A number of channels of communication have been developed to assist culture change and inform the Royal Navy on PDev issues and opportunities, as follows:

a. **NAVYfit.** NAVYfit stands as the all-encompassing face of RN PDev to raise awareness of PDev key messages and the offer, available to all RN personnel.

b. **NAVYfit Website.** The NAVYfit Website is accessible through the Defence Gateway and currently going through transformation, so is not live or being updated.

c. **Sports Master Fixtures List (MFL).** The Sports Master Fixtures List is an interactive Excel document, providing details of RN Grassroots to RN Representative and UKAF sports fixtures, including those authorised for centrally funded sport travel (STA) at public expense.

d. **Social Media.** The NAVYfit social media and NAVYfit YouTube playlist (accessible via the Royal Navy's YouTube channel), promotes ‘the offer’, provides news, multimedia, opportunities, fixtures and results.

SECTION 3

AUTHORISATION AND GOVERNANCE OF 'ONE-OFF' ACTIVITIES WHICH ARE NOT CATEGORISED AS SPORT OR ADVENTUROUS TRAINING

2908. General

Whilst definitive lists of the various recognised Joint Service (JS) Sport and AT activities are contained in JSP 419 (AT in UK Armed Forces) and JSP 660 (Sport in the UK Armed Forces), there are a number of RN single Service exceptions to these contained within BRd51 (Physical Development and Sport in the Royal Navy).

a. **Aim.** The aim of Section 3 is to provide a 'handrail' to Commanding Officers who may wish to authorise other 'one-off' activities that fall outside the clear rules provided above and detail points for consideration including how to address the risks involved.

b. **Governance.** The JSPs also describe the proven process for authorising and governing the recognised Sport and AT activity. However, the process for the authorisation of other non-standard or 'one-off' activities is less clear. Some may look like Sport or AT, whilst others (Battlefield Tours or Charity Fund Raising events) may have only a tenuous connection, but they do have a military, (training, RN In the Public Eye (RNIPE), etc.) benefit and so some risk may be acceptable.

c. Such non-standard activities should be fully Risked Assessed with the risk being held by an empowered Accountable Person (AP). The key being that the Risk Balance Case (see BRd10 Policy Leaflet 4.3, Risk Balance Case) is accepted by the AP if the risk needs to be escalated, thus providing an audit trail.

d. **Guidance.** A table listing the key points for consideration before authorising an activity are provided at Annex B. This applies to activities which are not listed within the JSPs or in BRd51 and are likely to be 'one-off' occurrences. There are separate instructions for activities that will become routine/regular occurrences. The PT staff in units are fully conversant with this guidance, and their advice should be sought early.

e. **Other PDev Activities.** Activities which are conducted on a regular basis may be eligible to acceptance as 'Other PDev Activities' through the Military Judgement Panel chaired by Hd RN Sport. These activities are similar to RN Sports Associations but cannot have this status if there is no National Governing Body or similar governance structure. CrossFit, Field Gun and E-Sports are examples of Other PDev Activities recently afforded similar status to RN Sports Associations. For more info contact NAVY PEOPLE-PS SPORT POL.

SECTION 4

ROYAL NAVY PHYSICAL EMPLOYMENT STANDARD (RNPES)

2909. General

a. RNPES has developed over seven years under the scientific guidance of the Institute of Naval Medicine (INM) following a NATO standard approach overseen by Dir P&T, and the People Support Operational Fitness Team (Op Fitness). Trials have been conducted on ships and in numerous establishments and naval bases, covering over 600 personnel across all age and gender demographics. The trials and scientific analysis have resulted in an RNPES circuit that replicates actual on-board tasks. RNPES was approved by a multi-profession military judgement panel (MJP), moving the project from research and analysis to implementation.

b. RNPES is a RN uniformed workforce, minimum acceptable physical employment standard annual test, that is fully inclusive with one standard, that is fair, reasonable and credible. It is applicable to all RN uniformed personnel (officers and ratings); the RNR and Royal Fleet Reservists undertaking FTRS. The Royal Fleet Auxiliary (RFA) is currently excluded from PES.

c. The RNPES is legally defensible, and, combined with good functional fitness conditioning training in preparation for the test, will contribute towards health and performance of the RN population. It will reduce musculoskeletal injury if good progressive functional training is conducted regularly. It is the mandated physical employment standard for all RN personnel on the trained strength. RNPES has been designed to be time efficient; the process can be completed within a 45-minute period including administration, warm up, test and cool down.

d. The detailed policy is in BRd 51 Chap 10 or contact NAVY PEOPLE-PS OP FITNESS (MULTIUSER) NAVYPEOPLE-PSOPFITNESS@mod.gov.uk.

SECTION 5

ROYAL NAVY HEALTH AND PERFORMANCE

Reference:
JSP 661.

2910. Royal Navy Health and Performance

a. **Strategic Vision.** To optimise health and enhance performance across the Royal Navy (RN) by maintaining and improving physical, cognitive and emotional wellbeing through evidence-based activity, behaviours-based activity, and interventions.

b. **Strategic Aim.** Health and Performance (H&P) enhances warfighting readiness by delivering professional, scientific subject matter expertise, supported by a digitally enabled ecosystem, to the Royal Navy and Royal Marines. It enables military and civilian personnel to sustain healthy lifestyles, including in challenging and austere environments, to reduce injury, illness and poor mental health, and to maximise operational efficiency.

c. **Importance of Health and Performance in the RN.** The main benefits of a successful H&P strategy are:

(1) Increased operational and warfighting capability and effectiveness.

(2) Ability to stay in the fight – able to recover, repair, rebuild, and regenerate.

(3) Reduction in injury and illness burden.

(4) Increased retention of our people.

(5) Improved recovery rate following injury and illness.

d. Health Performance Strategic Priority Areas[2]

People.

(1) Musculoskeletal Injury (MSKI)

(2) Mental Wellbeing & Resilience

(3) Health Inequalities

(4) Suicide Prevention

(5) Recovery Support

[2] https://assets.publishing.service.gov.uk/media/62b3333dd3bf7f0af6480740/Defence_People_Health _and_ Wellbeing_Strategy.pdf

Lifestyles.

(6) Nutrition

(7) Addictions & Lifestyles Choices (e.g. smoking, alcohol, gambling)

e. The Royal Navy Health and Performance Team operate in the Promote and Prevent areas.

(1) **Promote.** Focuses on sustaining positive organisational behaviour and a supportive culture.

(2) **Prevent.** Focuses on non-medical initiatives aimed at mitigating the impact of expected life and work stressors.

2911. Executive Health

a. The term Executive Health refers to the non-clinical elements of Health Promotion and the decision-making process that support the maintenance of a healthy lifestyle. Clinical healthcare remains the responsibility of qualified healthcare practitioners.

b. **Delivery.** Six Executive health priorities have been identified which will be reviewed annually.

(1) Women's Health

(2) Addictions

(3) Healthier Weight

(4) Sexual health & Relationships

(5) Mental Fitness

(6) Musculoskeletal Injuries and Physical Development

c. **Executive Health Contact.** For any questions regarding Health and Performance contact NAVYPEOPLE-PSHWGROUP@mod.gov.uk.

d. **Whole Systems Approach.** A System for Health (SfH) applies a whole-system approach to improving health outcomes. It places people at the centre of their environment and recognises the influence of leadership culture, behavioural drivers and social context. Leaders are to role-model healthy behaviours and prioritise wellbeing. Robust evaluation and reporting are to be established to capture learning and drive continuous improvement.
Functional enablers include, but are not limited to:

(1) Structured Physical Training (PT) to support occupational fitness.

(2) Healthier behaviours education.

(3) Education and training activities to inform physical and mental wellbeing.

(4) The dining facility food offer that should support healthy eating and social engagement.

(5) Overarching Leadership to enable a pro-health culture to be realised.

2912. Terms of Reference for the Unit Health & Performance Committee (UH&PC)

a. It is required that all Ships/Units/Establishments must have an active UH&PC that meets, at a minimum, once a term.

b. **Primary Task.** To monitor the Unit against the H&P priorities, promote health initiatives and campaigns, and encourage positive lifestyle choices, which enhance the lifestyle choices across the whole force.

c. **Secondary Tasks:**

(1) To assure the Command that the Ship/Unit/Establishment complies with all extant policies that sit within health and performance.

(2) To identify areas of non-compliance.

(3) To instigate remedial measures to rectify non-compliance and capture salient details within a Unit Health Action Grid (UHAG)[3].

(4) To monitor and move forward all actions detailed within the UHAG. These should also be made visible to the RN Health and Performance Team.

(5) To maintain an accessible Unit Health Calendar containing local health and wellbeing related information and details of relevant campaigns.

d. The UH&PC should consist of the following personnel:

(1) **Shore Establishment.**

(a) Chair (CO)

(b) Vice Chair (BWO/EWO/SO2/SO3)

(c) PTI

(d) ERI

[3] Unit Health Toolkit Version 1 (https://modgovuk.sharepoint.com/:b:/r/teams/62177/HW%20Toolkit/Unit%20Health%20Toolkit%20Version%201.pdf?csf=1&web=1&e=s0IMWH)

(e) Medical Representative (SO3 & POMA)

(f) Occupational Health Nurse

(g) Dental Representative

(h) Catering Representative (Contract and RN FM Manager)

(i) PO/LH Police

(j) Mess Representative (Wardroom, SR, JR)

(k) Chaplain

(l) Others with a special interest in health promotion (optional)

(m) Where applicable Civil Service Representation.

(2) **Ship/Submarine.**

(a) Chair (XO)

(b) EWO/Cox'n

(c) PTI (where applicable)

(d) Medical Representative (MO/POMA/LMA/MA)

(e) Catering Representative (LO/DLO/POCS/LCH)

(f) PO/LH Police

(g) Mess representative (Wardroom, SR, JR)

(h) NAAFI representative

(i) Other with a special interest in health promotion.

e. **Accountability.** Executive Health Requirements are the responsibility of the Unit's Commanding Officer and accountable to Dir P&T via the RN Health and Performance Board. UH&PC ROADS and UHAGs are to be sent to NAVYPEOPLE-PSHWGROUP@mod.gov.uk post any meetings. Example UH&PC Agenda and Action Grid. Other suggested topics that could also be discussed at UH&PC and therefore be evidenced in the agenda and actions include, but are not limited to:

(1) Sleep and Daylight.

(2) Shift Work.

(3) Oral Health.

2913. Unit Executive Health Requirements

Unit Health Committees and health and wellbeing are an Executive function. It is required that all Ships/Units/Establishments meet the following requirements. (12 is relevant for Shore Establishments only.)

a. All Units are to have an **active** UH&PC which meets once per term.

b. Prior to holding a UH&PC the Executive or at least once per year, are to have completed a Maritime Health Environment Assessment Tool. See para 2116.

c. The UHC must be chaired by the CO (shoreside) XO (Ships/submarines).

d. Hold a UH&PC meeting within 1 month before a deployment.

e. The UH&PC must address the best interests of all personnel and be responsive to change.

f. After each UH&PC meeting, the minutes and UHAG must be sent to RN H&P Team.

g. Hold regular H&P days/events/initiatives to promote a healthy lifestyle. These must take place before a deployment. Examples can be found in the H&P Toolkit.

h. All Units must have at least one H&P notice board to provide information and signpost how to access support. These must be updated termly and be in a space with high footfall.

i. A new H&P campaign must be initiated termly. For information on this please contact RN H&P Team.

j. All Units must have the correct amount of Menstrual Support Boxes.

k. No and Low alcohol beverages must be stocked in all mess bars. For information, please see JSP 661 Physical Health and Lifestyles – Section 4.

l. All units must maintain up to date Health and Performance feedback. More information on this can be found in the RN H&P Toolkit on Navy P&T Health & Performance SharePoint.

m. Provision of Pre/Post-Natal support including a breast-feeding facility. For information, please see JSP 661 Women’s Health - Section 5.

2914. Maritime Health Assessment Tool (m-HEAT)

a. The Maritime Military Health Environment Assessment Tool (m-HEAT) is an observational audit tool that aims to gather information to describe the maritime military environment from the perspective of supporting health behaviours. This specific version of the m-HEAT assessment tool is aimed at systematically gathering information to describe the health environment of Royal Navy (surface and sub-surface) vessels.

b. The m-HEAT will inform the Unit Health and Performance Committee (UH&PC) in undertaking a Strategic (Health) Needs Assessment. This is a self-assessment tool; it is not an assurance tool. The information from the m-HEAT can provide the basis for a Unit Action Plan.

c. The objectives of the m-HEAT are to collate information to:

(1) Describe the maritime military environment, including its policies and practices, in terms of influencing diet, physical activity, sleep, alcohol consumption and nicotine/tobacco use behaviours.

(2) Identify existing environmental factors that could promote positive health behaviours.

(3) Highlight areas which could be improved, and/or remedial actions taken, to better support health behaviour change programmes and/or interventions.

(4) Identify priority areas where Senior Leader intervention could be targeted to improve the efficacy of remedial actions and/or health behaviour change programmes and/or interventions.

(5) Benchmark key outcome measures, allowing audit scores to be compared across time points, to assess the effectiveness of remedial actions and/or health behaviour change programmes and/or interventions.

d. The Unit Commanding Officer is responsible for the completion of the maritime m-HEAT, who should delegate sections to the appropriate Heads of Department to provide accurate information.

e. The m-HEAT uses a scoring system where positive responses are scored with a ‘+1,’ and negative responses are scored ‘0’. A response of ‘N/A’ may be used in the comments section where an item may not be relevant to the specific maritime workplace (e.g. due to size or role of the vessel).

f. To obtain a final score for each section, sum all the positive responses (NB. for some items a ‘N’ is the positive answer, e.g. *special promotions on high-fat/high-sugar snacks*). A percentage will be calculated, taking into account items marked as ‘N/A’, which will be deducted from the final score for that specific section.

g. Additional narrative responses are not assigned a numerical score and will be used to add contextual depth and understanding to the quantitative scoring system. A free text narrative section is included at the end of the m-HEAT document to allow Unit reflection on the scores. The UH&PC should then consider the challenges/ blockers and facilitators/ enablers to inform an **Action Plan** which is then delivered and monitored by the UH&PC.

2915. Pre- and Post-Natal Instruction (PPNI)

For information on maternity and RNPES please see BR51 Chapter 10.

a. Organised maternity exercises classes are to be conducted within the gym environment. All establishments to offer an organised PPNI class once per week, supervised by a qualified pre and post-natal exercise instructor.

b. Facilities should be adapted for mother and a baby in a carrier, and suitable time slots should available.

c. A mother will not bring her baby into an environment where she feels the baby is unsafe. A baby placed alongside an exercise machine when the mother uses the machine can be perfectly safe if the area is set up appropriately and/or the time of day avoids peak usage periods.

d. If the local H&S assessor deems that it is not safe for a mother to bring a baby into the gym environment SO1 PDev and the RN H&P team are to be informed, along with reasons for this conclusion and the actions required.

2916. Menstrual Support Box (MSB)

a. Defence Women's Health Policy outlines that Service Personnel must be provided with additional support to manage menstruation through the provisions of the Menstrual Support Box (MSB). The policy supports the commitment to create an inclusive environment for our diverse workforce. It is an individual's responsibility to choose their menstrual management methods and ensure that they have their own supply of menstrual products. Service Personnel should be encouraged to take enough supplies to last longer than expected under usual conditions.

b. The MSB is there to provide support to Service Personnel by giving them access to menstrual supplies for use in case of unexpected bleeds or when their personal supply has become insufficient. For information, please see JSP 661 Women's Health - Section 3.

c. The MSB, contains disposable products to meet any period needs. Each box is designed to supply approximately 10 personnel for one menstrual cycle. For information, please see JSP 661 Women's Health - Section 3.

d. Eligibility. All units and establishments are eligible to order the MSB. All units and establishments should always have a MSB with sufficient supplies.

e. Procurement. It is the responsibility of the unit's Logistics Officer (or equivalent) to order the Menstrual Support Box for their unit. Boxes can be ordered via the Management of Joint Deployed Inventory (MJDI) using NSN DAS6 6150-99-979-4979.

(1) Units should order the MSB based on the number of personnel who menstruate. The number of MSB per unit should be equal to 10% of female deploying personnel (minimum quantity of 1).

(2) The logistics team must ensure that the MSB is stocked and should reorder a box when any quantity of the items reaches less than 25% of a complete box. Some items within the MSB will have expiry dates. The logistics team must ensure any contents past their expiry dates are disposed of.

SECTION 6

PUBLIC FUNDING TO ACCESS FITNESS TRAINING FACILITIES

2917. Provision Of Civilian Gymnasium Membership – Criteria

A level of physical fitness ability is required to pass the RN Physical Employment Standard (RNPES). In addition, evidence has shown regular fitness training has a positive impact on individual Health and Performance supporting a better Lived Experience. All RN personnel are expected to maintain the minimum acceptable physical employment standard annually, as defined in the RNPES policy. To support the annual physical test requirement, military fitness facilities are in normal circumstances provided. However, it is recognised that exceptionally, there are those who are assigned to remote locations where military fitness facilities are not available. Consequently, alternative arrangements are available to allow RN personnel to gain access to civilian fitness facilities, at public expense. The eligibility criteria are in BRd 51 Chap 8 or contact: NAVY PEOPLE-PS OP FITNESS (MULTIUSER) NAVYPEOPLE-PSOPFITNESS@mod.gov.uk.

ANNEX 29A

UHC AGENDA TEMPLATES WITH UHC ACTION GRID

Serial	Item	Lead
1.	Welcome and Introduction	Chair
2.	Review and Update of Previous UHC Meeting Action Grid	Chair/SME
3.	Updates on the following (delete as appropriate) a. Women's Health b. Addictions 1. Alcohol 2. Smoking/vaping 3. Gambling 4. Energy drinks c. Healthier Weight 1. Physical Activity 2. Nutrition d. Sexual Health and Relationships e. Mental Fitness/Resilience 1. Mental Fitness Training f. MSKI g. Other	SMEs
4.	Unit Health Data and Feedback from reps. (RNPES/DOFit/Remedials/Smoking Cessation)	PTI (where applicable)/ Medical Team
5.	Review and update of H&W campaigns and initatives.	Sec
6.	CO/XO top 3 termly local priorities and action plans. These should be escalated to RN H&W Team	Chair
7.	Areas requiring assistance from RN H&W team.	Chair/Sec
8.	AOB	All
9.	Proposed date of next meeting	Sec

For examples of what you may discuss in each section please see the Unit Health Toolkit.

When deciding actions please use the following colour code:

If action is needed to be taken immediately (within 1 month)	**Red**
If action is moderate (2-3 months)	**Amber**
If action is not urgent (3+ months)	**Green**

Serial	Item	Action	Lead	RAG
1.	Welcome and Introduction			
2.	Review and Update of Previous UHC Meeting Action Grid			
3.	Updates on the following (delete as appropriate) a. Women's Health b. Addictions 1. Alcohol 2. Smoking/vaping 3. Gambling 4. Energy drinks c. Healthier Weight 1. Physical Activity 2. Nutrition d. Sexual Health and Relationships e. Mental Fitness/Resilience 1. Mental Fitness Training f. MSKI g. Other			
4.	Unit Health Data and Key Performance Indicators (RNPES/DOFit/Remedials/Smoking Cessation)			
5.	Review and update of H&W campaigns and initiatives.			
6.	CO/XO top 3 termly local priorities and action plans. These should be escalated to RN H&W Team			
7.	Areas requiring assistance from RN H&W team.			
8.	AOB			
9.	Proposed date of next meeting			

For examples of how to use the colour coding and actions that may come up please see the Unit Health Toolkit.

ANNEX 29B

AUTHORISATION AND GOVERNANCE OF 'ONE-OFF' ACTIVITIES WHICH ARE NOT CATEGORISED AS SPORT OR ADVENTUROUS TRAINING

1. The key points for consideration before authorising an activity are provided in Table 29B-1 below:

Table 29B-1. Key Points.

Condition	Key Points to Consider
Types of Activity.	Due to the broad spread of events/activities, it is not possible to provide a definitive list, however, examples that could be considered by the CoC are: The Three Peaks Yacht Race The Scottish Islands Peaks Race Race the Sun RA Adventure Race Organised Ultra-Distance Endurance Events RM Lympstone to Poole Race Battlefield Tours that are not part of a core military training course An example of a type of activity that should not be authorised are all Civilian Obstacle Course Races[1] (including): Tough Guy Tough Mudder
Is it Appropriate?	The event/activity must be team-based (more than 2 people) and demonstrate a benefit to Defence and the personal development of the team members participating, typically, physical fitness, teamwork and leadership.
Safety	Ensure that there is a Safe System of Training (SST)[2] including the 4 elements of; 'Safe Practice, Safe People, Safe Place and Safe Equipment' is established. Examples are: Ensuring that individuals are wearing appropriate levels of Personal Protective Equipment (PPE). For example, the wearing of PPE that is mandated when conducting any form of military training but is not stipulated for a civilian event/activity then the level of PPE required by the military should not be reduced. Complying with policy when assessing the anticipated environmental conditions before and encountered during the event/activity[3].
Charitable Fund-Raising	Raising money for charity must not be the primary reason for the event/activity, nor must it be a mandatory requirement for participation. A contribution to charity must not be part of an event/activity entry fee.

[1] Civilian OCR are not recognised as providing a Safe System of Training (SST). When military training on obstacle courses is conducted, appropriate levels of clothing (i.e. boots with a heel, full body coverage) and equipment (helmets) are normally worn to protect the individual
[2] JSP 375. Management of Health and Safety in Defence.
[3] JSP 539 – Heat Illness and Cold Injury: Prevention and Management.

Condition	Key Points to Consider
Risk Assessments	A detailed risk assessment (recommend on MOD Form 5010) may be completed by a competent person and subsequently considered by the authorising officer[4]. The risk assessment must consider all components of the event/activity, including travelling to and from the location of the event/activity. The hazards and control measures must be made known to the participants. If circumstances/time dictate, then a dynamic RA should be considered. Particular consideration must be made to the risk of Heat/Cold Illness. All PTIs (or establishment H&S advisors) should be well versed in completing these risk assessments. The risk must be accepted by an appropriate person (AP). There needs to be a clear limit to the delegation for any Dynamic Risk Assessment (RA) that can be conducted by the OiC once the event is underway. P 375 Chapter 8 should be referenced. (i.e. knowing when to "stop"). **Review the risk assessment and update (as necessary)** The Commander, Manager or AP **must** continuously assess the activity and where unexpected hazards arise or the activity changes, then he risk assessment **must** be reviewed (this is referred to as a dynamic risk assessment) **and additional control measures added if necessary.** **Potentially high-risk activity**. The residual risk must be identified, who is authorised to hold such risk and that an audit trail confirms that the activity plan was agreed as ***ALARP and Tolerable*** – and that the plan will be followed.
Duty of Care	All events/activities must be subject to the direction and guidance within MOD policy[5]. For AT and Sport in the RN, Duty of Care (DoC) applies to all activities. The Royal Navy only applies Duty Holding to military activity so does not apply Duty Holding to AT, Sport or the types of activity considered in this RNTM. If in doubt refer to BRd10 and/or the Navy Safety Centre.
Experience and/or Competence	Authorising officers must be satisfied that participants are appropriately prepared and, if necessary, qualified to participate in the event/activity.
Fitness and Medical Standards	The following fitness and medical standards must be applied: **Fitness Standards.** As a minimum, participants must be in-date for their respective Service fitness assessment. Depending on the event/activity. **Medical Standards.** In principle, all participants should be graded Medically Fully Deployable (MFD). However, it is recognised that some individuals without an MFD grading may be more than capable of participating in an event/activity or participation may assist recovery to MFD. Authorising officers

[4] The CO or the 2* will be the authorising officer IAW the 'Decision Matrix' process at Annex A.
[5] DSA 01.1 – Defence Policy for Health, Safety and Environmental Protection.

	must assess the medical status of all participants and seek medical advice if they are unsure of an individual's ability to participate.
Condition	**Key Points to Consider**
Duration	Events/activities will normally be short in duration, lasting up to 7 days but this is at the discretion of the authorising officer.
Location or Destination	The following points apply: **General.** Event/activity organisers should select activities within the UK. However, events/activities conducted overseas may be considered, but may not attract the same levels of public funding, especially for travel (see Table 2). **Land Clearance in UK**. Activity organisers should consider whether Land Clearance is required for their proposed event/activity. Guidance can be found in JSP 907 – Use of the Defence Training and Evaluation Estate. **Overseas In-country Clearance**. Where an event/activity is taking place outside of the UK, the Activity Organiser must obtain in-country clearance from the Defence Attaché at the Embassy of the destination country. **Accidents/Incidents**. All accidents and incidents must be managed and reported in accordance with JSP 375 and sS reporting procedures (NSOR tbrb DURALS). **Medical Plans and Emergency Action Procedures**. Authorising officers should ensure that activity Organisers/Participation Co-ordinators have a Medical Plan that includes Emergency Action Procedures (EAP); it is essential that the Medical Plan and EAPs are well known to key unit personnel and all individuals conducting/involved with the event/activity.
	Overseas Medical Facilities. As part of the Medical Plan it is recommended that event/activity organisers/coordinators contact the in-country DA staff to establish the country's medical facilities, emergency process and other medical matters. This information and the medical sequence to be followed needs to be included in the Medical Plan and EAPs. It may also require Competent Medical Authority (CMA) approval[6]. It may also be necessary to consider a group or individual medical insurance.
Personal Insurance	If correctly authorised in following the guidance within this RNTM and Service Personnel (SP) are placed 'On Duty', they will be covered by the MOD's self-insurance arrangements whilst participating in the specific event/activity. However, individuals are strongly recommended to have personal accident and liability insurance to cover any occasions when they are not **directly** participating in the activity (such as periods of stand-down/leave or other activities not directly related to the authorised event/activity). Organisers are to check whether

[6] The RN CMA is Asst Head Medical Operations and Capability.

	participants have insurance and encourage those without, to purchase cover. The risks of not being covered are to be clearly explained.

Condition	Key Points to Consider
Equipment Insurance	As the MOD is not liable for the cost of insuring personal effects or issued military equipment, equipment insurance is strongly recommended to cover the loss or damage to personal and military issued equipment that may occur during any event/activity.
MOD Insurance and Duty Travel	Under government legislation the MOD's liability towards its passengers is restricted to approximately £75,000. If individuals wish to obtain increased cover, they should take out further insurance at their own expense. Please refer to MOD Insurance for Duty Travel for further guidance.
Civilian Participation	Except for the use of key enablers, civilian participation (including MOD Civil Servants and Contractors) is not to be authorised for events/activities being considered within this policy.
Use of Key Enablers	For some events/activities there may be the requirement for a key enabler[7]. The use of a key enabler to facilitate activities is limited to those already in the employment of MOD as Crown Servants (Military/Civilian) or through call-off contracts.
Fee Earners	If a key enabler is not sourced from the above means then units can use the 'Fee Earners Engagement' process, however approval for this must be through the Fee Earner Engagement HR Form 161
Duty Status	If correctly authorised, then SP will be 'On Duty' whilst participating in the specific authorised event/activity. As in any other military situation there may be occasions when SP are considered 'Off Duty', when engaged in a function or an activity not required by the Service and not directed or supervised by Service leaders. The exercise instruction should delineate between these periods and participants should be made aware of each transition.
Off Duty Recreation Activity	Individuals may partake in activities should they so wish, however, there must be no association with the unit (transport/admin order/funding) which may suggest that the unit is any way responsible for the activity[8].
Pre-Training	Authorised events/activities may require some form of pre-training to conform to the SST. If required, all pre-training must be conducted within the spirit of the Direction and Guidance (D&G) within this RNTM.

[7] Instructor, Guide, Skipper etc.
[8] Any guidance or instruction on an activity may be misinterpreted as inadvertent authorisation or approval by the unit

2. Funding

If correctly authorised, some elements of public funding may be used to help offset the cost of participation, but this must be approved by the appropriate budget holder. Any shortfall in public funding is to be met from non-public funds. Guidance for funding sources is listed in Table 2 below:

Table 29B-2. Use of Public Funds.

Action	Guidance
Travel	Travel at public expense from the unit travel budget can only be authorised for events/activities conducted within the UK; Overseas travel can only be conducted at non-public expense (this includes all elements of travel and subsistence, including from unit to point of disembarkation and the equivalent return journey). Travel is to be by the most economic method and should be based on collective arrangements whenever possible.
Subsistence	In accordance with JSP752 Parts 1 and 2 day and night subsistence allowances are not eligible. Military accommodation must be used in the first instance. Where military accommodation is not available, accommodation costs are to be met from non-public funds[9].
CILOR	If military accommodation that provides catering or Pay as You Dine (PAYD) facilities is not available, then CILOR can be authorised and must be applied for through respective Log Sp Food Services departments.
Local Overseas Allowance (LOA) and Longer Separation Allowance	In accordance with JSP 752 Part 2 LOA and LSA allowances are not eligible[10].
Commanding Officer's Public Fund (COPF)	Use of the COPF may be authorised to help offset the cost of participation however it must not be used to pay for event entry fees.
Non-Public Funds	Where public funds do not meet the expected costs of the activity, shortfalls must be met from non-public funds. Potential sources of non-public funds include, but are not limited to the following: Ship/Unit Funds. RN&RM Sports Lottery. RN&RM Charity. RM Charity (RM only). Others (Greenwich Hospital, Gosling Foundation etc)

3. Other financial considerations include:

a. **Sponsorship.** Any applications for sponsorship must be in accordance with policy[11] and advice must be sought from Navy Command Corporate Governance at the earliest opportunity. There is a requirement to report all core and non-core sponsorship activity above £5K as part of quarterly returns to MOD, submitted through Navy Command Corporate Governance.

[9] For example, the use of campsites is permitted but costs must be met from non-public funds.
[10] N.B. Para 19 of JSP 752 Part 2 for other allowances/charges that may affect individuals whilst away on activities.
[11] JSP 462 – Part 2, Chapter 7 – Sponsorship.

b. **Personal Contributions.** Having expended all efforts to identify sources of funding, a personal contribution may still be required to participate in the event/activity. The level of personal contribution will be wholly dependent upon available public or non-public funds and at the discretion of the authorising officer. A personal contribution reflects commitment from an individual and should be seen as positive.

c. **Route to Market.** It is important to note that the payment for goods or services using public funds should be through the commercial route to market process and Contracting, Purchasing and Finance (CP&F). This also applies to travel activity that has been given a HRG travel exemption.

4. Authorisation. All activities within the scope must be authorised by the Commanding Officer (CO) of the individuals participating. The following principles will apply:

a. **Decision Matrix.** It is anticipated that many selected events/activities will incorporate risk; either physical, reputational, or both. A simple matrix to assist the CO when determining the level of risk involved is included in this Annex. Three levels of risk are defined which are linked directly to a hierarchy of authorisation[12]:

(1) **Low Risk.** Activities assessed as Low Risk can be authorised by the CO.

(2) **Moderate Risk.** Activities assessed as Moderate Risk require elevation to 1* HQ for subsequent advice[13] and oversight before a CO makes a decision on authorisation.

(3) **High Risk.** Activities assessed to be High Risk will require a Military Judgement Panel (MJP) to be convened by the unit's 2* HQ. Guidance on the attendance and conduct of the MJP is provided below. The MJP must authorise the activity for it to proceed.

b. **Single Unit Activities.** The CO of the unit conducting the event/activity, or who has unit personnel participating in an event/activity, must endorse the activity or proposed participation. The CO must ensure there is a suitable Officer, Warrant Officer or SR/NCO to be the event/activity responsible person[14] for the 'Duty of Care' of all participants.

c. **Multi-Unit Activities.** Where participating individuals come from more than one unit, then a lead unit must be appointed[15]. The CO of the lead unit must ensure there is a suitable Officer, Warrant Officer or SR/ NCO to be responsible for the Duty of Care of all participants. It is advised that SP from other units complete Annex C (signed by their CO) and forward the Annex to the lead unit's activity organiser/participation coordinator to confirm authorisation for their involvement.

[12] A 3 layered assurance approach that involves an elevation up the CofC as the risk increases. This provides assurance and risk management oversight IAW the DH construct.
[13] From a Suitably Qualified and Experienced Person (SQEP) or Subject Matter Expert (SME). The Duty Holding CofC can also seek advice from SQEPs or SMEs outside of their CofC from other organisations such as Dep Hd Navy Sport and RN AT HQ, and may be signposted to other organisations for SQEP/SME advice.
[14] This person must be in attendance and taking part in the event.
[15] Usually the CoC of the proposed activity organiser/leader.

d. **Activity Administration Instruction.** An Administration Instruction enables event organisers to formally capture all the processes of authorisation and provides COs with a tangible and auditable document to demonstrate compliance with MOD policy and procedures. A nominal roll within such a document will also act as the mechanism for placing SP on duty.

e. **Daily Orders.** In lieu of an Administration Instruction for more simple events, participation in an activity may be recorded on the unit/ship's Daily/Weekly Orders.

5. Media Plan. Depending on the nature of the activity**,** organisers/coordinators are strongly encouraged to consider a Media Plan, this is to produce positive media coverage to sell the Navy's message to aid retention and recruitment.

6. Advice. Whilst the CoC is responsible for determining whether to authorise these activities, general advice on the principles introduced in this RNTM should in the first instance be sought from the unit PT department.

ANNEX 29C

GUIDANCE FOR COMMANDING OFFICERS WHEN DETERMINING RISK LEVELS

1. General. The table below provides a decision matrix to assist COs when determining risk levels associated with activities. It does not negate the requirement to conduct a full risk assessment IAW JSP 375. An elevated level of risk will require an elevated level of authorisation:

Risk Factor	Risk Threshold		
	Low (1 pt)	Moderate (2 pts)	High (3 pts)
Altitude	≤2500m	2500 – 3500m	≥3500m[1]
Degree of Hazard[2] (Technical nature of discipline)	Low	Medium	High*
Work Rate[3] (both physical & psychological)	Low	Moderate	High* (if sustained for long periods)
Duration of Continuous Activity (per 24 hrs)	Short (<8 hrs)	Moderate (8-16 hrs)	Long (>16 hrs)
Rest and Recovery Period During the Event/Activity (per 24 hrs)	Long (>8 hrs)	Moderate (5-8 hrs)	Short (<5 hrs)
Acclimatisation	Acclimatised	See note[4]	Unacclimatised[5]
Participant Preparedness	Full	Partial	None
Remoteness (Access to / Response of Emergency Services)	<30 mins	30-60 mins	>60 mins
Organised Event Reputation	Established Event Good Safety Record	N/A	New Event or Frequent Health & Safety Incidents*
Estimated Climatic Conditions (Wet Bulb Globe Temperature (WBGT))[6]	As the vast majority of authorised activities via this RNTM sit outside the WBGT Work/Rest tables contained within JSP 375 Ch 41, all climatic conditions (heat and cold) must be considered separately outside this scoring matrix and specified within the activity Risk Assessment.		

2. Risk Scoring. When determining a risk rating, the following scoring is to be used:

a. Risk factors with a ‘Low’ risk threshold - 1 pt.

b. Risk factors with a ‘Moderate’ risk threshold - 2 pts.

[1] Due to the increased risk of altitude-related illnesses (Acute Mountain Sickness (AMS), High Altitude Cerebral Oedema (HACE), High Altitude Pulmonary Oedema (HAPE)), any activities conducted above 3500 metres must automatically be evaluated and authorised by a 2* HQ MJP.
[2] Examples – **Low** - Road cycle touring, **Medium** - Road cycling competitions/races with technical descents at speed, **High** - Off road cycling events/competitions with technical or graded descents.
[3] JSP 375 Ch 41 Annex C provides further detail on Work rate tables
[4] Personnel are either acclimatised or unacclimatised.
[5] In accordance with JSP 539, Part 2, Annex C, UK and Northern Europe based personnel are deemed to be unacclimatised.
[6] For planned activity this can be provided anywhere in the world by the Joint Operations Meteorology and Oceanography Centre

c. Risk factors with a ‘High’ risk threshold - 3 pts. *If an event/activity has a risk factor that falls into these thresholds, consideration regarding participation in the event/activity must be elevated to 1* HQ level for advice and oversight prior to the CO’s authorisation decision is made (even if the total risk score is ‘Low Risk’).

3. Risk Rating and Authorisation. Once the risk factors above have been scored according to the anticipated risk threshold, all of the individual scores are to be added together to create a total risk score. The total risk score will produce a risk rating. This rating is directly linked to the level of authorisation required as defined at para 7a. The risk rating against the total risk score and level of authorisation required is as follows:

Risk Level	Score	Authorised By
Low Risk	Score of 10-12 pts	CO’s Authorisation
Moderate Risk	Score of 12-17 pts	CO’s Authorisation after elevation for advice and oversight at 1* HQ level
High Risk:	Score of 18 pts or more	2* HQ MJP Authorisation

4. Changes in Risk Factors. If the event risk factors and their associated thresholds change from the original scoring, then the following procedure must be applied:

a. A daily/dynamic risk assessment is conducted to include control measures/management of the risk.

b. The updated risk assessment is to be reported back to the Authorising Officer for guidance, advice and continued authorisation to participate.

c. This is to be conducted by the appointed 'Duty of Care' person in consultation with any SQEP or SME present on the ground.

d. The Authorising Officer remains responsible for authorising activities that have elevated risk identified through the daily/dynamic risk assessment.

ANNEX 29D

2* HQ - MILITARY JUDGEMENT PANEL (MJP) COMPOSITION AND CONSIDERATIONS

1. General. As introduced at para 8 and defined at Annex B, some activities may be considered 'High Risk' and subsequently require higher level scrutiny by a unit's 2* HQ.

2. MJP Composition. The suggested membership of a 2* HQ MJP is:

a. Activity Risk Owner (or appointed representative).

b. Corporate Governance representative.

c. Budget Manager.

d. Health and Safety representative.

e. Medical representative.

f. An independent activity-specific Subject Matter Expert (SME) for example:

(1) SO1 AT representative (if appropriate).

(2) DHd Navy Sport representative (if appropriate).

3. MJP Considerations. The aim of the MJP is to:

a. Consider the appropriateness of the event/activity being proposed.

b. Consider the safety arrangements and assess their robustness.

c. Establish whether the benefits of participation outweigh the risks.

d. Set the conditions under which authorisation to participate is predicated.

4. MJP Event Assessment. To help inform the MJP process, the activity leader is to populate the MJP Event Assessment Form at Appendix 1.

5. MJP Result. Having fully considered the activity, the MJP is to produce a written record of the result reached, inform the requesting unit accordingly and archive the record for future retrieval as required.

APPENDIX 1 TO ANNEX 29D

MILITARY JUDGEMENT PANEL (MJP) - EVENT ASSESSMENT FORM

Section 1 - Event Details						
Event Title:						
Activity(ies):						
Organising Body (if a civilian event)						
Location/s:						
Date/s:	From:		To:			

Section 2 - Proposing Unit Details						
Unit Title:						
Activity Leader:	Rank:		Name:		Tel:	
Commanding Officer:	Rank:		Name:		Tel:	

Section 3 - Event Description and Aim of Participation
Briefly describe the event and state the aims and objectives that will be achieved by those participating:

Section 4 - Funding Arrangements
Briefly describe the funding arrangements proposed for participation in the event: (i.e. entry fees, travel, accommodation, food, etc)

Section 5 - Unit Participants	
No of personnel participating:	
Describe their role/s in the activity:	
Describe their level of competence and preparedness for the activity: (include any qualification requirements and any pre-training)	
Confirm fitness levels and medical status: (refer to para 5f of RNTM)	

Section 6 - Event Safety (summary of risk assessment and admin instructions)
Describe the written instructions, verbal briefings and Duty of Care that will be afforded to participants:
Describe the topographical and environmental conditions that are expected: (i.e. terrain, sea state, weather, etc)

Describe any personal protective clothing and equipment that will be used throughout the event:
Describe the minimum safety standard for any specialist equipment used: (i.e. vehicles, bikes, boats, etc)
Describe the medical arrangements that will be available throughout the event:
Describe the Communication Plan being used for the event: (i.e. use of radios, mobile phones, GPS Trackers (include coverage) etc)
Describe the procedures for emergency recovery or evacuation:
Describe the procedures for incident reporting and notification:

Section 7 - Other Remarks

Use this section to provide any further details that the MJP should be made aware of or that may assist them in making their decision:

Section 8 - Authentication by Activity Leader

Signed		Rank		Name		Date	

Section 9 - MJP Approval / Not Approved (delete as appropriate) - Risk Held

Signed		Rank		Name		Date	

CERTIFICATE OF AUTHORISATION FOR MULTI-UNIT ACTIVITY

1. This certificate is to be completed by individuals, from units other than the lead unit, when participating in an activity within scope of this RNTM.

2. Once completed and authorised by the individual's Commanding Officer, iaw JSP 375 Chapter 39 (Retention of Records) this certificate is to be forwarded to the activity organiser in the lead unit, who must retain the certificate as confirmation of authorisation to participate in the event/activity. When this certificate is considered no longer valid it should to retained locally or sent to archive (see JSP 441) and should be retained for a minimum of 3 years.

Section 1 - Event Details	
Event Title:	
Activity:	
Organising Body (if a civilian event):	
Date/s:	
Location/s:	
Section 2 - Lead Unit Details	
Lead Unit Title:	
Name of Unit Activity Leader:	

Section 3 - Unit Participant Details					
Ser	Service No	Rank	Initials	Surname	Remarks
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					

Section 4 - Unit Point of Contact					
Rank		Name		Tel No	

Section 5 - Commanding Officer's Authorisation							
I hereby authorise the personnel listed at Section 3 above to participate in the activity described at Section 1 above:							
Rank		Name		Signature		Date	

ANNEX 29E

MARITIME MILITARY HEALTH ENVIRONMENT ASSESSMENT TOOL (m-HEAT) ASHORE

- Background Information
- Background information is obtained to understand the demographics of the maritime military working environment and provide some context to the audit.

SECTION 1: Background Information	
Date of Completion:	
Unit and Establishment Type (e.g. RN, RM, tri-Service, or detail mixed):	
Unit Taskings (e.g. Initial Military Training, Dockyard, Air Station, etc.):	
Typical working patterns of Unit personnel (Working day/ hours/ special duties):	
Average number of personnel attached to the Unit:	
Male:	
Female:	
Officers:	
Senior Rates/Ranks:	
Junior Rates/Ranks:	
Living Accommodation (e.g. SLAM, Houses, Blocks [room occupancy] – provide as much detail as possible):	

SECTION 2: The Nutrition Environment			
1. Meal timings (for your Unit as appropriate; leave blank where not relevant): (e.g.: xx:xxhrs – xx:xxhrs)			
a. Juniors Dining Facility:	Breakfast: _ _ : _ _ - _ _ : _ _	Lunch: _ _ : _ _ - _ _ : _ _	Dinner: _ _ : _ _ - _ _ : _ _
b. Seniors Dining Facility:	Breakfast: _ _ : _ _ - _ _ : _ _	Lunch: _ _ : _ _ - _ _ : _ _	Dinner: _ _ : _ _ - _ _ : _ _
c. Wardroom/Officers Mess:	Breakfast: _ _ : _ _ - _ _ : _ _	Lunch: _ _ : _ _ - _ _ : _ _	Dinner: _ _ : _ _ - _ _ : _ _
d. Other (Please Detail): _____	Detail Opening Times:	_ _ : _ _ - _ _ : _ _	Notes:
e. Duty Meals Availability:	Breakfast: _ _ : _ _ - _ _ : _ _	Lunch: _ _ : _ _ - _ _ : _ _	Dinner: _ _ : _ _ - _ _ : _ _
2. Typical time available to eat:	Breakfast: _ _ hrs _ _ min	Lunch: _ _ hrs _ _ min	Dinner: _ _ hrs _ _ min
3. Menu cycle (number of weeks):			
4. Free time of personnel:	a. Typical Timings: _ _ : _ _ - _ _ : _ _ _ _ : _ _ - _ _ : _ _ _ _ : _ _ - _ _ : _ _ _ _ : _ _ - _ _ : _ _ _ _ : _ _ - _ _ : _ _ _ _ : _ _ - _ _ : _ _ b. Where does the crew (Juniors, Seniors, Officers) spend their free time? Juniors: …… Seniors: …… Officers: ……		

	c. Typical food consumed during this time: Juniors: …… Seniors: …… Officers: …… d. Typically, from where is the food/drinks consumed during this time sourced: Juniors: …… Seniors: …… Officers: ……

5. Provision (Dining Facility = DFAC)	Juniors DFAC	Seniors DFAC	Ward-room	Details	Score
a. A Healthy meal choice available	Y_1 N_0	Y_1 N_0	Y_1 N_0		
b. Healthy choices are identified on the menu	Y_1 N_0	Y_1 N_0	Y_1 N_0		
c. Healthy choices are identified at the Counter	Y_1 N_0	Y_1 N_0	Y_1 N_0		
d. How many main meal choices at lunch?					
e. How many main meal choices at dinner?					
f. Healthy options are clearly visible	Y_1 N_0	Y_1 N_0	Y_1 N_0		
g. There is a vegetarian option	Y_1 N_0	Y_1 N_0	Y_1 N_0		
h. There is a vegan option on request	Y_1 N_0	Y_1 N_0	Y_1 N_0		

i. There is a gluten free option on request	Y_1	N_0	Y_1	N_0	Y_1	N_0		
j. There are health education/promotion materials in the DFAC	Y_1	N_0	Y_1	N_0	Y_1	N_0		

6. Typical food provision at meal times (check against menus)

Junior DFAC: a. Breakfast: b. Lunch: c. Dinner:	Senior DFAC: a. Breakfast: b. Lunch: c. Dinner:
Wardroom/Officers' DFAC: a. Breakfast: b. Lunch: c. Dinner:	Duty Food Offer: a. Breakfast: b. Lunch: c. Dinner:

d. Is it considered by personnel that portion sizes are generally acceptable? Y_1 N_0

Detail evidence to inform this decision:			
7. Accommodation Facilities	**Available?**	**Additional Comments**	**Score**
Kettle?	Y_1 N_0		
Microwave?	Y_1 N_0		
Air-fryer	Y_1 N_0		
Blender?	Y_1 N_0		
Fridge?	Y_1 N_0		
Freezer?	Y_1 N_0		
Cupboards for Storage?	Y_1 N_0		
Other? (Please detail)	Y_1 N_0		
Improvements that could be made within the accommodation constraints?			
8. The Shop/Vending Machines	**Available?**	**Additional Comments**	**Score**
a. Opening Hours	_ _ : _ _hrs - _ _ : _ _hrs _ _ : _ _hrs - _ _ : _ _hrs _ _ : _ _hrs - _ _ : _ _hrs _ _ : _ _hrs - _ _ : _ _hrs _ _ : _ _hrs - _ _ : _ _hrs _ _ : _ _hrs - _ _ : _ _hrs		
b. Meal deals are available	Y_1 N_0		
c. Healthy snacks are available	Y_1 N_0		
d. There are special promotions to encourage healthy eating	Y_1 N_0		

e. There are special promotions on high-fat/high-sugar/ large portion snacks	Y_0 N_1		
f. Are healthy option prices comparable to, or cheaper than, less healthy options?	Y_1 N_0		
g. What would you say are the most popular items?	Detail:		
h. Is there a large selection of high-energy/ caffeinated beverages available?	Y_0 N_1		
i. On balance, would you consider that there are more promotions for unhealthy food options compared with healthy food options?	Y_0 N_1		
j. (If available) vending machines provide healthy snack/drink options?	Y_1 N_0		
k. (If available) the prices of vending machine healthy options are comparable to or cheaper than less healthy options?	Y_1 N_0		
l. What improvements could be made to the shop/vending machine **provision** to encourage healthier eating behaviours?	Y_1 N_0		
m. What improvements could be made to the NAAFI **marketing/ health promotion materials** to encourage healthier food choices?	Detail:		
		Sub-Total	__ / 27

SECTION 3: The Physical Activity Environment						
1. Physical Training						Score
a. Do unit personnel partake in organised structured physical training delivered by a PTI?	Y_1 N_0	Additional Comments				
b. If yes, how frequently (circle times per week)?	5+	4-5	3 - 4	2 - 3	1 - 2	1 – 0
c. What type of activities are offered? (e.g. Circuits, Pilates, Boxing, Yoga)	Detail:					
d. On average, are these group classes well attended?	Y_1 N_0	Additional Comments:				
e. Which activities are particularly well-attended by unit personnel?	Detail:					
f. Are personnel allocated time to carry out their own physical training during the working day?	Y_1 N_0	Additional Comments:				
g. If yes, on average how regularly does this occur (circle times per week)?	5+	4 – 5	3 – 4	2 – 3	1 – 2	1 – 0
h. Are organised sporting opportunities provided?	Y_1 N_0	Additional Comments:				
i. Are Adventurous Training opportunities provided?	Y_1 N_0	Additional Comments:				

2. Fitness training facilities/ equipment			
a. Is there a gym available? *If more than one, please detail in additional comments*	Y_1 N_0	**If no, move to question 3.** Additional Comments	
If yes, what equipment is available?			
b. Treadmill	Y_1 N_0	How many?	
c. Rowing Machine	Y_1 N_0	How many?	
d. Stepper	Y_1 N_0	How many?	
e. Cross-Trainer	Y_1 N_0	How many?	
f. Bike	Y_1 N_0	How many?	
g. Spinning Bike	Y_1 N_0	How many?	
h. Free-Weights (Dumbbells/ benches)	Y_1 N_0	How many?	
i. Free-Weights (Power/Squat rack)	Y_1 N_0	How many?	
j. Lifting Platform	Y_1 N_0	How many?	
k. Functional Training Rig	Y_1 N_0	How many?	
l. Mats	Y_1 N_0	How many?	
m. Boxing Bag and Gloves	Y_1 N_0	How many?	
n. Please detail any equipment not listed above:			

n. Is there music in the gym?	Y_1 N_0		
o. Is there a TV in the gym?	Y_1 N_0	How many?	
p. Is there Wi-Fi in the gym?	Y_1 N_0		
3. What **improvements** could be made to the facilities/ equipment to encourage more personnel to participate in the gym activities?	Additional comments:		
4. What other **improvements/ support** could be provided to encourage personnel to be more physically active?	Additional comments:		
		Sub Total	__ / 21

Notes:

SECTION 4: The Sleep Environment		
1. Have any issues around sleep/rest/fatigue being raised with Command?	Y_0 N_1	Provide brief details:
2. Was Command able to take action to remediate this/ these issues?	Y_1 N_0	Provide brief details:
Generally, with respect to the following criteria, is the sleep environment within unit accomodation acceptable?		
	Acceptable	**If no**, can a local solution be provided (please detail)?
3. Juniors Accommodation:		
a. Bed space	Y_1 N_0	Room occupancy (number/room):
b. Mattress	Y_1 N_0	
c. Pillow	Y_1 N_0	
d. Light levels (dark / light)	Y_1 N_0	
e. Noise levels	Y_1 N_0	
f. Temperature	Y_1 N_0	
g. Humidity	Y_1 N_0	

h. Smell	Y_1 N_0	
4. Seniors Accommodation:		
a. Bed space	Y_1 N_0	Room occupancy (number/room):
b. Mattress	Y_1 N_0	
c. Pillow	Y_1 N_0	
d. Light levels (dark / light)	Y_1 N_0	
e. Noise levels	Y_1 N_0	
f. Temperature	Y_1 N_0	
g. Humidity	Y_1 N_0	
h. Smell	Y_1 N_0	
5. Officers Accommodation:		
a. Bed space	Y_1 N_0	Room occupancy (number/room):
b. Mattress	Y_1 N_0	
c. Pillow	Y_1 N_0	
d. Light levels (dark / light)	Y_1 N_0	
e. Noise levels	Y_1 N_0	
f. Temperature	Y_1 N_0	
g. Humidity	Y_1 N_0	

h. Smell	Y_1 N_0	
	Sub Total	__ / 26

SECTION 5: The Alcohol and Nicotine Use Environment

1. Alcohol

a. Is there an Alcohol Policy in place?	Y_1 N_0	Additional Comments	
b. Please detail the policy?			
c. Are Alcohol Brief Interventions available?	Y_1 N_0		
d. If yes, please give brief outline.			
e. Describe how available alcohol is within the establishment, and if there are no/low alcohol alternatives available?	**Juniors:**		
	Seniors:		
	Officers:		

2. Smoking / Tobacco Use					
a. Is a smoking policy in place in the establishment?	Y_1 N_0				
b. If yes, is this generally adhered to?	Y_1 N_0				
c. Does the establishment have, or is developing, a tobacco-free implementation strategy?	Y_1 N_0				
d. Does the establishment have a designated Smoking area?	Y_1 N_0				
e. If no, is this being considered as part of a tobacco-free implementation strategy	Y_1 N_0				
f. Can tobacco products be purchased within the establishment (e.g. cigarettes, cigars, pipe tobacco)?	Y_1 N_0	If yes, please detail:			
3. Vaping / Nicotine Use					
a. Is a vaping policy in place within the establishment?	Y_1 N_0				
b. If yes, is this generally adhered to?	Y_1 N_0	**OR** (counts as one item)	If no, is a vaping policy/implementation strategy in development?	Y_1 N_0	
c. Can personnel buy vaping products within the establishment?	Y_1 N_0	If yes, please detail:			

d. Can personnel buy other nicotine containing products within the establishment (e.g. pouches)?	Y_1 N_0	If yes, please detail:	
		Sub Total	__ / 12

SECTION 6: Health Promotion and Mental Health			
1. Are any of the following workplace health initiatives offered/ provided?		**If Yes**, please provide details (e.g. Nutrition, Physical Activity, Sleep, Alcohol, Smoking; Length of initiative/ when/ who leads?)	
a. Activity groups/ classes	Y_1 N_0		
b. Team building events	Y_1 N_0		
c. Presentations on healthy eating	Y_1 N_0		
d. One-to-one nutrition support	Y_1 N_0		
e. One-to-one fitness/physical activity support	Y_1 N_0		
f. Healthier Weight / Weight management programme (e.g. DOfit)	Y_1 N_0		

g. Health promotion materials/advice (e.g. notice boards, flyers/pamphlets, emails etc.)	Y_1 N_0		
h. Smoking cessation services	Y_1 N_0		
i. Alcohol brief interventions	Y_1 N_0		
j. Health and wellbeing fair	Y_1 N_0		
k. Defence Health and Wellbeing Advisor (DHWA) within the establishment	Y_1 N_0	**If yes**, how many and what is the specialism of the practitioner(s) (e.g. PTI, nurse)	
k. Qualified mental health personnel within the establishment	Y_1 N_0	If no, who would you go to if you needed support?	
l. Mental Health Briefs available	Y_1 N_0		
m. Percent of establishment's/Unit's personnel in date for Mental Health Fitness brief?	___ %		
k. Other (please detail)	Y_1 N_0

CHAPTER 30

DIVERSITY AND INCLUSION

3001. Policy Statement

a. The Ministry of Defence (MOD) Diversity and Inclusion (D&I) policy commits to fostering a diverse, equitable and inclusive environment where all people are treated with dignity and respect. The policy recognises the value of difference, seeks to eliminate discrimination, and supports a range of staff networks to ensure all voices are represented. Guided by the Equality Act 2010, the MOD aims to maintain a workplace free from bullying, harassment and unacceptable behaviour (UB), while promoting equal opportunities for all.

b. This commitment spans all areas of the Royal Navy (RN) including recruitment, training and career development, enabling the RN to attract talent from across society and better reflect the communities it serves. Overall, the MOD seeks to be an employer in which everyone feels included, supported, and respected within a legally compliant and inclusive culture.

c. To maximise operational advantage, the RN including the Royal Marines (RM) and the Royal Fleet Auxiliary (RFA) must recruit, retain and develop the best people. The RN creates conditions in which everyone feels valued, respected and included, so they can reach their full potential.

d. The Naval Service's approach to diversity has evolved beyond compliance with the Equality Act 2010. Today, the RN treats diversity as a strategic strength that enhances operational effectiveness. Diverse backgrounds, experiences, and perspectives improve decision-making, innovation, and trust within teams.

e. The RN is committed to upholding D&I across the Naval Service, and does not tolerate any unlawful discrimination, bullying or harassment against any person on the grounds of the protected characteristics: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. All personnel are to receive equality of opportunity in employment, training, career management and promotion, based solely on ability, performance and aptitude. The prevention and resolution of bullying and harassment must not be undermined by tradition, custom or any perceived need to maintain morale. All personnel are expected to always uphold the highest standards of behaviour.[1]

f. In addition to the overarching policy statements that set out the MOD and RN approach to D&I, a range of Joint and single Service policies exist to support and enhance the overall lived experience of personnel. These policies are available through unit D&I(A)s, unit administration staff, the MOD Intranet, the RN D&I Toolkit[2], or unit Executive organisations. The RN also maintains six Diversity Networks that offer guidance and support aligned to specific personal characteristics, RN Networks are detailed at paragraph 3013.

[1] Guidance and examples of UB are contained within Joint Service Publication (JSP) 763.
[2] https://modgovuk.sharepoint.com/teams/50700

3002. Legislation

a. **Purpose and Scope.** The RN is committed to full compliance with the Equality Act 2010, the Public Sector Equality Duty (PSED), the Armed Forces Act 2006, and all other relevant employment and equality legislation.

b. JSP 887[3] sets out Defence-wide direction on the implementation of PSED and the requirement to conduct Equality Analysis (EA). It outlines the processes, standards, and good practice necessary to ensure that consideration of equality impacts is embedded in all decisions, activities, and outputs that affect people.

c. This policy mandates that RN policy owners and decision makers understand and apply their duties under the PSED, ensuring that equality impacts are assessed as part of lawful, evidence-based decision making.

d. **Application of Equality Analysis.** In accordance with JSP 887, policy owners and decision makers must consider the requirements of the PSED before, during, and after the development or review of:

(1) Policies, strategies, and procedures (new or existing).

(2) Programmes and projects.

(3) Procurement activity.

(4) Budgetary and financial decisions.

(5) Resource allocation.

(6) Commissioning and decommissioning processes.

(7) Service design and implementation activities.

e. This requirement applies to all areas of Defence and is not limited to Diversity and Inclusion specialists.

[3] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/Documents/JSP887_Policy.pdf

f. **Stakeholder Engagement.** Effective EAs depend on meaningful engagement with relevant stakeholders. Engagement helps identify potential impacts on protected groups and supports the development of appropriate mitigations before decisions are implemented.

g. Early involvement of Subject Matter Experts (SMEs)[4] ensures proposals are informed, evidence based, legally compliant, and reflective of the diverse lived experiences across the RN workforce.

h. **The Equality Analysis (EA) Process.** The EA provides a structured, transparent, and auditable record of how equality considerations have shaped a proposal. It ensures that the potential impacts on protected groups and any required mitigations are clearly evidenced in the final decision.

i. The EA process must begin at the earliest stage of decision making and be continuously refined throughout development to ensure that 'due regard' has been appropriately applied[5]. Supporting materials and tools are available on the Equality Duty Toolkit website[6], and the EA template is provided at Annex 30G.

j. **Equality Considerations.** All EAs must consider the potential impacts on all nine protected characteristics under the Equality Act 2010. JSP 887 further directs that analysis should also consider wider factors relevant to inclusion and outcomes[7], applying an intersectional approach and avoiding assumptions or "tick box" methods.

k. Decision makers must pay 'due regard' to the three statutory aims of the PSED:

(1) Eliminate unlawful discrimination, harassment, and victimisation.

(2) Advance equality of opportunity.

(3) Foster good relations between people with different protected characteristics

l. **Statutory Exemptions and Record Keeping**. The Armed Forces have specific exemptions under the Equality Act regarding age and disability. These exemptions must be applied proportionately and in line with operational requirements. An age or disability related restriction may be used only when all the following conditions are met:

(1) There is a genuine and evidenced operational need.

(2) The action taken is necessary and justified.

---

[4] Diversity & Inclusion teams, Trade Unions, sS staff Networks & Forums, HR Business Partners, legal advisors, and colleagues.

[5] EAs should be held with the decision owner and reviewed with any proposed updates to the associated policy.

[6] https://modgovuk.sharepoint.com/sites/peopleequalityanalysis/Shared%20Documents/Forms/AllItems.aspx?id=%2Fsites%2Fpeopleequalityanalysis%2FShared%20Documents%2FEquality%20Analysis%20Template%20and%20Toolkit%2F20230106%20Equality%20Duty%20Toolkit%2Epdf&parent=%2Fsites%2Fpeopleequalityanalysis%2FShared%20Documents%2FEquality%20Analysis%20Template%20and%20Toolkit

[7] For example, socioeconomic and regional background; caring responsibilities.

(3) No less discriminatory or more inclusive alternate option exists.

(4) The decision is fair, evidence based, and tailored to the individual.

(5) Any restriction is narrowly defined, no broader than required to meet the operational need and never applied as a blanket rule.

m. Completed EAs must be retained as part of the formal decision record and reviewed alongside any future updates or revisions to the associated policy, programme, or activity.

3003. Policy Advice and Guidance

a. The policy contained in this chapter is underpinned by the First Sea Lord's D&I Commitment issued to all Units/Establishments.

b. Advice on RN D&I policy and procedures should be sought from the Unit D&I(A) in the first instance. Alternatively, Unit D&I(A)s, those in the Chain of Command and Line Managers (LMs) may also seek D&I advice and guidance from the RN D&I Team via the mailbox[8] or D&I SharePoint Toolkit[9].

3004. Climate Assessments

a. **Background.** Climate Assessment (CA) policy, directed by the MOD, is designed to provide Commanding Officers (COs) with an independent assessment of the lived experience of their people and the opportunity to address areas where change is required as identified by the CA report. CAs are Whole Force, meaning all members of the RN, RM, RFA, Civil Servants (CS) and MOD contractors will participate.

b. CAs highlight key issues, risks and action for future work as well as good practice. This allows COs to understand the lived experience of their personnel and the extent to which it meets acceptable standards. The CA is designed to focus on the perception of social contexts and their impacts. A range of questions are asked to focus on key climate areas such as:

(1) Leadership support.

(2) Equity and fairness.

(3) Inclusive working practices.

(4) Personal diversity experiences and belonging.

c. **Direction and Guidance.** All COs should expect their unit/establishment to undertake a minimum of one CA during their tenure.

[8] NAVYPEOPLE-DANDIMailbox@mod.gov.uk
[9] https://modgovuk.sharepoint.com/teams/50700

d. Mandatory CA activity consists of an online LimeSurvey accessible through both OpNet/DII/MoDNet and Personal Electronic Devices (PEDs). This allows all personnel in a unit/establishment the opportunity to be involved in the process. COs will be supported by the Climate Insight Team to encourage full participation by unit personnel.

e. Any findings identified in the CA report where change and leadership are required, must be addressed through a CO's Action Plan.

f. **Application Process.** COs will be contacted by the CA Team normally within three months after assuming Command or when the unit is out of date for a CA. Where the CO wishes to initiate a CA to be conducted outside of the mandatory requirement, an email should be sent to the CA Team mailbox: NAVYPEOPLECLIMATEASSESSMENTS@mod.gov.uk.

g. The following steps detail the normal order of events in the CA process:

(1) **Step 1.** COs will be contacted and asked to complete a contact form detailing the demographics of the unit and assign a Point of Contact (POC).

(2) **Step 2.** POCs will receive instructions to support pre-survey engagement activity as directed by the Climate Insight Team.

(3) **Step 3.** A link to the Lime Survey for the CA will be submitted to POCs for distribution to unit personnel which is normally live for two weeks to ensure an appropriate snapshot.

(4) **Step 4.** Following the completion of sufficient survey returns, a report with the findings will be forwarded to the CO with guidelines for the requirement of an Action Plan. This must be actioned and returned to the Culture Insights Team (CIT) within six months.

h. COs are required to fully support the conduct of CAs in their unit/establishment, and to make available the necessary resources to achieve a successful outcome.

i. Whilst a mandatory requirement, the CA should be viewed as a positive mechanism that provides COs with a valuable insight of Command, leadership, culture and the lived experience within their unit. The CA findings can be reviewed to ensure they align with the objectives set out in the RN Culture Blueprint.[10]

[10] https://modgovuk.sharepoint.com/sites/IntranetNavy/Documents/Forms/AllItems.aspx?id=%2Fsites%2FIntranetNavy%2FDocuments%2FCulture%5FBlueprint%2Epdf&parent=%2Fsites%2FIntranetNavy%2FDocuments

3005. Training

a. D&I awareness training is mandatory for all SP within the RN and Maritime Reserves (MR). Formal D&I training is delivered through the Defence Learning Environment (DLE) products and authorised facilitated sessions.The four RN mandated levels of training are:

(1) **Level 1: Core Training.** Level 1 is to be delivered to all members of the RN, whether regular or reserve during their core training and provides baseline understanding of D&I, inclusive behaviours, and legal responsibilities:

(a) Initial Naval Training: Professional Behaviours Package (Ratings).

(b) Phase 2 Training (if the training pipeline is 2 years or longer).

(2) **Level 2: Advanced Training.** Naval Core Learning Module 4 (NCL4) D&I is mandatory for all RN and RM personnel and must be completed every two years. NCL4 reinforces key MOD and RN policy and legal responsibilities.

(3) **Level 3: Specialist Training.** Level 3 training is provided to D&I(A)s and Diversity and Inclusion Practitioners (D&I(P)s).This training develops the knowledge and skills required to advise the Chain of Command (CoC), support complex D&I issues, contribute to cultural improvement activity and interpret Defence policy and legislation relevant to behaviour, culture and inclusion.

(4) **Level 4: Senior Leadership Training.** Level 4 training is designed for military officers at OF5 level and above and senior CS (SCS1 and above). This training focuses on how senior leadership decisions can influence Defence culture, comply with legal and policy obligations and build the leadership behaviours required to drive and sustain an inclusive organisation.

b. A full summary of available D&I Training and validity periods can be found in Annex 30A, which reflects the current mandated delivery models for Naval Core Learning.

c. **Delivery.** With effect from 14 Apr 26, NCL4 D&I is delivered primarily as a self-paced online module via DLE. Face-to-Face delivery may only be conducted where DLE access is restricted, by a qualified D&I(A), and with prior approval from the RN D&I Team via NAVY PEOPLE-DANDI Mailbox (MULTIUSER).

d. **Presentation.** Once guidance has been sought from the RN D&I Team, the offline NCL4 presentation material and Handbook insert will be available for download from the RN D&I Advisors Toolkit[13]. The presentation is not to be amended or tailored by units or D&I (A)s. Where requirement for bespoke or additional D&I Training is identified, D&I (A)s are to engage the RN D&I Team for direction and support.

e. In Tri-Service units, there is no longer a requirement to attend alternative single-Service D&I training. NCL4 is delivered online via the DLE and is accessible to all RN and RM personnel regardless of unit composition or location.

f. **Recording and Compliance.** Individuals remain responsible for completing NCL4 within the required timeframe. The Chain of Command (CoC) must ensure reasonable opportunities for completion are provided and monitor compliance through appropriate reporting mechanisms.

g. Completion of NCL4 via the Defence Learning Environment (DLE) will automatically award the relevant Joint Personnel Administration (JPA) competency. Attendance at authorised face-to-face sessions must continue to be recorded manually by unit administration on JPA under the following competence:

Naval Core Learning|NCL 4 – D&I|Navy

h. Personnel who are in date for NCT4 at the point of transition are not required to complete the DLE package until their existing competence has lapsed.

j. **Holistic Allies Training.** Holistic Allies Training (HAT) has been developed by MOD in response to the requirement set out in the Defence Allies Policy, published in Dec 20. HAT online workshops are not mandatory and are aimed at all RN/RM SP (regular and MR), of all Ranks and Rates. The workshops are provided by live online tutorial, hosted on MS Teams for the duration of one working day.[14]

k. The HAT workshop will provide you with knowledge and tools to be an effective ally to all personnel across Defence (Tri-Service/MOD) and will equip qualified personnel with skills that are applicable in day-to-day working environments.

l. All Royal Navy Inclusion Allies (RNIA) members are expected to complete the MOD HAT course within 18 months of signing their RNIA Pledge.

[13] https://modgovuk.sharepoint.com/teams/50700/SitePages/Advisors%20Toolkit.aspx
[14] https://modgovuk.sharepoint.com/teams/50700/SitePages/The-RN-Inclusion-Allies-Portal.aspx

3006. Unit Organisation

a. **Commanding Officers D&I Statement.** All COs are to publish and maintain a Unit D&I Statement that sets out their intent, expectations, and commitment to fostering a professional, respectful, and inclusive culture. The statement is to be personally drafted by the CO and must reflect their leadership approach, values, and personal commitment to D&I.

b. The D&I Statement is to be visible within the unit and communicated through routine Command activity. It is to be reviewed annually or on CO supersession.

c. A CO's D&I Statement reinforces adherence to Royal Navy values, standards, and legal responsibilities; strengthens team cohesion; enhances operational effectiveness; and supports an environment in which all personnel feel respected, safe, and able to contribute fully. It also provides a consistent reference point for expected behaviours, supporting efforts to prevent unacceptable behaviour and enabling coherent, values based leadership.

d. COs requiring guidance, examples, or support in drafting or implementing their statement are encouraged to contact the RN D&I Policy Team.

e. **Command D&I Lead.** Each unit will have a Command D&I Lead; this is a flagged position and normally the Second in Command of the unit (XO, 2I/C); however, in 3 watch units both the First Lieutenant and Executive Officer positions will be flagged. The Command D&I Lead position is required to attend the D&I XO Desig Workshop delivered during CO/XODC. The Command D&I Lead is responsible for the following:

(1) Management and continuation of the quarterly unit D&I Action Group (DIAG).

(2) In conjunction with the unit D&I(A)s, to ensure the mandatory RN D&I training is delivered through a regular training schedule and maintaining unit NCL4 currency.

(3) Ensure the unit remains up to date with all D&I policy.

(4) Maintenance of links to Defence and RN Staff Networks.

(5) The provision of a wide variety of bespoke D&I training and opportunities for the unit.

(6) Ensure continuity of the unit D&I organisation during handover to relief.

f. **D&I Action Group (DIAG).** Units are to convene a quarterly DIAG, chaired by the Command D&I Lead and supported by the Lead D&I(A). The DIAG is responsible for monitoring the unit's D&I climate, reviewing progress against the Unit D&I Action Plan, assuring the delivery of mandated D&I training, and identifying emerging risks or trends requiring Command attention. Heads of Department and relevant stakeholders are to attend as required to support coherent delivery of the CO's D&I intent.

g. **Application Process and Administration.** Personnel applying for D&I(A) & D&I(P) courses are to apply directly to the onboarding team at the Defence Academy, Shrivenham. They are required to submit a recommendation of suitability from their Unit XO, EWO, RSM, or 1LT, confirming that there is a Service requirement for them to undertake the qualification, together with evidence of the completed pre-work.[15]

h. **Eligibility.** Priority allocations are given to key personnel and units without the statutory quota of D&I(A)s/D&I(P)s. Exec teams should be satisfied that nominees can fulfil all required TORs. There is no rank restriction for either course, but units must ensure their applicants have the emotional intelligence and maturity to deliver the role competently.

i. The direct application process gives units freedom to nominate appropriate personnel. Units are to note that not all applications will be successful due to prioritisation; any appeals should be directed to the Defence Leadership Centre (DLC). All course changes or cancellations must be submitted by email directly to DLC. The RN D&I Team monitors all no shows and cancellations and will engage with Command teams if consistent patterns are identified. The only acceptable reasons for non-attendance on D&I(A) or D&I(P) courses once booked are:

(1) Operational requirement.

(2) Compassionate leave.

(3) Sickness.

j. **Post-Course Administration**. Newly qualified D&I (A)s should contact the RN D&I Team[17] to arrange post-course support and guidance tailored for the RN.

k. **Requalifying Process.** The RN D&I Team can approve one five-year extension to D&I (A)s. To be awarded an extension the D&I(A) is required to submit (via email) an updated D&I Fundamentals certificate and a COs statement to confirm the applicant is active in their role as D&I(A) within the unit organisation to NAVY PEOPLE-DANDI Mailbox (MULTIUSER). After the first extension, all D&I(A)s are required to re-complete the courses as detailed above. The D&I(P) qualification has no end date and does not require a requalifying process.

[15] (In date NCL4, D&I Fundamentals DLE certification and Active Bystander certification).
[17] NAVYPEOPLE-DANDIMAILBOX@MOD.GOV.UK

3007. Diversity and Inclusion Advisers (D&I(A)s)

a. D&I(A)s are a critical component of the RN's D&I Organisation. Careful selection, appropriate training, and continued professional development of D&I(A)s are essential to maintaining an inclusive culture and to preventing and addressing UB across the RN.[18]

b. **Role and Selection of Unit D&I(A)s.** D&I(A)s provide impartial advice to Command, managers, and individuals on D&I policy, UB, and the informal and formal processes for addressing BHDV[19] complaints. In the event of a complaint, D&I(A)s are to ensure that all parties understand the relevant processes, responsibilities, and available sources of support.

c. D&I(A)s are to always remain impartial when advising both the management chain and individuals. They are to provide advice and support to all parties involved in a matter, including complainants, respondents, companions, Assisting Officers, and the CoC. Where an issue falls outside the D&I remit (for example, misconduct, discipline, or Unacceptable Sexual Behaviour (USB)), the D&I(A) must signpost to the appropriate policy owner and take no further action in the case.

d. D&I(A)s are responsible for supporting early and informal resolution of issues wherever appropriate and feasible, and for ensuring that follow-up actions or reports are completed in accordance with JSP 831 timelines. All advice provided is to be recorded in accordance with JSP 763 and JSP 831.

e. D&I(A)s are the unit's principal source of D&I policy advice and are responsible for coordinating and assuring the delivery of mandated D&I training. Units are to maintain appropriate training records to ensure personnel remain in date

f. The D&I(A) role is not an administrative function and is not to be automatically assigned to Logistics Officers. Where a Logistics Officer fulfils the role of Command Legal Adviser (CLA), they are not to be appointed as a D&I(A) due to the potential conflict of interest.

g. COs and OICs are not to undertake the D&I(A) or D&I(P) roles. Commanders are, however, to ensure they remain in date for mandatory training and are familiar with RN and MOD D&I policy.

h. The minimum rank for appointment as a D&I(A) should normally be PO/Sgt. Exceptions may be made where a lower rank is assessed by Command as appropriate to the unit, establishment, or role. D&I(A)s should be selected based on their skills and attributes, including integrity, discretion, sound judgement, strong listening skills, impartiality and compassion. D&I(A)s should not normally be tied to specific line numbers.

[18] They operate in accordance with JSP 763 and JSP 831. The Terms of Reference for D&I(A)s are detailed in JSP 763 Part 2, Annex C.
[19] Bullying, Harassment, Discrimination and Victimisation.

i. It is recognised that in some cases personnel may assume the D&I(A) role as a natural consequence of their primary appointment. This may include:

(1) Executive Warrant Officers.

(2) Base Warrant Officers.

(3) Submarine and Mine Countermeasures Coxswains.

(4) Naval Reserve Unit Warrant Officers / Whole Ship Coordinators.

(5) RM G1 Discipline Advisers.

(6) RM Reserve Unit Sergeant Majors / G1 Advisers.

j. D&I(A)s are required to have successfully completed the Defence Leadership Centre D&I(A) course and must remain in date with mandated training and current MOD and RN policy. In addition to JSP 763 requirements, RN policy recognises D&I(A) competency for a maximum period of five years, subject to continued currency and professional development.

k. **Climate Monitoring, Communication and Awareness.** D&I(A)s are to support the continuous monitoring of the unit's D&I climate, assess the effectiveness of training and interventions, and escalate trends or concerns to Command and the appropriate D&I teams. D&I(A)s may be required to act as points of contact for CA activity.

l. D&I(A)s are to ensure that personnel and civilian employees can readily access information on D&I policy, confidential support services, helplines, and reasonable adjustment processes through unit communications and noticeboards.

m. **Number and Organisation of D&I(A)s.** The number of D&I(A)s appointed is to be proportionate to the size, complexity, and operating model of the unit or establishment. As a minimum:

(1) All ships and submarines are to appoint at least two D&I(A)s. One should normally be the BWO, EWO, Coxswain, or equivalent.

(2) For three watch organisations and multicrew units, there are to be at least two D&I(A)s per crew rotation to ensure continuous coverage.

(3) For Offshore Patrol Vessels (OPVs), it is recommended that the Coxswain and First Lieutenant fulfil the D&I(A) roles to ensure representation across watches.

(4) Larger units should operate a federated D&I(A) network, typically comprising six to eight trained personnel, to provide resilience and accessibility.

n. **Lead D&I(A) Responsibilities and Governance.** Where more than one D&I(A) is appointed, the CO is to nominate a Lead D&I(A). The Lead D&I(A) holds corporate responsibility for the coherence, assurance, and coordination of the unit's D&I function. In addition to the responsibilities of all D&I(A)s, the Lead D&I(A) is to:

(1) Maintain oversight of local D&I activity and ensure that all approaches for advice are logged appropriately.

(2) Collate anonymised data and submit monthly summary returns in accordance with RN and TLB D&I reporting requirements.

(3) Brief the CO on D&I activity and emerging themes as part of continuous climate monitoring, ensuring confidentiality is always maintained.

(4) Manage the local network of D&I(A)s and D&I(P)s.

3008. Diversity and Inclusion Practitioners (D&I(P)s)

a. D&I(P)s are trained personnel who work closely with the D&I(A)s & CoC to promote inclusion, address UB, and provide first-line advice and support to SP and civilian employees on diversity, inclusion, and the informal and formal complaints processes. D&I(P)s operate in accordance with JSP 763 and JSP 831.

b. Appointment as a D&I(P) is dependent upon successfully completing the Defence Leadership Centre's D&I(P) course and maintaining training currency and policy knowledge in accordance with MOD and Royal Navy requirements.

c. **Role and Selection of Unit D&I(P)s.** Units and establishments are to appoint a minimum of two D&I(P)s. Best practice is to select personnel from a range of ranks/rates, branches/specialisations and backgrounds to ensure breadth of perspective, accessibility and representation.

d. D&I(P)s are to be selected based on leadership qualities, approachability, integrity, discretion, sound judgement, and practical common sense. RN guidance suggests D&I(P)s should normally be within the rank/rate range LH/Cpl to Lt Cdr. This RN guidance does not supersede JSP 763 role requirements.

e. D&I(P)s should participate in the unit's DIAG and engage with the D&I(A) network to ensure coherence of activity, consistent messaging, and appropriate escalation of trends or concerns.

f. **Support to the D&I(A) and Climate Monitoring**. D&I(P)s support the Lead D&I(A) and management in delivering their CO's D&I commitments and implementing the unit D&I Action Plan.

g. **Training and Communications.** D&I(P)s are to support the D&I(A) in the delivery of mandated D&I training to ensure personnel are familiar with D&I principles and understand what constitutes UB. Where directed, D&I(P)s are responsible for delivering Active Bystander Training face-to-face locally.

h. D&I(P)s are to ensure D&I publicity and educational materials are available, accessible and current. D&I communications and noticeboards are to be maintained and must, as a minimum, include up-to-date information on:

(1) Local D&I(A)s and D&I(P)s (names and contact routes).

