTRS role they are undertaking and when required by their commitment level, be medically fit to undertake the same range of duties and worldwide deployment as Regular SP. It is the responsibility of the Reservist to inform their Employer of any change to their medical fitness that could affect their ability to undertake their FTRS roles and responsibilities. When required a Reservist is to ensure the Service has the authorisation to access their civilian medical records if needed to make a medical assessment for fitness for role. If a Reservist refuses to allow a service medical practitioner access to civilian medical records or refuses to attend a service medical appointment to ascertain medical fitness, the FTRS Commitment will be terminated. To ensure that a Reservist is medically fit to undertake the role tied to their commitment, it is essential that the Medical Certificates supplied with the FTRS Commitment are completed and the relevant JMES reviewed prior to application.

a. If an Ex-Regular has been medically discharged from Regular Service with a Joint Medical Employability Standard (JMES) that includes L6 or M6[17], they are not eligible to be members of a Reserve Force and therefore not eligible to apply for or undertake FTRS, ADC or VeRRs. An individual who has been discharged via a RNMBOS/RNMEB post Jun 25, in a lesser category than M6/L6 (i.e. MND or MLD with a JMES of 1 – 5 inclusive) will have reserve liability and may apply and be considered for FTRS/ADC/VERRs in line with their JMES. Those who were discharged MND may only apply for FTRS HC roles. Those discharged MLD will need to be able to meet the full range of the ToRs for the role and if applying for FTRS FC need be able to meet the trawl and deployable element of FC.

[17] Joint Medical Employment Standard of L6 “Unfit for service in the land environment” and M6 “Unfit for any duties in the maritime environment”.

b. Medical standards for FTRS commitments are iaw BRd 3(2) Chapter 18. Medical Certificates are to be forwarded to the FTRS Cell within two weeks of commencement of the Commitment. The medical is to be carried out by Defence Primary Health Care (DPHC). The following regulations apply:

(1) It is the responsibility of the Employing Unit to ensure that this procedure is carried out and that a copy of the completed Medical Certificate is sent to the FTRS Cell. If there is any change in the JMES of the individual up to the start of a further period the FTRS Cell should be informed immediately.

(2) A fresh Medical Certificate is required for every new period of FTRS commitment, including further periods of FTRS. Personnel who have a valid JMES that meets the minimum medical standard for the role and was conducted by DPHC within the last 6 months can make a self-declaration to the FTRS Cell that there has been no change in their medical circumstances since that date. This will be accepted in lieu of a Medical Certificate. The FTRS Cell will conduct checks of the JMES on JPA for all Personnel making a self-declaration.

(3) In order to assess an individual's fitness for employment, the examining Medical Officer is to be provided with a Job Description/Terms of Reference (ToR) relating to the FTRS role. Should the Reservist be considered medically fit to undertake the FTRS Commitment, but in a temporarily reduced medical category, the Medical Officer should annotate this fact on the medical certificate, together with an estimated duration of medical downgrading. On completion of the JMES assessment, the paperwork is to be forwarded to the FTRS Cell who, in consultation with CM RES SO1, will make the final decision on whether to approve an FTRS commitment.

(4) It is the responsibility of the Reservist to inform their Employer of any change to their medical fitness that could affect their ability to undertake their FTRS roles and responsibilities. When required a Reservist is to ensure the Service has the authorisation to access their Civilian Medical records. If a Reservist refuses to allow a service medical practitioner access to civilian medical records, the FTRS Commitment will be terminated.

(5) Service Personnel medically discharged prior to Jun 25 and in a medical category lower than L6 or M6[18], who were not awarded Reserve Liability on discharge, but subsequently wish to apply for a FTRS role, should contact NAVY PEOPLE-MR RES MOB SO2 to be considered for the award of Reserve Liability. Each application will be considered on a case-by-case basis, and the Pre-entry MEB will consider medical suitability as required.

[18] i.e. MND A4 L5 M5 E5 and lower.

10216. Long Term Medical and Dental Care

Policy guidance for Medical and Dental care is in accordance with JSP 950[19]. FTRS LC and HC personnel should remain registered with their local civilian medical and dental practitioners. They will, however, be entitled to receive emergency medical and dental treatment from Service sources. When they are required to undergo medical treatment by virtue of their Service duties (e.g. inoculations prior to proceeding overseas), they are entitled to such treatment from Service sources or receive reimbursement from Service Funds for treatment received from their Medical Practitioner.

10217. Sickness or Other Absence

a. If a Reservist is absent from work through injury, sickness or for any other reason, they are to inform their CoC, wherever possible, on the first day of absence, of the cause and likely duration of their absence.

b. If a Reservist is absent for more than seven consecutive calendar days due to sickness or injury, they are to provide their CoC with a doctor's Fitness to Work certificate. For prolonged periods of sickness (over 3 months), an individual will be required to be examined by a Service Medical Officer[20]. Provided that this procedure is observed, a Reservist will be entitled to sick absence with pay, in respect of the days on which they would normally have worked, subject to the timescales in para 10219. If the required procedure is not followed, or if abuse of the sick absence with pay arrangement is suspected, the MOD may withhold the Reservist's pay for the relevant period and may initiate disciplinary action.

10218. Medical Downgrading

Any Reservist who is medically downgraded whilst on FTRS will be subject to the same regulations as Regular personnel, save that those serving on FTRS HC or LC will have no entitlement to appear before the Royal Navy Medical Board of Survey and/or to discharge on medical employability grounds.

10219. Medical Discharge from Service

If a Reservist serving on FTRS(FC) becomes permanently medically unfit for service, they will be subject to the same medical discharge procedures as apply to Regular personnel. A Reservist who, in the opinion of a Medical Officer, is likely to recover from their injury or illness so that they may resume Reserve Service is to continue to be borne on their FTRS pay and allowances up to the day on which they would normally have completed their FTRS Commitment. Reservists serving on FTRS (LC) or (HC) who become permanently medically unfit for service will be placed in the medical margin until the end of their present commitment length if that is in less than 12 months. Those in commitment lengths longer than 12 months will be reviewed on a case-by-case basis and legal advice sought for termination of commitment.

10220. Attributable Benefits

The next-of-kin of any Reservist serving on FTRS will be eligible for the appropriate 'attributable' benefits if they suffer death or injury which is attributable to, or aggravated by, their service.

[19] See also DIN 2019DIN01-080.
[20] Failure to attend for a medical appointment could result in termination of commitment.

10221. Compulsory Drug Testing

Reservists undertaking periods of FTRS are subject to compulsory drug testing.

10222. DMT/NCT, RN Personal Employment Standard (RNPES), RM Fitness Test

Reserve personnel serving on FTRS are, if required, to maintain currency in DMT/NCT. Personnel serving on FTRS(FC) and/or are in the RNR/RMR are to be in date for RNPES/RM Fitness Test in accordance with BRd 51.

10223. Maternity/Paternity/Adoption Benefits

Entitlement to maternity/paternity/adoption benefits for a Reservist serving on FTRS will be in accordance with current Service regulations.

10224. Transfer/Re-entry into the Regular Forces or Maritime Reserves

A Reservist undertaking FTRS may apply to transfer to the Regular Forces or the MR. Although subject to the mandatory notice period prescribed in BRd 3(2) Ch 18, exceptional consideration may be given to premature termination of the FTRS Commitment where a relief can be assigned, or if it is acceptable for the FTRS billet to be gapped.

10225. Service, Advancement, Promotion

a. An RFR Reservist undertaking FTRS will be selected in accordance with the operational requirement. They will usually serve in the same rank/rate that they held on completion of their Regular Service. Local or Acting advancement/promotion to a higher rank/rate may exceptionally be allowed, if there are no suitable substantive applicants, in accordance with Part 8 of this BR. Approval for Local or Acting advancement/promotion rests with CM RES SO1. Individuals who elect to serve in a lower ranked position are to wear the uniform of, and are to be paid in, the rate/rank appropriate to the position.

b. Time spent in an Acting Higher Rank during FTRS is reckonable towards Honorary Rank on the Retired List and may be considered when determining the rank/rate and seniority an individual is granted upon a transfer to the MR.

c. Notwithstanding the general FTRS age restrictions, Reservists, at the discretion of the FTRS Cell, will be able to undertake periods of FTRS even if they are over the maximum age specified for the rank/rate for the Branch in which they are to serve.

d. RNR/RMR Reservists undertaking FTRS will also be selected in accordance with the operational requirement. They will usually serve in the same rank/rate that they hold in the RNR/RMR. Local or Acting advancement/promotion to a higher rank/rate may exceptionally be allowed, if there are no suitable substantive applicants, in accordance with Part 8 of this BR. Approval for Local or Acting advancement/promotion rests with CM RES SO1. Individuals who elect to serve in a lower ranked position are to wear the uniform of, and are to be paid in, the rate/rank appropriate to the position.

e. The policy to award AHR (on a local acting basis) of WO2 and WO1 is subject to the following caveats:

(1) AHR (on a local acting basis) of WO2 and WO1 will only be considered in **exceptional circumstances**[21],and for a specific commitment. At the end of that commitment, the role is to be re-advertised to allow for those holding the rank substantively to apply. Incumbents are eligible to reapply for their position on a local AHR basis but there is no guarantee of a subsequent commitment offer. This ensures that AHR is by exception in line with Regular Service.

(2) Hd CM must give final approval for the award of AHR (on a local acting basis) of WO2, and DDPD for the award of WO1.

f. A period of FTRS will count towards advancement/promotion in the RNR/RMR; any qualifications gained during FTRS will, if appropriate, also be considered.

g. If Promoted/Advanced[22] in the RNR/RMR whilst already serving on FTRS, the promotion/advancement may either:

(1) Be authorised immediately by the FTRS Cell, subject to operational considerations, budgetary approval and position rank/rate requirement, or

(2) Be placed in abeyance until completion of the FTRS Commitment.

h. If selected for the Pool[23] in the RNR/RMR whilst already serving in the AHR on FTRS, promotion to the substantive rank will be effective from the start of the Pool year.

i. If selected for the Pool in the RNR/RMR whilst already serving in the AHR in the MR, promotion to the substantive rank will be effective from the start of the Pool year.

j. If selected for the Pool in the RNR/RMR, and secure an FTRS role in the next higher rank during the Pool year, promotion to the substantive rank will be effective from the start of the FTRS commitment.

k. Subject to having the requisite SQEP for the role, a member of the RNR/RMR who transfers back to the RFR may return on FTRS in the rank/rate gained whilst serving in the RNR/RMR/RNCS if it is higher than that originally held in the RFR. However, personnel promoted to CA1 (Honorary WO) whilst serving in the RNCS will not retain honorary status on return to RFR employment and will be required to revert to substantive rate (OR7). Honorary CA1(WO) status can only be retained on retirement from the Naval Service.

[21] This includes personnel re-entering the RN in the AHR, which will open up a pathway for substantive promotion to WO2.
[22] To OR2 – OR7, or OF3.
[23] To OR8, OR9, OF4 and OF5.

10226. Honours and Awards

Service on FTRS counts as reckonable service for the Volunteer Reserves Service Medal (VRSM) or the Long Service and Good Conduct Medal (LS&GC). FTRS Service also counts towards RN/RM Good Conduct Badges (GCB). GCBs for RNR/RMR are to be administered within the Employing Unit, following the same procedure as for Regular Service personnel.

10227. Annual Reports

a. RFR Reservists undertaking FTRS will be subject to the same reporting procedures and timings as Regular personnel. They should be reported on with regard to their potential for further Service with recommendations for promotion, even though RFR Reservists are not eligible for promotion.

b. RNR/RMR Reservists undertaking FTRS should have reports raised by their Employing Unit which is to include a Short Appraisal Report (SAR) by the MR Capability Areas.

10228. Security Clearance

All Reservists undertaking FTRS will hold, as a minimum, a Security Check clearance. FTRS Commitments will be suspended if PSyA suspends an SC and if an SC is withdrawn, the FTRS Commitment is to be terminated. A Reservist is not to commence their commitment until all clearances have been received. Commitment start date and end date may be adjusted accordingly.

10229. Pre-Employment Training

Specific pre-employment training will be provided for FTRS Reservists who require additional essential specialist skills in order to perform their duties safely and effectively. Known training requirements will be reflected in the FTRS Commitment. All training requirements are to be booked by the employing unit via the Course Booking Cell.

10230. Spare

10231. Pay

FTRS Reservists will be paid in accordance with current Service regulations. Rates of pay are as published in the Annual Armed Forces Pay Review Body Directed Letter.

10232. Allowances and Charges

Allowances and charges for FTRS are in accordance with current Service regulations.

10233. Pension

Full details of attributable pension and the effects of FTRS on Ex-Regular Preserved Pensions, Resettlement Grants, Special Capital Payments or Compensation Lump Sums are available from the Defence Business Services (DBS) Organisation.

10234. Leave

Those Regular service personnel who seamlessly enter FTRS should ensure that they take all outstanding leave prior to termination from Regular Service: it cannot be carried forward into an FTRS commitment. Similarly, leave cannot be carried forward between FTRS commitments in different roles. Allocation of leave for FTRS is in accordance with current Service regulations.

10235. Uniform

Reservists will normally wear the uniform of, for RNR/RMR, the rank/rate they hold, or for RFR the rank/rate they held in regular Service. If they accept FTRS service in a lower rank/rate, they are to be paid as and wear the uniform of the lower rate/rank until completion of the FTRS commitment. Any additional items of uniform clothing will be issued as follows:

a. RFR Officers undertaking FTRS will have their uniform made up to a minimum scale commensurate with the duties being undertaken.

b. RFR Reservist Ratings and Other Ranks will have their uniform made up to the minimum scale in accordance with BRd 3(1) Part 6, on the production of a signed commitment. Additional kit will be issued from the nearest suitable Service Establishment.

c. RNR/RMR Reservist kit scales will be brought up to the level which will be required for the duties to be undertaken. Additional kit will be issued from the nearest suitable Service Establishment.

10236. Resettlement

Those Regular service personnel who seamlessly enter FTRS should contact their Resettlement Centre to ensure that they either take their remaining Graduated Resettlement Time prior to entry or have it transferred across to their FTRS. The entitlement for Graduated Resettlement Time for FTRS is in accordance with current Service regulations.

10237. Electoral Registration

Reservists undertaking FTRS in the UK are not eligible to register as Service Voters. They are, however, entitled to proxy or postal votes in the same way as civilian electors. FTRS personnel serving overseas may register to vote as an overseas elector (the Representation of the Peoples Act 2000 refers). Personnel should contact their local electoral officer prior to posting overseas.

10238. Jury Service

Reservists undertaking FTRS may no longer be excused jury service as of right under the Jury Act 1974. In order to be excused, the unit CO must certify to the Summoning Officer that it would be prejudicial to the efficiency of the Service if the individual was required to be absent from duty.

10239. Welfare Support

All Reservists serving on FTRS are eligible to receive an appropriate level of service welfare support. Although recommendations for compassionate drafts will not be appropriate, welfare investigations may be required to support recommendations for compassionate leave or early termination of a Commitment.

0240. Electoral Candidature

The restrictions which apply to members of the Regular Forces, set out in BRd 2 Chapter 66 also apply to Reservists serving on FTRS.

a. No member of the Reserve Forces serving on FTRS may be either a declared prospective or elected member of a Local Authority, a National Assembly, the House of Commons, the European Parliament or any other Legislative Assembly.

b. A Reservist who wishes to stand for election must apply to the FTRS Cell through their Commanding Officer to terminate their FTRS commitment. It is in the individual Reservist's own interests to apply as early as possible. Approval of applications for release not in compliance with the terms of the FTRS commitment will depend on the exigencies of the Service and operational considerations in particular.

c. An unsuccessful candidate will have no right to resume their FTRS commitment.

ADDITIONAL DUTIES COMMITMENTS (PART-TIME RESERVE SERVICE)

TERMS AND CONDITIONS OF SERVICE
(TO BE READ IN CONJUNCTION WITH BR3(2) CHAPTER 19)

SECTION 1

GENERAL

10301. Eligibility

a. Any member of the RNR, RMR and RFR may volunteer to undertake Reserve Service under an ADC. Those ex-Regular Ratings/Other Ranks who form the Recall Reserve will not be eligible to apply for an ADC as the Recall Reserve is not a Reserve Force as defined by RFA 96 s.1(2)(a). These personnel may, however, apply to join the RNR, RMR or RFR. If accepted into one of those Reserve Forces, they would then be eligible to apply for an ADC. A Sponsored Reservist (SR) may undertake an ADC only where specific arrangements for them to do so have been made with their employer in support of their SR role.

b. **Reserve Liability**. Any member of the RFR, including a Transitional Member, is able to undertake **ADC** duties. However, if Reserve Liability has terminated by time, an ex-Regular can request from Registrar of Reserves additional Reserve Liability in order to undertake further ADC duties. The member will have to accept the updated Call Out Obligation under DRA 14.

c. All applicants are to meet the following criteria:

(1) Are on the trained strength.

(2) Are suitably qualified by Rank/Rate, specialisation, qualifications and experience to fill the posts for which they apply.

(3) Are in their last two years of service.

(4) Have not submitted their notice.

(5) Are medically fit for service in accordance with appropriate single-Service regulations applicable at the time. Personnel are normally required to be in a minimum of Medically Limited Deployable (MLD) category; however, those in a Medically Non-Deployable (MND) category may exceptionally be considered by SMOSE SO1 in consultation with the FTRS Cell. Approval may be granted through the weekly Pre-Entry Medical Employability Board (PMEB).

(6) Are applying for a new ADC that commences prior to their termination date or who are seeking a further period of ADC that will require an extension to their RNR/ RMR commission or engagement.

d. Applicants for ADC should normally be under the age of 60. There is no guarantee of employment to this age. Any employment past this age will be by exception only and require the additional approval of Hd CM.

e. Personnel who have entered into a High Readiness Reserve (HRR) Agreement are not eligible to undertake an ADC.

f. Personnel who are classed as 'Transitional Members' under RFA 96 are not eligible to undertake an ADC until they have elected irrevocably to cease to be a Transitional Member as provided for under RFA 96 Schedule 9, paragraph 4.a.

10202. Regular Positions

Where ADC is used to fill regular gaps the Regular Career Manager for that position is to complete an ADC Request form along with the Line Manager's comments, and TORs. This is to be forwarded to the FTRS Cell via the Regular Branch Manager, requesting an ADC fill. The FTRS Cell admin staff will then seek SO1 Strat WFP approval prior to initiating the recruitment process. This procedure is also to be followed for any extensions of service in Regular positions.

10303. ADC-Only Positions

a. ADC-only positions constitute any position to be filled by ADC that is not a Regular liability-driving position.

b. A Reservist cannot undertake two separate ADCs concurrently. The maximum number of Reserve Service Days for an ADC is 180 pa.

c. A PTVR can undertake both s25 (ADC) and s22 (Annual Training Commitment) within the same Financial/Training Year. The maximum number of RSDs for the full year cannot exceed 204 RSDs pa.

d. Regular personnel are not to fill ADC-only positions.

e. The CM RES SO1 will career manage these positions or advertise if needed and apply extensions of service to these positions.

f. **Maritime Reserves ADC-only Positions.** ADC positions established in support of the Maritime Reserve Directive (MRD) do not require establishment authorisation from FTRS Cell or FTRS BM. Funding for ADC positions is authorised by DACOS FP within internal resources (LAV001). Advertising for these ADC positions will be at the direction of CMR, if no suitable or identified MR is available.

g. For RNR and RMR personnel who are applying for ADC in accordance with Para 10301.b, the following application procedure applies:

(1) The applicant must submit a List 4 Application[1] [2] to NAVY PEOPLE-CM RES CPO, cc'ing NAVY PEOPLE-CM RES FTRS WO1, ensuring that the justification in Part-2 references the ADC role the applicant wishes to apply

[1] https://modgovuk.sharepoint.com/teams/61290.
[2] Part 2 of this form must be completed by the Capability/ Specialisation SO1 for new applications, or the ADC Employer for extension applications for continued employment in the same role.

for[3]. Applications made within the last 8-weeks of service will be rejected as there will be insufficient time to process the List 4 transfer and undertake FTRS applicant sift and interview.