(2) MOD/Service BHDV helplines.

(3) Mental health support (e.g., mental health first aiders where used) and relevant helplines (e.g., Combat Stress).

(4) Civil Service Employee Assistance Programme helpline (where applicable).

(5) Service specific helplines and charities.

(6) Welfare services.

(7) Padres/chaplains (where applicable).

(8) Relevant police services (where applicable).

(9) Staff and community networks (whole force, Service-specific, or civilian).

(10) Trade Union information (in workplaces with civilian employees).

i. D&I(P)s should support unit level D&I engagement activity, including awareness and education events[20] in coordination with the D&I(A) network and the Command D&I Lead.

j. **Boundaries of Role**. D&I(P)s are not to deputise for a D&I(A) or Lead D&I(A). Only trained and appointed D&I(A)s may perform the duties of a D&I(A). D&I(P)s are to operate within the limits of their training and competence.

k. **Currency and Continuous Professional Development.** D&I(P)s are to complete the Defence Leadership Centre D&I(P) course before appointment and maintain currency through refresher activity and ongoing awareness of MOD and RN policy updates. The D&I(P) qualification does not expire once awarded.

[20] e.g. National Inclusion Week, Black History Month, Commonwealth Day

3009. Diversity and Inclusion Documentation

a. A Unit's Lead D&I(A) is the custodian of the Unit D&I Logs, which will be used as a record to report all incidents of bullying, harassment and discrimination. It should also include a record of all approaches to the D&I(A) by personnel seeking advice. This must include incidents reported by LMs and Divisional Officers. On learning of such incidents, D&I(A)s are to ensure they are recorded in the D&I Complaints Log (unless confidentiality arrangements exist). D&I(As) and anyone using the D&I Logs must ensure they comply with GDPR requirements, detailed within JSP 441.

b. Full details of the D&I Logs required to be held on every unit/establishment and the retention periods has been included at Annex 30B.

3010. Management of Service Complaints Containing Allegations of Bullying and Harassment

a. The procedure for handling Informal complaints and Service Complaints involving allegations of bullying or harassment is set out in JSP 763 (MOD Behaviours and Informal Complaints Resolution Policy) and JSP 831 (Redress of Individual Grievance: Service Complaints).

b. RN implementation processes for these policies are detailed in Chapter 23, Representations and Complaints. For the RFA, personnel should refer to the RFA Standards Team and BHDV for guidance; however, informal resolution routes remain broadly consistent with those applicable to RN SP and CS.

3011. Mediation

a. Mediation is recognised as a highly effective means of resolving disputes at the lowest appropriate level, without the need for more formal or lengthy procedures.

b. Mediation is a structured and, within Service protocols, confidential process that offers a supportive and facilitated environment for parties to explore their differences and work towards rebuilding constructive working relationships as quickly as possible. It can be considered at any stage of the complaint process and is often most effective when introduced early.

c. It is delivered by the Complaints Investigation and Mediation Team (CIMT), who can be contacted at NAVYLEGAL-MediationService@mod.gov.uk or via the MyNavy App. Where CIMT capacity is limited, a trained mediator may be engaged from within or outside the Service. Further guidance on mediation in the RN is provided in JSP 763, with additional advice for RN D&I(A)s contained in Annex 30C.

3012. Transgender and Non-Binary Service Personnel

Annex 30D contains guidance on supporting RN and RM Transgender and Non-Binary SP. Following recent legal judgments relevant to the Equality Act 2010, COs are to contact the NAVY PEOPLE-DANDI Mailbox (MULTIUSER) for advice. The D&I Policy Team will review and support on a case-by-case basis.

3013. Royal Navy Staff Networks and Advocates

a. **Purpose and Scope.** RN Staff Networks exist to support Defence and RN D&I objectives by providing evidence based insight, amplifying employee voice, and contributing to the delivery of the MOD D&I Strategy. They represent the views of their members, not protected characteristics more broadly. Full details of RN Staff Networks can be found on the RN D&I Networks Portal21.

b. **Network Governance.** The RN D&I Team is responsible for governance, assurance and policy compliance of all RN Staff Networks, including the RFA.

c. Hd RN Culture holds approval authority for the creation, expansion, restructuring and role composition of RN Networks. Proposals for new Networks must demonstrate clear purpose, strategic alignment and adequate personnel resource.

d. RN Networks must comply with JSP 890.

e. **Network Structure and Leadership.** RN Networks must maintain a committee structure proportionate to their activity, with RN approved roles as required. Additional roles require RN D&I approval.

f. Network Chairs provide strategic leadership and coordinate delivery of Network aims. Succession planning is required and Chair tenure should normally not exceed three years.

g. **Succession Actions Checklist:**

(1) Current incumbent informs the Advocate and RN Hd D&I of their desire to step down and anticipated date.

(2) Share information relating to progress and upcoming succession planning activities with the D&I Team.

(3) Prepare a job advert for the upcoming Chair(s) role including a role profile and application deadline; share with D&I Team for approval before advertising.

(4) Publicise the final job role via Staff Network channels.

(5) In conjunction with the Staff Network Advocate, incumbent Chairs and / or Committee and RN Hd D&I agree an appropriate successor and start date.

[21] https://modgovuk.sharepoint.com/teams/50700/SitePages/The-Royal-Navy-Networks%27-Portal.aspx

(6) Provide a detailed handover to the appointed successor. Where possible, this should include a period of shadowing.

h. **RN Advocates.** Each RN Network is supported by an Advocate or Champion who provides senior influence, strategic guidance, and a conduit to RN leadership. Regular engagement is required to:

(1) Ensure visibility of Network activity

(2) Identify barriers requiring elevation; and

(3) Align activity with RN priorities.

i. The list of RN Advocates can be found on The RN Advocate Portal[22].

j. **Core Requirements for Network Operation.** Each Network must maintain and routinely update:

(1) Mission/Vision Statement

(2) Terms of Reference

(3) Annual Action Plan

(4) Financial Forecast and Business Cases.

k. Documents are to be shared with the RN D&I Team.

l. Network activity must align to the MOD D&I Strategy and support PSED obligations through evidence-based insight.

m. Networks must ensure inclusive membership practices. Data must be held securely, JPA and MyHR must not be used to identify members, and anonymity must be protected via BCC[23] unless consent exists.

n. **Finance and Resourcing.** Funding for RN Network activity is controlled by the RN D&I Team. No expenditure should be committed without approval. The D&I Budget cannot be used for T&S or food/drink; social events must be self-funded. Permitted expenditure includes reusable branding materials. Charitable support may be sought where appropriate.

o. **Business Cases.** RN templates and governance requirements must be used. All payments must be routed via SO2 D&I; reimbursement is not permitted. Business Case templates have been included at Annex 30E.

p. **Communications and Branding.** Network communications must comply with MOD and RN branding guidance. RN Comms approval is required from the P&T

[22] https://modgovuk.sharepoint.com/teams/50700/SitePages/The-RNs-Advocate-Portal.aspx
[23] BCC (Blind Carbon Copy) is an email function that hides the identities and email addresses of all recipients. It ensures members' details are not visible to others, thereby protecting anonymity and preventing the unintended disclosure of personal or sensitive information.

Engagement Team for official social media accounts. Comprehensive Network communications guidance can be found in Annex 30F.

q. **Events and External Representation.** Events must align to Network Action Plans and RN/MOD D&I strategy. Cross Network collaboration is encouraged, and major events require prior approval. Network members representing Defence externally must comply with RN media/public engagement policy.

r. **Performance and Recognition.** Reporting Officers (RO) should recognise Network activity in performance reporting. ROs should identify the skills required to perform a Network function against the Definition of Merit for promotion and key performance and potential attributes contained in JSP 757. For Service Personnel, contributions may be considered in annual appraisals without reference to protected characteristics; for Civil Servants, Network engagement should be reflected in MyHR objectives.

ANNEX 30A

ROYAL NAVY DIVERSITY AND INCLUSION TRAINING SUMMARY

1. Introduction

This Annex provides a full summary of all RN D&I Training provided. For questions in relation to training contact the RN D&I Team NAVY PEOPLE-DANDI Mailbox (MULTIUSER).

Table 30A-1. D&I Training Summary

Training Name	Delivery Mechanism	Periodicity	Notes
Defence D&I Fundamentals v3 (D&I (F))	DLE	Once in career	During initial training. *As a pre-requisite to D&I(A) & (P) courses*
Active Bystander Training v2	DLE	Biennial	Mandatory to Civil Servants and Opt in training available to all RN. *As a pre-requisite to D&I(A) & (P) courses*
Naval Core Learning Module 4 (NCL4) – Diversity and Inclusion	DLE Face to face delivery by qualified D&I(A) with prior RN D&I Team approval only	Biennial	Mandatory for all RN and RM personnel *As a pre-requisite to D&I(A) & (P) courses*
Head of Department Leadership course	Face to face by SME	Once in career	Delivered by Culture & Leadership D&I Team
Executive Warrant Officer Leadership Course	Face to face by SME	Once in career	Delivered by Culture & Leadership D&I Team
Commanding Officer/Executive Officer Desig Course	Face to face by SME	Prior to each command appointment/when required.	Delivered by Culture & Leadership D&I Team
Senior Officers LEAD to Succeed Course (L2S)[1]	Face-to-face at Defence Leadership centre, Shrivenham.	Three yearly	1 Day plus 0.5 days self-directed learning. Optional for OF5-OF9
D&I Advisor[2]	Online by Defence Academy.	Five yearly	3.5 Days
D&I Practitioner[3]	Online by Defence Academy.	Once in career	2 Days
Holistic Allies Training[4]	Online by Defence Academy.	Once in career	1 Day Opt in training and available to all RN and Civil Servants.

ANNEX 30B

ROYAL NAVY UNIT DIVERSITY AND INCLUSION LOGS - STANDARDISED DOCUMENTATION

1. Introduction

This annex advises all RN Units on the format for the composition of the Unit D&I Logs.

2. Requirement

a. COs, Station Commanders and Heads of Establishment are to maintain records of all bullying, harassment, and discrimination incidents and complaints (formal and informal), that involve:

(1) MOD Service personnel only, or

(2) Service and civilian personnel, but not incidents involving only MOD civilian personnel, even when these occur on military establishments.

b. This direction does not override existing policy authorising D&I(A)s within Navy Command to provide advice to MOD civilian personnel on bullying and harassment matters; in the same way they would for SP. When doing so, D&I(A)s must request that the individual informs DBS, so that the matter can be formally recorded.

c. If an issue cannot be resolved informally, the complainant or the line manager managing the complaint must refer the case to DBS for further action.

3. Recommended Content

a. JSP 763 provides detail on how to maintain the D&I logs but does not suggest an appropriate format for their composition. Best practice in the RN is to hold 2 logs:

(1) **The D&I Log.** The D&I Log contains all relevant material that is not Official Sensitive and is used as a working document.

(2) **The D&I Complaints Log.** The Complaints Log contains completed Official Sensitive forms; this log is to be stored in a secure location and is to include any archive complaint paperwork.

b. The lists below outline what should be retained in each log, but they are not exhaustive and any additional material that the D&I(A) considers will benefit the D&I organisation can be kept in the D&I Logs.

c. **The D&I Log Contents:**

(1) Contents Page.

(2) CO/XO Signature Sheet - The D&I(A) comments section should indicate if any complaints (or nil) were raised in that month.

(3) CO's D&I Statement and CO's Temporary Memorandum detailing their Unit's D&I organisation.

(4) **Training Log.** To include D&I training and any other type of training conducted outside the mandatory requirement and unit events e.g. Induction briefs, notices and information on Daily Orders and/or noticeboards, bespoke training and events. Cancelled or postponed training should also be recorded with an explanation given. Nominal lists of attendees may be retained in this section if required by the unit.

(5) **Action Plan.** To assist a Unit to progress within the D&I Matrix. The log may be used to plan for D&I notices, briefs and training etc.

d. **The D&I Complaints Log.**

(1) **Whole Force Incident Log.** This documents any approach for advice and support. The report form should be written at the time of interview, be at a minimum classification of 'Official Sensitive-Personal' and be kept securely. This form is also used for the incident follow up information.

(2) **Incident Follow-Up.** To be used four weeks after an individual has told a D&I Adviser, they wish to use the informal complaints resolution process to monitor the progress in resolving the issue.

(3) **Monthly Summary Log.** An anonymous outline report of incidents brought to the attention of a D&I(A) over the month. This is to be completed online which will ensure a copy is sent to the CO / Director / Head of Establishment, and the data is available centrally for TLBs. This draws on the information recorded in the incident log. This log can still be completed using a paper template for those without internet access, but the expectation is that this will be uploaded online when internet access is available. The D&I Reporting Incident Log can be accessed online[1].

(4) **Archive Section.** All complaint data from 2 to 10 years old is to be kept in this section. Older data is to be managed and stored iaw JSP 441 Part 2.

e. Templates for the Complaints Log are provided in the following appendices. D&I (A/Ps) requiring further information should approach their Lead D&I Adviser, relevant network / forum or contact the RN D&I Policy Team.

[1] https://apps.powerapps.com/play/e/a8c6609d-3a44-4f0c-a6ae-740081e733c3/a/1121e508-af90-4d50-9882-f7880382ba12?tenantId=be7760ed-5953-484b-ae95-d0a16dfa09e5&source=portal&screenColor=rgba%2837%2c%2062%2c%20143%2c%201%29

4. Digital Log

a. There is an ever-increasing requirement for organisations to be 'paperless'. If approved by the Unit Command (at CO's discretion), the D&I Logs can be electronically stored, but the monthly checks and signatures must still take place to ensure that the correct procedures are being carried out. The XO/CO is still to put their comments as normal in the electronic signature sheet and annotate the Comments box when 'checking in' the document that they have sighted the log. The log may be an XO Monthly Book (providing that the XO does not maintain the log) but must also be a Quarterly Book for CO.

b. If a Unit is unable to provide electronic signatures (coded signatures), all complaint digital paperwork is to be annotated with:

"Seen and agreed by …… in the presence of …….. date ……....."

5. Record Keeping

Records are to be retained within a unit / department / establishment for a period of 7 years (details of Service Complaint investigation and outcomes are to be kept until the Complainant reaches 100 years of age) and disposed of in accordance with JSP 441.

6. Large Units

In large organisations such as Naval Bases, Training Establishments and Air Stations etc. where several units are located on one site, the following policy is to be applied. Where a Logistics Officer (LO) is assigned and acts as Command Legal Adviser, an autonomous D&I organisation should be established. It is best practice for the Base Warrant Officer to hold a master Complaints Log in order for the Base Commander to have visibility of trends across the entire base. It is also best practice for the sub-units, utilising the parent unit organisation, to have sufficient D&I(A)/D&I(P)s for their own needs, to support the wider Base D&I organisation and to contribute to a site-wide D&I network.

7. MCM Crew Log

Due to the nature of crew rotations between ships in MCM1 and MCM2 Squadrons, D&I Logs are to remain with the crews as they move ship and are not to remain onboard.

APPENDIX 1 TO ANNEX 30B

CO/XO MONTHLY D&I SIGNATURE SHEET

Unit Name .....

Month	D&I(A) Comments	CO Signature	CO Comments
January 20**			
February 20**			
March 20**			
April 20**			
May 20**			
June 20**			
July 20**			
August 20**			
September 20**			
October 20**			
November 20**			
December 20**			

1. The D&I(A) comments section should indicate if any complaints (or nil) were raised in that month, e.g. Jan 2024 - “One complaint, see Executive Summary Sheet for details” or “Nil complaints” and therefore no Executive Summary Sheet is required.

2. XO should sign the D&I Log monthly (unless they are maintaining the log) and CO quarterly or six-monthly.

3. The CO **must always** sign the Executive Summary Sheet when a complaint is raised during that month.

APPENDIX 2 TO ANNEX 30B

TRAINING LOG

Unit Name .....

Date	Event	Audience	Delivered by	Signature

1. The D&I(A) is to record all D&I training conducted within the Unit. To include planned training and if subsequently cancelled, an explanation given for the cancellation is to be annotated in the Log.

2. All mandatory D&I training is to be delivered by a qualified and in date D&I(A) with support from unit D&I(P)s.

APPENDIX 3 TO ANNEX 30B

D&I ACTION PLAN

UNIT/SHIP Name
D&I Action Plan – Updated DD MMM YY

Serial No	Subject	Action Points	Frequency/ Deadline	Action Lead
		Policy		
1.	*External D&I Policy Statements*	*a. Review all relevant (MOD, Navy Command etc) policy statements to ensure that they are being correctly implemented onboard.*	*Annual (Jan) or post RiP as required*	*D&I(A)*
2.				
3.				
4.				
		Command Leadership and Commitment		
5.	*Meet cultural and religious needs of all personnel*	*a. Organise work routines wherever possible to allow time off for prayer and religious festivals.* *b. Ensure arrangements continue to be made to accommodate female personnel onboard.* *c. Meet dietary requirements of all personnel.* *d. Challenge any form of unacceptable behaviour.*	*a. Monthly* *b. Ongoing* *c. Daily* *d. Daily*	*a. D&I(A)* *b. Executive Team* *c. LCS* *d. Command Chain*
6.				
7.				
8.				

Serial No	Subject	Action Points	Frequency/ Deadline	Action Lead
Training				
9.	*Provision of internal training*	*a. Hold monthly discussion groups with Ship's company.* *b. Include D&I in the weekly training subject on daily orders.* *c. Conduct mandatory D&I training for personnel OOD for JPA competency.* *d. Include D&I as a topic for Divisional meetings.*	*a. Monthly* *b. Every 8 weeks* *c. Every 6 months* *d. Every term*	*a. b. c. D&I(A)* *d. Divisional Officers*
10.

17.	*Internal Communications*	*a. Ensure that any internal communications (Daily orders etc) are compliant with current unit D&I Policy.*	*Daily*	*D&I(A)*
18.				
19.				
20.				
Qualified Personnel				
21.	*D&I Advisors and Practitioners*	*a. Roles to be offered to all ranks and grades.* *b. Ensure required number of D&I Advisors and Practitioners is met.* *c. Provide time for CPD.*	*Ongoing*	*D&I(A)*
22.				
23.				
24.				

APPENDIX 4 TO ANNEX 30B

WHOLE FORCE INCIDENT LOG

Serial No:	1. Incident type:
2. Nature of bullying or harassment: (*see codes overleaf or leave blank if box 1 and 3 capture it*)	3. Is the incident related to a Protected Characteristic in the EA 2010?: Not related, Age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion or belief, sex, sexual orientation (*circle as appropriate*)
4. Date of incident:	5. Date of discussion:
6. Individual's Details: Name, Service, Number, Rank / Rate / grade, Sex (M / F / Prefer to self-describe):	7. Do they consider themselves to belong to a minority group?:
8. Respondent (*details if known*): Name, Service, Number, Rank / Rate / grade, Sex (M / F / Prefer to self-describe). Does the Respondent belong to a minority group?:	9. Witness(es) (*if applicable*): Name, Service, Number, Rank / Rate:
10. Summary of incident: *(briefly explain what happened – use additional pages if needed)*	
11. Redress sought by Complainant:	
12. Advice given, including action taken: (*Adviser should outline all options available, including redress and appropriate signposting)*	
Name / Signature / Date - D&I Adviser	Name / Signature / Date - Complainant

Nature of the bullying or harassment	Code Reference
Comments about personal appearance	1
Spreading gossip or making false accusations	2
Intimidation or verbal aggression	3
Humiliated in front of team or others	4
Negative micromanagement	5
Removal of job responsibilities, unconstructive criticism, or impossible / changing expectations	6
Treated less favourably to others	7
Ignored, excluded, marginalised	8
Undermining, or taking credit for work	9
Denied time off for personal ill health	10
Denied time off for family or caring responsibilities	11
Disclosure of personal / sensitive information to colleagues without consent	12
Unhelpful comments about mental health or being off sick	13
Use of inappropriate language e.g. swearing or using offensive terms / nicknames	14
Something else not listed here	15

APPENDIX 5 TO ANNEX 30B

INCIDENT FOLLOW UP

1. D&I Advisers should use the checklist below to follow up with individuals who have approached them for advice four weeks on from the initial discussion. D&I(As) can choose the most appropriate way to do this, whether through email or by having a face-to-face conversation. D&I(As) are required to make a note of the key points outlined below and keep it with the associated incident log, noting the date of the follow-up.

2. Suggested follow-up questions

a. Has the behaviour now stopped, or has it continued in some way? If it has continued, has any action been taken to resolve this?

b. What steps were taken following our conversation? (e.g. decided to try a method of informal resolution or started a formal complaint).

c. Was mediation used during the course of resolving the issue?

d. Has the issue now been resolved successfully or is resolution ongoing?

e. If the issue is still ongoing, what are the next steps?

f. What was the outcome and are you satisfied? If not, could you outline why?

g. What lessons do you think have been learned by your unit / team because of this incident? Do you think appropriate steps have been taken to avoid similar incidents happening in the future?

h. Is there anything else about this incident you would like to raise?

APPENDIX 6 TO ANNEX 30B

LEAD D&I ADVISER MONTHLY SUMMARY LOG

Names and identifying details of parties are NOT to be recorded on this form			
Date of log:		Serial Number:	
Date incident raised:			
Type of log (*circle as appropriate*)	○ New incident ○ Existing incident ○ No new incidents		
Type of approach:	○ General advice ○ Informal complaint	○ Formal Complaint ○ Civilian BHD formal complaint	
Issue type:	○ Bullying ○ Harassment ○ Sexual harassment	○ Discrimination ○ Victimisation	
Is the issue related to a Protected Characteristic outlined in the 2010 Equality Act?:	○ Not related ○ Age ○ Disability ○ Gender reassignment ○ Marriage and civil partnership	○ Pregnancy and maternity ○ Race ○ Religion or belief ○ Sex ○ Sexual orientation	
Nature of the bullying / harassment:	○ Comments about personal appearance ○ Spreading gossip or making false accusations ○ Intimidation or verbal aggression ○ Humiliated in front of team or others ○ Negative micromanagement ○ Removal of job responsibilities, unconstructive criticism, or impossible / changing expectations ○ Treated less favourably to others ○ Ignored, excluded, marginalised ○ Undermining, or taking credit for work ○ Denied time off for personal ill health ○ Denied time off for family or caring responsibilities ○ Disclosure of personal / sensitive information to colleagues without consent ○ Unhelpful comments about mental health or being off sick ○ Use of inappropriate language e.g. swearing / using offensive terms or nicknames ○ Something else not listed here		
Gender of Complainant:	○ Man ○ Woman ○ Prefers to self-describe		

Does the Complainant consider themselves to belong to a minority group?:		○ Yes (give details - see categories listed above) ○ No
Brief outline of incident:		
Current status of complaint:	○ Closed (record date here) ○ Open (note date for follow up here)	
Mediation used?	○ Yes ○ No	
Was the issue resolved successfully?	○ Yes ○ No ○ No, led to a formal complaint	

ANNEX 30C

GUIDANCE TO D&I(A)s WHEN CONSIDERING/RECOMMENDING MEDIATION

1. Introduction

a. **Informal Bullying and Harassment Complaints.** As a D&I(A) your role is to advise both (or all) parties of the mediation process in order to resolve the complaint. For those intractable *Informal* bullying and harassment complaints where the content is considered sufficiently serious, you are to scope the nature of the complaint and mediator provision with the Complaints Investigation and Mediation Team (CIMT) prior to commencing any mediation and can be contacted at NAVYLEGAL-MediationService@mod.gov.uk.

b. **Formal Bullying and Harassment/Service Complaints.** As a D&I(A) your role is to advise the Deciding Officer on whether mediation is, or has been, a consideration when resolving a *Formal* bullying and harassment Complaint or a Service Complaint which has a bullying and harassment element that may be resolvable through mediation. You are to advise both Parties of the mediation process as a means of resolving the complaint/part of the complaint. The D&I(A) is to scope the complaint with the CIMT to determine whether it should be considered for resolution by accredited mediators. It is important to remember that mediation can be used at any stage of the Formal Complaints process. For effective mediation, both Parties must be willing to participate in good faith to attempt to work out an agreement and resolve the complaint.

c. **Workplace Based Disputes.** As a D&I(A) you may be asked to advise Line Management as to whether a specific workplace-based dispute might be resolved through mediation. If you, Line Management and the Parties consider mediation to be an option, you are to contact the CIMT to scope the suitability of mediation for resolution of the dispute. You are also required to advise the Parties of the mediation process as a means of resolving the dispute.

2. Factors to Consider

Mediation can only work as a voluntary process and must be agreed by all parties. Its use should be on a case-by-case basis and it cannot be ‘forced’ upon Parties. Factors to be considered include:

a. The history and dynamics leading up to the complaint. It is advised that mediation at an early stage is more likely to be effective than if utilised in the later stages of a complaint. If both Parties agree to mediation, then to ensure the best likelihood of success mediation should occur as soon as possible after the agreement has been given.

b. The possibility of physical threat or verbal aggression. Agreement on non-violence, respectful and dignified behaviour (including, where appropriate, respect for rank) and the maintenance of Service discipline throughout are essential and are pre-requisites for mediation.

c. The nature of the relationship between the Parties. A substantial difference in rank or status may mean that mediation is not a practical option. In general, mediation should only be used if there is no more than a two rank/grade separation between the Parties.

d. The intensity of feeling. If antipathy is extreme, mediation may not work.

e. The willingness of all Parties to participate in the process. Mediation cannot be one-sided; everyone needs to be able to contribute something constructive to achieve resolution.

f. The nature of the dispute/complaint; for example, cases of sexual harassment may involve criminal offences and are not suitable for mediation.

g. Staff Legal Advisers *may* recommend that mediation be offered to the parties involved in a Service Complaint.

3. Resolution

There will be maximum opportunity for achieving resolution through mediation in cases where the following conditions exist:

a. There are low levels of anger and verbal intimidation.

b. There have been no breaches of Service discipline rules.

c. No other Formal action is anticipated/underway which would conflict with the mediation process.

d. Allegation(s) made are being offset by counter-allegation(s) that would be raised within the mediation process.

e. Both Parties are willing to contribute to a resolution.

f. There is room for improvement in relationships.

g. The Parties may not have been initially prepared to have face-to-face interaction with each other but are more inclined to do so with external help.

4. Care of U18s

In the event of an U18 Service person being involved in mediation, Commanding Officers are to provide an accompanying chaperone, e.g. Assisting Officer or any impartial, responsible person that the U18/Command chooses to nominate. The chaperone is present to ensure that the U18 person fully understands the process and to act in an advisory capacity to the individual. The chaperone should not be involved in any debate or offer an opinion during the mediation process, other than to act *in loco parentis* for the individual and monitor their emotional state. The chaperone should respect the full level of confidentiality applicable to mediation. The other Party in the mediation should also be consulted prior to commencement of the mediation process to ensure that they are content for the nominated individual to act as a chaperone.

5. When Not To Use Mediation

Mediation is not usually appropriate if, for example:

a. There is a difference of greater than two ranks/grades between the Parties. In instances where there is a rank difference greater than two ranks, the protocol for mediation should be discussed with the CIMT before being given final approval; in the event of a *formal* bullying and harassment/Service Complaint, this is to be by the Deciding Officer.

b. The nature of the relationship between the Parties is such that, from the perspective of all Parties, it is unsafe to participate.

c. Formal procedures need to be applied e.g. if potential criminal behaviour/activity is suspected, and Service Police involvement may be required.

d. Internal administrative, disciplinary or restoring efficiency procedures need to be applied e.g. if contravention of the Code of Social Conduct, other serious misconduct, or unsatisfactory performance may be involved.

e. Factors leading up to the dispute/complaint are long-standing and complex, and the Parties have become so embittered and entrenched, that progress is very unlikely.

f. The mediator, given their experience, considers that the situation is not suited to mediation.

6. Recording of Outcomes

The following actions are required to record mediation:

a. **Informal Bullying and Harassment Complaints.** The outcome, whether successful or unsuccessful, is to be recorded in the summary sheet for an Informal bullying and harassment complaint, retained within the Unit D&I Log.

b. **Formal Bullying and Harassment/Service Complaints.** A copy of the Mediator's letter to the Deciding Officer specifying the outcome is to be retained in the Unit D&I Log. The appropriate Declarations of Confidentiality will be retained by the CIMT.

ANNEX 30D

TRANSGENDER AND NON-BINARY SERVICE PERSONNEL

1. Introduction. This annex provides guidance for the support of RN transgender (trans) and non-binary Service Personnel (SP) including during transition/affirmation of their gender.

2. Supporting Trans and Non-Binary Service People.

a. JSP 889 contains the policy for the "Recruitment and Management of Transgender Service Personnel". The RN remains committed to making diversity and inclusion integral to all our policies, functions, and services. The RN values the unique contribution of all its people and will treat everyone with dignity and respect.

b. The Royal Navy (RN) D&I Policy Desk should be the first point of contact for individuals and Chain of Command (CoC) for assistance in interpreting JSP 889. The process for supporting trans SP through their transition/affirmation is well established and the RN D&I Policy Desk has experience in helping manage this period to be as smooth as possible for both the individual and CoC.

c. Where an individual shares that they are non-binary, a supportive, inclusive, approach is required. A person who is non-binary may possess the protected characteristic (PC) of gender reassignment, JSP 889 should be referred to in the first instance. The individual may choose to follow the trans referral route contained within JSP 889 with potential referral to a Gender Dysphoria Clinic (GDC) for affirmative therapy, or they may elect not to; the decision of whether to seek referral or not in no way invalidates their gender identity.

d. Not all trans and non-binary people want or can have medical support for their transition/affirmation. For those that do, there are prolonged waiting times to be seen by an NHS GDC, so some individuals may seek private treatment. As with any private treatment, SP should inform their Medical Officer or GP who will be able to discuss medical support available in-service and seek to ensure they are fully supported in receiving appropriate care in the form of shared care agreements. GPs should follow the procedure contained within BRd 1992 (0317 refers).

e. The lived experience of each trans or non-binary person will be very different and all trans and non-binary people should be supported as individuals, using the policy as a handrail. For specific support, the RN D&I Policy Desk is always available to CoC and individuals.

3. Confidentiality.

a. All personnel should be aware that gender reassignment (more broadly, 'being trans') is a PC under the Equality Act 2010. It is also protected under the Gender Recognition Act 2004 (GRA). The GRA states it is an offence for a person to disclose "protected information" to others where that information was "received in an official capacity." Protected information includes a person's trans status or gender history. Annex A of JSP 889 provides a comprehensive legal overview including confidentiality, privacy and data protection for SP protected under the PC of gender reassignment.

b. The RN is committed to maintaining trans and non-binary SP's confidentiality and data protection rights. A trans or non-binary SP's protected information should never be shared without either express (written) permission from the individual or following advice from a Service lawyer.

4. Using a Pragmatic Approach. Pragmatic and considered actions by the CoC can make life easier for trans and non-binary people. With some individuals not being open about their gender identity and infrastructure being used by people from external organisations, units should consider making changes proactively. The following examples provide Commanding Officers (COs) with ways in which they might support trans and non-binary people sympathetically without adversely impacting on operational capability (OC).

a. **Sanitary Provision.** Consideration should be given to ensure trans men and those with masculine gender identities have access to sanitary provision, by including sanitary waste facilities in all gender facilities.

b. **Dress and Appearance.** RN Dress Regulations (BRd 3(1) Part 6) provides definitive guidelines for dress and appearance standards. To support non-binary SP in expressing their gender, non-binary SP can choose to adopt either of the current men's or women's dress and appearance standards, whichever fits their gender more comfortably as affirmed by them. Where a SP's gender is fluid, the SP should adopt the uniform standard which most comfortably fits their gender at that time; this may change over time, as affirmed by the individual.

(1) SP are not permitted to mix the men's and women's uniform items or standards together, including hair under current policy

(2) Trans and non-binary SP are entitled to a gratuitous uplift of gendered uniform items. For example, tricorn or peaked cap, skirts, white shirts, etc, as appropriate.

(3) COs can support trans and non-binary SP by facilitating issue of uniform and ensuring maintenance of confidentiality about the person's gender history. For example, the CO or SP could inform the Logistics Officer/clothing store of requirements for an additional uniform issue. A bespoke appointment can be arranged to maintain confidentiality and avoid any unnecessary questions, or potential embarrassment, at the counter.

c. **Health and Safety.** Individuals who use gender affirming prosthetics[1] should always consider their own health and safety during their use. All roles in the RN contain inherent risk and these increase in operational environments. Individuals may wish to temporarily remove any such items where their continued use could cause greater injury, or impact their own capability, for example during firefighting or at Action Stations. If necessary, contact the RN D&I Policy Desk for further support.

d. **Accommodation.** COs are to contact the RN D&I Policy Desk to seek guidance when considering the allocation of accommodation spaces in their unit.

e. **Appraisal Writing.** In addition to the D&I Guidance in JSP757[2] ROs should discuss inclusive language with their reporting subjects who are trans or non-binary. The SP may wish to have either their affirmed pronouns used in the report, or non-specific pronouns like they/them/theirs, or phrase the report so pronouns are not necessary; by referring to them as 'the SP,' for example. These preferences should be respected in the appraisals process. If SP feel this is not being adhered to, SP should bring this to the ROs attention.

f. **CDT.** Any trans or non-binary person undergoing CDT and requiring more privacy should report to the CDT Lead on the day. The CDT Lead will be able to offer a more private space to provide a sample and an option of male or female monitor, as preferred.

g. Where possible such adjustments should be considered before a trans or non-binary person joins a Unit. This removes the risk of an individual being accidentally "outed" by the CoC as they incorporate such changes in response to their joining. Units should be aware that they may not know if a person is trans prior or during their draft. Decisions based on assumptions should be avoided.

5. Provision of all-Gender Toilet Facilities in RN Ships and Establishments. Where infrastructure allows, COs should provide some gender-neutral toilet facilities in their units. Gender-neutral toilets are toilets that anyone of any gender can use. They are the standard on planes and trains and should not take more than signage change to set-up. Gendered toilets are not welcoming for some people who do not fit gender norms.

a. Anyone, whether cisgender, trans or non-binary, may be challenged or questioned in such spaces if their appearance does not fit stereotypes of what a man or woman looks like. These challenges are often inappropriate, as well as distressing or embarrassing for the individuals concerned. Everyone should have access to a toilet they feel able to use safely. Many trans and non-binary people avoid using public toilets, sometimes by avoiding food and drinks. In a workplace, this may impact on the person's performance and can lead to medical issues. This would clearly have an adverse effect on OC. Additionally; not all trans and non-binary people are open about their identity. It is a positive and inclusive step to provide all-gender facilities where possible.

---

[1] Including but not limited to all types of STPs, packers, binders and wigs.
[2] JSP 757 Part 1, Chapter 4 Para 6 states: "The RO is obliged (and in some cases legally bound) to comply with D&I principles. All comments relating to physical attributes must be gender free and avoid reference to age, disability, Specific Learning Difficulties (SpLD), race, nationality, religion or ethnic background. Equally no reference should be made regarding marital status, pregnancy, other family circumstances or leave relating to maternity, paternity or adoption. ROs should also be cognisant of the preferred gender pronouns of the subject when writing both the MPAR and the OJAR/SJAR."

6. Dress Codes for Social Functions

a. The culture in UK society is becoming more diverse and inclusive, so too must our social dress codes. While the incidence of such requests may be small, the consequences of intolerance could be significant. Recognising that the RN has undertaken to become a diverse and inclusive employer, it therefore needs to be able to balance the maintenance of tradition with the need to accommodate changes in culture; the maintenance of tradition never trumps the requirement to act fairly and lawfully towards our people.

b. When setting the standard of dress at social events the maintenance of traditions and standards should be considered but choice should be permitted. Understanding that some people do not always identify with societal gender binary norms and tailoring the choice of clothing will create a more inclusive environment. For example, women may prefer not to wear a dress to social functions and may prefer to wear black tie, a non-binary person may wish to wear a dress or black tie; refusing to allow people to attend functions in their choice of clothing may be indirectly discriminatory.

c. Mess Presidents should examine their dress codes, including where previously 'or female equivalent' has been used as guidance. Not only is 'female equivalent' unclear, but it is also exclusive and restrictive. The key principle is to be specific about the standard required but inclusive of everyone. For example: "Dress Code: mess dress, black tie, evening dress or appropriate equivalent" would provide choice for all and create an inclusive environment for a formal evening function. A similar approach could be adopted for other, less formal standards of dress.

7. RN LGBTQ+ Network - Peer Support. RN LGBTQ+ is the sexual orientation, gender identity and expression network of the RN. It aims to foster an inclusive Service in which our people feel comfortable, valued, and empowered to be themselves and express their orientation and identity, realise their career potential, and contribute fully to the Service. The network provides for all staff, irrespective of their sexual orientation and gender identity across the Whole Force. They offer a confidential listening/advice and support service for those who seek help and are not comfortable with approaching their CoC. They can also offer peer-to-peer support through networking and social events. The network can be contacted at NAVY-LGBTQNetworkMAILBOX@mod.gov.uk.

8. Inclusive Language

a. While trans and non-binary people have always existed, the language to describe them and their experiences has not. The language surrounding and involving gender is developing and moving quickly. Many terms involve nuance and sensitivity so when talking (or writing) with (or about) trans and non-binary people it is important to use the correct language as affirmed by the individual (or group) you are communicating with (or about).

b. As people affirm their gender, they may choose a new name and ask you to use new pronouns to refer to them. A pronoun is a word we use instead of a name. Common pronouns are he, she, they, and you. Respecting pronouns is one of the simplest and easiest things you can do to support trans and non-binary people. A person's pronouns may change over time, based on their gender expression, or as they progress with their transition. Some people may use a mix of pronouns, for example he/they, where it is okay to use either set of pronouns interchangeably to refer to them. It is customary for some people to change their title and last name when they get married. If a colleague transitions, you should treat it as a similar readjustment and begin using their new name and pronouns as soon as they share them with you.

c. Hearing leaders and CoC using inclusive language can be very affirming for trans and non-binary people (whether open or not) and foster a culture of inclusiveness and belonging in the unit. Ways to improve inclusivity are:

(1) Consider putting your pronouns in your email signature.

(2) Consider starting to introduce yourself with pronouns.

(3) These are often low-risk actions that can have a significant impact on the inclusivity of your unit. It demonstrates that you are understanding of gender and committed to respecting people for who they are.

d. While mistakes during an adjustment period are understandable, it is important to deal with them in the correct way and ensure they are not repeated. Two common mistakes are:

(1) Misgendering: when a person is referred to with the wrong pronouns.

(2) Deadnaming: when a person is referred to by the name that they used before they transitioned (their 'deadname').

e. Whilst often unintentional, and no harm is intended, repetition over time or from multiple people can cause harm. If you make a mistake and deadname or misgender someone it is important to correct yourself, or be open when challenged, apologise, and move on. Deliberately misgendering someone is unacceptable and may constitute bullying or harassment. Incidents should be reported to the CoC and managed IAW JSP 763: The MOD Bullying and Harassment Complaints Procedures.

f. If you do not know which pronouns to use for a person, consider whether you need to know them: is it relevant for your interaction? If it is, simply ask them in a discrete but straightforward way: "Excuse me, what pronouns do you use?". Using rank is an effective way to avoid gendered language entirely, particularly in groups who are unfamiliar with each other. This is already widespread and normalised within the RN rank structure, e.g. when addressing a CPO as "Chief" or a LH as "Leader". Until a group is comfortable with which pronouns to use, you should consider encouraging this principle across all ranks: "Good Morning Lt," or "Hello Cdr" are no less respectful than "Hello Ma'am".

g. Where gender critical beliefs are held by individuals it is within their right to view gender as binary and related to birth sex as a personal philosophical belief. This however does not give the right for manifestation as unacceptable behaviours, bullying, harassment or discrimination. A person holding gender critical beliefs should still respect a trans or non-binary SPs pronouns if informed of them. Refusal to do so directly undermines cohesion of the unit and may constitute unacceptable behaviour.

ANNEX 30E

BUSINESS CASE TEMPLATES

1. Business Cases (BC) are used across the RN to provide a clear, auditable justification for proposals that require the allocation of time, funding, or other organisational resources. They ensure consistency of decision making, demonstrate alignment with Defence and RN strategic objectives, and evidence value for money.

2. Within RN D&I Networks, BCs are required for activities such as events, external engagement, training, travel, or other requests that draw upon Defence resources. Submissions allow Networks to articulate the purpose, expected benefits, costs, and contribution to operational effectiveness through improved inclusion and organisational culture.

3. Two approved templates are available for use: *the Standard Business Case* and the *Short Business Case*.

a. **The Standard Template.** Is used for higher-value, higher-risk, or more complex proposals, and requires detailed articulation of justification, options, risk analysis, benefits realisation, and delivery planning.

b. **The Short Template.** Provides a streamlined format for low-cost or low-risk activity, where only essential information is required in relation to the Networks financial plan to enable timely decision-making.

c. Both formats ensure proportionality while maintaining governance, transparency, and assurance across RN D&I activity.

4. Standard Business Case Template

a. **Date: [INSERT DATE HERE]**

b. **To:** Director, Conduct, Equity and Justice Directorate (Approving Authority)

c. **Copy To:** Defence Network Consultancy Team Leader, Conduct, Equity and Justice Directorate

d. **Business Case – For: [INSERT TITLE HERE]**

(1) **Issue.** Financial approval is sought for: short summary of requirement including What, Why, When and Who (especially target audience) and Outcome expected.

(2) **Recommendation.** The Approving Authority is invited to:

Approve expenditure of £XXXX.XX for:

Note: This event will positively support the department's objectives on D&I.

(3) **Timing.**

(a) Options of URGENT/ROUTINE - approval needed by XX/XX/XXXX and why.

(b) Please be aware, your Business Case must be approved before the event can take place - if the event goes ahead without approval, then the D&I team cannot be held responsible for the cost.

e. **Background To Requirement.**

(1) In no more than a couple of paragraphs, broadly set out the capability sought through this project and its role within wider departmental initiatives/ programmes. Also cover, if applicable, the project history and the wider governmental context for this project. Avoid jargon unfamiliar to the D&I team and explain any acronyms on first appearance.

(2) Breakdown of costs and activity. If it is an event, include where will it be publicised, who has been invited, and the proposed programme. If using an external company, three separate quotes are required with business justification on why the chosen supplier has been selected. Please ensure costs are cited with vat included.

f. **Benefits.**

(1) State the benefits and how the proposal aligns with the D&I strategy 'Force for Inclusion'[1]. The outcome expected should be included here and any method by which the outcome will be measured/assessed.

(2) Explain here how supporting this event/purchase will contribute to Defence's commitment to Armed Forces and Civil Service values and initiatives including the recently published Civil Service Diversity and Inclusion Strategy. Explain how your proposal will assist inclusion and diversity for Defence.

g. **Presentational Aspects.** Please add any detail on media or communications coverage you are planning, internally or externally.

h. **Procurement Route.**

(1) Please stipulate clearly how purchases will be made, for example Purchase will be made by CP&F for MOD contracted companies, ePC for external companies (or MOD contracted companies not registered on CP&F), the fee earner/ TNC process for speakers, or charged to a UIN.

[1] https://modgovuk.sharepoint.com/sites/defnet/HOCS/Documents/20180806-MOD_DI%20Plan_A4_v14_Final-U.pdf#search=Force%20for%20inclusion

(2) The Network must state how it will procure the item or service they are requesting D&I to fund. If you are unsure on procurement routes and payment options, please contact the supplier who can advise you what payment methods they accept. You can also email the Business Management Team at people-businessmgtmailbox@mod.gov.uk, or seek advice from your local Finance Business Partner.

i. **Summary.**

(1) By submitting this business case I acknowledge that I have read and am abiding by JSP 462, and JSP 332 for low value purchases.

Signed:

With contact details:

(2) Submit BC to DNCT at people-diversity-inclusion@mod.gov.uk one financial quarter (3 months) in advance of an event to avoid disappointment).

5. Short Business Case Template

Short Business Case (BC) Template (max 1 page)	
This BC is to secure *funding* from -	
Title	
Description of Requirement	
Cost	
Name of requirement owner	
Business Area	
UIN	
Procurement route	
Justification for spend/Who has directed this?	
Impact of non-approval (1-2 sentences)	

ANNEX 30F

RN NETWORK COMMUNICATION GUIDANCE

1. Aim. The aim of this Annex is to set out the RN policy, governance and minimum standards for communications and engagement by RN Staff Networks, and to align Network activity with Naval service priorities, brand and security requirements. This Annex has been developed in consultation with RN Comms.

2. Scope. This Annex applies to all RN and RM D&I Networks and any appointed Communications POCs, including Whole Force personnel and contractors when acting on behalf of the Service.

3. Policy.

a. **Governance & Responsibilities.**

(1) Director People & Training (P&T) owns the RN approach to people engagement and sets direction for coherent communications across P&T functions.

(2) P&T Engagement Team was established to bring cohesion and strategic prioritisation to communications and engagement initiatives across P&T and to filter these into RN Communications (RN Comms). The team advises Networks and assures alignment to wider organisational priorities.

(3) People Liaison Team (PLT) conducts front-line engagement to understand our people and to keep them informed on P&T themes; acts as a two-way mechanism for feedback to improve lived experience.

(4) RN Comms provides advice/guidance, brand assurance, content approvals and amplification across RN channels. A named RN Comms focal point will be promulgated on internal platforms.

b. **Annual Communications Cycle and Process.**

(1) Maintain an annual communications grid of key announcements, events and milestones.

(2) Produce a communications plan for each activity/event (OASIS method)

(3) Notify P&T Engagement Team and RN Comms of planned activity to enable alignment and amplification.

(4) Book photography/imagery support as early as possible and not less than two weeks in advance.

(5) Post-activity, measure impact against objectives and capture lessons.

c. **Communications Planning (OASIS).** Networks will use the OASIS framework: Objectives (SMART), Audience (specific and insight-led), Strategy (approach, tone and key messages), Implementation (channels and content), Scoring (measures of success).

d. **Inclusive Communications Standards.**

(1) Use plain, accessible language; avoid jargon and unexplained RN acronyms.

(2) Reflect diverse voices and perspectives; use representative imagery.

(3) Provide alternative text (ALT text) for images and captions/subtitles for video.

(4) Follow accessibility good practice for fonts, contrast and readability.

e. **External Social Media Use.** When posting on official or personal accounts in an official capacity, adhere to platform-appropriate style and RN brand. The following platform-specific guidance applies.

(1) **LinkedIn:**

(a) Engage with personnel content and celebrate milestones; showcase people, roles and skills.

(b) Prioritise video and image/graphic carousels (multi-page PDFs upload as carousels).

(c) Collaborate with partners and stakeholders to increase reach.

(d) Focus on hyperlocal content, regional stories, communities and industry partners.

(2) **X (Twitter):**

(a) Keep copy within 280 characters: short, clear, and simple.

(b) Prioritise video and images, tag relevant accounts in images where appropriate.

(c) Use a maximum of two relevant hashtags when aligned to a specific campaign/awareness moment.

(3) **Meta (Facebook):**

(a) Share hard news in a format aligned to reputable news outlets and link through to authoritative sources.

(b) Share good news regularly; build authentic relationships by responding to positive comments.

(c) Prioritise video; avoid posting more than three times a day.

(4) **Instagram:**

(a) Post in correct formats (9:16 for Reels/Stories; 4:5 for carousels).

(b) Use appropriate tone in line with RN brand; be timely with trends.

(c) Respond to users; use hashtags appropriately to extend reach; test posting times.

f. **Managing Negative Commentary.**

(1) Monitor posts after publication and triage responses.

(2) Use constructive criticism as lessons learned opportunities.

(3) For genuine complaints, respond or challenge where appropriate; peer responses may self-moderate.

(4) For malicious/offensive content, block/report the user and delete the comment in line with platform rules.

g. **Internal Communications Channels.** Authorised channels include RN DefNet, Defence Connect, MyNavy and the Whole Force Weekly Update. Tailor tone and content to the intended audience (military and/or civil service), keep copy concise and value led. Avoid over-reliance on national days/months as primary hooks; prioritise policy/personnel updates. Where appropriate, include lived-experience case studies and relevant links to single/tri-Service policy.

h. **Measuring Impact and Learning.**

(1) Reach: social reach, article views, newsletter distribution.

(2) Engagement: attendance numbers, comments, shares, clicks, email open/click-through rates.

(3) Feedback: surveys, focus groups, informal check-ins.

(4) Conduct a short post-activity wash-up to capture lessons and feed the next plan.

i. **Example of Effective Practice (for illustration).**

(1) Plan with Networks at least one month in advance to allow alignment and asset creation.

(2) Nominate a single comms POC to work with RN Comms.

(3) Hold regular planning calls with relevant stakeholders/partners/funders to maintain alignment.

(4) Provide daily content updates during major events so internal, news and digital teams know what to share.

(5) Use a single email thread or collaboration space to streamline content flow and approvals.

4. Compliance. All activity must comply with Defence writing and branding guidance, security and data protection requirements, the Service's social media direction, and any extant policy on D&I. Nothing in this Annex authorises disclosure of protected or personal information.

5. Records and Reporting. Networks are to retain communications plans, assets, approvals and evaluation summaries in accordance with Defence records policy. Quarterly summaries of activity and impact should be provided to the P&T Engagement Team as requested.

6. Security & Data Protection.

a. Apply the correct protective marking to all content and ensure pre-publication checks for OPSEC and PERSEC.

b. Obtain consent and safeguarding checks before publishing personal stories or imagery.

c. Use official channels and approved tools for collaboration and file sharing.

7. Review. This Annex will be reviewed quarterly by the RN D&I Policy Team in consultation with RN Comms and the P&T Engagement Team.

ANNEX 30G

EQUALITY ANALYSIS

1. Introduction

a. Guidance to support completion of EAs can be found on the Equality Analysis SharePoint[1].

b. Guidance on the Public Sector Equality Duty in Defence can be found in JSP 887.

CONTACT DETAILS	
1. Name of proposal owner	
2. Department, Faculty, Unit or Section	
3. Contact name and email	

STAGE ONE: PROPOSAL DETAILS	
1. Name of policy, function or practice (proposal) being assessed	
2. Reason for EA (check as appropriate) Please check the appropriate box	☐ New policy, function or practice ☐ Change to an existing policy, function or practice ☐ Review of existing policy, function or practice x Other (please state)
3. Date when the proposal is anticipated to come into effect	
4. Purpose of the proposal or review	
5. Who does the proposal impact?	
6. Legislative or other legal requirements?	
7. Who will deliver, communicate and implement the policy or proposal?	

[1] https://modgovuk.sharepoint.com/sites/peopleequalityanalysis/SitePages/Public-Sector-Equality-Duty-(PSED).aspx.

STAGE TWO: EVIDENCE BASE AND CONSULTATION		
4. Information sources What data has been used to evaluate impact on people sharing protected characteristics		
5. Gaps in evidence Please identify any gaps in evidence which prevented a proper assessment of the proposal.		
6. Engagement		
Consultation(s)	**Date(s)**	
	Audience	
	Main issues raised	
Consultation(s)	**Date(s)**	
	Audience	
	Main issues raised	
Other engagement(s)	**Date(s)**	
	Audience	
	Main issues raised	

STAGE THREE: ASSESSING IMPACT AND ACTION PLANNING							
7. What are the potential or actual impacts of the policy or proposal when assessed against each of the following protected characteristics?							
Reviewed characteristic[2]	***Positive impact***	***No impact***	***Negative impact***	**Detail of impact** *Explain whether, and if so, how, the proposal will affect people differently according to their expression of this characteristic.* *Will the policy need to be adapted to support the differential needs of the Protected Characteristics? This section should be completed whether the impact is positive or negative.* *With positive impact, detail the actions you will take to promote the positive impact to the organisation in the next column.*	**How will you mitigate or remove any negative impacts, promote any positive impacts, or adapt your policy to peoples' needs?** *You must have due regard to the need to:* *(a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Equality Act 2010.* *(b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it.* *(c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.* *If a negative impact is identified, explain the business need or direction given and why the proposed measures are appropriate and proportionate to achieve that. Where you identify a negative impact*	**Owner of action** *Identify who is responsible for mitigation or elimination if negative impacts have been identified or promote positive impacts identified.*	**Timescale** *Provide brief timescale for completion of mitigation or elimination if negative impacts have been identified or promote positive impacts identified.*

[2]The provisions of the Equality Act 2010 relating to work, contain exceptions so far as relating to age, sex or disability in service in the Armed Forces. Please see the Equality Duty Toolkit for further information - https://modgovuk.sharepoint.com/sites/peopleequalityanalysis/Shared%20Documents/Forms/AllItems.aspx?id=%2Fsites%2Fpeopleequalityanalysis%2FShared%20Documents%2FEquality%20Analysis%20Template%20and%20Toolkit%2F20230106%20Equality%20Duty%20Toolkit%2Epdf&parent=%2Fsites%2Fpeopleequalityanalysis%2FShared%20Documents%2FEquality%20Analysis%20Template%20and%20Toolkit.

					which cannot be objectively justified identify what changes you will make to your proposal to address this.		
Age	☐	☐	☐	*N/A*	*N/A*		
Disability	☐	☐	☐	*N/A*	*N/A*		
Gender reassignment	☐	☐	☐	*N/A*	*N/A*		
Marriage and civil partnership[3]	☐	☐	☐	*N/A*	*N/A*		
Pregnancy and maternity	☐	☐	☐	*N/A*	*N/A*		
Race	☐	☐	☐		*N/A*		

[3] Marriage and Civil Partnership is a protected characteristic under the Equality Act 2010 but is not a "relevant protected characteristic" for the purposes of PSED and does not need to be considered for full compliance with the duty.

				N/A			
Religion or belief	☐	☐	☐	*N/A*	*N/A*		
Sex	☐	☐	☐	*N/A*	*N/A*		
Sexual orientation	☐	☐	☐	*N/A*	*N/A*		
Applies to all characteristics	☐	☐	☐	*N/A*	*N/A*		
Other [4]	☐	☐	☐				

[4] Any further characteristics outside of those specified in the Equality Act that may be relevant, e.g. Part time workers, carers.

STAGE FOUR: OUTCOME	
8. Please select one of the outcomes below for how the proposal will be progressed	
☐ **No impact identified at this time.** *As a result of assessing the policy against the protected characteristics, no equality impact(s) have been identified.*	
☐ **Continue the proposal without adjustments for adverse impact.** *One or more adverse equality impacts have been identified. However, the proposal meets critical business need AND is an appropriate and proportionate means to achieve that aim.*	
☐ **Continue the proposal making adjustments where required.** *One or more equality impacts have been identified. Mitigating actions to address this will be taken.* *(as detailed in Table 14)*	
☐ **Stop the proposal because adverse impacts cannot be prevented or objectively justified.** *One or more adverse impacts have been identified which cannot be objectively justified and it is not possible to make adjustments to address the adverse impact; it may be necessary to stop the proposal.*	
PROPOSAL COMPLETION	
Signed by Proposal Owner (1* or above) ***The proposal owner is responsible for ensuring that all actions and review dates are met and the Equality Analysis is updated accordingly.*** ***The proposal owner is responsible for ensuring that the EA has been quality assured.***	Signature: Date:
Signed by MODLA ***Necessary only for major new policy and legislative proposals.***	Signature: Date:

c. **Next Steps**. Once the EA is signed, ensure the EA and the evidence informing the assessment is saved according to the guidance available online[5].

CHAPTER 31

RELIGION AND BELIEF

SECTION 1

THE ROYAL NAVY RELIGION AND BELIEF POLICY[1]

3101. Introduction

a. This chapter presents the Royal Navy's policy on Religion and Belief. It explains the ways in which the Naval Chaplaincy Service facilitates and promotes this policy. Section 1 includes both the Religion and Belief policy, and a summary of the external policies and legislation which inform our position. Section 2 lists common religious and belief practices, which the RN should accommodate in accordance with legislation and our own Religion and Belief policy. Section 3 gives a brief outline of the Naval Chaplaincy Service.

b. Religion and belief have a significant effect upon the morale, motivation and values of individual adherents. According to the Office of National Statistics the number of individuals in the UK describing themselves as Christian has decreased over the past decade, whilst there has been a rise in number among certain denominations, including Pentecostalism, and non-aligned or independent churches. In addition, there has been a rise in numbers of people who identify as non-religious or who follow other religions, faiths and belief systems, including Islam and Paganism. There has also been a rise in those who identify as 'spiritual' but not 'religious'.

c. The Royal Navy's Policy on religion and belief, as presented within this chapter, is informed by - and in accordance with - current government legislation and MOD Diversity and Inclusion (D&I) policy.

[1] Religion or belief are defined in the regulations as any religion, religious belief, or similar philosophical belief. Characteristics such as collective worship, a clear belief system or a profound philosophical belief affecting an individual's way of life or view of the world are likely to be relevant in determining what constitutes a religion or belief.

3102. The Royal Navy Policy on Religion and Belief

a. The influence of religion and belief permeates our world and their influence over global politics has risen over the past fifty years. Religion and belief can provide a specific moral compass and ethical viewpoint for many people. Eight in ten people worldwide still identify with a religion. Evidence shows that – beyond individual practice – faith is increasingly moving into the public sphere and people of faith are becoming key partners in organisations aimed at tackling a varied set of global challenges – a sign of the important role of faith leaders and communities in bringing about social change[2]. The number of people expressing religious affiliation around the world is rising. This is largely due to the growth of Islam in the Middle East, Africa and the Far East, and the growth of Christianity in China and Eastern Europe, following the dissolution of the USSR. In addition, the growth in religious adherents within highly-developed countries (such as Japan and South Korea) challenges the view that religion and belief systems are old-fashioned, archaic, or primitive. A Royal Navy that understands diversity of faith and belief provides operational advantage in engagement of cultures during global operations.

b. Everyone has the right to freedom of thought, conscience and religion[3]. While an individual's religion or belief is a private matter the Royal Navy, as a modern employer, recognises its moral and legal responsibilities to support and protect individuals from any form of discrimination, harassment, victimisation or bullying, due to an individual's religion or belief, or perception of their religion or belief.

c. Notwithstanding that religion and belief are a protected characteristic in law; they are often central to an individual's identity. As a core characteristic of an individual's identity, religion or belief can be a source of personal resilience and inform their moral compass, bringing a sense of ultimate meaning and belonging to something greater than themself. It can help people be comfortable with uncertainty, strengthen a person's morale, and improve their operational capability. This can also be true at a collective level among a group of religious people, if they are allowed to practice their religion or belief without hindrance. In these ways, religion or belief can indirectly add value to teams and units providing a 'spiritual edge' to the physical, moral and conceptual components of fighting power.

d. For these reasons it is the duty of all levels of leadership to make adequate provision for the spiritual and moral needs of all personnel and Commanding Officers are to set a good example in this respect. The Royal Navy also allows people to educate or inform others about their religion or belief, where the goal of this education is to improve understanding, rather than for the purpose of promoting or converting people to their religion or belief.

[2] World Economic Forum, 2014

[3] European Convention on Human Rights, Article 9. (1) 'Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief and freedom, either alone or in community with others and in public or private, to manifest his religion or belief, in worship, teaching, practice and observance. (2) Freedom to manifest one's religion or beliefs shall be subject only to such limitations as are prescribed by law and are necessary in a democratic society in the interests of public safety, for the protection of public order, health or morals, or for the protection of the rights and freedoms of others'.

e. The Naval Chaplaincy Service has a long-standing tradition of offering and providing non-religious pastoral care to support Service Personnel of any faiths or belief. In order to reflect the diverse nature and needs of our Service Personnel chaplains represent various Christian denominations and major World Faiths, providing religious advice from the Buddhist, Christian, Hindu, Jewish, Muslim and Sikh traditions.

3103. The Equality Act 2010

a. The Royal Navy's policy on Religion and Belief is informed by, and in accordance with, the Equality Act 2010. The purpose of the Equality Act 2010 is to protect individuals from discrimination, harassment, victimisation and other conduct prohibited under the Act across a variety of sectors, which includes the workplace. It also required the Royal Navy, as a public body, to give due regard to the need to eliminate discrimination, advance equality of opportunity and foster good relations.

b. The Equality Act 2010 lists nine Protected Characteristics on the basis of which it is unlawful to discriminate. These include Religion or Belief, Sex, Race, Gender Reassignment, Sexual Orientation, Marriage or Civil Partnership, Pregnancy and Maternity, Age and Disability[4]. The Equality Act 2010 applies to all religions, and to beliefs including both religious beliefs and philosophical beliefs. It encompasses the lack of religion or belief and also protects those perceived to hold a particular religion or belief, whether or not the person actually holds that religion or belief. In this way it protects everyone from discrimination on grounds of religion or belief.

c. No one protected characteristic has precedence over another. We are all beholden to the prohibitions on discrimination and harassment within the Equality Act. Thus, the Service requires personnel to work alongside others, regardless of what religion or belief they may hold, or other protected characteristics they may have. The right to hold a religion or belief and to express those beliefs must be balanced against the rights of other protected groups. We must be tolerant of the differences between us all and ensure that whilst we may all hold different beliefs, they are not manifested in a way that amounts to unlawful discrimination of others, or breaches other provisions of the Equality Act.

3104. MOD Guide on Religion and Belief in the Armed Forces

The Royal Navy's policy on religion and belief is informed by the MOD Diversity Policy and its Guide on Religion and Belief in the Armed Forces. The Guide and any amendments to it, provide direction on specific aspects of religion and belief within the Armed Forces and Civil Service, such as fasting, prayer, and religious dress codes.

3105. Potential Conflict Between Religious Belief and the Equality Act

a. The Royal Navy has a duty to enforce the Equality Act 2010 with regard to all nine Protected Characteristics, although there are exemptions in relation to age and disability where necessary to safeguard combat effectiveness. In some situations, conflict may arise between different individuals or groups whose rights are protected

[4] An exemption exists within the regulations in relation to age and disability where necessary in order to safeguard the combat effectiveness of the armed forces.

by this act. The right for everyone to be treated with dignity and respect in the workplace applies irrespective of religion or belief.

b. Any concerns may either be raised to the local D&I adviser or chaplain, directly or via the appropriate networks, who can assist in raising issues to command or directly with the local command or the Chaplain of the Fleet's Office.

3106. The Royal Navy's Diversity and Inclusion Policy

a. The Royal Navy's Policy on Religion and Belief is informed by, and in accordance with, the Royal Navy's Diversity and Inclusion (D&I) policy. The RN D&I policy draws upon the Armed Forces Act 2006, the Equality Act 2010 and the Public Sector Equality Duty. The RN D&I policy forms the basis for all Royal Navy D&I training, guidance and management of complaints. It can be found at BRd3, Chapter 30.

b. The RN D&I policy does not offer any specific guidance on religion and belief. Rather, it is a general policy stating the Royal Navy's commitment to create an inclusive workforce, to recognise the value of diversity, and to challenge any form of discrimination, bullying or harassment based on the nine protected characteristics named within the 2010 Equality Act.

3107. The Role of The Chaplaincy Service in Supporting Religion and Belief

a. The Naval Chaplaincy Service (NCS) plays a central role in promoting and developing the Royal Navy's policy on religion and belief and the Chaplain of the Fleet acts as Head of Profession with regard to chaplaincy across the Royal Navy.

b. Further information concerning the Naval Chaplaincy Service is available from the Chaplain of the Fleet's Office[5] and can also be found in the following publications:

(1) BRd 2 - The Queen's Regulations for the Royal Navy.

(2) BRd 439 - Royal Naval Chaplaincy.

[5] NAVYCHAPLAINCY-GROUPMAILBOX@mod.gov.uk

SECTION 2

FACILITATING RELIGION AND BELIEF PRACTICES

3108. Facilitating Religion and Belief Requirements within the Royal Navy

a. Within the Royal Navy, an individual's religion or belief-system is treated as a private matter. However, as an employer, the Royal Navy aims to create a safe and just environment, in which all individuals can fulfil their potential. This includes supporting Service Personnel in their religious or belief-based identity. The Royal Navy achieves this objective by sanctioning and facilitating religious or belief-based activities such as daily prayer and worship, ceremonies and rituals, mediation facilities, religious dress code requirements, and diets.

b. The Royal Navy make every effort to respect and accommodate religious or belief-based activities, dress codes and diets. However, these are subject to the vital considerations of operational effectiveness and health and safety policy. For these reasons, individuals may need to be flexible, particularly when this is in the interests of their own safety or that of their colleagues.

c. Commanding Officers and line managers should consider whether their policies, rules or procedures put someone of a particular religion or belief at a particular disadvantage and what changes can be made to support individuals. In most cases, meeting an individual's religious or belief-based needs will require little change. If it is not possible to make such changes, Commanding Officers must be able to justify that their chosen route can be demonstrated to be a proportionate means of achieving a legitimate aim.

d. Reasonable requests to facilitate religion and belief-based requirements must be considered objectively and met wherever practical. Blanket policies or refusals may constitute discrimination unless justifiable as a proportionate means of achieving a legitimate aim. An example of this would be a scenario where the granting of leave for a religious holiday would substantially impact on a unit's or team's capability. Units are often deployed over Christmas and Easter when most would rather be on leave.

3109. Facilitating The Needs of Emerging Religions and Beliefs

a. The Royal Navy Religion and Belief Policy seeks to protect and support all Service Personnel in their chosen religion or belief. This includes personnel who are adherents to established 'world' faiths, and those Service Personnel who are adherents to smaller, or emerging religions or beliefs.

b. In some cases, where an emerging religion or belief system is multi-faceted, with multiple permutations and no one accepted form of worship, doctrine, ethical codes, practises, and scriptural points of reference, it may take time to formulate policy or practices that are consistent with other religions or beliefs.

c. Personnel who perceive that their religion or belief-based practices are not being facilitated should first speak to their Command. If in doubt, Command should approach the Naval Chaplaincy Service HQ or NCHQ D&I Team for guidance, who will, in turn, approach the appropriate internal or external bodies and consult the appropriate legislation.

3110. Potentially Harmful Ideologies or Movements

Some religious or belief movements, including cults, sects or extremist groups and ideologies, may be damaging to national security, operational effectiveness, contrary to the Royal Navy's values and standards or detrimental to the well-being of individuals. Command is to be kept informed of any individual who may fall into this category. If in doubt as to how to respond to the situation, Command should engage with the NCHQ D&I Team or the Naval Chaplaincy Service HQ for guidance.

3111. Facilities for Prayer during the Working Day

a. Some religions require their followers to pray at specific times during the day. Individuals should discuss their needs with their chain of command and every effort should be made to support such needs.

b. The Equality Act 2010 does not require employers to provide time off, or facilities to enable personnel to meet religious observances in the workplace. Notwithstanding this, it is MOD policy to make such provision where circumstances allow.

(1) **Time.** Personnel will normally be expected to use break times for their religious observances. Time off for religious observances such as a prayer session during exercises or operations may have to be delayed or deferred due to unit activities.

(2) **Location.** Wherever practicable, areas for worship or contemplation should be made available in all MOD sites and Service establishments. This includes ships and submarines when deployed.

3112. Provision of Facilities for Prayer, Worship and Meditation

a. Religious organisations traditionally use a purpose-built building for prayer, worship and festivals. The Royal Navy recognises this requirement.

b. **Churches.** All shore-based establishments and Capital Ships have churches or church compartments. Commanding Officers and line managers are responsible for initiating administrative action through their Property Manager/Site Estate Representative for the provision of churches and church rooms permitted under the appropriate scale (JSP 315). When a church or church room is not available, Commanding Officers are to ensure that adequate and worthy accommodation is made available for the conduct of worship.

c. **Prayer, Meditation and Quiet Rooms.** A practising member of a faith or belief group deployed serving onboard a ship or in an establishment is to be afforded the provision of a space which may be used as a prayer, meditation or quiet room. Where personnel of a faith or belief group do not have the requisite furniture and/or items of significance which are recognised as essential to the practising of their faith or belief, the local budget holder should be approached for assistance in securing such items.

3113. Parades, Funerals and Acts of Worship

a. Service Personnel should not be compelled to attend religious services, be that of their own belief or one different to their own.

b. Service Personnel are however required to attend Parades, Divisions and other national or important ceremonial events or musters of the Ship's Company (e.g. Armistice Day, Remembrance and Memorial Ceremonies, Commissioning and Decommissioning). By long-standing tradition, these events often include elements of public prayer and reflection. In addition, Service Personnel may be required to attend Acts of Remembrance which are contained within the context of a religious service. When attending these events, all Service Personnel are required to follow all Parade Orders including when appropriate the removal of headdress (except as detailed at para 3825 sub para g), and to remain on Parade as ordered for the duration of the service. However, they are not required to follow the actual act of prayer or reflection. Their presence does not imply any participation, agreement or otherwise, in any religious or belief elements of the event.

c. Service Personnel may also be required to attend a civic ceremony or Service Funeral as a representative duty or as a member of a Guard of Honour, where the service or ceremony follows a rite associated with a religion or belief different from their own. In these situations, Service Personnel are required to follow all parade orders including when appropriate the removal of headdress (except as detailed at Para 3825 sub para g), and to remain in the required locations as ordered for the duration of the events. However, they are not required to assent to any prayer or follow the actual act of worship or reflection.

3114. Requests for Leave for Religious Festivals/Holidays

a. Many religions and beliefs have special festivals, ceremonies or spiritual observance days. An individual may request annual leave to attend activities associated with one of these events. Commanding Officers and line managers should make every effort to allow individuals time-off to honour these religious festivals or holidays[6].

b. Individuals should give as much notice as possible when requesting leave and bear in mind that a number of their colleagues may request leave at the same time.

[6] JSP 760, Section 6 - Sacred Festivals.

c. Requests for annual leave for special festivals or holidays need to be considered objectively and fairly. Where there are numerous requests for leave at the same time, care should be taken to ensure that leave is granted according to fair and objective criteria. It is important not to make assumptions on the basis of an individual's actual or perceived religion or belief. For example, it should not be assumed that non-Christians will be prepared to work during the Christmas holiday period.

d. The practice of operating a holiday system – whereby the unit closes for specific periods, such as for summer 'block' leave – may prevent individuals from taking leave at times of specific significance to their religion or belief. In this way, the unit may be indirectly discriminating against them. However, such indirect discrimination is not judged to be unlawful if it can be justified as a proportionate means to meet a legitimate aim such as for operational or business reasons.

3115. Dress, Hair, and Tattoos

a. Some religions or beliefs require their adherents to wear specific items of clothing, or to grow their hair. The Royal Navy recognises this need to observe specific codes of dress and appearance. Naval uniform regulations cover this at Chapter 38 of this BR, Section 2 (Cultural and Religious Differences).

b. When Command assesses a request, it is important to note that the Royal Navy distinguishes between the requirements of devout faith, which shall be allowed where operationally practicable, and the cultural and social customs of a particular group, which may be accommodated where disciplinary prudence permits. When assessing a request, it is recommended that the appropriate faith networks, faith advisers and chaplaincy are consulted.

c. Hair, including facial hair, may be grown in excess of the regulation length, if for legitimate religious or belief reasons (Para 3818, sub para 5). To qualify as such, the facial hair must be grown as a tenet of a faith, by an adherent to that faith. Para 3818 also notes that 'any faith or practice must be clearly established by an individual and not simply deemed as having been undertaken in order to defy the regulations contained within this BR'.

d. Tattoos with particular religious or belief significance are deemed to be acceptable, if in accordance with the overall rules concerning tattoos within the Royal Navy. However, a tattoo is judged to be unacceptable if it encourages a negative view of another religion or belief or other Protected Characteristics. (Para 3817 and Annex 38B).

3116. Religious or Belief Artefacts, Symbols and Jewellery

a. Some religions or beliefs require their adherents to wear specific items of jewellery, or to possess items or artefacts of symbolic significance. These can include symbolic or ritual weapons. For example, within the Sikh faith, adults wear the *Kangha* (comb), the *Kara* (bracelet), and carry a *Kirpan* (knife). Similarly, some Pagans may wish to wear an amulet or bracelet, and to possess a knife and/or a small pelt altar covering for their rituals.

b. The Royal Navy recognises the importance of these elements to certain religions and beliefs. In general, the wearing of jewellery is allowed in accordance with the dress codes contained within BR Chapter 38.

c. In certain circumstances, the wearing of jewellery might not be possible, due to the risk it poses to Health and Safety. In this situation, the Health and Safety of the individual or other members of the unit or ships company will take precedence over the accommodation of the religious or belief practice. In these circumstances, it should be possible to find a compromise, whereby the adherent can honour their tradition while reducing the risk. For example, while it would be inappropriate for a chef to wear a bracelet or amulet with an image hanging from it, it would be appropriate for the individual to wear a close-fitting amulet or bracelet.

d. Where a member of a unit or ships company wishes to possess a weapon for religious or belief reasons, a request to do so must be made to Command. When Command is assessing a request, it is important to note that the Royal Navy distinguishes between the tenets of devout faith, which shall be allowed where operationally practicable, and the cultural and social customs of a particular group, which may be accommodated where disciplinary prudence permits.

e. When considering a request to hold a weapon for religious or belief reasons, it is also important to note, in accordance with Para 3818 that ‘any faith or practice must be clearly established by an individual and not simply deemed as having been undertaken in order to defy the regulations contained within this BR’.

f. When Command is processing a request to hold a weapon for reasons of religion or belief, a distinction should be made between carrying/wearing a weapon on a daily basis (such as the Sikh *Kirpan*), and weapons possessed for ceremonial reasons, to be used in a ritual. Within certain forms of Pagan Religion, the adherent is expected to possess a knife for ritual purposes. However, this does not require the adherent to carry the knife at all times.

g. If Command grant a request from a member of a unit or ships company to hold a weapon for reasons of religion and belief, then that weapon must be declared to the RNP and the EWO. In addition, the individual must also be able to demonstrate the ability to store the weapon securely.

h. Command may grant the request in principle to carry a weapon, but place constraints upon the size of blade allowed.

i. Any Service Person wishing to possess a weapon for reasons of religion or belief must familiarise themselves with local laws. The laws limiting the size of blade, and freedom to carry a weapon can differ between countries, including those which collectively constitute the UK.

3117. Religious and Belief-Based Dietary Needs

a. People of many faiths and belief systems observe special diets. The Armed Forces make every effort to cater for such dietary requirements.

b. **Mess Halls.** Vegan, vegetarian, Halal and Kosher meals can be provided in Service mess facilities. It should be noted that the preparation of kosher food by mess staff in strict observance of the Jewish faith cannot be guaranteed. This also applies to the preparation of Halal food with regard to the Muslim faith. Sikh Service Personnel require an alternative meat selection to the Halal or Kosher option.

c. **Ration Packs.** Halal, Kosher, vegan, and vegetarian ration packs can normally be made available for operations and exercises[7]. However, in some circumstances this cannot be guaranteed.

3118. Religious Fasting

Some religions require their followers to undergo extended periods of fasting. In accordance with a wider MOD approach religious fasting should normally be allowed in the Royal Navy. However, fasting might be judged inappropriate in some operational circumstances and should be risk-assessed; for example, when the physical demands on an individual are high, and fasting would be hazardous. Most religions provide adherents with a waiver or limitation of fasting obligations in situations of conflict, travel or sickness. Care should be taken to ensure that permitting an individual to undertake a fast does not place unreasonable burdens on other personnel.

3119. Conscientious Objection

Armed Forces personnel have a liability to deploy with their units worldwide. There are well established appeal procedures for Service Personnel who, during their service, develop a genuine conscientious objection to further military service. A member of the Armed Forces who develops an objection to future military service should make that objection known to their Commanding Officer. Details of the procedure to be followed can be found at Para 5408.

[7] Sikhs require an alternative meat selection to the Halal or Kosher options.

SECTION 3

NAVAL CHAPLAINCY SERVICE: POLICY, STRUCTURE AND ENABLERS

3120. Naval Chaplaincy Service Policy

a. The Naval Chaplaincy Service exists to support the religion and belief needs of all personnel within the Royal Navy. Naval Chaplains are religious ministers and clerics who are commissioned by His Majesty the King. Before joining the Armed Forces, they have been professionally trained by their own Endorsing Authorities, and have accrued years of post-qualifying experience in their respective religious fields prior to applying to the Royal Navy. Successful New Entry chaplains then receive naval training at Britannia Royal Naval College, induction at the Armed Forces Chaplaincy Centre and further chaplaincy-specific operational training before being required to pass a Fleet Board confirming they can join the Trained Strength.

b. Naval chaplains bear no rank whatsoever but 'are commissioned as such, and are not officers. Although subject to Service law, a Naval chaplain has no rank, and is therefore outranked by no-one. Conversely a Naval chaplain outranks no-one.' They are expected to conduct themselves in a manner which reflects their calling and position. They must maintain the highest standards of professionalism, religious and moral leadership and personal functional standards at all times. .

c. Naval chaplains deliver a generic 'all souls' ministry serving personnel regardless of their religion or belief. They have pastoral, spiritual and ethical responsibilities to Command, Service Personnel and their dependents. In addition, chaplains help support team cohesion and defence engagement activities.

(1) As pastoral carers, chaplains are traditionally referred to as the 'friend and adviser' to all on board. In this pastoral capacity, they deliver confidential, non-judgemental, non-directive and non-religious support, working with other agencies, both at sea and ashore, in peace and war, to enhance the readiness, resilience and resourcefulness of Service people and their families.

(2) As religious professionals, chaplains provide spiritual leadership through acts of worship, religious teaching and spiritual support.

(3) Chaplains support unit cohesion, by forming strong relationships with unit members, and engaging with individuals and collective elements as required. Chaplains monitor morale, mediate disputes, and facilitate communication between ranks and departments to maximise unit effectiveness.

(4) Chaplains support Defence Engagement activities at a local, national and international level, through engagement with charities and other religious and faith organisations.

(5) As ethical advisers, chaplains function as guardians of the Service's moral compass, including its ethical values, standards and ethos.

d. Through the delivery of these five outputs, chaplains offer an invaluable and unique service to the Royal Navy and the Armed Forces. Collectively, chaplains act as a vital force-multiplier, improving the performance and resilience of individuals, units and the Royal Navy.