(2) Applications will be presented at the next available EOS and List 4 Transfer Board. Successful applicants will be notified by the NAVY PEOPLE-CM RES CPO that their application is conditional on being offered the ADC role applied for. Unsuccessful applicants may re-apply for EOS with List 4 Transfer if they apply for a subsequent FTRS post, however, their existing MR commission/ engagement termination remains extant unless successful at both list transfer and being offered the FTRS role.

(3) EOS with List 4 Transfer applications for ADC advertisements that commence prior to their termination date, must be made no later than 8 weeks prior to their last date in service.

(4) If successful at interview, the FTRS Cell will notify NAVY PEOPLE-CM RES CPO who will action the List 4 transfer and align the applicant's commission/engagement end-date with the FTRS end-date. This will be no longer than 24-months and will be reflected in the applicant's ADC TACOS. Transfer on to List 4 will only be effective from original termination date and personnel transferred to List 4 will remain subject to the extant conditions for this List.

[3] Only one List 4 application can be submitted at any one time and a separate List-4 application is required for each ADC role.

SECTION 2

TERMS AND CONDITIONS OF SERVICE

10304. Rank and Promotion

a. Rank/Rate on appointment will be as appropriate to the complement position or as determined for the commitment.

b. Substantive promotion/advancement beyond the rank/rate established for the position will not be offered. Exceptionally, a Reservist may serve in an acting or local higher or lower rank/rate than they hold in their respective Reserve Force, however, according to the requirements of the service. Those serving in a lower rank will be required to wear the uniform of the lower rank and will be paid accordingly.

c. A period of ADC will count towards advancement/promotion in the RNR/RMR; any qualifications gained during ADC will, if appropriate, also be considered.

d. A member of the RNR/RMR who transfers back to the RFR may return on an ADC in the rank/rate gained whilst serving in the RNR/RMR if it is higher than that originally held in the RFR.

10305. Pay

The daily rates of pay for Reservists serving on an ADC will be published on the annual AFPRB Directed Letter.

a. The appropriate amount of daily pay will be calculated as follows:

(1) For a period of duty from 8 hours up to 24 hours inclusive, whether wholly in 1 day or partly in another, 1 day's pay will be issued.

(2) For a period of at least 2 hours but less than 4, ¼ day's pay will be issued.

(3) For a period of 4 hours or more but less than 6, ½ day's pay will be issued.

(4) For a period of 6 hours or more but less than 8, ¾ day's pay will be issued.

b. **Additional Pay.** Additional pay will be paid in accordance with the regulations in force for the Reserve Forces.

c. Payment will be made on the first working day of each month. Individuals are to submit the specific JPA Form to their UPO/RSU for element entry action prior to the Attendance Based Pay cut off point each month. The form should contain the number of days worked from the submission date of the previous month up to the number of days worked up to the day before the submission date of the current month. All pay is made in arrears.

10306. Allowances

Allowances and charges for ADC are in accordance with current Service Regulations.

10307. Pension

Full details of attributable pension and the effects of ADC on Ex-Regular Preserved Pensions, Resettlement Grants, Special Capital Payments or Compensation Lump Sums are available from the Defence Business Services (DBS) Organisation.

10308. Maternity/Paternity/Adoption Benefits

Entitlement to maternity/paternity/adoption benefits for a Reservist serving on an ADC will be in accordance with current Service regulations.

10309. Training Bounty

Volunteer Reservists undertaking an ADC can qualify for payment of the annual training bounty by satisfying their obligatory training commitment under RFA 96 s22/27 and any mandated requirements directed by CMRHQ. Periods of duty on an ADC are separate from, and cannot be counted towards, any Reserve Force training.

10310. Leave

a. Allocation of leave, including terminal leave is in accordance with JSP 760.

b. Where personnel are transferring from ADC to FTRS they are entitled to their accrued ADC terminal leave before commencing FTRS.

c. Leave cannot be carried forward between ADCs in different roles; nor can it be carried forward to an FTRS commitment iaw JSP 760.

10311. Discipline

a. **Liability under the Armed Forces Act 2006.** A Reservist will be subject to service law under Armed Forces Act 2006 on the dates specified in the ADC agreement, i.e. on the days they are required to attend or be available for duty and for which they will be paid.

b. **Commanding Officer.** While undertaking an ADC, a Reservist's CO will be the CO of the unit to which they are attached for the performance of the duties of the commitment.

10312. Training

a. **Pre-employment Training.** In addition to any annual refresher training, specific pre-employment training, as identified by a Branch or Trade Sponsor, is to be provided for a Reservist serving on an ADC so that they will be able to perform their primary duties safely and effectively. Known training requirements will be reflected in the ADC and will be booked by the employing unit.

b. **Resettlement Training.** A Reservist will not be entitled to Resettlement Training at the end of an ADC.

c. Personnel serving on ADC are, if required, to maintain currency in NCT. Personnel serving on ADC, unless they are a member of the Maritime Reserves, are exempt RNPES/BFT, in accordance with BRd 51(2) para 0202.

10313. Uniform and Equipment

Reservists will normally wear the uniform of, for RNR/RMR, the Rank/Rate they hold, or, for RFR, the Rank/Rate they held in Regular Service. If they accept ADC service in a lower Rank/Rate, they are to be paid as and wear the uniform of the lower rate/rank until completion of the FTRS commitment. Any additional items of uniform clothing will be issued as follows:

a. RFR Officers undertaking ADC will have their uniform made up to a minimum scale commensurate with the duties being undertaken.

b. RFR Ratings and Other Ranks will have their uniform made up to the minimum scale in accordance with BRd 3(1) Annex 39C, on the production of a signed commitment. This additional kit will be issued from the nearest suitable Service Establishment.

c. RNR/RMR kit scales will be brought up to the level which will be required for the duties to be undertaken. This additional kit will be issued from the nearest suitable Service Establishment.

10314. Medical Fitness

a. To ensure that a Reservist is medically fit to undertake the role tied to their ADC, it is essential that a Medical Certificate supplied prior to the start of an ADC and the JMES is commensurate with the role being undertaken.

b. Medical standards for ADC are iaw BR3(2) Chapter 19. Medical Certificates are to be forwarded to the FTRS Cell prior to the commencement of the ADC. This is to be carried out by a Medical Officer at a Service Medical Centre. The following regulations apply:

(1) It is the responsibility of the Employing Unit to ensure that this procedure is carried out and that a copy of the completed Medical Certificate is sent to the FTRS Cell.

(2) A fresh Medical Certificate is required for every new period of ADC.

(3) In order to assess an individual's fitness for employment, the examining Medical Officer is to be provided with a Job Description/Terms of Reference (ToR) relating to the ADC role. Should the Reservist be considered medically fit to undertake the ADC Commitment, but in a temporarily reduced medical category, the Medical Officer should annotate this fact on the medical certificate, together with an estimated duration of medical downgrading. On completion of the JMES assessment, the paperwork is to be forwarded to the FTRS Cell who, in consultation with CM RES SO1, will make the final decision on whether to approve an ADC.

(4) It is the responsibility of the Reservist to inform their Employer of any change to their medical fitness that could affect their ability to undertake their ADC roles and responsibilities. Where necessary, a Reservist is to ensure the Service has access to Civilian Medical records. If the Reservist refuses to give access to civilian medical records, the ADC is to be terminated immediately.

10315. Medical and Dental Care

ADC personnel should remain registered with their local civilian medical and dental practitioners. They will, however, be entitled to receive emergency medical and dental treatment from Service sources. When they are required to undergo medical treatment by virtue of their Service duties (e.g. inoculations prior to proceeding overseas), they are entitled to such treatment from Service sources or receive reimbursement from Service Funds for treatment received from their Medical Practitioner.

10316. Sickness or Other Absence

a. If a Reservist is absent from work through injury, sickness or for any other reason, they are to inform their CO on the first day of absence, wherever possible, of the cause and likely duration of their absence. Any unauthorised absence for a period of seven consecutive calendar days is to be explained in writing.

b. If a Reservist is absent for more than seven consecutive calendar days because of sickness or injury, they are to provide their CO with a doctor's medical certificate. An individual may be required to be examined by a Service Medical Officer. Provided that this procedure is observed, a Reservist will be entitled to sick absence with pay, in respect of the days on which they would normally have worked, for the duration of the commitment. If the required procedure is not followed, or if abuse of the sick absence with pay arrangement is suspected, the MOD may withhold the Reservist's pay for the relevant period and may institute disciplinary action.

10317. Medical Discharge from the Service

If a Reservist serving on ADC becomes permanently medically unfit for service, they will be discharged from the Service iaw BRd 3(2) para 1909.b. A Reservist who, in the opinion of a Medical Officer, is likely to recover from their injury or illness so that they may resume Reserve Service is to continue to be borne on their ADC pay and allowances up to the day on which they would normally have completed their ADC.

10318. Electoral Registration

Reservists serving on an ADC in the UK are not eligible to register as Service Voters. They are, however, entitled to proxy or postal votes in the same way as other civilian electors. ADC personnel serving overseas may register to vote as an overseas elector (the Representation of the Peoples Act 2000 refers). Personnel should contact their Local Electoral Officer prior to posting overseas.

10319. Jury Service

A Reservist serving on an ADC has no right to be excused from Jury Service. A Reservist might be excused, however, in cases where the obligation to attend court would conflict with an operationally essential period of duty or training.

10320. Annual Reports

a. RFR Reservists undertaking ADC will be subject to the same reporting procedures and timings as Regular personnel. They should be reported on with regard to their potential for further Service, with recommendations for promotion.

b. RNR/RMR Reservists undertaking ADC should have insert slips forwarded annually to their RNR/RMR unit in order that promotion reports may be raised for individuals using the same procedures as Regular personnel.

10321. Welfare Support

Reservists serving on an ADC are eligible to receive an appropriate level of welfare support through RNRMW. Although recommendations for compassionate drafts will not be appropriate, welfare investigations may be required to support recommendations for compassionate leave or early termination of a commitment.

10322. Electoral Candidature

The restrictions which apply to members of the Regular Forces, set out in BRd 2 Chapter 66, also apply to Reservists serving on ADC.

a. No member of the Reserve Forces serving on ADC may be either a declared, prospective or elected member of a Local Authority, a National Assembly, the House of Commons, the European Parliament or any other Legislative Assembly.

b. A Reservist who wishes to stand for election must apply to the FTRS Cell through their Commanding Officer to terminate their ADC.

c. An unsuccessful candidate will have no right to resume their ADC.

10323. Conflicts of Interest - Declaration of Outside Interests

BRd 2 Chapter 86 and The MOD conflicts of interest policy sets out what MOD requires of Crown Servants when their outside business and other private, charitable and commercial activities may conflict with their official duties. COMMARRES is to approve all Declaration Forms for MRs and DDPD is to approve Declaration Forms for RFRs on ADC.

CHAPTER 104

CALL-OUT OF RN RESERVE FORCES (MARITIME RESERVES AND ROYAL FLEET RESERVES)

(Sponsor: NAVY PEOPLE-PSP EMP POL RESSO1)

CONTENTS

Para
10401. Introduction
10402. Trawl Process

CHAPTER 104

CALL-OUT OF RN RESERVE FORCES (MARITIME RESERVES AND ROYAL FLEET RESERVES)

10401. Introduction

With the introduction of centralised parameters for the harmonisation of FTRS Commitment Types (CT) for the Reserve Forces, personnel serving on **FTRS Full Commitment** will be liable to short notice trawls to augment defence activity no different than Regular Service personnel. This may but is not limited to, augmentation[1], exercises and operational tours and it does not need to be related to the primary FTRS role[2]. Reservists serving on FTRS Limited Commitment, Home Commitment or ADC will not be liable for trawls but will be mobilised if required.

10402. Trawl Process

a. To fill MR enduring positions, operationally essential billets, or participate in Defence or Navy mandated and emerging tasks, Reservists must be available for mobilisation. All workforce requirements for Reservists are subject to robust control and scrutiny by CMR FGEN on receipt of a fully endorsed requirement by People Ops or 2* Workforce Requirement Change Committee (WRCC) personnel.

b. Once the demand signal has been received, FGEN will liaise with MR Capability Areas and conduct digital searches on SCIO or Foundry to identify SQEP individuals[3]. The list of potential candidates will also be scrutinised to identify those serving on FTRS or ADC.

c. Personnel Support Requests (PSRs) will be issued by FGEN and be required to be completed by the FTRS/ADC Line Managers of the trawl candidates, the e-mail request will be copied to the chain of command and, if not originated by them, the appropriate 2* Directorate WRCC. The PSR is an opportunity for the individual and Employing unit to provide clear and unambiguous personal and professional impact statements if that individual were to be selected. It is also an opportunity for the individual to record if they are a volunteer for the trawl.[4]

[1] Augmentation is an element of Force Generation and is the temporary re-deployment of individuals, within liability driving positions (regular, reserve or civilian), to wherever they are needed to meet directed operational Military Tasks, Exercises and Events that cannot be achieved within peacetime establishments.
[2] The nature of the trawl will determine whether FTRS FC TACOS is the most appropriate mechanism as location, nature, threat level, protection of the Reservist and benefits package must align with any Regular personnel they will serve alongside. In some cases, mobilisation may be more appropriate. If disputed, NAVY People-SCL RES ADJ SO2 will act as the Adjudicator.
[3] The SQEP requirement might be as broad as a rank range or branch, or as narrow as a single rank/rate with specific competences. Most requirements (e.g. experience in a particular area) are not yet searchable and will require liaison with Capability Areas whilst also meeting the Intelligent selection process detailed in JSP 753 Chapter 3.
[4] An individual volunteering for a trawl does not mean they will definitely be nominated: the unit impact might be too severe, or there may be more than one volunteer.

d. Once PSRs are returned to People Ops, NAVY PEOPLE-OPS HEAD will act as the independent arbiter on behalf of 2SL to assess whether the role on FTRS or ADC takes priority over the tasking required. The following decisions are possible:

(1) **The Reservist will be Identified and Nominated for the Task.** FGEN and Employing Unit will be notified. For Reservists serving on FTRS LC/HC or ADC a compulsory Call out Notice will be issued by the Mobilisation Officer for the Reservist to be brought into permanent service.

(2) **The FTRS/ADC Role is Considered is Higher Priority.** FGEN and Employing Unit will be notified, and the Reservist stood down from Call Out.

(3) **The Trawl Does Not Provide any Acceptable Solutions.** FGEN will either re-trawl or issue a Force Generation Failure sent in reply to the original request.

CHAPTER 105

RESERVES ENGINEER BRANCH – DIRECT, EX-REGULAR AND MARITIME CADETS' ENTRANTS (RESERVES) – MARINE AND WEAPON ENGINEERS ONLY

10501. General

a. This chapter covers the specific career regulations for the direct entry of already qualified civilian engineering technicians and engineers into the RNR Engineer Branch (Direct Entrant (DE) or Maritime Cadets (MC)) and the entry of ex-RN regulars (seamless and non-seamless entry). The recruitment of direct entrants and maritime cadets into the RNREB is specifically designed to support the Whole Force by Design and allow the Maritime Reserves to recruit directly from the large cadre of UK industry qualified technicians and from the Defence Sector.

b. Once recruited, direct entry technicians and maritime cadets with civilian engineering qualifications will have a technical career path to WO1 RNR. Promotion will be based on the achievement of civilian qualifications which equate to the engineering administration, and leadership and management requirements of the equivalent rank and rate within the RN Engineering cadre[1] and will be dealt with on a case-by-case basis. Ex-RN Regulars[2] also have a technical career path to WO1 RNR. Promotion will be based on Career Qualification Courses and professional competences gained during their regular service or on the achievement of civilian qualifications which equate to the engineering administration, and leadership and management requirements of the equivalent rate within the RN Engineering cadre[3]. Divisional Officers are to ensure that a copy of this Chapter, along with Annex 105A is placed in the PDR of every Engineer Technician (Res) Specialist in their Division.

c. The instructions in this section do not override the ability of ex-regulars to join the RNREB via Project FIREFLY in the rank or rate that they held when leaving the RN.

d. All technicians in the RNREB have access to a non-technical career path that enables promotion to WO1 ET(RES) to meet wider RNR executive roles.

10502. Direct Entry, Ex-Regular RN and Transfer from Another Reserves Branch - Entry into the RNR Engineer Branch as a Probationary LET (DE)(Res) or LET(MC)(Res)

a. Ex-Regular RN technicians who join the RNREB or transfer from another Reserves branch will continue to do so under existing arrangements of seamless transfer or extant branch transfer regulations.

b. In order to join the RNREB as a Direct Entry Technician probationary LET(DE)(Res) or LET(MC)(Res)the following eligibility criteria need to be met:

(1) Be aged 18-40.

(2) Be recommended by parent RNR Unit CO (if seeking a transfer).

[1] Further promotion may also be achieved through branch transfer, including to Regular Service, or promotion to officer.
[2] Additionally, ex-Regulars may be offered a RNREB role at a lower rank/rate if there is an overbearing at their current rank/rate.
[3] Further promotion may also be achieved through branch transfer, including to Regular Service, or promotion to officer.

(3) Pass a written and oral Level 3 technical scenario examination board (convened as required) by the RNREB.

(4) Hold a Level 3 or 4 qualification (A Level or HNC equivalent) in an engineering discipline that is accredited by a UK Engineering Institute.

(5) Be currently accredited with a UK Engineering Institution at or above level 3 (registered Engineering Technician).

(6) Have a minimum of 2 years of practical employment experience in an engineering related position in the 5 years prior to RNREB entry.

(7) Hold Level 2 qualifications in English and Maths[4].

(8) Complete RNR INT.

c. After successful completion of RNR INT Phase 1 Training (both within local Unit and Confirmation Course at HMS RALEIGH), candidates will join the RNREB as a probationary LET. Promotion eligibility, timings and the award of professional and technical competences will be in accordance with Annex 105A.

10503. RNR Engineer Branch Specialisation Selection

The specialisation selection (ME or WE) of direct entrant RNREB technicians is self-selecting in that it can be aligned to specific detail of their civilian qualifications. This will be determined during the written and oral Level 3 technical scenario examination board that is convened by the RNREB. The recruitment of direct entry technicians into the RNREB is for ME and WE specialisations only.

10504. RNR Engineer Branch – Career Progression, Exemptions and Employment

a. Career progression for ratings in the Engineer Technician (Res) specialisation is detailed in Annex 105A. Those technicians who are recruited and/or promoted based upon their civilian technical qualifications, and who have no prior qualified technical employment experience in the RN will be employed in line with their civilian experience and the engineering experience they gain through the MR across the range of EB activities. They may be employed in a non-technical context at their associated rate.

b. Those RNREB technicians who are ex-Regulars and achieved GTS will be employed in the rate for which they hold the relevant RN career qualifications course (QC) and professional competencies. They will normally be recruited by the FIREFLY process but can join via the CNR recruitment mechanisms if it has been more than 3 years since they left the RN. When an ex-Regular RNREB technician achieves further promotion based upon civilian technical training and education (i.e. an ex-Regular LET promoted to RNREB POET(DE)(Res)) then their employment and training within the RNREB will be limited to an appropriate EB activity, ensureing they receive adequate supervision and management. They will not be available to substitute for an equivalent regular technician nor be employed as a singleton within a regular RN employment context.

[4] Or Scottish Equivalent (Level 5 qualification in the Scottish Credit and Qualifications Framework (SCQF).

10505. RNR Engineer Branch - Confirmation as LET(DE)(Res) ot LET(MC)(Res)

To be confirmed LET(DE)(Res) or LET(MC)(Res) all criteria must be met as detailed in BRd 3(1) Annex 105A para 2.

10506. Failure to be Confirmed as an LET Within Four Years of Entry to RNREB

Should a probationary LET(DE)(Res) or LET(MC)(Res) fail to be confirmed as an LET(DE)(Res) or LET(MC)(Res) within four years of joining they are to be reverted to source branch, branch transfer or be discharged. Exceptional circumstances that prevent confirmation should be referred to the RNR Branch Manager for a training extension.

10507. Appraisal Reports and Promotion

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' for ‘1 Rank Up' on SJAR by 2RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board.

c. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as 'developing' at the annual reporting stage.

10508. Engineer Technician (Res) Specialisation – Promotion Flowchart

A detailed promotion flow for the Engineer Technician (Res) specialisation is at Annex 105A. It allows for career progression from:

a. Prob-LET(DE)(Res) to WO2 ET(DE)(Res) for Direct Entry Technicians.

b. Prob-LET(MC)(Res) to WO2 ET(MC)(Res) for Maritime Cadets.

c. Ex-RN ETs to WO2 ET(Res).

d. WO2 ET(Res), WO2 ET(DE)(Res) or WO2 ET(MC)(Res) to WO1 (Res).

10509. Award of Engineering PQC Badge

a. On completion of HMS RALEIGH and INT the direct entry technician or Maritime Cadet candidate will be paid as an LET, rated probationary LET, wear white flashes with their uniform rank epaulettes and on their number 1 uniform.

b. They will be allocated to the Engineering Branch and wear the appropriate ME or WE engineer badges as determined by their Level 3 engineering qualification and performance at their written and oral Level 3 technical scenario examination board convened by the RNREB (see Annex 105A sub para 2f)).

c. Once all criteria for confirmation as a LET have been met and the candidate has been advanced to LET they will remove the white flashes from their uniform.

10510. Direct Entry, Ex-Regular RN and Transfer from Another Reserves Branch – Entry into the RNR Engineer Branch as a SLt RNR

a. Ex-Regular RN Engineer Officers who join the RNREB or transfer from another Reserves branch will continue to do so under existing arrangements of seamless transfer or extant branch transfer regulations.

b. To join the RNREB as a SLt RNR, the following eligibility criteria need to be met:

(1) Be aged 18-40.

(2) Be recommended by parent RNR Unit CO (if seeking a transfer).

(3) Engineering Council Accredited Degree or on a professional pathway to IEng or CEng (or equivalents as laid down in the PEI registration DIN).

(4) Employment in a company either in the maritime field or in equipment used by the RN[9] and involved in engineering project management in some scope.

10511. RNR Engineer Branch – Career Progression, Exemptions and Employment (Engineer Officer)

a. Career progression for officers is detailed in Annex 105B.

b. Those RNREB officers who are ex-Regulars and achieved GTS will be employed in the rank for which they hold the relevant RN career qualifications course (QC) and professional competencies. They will normally be recruited by the FIREFLY process but can join via the CNR recruitment mechanisms if it has been more than 2 years since they left the RN.

10512. Failure to be Confirmed as a Lt RNR Within Four Years of Entry to RNREB

Should a SLt RNR fail to be confirmed as a Lt RNR within four years of joining they are to be reverted to source branch, branch transfer, or be discharged. Exceptional circumstances that prevent confirmation should be referred to the RNR Branch Manager for a training extension.

10513. Appraisal Reports and Promotion (Engineer Officer)

a. **Appraisal Reports.** Appraisal reports are required to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually.

b. **OJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' for ‘1 Rank Up' on OJAR by 2RO) in the last OJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an OJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Officers may be deemed as 'developing' at the annual reporting stage.

10514. Direct Entry Engineer Officer – Promotion Flowchart

A detailed promotion flow for the Direct Entry Engineer Officer is at Annex 105B. It allows for career progression from:

a. SLt RNR to Cdr for Direct Entry Engineer Officers.

b. Lt RNR to Cdr for ex-Regular Engineer Officers.

ANNEX 105A

RNR ENGINEER TECHNICIAN SPECIALISATION – PROMOTION FLOWCHART

ADVANCEMENT to LEADING ENGINEER TECHNICIAN (Res)

1. Selection criteria for ex-regular ET (OR2)

a. Have achieved at least 6 months sea service whilst in the regular RN (If not entry to the MR will be through the DET scheme).

b. Undertake a Level 3 Assessment Technical Scenario Examination Board (TSEB) and awarded **Professional| Qualified for FSU MARRES LET(ME)(Res)|Navy|** or awarded **Professional| Qualified for FSU MARRES LET(WE) (Res)|Navy|** as recorded on JPA.

c. Accredited as an Eng Tech (or above) with a recognised PEI.

d. Attend RNREB training exercises and/or deliver FSU MARRES OC (as promulgated by RNREB) within an RNREB collective and supervised engineering support OCO activities environment.

e. Recommended on latest appraisal report for selection to LET.

f. Attend pre-Leading Rates' Leadership Course Weekend (RNLA 202 RNR) if LRLC not held.

g. LRLC RNR completed or LRLC and recorded as JPA competence **Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|.**

h. CPQ authorised by Head of the RNREB and recoded as JPA competence **Reserves|Qualified for Promotion to LH|Navy**.

i. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

2. Selection criteria for Direct Entry Technician (DET) and Maritime Cadet (MC)

To be confirmed as an LET(DE)(Res) or LET(MC)(Res) from Probationary LET the following must be achieved:

a. Complete Embarked Forces Sea Survival Course.

b. Attend CBRNDC Acquaint (CBRNDC 29).

c. Completion of LET(DE)(Res) Career Development Journal (CDJ) and the JPA competence **Professional|Completion of LET(DE)(Res) CDJ|** recorded.

d. Attend RNREB training exercises and/or deliver FSU MARRES OC (as promulgated by RNREB) within an RNREB collective and supervised engineering support OCO activities environment.

e. Recommended on latest appraisal report for confirmation as LET.

f. Pass a written and oral Level 3 Reserves FSU MARRES technical scenario examination board convened by the RNREB focussed on the individual's RNR experience and Naval knowledge. Awarded **Professional| Qualified for FSU MARRES LET(ME)(Res)|Navy|** or awarded **Professional| Qualified for FSU MARRES LET(WE) (Res)|Navy|** as recorded on JPA

g. Attend pre-Leading Rates' Leadership Course Weekend (RNLA 202 RNR).

h. LRLC RNR completed and recorded as JPA competence **Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|.**

i. CPQ authorised by Head of the RNREB and recorded as JPA competence **Reserves|Qualified for Promotion to LH|Navy.**

j. At least 6 months since last Career Check (if any) on CPD or promotion date due if later.

ADVANCEMENT to PETTY OFFICER ENGINEER TECHNICIAN (Res)

3. Selection criteria for an ex-regular LET or RNR LET (OR4)

a. Completed at least 3 months operational deployment either at sea or ashore in a complement engineering billet or have undertaken a cumulation of at least 6 months of employment in a front-line RN unit (naval base or vessel).

b. Achieve and be currently accredited with a UK Engineering Institution at or above Eng Tech.

c. Serving on ES2/ES3 that expires after the nominated CPD.

d. Recommended for promotion on latest SJAR at CRD (Para 10507).

e. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded and competence recorded on JPA **Professional|Qualified for FSU MARRES PO ET(ME) (Res)|Navy|** or **Professional|Qualified for FSU MARRES PO ET(WE) (Res)|Navy|.**

f. Attend SRLC RNR recorded as JPA competence **Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|.**

g. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

h. CPQ authorised by Head of the RNREB and recorded as competence **Reserves|Qualified for Promotion to PO|Navy**.

i. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

4. Selection criteria for LET(DE)(Res)

a. Hold a Level 4 qualification (HNC equivalent) in an engineering discipline that is accredited by a UK engineering institute.

b. Achieve and be currently accredited with a UK Engineering Institution at or above Eng Tech.

c. Have a minimum of 2 years of practical employment experience with an associated level 4 engineering qualification in an engineering related position in the previous 5 years.

d. Demonstrate supervisory experience including responsibility for line managing a minimum of 2 subordinate civilian technicians.

e. Completed PO(DE)(Res) Career Development Journal (CDJ) and recorded by DET PPM.

f. Serving on ES2/ES3 that expires after the nominated CPD.

g. Recommended for promotion on latest SJAR at CRD (Para 10507).

h. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded and competence recorded on JPA **Professional|Qualified for FSU MARRES PO ET(ME) (Res)|Navy|** or **Professional|Qualified for FSU MARRES PO ET(WE) (Res)|Navy|.**

i. Attend SRLC RNR recorded as JPA competence **Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|.**

j. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

k. CPQ authorised by Head of the RNREB and recorded as competence **Reserves|Qualified for Promotion to PO|Navy**.

l. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

5. Selection criteria for LET(MC)(Res)

a. Have completed a Level 5/Reg III/1 (unlimited power Engineering Officer of the Watch (EOOW) Certificate of Competency through a nautical college with the requisite sea time[1] in the Merchant Navy.

b. Or has completed an industry recognised CISCO Certified Network Associate with the requisite professional placements.

c. Have completed RNR Phase 1 Ratings Training.

d. Serving on ES2/ES3 that expires after the nominated CPD.

e. Recommended for promotion on latest SJAR at CRD (Para 10507).

f. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded and competence recorded on JPA **Professional|Qualified for FSU MARRES PO ET(ME) (Res)|Navy|** or **Professional|Qualified for FSU MARRES PO ET(WE) (Res)|Navy|.**

g. Attend SRLC RES recorded as JPA competence **Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|.**

h. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

i. CPQ authorised by Head of the RNREB and recorded as competence **Reserves|Qualified for Promotion to PO|Navy**.

j. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

ADVANCEMENT to CHIEF PETTY OFFICER ENGINEER TECHNICIAN (Res)

6. Selection criteria for an ex-regular POET or RNR POET (OR6)

a. Be confirmed as POET (ME or WE).

b. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB**.** Awarded JPA competence **Professional| Qualified for FSU MARRES CPO ET(ME) (Res)|Navy| or Professional| Qualified for FSU MARRES CPO ET(WE) (Res)|Navy|**.

c. Or have completed CPOET (ME) or WE Qualifying Course (QC) during regular service. Awarded JPA competence of **ME|CPOET (MEGS) QC: ME155|Navy|** or **WE|CPOET(WE) Career Course (WE 320)|Navy|**

[1] This is a requisite part of the nautical training system and achieves MCA requirements being greater than the RN equivalent.

d. Achieve and be currently accredited with a UK Engineering Institution at or above Eng Tech.

e. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

f. CPQ authorised by Head of the RNREB and recorded as JPA competence **Reserves|Qualified for Promotion to CPO|Navy**.

g. Serving on ES2 or ES3 that expires after the CPD.

h. Recommended for promotion on latest SJAR at CRD.

i. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

7. Selection criteria for POET(DE)(Res)

a. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded JPA competence **Professional| Qualified for FSU MARRES CPO ET(ME) (Res)|Navy|** or **Professional| Qualified for FSU MARRES CPO ET(WE) (Res)|Navy|.**

b. Have a minimum of 2 years of practical employment experience with an associated engineering or management qualification above level 4 in an engineering related position in the previous 5 years and demonstrate supervisory experience including responsibility for line managing a minimum of 5 subordinate civilian technicians.

c. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

d. CPQ authorised by Head of the RNREB and recorded as JPA competence **Reserves|Qualified for Promotion to CPO|Navy.**

e. Serving on ES2 or ES3 that expires after the CPD.

f. Recommended for promotion on latest SJAR at CRD.

g. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

8. Selection criteria for POET(MC)(Res)

a. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded JPA competence **Professional| Qualified for FSU MARRES CPO ET(ME) (Res)|Navy|** or **Professional| Qualified for FSU MARRES CPO ET(WE) (Res)|Navy|.**

b. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

c. CPQ authorised by Head of the RNREB and recorded as JPA competence **Reserves|Qualified for Promotion to CPO|Navy.**

d. Serving on ES2 or ES3 that expires after the CPD.

e. Recommended for promotion on latest SJAR at CRD.

f. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

ADVANCEMENT to WARRANT OFFICER (2nd CLASS) ENGINEER TECHNICIAN (Res)

9. Selection criteria for ex-regular CPOET or RNR CPOET (OR7)

a. Be confirmed as a CPOET (ME or WE).

b. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded JPA competence **Professional| Qualified for FSU MARRES ~~CP~~ WO2 ET(ME)(Res)|Navy|** or **awarded Professional| Qualified for FSU MARRES CP WO2 ET(WE)(Res)|Navy|.**

c. Or have completed WOET (ME) or (WE) Qualifying Course (QC) during regular Service. Awarded **Professional|Marine Engineer Warrant Officer Charge Qualification (WOCQ(ME))|Navy** or **WE|WO Qualifying Course (WE 535)|Navy|'.**

d. Achieve and be currently accredited with a UK Engineering Institution at or above I Eng.

e. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

f. CPQ authorised by Head of the RNREB and recoded as JPA competence **Reserves|Qualified for Promotion to WO2|Navy**.

g. Serving on ES2 or ES3 that expires after the CPD.

h. Recommended for promotion on latest SJAR at CRD.

i. At least 6 months since last Career Check (if any) on CPD or promotion due date (if later).

j. EFP in accordance with BRd 3(1) Para 9634(5).

10. Selection criteria for CPOET(DE)(Res)

a. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded **Professional| Qualified for FSU MARRES WO2 ET(ME) (Res)|Navy|** or **Professional| Qualified for FSU MARRES WO2 ET(WE) (Res)|Navy|**.

b. Have a minimum of 2 years of practical employment experience with an associated level 6, or above engineering or management qualification in an engineering related position in the previous 5 years and demonstrate supervisory experience including responsibility for line managing a minimum of 15 subordinate civilian technicians.

c. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

d. CPQ authorised by Head of the RNREB and recoded as competence **Reserves|Qualified for Promotion to WO2|Navy**.

e. Serving on ES2 or ES3 that expires after the CPD.

f. Recommended for promotion on Appraisal Report at CRD.

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. EFP in accordance with BRd 3(1) Para 9634(5).

11. Selection criteria for CPOET(MC)(Res)

a. Pass a written and oral (Level 4 technical) Reserves FSU MARRES technical scenario examination board convened by the RNREB. Awarded **Professional| Qualified for FSU MARRES WO2 ET(ME) (Res)|Navy|** or **Professional| Qualified for FSU MARRES WO2 ET(WE) (Res)|Navy|**.

b. Have a minimum of 2 years of practical employment experience with an associated level 6, or above engineering or management qualification in an engineering related position in the previous 5 years and demonstrate supervisory experience including responsibility for line managing a minimum of 15 subordinate civilian technicians.

c. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

d. CPQ authorised by Head of the RNREB and recoded as competence **Reserves|Qualified for Promotion to WO2|Navy**.

e. Serving on ES2 or ES3 that expires after the CPD.

f. Recommended for promotion on Appraisal Report at CRD.

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. EFP in accordance with BRd 3(1) Para 9634(5).

ADVANCEMENT to WARRANT OFFICER (1st CLASS) ENGINEER TECHNICIAN (Res)

12. Selection criteria for ex-regular WO2ET, RNR WO2ET, WO2ET(DE)(Res) and WO2ET(MC)(Res) – all OR8

a. Be confirmed WO2ET.

b. Attend exercises and deliver OC (as promulgated by RNREB) within a collective and supervised engineering support OCO activity.

c. Promotion to WO1 is by recommendation and selection only. Employment for all Maritime Reserve WO1 roles is directed by the Branch Manager

d. All successful candidates will undertake the **Warrant Officers Staff Course (WOSC) – RNLA 111 | Navy|.**

ANNEX105B

RNR EB ENGINEER OFFICER - PROMOTION FLOWCHART

Ranked

SLt RNR

1. Confirmation Criteria

To be confirmed as a Lt RNR the following must be achieved:

a. IEng or CEng (or equivalents as laid down in the PEI registration DIN).

b. 3 years as SLt.

c. Completion of RNREB Maritime EQ.

d. Pass JOLC 1.

e. Pass JOLC 2.

f. Pass DOs Course.

g. Recommended on latest appraisal report for confirmation as Lt RNR.

h. Or ex RN Engineering Branch Lieutenant.

i. In date PES or in possession of a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS).

Eligible for promotion to

Lt RNR

2. Lt Cdr RNR Pre-selection Requirements

To be eligible to be selected as a Lt Cdr RNR the following must be achieved:

a. Charge Board either regular Service ME, AE or WE Charge Board (GS or SM) or the RNR EB Maritime Charge Board.

b. IEng or CEng (or equivalents as laid down in the PEI registration DIN).

c. Undertaken at least 3 months operational deployment either to sea or ashore in an engineering billet[1].

d. Or undertaken at least six months of employment in a front-line naval unit (naval base or vessel)[2].

[1] This could include a ship earlier in one's career, an operational deployment as a Lieutenant in the MR to either a role at sea or a forward deployed unit such as Bahrain or the Falkland Islands, or a succession of fortnight exercises.
[2] This could have been completed earlier in an officer's career, or by multiple shorter periods.

e. Recommended on latest appraisal report for confirmation as Lt Cdr RNR.

f. Or ex RN Engineering Branch Lieutenant Cdr.

g. In date PES or in possession of a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS).

Eligible for promotion to

Lt Cdr RNR

3. Cdr RNR Pre-selection Requirements

To be eligible to be selected as a Cdr RNR the following must be achieved:

a. At least 12 weeks engineering activity with the RN as a Lieutenant Commander.

b. Completed either ACSC(MR) or ACSC.

c. Recommended on latest appraisal report for confirmation as Cdr RNR.

d. Or ex RN Engineering Branch Commander.

e. In date PES or in possession of a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS).

Eligible for promotion to

Cdr RNR

CHAPTER 151

UNIVERSITY ROYAL NAVAL UNITS

SECTION 1

INTRODUCTION

15101. University Service Units

University Service Units (USUs) is the collective term used by the Ministry of Defence (MoD) for the Royal Navy's (RN's) University Royal Naval Units (URNUs), the British Army's Universities Officer Training Corps (UOTC) and the Royal Air Force's Universities Air Squadrons (UAS). The USUs aim to provide leadership development, military experience and adventurous activity to students in treachery education. USUs normally come under the direction the Command which is responsible for officer training within their respective service, either being part of or administered by the Reserve Forces. The students recruited into the USUs have no call-up liability or war role.

a. The URNUs come under the authority of Director People & Training (Dir P&T), who delegates Command of the URNUs to Captain Britannia Royal Naval College (Capt BRNC), DARTMOUTH. Dir P&T specifically retains the following functions:

(1) Definition of the URNU Mission Statement.

(2) Overall disposition of the URNUs.

(3) Composition and choice of sites and leasing arrangement for the URNUs.

(4) Personnel matter including remuneration, conditions of service and the Unit Establishment Lists.

(5) Uniform requirements.

b. Dir P&T delegates the budgets for the URNUs to Commander Universities (Cdr U) as the budget holder.

15102. Universities Department

The Universities Department is part of BRNC, DARTMOUTH, headquartered within the College. The department is divided into two sub-departments, the University Royal Naval Units (URNUs), which operates the URNUs and the Sponsored Undergraduates (SUs), which administers the RN's degree schemes including Medical Cadetships, University Cadet Entry (UCE), RN Defence STEM Undergraduate Scheme (DSUS), in service degree schemes, scholarships and legacy bursaries (SU regulations are found in BRd 3(1) Ch 17).

15103. University Royal Naval Units Sub-Department

The URNU sub department consists of the URNU Headquarters (URNU HQ), the URNUs and the URNU National Training Centre (URNU NTC). The URNU HQ is responsible for the operation of the 16 physical and one virtual URNUs spread across the United Kingdom (UK). Each of the 17 URNUs is a subordinate-unit (sub-unit) of BRNC, with the 16 physical URNUs being lodger unit of another MoD establishment. URNU Virtual is operated by the permanent staff of another URNU.

15103. Royal Naval Reserve List 7

Royal Naval Reserve (RNR) List 7 is designated for volunteers in the URNU and sponsored personnel on the RN DSUS (see para 15158). Personnel are place on List 7 for administrative purposed only (including remuneration) and have no call-up liability or war roll. This is unique to the needs of URNU and RN DSUS personnel.