3121. Confidentiality

a. The Royal Navy recognises that professional confidentiality is an integral component of the pastoral care that chaplains offer to naval personnel. This confidential support sustains the privacy and wellbeing of the individual, thereby enhancing the individual's contribution to the Royal Navy.

b. For Roman Catholic and Anglican chaplains, in accordance with ecclesiastical canon law, confidentiality in formal sacramental confession is inviolable entailing no reporting whatsoever to a third party.

c. Pastoral encounters between chaplains and naval personnel remain strictly confidential. However, exceptionally, there may be occasions when a chaplain needs to share sensitive information with appropriate authorities, without the consent of the service person, "if there is reasonable concern that a child or adult at risk has been abused, or may be at risk of harm, where sharing information without the person's consent will override the requirement to keep information confidential"[8]. In this situation, the chaplain should first encourage the person to disclose the information themselves. If the chaplain feels obliged to share pertinent information against the person's wishes, then the chaplain must inform the person of their intentions, of what is to be reported, and to whom the report will be made, unless by doing so they are likely to put them or others at greater harm.

d. The law on confidentiality, and any definition of what constitutes good practice, is complex. Where chaplains are unclear, they are to refer to the Tri-Service protocols, their respective Principal Denominational Chaplain or Endorsing Authority and should seek guidance from the Chaplain of the Fleet's office.

3122. World Faiths Representation

a. Since 2022, uniformed chaplains endorsed by other World Faith organisations are able to serve as chaplains in the Royal Navy as regulars and reservists to deliver pastoral care and a generic chaplaincy ministry to 'all souls' in accordance with chaplaincy policy as described in para 3124.

b. World Faiths chaplaincy has also been provided by full-time civilian World Faiths' Chaplains drawn from the Buddhist, Hindu, Jewish, Muslim and Sikh faiths. These chaplains advise on matters specific to those faith groups, provide internal advice to the MOD, and raise awareness of their faith traditions across the Armed Forces. They are administered through the Armed Forces Chaplaincy Centre at the Defence Academy of the United Kingdom but can be contacted through any military chaplain. Names, addresses and contact details of these chaplains may be obtained from the chaplaincy contact list.

[8] Church of Scotland Safeguarding Handbook, p43.

c. Questions regarding religious practice or religious festivals for adherents of the Buddhist, Hindu, Jewish, Muslim and Sikh faith communities should be addressed to the appropriate World Faith Chaplain. Other faith and belief issues may be referred to the D&I team at NCHQ, the Chaplain of the Fleet's office, or the relevant Defence network.

d. With the consent of the individual, chaplains may forward details of Sikh, Hindu, Buddhist, Islamic and Jewish personnel in their ships/units to the appropriate World Faith Chaplain.

3123. Endorsing Authorities

Prior to selection for service all chaplaincy applicants must have their application supported by an MOD-approved Endorsing Authority. In addition to the normal responsibilities of the chain of command these Endorsing Authorities retain their own inherent disciplinary and pastoral responsibilities for the chaplain throughout the chaplain's time serving with a Chaplains' Commission in the Armed Forces. Any organisation wishing to become an Endorsing Authority may apply via the MOD's Chief of Defence People. Further information is available from the Chaplain of the Fleet's Office.

3124. Naval Chaplaincy Service Headquarters (NCS HQ)

a. The Naval Chaplaincy Service (NCS) is led and managed by the Chaplain of the Fleet (COTF) who is responsible to the First Sea Lord and Chief of Naval Staff (1SL/CNS) for the provision of a Chaplaincy Service. The COTF is responsible for enhancing the moral component of operational capability by ensuring that the pastoral and religious, spiritual, ethical and belief needs of all Service Personnel are supported, through the delivery of sufficient, capable and motivated chaplains and generic chaplaincy provision.

b. The COTF is line-managed by the Fleet Commander as the Operational Head of the RN. The COTF is also a member of the Armed Forces Chaplaincy Policy Board (AFCPB), together with the Army and RAF Heads of Chaplaincy Services (HoCs). The AFCPB provides a forum for decision making across the three Armed Forces' Chaplaincy Services. The COTF is part of Navy Command Headquarters (NCHQ) and routinely engages at the 2* level. The COTF is therefore afforded 2* status for official entitlement purposes.

c. The Deputy Chaplain of the Fleet (DCOTF) is responsible for the delivery and operational capability of the NCS and is assisted by Staff Chaplains, responsible for operations, policy, recruiting, Commando Forces, Maritime Reserves and Sea Cadets.

d. The three major denominational groupings (Anglican, Roman Catholic and Church of Scotland and Free Churches) are each headed by a Principal Denominational Chaplain (PDC) appointed by their Endorsing Authority. They are responsible for pastoral support, ecclesiastical direction and guidance, and ecclesiastical discipline.

e. The career management of chaplains is undertaken on behalf of DCOTF by the COTF's Executive Assistant (EA).

f. The COTF is assisted in their policy making duties by the Naval Chaplaincy Policy Board. The purpose is to ensure the delivery of good practice, policy coherence and ongoing relevance. Chaired by COTF, it consists of DCOTF, AFCC Principal, EA COTF, Principal Denominational Chaplains (PDC), and the Staff Chaplain (secretary).

3125. Chaplaincy Teams

Where an establishment has more than one chaplain assigned the DCOTF will appoint a Chaplaincy Team Leader (CTL) to coordinate the delivery of chaplaincy to the Unit(s) or Establishment. Within a Naval Base these teams include those appointed to the unit, and those appointed to a flotilla. The flotilla chaplains' operational deployments will be subject to their 1RO in agreement with the coordinating flotilla chaplain reporting to the 1*/OF5 Chain of Command. When not at sea or on leave flotilla chaplains are to make themselves available to the CTL for duty.

3126. Facilitating the Work of the Chaplain

a. Chaplains in the Royal Navy represent a unique resource that can assist by taking a considerable load from busy Divisional Officers and Troop Commanders. In this way, chaplains can enhance the depth of care the Service offers to personnel. In order to make best use of this resource, chaplains themselves need appropriate support. In particular, they need adequate accommodation and ready access to personnel. A chaplain, who is welcomed and encouraged to become fully involved in the life of a unit or establishment will be a positive asset, whose benefit far outweighs any inconvenience caused by the need to accommodate another person in a crowded ship or unit.

b. While a chaplain works with and alongside the Executive Officer and the department, they do have a separate identity and therefore are accorded Head of Department status and direct access to Commanding Officer. Traditionally, chaplains assume the rank of the individual to whom they are talking and in a gathering of mixed ranks it has been customary to accord them the rank of the highest Serving Person present.

c. There is a relationship between the accommodation available in a ship, the chaplain's place in a ship and the length of time which a chaplain can spend in a frigate or destroyer. Guidelines as to what is appropriate are as follows:

(1) Temporary sleeping arrangement and no dedicated working space - up to two weeks.

(2) Shared cabin but no dedicated working space - up to eight weeks.

(3) Shared accommodation and dedicated workspace - up to 12 weeks.

(4) Single cabin and computer terminal - up to 36 weeks.

3127. Retreats

Commissioned chaplains should attend an annual retreat for which UK travel and any subsistence and retreat costs should be met from public funds. Without prior approval the Crown is not liable to retrospectively fund a retreat. Further details are available in BRd 439. Units are to ensure this is accounted for in their budgeting. If a retreat is taken outside the UK this must be approved both by the DCOTF and the appropriate higher command. Financial probity should be exercised in accordance with JSP 752 Art 04.0101.

3128. Church Officers

a. Church Officers are Serving Personnel on platforms who are entrusted to facilitate acts of worship when there is no chaplain embarked. They may be of any rank, rate or denomination, but are to have a suitable demeanour and sufficient organisational skills for the task. Church Officers are appointed by Commanding Officers. When the position of Church Officer is vacant, every effort should be made to ensure that a suitable person is proposed as Church Officer in preference to an individual being pressed into the post.

b. **Tasks.** Church Officers should co-ordinate arrangements for the provision of weekly services and other religious gatherings at sea. When alongside for a port visit, they should publish the times of local church services. When a chaplain is embarked, they have an invaluable role to play in helping to facilitate worship as directed by the chaplain.

c. **Training and Support.** The NCS produce a comprehensive guide for Church Officers in electronic and hard copy formats. In addition, the naval base chaplaincy should hold induction training sessions for Church Officers and additional support and advice is available from NCS HQ and the flotilla coordinating chaplain. Command should make Church Officers available for this training wherever possible.

3129. Services at Sea

a. The provision of weekly worship is the responsibility of the ship's Commanding Officer. When a chaplain is embarked, the content of the service is the chaplain's responsibility. If no chaplain is embarked, the CO may delegate that responsibility to a designated Church Officer.

b. NCS Policy is that the main church service at sea is open to all and should normally be ecumenical in nature, with provision for celebration of Holy Communion made at a separate time.

3130. Services When Abroad

a. A service is not normally held on board when the ship is alongside for a port visit. However, this is at the discretion of the chaplain and the CO. If no service is held on board, a list of local churches and places of faith or belief, along with addresses and service times should be made available by the Visit Officer.

b. If a port has a naval presence and a Naval Chaplaincy, it is appropriate for the Ship's chaplain to call on the local chaplain during a port visit. If there is no chaplaincy presence, then it is appropriate for the chaplain to call on the local ecclesiastical hierarchy.

3131. Ecumenical Services

On many occasions it is more appropriate for a chaplain to conduct an ecumenical church service rather than be bound by their own denominational tradition. Traditional occasions on which ecumenical services are held include Remembrance Sunday, Seafarers' Sunday, ship commissioning and re-dedication services, and services during which colours are re-dedicated. Guidelines for conducting ecumenical services may be found in BRd 439.

3132. Commissioning, Re-Dedication and De-Commissioning Services

a. The COTF will normally conduct all commissioning services, regardless of the size of the ship, submarine or unit. Traditionally, DCOTF officiates at re-dedication services and decommissioning Services are conducted by the last chaplain of the ship, submarine or unit being decommissioned. The chaplain with direct responsibility for the ship, submarine or unit concerned, will normally be robed and participate in all services associated with their ship.

b. No commissioning, re-dedication or decommissioning should occur without the prior knowledge of COTF. The Commanding Officer is responsible for informing COTF and DCOTF in a timely manner.

c. Services of commissioning, re-dedication and decommissioning are the responsibility of the Commanding Officer. However, the ship or unit's chaplain should be consulted with regard to the order of service. Previous orders of service are available from the COTF's office.

3133. Naval Baptisms Onboard Ships

a. There is a long-standing tradition of Service Personnel having their children baptised on-board ships using the ship's bell as a baptismal font in order to contain the holy water necessary for the rite of Christian baptism.

b. No baptism should be arranged on board without prior consultation with the Commanding Officer, the Unit's chaplain and the appropriate Principal Denominational Chaplain. If a civilian Minister or Priest is invited to conduct a baptism on board, approval must also be obtained from the COTF's office.

c. Details of the baptism are to be recorded in the Ship's Log as well as recorded according to individual church norms, for example in the naval base ships' baptism register. It has been customary in the past for the names of those baptised using the ship's bell to have their names engraved inside the rim of the ship's bell. No public funding is available for this. The COTF's office can advise further on appropriate contractors who can do this.

d. Non-religious naming ceremonies may also take place at an establishment or on board with the agreement of the Commanding Officer.

3134. Marriages and Civil Partnerships

a. **RN Marriages and Civil Partnerships in the United Kingdom.** Service marriages and civil partnerships within the UK should be conducted in accordance with the regulations of the appropriate civic authorities and with due regard to the traditions, customs and regulations pertaining to the officiating celebrant. The Naval Chaplaincy Service welcomes applications from all couples who wish to have a civil partnership or to get married. Non-religious ceremonies are also available. Some Endorsing Authorities do not allow their chaplains to conduct same-sex ceremonies however the NCS can arrange alternative provision. Due to certain legal preliminaries longer lead in times may be required for some procedures within military establishments. Queries should be directed either to the Unit chaplain or to COTF's office.

b. **Marriages in Churches and other Locations.** Church marriages and civil partnerships should be conducted in accordance with ecclesiastical rules, customs and legislation. These differ between the different Endorsing Authorities. For example, some churches only allow marriages to be conducted within a church and by a chaplain authorised specifically to solemnise marriages, while other churches allow their clergy to conduct marriages in other locations including outdoor locations. Further advice is available in from the COTF's office.

c. **Marriages Abroad.** Chaplains should give every support to couples intending to marry abroad. In the case of a civil ceremony, in order to overcome any procedural difficulties, the High Commission or Embassy of the country concerned should be consulted well in advance. In the case of a church marriage, the local ecclesiastical authorities must be consulted to ensure that there is no breach of canon law or courtesy. A check must be made to ascertain whether a marriage abroad should be registered locally.

d. **Marriage in HM Ships.** Royal Navy vessels, including Royal Fleet Auxiliaries, are not registered places for marriages, for either civil or religious ceremonies, even abroad. Preliminaries for marriage may be carried out on board if the regulations are satisfied (QRRN Chapter 61). Marriage Banns may only be called by an Anglican chaplain or the Commanding Officer.

3135. Death in Service, Bereavement Care and Funeral Officers

When a death in Service occurs, the Visiting and/or Assisting Officers who provide assistance to families should take account of religion or belief of the bereaved and their family members. Nonetheless a Service chaplain should be offered to provide bereavement support and pastoral care. In most cases, the religion or belief of the deceased will directly influence the funeral, burial or cremation arrangements. Advice is available from COTF's office, local chaplains and other faith and belief groups. Funeral Officers should take care not to try to organise the details of the service or ceremony inside a crematorium, church or at the burial ground, but leave this to the chaplain or appropriate celebrant. Funeral Officers should liaise with the relevant chaplain or celebrant as early as possible and ensure the officiant has the opportunity to provide pastoral care and bereavement support as well as deliver the ceremonial rites provided for within the funeral.

3136. Death During Combat and Emergency Burial

In circumstances where a Death in Service occurs in combat or while deployed, bodies of the deceased will normally be repatriated to the UK. In an extreme combat situation, repatriation may not be possible. In this situation, a chaplain is permitted to bury the deceased. Chaplains on front line duty carry an emergency order of prayers for the five main minority faith groups (Buddhism, Hinduism, Islam, Judaism and Sikhism) to enable this. If a religious ceremony is not appropriate a non-religious ritual may be provided as an alternative.

3137. Memorial Services for Individuals and Ships

a. In the event of the death of a member of a Ship's Company it is appropriate for a memorial service to be held for those on board who are unable to attend the funeral. This should be conducted in liaison with the ship's chaplain. The service may be held on board or, if alongside, at a local Naval Base church. If the service is held at a local Naval Base church then the service should be arranged in conjunction with the establishment's chaplaincy. An alternative non-religious provision should be available for those who opt for it. The local base chaplaincy should be contacted for advice.

b. It is appropriate for a chaplain to conduct a wreath-laying service at sea when a ship passes the site where a Royal Navy ship sank. Alternatively, a chaplain may conduct a memorial service at a War Graves Cemetery ashore. QRRN details the occasions when the cost of a wreath may be borne by public funds. Units may obtain wreaths from a local branch of RBL. Ships should ensure that they have sufficient poppy wreaths for an entire deployment and that the appropriate fund is used. Biodegradable wreaths should be used to avoid MARPOL incidents.

3138. Veterans' Funerals

a. When providing support to funerals, chaplaincy policy distinguishes between a death in service and veteran funerals. The MOD provides for clergy, chaplains or non-religious celebrants to conduct the funerals of any serving person's family who request this support, paid for by the Crown. However, NCS policy is that commissioned chaplains who are currently serving are not available to conduct veteran's funerals. This policy reflects the fact that chaplaincy's primary purpose is supporting those currently serving and their families.

b. Traditionally, veteran's funerals have been conducted by retired chaplains or local celebrants via the appointed Funeral Directors. Retired naval chaplains may be contacted through the Association of Royal Naval Chaplains or the COTF's office. The customary exceptions to this rule are if the veteran is of Flag rank, or if the veteran was a regular member of a naval church congregation or for some other significant pastoral reason, for example if the deceased had only recently left the Service. Requests for chaplaincy support for veteran funerals should be made to the COTF's office.

3139. Burial at Sea and Committal of Ashes at Sea

a. The Royal Navy offers the facility for the Committal of Ashes at sea. Committal of Ashes at sea is provided to any former Serving Person and their spouse at public expense. The local Naval Base chaplaincy team is normally responsible and a range of faith and belief options are available. Further information is available from the Chaplaincy Committals Officer at HM Naval Base Portsmouth.

b. Ashes may be committed from warships on certain occasions, but this will normally only be approved in the case of persons serving at time of death.

c. For practical reasons, ashes must not be literally scattered at sea. The ashes should be stored in a weighted, vented and unmarked container/casket. Suitable biodegradable containers are available. The Chaplaincy Committals Officer at HM Naval Base Portsmouth or appropriate chaplaincy will be able to provide current regulations regarding the specification of caskets that are permissible. The casket is to be treated as a coffin and is to be covered by a small Union Flag. The White Ensign is not to be used.

d. During peacetime the burial of a body at sea is not normally permitted. No commitment should be entered into with next-of-kin for burial at sea without consulting COTF's office.

CHAPTER 32

SERVICE FUNDS, CHARITIES AND ASSOCIATED ORGANISATIONS

SECTION 1

PROVISION OF SUPPORT TO CHARITIES

3201. Introduction

The Third Sector Section is Navy Command's focal point for Third Sector (including charities, not for profit organisations, associations, heritage and museums issues, interactions, policy and guidance. The Third Sector Section sits within the Command Secretary's area of the Naval Command Headquarters and its role is to provide greater clarity, consistency and focus with respect to Navy Command's interactions with the Third Sector, to define policy and provide the focal point/representation for dealings with Third Sector entities, including the RN resources that could be offered (in accordance with Departmental guidelines) to requests for Royal Navy support. In addition, Directorate People and Training (via the People Support area) provides In Service (Public) funds which are available to support Service Personnel (SP) to improve military efficiency and the moral component of capability, and to combat disruption, uncertainty, drudgery and boredom, wasteful working and an unreasonable pace or weight of work. Funds available and application processes are detailed in this Chapter.

SECTION 2

SERVICE FUNDS - GENERAL

3202. Introduction

This section gives details of public funds which support serving personnel and non-public funds, which have Charitable status. These funds exist to support the moral component of fighting power by providing funding as detailed below and for charitable purposes including the provision of facilities and amenities for education, recreation and entertainment, and otherwise financial support and benevolence for the mental and spiritual needs of serving and ex-serving personnel and, in necessitous circumstances, their dependants. Advice on any aspect of these funds may be obtained from the point of contact for this Chapter. The Chapter also lists a few of the other organisations which may provide support to Service and ex-Service personnel and their families.

3203. Service Funds - General

a. Service funds are non-public funds set up to promote military efficiency and as such come within the definitions of charitable purposes in Section 3.1(l) of the Charities Act 2011 (applicable in England and Wales) which states that "The promotion of the efficiency of the armed forces of the Crown, or the efficiency of the police, fire and rescue services or ambulance services". Although charity laws in Scotland and Northern Ireland do not have such a specific purpose, the objects of military charities are accepted under other general purposes in these jurisdictions.

b. **Public Benefit.** The 2011 Charities Act also specifies that, in addition to having a purpose listed in Section 3.1 of the Act, charities must benefit the public. Service Funds and charities are therefore required to prove their public benefit and an example clause for this purpose has been adopted for inclusion within the constitution of Service funds as follows:

> “This fund provides public benefit by assisting Service personnel to more effectively perform their roles within the armed forces of the Crown (or Royal Navy). This assistance enables Service personnel to face the challenges and danger associated with military service by developing and maintaining teamwork; skills; confidence; spirit and attitude; and morale. As a result, the fund promotes the efficiency of the armed forces of the Crown by enhancing the Royal Navy’s capability to undertake the roles demanded of it including the defence of the United Kingdom and its interests.”

c. **Benevolence Funds.** Benevolence funds (through block grants to other charities or on individual application) assist in alleviating distress or a proven financial need. In each case, eligibility in accordance with the objects of the fund and the beneficiary class is a determining factor.

d. **Amenity Funds.** Amenity funds are not provided to replace that which should be publicly funded, but rather to add that particular value that enhances facilities and recreational activities, thus improving the conditions of service for serving personnel, and where applicable the quality of life of their dependants. When making an application for Amenity Funding the Mixing of Public and Non-Public Funds on the Defence Estates needs to be taken into consideration.

e. **Accountability.** It is important that all expenditure of public funds by departments within the MOD complies with the rules and conventions of parliamentary and public accountability, and that corresponding regularity and propriety is observed by those who have been delegated financial authority.

f. **Scope.** Demonstration will be required on applications for capital spends for facilities that are not scaled items, or will not be adopted as core items, that future maintenance or replacement will be provided for from the organisation's own Non Public Funds and that these costs (the through life costs) have been fully assessed and can be met. Non-Public Funds should not normally be used for scaled items that are provided for from the Service Accommodation Code. This guidance does not preclude requests to upgrade existing facilities already maintained by Public Funds where such improvements would enhance and improve the conditions of service for the personnel serving in the Royal Navy.

3204. Service Funds - Composition and Regulation

a. A Service fund is a fund, comprised of money, stock and other assets, which is not the property of the Crown but which is used for the benefit of Service personnel to promote their well-being and efficiency. Non-Service personnel who contribute to the promotion of military efficiency are also entitled to benefit from such funds. The Crown has no liability whatsoever for any loss of cash, or loss or damage to stock or property, belonging to Service funds. Such funds enjoy charitable status (so long as they are used solely for the benefit of those entitled beneficiaries listed above) and are subject to the regulations of the Charities Act 2011.

b. Service funds are not private; they are official funds and their proper conduct is an integral part of the fabric of discipline and administration of the Royal Navy. Official support may therefore be provided for the maintenance, regulation and auditing of non-public funds. In circumstances where official support cannot be provided, the Commanding Officer may, in fulfilling the duties of Sole Managing Trustee, require the funds to be audited by a professional civilian accountant. The cost of such audits is not admissible as a charge against public funds but is an acceptable charge to the fund being audited.

c. **Non-Publicly Funded Activities.** The Department generally accepts no legal liability for activities of Service personnel assigned responsibility for activities which are wholly funded by non-public funds. A Commanding Officer is therefore to ensure that such activities have the requisite commercial insurance cover set out in single Service regulations.

d. **Managing Trustee.** Commanding Officers are the sole managing trustee of all Service funds existing for the benefit of the personnel under their command and as such they are ultimately responsible for ensuring that:

(1) Each fund confines itself to its activities and expenditure for the purpose for which it was instituted.

(2) The finances are managed to the maximum advantage of the beneficiaries.

(3) The law as laid down in the Trustees Act 2000 is observed as far as investments are concerned. A copy of this Act is at www.legislation.gov.uk/ukpga/2000/29/contents.

e. **Regulations for the Conduct of Service Funds.** Regulations for the conduct of Service funds, together with accounting and audit advice are contained in:

(2) **RM.** AC 60450, Service Fund Regulations and further advice can be sought from NAVY OCGRM-RMSFA (93832 5235).

f. **Duties and Responsibilities.** All those involved in the administration of Service funds are to be fully conversant with their duties and responsibilities, as detailed in BRd 0018, *Management and Accounting Instructions for Service Funds or, for Royal Marines, AC 60450, Service Fund Regulations*.

g. **Guidance to Trustees.** A copy of the Trustees Act 2000 is available at www.legislation.gov.uk/ukpga/2000/29/contents. Advice and guidance are available from the appropriate Charity Commission (see contact details below) on the correct administration of Service funds and their view should be sought whenever a trustee needs to clarify whether a particular activity of a Service fund, or the beneficiaries of that activity, lies within the bounds of the Charities Act 2011. The contact details for the Charity Commissioners are:

SECTION 3

IN SERVICE PUBLIC FUNDS

3205. Overview

a. The provision of in service public funding is covered in this section (including Commanding Officer's Public Fund (COPF) and Juniors Fund (JF), Rebalancing Lives Fund (RBL) and the Health and Performance Grant (HaP)) these may be used within the guidelines provided to improve military efficiency and the moral component of operational capability. Further information regarding Welfare funding available can be found in BRd 3(1) Chapter 24 and funding for sporting activities can be found in BRd 51 Chapter 24.

b. The Deployed Welfare Package (DWP) is the framework within which MOD provides both its military and eligible civilian personnel with the fullest possible welfare package to safeguard their psychological and physiological wellbeing while on DWP-qualifying operations, set against, and consistent with, the deployment environment and the availability of resources. Further information can be found in JSP 770 Annex B and extant RNTMs.

3206. Commanding Officer's Public Fund (COPF) and Juniors Fund (JF)

a. COPF is an independent funding allocation specifically designed to promote smooth running and efficiency of ship/unit and is entirely separate from other funding streams. All expenditure is subject to scrutiny and Navy Command will seek additional justification when appropriate.

b. JSP 770[1] provides guidance relating to spend of public funding which is only permitted in approved areas. The information below provides authority to Commanding Officers and Unit Budget Managers to administer COPF and JF elements. In case of doubt, COs or their delegated representative should consult Navy Command Liaison before committing public funds[2].

c. Routinely, Logistics Officer (LO) / Unit Imprest and Records Officer (UIROs) act as local Budget Manager and are to maintain local records of COPF account. To avoid double accounting, the term Unit Position List (UPL) has been used in lieu of complement, ship or unit. Tenders and sub-accounting units must ensure there is no double accounting when claiming their allocation of COPF and liaise with their parent unit as required.

[1] Tri-Service Operational and Non-Operational Welfare Policy
[2] navypeople-pspublicfunding@mod.gov.uk.

3207. Eligible Personnel

a. All Service Personnel (SP)[4] may be applied for during each FY. COPF is allocated at a rate as detailed in JSP 770 per head of UPL on 1 Apr each year; no account is taken of civilian employees.

b. Army and RAF personnel attached to RN ship/unit/establishment are entitled to be included within COPF calculations provided they are not also being claimed for by their parent Service.

c. For Army personnel, including MPGS, Enhanced COPF (ECOPF) may be claimed at the current rate set out in JSP 770. ECOPF is subject to budgetary constraints and on strict condition that it should be spent primarily on those Army personnel attached to the unit. This should be included in the application process below.

3208. Application Process

At start of each financial year (FY) (during Apr), and before committing COPF spend, COs are to submit a **claim for their unit (including sub-units) based on UPL as at 1 Apr for that FY** using template at Annex 32A. This will determine COPF Control Total (CT) for that year, noting that the CT is not a target which must be achieved but a spend limit which must not be exceeded.

3209. Accounting Procedure

a. On receipt of COPF Claim form (Annex 32A) the COPF Budget Manager will formally allocate COPF CT for that FY to individual ship/unit. Once the CT is confirmed, purchases may take place. All expenditures are to be record on Annex 32B (Spend Application Form), authorised by the local Budget Manager and **signed personally by the CO**. The original approved Annex 32B is an accountable document and **retained locally** as part of the Imprest (Cash) Account.

b. All COPF expenditure is to be reported by e-mail from individual ship/unit as the spend occurs to NAVY FD-Fin P&T Team Mailbox (MULTIUSER)[5] using format at Annex 32C (Expenditure return Template). Tenders/RTCs and remote units must include location of Cash Office used to process COPF payment as requested. For non-consumable items the application form should be cross referred to the relevant item in a Property Book.

c. All expenditures must be submitted **prior to 31 Mar each year** to ensure allocation, approval and spend falls within the approved FY. Any unspent balance of the COPF annual allocation is not carried over to the next financial year. NAVY FD-Fin P&T Team Mailbox (MULTIUSER)[6] must be informed of any goods received which are likely to remain unpaid or outstanding on 31 Mar of each FY, with auditable evidence of receipt of goods.

[4] Service Personnel includes Regular, FTRS, Reservists, Recruits and MPGS.
[5] NAVYFD-FinPTTeamMailbox@mod.gov.uk
[6] NAVYFD-FinPTTeamMailbox@mod.gov.uk

3210. Property Book

a. All non-consumable items purchased using COPF are deemed as public property and are to be recorded in a locally produced property book. This book is to be maintained by an officer appointed by the CO and is to include a record of physical checks carried out. A loan card is to be raised for each item and signed by the individual who is charged as having custody of the item. Loan cards are to be cross referenced with the entry in the property book and retained by the appointed officer. An independent check of property may be conducted during FLI in line with local material accounting regulations and should include:

(1) Asset verification.

(2) Impairment review.

(3) Formal reporting of discrepancies back to the CO, including relevant Service Police report as necessary.

3211. Purchasing

a. COs are authorised at their discretion, to incur expenditure from COPF for the benefit of SP within the workplace with the aim of promoting the smooth running and efficiency of their units. In doing so they must endeavour to spend COPF in such a way as to benefit the greatest number of SP (below are examples of admissible COPF expenditure and whilst not exhaustive it acts as a guide and allow COs flexibility in the way they utilise the fund). The cost of maintenance and replacement of articles purchased from COPF is to be met by the Fund.

b. Activities must comply with financial regularity and propriety and any spend against COPF must not be used to circumvent rules set down for other activities. Rules relating to Commemorative Events and Official Hospitality are contained in JSP 462[8]. COPF may not be used to increase public funding for activities for which there are prescribed limits in accordance with primary policy, e.g. maximum per capita limits for Winter Sports travel.

Legitimate activities/expenditure	Remarks
Ship/Unit cohesion items	Lanyards, T-Shirts and caps to denote ship/unit cohesion.
Subsidising unit events where the overall effect is to achieve unit cohesion.	**Not** to include Seasonal Festivities such as Christmas parties/lunches, alcohol, decorations, Christmas trees, carol concerts, etc. **Not** to be used for purchasing food/meals. **Not** to be used for hiring venues for conferences / seminars.
White goods for shared/communal areas; microwaves, ovens, kettles, fridges, televisions, radios for communal use, etc.	All items purchased are to be accounted for in property book. **Not** to be used for purchase of IT as all NC IT equipment is procured using Navy IW process and is not applicable to COPF funding stream.
TV licences for televisions in communal areas where the equipment has been purchased by public funds.	**Not** for individually owned equipment (for which owner is responsible) or for TVs purchased by non-public funds; not to be used for TV/entertainment packages, i.e. SKY TV in commercial/retail establishments.

[8] Financial Management and Charging Policy Manual.

Prizes for official unit events or for SP who contribute in a marked way to the efficiency of their ship/unit.	Modest, non-cash awards/prizes (under £50 per person per year – see notes below) not related to work-related services performed by SP as part of their employment duties.
Transport costs such as the hire of a minibus for officially organised MOD/Navy sporting events[11] where a group of individuals travel together.	Funding must **not** exceed maximum allowable publicly funded contribution for sport travel. **Not** for individual refunds for travel expenses. **Not** to be used for travel to events where attendance is the result of tickets being subsidised, donated or gifted by external organisations. **Not** to be used for travel to social events.
Pictures and plants for communal areas.	**Not** to be used for gifts or individual office/accommodation areas.
Wreaths[12] and flowers.	COPF is **not** to be used for the purchase of wreaths or flowers in the case of bereavement.

The COPF is specifically **not** to be used for:

Activities/expenditure not considered appropriate
Increasing the benefits or personal entitlements of any person.
Procuring supplies or Services for which financial approval has previously been refused on grounds of policy.
Services which might create a continuing liability to Public Funds.
Defraying entertainment costs.
Defraying costs in publishing unit magazines.
Defraying costs for business cards and/or headed stationery.
Purchase of Christmas cards (incl. on-line) or to cover postage costs.
Increasing or contributing to non-public accounts or charities.
The provision of alcohol in any form.
Support to civilians.
Recognition of services performed as part of an individual's employment duty.
Cost of engraving of Ship's Bell following baptism.

3212. Contracting, Purchasing and Finance (CP&F) System

a. Where possible the procurement strategy for the purchase of items from the CO Fund should be through existing contracts using the Contracting, Purchasing and Finance (CP&F) system. This ensures that all procurement business is contracted electronically. All contracts on CP&F have been tendered with commercial terms that enable electronic trading, further information can be pound in JSP895[13]. When using CP&F the Unit Identification Number (UIN) and Resource Accounting Code (RAC) for COPF expenditure are **N6029C** and **NJA002** accordingly**.** This information is added at the check-out stage along with the delivery location and will override any existing requisition accounting information. Please note there are many suppliers on CP&F and purchases are not limited to the 2 suppliers listed in sub para c.

b. Where items cannot be procured from CP&F, COPF Expenditure is to be met from the Unit cash account against **UIN N6029C** and **RAC NJA002**. Units without a Cash Office should **liaise early** with their closest UPO/Regional Support Unit/Tenders (with Cash account) or preferred Cash Office to seek funds and

[11] For transport to charity events refer to JSP 800 Vol 5
[12] See also BRd 2 – article 9527
[13] MOD Simplified Purchasing and Payment Process Manual (https://modgovuk.sharepoint.com/sites/defnet/HOCS/Pages/JSP895.aspx)

assistance/Open Voucher. Use of non-N6029C-specific ePC for COPF spend is not authorised as it will result in cost falling to the wrong UIN and circumvent audit and spend controls. Recovery action will be taken against any ship/unit which uses incorrect UIN or knowingly exceeds allocated COPF Control Total or uses incorrect ePC for COPF purchases. To assist ships/units with significant UPL (iro 500+)[14] UPO / (U)IROs may apply for UIN / RAC-specific ePC via Navy Finance (NCHQ).

c. Ships/units who do not have access to CP&F account may consider the following 2 main suppliers who may be relevant to CO Fund spend (Ship/unit personalised items/sports equipment):

(1) CDS – This is a Print and Print Management contract[15]. If interested in any of these products e-mail mark.girling@cds.co.uk who is MOD POC for further information, catalogue link and quoting. Upon receipt of quote email any CP&F trained person can raise order on your behalf.

(2) Newitts[16] who supply sports equipment. If there are any items of interest email support@newitts.zendesk.com request a quote then forward to any CP&F trained person who can raise order on your behalf.

3213. Purchase of Vouchers

a. In 2016 HMRC introduced a £50 tax exemption limit for trivial benefits. If purchasing vouchers using COPF strict adherence to HMRC rules is required to ensure neither the recipient nor MOD(RN) incurs additional tax liability. There are several conditions[17] which must first be satisfied before a benefit can be classed as a trivial benefit:

(1) The cost of providing the benefit (per employee) does not exceed £50 per year.

(2) The benefit is not cash or a cash voucher[18].

(3) The benefit is not part of any contractual arrangement.

(4) The benefit is not provided in recognition of services[19] performed by the employee as part of their employment duties.

b. If any of these conditions is not satisfied, the benefit is taxed in the normal way and must not be purchased using COPF. Other voucher award schemes operated by the MOD which reward individuals for services as part of their employment duties (i.e. The Thank You scheme for Civil Servants) have bespoke PAYE Settlement Agreements (PSA) to settle Tax and NI issues. It is not viable, nor practicable to establish PSA specifically for COPF.

[19] hmrc-internal-manuals/employment-income-manual/eim21868 (www)

3214. Junior's Fund

a. The Junior's Fund is allocated at a rate £21.35 per Junior. This public fund grant is made to establishments in which new entrants under the age of 17½ undergo parts I, II and III training to meet miscellaneous expenses for the benefit of those new entrants. The Juniors Fund account is to be maintained by the Imprest Holder. The Fund is administered by the CO who is to regulate the purchase of articles and ensure financial propriety and regularity.

b. Grants for the Juniors Fund are restricted to:

(1) RN Juniors undergoing training in part I, II and III training establishments and are under the age of 17½ years.

(2) RM Juniors undergoing training and under the age of 17½ years. RM Musicians and Buglers under the age of 17½ years.

c. Guidance on the types of expenditure appropriate to this Fund is given below:

(1) **Recreation.** Sports gear; transport; sports prizes; engraving; printing of sports programmes; indoor games; entertainment including stage shows, etc. and maintenance of musical instruments.

(2) **Church Expenses.** Choir and services outings. Confirmation teas and transport.

(3) **Miscellaneous.** Fittings for mess, school, information and model rooms; handicraft equipment; books, periodicals, and newspapers, etc.

(4) **Prizes.** Prizes for final examinations, other than books, may be charged to the Juniors Fund. Prizes charged to the Juniors Fund are to be accounted for separately in the monthly Cash Account.

3215. Accounting Procedures

a. Transactions in the Juniors Fund account is to be reflected in the Imprest Holder's monthly Cash Account. Payments from the Fund are to be made against UIN N6029C and RAC NJA002 and supported by a voucher (MOD form 891) approved by the CO for the total payment made in each month. Articles of a permanent nature are to be taken on charge in the Unit's property book, the Imprest Holder certifying on each relevant voucher that this has been done. Consumable articles such as sports gear may be issued direct to the department concerned without being taken on charge.

b. Any unspent balance of the Juniors Fund annual allocation is not carried over to the next financial year.

c. Further information and the application process questions may be submitted to: navypeople-pspublicfunding@mod.gov.uk.

3216. Rebalancing Lives Fund

a. The Rebalancing Lives (RBL) Fund is generated from Public Money and aims to help improve the work-life balance of RN/RM personnel by providing financial assistance to projects and activities that deliver RBL benefit to combat disruption, uncertainty, drudgery and boredom, wasteful working and an unreasonable pace or weight of work.

b. The RBL Fund has an annual budget controlled and managed by SO2 RBL AFC Projects, with input provided by the Senior Warrant Officers when required, to assist with small one-off projects or equipment to help improve the lived experience, ways of working and improve morale for RN/RM and deployed RFA personnel. Funds are allocated to two distinct areas:

(1) RBL initiatives such as better essential equipment or facilities that would not normally be funded by other in-Service means. **This fund is for the collective benefit of our SP and not for the benefit of 'Individuals'.**

(2) Command, Leadership, Management (CLM) and Team Building initiatives or activities (excluding food and drink). This is aimed at non-instructor or coach-led activity that gets personnel away from their regular environment in order to improve cohesion and togetherness. This fund does not support T&S, professional development, sport, Adventurous Training activities and related equipment[26] which may be supported through other funding options.

3217. Criteria for RBL Grants

Funding may be allocated to appropriate small-scale projects that have been assessed and satisfy the following criteria:

a. Linked to an initiative to improve work-life balance by saving work time; the secondary effect being increased recreation or down time.

b. Must not be a past failed contender for non-public funds unless due to the size of claim.

c. Should not be for initial infrastructure that would normally be provided through contract provision.

d. Must benefit a reasonable number of people and/or improve the lived experience of personnel.

e. Must identify (although not necessarily cover) through life costs.

f. Must comply with the principles of 'Regularity and Propriety', including value for money, affordability and contribution to the objectives set out in the Business Plan.

[26] Funding for sport activities may be best supported through - Royal Navy funding for sport activities RNTM. AT via Royal Navy AT | Defence Connect (https://jive.defencegateway.mod.uk/groups/royal-navy-at)

3218. Applications Procedure

a. Whilst funds are allocated on a first request basis, all allocations are scrutinised to ensure that the budget is being spent equitably across the Royal Navy and deployed RFA units, and as many personnel and units as possible benefit. Additional funding may be available through local welfare funds, the RNRMC and the Deployed Welfare Grant.

b. Applications for funding (all costing must be inclusive of VAT) should be submitted to NavyPeople-PSRBLapplications@mod.gov.uk using Annex 32D. Particular attention should be paid to Section D (Personal/Unit/Mess contribution towards the event/project).

3219. Health and Performance Grant (HaP Grant)

a. The HaP Grant aims to help improve the health and performance of RN/RM personnel by providing financial assistance to initiatives led by Unit Health Committees (UHC). HaP initiatives are defined as equipment, services or facilities that are not supported through alternative funding streams, with the aim of 'Optimising Health and Elevating Performance' of the unit in at least one of the following priority areas: Addictions, Women's Health, Healthier Weight, Mental Fitness, Musculoskeletal Injury Prevention, and Relationships & Sexual Health. This fund is for the collective benefit of our SP and not for the benefit of Individuals.

b. Applications for funding (all costing must be inclusive of VAT) are to be sent to NAVY PEOPLE-PS H&W GROUP (MULTIUSER) NAVYPEOPLE-PSHWGROUP@mod.gov.uk using the HaPF Application Form at Annex 32E.

3220. Criteria for HaP Grants

Funding may be allocated to appropriate and worthy initiatives that have been assessed by the HaP Team and satisfy the following criteria:

a. Must be an initiative led by the UHC.

b. Must not be for initial infrastructure that would normally be provided through contract provision.

c. Must target HaP improvement of a group rather than individuals.

d. When a product is purchased commercially, the unit acquiring the product is responsible for conducting thorough risk assessments, ensuring proper upkeep, and managing through-life costs.

e. Must be measurable in order to evaluate impact upon SP HaP improvement. The UHC must use feedback form (Annex 32F) to consider how to evaluate the initiative and to provide this feedback to the HaP Team within three months of receiving funds.

3221. Applications Procedure

a. Whilst funds are allocated on a first come first served basis, all allocations are reviewed to ensure that the budget is being spent fairly across the RN. Additional funding may be available through charities and the Operational Welfare Grant. Applicants will receive an email response to clarify if successful or unsuccessful. If successful, an agreed allocation amount will be confirmed. In some instances, further information may be required in order for a decision to be made.

b. Applications for funding (all costing must be inclusive of VAT) are to be sent to NAVY PEOPLE-PS H&W GROUP (MULTIUSER)[27] using the HaPF Application Form (Annex 32E). Funding must be claimed and spent within 30 days of approval.

[27] NAVY PEOPLE-SHWGROUP@mod.gov.uk

SECTION 4

ROYAL NAVY AND ROYAL MARINES CHARITY (RNRMC)

(Registered Charity No: 1117794 and SC041898).

3222. Overview

The Royal Navy and Royal Marines Charity (RNRMC) is the Navy Board's single focus for Naval charities, co-operating as closely as possible with the RN's oldest charity, Greenwich Hospital, which was established as a Crown Charity by Royal Charter in 1694. The RNRMC is a fully independent charity and, following its formation, Greenwich Hospital has increasingly channelled its support to naval charity through the RNRMC. The RNRMC has three strategic objectives:

a. to increase the amount of money available to all their beneficiaries;

b. to increase the proportion available for benevolence; and;

c. to achieve a single focus for Naval charity.

3223. Generating Funds

a. The RNRMC's funds generate income to meet current needs from their own investments. As the RNRMC further develops its policies to meet the wider strategic environment, it needs to enhance its income in order to improve the assistance that may be provided. As such, all RN units are encouraged to place the RNRMC, as the Navy Board's preferred fundraising charity, at the forefront of their own charitable and fund-raising efforts. The Navy Board in June 2009 directed that the RNRMC be established as the prime beneficiary for all fund-raising events that utilise naval assets. This was not designed to prevent ships' companies from undertaking the enormous range of activities of charitable work, which does so much to add lustre to the reputation of the Royal Navy. The aim is to help focus attention on the Royal Navy's own charity and in dealing with requests from major charities, it will ensure that non naval charities, who may make considerable sums of money by using RN assets, follow the rules and be invited to make a donation to the RNRMC from the profits that are made from any event.

b. The RNRMC is the receiving charity for funds generated from the RN's Charity Payroll Giving Scheme (see Section 9).

c. In practical terms of meeting the Navy Board's remit that the RNRMC should benefit when other charities undertake fundraising activities using naval resources. The Navy Board suggested that other non-naval charities are invited to donate 15% of the clear profits to the RNRMC. Further advice is available from the point of contact for this chapter.

3224. Objectives

The objectives of the RNRMC are described as such charitable purposes as the Trustees shall from time to time think fit, including but not limited to:

a. The relief in need, hardship or distress of beneficiaries and their families and dependants;

b. The assistance with, provision of or contribution to the education, and training of children of Beneficiaries; and

c. The promotion of efficiency of the Royal Navy and the Auxiliaries by way of the enhancement of morale, the improvement of recruitment and retention, and the further relief and encouragement, of personnel who are serving in the Royal Navy or the Auxiliaries.

d. In summary, the RNRMC provides funds both to improve the quality of life of serving sailors and marines but is also the single biggest source of funds for charities that provide a whole range of through-life care to its beneficiaries.

3225. Beneficiaries

All personnel who are, or have served in the Royal Navy, the Royal Marines, the Women's Royal Naval Service, the Queen Alexandra's Royal Naval Nursing Service, Naval Reserve Forces or Auxiliaries and their dependants.

3226. Charities and Subsidiary Funds within the RNRMC

a. Naval Service Amenity Fund

b. Naval Service Prizes and Award Fund

c. Naval Service Sports Charity

d. Naval Service Dependants' Fund

e. Fleet Air Arm Benevolent Trust

SECTION 5

RNRMC - MILITARY EFFICIENCY FUNDS

3228. Naval Service Amenity Fund (NSAF)

a. **Objectives.** The objective of the NSAF is to promote efficiency of the Royal Navy by:

(1) The provision, support and improvement of facilities and activities for the recreation and amenity of Royal Navy personnel and their dependants;

(2) The provision of financial assistance for travel and associated accommodation and subsistence expenses to:

(a) Royal Navy personnel on deployment and connected persons.

(b) Royal Navy personnel recruited from Foreign and Commonwealth counties.

(c) Connected persons (Naval Service Assisted Passage Scheme).

(3) The provision, maintenance and support for any church, chapel or other place of worship or any religious activity for the benefit of Royal Navy personnel and their dependants;

(4) The provision and support of recreational activities, patient comforts and amenity facilities, for those Royal Navy personnel under medical care.

b. **Beneficiaries.** Personnel who are serving in the Royal Navy or Auxiliaries and their dependants.

c. **Provision.** The following are among those requests that can be supported by the NSAF.

(1) Audio Visual Equipment.

(2) Recreational and entertainment items and facilities.

(3) Mess Refurbishment or Enhancements.

(4) Naval Service Assisted Passage Scheme (Loans) (See Annex 32G).

(5) Ships' Commissioning and De-commissioning Ceremonies.

(6) Personnel De-compression Events, homecomings, Families Days and Team Building Events.

Note. *Minibuses are normally provided with funding from the Nuffield Trust*.

d. **Grants.** The amount of money available for grants is dependent upon the fund's investments and donations provided by SABS, therefore, there is the possibility that some worthwhile projects may not be able to be supported. Further guidance and application forms are available from the RNRMC Grants Administrator (see Para 3225 for contact details)

3229. Naval Service Prizes and Award Fund (NSPAF)

a. **Objectives.** To promote the efficiency of the Royal Navy and Auxiliaries by the provision of prizes and awards to Royal Navy or Auxiliaries personnel:

(1) Who show marked efficiency in their duties.

(2) Who distinguish themselves in examinations or as students on courses.

(3) For innovation, useful research, suggestions or inventions which improve the efficiency of the Royal Navy or Auxiliaries.

(4) For other purposes as agreed by the trustee from time to time.

b. **Beneficiaries.** Personnel who are serving in the Royal Navy and Auxiliaries.

c. **Contact Details.** For an Application Form and further details contact the RNRMC Grants Administrator (contact details at Para 3225).

3230. Naval Service Sports Charity (NSSC)

a. **Objectives.** The Charity, which is a subsidiary charity of the RNRMC and a company in its own right, promotes efficiency in the Royal Navy by supporting and encouraging participation in sport and adventure training.

b. **Roles.** Its main roles are to:

(1) Champion sport within the RNRMC cluster of charities to ensure that investment income, charitable donations and individual voluntary contributions are used for the benefit of sport and, where possible, increased.

(2) Provide the running costs of the 39 Sports Associations and support to teams, elite athletes and any individual partaking of sport either by direct grants or through the Commands.

(3) Own and manage projects that support sport in the Royal Navy, such as the Temeraire sports accommodation.

c. **Beneficiaries.** Royal Navy personnel.

d. **Funding.** The charity is able to support a proportion of its objectives from the income derived from its investments, the RNRMC and the RN and RM Sports Lottery. Further information about the RN and RM Sports lottery can be found on the RN Intranet (Community, Sports and Social, Sports Lottery).

e. **Contact Details:** For further details and grant application enquiries contact Mr Norman Jackson (RN Sports Grants Manager) via email (Nssc-cs@sky.com) or telephone 023 9259 3790.

3231. Naval Service Dependants' Fund (NSDF)

The NSDF provides immediate relief by way of a grant of £12,000 to the named beneficiary or next of kin on notification of death. The grant is paid out in all circumstances and is not means tested. Approximately 32 payments are made each year. The fund receives no direct contribution from the serving population and is funded by the RNRMC from the RNRMC payroll giving scheme and SABS. For more information on the Naval Service Dependants' Fund, please contact the RNRMC Head of Grants (see Para 3225 for contact details).

3232. Fleet Air Arm Benevolent Trust (FAABT)

The FAABT provides financial support to those serving members of the Royal Navy killed or injured in an aircraft accident or who have need of assistance on an ongoing basis. The benefits include, financial grant made to surviving spouses, civil partners and children and, if required, assistance is given to beneficiaries on an ongoing basis. The level of grant is decided by the Trustees according to the individual circumstances. For more information on the Fleet Air Arm Benevolent Trust, please contact the RNRMC Head of Grants (see Para 3225).

3233. Sir Donald Gosling Maritime Reserve Amenity Fund (DGMRF)

The DGMRF is part of the group forming the Royal Navy and Royal Marines Charity, and it focuses on amenities grants for reservists serving in the Royal Naval Reserve and the Royal Marines Reserve and their dependants. Further information can be obtained from the RNRMC Grants Administrator (see Para 3225 for contact details).

SECTION 6

RNRMC - BENEVOLENCE FUNDS

3234. Naval Service Benevolence Fund (NSBF)

a. **Objectives.** The relief of beneficiaries and their dependants who are in need by virtue of financial hardship, sickness, disability or the effects of old age though the provision of grants, loans, gifts, pensions or otherwise. The NSBF dispenses funds in two ways:

(1) To other Naval charities who rely on grants for large elements of their income such as the Royal Naval Benevolent Trust, the Royal Navy and Royal Marines Children's Fund and the WRNS Benevolent Trust.

(2) To individuals who need assistance.

b. **Beneficiaries.** Personnel who are, or have served in the Royal Navy, the Auxiliaries or the Women's Royal Naval Service, the Queen Alexandra's Royal Naval Nursing Service, Naval Reserve Forces (who are serving on full time engagements) or Auxiliaries and their dependants. Help is in the form of relief of hardship following assessment of need. It is the Trustees aim to increase the proportion of funding available for supporting Benevolence.

c. **Contact Details.** In the first instance, all applications for assistance should be directed to the relevant organisation, e.g. the Royal Navy Royal Marines Welfare (RNRMW) for serving personnel or alternatively the RNRMCF, and both serving and veterans can apply to the RNBT, RNRMCF, RNOC, WRNS BT, QARNNS Trust Fund, RBL or SSAFA organisations. . However, the RNRMC will consider direct assistance if individuals (as defined in sub para b, above) fall outside the objects of the other Service charities or their need is greater than other charities are able to fund. For further information contact: the RNRMC Head of Grants (see Para 3225 for contact details).

3235. Queen Alexandra's Royal Naval Nursing Service (QARNNS) Trust Fund

a. The QARNNS Trust Fund operates for the benefit of serving and past members of the QARNNS, including QARNNS(R) and Voluntary Aid Detachment (VADs). The Fund does this by:

(1) Helping to relieve the hardship of QARNNS personnel (both ex and serving). Applications are usually made via a charity such as SSAFA, however applications are sometimes made directly to the fund.

(2) The improvement of the efficiency of the QARNNS, through various means, including the funding of the QARNNS Symposium, the Rosebowl Tennis tournament and the QARNNS Remembrance Service, amongst other events. Other grants include an annual contribution to the QARNNS Associations and various sports events involving QARNNS.

b. For further information contact: the RNRMC Grants Administrator (see Para 3225 for contact details).

3236. Plymouth Royal Naval Aid Fund (PRNAF)

a. **Background.** The PRNAF was established to support those serving in the Plymouth Naval Command, the western family services area or in ships that have Plymouth as their base port. The Fund provides relief for any of the following persons who are in conditions of need, hardship or distress.

b. **Beneficiaries.** All serving members of the Royal Navy, Women's Royal Naval Service and Queen Alexandra's Royal Naval Nursing Service and Royal Marines, their spouses, families and legally dependant relatives, or the next-of-kin of any such person so as to provide temporary assistance upon their death. The Fund will also support the spouses, families and legally dependant relatives or next of kin who live in the specified area irrespective of where the member is serving.

c. **Contact Details.** For further information and grant enquires contact Mr Owen Shard either by:

Phone: 01752 555 277
Email: shreado@a.dii.mod.uk.

3237. Naval Medical Compassionate Fund (NMCF)

The NMCF grants financial relief to any orphan, surviving spouse or civil partner of Naval medical officers who were subscribers to the fund. Further details can be obtained from:

The Secretary
Naval Medical Compassionate Fund
Navy Command Headquarters
First Floor
Leach Building
Whale Island
Portsmouth
PO2 8BY

Email: NAVY HEALTHCARE-COS@mod.gov.uk

3238. Royal Naval Benevolent Society for Officers (RNBSO)

(Registered Charity No: 207405)

a. **Background.** The charity is also known by its working title of the RN Officers' Charity. The principal aim of the Society is to provide financial relief to serving and retired officers of the Royal Navy (RN, RM and QARNNS) and their Reserves, their spouses, former spouses and dependants who are financial distress. Beneficiaries also include former and serving officers on the Reserve Lists, as well as former officers of the Women's Royal Naval Service.

b. **Grants.** The Charity generates income from its own investments, receives further funds from donations and legacies and can apply for a block grant from the RNRMC. All the grants awarded are based on the principle of need and trustees will consider grants for the following:

(1) Six monthly grants to top up low incomes.

(2) Assistance with a shortfall in care home fees.

(3) Alterations to homes for the disabled.

(4) Maintenance and redecoration of properties.

(5) Purchase of disability aids and electrically propelled vehicles.

(6) Re-training costs to gain employment.

(7) Scholarships to help children remain in private education under exceptional circumstances.

c. **Beneficiaries.** All serving and retired officers of the Royal Navy and Royal Marines, Queen Alexandra's Royal Naval Nursing Service, Woman's Royal Naval Service, their respective Reserves, spouses, former spouses and dependants.

d. **Contact Details.** For further information contact:

SECTION 7

ROYAL NAVY BENEVOLENT ORGANISATIONS

3239. Introduction

Many charities and benevolent organisations offer advice, help and financial assistance to serving and former Royal Navy people and their dependants who may be in need. These organisations help different sections of the Royal Navy community and have their own criteria for determining whether assistance is given. All base their decisions on the principle of relieving "need" whether that need is by virtue of financial hardship, injury, sickness or the effects of old age. The benevolent funds listed in this section award a large number of grants annually to needy serving and former Royal Navy personnel, and their dependants. They rely on legacies and donations for this support. Serving personnel can help by subscribing to the RNRMC Payroll Giving Scheme (see Section 9).

3240. Royal Naval Benevolent Trust (RNBT)

Registered Charity No: 206243

a. **Background.** The RNBT was established in 1922 to give help, in cases of need, to those who are serving or have served as ratings in the Royal Navy or as other ranks in the Royal Marines and their dependants. The RNBT receives income from its own investments, donations and legacies, a proportion of the funding from the RNRMC Payroll Giving Scheme (see Section 9) and block grants from the RNRMC (NSBF) and Seafarers UK (see Para 3278). Assistance from the RNBT can be given in the following ways:

(1) Grants to assist with a wide range of individual needs.

(2) Regular payments to supplement the income of older people (annuities).

(3) Grants to other organisations which assist the RNBT Family.

(4) Care of older people at Pembroke House, the RNBT's own care and nursing homes at Gillingham, Kent and Southsea, Hampshire.

(5) Advice on welfare matters.

b. **Contact Details.** For further information contact:

The Royal Naval Benevolent Trust
Castaway House
311 Twyford Avenue
Portsmouth
PO2 8RN

Phone: BT 02392 690 112
Email: rnbt@rnbt.org.uk
Website: www.rnbt.org.uk

3241. Royal Navy and Royal Marines Children's Fund (RNRMCF)

(Registered Charity No: 1075015)

a. **Background.** The RN and RM Children's Fund is the premier charity for providing charitable help to the sons and daughters (under the age of 25) of serving and ex-serving personnel of the Royal Navy, the Royal Marines, The Queen Alexandra Royal Naval Nursing Service, the former Women's Royal Naval Service, and the reserves of those forces who are in need, hardship or distress. The RNRMCF receives income from its own investments, donations and legacies and a proportion of the funding derived from the RNRMC Payroll Giving Scheme (See Section 9) in addition to a block grant from the RNRMC (NSBF, see Para 3232) to administer grants on their behalf.

b. **Objectives.** Support can be in the form of one off payments or long term support and care and includes:

(1) Special needs education.

(2) Special needs equipment.

(3) Support for the young people in their own homes.

(4) Support for the young people at times of crisis.

c. **Contact Details.** Applications for funds are kept as simple as possible and those seeking assistance can contact the office direct for an application. All enquiries and applications are completely confidential. All applications are based on the principle of "need"/ "relief in need". For further information contact:

Naval Children's Charity
311 Twyford Avenue
Stamshaw
Portsmouth
PO2 8RN

Email: rnchildren@btconnect.com
Website: www.rnrmchildrensfund.org.uk

3242. Women's Royal Naval Service Benevolent Trust (WRNSBT)

(Registered Charity No 206529)

a. **Background.** All officers and ratings (and their dependants), who served in the Women's Royal Naval Service between 1 September 1939 and 1 November 1993 (including those who are still serving and transferred to the Royal Navy in November 1993). The WRNS BT receives income from its own investments, donations and legacies and a proportion of the funding derived from the RNRMC Payroll Giving Scheme (see Section 9) in addition to a block grant from the RNRMC (NSBF, see Para 3232) to administer grants on their behalf.

b. **Objectives.** The primary objectives of the Trust are to provide relief in cases of necessity or distress among members of the Trust and their dependants, to make provision in suitable cases for assistance in training, to make contributions to other suitable charities to enable them to carry out their respective objects for the benefit of the Trust's members, and to do anything ancillary to any of the above objects. This assistance is varied and includes:

(1) Grants to help with arrears or debts, removal or travel cost, convalescence care, education, household goods and repairs, medical aids, medical fees and in some cases funerals.

(2) Annuities for members of state pensionable age living on a low income.

(3) Regular Grants to help those on low incomes.

c. **Contact Details.** For further information contact:

3243. Royal Naval Reserve (V) Benevolent Fund (RNR(V))

(Registered Charity No: 266380)

a. **Objectives.** The primary objects of the RNR(V) are to provide financial assistance to serving or retired ratings of the Naval Reserves in cases of hardship. The charitable objectives are the relief of persons who are in conditions of need hardship or distress (of the classes and in order of priority as in clause 3 a-f of scheme) by making grants of money or providing or paying for items services or facilities calculated to reduce hardship or distress. In addition, the committee of management, with the approval of the board of governors, may award grants for any charitable purpose for the benefit of non-commissioned personnel of the Royal Naval Reserve.

SECTION 8

ROYAL MARINES CHARITIES

3244. Royal Marines Charitable Trust Fund (RMCTF)

(Registered Charity No 1134205)

a. In addition to the Royal Navy charities listed in previous sections, the Royal Marines have access to the Royal Marines Charitable Trust Fund (RMCTF), the overarching Royal Marines charity. The RMCTF provides advice and support to serving, reservist and retired Royal Marines, and their dependants as well as supporting the military efficiency and esprit de corps.

b. The RMCTF funds include:

(1) The restricted funds of

(a) The Royal Marine Benevolent Fund (Registered Charity No: 1134205-1).

(b) The Royal Marines Cadet Fund.

(2) Three designated funds supporting prizes and awards, sports and practical support to the Royal Marines Band Service (which cannot be provided from public funds, e.g. the commissioning of music, non-standard instruments, etc.).

(3) Three Restricted Subscription Funds into which serving Royal Marines pay one day's pay per annum; the Royal Marines Officer's Trust Fund; the Central Sergeants' Mess Fund; the Central Unit Institute Fund. These funds focus on quality of life issues for serving Royal Marines and are, in effect, a simple form of payroll giving.

c. The RMCTF's mission is:

(1) Recovery Pathway (helping the wounded and seriously injured).

(2) Decompression and Quality of life Pathway (helping those still serving).

(3) Through Life Pathway (support after leaving the Service).

d. The assistance provided by the RMCTF includes:

(1) Grants to individuals.

(2) Grants to organisations.

(3) Other finance, as deemed necessary.

Website: www.rmctf.org.uk

3245. The C Group Supporting the RMs (C Group)

(Registered Charity No: 1134205-2).

The prime purpose of the C Group is to raise awareness and generate practical support throughout the business community for Royal Marines particularly those who are suffering the long-term effects of injuries sustained on operations. In addition, the C Group offers coaching and mentoring support for those who are moving to new careers as a result of their injuries

3246. Royal Marine Association (RMA)

(Registered Charity No: 206003)

a. The purpose of the RMA is to maintain and promote 'esprit de corps' and comradeship amongst all Royal Marines, to keep them in touch with one another, and with the activities of the serving Corps. The RMA produces the Corps journal, the “Globe and Laurel”, which is published every 2 months and donates any profits to the RMCTF.

SECTION 9

NON-PUBLIC AMENITIES GRANTS

3247. Nuffield Trust for the Forces of the Crown

(Registered Charity No: 210829)

a. **Background.** The Nuffield Trust for the Forces of the Crown (NT) was inaugurated in 1939 by the late Colonel The Right Honourable the Viscount Nuffield CBE CH FRCS.

b. **Objectives.** The aim is to promote the welfare and efficiency of the Forces of the Crown either by the provision of facilities for recreation or by any other means for serving personnel. It achieves its objective by financing recreational and welfare amenities and facilities that will benefit those actually serving in the Armed Forces, but which are not provided by public funds and which are beyond the resources of other non-public funds.

c. **Trustees Meetings.** The Nuffield Trust Trustees meet during March each year to consider Capital and Major Grants applications, these meeting are attended by 2SL as the RN's PPO.

d. **Policy.** The Trust provide for all types of recreational equipment including the following:

Audio Visual Equipment
Mess Deck Recreational Equipment
Mess Refurbishments
Climbing Walls
Gliders
Music Equipment
Water Recreational Equipment Outdoor Recreational Equipment
Camper Vans/Minibuses
Recreational Furniture
Sports Equipment

This list is not exclusive and the Trust encourages applications for any project in the recreational and welfare area that directly benefits regular Service personnel.

e. As a matter of policy, the Trust does not permit grants for the following:

(1) Items or facilities which should be provided from Public Fund;

(2) Crèches.

(3) Live animals.

(4) Fixed assets overseas.

(5) Fixed assets on MOD land in the UK unless appropriate lease arrangements are made or an undertaking is given that proportionate restitution will be made to the Trust under the terms of the MOD's agreement set out in DGSPPol/313.03 of 25 November 2003, should the asset be lost through early closure of a unit.

(6) Maintenance, repair or running costs of Trust funded assets.

f. **Grants.** These are awards at the following levels, plus a unit contribution of 25% would normally be expected:

(1) **Minor Grants £12.5k (when funding allocation is low this figure is reduced locally to £5k) and below.** Can be applied for at any time via the RNRMC Head of Grants.

(2) **Major Grants to £40k (when funding allocation is low this figure is reduced locally to £25k).** These are considered once a year by the NT Trustees at their March meeting. Applications are to be submitted to the RNRMC Head of Grants by 1 December each year.

(3) **Capital Grants over £40k.** Applications for large capital projects require careful, long term planning, and use considerable staff resources. Fully detailed applications should therefore not to be developed until the Trustees' views have been advised to the originating Project Officer. Preliminary applications may be submitted at any time. However, applicants should be mindful that the Board of Trustees and Executive Committee meet mid-March and the Board of Trustees in November each year. All applications are to be submitted via the RNRMC Head of Grants.

(4) **Special Grants.** In addition to the above grants, the NT Trustees may also, from time to time, make other special allocations in order to meet unforeseen requirements.

g. **Administration.** All projects or items should comply with JSP 462 (Financial Management Policy Manual) Chapter 18, Annex A. Recipients of grants have full responsibility for the provision of insurance cover and all necessary maintenance or repair of items or facilities. The gift should be marked with a plaque or plate stating that it was acquired through the generosity of the Nuffield Trust and placed on a permanent record register.

h. **Personnel Contribution.** A personal contribution of 25% will be expected, unless a valid reason can be given in the justification.

i. **Use of Grant.** A grant is to be used only for the purpose specified. Any unspent part of a grant is to be returned to the RNRMC. Money granted is to be used within one year of the date of approval.

j. **Acknowledgement of Grant.** As a matter of courtesy, letters of thanks for grants received should be sent by all recipients. The Trust, their auditors, and the MOD use these letters as the official confirmation that the grants have actually benefited those for whom they are intended. Immediately the project/item has been paid for, a letter of thanks (only) is to be forwarded to the General Secretary, Nuffield Trust for the Forces of the Crown, 23 Estcourt Road, Gloucester, GL1 3LU with a copy to the RNRMC Head of Grants, along with the purchase receipts.

k. **Permanent Record.** All items provided by grants for the NT are to be suitably engraved or tallied by the parent unit. A permanent record of the items is to be kept and items are to be accounted for as though they were Service permanent stores. The NT grant number must always be quoted in any correspondence.

l. **Transfer or Disposal of Nuffield Trust Items.** Where the recipient is unable to use an item provided by the trust, for whatever reason, including the ship paying off, or establishment changing its function, proposals for the disposal of the item are to be made to the RNRMC Head of Grants for NT prior approval. Wherever possible, the trustees prefer items to be transferred to another unit of the Armed Forces of the Crown, rather than sold, unless the item is unserviceable. Should approval be given for the sale of an item, a refund is due to the Trust for an amount that is a similar proportion of the proceeds of the sale to that represented by the original grant. A cheque for the appropriate amount is to be forwarded to the RNRMC.

m. **Trade In.** When organisations wish to replace an item, and the NT interest in the old item is to be moved forward to help fund the new project, then permission is first to be requested from the Head of Grants.

n. **Minibuses.** These are normally funded via NT grants. The Transport Act 1985 (TA85) applies to those operators of minibuses adapted to carry 8 to 16 passengers who make a charge for the use to recoup some of the running costs. The act calls for each vehicle to be in procession of a Small Minibus Permit. The previous act MA77 predates the TA85, and permits issued under MA77 remain valid. However, they are restricted to the original named vehicle and cease to be valid once the vehicle is disposed of. Therefore, a new, small minibus permit has to be applied for when minibuses are renewed or exchanged. The TA85 does not apply when the use of the vehicle is:

(1) Providing a free service.

(2) Carrying the public at large.

(3) Using the vehicle commercially with a view to profit.

o. **Small Minibus Permits.** The Fleet HQ Central Fund is the RN's registered authority for the issue of small minibus permits to operators of non-publicly funded minibuses, and the TA85 requires all operators of RN non-public funded minibuses in the UK (except NI) other than those listed above, to obtain a permit from the NSAF. Unwanted discs should be returned to the RNRMC Head of Grants.

p. **Contact Details.** For an Application Form and further details contact:

3248. Services Sound and Vision Corporation (SSVC)

(Registered Charity No: 233480)

a. **Objectives.** The Services Sound and Vision Corporation is a registered charity set up to entertain and inform Britain's Armed Forces around the world. Its mission statement is "to be the preferred provider of entertainment and information to Service personnel and their families worldwide". The Welfare support activities of SSVC include British Forces Broadcasting (BFBS) radio and television broadcasting to overseas locations where Service personnel are based.

b. **SSVC Welfare Fund.** The SSVC Welfare Fund has been established to finance welfare and recreation amenities that directly or indirectly contribute to operational effectiveness. Priority for these funds will be given to those serving, preparing, or returning from operations, plus those living in isolated or arduous conditions. Funds may also be available to support other requirements for those in the home base, which contribute to military efficiency and operational effectiveness by enhancing morale and developing personal attributes. This fund is accessed by the RNRMC Head of Grants, on behalf of units, for audio visual and entertainment and recreational amenities.

SECTION 10

ROYAL NAVY AND ROYAL MARINES CHARITY PAYROLL GIVING SCHEME

3249. RNRMC Payroll Giving Scheme

a. **Background.** The RNRMC Payroll Giving Scheme is the Royal Navy's own charity payroll giving scheme. Money raised through deductions from pay is donated to the RNRMC to distribute to each of the component charitable elements. Each of these elements relies heavily on the income derived from payroll giving to continue their charitable activity at current levels. Donations benefit both serving and ex-serving members of the Royal Navy from the day they join, throughout their service and beyond. The money donated is distributed to each of the component charitable elements along the following funding routes:

(1) **Amenities.** Support to RN and RM for activities, recreation and amenities not publicly funded.

(2) **Benevolence.** Both for serving and ex-serving members and their dependants.

(3) **Naval Service Dependants' Fund.** Death in Service payment to dependants.

(4) **Sport.** Supporting Royal Navy personnel, their clubs and associations and the payroll giving scheme now includes sports insurance in place of the Voluntary Sports Subscription Scheme (VSSS).

b. **How much is it?** Personnel can donate anything from as little as One Pound a week, or a fixed amount per month, which is deducted "before tax" from pay each month. Every pound donated therefore in reality only costs the basic rate taxpayer 80 pence per week or for the higher rate taxpayer only 60 pence a week.

c. **How are Donations Started?** Application forms may be obtained via the RNRMC website at www.rnrmc.org.uk, under payroll giving or from the RNRMC Payroll Giving Manager, RNRMC, Building 29, Whale Island, Portsmouth, PO2 8ER Phone BT 023 9254 8417 or 07714306178.

d. **Contact Details.** For further information and payroll giving arrangements, contact:

SECTION 11

ADVICE AND SUPPORT: OTHER ASSOCIATIONS AND BENEVOLENT ORGANISATIONS

3250. Introduction

Many Service/ex Service Charities and Associations assist serving and former military personnel and their families, in times of need or crisis. The list of charitable organisations offering specific help to Service personnel is extensive, therefore this section can only give brief details on a few of them. Further details on the help and support available to serving and former serving personnel and their dependants can be found at:

a. www.seafarersupport.org/self-help (A Guide to the Maritime Charity Sector).

b. www.cobseo.org.uk (Confederation of Service Charities (COBSEO)).

c. www.ctp.org.uk (Career Transitional Partnership).

d. By searching the internet for Armed Forces, military, Royal Naval, or Naval charities.

3251. Annington Trust

(Registered Charity No: 1068749)

This is a charitable trust to promote the efficiency of the Armed Forces of the Crown by providing for the recreation and general needs of Service personnel who live in family quarters. In addition, it promotes the welfare of the Armed Forces by providing for the general needs of those Service families in particular for the improvement of their recreational facilities. Further information can be found at www.anningtontrust.org.

3252. Association of Royal Navy Officers

a. **Background.** The Association is the principal association which unites the officer corps of the Royal Navy, both serving and retired. For a modest annual subscription, members are provided with a number of opportunities to maintain contact with each other through social activities, a website and a secure, online membership database. Additionally, the Association provides a wide range of key benefits.

b. **Contact Details.** Further information can be obtained from:

The Membership Manager

Email: asec@arno.org.uk
Website: http://www.arno.org.uk

3253. Blind Veterans UK (St. Dunstan's)

(Registered Charity No: 216227)

a. St Dunstan's changed its name to Blind Veterans UK in early 2012, to make its purpose and activities clear to the general public. Blind Veterans help blind ex-Service Personnel lead independent and fulfilling lives by supporting them with a lifetime's practical and emotional support, expertise, experience and full range of services regardless of when or how they lost their sight. Blind Veterans UK aims to give veterans much-needed support to adjust to sight loss, overcome the challenges of blindness and enjoy daily life.

b. **Contact Details.** For further information contact:

Blind Veterans UK

Phone: BT 02085 901124
Email: info@blesma.org
Website: www.blesma.org

3255. Combat Stress (Ex-Services Mental Welfare Society)

(Registered Charity No: 206002)

a. The society is the only organisation which specialises in helping former members of the Armed Forces, the Merchant Navy and Allied Forces who suffer from mental health problems including psychological trauma attributable to, or associated with their service. The society's activities include:

(1) Limited financial help.

(2) Assistance with claims and appeals for War Disability Pensions.

(3) Domiciliary and hospital visits.

3256. Commonwealth War Graves Commission

The Commission was established by Royal Charter in 1917. Its duties are to mark and maintain the graves of the members of the forces of the Commonwealth who were killed in the two World Wars. The Commonwealth War Graves Commission aims to ensure that 1.7 million people who died in the wars will never be forgotten and cares for cemeteries and memorials at 23,000 locations, in 153 countries. Further information can be found at: www.cwgc.org.

3257. Confederation of Service Charities (COBSEO)

Formerly known as the Confederation of British Service and Ex-Service Organisations, the membership consists of Service and ex-Service Charities and Organisations, working to promote and further the interests of serving and ex-serving personnel and their dependants. His Majesty the King is the Patron. Over 100 Armed Forces charities and associations belong to COBSEO and further details on these can be found on the COBSEO website http://www.cobseo.org.uk (see member-organisations). The stated objectives of COBSEO are to represent, promote and further the interest of the Armed Forces Community by:

a. Exchanging and coordinating information internally.

b. Identifying issues of common concern and coordinating any necessary and appropriate action.

c. Acting as a point of contact for external agencies to the members of COBSEO.

d. Representing and supporting the needs and opinions of its member organisations, individually and collectively at central and local government levels and with other national and international agencies.

3258. Conference of Naval Associations (CONA)

CONA is a loose federation of like-minded Naval associations who believe in working together for the benefit of their members. The Second Sea Lord is the ex officio President of the Conference. Further details on the activities and membership of CONA can be found by visiting their website: www.cona.org.uk.

3259. Erskine Hospital

(Scottish Registered Charity No: SC006609)

Erskine Hospital is an independent charity providing a modern care facility for ex-Service Personnel in Scotland. It provides an unrivalled level of residential, nursing and dementia care in purpose-built homes. Further information can be found at www.erskine.org.uk.

3260. Forces Pension Society

The Forces Pension Society is governed as a non-for-profit limited company and exists to ensure that serving and retired members of the Armed Forces, their widows, widowers, surviving partners, civil partners and dependants receive the pension to which they are entitled and which they deserve. Further information can be found at www.forcespensionsociety.org.

3261. Greenwich Hospital

a. **Background.** Greenwich Hospital is an ancient Crown Charity whose beneficiaries include serving and former Royal Navy personnel and their dependants. Support, help and services are provided through regular charitable payments, charitable grants both directly and via the RNRMC to Naval and other charities having Naval beneficiaries, sheltered housing and education bursaries at the Royal Hospital School at Holbrook, Ipswich and the University of Greenwich.

3263. Help for Heroes

(Registered Charity No: 1120920)

a. Help for Heroes (H4H) works with the Armed Forces, other Service charities and organisations to provide direct, practical support for those who have been wounded . The current focus is for capital grants to create a series of regional Recovery Houses, built across the UK to serve as the last stage of rehabilitation before a Service person returns to their unit or transits back into civilian life. H4H have also established quick reaction funds to be distributed via the main Service charities, to meet the urgent and most immediate needs of injured Service personnel affected by the current conflicts, i.e. since 9/11.

3264. Houses for Heroes Scotland

(Registered Charity No: SC003174)

a. The principal activity of Houses for Heroes Scotland is to construct and maintain houses for selected individuals, and their dependants, who have served in the British Armed Forces, Merchant Navy, Police or Fire Brigade and who, whilst serving or after completion of service, have been partially or totally disabled, or have been discharged through ill health. Although the houses are in Scotland, tenants are considered and welcomed from the Veteran's community across the United Kingdom. The aim of Veterans Scotland housing is to provide one simple application point, which will allow a veteran to register for all the ex-Service housing charities operating in Scotland, dependent on meeting the individual housing charities' specific criteria. Houses for Heroes Scotland operate this application process known as the Central Housing Register on behalf of Veterans Scotland.

b. **Contact Details**:

3267. Lady Grover's Hospital Fund for Officers' Families

a. Lady Grover's Fund is a Friendly Society which supports officers' spouses, widows, widowers and children by making contributions towards hospital fees, home nursing, and domestic home help following illness or injury. The Fund gives financial assistance to dependants of officers of all three services, whether serving or retired. Widows or widowers can continue their membership at the same rates and with the same benefits. The officer members themselves cannot benefit from the Fund. Membership is open to any officer of the UK Armed Services, who holds or has held a regular commission for a minimum of five years.

b. **Contact Details.** For annual subscription fees and further details contact:

The Secretary
Lady Grover's Fund

Email: info@ngvfa.org.uk

3271. Naval Families Federation (NFF)

a. The Naval Families Federation (NFF) was established in 2003 to give Royal Navy families an independent voice. The NFF works with the Chain of Command, service providers and the Government in order to make them fully aware of the consequences their policies and decisions have on the Royal Navy family as a whole. This representation ensures that Royal Navy families' differences are acknowledged and understood and is in line with the other two Services. The NFF produce a free magazine called 'Homeport', which contains useful information for Service families.

b. **Contact Details.** For further information contact:

Naval Families Federation

Website: www.rfea.org.uk

3276. Royal British Legion (RBL)

(Registered Charity No: 219279)

a. Caring and campaigning for the serving and ex-Service community. The RBL provides financial, social and emotional support to millions who have served and are currently serving in the Armed Forces, and their dependants. The legion was founded in 1921 as a voice for the ex-Service community. Although the needs of ex-Service people have changed over the years, they are still there to safeguard their welfare, interests and memory.

b. The RBL offers advice and support about a wide range of topics, including:

(1) War pensions, inquest and compensation claims.

(2) Benevolent / welfare help.

(3) Care homes.

(4) Poppy Breaks, Family Holiday Breaks and Adventure Breaks.

(5) Remembrance travel (pilgrimages, school and group tours).

(6) Tracing advice. (Note. RBL does not hold or have access to, any official records, but can advise where to get hold of information for tracing purposes.)

3277. Royal Naval Association (RNA)

(Registered Charity No: 266982)

a. **Background.** The Royal Naval Association is the principal Naval Association recognised by the Admiralty Board. The RN and RNA have agreed a Memorandum of Association. Membership is open to all who served or have served in the Royal Navy, Royal Marines, QARNNS, WRNS and Reserves of all ranks. In addition, anyone who is in sympathy with the objects of the Association may join as an Associate Member.

b. With over 20,000 members across 385 branches in the UK and overseas, the RNA is a family of current and former Royal Navy personnel, relatives and supporters of our country's Royal Navy. The RNA considers that, whether its activities involve catching up with friends at its regular social events, fundraising, advising on welfare and employment matters, or just providing an arm around the shoulder, the natural willingness to help others stems from the tradition and camaraderie that only Royal Navy life can instil.

c. The RNA's core values are:

(1) **Unity.** Shared backgrounds and equality in rank. Naval personnel share the same bonds, the same mindset, and even the same language. All members are equal and are the heart and soul of the RNA.