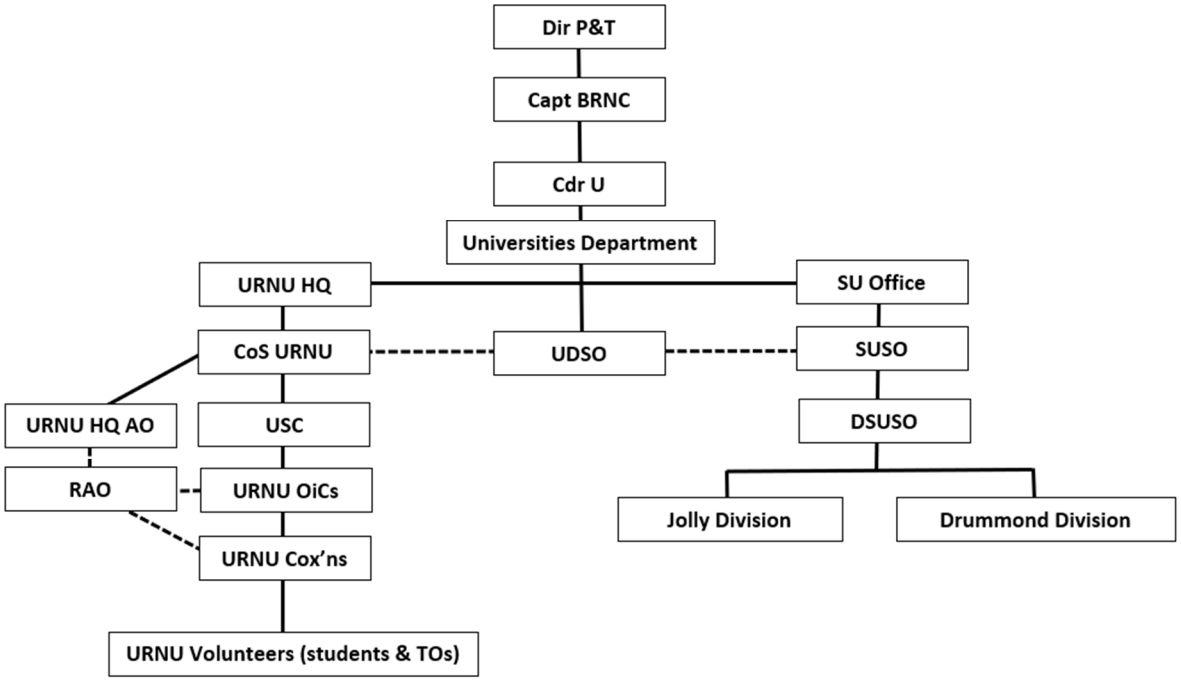
List 7 is sub-divided as follow:

a. **List 7A.** Volunteers, appointed as Honorary Officers in the URNU Training Cadre to support the operation of the URNUs[1].

b. **List 7B.** Students, in treachery education, who volunteer in the URNU.

c. **List 7C.** Students who are on the RN DSUS.

Figure 151-1. Universities Department Structure Chart



[1] They are 'Remunerated Volunteers' with a similar status to the Cadet Force Adult Volunteers (CFAV) of the MoD-sponsored Cadet Forces.

SECTION 2

COMMAND

15105. Commanding Officer

The Capt BRNC, DARTMOUTH is the Commanding Officer (CO) of the URNUs. As CO of the URNUs Capt BRNC delegates specific operational, administrative and Command functions for the URNUs, these delegations are detailed in a BRNC Captain's Temporary Memoranda (CTM), which is reissued on change of delegations or on Supersession of Command.

a. Capt BRNC retains specific responsibility for:

(1) Definition of the training syllabus and associated documentation.

(2) Promulgation of orders and assurance of standards in the URNUs.

(3) Liaison with university authorities and Military Education Committees (MECs). Hosting of the Council of Military Education Committees, Annual General Meeting (triennial rotation with the Army and RAF).

(4) Responsibility to Dir P&T for legal advice and disciplinary matters for RN and RNR List 7 personnel volunteering in the URNUs.

b. Capt BRNC is the Second Reporting Officer (2RO) for all OF3 Officers-in-Charge (OiC), Chief of Staff URNU and Third Reporting Officer (3RO) for all OF2 OiC and the University Staff Coxswain as required.

15106. Commander Universities

Cdr U is the Head of Department (HoD) for the Universities Department and is responsible to Capt BRNC for the management and operation of the Universities Department, including the URNUs and URNU NTC. Cdr U is the 1RO for all OF3 OiC and CoS URNU, 2RO for all OF2 OiCs and 3RO for all Cox'ns as required.

15107. Officers-in-Charge

Each URNU is led by an OiC who is normally a senior OF2, on occasion an OF3, from the RN or Royal Marines (RM). The OiC is responsible to Cdr U and Capt BRNC for the leadership, management and routine operation of the specific URNU to which they are assigned, in extremis an individual may be assigned as OiC for multiple units. Capt BRNC will delegate specific operational, administrative and Command functions to the OiC, such delegations are detailed in a BRNC CTM (see para 15105).

15108. Coxswains (Second-in-Charge)

Each URNU has a Coxswain (Cox'n) who is Second-in-Charge (2iC) of the unit. The Cox'n will normally be an experienced OR7, they are engaged as Full Time Reserve Service (Full Commitment) (FTRS(FC)). They are responsible to the OiC for the Executive function and internal management of the URNU to which they are assigned. In extremis a Cox'n may be assigned as 2iC for another unit.

SECTION 3

UNIVERSITY ROYAL NAVAL UNITS SUB-DEPARTMENT

15109. Chief of Staff University Royal Naval Units

The Chief of Staff University Royal Naval Units (CoS URNU) is the head of the URNU sub-department and responsible to Cdr U and Capt BRNC for the executive management and routine operation of the sub-department, including URNU HQ, the URNUs, the URNU NTC and deputising for Cdr U as required. CoS URNU has functional authority over all URNU personnel, including permanent staff, civil servants and volunteers (students and Training Officers (TOs)). CoS URNU is 1RO for all OF2 OiCs and the University Staff Coxswain, the 2RO for all Cox'ns and the 3RO for all TOs as required.

15110. University Staff Coxswain

The University Staff Coxswain (USC) is responsible to CoS URNU for the effective internal management and routine operation of URNU HQ and the URNUs. USC has functional authority over all unit 2iCs, civil servants and volunteers (students and TOs), deputising for CoS URNU as required and providing the equivalent of the Executive Warrant Officer (EWO) function for the URNU sub-department.

15111. University Royal Naval Units Administration Officer

The University Royal Naval Units Administration Officer (URNU AO) is a civil servant in URNU HQ who supports the URNU sub-department. They are the subject matter expert (SME) for the sub-department in all areas of administration, including the full range of digital administration services, policy expertise in the logistics and administrative function and responsibility for the secretarial function of URNU HQ. The URNU AO will routinely consult with regional and unit staff to support best practice across the sub-department in administrative matter especially pay, allowances and digital services.

15112. Regional Administration Officers

There are eight Regional Administration Officers (RAOs), they are spread across the UK with each RAO working out of an URNU, normally this is the unit geographically closest to the RAO's place of residence. RAOs will cover multiple URNUs based on the regional model used by the URNU which mirrors the Naval Regional Command (NRC) construct.

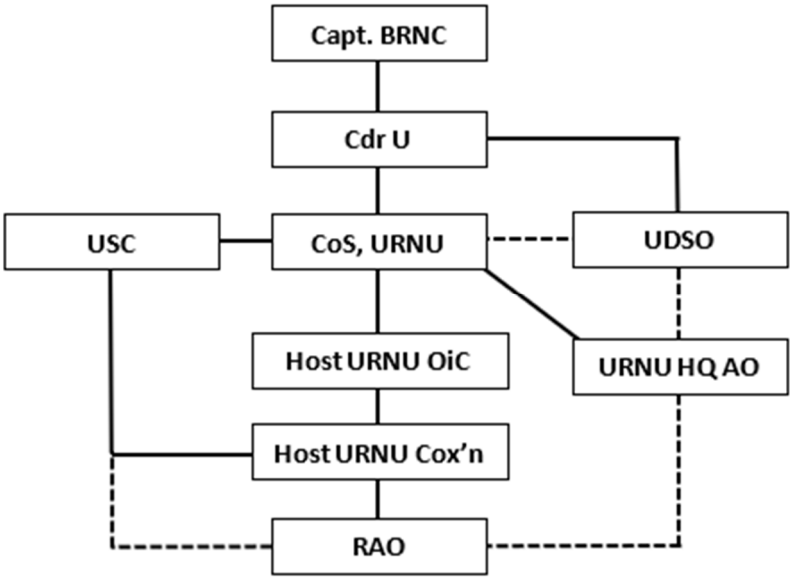
a. Each RAO is accountable to the Cox'ns of the units they are assigned to with the host unit's permanent staff acting as the RAO's Functional and Line Manager. The RAO will conduct the administration of the units they are assigned to. They will support both individual units and wider regional business, pursuant in supporting the effective operation of the URNU sub-department, under the direction of URNU HQ.

b. RAOs have functional authority over all volunteers in the URNU in the conduct of their duties.

15113. Universities Department Support Officer

The Universities Department Support Officer (UDSO) is a civil servant in the Universities Department who works across both the URNU and SU sub-departments. The UDSO is primarily the budget manager for the Universities Department budgets. The UDSO is also the electronic procurement card (ePC) manager and Motor Transport Officer (MTO) for the URNU. They also support the department as the SME for civil service line management and policy, being the senior civil servant in the department.

Figure 151-2. URNU Administrative Structure Chart



SECTION 4

NATIONAL LAYDOWN

15114. University Royal Naval Units

The URNUs are independent sub-units of BRNC, DARTMOUTH, there are 16 physical units and one virtual. These 16 units are lodger units of other MoD establishments, the virtual unit is administered by the permanent staff of a physical URNU. Below are listed the URNUs and their locations.

URNU	Date Established	Location
Belfast	2021	HMS Hibernia, Lisburn
Birmingham	1994	HMS FORWARD, Birmingham
Bristol	1986	HMS FLYING FOX, Bristol
Cambridge	1994	Army Reserve Centre, Cambridge
Devon	2016	HMS VIVID, Devonport
East Midlands	2021	HMS SHERWOOD, Nottingham
East Scotland (nee Aberdeen)	1967	Hepburn House, Edinburgh
Glasgow	1972	95 University Place, Glasgow
Liverpool	1972	HMS EAGLET, Liverpool
London	1985	HMS PRESIDENT, London
Manchester	1986	University Barracks, Manchester
Northumbria	1994	HMS CALLIOPE, Gateshead
Oxford	1994	Falklands House, Oxford
Solent (Southampton & Sussex 1972)	2021	HMS KING ALFRED, Portsmouth
Virtual	2021	Online
Wales	1994	HMS CAMBRIA, Cardiff
Yorkshire	1994	Carlton Barracks, Leeds

15115. National Training Centre

The URNU NTC is based at the Army Reserve Centre, Coldhams Lane, Cambridge, sharing facilities with URNU Cambridge. The NTC is the sub-department's Royal Yachting Association (RYA) training centre, operated by a civil servant who is the Executive Officer (EO) of the NTC. OiC URNU Cambridge is responsible for overseeing the NTC and is both the Functional and Line Manager for the EO. EO NTC is responsible to URNU HQ for the delivery of RYA accredited training, routinely to URNU volunteers (students and TOs) and on an ad hoc basis to service personnel.

15116. Regional Construct

The URNUs are divided regionally in line with the NRCs, each URNU region is administered by a Regional Chief of Staff (RCoS). The URNUs are divide as below:

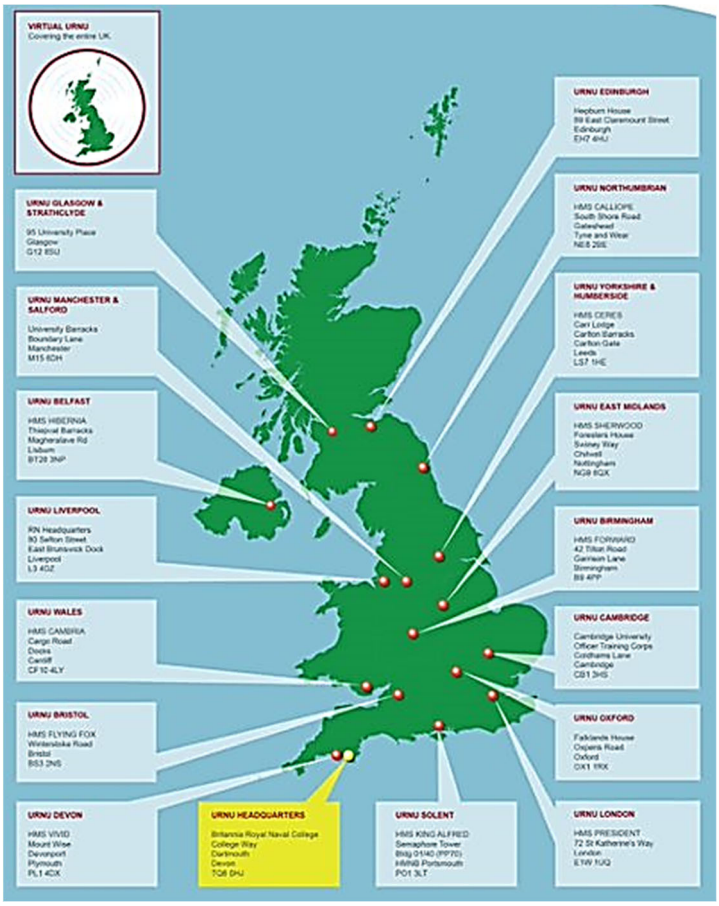
a. Scotland & Northern Ireland – Belfast, East Scotland, Glasgow

b. Northern England – Liverpool, Manchester, Northumbria, Yorkshire

c. Eastern England – Cambridge, East Midlands, London, Oxford, Solent

d. Wales & Western England – Birmingham, Bristol, Devon, Wales

Figure 151-3. URNU Locations



15117. Regional Chiefs of Staff

Each region is administered by one of the OiCs of an URNU within the region, normally this is the longest standing OiC in the region, they are referred to as Regional Chief of Staff (RCoS). The RCoS is responsible to Cdr U and CoS URNU for the administration and delivery of activity within the region, providing regional support to whole URNU events and maintaining liaison between the URNUs within the region and the NRC. The RCoS must maintain two-way communications between URNU HQ and the URNUs within their region, collating and submitting the monthly Personnel, Equipment, Training and Sustainability (PETS) return to URNU HQ.

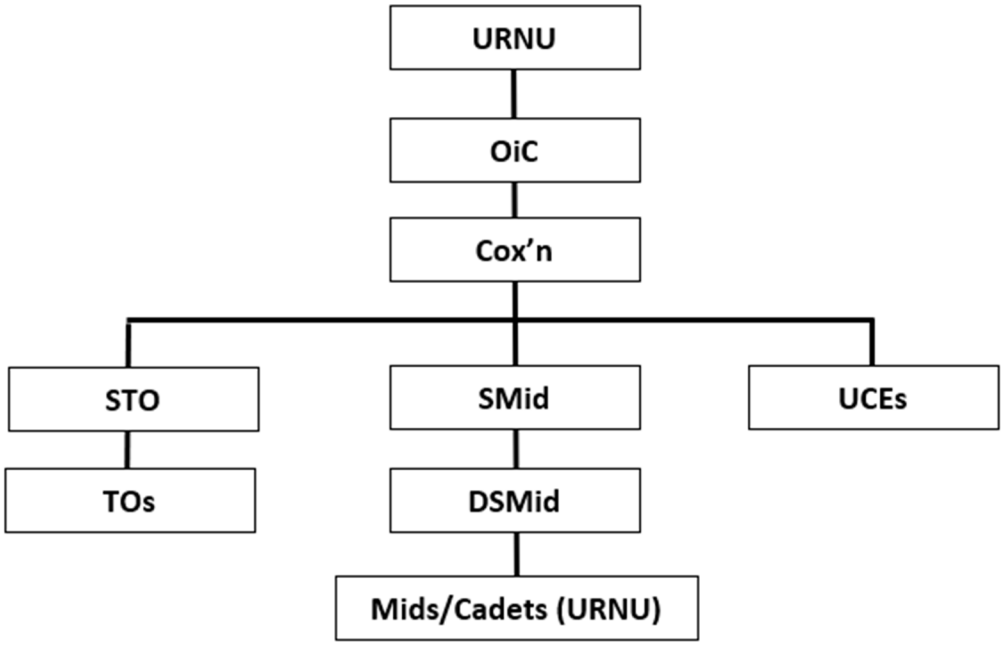
SECTION 5

UNIT MANAGEMENT

15118. Unit Structure

Each unit has two permanent staff, a regular serving OF2 or OF3 and an FTRS(FC) OR7 who administer and direct the routine operations of the unit. Each unit is funded for a maximum of 59 volunteers (students and TOs), normally made up of 51 students and four TOs, units may have up to eight TOs with approval from URNU HQ. TOs are recruited to deliver instruction and training to students and affiliated personnel across the URNU. There may also be several affiliated sponsored personnel who are administered by the SU Office.

Figure 151-4. URNU Locations



15119. Officer-in-Charge

The OiC is responsible to Cdr U and Capt BRNC for the leadership, management and routine operation of the unit. They have authority over all volunteers (students and TOs) of their unit and functional authority over all RNR List 7 personnel in the course of their duties or as the Duty OiC for an exercise or evolution. They are the 1RO and Divisional Officer (DO) for the Cox'n and 2RO for all TOs in the unit.

15120. Coxswain (Second-in-Charge)

The Cox'n is responsible to the OiC for the Executive function and internal management of the unit. They have authority over all volunteers (students and TOs) of their URNU and functional authority over all RNR List 7 personnel in the course of their duties or as Directing Staff for an exercise or evolution. They are the 1RO and DO for all TOs in the unit.

15121. Senior Training Officer

The Senior Training Officer (STO) is an experienced TO who will normally have achieved promotion to the honorary rank of Lieutenant (University Royal Naval Unit) (Lt (URNU)). The position is routinely advertised when vacant, with any suitably qualified TO being able to apply for the position. The STO is responsible to the OiC to plan the annual training programme and coordinate training delivery within the unit, the STO will also continue to deliver training. They have functional authority over all volunteers (students and TOs) in the course of their duties. They will be interviewed by a board of the OiC, Cox'n and a member of URNU HQ staff.

15122. Senior Midshipman

The Senior Midshipman (SMid) or Senior Second Lieutenant (SSLt) is the senior student, they must have achieved promotion to the honorary rank of Midshipman (University Royal Naval Unit) (Mid (URNU)) or Second Lieutenant (University Royal Naval Unit) (2Lt (URNU). They are responsible to the OiC and Cox'n for the leadership and good order of the students in the unit, acting as the conduit between the students and the permanent staff and TOs. They have functional authority over all students in the unit, in the course of their duties. The SMid/SSLt will be selected annually by the OiC, advised by the Cox'n and STO.

15123. Deputy Senior Midshipman

The Deputy Senior Midshipman (DSMid) or Deputy Senior Second Lieutenant (DSSLt) is the deputy to the senior student, they must have achieved promotion to the honorary rank of Mid (URNU) or 2Lt (URNU). They are responsible to the OiC and Cox'n for supporting the SMid/SSLt in their duties and deputising for them as required. They have functional authority over all students of the unit, excluding the SMid/SSLt, in the course of their duties. The DSMid/DSSLt will be selected annually by the OiC, advised by the Cox'n and STO.

15124. Gunroom Mess Committee

The Gunroom Mess Committee is a student led organisation, providing the management and direction of the mess and use of its non-public funds. BR 2 and BR 18 contain RN policies on messes and the control of non-public funds.

a. **President.** The President of the Gunroom Mess shall be the student appointed as SMid/SSLt. The DSMid/DSSLt will be the Vice-President and shall act for the president in their absence.

b. **Mess Committee.** Each mess is to be regulated by a Mess Committee comprising the Mess President as Chair and at least three elected mess members, if necessary, committee members can hold multiple committee positions. The Cox'n as mess treasurer is added to the committee in an advisory capacity. The committee will be dissolved annually, normally in the summer academic term, with hustings and elections taking place prior to the academic year ending. If the mess should fail to elect representatives to the committee, the OiC, Cox'n and STO shall replace the elected element of the committee and shall be responsible for the proper management of the mess. The mess committee should comprise the following positions:

(1) President of the Gunroom Mess (Chair)

(2) Vice-President of the Gunroom Mess

(3) Secretary (secondary responsibility of another position)

(4) Adventurous Training & Sports Officer

(5) Bar Officer

(6) Charities Secretary

(7) Enterprises Officer

(8) New Entry Representative

(9) Social Secretary

(10) Mess Treasure (advisory capacity)

c. **Responsibilities**. The internal economy of each mess is to be conducted by the committee, but all irregularities are to be checked by the president or, in their absence, the Cox'n and if necessary are to be reported to the OiC.

15125. Gunroom Mess

The Gunroom Mess operates similarly to a Wardroom in the RN or an Officers' Mess in the RM, with the mess being supported by non-public money subscribed from the mess members. All volunteers (students and TOs) are expected to be mess members, the OiC and Cox'n must not be members of the mess, if they wish to benefit from the mess's facilities and functions, they must subscribe without membership or vote. Due to URNUs being lodger units of other establishments the mess may not have a dedicated bar, will often have no dedicated messing facilities and may have no dedicated compartment or area of the establishment.

15126. Unit Standing Orders

Each OiC may issue Unit Standing Orders covering matters specific to their unit, these orders may outline the facilities the unit has access to as a lodger unit, the unit's relationship with the Head of Establishment or any other matters which are specific to the operation of that unit. Such orders must comply with this chapter of BR 3 and direction disseminated annually from URNU HQ in the form of UTMs until inclusion in the URNU Chapter of BRNC SGOs

15127. Weekly Orders

The permanent staff of each unit must produce a set of Weekly Orders. These should be similar to Daily Orders produced for a ship or establishment, covering each seven-day period during the term time of the local universities', orders need not be produced during leave periods. These orders should provide details of all evolutions administered by or involving unit personnel, detailing duty personnel for the weekly Training Night or other activities and list notes of pertinent information to support the executive management and direction of the unit. Each evolution should be listed with timings, location (including attendees if needed) and the person responsible for the evolution. Weekly Orders should be supported with a Shortcast, Midcast and Longcast for the unit.

15128. Training Night Routine

Units should aim to run a minimum of eight Training Nights per academic term, with scope for additional evenings dependent on the length of the local universities' academic terms. Unit should aim to run two weekends of training a month, where possible. An outline of the routine for a Training Night is below.

a. 1230 – Permanent Staff turn-to

b. 1830 – Unit set up complete, Duty Watch muster

c. 1845 – Divisions (inspection, training Colours if practicable)

d. 1900-1930 – Command Update Brief (CUB) and Shareholders

(1) CUB is for unit and military updates (e.g. meteorology, military/civil news, Shortcast, SMid/DSMid, TO/STO and OiC/Cox'n updates)

(2) Shareholders is for Mess Committee updates

e. 1930-2015 – First lesson

f. 2015-2100 – Second lesson

g. 2100 – Bar opened

h. 2230 – Last orders

i. 2300 – Bar closed

j. NLT2330 – All personnel clear of the unit

15129. Regional Support Units

There are four Regional Support Units (RSUs) across the UK, aligned and collocated with the four NRC Headquarters. The RSUs provide support to the RNR, RMR and URNUs. The RSUs will provide support to URNUs in three areas; Personnel Administration, Supply Chain (Naval Stores) support and Assurance (see para 15132). Detailed guidance on RSU support will be released in a Commander Maritime Reserves (CMR) Administration Instruction. Additional support from the RSUs can be requested by Cdr U from CMR SO1 Policy.

15130. Assurance

Unit level assurance is provided internally by the Cox'n and OiC (see para 15131), externally by the RSUs (see para 15129 and para 15132) and by an annual assurance inspection by URNU HQ staff. The assurance inspection will be an in-person inspection of the unit conducted over a one or two day period. A UTM detailing the routine for an assurance inspection will be issued annually by CoS URNU on behalf of Cdr U.

15131. Periodic Books

A list of mandated unit level period books, including the periodicity of inspection and review will be published annually in a UTM. This UTM will also provide guidance on compilation of these books and standard formatting.

15132. Compliance Management Tool

The Compliance Management Tool (CMT) is used to provide unit level assurance of the logistics function. Individual units are responsible for their Tier 1 and Tier 2 checking, as they understand the composition of their own units and the information is easily to hand. RSU OiCs are to provide support and oversight to individual units in their region. RSU OiCs will meet with individual units OiCs termly to provide an assurance check, record findings and make recommendations. The external assurance compliance check undertaken by the Tier 3 authority, will ensure that URNUs are Compliant based on the RSU OiC's termly assurance check.

a. CMT Tier 1 – Unit Cox'n

b. CMT Tier 2 – Unit CO

c. Termly assurance check – RSU OiC

d. CMT Tier 3 (Annual RSU Fleet Logistics Inspection) – Commander Logistics Naval Aviation, RNAS Yeovilton

15133. Warnings & Administrative Process

Volunteers (students and TOs), except for when embarked in one of His Majesty's Ships, are not subject to the Armed Forces Act 2006 (AFA 06) due to being civilian volunteers and not service personnel. Although not subject to AFA 06 all URNU volunteers should endeavour to comply with the Act and RN policies on values, professional standards and the code of conduct, as far as possible. The URNU does have a warnings and administrative process which applies to all volunteers in the URNU, BR 3(1) Ch 21 guides this process.

a. URNU HQ is to be informed immediately of any incidents likely to result in a complaint, media or general public interest.

b. If a volunteer has committed or been involved in a criminal offence the OiC must be made aware at the earliest opportunity. They must notify URNU HQ as soon as practicable and together decide on the need for Service Police involvement.

c. In cases of minor misconduct, the OiC of the unit has the discretion to use administrative action to rectify the behaviour of an individual. This is achieved via the warning system, however if as a result of serious misconduct, it is considered inappropriate for the volunteer to continue to be associated with the URNU then the OiC of the unit must seek advice from URNU HQ at the earliest opportunity.

d. There are three tiers of warning; Tier One is delivered by the Cox'n, Tier Two is delivered by the OiC and Tier Three is delivered by Cdr U. The warnings system is not progressive, and a volunteer may be placed on the tier of warning commensurate with their failing. Normally a volunteer will be placed on a Tier Three warning prior to termination of their membership of the URNU. Warnings must include areas for improvement written as SMART objectives. Standard warning proformas may be obtained from URNU HQ.

e. **Professional Warnings.** Students do not currently undertake any formal courses or exams and due to the URNU syllabus not currently necessitating an assessment, are not liable to receive professional warnings. Professional warnings are applicable for TOs should they fail to complete a mandated course iaw the URNU chapter of BRNC SGOs. The aim of a professional warning is to:

(1) Identify subjects who are training risks so that they can be appropriately supported.

(2) Provide guidance to those who have failed professionally.

(3) Ensure that, should a subject reach a Tier Three professional warning and continue to fail professionally, the consequences are understood.

f. **Character and Leadership Warnings.** All volunteers can be placed on Character and Leadership (C&L) warnings. The following list is not exhaustive but demonstrates shortfalls that should incur the issue of a C&L warning.

(1) Wilful disobedience.

(2) Failure to follow a lawful order.

(3) Behaviour bringing the URNU, RN or RM into disrepute.

(4) Poor behaviour due to alcohol consumption or another factor.

(5) Being late or adrift from place of duty.

(6) Failure to comply with the Code of Conduct or upload the RN's Values and Standards.

(7) Poor kit presentation and turn-out.

g. **Record of Warnings.** Warnings, reviews and the removal from warnings are to be retained in a subject's Personal-File (P-File) for reference during their time in the URNU. They are to be retained on an appropriate digital system (e.g. SharePoint).

h. **Review.** For all warnings, a review date will be agreed depending on the shortfall and the period deemed fit for rectification of the shortfall.

i. **Consequences.** The following sanctions are to be considered when issuing a warning, this list is not exhaustive; the termination of the individual's membership of the URNU is the ultimate sanction that can be authorised by Cdr U.

(1) Alcohol ban in unit bar and at unit formal events.

(2) Exclusion from attending external activity, including sea training, until shortfalls are rectified.

(3) Additional duties in the unit, in order to demonstrate that the shortfall can be rectified.

(4) Deliver extra briefs to the Unit, usually related to the shortcoming detailed in the warning.

(5) Provide reasons in writing to self-analyse poor behaviours.

(6) Removal from Gunroom Mess Committee position.

(7) Removal from unit position of authority (e.g. STO, SMid/DSMid).

j. **Removal from Warning.** If the subject has met the required standard as specified in their warning proforma SMART objectives, then the appropriate Reviewing Officer may remove the subject from their warning by means of a formal letter.

15134. Welfare Support

Due to the constrains of the RN's welfare system regarding the URNU and the limited welfare training that the permanent staff and TOs receive they cannot provide any formal welfare support to the students, other than initially listening to their concerns. Students should be directed to the appropriate welfare services offered by the university they are studying at or the National Health Service (NHS). If the welfare issue stems from the individual's membership of the URNU the issue should be raised through the Chain-of-Command to URNU HQ and Cdr U if appropriate.

15135. Military Education Committee

The War Office established University Officers Training Corps (UOTC) as part of the Haldane Reforms of 1908, it was agreed that any university wishing to furnish an OTC must have a Committee of Military Education appointed by that university.

a. Military Education Committees (MECs) or committees with comparable functions but different names have extended their remit to include the oversight of the USUs of all three Services within their universities.

b. In September 1919, 'The Central Organisation of Military Education Committees of the Universities of the United Kingdom' was established following a conference of representatives drawn from the MECs. This organisation exists today as the Council of Military Education Committees (COMEC). The function of COMEC is to serve as a single point of contact to represent the views of MECs to the MoD and as a channel of information between the universities and the MoD.

c. Unit OiCs must maintain good communications with their fellow USUs and their local MEC. Generally, MECs will hold a termly meeting with representatives from the three USUs and academics who represent the various institutions which make up the specific MEC.

15136. Reserve Forces & Cadets Association

Reserve Forces and Cadets Associations (RFCAs) are Crown bodies in the UK which give advice and assistance to the Defence Council and the Armed Forces, on matters that concern reserves and cadets.

a. They are contracted by the MoD to provide services including management of the volunteer estate, employer support, cadets and youth and to establish and maintain links with the civilian community.

b. Established in 1908 (County Associations), they are today organised as 13 regional associations, comprising voluntary members and a small full-time secretariat.

c. Their governing body is the RFCA Council which coordinates their budgets and policies and is composed of the thirteen voluntary regional chairs. It has a professional chief executive for the council and there is one for each of the 13 regional RFCAs.

d. Unit OiCs must maintain good communications with their local RFCA. RFCAs will hold several meetings annually, one of which will be their AGM with representatives from the reserve forces, USUs, cadets and Armed Forces Covenant signatories.

15137. Affiliated Organisations

URNUs should look to maintain strong affiliations and provide support to a wide variety of organisation; civic, civilian, military, academic, charitable and youth. At minimum a unit should look to have formal affiliations: with the universities which make up the local MEC, the local Maritime Society & Sea Cadets; a Surface Ship, a Submarine and a Naval Air Squadron; the local UOTC and UAS; the local Ceremonial and Civic Mayors; local charities; and a Worshipful Company of the City of London or an Honourable Company of the City of Glasgow. All formal affiliations should be scoped by the OiC and Cox'n and formalised in a Letter of Affiliation (LoA) or MoU. URNU HQ can provide advice on affiliations, with requests to sign a LoA or enter an MoU being submitted to CoS URNU for approval by Cdr U.

SECTION 6

VOLUNTEERS (STUDENTS & TRAINING OFFICERS)

15138. Recruitment

Cdr U is responsible to Capt BRNC and Dir P&T for the management of the recruitment of volunteers into the URNU, with policy being disseminated from URNU HQ and aligned with regular and reserve recruitment for the RN and RNR (see BRd 3(1) Pt 4 and BRd 3(2) Ch 2). Specific guidance on volunteer (student and TO) recruitment, including timelines, will be disseminated annually from URNU HQ in the form of a UTM until inclusion in the URNU Chapter of BRNC SGOs.

a. **Students.** The main annual recruiting drive for students takes place during the universities' Freshers' Weeks in the autumn. Most universities hold re-freshers' events in the early new year and units with spaces are to consider this as means of achieving full strength. Through year expressions of interest and commencement of the recruitment process is permitted.

b. **Training Officers (TOs).** Recruitment of TOs is conducted throughout the year, units with available positions for TOs will advertises these, in consultation with URNU HQ, normally regionally and occasionally nationally. Through year expressions of interest will be considered by units if they have available TO positions.

15139. Entry Requirements

Due to the unique nature of the URNU there are specific entry requirements for volunteers, these are detailed below.

a. **Pass URNU Selection Board.** All volunteers must pass a selection board convened either locally, regionally or nationally as appropriate (see para 15140).

b. **Meet Nationality and Residency Requirements.** Current Service policy on the recruitment of foreign and Commonwealth citizens or subjects applies. Additionally, residency conditions must be met by all applicants including British Nationals.

c. **Medical Entry Standard.** Entry Medical must be conducted in accordance with current recruitment policy (see Sctn 8).

d. **Be at Least 18 Years of Age.** Individuals under 18 years of age are not eligible for URNU membership.

e. **Pass the Military Swimming Test.** A Military Swimming Test (MST) should ideally be conducted during New Entry Weekend. If a volunteers fail the MST the units must organise a resit, volunteers will have three attempts to pass the MST prior to termination of their membership of the URNU. All MST must be witnessed by a qualified and in-date Physical Training Instructor (PTI). Evidence must be provided to say when, where and by whom the MST was conducted when passed and must be recorded in the volunteer's P-File. Volunteers who have not passed the MST may not engage in waterborne activity as part of the URNU.

15140. Selection Boards

All selection boards should be a face-to-face interview within the unit; a question bank and interview guidance will disseminated out annually as a UTM from URNU HQ. The composition of selection boards is detailed below.

a. Selection boards for students are convened locally by the OiC of the unit, the selection board consists of; an OiC (Chair), a Cox'n and third member (STO, TO, UCE or in extremis a university academic or the SMid/SSLt).

b. Selection boards for TOs are convened by URNU HQ at the request of the OiC of the unit the TO is looking to join, the selection board consist of; USC (Chair) as the TO Career Manager, an OiC and CoS URNU (or a second OiC). The following is a list of individuals often recruited as TOs:

(1) Ex-Service Personnel

(2) Merchant Navy Officers (current or former serving)

(3) Ex-Mid (URNU) normally only considered after a minimum of 12 months post-student membership.

(4) Civilians with appropriate qualities, teaching skills, motivation and knowledge. These may include, but are not restricted to, individuals already known to local AFCOs but not recruited into the regular Service.

15141. Administration

All volunteers are administered by their unit's permanent staff and associated RAO, in-line with standing Service policy. Direction and guidance on the unique administration of volunteers is available from URNU HQ.

a. **Remuneration of RNR List 7 (URNU) Personnel.**

(1) The procedures for payment of RNR List 7 (URNU) personnel are listed in JSP 754 (Tri-Service Regulations for Remuneration and Charges) and JSP 752 (Tri-Service Regulations for Allowances).

(2) Strict control is to be exercised over expenditure associated with training days. The annual maximum allocation is to be regarded as a ceiling figure, neither a base line nor an entitlement.

(3) Volunteers are entitled to payment of travelling expenses in accordance with JSP 752.

(4) Volunteers may be paid a quarter of one day's remuneration for every drill night attended.

(5) Payment of volunteers will be via JPA and in accordance with rates promulgated annually by directed letter and the Armed Forces Remuneration Review Body. Students will join the remuneration table at OF Pre-Career where they will remain until they graduate.

(6) Volunteers may be paid up to the maximum training day allowance as promulgated by BRNC.

(7) Payment is monthly, in arrears, by BACS to nominated banks.

b. **Bounty.**

(1) JSP 754 Pt 2 03.0517 and 03.0530 refer.

(2) The annual minimum training commitment to qualify for the payment of bounty is 24 days for volunteers. Training is ideally to include 16 drill nights and at least one training weekend per term. Training records are to be maintained locally and recording of bounty authorisation is to be iaw extant Maritime Reserve (MR) regulations.

(3) There will be some activities not directly associated with formal training for which the permanent staff may authorise payment, but these will not necessarily count towards the qualification for bounty.

(4) Volunteers may be eligible for payment of bounty on fulfilment of the RNR List 7 training commitment. Notwithstanding the non-alignment of financial and academic years, the bounty for students is to be paid on successful completion of the academic year. Payment will be reflected in September remuneration statements. Payment for TOs' bounty will align with the financial year. Payment of proportional amounts of bounty earned during financial years is not authorised.

c. **Travel and Subsistence.**

(1) Travel and Subsistence will be approved for volunteers and booked by permanent staff. Service: accommodation, catering and, where available, transport should always be used where possible.

(2) Reserve personnel of other lists providing instructional and administrative assistance to URNUs may be authorised to count that time as Support Activity. All assistance is to be reported to the parent unit, which will action the appropriate pay input to JPA.

d. **Reporting Procedures.**

(1) Annual reports will be completed on the occasions required by current regulations at BRd 3(1) Ch 57.

(2) **Training Officer Reports.** Reports on TOs are to be completed on 31 May annually and on recommendation for promotion using the NSAR format. Additional reports are required on change of unit OiC and termination of membership, unless an annual report has been submitted within the preceding six months. Promotion recommendations are to be submitted to Cdr U with copies retained within the unit. The URNU HQ will maintain a database of all volunteers.

15142. Career

The specific career structure of volunteers (students and TOs) will be published by URNU HQ in a UTM and will be incorporated into the URNU Chapter of BRNC SGOs. The USC is the career manager for all TOs and is the point of contact for all TO career enquires.

a. In general students are recruited into the URNU for a three-year programme of training, fourth year membership may be awarded, with applications made to URNU HQ at least three months prior to the end of the academic year.

b. After successful completion of their probation period, normally six months to one year, TOs will initially volunteer with the URNU for five years at a time, with applications for extension made to URNU HQ at least six months prior to the end of the TO's initial volunteering period.

(1) Normal retirement age for TOs is 55 years, however annual extensions of service may be made up to the age of 60 or above at the discretion of Cdr U. In addition to being noted in annual reports, recommendations for extension of volunteering, for those on annual renewal, are to be submitted in writing by OiC to Cdr U no later than three months before a TO's current termination of membership date.

(2) A TO's termination of membership, including resignation and retirement, are to be supported by letter to Cdr U, via CoS URNU.

15143. Training

The training syllabuses and course content will be published by URNU HQ in a UTM and will be incorporated into the URNU Chapter of BRNC SGOs.

a. The annual maximum number of training days for volunteers (students and TOs) is subject to annual review. The TOs' annual allowance commences on 1 April whereas the students' commences on 1 September.

b. URNU HQ will direct the composition of the training syllabus for volunteers, both students and TOs, this will include detail of initial and career courses and promotion points for volunteers.

15144. Promotion

On successful completion of the recruitment process, including medical and selection board volunteers will be entered onto RNR List 7 holding honorary rank. Students will be accorded the dignity of being addressed as Mr/Ms *'Surname'*. TOs will be addressed in the same manner as Commissioned Officers of the equivalent rank, non-commissioned service personnel may address TOs as Mr/Ms *'Surname'* as they do not hold a Commission.

a. On entry to the URNU students will be referred to as New Entrants, holding the honorary rank of Cadet (URNU) (Cdt (URNU)) until they have completed the recruitment process and mandated training, including the new entry training syllabus for students. On completion of this training students will be referred to as Cdt (URNU). Students may promote to the honorary rank of Midshipman (URNU) (Mid (URNU)) once they have completed the training syllabus for students as directed by URNU HQ.

b. On entry to the URNU TOs will be referred to as Probationary TOs, holding the honorary rank of Acting Sub-Lieutenant (URNU) (A S/Lt (URNU)) until they have completed the mandated training, including the initial training course for TOs. On completion of this training, they will be confirmed in the honorary rank of Sub-Lieutenant (URNU) (S/Lt (URNU)) and will have the opportunity to promote to the honorary rank of Lieutenant (URNU) (Lt (URNU)) on completion of the career course for TOs. There is no promotion above Lt (URNU) for volunteers in the URNU, rank and seniority on entry to the URNU may take into account former service.