(2) **Loyalty.** To other members and their dependants. The RNA believes in supporting and looking out for each other. The RNA is loyal to the personnel and dependants of the Royal Navy, along with other charities or organisations with naval connections.

(3) **Patriotism.** The RNA is proud to serve and proud to represent our country and honoured to remember and represent (on a national and international level) those who have fallen for our country or who fight now.

(4) **Comradeship.** Friends in fun, fellowship and need. Your RNA shipmates will always be here for you and will never leave you or your dependants in despair.

3281. SSAFA Forces Help

(Registered Charity No: 210760)

a. **Background.** SSAFA is a national charity providing financial, practical and emotional assistance to anyone that is currently serving or has ever served in the Army, Navy or RAF, and their families. SSAFA Forces Help's motto is "One day's service: a lifetime of support", with the offer of support no matter how your life circumstances may have changed.

b. SSAFA's Range of Services includes the provision of practical support, help with financial difficulties and emotional support with social and family issues. The list below highlights some of the assistance offered by SSAFA.

(1) Financial support and advice, including state benefits and war pensions

(2) Housing facilities at, SSAFA Norton Homes, Stepping Stone Homes, St Vincent's Residential Care Home and the Royal Homes (Wimbledon).

(3) The London Homeless Division (working with ex-Service rough sleepers).

(4) Adoption service (available to all those in the UK Serving community).

(5) Mentoring service to support wounded, injured and sick Service personnel.

(6) Health and social work services on behalf of the MOD in most overseas establishments.

(7) Backing, encouragement and advice for parents of children with additional needs or disabilities, serving personnel with a disability and their partners and carers.

(8) Service Community volunteers work on bases, stations and garrisons around the world to improve the quality of life for Serving personnel and their families.

(9) Assistance with immediate and practical needs for ex-Service personnel (and members of their immediate family) who are serving a prison sentence, or been recently released.

(10) Support Groups, e.g. for the Families of Injured Service Personnel (FISP), bereaved families, bereaved siblings and the Forces Additional Needs and Disability Forum.

SSAFA main office telephone number: 8088 260 6780

c. **Forcesline.** Forcesline is a free and confidential helpline that is completely independent of the military chain of command. The experienced civilian staff provides a non-judgemental, supportive, listening, and signposting service for serving personnel and their families, as well as former members of the Armed Forces. You can talk about anything including personal concerns, worries and problems. Wherever possible Forcesline will provide factual information or 'signpost' possible ways forward. Forcesline is available Mon-Fri, including Bank Holidays, and can be accessed from anywhere in the world. The line is open from 1000 to 1930 (UK local time) and the numbers are:

(1) From the UK (Main Line): . 0800 260 6780

(2) From Germany: 0800 1827 395.

(3) From Cyprus: 800 91065.

(4) From the Falkland Islands # 6111.

(5) From anywhere in the world (Call-back) +44 (0)1980 630854.

(6) From Operational Theatres, to enable access through Paradigm's phone system, dial the appropriate access number then enter *201 at the PIN prompt.

(7) AWOL Support Line: 01380 738137.

d. **Branch Network.** Alternatively, if you are seeking assistance from their network of branches working with the ex-Service community, you may wish to contact your local branch directly, via the branch locator on the website or by telephoning (local numbers are in the appropriate area telephone directories). Note that as volunteers staff the branches, the office hours vary, and you may not receive a reply immediately.

e. **Post.** If you prefer to write to Forcesline, their address is:

Forcesline
FREEPOST
PO Box 1312
Pewsey
Wiltshire, SN9 6NN

f. **Online Form.** To email Forcesline, visit http://www.ssafa.org.uk and select "how we help", Forcesline and access the online form.

E-mail: info@vsc.co.uk
Website: www.vsc.co.uk

3285. War Widows Association

This is essentially a pressure group that exists to improve the conditions of war widows and their dependants in Great Britain. Its work encompasses those who have suffered bereavement as a result of World War II and all conflicts since then including Iraq and Afghanistan. The WWA also represents those who have suffered the loss of their partner and in peacetime, when the death was attributable to their Service life. Further details can be found at www.warwidows.org.uk.

3286. White Ensign Association

a. The mission of the White Ensign is to inform and provide guidance to all serving and former members of the Royal Navy, Royal Marines, their Reserves and also to their families on Employment, Finance, Resettlement and Personal Administration. The White Ensign offers unbiased, confidential and free advice service. White Ensign staff visit establishments throughout the United Kingdom on a regular basis to provide support, guidance and advice in the form of Lectures and personal interviews

ANNEX 32E

APPLICATION FOR HEALTH AND PERFORMANCE FUNDING

1. Applicant Details:

Name:	
Rank/rate:	
Email	

2. Name of Unit:

3. How many Unit Health Committees have taken place in the last 12 months? Please provide the dates.

4. Have the meeting minutes been submitted to the RNHaP Team?

Yes	No

5. Justification/reason for application: *This should be a comprehensive description of the reason you would like the funding and what items or events it will be used to fund. Please include the health priority topics covered and evidence why this is needed. This can be evidenced through UHC minutes or actions.*

6. Approximately how many people will this impact?

7. If applying for funding for items, please provide evidence of why this is required and explain why it will have a positive impact on SP's health and performance. How will you know that this positive outcome has been achieved?

8. Please provide the full breakdown of costs for the funding sought:

Please note, you can ONLY qualify for funding if you can provide evidence of previous and current UHCs taking place.

ANNEX 32F

HEALTH AND PERFORMANCE GRANT FEEDBACK FORM

1. Unit:

2. Which health topic did your purchase cover? (Please highlight the appropriate topic)

- Women's Health
- Healthier Weight (Nutrition and Physical Activity)
- Additions (Alcohol, Nicotine, Gambling)
- MSKI
- Sexual Health and Relationships
- Mental Fitness / Resilience

3. How much was your funding application for?

4. What did your purchase with the funding?

5. How beneficial was your purchase to those who have used it? (Please highlight your rating)

(Not beneficial) 1 2 3 4 5 (Extremely beneficial)

6. Please provide feedback on why the purchase was or was not beneficial. (Please add any relevant evidence if possible)

7. How many people has this purchase impacted?

8. Would you use this funding again in the future? (Please highlight appropriately)

- Yes
- No
- Maybe

9. How could we improve the funding application for you?

Thank you for completing the RN HaP Funding Feedback Form. Your feedback is extremely important to us! If you have any questions or would like to discuss further, please contact NAVYPEOPLE-PSHWGROUP@mod.gov.uk

ANNEX 32G

NAVAL SERVICE ASSISTED PASSAGE SCHEME (NSAPS)

1. Principles

a. Naval Service Assisted Passage Scheme (NSAPS) loans are provided from the NSAF primarily for the purpose of assisting service personnel with the cost of flights for relatives to and from ports where deployed ships are on standoff. Hotel costs may be included in the loan if they are part of a package holiday.

b. JSP 752 Chapter 6 Section 3 details the allowances and advances of pay available through Families Assistance for Visits Abroad (FAVA) to married service personnel deployed for 182 days or more. To assist those personnel who do not qualify for FAVA, RN Charities introduced SPAPS (Single Persons Assisted Passage Scheme), and the Short Deployment Fund (SDF). Following the formation of the RNRMC SPAPS and SDF have now been replaced by NSAPS administered through the NSAF. In certain circumstances FCDO personnel may also be eligible.

2. Criteria

a. There is no minimum length of deployment for NSAPS as there is for FAVA, but the FAVA allowance cannot be claimed at the same time as NSAPS. Eligibility is subject to block leave being available in the foreign port and Commanding Officer's approval being given. Personnel who qualify for FAVA are not permitted to apply for a NSAPS loan either as well as or instead of FAVA. There is no limit to the amount of the loan or to the number of persons on whose behalf an individual can apply for a loan, but they must have a significant link to the applicant such as blood or marital relationship or long term partnership.

b. FCDO personnel who have not settled their family in the UK may apply for a loan to visit financially dependent family or a home maintained by them in their country of origin – see eligibility table below.

c. The NSAPS loan is made to the Ship's Central/Welfare Fund for the use of the individual and not to the individual direct. In certain circumstances the Fund will pay the Travel Agent direct or reimburse the individual for flights purchased online, provided that the Ship acknowledges responsibility for the loan in advance.

d. Repayment is by way of monthly instalments to the RNRMC. The maximum period for repayment is 12 months. Normally only one loan per person is permissible in any 12 month period.

3. Procedure for Submitting an Application

a. Unit to identify window in programme which will allow for block leave to be taken (usually in line with a FAVA application) and obtain CO's approval.

b. Ship's Company to be informed of opportunity for NSAPS.

c. Obtain application form and at earliest opportunity to forward it by email to RNRMC Assistant Accountant, (see para 3211)

d. Details of the proposed loans should be given to the Ship's Welfare Committees and approval sought if appropriate.

e. RNRMC Assistant Accountant to approve application and arrange payment to the ship/travel agent/individual (in exceptional cases only) and record the debt.

f. RNRMC Assistant Accountant to send draft repayment schedule and bank mandate to unit.

g. Debt to be recorded in Ship's Sage Accounts, repayment schedule confirmed and repayments made in accordance schedule until cleared.

Table 32G -1. NSAPS - Eligibility Table

Scheme	Regular Service Married	Regular Service Unmarried	FCO unmarried with home maintained in country of origin	FCO married or unmarried with financially dependent family in country of origin	FCO married with family in UK	FCO unmarried with family in UK
FAVA - Advance of pay for return fares (not hotel) for family from UK to foreign port + Allowance	Eligibility - deployed away from UK waters continuously for 182 days or more	Not eligible	Not eligible	Not eligible	As Regular Service Married	Not eligible
NSAPS - Loan for return fares for family from UK to foreign port while Ship deployed (inc hotel if package deal) - no Allowance	Eligibility - deployed away from UK waters continuously for less than 182 days	Eligibility - No minimum length of deployment	Not eligible	Not eligible	As Regular Service Married	As Regular Service Unmarried
DOMCOL - return fare paid for self from UK to Country of origin	Not eligible	Not eligible	Once every 5 years	Not eligible	Not eligible	Not eligible
NSAPS (FCO) - Loan for FCO for return fare (not hotel) for self from UK to country of origin - no Allowance	Not eligible	Not eligible	Once in every year that not entitled to DOMCOL	Once in every year	Not eligible	Not eligible

CHAPTER 33

ROYAL NAVY RECOVERY PATHWAY POLICY

3301. Introduction

The Defence Recovery Capability (DRC) is designed to deliver a conducive military environment within which all serving personnel on their single Service Recovery Pathway receive the appropriate support to enable an effective Return to Work (RTW) or transition to a properly supported and appropriately skilled civilian life[1].

3302. Aim

The purpose and policy of the Royal Navy Recovery Pathway (RNRP) seeks to achieve the following:

a. Provide the Chain of Command and the Service Person with a guideline of activity and considerations from the point of entry to the point of exit on the RNRP.

b. Support individuals to achieve their maximum recovery potential so that their continued service can be effectively assessed.

c. Inform the Executive decision-making process[2] on whether an individual should be retained or discharged.

d. Deliver equity and ensure the commonality and consistency of the RNRP experience.

e. Deliver an optimised outcome through a patient focused approach to recovery.

3303. Command and Control

a. Director Personnel and Training ‘owns’ the RN Recovery Capability and is a member of the Defence Health and Wellbeing Board (DHWB).

b. Deputy Director People Delivery (DDPD) is responsible for RNRP policy, governance and assurance, which is delegated to Hd People Support.

c. Day to day management of RNRP policy, governance, assurance, direct line management of Royal Navy Recovery Centre (RNRC) Hasler and delivery of the RN recovery programme is delegated to SO1 Recovery and Resilience Margins who also acts as the RN member of the Defence Recovery Task Group (DRTG), reporting to the DHWB.

d. Recovery is a Command-led activity which is authorised by a CO to ensure that the Royal Navy fulfils its duty of care responsibility towards its personnel on the RNRP. The Parent Unit[3] retains Command of all personnel on the RNRP.

[1] JSP 661 Health and Wellbeing. Section 2.
[2] Royal Navy Medical Employability Board (RNMEB).
[3] The ‘Parent Unit’ is the Unit to which the RN/RM individual is assigned.

3304. RNRP Entry and Exit Criteria

a. The Royal Navy Recovery Pathway (RNRP) is the term used to describe the journey a Service Person (SP) takes from the point of injury or illness to the point where they either return to work (RTW) fully upgraded, RTW in a permanently limited Joint Medical Employment Standard (JMES), or they leave the Service due to medical discharge or other reasons[4]. All personnel in the RNRP are to have an Individual Recovery Plan – more detail is at 3308. Dependant on nature of Service, some personnel in the RNRP may be appropriate for consideration of assignment to an MA7A medical margin – more detail is at 3306. Again, dependant on nature of Service, some personnel in the RNRP are eligible to undertake Recovery Activities – more detail at Annex 33F. Variance in application of this policy for Reservists, UTS and U18 personnel is highlighted throughout this Chapter. A summary of the RNRP is at Annex 33A.

(1) **RNRP Entry Criteria.** All personnel awarded a temporary JMES of M-3, 5 or 6 or L-3, 4, 5 or 6.

(2) **RNRP Exit Criteria.** With the exception of those personnel assigned to a medical margin, personnel are no longer in the RNRP when they are upgraded to TEMP JMES M2 or above, or given a PERM JMES and retained at Royal Navy Medical Employability Board. For those who have been in the RNRP AND assigned to MA7A medical margin, they remain in the RNRP until they are upgraded to TEMP JMES-M2 or above by a Medical Officer, or, having been awarded a permanent JMES at Royal Navy Medical Board of Survey (RNMBOS) and retained at Royal Navy Medical Employability Board (RNMEB) AND assigned to a Workforce Requirement driving role. For those personnel leaving the Service, they remain in the RNRP until theirr final date in Service (regardless of reason for leaving the Service i.e. PVR, end of commitment, discharge on medical grounds etc).

b. Many units have personnel from the Army and RAF serving within. It should be noted that each Service has a different Recovery Pathway 'entry' criteria and single Service (sS) policy[5] should be consulted to ensure appropriate support is afforded to the individual.

c. Rehabilitation and Recovery are two distinct, but complementary, processes. Rehabilitation is primarily clinical treatment for medical conditions arising from wounding, illness or injury and is the responsibility of the Surgeon General (SG). Recovery is primarily a non-clinical activity, but may involve individuals undergoing rehabilitation, and is designed to assist personnel to return to duty or prepare them for life outside the Armed Forces. Recovery is the responsibility of the Chief of Defence People.

[4] Which may be naturally reaching the end of a person's Service, TX following submission of notice or other premature release such as discharge SHORE, SNLR or via disciplinary means.
[5] Army: AGAI Vol 3 Chap 99 'Command and Care of Serving Personnel on Recovery Duty'; RAF: AP7005 Leaflet 502 'Management of RAF Personnel on Long-Term Sickness Absence'.

3305. Personnel on Recovery Duty Definition

'Personnel on Recovery Duty' (PRD) refers to those personnel on the RNRP who are unable to undertake their *normal* duties. In the RN, this applies only to personnel assigned to an MA7A medical margin within a Workforce Resilience and Training Margins (WRTM) organisation such as a Personnel Support Group (PSG), Recovery Troop (RT) or Royal Navy Recovery Centre Hasler (RNRC Hasler). Most personnel on the RNRP do not need to be assigned to an MA7A margin and may remain in their current role or be reassigned to a role compatible with their temporary JMES and Medical Limitations (MEDLIMS).

Note. *Pregnant Service Personnel given a JMES of E6 who also receive a JMES of M-5 are not to be considered as being on the RNRP and will not be identified as such via SCIO.*

3306. Assignment Considerations

a. When a Service Person (SP) enters the RNRP, the Line Manager (LM), (usually the Divisional Officer (DO) or Troop Commander (Tp Cdr)), needs to determine whether the current assignment is suitable to support recovery, or if reassignment is required. The individual is to be involved throughout to ensure their preferences are considered and that they understand and remain engaged with decisions the decisions.

b. Most individuals either remain in their unit from point of downgrade or are assigned to another workforce requirement driving position elsewhere vice being assigned to one of the 12 WRTM organisations below[6] (contact details in Annex 33B):

(1) **PSGs in:** HMNB Devonport, Portsmouth and Clyde, RNAS Culdrose and Yeovilton.

(2) **RTs in:** 40, 42 and 45 Cdo, CLR, CTCRM and Hamworthy Barracks.

(3) **RNRC Hasler.** For most complex medical cases.

c. All personnel on the Recovery Pathway have different illnesses or injuries, clinical pathways, career constraints, and personal circumstances. Their experiences before entering recovery also vary; no single process will suit all. The policy framework is therefore designed to balance the needs of the individual with those of the Service, with the shared aim of enabling personnel to recover as fully as possible, either to return to duty or to leave the Service as well as possible.

[6] RN and RM can be assigned to any of the WRTM organisations if deemed appropriate.

d. The following is a brief outline of employment and assignment considerations at the point of downgrade or JMES change for GTS SP. More detail is provided at Annex 33C.

Step 1 - **JMES Change** Temp M-3,5,6 or L-3,4,5,6 likely to be for more than 3-months.
Step 2 - **Employment Considerations** - tenable to remain in role? If yes, support recovery and re-assess at JMES review. If no, go to Step 3**.**
Step 3 - **Assignment Considerations** - alternative workforce requirement driving role or MA7A in WRTM organisation? If PSG or RT is appropriate, follow the extant RNTM for joining instructions to a PSG or RT. If complex or no agreement with WRTM OC, go to Step 4. Personnel with a Temp JMES M6, likely to remain extant for more than 3 months are strongly recommended for assignment to MA7A to ensure optimal divisional care and minimise impact on current unit. Personnel with a PERM JMES M6 MUST be assigned to MA7A.
Step 4 - **Case Conference** request for RNRC Hasler consideration. Complete Appendix 33C1 and submit to NAVY PEOPLE-PS RRM DIVS WO. If assigned, conduct DO handover as arranged with Hasler staff. If not, follow extant RNTM for PSG/RT assignment.

e. For UTS personnel on the RNRP, the default is that the SP remains within the Chain of Command of their current training establishment. If at discussion at the unit Carer's/N1 forum, it is decided the case requires specialist support and/or is likely to be long-term, this is to be discussed with the most relevant WRTM organisation who can make a decision on assignment to their medical margin. The training establishment CO must agree with the receiving unit CO and record this decision in the training establishment's CO's risk assessment. Training establishments and WRTM organisations are to include this process in their Supervisory Care Directive. UTS considered for RNRC Hasler are to be managed the same as GTS regarding assignment only after a case conference.

f. Reservists on FTRS commitments or mobilised are to be considered for assignment to MA7A when they are on the RNRP and remaining in their current role is untenable. The impact on the individual and the parent unit is to be considered case by case (for example if the SP holds Acting Higher Rate, consideration for recruiting of a relief into the gapped role etc). NAVY PEOPLE-CM RES FTRS WO1 is to be contacted to fully understand the impact of any decision to assign an individual on FTRS or mobilised to an MA7A medical margin.

3307. Chain of Command for WRTM Organisations

a. The Chain of Command for WRTM organisations is:

Unit	OC	CO	HA
PSG HMNB Clyde	SO2 PSG OC	Capt SM	Dir SM
PSG HMNB P'mouth	SO2 PSG OC	COB P	NBC P
PSG HMNB D'port	SO2 PSG OC	COB D	NBC D
PSG RNAS Yeovilton	WO1 PSG OC	RNAS CO	Dir FGEN
PSG RNAS Culdrose	WO1 PSG OC	RNAS CO	Dir FGEN
40 Cdo	WO1 RT OC	40 Cdo CO	CO HQ CF
42 Cdo	WO1 RT OC	42 Cdo CO	CO HQ CF
45 Cdo	WO1 RT OC	45 Cdo CO	CO HQ CF
CLR	WO1 RT OC	CLR CO	CO HQ CF
Hamworthy Barracks	WO1 RT OC	CO	DSF
RNRC Hasler	SO2 OC	OC/COB Devonport[7]	Dir P&T
CTCRM	WO1 PRD Mgr	Comdt CTCRM	Dir P&T

b. Whilst RRM SO1 does not have a Command function for WRTM organisations with the exception of RNRC Hasler, they are responsible for WRTM organisation operations within the pillars of administration; divisional; employment, and recovery activity articulated and assured via standardised operating procedures[8].

3308. The Individual Recovery Plan (IRP)

a. All personnel who meet the criteria for the RNRP are to have an IRP within 90 days of becoming eligible. The IRP is the Executive tool the individual and their DO or Tp Cdr use to optimise the conditions and environment whilst the individual is undergoing treatment for ill-health or injury. The IRP template is at Annex 33D. It is not designed to be cumbersome but the initial information reference JMES is important to consider if workplace adjustments are required and review dates give timelines to factor in.

b. The IRP is designed to ensure the SP and their DO are fully aware of all employment limitations and to support the SP in achieving a successful recovery outcome. Once completed, it provides a clear overview of planned activities and appointment timelines in the SP's best interests. The IRP is to be developed by the SP according to the complexity of their case and be regularly updated with the assistance of the DO or Tp Cdr and other specialist staff. The IRP is owned by the SP and is central to managing expectations and planning recovery activity. The DO/Tp Cdr is responsible for initiating the IRP at the appropriate point and guiding the SP throughout their time on the RNRP. The IRP is to be tailored to the individual, incorporate their clinical activities (which take precedence), and support preparation for the expected or potential outcome. It must remain within the SP's clinical boundaries.

[7] RNRC Hasler is CO – for disciplinary and administrative action above authority of SO2, COB Devonport delivers this capability.
[8] Within the Recovery and Resilience Margins HQ Playbook within People Support.

c. Whilst the entry point of the RNRP is also the point at which an IRP should be considered, it may sometimes be appropriate for the qualifying JMES to be awarded for a short period of time with reasonable expectation of returning to JMES M1 (medically fully deployable) within 3 months. For this reason, for personnel who meet the entry criteria for the RNRP, an IRP **CAN** be raised as soon as this happens where there is a reasonable expectation this will extend past 90 days. However, all personnel who meet the entry criteria for the RNRP with a JMES review date of more than 90 days, or **no later than 90 days** after first being awarded the JMES, an IRP **MUST** be raised.

d. Once an IRP has been discussed and created between the SP and DO/Tp Cdr the document must be kept as a "live" document. The IRP is to be regularly updated (minimum monthly) to track the SP's progress. The IRP is only to be finalised and sent for archive when the SP has reached the exit criteria as detailed in para 3304.

e. To send the IRP to archive, the file should be named in the format**:** **YYYYMMDD-IRP_SERVICE NUMBER_RANK_SURNAME-FINAL-OSP** and sent to NAVY PEOPLE-PS RRM IRP (NAVYPEOPLE-PSRRMIRP@mod.gov.uk). If a SP is assigned to another unit whilst still in the Recovery Pathway, the IRP should be forwarded by the losing DO to the new DO as part of the divisional handover.

JMES Status	IRP Requirement
Sick on Shore	No, if under 2 weeks duration. Mandated if over 4 weeks when SP should be graded M6, L6.
Perm JMES M2,3,5 or L2,3,4,5	No, unless awarded Perm JMES for 1 year by OH or MBOS for rehabilitation purposes[9].
Temp JMES M3,5,6 or L3,4,5,6 (day 1-90)	Not mandated for those likely to be upgraded MFD within 90 days but can raise IRP immediately if likely to remain longer than 90 days.
Temp JMES M3,5,6 or L3,4,5,6 (at 90 day point)	Mandated
Perm JMES M1,2 or L1,2	No

f. Defence Primary Health Care (DPHC) is responsible for the delivery of Occupational Health (OH) for Maritime Reserve (MR) personnel irrespective of Terms and Conditions of Service. DPHC is to provide OH assessments to establish the Joint Medical Employment Standard (JMES) of MR to inform of their employability and deployment status (if relevant). MR are required to inform their Chain of Command of any condition that affects their ability to carry out their duties (there is no requirement to disclose the details of any condition or injury) and attend a military OH medical assessment at their Unit or nearest Medical Centre. All downgraded MR are to have an IRP drafted after assessment by their Divisional Officer. This will allow the individual and unit Executive to discuss the implications of the injury or illness on employability and deployability, as well as signposting any support that may be required. Should the MR be injured on duty, evidenced by a MOD Form 510 or equivalent, the individual is entitled to Service rehabilitation support in accordance with BRd 3(1) Chapter 101.

[9] Typically awarded to allow 1 year of musculoskeletal or mental health rehabilitation and will require IRP.

3309. Overview of the IRP

a. Annex 33A gives a broad timeline of the RNRP and the various Executive considerations SP and their DO/Tp Cdr should be aware of. Whilst clinicians will not share any medical in confidence information, if the DO/Tp Cdr needs to consult with the MO/physio/ERI/DCMH, Royal Navy Family and People Support (RN FPS) etc to ensure the support to the SP is joined up, share relevant information or ask for clarification on any point, the Unit N1 forum is the mechanism to do this. The IRP must not contain any medical in confidence information.

b. For all SP, not just those in the RNRP, the SCIO Life Checker is a very useful tool for SP and their DO's/Tp Cdrs. If a SP identifies a concern in any aspect of their life, the Life Checker will signpost them to relevant information and guidance.

c. There is no 'standard' for recovery; illness and injury affect every individual differently. This policy offers a framework but if you have any concerns about your own recovery pathway or that of someone you are supporting, either contact your local PSG, RT or RNRC Hasler whose contact details are at Annex 33B, or the Recovery and Resilience Margins HQ.

3310. JPA Record of the IRP

a. To create an audit trail that an IRP has been raised, the Unit Administrator/Department Co-ordinator (DEPCO) is to raise a JPA competency (with no end date):

Welfare|Individual Recovery Plan|Joint.

The DO/Tp Cdr should notify the relevant person in their organisation that the IRP has been raised so this action can be taken.

b. When an IRP has been created it must remain a "live" document between the DO/Tp Cdr being regularly updated and stored in a secure area in line with General Data Protection Regulations (GDPR). It is only to be considered finalised and sent for archive when the SP has met the criteria for exiting the Recovery Pathway (as detailed in para 3304).

c. When the SP meets the exit criteria for the RNRP, the IRP competence is to be end dated in JPA, **not** deleted.

3311. Divisional Responsibilities

a. A SP should not be sick-on-shore for longer than 14 days before a JMES change is considered. For personnel sick-on-shore, the DO/Tp Cdr/LM should establish communication at the earliest opportunity to determine support requirements. For personnel awarded a JMES of M or L-6, the DO/Tp Cdr is to establish contact[11] as soon as possible but no later than within 10 days and maintain contact every week to exercise appropriate duty of care to the individual and ensure they feel like they are still part of the unit and being appropriately supported. A home visit by day 21 is encouraged and regularly thereafter. If the SP will not agree to a home visit or it is decided by the individual AND DO/Tp Cdr/LM that a home visit is not required or appropriate or the periodicity should be changed, this should be recorded in the IRP. The method of regular contact e.g. Teams, telephone call etc. is to be recorded.

b. Where RN personnel are being treated for protracted or complex injuries or illnesses through the Royal Centre for Defence Medicine (RCDM), Defence Medical Rehabilitation Centre (DMRC) or any other hospital, the Parent Unit remains responsible for the individual's overall management and recovery. If a unit is unable to provide appropriate divisional care for any reason, they are to consider assignment to or temporary support from a PSG or RT and must contact the relevant unit at Annex 33A to formally agree this in writing.

c. The Recovery Pathway combines a multi-disciplinary Executive, Medical, Welfare and Pastoral support service under the overall co-ordination of the Chain of Command drawing support from the Third Sector[12]as required.

d. The Recovery Pathway must not be regulated by set timelines. There is no pressure for unseemly haste but those on their recovery pathway should strive for positive milestones. Those managing the recovery pathway for individuals must ensure that key events identified in the IRP are being met, preventing unnecessary drift for, or by, the individual. Whether operational or non-operational, on duty or off duty, where and how an individual finds themselves on the Recovery Pathway is irrelevant. It is there to guide those that need support and includes those with psychological as well as physical injury or illness.

e. Each SP must be encouraged to take control of their own recovery 'journey', set and record clear goals and take 'ownership' of their IRP. The Recovery Pathway is their 'place of duty' and those who do not engage and habitually 'Do Not Attend' appointments, meetings, recovery activities, etc should be subject to Minor Administrative Action (MAA) and the Warning process for Discharge Shore (Inadequacy) as outlined in Chapter 57, noting the particular circumstances of the case.

[11] In person, by telephone or email. A record of all contact made, and discussions had, are to be recorded by the DO.
[12] 3rd Sector support includes DRC strategic partners, The Royal British Legion (TRBL) and the RNRM Charities.

f. If an optimum outcome is to be achieved, transparency between the Executive, the medical and the individual is essential throughout the Recovery Pathway. In any discussions, however, care should be taken to protect personal data, and all involved should be cognisant of the Defence Medical Caldicott Policy[13], noting that sharing certain information can be beneficial to the Service Person (SP) (Principle 7[14]).

g. Personnel within the RNRP are to be formally assessed throughout recovery to ensure that the IRP is delivering the required outcome. If progress is not being made, the case is to be brought to the Unit Carer's/N1 Forum and discussed within a multi-disciplinary team of SMEs.

h. All personnel on the RNRP likely to be discharged from the RN on medical grounds [15] access resettlement entitlements at an earlier stage than other Service Leavers. In these cases, a balance needs to be retained between recovery and resettlement activities to ensure that the SP has sufficient time to plan for the future and is ready for transition to a properly supported and appropriately skilled civilian life.

i. All personnel, regardless of where they are and how long they have been on the 'Recovery Pathway', are entitled to an SJAR/OJAR; UTS should be managed according to their individual circumstances, minimising non-reporting as much as possible. Often, SP are sick on shore or employed in restricted activities not associated with their rank or specialisation for a prolonged period; in these instances a Short Appraisal Report (SAR) may be more appropriate[16]. The SAR should contain sufficient detail to describe the nature of the recovery duties/activities undertaken and the attitude of the SP/PRD in engaging in the recovery process. In cases of doubt, the appropriate Promotions Branch Secretary should be consulted.

3312. Recovery Activity and Personnel Recovery Centre's (PRCs)

a. Recovery is different for all; it can be a lengthy process with intense periods of treatment and rehabilitation interspersed with periods of inactivity, or it can be very straightforward and uncomplicated where the SP can be gainfully employed between medical interventions in unit. Either way, appropriate support to enable an effective return to full duties or transition to a properly supported and appropriately skilled civilian life is to be provided and there are numerous approved recovery activities that can be utilised to contribute to these goals.

[13] JSP 950 Vol 1, Ch 2, Leaflet 1-2-15.
[14] Principle 7. The duty to share information can be as important as the duty to protect patient confidentiality. Health and social care professionals should have the confidence to share information in the best interests of their patients within the framework set out by these principles. They should be supported by the policies of their employers, regulators and professional bodies.
[15] JSP 534 Section 6.
[16] JSP 757 Part 2 Vol 1 Chap 1 Annex B Para 1.a (6).

b. All GTS personnel on the RNRP are entitled to undertake recovery activities which can take many forms from yoga and wellbeing retreats to chainsaw courses. For UTS personnel, only those on the RNRP AND assigned to a medical margin in a WRTM organisation, are entitled to undertake RN delivered recovery activities with access to Defence delivered recovery activities approved by exception via the RRM HQ; UTS personnel in the RNRP who are not assigned to a medical margin are not entitled to undertake recovery activities. Participation in a recovery activity must be coherent with the IRP and be programmed so as not to impact upon, but work in conjunction with, planned clinical and rehabilitation activities. Only reservists on the RNRP and undertaking an FTRS commitment, or are mobilised, are eligible to undertake recovery activities.

c. Before attending any recovery activity/course, a formal discussion is to be made by the SP on the RNRP to their CoC to ensure activity/course is suitable in accordance with the SP JMES codes. Once confirmed, a course application form, found on the RRM HQ SharePoint page, is to be submitted to the Area Recovery Manager or POC for specific activity/course.

d. There are a number of Defence Recovery courses available at Personnel Recovery Centres (PRCs), which are of benefit to RN SP on the RNRP not necessarily just those preparing to leave the service. More detail is at Annex 33E.

e. The RN Recovery Programme, alongside the Defence Recovery courses can be found on the RRM HQ SharePoint page[17].

f. DO's/Tp Cdrs and SP are to note that all personnel who meet the RNRP entry criteria are eligible to undertake a Recovery Activity. It must be recorded in the IRP and be a DRC or RRM approved recovery activity to convey duty status.

g. Within the Recovery Activity calendar there are Overseas Activities, which are coordinated by SO3 RRM HQ. These are advertised separately with participant selection conducted via application form and sift. Overseas activities also require WRTM staff to attend in order to safeguard SPs. Request for staff member volunteers is sent out by SO3 RRM HQ.

3313. Employment

a. All employment undertaken by SP on the RNRP must be cognisant of the individual's medical limitations and, where any doubt exists, clarification should be sought from the MO. Those SP on the RNRP who are defined as PRD (i.e. on the RNRP and assigned to an MA7A medical margin within a WRTM organisation), should be afforded appropriate temporary gainful employment as afforded by their JMES.

b. Being suitably employed and feeling a valued member of the RN is a fundamental part of recovery, but it should not come at the expense of rehabilitation. Employment during recovery should be considered alongside other recovery activities however, the primary 'duty' of a PRD individual is rehabilitation.

[17] https://modgovuk.sharepoint.com/teams/61893/SitePages/Recovery-Courses.aspx.

c. For the majority of RN SP on the RNRP, particularly those who are PRD, return to duty is the expected recovery outcome. In order to achieve this, a Gradual Return to Work (GROW) programme is often required and employment should, where possible, be tailored towards the trade/skill of the SP.

d. When an individual is nominated for a period of employment, it should be noted in the IRP. The employing officer should be made aware of any restrictions and limitations in place and the requirement to attend rehabilitation/medical appointments[18]. Whilst the employer may have day to day line management responsibility for the PRD, they may not have divisional responsibility; this is to be made clear to all parties and the IRP annotated accordingly.

e. PRD are entitled to an OJAR/SJAR and temporary employers are to feedback sufficient information to the DO/Tp Cdr/1RO in order for a report of value to be drafted.

f. PRD who are recommended for Royal Navy Medical Board of Survey (RNMBOS)[19] discharge should consider registering for resettlement at least 4 months before the point of referral[20]. In these cases, any temporary employment should be considered alongside the need to commence resettlement activity and registration with the Career Transition Partnership (CTP).

3314. Participation in Recovery Events and Activities

Participation in Recovery Events and Activities could accelerate the recovery of a SP on the RNRP. More detail is at Annex 33F.

3315. Home Adaptations

SP with complex injuries may require adaptations to domestic accommodation[21]. Adaptations can be made to SLA, SFA, private homes (including parental homes) and adaptations to a second property when SP personnel move from an adapted parental home to their own property. The process is initiated using a Service Adaptation Initial Case Report (SAUCER); this form provides the background and includes an Occupational Therapist (OT) assessment. It is important that SP requiring private home adaptations start the process as soon as possible to allow sufficient time for the application process and completion of work[22]. Funding for home adaptations for serving SP is a DIO responsibility. Further advice may be obtained from NAVYLOGINFRA-INFRASTRAT1@mod.uk.

3316. Recovery Staff Training

The management and oversight of RN personnel on the RNRP and particularly PRD within WRTM organisations, can often be a difficult, time consuming and emotionally taxing, especially when dealing with multiple cases. To better prepare personnel for an assignment in a WRTM organisation, training requirements are within the RRM HQ Playbook. WRTM organisation OCs are responsible for ensuring their staff have undertaken the mandatory training.

[18] Subject to DPA and Caldicott Policy requirements.
[19] JSP 534 Section 6.
[20] Usually 12 months after the initial downgrade i.e. consider registering for resettlement 8 months after downgrade if expected to remain downgraded at 12-month point.
[21] JSP 464 Vol 1 Part 1 Chap 3 Annex C.
[22] Completion of an OT assessment, submission of a business case and the processing of the application for complex cases can take several months to complete.

3317. Supervision and Caring for the Carers

The intense involvement with SP on the RNRP can result in the physical, psychological and emotional exhaustion syndrome of burn-out. To ease this potential risk, a supportive supervision model is required to manage the complex demands of the work undertaken by personnel working within the WRTM organisations. The group supervision process is detailed in the RRM HQ Playbook.

3318. Assurance

a. The Defence Health and Wellbeing Board, through Director People and Training and the Naval Secretary, requires confidence that the Royal Navy Recovery Pathway (RNRP) is being carried out in accordance with policy and is delivering the required outcomes for RN personnel. This will be achieved by conducting a series of Assurance Visits to RN Units and Establishments and will be delivered initially through a two-year rolling programme.

b. The primary responsibility for delivering the RNRP lies with the Unit Executive through the Divisional/RM Company system or, in those units that have them, through PSGs, RTs or RNRC Hasler.

c. The unit Executive Department is responsible for assurance of the RNRP of those assigned to it. The unit Carers' Forum is the conduit through which individual cases are assessed and managed within the unit in a multi-disciplinary environment.

d. External Assurance of any RN unit, not only specialist Recovery Units including Royal Navy Recovery Centre (RNRC), PSGs and RTs, will be conducted by Recovery and Resilience Margins HQ in accordance with the RRM Playbook.

3319. Medical Discharge Policy

a. Medical Discharge policy for the RN is consistent with tri-service policy[23] and is as follows:

> “Advice to the Royal Navy on the medical fitness of an individual is provided through the award of a Joint Medical Employment Standard (JMES)[24]. The JMES is then used to inform the decision by the Royal Navy on whether that individual should be retained, if the functional ability associated with their medical condition permits, or whether their condition precludes future employment, in which case the Service will arrange for termination of their service. Each case is considered on its merits, so that in some circumstances a small number of those with significant disabilities may be retained, if they wish to be retained, and the Service has a suitable position for them.”

[23] https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/480979/FOI_04718-JSP_770__Final_v10-U.pdf
[24] BRd 1750A Handbook of Naval Medicine Standards

b. To deliver the necessary consistency of outcome, the CoC shall determine if the right decision is for an individual to leave the RN by the answers the 5 questions[25] below:

(1) What is the individual's Permanent Medical Category?

(2) What is the individual's employability within the Service?

(3) Has the individual's treatment been optimised or reached a plateau?

(4) Has resettlement, training and education been completed?

(5) Is society ready to receive the individual?

3320. Medical Assessment Process

a. Specific detail and guidance on the role of the RNMBOS and the Royal Navy Medical Employability Board (RNMEB) is at Chapter 28 and BRd 1991 Chap 8. The RNMBOS assesses the medical state and prognosis of an individual and is conducted once they have been in a reduced medical category for 12 months, or sooner if it is obvious that the PRD will not return to their former grading. The RNMEB decides, based on RNMBOS and Personnel Branch information, whether an individual should be retained or medically discharged from the Service. Retention is gauged on the ability of the RN to offer meaningful and fulfilling employment to injured personnel with realistic prospects of further promotion and advancement for the remainder of their career. The decision of the Board is also informed by an individual's written personal statement and reports by their lead clinician and chain of command.

b. No one will leave the Armed Forces until they have reached a point in their recovery, however long that takes, where leaving the Service is the right decision. In the context of this statement, the RN has determined that the '*point in their recovery where leaving the Armed Forces is the right decision'* will be when an individual's medical care can be transferred seamlessly from Defence Medical Services (DMS) to the National Health Service (NHS) without harm to the individual. If personnel are undergoing specialist medical rehabilitative care, their need for DMS-specific care vice NHS care must be assessed so that retention in Service[26] or onward referral can be arranged.

[25] https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/480979/FOI_04718-JSP_770__Final_v10-U.pdf.
[26] Retention until fit to transfer to NHS.

3321. Transition Pathway

a. When, due to service limiting injuries, an individual is unfit for continued military service and has gone through the RNMBOS and RNMEB processes, the RN has a responsibility to ensure that the individual's transition to civilian life is managed as smoothly as possible. The principles of clinical transition for all Service Leavers are in JSP 950 Leaflet 1-3-4[27]. Additional advice and guidance on the transition of more complex PRD personnel who may require NHS continuing healthcare arrangements (CHC) is described in JSP 770 Chapter 5 Part 4.

b. Defence Transition Services (DTS) and Veteran Welfare Support (VWS) provide ongoing support, guidance and information to service leavers and their families on issues that will endure beyond discharge. DTS and VWS support is available irrespective of the reason for discharge and is available to regular, reservists and their families. Referrals into DTS/VWS are made using the Defence Transition Referral Protocol (DTRP) detailed in JSP100 part 2[28]. This can be made on behalf of the SP or family member by any responsible tri-service military authority, or by the individual SP or family themselves through self-referral. Integrated Personal Commissioning for Veterans (IPC4V) Framework is a personalised care approach for the small number of Armed Forces personnel who have complex and enduring physical, neurological and mental health conditions resulting from injury whilst in Service. It ensures they are effectively cared for and supported as they transition to civilian life and beyond. Individuals who are eligible for IPC4V are proactively identified by medical staff while they are on the Defence Recovery Pathway. Further information is available in JSP 661[3] Chapter 4.

3322. Resettlement Policy

a. All SP on the RNRP likely to be discharged from the RN on medical grounds are able to access resettlement entitlements at an earlier stage than other Service leavers[29]. In these cases, a balance needs to be struck between recovery and resettlement activities to ensure that the SP has sufficient time to plan for the future and is ready for transition to a properly supported and appropriately skilled civilian life.

b. In all cases, a Transition Assessment Form (TAF)[30] is to be completed for the PRD and forwarded to the local Naval Resettlement Information Officer (NRIO). The TAF can also be found at Annex 33G.

c. For those PRD who face significant barriers to employment, a Specialist Employment Consultant (SEC) may be available through the CTP (Assist) programme; the NRIO will be able to advise.

[27] https://modgovuk.sharepoint.com/sites/IntranetUKStratCom/Shared%20Documents/Forms/AllItems.aspx?id=%2Fsites%2FIntranetUKStratCom%2FShared%20Documents%2FJSP%20950%20Leaflet%201%2D3%2D4%20HC%20Transition%20arrangements%20for%20Military%20Personnel%20leaving%20DMS%20care%20%28v1%2E2%20Sep%2021%29%2Epdf&parent=%2Fsites%2FIntranetUKStratCom%2FShared%20Documents
[28] https://modgovuk.sharepoint.com/sites/defnet/HOCS/Documents2/JSP100_Part2.pdf
[29] JSP 534 Section 6.
[30] JSP 534 Section 6.

d. When discharge on medical grounds is likely, attendance on one of the Core Recovery Events (CREs) 2 or 3 may be appropriate. Hosted at the PRCs in Colchester, Edinburgh, Tidworth and Catterick[31], CRE 2 is a ten day course that focuses on employment and realistic vocational options whilst CRE 3 is a five day course designed for PRD who have been assessed as requiring extra support in transition to civilian life as a result of their injury or illness. These courses do not replace CTP and CTP (Assist), which should always be considered. Full details of CRE courses are at Annex 33E.

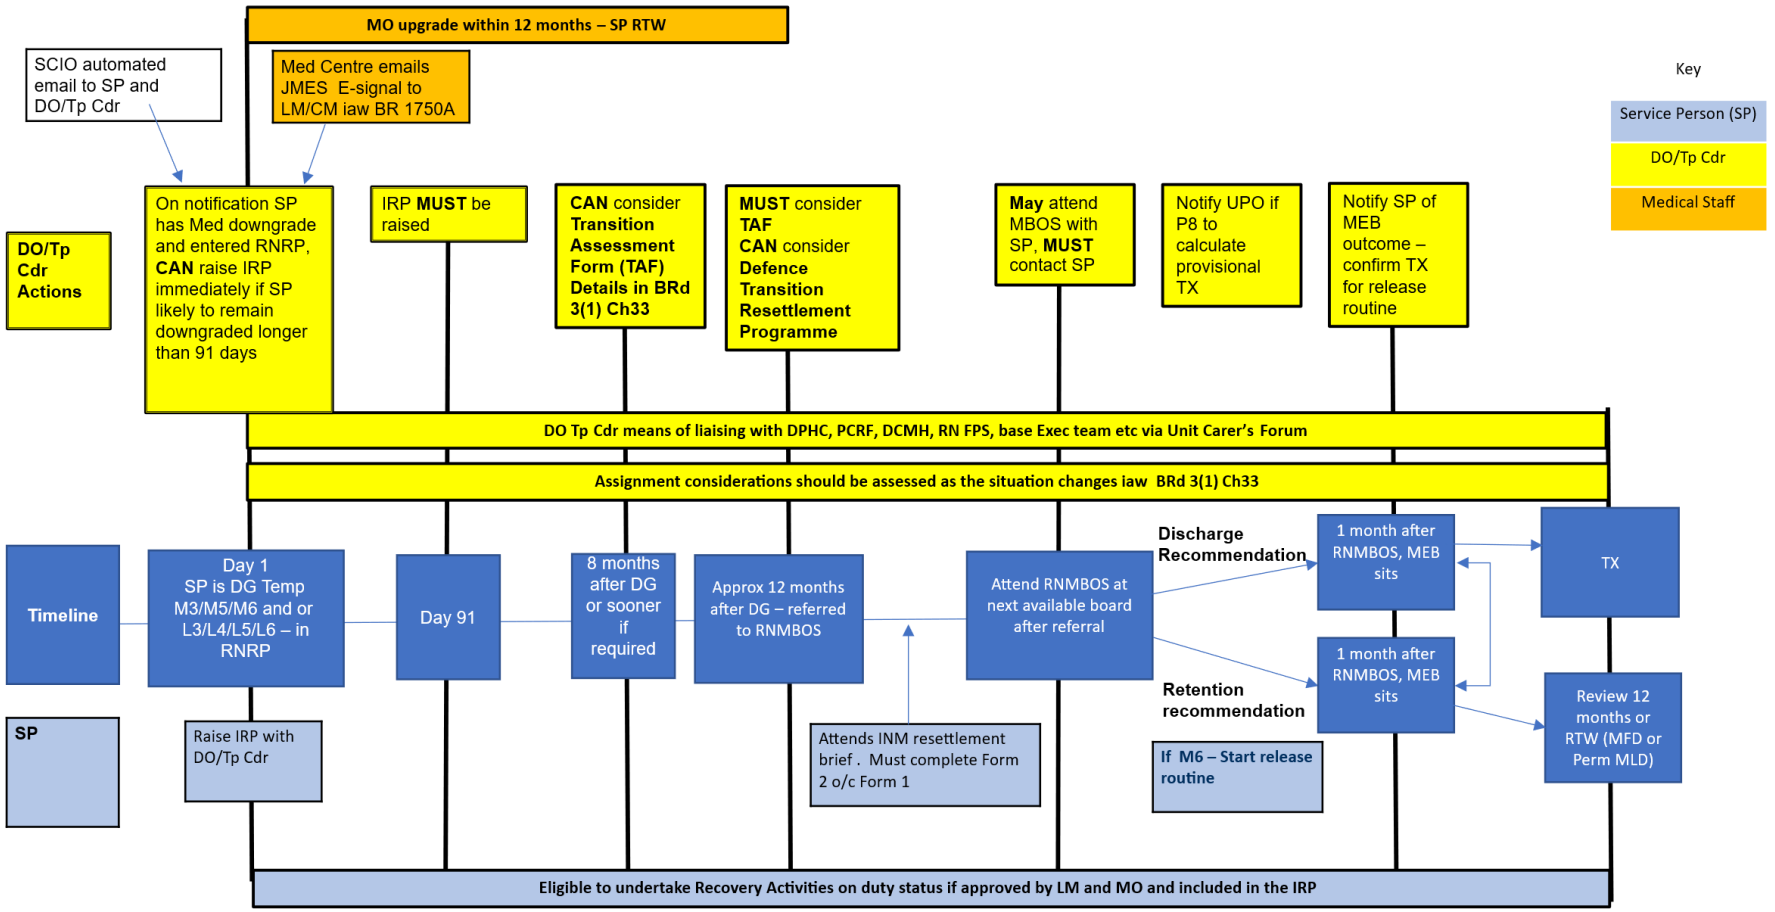
3323. Summary of RNRP Entitlement/Definitions

Cadre - all in RNRP i.e. Temp JMES M3/5/6 or L3/4/5/6	IRP	MA7A eligible	Recovery Activities
GTS	Yes	Yes	Yes
GTS U18	Yes	Yes	Under review
UTS	Yes	Yes with CO approval	Only PRD (i.e. in MA7A)
UTS U18	Yes	Yes with CO approval	Under review
FTRS	Yes	Yes	Yes - All (not just MA7A)
Mobilised Reservist	Yes	Yes	Yes
All other Reservists	Yes	No	No (unit to signpost other support resources)

[31] Course dates are published in DINs and on the ARC SharePoint site: https://modgovuk.sharepoint.com/teams/14540/Pers/ARC/ARC_Engagement_Portal/SitePages/ARC_Course_Applications.aspx

ANNEX 33A

ROYAL NAVY RECOVERY PATHWAY (RNRP) OVERVIEW



Note 1. The IRP can be raised from day 1 but must be raised by Day 91[1]. This is to ensure line management and SP are both aware and discussing the recovery pathway; for some, a full assessment may seem un-necessary but you are encouraged to review it to identify and mitigate any issues as early as possible.

Note 2. Whilst referral to RNMBOS may be a source of anxiety, understanding and preparing for all potential outcomes will mitigate this. The Medical Employment Standards Gateway contains useful information for both the SP and their line management MES Gateway (sharepoint.com)[2]. If a recommendation for medical discharge is possible, preparation is key to a smooth transition to civilian life. Resettlement can be accessed ahead of the RNMBOS and should be considered from 8 months after initial downgrade (or earlier if appropriate). More guidance is within JSP 534.

Note 3. Veterans Services provides ongoing support, guidance and information to service leavers and their families on issues that will endure beyond discharge. Veterans Services support is available irrespective of the reason for discharge and is available to regular, reservists and their families. Referrals into Veterans Services are made using the Defence Transition Referral Protocol (DTRP) detailed in JSP100. This can be made on behalf of the SP or family member by any responsible tri-service military authority, or by the individual SP or family themselves through self-referral. Integrated Personal Commissioning for Veterans (IPC4V) Framework is a personalised care approach for the small number of Armed Forces personnel who have complex and enduring physical, neurological and mental health conditions resulting from injury whilst in Service to ensure they are effectively cared for and supported as they transition to civilian life and beyond. Individuals who are eligible for IPC4V are proactively identified by medical staff while they are on the Defence Recovery Pathway. Further information is available in JSP 100[3] and JSP 661[4] Chapter 4.

Note 4. Preparation for, attendance at and post RNMBOS actions are explained in BR 1991 Chapter 8. The DO or Tp Cdr can use discretion as to whether the SP is accompanied to RNMBOS in conjunction with the SP's preference. Those attending in person will receive a letter on the day containing the Board's recommendations; this is to be given to the DO or Tp Cdr by the SP. Those considered in absentia will be contacted by phone and followed up with an email. The DO or Tp Cdr needs to take appropriate actions according to whether the person has been recommended for medical discharge or retention in accordance with article 0816 of BRd 1991.

Note 5. Individuals who have been recommended for medical discharge by the RNMBOS are to undertake their release routine and proceed on leave immediately following the RNMBOS in the expectation that the RNMEB will ratify the recommendation to medically discharge the individual in accordance with article 0826 of BRd 1991.

Note 6. Unit Case Conferences and N1 forums are to be convened in accordance with Annex 24B of BRd 3(1).

[1] The reason for this discretionary period is that some people will make a full recovery within 90 days and therefor do not need a full IRP.
[2] MES Gateway
[3] JSP 100 - Defence Holistic Transition Policy.
[4] JSP 661 - Health and Welbeing.

Note 7. Assignment considerations should be made throughout the time the SP is in the RNRP; it is dependent on many variables and guidance is within para 3306.

Note 8. Options available to the RN Medical Employability Board (MEB) are detailed in article 0821 of BRd 1991. One option is where the RNMEB is satisfied, on employability grounds, an individual can no longer be fully and gainfully employed within the JMES recommended for them by the RNMBOS. Where medical discharge is agreed or decided upon by the RNMEB, individuals will be expected to conduct their release routines immediately thereafter and commence leave.

Note 9. SP are eligible to undertake recovery activities from day one of the RNRP but only if the activity is agreed by Chain of Command, Medical Officer and it is recorded in the IRP. Information on recovery activities is available via the Recovery and Resilience Margins intranet site[5]. UTS personnel only eligible to undertake RN delivered recovery activities; access to Defence Recovery Activities subject to individual circumstances as approved by RRM HQ.

ANNEX 33C

ASSIGNMENT CONSIDERATIONS FOR PERSONNEL ON THE RNRP

1. When a Service Person (SP) enters the RNRP:

a. **Step 1 - JMES Change.** JMES change to Temp JMES L3, 4, 5 or 6 or M3, 5 or 6. As soon as a Service Person's (SP) JMES is changed by a Medical Officer (MO), regardless of how long this is expected to be, they should inform their LM. Formal notification will follow from DPHC (via various means dependant on location) and an automatic email notification will also be sent to the individual and LM. The SP and LM are to discuss the JMES and any medical limitations (MEDLIMs) to fully understand any personal and employment considerations that may be required immediately. Further guidance on JMES and MEDLIMS is in JSP 950. Take advice from your Medical Branch personnel as required.

b. **Step 2 - Employment Considerations.** The LM needs to consider the requirements of the role of the SP. There are no set criteria for remaining in role or not; the LM needs to consider the following (non-exhaustive list): the current JMES and MEDLIMs including the review date; the clinical pathway including most likely timelines; unit programme/operational output; individual's role and how much of it they can conduct; personal considerations etc. If it is reasonable for the SP to stay in their role, undertake a risk assessment as required and make reasonable adaptations to tasking and/or the environment. As the situation develops, re-assess this step and act accordingly, either continuing to support recovery in role or moving to Step 3 below.

c. **Step 3 - Assignment Considerations.** If the JMES review is in 3 months or longer and remaining in role is untenable for this or any other reason, the SP, LM and Career Manager (CM) are to discuss appropriate alternatives. For personnel with a Temp JMES of M6 for 3 months or more, strong consideration should be given for assignment to a Workforce Resilience and Training Margin (WRTM) organisation to minimise impact on the current unit and afford the SP optimal divisional support[1]. If there is a suitable Workforce Requirement driving position available, this should be considered before assignment to a medical margin (MA7A). If no alternative Workforce Requirement driving position is available, the LM, SP and CM are to discuss assignment to a medical margin within one of the following (WRTM) organisations:

(1) **PSGs in:** HMNB Devonport, Portsmouth and Clyde, RNAS Culdrose and Yeovilton.

(2) **RTs in:** 40, 42, 45 Cdo, CTCRM, CLR, and Hamworthy Barracks.

2. In determining which organisation is the most appropriate, LM and CM are to consider the following (non-exhaustive list):

a. Location of optimal clinical support (established clinical relationships, specialist support etc).

[1] Individual circumstances will always prevail but long term ill-health that prevents employment in any maritime environment (JMES M6) is usually best managed in a WRTM organisation.

b. Opportunities for temporary employment (e.g. RM employability in a Cdo unit, AET employability on an air station, SM employability onboard or shoreside etc).

c. Support network of SP (closest location of family and/or friends etc).

d. SP preference.

e. Potential long-term outcome (likelihood of returning to full Service or transition to civilian life - important to consider without assumption or prejudice).

f. Any reason not to assign to an area (assignment restrictions due to ongoing investigations etc.).

3. Once the most appropriate WRTM organisation is identified, the CM should discuss this and seek agreement with the relevant OC (or nominated representative at Annex 33B) and refer to the current RNTM for PSG/RT joining instructions. In all circumstances where a SP is assigned from their current role, a full divisional handover should be conducted to the new unit iaw BRd 3(1) 2113 and 2119 and consider the following:

a. An assignment to a medical margin will often be short notice and un-planned. LM should consider requirement for an SJAR/OJAR in accordance with JSP 752.

b. Summary of events preceding assignment if relevant.

c. Any ongoing administrative or disciplinary action (warnings, MAAs, MPAR, CW candidature, branch transfer applications ongoing, disciplinary investigations, assignment restrictions etc.).

d. Any other relevant issues either professional, domestic, or otherwise.

4. The CM is responsible for ensuring this decision is recorded in CM notes, to include names of LM and WRTM POC with whom the case was discussed and reason for the decision. No-one should be assigned to MA7A without prior agreement of the relevant organisation and without the SP’s knowledge.

Step 4 – Case Conference. In circumstances where the case is deemed clinically complex, significant, or agreement is not reached during LM/CM/WRTM OC discussions, the WRTM OC must raise it to SO1 RRM. SO1 RRM will then decide the most appropriate WRTM organisation medical margin and may consider convening a formal case conference for potential assignment to the RNRC Hasler at HMNB Devonport, which supports the most medically complex personnel within the RNRP. Cases where a case conference is required are to be referred to SO1 RRM using the format at Appendix 33C1 (editable version in BRd 3(1) forms section). The case conference will be convened, and outcome recorded by RRM HQ with CM notes also annotating the outcome (for both assignment to Hasler and circumstances where an alternative unit was agreed upon).

5. Ongoing Recovery Pathway Support. Regardless of assigned unit or location, the same level of support and opportunity is offered to all personnel in the RNRP. There are various considerations to be made at discreet stages but due to the individual nature of recovery, these may come at different times and to varying degrees. The Individual Recovery Plan (IRP) at Annex 33D (editable version found in forms section at the end of BRd 3(1)) is to be used by personnel within the RNRP to guide their own pathway and Line Managers/Divisional Officers and Troop Commanders are integral to this process. Recovery may mean living with a new normal, it may mean a new career pathway (either in or out the Service), it will invariably impact the family and/or support network of the person affected, and the Royal Navy is committed to enabling the best outcome possible.

6. This process stops at the point of establishing a person's assignment whilst they undergo recovery but can be revisited as and when the situation changes.

APPENDIX 1 TO ANNEX 33C

CASE CONFERENCE PROCESS – COMPLEX CASES

1. After following the Steps in Annex 33C, if a Case Conference (CC) is deemed appropriate, a request is to be submitted by the LM using the form below, to NAVY PEOPLE-PS RRM DIVS WO. A case conference will be convened at the earliest opportunity. The CC will be chaired by SO1 Recovery and Resilience Margins HQ or nominated representative.

2. The CC request should include the contact details of those personnel required to attend. As a minimum, the individual's clinical lead and DO/Tp Cdr are required to ensure the SP is properly represented. RRM HQ will facilitate the CC and send out meeting requests to the personnel identified on the CC request. The unit is required to notify the SP to determine if they wish to attend the CC (they will be included in the first part and asked to step away whilst further discussions are held).

3. To ensure the patient is appropriately represented, all facets of care (e.g. clinical welfare, physio, divisional, etc.) should attend the CC if possible. If key personnel are unable to attend the CC, they are to ensure that a suitably informed and empowered representative from the parent unit is available. In exceptional circumstances, where attendance in person is not possible, written evidence supporting the CC is to be forwarded to the RRM HQ in good time.

4. If a patient is under the care of DCMH, representation at CC is strongly recommended. Failing this, clinical staff must ensure that the DCMH recommendation for the patient's outcome and recovery needs is represented by a doctor at CC. Also, should DCMH recommend the re-assignment of a patient at CC, given the importance of such a recommendation, this must be included in Defence Medical Information Capability Programme (DMICP) notes.

5. The case conference will open with introductions on all attendees followed by the SP being invited to summarise their situation, sharing as much or as little as they wish. Attendees will be given the opportunity to ask questions of the SP before they leave. The format will then take clinical, professional and personal points into consideration dependant on the individual case. The final decision is made by SO1 RRM and this is to be recorded by CM and RRM HQ and conveyed to the SP by their LM as soon as possible after the CC. The current unit LM is to ensure the relevant CM is aware of the decision as soon as possible to arrange the Assignment Order to the relevant MA7A (iaw Annex 33B). The Workforce Resilience Training Margin (WRTM) organisation where the person is to be assigned is to arrange a handover/joining routine as soon as possible.

ROYAL NAVY RECOVERY CASE CONFERENCE REQUEST FORM

ROYAL NAVY RECOVERY CASE CONFERENCE REQUEST FORM
(Downloadable version available in BRd 3(1) Forms Section)

ANNEX 33D

INDIVIDUAL RECOVERY PLAN (IRP)

INDIVIDUAL RECOVERY PLAN (IRP) *(Downloadable version available in BRd 3(1) Forms Section)*

ANNEX 33E

CORE RECOVERY EVENTS AND THE RECOVERY ACTIVITIES PROGRAMME

1. Introduction

a. Recovery Events are available to all personnel on the RNRP and are designed to complement the clinical pathway and assist the Service Person in their recovery whilst in role, return to work, or transition to civilian life. The courses take place all over the country and aim to be as broad and inclusive as possible. They are delivered via the Defence Recovery Centres, by external providers (commissioned and/or assured by the RRM HQ) or other in-Service providers.

b. All RN SP on the RNRP are to have an Individual Recovery Plan (IRP) from at least day 90 of meeting the entry criteria which synchronises and schedules activities appropriate to an individual's recovery; it should record the progression of an individual towards their recovery goal/outcome as well as providing a diary of recovery activities. Recovery activities form a key part of the IRP and eligible personnel are to be encouraged to engage. No activities are mandatory however once agreed in an IRP, it is a duty to attend.

2. Suitability

Before any recovery activity/event is commenced, agreement with CoC is required to ensure activity/course is suitable in accordance with the SP JMES codes and any other competing factors. SP and their DO/LM should aim for a reasonable balance, particularly for those personnel with a Temp JMES of M5 or above who are able to complete tasking/undertake a role in the Maritime Environment.

3. Recovery Activities Programme

Adaptive sport, wellbeing activities, vocational experiences and activity-based recovery courses are available. A full list of courses available can be found at RN Recovery Programme[1]. Individuals on the RNRP are encouraged to tailor their IRP according to their personal preferences and needs in discussion with their DO/LM. As a guide however, the following Core Recovery Events (CREs) are summarised for consideration at key stages of the Recovery Pathway:

a. **Recovery Foundation.** The Foundation Course is a one-week introduction to the Recovery Pathway. It establishes early understanding, assesses needs, and supports initial wellbeing and resilience. Personnel who wish to gain a greater insight into how to design and manage their own recovery would benefit most from attending this course. More information is available online[2].

[1] https://modgovuk.sharepoint.com/teams/62286/SitePages/Recovery-Courses.aspx?csf=1&web=1&e=sTqROO%20
[2]https://modgovuk.sharepoint.com/:w:/r/teams/62286/_layouts/15/Doc.aspx?sourcedoc=%7BEF0E371D-068D-4A72-9DB5-64E5FDFE901B%7D&file=20250609-PRC_Tidworth_Foundation_JIs_V4.doc&action=default&mobileredirect=true

b. **Recovery Transition.** This 10-day CRE prepares personnel on the RNRP for transition from military to civilian life and focuses on employment while examining realistic vocational options. Personnel must be registered for Resettlement and have completed a Resettlement Advisory Brief (RAB) prior to attendance. Core modules include career planning, financial management, housing, and vocational preparation. Attendance is especially recommended for SP lacking clarity in future career, housing or financial planning. More information can be found online[3]. Personnel are entitled to access resettlement ahead of attendance at an RNMBOS; Annex 33G details the application process including consideration of additional support via a Specialist Employment Consultant for those facing significant barrier to future employment.

c. **CTW+.** This CRE is an alternative to the regular Career Transition Workshop (CTW) available during Resettlement. This five-day course is aimed at those personnel with significant barriers to employment and who are in need of additional support.

4. Recovery Managers

For any queries on what recovery activities may suitable, when to undertake them, how to access them or any other query, personnel in the RNRP or their DO/LM can contact one of the Naval Base PSG Recovery Managers for guidance and advice NAVYPEOPLE-PSRECOVERYPROG@mod.gov.uk.

ANNEX 33F

PARTICIPATION IN CORE RECOVERY EVENTS AND ACTIVITIES

References:

A. JSP 765 - Armed Forces Compensation Scheme
B. JSP 661 – Health and Wellbeing
C. BRd 2 – The King's Regulations for the Royal Navy

1. Introduction. Participation in Core Recovery Events (CRE) and Royal Navy Recovery Activities is central to the RN's commitment to holistic recovery. These activities offer meaningful support to those recovering from injury or illness, and are integral to the development of resilience, psychological wellbeing, and social integration.

2. Scope and Purpose. This annex outlines eligibility and administrative provisions for RN personnel taking part in Recovery Activities endorsed by the Recovery and Resilience Margins HQ (RRM HQ). It reinforces the entitlement to duty status and duty travel and provides guidance on the roles of the parent unit in supporting attendance.

3. Recovery Activities

a. Recovery Activities are coordinated by the RRM HQ and Defence Recovery Capability. These activities are distinct from recreational or sporting events. Their primary aim is to support the SP recovery journey, in accordance with the individual's Recovery Plan and clinical guidance.

b. Activities are designed to be as inclusive and accessible as possible for all personnel on the Recovery Pathway; best efforts will be made for individual needs and adaptations required but cannot be guaranteed for all activities.

4. Eligibility

a. The following personnel are eligible to undertake Recovery Activities:

(1) Regular GTS personnel who meet the entry criteria for the RNRP i.e. TEMP JMES M3/5/6 or L3/4/5/6, regardless of assignment are eligible to undertake both RN and Defence delivered Recovery Activities.

(2) Regular UTS personnel who meet the entry criteria for the RNRP [AS1]and are assigned to the medical margin with a WRTM organisation (PSG, RT or RNRC Hasler) are entitled to undertake RN delivered Recovery Activities only. They are not eligible to undertake Defence Recovery Capability delivered Core Recovery Events (CRE) or other activities delivered at the Personnel Recovery Centres (PRCs). If a DO believes exceptional consideration should be made for a UTS SP[AS2], application is to be made to SO1 RRM.

(3) For Reservists, only personnel who meet the entry criteria for the RNRP and undertaking an FTRS commitment or are currently mobilised, are eligible to undertake Recovery Activities. Non mobilised reservists are not eligible to attend recovery activities. They should contact their parent unit for alternative support.

(4) Both GTS and UTS personnel that are U18 who meet the relevant criteria may also attend RN-delivered recovery activities. However, attendance is subject to the activity provider meeting the required assurance standards. U18 personnel must seek advice from their Recovery Manager to understand which activities are appropriate and available to them.

b. Personnel remain eligible to participate in Recovery Activities until they are no longer in the RNRP i.e. they are fully medically upgraded and return to work, they are given a permanent JMES and return to work or they leave the Service.

c. Participation must be supported by:

(1) The Individual's Recovery Plan (IRP)

(2) Approval from the Divisional Officer/Troop Commander

(3) Confirmation that participation is clinically appropriate.

5. Administrative and Travel Entitlements

a. Personnel participating in Recovery Activities endorsed and organised by the RRM HQ are considered on duty for the duration of the course in accordance with BRd2 Ch 87 Annex 87A 1.

b. The nature and scope of Recovery Activities means it is impossible to articulate every scenario that may lead to a SP being considered 'Off Duty' whilst undertaking an RRM HQ endorsed activity. In general, 'On Duty' status covers the travel to, from and between authorised activity, the recognised activity itself and the administrative tasks directly related to that activity. For example, but not limited to: cleaning or preparing kit and equipment, shopping for rations and attending planning meetings. Social events and leave will routinely be considered as periods of 'Off Duty'. However, it is recognised that some Activities may require in-country acclimatisation or rest days/hours between periods of specific activity. These should be captured within the Admin Instructions and would be considered 'On Duty'. The Admin Instruction does not require an hour-by-hour breakdown but must contain sufficient detail for participants, and the approval authorities, to clearly understand which occasions are considered to be 'Off Duty'. When briefing participants, they should be reminded that duty status is not determinative of liability in common law. As such their individual actions or behaviours, whether they are deemed as 'On' or 'Off duty', would be taken into consideration in the event of any compensatory or liability claim and, while it cannot be mandated, they are strongly advised to ensure they have adequate personal insurance for the duration of the Recovery Activity.

c. In accordance with JSP 752, Chapters 05 and Chapter 06, Sections 7 - 10, eligible personnel are entitled to claim duty travel when attending an authorised Recovery Activity. The specific entitlements applicable will be promulgated via the relevant administrative instruction.

d. Permitted claims include:

(1) **Travel.** Travel at public expense from the individual's Permanent Duty Station (PDS) or Registered Residence to and from the location of the Recovery Activity within the UK.

(2) **Subsistence Allowance.** When accommodated in commercial hotel facilities within the UK or overseas, personnel are eligible to claim subsistence in accordance with the rates and limitations set out in JSP 752.

(3) **Cash in Lieu of Rations (CILOR).** May be claimed where self-catering accommodation is provided, and Service messing is not available or not appropriate.

e. The cost of travel and subsistence for participation in Recovery Activities is to be met by the participant's parent unit using the appropriate Unit Identification Number (UIN). Where the parent unit is unable to meet these costs within existing resources, a request for additional funding is to be submitted to Navy Finance (Navy FD-Fin Fleet Liaison) for a TDTS Budget uplift.

f. If attending a Recovery Activity as a staff member to enable delivery or conduct assurance on behalf of the RRM HQ, you are entitled to claim T+S using the RRM HQ UIN N6030K.

6. Governance and Record Keeping

a. All Recovery Activity attendance must be documented within the individual's Recovery Plan and noted by their Divisional Officer or equivalent.

b. Personnel are to ensure that a Budget Control Form (BCF) is completed and submitted to their Unit Pay Office (UPO) prior to undertaking any duty travel.

c. The effectiveness and appropriateness of Recovery Activities should be regularly reviewed as part of the individual's Recovery Plan and, where applicable, discussed at case conferences or board reviews (e.g. RNMBOS).

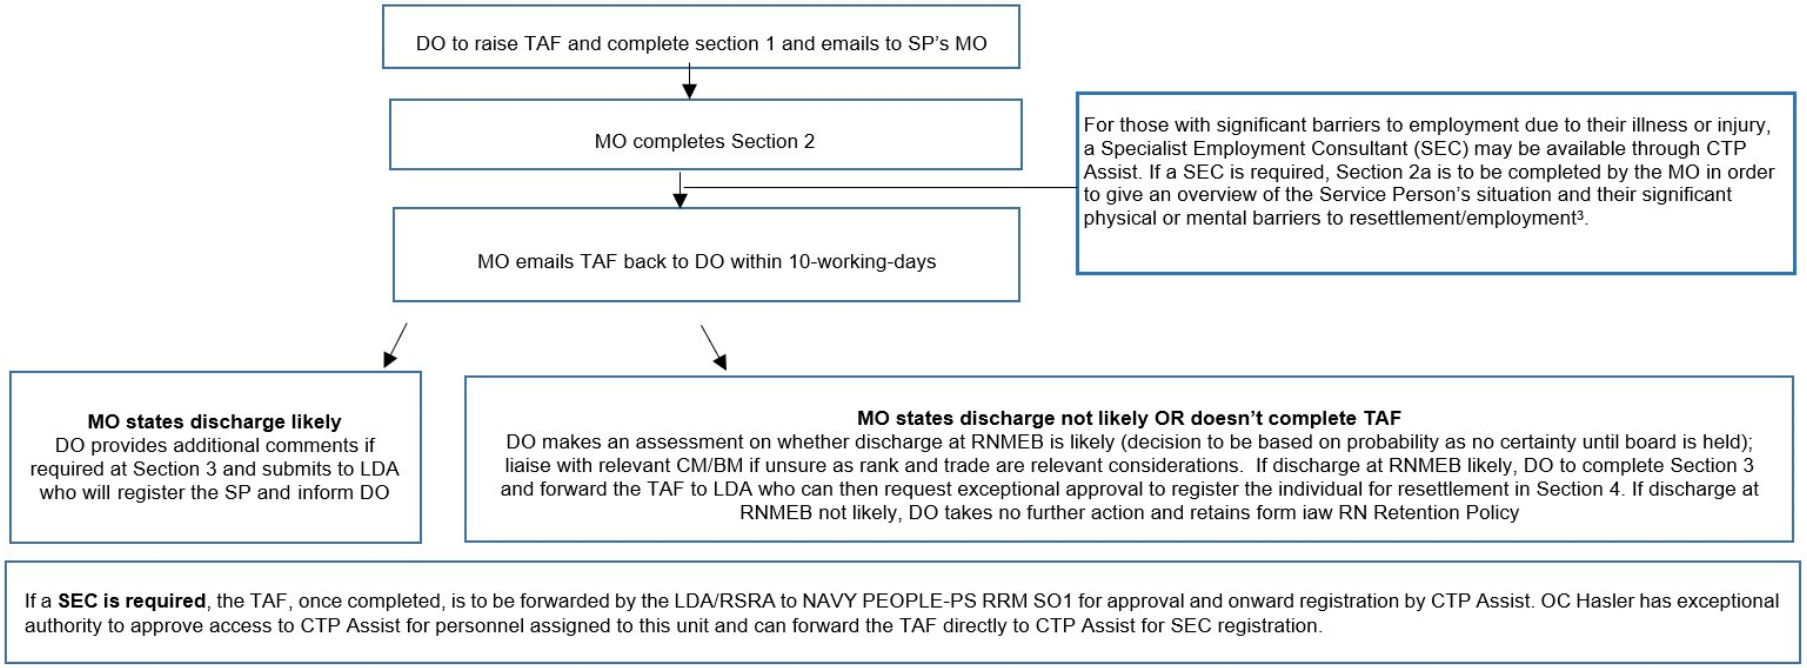
ANNEX 33G

TRANSITION ASSESSMENT FORM

TRANSITION ASSESSMENT FORM *(Downloadable version available in BRd 3(1) Forms Section)*

A Transition Assessment is to be completed for ALL personnel prior to their attendance at RNMBOS[1]. The process is outlined below[3].

Figure 33G-1. RNMBOS Process



[1] The TAF can be raised prior to the MO referral to RNMBOS if DO/Tp Comd deem it appropriate and in the individual's best interests or at the point of referral to RNMBOS. Rank/trade/nature of condition etc to be considered by the DO/Tp Comd in assessing the appropriate time for registration.
[3] When compiling the TAF, only information sufficient to inform a resettlement assessment is to be included noting Caldicott Principles and the Data Protection Act (DPA).

CHAPTER 34

THE MANAGEMENT OF OPERATIONAL STRESS FOR MEMBERS OF THE ROYAL NAVY AND ROYAL FLEET AUXILIARY (RFA)

3401. Introduction

In late 2007, the Second Sea Lord approved a policy to govern the management of post-operational stress for members of the Royal Navy and the Royal Fleet Auxiliary. This Article details the policy and procedures for delivering Operational Stress Management (OSM) which aims to ensure that Naval Personnel returning from operations receive appropriate and coherent operational stress management, aiming for those with symptoms of operational stress to minimise impact and encouraging early return to well-being.

3402. Background

a. The Royal Navy OSM policy recognises the many and various ways of serving on operations, and the increasing role that its people play in support of operations. The Royal Navy has not only a military and moral imperative, but also a legal duty[1] to protect the health, safety and welfare of all of its employees, military and civilian, from the risks arising from Operational Stress. For the Royal Navy, as with the other Services, the psychological welfare of its personnel is core business and a critically important aspect of the enduring obligation to its people which must be considered before, during and after operations.

b. Operational stress is part of the continuum of occupational stress for which further guidance is contained in JSP 661 Sec 3. MOD's operational stress management policy provides the framework for the development of single Service policies on operational stress management based on six steps beginning with recruitment and ending with discharge[2]. The principles and requirement underpinning the need for an OSM policy is outlined at Annex 34A.

3403. Applicability

OSM applies to all members of the Royal Navy and the Royal Fleet Auxiliary (the precise mechanics of delivery to the latter are promulgated separately by (NAVY PEOPLE-RFA OPS Hd). The policy recognises that, in addition to RN/RM deployment patterns, Naval personnel may also deploy on operations as Individual Augmentees (IA) or as members of Joint, Army or RAF formed units (FU). In addition, they may routinely visit operational theatres in the course of their duties whilst working with other MOD organisations or Government departments; in these instances the delivery of OSM is to be consistent with the principles and procedures outlined in this policy.

[1] The Management of Health and Safety at Work Regulations 1999 and The Health and Safety at Work etc Act 1974.
[2] The Six Steps are: 1 - Pre-service entry beliefs and attitudes (countering negative attitudes towards mental ill health in the minds of potential recruits); 2 - In service training and promotion courses for career development (stress management education and training); 3 - Pre-deployment (preparing individuals to recognise the symptoms of stress in themselves and others, how to confront the issues they will face on operational duty and the support mechanisms available); 4 - Operational deployment; 5 - Post operational recovery; and 6 - Following Discharge from the Armed Forces.

3404. Policy Framework

a. OSM policy requires the implementation, delivery and sustainment of a six stage support process. The specific guidance and direction for each stage is contained in the appropriate Annex to this Chapter.

b. **Stage 1: Pre- Deployment Training.** See Annex 34B. This stage consists of appropriate briefings, the training of Trauma Risk Management Teams (TRiM Teams) (see Annex 34H) and realistic resilience training. This training takes place within the ship or unit lines and can be augmented by realistic field/training exercises.

c. **Stage 2: Operational Support.** See Annex 34C. In this stage, ships or units will utilise their TRiM Teams, Field Mental Health Teams, other Defence Medical Services and other support agencies as appropriate. Their task is to support personnel in an operational theatre to ensure that they receive commensurate levels of support.

d. **Stage 3: Decompression.** See Annex 34D. Decompression (DcN) routinely involves taking units out of an operational zone to a safe but controlled, neutral environment for a short period of time. The aim is to ease the transition from a high tempo operational situation to a barracks or domestic environment. Decompression is currently recognised as a group activity. These are people who have jointly shared common operational experiences.

(1) However, it has become recognised that a more standardised support is required for IAs. The DcN package is a very effective opportunity for personnel to take stock in a safe environment and commence dealing with the potential issues associated with returning home after a significant deployment. In short, it is an effective facilitator to normalisation.

(2) For seagoing units, DcN will take place in line with established custom and practice during the passage home from the area of operations prior to arrival in the UK. On arrival at their home port, personnel can begin winding down and rehabilitating to a normal, routine, peace-time environment.

e. **Stage 4: Normalisation.** See Annex 34E. ‘Normalisation’ consists of the actions to be taken on return to the home base and concludes on return from Post Operational Leave (POL) or sea-goers leave (SGL). Prior to proceeding on leave, a series of operation specific activities can be planned and executed. Activities included in this period may be varied, but can include Families Day, medal parades, Unit BBQ’s and memorial services. For FUs, the responsibility for normalisation rests with the Commanding Officer and supporting chain of command. For IAs (Regular and Reservist) **the individual**, Career Managers, the RN Mounting Centre and Commanding Officers (donor, in-theatre and receiving) all have an important role to play.

f. **Stage 5: In-Service Support.** See Annex 34F. On return from leave, it is important that the chain of command has the opportunity to normalise and carry out any administrative/logistic tasks, including G1/N1 actions. It also permits the chain of command to carry out interviews (see Appendix 34F-2) with all unit personnel. The Regimental/Divisional Discussion (see Annex 34F Appendix 1) allows individuals to raise any issues that may have arisen during the leave period. The discussion will also touch other subjects such as returning to work, future plans and intentions etc. The 'Discussion' is not to be viewed as part of a 'screening' process but as a reasonable and sensible management action[3] for personnel returning from leave following an operational deployment.

g. **Stage 6: Aftercare.** See Annex 34G. In-Service Support deals with care for the individual for the remainder of their time in the service, whereas 'Aftercare' begins on completion of regular or Reserve Service and is primarily delivered by the NHS.

3405. Personnel Issues and Groupings

The nature and variety of the differing conditions of service coupled to the diversity of military operations render a 'one size fits all' approach impossible. Although, in principle, the same process is to be applied to all, on occasions a bespoke response may need to be applied. A group where this may be required is with Reservists. They, unlike their regular counterparts, do not return from operations to a sustained military environment in which the discussion and airing of issues is encouraged. Once they have returned to their parent unit they may not be well placed to receive support from other colleagues who may have similar experiences. Similarly, IAs may face similar challenges and encounter feelings of isolation when returning to a non-deploying unit. The methodology of how differing groups engage with OSM is detailed below.

a. **Regular Personnel**

(1) **Formed Unit on a Full Tour/Deployment**. This group represents the bulk of deployed personnel. All the elements of OSM are delivered by the normal chain of command.

(2) **Elements of a Formed Unit on a Sustained Roulement**. Groups of personnel who undertake frequent, but often shorter operational tours e.g. individual flights from Naval Air Squadrons returning from Operations or Naval platforms with rotational crews. These groups may receive a bespoke package from trained in-house OSM Facilitators.

(3) **Individuals in a Formed Unit not Completing a Full Tour.** Individuals who do not complete a full deployment with their ships or units (or members of headquarters or battle staffs) due to being re-assigned, or returned to UK on rotation, for career courses or compassionate leave - should be clearly identified and, once the move is confirmed, their gaining unit engaged to ensure that the wider requirements of OSM are recognised, and in particular that the Stage 4 'the Regimental/Divisional Interview' takes place. Other groups involved in this process will be the Waterfront, RM Rear Parties and in-house OSM Facilitators.

[3] IAW Health and Safety Act 1974 and Leaflet 25 to Annex D, Vol 2, JSP375

(4) **Individual Reinforcements/Augmentees.** Personnel assigned to an operational tour away from their parent unit, subsequently returning to that unit may need additional consideration by the donor and recipient unit. This could consist of going through the DcN process and they should be engaged in a Regimental/Divisional Interview' on their return from POL. Challenges for the gaining units are that the individual being new to the unit the chain of command is not well placed to make before and after deployment comparisons or recognise subsequent mood swings, different behaviour patterns etc. For people in this grouping, additional monitoring may be required.

b. **Reservist Personnel**

(1) For a variety of valid reasons, Reservist personnel have the potential to represent a greater challenge than their Regular counterparts. They can feel isolated and not feel part of the 'team'. Their civilian work-mates or family members may not be interested in their experiences or feelings, and the people, with whom they shared their lives over recent months may now feel very far away.

(2) **Reservist Formed Unit.** Although not strictly relevant to the RNR or RMR, a formed unit returning following a full tour/deployment is perhaps the simplest of Reservist groups to cater for. In these instances, all factors of OSM (decompression, normalisation, 'The Regimental/Divisional Interview') are delivered by the normal chain of command. For Reservists who return with a Commando Unit, their dismounting process will normally take place at the Reserves Training and Mounting Centre (RTMC) at Chilwell, near Nottingham.

(3) **Reservist Individual Augmentees (IA).** Reservist IAs may have served in a formed unit, but for a variety of reasons have not completed a full tour. This cohort may encounter a number of emotional challenges.

(4) **Re-Assimilating into Civilian Life.** Reservists may face an additional burden to carry as they attempt to re-assimilate into the home and civilian work environment. The experience of reintegration with their employers and co-workers can be more challenging than that which may be encountered by their Regular counterparts. These could be:

(a) Considering what to say to co-workers - what level of information they can safely impart.

(b) Finding an appropriate person to speak to – who can they trust to hold confidences and provide sound advice.

(c) Coming home to no job – being rejected in their subsequent job search can intensify the emotional challenges that they have to deal with.

(5) **Returning To Former Employment.** When Reservists are de-mobilised and about to return to their former regular civilian employment, consideration should be given to providing support and advice[4] to the employer who will need to understand the potential after-effects that an operational deployment may generate within an individual. Support for employers can be supplied by the NCHQ OSM Cell who can provide booklets and/or practical advice.

c. **Other Service Personnel.** A number of other categories of returning personnel that could require special consideration are:

(1) AEROMED.

(2) Long-term compassionate cases.

(3) Disciplinary cases.

(4) Other unplanned short-notice returns to UK.

In working with the groups listed at Stage 3 - Decompression and Stage 4 - Normalisation, the protocols outlined for dealing with IAs should be followed for 'Reservists' and 'Other Service Personnel'. However, these measures are not exhaustive and consideration should be given to introducing other supporting measures for returning troops.

d. **Families.** Once an individual returns from the operational environment, close contact with the unit developed on operations may diminish or cease entirely. It is the individual's family that is likely to notice any changes and therefore vital that family members (wives, spouses, partners and parents) are engaged with the OSM process. In addition, Royal Navy forum provides a wide range of advice for families who wish to become better informed regarding potential issues that may be encountered when an individual returns from deployment.

3406. Tracking Personnel through the OSM Process

a. Annex 34F Appendix 3 is a simple proforma which can be reproduced locally for [5] all personnel deployed on operations. The form is designed to assist in the tracking and recording of the various stages of the OSM process. It is not designed to contain clinical information but as a management tool to verify the receipt of OSM and assist the Command in assessing the risk or likelihood of subsequent trauma. Given sufficient attention they should help ensure that those who may be considered to be at higher risk are proactively monitored and supported by their superiors.

[4] Rights and responsibilities for reservists and employers (www.link).
[5] COs of deployed formed units/sub-units are to raise records on those under their command during the latter stages of the deployment. For FUs and IAs, use App3 to Annex 34F. The RNMC will brief OSM to IAs and ensure that they engage and understand the Regimental/Divisional process on their return to unit.

b. JPA provides a means to record basic details (date, place etc.) of key Operational Stress Management (OSM) interventions for all Service Personnel deployed on operations6. JPA is only to be used to record OSM interventions for Royal Navy personnel deploying on operations for periods of one months or more. Procedures are to be established in formed units which facilitate the accurate capture, reporting to unit HR staffs and recording by them of OSM information. The RNMC is responsible for initiating JPA OSM records for Individual Augmentees and is to conduct a check, during their attendance at the online Dismounting Course, to ensure that OSM records (both JPA and the manuscript record at Annex 34G) have been compiled for returning IAs. JPA records OSM interventions for each deployment and does not permit a new OSM record to be initiated until the 'The Regimental/Divisional Interview' (see Annex 34F Appendix 1) for an 'open' deployment has been recorded and the record closed. Recording of OSM events on JPA does not negate the requirement at Para 3406 sub para a. to complete manuscript records of Operational Stress Management received.

3407. OSM Policy Summary

a. Commanding Officers, whether commanding on operations or the recipients of personnel recently returned from operations, have a vital role to play in implementing RN OSM policy; likewise, the chain of command has a responsibility to ensure that the OSM needs of Commanding Officers are not overlooked. The policy and procedures have been made as straightforward and unambiguous as possible in order that OSM can be considered prior to deployment7, rather than becoming an afterthought, and the process of dealing with Naval personnel following operations becomes second nature. The key to success lies within the Divisional and Regimental systems and, for the increasing number of Individual Augmentees, requires active engagement by Career Managers, RNMC and receiving Commanding Officers. Successful OSM requires the Command at all levels to be actively watchful of their people and ensure that individuals and families receive appropriate information about reactions to stress (what is normal or natural and what is not), what to do initially (peer support) and what to do if these reactions do not settle (where to seek support and how to access it).

b. OSM fulfils a crucial part of the Royal Navy's obligation as an employer in respect of health and safety but it is no substitute for good leadership which, if exercised before and during operations, will help to minimise the risk that post operational stress will affect its people. OSM is designed to ensure that members of the Royal Navy and RFA undergo a coherent post operational stress package, commencing during the final phase of their deployment and extending throughout the remainder of their service and into retirement. It is mandatory that the process is followed but it is necessarily risk-based and made deliberately flexible to enable the chain of command to tailor the policy to the circumstances of individuals, the nature of the operation and the stressors to which they have been exposed.

[6] More detailed information/desk instructions are contained in the JPA Business Process Guide Move and Track – Operational Stress Management.
[7] Commanding Officers are encouraged to include details of the OSM process in the 'Returning Home' section of any ship/unit deployment guide produced ahead of an operational deployment.

3408. Support to Service Witnesses at a Coroner's Inquest

a. HM Coroners within England, Wales and Northern Ireland investigate all unnatural deaths falling within their jurisdiction. In the case of UK citizens this requirement extends to deaths that occur abroad when the deceased has been repatriated to England, Wales or Northern Ireland. This includes members of the Armed Forces regardless of whether or not the death occurred on operations. The Coroner may decide to hold a formal inquest and, depending on the circumstances of the case, will call such witnesses as they see fit. These may be expert witnesses, who can deal with the technical aspects of the death, or they can be witnesses to fact – the people who saw what happened. This latter group can find the process of giving testimony in open court a very difficult experience as it requires the witness to relive in some detail what will inevitably have been a very traumatic experience.

b. In order to support and assist these witnesses, NCHQ will provide Coroner's Witness Support Officers (CWSO) drawn from uniformed personnel employed in the Operational Stress Management (OSM) Cell. Their role is to provide support to all Royal Navy witnesses before, during and after the inquest for the potential emotional and psychological effects of the experience of giving evidence. The CWSO is to ensure that the witness is fully briefed on the procedure for the hearing and the potential aftermath of the experience of giving evidence. The CWSO is to ensure that the witness is fully briefed on the procedure for the hearing and the potential aftermath of the experience of giving evidence. They will assist the Defence Inquest Unit (DIU) in preparation for the hearing, and then attend in person to offer direct support throughout the hearing. The CWSO is not an official representative of the Service or of the Department to the court and is not to coach a witness on the content or nature of their evidence.

c. When requested by the Visiting Officer or the DIU representative, the CWSO may give support to bereaved Service families or to other witnesses. In certain circumstances, the CWSO may be augmented by members of the Divisional and Regimental Support Team.

ANNEX 34A

OSM - PRINCIPLES AND REQUIREMENT

1. Occupational Workplace Stress

The MOD definition includes the concept that stress occurs when pressures on an individual accumulate to such an extent that they can no longer cope. The following has been endorsed as a definition of operational stress that recognises that any pressure, challenge or threat is a potential stressor on the individual and acknowledges that all people are subject to it:

> *"An individual or group reaction to stressors relating to the operational context, which, if not managed, may result in impaired performance and possible effects on health."*

2. OSM Policy

To meet this obligation for those deployed on operations whether in the UK or overseas, the MOD owns the overall OSM policy, JSP 661 Section 3. A policy, incorporating a framework in which OSM is to be delivered, is necessary to ensure consistency of application (formalised procedure) and raise overall awareness of operations-related stress management which, within the MOD six step[1] overarching stress management policy (see footnote 3), commences at the end of Stage 4 (Operational Deployment) and continues through post-operational recovery to eventual discharge from the Service. OSM policy needs to reinforce the message that:

a. Stress reactions are a natural consequence of military operations and all individuals, regardless of rank, age or gender, are susceptible; and

b. Most stress reactions are entirely normal and manageable, particularly with the correct degree of support from superiors, peers and families.

3. Command

For many Naval personnel, participation in operations does not result in significant after-effects, indeed for many it is a positive experience; however there are those for whom such experiences are detrimental due to exposure to acute traumatic pressure and resultant post-traumatic distress. Commanders at all levels must make every effort to limit the potential for those under their command suffering psychological problems as the result of operations. The onus for identifying vulnerable individuals rests with the chain of command whose familiarity with their personnel makes them best placed to identify the early signs of stress.

[1] The six steps are: 1 - Pre-service entry beliefs and attitudes (countering negative attitudes towards mental ill health in the minds of potential recruits); 2 - In service training and promotion courses for career development (stress management education and training); 3 - Pre-deployment (preparing individuals to recognise the symptoms of stress in themselves and others, how to confront the issues they will face on operational duty and the support mechanisms available; 4 - Operational Deployment; 5 – Post-operational Recovery; and 6 - Following discharge from the Armed Forces.

4. Successful OSM

a. Due to the changing character of conflict, there may be occasions where Defence personnel are operating in direct support of an overseas operation but delivering their effect from within the UK or, transiting regularly to and from the area of operations. On these occasions, the delivery of OSM lies with the individual's parent / donor unit to ensure the appropriate support is given. The key to successful OSM lies in awareness; the individual, families, colleagues and the chain of command all need to be alert to the signs of stress and unhealthy maladaptive symptoms, so that early intervention can lessen the risk of subsequent problems (which can include clinical disorders, disciplinary and social problems and poor work performance). **Recording of OSM activity is mandated and auditable.** OSM procedures are generic for all theatres however; the Command must have the flexibility to adapt them for the needs of any particular operation. Wherever possible, the aim is to deliver the same level of support to all personnel whilst recognising their differing circumstances and allowing for certain elements to be discretionary depending on the level and intensity of operational activity and resultant exposure to stressors. Providing Commanding Officers and all those in positions of authority over Naval personnel are given a framework of action to be taken and the necessary support, adherence should deliver effective personal support to all individuals returning from operational deployments whether UK based or overseas. Due to the changing character of conflict, there may be occasions where Naval personnel are operating in direct support of an overseas operation but delivering their effect from within the UK or, transiting regularly to and from the area of operations. On these occasions, the delivery of OSM lies with the individual's parent / donor unit to ensure the appropriate support is given.

b. Strong and effective leadership, good communication and training are also fundamental to the prevention and management of operational stress and, this is why OSM is primarily an executive and not a medical responsibility. When implementing this policy, it is vital that an expectation of symptoms of stress or disability or a culture of disability is not instilled in individuals. The briefing of individuals prior to deployment[2] and on return, either individually or as part of a group, is of fundamental importance[3], as is open discussion on issues arising from operational experiences and dealing with any issues arising in a timely and professional manner. Commanding Officers are to refer to or liaise with medical authorities at an early stage if there is any concern about an individual's well-being. Medical intervention is always required when symptoms are prolonged or severe doubt exists over the mental health of an individual.

[2] Knowing exactly when and where they are going, what they are likely to be doing, the perceived threat level, the environmental and cultural conditions to be encountered and the measures in place to support them and their families' welfare will positively affect an individual's outlook prior to deployment.

[3] And is already established policy for Medical Staffs in accordance with Surgeon General's Policy Letter (SGPL) 03/06 issued 20 Jan 06 *"The Prevention and Management of Traumatic Stress Related Disorders in Armed Forces Personnel Deployed on Operations"*

c. Families, and where applicable civilian employers, must be fully engaged throughout the OSM process. The Royal Navy's corporate responsibility for the psychological welfare of its people in the lead up to, during and after any operational deployment is relatively easy to discharge and monitor in the close confines of a 24 hour operational environment but once an individual returns from operations close contact will inevitably diminish and it will often be family members who will be the first to notice changes. This can be particularly relevant when an individual returns from operations and is re-assigned to another unit to the one they deployed with or from.

ANNEX 34B

OSM STAGE 1 - PRE-DEPLOYMENT TRAINING

1. Training

Training is implemented when a unit or an individual is preparing for an operational deployment[1]. All pre-operational preparation that provides realistic training (specified to the operation, likely tasks and hazards), builds cohesion and trust in the leadership, is good for stress management and resilience.

2. TRiM

The current stress management tool is Trauma Risk Management (TRiM), which has been developed in UK Armed Forces and has been used over many years. Level 4 (TRiM) training can provide sub-units with a pool of TRiM practitioners and team leaders. **In-house continuation training must be delivered to all members of the deploying unit by its own TRiM trained personnel, supported by the NCHQ TRiM Team.** TRiM training course dates and locations can be accessed by typing 'T' for TRiM in the Royal Navy A to Z Intranet Page or by contacting Mil: 9380 28021 or Civ: 02392 573021 or email: NAVYNPS-PEOPLESPTOSMMAILBOX@mod.gov.uk

3. OSM Briefing

Prior to deployment, all personnel should receive a pre-deployment OSM Brief. The briefing should be delivered by a TRiM Manager or TRiM Team Leader[2].

4. Augmentees and Reservists

Individual Pre Deployment Training is **mandatory** for all Individual Augmentees (IAs) deploying to operational theatres. Care must be taken to ensure that all IAs and Reservists receive pre-deployment training and that their families receive the same levels of support. Global (RN) Pre-Deployment Training is delivered by the RN Pre-Deployment Training and Mounting Centre[3].

---

[1] And is already established policy for Medical Staffs in accordance with JSP 950: Medical Policy - Volume 2: Clinical Policy - Chapter 7: Mental Health - Part 1 Lft 2-7-1 (v1.1 Jul 10) Mental Health and Wellbeing Briefing Before During and After Deployment.
[2] TRiM Managers are normally Executive Warrant Officers (EWO) or Regimental Sergeant Majors (RSM) who have undertaken a training course covering Management of OSM & TRiM.
[3] DIN 2022DIN07-106: Global (RN) Individual Pre-Deployment Training OS.

ANNEX 34C

OSM STAGE 2 - OPERATIONAL SUPPORT DURING DEPLOYMENT

1. Operational Deployment Support

a. Stage 2 of the framework is the management of stress on operations. This is primarily achieved for land operations through a Reception, Staging, Onward-Movement and Integration (RSOI) package. Upon arrival into the operational location, where practical and appropriate, personnel should undergo a RSOI package where they will receive guidance on the OSM support available during their deployment, TRiM, supported by the Field Mental Health Teams and other trained members of the Defence Medical Services. TRiM Teams will have a better understanding of potential mental health issues and therefore be able to offer peer support and where necessary sign post individuals to the next tier of assistance as required. TRiM is not a therapy, but the practice of allowing individuals to talk through the incident followed by the application of tried and tested coping mechanisms, means that TRiM has therapeutic benefit. TRiM Teams are embedded within all deployed units or ships.

b. Chaplains and Padres offer another route to identifying those in need of help and should also receive additional mental health training. Families may need greater support during periods of high operational tempo. This in turn can place them at greater risk from stress related issues. In these periods, the provision of additional information for GPs, schools and other welfare providers that support Service families may be required in consultation with Royal Navy Family and People Services (RN FPS).

ANNEX 34D

OSM STAGE 3 - PRE-EXIT PACKAGE/DECOMPRESSION

1. Introduction

All members of the Royal Navy[1] deploying on operations[2], whether part of a formed unit or as an Individual Augmentee (IA), are required to undertake OSM training and preparation in accordance with BRd 3(1) Chapter 34. On return from operations, deployed personnel may require a period of decompression or aftercare as part of the POSM process. At all stages of OSM, the OSM JPA tool is to be utilised to record all aspects of pre and post deployment briefs, support, signposting, etc. Current decompression[3] policy explains in detail the process and procedures for land-based evolutions. Whilst decompression remains a valid tool and a vital component of POSM, it has been assessed that there are currently no operations that expose personnel to the risk and rigour that require Third Location Decompression (TLD)[4,5]. For operations that expose personnel to the risk and rigour that may be associated with normal military activities, a 'Pre-Exit' package has been introduced to replace TLD to encourage a period of reflection and to set the conditions for normalisation.

2. Operational Aftercare

Operational aftercare consists of the vital components of the tri-Service OSM strategy. Whilst the implementation of POSM is a single Service responsibility, for operations that fall under Commander Joint Operations (CJO) command, PJHQ has responsibility for the immediate POSM activity.

3. The POSM Process

The POSM process was established in order to provide a staged support mechanism for personnel within the operational cycle[6]. Those operational deployments which are not exposed to high intensity combat engagement or significant compressing factors do not require TLD however, deployed COs will be directed by their respective OPCOM as to whether they must conduct Decompression[7]. The primary objective post deployment is to introduce a period of normalisation and to re-connect individuals with their parent unit and family. Delaying personnel from returning home, where there is no requirement, adversely affects morale.

4. The aim of the Pre-Exit Package

The aim of the Pre-Exit Package is to provide a level of care and enable a period of reflection for personnel on deployments which are assessed as not requiring TLD. It will be delivered in the operational theatre in order to assist with transition to the normalisation process provided by the Front Line Commands (FLCs).

a. The Pre-Exit Package is a fundamental part of the POSM process that complements the existing Royal Navy POSM policy and procedures within BRd 3(1) Chapter 34.

---

[1] The delivery of OSM to Royal Fleet Auxiliary personnel is promulgated by DACOS RFA Personnel.
[2] Operations refer to all operations for which CJO has OPCOM of the unit.
[3] JSP 661, Section 3, para 15
[4] This will be kept under constant review by PJHQ.
[5] TLD does not include ship/submarine port visits.
[6] Guidelines are set out in JSP 375 P2 Vol 1 Ch 17 – Stress in the workplace.
[7] JSP 661 Initial operational assessment will determine whether exposure to combat OR high tempo none-combat operations is assessed to decide if Decompression is warranted.

b. Whilst the Pre-Exit package is mandated for all personnel deployed on CJO operations, it is a useful tool and should be considered by all commanders at the end of a deployment/tasking.

c. The package is designed as low level generic sign posting; it does not constitute medical or professional support. The package is to be delivered in theatre prior to any individual's departure at the end of their deployment; it is to be delivered by the Executive/J1/ or Pastoral staff by a minimum rank of OR6.

d. Although the individual delivering the brief is to be confident with the material, there is no requirement to have undertaken any additional training such as Trauma Risk Management (TRiM). In extremis, such as for small austere operations with a limited number of personnel, the package can be self-administered with PJHQ J1 approval. The full package is designed to be delivered in a maximum of 40 minutes.

5. Pre-Exit Briefings

The Pre-Exit Briefing is to be delivered in theatre within the final week prior to departure; the aim is to raise awareness of common post operational experiences, and the signs and symptoms of stress, and signpost returning personnel[8] towards support networks they can approach for additional support. The package consists of the following:

a. **Operations Pre-Exit Brief.** The Pre-Exit Brief is an opportunity for the Commander or J1/Welfare Staff to discuss various aspects of returning home and [9][OBJ], should include, but not limited to, their return pathway, signs personnel can look for to identify stress within themselves and others, and the OSM support available to them upon completion of the operation

b. **OSM Leaflet.** A leaflet that articulates the additional stressors that may occur due to an operational deployment, signs personnel can look for to identify stress within themselves and others, and signposts support networks personnel can approach.

c. **Individual Checklist.** The individual checklist is to be signed by the individual and unit Executive (see Appendix 1 to Annex 34D).

6. Records

The individual's JPA OSM record is to be updated to show receipt of the Pre-Exit Brief[10]. Where JPA is not available, a hard copy of the checklist is to be kept until JPA can be updated. For IAs returning to their original unit, a copy of the signed checklist (Appendix 1 to Annex 34D) is to be given to the individual and presented to the unit HR Clerk/UPO on return to enable the JPA OSM record to be updated.

---

[8] This could also include, but is not limited to, those personnel who are on a rolling operations cycle, such as flying sqns, RPAS crews, RN personnel who transit in and out of the PJHQ JOA.
[9] Each commander will be issued with a Power Point Presentation and notes by PJHQ.
[10] JPA - Stage 2 - Deployment - Coming Home Brief as per the JPA Business Process Guide - Operational Stress Management (OSM).

7. Eligibility

To allow for routine visits to operational theatres, only personnel who have been deployed for more than 31 consecutive days will be required to undertake the Pre-Exit Package. Those who have deployed for less than 31 days, however, may request to conduct the package, especially if they have been exposed to a significant traumatic event.

8. Conclusion

The implementation of the Pre-Exit Package and delivery by the deployed Commander will enable effective and timely management of individuals who have been exposed to a stressful or traumatic event or who may be vulnerable to developing a stress related condition. It is critical, not only to sustain the welfare of personnel throughout deployment, but also to ensure that they receive the correct level of support and signposting through normalisation when they return home. In all circumstances, individuals who depart an operational theatre after 31 consecutive days or more will require the Pre-Exit Package. Whilst the Pre-Exit Briefing Package is mandatory for those personnel engage on PJHQ Operations as part of the OSM process, Commanders undertaking on Fleet operations/standing commitments may wish to utilise elements of the Pre-Exit Brief prior to return from deployment; an OSM JPA record will not be required in these cases. Further information regarding the Pre-Exit Package can be found on the TRiM intranet site or by contacting the team on 9380 28021/28046.

* Not mandated. It is an individual's decision to share and record a TRiM event; doing so will enable better support from the parent unit.

ANNEX 34E

OSM STAGE 4 - NORMALISATION

1. The Normalisation stage commences on return to the home base and concludes on completion of post-operational leave (POL). POL, in whatever form it is granted (POL or Sea goer's Leave (SGL) plus any Annual Leave (AL) accrued) is not to be reduced or modified in any form unless exceptions have been approved in advance by the chain of command.

2. This stage of OSM will need to be tailored for personnel serving in seagoing units, personnel returning as part of formed units from operations ashore, Individual Reinforcements and Augmentees and early or unexpected/unplanned departures from theatre. Experience suggests that virtually all personnel returning from operational deployments, along with their families, will encounter at least a little uneasiness whilst they readjust to their normal environment.

3. Shore-based units returning to their home bases from operations are normally to conduct a period of 'Normalisation' prior to POL being granted[1]. The precise duration of the Normalisation period is at the CO's discretion but it must be long enough to permit non-operational activity and reintegration of all personnel. COs may extend the period following consultation with the chain of command. For personnel returning early from operations there must be a rolling normalisation programme organised by the unit rear party in order to permit individuals to undergo this stage of the OSM process.

4. Seagoing personnel are likely to have had longer to decompress and the Normalisation period will not normally require a period 'on board' in UK prior to leave being granted. Advance leave parties returning on board for duty on completion of advanced leave will, however, require special consideration to ensure their OSM needs have been met and to achieve a seamless reintegration with the ship and its routines.

5. Whenever possible, Commanding Officers are to ensure that facilities and support remain available within the ship/unit for the duration of post operational leave period.

6. All personnel (regulars and reservists) deploying as Individual Augmentees (IAs) are mandated to mount and dismount through the Royal Navy Mounting Centre (RNMC) at HMS NELSON[2]. On completion of the online Dismount Course personnel proceed on POL. On returning to their Parent Unit, during their first week in work or at the 12-week point, the Regimental/Divisional Interview (Annex 34F) is to be carried out. The completed retained record Appendix 3 to Annex 34F will be returned to the RNMC for audit purposes. RNMC captures all Naval personnel returning from operational theatres to ensure that all those requiring it are tracked for both OSM JPA audit purposes and actively engage with the Dismounting process to ensure that they are not suffering from stress resulting from their deployment.

---

[1] It is entirely acceptable, at the Commanding Officer's discretion, for night or weekend leave to be granted on the day of return to the UK prior to the period spent 'in barracks'. Royal Navy Personnel serving as augmentees in units under Army or RAF Full Command remain under command of the CO of that unit until completion of POL and subsequent re-assignment. The CO is to determine to what extent their Naval augmentees will participate in the immediate normalisation plans for the unit.

[2] 2022DIN07-106.

7. RNR and RMR personnel are mandated to return to their parent unit during their last week of mobilised service. The unit is to provide aftercare support as necessary, augmenting the briefings and guidance issued at RTMC or RNMC.

8. Individuals returning early from operations in advance of the main party, AEROMED and other personnel returning unplanned from theatre, present the greatest challenge for Stage 2. Such personnel will need to be treated on a case-by-case basis. Family support is especially important in some instances and Commanding Officers (Career Managers for personnel no longer under command) are to ensure that plans address OSM needs. For personnel admitted to hospital in UK, RCDM will ensure that the mandatory requirements of Stage 4 are met and that further support is provided.

9. Whilst in the ‘Normalisation’ phase, details of support agencies are provided at Appendix 1 as an aide memoire for those who may be called upon to provide support and advice (Appendix 1 to Annex 34E Support Agencies (see also BRd 3(1) Chapter 24 (Welfare) and Chapter 32 (Service Funds, Charities and Associated Organisations).

APPENDIX 1 TO ANNEX 34E

SUPPORT AGENCIES

1. If an individual finds that they are having difficulty in re-adjusting post operations, help is available.

2. In the first instance, serving personnel should seek the advice of a suitable superior, a unit TRiM Practitioner, Divisional Officer, Troop Commander, Medical Officer or Chaplain who will be able to offer advice and refer individuals for further treatment or professional help if necessary. Those who have been discharged from the Service will, in the first instance, need to seek the advice of their GP who will also be able to advise or refer an individual for further treatment or help.

3. The following organisations are able to offer support or advice whatever an individual's circumstances:

a. **Royal Navy Family People Support (RN FPS).** Providing community and personal support to regular RN, RM personnel, RNR and RMR and their families, details of the Welfare Information Support team and contact details are available through the Royal Navy Website (https://forum.royalnavy.mod.uk) or by calling RN FPS on +44 (0)2392 72 87 77 or 0800 145 6088 (0800- 2000 Mon-Fri and 0900-1600 Sat-Sun (and Bank Holidays). Or if individuals prefer to use Social Media they may post on their Facebook page, Tweet @RoyalNavyFPS , or join the Royal Navy forum.

b. **SSAFA Forces Help.** The Soldiers, Sailors, Aviator and Families Association (SSAFA) Forcesline is a free and confidential telephone helpline and email service that provides support for serving (regulars and reserves) and ex-service men and women from the Armed Forces and for their families. As an independent charity, SSAFA is not part of the military chain of command.

SSAFA Forces Help, 19 Queen Elizabeth Street, London, SE1 2LP.

Call: 0845 1300 975
E-mail: info@ssafa.org.uk
Website: www.ssafa.org.uk

Forcesline can be accessed from anywhere in the world. Lines are open 0900–1730 Monday to Friday.

UK	0800 731 4880
Germany	0800 1827 395
Cyprus	800 91065
Falkland Islands	#6111
Rest of the world	+44 (0)207 463 9292

To call from Operational Theatres: use Paradigm's phone system and dial the appropriate access number then enter *201 at the PIN prompt.

c. **Samaritans.** Samaritans provides confidential non-judgemental support, 24 hours a day for people experiencing feelings of distress or despair.

Call: 116 123 (UK)
116 123 (RoI)

Veterans UK helpline
Veterans UK,
Ministry of Defence,
Norcross,
Thornton Cleveleys,
FY5 3WP

Normal Service 0800-1700 Monday to Friday

e. **Combat Stress (Ex-Servicemen's Mental Welfare Society).** If individuals are currently serving, or have served in the UK Armed Forces, they may call the 24-Hour Helpline to talk about mental health.

Head Office: Tyrwhitt House,
Oaklawn Road,
Leatherhead,
Surrey,
KT2 0BX

Call: 0800 138 1619
Text: 07537 404 719
E-mail: helpline@combatstress.org.uk
(Standard charges may apply for texts, check with service provider.)

f. **Veterans and Reserves' Mental Health Programme (VRMHP).** The VRMHP website provides mental health assessments for Veterans and Reservists who have concerns about their mental health as a result of Service. The criteria for joining the programme are as follows:

(1) Reservists who have operationally deployed since 1 Jan 03.

or

(2) Available to those who have deployed since 1982 and who suffer mental health challenges as a result of operational deployment, the programme offers a comprehensive mental health assessment by a Consultant Psychiatrist with accompanying guidance on care and treatment for the Veteran's NHS GP and/or local NHS clinical team. Veterans should consult their GP in the first instance in order to be referred to the VRMHP.

In both cases treatment is offered to individuals whose mental health is assessed to have suffered primarily as a result of their operational service.

Freephone helpline: 0800 0326258

Email: dphce-dcmhcol-vrmhp@mod.uk

g. **NHS Op COURAGE Veterans Mental Health Service.** NHS Op COURAGE[1] Service is a new service for Armed Forces personnel approaching discharge as well as for veterans. The service will help to recognise some of the early signs associated with mental health difficulties and will provide access to a number of interventions, therapeutic treatments for complex problems and psychological trauma and prevent the patient reaching crisis point. It will also help tackle some of the most common mental health and substance misuse problems such as alcoholism, anxiety and depression and join up services across the board, working with local authorities and charities so that the whole of a person's needs and their families are looked after.

h. For veterans: If individuals are experiencing mental health difficulties, these services can provide a range of treatment and support regardless of when they leave the Armed Forces. This includes recognising the early signs of mental health problems and providing access to early treatment and support, as well as therapeutic treatment for complex mental health difficulties and psychological trauma. Patients are also provided with help, where appropriate, with employment, reduction in alcohol consumption, housing and social support.

[1] https://www.nhs.uk/nhs-services/armed-forces-community/mental-health/veterans-reservists/

Access:

(1) Individuals must be resident in England

(2) Have served in UK Armed Forces for a full day

(3) Be registered with a GP practice in England or be willing to register with one

(4) Be able to provide military service number or other form of acceptable proof of eligibility

i. **NCHQ Operational Stress Team.** The NCHQ Operational Stress Team primarily provides TRiM training for the Royal Navy. In addition, the team can supply pre and post Deployment briefings and a wide range of general trauma advice. It also supplies support for Royal Navy families and witnesses attending HM Coroners Courts.

ANNEX 34F

OSM STAGE 5 - IN-SERVICE SUPPORT

1. The In-Service Support stage of OSM underpins psychological resilience and the ability to retain individuals at combat readiness. In-Service Support refers to the period of time after the return from post-operational leave rather than the initial weeks following return from operations. The chain of command is responsible for In-Service Support that continues until the individual (whether regular or reserve) retires; it may therefore continue for decades. During their remaining service, there remains a military and moral imperative to protect the health of Naval personnel. Future service is likely to include further operational deployments and In-Service Support may therefore be concurrent with subsequent post-deployment decompression or normalisation.

2. Following the return of individuals from post operational leave, but no later than 12 weeks after the actual return from operations[1], COs are to ensure that personnel are interviewed by their Divisional Officer, Troop Commander or immediate superior. Commanding Officers (for formed units) and Career Managers (for IAs) are to ensure that where personnel are re-assigned within 12 weeks of returning from operations, a hot handover is conducted with the receiving unit to ensure the interview requirement is met. Guidelines and suggested topics for the post-deployment discussion are at Annex 34F Appendix 1 (Guidelines) and Annex 34F Appendix 2 (Topics). The fact that the discussion has been conducted is to be recorded on the OSM Record (Annex 34F Appendix 3).

3. In addition to the Regimental/Divisional Discussion, there is also a mandatory requirement[2] for FUs and IAs to receive a short Power Point presentation relating to Post Operational Stress Management (POSM). The POSM Brief should be given at the eight to 12 week point after returning from deployment. The brief should be delivered by a Mental Health Professional or a Trauma Risk Management (TRiM) Manager. In extremis, the brief can be delivered by a TRiM Practitioner. The brief can be obtained from the RN TRiM Team[3].

4. For groups which deploy regularly under a sustained roulement, careful Stage 3 management will be especially crucial to maintaining unit resilience for operations. Commanding Officers will need to determine how their unit's procedures are developed to achieve this intent. Funding from the Fleet Re-Balancing Lives[4] initiative may be made available, on request, to support units with any group-centred initiatives aimed specifically at those who deploy frequently to operational theatres.

5. Individuals who have experienced a traumatic event whilst deployed are at most risk of adjustment difficulty; it follows that these personnel, and those considered to be a longer-term risk, should be kept under strict line management review, further follow-up interviews and specialist advice being sought from medical staff as necessary. On referral for treatment, the medical pathway and system of medical categorisation will track those suffering from psychological ill health.

---

[1] JSP 661, Sec 3, para 32.
[2] The requirement to give this brief is stipulated by the Surgeon General and endorsed by NCHQ
[3] The Presentation comes in a power point format and is accompanied by amplifying notes
[4] RNTM 01-029/17 Rebalancing Lives – RBL.

APPROVED TOOLS AND GUIDANCE APPLICABLE TO ALL OPERATIONS

6. Operational Mental Health Needs Evaluation. The Operational Mental Health Needs Evaluation (OMHNE) can be provided to units with the results analysed by the Academic Department of Military Mental Health (ADMMH) at King's College London. OMHNE is delivered by a secure web application for online surveys. It enables assessment of self-reported symptoms of common mental health (MH) disorders (e.g., anxiety, stress, sleep disorder), PTSD, exposure to potentially moral injurious experiences and burnout. The results can assess the general mental wellbeing of specific groups and cohorts and the factors that are having the greatest impact on their wellbeing (e.g., morale, MH stigma and help-seeking). Further details can be obtained through the sS POCs.

7. Recovery Readjustment & Reintegration Program (R3P). R3P is a leader-led structured programme of reflection and has two aims: to promote meaning-focussed coping and to encourage help-seeking. Meaning-focussed coping is achieved through structured discussion and reflection, helping personnel make sense of and find closure with operational and non-operational experiences. The programme also takes the opportunity to promote sources of support and methods of referral into them. It emphasises help-seeking for personnel who experience any degree of distress around issues they have experienced, or the subsequent discussion within R3P. This is not limited to traumatic experiences. R3P focusses instead on prolonged periods of pressure, including deployments at home or overseas. Further details can be obtained through the sS POCs.

APPENDIX 1 TO ANNEX 34F

THE CONDUCT OF THE REGIMENTAL/DIVISIONAL DISCUSSION

1. Aim of the Discussion

The purpose of the Post-Deployment Discussion is to identify and assist in the management of any issues arising from an individual's deployment on operations that, if left unresolved, could adversely affect their welfare, wellbeing and functionality. Appendix 2 to Annex 34F provides a suggested format for the discussion. The discussion also serves to:

a. Welcome the individual back and acknowledge their contribution to operations.

b. Gain information regarding their deployment and the nature of their work[1].

c. Ensure that the individual is aware of the post-deployment support mechanisms in place for them.

d. Ensure the individual knows of any new developments in their regular work environment to help their transition back into their core role.

e. Review and, where no concern arises, complete the OSM Record (Appendix 3).

f. You may wish, if appropriate to discuss their aspirations for their future in the Royal Navy.

2. Your Role as the Conducting Officer

You are there to provide an important link in the OSM Process[2]. Your background within the Armed Forces, your life experience and, where applicable, former knowledge of the individual will assist you to provide mentoring advice and signpost them to additional support should it be required.

3. Points to Note

It is important that:

a. The discussion is not to screen individuals, but is designed to encourage open and frank communication and discussion.

b. Whilst attendance at the discussion is mandatory, the sharing of personal information is not.

c. If on conclusion of the discussion, the individual has indicated that they are encountering some troubling episodes or if, in the course of the interview, they inform you of changes in their normal behaviour, you should encourage them to make contact with the medical services.

[1] Only relevant where the individual has been reassigned to a new unit prior to the discussion taking place or Conducting Officer did not deploy with the individual.
[2] Command can keep track of individuals requiring OSM stages to be completed via the Unit HR or EWO OBIEE Dashboards

4. Format for the Discussion

a. Stress the confidential nature of the discussion.. The Conducting Officer should reassure the individual that anything they say will be treated with sensitivity and discretion. Should the individual disclose information that gives rise to concern for their safety, or that of others then the Conducting Officer may need to break the confidence; should this be necessary the Conducting Officer is to explain the reasons before doing so.

b. Explain that the discussion is **not** a part of the performance appraisal process.

c. Discuss the nature of their deployment and ask if anything unexpected or stressful occurred. (Conducting Officers should exercise careful judgement and caution when considering whether to include, and in what detail they wish to discuss any potentially stress inducing activities nor the degree of risk and rigour experienced by the individual while on operations.) Point out that extreme or traumatic events experienced on deployment can lead to adverse, but entirely normal reactions. If an individual is encountering difficulties, reassure them that support is available and assist them in accessing the additional assistance that may be required. Sources of aid could come from the immediate chain of command, the unit TRiM Team, the Chaplain or Regimental/Ships Medical Officer. In addition, a number of other organisations, many with Service links, are able to offer independent support and advice (see Appendix 1 to Annex 34E).

d. Conduct the discussion as detailed at Appendix 2 to Annex 34F. The discussion should be conducted in such a way as to encourage an exchange of views. The discussion is structured to examine a number of distinct areas where normal functionality can be impaired as a result of exposure during a lengthy deployment. These are topics that you may wish to discuss, but they are not exhaustive:

Topic A: The Tour: How was their tour? Did they feel prepared for it? Were there any unexpected aspects? How did their family do whilst the Unit was on tour?

Topic B: Homecoming: How was your homecoming? Were there any difficulties or unexpected aspects about it?

Topic C: Adjustment at home/back to work: How is life at the moment? How is your wellbeing and health? How is the family? Any difficulties adjusting? Making plans for the future?

Topic D: Do they recall the OSM briefings that they have received pre and post deployment and are they aware of the amount of support that is currently available to them?

5. Discussion Records

Appendix 2 to Annex 34F is purely a guide to the conduct of the discussion. To encourage a free and frank discussion, the individual is to be given the Appendix on completion of the interview. They should retain the form so that they can refer to it from time to time. They may also wish to discuss with a partner, spouse or trusted friend to give their views on their responses to the topics. This will allow personnel to better gauge whether any behavioural changes have occurred in the weeks and months following the discussion. The only form that has to be retained by the chain of command in Appendix 3 to Annex 34F. They should be held centrally within the unit as part of the OSM audit trail and reflect the 4 stage entries on the JPA OSM which require completion[3].

[3] JSP 661, Chap 3, para 6.

APPENDIX 2 TO ANNEX 34F

THE REGIMENTAL/DIVISIONAL TOPIC DISCUSSION SHEET

(Return to UK/Barracks/Shoreside Duties)

(To be handed to the individual when complete)

Name:	
Discussion Date:	
Discussion Conducted by:	
Contact Tel Number:	

Topic	Home, Social and Work Life
A.	The Tour: How was their tour? Did they feel prepared for it? Were there any unexpected aspects? How did their family do whilst the Unit was on tour?
Comments	
B.	Homecoming: How was their homecoming? Were there any difficulties/unexpected aspects about it?
Comments	
C.	Adjustment at home/back to work: How is their life at the moment? How is their well-being and health? How is the family? Any difficulties adjusting? Making plans for the future?
Comments	
D.	Do they recall the OSM briefings that they have received pre & post deployment and are they aware of the amount of support that is currently available to them?
Comments	

(Continued Overleaf)

Notes:

1. Keep the completed Form safe and review it again in 3 and 6 months time. Look at the topics discussed and see if any of your responses have changed or altered.

2. When carrying out the comparison, it may be useful to do this accompanied by your spouse, partner or a trusted close friend. It may be that they are better placed to observe changes in you that you may have missed.

3. If at some future point you start to encounter difficulties related to your Deployment, contact a Unit TRiM Practitioner, the Welfare Dept or the Sick Bay and seek assistance.

Conducting Officer's Signature .....

APPENDIX 3 TO ANNEX 34F

RETAINED RECORD OF THE REGIMENTAL/DIVISIONAL DISCUSSION - FORMED UNITS AND INDIVIDUAL AUGMENTEES

(ALL DEPLOYED PERSONNEL OFFICIAL LIMITED STAFF WHEN COMPLETE)

Unit:	Donor Unit[3]:	Receiving Unit[4]:
Duties held:	Details of in-theatre activity[5]:	
Confirmation Signature[6]: Name: Rank: Appointment: Date:		
Stage 2 - Deployment - Pre-Exit Brief/Decompression		
Pre-Exit Brief/Decompression Undertaken: Yes ☐ No[7] ☐	Location where conducted[8]:	Dates (from/to):
Confirmation Signature[9]: Name: Rank: Appointment: Date:		
Stage 3 - Post Deployment - Dismount/Recall/Normalisation		
Location:	Date(s)[10]:	Unit:
	Leave granted (dates):	
Confirmation Signature: Name: Rank: Appointment: Date:		

(Continued)

1 For maritime deployments, insert date of sailing from UK.
2 For maritime deployments, insert date of returning to UK.
3 If loaned or an augmentee from another unit.
4 If being re-assigned to another unit or returning to donor unit immediately on return from ops or on return from post-operational leave.
5 Summary of the operational environment and any potentially stress inducing activity undertaken/exposure to risk and rigour.
6 Divisional Officer/Troop Commander for Ratings/Other Ranks; immediate superior for Officers.
7 If "No" reason is to be stated.
8 Pre-Exit Brief/Decompression are an activity, targeted primarily at formed units and individuals who will undertake programmed Decompression (only if available) and specifically directed to by the Chain of Command. If Decompression conducted at sea on return passage to UK insert "On passage UK".
9 Immediate Superior or Officer/SNCO with assigned responsibility. Divisional Officer/Troop Commander for Ratings/Other Ranks; immediate superior for Officers.
10 Insert date of returning to Base Port/TAS/Home Base or period spent 'in barracks' if leave not granted immediately on return.

Stage 4 - In-Service Support - Return to Work - Interview		
Regimental/Divisional Discussion (to be conducted post leave after returning from deployment).	Date conducted:	Unit:
Confirmation Signature: Name: Rank: Appointment: Date:		
Stage 6 - Civilian Aftercare (if applicable)		
Notes (use additional paper where required)		

Notes:

1. Completion of this record (or the JPA OSM Account) is <u>mandatory</u> and is both the Chain of Command and the Individual's responsibility. It is to be raised locally for each operational deployment, and should be completed in full before a new record can be opened.

2. Hard copies are held within the parenting units or kept by the individual augmentee until the final Stage of the process is completed. A confirmation signature is obtained after each stage. Completed records are to be forwarded to the UPO for entry onto JPA.

3. Succeeding Divisional Officers/Troop Commanders are to review this record (hard copy or JPA) as part of the joining interview process to ensure continuity of divisional care and any other support which may be on-going or considered necessary.

ANNEX 34G

OSM STAGE 6 - AFTERCARE

1. At OSM Stage 6 (Aftercare) (i.e. discharge/retirement from the Service), formal responsibility for medical care passes from MOD to the National Health Service. Defence Medical Services are responsible for overseeing the transition to civilian mental health care of Service Personnel exiting whilst still receiving clinical treatment. Mental Health Social Workers in departments of community mental health will provide follow-up contact with such individuals for 12 months post discharge to ensure a smooth transition.

2. Any individual demobilised since Jan 03 are entitled to continue receiving mental health care from MOD under the terms of the Support for War Veterans[1]. The programme is open to all current or former members of the UK Armed Forces and Reserves who have been demobilized following deployment overseas and who believe that their service as a UK Armed Forces individual may have affected their mental health. Anyone who believes they are eligible should approach their GP who will refer them to the programme; in some cases individuals can approach the programme direct. If eligible, they will be offered support on a range of issues as highlighted on the website.

3. The Defence Business Services UK acts as a further point of contact to provide advice for serving military personnel, ex-service personnel and their dependants. The DBS UK will provide advice on Armed Forces Pensions Scheme and Armed Forces Compensation Scheme. These schemes provide compensation to personnel for illness that arises as a result of service prior to 6 Apr 05 and on/after 6 Apr 05 respectively. Outside the NHS, the charity Combat Stress provides specialist advice and in-patient and out-patient mental health care for veterans. See Appendix 1 to Annex 34E.

4. Op COURAGE[2] is a service for Armed Forces personnel approaching discharge as well as for veterans. The service will help to recognise some of the early signs associated with mental health difficulties and will provide access to a number of interventions, therapeutic treatments for complex problems and psychological trauma and prevent patient reaching crisis point. It will also help tackle some of the most common mental health and substance misuse problems such as alcoholism, anxiety and depression and join up services across the board, working with local authorities and charities so that the whole of a person's needs and their families are looked after. See Appendix 1 to Annex 34E.

[2] https://www.nhs.uk/nhs-services/armed-forces-community/mental-health/veterans-reservists/

5. Following publication of Dr Murrison's report entitled 'Fighting Fit' in October 2010, as well as in-Service recommendations (improving mental health assessment at routine medicals, providing access to mental healthcare for 6 months after discharge, studying the efficacy of post operational screening for mental health conditions and an on-line support service), the following are under development for veterans:

a. **Veteran's Gateway Service.** We are the first point of contact for you and your loved ones. Contact us 24/7 for help across housing, mental wellbeing, finances and more.

b. **Veteran's 24 hour Support Line.** https://www.gov.uk/guidance/urgent-help-for-veterans

c. **Veteran's Outreach Service.** https://vosuk.org/

ANNEX 34H

TRAUMA RISK MANAGEMENT (TRiM)

Note. *Extract from the introduction to the project protocol for the (RN) controlled trial to determine the efficacy of TRiM:*

"Exposure to traumatic events can lead to the development of psychological distress, lowered morale and organisational difficulty (Hoge et al, 2002; Greenberg et al, 2003). It is utopian to believe that traumatic stress can ever be eliminated from any military organisation. Assuming that the Armed Forces continue their primary function of war fighting, then personnel will be exposed to trauma and stress. Some of those exposed will develop psychological distress as a result. Even if this can be reduced by training and so on, no one can argue that it could ever be eliminated. On the other hand we also know that whilst this cannot be prevented, it can be better managed".

1. Introduction

a. A certain degree of pressure and psychological stress is inseparable factor in military operations. Faced with these factors we all have the potential to respond in differing ways. In addition to what we are immediately facing, there could be other external issue that can hamper our ability to cope. It is therefore important to ensure that robust mechanisms are put in place to manage the adverse effects of excessive pressure and psychological stress. Such mechanisms can diminish the effects of stress and deter them from becoming a long-term threat to an individual's health and, ultimately, their ability to operate effectively. The 6 Stages of the Royal Navy's Operational Stress Management (OSM) Policy (incorporating TRiM within Stage 2 'Operational Support - see Annex 34C) provides such a mechanism.

b. Traumatic events[1] can have the potential to generate post-traumatic stress symptoms. The symptoms can include depressive episodes, anger, poor sleep patterns and risky driving. These conditions are not uncommon and, if left unchecked, can lead to poor functioning, difficulties with relationships, excessive drinking and discipline issues. In the most extreme cases, certain individuals can go on to suffer from full blown Post Traumatic Stress Disorder (PTSD). Research evidence has shown that delays in seeking help in dealing with trauma issues can often arise as a result of perceived stigma. There remains a wider stigma associated with mental health issues in both the general and service populations. This stigma can act as a barrier to individuals seeking appropriate help[2]. TRiM is designed to reduce the barriers and actively encourages sufferers to seek appropriate assistance.

[1] A traumatic event is any event that can be considered to be outside of an individual's experience and has the potential to cause physical, emotional or psychological harm.
[2] The Murrison Report (dated 21 Jul 10) made recommendations based on a number of propositions, one of which was that stigma deterred servicemen from engaging with conventional mental health provisions.

2. TRiM Delivery

TRiM is a proactive, peer group delivered, human resource management initiative for supporting individuals following exposure to traumatic events. The wider view of the TRiM protocol is detailed in the TRiM CONOPS at Appendix 1 to Annex 34H. There are three main work strands to the TRiM protocol which are:

a. **Education.** 'Pre-incident Awareness Training' with the primary emphasis being placed on operations. This is where the probability of a traumatic incident is more likely.

b. **Individual/Group Risk Assessment.** Following a traumatic incident, individual or group risk assessments to determine how much stress an individual has assimilated (the Risk Assessment process is amplified at Para 3 below).

c. **Mentoring.** Practitioners are required to provide mentoring support for individuals for a period of 6 months post incident. The TRiM Practitioner is trained to recognise the signs and symptoms of stress and give mentoring advice to individuals on coping strategies and how to better manage their issues. The request for mentoring support is generally instigated by the individual and the TRiM Practitioner will respond in an empathetic and supportive manner.

3. Risk Assessment

a. One of its primary tasks is the early identification of the signs and symptoms of stress. Having peers within a unit who have some skills in risk assessment potentially allows for an initial approach without fear of the stigma of medical/psychiatric referral. This is achieved by allowing individuals to talk through the issues surrounding an incident and by doing this, allow them to process their thoughts. This end state is achieved through the medium of the 'TRiM Risk Assessment. The two-fold aim of the Risk Assessment is as previously stated, to allow healthy processing of their thoughts and secondly; to assess how much stress the individual has assimilated as a result of the incident. Individuals are seen either as singletons or in small groups3. Under the guidance of TRiM Practitioner, the individual is encouraged to tell their story in a frank and honest way and discuss any attendant issues that may emanate. It is structured along the lines of what was happening '**Before**' the event, what was happening 'During' the event, what was happening '**After**' the event. This type of intervention is known as the BDA Model. It is not a treatment or a therapy; however the 'talking' or 'processing' element of the intervention has recognised therapeutic advantages[4]. People engaged with the process are seen on two occasions; the first occasion is three days after the incident and the second occasion is one month or 31 days after the incident. During the course of the two interviews or assessment, the Practitioner will check their progress against ten extremely well researched and evaluated trauma risk factors. This will assist the Practitioner in assessing current stress levels. If stress levels are high or if issues are not being resolved, the TRiM Practitioner may encourage the individual to engage with the Medical Services or some other appropriate agency.

[3] The TRiM Groups are never more than 8 people. Groups are always conducted by two TRiM Practitioners
[4] The TRiM Protocol is fully compliant with the National Institute for Health and Clinical Excellence (NICE) guidelines for the delivery of post trauma support, London 2005.

b. TRiM Teams are embedded within all units, squadrons and platforms of the Royal Navy. This policy ensures that in the aftermath of a traumatic event, the services of the Team are readily available to the chain of command. Additional support for units/platforms following a traumatic event is available from the NCHQ OSM Team.

c. All members of the Team are highly experienced TRiM Practitioners and can provide advice, on-site direction and practical support, post event. In working hours the NCHQ OSM Team may be contacted on Mil: 9380 28021 or Civ: 02392 573021, out of hours contact TRiM Duty Mobile on 07733 155884.

4. Training Courses

There are now a number of TRIM Training Courses at varying levels available for members of the Royal Navy. However, for the training to be effective and for the successful Practitioners to be credible, the protocol must be delivered by competent and well motivated personnel. The selection of potential TRiM Practitioners should be carried out using the prescribed selection criteria (see Appendix 2). Governed by CONOPS (see Appendix 1) and a strict 'TRiM Code of Practice' (see Appendix 3), TRiM complements existing support mechanisms[5] and aids the identification of those experiencing of post traumatic symptoms. The TRiM Protocol is a human resource initiative, however, the Project maintains and supports close links with the Naval Community Mental Health Services.

5. Stress and Resilience Training Policy

A Defence-wide Stress and Resilience Training Management (SRMT) policy[6] has been developed by Chief of Defence People[7] in consultation with the three services. The policy sets out the training requirements and it is organised at four distinct levels:

a. **Level One.** Level One training includes basic stress training for all personnel newly enlisted or who have recently joined the Armed Forces (for the Royal Navy this includes new entrants at HMS RALEIGH, CTCRM and BRNC Dartmouth). The training is aimed at ensuring that they recognise stress in themselves and others. The training puts emphasis on how to seek appropriate support should the need arise.

b. **Level Two.** Level Two training is required for those who manage others to ensure that they are able to recognise signs of pressure and stress in themselves and their subordinates (for the Royal Navy this includes leadership courses, Divisional Officers Courses, etc).

c. **Level Three.** Level Three trains those with responsibility for managing stress at an organisational level in order to maintain operational and/or business effectiveness (for the Royal Navy this may include CO and/or XO Desig Courses).

d. **Level Four.** Level Four training is targeted at non-medical personnel in posts with specific stress management responsibilities. The personnel that may require this training are those that require additional stress training to enable them to carry out their duties in their key post or to address specific risks (for the Royal Navy this will include TRiM training).

---

[5] Positive leadership, divisional/troop and peer group support, welfare, medical and pastoral care.
[6] JSP 822: Defence Direction and Guidance for Training and Education – Defence Training and Leaflets - 1.12 Stress Management and Resilience Training.
[7] Service Personnel Support, Health and Well-being, part of Chief of Defence People, 6th Floor, MOD Main Building. This policy has been checked and is extant as at Nov 16.

6. Documentation

All incidents involving a TRiM Intervention are to be fully documented in a Royal Navy TRiM Incident Log Book. All the documentary requirements are clearly detailed in the log book and should be accurately followed. Once all TRiM activity relating to the incident has been completed, the TRiM Manager who initiated the documentation and supervised the TRiM Intervention should then return the completed paper work to the NCHQ OSM Cell.

7. Summary

The majority of Service Personnel who are exposed to traumatic events will not go on to develop long-term problems. However, we have a responsibility to meet our duty of care obligations and our legal requirements, as well as to develop a broader awareness of the issues of stress amongst the Royal Navy. TRiM has proved effective in identifying the small number people who may go on to develop problems in the future. Operational factors such as geographical isolation, logistical constraints, the wide dispersal of personnel (a particular issue for land forces) and limited psychological support mean that initial management strategies (trauma triage) can initially be carried out by trained unit TRiM Practitioners rather than external mental health professionals from outside the unit. Simply put, TRiM is a tool which helps recognise when somebody is not behaving normally and suggests to the affected individual the need to seek professional medical help. It is prima facie leadership; the use of TRiM assists in formalising a function of command relating to the care of individuals and allows it to be applied more routinely. The embedding of TRiM teams and the use of TRiM, in conjunction with the wider stages of OSM, enhances considerably the knowledge and understanding of stress management within the Royal Navy population. These factors taken together are, in turn, demonstrably improving leadership on both land and sea. The Commander of 12 Mechanised Brigade stated in his Op ‘HERRICK’ Post Operations Report that :

> *“The heavy emphasis placed by the Commander on TRiM prior to the start of the tour has undoubtedly paid off. This simple but effective method of managing the aftermath of traumatic events has meant that 12 Mech Bde units have been able to mitigate some of the harrowing effects of close quarter combat. This has undoubtedly kept soldiers in the front line. This process must now be endorsed as best practice in Defence”.*

APPENDIX 1 TO ANNEX 34H

TRiM CONOPS[1]

1. Introduction

As an executive tool, TRiM policy resides with the Operational Stress Management Cell within NCHQ. However, once a TRiM capability has been established within a unit, platform or establishment, the responsibility for maintaining, exercising and deploying TRiM rests with the Commanding Officer (CO). This Appendix aims to provide the CO with guidance to assist them in their task.

2. A Traumatic Incident

In the aftermath of a traumatic event a variety of emotional effects can be placed upon us. Some effects are quickly recognised and by virtue of our training and personality we are capable of dealing with them. However, some or more discrete and their effects are more discrete and their effects are harder to recognise and predict. As a result, they are more challenging to deal with and it may be appropriate to seek assistance from a TRiM Practitioner. For the purposes of these CONOPS A traumatic incident is defined as:

> *"Any event that can be considered to be outside an individual's usual experience and has the potential to cause physical, emotional or psychological harm."*

The keyword in this definition is "potential". Both during and after a traumatic incident everyone can react differently. When dealing with effected individuals, everyone will have differing needs and requirements. The TRiM should recognise this and plan its strategy accordingly. It is not a case of one size fits all.

3. Employment

As stated above, everyone will respond differently to a traumatic incident. Some may be severely traumatised whilst some may not be affected at all. However, a TRiM team should be employed as a precautionary measure in the aftermath of incidents similar to those listed below.

a. Sudden death.

b. Serious injury.

c. Disablement or disfigurement.

d. Multiple traumas.

e. Near miss (or near hit), defined as an uncontrolled event which fortunately did not physically injure the person but if it had then there was the potential for serious injury.

f. When survivors are encountering overwhelming distress (an example would be when engaged on disaster relief work or body handling duties).

g. Engagement with child enemy combatants.

[1] JSP 770: Tri-Service Operational and Non-Operational Welfare Policy - Chapter policy remains extant and retained from Version 11 of JSP 770 and provided as PDFs and a revised DIN: Chapter 2 – Trauma Risk Management (TRiM) Policy (PDF). This chapter and DIN will be integrated into the new JSP 661 Defence People Health and Wellbeing, when it comes into being.

4. Unit TRiM Teams

The TRiM team of trained personnel embedded within each unit/squadron/platform is trained to recognise the symptoms of stress and give advice to individuals on simple coping strategies and how to manage them. Non-deployable units are recommended to have around 5% of their personnel TRiM trained whilst deployable units are recommended to have 10% of their personnel TRiM trained, ideally this should be proportionate across the entire rank structure. The TRiM model is consistent with the aims of existing Stress Management Training (SMT) and conforms to the National Institute for Health and Clinical Excellence guidelines. TRiM also seeks to eradicate the stigma attached to stress and mental health by educating personnel to ensure that they:

a. Recognise that stress and trauma can affect even the toughest individual but that feelings and behavioural changes in the aftermath of traumatic events are neither. unusual nor unexpected and all can be effectively treated.

b. Can identify the signs of stress and strain within themselves and their shipmates.

c. Can be made aware of simple coping strategies that exist to manage stress, including the dangers of alcohol, substance abuse and poor sleep hygiene.

d. Know when to seek additional help and understand which agency can assist them.

5. TRiM Principles of Employment

TRiM is employed with the following principles, which are consistent with the objectives of military mental health provisions:

a. **Proximity.** Support should be provided at unit level wherever possible and with engagement at all levels of command. Individuals are not compelled to attend a TRiM Risk Assessment. However, there is an expectation that they will attend in order to support others who were involved in the same incident. The TRiM Team Leader will also be required to:

(1) Continue to engage with those who initially decline to attend a TRiM Risk Assessment.

(2) Notify the Chain of Command of any individual considered to be a serious risk to themselves or others. This reporting responsibility will be with the knowledge of the individual but does not require their consent[2].

b. **Immediacy.** TRiM assistance should be in place in the immediate aftermath of the event. Embedded Team Leaders should provide an immediate response to the incident in the form of advising the Chain of Command and the formulation of appropriate management plans. Formal individual or group risk assessments should not be initiated until at least three days have elapsed. Earlier intervention is likely to produce a markedly inaccurate Risk Assessment. On some occasions, external TRiM assistance may be required if the embedded Team personnel are encountering

[2] The requirement to carry out this reporting responsibility is clearly explained in the 'Introduction' phase of the Risk assessment.

difficulties due to the intensity of the events, the scale of the numbers involved and/or personal involvement[3].

[3] Embedded teams should provide an immediate response to a traumatic incident. On occasion, the scale of an event may overwhelm the TRiM team. In these circumstances the NCHQ OSM Cell can provide additional TRiM support. All members of the Team are highly experienced TRiM Practitioners and can provide advice, on-site direction and practical support, post event, if necessary and in conjunction with DCMH staff.

c. **Expectation.** Personnel should be made aware after the incident that they will resume their normal duties as soon as possible.

d. **Simplicity.** The programme is simple to teach and implement. It keeps ownership of the management of stress reactions at unit level, and commanders retain responsibility for the well-being of their personnel.

6. Planning the Intervention

TRiM affords commanders a number of bespoke options when dealing with the aftermath of a traumatic event. For minor incidents they may wish to employ a local defusing strategy amongst either individuals or groups. For major incidents, particularly if they involve death, the entire TRiM team may be required in addition to medical, pastoral and welfare services (where available). TRiM helps to assess the initial impact of traumatic stress and reassures the Command that vulnerable people are being identified promptly and signposted to receive specialist support at the earliest opportunity. Within three days of a traumatic incident, the team manager, or senior stress practitioner, should have sought permission to convene a planning meeting to determine the most appropriate stress management strategy. The following personnel should attend:

a. Senior management (XO or 2 i/c).

b. Senior Stress Practitioner (TRiM Team Leader).

c. G1/N1 representative (normally the Logs Officer at sea).

d. Someone with knowledge of the incident.

e. Someone with knowledge of the individuals involved.

f. Medical Officer or Senior Medical Rating.

g. Chaplain (if borne).

7. On Completion of Planning

At the conclusion of the planning phase, the following options are available to the Chain of Command and the Unit TRiM Manager:

a. **Do Nothing**. If the event is relatively minor and individuals appear to be taking the incident in their stride, a policy of ‘watchful waiting’ incorporating regular reviews may be sufficient.

b. **The Briefing Meeting.** An initial strategy to consider could be to conduct a ‘Briefing Meeting’. This can be used to give trauma related information to vulnerable people who are aware of the incident, but their involvement is more peripheral. The Briefing Meeting can involve the whole ship’s company and should be conducted within 48 hours of the incident.

c. **Individual/Group Risk Assessment**. Following an incident, assessments will be conducted at intervals of three days and one month (the one month interview takes place 28 days after the initial three day risk assessment. Both assessments will allow informed judgement so that early referral for treatment may be achieved.

d. **Mentoring.** The mentoring process allows individuals unrestricted access to a TRiM Practitioner. It gives them the opportunity to discuss and ventilate any issues in an empathetic and benign environment.

8. Stigma

There is a recognised reluctance amongst the wider male UK population to seek help in aftermath of a traumatic event. In the Armed Forces this can be exacerbated by a culture which emphasises robustness and resilience. Whilst these traits are admirable when engaged on operations, they can act as a barrier to seeking help at a later stage. TRiM Teams, by their awareness of the nature of reactions to traumatic events, are well placed to give support to these individuals. Within the Royal Navy as a whole, we are seeing less resistance to seeking emotional support. The TRiM Teams, the Chain of Command and the other Carer Agencies should continue to work collectively to reduce the corrosive effects of stigma.

9. TRiM for Injured Personnel

There are individuals who are injured or damaged in some way and are subsequently returned to the UK. Dependent on the nature and severity of their injuries, they may spend a short period at Queen Elizabeth's Hospital, Birmingham. After initial treatment they may be sent to their family home for a period of convalescence. These individuals, due to their rapid departure from the operational theatre, are unlikely to have engaged with the TRiM process. Due to this factor, we are unable assess how much stress they have assimilated, and as such, we are hampered in giving them adequate post-incident support. Faced with these and other issues, it is important that TRiM support is provided within two weeks of the injured individual arriving in the UK. The protocol covering these circumstances is contained in Appendix 2 to Annex 34H.

10. Documentation

All incidents involving the intervention of a TRiM Practitioner are to be fully documented by the TRiM Team Leader in a TRiM Incident Logbook (OFFICIAL SENSITIVE STAFF once in use). The logbook records details of the incident, those directly and indirectly involved, details of decisions made at the planning meeting and those in attendance, the names of individuals invited to be risk assessed (and those who decline assistance) and the risk assessment checklist scores and action taken. Team Leaders are to keep completed Incident Log Books for a period of 3 months from the date of the incident after which they are to be sent to NAY NPS-PEOPLE SPT OSM TRiM SO2 for inspection and archiving.

11. Reporting

There is a requirement to collate data on TRiM interventions. These are required to provide evidence to its efficacy, to meet requests for statistical information and to provide effective long term support our personnel. The area of JPA used for recording TRiM interventions is the individuals 'exposure to hazard'[4] tool detailed in the JPA Operational Tracking (OPLOC) section. The inputting of TRiM Interventions into the 'exposure to hazard' of JPA is the sole responsibility of the NCHQ OSM Cell. The source document for inputting the information is the submitted Royal Navy TRiM Incident Logbook. The entry will not contain any of the details of the event or elements of the TRiM discussion[5]. It will solely detail the specific TRiM Risk Assessment number plus the date of the assessment.

12. Benefits of Reporting

The primary beneficiary of this policy is the individual. It allows the chain of command to support them appropriately during and post service. It also gives an audit trail to demonstrate that, at some stage previously in their service life, they have actively engaged with the TRiM process[6]. To assist the individual further, on completion of the TRiM process, they will be issued with a unique 'JPA Hazard Number'. They should retain this number and refer to it if they ever need to deal with the Service medical services or other agencies.

13. Referral/Signposting

Depending upon the outcome of the risk assessment, a TRiM Practitioner, after consultation with his TRiM Team Manager, may consider an individual to be in need of additional professional support. Identified personnel should be encouraged to contact unit medical staff who may refer individuals for specialist mental health support. The following conditions are an indicator to the TRiM practitioner that further medical support is required:

a. Prolonged and profound psychological distress indicated by high scores in the risk assessment.

b. Acute distress.

c. When post-incident issues emanating from the event are having a marked effect on the individual's duties and/or social interaction.

14. Selection of the TRiM Team Leader and TRiM Practitioners

TRiM Practitioners are not aligned to specific posts within unit establishments. Any prospective TRiM Practitioner should be held in high regard by and hold the trust of their peers. They must be volunteers and have good life experience skills; ideally they should not have been involved in a traumatic incident or bereavement within the past year. The specific criteria for selection are at Appendix 2 to Annex 34H.

---

[4] JPA provides a suitable functionality known as: 'Recording Exposure to Hazards' (abbreviated to 'E2H'). This was included in JPA release 8, activated in 2009. See Desk Instructions.
[5] The generic introduction given prior to conducting any TRiM Risk assessment has been amended to reflect that the assessment is now recorded on JPA.
[6] Personnel entered in on E2H are the individuals who, as a result of the Planning Meeting are invited to attend a risk assessment. If an individual subsequently declines to attend, this fact is also recorded on E2H.

15. Continuation Training

Due to skill fade, Annual Continuation Training will be conducted by the unit, ship or establishment TRiM Team Manager (or TRiM Team Leader) to ensure that the TRiM Team remains current with best practice. This training will be audited through FOST, or the NCHQ TRiM Team.

16. The TRiM Code of Conduct

All TRiM personnel are subject to a code of conduct which clearly defines how they conduct their working practices. A copy of the code is detailed at Appendix 3 to Annex 34H.

APPENDIX 2 TO ANNEX 34H

SELECTION OF TRiM TEAM LEADERS AND TRiM PRACTITIONERS

1. Introduction

Trauma Risk Management (TRiM) is a proactive, common sense strategy which aims to manage the effects on individuals of a potentially stressful incident. The management of the traumatic aspects of the incident is peer group delivered using trained TRiM Practitioners. The effectiveness of the intervention primarily rests on the shoulders of each practitioner and their approach to the task will greatly determine the success of the final outcome.

2. The TRiM Practitioners Course

The Course will give the potential practitioner the requisite skills to carry out the prescribed task. However, careful selection is required to ensure that the personnel nominated by the ship, squadron or establishment possess the essential core skills to carry out this exacting role. The aim of this appendix is to outline the methodology that should be followed during the selection process.

3. Selection Background

Generally, TRiM Practitioners are not aligned to specific appointments within their units. Personnel who attend TRiM training should be volunteers and should not have been involved in a traumatic incident or a significant bereavement within the previous year. The specific rank of the individual is not relevant, but in making their selection, the unit/establishment must be convinced that individual can deal with the nature of the work.

4. Selection Criteria

Volunteers should be capable of meeting the following criteria:

a. Capable of maintaining peer confidentiality.

b. Be mature and empathetic.

c. Be respected and trusted by colleagues.

d. Have good communications skills.

e. Be capable of learning about a psychosocial process.

f. Be capable of adhering to the TRiM Code of Conduct and working within established boundaries.

APPENDIX 3 TO ANNEX 34H

CODE OF PRACTICE RELATING TO TRiM PRACTITIONERS

1. Introduction

The Trauma Risk Management (TRiM) protocol is a Human Resource initiative. However, the Project maintains and supports close links with the medical services.

2. Code of Practice

a. TRiM interventions and risk assessments should only be carried out by practitioners who have undertaken an officially recognised TRiM Course and are in date.

b. All TRiM interventions should be conducted strictly in accordance with the protocols taught on the TRiM Course.

c. All TRiM Practitioners are to observe the following ethical statements:

(1) Maintain confidentiality unless indicated by law not to do so.

(2) Obtain informed consent.

(3) Avoid any re-traumatising actions to the greatest extent possible.

(4) Operate within personal levels of training, expertise, education and experience.

(5) Use the TRiM protocol in an empathetic, sensitive and respectful manner.

(6) Self monitor personal capacity to do ‘the work’.

(7) Do no harm.

(8) Promote human welfare.

(9) Be fair.

(10) Fulfil commitments to clients.

(11) Finally, take regular and ongoing actions to insure self-care and enhance the ability to deliver quality and professional services.

ANNEX 34I

TRiM EXPOSURE TO HAZARD REPORTING

1. Introduction

The Royal Navy has an enduring requirement for a robust audit process for personnel who have engaged with the TRiM Process. In accordance with the JSP 770[1], we record occasions when an individual has been 'Risk Assessed' by a TRiM Practitioner. This process allows the Royal Navy to meet its obligations for the provision of accountability and transparency. The recording process is fully explained to all personnel taking part in a TRiM Risk Assessment (RA). It is clearly covered in the 'Introduction' phase of the RA, specifically in the 'Confidentiality' paragraph.

2. Data Recording

The information is recorded in the 'Exposure to Hazard' (E2H) Section of JPA. Recording sensitive details on JPA may appear to run counter to the fact that a RA is a confidential process. Only NCHQ TRiM Team is responsible for the input of information relating to TRiM Incidents onto the JPA E2H. Under no circumstances should details of the incident or individual TRiM scores be recorded on JPA. Details of whether individuals were invited to be risk assessed and/or whether they declined assistance are to be recorded in the TRiM Incident Log Book, but only the offer of a TRiM intervention is to be recorded on JPA. This decision places heavy reliance on careful stewardship of TRiM Incident Log Books within units and commands, and a similarly robust mechanism is required for JPA administration.

3. Log Book

All TRiM interventions are to be fully documented in a TRiM Incident Log Book. The Log book is to record details of the incident and all personnel involved. It is to capture the details of decisions made at the planning meeting and a nominal record of those personnel who were in attendance. The names of individuals invited to be Risk Assessed, whether the offer was accepted or declined, and the subsequent risk assessment checklist scores and action(s) taken, must also be recorded. Once initiated, TRiM Log Books are not to be destroyed but must be retained and archived in accordance with standard operating procedures. When the incident is closed by the Unit[2], the completed Log Book should be forwarded to the NCHQ TRiM Team.

4. Documentation

Unit personnel who were invited to attend a Risk Assessment ('Decliners' are NOT) are entered onto the JPA E2H Database. Those entered into the system receive the following items:

a. **A TRiM Reference Card.** The card contains information[3] that may assist the individual in the medium and longer term future (perhaps at a time when they have left the Royal Navy).

---

[1] JSP 770: Tri-Service Operational and Non-Operational Welfare Policy - Chapter policy remains extant and retained from Version 11 of JSP 770 and provided as PDFs and a revised DIN: Chapter 2 – Trauma Risk Management (TRiM) Policy (PDF) - This chapter and DIN will be integrated into the new JSP 661 Defence People Health and Wellbeing, when it comes into being.

[2] This normally occurs after the execution of the 1 or 3 month follow up Risk Assessment. If there are specific reasons for keeping the Log Book open, then this should be reported to the NCHQ TRiM Team. On completion, the log book should be returned to NCHQ TRiM team by the 6-month point.

[3] The TRiM Log Reference Number, Your TRiM JPA Reference Number, Your Name and Service Number, the TRiM Cell Contact Details.

5. Outcome

Whilst there is a requirement for the Royal Navy to retain records regarding the usage of the TRiM process, the primary beneficiary of E2H policy is the individual. Whilst in the Service or perhaps when they have returned to the civilian environment, an individual may encounter post-traumatic issues. They may require additional medical or mental health assistance. If they attempt to seek help from their GP or a mental health professional, they may have problems in clearly describing the circumstances of the events that are troubling them. The production of a 'TRiM Reference Card' will provide a conduit to enable GPs, mental health professionals, welfare staff or Government Agencies to clarify the Veteran's version of events. The discussion with the TRiM Team could also highlight other pertinent aspects of the incident.

6. Summary

The JPA E2H process will provide a robust audit trail to enable NCHQ to quickly validate the circumstances of a reported incident which has received a TRiM intervention. This in turn will enable our Royal Navy Veterans to be assisted and receive the appropriate support during and following their tenure in the Royal Navy.

ANNEX 34J

RFA TRAUMA RISK MANAGEMENT (TRiM)

1. Aim

The aim of this Annex is to establish the process for TRiM within the RFA and to detail the order of events to manage traumatic incidents involving RFA personnel.

2. Background

Operational stress and exposure to traumatic events is an unavoidable part of operations and can be considered an occupational hazard for all RFA personnel deployed on various and challenging operations worldwide.

3. Procedure

The TRiM structure and organisation onboard RFA ships is detailed in the flow charts below in points 4 and 5. The routine for the RFA is as follows:

a. The initiation meeting onboard for interventions is a Command function and is therefore lead by the XO as the TRiM Manager onboard. This is in alignment to the Tri-Service policy and doctrine.