15145. Accelerated Officers Programme

Where a student member of an URNU applies to join the RNR Accelerated Officer Programme (AOP) they will, on successful completion of the Admiralty Interview Board (AIB)., join the RNR in the rank of substantive rank of Officer Cadet (OCdt) on List 1. They will be administered and paid by their RNR Unit but be seconded back, in their RNR rank, to their former URNU until the completion of their university studies with no obligation to attend their RNR Unit. Upon award of the URNU CoE, they will have been deemed to have achieved the requirements for Bounty at the List 1A rate. On completion of their studies their secondment to the URNU will end and they will fulfil their reserve commitment with their RNR unit.

15146. Service Entry

a. URNU members are to be advised of the opportunities available for service with the RN/RM or RNR/RMR and assisted with applications and preparation for the AIB. Permanent staff are to ensure all students are aware of the career opportunities available to them in the RNR during their time at university or after they leave the URNU. This will require liaison with the RNR/RMR unit COs to ensure the best route for entry is for the individual concerned.

b. **Annual Report of Recruiting**

(1) A report of recruiting activity of each unit to the regular or reserve service is to be maintained by CoS URNU on behalf of Cdr U and submitted as required in response to questions from external authorities.

(2) Each unit is to maintain a record of AIB applications and results. Such statistics should be included in reports to URNU HQ.

15147. Leaving

On leaving the URNU, either due to the end of their volunteering period or for any other reason, the volunteer will have their membership of the URNU terminated. If entering regular or reserve service, the volunteer's administrative details will be passed to their new unit via their URNU's permanent staff to ensure a smooth transition from volunteer to service person. If not entering regular or reserve service, the volunteer will remain a member of the URNU, administratively only, until such time as all payments, including bounty or back pay, have been completed (normally the end of September annually). Details relating to termination of membership due to misconduct is below.

a. If terminate the membership is required as a result of serious misconduct, or where it is considered that it would be inappropriate for the student to continue to be associated with the URNU organisation, the prior approval of Cdr U is to be sought. Cdr U is to inform Capt BRNC of the circumstances surrounding any resignation or termination of membership through misconduct. Cdr U's guidance is to be sought where necessary or in circumstances which are likely to result in complaint or media or general public interest. Where acceptance of resignation is deemed unsuitable and formal terminate of membership is appropriate, Cdr U is to make formal application to Capt BRNC. The OiC has no authority to terminate the membership of a volunteer except after prior approval via this route or on graduation.

b. On termination of membership an appropriate entry under the 'End Employment' field should be made on JPA. Form C437 is to be rendered to SPVA and copied to Cdr U. MOD Form 135 (Official Secrets Act and Confidentiality Declaration) is also to be completed and held at the unit and the RN ID (MoD Form 90) card returned.

SECTION 7

SPONSORED UNDERGRADUATES

15148. Sponsored Undergraduate Office

The SU sub-department is administered by the SU Office based at BRNC. The sub-department is led by the Sponsored Undergraduate Staff Officer (SUSO) supported by the Deputy Sponsored Undergraduate Staff Officer (DSUSO), the two Drummond Division Staff Officers (DDSO North and DDSO South), the Jolly Division Staff Officer (JDSO) and two civil servant administrators. The SU sub-department administers the RN's degree schemes including Medical Cadetships, UCE, RN DSUS, in service degree schemes, scholarships and legacy bursaries

15149. Drummond Division

Drummond Division administers the personnel on the RN's various sponsored engineering degree schemes (i.e. RN DSUS, UCEs). The division is led by the DDSO North and DDSO South who are responsible to the SUSO and DSUSO for the provision of divisional care and administration of the sponsored personnel divided across the UK, the division is divided North and South. RN DSUS personnel are uniformed civilians held on RNR List 7 for administration purposes only, with a similar status to that of URNU volunteers. All other Drummond Division personnel are normally post-Phase 1 service personnel on the untrained strength of the RN.

15150. Jolly Division

Jolly Division administers the personnel on the RN's medical cadetships. The division is led by the JDSO who is responsible to the SUSO and DSUSO for the provision of divisional care and administration of personnel on medical cadetships. Personnel on medical cadetships are classed as pre-Phase 1 service personnel on the untrained strength of the RN, they are Appointed Officers holding no Commission, in the substantive rank of Surgeon Sub-Lieutenant (Surg S/Lt) or Surgeon Sub-Lieutenant (Dental) (Surg S/Lt (D)).

15151. University Cadet Entry

Those on the UCE scheme complete Initial Naval Training (Officer) (INT(O)) before attending university and are Commissioned Officers who are substantive Midshipmen. They are regular service personnel who are on the untrained strength of the RN.

15152. Affiliation of Sponsored Personnel

All Sponsored Undergraduates (SUs) will be affiliated to the URNU which is geographically closest to the university they are studying at. Each category of SUs has a directed minimum attendance at the URNU to which they are affiliated.

a. UCEs are expected to attend all training nights, supporting the permanent staff in minor unit management and training delivery, as would be expected of any officers on the untrained strength in regular service.

b. DSUS students are funded for 45 RSDs remuneration, 20 of which are specifically put aside for training with the URNU. Should a DSUS student need to exceed the 20 RSDs allotted for training with the URNU the permanent staff of the unit to which they are affiliated must consult the SU Office for approval.

c. All SUs remain under the authority of the SU Office whilst away from BRNC, day-to-day management and functional authority for SUs is delegated to the units' permanent staff, particularly in URNU related matters. All matters relating to divisional care and administration for SUs should be directed to the SU Office for consultation and approval.

SECTION 8

MEDICAL ADMINISTRATION

15153. Introduction

All applicants to join the URNU (student or TO) must complete a full medical, as soon as practicable after successful interviewing. As of 1 October 2024, the medical process for the URNU is contracted under the New Recruitment Process (NRP) which is aligned with Recruitment and Attract (R&A) for the RN. URNU medicals will be processed at one of the three Candidate Preparation Centres (CPC). URNU applicants are assessed using the pre-entry standards laid out in JSP 950 Leaflet 6-7-7 and will be awarded a Joint Medical Employability Standard (JMES).

15154. Review

Unit permanent staff will administer and review the medical progression of applicants using RITS. This must include the date the applicant registers with RITS, creation of Pathfinder and all other significant information including appeal dates, delays or other administrative issues. Permanent staff will chase up applicants who have outstanding actions for the medical process. If an applicant does not complete all actions, without mitigation, relating to the medical process and RITS within one month of starting the process their recruitment into the URNU will be terminated. Any pertinent information causing a delay to the medical process should be reported to URNU HQ at the earliest opportunity. Feedback on the medical process to URNU HQ is vital for the continued improvement of the medical process for those joining the URNU.

15155. Caldicott Principles

The Updated Service Entry Medical Cell (SEMC) process has been created to remove any need for permanent staff to see and/or process medical information, thereby protecting the medical confidentiality of those joining the URNU. At no point should an applicant be asked to provide medical information to permanent staff, however they may provide information of their own volition. The Caldicott Principles (JSP 950, Vol 1, Ch2) must be read and signed by all permanent staff (including civil servants) on taking up an assignment or a job within the Universities Department or the URNUs. These principles safeguard the individual making a medical discourse and the member of permanent staff to whom it is disclosed.

15156. Initial Application

Creation of the RITS and Pathfinder accounts must be completed by the applicant themselves, permanent staff must not create accounts for or upload the information of applicant to RITS or Pathfinder.

The initial application process is listed below:

a. Permanent staff to e-mail out a RITS link to the applicant to create a RITS logon and subsequent Pathfinder account.

b. A Unique Reference Number (URN) is generated when the RITS account is created, the applicant and permanent staff should use this number in all future optical and medical correspondence.

c. Permanent staff will issue the applicant with a Royal Navy Medical Questionnaire (RNMQ), an eye test voucher and consent form via RITS, briefing them on the administrative process and expected timeline of the medical process.

d. Permanent staff must ensure that the applicant adhere to the URNU Pre-JMES Risk Matrix (Annex 151B) until they have attending CPC, completed the medical process and been awarded a JMES which meets the minimum standard required for membership of the URNU.

e. Any applicant who is awarded Medical-on-Hold (MoH) or Permanently Medically Unfit (PMU) status at CPC does not attend the URNU or engage in URNU activity until the medical process has been completed and the MoH resolved or PMU status successfully appealed and an appropriate JMES awarded. Should a suitable JMES not be awarded the applicant will have their applicant to join the URNU terminated.

f. Permanent staff must ensure that applicants regularly check RITS, comply with actions, requests and tasks. Permanent staff are to record and update the status of applicants as a competency on the University Administration System (UAS) or replacement system, using the below categories.

(1) Medical – Fit.

(2) Medical – TMU/Medical-on-Hold.

(3) Medical – PMU.

(4) Medical – Appeal.

(5) Medical – Submitted (RTIS account created).

(6) Medical – None.

g. All applicants must be made aware of the need to inform Command of any change in medical circumstance and sign a Notification to Command on the Change of Medical Circumstances (Annex 151C) as required.

h. A full RITS user guide has been produced to aid applicants and permanent staff through the administrative process of RITS and the CPC process to achieve a medical. A copy of this user guide can be obtained from URNU HQ.

i. An URNU Recruitment Medical Flowchart can be found at Annex D.

15157. Medical Categories

On completion of a face-to-face medical at CPC the applicant will receive an e-mailed clinical letter informing them of the result of their medical, this should be retained by the individual and should not be uploaded onto UAS or any other RN digital system. The outcome of an applicant's medical at CPC will be recorded on the applicant's RITS account and JPA if a JMES is awarded.

a. A JMES is an alphanumeric code reflecting an individual's fitness to be employed in the Air (A), Land (L) and Maritime (M) environments together with any additional specific Environment and Medical Support (E) considerations, Medical Limitations (MedLim)may also apply. Below is an example of how a JMES with MedLim will appear on JPA (MedLim 1206 – Unfit to work in confined spaces).

Date of Award	Date of Review	Permanency	MDS	MES	MedLim
10 Aug 16	10 Feb 17	TEMP	MLD	A4 L3 M4 E3	1206

b. The minimum JMES for volunteers is MLD A4|L4|M3|E4 for students and MND A4|L4|M2|E4 for TOs.

c. There are three outcomes from an applicant's medical at CPC these are listed below:

(1) **Pass/Fit.** Also known as Medically Fully Deployable (MFD). The applicant has met the standards set for both Regular and Reserve member of the RN. The Applicant can partake in all URNU activity, providing all other recruitment requirements are met. A JMES will be awarded and uploaded to JPA.

(2) **Medical-on-Hold (MoH).** This is a temporary holding category where the medical process has not been completed and further information is required either from the applicant or a medical specialist. No JMES is awarded.

(3) **Permanently Medically Unfit (PMU).** The applicant has not met the standard required to engage in URNU activity and is therefore unable to be a member of the URNU. Their application process will be terminated and no JMES will be awarded.

d. Applicants who are made MoH/PMU they are not permitted to attend an URNU or engage in any URNU activity, beyond that which is required to resolve their MoH or appeal the award of PMU.

15158. Appeals

An applicant who is made PMU during their medical may submit an appeal against the award, but only if they can provide additional clinical evidence to support a review of this decision.

a. Permanent staff will initiate the appeal process via RITS. Appeals are to be submitted directly to the SEMC appeals mailbox (NAVY RA-SEMC MAILBOX and NAVY RA-SEMC APPEALS MAILBOX), by a member of the permanent staff and will be reviewed by the Senior Medical Officer Service Entry (SMOSE) and SEMC appeals team.

b. SMOSE, an RN Occupational Health Consultant, has the flexibility to decide on an individual's suitability to volunteer for the URNU. Individuals are encouraged to gather as much medical evidence as possible to prove their case. This may be letters from General Practitioners (GP), specialists and/or consultants as well as prescription scripts or test results. An overarching cover letter is also required. The gathering of information, including any associated costs, is the responsibility of applicant. It is imperative that a thorough and detailed history is provided with appropriate mitigation to ensure an expedient SEMC review.

c. OiCs are encouraged to submit a Letter of Recommendation in support of any appeals, this should be submitted to the SEMC team via the applicant. This letter should primarily be used to shed light on the nature of URNU expectations and the individual's ability to fully participate, comments may be made on likely achievable medical standard and mitigations which might be put in place.

d. Should the appeal against PMU be successful the individual will be awarded a JMES and can fully engage in all URNU activity allowed against their JMES. Should the appeal be unsuccessful the applicant's recruitment process will be terminated, and they will be unable to join the URNU.

15159. Risk Assessment

a. As with any part of the MoD URNUs must hold risk assessments (RAs), generic and specific, which cover all routine and ad hoc activity within the URNU. In conjunction with an RA for each activity volunteers (student and TO) must sign a URNU Activity Participant Declaration Form (Annex 151E).

b. During the recruitment process and prior to the award of a JMES volunteers may undertake URNU activity in accordance with the URNU Pre-JMES Award Risk Matrix (Annex 151B). Applications for volunteers to undertake activities in the "Activity allowed pre-JMES award with Capt BRNC approval" part of this Risk Matrix should apply to URNU HQ for permission stating, the nature of the activity, number of pre-JMES personnel participating, a bespoke RA for the planned activity, medical plan and the personal accident insurance the individuals hold.

15160. Volunteers

Volunteers (students and TOs) will not be subject to repeat medicals throughout their membership in the URNU, as such they must sign the Notification to Command on the Change of Medical Circumstances (Annex 151C). This waiver should then be held in the volunteer's P-File for the remainder of their time with the URNU.

a. If a volunteer develops a medical condition or suffers an accident that temporarily prevents them from taking part in URNU activity, they can be retained with a temporary JMES. This may only be held whilst they recover.

b. A change in medical status will require consultation with SMOSE and is particularly important when upgrading volunteers post recovery from a medical condition or accident. SMOSE may require information from the TO's GP.

c. URNU HQ must be informed if a volunteers medical status changes and subsequently kept appraised of their recovery plan and upgrading of their JMES.

SECTION 9

UNIFORM AND INSIGNIA

15161. University Royal Naval Units Rank Insignia

URNU (RNR List 7) specific rank insignia for volunteers (students and TOs) is currently under review and will be added on approval. As Honorary Officers, all TOs must wear a gold ‘R’ in the executive curl and students must wear rank slides defaced with the letters ‘URNU’ in all orders of dress.

ANNEX 151A

URNU TRAINING CADRE VOLUNTEER AGREEMENT (AMENDMENT 1 DATED 23 MAY 24)

By signing this agreement, you will, as appropriate, accept, confirm and declare all the matters under this section.

You acknowledge your acceptance of University Royal Naval Units' values, rules and regulations.

This agreement supersedes and replaces any earlier agreement between myself and the MOD about my volunteering with the University Royal Naval Units' Training Cadre. By signing this agreement, I confirm that:

1. I accept that I am being enrolled as a volunteer with the URNU as a member of the Training Cadre from a date that will be notified to me by the University Royal Naval Units HQ at Britannia Royal Naval College (BRNC) Dartmouth. In engaging as a volunteer, I acknowledge that I am not a member of the Regular or Reserve Forces.

2. I acknowledge that my acceptance as a volunteer in the URNU is subject to my being awarded a full Security Clearance (SC) by UK Security Vetting, and my being awarded an assessment of at least Fit (URNU) with caveats by the RN's Senior Medical Officer Service Entry (SMOSE) following a pre-joining medical. I acknowledge that I may be taken into the organisation on risk prior to these being awarded and acknowledge that a failure to achieve both SC and the medical will lead to immediate termination of my membership and voiding of this volunteer agreement.

3. I understand and accept that the University Royal Naval Units are established to broaden naval understanding and develop students and that they follow the customs and ethos of the Royal Navy.

4. I agree to uphold the ethos, core values and standards, and code of conduct of the URNU and the Royal Navy as currently published or amended in the future.

5. I agree not to promote any beliefs, behaviours or practices that are not compatible with the core values and standards of the URNU or the Royal Navy.

6. I agree to comply with the policies, rules and regulations of the URNU and voluntarily undertake to comply with any lawful instruction given to me. Though I recognise that I am not subject to the Armed Forces Act (AFA) 2006, unless at sea in one of His Majesty's Ships, I will conduct myself in accordance with the provisions of the AFA at all times when volunteering.

7. I understand that if my conduct falls below and acceptable standard this volunteer agreement may be cancelled and my membership of the URNU Training Cadre terminated following an investigation by the URNU organisation. Lesser infractions may result on my being placed under warning for my character and leadership as specified in BRNC's University Department Standing Orders (UDSOs) Part 1.

8. I will complete the on-line learning course: Basic Care of Trainees (BCOT) within one month of signing this agreement providing me with basic guidance on the provision of Welfare and Duty of Care of vulnerable adults.

9. I accept and understand that it is the primary responsibility of ALL adults involved with the URNU to safeguard the moral, psychological and physical welfare of Cadets, regardless of their gender, religion, race, ability, disability, sexuality and social background, by protecting them from any form of physical, emotional and sexual abuse or neglect.

10. I will voluntarily undertake, under the direction and guidance of my superiors, to train cadets in accordance with a training programme authorised by the URNU and in accordance with the relevant regulations and instructions. I will also carry out administrative or other duties as detailed and as necessary. I fully understand my responsibilities for the safety and wellbeing of cadets.

11. I agree that for me to offer my services on a voluntary basis, I accept the requirement to undertake the appropriate learning / training within the timescale, as laid down by the URNU. Failure to complete the appropriate initial and continuation training to a satisfactory standard may result in the termination of this agreement.

12. I accept that my continued voluntary service with the URNU is conditional on my satisfactory performance and that I will be given an annual report assessing my performance in the role. In assessing my suitability for continued voluntary service, such factors as health, fitness, enthusiasm, attitude, qualification and competence will be taken into account.

13. I understand that as I am volunteering my services, there is no legal obligation on me to accept any voluntary activities, nor is there any legal obligation on the URNU to provide me with any voluntary activities.

14. In order to maintain currency and experience as a member of the URNU Training Cadre I will seek to complete a minimum of 24 days' volunteering each academic year. The URNU will endeavour to provide me with the opportunity to complete the 24 days and to facilitate times and places of my choosing, although this may not always be possible and alternatives may be offered. Achieving this commitment will entitle me to the award of a Certificate of Efficiency (CofE).

15. I confirm that if I persistently fail to turn up for activities without contacting the URNU in advance this agreement may be terminated in accordance with current or future amendments to the policies, rules and regulations of the URNU.

16. I will return any uniform and equipment loaned to me when my volunteering ends.

17. I agree that if I have any concerns during my volunteering with the URNU, I will report these immediately using the appropriate procedure as laid down in UDSOs Part 1 and other statutory and non-statutory publications.

18. I understand and accept that I am a volunteer offering my services on a voluntary basis which can be terminated by me at any time by notifying the University Royal Naval Unit HQ in writing.

19. I understand and accept that:

a. For those activities that are authorised by the URNU that I undertake voluntarily, I will receive a volunteer allowance[1].

b. I may additionally receive other payments to compensate me for other out-of-pocket expenses but that if I wish to receive such allowances I may need to apply for them personally.

c. The volunteer allowance that I receive will be based on the Main Officer OF-1 and OF-2 Pay Spines with Zero X-Factor[2].

d. I will receive a cash bounty for each year in which I achieve my volunteering commitment.

20. Any allowances or other payments which are approved, will be paid to me by bank account so I will ensure that any changes of bank account are notified to the Regional Support Unit (RSU) that provides N1 / N4 support to the URNU to which I am assigned.

21. I agree that I will inform URNU HQ / RSU when relevant of any significant changes to my personal circumstances that affect my continued suitability for volunteering with the URNU. Examples include issues that may affect my security clearance or my working with vulnerable adults; or an issue, including medical, that may cause an increased risk to myself or others while taking part in volunteer activities. This is to ensure that all those carrying out activities in the URNU can do so in a safe manner and to ensure all activity is suitably risk assessed. I understand that failure to declare any relevant matter in a timely manner may cause an increased risk to myself or others. I also agree to inform URNU HQ / RSU of changes that are important for administrative purposes such as change of name, permanent civilian address and next of kin.

[1] URNU Training Cadre Volunteers are not members of the Armed Forces Pension Scheme, nor eligible for the Armed Forces Compensation Scheme.
[2] The rates for the URNU Volunteer Allowance will be promulgated annually in the Armed Forces Pay Award Directed Letter.