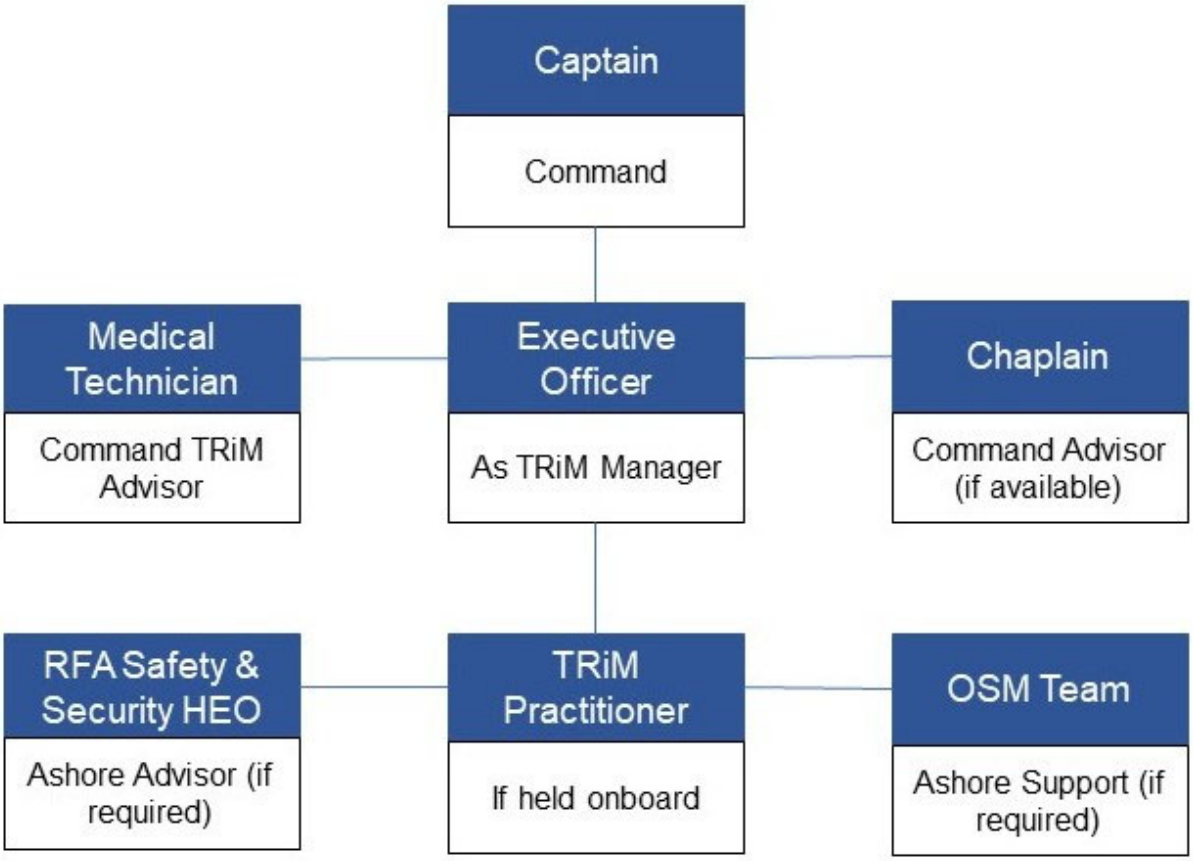
b. The TRiM Manager is to ensure that the policy requirements are met, onboard resources are assigned, and a response is co-ordinated. The TRiM Manager will be supported by the Commanding Officer and MedTech. It is recommended, but not essential, that all XOs attend the TRiM Manager course to be able to carry out their duties should an incident occur that requires a TRiM intervention.

c. Should a TRiM intervention be required it shall be first assessed whether this can be responded to with TRiM trained personnel onboard. If this is not achievable, then the RFA Safety & Security HEO NAVYPEOPLE-RFASafeSecure@mod.gov.uk is to be engaged with, supported by OSM/TRiM SO2 in HMS Temeraire.

d. Recording of the data (in accordance with Annex 34I, para 2) will be captured in Magellan having been issued the E2H number by the OSM/TRiM SO2. This number will enable the MEDTECH onboard to monitor those who join their respective units who may be in the middle of a TRiM process. It also allows the RFA Safety & Security HEO ashore to aid any follow up interventions while the individual is on EVL.

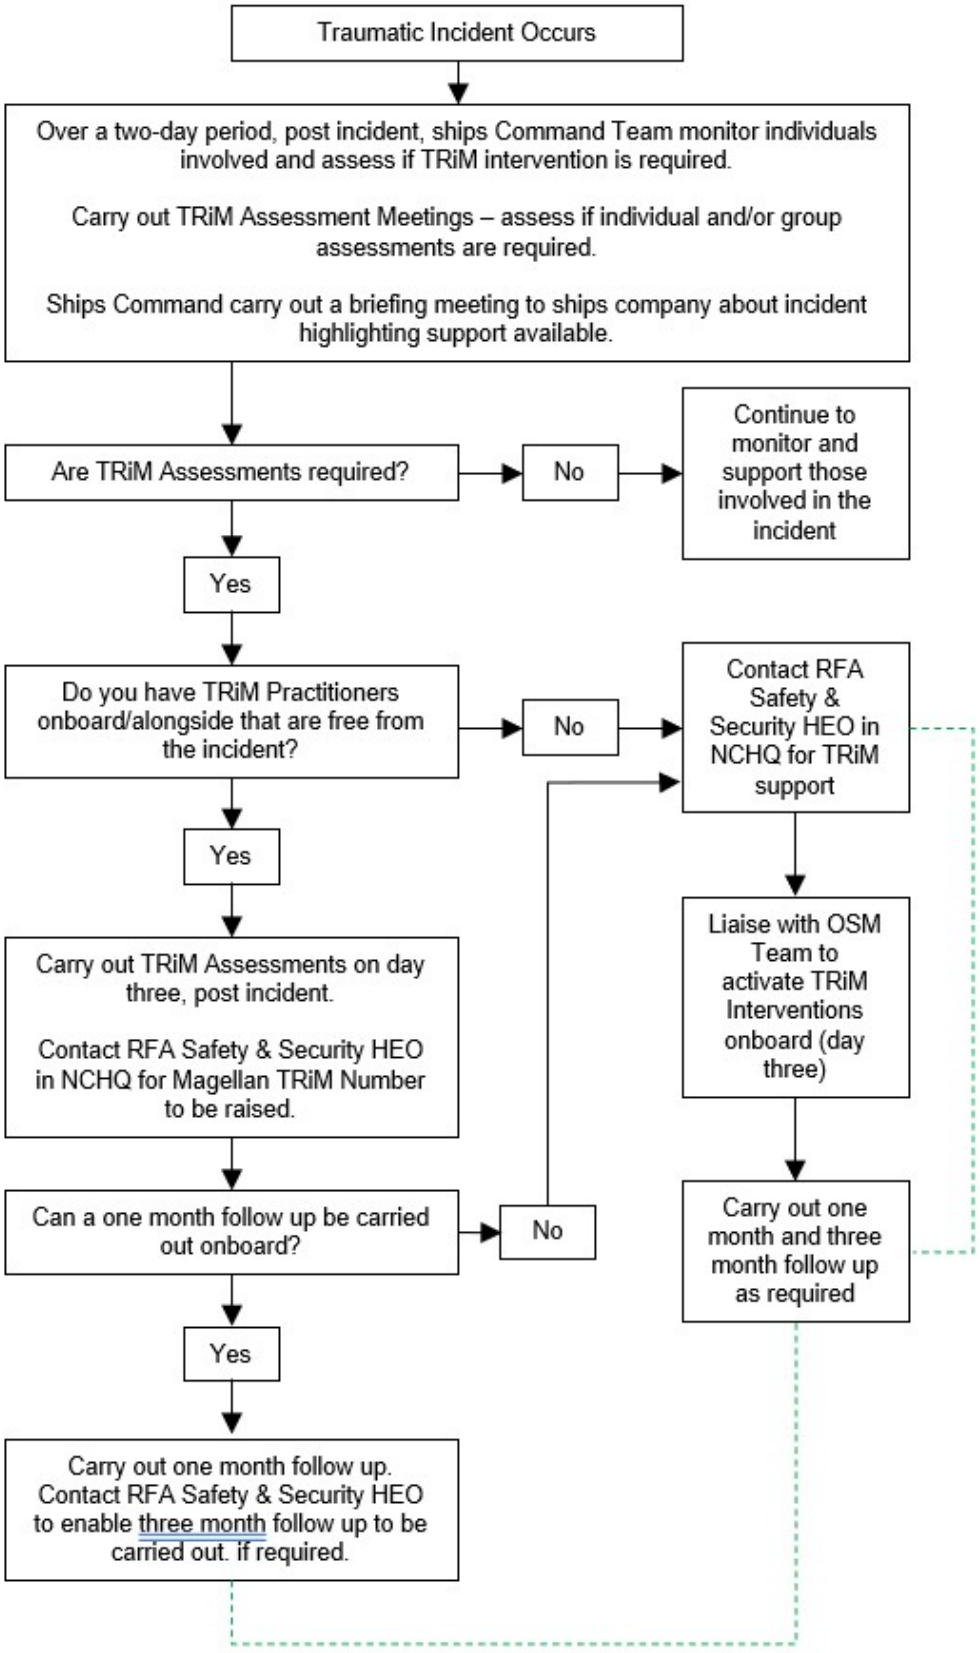
4. Onboard TRiM Management Team

Figure 34J-1 TRiM Management Team



5. Onboard TRiM Process Post Incident

Figure 34J-2. TRiM 'ACTIONS TO TAKE' FLOW CHART



Any time during this process the TRiM practitioner can signpost individual(s) to outside support if required.

CHAPTER 35

MATERNITY, PATERNITY AND ADOPTION - MANAGEMENT AND CARE OF PERSONNEL

3501. Introduction to Maternity, Paternity and Adoption

a. It is not possible to cover all aspects of pregnancy, parenting and related issues within this chapter. The aim is to highlight some of the key areas which the Commanding Officer (CO), Divisional Officer/Troop Commander/Line Manager (DO/Tp Cdr/LM) and Career Manager (CM) need to be aware of and it **must** be read in conjunction with JSP 760 Tri-Service Regulations for Leave and Other Types of Absence, Chapter 58 (Management of Career), JSP 661 (Health and Wellbeing) Chapters 2 and 5 . Line Managers should direct individual enquiries to the Parent Support and Information teams (PS&ITs) or UPO Maternity Desks, but are also welcome to seek further advice on policy from SO2 Women and Families Coherence NAVY PEOPLE-PSP EMP Pol SO2. For specific areas this guidance must be read in conjunction with the following:

(1) **Pregnancy.** JSP 760 Chapter 24.

(2) **Adoption.** JSP 760 Chapter 25.

(3) **Surrogacy.** JSP 760 Chapter 26.

(4) **Paternity.** JSP 760 Chapter 27.

(4) **Shared Parental Leave.** JSP 760 Chapter 28.

(5) **Parental Leave.** JSP 760 Chapter 29.

(6) **Assisted Conception and Fertility.** JSP 661 Chapter 2.

(7) **Breastfeeding.** JSP 661 Chapter 5

b. These policies are applicable to all eligible personnel.

c. The essential tenets of the Armed Forces' Maternity, Shared Parental, Paternity and Adoption policies are as follows:

(1) To provide supportive arrangements to enable SP to accommodate pregnancy, maternity and paternity absence within their Service careers. This includes prenatal and pre-adoption arrangements and, for those who choose to return to duty following pregnancy and maternity leave, additional provisions under the Armed Forces Occupational Maternity Scheme (AFOMS), Armed Forces Occupational Adoption Leave Scheme (AFOALS) and Armed Forces Occupational Shared Parental Leave (AFOSPL).

(2) That no SP will be treated less favourably because they are pregnant, absent on maternity, Shared Parental, Adoption or Paternity leave or for any other reason connected to a pregnancy.

(3) That the health and safety of the pregnant SP and unborn baby and, subsequently, the SP and newborn baby, are paramount and will be safeguarded in accordance with the law.

(4) That unless they volunteer otherwise, a SP who returns to work after a period of maternity leave will not be deployed on operations and exercises either overseas or in the UK for a period of at least six months following the birth[1], although they will be liable for the full range of remaining duties (compatible with any health and safety or medical grading restrictions).

(5) That upon pregnancy, a SP may choose to leave the Service prematurely on the grounds of pregnancy.

(6) That, from the end of week 25 of pregnancy, the SP must formally declare the pregnancy to the employer (using form Mat B1) in accordance with JSP 950 Part 1 Lft 6-7-7 - Joint Manual of Medical Fitness (Appendix 1 to Annex J – 5-J-A-1 to 5-J-A-13).

d. It is important that those dealing with a pregnant SP, parents embarking on Shared Parental Leave (ShPL) or Service personnel undergoing the adoption process, do so in a professional yet compassionate manner. Being treated in a positive manner will reinforce the individual's feeling of being a valued member of the Royal Navy and they are more likely to return to work on completion of their leave. Fundamental is the recognition and respect of a Service Person's legal right to take statutory maternity, paternity and adoption leave and some additional unpaid maternity leave, as well as their right to return to work after having a child.

e. Pregnancy and maternity are classified as Protected Characteristics under the Equality Act 2010 which means that it is unlawful to discriminate against, harass or victimise an individual or treat them unfavourably as the result of a pregnancy or a related illness, or because they are exercising, have exercised or are seeking to exercise their right to maternity leave.

f. Practical information and guidance for SP and line managers is available through regional Parenting Support and Information Team (PS&IT).

[1] This is increased to at least twelve months from the birth of the child for the Royal Navy (Para 3508.g sub para (1)).

3502. Maternity

To enable the DO/LM to offer guidance and counselling, an outline of the actions a SP should take to complete the Maternity Routine is given below:

a. **Confirmation and Declaration of Pregnancy.** The pregnancy must be confirmed by a unit Medical Centre. A Certificate of Pregnancy (FMed 790) will be issued once the SP is ready to declare their pregnancy and the Medical Centre will raise a signal changing the SP's Medical Category. (This will be a pregnancy specific MedCat but the Medical Centre may use an alternative non-specific MedCat if there is a need to keep the pregnancy confidential). The SP should then report to the Maternity Desk in the nearest shore-side UPO/Admin Office and advise that they have formally declared their pregnancy.

(1) If the SP does not wish the pregnancy to be disclosed, it is imperative that this right to privacy is respected and the pregnancy should not be discussed with anyone else without their consent.

(2) The right to privacy from declaration will cease from the end of week 25 of the pregnancy, in line with the detail at Para 3501 sub-para c(6), whereby the SP must be medically downgraded as Medically Non-Deployable (MND) with Medical Employment Standard E6.

b. **Sea Goers.**

(1) If a pregnancy is confirmed whilst at sea, the SP should be transferred ashore from the ship/submarine at the earliest operationally convenient opportunity. Pregnancy is not a medical emergency and does not require instant removal from the ship/submarine. Transferring a pregnant SP ashore is a Health and Safety precaution and aims to protect the individual and the unborn child from any possible risks caused by sea service; this action should be fully articulated to the individual by the DO/Tp Cdr. If the SP is serving in a submarine BRd 9902 Section 6 gives guidance.

(2) If the ship/submarine is alongside the SP may opt to remain on board; this is subject to a risk assessment being conducted and the SP accepting its results. Consideration is to be given to adjusting their role for the SP to remain in post. The DO should read JSP 375 Part 2 Vol 1 Ch 20, the MOD Health and Safety Handbook Guide for further information on Risk Assessments. See also sub para e below. SP can remain on board up to the end of the 25th week of pregnancy or until the individual feels that it is becoming too awkward to move around the ship/submarine. They must be transferred ashore, however, if the ship/submarine proceeds to sea at any point.

(3) A pregnant SP who is transferred ashore should report to their base port Career Management Cell (CMC) where they will complete a joining routine as part of the managed move from the ship. This will include making contact with the relevant Personnel Support Group (PSG) or Recovery Cell (RC) in accordance with Para 3508. The PSG or RC, in liaison with the CMC , will make arrangements for employment ashore or find suitable alternative employment. Alternatively, a pregnant SP may request a shore assignment which will be considered by the relevant desk in the same manner as any other application. If the request is approved, normal assignment action is to be completed by the ship/unit.

c. **Phase 1 Training.** Specific direction on the management of a pregnant SP during Phase 1 training is at Annex 35D.

d. **Health and Safety.** A Health and Safety Risk Assessment (RA) of a pregnant SP's work-place is a mandatory legal requirement. This RA is in addition to the generic assessment carried out for a place of work and is individual to the pregnant SP. The SP should complete Annex 35E requesting an assessment be conducted. It is the responsibility of the DO and departmental Health and Safety Officer to ensure that this is undertaken as per JSP 375 Part 2 Vol 1 Ch 20. A standard risk assessment form is to be used and the assessment must be carried out by a qualified risk assessor and be reviewed at regular intervals as the pregnancy progresses. If at sea, a risk assessment should be carried out to cover the period until the SP is transferred ashore. Once the outcome has been discussed, both the SP and the unit Health and Safety Officer should sign the form, the SP will annotate the form to acknowledge that they have understood its contents and had any risks explained. Copies of the risk assessment must be retained by the unit or building manager, the LM/Tp Cdr/DO and the SP. Irrespective of the nature of the current assignment, consideration must be given to adjusting the SP's to enable them to remain in post, should they wish to do so.

e. **Maternity Notice Form.** It is a legal requirement for a SP to inform their employer of a pregnancy and future work intentions by the 15th week before the baby is due. The SP has the option to leave the Service on pregnancy, or to return to work after a period of paid Ordinary Maternity Leave (OML) (up to 26 weeks), Additional Maternity Leave (AML) (26 weeks from the end of OML) and/or Parental Leave. SP should be encouraged to notify their employer of their intentions by completing one of the Maternity Notice Forms (which are available on JPA or by hard copy in the maternity office) as early as possible. Once completed, the Maternity Notice Form, together with the MAT B1 certificate if available, should be handed to the Maternity Writer. (The MAT B1 form will be issued by a midwife/GP no earlier than 20 weeks before the baby is due, but should be issued no later than week 25 of the pregnancy). UPO Maternity Desk staff will then raise a Confirmation of Entitlement letter which the SP will need to take to their DO/Tp Cdr/LM. The DO/Trp Cdr/LM will retain a copy of the letter for their records as required. A copy of the Maternity Notice Form, Mat B1, and the letter should be retained by the Maternity Desk and the PS&IT DO.

f. **Maternity Uniform.** Several Uniform Clothing Stores (UCS) now keep a stock of maternity uniform in the more common sizes but if it needs to be ordered, delivery times can vary from 2 to 12 weeks. Maternity uniform is to be ordered as soon as possible in the pregnancy and worn when normal uniform becomes uncomfortable. Maternity uniform can be ordered via the My Navy app. An FMed 790 (issued by Sickbay on confirmation of pregnancy) is required to collect maternity uniform. Alterations can be arranged through the clothing store. For further information see Para 3815.

g. **Accommodation.** The tri-Service Accommodation regulations are set out in JSP 464 Part 1. If a pregnant SP is single, or has an entitlement to Single Service Accommodation (SSA), they may either continue to occupy accommodation up until leaving the Service, or, if they are remaining in the Service, apply for Service Family Accommodation (SFA) into which they can move from three months prior to the expected date of childbirth.

h. **Medical Examinations.** A pregnant SP must have a medical examination prior to proceeding on maternity leave. They must also have a Return to Work Medical as soon as practicable on returning to work.

i. **Maternity Mortality.**

(1) A miscarriage occurs when the body terminates a pregnancy on its own before the pregnancy has carried to 24 weeks. A SP who has a miscarriage will not be entitled to maternity leave or pay, but normal sick leave provisions will apply.

(2) Stillbirth is when a pregnancy has carried to 24 weeks or more, but the baby dies before it is born. In such circumstances a SP will qualify for maternity leave and pay.

(3) Perinatal death occurs when a baby is born after 22 weeks gestation, who is alive for even an instant but dies within 7 days, the rules for a live birth will apply.

(4) Infant death can occur in babies aged 8 days – 1 year. This may have been expected, in the case of significant medical disabilities, or unexpected such as Sudden Infant Death sometimes known as “Cot Death”. If the baby dies in any of these circumstances during maternity leave, the rules for a live birth will apply. If this occurs after 1 year of age AFOMS entitlement is no longer applicable but other types of leave (i.e. sick leave and compassionate leave) should be offered to the SP.

(5) Ectopic pregnancy is most likely to be diagnosed before 12 weeks gestation. An ectopic pregnancy is where the baby has developed outside of the womb. This can be a life-threatening emergency for the SP requiring immediate surgery or medical management, ending the pregnancy.

j **AFOMS.** The following is a Summary of the Regulations for Babies born under AFOMS.

Table 35-1. Maternity Provision

Length of Service	Maternity Provision
All SP, regardless of length of service	Up to 52 weeks of maternity leave. This is made up of 26 weeks of OML and 26 weeks of AML. The first two weeks after the birth count as compulsory maternity leave and it is a legal requirement that SP must not work during this time. Annual Leave continues to accrue throughout the entire period of maternity leave , both paid and unpaid periods.
A SP with less than 26 weeks continuous service by the Qualifying Week (Note 1) (whether or not they intend to return to service) and who is still serving in the Qualifying Week.	Up to 52 weeks of maternity leave. This is made up of 26 weeks OML and 26 weeks AML. The SP will not be entitled to enhanced pay under the AFOMS during OML; nor will they be entitled to SMP (Note 2). However, depending on individual circumstances they may be entitled to other State benefits.
A SP with 26 weeks or more but less than a year's continuous service by the Qualifying Week and who is still serving into the Qualifying Week (whether or not they intend to return to Service following maternity leave).	Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During OML they will not be entitled to enhanced maternity pay under the AFOMS but may be eligible for SMP, which is payable during the 26 weeks of OML and first 13 weeks of AML.
A SP with a year's continuous service by the qualifying week, who is still serving into the qualifying week and who states their intention to return to duty following maternity leave for a minimum period of 12 months	Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During the 26 weeks OML they will be entitled to full normal pay and the first 13 weeks of AML will be paid at the standard rate of SMP. The remaining 13 weeks will be unpaid.
A SP with a year's continuous service by the qualifying week, who is still serving into the qualifying week and who chooses not to return to duty.	Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During the 26 weeks OML and the first 13 weeks of AML they will be entitled to receive the standard rate of SMP. The remaining 13 weeks of AML will be unpaid.

Notes:

1. *Qualifying Week: 15th week before the week in which the baby is due.*
2. *SMP: Statutory Maternity Pay.*

3503. Adoption

The Armed Forces are committed, wherever possible, to providing supportive arrangements for personnel adopting children. It is important to stress that this provision relates only to adoption placements organised through legally recognised adoption agencies and to children placed for adoption within Great Britain. It does not, for example, apply in a case where a step-parent adopts a child after marrying the biological parent or after forming a civil partnership. Adoption Leave is open to both male and female Service personnel, but only one parent is eligible for Adoption Leave/Adoption Pay. Both parents would be entitled to SPL as described at Para 3507.

a. **Adoption Notice.** It is in the interests of both the Service and the individual concerned to give as much notice as possible of the intention to take Ordinary Adoption Leave (OAL) or Additional Adoption Leave (AAL). In any event, a minimum of at least 28 days' notice should be given by Service personnel requesting OAL or, in the event of notification of placement being at shorter notice, as soon as is reasonably practical.

b. **Adoption Leave**. All qualifying SP are entitled to take up to 52 weeks of adoption leave as described in JSP 760 Chapter 25. A Primary Adopter (the one taking adoption leave) may apply for paid time off to attend up to five pre-adoption appointments and the other parent can apply for paid time off to attend up to two adoption appointments (using JPA Form R001) unless this is not possible for Service reasons (JSP 760 Chapter 25); this entitlement is applicable after the person adopting has been matched with a child. There is no entitlement to additional leave to attend appointments prior to being matched with a child, however, SP undergoing adoption application process may wish to consider formally approved flexible working arrangements to facilitate this process (see JSP 750 for further information).

c. **Accommodation.** Service personnel who are adopting are entitled to occupy SFA from the date of approval given for the need to establish a home, prior to any child being placed with the adoptive parent.

d. **Appraisal Reports.** See JSP 757 Pt 2 Vol, 1 Annex A Para 1(c) (OJAR) and Annex B Para 1(d) (SJAR).

3504. Surrogacy

Parents entering into surrogacy arrangements have the same rights as adoptive parents regarding maternity/paternity leave allowances. JSP 760 chapter 26 holds the policy on surrogacy in UK and overseas.

3505. Assisted Conception

It is recognised that the processes associated with assisted conception treatment may affect the functional capacity and deployability of SP. JSP 661 Chapter 2 provides policy and guidance to SP and line management regarding Assisted Conception. This includes guidance on the provision of geographical stability and leave to access treatment. SP undergoing assisted conception may require greater protection; individuals and line management should seek risk assessment and note that temporary medical employability limitations may be necessary. Further information can be found within JSP 950 Leaflet 6-7-7 Chap 5 Annex J and JSP 661 also provides guidance for Service Parents regarding arrangements for NHS Infertility Treatment where Armed Forces Compensation Scheme (AFCS) applies.

3506. Paternity Leave and Pay

a. As with Maternity Leave, there are other conditions which need to be met in order for a person to be entitled to Paternity Leave and the DO/LM must refer to JSP 760 Chapter 27 . Paternity Leave is still applicable in cases of adoption and Para 3503 gives further details.

b. **Ordinary Paternity Leave.** Two weeks Ordinary Paternity Leave (OPL) is a statutory entitlement and the entitlement applies when a person is:

(1) The biological non-primary carer of the child with the responsibility for the child's upbringing.

(2) Not the biological parent of the child but is married to or in a civil partnership with the other parent and has or will have (apart from any responsibility of the other parent) the main responsibility for the upbringing of the child.

(3) Not the biological parent of the child but who lives with the other parent and the child in an enduring family relationship and is not an immediate relative of the other parent and has or will have (apart from any responsibility of the other parent) the main responsibility for the upbringing of the child. An immediate relative includes a parent, grandparent, sibling, aunt or uncle and includes relationships of both full and half blood.

3507. Shared Parental Leave (SPL) and Shared Parental Pay (ShPP)

a. The DO/LM and CM need to be aware of the policy on for SPL and ShPP and must read JSP 760 Chap 28. The Armed Forces Occupational Shared Parental Leave Scheme (AFOSPLS) allows eligible parents to choose how to share the care of their child in the first year of the child's life or the first year after a child's placement for adoption. Eligible Service personnel can end their maternity or adoption leave early and, with their spouse, civil partner, partner or the other biological parent with responsibilities for the care of the child, opt to take SPL instead of Maternity Leave. SPL attracts ShPP which is payable at an enhanced rate (full daily rate of pay) or statutory rate, providing that both parents meet certain qualifying and eligibility criteria. The current statutory rate of ShPP can be obtained from the UPO Maternity Desk. The maximum SPL available is 50 weeks and the maximum ShPP available is 37 weeks.

b. A Service person can receive 26 weeks of full pay if they are pregnant or adopting or allowed to undertake SPL whilst on a Career Intermission (CI), in accordance with JSP 760, Chapters 24 and 25, but only if they agree to return to work on completion of their CI.

c. Anyone considering applying to take SPL should read the JSP 760 Chap 27 carefully and discuss their plans with their DO, their PS&IT Office and their Career Manager at the earliest opportunity, noting that individuals must give at least 15 weeks' notice before commencement of any SPL.

3508. Career Management

a. An individual is not required by law to inform their employer of their pregnancy until the 15th week before the baby is due. However, in an effort to assist both the individual and the Service in future planning, SP are strongly encouraged to inform their DO/Tp Cdr/LM and Career Manager/Adviser of pregnancy as early as possible. This will allow a realistic forecast of future assignment to be given to inform their decision making. In addition, it will ensure that the Royal Navy is able to fulfil its legal obligations under the Health and Safety at Work Act to both the SP and the unborn child.

b. It is important that the SP attend a meeting with their Career Manager (no later than 15 weeks prior to EWC). This will enable discussions over future employment which will enable them to secure housing, childcare setting and support network in the appropriate location. It is the responsibility of the DO/Tp Cdr/LM to ensure that this takes place. This interview is to include, but not be limited to, the following:

(1) Acknowledgement of their geographical and assignment preferences.

(2) Discussion of sea and/or operational service preferences and the impact that deferring this service may have on their career.

(3) Acknowledgement of proposed return to work date and likely career opportunities on their return to work. This may be particularly difficult given the timeframe of maternity, adoption or shared parental leave but the Career Manager should make every effort to ensure that the SP can begin to make childcare arrangements before the child arrives.

(4) If the other parent of the baby is also serving in the Armed Forces, they can apply for Dual Serving Parents (DSP) status[2]. Unless registered, both partners (if Royal Navy) will be liable for sea going service – see Para 5808 for more detail.

[2] DSP applies equally to dual serving parents who are married, in a civil partnership, long term established relationship, separated or divorced: the intent of the allowance is to recognise the child who has both parents, or people with legal responsibility for them, serving.

c. DO/LM must make individuals aware that all personnel are expected to continue to meet the full range of Service duties and commitments, including sea service or operational service if so liable and it is likely that, at some stage in their career, they will be required to serve away from home for a protracted period of time**.**

d. The SP will not ordinarily be re-assigned as a result of their pregnancy unless there are health and safety reasons which necessitate re-assignment, or the person requests re-assignment. Any SP who opt to return to work immediately after OML or OAL should return to their original post if possible and if they wish provided that, in doing so, their return does not have an adverse or disproportionate impact on normal assignment practices or operational effectiveness.

e. If a SP is returning after AML, AAL or SPL (see JSP 760 Chapters 24, 25 or 28), the Service will endeavour to meet their geographical and posting preferences in accordance with normal Service arrangements.

f. The appointment/assignment immediately following maternity and adoption leave requires careful thought and planning. Whilst the normal Service arrangements apply, and all Service personnel are expected to continue to meet the full range of Service duties and commitments, Career Managers must consider fully the impact on the new parent and their initial childcare arrangements. In cases where the new parent does not believe that their preferences for the first assignment on return from leave have been fully considered, they may request that a review of the Assignment Order be conducted by the SO1 CM for their specialisation.

g. The Royal Navy has a number of initiatives which might assist in providing support to all new parents in the early months of their return to work:

(1) Unless they volunteer otherwise, an individual who returns to work on completion of maternity leave will not be deployed or drafted to sea going service within 12 months of the birth of their child. Assigning authorities will also, exceptionally, consider applications for a further deferment/break of sea service of up to six months where appropriate shore employment is available. Within the 12 months, and for any future non-sea going assignments, Service personnel (including those who are DSP) will remain liable for the full range of duties including official augmentation[3] and 24-hour base duties. However, personnel who are the primary carers of children (i.e. DSP, PSTAT2), returning from maternity or adoption leave, regardless of gender, will not be augmented as part of a trawl for unofficial augmentation, such as exercises, for 18 months post birth/adoption. PSRs should detail the date of birth/adoption.

(2) Where both parents are serving in the Royal Navy , it may be possible, should they request it, for Career Managers to deconflict future sea/operational assignments. The Career Manager will also seek to deconflict across the Services if possible. Information regarding Dual-Serving Parents (DSP) policy can be found at Para 5808.

[3] An example of an official augmentation is Op Bridge.

(3) Service personnel, depending on their role, may be able to apply for Non-Standard Working Hours (Flexible Working Arrangements and Flexible Service); for further information see Chapter 36 and JSP 750.

(4) The Graduated Return to Work scheme (GRtW) uses an individual's current entitlement of Keeping in Touch (KIT) days and ALA to create a graduated return to the working environment. Individuals who have been on a continuous block of leave for 26 weeks or more may request the option of GRtW. Information on GRtW can be found at Para 3511.

(5) A Royal Navy Parent's Network (RNPN) has been established to offer support and guidance to parents and to allow parents to share experiences and information. The RNPN will not circumvent the responsibility of the Divisional system but aims to support it. Further information can be found through PS&ITs.

h. Any SP who, on completion of their leave, is unable to arrange adequate long-term childcare to allow them to carry out a duty or deploy, should consider their future within the Royal Navy .

3509. Care

It is imperative that the pregnant SP reports to the local Maternity Desk as early as possible. Once the Maternity Desk has begun the administration process, they are to direct the SP to the relevant PS&IT DO. This will be in the Personnel Support Group for those personnel assigned to MA4 DRAKE or NELSON or in the Recovery Cell for those assigned to MA4 NEPTUNE. For personnel who are assigned to RNAS Culdrose, Yeovilton or RAF Marham should wherever possible should remain under the care and management of the Divisional team within their parent Squadron or Unit until they depart on their parenting leave. During their parenting leave, they will be assigned to an MA4 margin. These are attached to the three major waterfront areas and SPs will be assigned to the relevant waterfront depending on their geographical location. It may be necessary to conduct a case conference between the service parent's LM/DO/Trp Cdr and the Parent Support and Information Team (PS&IT) DO, should a service parent be experiencing issues or concerns before they depart on leave . This must be done at the earliest opportunity but no later than Week 26 of the pregnancy or 15 weeks before the service parent departs on their SPL or Adoption leave. The following administrative actions will ensure that the SP receives the appropriate Divisional care.

a. **Divisional Care During Pregnancy.**

(1) The SP is to formally declare their pregnancy by Week 26 (or may do so at any point prior to this). The FMed 790 will be completed by the Medical Centre, which will also raise an appropriate medical downgrade signal (E6). The SP must advise the UPO Maternity Desk or PS&IT office that they have formally declared their pregnancy and will be issued a Maternity Pack.

(2) The Career Manager will take the necessary assignment action on receipt of the medical downgrade signal: if sea going, the SP will be assigned to an appropriate shore authority or, if already on shore, will not be reassigned (unless deemed necessary due to Health and Safety issues). The Career Manager must also inform the relevant PS&IT DO.

(3) The SP must submit their Maternity Notice Form (available either by downloading from JPA or by hard copy in the UPO) to the UPO Maternity Desk no later than Week 25. They must also submit their Mat B1 to the UPO Maternity Desk (issued by a midwife not earlier than Week 20) no later than Week 25.

(4) The Maternity Desk is to forward copies of all relevant paperwork to the JPAC and the relevant Career Manager. The Career Manager will take appropriate assignment action (MA4) and will send copies of the assignment order to the sending DO, PS&IT DO and the Maternity Desk. Assignment action should be completed no later than Week 27 of the SP's pregnancy in order that the relevant administration desks may have early visibility and provide support at the earliest opportunity.

(5) The sending DO for any SP who is proceeding on Maternity Leave is to contact the PS&IT DO and conduct a full hand over. The SP is to contact the PS&IT DO as soon as possible in order to build a rapport and have the opportunity to discuss any concerns and establish the necessary Keeping In Touch details applicable during their leave. For SP embarking on Maternity Leave they are to meet with the PS&IT DO initially no later than Week 27 of their pregnancy and again before proceeding on Maternity Leave. If the other parent of the baby is also serving in the Armed Forces they should also be signposted to their relevant CM to ensure that their DSP requirements are applied to their individual assignment restrictions on JPA.

(6) Appraisal Reports are to be raised in accordance with JSP 757 Pt 2 Vol 1, Annex A Para 1(c) (OJAR) and Annex B Para 1(d) (SJAR).

b. **Antenatal Care.** Pregnant Service personnel and Service personnel with a child through adoption or surrogacy should discuss provision of antenatal care with their DPHC Medical Centre. They are entitled to reasonable time off to keep appointments for antenatal care made on the recommendation of a registered medical practitioner, midwife or health visitor. This can include attendance at relaxation and parent-craft classes as well as medical examinations. If necessary, they can be asked to provide written proof of their appointment. Once the Medical Officer has confirmed the pregnancy, they will advise the pregnant SP to make contact with a midwife for antenatal care. This may mean that they will have to register as a 'Temporary Patient' at a local NHS GP surgery. The Service MO retains responsibility for all Service medical and Occupational health needs throughout pregnancy, and if the SP lives locally to the Waterfront or Air Station, they can continue to access support from a MO throughout their maternity leave. If the SP is not close to a Waterfront or Air Station during their leave, then they can continue to access support from their Temporary GP and they will generally fall back under Service MO for all their health care after their six-week post-natal check.

If the SP has the six-week post-natal check conducted by their NHS GP, they should ask their NHS GP for copies of their patient notes which should then be handed onto their DPHC Medical Centre. The pregnant SP must also ensure that they have a pre-maternity leave medical conducted at the Medical Centre prior to proceeding on maternity leave.

c. **Maternity Fitness.** Pregnant servicewomen are encouraged to continue physical training. Cardiovascular, strength and flexibility training are all encouraged. Pregnant servicewomen should seek medical advice. Policy and guidance on the extent and limitations of physical training during pregnancy is contained in JSP 661, Chapter 5.

d. During pregnancy and on Return to Work (RtW) women are at an increased risk of injury. However, physical training during and after pregnancy is encouraged by the NHS and is known to have multiple benefits for servicewomen, including cohesion within their peer group and a reduction in pregnancy-related complications. Physical training benefits mental health and wellbeing and will facilitate a faster return to occupational fitness after pregnancy. Due to an increased risk of musculoskeletal injury women must be provided with a suitable reconditioning programme prior to undertaking military fitness testing and arduous physical training. The RN has a number of Physical Training Instructors (PTIs) qualified in antenatal and postnatal fitness; these instructors have completed the Defence Pre and Post Natal Instructors Course. Pregnant and postnatal servicewomen are strongly advised to contact unit PT office or the RN School of Physical Training at HMS Temeraire for support and advice in maintaining fitness levels during pregnancy and for nutritional and physical wellbeing advice.

e. Information regarding Fitness Test exemption during pregnancy and maternity can be found at BRd 51 Physical Development Manual Ch 2 para 0219 sub-para c(3) and JSP 661 Ch5 Section 2.

f. **Divisional Care during Adoption or Shared Parental Leave.** The following administrative actions will ensure that Service personnel will receive the appropriate Divisional care;

(1) The sending DO for any SP who is proceeding on SPL or Adoption Leave is to contact the PS&IT DO and conduct a full hand over. The SP is to contact the PS&IT DO as soon as possible in order to build a rapport and have the opportunity to discuss any concerns and establish the necessary Keeping In Touch details applicable during their leave. If married to, or in partnership with another SP, the SP should also be signposted to their relevant CM to ensure that their DSP requirements are applied to their individual assignment restrictions on JPA.

(2) Appraisal Reports are to be raised in accordance with JSP 757 Pt 2 Vol 1, Annex A Para 1(c) (OJAR) and Annex B Para 1(d) (SJAR).

(3) The PS&IT DO is to ensure that regular contact with the SP is maintained in order that relevant information (e.g. DINs, RNTMs and briefings) is made available, and issues and concerns are raised early. The sending DO is also encouraged to maintain personal contact with the SP to ensure that they are kept abreast of changes in working practices, included in social gatherings etc. This relationship should be maintained until they return to work or until their next assignment is confirmed.

(4) The PS&IT DO will contact the SP when any Assignment Order is received, ensuring that any additional leave that has been requested is correctly appended and that they are aware of their future assignment or area of employment.

(5) The PS&IT DO is to contact the new employer once the Assignment Order is received to commence a handover with the new DO.

(6) The new DO should contact the SP and (if possible) arrange a meeting to discuss their new role and any concerns that they may have. They may use a KIT Day (see Para 3510) for such purposes.

(7) The new DO should send a formal Joining Letter to the SP confirming their discussion and any induction training and other training requirements.

g. **Parental Coaching and Mentoring.** For those in Base Port areas and Air Stations, a programme of sessions is available for both ante and post-natal SP and Service parents who are on Adoption Leave and SPL. The aim of the programme is to improve the retention of post-natal and post-adoption Service personnel, by offering support and a sense of empowerment about becoming a parent and returning to work. PS&IT Office is to provide information on local sessions to SP under their care and when SP formally declare their pregnancy.

3510. Keeping in Touch (KIT) Days

Under AFOMS and AFOALS, Service personnel may use up to 10 KIT days during their maternity or adoption leave, and a further 20 days during SPL to enable them to return to duty without bringing their leave to an end. These can be used for many reasons, such as to meet with their Career Manager, participate in sport or to meet with their future line manager.

a. KIT days are optional, will not bring an individual's leave to an end and must be agreed with their line management.

b. KIT days must be taken before the Return to Work date (or before any annual leave commences).

c. KIT days cannot be taken during the first two weeks of OML.

d. KIT days can only be taken during the leave period to which they apply. The 10 KIT days can be used during OML, AML, OAL and AAL but cannot be used during SPL, a further 20 KIT days are available for each parent during SPL.

e. KIT days can be used during OML, AML, OAL, AAL and SPL and will be paid at the SP's daily rate of pay (minus the daily drawing rate of the Statutory Maternity Pay), unless they are already receiving full pay. If taken whilst on unpaid AML, AAL or SPL they will be paid at the normal daily rate of pay and will be reckonable for pension purposes. Duty travel can be claimed.

f. Should the SP wish to use KIT days for the purpose of a Graduated Return to Work (GRtW), they should engage with their Career Manager and the PS&IT DO at the earliest opportunity, in order that all leave entitlement and KIT days are used appropriately.

g. KIT days should be claimed using JPA Form R003.

3511. Return to Work Administration

The following administrative routine should be followed to enable the Serviceperson to return to work at the time of their choosing, with all pay and allowances awarded correctly.

a. Eleven weeks before returning to work, the SP will receive a Return to Work letter from the Maternity Desk which articulates their exact return to work date. They must respond to this letter within 28 days which provides ample time to overcome any issues (should their dates be incorrect) and enable them to apply for any additional leave within the current 56 days' notice period.

b. In order to ensure that the relevant pay and allowances are correctly paid, a copy of the Birth Certificate or Adoption Certificate must be forwarded to the Maternity desk as soon as possible after the birth or adoption.

c. Once an Assignment Order is received, the PS&IT DO will contact the SP keeping them informed and will also forward a copy of the Assignment Order to their contact address.

d. The SP must ensure that their PSTAT category is correct. Should this need to be changed or amended, Form JPA N001 should be submitted to the Maternity Desk.

e. JPA is to be populated with details of the dependent children of Service parents. In order to ensure that this is correctly achieved, JPA N005 should be submitted by parents to the Maternity Desk.

f. SP returning from Maternity leave must have a Return to Work medical as soon as possible after returning to work. SP should report to the PT staff to discuss a conditioning programme in preparation for their RN PES.

3512. Graduated Return to Work

The GRtW scheme uses an individual's current entitlement of KIT days and/or ALA to create a graduated return to the working environment, the leave entitlement is taken between one and three days per week in order to achieve the gradual re-introduction to the work-place within 12 weeks of the return to work date. Either parent who has been on a continuous block of leave for 26 weeks or more may request the option of GRtW. An individual considering GRtW should discuss their intention with their CM before they proceed on leave or at least 15 weeks before they would wish to start their proposed GRtW. This should be tailored to suit the needs of both the individual and the Service, and a graduated return will not always be possible. Once the pattern has been agreed, any variation or cancellation must also be agreed between the individual and their CM.

3513. Breastfeeding and Wellness Rooms

a. Defence Breastfeeding Policy[4] outlies that all breastfeeding and pregnant Service Personnel and Civil Servants working on MoD establishments must be provided with a suitable, safe, and private place to rest, express and store milk. The policy supports our commitment to create an inclusive environment for our diverse workforce.

b. Most RN establishments have a dedicated Breastfeeding and Wellness Room in a central location, available for site visitors and personnel working nearby. A dedicated Breastfeeding and Wellness room may not be possible in all locations, but a room that is suitable for the purpose must be identified and made available to breastfeeding personnel when they require it. Where appropriate breastfeeding facilities do not exist, Commands should seek support and advice from the Parent Support and Information Team.

c. **Establishing a breastfeeding facility at a place of work.** Servicewomen returning to work following maternity leave, who intend to breastfeed when they return[5], should contact the PS&IT, no later than 8 weeks prior to returning to work to outline their intent to do so. They must notify the PS&IT of the date they will return to work and the location of their place of work (establishment / building / office). The PS&IT will liaise directly with the Servicewoman's Chain of Command to outline the intent and discuss facilities available. Where no appropriate facilities exist within close proximity[6] of the Servicewoman's ordinary place of work, the Command will be responsible for creating such a facility, with support and advice from the PS&IT. Where possible, the PS&IT will visit any new breastfeeding facilities at least 2 weeks prior to the Servicewoman returning to work; the Command will be responsible for undertaking any remedial action advised by the PS&IT prior to the Servicewoman returning to work. Where established breastfeeding facilities already exist in close proximity of the Servicewoman's place of work, a visit by the PS&IT will not be necessary. The flow diagram at Annex 35F outlines the key stages of this process and provides guidance for establishing appropriate breastfeeding facilities at work.

---

[4] JSP 661 Health and Wellbeing, Chapter 5, Section 5 – Breastfeeding.
[5] Supporting breastfeeding in the workplace does not necessarily mean bringing a baby or child into the workplace to breastfeed them. The term breastfeeding also refers to 'indirect breastfeeding' (the process of expressing breastmilk into a storage container) and 'Pump and Dump' (the process of pumping milk, but then disposing of it, for various reasons, including, keeping breastmilk supply going and preventing breastfeeding complications from developing).
[6] Close proximity means a reasonable distance for the Servicewoman to walk. Ideally, a facility should be available within the building they work or a nearby building.

d. **Breastfeeding Plan and Risk Assessments.** An individualised Breastfeeding Plan[7] should be used to detail plans for breastfeeding provisions and associated breastfeeding breaks. Consideration should be given to how the service person and Line Manager plan for any periods of separation. This should be reviewed every three months or when any changes are required. Ideally, this should be completed at a pre-Return to Work (RtW) interview, but if this is not possible this should be completed on the first day of work. The number and length of breaks required to express milk will vary, with anything from 1-4 breaks. An average break may take between 15 to 60 minutes. Expressing breast milk varies greatly so flexibility should be required from both the service person and their Line Manager to meet personal and employment factors. Failure to abide to an agreed breastfeeding plan may result in medical complications.

e. Line Managers are responsible for assessing the risks to the health and safety of personnel at work, including that of Service Personnel who are breastfeeding. Detailed guidance for LMs/COs on health and safety matters relevant to new and expectant mothers is set out in JSP 375, Vol 1, Chapter 20. MOD Form 5010 (MOD Risk Assessment Form) is to be completed for each assessment. This must be completed by the Line Manager and service person and reviewed every three months, or with any change in job role.

f. There are significant benefits to the service person, their child(ren) and the RN in enabling breastfeeding at work. Commands and Unit Health and Wellbeing Committees should promote and champion a breastfeeding friendly workplace. Further information and support is available through the Defence Breastfeeding Network; they can be located on the following platforms;

(1) Defence Connect: Defence Breastfeeding Network.

(2) Facebook: Defence Breastfeeding Network

3514. Parental Leave

The aim of Parental Leave is to allow Service personnel unpaid leave to care for a child by, for example, spending more time with the child during the early years, to settle a child into new child-care arrangements or to accompany a child during a stay in hospital. This guidance must be read in conjunction with JSP 760 Chapter 28.

a. Parental Leave allows each parent of each child, either natural or adopted, to take 18 weeks unpaid leave up to the child's 18th birthday. Leave is to be taken in periods of no less than one week and a maximum of four weeks can be taken in one year.

b. Time spent on Parental Leave does not count towards seniority, pension or completion of a commission or an engagement. Parental Leave is unpaid and un-reckonable for pension purposes.

c. A request for Parental Leave must be submitted, in writing, at least 21 days before the leave is required.

[7] JSP 661 Health and Wellbeing, Chapter 5, Section 5, Annex A.

3515. Child-Care

It is the responsibility of Service parents to ensure that adequate child-care arrangements are in place before the parent returns to work. In general, throughout main Base Ports, Air Stations and in the London area there is a high demand for places in nurseries, child minders and nannies that can lead to long waiting lists. Parents should therefore be encouraged to start investigating options/making preliminary arrangements for child-care as early as possible and not wait until after the child is born. Regardless of individual circumstances, it is a personal responsibility to ensure adequate long term child-care arrangement are in place to undertake the full range of service commitments; Royal Navy Family and People Support (RN FPS) and the Naval Family Federation (NFF) can offer advice if required. Where SP are unable to arrange adequate child-care, such that it adversely affects their ability to meet Service commitments, they may be required to consider their future in the Service. The DO/Tp Cdr/LM should also encourage Service personnel to consider the longer-term career plan at this stage; this can be carried out in conjunction with the CMC/Career Manager. Service personnel should be made aware of the Tax Free Child Care Scheme (information available on Government Websites) and also Wrap Around Childcare scheme (when eligible). Information on local childcare provision and Wrap Around Childcare Scheme, can be sourced from RN FPS Information Officers and also Naval Family Federation (NFF).

3516. Temporary Child-Care Issues - Exemption from Overnight/Out of Hours Duties

a. Whilst it is the responsibility of the Service parent to ensure adequate child-care arrangements are in place, the RN recognises that at times, establishing a new childcare provision, or reacting to events that may impact on existing childcare provision may require a period of time to enable alternative provision to be put in place. Service parents may, on occasion, face particular challenges in conducting overnight/out of hours duties[8] in particular. These scenarios include, but are not limited to;

(1) Where the Service parent is a single parent, and the parent needs to establish provision to cover childcare out of usual daytime hours. This may include new parents and/or parents that have recently moved Base Port area away from previously established support.

(2) Where the Service parent has recently separated from the other parent or caregiver, in circumstances where there is safeguarding concern, e.g. domestic abuse, alcohol and/or drug dependency and time is needed to establish alternative provision.

(3) Where there is long term illness affecting the other parent or established caregiver that would ordinarily provide child-care.

(4) Where there has been bereavement of the other parent or established caregiver that would ordinarily provide child-care

[8] Out of hours duties may include attending events or meetings outside normal working hours.

b. In these circumstances, the CO may exceptionally agree that the Service person should be exempt from keeping overnight/out of hours duties; this exemption may be in place for up to 6 months, but may be extended at the COs discretion. This period of exemption is intended to provide a period of stability for the family and to allow sufficient time to make arrangements for alternative overnight child-care when the exemption terminates. All scenarios must be considered on a case-by-case basis and advice should also be taken from RN FPS.

ANNEX 35A

CARE OF PREGNANT SERVICE PERSONNEL AT WORK

1. Introduction.

Pregnancy is not an illness and many individuals will enjoy the experience without suffering any major problems. However, the DO/Tp Cdr/LM should be aware that some people will experience changes to their physical well-being which may affect their ability to work, even if it is only increasing tiredness. Service personnel are usually keen to ensure that they continue to work a normal daily routine and do not want to be treated differently from their colleagues. Good communication between the Service person (SP) and their DO/Tp Cdr/LM will ensure that this can be achieved. Work flexibility, individual risk assessments and the provision of suitable facilities are essential elements in protecting the health, safety and welfare of the pregnant SP and the unborn baby. Should a DO/Tp Cdr/LM have any concerns about the health and welfare of a pregnant SP, they are to seek the direction and guidance of the Medical Staff.

2. Physical Changes.

Some physical changes that a pregnant SP may experience and the effects are given in the table below:

Physical Change	Possible Effects	Solutions
'Morning Sickness' - can occur at any time of the day. Common in the early stages of pregnancy but can last throughout the pregnancy.	Feeling nauseous through to extreme vomiting that requires medical attention.	Access to fresh air. Adjustment to working hours. Ability to have a rest.
Extreme Tiredness - the body is working very hard.	Risk of falling asleep while working or travelling. Lack of energy.	Regular Breaks. Access to fresh air. Adjusting working hours. If possible, find somewhere for individual to rest during lunch break.
Hormonal Changes.	Joints and Ligaments loosen and become easier to strain and pull. More susceptible to stress and anxiety. Mood swings.	Avoid lifting and stretching. Adjustment to duties to avoid stressful situations. Understanding and support from DO/LM.
Circulation system has to work harder.	Varicose veins, haemorrhoids, swollen ankles and cramp.	Ability to put feet up. Regular breaks. Exercise to feet and legs.
Increased blood flow.	Dizziness.	Plenty of fluids. Access to a seat and fresh air.
High Blood Pressure.	Can be very dangerous in the latter stages of the pregnancy (Pre-Eclampsia).	It may be necessary for the individuals to take time off work and have total bed rest for a while. Work situations that are stressful and may increase blood pressure should be avoided if possible.

(Continued)

Physical Change	Possible Effects	Solutions
Low Blood Pressure.	Dizziness and tiredness.	As above. Regular snacks to maintain blood sugar levels. Access to a rest area.
Increase in body fluids.	Swollen ankles and wrists. Painful wrists (Carpel Tunnel Syndrome).	Access to a seat. Plenty of fluids. Regular Breaks. Individual may have to wear alternative footwear.
Weight distribution and changes to the centre of gravity.	Danger of losing balance and falling. Difficulty moving around. Backache.	Avoiding stairs, ladders and working from heights. Access to a comfortable seat – cushions and back rests.
Expanding uterus puts pressure on the bladder.	Discomfort. Bladder infections. Need to go to the toilet often.	Ensure work space has access to a toilet. Ensure working patterns allows regular breaks to go to the toilet.
Metabolic rate increases.	Overheating/heat stress. Fainting.	Plenty of fluids. Avoid temperature extremes.

ANNEX 35B

SOURCES OF SUPPORT APPLICABLE TO MATERNITY, SHARED PARENTAL, ADOPTION AND PATERNITY LEAVE

1. The Royal Navy is fully committed to providing, wherever possible, supportive arrangements to accommodate pregnancy and maternity leave, Shared Parental Leave, Adoption Leave and Paternity Leave, within a Service Person's (SP) career. All the sources of support listed below will be able to offer either advice or counselling to relevant SP. If an individual wishes to seek further help, then the DO/Tp Cdr/LM should offer the following as possible sources of assistance.

2. Divisional System

a. It is quite likely that a pregnant individual will seek advice from their DO/Tp Cdr/LM and it is therefore necessary for them to have an understanding of the issues involved, including the routine a SP must follow once they have announced the pregnancy. A DO/Tp Cdr/LM must also ensure that they are fully aware of the legal rights of both a pregnant SP and serving parents to ensure that they do not suffer any form of discrimination. Individuals should feel confident in approaching their DO/Tp Cdr/LM whenever the need arises; refer to Para 2121 for further guidance on counselling. If a DO/Tp Cdr/LM is approached by a SP for help and advice yet feels unable to provide adequate counselling in certain sensitive areas, advice should be sought from e.g. chaplains, RNFPS or medical staff.

b. The DO/Tp Cdr/LM should provide all the necessary support and direction and guidance to ensure that the SP is appropriately signposted for relevant information. Information can be found through the PS&ITs and also through RNFPS (which may also signpost to appropriate external authorities in cases of Adoption). The DO/Tp Cdr/LM should always reiterate to the service person that SPL, Adoption Leave and also Paternity Leave are subject to recall (although recalling a SP from SPL, Adoption Leave and Paternity Leave would only be considered in an operational pinch-point or need of the Service which would be supported through the chain of Command), as the impact on the family unit and the adverse effect on any child-care provision is fully appreciated.

3. Defence Medical Services (DMS), Defence Primary Health Care (DPHC) and Civilian Medical Services

SP will be advised to register with a NHS GP in the area in which they plan to give birth, to register for ante-natal care. This will mean registering as a temporary patient. Midwives are often linked to local NHS GP Surgeries but sometimes work as part of a specialised team in Community Health Centres. If the SP is concerned at any time about the care and treatment they are receiving, they should contact their DPHC Medical Centre. It is essential that a SP maintains good communications with both their civilian and Service healthcare professionals and should be aware of the importance of attending all medical appointments, ensuring their Maternity notes are taken to all appointments (either paper or electronic). This ensures that the SP is provided with appropriate ante-natal care and linked with a local Health Visitor. Due to the administration processes undertaken by NHS GPs and DPHC Medical Centres, SPs who register as temporary patients can occasionally find that they have been erroneously discharged or unregistered as a patient.

This can be for a number of reasons, such as DPHC medical centres having to update the SPs military medical records, or the NHS GP surgery identifying the SP as a member of the Armed Forces (therefore considered as being already registered as a patient elsewhere). Although frustrating, if the SP finds themselves “unregistered”, they will be able to temporarily re-register as a patient. If the SP experiences difficulties, then they are to contact their DPHC Medical Centre as soon as possible. If the SP does remain under the NHS GP after the birth of the baby, they will generally be discharged from the care of the NHS GP after their six week post-partum check. However, if the SP is geographically isolated from any DPHC medical centres they may remain registered with an NHS practice for the duration of their maternity leave. If the SP has received any treatment whilst temporarily registered, they should request transcripts of any treatments received so that this can be included in her military medical records. Alternatively, NHS Direct is a one stop shop for all medical matters and can give some initial medical guidance, advice and reassurance (NHS 111 or NHS Choices). SPs who remain in the locality of a waterfront, Air Station or close to another Military establishment during their maternity leave may opt to remain under the care of the DPHC Medical Centre throughout. Their DPHC Medical Centre retains primacy over all general medical matters and the SP should contact their Medical Centre to inform them of any medical care received via the NHS (which can be related or unrelated to the pregnancy).

4. Chaplaincy

If a SP needs further help or counselling during pregnancy, maternity, shared parental or adoption leave, they can discuss matters with a Chaplain in strict confidence.

5. Royal Navy Family and People Support (RN FPS)

RN FPS provides an accessible and confidential service across the UK and overseas in these key areas: Specialist Welfare; Advice and Support to the Executive and Divisional/Regimental system; a network of Community, Information and Communications workers as well as links to Family Support Workers.

a. RN FPS Officers are available as and when information is required, and can be useful when relocating, when looking for a specific service, or seeking the answer to any question. Information Officers will assist by providing an impartial response and, if necessary, will signpost to specialist welfare staff or refer to another agency. Online information is also available on the intranet, internet, Facebook and Twitter. These communication channels are used to provide accessible information support for those living in the UK and overseas.

b. If an individual needs specialist support due to personal issues or concerns that cannot be resolved by Primary Welfare (Divisional, Medical or Pastoral Support), RN FPS are available to support and offer guidance, whilst also providing a link between the SP and their family in times of difficulty; they may be contacted via the RN FPS Portal on 0800 1456088.

6. Naval Families Federation (NFF)

The NFF represents the views and concerns of all family members to the Naval authorities and at ministerial level and acts as an effective two-way communication between families and Service and civilian agencies. The NFF will assist in empowering families to seek help, advice and information by acting as a signpost to relevant organisations. The NFF is located within Building 25, HMS EXCELLENT, Portsmouth, PO2 8ER, Tel No. 02392 654374, website address www.nff.org.uk.

7. Forcesline

Forcesline offers confidential and impartial advice available from specialist civilian advisers by dialling Freephone 0800 731 4880 - 1030 to 2230, seven days a week. They will discuss any issue which may be causing concern or personal distress. Operators will endeavour to identify possible sources of support or resolution, but no direct action will be taken by the Supportline. Callers may remain anonymous and no names are taken.

8. The White Ensign Association

The White Ensign Association is a registered charity and was originally set up to provide a financial advisory service of the highest caliber for all serving and retired personnel of the Royal Navy, the Royal Marines, the former Queen Alexandra's Naval Nursing Service, the Women's Royal Naval Service and their respective Reserves. Over the years the role has developed and expanded to include the provision of assistance in resettlement, employment in civilian life and as a source of advice for personal issues. The contact details are at Chapter 32 and www.whiteensign.co.uk.

9. There are numerous non-Service related organisations and websites that can offer advice and guidance on parenting related issues.

ANNEX 35D

MANAGEMENT AND CARE OF PREGNANT SERVICE PERSONNEL DURING PHASE 1 TRAINING

1. The management and care of pregnant Service Personnel (SP) in Phase 1 Training should closely follow the policy and guidance contained within Chapter 35 and JSP. A Phase 1 Recruit/Officer Cadet (OC) is a member of the Armed Forces and therefore is to be afforded all the rights contained within this chapter, regardless of how long they have served. During Phase 1 Training, however, there are some additional management considerations, especially for U18s, and line managers/Divisional Officers should refer to local policy. If the pregnant SP does not wish their pregnancy to be disclosed to others, it is imperative that this right to privacy is respected and the pregnancy should not be discussed with anyone else without their implicit consent.

2. Ultimately, the duty of care over the pregnant SP rests with the Commanding Officer but management is to be administered by the Divisional Officer. All personnel who manage pregnant SP are to do so in a professional yet compassionate manner and no SP are to be treated less favourably because of their pregnancy or for any other reason related to pregnancy.

3. As soon as a recruit/OC declares that they are pregnant, then they should be temporarily withdrawn from the training programme. Due to the physical and stressful nature of Phase 1 Training, this is a health and safety precaution, as the Royal Navy has a responsibility to ensure that no harm comes to the pregnant individual or the unborn child. This should be clearly articulated to the individual.

4. Option to Remain in Service

a. Should the pregnant SP decide they wish to remain in the Service then, where appropriate, they should be employed within the training establishment on duties that do not place them or the unborn child at risk. The SP may remain in these duties until they proceed on maternity leave.

b. The individual should return to training at a mutually agreed and appropriate point in the training cycle, acknowledging that it may well be in excess of 12 months since leaving training with the attendant loss of knowledge. However, an individual can legally return to training after a minimum of two weeks after the birth of the child. Every SP returning to Phase 1 Training on completion of maternity leave must be given a post-natal medical examination and the Command must be entirely satisfied that it is safe for them to continue with Phase 1 Training.

5. Option to Leave the Service

Upon pregnancy, SP may exercise their right to leave the Service prematurely and they can leave at any time. Any administrative action should be carried out swiftly whilst affording the necessary duty of care to the individual.

ANNEX 35E

REQUEST FOR RISK ASSESSMENT (RA)

1. Introduction

It is a legal requirement that an individual RA is to be carried out for every pregnant service person (SP) and those returning from maternity leave. This form should be used to request an individual RA as early as possible in the pregnancy. It should be carried out by a qualified Risk Assessor and should be in accordance with JSP 375 Management of Health and Safety in Defence: Guidance Part 2 Vol 1 Chapters 8 and 20. The RA should be kept under constant review, as the identified risks to the individual and the foetus will vary during the different stages of pregnancy as dexterity, agility, coordination, speed of movement and reach may be impaired. Work flexibility, individual RAs and the provision of suitable facilities are essential elements in protecting the health, safety and welfare of the pregnant SP and foetus.

2. Physical Risks

Some physical changes that a pregnant SP may experience and their effects are given in Annex 35A. In carrying out the individual RA, particular attention should be paid to the actual tasks that the SP has to perform and working hours expected to ensure any risks associated with these are adequately controlled. This should be regarded as an ongoing process throughout the course of the pregnancy as the capabilities of the SP may be significantly reduced as the pregnancy progresses.

3. Administration

The pregnant SP should be fully involved in the RA and copies should be held by the SP, DO, and building manager (if appropriate). There is no single generic risk assessment form for pregnant SP and those returning from maternity leave, as all work environments are unique. The DO must ensure that a qualified Risk Assessor carries out the individual RA in addition to the generic RA in place for all personnel. The SP is to annotate the form to acknowledge that they have understood its contents and had any risks fully explained.

I hereby request that an Individual Risk Assessment be carried out in order to protect myself and foetus from any risks associated with my work.

Signed: ..... *Requester*

Name: ..... Rank/Rate: .....

Service Number: ..... Date: .....

Signed: ..... *Divisional Officer*

Name: ..... Rank/Rate: .....

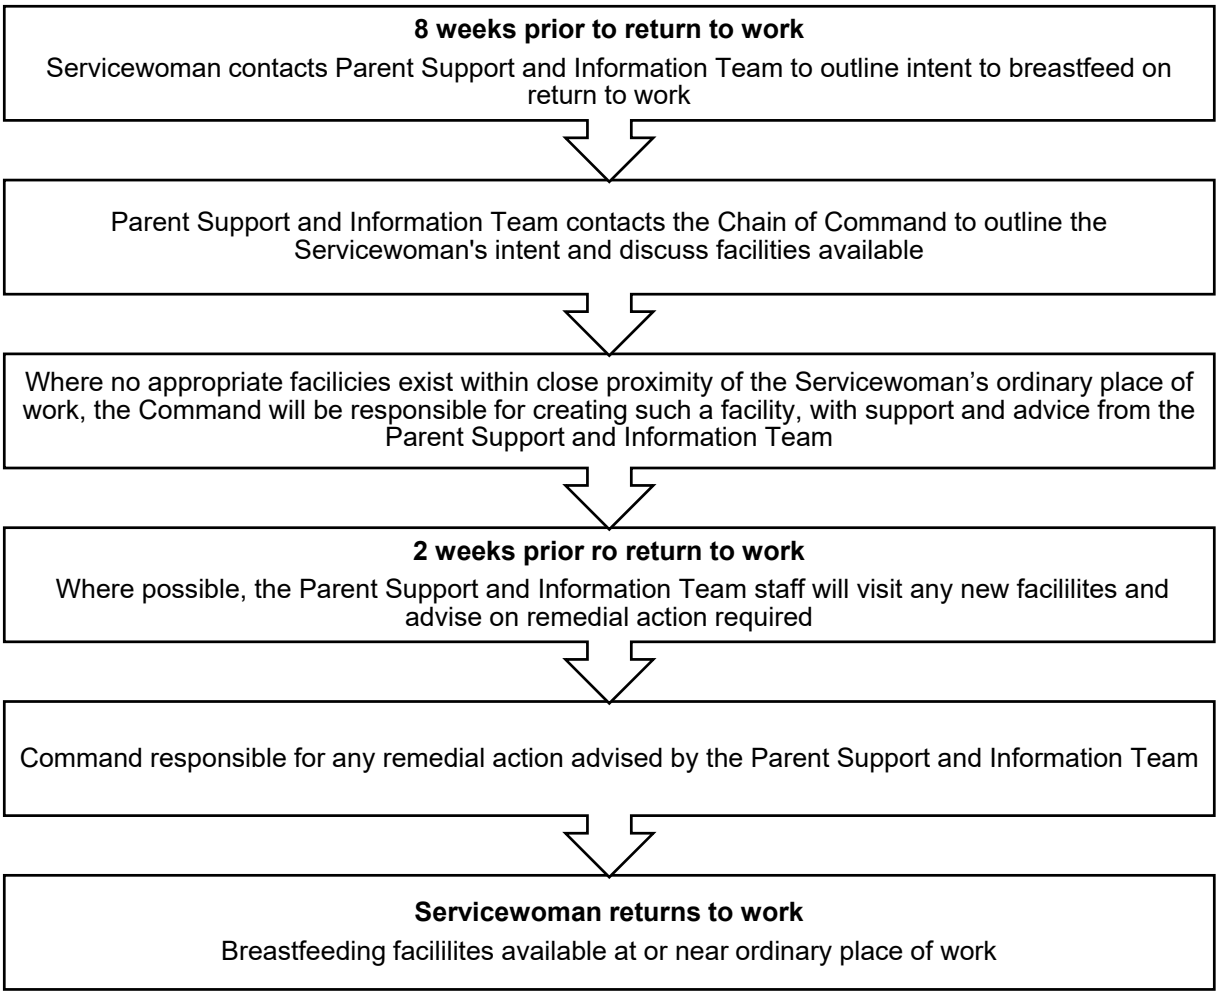
ANNEX 35F

BREASTFEEDING AND WELLNESS ROOMS PROCESS AND GUIDANCE

1. Establishing a breastfeeding facility at a place of work.

The flow diagram below outlines the key stages of establishing a breastfeeding facility at a place of work.



2. The following guidance is provided for establishing appropriate breastfeeding facilities at work;

a. **Location.** The room should be in close proximity to the Servicewoman's ordinary place of work. Larger establishments may require more than one room; larger Breastfeeding and Wellness rooms in central locations, and smaller private rooms to meet the needs of Servicewomen across the establishment.

b. **Space.** Sufficient space for comfortable chair/sofa, fridge, table/countertop as a minimum.

c. **Power Supply.** An electrical supply is required for a fridge and pumping equipment used to express breastmilk.

d. **Water.** Clean water must be located nearby, to enable hand washing and cleaning of equipment.

e. **Doors and Windows.** The door must be lockable from inside and windows must be fitted with blinds or curtains to maintain privacy.

f. **Maintenance and Cleaning.** Local arrangements in place for cleaning and laundering of soft furnishing[1].

[1] This should be arranged through the Cleaning Contract Manager.

CHAPTER 36

HONOURS AND AWARDS IN THE ROYAL NAVY

SECTION 1

INTRODUCTION TO HONOURS AND AWARDS

3601. Introduction

a. Honours and Awards are a means of recognising exceptional achievements over and above that which might be expected by the people of the RN Whole Force[1] in their daily activities. This recognition of gallant, brave, valuable and meritorious service is achieved through a range of Honours and Awards.

b. These range from State level, which includes Periodic Honours (King's Birthday List and New Year Honours List), Operational Honours, the Meritorious Service Medal, and Joint and single Service commendations. There are also many other awards within the Royal Navy and wider Defence that can be utilised to recognise the achievements of our people.

3602. JSP 761 – Joint Policy for Honours and Awards

a. This policy sets out the procedural and administrative arrangements for all State level Honours and higher-level commendations for the Whole Force and provides guidance on the writing of citations. Nominations for State level awards for MOD Civilians is subject to a separate policy supported by an annual calling notice. This chapter specifically covers the policy for the following awards:

(1) Periodic Honours for military and RFA uniformed people (Section 3).

(2) Operational Honours for military and RFA uniformed people (Section 4).

(3) Commendations (Section 5).

(4) Meritorious Service Medal (Section 6).

(5) Long Service & Good Conduct Medal (Section 7).

(6) Good Conduct Badges (Section 8).

(7) Reserve Specific Medals (Section 9).

b. As well as these higher-level awards, there are a variety of other awards available within the Royal Navy and wider Defence that might be suitable for recognising the contributions of our people. A link to a live list of wider RN and Defence Awards can be found at the Office of Protocol Landing Page[2].

[1] Including all Army and RAF people assigned, attached or detached to a Royal Navy Chain of Command.
[2] People and Training Directorate - Home (https://modgovuk.sharepoint.com/teams/59845).

c. The over-arching policy for Honours and Awards in the UK Armed Forces is contained in JSP 761[3].

[3] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/SitePages/JSP-761.aspx

SECTION 2

ADMINISTRATION OF HONOURS AND AWARDS

3603. Timelines

The deadlines for submission of nominations will be published via an annual Honours and Awards RNTM and must be observed to ensure the (often short) time available between the end of the award period and the date citations are required by the relevant Honours Committee. Of note, careful adherence to the periods laid down for the Operational Lists is key, as nominations will be rejected if the activity undertaken is outside the period covered by the list.

3604. Recommending MOD Civilians for State Honours

A separate 6-montly Calling Notice will be sent out for Civilian Honours containing full guidance for writing a State level nomination for a MOD civilian, and non-State level nominations for civilians who support Defence. Further guidance can be obtained from the Office of Protocol.

3605. Key People Involved in the Honours and Awards Process

a. The following people and organisations are critical to the effective and timely administration and processing of Honours and Awards for the Royal Navy:

(1) **Naval Secretary (NAVSEC).** As the Service Secretary for the Royal Navy, they are accountable to the 1SL for the delivery of the Honours and Awards process; they represent the Royal Navy at Joint and Head Office on all matters to do with Honours and Awards.

(2) **Royal Navy Office of Protocol.** Owned by NAVSEC, this is the central office in the Royal Navy for the management, coordination and administration of all State Honours and Awards, the First Sea Lord Commendation, the Royal Navy Commendation, the Meritorious Service Medal and Civilian Honours. The Office of Protocol can offer advice and guidance on the process and the writing of citations.

Title	Email	Responsibilities
SO1 Protocol	NAVY PEOPLE-HQ PROTOCOL SO1	Higher Honours (CBE and above) Operational Recognition State Honours Forfeiture
SO2 Hons Protocol	NAVY PEOPLE-HQ PROTOCOL HONS SO2	Lower Honours (OBE and below)
SO2 Protocol	NAVY PEOPLE-HQ PROTOCOL SO2	Civilian State Honours
WO Protocol	NAVY PEOPLE-HQ PROTOCOL WO1	3 and 4* Commendations Meritorious Service Medal LS&GC Appeals

(3) **Commanding Officer**[4]**.** COs have specific responsibilities in the field of Honours and Awards for their unit, and they alone are authorised to initiate a recommendation for an award for a member of their unit in recognition of gallantry, bravery, exceptional meritorious service, or long and efficient service. In initiating a nomination, they must satisfy themselves that the content of the recommendations they have initiated/signed have been checked for accuracy.

(4) **Superior Commanders.** All recommendations for an Honour or Award require 2* Director/Commander endorsement and order of merit (**recommendations without a 2* Order of Merit will not be accepted by the Office of Protocol**). All State nominations additionally require endorsement by at least one officer of 3* rank or above.

[4] For the purposes of NCHQ this role is to be undertaken by the Head of respective teams which is deemed to be an officer of OF5 rank, B Band Civil Servant, or 1* Deputy Director as the Initiating Officer.

SECTION 3

PERIODIC HONOURS FOR MILITARY AND RFA UNIFORMED PEOPLE

3606. New Year and King's Birthday Honours Lists

The New Year and King's Birthday Honours Lists recognise meritorious service other than that on operations (see Section 4). The awards in each list are made in several Orders:

Award	Short Title / Notes
Order of the Bath (Military Division)	GCB, KCB/DCB, CB (appropriate to rank)
Order of the British Empire (Military Division)	GBE, KBE/ DBE, CBE, OBE, MBE (appropriate to rank)
Royal Red Cross	1st Class (Member) RRC 2nd Class (Associate) ARRC (appropriate to rank) (awarded for professional competency, devotion to duty and compassion to care, over a continuous and long period)
King's Volunteer Reserve Medal	KVRM (Part Time Volunteer Reserve Forces, all ranks)

3607. Award/Rank Eligibility

Eligibility for the awards within the Military Division are based on the rank of the individual who is being nominated[5]. Personnel should be recommended for the award appropriate to their rank, whether that is substantive or acting. Consideration may be given to recommending an award one level higher or lower, depending on the strength of the citation.

Award	Rank
GCB/GBE	Admiral/Gen (OF-9)
KCB/KBE	Vice Admiral/Lt Gen (OF-8)
CB	Rear Admiral/Maj Gen (OF-7)
CBE	Cdre/Brig and Capt/Col (OF6 and OF5)
OBE	Cdr/Lt Col (OF4)
MBE	AB/Marine to Lt Cdr/Maj (OR1 – OF3)
RRC	Nursing Services only – normally OF4
ARRC	Nursing Services only – normally OF3 and below
KVRM	All ranks (Part Time Volunteer Reserves only)

[5] JSP 761, Chapter 4, Annex A.

3608. Qualifying Criteria for a Periodic Honour

a. Faithful, zealous performance of ordinary duty is not sufficient in itself to be the focus of a recommendation, nor is long and good service alone. Recommendations are not to be considered as an annual appraisal, nor a 'thank you and farewell'; nominations which read as a strong OJAR/SJAR are unlikely to be successful. **Rather, the Initiating Officer is submitting an individual for an appropriate level of recognition, and the only possible reason for doing so is that the individual has stood out from their peer group in rank**. In thinking why this should be so, the following might be considered:

(1) Have they performed their duties in unusually difficult or extraordinary circumstances?

(2) Have they achieved considerably more than their terms of reference might lead one to expect?

(3) Have they achieved more than one would normally expect at that rank?

(4) Have they operated above their rank?

(5) What difference have they made at their level to operational output and to their fellows?

(6) Do they carry the respect of their peers and are they role models?

(7) What is the Unit, RN or pan-Defence impact of their achievements?

(8) Is the period covered two years or more? If not, see para. 8 for further guidance.

b. **RRC/ARRC.** For exceptional/special devotion and competency in the performance of nursing duties over a continuous and long period[6]. Nominations should always include the Director of Medical Services as an Endorsing Officer.

c. **KVRM.** This is awarded for exemplary personal performance over an extended period of service in the Part Time Volunteer Reserves.

(1) It will be usual that members of the Part Time Volunteer Reserve Forces shall have completed 10 years' efficient service in the Part Time Volunteer Reserves before being recommended for award of the Medal. Only in exceptional circumstances shall recommendations be considered for those with less than 10 years' service.

[6] 2022DIN09-018-Nominations for Royal Red Cross (RRC) and Associate Royal Red Cross (ARRC) .docx (sharepoint.com)

(2) To be eligible for recommendation for the Medal, members of the Part Time Volunteer Reserves must be serving on a commission or engagement under which they are liable to part-time training, are required to have a CO's Certificate of Efficiency and liable to undertake a voluntary, enforceable obligation to call-out and embodiment. Ex-Regulars[7] serving on Full Time Reserve Service (FTRS) and Cadet Force members are not eligible to be considered for the KVRM.

3609. Writing the Nomination

a. The latest version of JPA S004 must be downloaded from the Office of Protocol portal and used for all periodic Honours and Awards. Guidance on how to complete the form is at JSP 761[8].

b. Remember, each citation will be scrutinised and assessed on its merits based on the information provided. Only the strongest citations will result in success, so presenting a good citation must provide enough information to make a compelling case.

c. **Period being covered.** Citations should cover a **minimum period of 2 years** unless in exceptional circumstances, such as an operational award or a particularly notable achievement. For a higher honour (CB or above), there is an expectation of a range of examples which illustrate the continual contributions the individual has made over a period of time, usually around a number of themes which mark them out as worthy. Additionally, it is important to bring out the impact they have had as a leader on the individuals that work with them, and for them. **Citing one or two high profile successes without explaining the wider impact they have had is unlikely to be successful.** Initiating Officers who are considering a nomination with a citation period of less than two years **must** consult the Office of Protocol prior to submission.

d. **Full career.** Where an individual is written up for a full career or a significant time period, the award should clearly convey how the individual has been consistently outstanding and the range of achievements covered. It is important that these types of citations do not feel like a CV summary or take the tone of a valedictory certificate. Such nominations are unlikely to succeed.

e. **Previous Awards.** Avoid using the citation to cover activity or impact that the individual has previously been given a State award for. If they received an OBE in 2015, do not repeat in detail what this was for. A reference to it to set the context is appropriate but avoid using the citation to repeat previously recognised work.

f. **Five Year Rule.** An individual should not be put forward for promotion within their Order in less than five years (the Five-Year Rule), unless there are exceptional circumstances. The Office of Protocol should be consulted early in such cases.

[7] Royal Fleet Reserve.
[8] JSP 761 Chapter 1, Annex B and Appendix 1 to Annex B.

g. **Retirement/Release.** Service persons remain eligible for consideration for *twelve months* after their final date in Service, although the strong preference is for awards to be nominated and presented whilst still serving: the 'win and wear' principle. Initiating Officers should take advice from the Office of Protocol if the nominee is approaching retirement or release. This applies to both State Honours and the Meritorious Service Medal.

3610. Citations

Each one is unique and specific to an individual, so it is difficult to provide examples of good citations that cover all eventualities. A good citation should read like a story – not an OJAR/SJAR - with a beginning, middle and end. The guidance in JSP 761 is the most useful here and sets out clear guidance on writing and structuring a citation[9]. Examples of successful citations are available on the Office of Protocol Landing Page: Example Nomination 1 PDF[10] and Example Nomination 2 PDF[11]. If you require further guidance, please contact the Office of Protocol. Writing style is individual but some guidance can be found here Writing a Citation – Style PDF[12].