22. I understand that as a member of the URNU Training Cadre I am a temporary officer held on List 7A of the Royal Naval Reserve for administrative purposes only.[3] My rank is therefore honorary[4] and I will not use my honorary rank or wear uniform except for activities approved by my URNU Commanding Officer. Any breach of this undertaking may lead to immediate termination of this volunteer agreement.

23. I understand and accept that I am engaged as a volunteer and that there is no intention on the side of either party that this agreement should create an employment relationship or employee or worker status, either now or at any time in the future.[5]

SIGNATURE:

NAME:

DATE:

[3] BRd 3(2) Para 0108.
[4] Currently a gold 'R' within the executive curl for honorary officers iaw BRd 3(1) Art 3909.
[5] Accordingly the employment rights associated with being an employee or worker (such as, for example, paid annual leave entitlement) do not apply.

ANNEX 151B

UNIVERSITY ROYAL NAVAL UNIT PRE-JMES AWARD RISK MATRIX

1. Activity allowed pre-JMES award

a. Attend a Ministry of Defence (MoD) establishment (University Royal Naval Unit (URNU) or other) for the purposes of completing the recruitment process for the URNU (i.e. medical assessment, Candidate Preparation Centre (CPC), Security Clearance (SC) paperwork, Joint Personnel Administration (JPA) system onboarding, panel interview, uniform measurements and order, site inductions and open days/acquaints).

b. Basic education in kit and uniform care.

c. Participate in local induction training and classroom-based activity or lectures (i.e. non-physical Practical Leadership Tasks (PLTs), URNU briefing, guest speakers, basic mandated training and briefs).

d. Ship and establishment recruiting visits, but only so far as a civilian visitor would be allowed. They cannot be involved in supporting the event, only attending it (e.g. Ship Open to Visitors (SOtV)).

e. The 12-week fitness programme (off-site of a MoD establishment).

N.B. *Duty of Care (DoC) is provided by the URNU in all the examples above and a risk assessment must be completed for each activity.*

2. Activity allowed pre-JMES award with Captain BRNC's approval

a. Engage in locally arranged and low-level Sport and AT or activity that the students could engage with as a private citizen. Provided that it is delivered by a third-party external provider who hold their own insurance and indemnity. Where the provider does not have liability cover the students must prove they hold their own personal accident cover (e.g. canal boating, use of rock-climbing wall, water sports provided external to the MoD).

b. Partake in non-led sport or physical activity (e.g. deck sports in unit, run and refereed by the students themselves).

c. In-land waterways training or in-land waterways Royal Yachting Association (RYA) qualifications provided by the URNU National Training Centre (URNU NTC), specifically at Coldhams Lane, Cambridge.

d. Basic, static foot drill (delivered by a qualified drill instructor).

e. Embarkation in small patrol vessels as passengers only (e.g. for a few hours day running).

N.B. *DoC is provided by the URNU in all the examples above and a risk assessment must be completed for each activity. All activity must be reviewed by URNU Headquarters (HQ) for Capt BRNC's sign-off, this must include a review of the medical/insurance plan, communications plan and a risk assessment.*

3. Activity NOT allowed pre-JMES award

a. Acquaint courses which require hands-on rigour and engagement.

b. Military exercises, both land and maritime.

c. Sleeping in adverse conditions (e.g. in the field, on an expedition, in the wilderness, onboard a military vessel).

d. Department acquaints or low-level work in department onboard a ship or in a military establishment.

e. Royal Navy/Royal Marines (RN/RM) sport, unit sport or inter-University Service Units (USU) sport.

f. Ceremonial events or parades.

g. Representing the RN/RM in the public eye.

h. New Entry weekend or similar residential trips or courses.

i. Undertaking the Pre-Joining Fitness Test (PJFT), RN Fitness Test (RNFT) or RN Physical Employment Standard (RN PES).

j. Partake in BRNC or wider URNU events.

k. Be hosted in military accommodation outside of their parent unit.

l. Embark in a military vessel as a passenger or as Un-Trained Strength (UTS).

N.B. *Permanently Medically Unsuitable (PMU) or Medical-on-Hold (MoH) and legacy Temporarily Medical Unsuitable (TMU) personnel must not attend a unit or engage in any training, until either the award of PMU has been appealed against successfully or the requirements of MoH has been resolved.*

ANNEX 151C

NOTIFICATION TO COMMAND ON THE CHANGE OF MEDICAL CIRCUMSTANCES

I acknowledge I have passed the medical process and been given the medical status of 'Fit' or have been awarded an appropriate JMES for my position as a volunteer (students or Training Officer) within the University Royal Naval Units (URNU). I fully understand my medical and physical limitations with regards to the activities I can carry out with the URNU.

a. I confirm that:

(1) I will inform the permanent staff of my unit, or the URNU, if I suffer a physical injury that may affect my ability to take part in URNU activity.

(2) I will inform the permanent staff of my unit, or the URNU, if there is any change in my medical circumstance.

(3) I will inform the permanent staff of my unit, or the URNU, if I feel that any URNU activity is beyond my physical ability.

b. I acknowledge that:

(1) I am under no obligation to discuss the specifics of a change in medical condition or injury with my unit or URNU permanent staff, but I am obliged to inform them of an injury or change in medical circumstance.

(2) I will be required to disclose the specifics of an injury or change in medical circumstance to the Senior Medical Officer Service Entry (SMOSE) who may require information from my General Practitioner (GP). This may alter my current JMES or medical category.

Surname	
Forename	
Rank	
Service Number	
Declaration	
I fully understand and agree to the comments above and will not take part in URNU activity in contravention of any of the above points.

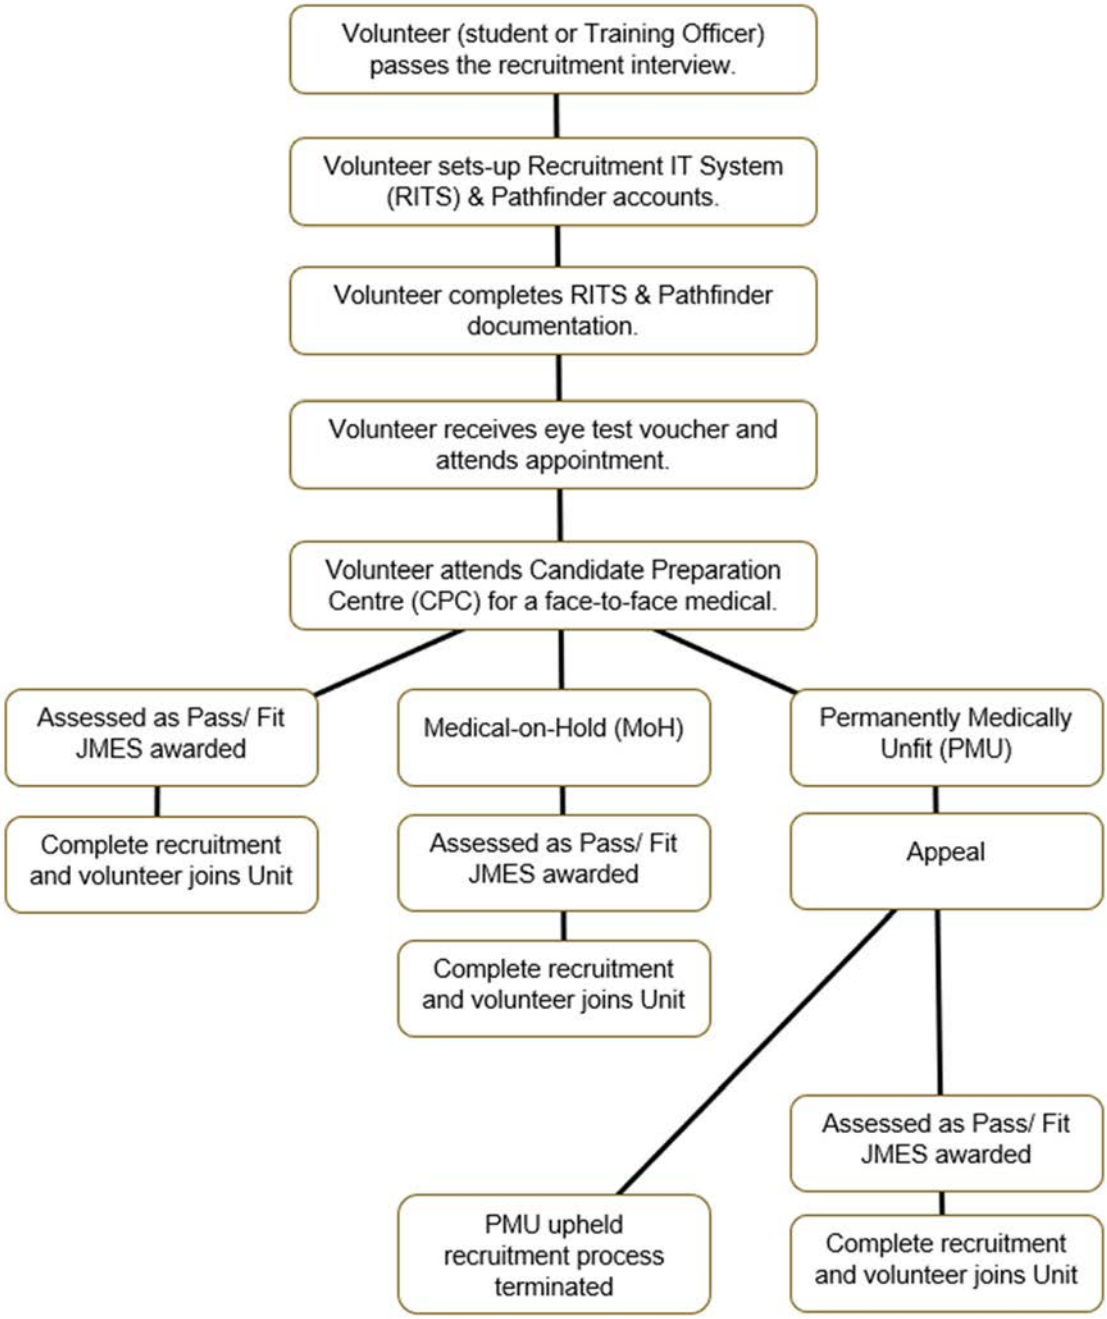
ANNEX 151D

UNIVERSITY ROYAL NAVAL UNITS RECRUITMENT MEDICAL FLOWCHART

Figure. 151D-1



ANNEX 151E

UNIVERSITY ROYAL NAVAL UNIT ACTIVITY PARTICIPANT DECLARATION FORM

I acknowledge that this Form will be used by the University Royal Naval Units (URNUs) for the activity in which I may participate, and that it will govern my actions and responsibilities at said activity.

I understand that participating in this activity described above poses risk of personal injury and by signing this form I knowingly and voluntarily accept that risk. I understand that this activity requires physical conditioning, and I certify that I am in appropriate physical condition for this activity.

I will inform the staff organising the activity if there are any changes to my health or wellbeing that may hinder my full participation in the activity and understand that any false declaration or omission, may impact my health and wellbeing.

I agree to follow all instructions, rules, and regulations in place for the activity I undertake.

I understand that the Ministry of Defence considers claims on the basis of its legal liability to do so in common law. This means that the Ministry of Defence will pay compensation where it can be shown that the Ministry of Defence, its servants or agents, have acted negligently in the course of their official duty.

I understand that I am not covered by the Armed Forces Compensation Scheme (AFCS) and am strongly advised to seek personal accident insurance for this activity, to cover any losses I may incur. I am aware that PAX Insurance has a number of Personal Accident Cover options, and that there are a number of alternative providers available.

I CERTIFY THAT I HAVE READ THIS DOCUMENT AND I FULLY UNDERSTAND ITS CONTENT.

CHAPTER 152

ROYAL NAVAL CADET FORCES

15201. Royal Naval Cadet Forces (RNCF)

The RNCF aspire to provide a challenging and stimulating contemporary 'cadet experience' that develops and inspires young people within a safe environment. The benefits of the cadet experience – personal and social development, as well as an awareness of career opportunities across Defence – they are within the reach of most young people in all parts of the United Kingdom. All cadet activities are to be safe, fun, efficient and effective but most of all, they should be enjoyable and delivered by motivated and competent adult volunteers who are valued by Defence and society. It is important that Cadets are understood, recognised and supported by their local communities and follow the values, standards and ethos of the Royal Navy and Royal Marines.

15202. Regulations

Detailed regulations for the administration of the Royal Naval Cadet Forces are contained in the following publications:

a. JSP 814 - Policy and Regulations for MOD Sponsored Cadet Forces.

b. Combined Cadet Force Regulations - AC72133

c. Sea Cadet Regulations. (SCRs)

d. Volunteer Cadet Corps Regulations (VCRs).

15203. Sea Cadet Corps (SCC)

a. The SCC is a community-based voluntary nautical youth organisation that is administered by the Marine Society and Sea Cadets (MSSC) and is governed by charity law and its own regulations plus a Memorandum of Understanding (MOU) with the MoD. The MSSC is the governing body of the SCC. Each Sea Cadet Unit is a registered charity and is a member of the Corps by virtue of its affiliation to the MSSC. Detailed regulations for the running of the SCC are contained in the MOU, JSP 814 and SCRs.

b. The SCC is defined as those properly constituted maritime cadet units, which conform to the policies of the Sea Cadet Regulations, established by the MSSC and which are formally affiliated to it.

c. The MSSC is a Registered Charity; it is managed by an independent group of trustees. The objects of the MSSC, as set out in the governing instruments of the charity, are *inter alia* to promote the development of young people in achieving their physical, intellectual and social potential as individuals and as responsible citizens by the provision of education and leisure time activities using a nautical theme, to advance the education of seafarers, including members of the Sea Cadet Corps and to promote the customs and traditions of the Royal Navy (RN).

d. The MSSC meets its charitable objects by providing administration support, marketing, training resources, field management, financial management, supervision and health and safety guidance to the SCC. It promotes the development of young people in achieving their physical, intellectual and social potential as individuals and responsible citizens and takes individuals from all backgrounds and circumstances

15204. Volunteer Cadet Corps (VCC RN-RM)

a. The VCC (RN-RM) is a community-based voluntary nautical youth organisation that is sponsored by the MOD and is under the 2-star directorate of Director Personnel and Training, through a dedicated 1-star Commander RNCF, day-to-day administration by HQ RNCF.

b. The VCC (RN-RM) operates in accordance with JSP 814 and VCRs. Sponsorship, funding, access to training facilities and estates, and other support from the MOD is provided in accordance with the Memorandum of Agreement for the support of the Volunteer Cadet Corps.

c. The VCC (RN-RM) aim is to provide opportunities for young people to develop into responsible, dependable and useful members of society, employing the traditions and practices of the Naval Service as the basis for their activities.

d. Detailed regulations for the administration of the VCC (RN-RM) are contained within JSP 814 and VCC Volunteer Cadet Corps Regulations (VCRs).

15205. The Combined Cadet Force (CCF RN-RM)

a. The CCF RN-RM is a non-community youth organisation which is part of an educational partnership between the DfE, schools and the MOD. Governance of the CCF RN-RM is delivered through a bilateral agreement between Commander RNCF and Army Regional Command (RC).

b. CCF RN-RM is under Operational Command (OPCOM) of Commander RNCF and Operational Control (OPCON) is delivered by Army RC. As such Army RC may task CCF (RN-RM) to deliver priorities and provide the best experience for CCF cadets and Adult Volunteers, increasing efficiency and effectiveness. This will include the need to meet direction from MOD, RN and Army chains of command. RC will have authority over how the RN syllabus is delivered.

c. The aim of CCF RN-RM is to offer young people a broad range of challenging exciting, adventurous and educational activities to enable development of personal responsibility, leadership and self-discipline. Afloat training is the defining activity of the Royal Naval Cadet Forces. The Royal Navy proficiency syllabus bases its training emphasis on leadership, afloat activities and adventurous training.

d. Detailed regulations for the administration of the CCF RN-RM are contained with JSP 814 and Combined Cadet Force Regulations - AC72133 .

15206. Status of SCC and CCF RN-RM Officers

SCC and CCF RN-RM officers, formerly of List 8 of the RNR and RMR, are members of the SCC and CCF List. Members of this list have honorary RNR and RMR status only, they are not considered to be members of a Reserve Force as defined by RFA 96. They do not hold commissions in the RNR and RMR and have no RNR or RMR training commitment or recall/call out liability. Officers are authorised to wear Royal Naval uniform in accordance with BRd 3(1) Part 6, notably Chapters 38 and 39 or as amended by SCRs or AC72133. SCC and CCF RN-RM officers were included in the Navy List prior to its demise in 2017.

15207. Status of VCC Officers

VCC officers do not have honorary RNR or RMR status and as such are not members of a Reserve Force as defined by RFA 96. They do not hold commissions in the RNR or RMR and have no RNR or RMR training commitment or recall/call out liability. Officers are authorised to wear Royal Naval uniform in accordance with BRd 3(1) Part 6, notably Chapters 38 and 39 or as amended by VCRs. VCC officers were not included in the Navy List prior to its demise in 2017

15208. Cadet Forces Commission (CFC)

a. Officers of the SCC, VCC (RN-RM) and CCF (RN-RM), following successful completion of individual SCC, VCC (RN-RM), and CCF RN-RM training/development programmes, are appointed to a Cadet Forces Commission as approved by the Sovereign.

b. SCC, VCC (RN-RM) and CCF (RN-RM) Commissioned officers are not members of the regular or Reserve Armed Forces of the Crown or subject to the Armed Forces Act when on duty.

c. SCC, VCC (RN-RM) and CCF (RN-RM) Cadet Forces Commissioned officers are entitled to wear military uniform and rank appropriate to the RN and RM in accordance with SCC, VCC (RN-RM) and CCF (RN-RM) dress regulations, and are to be accorded by members of the Armed Forces and others, the appropriate respect and privileges appertaining to that rank when undertaking training and volunteer related activities in uniform.

d. SCC, VCC (RN-RM) and CCF (RN-RM) Cadet Forces Commissioned officers will have authority over more junior ranking Cadet Force Adult Volunteers (CFAVs) and Cadets when undertaking cadet activities.

e. The Cadet Forces Commission does not qualify for any post nominals by virtue of the commission.

f. SCC, VCC (RN-RM) and CCF (RN-RM) officers who transfer from RN to RM or RM to RN will retain their existing Cadet Forces Commission and will not be entitled to a second Cadet Forces Commission.

g. Applications or Cadet Forces Commission will be administered through HQ RNCF by SCC, VCC (RN-RM) and CCF (RN-RM) Cadet Headquarters through submission to Defence Business Services (DBS) People Services of officers of each respective Royal Naval Cadet Force who have qualified for the appointment of a Cadet Forces Commission.

h. To preserve the Cadet Force Adult Volunteer cohort, transfers of CFAVs between RNCF organisations are permitted providing consensus is gained from the gaining and losing organisation. In contentious CFAV transfers, HQ RNCF will arbitrate.

This document provides the handbook for Defence Recovery Capability assurance visits.

Part one of the handbook is the assurance framework, part two is the assurance visits guidance. Both parts of the document exist to help in the preparation for, implementation and conduct of, assurance visits for wounded injured and sick military personnel.

Introduction

1. This assurance framework will be used in Ofsted's assurance of the Ministry of Defence (MoD) Defence Recovery Capability (DRC) provision for wounded, injured and sick (WIS) personnel employed in the Armed Forces.

2. WIS personnel are either regular or Reserve personnel who, because of injury or illness, are unable to carry out their normal duties. The DRC and the single Services should provide a suitable recovery pathway within which all serving WIS personnel can receive appropriate support to make a return to duty, or transition to a properly supported civilian life that makes best use of their skills and abilities.

3. The recovery pathway provides the structure for individual support from the point of wounding, injury or sickness to a recovery outcome of either return to work within the military or a transition to a properly supported and appropriately skilled civilian life. The recovery pathway should complement the clinical pathway and support an individual through a tailored recovery plan.

4. The DRC is delivered through three separate, but related, single Service Recovery Pathways (SRPs), with the Army, as the largest Service, taking the lead responsibility. Support and resources are provided by a number of charitable partners, chief amongst which are Help for Heroes and The Royal British Legion.