3611. Evidence/Impact

Citations need to condense firm, quantifiable evidence and clearly demonstrate the impact the individual has had. Ensure the introductory paragraph is eye-catching and sets the scene that the individual is worthy of State recognition for outstanding achievement. They should *not* be written like an extended annual report as that does not provide sufficient impact. Many submissions appear as extracts from OJARs/SJARs and talk about how an individual has performed but lack any statement on the impact that they have had. In other words, **what has changed in the real world as a result of the actions they took?** Additionally, for Higher Honours, it is helpful if the opening sentences are strong, sets the scene and then articulates clearly why an individual is worthy of a high-level State award. Technical language, and the use of lesser-known acronyms should be avoided. Successful citations at all levels frequently include evidence of:

a. Making a difference and bringing distinction to an organisation or field of work.

b. Enhancing the Service, MoD or UK's reputation.

c. Sustained and selfless long-term voluntary service.

d. Innovation, creativity and/or entrepreneurship.

e. Introducing change, usually by solid, practical achievement.

f. Improving life for people less able to help themselves.

g. Displaying moral courage.

[9] JSP 761, Chapter 4, Annex A, Appendix 1.

[11] https://modgovuk.sharepoint.com/:b:/r/teams/55419/HonoursAwardsList/Example%20Nomination%202.pdf?csf=1&web=1&e=I9gXec
[12] https://modgovuk.sharepoint.com/:b:/r/teams/55419/HonoursAwardsList/Writing%20a%20Citation%20-%20Style.pdf?csf=1&web=1&e=MuThuo

3612. Classification

Citations can be made at OFFICIAL SENSITIVE or SECRET level. A higher classification should be used where it is necessary to convey to the Honours Committee the achievements and impacts if a lower classification (OS) would prevent a detailed description.

3613. Personal Circumstances

Domestic circumstances do not need to be referred to unless an individual has really done something remarkable in the face of adversity.

3614. Behaviour and Conduct

Those nominated for recognition at the highest levels are expected to have demonstrated exemplary standards of behaviour and conduct. Initiating Officers who are aware of any pending or current investigations or convictions, or any recent misdemeanours that may bring into question the individual's suitability for an award, embarrass the Sovereign and Honours system, or cause media interest must contact the Office of Protocol for further guidance.

3615. Repeat Evidence

There have been cases where citations on different individuals cover the same impact, or a number of people within the same Chain of Command are being recommended. The former is being effectively weeded out through the governance process. The latter may well be legitimate, but it does focus additional scrutiny and can lead to criticism and a perception of automatic entitlement in certain roles or areas of Defence business.

3616. Diverse Nominations

a. The Honours system should reflect the society it represents, and statistics are still low for Other Ranks, Women and those from an ethnic minority background. The vast majority of nominations received for State Awards are for officers. Our people, from the most junior upwards and across all elements of our workforce, are delivering amazing results for the Service. You are encouraged to put forward those who have made a significant contribution, whatever their rank, if we are to get the widest spread of our people appropriately recognised. Your attention is drawn to the direction in JSP 761 on this point, which clearly states that: **'The recommendation must take account of the standard expected of the rank rather than a single standard applying to all ranks.'**

b. Diversity is a key focus when the Defence List is submitted. Nominations will be considered purely on merit by the Royal Navy's selection committees. However, the committees must have a balanced pool from which to draw, to ensure that they can achieve recognition for as broad a cross-section of the Regular and Reserve military and RFA population as possible.

3617. Inclusion of wider activities in a Citation

Whilst it is highly appropriate to incorporate an individual's wider participation and achievements in sporting activities (either coaching or playing) and charitable efforts in the local community, it is important that the citation is not dominated by these and, where included, that they link directly with the professional achievements of the individual on behalf of the Royal Navy or Defence.

3618. Staff Checks

At each stage in the staffing process progress, it is incumbent on all involved to ensure that rigorous checks are completed on all citations in order to avoid unnecessary re-work. As well as spelling/grammar checks for the citation itself, these checks must include the front cover of each form to make sure that post-nominals are correct, the appropriate Honours List has been articulated, and all necessary (email) signatures are present. *Do not nominate personnel that are subject to ongoing disciplinary action.*

3619. Honours and Awards Battle Rhythm

If an individual has delivered an exceptional piece of work which is considered worthy or recognition, write it up at the time and submit it. Too many submissions are written late, forgotten about, or people who should have written them up move on before they get around to committing to do it. *Do not wait, write it up at the time.* To support this, COs are encouraged to make Honours and Awards a standing agenda item at their regular Command/HoDs/Holding to Account meetings.

3620. Guidance on the Use of Automated Intelligence (AI) and Large Language Models (LLM)

Unless explicitly approved and clearly labelled, sensitive and personal information must not be input into any external web-based generative AI services[13].

[13] JSP 740 Acceptable Use Policy for ICT: https://www.gov.uk/government/publications/acceptable-use-policy-jsp-740

SECTION 4

OPERATIONAL HONOURS AND AWARDS FOR MILITARY AND RFA UNIFORMED PEOPLE

3621. Introduction

a. Operational Honours and Awards exist to recognise gallantry and outstanding meritorious service in an operational area or a campaign overseas during a specific operational period, or direct support to a named operation. Nominees must have achieved something truly exceptional to be considered for a nomination, considerably more than would be expected in their day-to-day role, regardless of how well they have performed.

b. These awards fall into *four levels* and *three categories*, covering operational gallantry (in the presence of an enemy), non-operational bravery (not in the presence of an enemy) and outstanding meritorious service on operations. All these awards (with the exception of single Service commendations) are considered by the Armed Forces Operational Awards Committee (AFOAC) at which NAVSEC represents the Royal Navy.

c. The available awards are[14]:

Level of Award	Operational Gallantry (in the presence of the enemy and within an operational theatre)	Non-Operational Bravery (not in the presence of an enemy - UK or abroad)	Meritorious Service (on operations)
Level 1	**Victoria Cross** All Ranks *For most conspicuous bravery, or some daring or pre-eminent act of valour or self-sacrifice, or extreme devotion to duty in the presence of the enemy.*	**George Cross** All Ranks *For acts of the greatest heroism or of the most conspicuous courage in the circumstances of extreme danger not in the presence of an enemy.*	
Level 2	**Distinguished Service Order** All Ranks *For Command, Leadership and distinguished services during active operations against the enemy.* **Conspicuous Gallantry Cross**	**George Medal** All Ranks *For conspicuous gallantry not in the presence of an enemy*	**CBE / OBE / MBE** Appropriate to rank[15] *For in-theatre meritorious service* **1st Class (Member) RRC** Nursing Services only Normally OF4

[14] JSP 761, Chapter 1, Annex A.

All Ranks

For acts of bravery while flying not in the presence of the enemy.</td></tr>
<tr><td></td><td colspan="3">1SL Commendation, RN Commendation, CJO and equivalent Land and Air Command Commendations</td></tr>
</table>

d. Nominations should be submitted in accordance with the timelines in the annual Honours and Awards RNTM.

3622. Qualifying Criteria for an Operational Honour or Award

Not all criteria will apply to every case, nor do they need to be given equal weight, but the more elements which are applicable to a nomination, the stronger it is likely to be.

a. **Acting above and beyond the call of duty.** It is important to establish that the nominee was acting above and beyond the call of duty.

b. **Risk.** The degree of risk should be related to the level of award; a higher known risk to life strengthens a case. The table below is a guide to be used in conjunction with all other factors.

Level of Award	Risk of Death
1	Over 90%
2	50 – 90%
3	20 – 50%
4	Below 20%

This is a very rough measure, and each case should be considered on its merits.

c. At the highest level, the hallmark is one of deliberate self-sacrificial heroism, generally over a sustained timescale, and with the imminent prospect of death and which may, in a high proportion of cases, lead to a posthumous award. (Of the George Crosses awarded to date which are not war-related, approximately 60% have been posthumous.)

d. Bravery, by definition, involves risk. However, it is also necessary to consider whether an individual's actions were reckless and actually increased risk in a given situation. This might apply particularly if a nominee's actions put others at risk, whether or not that resulted in actual harm to others.

e. Risk must be real as well as assumed. If a nominee thought that there might be danger but in reality, there was none, this will give less weight to the assessment of risk in the case.

f. **Choice.** It is important that the individual either:

(1) knew of the danger before taking action and had the opportunity to make a choice before proceeding; or

(2) once becoming aware of the danger, made a deliberate decision to continue to act positively in the face of that danger.

If the individual was caught up in a chain of events and took no positive action (for example, was a victim of circumstance), an award must be doubtful.

g. **Planning.** If the act of gallantry occurred during, or as a result of, a planned operation or an event for which the individual had been trained and/or was equipped to tackle, the degree of risk is reduced. Action in an unknown situation (for example, when a routine incident escalates into one involving firearms) weighs more heavily than acting in a similar incident when firearms are expected, and people are trained and prepared to deal with it.

h. **Persistence.** Individuals must have persisted in going forward in the face of danger. The exception to this rule is when their action may have been reckless or aggravated the situation, leading to increased risk to the lives of those involved. In some cases, awards may reflect courageous action in repeated incidents over an extended but coherent timescale.

i. **Protecting others.** Gallantry awards are available to those who attempt to save life but not to those who seek only to protect property. In some cases (for example, searching premises in the face of an immediate threat of fire or explosion to establish if people are inside, even if it transpires that the property is empty), it may be appropriate to consider a gallantry award, provided the action was an attempt to save life. Self-preservation does not lead to an award, but due weight should be given to deliberate self-sacrifice knowingly taken in order to save others.

j. **Physical conditions.** The physical surroundings - darkness, extreme temperatures or confusion arising from the scale of the event - may also influence the evaluation of the degree of risk. Photographs or maps are often helpful in clarifying these factors. A similar influence may be the extent to which one individual was the sole focus of attention (say, of a gunman) or was part of a larger, widely spread group all dealing with the danger.

3623. Writing the Nomination

a. The latest version of JPA S004 form must be used for all Operational Honours and Awards which can be downloaded from the Office of Protocol portal. Guidance on how to complete the form is at JSP 761[16]. Further Easy Use Guides are also available on the Office of Protocol portal.

b. In many ways the recommendations for Operational Awards should follow the same rules as for the Periodic Awards detailed in Section 3. They need to be accurate and concise, and they need to cover the correct operational period and represent the facts. Avoid the temptation to exaggerate, it stands out and lessens the credibility of the recommendation. Further, the recommendations should not contain hyperbole, waffle, or too much technical language; comments like “in a truly British way” or “with nothing left to prove” add no material value.

c. **Importantly, recommendations need to be an explanation of the impact the individual has had, supported by strong evidence, rather than just being a narrative of what happened**. The text should explain what has changed in the real world because of the actions that person took, or what could have happened had they not taken that action.

[16] JSP 761 Chapter 1, Annex B and Appendix 1 to Annex B.

d. Additionally, for those being nominated for awards at higher levels, it is important to bring out the impact they had as a leader on the individuals that work with them, and for them. Where several people have contributed to an area or impact, a decision has to be made as to who has made the most significant contribution within the Chain of Command, as only one individual may be nominated. If there are different elements which each warrant an award, the recommendations must make it very clear what each individual did and their impacts.

e. **Guidance on the Use of Automated Intelligence (AI) and Large Language Models (LLM).** Unless explicitly approved and clearly labelled, sensitive and personal information must not be input into any external web-based generative AI services[17].

SECTION 5

COMMENDATIONS

3624. Overview

Service that is considered appropriate for recognition but for which a State Award or Meritorious Service Medal is not available, or may not be appropriate, can be considered for a Commendation. The Royal Navy has set the following levels of commendation[18]:

a. **First Sea Lord's Commendation.** This Commendation will be published at the same time as The King's Birthday and New Year Honours Lists. The 1SL Commendation is an individual *or team award*, for any member of the Royal Navy usually of the rank of OF4 and below, including RFA and civilian equivalents[19] who has demonstrated meritorious service. Usually there are *up to 24* available per calendar year split across the two Lists.

b. **The Royal Navy Commendation.** This Commendation is awarded jointly by the Second Sea Lord and Fleet Commander and will be published at the same time as The King's Birthday and New Year Honours Lists. It can be awarded to an individual or team in the Royal Navy usually of the rank OF4 and below, including RFA and civilian equivalents (as in para. 2.a above). Usually there are *up to 40* awards available per calendar year split across the two Lists.

c. **2* Awards.** To enhance the number of levels of recognition for our people, Directorates may give Whole Force 2* Awards within their area of responsibility. This applies to all RN 2* Directorates and the Office of Commandant General Royal Marines (irrespective of the rank of the current incumbent of the post). Directorates are responsible for the criteria, administration, announcement, production, presentation and cost of these awards, and are to limit the number of awards to a *maximum of 20* per calendar year. The Office of Protocol can provide assistance to ensure parity where appropriate.

d. **Commander's Commendation.**

(1) This level of Commendation is only available for the following people to award[20]:

(a) COMOPS, CSF, CSG, Comd UK Cdo Force when authorised by the Fleet Commander for named operations.

(b) OF6 Flotilla Commanders.

(c) Commander RN Cadet Forces.

(d) Commanding Officers of OF4 or OF5 Rank of HM Ships, Submarines, Squadrons and Cdo Units as listed on the Bridge Card.

[18] Awards can be given to members of Army or RAF when working for the RN TLB.

[20] This includes Royal Navy Contractors, members of Royal Navy Sponsored Charities, those who have a direct impact on the Royal Navy and is the same for the Royal Navy Commendation.

(2) Each Commander can award ***up to 16*** awards per year as individual or team awards.

(3) Further guidance on the administration of Commendation nominations can be found at Annex 36A. Nominations for First Sea Lord and Royal Navy Commendations are administered in conjunction with the 6-monthly battle rhythm for State Honors and MSM nominations. 2* and 1* Commendations are subject to local instructions.

SECTION 6

MERITORIOUS SERVICE MEDAL (MSM)

3625. Overview

a. The Meritorious Service Medal (MSM) is awarded to recognise the good, faithful, valuable and meritorious service of non-commissioned personnel who are of irreproachable character and conduct. Non-commissioned personnel serving on Extended Service engagements are also eligible for award of the MSM. Reserve Forces personnel, including ex-Regular Service personnel serving on FTRS engagements, and Royal Fleet Auxiliary personnel, are not eligible to be considered.

b. This is a highly prestigious award, and Commanding Officers must nominate only those whose conduct and service have been exemplary throughout their careers, and who have acted as an example to others. Rank or senior positions alone are not sufficient justification; nominations must demonstrate genuinely meritorious service supported by strong evidence including any noteworthy achievements that benefit the Service and or the wider public. Routine long service with good conduct is not sufficient justification for a nomination. Recommendations should reflect the individual's full career, especially the last ten years, and should be more substantive than a simple account of their Service record. The Office of Protocol WO can assist Initiating Officers by providing previous SJAR information to support nominations.

c. Selections for the award will be made in Service, twice yearly for announcement in June and December in conjunction with the New Year and King's Birthday Honours Lists.

d. The award does not give the recipient any financial benefits or entitlement to use post-nominal letters.

e. Further detail on the administration of MSM nominations can be found at Annex 36B.

3626. Eligibility

a. In order to be considered, a candidate must be nominated by their CO and meet the following prerequisite conditions:

(1) Achieved 20 years' paid reckonable service from age 17½, or date of entry/enlistment/attestation if later. Previous service in any of the UK Regular Armed Forces may be aggregated.

(2) Attained the rank of substantive OR 5/6 (Petty Officer/Sergeant) at some time during their service.

(3) Be in possession of a UK Regular Armed Forces LS&GCM. Royal Navy personnel must also be in possession of the full number of Good Conduct Badges appropriate to their length of service.

(4) Have provided good, faithful, valuable and meritorious service, with the highest, unbroken, standards of conduct, i.e. VG throughout their career. (Note: On 1 Jan 00 Career Checks (CC) were introduced in the Royal Navy. Any candidate must have aggregated VG/CC-free service. For the purposes of consideration for the MSM, a CC will equate to a break in VG Conduct.) Consideration for the MSM will normally require a conduct record completely free of any disciplinary entry.

b. Officers with previous non-commissioned service may only be considered if they meet the above criteria and are recommended by their CO prior to being commissioned and are selected to receive the award within 12 months of having been commissioned. Divisional and Corps Regimental Sergeant Majors (RSM), who may have been commissioned but fill a senior RSM appointment, may also be eligible while in post. Non-commissioned personnel who have retired or otherwise left the Service may be considered once only, in time for the June or December announcement as appropriate, immediately following their last day of paid service.

c. A break in service that is not due to Dismissal, Sentence of Imprisonment, or other misconduct, will not be considered as breaking the continuity of VG and CC-free service. However, time spent outside the Service will not count towards the length of service qualifying criteria, nor will service in the Reserve Forces during a break in service count towards the length of service qualifying criteria for the MSM.

(1) Non-commissioned personnel serving on Extended Service engagements are eligible to be considered if they fulfil the criteria in sub-para. a (1-4).

(2) Reserve Forces personnel, including ex-Regular Service personnel serving on FTRS engagements, are not eligible to be considered.

(3) Royal Fleet Auxiliary personnel are not eligible to be considered.

3627. Forfeiture of MSM

Details regarding forfeiture of the MSM are in JSP 761, Chapter 9. Once forfeited, the MSM cannot be restored. Forfeited medals are to be returned to the MOD Medal Office for disposal. Single Service authorities will arrange for the forfeiture to be gazetted and for the individual's JPA Service record to be annotated.

SECTION 7

LONG SERVICE AND GOOD CONDUCT MEDAL (LS&GCM)

3628. Overview

a. While each Service has its own LS&GCM, each of which has its own Royal Warrant, they have a common standard of conduct.

b. The regulations for the award of LS&GCM were revised with effect from 1 October 2016. The revised regulations apply to all officers of the Regular Forces who were serving on or after 29 July 2014 and to all Other Ranks of the Regular Forces who qualified for the award of the LS&GCM or to a clasp to the medal on or after 1 October 2016. Other Ranks who have left Regular service before 1 October 2016 will have their eligibility assessed through the previously published regulations.

c. To qualify for consideration for the LS&GCM under the revised regulations, personnel must be serving in the Regular Forces and have completed 15 years' eligible service from the date of attestation irrespective of age. Clasps are available for this award after each further period of 10 years' Regular Forces service. It makes no difference if an individual is commissioned at any stage during these 15 years or subsequently. Any entry on an individual's JPA disciplinary record will automatically lead to a delay of 15 years from the date of the most recent offence or a delay of a further 10 years for the clasp. Certain minor offences and sanctions as well as training offences committed when still in training as defined in single Service regulations may be discounted.

3629. Service in Commonwealth Armed Forces

Previous time served in Commonwealth Armed Forces may be counted towards the length of service requirement for the LS&GCM as long as that time has not been previously recognised by the award of any form of long service and efficiency decoration.

3630. Forfeiture and Restoration

An individual who has already been awarded the LS&GCM, who subsequently incurs an entry on their disciplinary record, cannot forfeit the medal but will incur an automatic delay before the clasp can be awarded. If the individual also holds the MSM, it will be liable to forfeiture if the individual's conduct is no longer irreproachable. However, an individual who is sentenced to imprisonment for a period greater than 6 months and/or is dismissed the Service with disgrace is liable to forfeit the LS&GCM or VRSM, and potentially other awards such as Campaign, Commemorative and other Service medals in accordance with JSP 761. Medals may occasionally be restored after a further period of service on application to the Defence Council in accordance with JSP 761, however, the MSM can never be restored once forfeited.

3631. Further guidance

Additional guidance governing this award is set out in Annex 36C.

SECTION 8

GOOD CONDUCT BADGES (GCB)

3632. Overview

a. The rules governing the award, deprivation and restoration of Good Conduct Badges are contained in JSP 761, Chapter 5.

b. The following additional policy regarding Maritime Reservists **only** should be noted:

(1) **Conditions.** In addition to the necessary periods of 'reckonable service', the following conditions must also be satisfied for the award of GCBs:

(a) The rating/other rank must have received a Certificate of Efficiency:

i. First Badge: 3 years.

ii. Second Badge: 7 years.

iii. Third Badge: 11 years.

(2) **Time before Enrolment**. Ratings/ORs who enroll in the RNR/RMR after discharge from the Regular Service may add the time served in any of the following Reserves during the intervening period.

(1) **RN and RM.**

i. RFR.

ii. RNR.

iii. QARNNS(R).

iv. RMR.

(2) **Army and RAF.** All cases are to be referred to COMMARRES, who has authority to make the award on the basis of time served in the Army or RAF on an exceptional basis.

SECTION 9

RESERVE SPECIFIC MEDALS

3633. King's Volunteer Reserves Medal (KVRM)

a. On 1 Apr 99 the QVRM (now known as KVRM) was introduced to recognise outstanding service in the Volunteer Reserve Forces. It may be awarded to Maritime Reservists of any rank/rate and is announced in the Armed Forces section of the New Year and King's Birthday Honours Lists. All nominations for the KVRM are to be staffed through COMMARRES.

b. The KVRM is awarded to Service personnel of any rank/rate, of all three services, in recognition of exemplary personal performance over an extended period of service in the Volunteer Reserve Forces. It is announced in the Armed Forces section of the New Year and King's Birthday Honours Lists and recipients, who are entitled to the letters 'KVRM' after their name, will attend an investiture. The medal is circular in shape, made of silver, and hangs from a dark green ribbon with three narrow gold stripes. In the official Order of Wear, the KVRM is classed as a Decoration and is worn after any other Decorations but before Campaign and Operational Service Medals and Long Service and Efficiency awards.

c. Nominations will be called for twice yearly, to the same timescales as other Honours and Awards citations, as part of the New Year Honours and King's Birthday Lists.

d. Recommendations for the award are to be submitted to COMMARRES on Form JPA S004 in accordance with JSP 761, Chapter 4. Each unit is strongly encouraged to forward a citation for their most deserving candidate (officer or rating). This will allow an even spread of citations to be staffed and forwarded to higher authority for comparison and selection.

e. It will be usual that members of the Volunteer Reserve Forces shall have completed 10 years' efficient service before being recommended for award of the Medal. Only in exceptional circumstances shall recommendations be considered for those with less than 10 years' service.

f. To be eligible for recommendation for the KVRM, members of the RNR/RMR must be serving on a commission or engagement under which they are liable for part-time training, required to reach specified levels of efficiency and undertake a voluntary, enforceable obligation for call-out and embodiment.

g. Exemplary personal performance in the following aspects of Volunteer Reserve service will be particularly important when considering recommendations for the award:

(1) Recruiting, and the documentation and administration of recruits and their training.

(2) Maintaining high standards of individual skill at arms or combat specialisation, and in collective training at all levels.

(3) The successful raising of new Units or the success of Units following amalgamation or change of arm, branch, etc.

(4) Efficient and effective carrying out of administration, including clerical duties, stores maintenance and accounting, and the administration of pay, rations, fuel, etc.

(5) The welfare and morale of Units, including the provision or encouragement of messing, social and welfare activities, sports, etc.

(6) Individual staff and liaison appointments outside Units or at formation of other headquarters.

(7) Encouraging links between the RNR/RMR and the Cadet Forces, particularly through the provision of expertise and training.

(8) Representing the RNR/RMR to the general public through bands, guards of honour, display teams, participation in, or support for, major local events, etc.

(9) Performance while temporarily filling posts that would normally attract higher rank/rate.

(10) Prolonged service, but only when accompanied by exceptional achievement and merit.

3634. Volunteer Reserves Service Medal (VRSM)

The policy for the VRSM is held in JSP 761.

Note. *VRSM Transitional Arrangements for RNR Personnel Serving on 1 April 1999 have now been removed from BRd 3(1). Previous policy can be obtained from the Office of Protocol.*

ANNEX 36A

ADMINISTRATION OF NOMINATIONS

1. Form JPAS004

This form is to be used for military and RFA uniformed people State level nominations, for all Royal Navy 4* and 3* Commendations and the MSM. Guidance on how to fill out the JPA S004 form is at JSP 761[1]. A link to the latest version of the form is available on the Office of Protocol landing page.

a. The CO of the individual or team being recommended **must be** the Initiating Officer[2] and sign the JPAS004, using their MOD email address in the Signature box.

b. Forms are to be submitted electronically by the Initiating Officer and subsequent Chain of Command directly to the 2* Director/Commander for further administrative action. Each Navy Command Directorate has a 2* Honours and Awards coordinator.

c. 2* Directors/Commanders are to add a recommendation and endorsing comments and to develop an Order of Merit for consideration at the 3* Scrutiny Board. Recommendations without an Order of Merit will be returned to the 2* area. 2* Honours and Awards coordinators are to ensure that nominations are of a high quality, are policy compliant and are correctly staffed by their Chain of Command. The Office of Protocol will provide advice and support as required.

d. Once compiled at the 2* level, the 2* Honours & Awards Co-Ordinator is to submit all nominations as Word documents to the Office of Protocol using the group mailbox (NAVY NAVSEC-H AND A GROUPMAILBOX).

e. Nominations can be submitted at OS or SECRET level. For SECRET nominations, please contact SO2 Hons Protocol or WO Protocol before submitting to ensure the correct MODNET(S) email address is used.

f. The Office of Protocol will arrange for 3* endorsement and alignment for Royal Navy TLB State Honours and 3* and 4* Commendations.

g. **Signatures.** The JPA S004 is to be submitted electronically as a word document (not a pdf). The electronic signatures of Initiating and Endorsing Officers should be inserted in the appropriate box using the MOD email address (i.e. John.Smith999@mod.gov.uk).

h. **Confidentiality.** All nominations, including those for Commendations, must be handled in strict confidence until formally announced. **Candidates must not become aware that they have been nominated for any form of recognition.**

i. **Recording of Honours and Awards.** The Office of Protocol is responsible for recording all State level, 4* and 3* Commendations on JPA.

[1] JSP 761 Chapter 1, Annex B and Appendix 1 to Annex B.
[2] For NCHQ this is the OF5/B Band Head of Team, 1* Deputy Director/Head or 2* Director/Commander.

2. Presentations

Recipients of State level awards are usually presented with their awards at formal Investitures. Mention in Dispatches (MiD) and King's Commendations (e.g. KCB, KCBA, KCVS), Royal Navy 4* and 3* Commendations and MSMs are awarded during First Sea Lord and Second Sea Lord/Fleet Commander presentation ceremonies.

ANNEX 36B

MERITORIOUS SERVICE MEDAL (MSM)

Note. *The following regulations are complementary to JSP 761 'Honours & Awards in the Armed Forces', Chapter 5.*

1. Nomination Procedure

a. Recommendations are to be initiated by COs on the latest version of Form JPA S004; no other Service documentation is required. Recommendations should be supported through the chain of command, with two levels of endorsement wherever possible, i.e. to 2 Star level. Endorsement at higher than 2-star level is not required unless this forms part of the two levels of command chain. Orders of merit from Endorsing Officers should be submitted if endorsing more than one recommendation.

b. COs and Endorsing Officers have the discretion of whether or not to endorse a recommendation and forward it for consideration. As with all nominations for Honours & Awards, MSM nominations must be handled in strict OFFICIAL-SENSITIVE-HONOURS and candidates must not become aware that they have been recommended for an award.

d. Recommendations may be submitted at any time once a candidate has qualified by time served or will have qualified by time served by 1 Jun or 1 Dec as appropriate. Initiating/Nominating Officers are to take particular care to ensure that nominations for candidates with an imminent departure from the Service are received in time to be considered for announcement in the Jun or Dec immediately following their last day of paid service. Nominations for a Jun announcement must be received by your 2-star Directorate by the date detailed as per the latest Honours and Awards Submissions table in the most up to date RNTM[1]. Following endorsement by chains of command, Forms JPA S004 are to be dispatched by email to the following address:

NAVY NAVSEC-H AND A GROUPMAILBOX (MULTIUSER)

e. Normally, there are more recommendations received than awards available and hence only the most deserving of candidates will be selected. In order to preserve the prestige and integrity of the MSM, however, if insufficient nominations of appropriate merit are received, the selection panel may decide to forego all of the annual allocation.

f. Recipients will be notified individually of their award through the chain of command concurrently with the half-yearly State Honours Lists and the names of recipients will be promulgated through single Service channels. The award of the MSM will also be published in the London Gazette in due course. The award of the MSM will be recorded by the appropriate single Service authority on the recipient's JPA Service record.

[1] For the RAF, candidate nominations should be forwarded to the RAF MSM Selection Panel by 28 February and 31 August respectively.

g. Unsuccessful nominations may be resubmitted, providing the candidates retain their CO's confidence that they remain suitable for consideration for the award.

h. The MSM will be presented under single Service arrangements. The medal is to be presented in a manner that reflects the prestigious nature of the award.

i. Office of Protocol is to be notified immediately if, between the submission of a nomination and the presentation of the Medal, a candidate comes to notice in a way that casts doubt on their suitability to receive the award.

2. Writing the Nomination

a. Nominations should be submitted on the latest version of the JPA S004 form which can be downloaded from the Office of Protocol Landing Page. Guidance on how to complete the form is at JSP 761[2].

b. The MSM is a prestigious award and Commanding Officers should ensure that only the worthiest and most deserving candidates are nominated. Candidates' service and conduct must have been of the highest order throughout their career, acting as an example to others and reflecting credit on themselves and their Service.

c. Attainment of positions of authority should not, of itself, be justification for a nomination. **Only those whose service is judged truly meritorious should be nominated, and written recommendations must contain evidence to justify submitting a candidate for consideration**. Evidence of noteworthy achievements is particularly valuable. This might include achievement in the course of military duty or in extra-curricular activity that benefits the Service or the public (for example, voluntary or charitable work, or sporting achievement.)

d. A recommendation that amounts to no more than a bland description of a candidate's service record is unlikely to be successful.

e. Personnel who have simply performed long service with good conduct should not be recommended for the MSM.

f. As far as possible, the recommendation should take account of the candidate's whole service record, with particular emphasis on the last 10 years' service preceding the recommendation. The Office of Protocol can assist with access to relevant extracts of service records to help Initiating Officers build a full picture.

3. Announcement

Selections for the award of the MSM will be made twice a year, for announcement in June and December, usually at the same time as The King's Birthday List and The New Year List. The award of the MSM does not entitle the recipient to any financial benefits or entitlement to use post-nominal letters.

4. Presentation

The recipients of the MSM will be invited to receive their medal at a presentation ceremony hosted by the Second Sea Lord onboard HMS VICTORY. If the recipient is unable to attend, alternative arrangements to have the medal presented by their Commanding Officer can be made.

[2] JSP 761 Chapter 1, Annex B and Appendix 1 to Annex B.

5. Guidance on the Use of Automated Intelligence (AI) and Large Language Models (LLM)

Unless explicitly approved and clearly labelled, sensitive and personal information must not be input into any external web-based generative AI services[3].

[3] JSP 740 Acceptable Use Policy for Information and Communications Technology and Services - GOV.UK (https://www.gov.uk/government/publications/acceptable-use-policy-jsp-740)

ANNEX 36C

LONG SERVICE AND GOOD CONDUCT MEDAL (LS&GCM)

SECTION 1 – OVERVIEW

Note. *The following regulations are complementary to JSP 761: "Honours & Awards in the Armed Forces", Chapter 5.*

1. Award Process

a. **Medal.** The JPA database will automatically identify those who have completed 15 years' service with no entries recorded on their disciplinary records. The selected names are downloaded twice weekly onto the MOD Medal Office database. Staff checks are conducted, following which the medal is selected, engraved, and despatched to the Commanding Officer (CO) of the named recipient. The CO is to ensure that there are no pending disciplinary proceedings and arrange for the award to be presented. If there are disciplinary proceedings pending, the CO is to retain the medal until such time as the disciplinary proceedings are resolved. If no disciplinary action is taken, the medal can be presented to the individual. However, if the date of an offence or offences resulting in an entry on the individual's disciplinary record is before the qualifying date for the medal and therefore incurs a delay of 15 years, the CO is to return the medal to the MOD Medal Office with a covering letter detailing the circumstances.

b. **Clasps.** JPA will identify those who have completed additional periods of 10 years Regular service following the award of the medal or previous clasp. The MOD Medal Office will conduct staff checks and then dispatch the clasp to the CO of the individual. The CO is to ensure that there are no pending disciplinary proceedings and make arrangements for the award of the clasp. If there are disciplinary proceedings pending, the CO is to retain the clasp until the disciplinary proceedings are resolved. If no disciplinary action is taken, the clasp can be presented to the individual. However, if the date of an offence or offences resulting in an entry on the individual's disciplinary record is before the qualifying date for the clasp and therefore incurs a delay of 10 years, the CO is to return the clasp to the MOD Medal Office with a covering letter detailing the circumstances.

c. **Application for Award After Delay.** JPA cannot identify those who have completed a further 15 years after a disciplinary entry or a further 10 years for a clasp. In these cases, individuals are to apply for either the medal or clasp to the MOD Medal Office through their CO. The CO is to complete JPA Form S002 and submit it to the MOD Medal Office. If there are disciplinary proceedings pending, the CO is to retain the medal or clasp until the disciplinary proceedings are resolved. If no disciplinary action is taken, the clasp can be presented to the individual. However, if the date of an offence or offences resulting in an entry on the individual's disciplinary record is before the qualifying date for the medal or clasp and therefore incurs a further delay, the CO is to return the clasp to the MOD Medal Office with a covering letter detailing the circumstances.

d. **Appeal.** Personnel with an entry on their disciplinary records incurring an automatic delay of 15 years (or 10 years for the clasp) may apply to have the delay removed if they believe the offence to be minor. Applications are to be initiated by a plea of mitigation to their CO. If the appeal is supported, the CO is to complete JPA Form S002 and submit it together with the individual's plea of mitigation and their own letter of support to the MOD Medal Office. The appeal will then be considered by the appropriate single Service Medal Board. Appeals against single Service Board decisions can be made provided there is continuing support from the CO. In these instances, the MOD Medal Office will arrange for the appeal to be considered further by the single Service or the Defence Services Secretary as appropriate.

e. **Previous Permanent Ineligibility.** Other Ranks who had previously had the award delayed or been permanently denied qualifying for the award of the LS&GCM under the previous regulations because of a serious offence on their record may apply for the award provided they were serving in the Regular Forces on 1 October 2016 and had completed a period of 15 years in the Regular Forces from the date of the last offence. Applications from serving individuals are to be made through COs. Applications from veterans are to be made direct to the MOD Medal Office.

2. Presentation of Medal

Medals and clasps are to be presented under chain of command arrangements. Arrangements are to be made for the medal or clasp to be presented in an appropriate manner that reflects the prestige of the award.

SECTION 2 – GUIDELINES FOR THE ASSESSMENT OF ENTITLEMENT TO THE LONG SERVICE & GOOD CONDUCT MEDAL

Note. *Any list of adverse activity and the response to such activity cannot be exhaustive. Each Contentious Case application is to be assessed on its individual merits, but the following table is intended to assist COs*.

COLUMN A: AWARD NOW **The Medal may be awarded with effect from the candidate's due date, 15 years from age 17 ½ (or date of entry if later)**	**COLUMN B: "WAIT 15"** **The award of the Medal is deferred for 15 years from date of offence**
NATURE OF OFFENCE (unless the sentence/sanction awarded is listed in the "Wait 15" column)	**NATURE OF OFFENCE** (unless the sentence/sanction awarded is listed in the "Award Now" column)
AWOL Breach of the Peace Conduct Prejudicial to good order and Service discipline Contravention of Standing Orders Drunk/Drunk & Disorderly Leave offences short of AWOL (including failure to attend) Loss of ID Minor motoring offences, including speeding or insurance offences Neglect of duty Negligent Discharge	Administration of justice offences (including but not limited to perjury and perverting the course of justice) Any offences committed in 'prescribed circumstances' or listed in Schedule 2 under the Armed Forces Act 2006 Asleep on watch/duty/sentry duty Criminal damage offences (including but not restricted to Arson and criminal damage) Dishonesty-offences (including but not limited to theft, fraud, obtaining services by deception, forgery, taking a vehicle without consent) Disobedience to lawful command/ insubordination Drink-Driving Drugs-related offences Drunk on board/duty Drunk on operations/deployed Explosives or offensive weapons-related offences Failure to apprehend (as sentry) Harassment-related offences (including racial harassment) Ill treatment of subordinates Misconduct dealt with by major administrative action rather than disciplinary means

(Continued)

COLUMN A: AWARD NOW **The Medal may be awarded with effect from the candidate's due date, 15 years from age 17 ½ (or date of entry if later)**	**COLUMN B: "WAIT 15"** **The award of the Medal is deferred for 15 years from date of offence**
	Multiple 'minor' offences (usually 4 or more) Possession of indecent images of children or extreme pornography Public order offences (including but not limited to riot, violent disorder, affray, threatening behaviour intended to cause alarm or distress) Road Traffic Offences (serious) Sentry offences Sexual-related offences (including but not limited to rape, assault by penetration, indecent assault, sexual assault, exposure, voyeurism) Smuggling Unauthorised disclosure of sensitive official information Vehicle tampering Violence-related offences against the person (including but not limited to common assault, battery, assault on a police officer, fighting, striking a superior or subordinate, ABH, inflicting GBH (with or without intent), wounding, robbery)
SENTENCE/PUNISHMENT	**SENTENCE/PUNISHMENT**[1]
Admonition Extra Work & Drill Fine under 7 days' pay Reparation Order Stoppage of Leave/Privileges	Any custodial sentence (including committed or suspended sentences of detention or imprisonment) Disrating/Reduction in rank Service Supervision and Punishment Order (SSPO) Fine of 7 days' pay or more Forfeiture of seniority (for officers) Severe Reprimand
SANCTION	**SANCTION**
Minor Administrative Action Police Caution (including simple or conditional cautions) CO's Logging or Formal Warning	Major Administrative action which involves: a removal from assignment for misconduct (a 'no fault'); Career Check, Reversion following a civil conviction; or, for officers, the imposition of a Displeasure or Severe Displeasure censure Misconduct dealt with by major administrative action rather than by disciplinary means (including but not limited to Bullying or Harassment, Dishonesty, Violence)

CHAPTER 37

UNIFORM - INTRODUCTION AND ORGANISATION

3701. Application and Terminology

a. Part 6 (Uniform Regulations) of this BR, of which this is the opening chapter, is the definitive authority for providing all officers, ratings and RM other ranks (ORs) with the necessary direction for the wearing of Royal Navy, Royal Marines, QARNNS, Royal Fleet Auxiliary and Naval Retail Staff uniform clothing. It sets out policy, authorised items of clothing, method and occasions of wear and standards of personal appearance. The Naval Service Clothing Committee (NSCC) advises the sponsor on maintenance of this Part.

b. For the purpose of Naval Uniform definitions, the term Naval Service is used to indicate the Royal Navy (RN), the Royal Marines (RM), Royal Fleet Auxiliary (RFA), Queen Alexandra's Royal Naval Nursing Service (QARNNS), Royal Naval Reserve (RNR), Royal Marines Reserve (RMR), Royal Naval Volunteer Band Association (RNVBA), NAAFI, RFA Afloat Support (AFSUP), Combined Cadet Forces Royal Navy (CCF RN) and Sea Cadet Corps (SCC).

3702. Standards

a. Uniform identifies all members of the Naval Service. High standards of dress, deportment and grooming are universally recognised as marks of a trained, disciplined and professional Service and Commanding Officers are to ensure that their personnel maintain the required standards at all times. Modified or idiosyncratic dress is indicative of an inefficient and undisciplined Service.

b. Members of the Naval Service shall wear uniform in accordance with the instructions contained in these regulations.

3703. Authority

a. Changes in clothing policy, dress regulations, the design of uniforms, accessories, accoutrements or insignia shall only be made with the approval of Navy Command HQ through the Naval Service Clothing Committee (NSCC).

b. Flag and Commanding Officers are responsible for all clothing matters within their commands and for ensuring compliance with BRd 3(1).

c. Local management may set standards to meet unique operational requirements and may establish local rules for the wearing of operational rigs.

d. In order to ensure that the required standard for the wearing of uniform in public is maintained, local orders shall conform to policy approved by Navy Command HQ. Flag and Commanding Officers shall not permit any diminution of this standard.

e. Commanding Officers shall ensure that personnel under their command are dressed in accordance with these instructions.

3704. Naval Service Clothing Committee (NSCC)

The Naval Service Clothing Committee (NSCC) ensures that Naval Service clothing policy is delivered through a properly governed procedure and that funding implications are addressed and clothing supply issues considered with the Defence Clothing (DC) Team. It sets out the committee structure and provides direction and guidance to change sponsors.

3705. NSCC Responsibilities

The NSCC Chairperson is responsible to DDPS for the following:

a. Maintaining Naval Service Clothing policy and dress regulations in BRd 3(1).

b. Making decisions within its authority on Naval uniform and clothing matters which require resolution at Service level, or referring sensitive issues to a higher level for resolution.

c. Final arbitration on the design and appearance of uniforms, work-wear and personal protection equipment, accessories, accoutrements or insignia and occasions of wear.

d. Providing advice and recommendations to senior management on Naval clothing matters.

e. Providing a focal point for the administration and the co-ordination of design and development by Defence Clothing Team.

3706. NSCC Membership

The NSCC Membership comprises key stakeholders to facilitate the varied consultation necessary for policy making:

Chairman.
NAVY PEOPLE-PSP EXEC SO1.

Members.
NAVY LOG INFRA-OPS SC POL SO1 (Logs Commodities).
NAVY LOG INFRA-OPS SC CPO RN.
NAVY NPS EXEC FXO SO2 (Secretary).
NAVY SSM-AW NAVSURF SO2 (Seamanship).
NAVY OCGRM-ACSEC (RM Rep).
NAVY CSAV-AHF SO2 (Fleet Air Arm Rep).
NAVY LOG INFRA-OPS DFLO RFA (RFA Rep).
NAVY MED-PERS POL SO1 (Medical Rep).
DEC DC-CSTCSORN (Operational Clothing).
NAVY OP TRG-CWD EXEC SCTO (Ceremonial).
DMC-OPS PR NAVY SO2 MARKETING (Corporate Identity/Image).
NAVY-PERS-WONS (2SL's Office).
NAVY PERS-CNPS DandI SO2A (Diversity and Inclusion).
NAVY SSM-AW SW SO2 (SSM CDT Rep).
NAVY SSM-SS E CBRNDC SO2 (CBRNDC Rep).

Advisors. DC Team (Development and Supply Chain performance)

Proposal Sponsors. As required

3707. Royal Marine Clothing Committee (RMCC) Membership

The RMCC is a sub-committee of the NSCC, established to consider matters relating to RM Dress Regulations and associated Reservists and Cadet Forces. It provides the NSCC and DC Team with co-ordinated priorities for clothing supply for the RM. RMCC membership comprises:

Chairman.
Deputy Commandant General Royal Marines.

Vice Chairman.
Corps Secretariat (NAVY OCGRM-CORPS SEC).

Members.
Asst Corps Secretariat (NAVY OCGRM-ACSEC) (Secretary).
SO1 Logistics and Commodities (NAVY LOG INFRA-OPS SC POL SO1).
HQ BSRM SO(M) (NAVY RM BAND-HQBSRM SO2 BAND).
CTCRM DLO (NAVY TRG CTCRM-SPTW LOG DLO).
Corps RSM (NAVY OCGRM-CORPS RSM).
Corps Drum Major (NAVY RM BAND-HQBSRM CDM).
CTCRM: First Drill (NAVY TRG CTCRM-SW ISC DL WO1).
DES DC Parade Ceremonial RM/RN (DES DC-ParadeCere-RMNavy).

Note. *Additional members will be co-opted as necessary (which occurs on a regular basis).*

3708. Change/New Introduction Proposal Procedures (Clothing)

a. To ensure coherent, consistent policy development that is properly considered and submitted for the necessary level of Senior Management endorsement, all proposals for change or additions to Naval Service Clothing, badges, insignia and/or occasions of wear, including proposed changes to BRd 3(1), are to be formally submitted by sponsors through the chain of command, authorised at AD/DACOS level to the NSCC (via the Secretary). Minimum detail to be included is as follows:

(1) Description of/reason for the proposal;

(2) Draft design (for new to Service/change items);

(3) Anticipated scale (number per person, number of personnel);

(4) Anticipated initial roll-out quantities and required annual maintenance; and,

(5) Estimated unit/total costs and any 'trade-offs' eg. where replacing an existing item.

b. For new to Service or change items, final endorsement will require submission of a Statement of User Requirement (SUR) to the DC Team, via the Fleet Logistics Staff. A SUR template is at Annex 37A which sponsors should use to present their initial proposal. When planning a submission, sponsors should be cognisant of supply chain lead times (simple items such as badges can take a minimum six months to introduce) so it is important to manage expectations at the early stage and defer publication of roll-out plans or 'authority to wear' notices until stock is known to be available. Funding is also an important factor; clothing consumption is a charge to the Navy Command stock budget, submissions that do not offer compensating reductions should be supported by a Resource Change Requirement (RCR) where initial roll-out costs are estimated to exceed £10k.

c. **Maritime Operational Clothing (MOC).** Proposals for new to Service or changes to MOC must be staffed in the first instance through the appropriate Navy Command desk officer (see below). The range of clothing that constitutes MOC are the components of the following:

(1) Action Dress - (NAVY SSM-SS E FMEO SO1).

(2) Flight Deck Wear - (NAVY CSAV-AHF SO2).

(3) Immersion Suits - (NAVY SSM-AW NAVSURF SO2).

(4) CS95 and the successor ensemble PECOC – (NAVY LLM-DCC SO2).

CAP AW-MAR PRESENCE retains an interest in MOC and is to be consulted on related change proposals. FCIG/DEC endorsed MOC proposals do not require NSCC approval other than when issues of uniformity and corporate image emerge; however, to maintain coherence, proposals will be reported to the NSCC for information.

d. The NSCC meets biannually, in June and November. Sponsors may submit proposals at any time but no later than six weeks prior to the next scheduled NSCC meeting in order to allow full members to pre-read submissions. At the discretion of the NSCC Chairman, minor or urgent issues may be taken outside the full committee either via ad hoc sub-committee or limited, informal consultation. Sponsors should, however, be prepared to present their proposals to the NSCC meeting if called to do so.

3709. Definitions of Terms

a. **Accessories.** Small articles such as cuff links, worn as additions to various orders of dress.

b. **Accoutrements.** Items other than garments, accessories and weapons which form part of an individual's outfit. Examples include aiguillettes and Royal cyphers.

c. **Action Working Dress (AWD).** Flame retardant blue working rig.

d. **Categories of Dress.** Indicate classes of uniform designed to support activities ranging from ceremonial and duty, to the action clothing system in the Fleet.

e. **Climatic Clothing.** Items designed to provide protection from extreme climatic conditions and provided on either personal loan or by temporary issue.

f. **Combat Clothing.** Disruptive pattern material (DPM) clothing worn by personnel employed in land/field operations and training.

g. **Flying Clothing.** Operational clothing worn by aircrew.

h. **Optional Items.** Those items that are authorised for wear in these regulations but which are not provided at public expense as part of outfits or kit scales.

i. **Orders, Decorations and Medals.** Insignia worn as stars or suspended by their ribbons and worn in accordance with Chapter 44.

j. **Officers' Outfits.** Scaled items of clothing and equipment which are initially issued to officers without charge and maintained subsequently by the individual.

k. **Ratings'/ORs' Kit.** Scaled items of clothing and equipment which are initially issued to ratings/RMORs without charge and maintained by one-for-one exchange.

l. **Specialist Clothing.** Scaled clothing and equipment which is retained for the duration of the recipient's service or until the requirement for it ceases. Examples include Flying Clothing, Boots DMS, AWD and Foul Weather Clothing. It is issued and maintained by replacement at public expense.

m. **Undress.** Uniforms or items worn on less formal occasions. An historic term, now only used in specific instances such as Mess Undress.

3710. Words and Phrases - Interpretation

a. **"Shall", "May" and "Should"**

(1) **"Shall".** Shall be construed as being imperative.

(2) **"May".** Shall be construed as being permissive.

(3) **"Should".** Shall be construed as being informative only.

b. **"Practicable" and "Practical"**

(1) **"Practicable".** Shall be construed as physically possible.

(2) **"Practical".** Shall be construed as reasonable in the circumstances.

3711. Orders of Dress

Clothing is divided into the following orders, each of which may have three or more subdivisions in order to provide variations of the basic rig more suited to specific occasions or conditions.

a. **Ceremonial Uniform (No 1).** Uniform worn on formal occasions with orders, decorations, medals and other ceremonial accoutrements and accessories as appropriate for the particular occasion.

b. **Evening Uniform (No 2).** Evening dress and undress uniforms worn at naval, military and appropriate civilian functions.

c. **General Duty Rig (No 3).** Should be worn as directed by Commanding Officers as a semi-formal rig where No 1's is deemed inappropriate.

d. **Action Working Dress / Daily Working Rig (Rig 22).** Functional, protective working dress worn at sea, in naval bases and in air stations. Combat clothing is the Royal Marines equivalent.

e. **Occupational Clothing (No 5).** Clothing worn by those working in specific occupations such as nursing, catering, fire-fighting who require safety equipment and unique clothing to carry out their tasks.

ANNEX 37A

STATEMENT OF USER REQUIREMENT - TEMPLATE

GUIDE TO INFORMATION TO BE CONSIDERED WHEN COMPILING GROUND CLOTHING USER REQUIREMENT DOCUMENT/STATEMENT OF USER REQUIREMENTS

The aim in compiling the SUR should be to state clearly what the need is in order to aid the development of a solution. This guide provides a checklist of those aspects to be considered when compiling the SUR; only those headings appropriate to the requirement should be completed.

CHAPTER 38

POLICY AND APPEARANCE

SECTION 1

DRESS POLICY

3801. Authorised Uniforms

a. The uniforms, accoutrements, accessories, insignia, optional items and orders of dress set out in these regulations are those authorised for wear, as appropriate, throughout the Royal Navy.

b. Tables of dress and their occasions for wear are detailed and illustrated at the Annex 39A and Annex 40A. Dress for Joint Service ceremonial occasions is detailed in Chapter 43.

3802. Outfit and Kit Scales

a. All personnel shall be provided, on entry, with clothing and equipment to the authorised entitlement, as laid down in the scales of issue at the Annexes to Chapter 39 and Chapter 40. Individuals are personally responsible for the care and custody of all items of clothing, including accessories and accoutrements, issued to them. Personnel are to ensure that items are maintained and ready for use at all times.

b. Major components of uniform such as trousers and jackets shall not be interchanged or mixed and shall only be worn with the order of dress for which they are intended, e.g. uniform items of No. 3s and No. 4s are not to be worn together. Some accessories and accoutrements such as shoes, socks, belts, raincoats, gloves and shirts, however, may be worn with several orders of dress.

c. Ratings No. 1 Uniform (jacket and trousers) should last an individual for a minimum life of four years, or longer, before a gratuitous replacement (at Crown expense) will be considered and approved. Under this policy, ratings No. 1 Uniform is further subject to a ‘fair wear and tear’ judgement (e.g. if a LH employed in the RN Presentation Team is wearing their No. 1 Uniform four days a week, it would be reasonable to assume that it may need replacing before the four year point lapses). Whereas, since many service personnel rarely wear their No. 1 Uniform there would be no need to replace them just because they are four years old. The Clothing Stores staff are the Base LO's representative and are empowered to make a judgement as to whether a ratings No. 1 Uniform needs replacing or not. Officers will continue to pay for the replacement of their No. 1 Uniform, after the initial gratuitous issue. Officers may exchange ‘workwear’ on a one for one basis but other items of uniform should be purchased – Uniform Tax Relief (UTR) is calculated to enable occasional replacement of kit.

d. WORN, 2SLWO and FCWO are entitled to draw an extra set of No 1’s as well as a set of No 2’s and Prestige Suit if not already held.

3803. Optional Items

Certain clothing items and accoutrements are authorised for optional wear, provided that they are not obtained at public expense.

3804. Master Patterns and Specifications

a. To ensure uniformity and quality of dress, all Naval clothing items whether issued through the supply system or purchased from civilian tailors shall be made according to the approved master patterns which govern the official specification for each clothing item. The necessary specifications may be obtained from Defence Clothing (DC) Team.

b. Royal Navy personnel shall not wear any item of dress which does not conform to approved patterns or which has not been authorised for wear on an optional basis or ordered for wear in the specific user trials.

3805. Alterations and Modifications

a. Items of clothing shall not be altered or modified except in order to obtain a reasonable fit. The cost of correcting or replacing any items of clothing that have been altered or modified without proper authorisation shall be borne by the individual.

b. **Entitlement to Exchange Uniform on Return From Maternity Leave.** Personnel are authorised to exchange uniform items free of charge at Crown Expense without signs of 'fair wear and tear' on return from maternity leave. See Para 3815.e.

3806. New and Superseded Items

Whenever an item of clothing in a new pattern is authorised and introduced, an amendment to these regulations shall be implemented by Navy Command HQ. The amendment will include the conditions under which the obsolete or superseded items may continue to be worn and the procedure for taking the new item into use.

3807. Supply and Issue

a. Supply and issue of the various items of Royal Navy clothing shall be in accordance with current accounting regulations set out in JSP 886, *Defence Supply Chain Manual*.

b. Specialist Clothing scales are issued by DES DC-CSTCSORN to individual units.

3808. Special Case Entitlement for the Re-issue of Uniform

a. There are certain circumstances beyond a Service Person's control, which will result in requiring a different size of uniform to that which they have previously been issued. These circumstances include, disability, impact of chronic conditions, menopause and post-pregnancy[1].

[1] Policy regarding the exchange of uniform post-pregnancy is contained at para 3815.e.

b. Personnel who need to exchange their uniform because of special circumstances outside of their control are entitled to do so. Examples include; disability, impact of chronic conditions and menopause, which may cause physiological changes. They are also authorised to free tailoring of No1 uniform and No2 uniform (mess kit), however, if this is not possible on the advice of a tailor, a re-issue of either or both uniforms is authorised. Personnel are authorised to one publicly funded uniform alteration (for each uniform) or re-issue in the 2-year period following their diagnosis.

c. All scaled uniform[2] is available for exchange or alteration. A pragmatic approach should be considered to reduce potential waste as a full exchange may not be required. Authorisation from a Healthcare Practitioner[3] is required to support claims. The signed authorisation form at Annex 38C is required for all cases.

d. It is recognised that personnel could experience more than one of these circumstances during their Service career, as such, all requests should be reviewed on a case-by-case basis.

3809. Wearing of Uniform

a. Unless otherwise directed, all officers, ratings and other ranks shall wear uniform:

(1) As prescribed, when on duty (but see 3808d).

(2) As required when serving as a Naval or Defence Adviser or Attaché.

(3) As required when serving with the Armed Forces of other countries.

(4) If desired, in public using the guidelines laid down at Para 3810.

b. Members of the Reserves shall wear uniform when:

(1) On duty, but see 3809d.

(2) Attending a function or ceremony at which the wearing of uniform is appropriate.

(3) If desired, in public using the guidelines laid down at Para 3810.

(4) Acting as RNR Liaison Officers in the WWE, NE, SNI and EE regions when undertaking a Military Support and/or Resilience Function in which uniform and rank is of particular importance.

c. Royal Navy personnel attending civilian educational institutions such as universities shall not normally wear uniform unless participating in training exercises, parades or functions.

[2] Chapter 39 - Outfit and Kit Scales (Annex 39B – Officers / Annex 39C – Ratings).
[3] Healthcare Practitioner includes Medical/Nursing Officers, Civilian Medical Practitioners, Practice Nurses/Nurse Practitioners, Physiotherapists and NHS Medical Practitioners (for Reserve personnel only).

d. The Daily Working Rig (DWR) for all personnel at sea and in harbour is RIG22. As such, there is no longer a requirement for the OOD (including DPO, Gangway Staff and other members of the Harbour Duty Watch) to routinely wear either No. 1 Uniform or Tropical Uniform when Duty.

e. If a Ceremonial Sunset, Guard Officer and Guard, Gangway Side Party, and other supporting personnel, (i.e. Car Door Openers) are required to take part in a pre-planned ceremonial event whilst alongside, personnel from members of the Ship's Company (and not the OOD and Duty Watch) are to be nominated to perform the ceremonial function, in either No. 1 or Tropical Uniform, as appropriate.

f. Application to wear uniform whilst on leave outside the UK shall be made through the appropriate Chain of Command.

g. Certain civilians employed by the Ministry of Defence, such as non-industrial personnel serving in RFAs and some overseas exchange appointments as well as accredited war correspondents, may wear appropriate uniform, as authorised by the relevant administrative authority.

h. Former members of the Royal Navy may wear uniform on state or other occasions of ceremony, provided it is in the best interests of the Service to do so. It should be noted that it is illegal for anyone who is not a former member of the Royal Navy, the proof of which lies upon the individual, to:

(1) Wear a Naval or any other uniform that is so similar to the real uniform that it might be mistaken for it.

And

(2) Wear a distinctive mark relating to service performed, wear a service medal, ribbon, badge, decoration/order or imitation thereof, or any other that is awarded for campaign service or any imitation thereof, that is likely to be mistaken for any such mark, medal, ribbon, badge decoration or order.

i. **Royal Naval Volunteer Band.** Members of Royal Naval Volunteer Bands, who are not themselves serving members of any Military Service or other non-military uniformed Service such as the Police/Fire Brigade etc., may wear a uniform as laid down in Annex 39F when on Service recognised band engagements, given they are representing the Royal Navy in the Public Eye. Furthermore:

(1) Retired officers and ratings who are members of an RN Volunteer Band may, at the discretion of the VBO, wear uniforms according to the rank held on retirement.

(2) Any retired officer or rating who finds themselves required to wear uniform is to uphold the values and standards expected of the Royal Navy in the public eye. Uniform is to be maintained in good order, and the individual must conform, in full, to the current dress and appearance standards expected of serving members.

j. **RN Personnel Employed in Joint Operations.** Members of the RN/RM who are employed in Joint Organisations and who are under a non-RN/RM Command are to wear only RN/RM uniform and accoutrements. Under no circumstances should an RN/RM serving member wear uniform/headgear of another Service. Local tactical badges/flashes, however, may be worn.

3810. Wearing of Uniform in Public

The Navy Board strongly encourages the wearing of uniform in public, taking into account the security advice. In doing so it is clear that the highest standards of dress and bearing are required. It is therefore incumbent upon all those wearing uniform to be aware that it is their duty not to bring the Service into disrepute as a result of their demeanour or actions, or otherwise to impact adversely on the efficiency or reputation of the Armed Forces.

3811. Wearing of Uniform in Foreign Countries

a. This regulation does not apply to individuals or units serving with a British force or mission, etc. where specific regulations will apply.

b. Service personnel, on or off duty, may wear uniform in foreign countries at Commanding Officers discretion. In addition, individuals must:

(1) Obtain permission from the local British Embassy of High Commission.

(2) Observe all relevant security instructions and requirements, including travel to and from the foreign country concerned.

3812. Uniformity in Dress

When taking part in a Joint Service parade or function, Royal Navy personnel shall be required to wear the equivalent order of dress, in line with the other Services, as laid down in the Joint Services Ceremonial Dress Tables (JSCDT) at Chapter 43 and promulgated before the event.

3813. Wearing of Plain (Civilian) Clothes

a. Civilian (plain) clothes shall be worn as directed when on duty in the Ministry of Defence and on other occasions when appropriate. Royal Navy personnel in plain clothes shall present a neat and well-groomed appearance in accordance with the provisions of this Section.

b. Marks of respect are to be paid when wearing plain clothes in accordance with BRd 1834, *RN Ceremonial and Drill*.

c. The Royal Navy Identity Card, MOD Form 90, must always be carried when wearing plain clothes.

d. Visible civilian items of apparel shall not be worn with uniform except where specifically authorised in these orders. Similarly, items of uniform shall not be worn with civilian attire except for items such as gloves, which do not explicitly identify the wearer as a member of the Royal Navy.

e. The kilt, (Scottish, Irish, Welsh, Cornish, Manx), with appropriate socks, shoes and accoutrements, may optionally be worn by entitled personnel when attending mess functions at which Number 2B or 2BW dress is ordered. Entitled Service Personnel (Officers and Senior Rates) may wear equivalent long skirts. As they are not part of official uniform, in common with mess boots and boat cloaks, kilts will not be provided at public expense.

f. Civilians may wear items of uniform such as caps and berets with badges in public displays, performances and at special events, provided that such action is not to the detriment of the Royal Navy. In particular:

(1) By custom, ex-Service personnel may wear caps or berets with badges on remembrance and memorial occasions.

(2) Historical re-enactment groups and staff in preserved historic ships are to be authorised to wear obsolete uniforms.

g. Chaplains in the exercise of their religious duties may wear ecclesiastical and academic clothing as appropriate over, or in lieu of, uniform.

3814. Royal and Honorary Ranks and Appointments

a. Members of the Royal Family holding Royal and honorary appointments in the Royal Navy shall receive an initial issue of uniform at public expense.

b. An officer holding such an appointment or honorary rank is authorised to wear the current uniform, rank insignia, accoutrements and accessories applicable to that appointment or rank.

c. No. 1 dress is to be provided, on request, from the existing DC Team contract. Lesser orders of dress may be obtained on temporary loan, but Mess Undress must be provided by honorary appointees at their own expense.

3815. Wearing of Maternity Uniform (Fig 38-1a and Fig 38-1b)

a. The aim of maternity uniform is to provide a professional, smart and yet comfortable alternative to regular uniform that can be worn throughout pregnancy. The wearing of maternity uniform by pregnant Royal Navy personnel is compulsory when they can no longer fit comfortably into their service uniform. The only exception is when written authority is given by the Medical Officer for an individual to wear plain clothes for medical reasons. On occasion it may be necessary for certain conditions or occasions to be assessed by the pregnant individual’s Chain of Command (CoC) in order to adopt an appropriate ‘equivalent’ state of dress. In these circumstances, common sense must prevail and further guidance beyond these regulations can be obtained from the regional Maternity Cells.

b. Pregnant Service personnel will be allowed some flexibility as to how they wear their maternity uniform. The individual garments (dress, trousers, short-sleeved shirt and cardigan) may be worn in any combination. Shirts are to be worn outside trousers. The short-sleeved shirt is to be worn open necked without a tie. The maternity uniform will routinely be worn with the usual service insignia of rank/rate badges (including regulating crown for RN Police), hosiery, shoes and head dress. No mixed wear of items of standard and maternity uniform other than these insignia/accessories is allowed. A white dress is available for those in clinical appointments. The following guidance is given for line managers:

(1) **Headdress.** Certain pregnancy conditions may be exacerbated by the wearing of head dress. Pregnant individuals may request, through their CoC, to their CO (or equivalent), to be exempted from wearing head dress, or to limit the amount of time it is worn.

(2) **Footwear.** Foot and ankle swelling can be common in pregnancy, making the wearing of standard service footwear uncomfortable. In such cases, pregnant individuals may request to wear non-issue shoes. Shoes must be of plain design (no details or external stitching), black, flat 'ballet pump' or low-heeled style.

(3) **Tights.** The wearing of tights is not mandatory with maternity dresses. The wearing of tights with maternity dresses is a personal choice only. Where tights are not worn, 'pop socks' or plain black ankle socks may be worn; examples of appropriate socks are at figures 38-1.c and 38-1.d.

(4) **Ceremonial or Formal Occasions.** Pregnant personnel are not to be excluded from any event as a result of them wearing maternity uniform. When No. 1 or No. 2 dress or equivalent is ordered, a pregnant individual may wear her blue maternity dress or request to wear smart civilian maternity attire where it is deemed more appropriate to the occasion. The wearing of civilian maternity wear on duty remains entirely at the discretion of the unit CO or equivalent.

c. Pregnant individuals (including Maritime Reserves) are issued with a maximum of four 'tops' in a combination of dress, short-sleeved shirt and trousers, plus cardigan. Combinations available are:

(1) Four dresses.

(2) Three dresses, one shirt, one pair trousers.

(3) Two dresses, two shirts, one pair trousers.

(4) One dress, three shirts, one pair trousers.

(5) Four shirts, two pairs trousers.

d. Nursing and Dental Staff may opt for four clinical white dresses or the combinations detailed in sub para c above.

e. **Entitlement to Exchange Uniform on Return From Maternity Leave.** Service personnel are authorised to exchange uniform items free of charge at public expense without signs of ‘fair wear and tear’ on return from maternity leave.

(1) Entitlement will be 24 months from the date maternity leave commences.

(2) All scaled uniform items (Annex 39B and 39C) are available for exchange or alteration. A pragmatic approach should be considered to reduce potential waste as a full exchange may not be required immediately. JPA proof of leave/assignment order may be required for exchange.

(3) **No. 1 and No.2 Uniform (Mess kit).** Should be altered in the first instance. However, it may be exchanged free of charge if advised to do so by the tailor/contractor.

3816. Provision of Sports Bras for RN Personnel

a. The RN requires all personnel to maintain fitness and undertake regular physical exercise. Research has shown that an ill-fitting bra can significantly impair support and breast health during arduous physical activity.

b. All RN and RM personnel who require a sports bra for support during physical training, sport, Physical Education and PES are authorised to source up to two sports bras (**per year**) and claim back the cost, up to a maximum of £50 per bra. This will be revised when a long-term supply contract has been negotiated and is in place.

c. Personnel are authorised to source their own sports bras in line with the following criteria:

(1) Items are to be purchased from a reputable bra provider, and a fitting service is to be used. Users are advised to give examples of the type of exercise that they will be undertaking to help ensure appropriate level of support. Online services are available.

(2) Individuals are responsible for ensuring that the selected bra offers sufficient support for all levels of physical training.

(3) Claims are to be made in accordance with Annex 38D.

d. Pre- and post-partum personnel are entitled to purchase two additional sports bras due to the change in body shape over this period. A maximum of four sports bras may be purchased in any 12-month period.

3817. Sea Cadet Corps and CCF (RN-RM) Officers and Ratings/Other Ranks

a. Sea Cadet Corps and CCF (RN-RM) officers and ratings/ORs may wear the equivalent RN or RM uniform provided that all such uniforms bear ‘cadet insignia’ which distinguish them from their regular counterparts. The wearing of such uniforms does not confer other rights and privileges that might normally be accorded to regular or reserve personnel unless stated elsewhere. The entitlement to wear uniform, at public expense, is in the form of a concession from the Ministry of Defence and confers non-Crown Servant status (either military or civilian) on the wearer.

b. Sea Cadet Corps and CCF personnel should only wear uniform when:

(1) On duty.

(2) Attending a function or ceremony at which wearing of uniform is necessary.

(3) The uniform scales for Sea Cadet Corps and CCF personnel are contained in Appendix 2 of Sea Cadet Regulations and Combined Cadet Force Regulations (AC72133).

3818. Special Measure Uniform

Special measure uniform is only to be authorised when there is discernible evidence that the change in physical size is attributable to either natural growth or a physical fitness change in muscle bulk. Other requests for special measure should firstly be referred to the local Medical Officer.

3819. Smoking, Eating and Drinking Alcohol when in Uniform in Public

a. The deportment, appearance and conduct of all officers and ratings/ORs, whether in uniform or in plain clothing, on or off duty, shall on all occasions reflect credit on the Royal Navy and upon the individual. It is the responsibility and duty of all those in authority to ensure that the policies, regulations and instructions contained herein are to be adhered to.

b. Service Personnel are encouraged to wear uniform in public unless it has been deemed impractical or unsafe to do so for service reasons or security considerations as communicated down through the CofC.

c. While smoking, drinking and eating whilst wearing uniform in public outside of military bases is not forbidden, including for example on public transport, at motorway services or at a railway stations or airports, personnel are to observe the following:

(1) Individuals must smoke, eat or drink in a discreet manner by using the appropriate facilities, (i.e. restaurant, café, lounge, seating areas, designated smoking/vaping areas, etc.), and whilst doing so should remain static in that location.

(2) Individuals are not to smoke, eat or drink whilst walking and transiting through public areas, such as city/shopping centres or public/recreational parks.

(3) Whilst wearing uniform in public head dress is to be removed. Individuals are reminded that the correct way to pay and observe marks of respect, whilst not wearing head dress, is by standing smartly to attention, until it has been acknowledged by the senior. There is no need to replace head dress to do so, however, head dress must be replaced as soon as the individual finishes smoking, eating or drinking and prior to leaving smoking, eating or drinking and prior to leaving the designated area.

d. When transiting in uniform Service personnel are not to use mobile phones; there are areas designated for these activities in all ships and/or military establishments.

e. **Smart and Presentable Appearance.** Officers and ratings/ORs in uniform shall be well groomed with smart and properly pressed uniform and clean footwear. In particular, buttons, fasteners and zips shall be kept closed; pockets shall not be bulged; personal items such as glasses, sunglasses, pens, pencils, key rings, Bluetooth Headsets, iPods or papers shall not visibly protrude from pockets nor be suspended from waist belts or pockets. Mobile telephones or bleepers, personal radios, tape or CD players and other such electronic equipment, shall not be visibly worn, or operated except when provided from Service sources for the performance of a specific duty where their ready accessibility is required.

f. **Consumption of Alcohol.** The consumption of alcohol while wearing uniform in public is to be limited to very specific circumstances, as authorised by the CofC, such as attending an official civic reception during a port visit, attending a wedding/funeral in uniform or an organised Public Military Event (PME) where uniform is encouraged to be worn. On all occasions personnel are reminded they are to conduct themselves iaw Para a. above.

g. It is the responsibility and duty of all those in authority to ensure that the policies and instructions contained herein this paragraph are adhered to.

h. **Jewellery.** Apart from wristwatches and cuff links where appropriate, no jewellery, friendship bracelets or visible chains (including bracelets, necklaces and anklets) are to be worn with uniform other than those listed below. Wristwatch straps and cuff links are to be non-garish and conservative by design:

(1) Personnel who are adherents of Christianity may wear specified religious items whilst in uniform, including a cross, fish symbol (also known as an ichthys), or a devotional scapular or medal worn around the neck, as well as a prayer rope bracelet (also known as a komboskini or chotki), provided that such items are plain, unobtrusive, and free from ornaments or tassels. All items may be worn subject to the condition that they do not interfere with the proper wear or use of uniform, accoutrements, or equipment, and do not compromise the safety or health of the individual.

(2) Signet, engagement and wedding rings for male personnel.

(3) Signet, engagement and wedding rings, and a single small plain silver or gold sleeper or stud (not more than 6mm in diameter) earring in the centre of each earlobe for Servicewomen. Conservative pearl studs may be worn with No. 2 Mess Dress/Undress.

(4) When in Ward Dress a wedding ring is the only item of jewellery permitted to be worn by QARNNS personnel.

(5) A single charity wristband may be worn by personnel in working uniform but not in No. 1 uniform. Due consideration must be made with regards to the health and safety of individuals working in places where the wristband could become a snagging hazard. In accordance with KRRN, it remains for the Commanding Officer to decide upon the overall suitability of any particular wristband.

(6) Local Orders for Royal Guards or other occasions of major ceremony may further limit items of jewellery to be worn.

i. **Body Piercing.**

(1) Other than those items detailed at Para 3818 sub para c above, no form of jewellery is to be worn on the body. Even where a part of the body has been pierced or prepared, whether for any ring, stud or sleeper, no such items are to be worn when in uniform or on duty. Body piercing does not include the piercing of the earlobe for the wearing of a stud or sleeper.

(2) Any scarring, such as that caused by a 'flesh tunnel' or other body decorations, injury, infection or illness caused as a result of body piercing, or through the wearing of any form of body jewellery (other than that permitted in these regulations), and with the exception of any minor legacy scarring acquired prior to enlistment, will be deemed to have been self-inflicted and will be dealt with as a disciplinary matter which may ultimately lead to an Administrative Discharge if any of the criteria at para 3818 sub para g sub para (2) cannot be met.

(3) For clarification, a 'Flesh Tunnel' is that specific form of self-inflicted scarring which occurs following the insertion of (usually) every increasing in size circular 'stretchers' which, over time, produce a larger and larger earlobe. When such stretchers are removed, a large and visible hold (the flesh tunnel) remains.

j. Similarly, when in plain clothes, the wearing of body jewellery and trinkets whilst on board or on duty is not permitted, nor at any other time when likely to reflect adversely upon the Royal Navy. Body jewellery represents a risk to individual safety in the event of an incident.

k. **Body Art (Tattoos and Other Forms Including Scarification and Flesh Tunnels)**

(1) Following a recent review, the Service tattoo policy has changed. Easing the restrictions on tattoos for both potential recruits and serving personnel, whilst maintaining professional standards, is entirely consistent with the Royal Navy being an organisation that reflects the society it lives in and protects.

(2) Tattoos on the neck and throat are now permitted. Tattoos that encroach on the ears and face may be considered, following prior consultation with Navy Exec SO3.

(3) Tattoos and all other forms of body art (including scarification, flesh tunnels and any other deliberate body scarring) are deemed **unacceptable** if they are judged by the Commanding Officer, or at the recruiting stage by the Recruiting Officer, to meet any **one** of the following criteria:

(a) If they are visible on the face in a front view passport photograph.

(b) Irrespective of its **size or position on the body**, a tattoo will be obscene and unacceptable if it refers to or depicts an image of:

i. A sexual act.

ii. Extreme pornographic behaviour.

iii. Violence of any kind.

iv. Drugs.

v. Racism.

vi. Political views.

(c) This list is by no means exhaustive but covers the main areas that deciding authorities must consider in making their decision.

(d) **Irrespective of its size or position on the body**, a tattoo will be offensive and thus unacceptable if, by its nature, it has the purpose or effect of violating another person's dignity or creating an adverse environment for others (for instance because it refers to or depicts an image relating to a protected characteristic of gender, sexual orientation, race, religion, disability or age). A tattoo should only be considered to have such an effect if, having regard to all the circumstances, it can be viewed as offensive by an objective standard.

(e) Any tattoo which does not meet one or more of the criteria above but which, **in the opinion of the individual's Commanding Officer or a Recruiting Officer**, is nevertheless, by virtue of its size, position or nature, unacceptable and detrimental to the Service, for example, a message or inappropriate image on the hand which would be seen when saluting.

(f) In the specific case of tattooed eyebrows, these are permitted provided that in the opinion of the Commanding Officer or Recruiting Officer they appear as two discrete eyebrows and are deemed suitably realistic and inoffensive.

(g) A flesh scar or small flesh tunnel may be possible to be covered in order to allow the healing process to occur, however any scar or flesh tunnel which does not heal will need to be considered in accordance with the conditions above and may ultimately lead to Administrative Discharge.

(4) Serving personnel who presently have tattoos, scars of a flesh tunnel which contravene the regulations will be dealt with on a case-by-case basis by the chain of command who will make a judgement based on when the item was acquired and under what circumstances. Personnel acquiring tattoos, scars and flesh tattoos that contravene this policy will be invited to have their tattoos removed at their own expense or for a flesh tunnel to 'close'. Acquisition of tattoos, scar or flesh tunnels in contravention of the regulations and policy will result in disciplinary action and subsequent failure to remove them is most likely to result in administrative discharge after an appropriate period on warning

(5) The deciding authority on the appropriateness of tattoos for SP, including those on the neck and throat tattoos, is the Commanding Officer and for potential recruits the Recruiting Officer

(6) Where any doubt exists or clarity is required, Navy Exec SO3 should be contacted with photographic evidence indicating the detail of the tattoo. Navy Exec SO3 must be consulted where tattoos encroach on the ears and/or face.

(7) Head of Recruit & Attract to be arbiter for potential recruits in the recruiting phase.

3820. RN Personnel Hair Policy

a. As societal norms evolve, appearance policy is routinely reviewed to ensure that the RN remains an attractive, inclusive and modern employer. Recent changes to ease appearance restrictions have been well received and have had no negative impact on warfighting capability, reputation or safety. Feedback from Service Networks, complaints from Service personnel and informal reports from RN recruiters suggest the need to go further to reflect those societal norms to help us attract, recruit and retain personnel.

b. **Policy.** The following are permitted for RN personnel regardless of gender when wearing uniform or plain clothes on duty.

c. **Hair.** All hairstyles shall be kept neat and tidy, demonstrating a professional appearance. They should be secured or styled back from the face. Braids, twists, corn rows, locks or an afro can be worn. The hairstyle must not impede your ability to wear appropriate uniform or to deliver operational outputs.

d. All hairstyles must be short enough not to extend below the lower edge of the shirt collar when worn down, or long enough to be worn in a bun or ponytail. In working rig, longer hair may either be worn in a bun, single ponytail, single braid or corn braids/rows, secured with conservative bands, grips, or hairpins, and nets of natural hair colour. Hair accessories such as beads shall not be worn. When tied up, hair lengths should not exceed the top of Rig 22 belt due to safety reasons.

e. **Colour.** Hair colour must be of an even natural colour and not detract from a professional appearance. Unauthorised pigments include, but are not limited to, purple, blue, pink, green, orange, bright red and fluorescent or neon colours

f. **Extensions.** Personnel may wear hair extensions, including weaves, and may also wear wigs, all of which must conform to the hair rules described above. When wearing a wig is not possible or practical, for example during strenuous physical exercise or firefighting, personnel may, at their discretion, wear a plain headscarf in a colour appropriate to the uniform being worn.

g. **Sideburns.** Sideburns shall not extend below the earlobe, shall be of even width, and shall be taper trimmed and squared to conform to the overall hair style.

h. Cultural and religious exceptions are detailed in BRd3 Ch38 Section 2.

i. **Facial Hair.** Commanding Officers shall permit all personnel to request to wear
full set beard and moustaches or moustaches.

(1) Beards are to be kept short and neatly trimmed, with particular care to ensure they are kept off the neck and cheekbones. They are to be even in coverage and neat in appearance, especially at the cheek line. The maximum acceptable length of a beard is to be Grade 8 (25.5mm).

(2) If only a moustache is worn, the upper lip is to be unshaven but neatly trimmed. The moustache is not to extend below the line of the lower lip, and not exceed beyond the width of the face.

j. The following guideline for facial hair must be maintained:

(1) Length must be between Grade 1 (2.5mm) and Grade 8 (25.5mm).

(2) Facial hair must be trimmed off the neck and cheekbones.

(3) Patchy and uneven growth is prohibited.

(4) Colour must be natural and not exaggerated.

(5) The moustache is not to extend below the line of the lower lip and is not to exceed beyond the width of the face.

k. The following characteristics will remain deemed to be unacceptable:

(1) **‘Designer Stubble’.** Assessed as any beard length shorter than Grade 1 (2.5mm).