5. Her Majesty's Inspectors and Ofsted Specialist Inspectors (inspectors) will conduct assurance visits. This framework, and the handbook, sets out some of the ways inspectors will seek evidence, and describe the typical but not indicative evidence they will consider to arrive at key findings during DRC assurance visits.

The purpose of assurance visits

6. Assurance visits to all providers and participants in the DRC have two purposes. First, to evaluate the extent to which the DRC provides a suitable and appropriate environment for military personnel to complete their recovery and, when ready, prepare for a return to service life or successful transition to civilian life. Second, to provide clear findings about the quality of the provision, and about the outcomes for WIS personnel in achieving sustainable work and/or personal living goals.

7. Inspectors will take into account the experiences of WIS personnel or groups of WIS personnel and, where appropriate, the experiences of their families and/or carers. Inspectors will not make a separate judgement about equality, diversity or safeguarding. Instead, they will fully consider equality, diversity and safeguarding within the context of activities, while reaching their findings on each aspect of the DRC provision.

The main findings and overall effectiveness

8. The main areas for judgements made during assurance visits are as follows:

- impact of management activities and interventions.
- quality of the WIS experience.

- personal development.
- outcomes for WIS personnel.

9. Inspectors will also reach a summative finding about the overall effectiveness of the recovery experience, which will lead to a judgement on the overall effectiveness of the provision.

Part one: the assurance framework

The impact of management activities and interventions

The success and impact of each Service, the chain of command and/or partner providers to secure and effectively manage and evaluate the delivery of recovery pathway activity

10. Inspectors will evaluate the impact of management interventions to improve the provision and activities by examining, where relevant, the extent to which the Service, partners, leaders and managers:

a. demonstrate an ambitious vision, have high expectations for what individual WIS personnel can achieve, whilst promoting high standards of welfare and duty of care.

b. promote effective communication and information management between the Services and all partners and specialist agencies, families and carers in ways that support and enhance the individual's recovery pathway

c. improve activities through rigorous performance management, performance analysis and self-assessment supported by appropriate professional development

d. ensure that residential provision is effectively and efficiently managed within the stated expectations of welfare and duty of care in the Armed Forces, where routines and procedures are clear, well-established and operate consistently to provide an orderly and safe environment

e. ensure that resources are sufficient and effectively and efficiently managed, that staff are appropriately trained and that disclosure and barring service (DBS) checks have been completed where required

f. make constructive use of users' views and complaints to effect continuous improvement

g. recognise and promote equality and diversity in planning and caring for individuals, tackle bullying and discrimination, and narrow any gaps in participation and achievement between different groups of WIS personnel

h. ensure appropriate safeguarding arrangements are in place to maintain the safety and well-being of all personnel and of their families or carers.

11. To evaluate the quality and impact of management activities and interventions on the provision of development and support for WIS personnel, inspectors will consider whether:

a. there is a clear statement of principles, translated into effective practice

b. leaders promote very high standards in a positive and supportive culture that aspires to excellence

c. the DRC provision is effectively and efficiently managed; routines and procedures are clear, well-established and operate successfully to provide an orderly and safe community in which WIS personnel are supported towards the successful achievement of qualifications and in the development of their personal, social and employability skills

d. managers have ensured that there are sufficient staff to provide appropriate welfare and duty of care to WIS personnel, whether they are deployed and supervised effectively, and have received high-quality training, development and support for their roles

e. there is continuous monitoring of the quality of all of its DRC provision and its impact on WIS personnel, and managers can demonstrate capacity for continuing improvement

f. complaints are managed well, and managers take account of individuals' views to improve the quality of the experience

g. diversity and individual needs are recognised in planning and providing appropriate welfare and duty of care for individuals, and all are accorded equality of opportunity

h. there is good communication between leaders and managers, families, carers, recovery staff and, where relevant, others who contribute to supporting an individual

i. records are comprehensive and securely stored

j. safeguarding is effective, including the arrangements for keeping WIS personnel safe and protecting them from harm; and the effectiveness of the arrangements for protecting them as vulnerable adults, countering bullying and dealing with poor behaviour

k. the single Service standards are met.

Personal Development

The successful development of skills and capacity to make an appropriate transition as identified by the individual and his/her chain of command; enabled according to need through the DRC.

12. Inspectors will evaluate the personal development of WIS personnel by examining, where relevant, the extent to which they:

a. operate within an agreed individual recovery plan involving attendance at events and meetings as appropriate

b. develop employability and/or independent living skills that enable them to take best control of their lives, working with their families and/or carers as appropriate

c. all personnel make informed choices about next steps based on timely and appropriate information and guidance mapped against their individual recovery plan

d. develop the self-confidence and skills to become more self-assured, to manage their own feelings and behaviour, to relate well to others, and to realise that they have the potential to be successful within or beyond life in the Armed Forces.

13. To evaluate personal development, inspectors will consider the following matters and their impact on the individuals' development and gather evidence by:

a. talking with WIS personnel, their families/carers and to the staff who care for and look after them

b. looking at records, case studies or other evidence the provider may offer; and considering the progress WIS personnel make in their recovery, personal and social development

c. taking into account the starting points of the WIS personnel when they took up their individual recovery plans

d. considering the work undertaken to help these individuals achieve their full potential through working towards their personal recovery outcomes

e. evaluating the recovery progress and how effectively the support that personnel receive helps them to be successful in their recovery compared with their starting points and with their peers on the same or similar programmes

f. considering individuals' social development, including the extent to which they enjoy positive and constructive relationships with staff and with each other, and are tolerant of others with or without injuries or disabilities and of people from different races, religions and sexual orientations

g. evaluating the personal development, self-esteem, independence, confidence, employability skills and financial management skills of personnel

h. taking into account the behaviour of WIS personnel and how well they respect the rights of others in the community to be treated with care, respect and understanding

i. evaluating individuals' satisfaction and contentment with the welfare and duty of care experience, including the extent to which they take advantage of what is on offer by developing new talents, skills and interests

j. considering individuals' contributions to the recovery community and how their views have affected it

k. evaluating individuals' awareness of a healthy lifestyle and its impact on their recovery

l. evaluating how well WIS personnel and their families are prepared for a successful transition to independence, employment, or for the next stage of their life.

The Quality of the WIS experience

The extent to which the provision ensures a quality experience for WIS personnel and their families in facilitating an individual's recovery

14. Inspectors will evaluate the quality of the WIS experience, by examining the extent to which leaders and managers within the Defence Recovery Pathway:

a. ensure that individual recovery plans are established and fit for purpose to provide agreed activities in sufficient breadth, depth and relevance so that they meet the needs and interests of individuals and provide them with the skills and independence to make a successful recovery

b. ensure that staff from the Services and all partner organisations have consistently high expectations for recovery and promote equality, diversity and safeguarding through all activities

c. use all available information to frequently re-focus recovery plans to ensure recipients receive the support they need, sharing this information, where appropriate, with the individuals' families, carers and welfare and medical personnel

d. provide high quality and suitable welfare support in environments appropriate to individual recovery plans.

15. To evaluate the quality of the WIS experience, command, welfare and duty of care and support for WIS personnel, inspectors will consider the following matters and their impact on the individuals' development and support:

a. the quality of pastoral support for individuals, including the impact of induction and initial assessment for new personnel, the effectiveness of links between pastoral and recovery staff in supporting the individuals' personal and recovery development

b. the impact of experienced staff in providing WIS personnel with welfare and duty of care

c. the physical environment; the quality welfare and duty of care for WIS personnel's health and physical, mental and emotional well-being; and the guidance and support provided to WIS personnel

d. the availability, uptake and quality of support for WIS personnel on personal matters

e. the quality and appropriateness of individual recovery plans, and their effective implementation

f. the range and appropriateness of activities available to WIS personnel, including work placements and work shadowing

g. the quality and effectiveness of arrangements for promoting and sustaining individuals' health and well-being

h. the quality, availability and uptake of the catering arrangements and how these contribute to healthy lifestyles

i. the quality of the welfare and duty of care accommodation (either on- or off-site), premises and facilities, including the arrangements for making WIS personnel comfortable and keeping their possessions safe

j. the procedures for ensuring that all service personnel, including those with supervisory responsibilities for WIS personnel, receive appropriate access to welfare support

k. the appropriateness of arrangements for WIS personnel to keep in touch with families and friends

l. the effectiveness of interactions between medical, clinical and the recovery pathway

m. the extent to which single Service standards are met.

Outcomes for WIS personnel

The successful transition of WIS personnel to a realistic, fulfilling and sustainable return to duty or civilian life, agreed between the individual and his/her chain of command, enabled according to need through the DRC.

16. Inspectors will evaluate the outcomes for WIS personnel, and examine where relevant, the extent to which:

a. all WIS personnel progress from their individual starting points towards the outcomes and objectives identified in their individual recovery plans

b. personnel successfully attain relevant qualifications, take part in courses or experiences that help them to progress to the next stage of their transition, into courses leading to qualifications, and/or into jobs suited to their abilities, expectations and needs

c. an individual's well-being and fitness are enhanced as a result of their experiences.

17. To evaluate the quality of the outcomes for individuals, inspectors will consider the following matters and their impact on the individuals' development and gather evidence by:

a. exploring the extent to which all WIS personnel, in agreement with their chain of command and their families, have set realistic outcomes and objectives relative to their starting points

b. investigating how personnel review and evaluate their progress against agreed objectives and outcomes in their individual recovery plans, and amend these where necessary, as their recovery pathway evolves

c. examining whether all personnel are able to make appropriate informed choices about next steps based on timely and relevant information and guidance

d. evaluating the impact and appropriateness of advice and guidance to establish expectations and to set appropriate and realistic outcomes for individuals and their families

e. reviewing the extent to which personnel attend courses and recovery events in a timely manner, and how this allows them to make suitable progress towards their outcomes and objectives.

Overall effectiveness

The extent to which all the elements of the DRC cohere effectively to ensure the needs of the individuals and the Service are fully met.

18. In making judgements about overall effectiveness, inspectors will consider the combined impact of all aspects of the WIS provision. They will take into account:

a. the impact of the provision on ensuring personnel achieve their agreed recovery plan outcomes

b. the impact of the experience and the quality of welfare and duty of care, on the recovery process, personal development and well-being of all WIS personnel

c. the effectiveness with which all stakeholders safeguard WIS personnel and their families and promote their welfare

d. the effectiveness with which the DRC provision and individual recovery plans are organised and managed between partners

e. the ways WIS personnel and their families and/or carers view their experience

f. the progress made since any previous assurance visit.

Part two: guidance for inspectors and staff in DRC settings.

Conducting DRC Assurance Visits

Introduction

1. In 2014, the MoD commissioned Ofsted to develop a DRC assurance framework for use during visits to assess the provision of the recovery pathways for all wounded, injured and sick (WIS) personnel employed in the Armed Forces. WIS personnel may be either regular or Reserve personnel who, because of injury or illness, are unable to carry out their normal duties.

2. The DRC is a MoD-led initiative delivered in partnership with Help for Heroes and the Royal British Legion, together with a number of small and larger charitable organisations. The single Services, through the DRC, should provide a suitable recovery pathway to all serving WIS personnel. Such recovery pathways take an individual from the point of wounding, injury or sickness to a recovery outcome, which is either a return to military service or an effective transition to a civilian life that makes best use of their skills and abilities. The Army takes lead responsibility but each Service manages their recovery pathways differently. The recovery pathways complement clinical pathways and should support individuals through a tailored individual recovery plan.

Assurance of the DRC

3. Ofsted MOD inspectors are either Her Majesty's Inspectors (HMI), or directly contracted Ofsted Specialist Inspectors. The MoD and Ofsted prescribe the qualifications and experience required by all inspectors, the initial and continuing training they should receive, and the standards they are required to meet. Inspectors will have extensive experience of working with the Armed Forces; most will have been involved with the MoD through Welfare and Duty of Care inspections of initial training. All inspectors have full security clearance.

Purpose of assurance visits

4. Assurance visits provide an independent external evaluation of the effectiveness of the recovery pathways, and identify areas for improvement. Judgements will be based on the range of evidence available to inspectors, which they evaluate against a national framework presented in part two of this handbook.

5. Inspectors will evaluate the extent to which the DRC provides a suitable and appropriate environment for military personnel to complete their recovery and/or make a successful transition to civilian life.

6. Visits will provide qualitative findings about the effectiveness of the recovery pathways and the outcomes for WIS personnel in the areas of achieving sustainable work and/or achieving personal living goals.

7. Visits will support and promote improvement by judging the WIS experience against a clear DRC Assurance Framework (set out in part one of this handbook) and by monitoring the progress and performance of aspects of the DRC provision over time. In response to context and setting, inspectors will adjust the focus of assurance visits to ensure relevance and impact, identifying precise actions to underpin recommendations.

8. Inspectors will provide challenge and support to the senior leaders and managers who are responsible for DRC by:

    - adjusting the frequency of assurance visits, with reference to previous outcomes and risk assessments
    - deploying resources where improvement is most needed or where an assurance visit can add greatest value
    - taking account of users' views, including current and former WIS personnel, their families, staff and employers
    - encouraging all partners to focus on the needs of users and the needs of the DRC partnership.

9. In the organisation and conduct of visits, inspectors will:

    - provide clear and timely communications
    - make use of existing data, documentation and systems of the DRC partnership to avoid placing an unnecessary burden on staff
    - respect the confidentiality of information about individuals, their families, and their recovery plans
    - arrive at findings based on sound evidence
    - conduct visits with integrity, courtesy and transparency
    - produce clear, accurate and timely reports that provide WIS personnel, their families, the MoD and partners with an authoritative, independent assessment of the quality of the provision provided by the DRC partnerships.

10. Assurance visits to active units and stations, together with visits to government organisations and the charities, will promote improvement in the effectiveness of the DRC provision by:

    - identifying best practice through feedback and annual reporting

- recommending priorities for future action and, when appropriate, checking subsequent progress
- increasing units' and establishments' capacity to evaluate their own effectiveness, by offering professional challenge and constructive dialogue
- providing an independent account of the effectiveness of the recovery pathways and the success of WIS personnel in achieving a suitable outcome.

Promoting improvement through assurance visits

11. Inspectors will carry out their work in ways that encourage partnerships to improve, to be user-focused and to be efficient and effective in the use of resources. Assurance visits will:

- raise expectations for standards of performance and effectiveness across the DRC
- provide challenge and give leaders and managers the information and impetus to act when weaknesses are identified and improvements needed
- clearly identify strengths so that these may be shared across the DRC
- promote rigour in the ways that individuals contribute to the DRC, to MoD steering groups, and evaluate their own performance, thereby enhancing their capacity to improve
- assure the progress and performance of all partners, providing challenge and support to senior leaders and managers.

The DRC assurance framework

12. Inspectors will use the assurance framework, detailed in part one of this handbook, to evaluate key aspects of the DRC according to the needs of WIS personnel. Inspection and reporting will focus on the following framework areas:

- **The overall effectiveness of the DRC provision** as a summary judgement based on the four contributory aspects listed below.
- **The impact of management activities and interventions;** the success and impact of each Service, the chain of command and/or partner organisations to secure and effectively manage and evaluate the delivery of recovery pathway activities

- **The quality of the WIS experience**; the extent to which the provision ensures a quality experience for WIS personnel and their families in facilitating an individual's recovery

- **Personal Development**; the successful development of skills and capacity to make appropriate transition as identified by the individual and his/her chain of command

- **Outcomes for WIS personnel**; the successful transition to a realistic, fulfilling and sustainable return to duty or civilian life

Selecting locations for assurance visits

13. Ofsted will consult with the Defence Working Group to identify locations providing support for WIS personnel from across Defence and the supporting charities. Inspectors will select locations for assurance visits using a range of criteria including, but not limited to:

    - indicative numbers of WIS personnel supported at the setting

    - reports from other internal Defence organisations, and care and welfare concerns raised by users or other interested parties.

Confidentiality and conduct

14. Inspectors conducting the assurance visits will uphold the highest professional standards in their work and treat everyone they encounter during visits fairly and with respect. Inspectors will:

    - have appropriate safeguarding and security clearance

    - maintain impartiality and declare any potential conflict of interest

    - respect confidentiality of information, particularly about individuals and their recovery plans

    - evaluate provision in line with the assurance framework, basing evaluations on sound evidence

    - carry out their work with integrity, treating all those they meet with courtesy, respect and sensitivity

    - take prompt and appropriate action on any safeguarding or health and safety concerns

    - ensure reported judgements are fair and reliable.

15. Inspectors will observe practice and may need to talk to staff, WIS personnel and families/carers without a third party present. Inspectors will make every effort to protect interviewees' anonymity but have a duty to pass on disclosures that raise serious safeguarding concerns, or potential criminal activity.

Selection and scheduling of assurance visits

16. Inspectors will conduct a series of annual assurance visits. Visits will be made to establishments and settings involved with DRC including:

    - individual single-service units managing WIS personnel including; Army garrisons or barracks, Royal Air Force (RAF) stations, Royal Navy and Royal Marine bases
    - Defence and tri-service establishments
    - personnel recovery units (PRUs)
    - personnel recovery centres (PRCs)[1]
    - centres run or managed by charities
    - the Recovery Career Services (RCS)
    - the Defence Infrastructure Organisation (DIO) and other organisations delivering services and support to WIS personnel.

17. Inspectors will notify establishments or settings at least 10 working days before a visit. Inspectors will contact the commanding officer or the designated point of contact for WIS personnel by telephone to plan the visit and agree arrangements. Inspectors will arrange their own transport and accommodation.

18. The duration of visits will depend on the scale and range of activities taking place, normally one or two days. During an assurance visit, inspectors will meet with WIS individuals and a range of personnel including, but not limited to:

    - COs/OCs or managers of establishments or settings
    - key staff involved in the management of WIS personnel,
    - relevant members of unit health and welfare committees, or equivalent bodies responsible for reviewing the progress and individual recovery plans of WIS personnel

[1] Details of the PRC can be found at www.gov.uk/defence-recovery-and-personnel-recovery-centres

- families and/or carers of WIS personnel
- those delivering recovery courses and activities, and any other partners involved in the DRC process.

19. Inspectors may accompany personnel recovery officers (PROs), unit welfare officers (UWOs) and visiting officers during their home visits to WIS personnel. Team members may contact WIS personnel and, where appropriate, their families, via email or telephone, to ensure that the views and experiences of users and carers/families contribute to evidence about the effectiveness of the recovery pathways, progress made and the success of the outcomes.

20. Inspectors will focus closely on the experience of WIS personnel in their recovery pathways and, during the visit, will require unrestricted access to any relevant military and civilian personnel involved in provision of recovery pathways. If selected individuals are not available during a visit alternative arrangements may be made. Inspectors may use case studies of individuals or groups of WIS personnel to gather evidence.

21. Whenever possible, inspectors will observe activities, recovery events and interactions with WIS personnel to understand the quality, impact and effectiveness of such activities.

22. Inspectors will not arrive at formal grading of provision, but will evaluate and make judgements relating to a range of evidence including:

    - the views and experiences of WIS personnel and their families
    - individual recovery plans, records and documents relating to recovery events and activities
    - personal development and support materials
    - accommodation and settings for recovery activities
    - the views of staff and managers involved in the recovery process
    - information technologies and any adaptive technologies used in delivery of support and development to WIS personnel.

23. Inspectors will use data and management information to consider the effectiveness of the recovery pathways and the success of outcome for WIS personnel. The sources and type of data used will depend on the establishments and settings visited.

24. At the end of each visit, inspectors will provide brief oral feedback to senior staff about their findings, with an outline of strengths and areas for improvement. Inspectors will subsequently write a letter summarising these findings. These letters are subject to

internal moderation by Ofsted and will not be published but will be shared with relevant MOD personnel. An annual report will summarise the findings from visits each year.

Complaints

25. Complaints or concerns about any aspect of an assurance visit should be raised with the lead inspector, in order to gain an immediate resolution.

26. Wider concerns, or those that cannot be resolved during the assurance visit, should be communicated through the single Service DRC chain of command, the Head of Service Personnel Support, or Head of Training Education Skills Recruiting and Resettlement (TESRR) as appropriate so they can liaise with Ofsted to seek a resolution.