(2) **Beards of Uneven Growth (e.g. ‘scrappy’).** The definition of ‘scrappy’ remains a subjective judgement of the Command and delegated representatives.

(3) **Extended or ‘hipster’ Beards or ‘handlebar’ Moustaches.** The definition of Extended or Hipster remains a subjective judgement of the Command and delegated representatives

(4) **Beard Colour.** The colour of facial hair is to be natural in shade.

l. **Growth Time.** The maximum period in which an individual is expected to grow a sufficiently thorough full set beard or moustache only is 2 weeks and should be preceded by a request through the Divisional Officer to “set the clock”. Service Personnel are not to enter back-to-back or sustained periods of ‘growth time’ by shaving mid-way through, or at the end of this period so as to reset the clock. If an individual attempts to grow a beard and/or moustache and it’s not acceptable, they cannot attempt again for 3 months. It is within the subjective judgement of the Command (and delegated representatives, namely all personnel with a responsibility of authority) to define an acceptable appearance of a beard or moustache, as much depends on the features of the individual.

m. **Religious or Faith Reasons.** Where facial hair is grown as a tenet of a faith by a genuine adherence to that faith, it may be grown in excess of the limit described above. Such facial hair may require to be trimmed or tied up or even removed if it undermines the health and safety of the wearer or others in the unit or should it undermine the operational effectiveness of the unit, especially IAW para q below. Any faith or practice must be clearly established by an individual.

n. **Health and Safety.** Hair styles should not impact an individual’s ability to conduct their general duties, or when carrying out roles in a CBRNDC environment. Consideration should be taken to reduce the risk of personal injury when hair is worn down.

o. Hair extensions, wigs and head scarves should be a non-synthetic material and should be removed when conducting fire-fighting duties.

p. **CBRN Threat.** The Commanding Officer retains the authority to determine the requirement for an individual to shave, based on the Operational requirement at that time. Once ARTS testing has been completed, COs **ARE** to order the shaving of beards when the CBRN threat level is MEDIUM or higher. Other occasions, such as Operational Sea Training and/or similar exercises, in which the CBRN threat is LOW will not warrant the requirement to shave. If the individual refuses to modify their facial hair (or head dress) to the extent necessary to maintain their own safety and Operational Capability, then they **may** be disciplined. Should they continue to refuse, commanders should consider not deploying that individual into theatre or removing them from theatre if already deployed. Disciplinary action and non-deployment are **in extremis** measures that should be adopted incrementally.

q. **Royal Naval Air Stations.** In RNAS Fire Stations and Royal Naval School of Flight Deck Operations (RNSFDO) service persons must also comply with Defence Fire Operational Instruction 036 for facial hair. RNAS Fire Station Managers reserve the right to instruct individuals to remove facial hair if they are unable to demonstrate a Breathing Apparatus face seal.

r. **Ceremonial Duties.** When wearing ceremonial uniform, hair shall be well-groomed and secured or styled back from the face. Long hair should be worn up in a bun and properly secured in a neat and tidy fashion using conservative bands/ties, grips, hairpins, and nets, of natural hair colour. This is also to be adhered to, when ordered, for ceremonial/parade rehearsals and training in all orders of dress.

s. For minor ceremonial events when wearing uniform (such as 1B, 1C, 3A) individuals should not need to change facial appearance. However, for major ceremonial and Public Military events, the Commanding Officer may order the alteration of facial hair.

g. In addition to the guidance at Para 3819 sub para e, the Command may order individuals to shave off beards deemed inappropriate for a Service Parade of any nature.

3821. Unallocated

3822. RM Personnel Workforce Appearance

a. **Hair**. Hair shall be neatly groomed; taper trimmed at the back, sides and above the ears to blend with the hairstyle. On the top of the head, it shall be no more than 12 cm in length and sufficiently short at the front and sides that when the hair is groomed, and head dress removed, no hair shall touch the ears or fall below the top of the eyebrows. It shall be kept above the shirt collar. Cultural and religious exceptions are described within this chapter.

(1) Hair shall be no greater than 4 cm in bulk at the top of the head, with the bulk decreasing gradually from the top and blending with the taper-trimmed back and sides. Bulk is defined as the distance that the mass of hair protrudes from the scalp when groomed – with no hair products, as distinct from the length of the hair. Styling shall not present an exaggerated or non-conformist appearance, nor shall it interfere with the proper wearing of head dress. Excessively short hair can detract from a smart and well-groomed appearance; it may be permitted, however, at the discretion of the Commanding Officer or First Drill. Unnatural hair colours (i.e. those colours that are not within the colour range of the individual's natural hair colour) are not permitted.

(2) **Hair colour.** Hair must be of an even natural colour such as tones of blonde, brunette, brown, auburn, grey or black, and not detract from a professional appearance. Unauthorised pigments include, but are not limited to, purple, blue, pink, green, orange, bright red, and fluorescent or neon colours. In all cases ID cards must be representative of hair colour.

(3) **Sideburns.** Sideburns for RM Personnel shall not extend below halfway down the ear. It should be of even width and shall be taper trimmed and squared off to conform to the overall hair style.

(4) **Moustaches.** The maximum period in which an individual is expected to grow a sufficiently thorough moustaches is 2 weeks. If a moustache is worn, the upper lip is to be unshaven but neatly trimmed. The moustache is not to extend below the line of the lower lip action, and not exceed beyond the width of the mouth. The maximum acceptable length of a beard is to be Grade 8 (25.5mm). The definition of an 'excessive amount of time to grow' remains within the subjective judgement of the Chain of Command (and delegate representatives, namely the Unit/Coy HQ and all personnel in positions of authority (LCpl and above).

(5) Personnel who refuse to modify their facial hair where required by the Chain of Command following the application of the provisions above may be subject to administrative and / or disciplinary action.

b. **Beards/Facial Hair**. All RM Personnel are permitted to grow a full set beard, subject to the conditions below and to the requirement to notify their Chain of Command in advance, via a formal written request. Beards are to be kept short and neatly trimmed, with particular care to ensure they are kept off the neck and cheekbones. They are to be even in coverage and neat in appearance, especially at the cheek line. It is within the judgment of the Chain of Command (LCpl and above, as delegated by the CO), to assess the acceptable appearance of a beard. The Chain of Command will make a judgment based on sight and will not physically measure an individual's beard. Daily beard inspections are discouraged. The Chain of Command should assess beards according to the following criteria and the graphics within this paragraph.

(1) **Growth time.** The maximum period in which an individual is expected to grow a sufficiently thorough full set beard is 2 weeks. Personnel are permitted to grow their beards whether or not they are on duty. Service Personnel are not to enter back-to-back or sustained periods of 'growth time' by shaving mid-way through, or at the end of this period so as to reset the clock. If an individual attempts to grow a beard and it's not acceptable, they cannot attempt again for 3 months.

(2) **Maintenance.** Beards and moustaches shall be kept neatly trimmed especially, in the case of beards, at the lower neck and cheekbones. or moustache, as much depends on the features of the individual. As a guide, however, the following characteristics are not acceptable:

(a) **'Stubble'.** Stubble is only permitted within the 2-week growth period and is assessed as any beard length shorter than approximately Grade 1 (2.5mm). However, it must be communicated to the chain of Command prior to growing.

(b) **Beards of Uneven Growth/Coverage (e.g. 'scrappy').** The definition of 'scrappy' remains within the subjective judgement of the chain of command (and delegated representatives, namely the Coy/Unit HQ and all personnel in positions of authority (LCpl/Cpl and above)).

(c) **Extended or 'hipster' Beards or 'handlebar' Moustaches.** Extended or 'hipster' beards or 'handlebar'/extended moustaches are not permitted.

(d) **Beard colour.** The colour of facial hair is to be natural in shade.

(e) **Religious or Faith Reasons.** Where facial hair is grown as a tenet of a faith by a genuine adherence to that faith, it may be grown in excess of the limit described above. Such facial hair may require to be trimmed, however, or be tied up or removed if it undermines the health and safety of the wearer or others in the unit, or if it undermines the operational effectiveness of the unit. Any faith or practice must be clearly established by an individual and not simply deemed as having been undertaken in order to defy the regulations contained within this BR.

(f) When the safety of an individual might be jeopardised by their beard or moustache, such as in the wearing of oxygen or gas masks, it shall be modified in such a fashion as to accommodate the type of equipment to be worn.

c. **CBRN Threat.** The Commanding Officer retains the authority to determine the requirement for an individual to shave, based on the Operational requirement at that time. Once ARTS testing has been completed, COs are to order the shaving of beards when the CBRN threat level is MEDIUM or higher. Other occasions, such as Operational Sea Training and/or similar exercises, in which the CBRN threat is LOW will not warrant the requirement to shave. If the individual refuses to modify their facial hair (or head dress) to the extent necessary to maintain their own safety and Operational Capability, then they may be disciplined. Should they continue to refuse, commanders should consider not deploying that individual into theatre or removing them from theatre if already deployed. Disciplinary action and non-deployment are in extremis measures that should be adopted incrementally.

d. **Ceremonial.** The Chain of Command (not to be delegated below the CO & First Drill), retains the authority to order any individual (including those wearing a beard for religious or cultural reasons) to shave or modify their facial hair for occupational, operational or safety requirements or where an individual has not complied with the provisions laid out (and where they are not wearing a beard for religious or cultural reasons in accordance with this chapter). After the Parade has concluded, those who want a beard again will have to reapply via the Unit/Coy/Sqn request form and gain approval again. Those who do not seek formal approval are subject to disciplinary action. Notification may be made orally or in writing. Minor Ceremonial events when wearing uniforms such as Lovats & Half lovats (1B,1C, 3A) individuals do not need to change facial hair appearance, however Major Parades when wearing Blues (1A) & Mess Dress (2A) such as London/Units Parades or any Public duties, the Commanding Officer & First Drill hold the decision to remove facial hair.

e. **Royal Naval Air Stations.** In accordance with the instructions of the Chief Fire Officer, all Naval Aircraft Handlers employed at RNAS fire stations, or involved with fire-fighting training at the RNSFDO, are to be clean shaven.

(1) Beards or moustaches shall be shaved off if the conditions within this chapter cannot be met.

(2) Beards should be of a length that does not extend beyond the top part of the collar front of a service shirt. More specifically, if the individual was wearing a shirt and tie, the beard would not obscure the knot of the tie. The breadth of the beard should not exceed the maximum width of the line between the RM serviceman’s ears.

f. **Recruits/Young Officers.** Whilst under training - Phase 1&2, All workforce that are currently under training in Phases 1&2 are not permitted to grow a moustache or a Beard.

g. **RMBS.** The RMBS CTM reference the change of policy for Servicewomen’s hair.

h. **Beards.**

(1) Apply chit to CSM for OR's.

(2) Apply to Adj, 2IC or CoS for Officers.

(3) Growth time – 2 Weeks

(4) Minimum length – 2.5mm

(5) Max length – 25.5mm

(6) Eligible – Serving Officers/OR's, FTRS, Reserves.

(7) Not Eligible – YO's/Recruits/RMSoM whilst in training.

i. **Moustache.**

(1) Apply chit to CSM for OR's.

(2) Apply to Adj, 2IC or CoS for Officers.

(3) Growth time – 2 Weeks

(4) Minimum length – 2.5mm

(5) Max Length – 25.5mm but top lip showing.

(6) Width – Edge of Mouth.

(7) Depth – Neatly groomed, able to see top lip.

(8) Eligible – Serving Officers/OR's, FTRS, Reserves.

(9) Not Eligible – YO's/Recruits/RMSoM whilst in training.

j. The following graphic provides an example of acceptable facial hair:

(1) Only a full set beard will be allowed.

(2) Length must be between Grade 1 (2.5mm) and Grade 8 (25.5mm).

(3) Facial hair must be trimmed off over the cheekbones and neck.

(4) Patchy and uneven growth is not allowed.

(5) Colour must be natural and not exaggerated.

k. The following examples are not acceptable:

3823. Glasses and Sunglasses

a. In line with key NATO allies and to protect eyes from UV rays, RN personnel are authorised to wear sunglasses while wearing uniform ashore, whether within or external to shore establishments. This authorisation is year-round and all-encompassing, without temperature or brightness caveats which would become unwieldy to manage. Shore establishment Commanding Officers shall, so far as possible, adhere to this direction but local orders **are** to reflect safety considerations e.g. weapon handling etc.

b. The following criteria are to be adhered to:

(1) Both glasses and sunglasses shall be of conservative design. Sunglasses lenses are to be a single shade of black, without manufacturer logos on the temples/arms.

(2) Carrying cases shall not be visibly carried in or on uniform dress.

(3) Personnel who normally wear glasses may wear either conventionally framed prescription sunglasses or conservatively styled clip-on sunglasses when conditions and circumstances dictate.

(4) Sunglasses and photochromatic (reactive style) glasses are **not** permitted on ceremonial parades.

(5) Mirrored lenses or half silver mirror are **not** to be worn by personnel in uniform.

c. The wearing of sunglasses in sea-going units, whether alongside or at sea, shall, so far as possible, follow the above direction. The final decision remains at the CO's discretion however and shall take into account safety and other considerations which are to be recorded in local orders.

3824. Wearing of Clothing Items

a. **Peaked Cap.** The cap shall be worn square on to the head with the tip of the peak in line with the eyebrows. The seam of the woven band, on which the cap badge is sewn, shall be in line with the seam inside the back of the cap. The centre of the cap badge shall be in line with the seam at the front of the cap cover.

b. **Cap Covers.** Cap Covers shall be white plastic. Officers only are permitted to wear cotton cloth cap covers in normal daily wear but shall only wear plastic cap covers on Ceremonial Parades and Reviews.

c. **Brown Leather Gloves.** Brown leather gloves are intended for wear by officers and Warrant Officers with greatcoats only. They shall not be worn on Ceremonial occasions unless specifically ordered by the Senior Officer. An Officer of the Guard, however, shall wear brown leather gloves when the occasion requires the ratings of the Guard to be wearing white gloves.

d. **White Gloves.** White cotton gloves will be worn by ratings forming a Guard and on other ceremonial occasions when ordered and issued. An officer will only wear white gloves when parading as the King's Colour Officer in a Guard of Honour or Street Lining detachment, irrespective of the time of year.

e. **Gloves.** Can be worn with Rig 22, but must be predominantly black or dark blue and free from distinctive insignia other than the RN logo.

f. **Tricorn Hat.** Tricorn hats are to be worn square on the head with the brim parallel to the ground and with no hair showing.

g. **Seaman's Cap.** The Seaman's Cap is to be worn square on the head. The central letter on the cap tally (including the letters HMS where present) is to be over the bridge of the nose; the bow is to be tied smartly to sit above the left ear. Chin stays, when down, are to fit flat to the face and pass just in front of the ears.

h. **Beret.** The beret shall be worn evenly on the head, with the sweatband 2.5 cm above the eyebrows, the badge centred over the left eye, and the crown pulled downward to the right. The break of the sweatband shall be worn centred at the back of the head, with no drawstrings visible. Royal Navy personnel entitled to wear a green beret may do so in lieu of a blue one where appropriate.

i. **Turban.** The turban and cap badge or cap tally are to be worn as detailed in Para 3831 sub para a, (3), Para 3831 sub para e, (1) and Annex 38A.

j. **Jackets and Class II Jumpers.** Jackets and Class II Jumpers shall always be worn fully buttoned or zipped up. Elasticated drawstrings are to be pulled tight and cut to length.

k. **Ties.** Ties shall be knotted neatly and shall be kept tight at the collar. The tie shall not be tucked into the shirt where a jacket or jersey is not worn. Tie pins and clips are to be plain silver, gold, ship's own or Service related (conservative). Knitted ties are not permitted on ceremonial parades.

l. **Belts and Clasps.** Belts and clasps are to be service issue only, current ships crest or shield type clasps are permitted as well as fighting arm clasps.

m. **Jersey.** Jerseys shall be worn with the sleeves rolled down. When worn over a shirt with a tie the tie knot is to be plainly visible. When worn over an open necked shirt by JRs only, the shirt collar is to be worn open outside the jersey.

n. **Skirts.** The skirt is to cover the kneecap but shall not extend further than 5cm below the bottom of the kneecap.

o. **Underwear.** White or skin coloured underwear, conservative in nature, is to be worn underneath white shirts, white PT shorts, and at all times when wearing tropical uniform.

p. **Hosiery.** All Servicewomen wearing blue uniform skirts shall wear plain black tights or stockings. Tights and stockings are not to exceed 15 denier.

q. **Footwear.** Footwear shall be kept clean and polished at all times. Court shoes; height of heel is not to exceed 2 3/4” or 6.5 cm and not be stiletto. Court shoes are to be worn only with skirts.

r. **Ceremonial Greatcoats.** Ceremonial Great coats are worn when ordered for ceremonial activity between 1 Oct and 30 Apr and will be issued from HMS EXCELLENT stores when approved by SCTO. Ceremonial greatcoats are to be buttoned to the neck when worn by officers and ratings, unless they are wearing Orders and Decorations, then the great coat can be worn opened at the neck; shoulder boards are to be fully sewn to the coat.

s. **Foul Weather Jackets.** Only Foul Weather Jackets and MTP waterproof jackets are to be worn. All other legacy variants of raincoats and windproof jackets are obsolete and should not be worn. Greatcoats should only be worn IAW BRd 3(1) Chapter 38 Para 3824 sub para r and BR 1834 0507 para A 6. Garments need not be zipped fully to the neck, but should, at all times, present a smart appearance. Elasticated drawstrings are to be pulled tight and tied or cut to length. When carried, coats are to be draped over the left arm. Hoods, if fitted, are not to be deployed unless in extreme weather conditions.

t. **Handbags.** Service issue handbags may be carried by Servicewomen but may not be carried by those fallen in as part of a formed body. Civilian handbags may be used that are of a plain black conservative design.

u. **Handkerchiefs.** Pocket handkerchiefs may be worn with No. 1 uniform but must not be worn on Ceremonial Parades. Colours must be conservative and plain.

v. **Umbrellas.** Umbrellas may be used with uniform in wet weather but must be predominantly black or blue and free from distinctive insignia other than the RN logo.

w. **ID Card Holder Lanyards.** ID card holder lanyards should be no wider than 15mm, predominantly dark blue in colour and of a non-garish nature. Lanyards representing recognised organisations should not be worn unless the individual is serving as a member of that organisation.

x. **Cummerbunds.** Ships’ cummerbunds may be worn in Red Sea Rig or in lieu of black waistcoats when wearing 2B Mess Undress, at the discretion of the Mess President.

y. **Baseball Caps.** Baseball caps may be worn at the Commanding Officer’s discretion at sea only.

z. **Backpacks/Rucksacks.** Backpacks/rucksacks must be predominantly black or dark blue and free from distinctive insignia other than the RN logo.

aa. **Name Badges.** The approved RN design name badge shall be worn on the bottom half of the tie when wearing No. 3A uniform and over the left breast pocket on No. 3B uniforms. NTfL (Name Tally for Life) are to be worn attached by Velcro on the left breast of Rig 22. Name badges will not routinely be worn on No. 1 uniform; however, Commands may locally authorise the wearing if they aid identification (e.g. at receptions, meet the public days, etc.).

ab. **Poppies.** Poppies may be worn to commemorate the National period of Remembrance from when the Royal British Legion launches the Poppy Appeal until the day after Remembrance (Armistice) Day. Only official Royal British Legion poppies are to be worn in uniform. Poppies are not worn by those on parade at the National Cenotaph Parade in London. Poppies are to be worn:

(1) **Officers and All Ranks.** With greatcoats on the left lapel if lapel down or pinned to the left breast if lapel is buttoned up.

(2) **Officers, WO and SRs.** On the left lapel buttonhole of No. 1 uniform.

(3) **RN Junior Rates.** Are to wear the poppy on the left side of the cap when in No 1 Uniform.

(4) **Officers SR's and JR's.** Secured to the left breast of the blue wool jersey when worn with No 3's.

(5) **Officers SR's and JR's.** Secured to the left breast pocket of short sleeve shirts or the tie when wearing long sleeve shirts, when in No. 3s.

(6) **Officers SR's and JR's.** Secured to the left breast of Rig 22 shirts.

(7) **Royal Marines and QARRNS.** are to wear the poppy on the left side of the cap or hat, and with berets beneath the beret badge.

ac. **Cufflinks.** No. 1/2 uniforms - Plain silver, gold, ship's own or Service related (conservative). No. 3s - Plain silver, gold, ship's own or Service related (conservative).

3825. QARNNS, RNR, RMR and SCC/CCF(RN) Officers and Ratings/Other Ranks

Apart from the differences in rank/rate and distinguishing insignia detailed in Chapter 39 and Chapter 40, reserve and cadet personnel should wear the same uniform as regular Service personnel.

3826. Wearing of MTP in the Royal Navy

a. Royal Navy personnel should wear Royal Naval uniform unless there are compelling environmental reasons to wear MTP. In this context, General Duty Rig Rig22 is the normal working rig for RN personnel whilst No. 3A/3C 'Half Lovats' or No. 3B Training Rig (MTP) is appropriate for RM personnel.

b. **RN Personnel.** The operational/working rig for RN personnel is to be No. 3s or PCS (No. 4s) as directed locally, supplemented as required by Service overalls/coveralls. Exceptionally, MTP may be drawn/task issued for wear as follows:

(1) Operations ashore where the operational commander judges:

(a) MTP is essential.

(b) When the distinction of Naval uniform represents an increased risk to the individual.

(c) In extremely hot climatic conditions (the definition of which is a matter of judgement for the Command but, as a guide, temperatures in excess of 29ºC would be assessed as appropriate).

(2) Operational training, exercises and adventurous training in the land environment.

c. **RM Personnel.** No. 4 dress for RMs is MTP and the nature and diversity of tasks conducted in operational units and CTCRM make it difficult to define precisely when activities should be completed whilst wearing No. 3A/3C 'Half Lovats'. In principle, the dress for operational, training and manual work for RM personnel is to be MTP. MTP may also be worn by members of the Joint Force Headquarters held at Extremely High Readiness. Other than in the circumstances above, the working dress for RM is to be No. 3A/3C 'Half Lovats'.

d. Changes to this policy should be submitted in accordance with Para 3708 of this publication for consideration by the Naval Service Clothing Committee.

e. The policy for wearing MTP for all Royal Navy personnel is as follows[4]:

(1) Combat jackets are to be worn tucked inside the combat trousers (exceptionally, if environmental conditions make it necessary COs have discretion to allow the jacket to be worn outside the combat trousers).

(2) Belts (blue) issued with OPTAG kit are to be worn with the trousers.

(3) Sleeves are to be rolled up to just above the elbow.

(4) Service issued brown tee shirts may be worn under the combat jacket.

(5) Rank/rate slides (Multi Terrain Pattern) are to be worn on the front of the combat jacket and windproof smock.

(6) A ‘ROYAL NAVY’ flash is to be worn on both sleeves of the combat jacket and smock; the flash is to be attached centrally with the upper edge 7mm below the shoulder seams.

[4] It does not cover operational theatres where local Command policy applies

(7) Tactical Recognition Flashes (TRF) may be worn as directed by Force Commanders.

(8) If scaled for and held by the individual the windproof smock may be worn in inclement weather. No belt is to be worn over the smock.

(9) When personnel are engaged on tasks that entail high levels of physical activity, particularly at higher temperatures, local Commanders have discretion to allow the jacket to be worn un-tucked; similarly, local Commanders may choose to allow the tee shirt to be worn without the combat jacket.

Notes:

1. On all occasions of wearing MTP, WO1s RN are to wear the Service issued brown wrist strap.

*2. **Royal Navy Police (RNP).** Dependent upon the theatre of operations, RNP personnel are authorised to wear the Military Police (MP) badge (see Fig 39E-15c) on the right sleeve only and it is to be worn in addition to the black on green 'Royal Navy Police' shoulder flashes (see Fig 39E-15d) and Para 3923).*

3. On all occasions of wearing MTP, Masters at Arms wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with brown wrist strap (in place of the white wrist strap).

3827. Wearing of Uniform by Former Members of Royal Navy. This article does not apply to officers of Flag Rank, nor retired officers and ratings subsequently employed on duties within the Maritime Reserves. Retired officers and ratings shall not normally wear uniform once they have left the Service. Exceptionally, retired officers and ratings may wear uniform at a Remembrance Day Service if specifically requested to do so and if there is no other Royal Navy representation. For private events retired personnel are to use discretion when considering wearing their uniform. Rank and accoutrements are to strictly adhere to those held by the individual on leaving the service. Any retired officer or rating who does find themselves wearing uniform is to uphold the values and standards expected of the Royal Navy in the public eye.

SECTION 2

CULTURAL AND RELIGIOUS DIFFERENCES

3828. Religious Sensitivity

a. The different cultural patterns of various religious groups should be respected, especially during moments of religious expression. In assessing attitudes to accommodating such differences, the Royal Navy distinguishes between the tenets of devout faith, which shall be allowed where operationally practicable, and the cultural and social customs of a particular group, which may be accommodated where disciplinary prudence permits. In cases where uncertainty remains, advice should be sought from the Diversity and Inclusion Policy Staff at Navy Command HQ.

b. On Ash Wednesday (the first day of Lent), Christians may receive a visible mark of ash on their foreheads, typically in the shape of a cross. Individuals may choose to allow this mark to remain in place for the remainder of the day whilst in uniform.

3829. Wearing of Headdress

a. Protocol regarding the wearing of naval headdress reflects a combination of military custom and religious/cultural practices. RN dress policy has traditionally required servicewomen to retain their headdress while inside a consecrated building and, similarly, on parade while servicemen are ordered to remove theirs.[However, RN personnel should be treated equitably regardless of their sex, including the wearing of headdress so far as local customs allow.

b. **Buildings with Religious or Belief Sensitivity.** While effort should be made to demonstrate understanding, respect, and compliance with local cultural norms, personnel may exercise personal choice, especially where the retention or substitution of headdress is expected for religious or belief reasons. RN Servicewomen are no longer required to retain their headdress in church if they do not wish to.

c. **Parades.** Headdress shall be removed, when so ordered, by all personnel on parade, except for, musicians, members of colour parties and those who have religious exceptions e.g. wearing a Sikh turban or a Jewish yarmulke. However, personnel may be allowed to retain headgear while on parade to avoid drill complications with the removal of headdress while managing longer hair, hijabs or other tenet of faith exceptions. Not all exceptions are obvious or visible, therefore, consultation in advance of events and clear communication to parade commanders is encouraged to increase understanding and uniformity so far as possible.

d. **Salutes.** During the playing of the National Anthem inside buildings, members of the RN wearing headdress are to stand to attention without saluting.

e. **Exceptions.** Certain formal events require a level of uniformity irrespective of gender. This includes partaking in specialised drill movements, Court Martials, Commanding Officer’s table, the reading of punishment Warrants, while conducting

the annual Festival of Remembrance at the Royal Albert Hall, as a member of a Naval Gun Carriage Crew, and during the evolution of 'Man and Cheer Ship' as defined in BRd 1834 Naval Ceremonial and Drill Chapters 2 and 11. Where State events dictate retention by all personnel because of custom (e.g. Lying in State of the Monarch) these norms should apply.

3830. Cultural Mess Dress

a. In line with existing policy for the wearing of kilts, Cultural mess dress may now optionally be worn by entitled Officers when attending mess functions at which Number 2B or 2BW dress is ordered. Entitled Warrant Officers and Senior Ratings may also wear Cultural mess dress when attending mess function when 2B dress is ordered.

b. As is similar with the wearing of kilts, personnel will be required to maintain existing standards of identifiable Naval Uniform above the waist, i.e. mess jacket, shirt and bow tie. Examples of acceptable variations of Cultural mess dress can be found in Chapter 39.

c. We will not have covered every eventuality and engagement is requested from those who feel they would like to see additions/variations to the options outlined. Furthermore, if extending an invitation to civilians to attend Mess functions, where formal evening wear would be appropriate, explicitly state that formal evening cultural dress is also acceptable and encouraged.

d. In any event, Mess Presidents and Dinner hosts should consider allowing people to wear their full cultural dress, rather than a mix, if requested to do so and it is appropriate e.g. guest night.

e. As they are not part of official uniform, Cultural dress will not be provided at public expense.

3831. Sikhs

a. Royal Navy personnel who are adherents to the Sikh Religion (Keshadharis) shall wear standard pattern uniforms and adhere to standard Service clothing policy and instructions with the following exceptions:

(1) **Hair.** The hair and beard may remain uncut, provided that the operational mission and safety are not jeopardised when it is required that individuals wear occupational and operational equipment such as a respirator, oxygen mask, combat/vehicle/flying helmet, hardhat, diving mask, etc. When a hazard clearly exists, the hair and/or beard shall be modified to the degree necessary for wearing the required equipment, in order to meet safety requirements.

(2) **Religious Symbols.** In addition to uncut hair, four other symbolic requirements of the Sikh religion are authorised for wear by personnel with Nos. 1, 2 and 3 uniform dresses. Should conflict arise between the requirement to wear safety or operational items of clothing and equipment and these religious symbols, the manner and location of wearing these symbols shall be adjusted. Commanding Officers retain the right to order the manner of this adjustment as necessary to meet valid safety and operational requirements.

(3) **Turban.** A turban may be worn by service personnel with Nos. 1, 2 and 3 uniform dresses. Turbans may also be worn with Action Working Dress and occupational working dress, subject to the safety and operational considerations noted in Para 3827.a sub para (1), above. When engaged in combat operations, operational training or when serving with peacekeeping or multinational contingents, adherents of the Sikh religion shall, when deemed essential, cover their head with a patka or other customary clothing items (see Para 3822), over which they shall wear the head dress (including combat helmets) and other items of Service equipment as ordered by the Commanding Officer.

b. Except as otherwise provided by Para 3826, the turban worn by male personnel and the authorised head dress worn by Servicewomen shall not be removed while wearing uniform. Similarly, when on duty wearing plain clothing, a civilian turban and an appropriate civilian woman's head covering shall not be removed.

c. The colour of turbans worn by male members shall be as follows:

(1) **Navy.** In blue uniform navy blue with white headband, and white with Navy headband in tropical uniform.

(2) **Royal Marines.** Olive Drab, Commando Green or white to conform with respective Dress.

d. Adherents to the Sikh religion may, subject to the provisions of Para 3827, observe the following five symbolic requirements:

(1) **Kesh.** Leave the hair on the head, face and body uncut.

(2) **Kanga.** Wear a comb.

(3) **Kara.** Wear an iron bracelet.

(4) **Kirpan.** Wear a symbolic dagger with an overall length (including the handle and sheath) not exceeding 23 centimetres (9 inches).

(5) **Kaccha.** Wear special design knee length underpants.

e. **Method of Wear.** The following instructions are not intended to detail the method of styling and wearing hair on the head, wearing the comb or winding the turban. Instead, they provide sufficient direction to ensure uniformity of dress amongst Sikh personnel. Accordingly, symbols and associated badges shall be worn as follows:

(1) **Turban.** The turban is to be worn in a low, Sikh conventional manner, with the final winding right over left on the forehead.

(2) **Cap Badge.** The cap badge is to be worn centred on the front of the turban. The badge shall be locally modified to provide a brooch fastener to secure it to the cloth.

(3) **Cap Tally.** The cap tally is to be worn diagonally across the front of the turban from top right to bottom left, 2 cm up from the bottom of the turban.

(4) **Patka.** A traditional Sikh cloth head-covering worn when a turban is not suitable, such as under combat, flying or diving helmets, or during sports or strenuous physical activity.

(5) **Kesh (hair).** Male personnel shall wear their uncut hair tied in a knot at the crown of the head, and shall secure the hair of the beard under the chin, presenting a close-to-face, groomed appearance. Servicewomen shall wear their uncut hair styled in a bun at the rear of the head to facilitate the proper wearing of standard service head dress.

(6) **Kanga (comb).** The Kanga is to be worn concealed in the hair.

(7) **Kara (bracelet).** The Kara is to be worn on the right wrist.

(8) **Kirpan (dagger).** The Kirpan shall remain sheathed at all times, except for religious occasions and for cleaning purposes. The sheathed Kirpan worn under the outer shirt or jacket shall be supported by a black cloth sling, slung from the right shoulder to the left side. Should the Kirpan interfere with the wearing of uniform accoutrements or equipment, it may be slung from the left shoulder and worn on the right side.

3832. Rastafarians

Royal Navy personnel who are adherents to the Rastafarian faith shall wear standard pattern uniforms and adhere to standard Service clothing policy and instructions, with the following exceptions:

a. **Hair (including Locs).** Rastafarian “Locs” are a core symbol of the religion and have deep personal meaning for its adherents. Locs are worn without being cut, in a variety of styles. They should be worn in a manner that is best suited for the tasks undertaken, provided that the operational mission and safety are not jeopardised on the occasions when individuals are required to wear occupational and operational equipment (such as a respirator, oxygen mask, combat/vehicle/flying helmet, hardhat, diving mask, etc). When a hazard clearly exists, the hair and/or beard shall be modified to the degree necessary for wearing the required equipment, in order to meet the safety requirement. In practice, this may necessitate the individual changing the way their hair is worn to suit the situation. Locs may be on show; or covered with a hair net and/or turban- this is a matter of personal choice. See below for guidance

(1) **Style.** Rastafarian hair, if uncut and in Locs, should, where possible, be pulled away from the face and must not cover the ears. Styles must be uniform and present an appearance when viewed from the front that is reasonably symmetrical. Varying styles of hair are permitted within these limits and should not preclude the proper wearing of naval headdress which should fit snugly and without distortion. If hair cannot be worn pulled back from the face and ear, it is to be worn in a black elasticated non-see through hair net compatible with the image of the Royal Navy, thus allowing head dress to be worn. The wearing of hair nets remains a personal choice.

(2) **Length.** It is acceptable for Locs to go beyond the shirt collar, but not past the belt line. Additionally, when wearing No.1 uniform, the hair must be in a tight bun, turban or hair net. In daily working rig, long hair may either be worn in a: bun, single ponytail, single braid secured with conservative bands/ties/scrunchies, grips, hairpins, and hair nets of the natural hair colour. These styles should be worn above the belt. Hair longer than belt length should be worn in a bun or higher ponytail to achieve this.

(3) Figure 38A-9 provides an example of an appropriate male Rastafarian hair style. Figure 38A-11 provides examples of appropriate Servicewomens Rastafarian hair styles.

b. **Beards.** Many Rastafarians choose not to cut their beard as a sign of religious devotion. The beard may remain uncut, providing that the operational mission and safety are not jeopardised when individuals are required to wear occupational and operational equipment such as a respirator, oxygen mask, diving mask, etc. When a hazard clearly exists, the beard shall be modified to the degree necessary for wearing the required equipment, to meet the safety requirement. Under normal circumstances, the CoC must not order or suggest that a Rastafarian cut their beard unless hazardous to the activities described above (and then only when the individual is required to undertake them). In addition:

(1) **Style.** Rastafarians who elect to grow beard should keep it in a full, un-modified and non-styled state- although the beard must be worn in a neat and tidy style, with no foreign objects adorning it. This is to uphold the professional standards of the Royal Navy.

(2) Figure 38A-10 provides an example of an uncut Rastafarian beard style, with figures 38A-9 and 38A-12 showing the style on an individual who also wears a longer hair style.

c. **Turbans.** The wearing of the turban falls in line with the tenets of the Rastafarian faith. A turban may be worn by Rastafarian service personnel with all orders of dress. Naval Stores should be approached regarding the procurement of appropriate uniform turban material, and EPC utilised where cloth is not available via the Naval Stores system. Turbans are not to be removed while wearing uniform. Similarly, when on duty wearing civilian clothing, a civilian turban is not to be removed. Additionally, such headdress is not to be removed:

(1) On parade when the order of “off caps” is given.

(2) By a member of the bearer party at a military funeral.

(3) During the administration of the Oath of Allegiance by an attesting officer.

(4) When attending or being paraded as the accused before a commanding officer (or subordinate commanding officer) presiding at a summary trial or investigation.

(5) When attending or being paraded as the accused before a Court Martial.

(6) When entering any building, or consecrated building, or indoors where removal of headdress would usually be expected.

(7) At formal or informal functions when the removal of headdress might otherwise be considered appropriate e.g. for eating and drinking.

d. **Colour of Turbans.** The colour of the turban is to match the colour of the headdress normally worn with each uniform, as follows:

(1) Nos 1, 2, 3 Dress The turban for all ranks is to be same colouring as the top of the corresponding cap.

(2) **Daily Working Rig (including overalls).** The colour of the turban is to match the colour of the unit’s beret, i.e. RN SP will wear navy blue and RM or commando-qualified SP will wear Olive Drab or Commando Green.

(3) **Adornment.** RN Junior Rates are to wear their unit’s ribbon. RM, RN Senior Rates and Officers, will wear their respective cap badges. This is in line with guidance given to Sikh personnel.

e. **Method of Turban Wear.** The following instructions are not intended to detail the method of styling the turban. Instead, they provide sufficient direction to ensure uniformity of dress amongst Rastafarian personnel. Accordingly, the turban is to be worn in a tight, wrapped style and centred on the forehead. The use of starch is discretionary. If ribbons are worn, their lower edge shall be 2 cm (3/4 inch) above the lowest edges of the turban at the sides of the head. The ribbons are to be secured at the rear of the turban. Cap badges are to be worn centrally on the front of the turban. The badge is to be locally modified to provide a brooch fastener to secure it to the cloth. There is no requirement for cap badges to be removed from turbans when in uniform, nor should turbans have cap badges fitted when in civilian clothes. Figure 38A-13 and Figure 38A-14 provide examples of appropriate Rastafarian turban styles.

f. Additional examples are given in Figure 38A-15. Guidance may also be sought from the RN D&I Policy desk navypeople-dandimailbox@mod.gov.uk, or the Defence Rastafarian Network AFNetworks-Rastafarian-0mailbox@mod.gov.uk.

3833. Muslim Women

Muslim women may wear uniform trousers, rather than a skirt and may wear a hijab except when operational or health and safety considerations dictate otherwise. Long sleeve shirts can be worn with all forms of Service dress. Tracksuit bottoms may be worn for sport. All Royal Navy personnel are required to achieve a basic swimming standard as part of their training. Although every effort will be made to ensure that these tests take place in an all-female environment, it should be stressed to Muslim Servicewomen that this may not always be possible.

3834. Further Advice

Requests for further advice on Cultural and Religious differences with regard to uniform and appearance are to be directed to NAVY CULTURE-DandI SO1 or SO2 at Navy Command HQ, Leach Building, Whale Island, Portsmouth.

ANNEX 38C

SPECIAL CASES FOR UNIFORM ENTITLEMENT AUTHORISATION

1. Due to a range of special circumstances, including disability, impact of chronic conditions and menopause, a replacement of some or all uniform may be required due to physiological changes beyond a Service Person's (SP) control. This authorisation form is intended to gain medical agreement that the SP's circumstances have changed within the last 2 years, without disclosing private medical details.

2. The SP should gain authorisation from an appropriately qualified Healthcare Practitioner. Once signed by a Healthcare Practitioner, the SP can take this completed form to an RN Clothing Store to exchange uniform and/or arrange tailoring.

3. Declaration of Service Person

I hereby confirm that I require exchange and/or tailoring of uniform due to the circumstances outlined in paragraph 1 above.

Name:	Rank:
Service Number:	Unit:
Signature:	Date:

4. Healthcare Practitioner[1] Authorisation

In accordance with the examples of special circumstances at paragraph 1 above, I confirm that it is appropriate for the SP to receive newly issued uniform and/or tailoring as appropriate.

Name:	Rank/Grade:
Role:	E-mail:
Signature:	Date:

5. Instructions to Service Person and RN Clothing Store

Once Sections 3 and 4 above have been completed, the SP is entitled to exchange uniform on a one-off basis at any RN Clothing store[2]. Multiple exchanges are not authorised. They are also authorised to free tailoring of No1 and No2 uniform (mess kit), however, if this is not possible on the advice of a tailor, then re-issue of one or both uniforms is authorised.

[1] Healthcare Practitioner includes Medical/Nursing Officers, Civilian Medical Practitioners, Practice Nurses/Nurse Practitioners, Physiotherapists and NHS Medical Practitioners (for Reserve personnel only).
[2] Exchanges must be made within 3 months of the date recorded.

ANNEX 38D

PROCESS TO PURCHASE SPORTS BRAS

1. Claims for the purchase are to be made via JPA, with itemised receipts retained for auditing purposes. The following information must be used:

(a) Type of Claim: select **Miscellaneous**.

(b) Authority: input "**RNTM 03-060/24 Sports Bras**".

(c) Have you been told to use a UIN other than your own units?: select **No** (should be auto populated).

(d) Do You Have the Authority of the Budget Holder?: select **Yes**.

(e) Click **'Next'**.

(f) Click **'Details'**.

(g) Expense Type: select **Medical, Dental, Opticians, Prescription Fees**.

(h) Date expense incurred: **input date of purchase**.

(i) Receipt amount: **input the cost of purchase**.

(j) Justification: input **"Purchase of Sports Bras IAW RNTM 03- 060/24".**

(k) Click **'Return'**.

(l) Tick **'I accept the Terms and Conditions of the MOD's Travel and Expense Policies'.**

(m) Click **'Submit'**.

CHAPTER 39

ROYAL NAVY OFFICERS AND RATINGS

SECTION 1

INTRODUCTION

3901. Dress Tables

Details are given in the tables at Annex 39A. For the Orders of Dress to be worn at Court functions, or at Joint Services functions when members of the Royal Family are present, see the Joint Service Ceremonial Dress Table in Chapter 43.

3902. Outfit Scales

RN and QARNNS Officers Outfit Scales are at Annex 39B; RN and RNR Ratings' Kit Scales are at Annex 39C.

3903. Ex-Regular Royal Fleet Reserve (RFR) and Recall Reserve Uniform on the Occasion of their Callout or Recall for Service

Royal Naval personnel who leave the service and maintain a legal callout liability are to retain kit as detailed at Annex 39B Scale 16 (Officers) and Annex 39C Scale 22 (Ratings). Upon recall, Ex-Regular RFR and Recall Reserve personnel will wear the same uniform as regular RN personnel of the same rank except as detailed in this chapter and at Chapter 45. Further uniform required will be role dependant and will be issued as required during subsequent phases of their integration back into service.

SECTION 2

DETAILS OF RANK/RATE AND OTHER DISTINGUISHING INSIGNIA

3904. Distinction Marks of Rank - Sleeve Lace

a. The distinguishing marks of rank worn on the sleeves of the ceremonial day coat, reefer jacket, blue mess jacket and, the tailcoat worn by Captains and above, consist of rows of gold lace with a circle (or 'curl') on the top (or only) row. The lace is continuous around each sleeve. Distinguishing marks of rank are as follows:

(1) Admiral of the Fleet: 4 rows of 14mm lace above a band of 45mm lace.

(2) Admiral: 3 rows of 14mm lace above a band of 45mm lace.

(3) Vice-Admiral: 2 rows of 14mm lace above a band of 45mm lace.

(4) Rear-Admiral: 1 row of 14mm lace above a band of 45mm lace.

(5) Commodore: A band of 45mm lace with a circle of 13mm lace.

(6) Captain: 4 rows of 14mm lace.

(7) Commander: 3 rows of 14mm lace.

(8) Lieutenant-Commander: 2 rows of 14mm lace with a row of 7mm lace between.

(9) Lieutenant: 2 rows of 14mm lace.

(10 Sub-Lieutenant: 1 row of 14mm lace.

b. For Rear-Admirals and above the circle is 50mm in diameter, for other officers 45mm. For Commodores, the circle is sewn immediately above the centre of the broad band, for other officers it is formed out of the upper row of lace with the upper part of the curl leading to the rear.

c. The space between the rows is to be 6mm.

d. The distance of the bottom edge of the lace from the cuff depends on the length of the sleeve and the amount of lace. The following distances are suitable for sleeves of average length:

(1) Admiral of the Fleet: 35mm

(2) Admiral: 45mm

(3) Vice-Admiral: 55 mm

(4) Rear-Admiral and Captain: 65mm

(5) Commodore, Commander and Lieutenant-Commander: 75mm

(6) Lieutenant: 80mm

(7) Sub-Lieutenant: 90mm

3905. Distinguishing Marks on Shoulder Rank Boards and Slides

a. Flag Officers and Commodores wear shoulder rank boards, as illustrated at Annex 39B, with silver devices superimposed on 45mm gold lace on the ceremonial day coat, greatcoat, white tunic, bush jacket and white mess jacket. On short sleeved white shirts, shoulder boards with either silver devices or rank lace may be worn as appropriate. On other garments that are fitted with shoulder flaps, such as the jersey and long-sleeved shirt, officers wear shoulder rank slides with rank markings as sleeve lace.

b. RN Police Officers will wear the wording 'RN POLICE' embroidered on the lower edge of the rank board or slide.

c. All other officers wear the same rank markings on shoulder rank boards and slides as for sleeve lace.

3906. Midshipmen

Midshipmen wear a white 'turnback' at each lapel on the collar of blue uniform jackets. Similar but smaller white turnbacks are worn as shoulder rank boards and slides. The buttons are to be removed from shoulder rank slides when they are worn with flying clothing.

3907. Officers Under Training

Officers Under Training wear various combinations of rank slides dependent upon their stage of training, as follows:

a. **Militarisation Term.** During Militarisation Term no shoulder slides are worn; Young Officers may be identified as officers by their cap and beret badges.

b. **Marinisation and Initial Fleet Time.** During Marinisation and Initial Fleet Time, white rectangular shoulder slides are worn with working rig. Curved upper-sleeve flashes are worn on both sleeves of the blue No1 uniform jacket, in conjunction with rank lace or Midshipmen's turnbacks.

c. **Senior Upper Yardmen.** SUYs wear white shoulder slides and curved upper-sleeve flashes as for Para 3907 sub para b until passing out of training at Britannia Royal Naval College.

3808. QARNNS Officers and Ratings

QARNNS Officers and ratings wear the same uniforms and rank insignia as RN Officers and ratings, but with the following differences related to the requirement to reflect the royal patronage of Princess Alexandra, as follows:

a. **Clinical Ward Uniform.** On the clinical ward uniform jacket/tunic fitted with shoulder flaps, Nursing Officers and ratings wear the same rank/rate markings as would be worn on No 4 daily working dress (AWD or RIG22) shoulder flaps. The cloth name badge, incorporating Queen Alexandra's monogram, is to be sewn on the jacket/tunic. The badge on servicewomen's jackets/tunics is to be sewn with the top of the badge in line with the press-stud and positioned mid-way across the vertical seam. For male jackets/tunics the badge is to be sewn 150mm vertically down from the shoulder seam and mid-way between the centre of the garment and the seam of the sleeve.

b. **Queen Alexandra's Insignia.**

(1) **Officers.** On No1 and Mess Dress (blue) uniform jackets, rank lace is surmounted by a separate Queen Alexandra's monogram (NSN 8455-99-869-2910) in red and gold superimposed on a foul anchor in gold on black cloth. It is worn on both sleeves, positioned centrally 5mm above the circle in the uppermost row of rank lace.

(2) **Ratings.** On No1 (blue) uniform jackets the Queen Alexandra's monogram (NSN 8455-99-416-0230) in red and gold on black cloth is worn on the right arm, in the midline 3cm below the shoulder seam (and above the branch badge for AB, LH and PO). The Queen Alexandra's monogram is to be worn with RIG22 name tally for life (NTfL). This policy also extends to other workwear ranges including new issues of MTP, overalls etc. when worn in lieu of RIG22 as DWR.

(3) **Warrant Officers.** In keeping with the traditions of the Service, Warrant Officers wear the Royal Arms on both cuffs of the No1 and Mess Dress (blue) uniform jackets with the bottom of the badge 127mm from the end of the sleeve. A smaller version of the same badge is worn on the mess dress jacket.

3909. MR Officers

As part of the MR integration process the gold letter 'R' in the curl has been removed and is no longer worn by MR Officers on Lists 1 to 3 (inclusive). MR Honorary Officers retain the gold 'R' in the curl.

3910. Spare

3911. Spare

3912. Distinction Cloth and Civilian Officers

a. Medical and Dental officers wear a stripe of distinction cloth in the interval or intervals between the lace worn on cuff and shoulder insignia and below a single row of lace. Colours of distinction cloth are as follows:

(1) **Medical:** Scarlet

(2) **Dental:** Orange

b. When required to wear uniform, civilian officers wear the uniform prescribed for naval officers of equivalent rank with the addition of green distinction cloth between the rows of lace.

3913. Aiguillettes

a. Aiguillettes (plain gold wire, gimp or gimp and orris as appropriate) are worn on the right shoulder with Number 1A, 1B, 1C, 2A and 2B dresses (when worn on Frock Coats they should attach to the top right button and NOT to the centre of the collar) on all formal occasions by the following:

(1) Admirals of the Fleet.

(2) Officers holding the specific posts of Vice Admiral of the United Kingdom and Rear Admiral of the United Kingdom.

(3) Personal Aides-de-Camp to the King.

(4) Aides-de-Camp to the King.

(5) Naval Equerries to The King or to members of the Royal Family.

(6) Honorary Physicians, Chaplains, Surgeons, Dental Surgeons and Nursing Officers to the King.

(7) Defence Services Secretary.

(8) Officers appointed as Aides-de-Camp or Comptrollers to a Governor General.

(9) Aide-de-Camp to the Lord High Commissioner to the General Assembly to the Church of Scotland.

b. Board type aiguillettes (gold with navy blue flecks, miniature silver anchors on metal tags) are worn on the right shoulder by the following:

(1) Naval Members of the Defence Council.

(2) Naval Members of the Admiralty Board.

c. Staff type aiguillettes (gold with navy blue flecks) are worn on the right shoulder by the following:

(1) Naval Assistant to the Secretary of State for Defence.

(2) Officers appointed as Aides-de-Camp to a Governor or Lieutenant Governor.

d. Staff type aiguillettes (gold with navy blue flecks) are worn on the left shoulder by the following:

(1) Personal staffs of all members of the Defence Council, VCDS and Commander Joint Force Command.

(2) MA to DSACEUR/COFS.

(3) MA to DG Log SC.

(4) Executive Assistants, Secretaries and Naval Assistants to Naval Members of the Admiralty Board.

(5) The Flag Lieutenant to the Admiralty Board, Executive Assistants, Secretaries, Flag Lieutenants and Aides-de-Camp to:

(a) 2SL.

(b) Fleet Commander.

(c) All Maritime Battle Staff (currently COMATG, COMUKCSG, COMUKMARFOR).

(d) Secretary to CBNS US.

e. Staff type aiguillettes are also worn on the left shoulder by the following:

(1) Personal staff of the Chair of the Military Committee, NATO.

(2) Secretary and Flag Lieutenant to UKMILREP, NATO.

(3) Secretary and Flag Lieutenant to COS to COM-MCC-NAPLES.

(4) Secretary of SACLANT REP.

(5) Staff of Secretary of State for Defence.

(6) Head of BDS US.

(7) Defence and Naval Attaches.

(8) Assistant Defence and Naval Attaches.

(9) Service Advisers and Assistant Advisers to HM High Commissions in Commonwealth capitals.

f. Board or staff type aiguillettes may not be worn concurrently with ADC's or Equerry's aiguillettes. For instance, a member of the Admiralty Board or Naval Attaché who is also an ADC to The King wears the aiguillette appropriate to the latter appointment.

g. Aiguillettes may only be worn by the personal staffs listed at sub para a when either accompanying, or acting in an official capacity on behalf of, the Senior Officer concerned. If on any occasion the Senior Officer does not wear aiguillettes then neither should the accompanying personal staff.

h. 'Formal Occasions' are defined as those when swords or decorations are worn and when particular formality is called for, outside the normal day-to-day routine of work or practice.

i. Officers of Captain rank and above will receive a gratuitous issue of aiguillettes on the first assignment with requirement; they will then form part of the officer's enduring standard uniform. They are issued on Form S105 for MJDI account action (Captains and above retire retaining the title and hence are often required to continue to wear aiguillettes for official functions as civilians for military led events).

j. All Officers below the rank of Captain will be issued aiguillettes on appointment to a post requiring them, and draw them for their period of entitlement. They will be required sign a Form C24B to acknowledge the liability to a financial charge should they fail to return the items on completion of the entitling assignment. In the event of non-return of aiguillettes, hasteners will be issued on the following dates:

(1) First hastener one month after agreed date for return.

(2) Second hastener two months after agreed date for return.

(3) Third hastener and notification of intent to commence C24B action in accordance with regulations, three months after agreed date of return.

k. Aiguillettes and the various accoutrements are issued on Individual Loan by the Uniform Clothing Store, HMS NELSON.

3914. Royal Cyphers

a. The Royal Cypher is available in large, small and miniature sizes. It is worn by the following:

(1) Admirals of the Fleet.

(2) Officers holding the posts of Vice or Rear Admiral of the United Kingdom.

(3) Aides-de-Camp to the King.

(4) Honorary Physicians, Surgeons, Dental Surgeons, Nursing Officers and Chaplains to the King, Naval Equerries to the King, Defence Services Secretary.

b. In the cases of Personal Aides-de-Camp to The King, First and Principal Naval and Flag Aides-de-Camp to The King, the officers concerned continue to wear the Cypher after relinquishing the appointment. If they have held the appointment under more than one Sovereign then the Cypher of each shall be worn.

c. The large Cypher is worn on aiguillette shoulder straps, including the additional strap worn with the broad riband or collar of orders.

d. The small Cypher is worn on both shoulder boards of the greatcoat, all white or khaki uniforms and on the shoulder rank slides worn with jerseys. It is placed at the foot of the gold lace for officers of Flag rank and superimposed on the lowest row of lace for other officers, with the bottom of the Cypher even with the lower edge of lace.

e. For Chaplains, the Cypher should be 5mm above the bottom edge of the shoulder strap. The Chaplain’s insignia is placed immediately above the Cypher.

f. The miniature Cypher is worn on the metal tags of aiguillettes by Personal Aides-de-Camp, Equerries and Extra Equerries to The King, and the Defence Services Secretary.

g. Personal Aides-de-Camp wear the small Cypher on all shoulder boards and soft rank insignia.

h. When the Cyphers of more than one Sovereign are worn, the small Cypher shall be worn in each case.

3915. Badges Worn by Officers

a. The cap badge shall be worn in the centre of the cap front, sewn to the detachable braid band. The cloth background shall follow the outline of the badge and be trimmed no closer than 5mm to the embroidery of the badge.

b. The beret badge shall be worn over the left eye in the manner illustrated in Chapter 38.

c. Badges for additional qualifications for which specialist pay is available are worn as described below. These badges may continue to be worn after specialist pay (if appropriate) ceases to be paid. Note that qualification badges awarded by other nations may not be worn on Royal Navy uniforms.

(1) **No1 (Blue) Uniform.** Sewn to the centre of the left sleeve of the No1 reefer jacket and mess dress jacket, 6mm above the circle in the uppermost row of rank lace and in the corresponding place in the case of Midshipmen. Officers may wear a miniature badge on the left sleeve of the mess jacket (purchased at their own expense).

(2) **White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform.** Fixed with 'pin and clutch' attachment, badges are to be worn horizontally, 38mm centrally above the left breast pocket. If medals or medal ribbons are worn, the badge is to be worn centrally above the medals or top row of ribbons. On the white mess jacket, miniature badges are worn centrally on the left lapel over miniature medals.

d. RN Police Officers will wear a Royal Navy Police chest flash when wearing a foul weather jacket.

e. **Canes.** A silver topped cane may be carried by:

(1) Establishment Executive Officers.

(2) Fleet Executive Officers.

(3) Staff Executive Officers.

(4) Establishment First Lieutenants.

3916. Badges Worn by Warrant Officers, Senior and Junior Ratings

a. Warrant Officers wear the Royal Arms on both cuffs of the No1 (blue) reefer and Mess Dress jackets with the bottom of the badge 127mm from the end of the sleeve. A smaller version of the same badge is worn on the optional mess dress jacket.

b. Shoulder rank slides with the Royal Arms may also be worn and are provided for Warrant Officers to wear with all appropriate uniforms.

c. An optional shoulder board with Royal Arms may be worn on the white short sleeved shirt, the optional white mess jacket and the bush jacket.

d. Badges for additional qualifications for which specialist pay is available are worn as described below. These badges may continue to be worn after specialist pay (if appropriate) ceases to be paid. Note that qualification badges awarded by other nations may not be worn on Royal Navy uniforms.

(1) **No1 (Blue) Uniform.** Sewn to the centre of the left sleeve of the jacket and (optional Mess Dress jacket), 6mm above the uppermost part of the WO rank badge, rank buttons for CPO and in the corresponding position, 6mm above the uppermost part of the rank badge, for POs and LHs.

(2) **White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform.** Fixed with 'pin and clutch' attachment, badges are to be worn horizontally, 38mm centrally above the left breast pocket. If medals or medal ribbons are worn, the badge is to be worn centrally above the medals or top row of ribbons.

e. **Canes.** A black silver topped cane surmounted by the Royal Arms may be carried by:

(1) Warrant Officer to the Royal Navy (Victory cane may be carried on ceremonial occasions).

(2) 2SL Warrant Officer.

(3) Fleet Commander's Warrant Officer.

(4) Base Warrant Officers.

f. Chief Petty Officers are distinguished by three buttons worn horizontally on each cuff of the No1 (blue) reefer jacket and white tunic, 127mm from the bottom of the sleeve. Identical buttons shall be worn on the optional blue mess jacket. Chief Petty Officers are to wear branch or trade badges on each lapel of their No1 (blue) reefer jacket.

g. Shoulder rate slides with a badge comprising laurel leaves around a foul anchor surmounted by a crown are provided for wear with all appropriate uniforms. Branch and specialist Badges are to be worn on RIG22 as detailed within this chapter. This policy also extends to other workwear ranges including new issues of MTP, overalls etc. when worn in lieu of RIG22 as DWR.

h. Petty Officers wear a badge comprising crossed foul anchors surmounted by a crown on the left arm of No1 (blue) reefer jacket and a smaller version on the optional mess dress jacket. Branch and trade badges are to be worn on the right arm of the No1 (blue) reefer jacket. The centre of the rate and branch badges is to be mid-way between the point of the shoulder and the point of the elbow, sewn centrally onto the sleeve.

i. Shoulder rate slides with the embroidered rate insignia are worn in the same manner as Chief Petty Officer.

j. Leading Ratings wear a badge comprising a single foul anchor on the left arm of the No1 (blue) jacket. Branch and trade badges are to be worn on the right arm of the No1 (blue) jacket. The centre of the rate and branch badges is to be mid-way between the point of the shoulder and the point of the elbow, sewn centrally onto the sleeve.

k. Shoulder rate slides consisting of a foul anchor woven in gold are worn on all appropriate uniforms.

l. Able Ratings do not wear rank on No1 (blue) jackets. The trade or branch badge is worn on the right arm as for POs and LHs as above. Able Ratings wear a shoulder slide consisting of 'Royal Navy' woven in gold worn on all other appropriate uniforms. The shoulder slides are issued on completion of Phase 1 Training. Additionally, Probationary Leading Hands (See Chapter 68) employed and operating under the Accelerated Apprentice Scheme wear the standard Leading Hand insignia in conjunction with the following:

(1) White shoulder epaulettes (NSN 8455-99-978-8918) on all appropriate uniforms.

(2) A white curved upper-sleeve flash (NSN 8455-99-978-8917) on the left arm of No1 (blue) jacket and overalls.

m. Trainees within RN Rating Phase 1 Training are to wear orange epaulettes. Phase 2 trainees wear the Royal Navy shoulder slides with white epaulettes.

n. Branch Badges. Branch badges are to be worn as detailed in Table 39-1.

Table 39-1 Wearing of Branch Badges

<table>
<tr><th>Rate</th><th>No1 Dress</th><th>No2 Dress
(Mess undress)</th><th>No4 Dress</th><th>Work Dress
(Overalls)</th></tr>
<tr><td>WO1</td><td colspan="4" rowspan="2">Not worn</td></tr>
<tr><td>WO2</td></tr>
<tr><td>CPO
(Note 1)</td><td>On both lapels</td><td>Not worn</td><td rowspan="4">Worn on the right arm of RIG22.</td><td>Worn on left chest above the breast pocket.</td></tr>

(Note 2)</td></tr>
<tr><td>AB</td><td>No equivalent rig
(Note 2)</td></tr>
</table>

Notes:

1. Technician branch Senior Ratings (Med Tech, legacy GS and SM Artificers (who have lost Reserved Rights)) do not wear branch badges.

2. Junior Ratings wear No1 C or No2 C for formal evening dress.

3917. Royal Navy Police

All RN Police WOs, Senior Ratings and Junior Ratings will wear the following:

a. Shoulder rank slides embroidered on the lower edge with 'RN POLICE'.

b. Petty Officer and Leading Hand (Police) wear a badge comprising a crown on the right sleeve of their white short-sleeve shirt and woollen jersey. When wearing the white long-sleeved shirt, Petty Officer (Police) wear the same design as a tiepin.

c. CPO(Police) (previously Masters at Arms) wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with a white wrist strap. On all occasions of wearing MTP, the white wrist strap is replaced with a brown wrist strap.

d. All RN Police ratings will wear a Royal Navy Police chest flash when wearing a foul weather jacket.

3918. Submarine Badge

The Submarine Badge consists of the QEII commissioning crown sited above a fouled anchor supported on each side by heraldic dolphins. The badge is of gilt and shall be worn by all RN qualified submariner personnel as follows:

a. **Blue Uniforms.** On the left breast of the No1 (blue) reefer jacket between the lapel and the shoulder, horizontal, level with the point of the lapel. The badge should sit 6mm above medal ribbons or medals. On the mess jacket, a miniature badge is worn on the left lapel, 25mm below the point of the lapel, 6mm above miniature medals.

b. **White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform.** Submarine badges are to be worn in accordance with Para 3915.c.sub para (2).

c. **No 3A Uniform.** A miniature submarine badge, as worn on Mess Jackets, may be worn, horizontally, in a central position on the tie. The miniature badge is purchased at own expense.

d. **No 3B Uniform.** Fixed with a 'pin and clutch' attachment, the submarine badge is worn horizontally, 38mm centrally above the left breast pocket.

3919. Royal Navy Deterrent Patrol Pin

a. The RN Deterrent Patrol Pin consists of an image of HMS Resolution, with superimposed Polaris missile and electron rings signifying the armament and nuclear-powered characteristics of the 'at sea deterrent force'. A scroll beneath the submarine is inscribed with the motto "Always Ready". The pin is a two-level award dependent upon the number of patrols completed by the individual after the initial qualifying patrol (only patrols in excess of 30 days are to be counted as eligible), as detailed below:

(1) **Silver.** Completed one to nineteen patrols.

(2) **Gold.** Completed twenty or more patrols.

b. The RN Deterrent Patrol Pin must always be worn in conjunction with the Submarine Badge, and is to be worn by eligible personnel as follows:

(1) **Officers, Warrant Officers and Senior Ratings**

(a) **No 1 Dress.** The 62mm patrol pin is to be worn in the centre and at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

(b) **No 2 Dress (Mess Dress).** The miniature 42mm patrol pin is to be worn 6mm below any miniature medals, or 6mm below and positioned on the centre line of the Submariner Badge if no medals are worn.

(c) **No 2C/3B.** The 62mm patrol pin is to be worn at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

(d) **No 3A.** The miniature 42mm patrol pin may be worn on the tie.

(2) **Junior Ratings**

(a) **No 1 Dress.** The 62mm patrol pin is to be worn 10mm below medals, with the missile element of the pin positioned on the centre line of the Submariner Badge. When wearing No 1C/1CW the pin is to be worn 10mm below the medal ribbon. If no medals have been awarded, then the pin is to be positioned 20mm below and on the centre line of the Submarine Badge.

(b) **2C/3A/3B.** The 62mm patrol pin is to be worn at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

c. The RN Deterrent Patrol Pin is not to be worn with No 3C or RIG22.

3920. Parachutist Badge

Qualified military parachutists shall wear the Army pattern parachutist badge, a parachute with wings, to be worn on the right arm 31mm below the shoulder seam, as follows:

a. **No 1 Uniform.** The full-sized badge in gold on blue.

b. **No 2 Uniform (Mess Undress).** The miniature badge (length 51mm, height 20mm) gold on blue.

c. **RIG22/MTP.** RIG22 Name Tally for Life (NTfL) now incorporate specialised qualifications as detailed in Annex E of this chapter. Badges are to be worn on MTP as described in para 3926

3921. HUMINT Badge

On successful completion of the HUMINT training pipeline, qualified officers and ratings shall wear the HUMINT specialist badge (see Chapter 40 for RM HUMINT Operators). The HUMINT badge, a gold trident on a black ‘kite’ background for Op SAMSON and a silver trident on a black ‘kite’ background for Op METIS, is to be worn on the left forearm above warrant officer rank (approximately 165mm from the cuff). The badge is to be worn on No1 uniform only (i.e. not RIG22/MTP or other combat uniform). The smaller HUMINT specialist badge will be worn on No2 uniform.

3922. Good Conduct Badges

Good Conduct Badges are represented by V-shaped stripes, 12.5mm in width at the perpendicular and 127mm across the top of the V; they are worn on the left arm by entitled ratings below the rate of Chief Petty Officer. When worn without a rate badge, the centre of the device is to be midway between the point of the shoulder and the point of the elbow. When more than one Good Conduct Badge is worn, the distance between them at the perpendicular is to be 12.7mm.

3923. Stars and Crowns

Stars and Crowns are added to the basic branch and specialist qualification badges to indicate certain classes of qualification as follows:

a. Basic device: on entering a sub-branch.

b. Basic device with star above: on qualifying professionally for Able Rate.

c. Basic device with star above and star below: on qualifying professionally for Leading Rate.

d. Basic device with crown above: on qualifying professionally for Petty Officer.

e. Chief Petty Officers attain no additional professional qualification and wear the basic device with crown above.

3924. Specialist Qualification Badges

Badges for additional qualifications and special skills are worn on the right cuff by other ratings as follows (they are not worn by Officers/Warrant Officers):

a. Chief Petty Officers: 6mm above the centre cuff button.

b. Other ratings: 36mm from the end of the sleeve.

Notes:

1. *Specialist qualification badges awarded by other nations may not be worn on Royal Navy uniforms.*

2. *On receipt of RIG22 Jackets, Branch, Skill at Arms, Qualification Badges are to be worn as detailed in this chapter.*

3. *Organisation or Unit badges, pins, or substitution of factory-fitted badges (e.g. replacing 'ROYAL NAVY' shoulder flashes with others) are* ***NOT*** *permitted. COs and the CoC are to enforce this policy.*

4. *Personnel assigned to NATO are authorised to wear an Organisation or Unit badge.*

3925. Cap Ribbon/Cap Tally

a. Junior Ratings shall ordinarily wear the cap ribbon/tally of the unit to which they are assigned.

b. Junior Ratings not on the trained strength in Phase 1 or Phase 2 training shall, irrespective of branch or trade, wear the cap ribbon/tally of the training establishment to which they are assigned. Submariner Trainees assigned to the CO Training Clyde Organisation are to wear the "C.O. TRG CLYDE" cap ribbon/tally.

c. Junior Ratings who are on the trained strength and assigned to a training establishment for a TEM or other short course, such as LRLC, shall continue to wear the cap ribbon of their permanent unit. Qualified Submariner Trainees assigned to the CO Training Clyde Organisation are to wear the "HM SUBMARINES" cap ribbon/tally.

d. Junior Ratings who are on the trained strength and who are assigned to a training establishment for a Career Course shall wear the cap ribbon/tally of that training establishment, except that submariners may continue to wear the 'HM SUBMARINES' cap ribbon/tally and entitled members of the FAA may continue to wear the 'Fleet Air Arm' cap ribbon/tally.

e. Submariners and members of the FAA who are assigned to the permanent staff of a ship's company of any establishment or unit outside of their recognised fighting arm shall ordinarily wear the cap ribbon/tally of that establishment or unit. Personnel may request permission to continue to wear their submariner's or FAA cap ribbon, the matter being at the discretion of the Commanding Officer.

f. Any Junior Rating temporarily loaned to another unit for an exercise, training or operational purposes shall continue to wear the cap ribbon/tally of their permanent unit.

g. Any exceptional circumstances not covered above shall be a matter for the judgement of the local Commanding Officer taking note of the sentiment conveyed in this article.

h. Prior to commissioning, HM Ships should demand an initial issue of cap ribbons/tallies as follows:

(1) A normal demand for NSN 8455-99-571-2297 is to be made using MJDI. It is essential that in the Special Instructions the exact spelling and spacing on the cap ribbons/tallies is stated.

(2) If the unit does not have access to MJDI then the demand will need to be submitted via an Army Form G8620, which may be obtained via email from DESLCSLS-OpsDOCSHelpDesk@mod.uk.

(3) There is a minimum order quantity of 50 cap ribbons/tallies and the minimum lead time for delivery is approximately 12 weeks.

Note. *Unfortunately, NCHQ Commodities team has only read access to MJDI and does not have the permissions or access necessary to place a demand. This is normally undertaken via RN Establishment Clothing Stores*

i. All other requests for new unit cap ribbons should be forwarded to the DC Team fao CSO(RN).

(1) It is appropriate for units containing significant numbers of junior ratings (more than 20), including Joint service establishments, to have their own cap ribbons/tallies in order to promote unit identity and esprit de corps.

(2) Units with less than 20 Junior Ratings where there is no local sponsoring RN establishment will wear an alternate cap ribbon/tallies with the text 'Royal Navy'; these are available upon request from HMS NELSON Clothing Store. Exceptions may be permitted, however, and where a strong case for individual unit identity is considered to exist, DESLCSLS-OpsDOCSHelpDesk@mod.uk is to be consulted, info FXO.

(3) The use of acronyms on cap ribbons/tallies is to be avoided wherever possible.

(4) When demanding cap ribbons/tallies it is important to quote on the Army Form G8620 the exact words and format required, e.g. 'HMS SAMPLE'.

3926. Insignia and Badges Worn with RIG22

a. **Name Tally for Life.** Name Tally for Life (NTfL) will be attached to a Velcro strip sewn along the top breast of the lightweight RIG22 jacket for all ranks and rates. Name tapes are to contain the surname of the individual only; initials are **not** permitted. Name tape lettering is to be in 'Helvetica Condensed' font, lettering is to be 15mm in height and the name within the name tape length of 120mm. Names longer than 15-17 characters are to be condensed to fit. In common with the Royal Navy tape, the colouring is to be white lettering on blue background. In names such as 'McDonald', a small c may be used on the name tape; the authoritative document will be the nominal list supplied by the unit.

(1) For Mk3 and Mk4 shirts, personnel who qualify for professional qualification badges are to order 50mm NTfL with the required badge adorned above the surname (see Fig 3.). It is recommended personnel who qualify for more than one professional qualification badge order sufficient numbers of each and wear the badge suitable and relevant to the environment and audience applicable at the time.

(2) Authorised Name Tally for Life with Professional Qualification Badge can be found at Annex E of this chapter.

b. **'Royal Navy' and 'Royal Fleet Auxiliary' Shoulder Badges.** 'Royal Navy' and 'Royal Fleet Auxiliary' shoulder badges are factory fitted and pre-sewn along the top of the RIG22 jacket shoulders. The shoulder flashed are standard issue with lettering of 'Helvetica Condensed' font, 15mm in height and contained within the tape length of 120mm. The tape colouring is white lettering on blue background.

c. **Royal Navy White Ensign and Royal Fleet Auxiliary Blue Ensign Badges.** The Royal Navy White Ensign and Royal Fleet Auxiliary Blue Ensign badges are pre-sewn onto the left arm of the RIG22 jacket. The badges are a standard size of 100mm by 50mm. The badges should be centralised and horizontal when viewed from the left side. Exact vertical position will depend upon the sleeve length and shoulder shape of the individual, but generally the top of the badge should be 70mm below the centre of the shoulder seam at the top of the sleeve.

d. **Branch Badges.** On receipt of RIG22 jackets, Branch, Skill at Arms and Qualification badges are to be worn as detailed in this chapter. Organisation or Unit badges, pins, or substitution of factory-fitted badges (e.g. replacing 'ROYAL NAVY' or 'ROYAL FLEET AUXILIARY' shoulder flashes with others) are **NOT** permitted. COs and the CoC are to enforce this policy. Personnel assigned directly to NATO and DIO are authorised to wear an Organisation or Unit badge on RIG22.

e. **Existing Rank Slides**. Rank Slides (existing gold on black type) will be attached to the shoulders of the RIG22 Shirt. Officers should wear the single right hand rank slide to the Rig22 Thermal Layer Jacket, and the left-hand rank slide to the RIG22 Outer Layer Jacket. An RN White Ensign patch or RFA Blue Ensign patch, as appropriate, is to be velcro mounted to the left arm to the outer jacket. MTP rank slides are not to be used. No other badges, patches or pins of any type are permitted to be worn to the thermal or outer jacket.

3927. Insignia and Badges Worn with Multi Terrain Pattern Clothing System (MTP)

a. A black on green 'Royal Navy' flash is to be worn by all RN personnel on both sleeves of MTP. The flash is to be attached centrally with its upper edge 7mm below the shoulder seams.

b. Additionally, Tactical Recognition Flashes (TRF) may be worn as directed by Force Commanders.

c. All RN Police personnel will wear a black on green 'Royal Navy Police' shoulder flash at the top of both sleeves (see Fig 39E-15d). Additionally, dependent on theatre of operations, RNP personnel are authorised to wear the Military Police (MP) badge (see Fig 39E-15c) on the right sleeve only (see Para 3823).

d. On all occasions of wearing MTP, Chief Petty Officer Police wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with brown wrist strap (in place of the white wrist strap).

3928. Fleet Air Arm Aircrew

a. **Blue Uniforms.** Bullion/cloth wings badges are to be worn in accordance with Para 3915c Sub-Para (1) for Officers and Para 3916d Sub-Para (1) for Ratings.

b. **White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform.** Full-size bullion wings badges are to be worn in accordance with Para 3915c Sub-Para (2) for officers and Para 3916d Sub-Para (2) for ratings.

c. **No 3A Uniform.** A miniature wings badge may be worn, horizontally, in a central position on the tie. The miniature badge is purchased at own expense from an MOD endorsed supplier.

d. **No 3B Uniform.** Fixed with a pin attachment, the full-size bullion wings badge is worn horizontally, 38mm centrally above the left breast pocket.

e. **Jersey H/W (Green).** Sewn onto the uniform, the full-size cloth wings badge is worn horizontally in a position on the left breast corresponding to the location on MTP uniform.

f. **Combined Wings / Name Badges.** Black background with white or gold lettering, with the words 'Royal Navy' above the appropriate set of wings and the name (or nickname) of the wearer below. Squadron specific wings / name badges are permitted at the at the discretion of the Squadron CO. 'Royal Navy' may be replaced with the Squadron/unit title or Job Role provided the text contains the word 'Navy', 'Naval' or 'NAS'. A second line of text below the unit title indicating the wearer's Squadron role is also permitted. Alternative background and text colours are permitted if uniformly applied across the Squadron / sub-unit.

g. **Fire Retardant (FR) Multi Terrain Pattern (MTP) Ensemble.** Either:

(1) Name badge (14.5cm x 2.5cm) on right breast with wings badge (10cm x 5cm) on left breast and Squadron badge on right arm.

or;

(2) Combined wings / name badge (10cm x 5cm) on left breast and Squadron badge on right arm.

h. **Under Body Armour Combat Shirt (UBACS).** UBACS should be worn with a combined wings / name badge on left arm and a locally modified epaulette (Velcro reverse) rank insignia on the right arm, as well as a 10cm tall Squadron badge to the rear of the rank insignia.

i. **Mk16A/B or Mk17A/B One-Piece Flying Coverall.** All one-piece flying overalls should have a combined Squadron / Royal Navy badge on the right upper arm just below the shoulder and a combined wings / name badge (11cm x 7cm) on the left breast. Other badges may be worn on the right breast at the discretion of the Squadron CO.

j. **Rank / Rate Epaulettes.** Gold on black aircrew rank / rate epaulettes (non-press stud) should be worn on all flying clothing when operationally viable i.e. low threat and non-tactical, outside of exercises and operations. These epaulettes should be worn for all public engagement events and media opportunities, along with full colour badges.

3929. Trainee Submarine Badge

The trainee submarine badge consists of the KC commissioning crown sited above a fouled anchor supported by heraldic dolphins. The badge is similar in all respects to the submarine badge with the exception that it is all black in design. This badge should be worn by all submariner streamed trainees the same as the submarine badge details in para 3918 with the exception that no miniature versions will be procured. In addition, the following points should be noted.

a. The trainee submarine badge is not to be worn once an individual has qualified to wear the gilt submarine badge.

b. It is only to be worn by those personnel streamed within the submarine training pipeline.

c. Awarding of the badge is to be managed under the direction of the Commanding Officer HMS Raleigh for ratings and the Commanding Officer of Britannia Royal Naval College for Officer trainees.

3930. UK Space Command Badge

On the award of the Space Operator Qualification Badge, personnel may wear the half wing badge as follows:

a. **No 1 Uniform:** A gold half wing Space Operators badge (single gold angled wing with gold laurel surrounding a delta, orbit ellipse and Aries star constellation) on the left forearm for ratings 165mm from the cuff and above officers' or Warrant Officers' rank insignia (approximately 165mm from the cuff). (Annex 39E.2 Figure 31k(i)).

b. **No 2 Uniform:** A miniature gold half wing Space Operators badge (single gold angled wing with gold laurel surrounding a delta, orbit ellipse and Aries star constellation) on the left forearm for ratings 165mm from the cuff and above officers' or Warrant Officers' rank insignia (approximately 165mm from the cuff). (Annex 39E.2.Figure 31k(i)).

c. **MTP uniform:** An MTP half wing (single black angled wing with black laurel surrounding a delta, orbit ellipse and Aries star constellation on green background) worn over the left breast pocket. (Annex 39E.2.Figure 31k(ii)).

d. **RIG 22 uniform:** A single silver angled wing and a blue laurel surrounding a delta, orbit ellipse and Aries star constellation worn on the NTfL for all qualified personnel as approved by UK Space Command (Annex 39E Figure 39E-37n).

3931. Service Marksmanship Badge

a. Marksmanship badges are a type of specialist qualification badge and come in two grades, summarised below in increasing seniority. Images and full details of eligibility and wear are at Annex E.

(1) The RN & RM Marksmanship Badge. Awarded for achieving the Marksmanship standard in an ACMT. Awarded to all Ranks and Ratings up to OR7.

(2) The Service Marksman (Navy 10) Badge. Awarded for the top 10 rifle scores at the annual RNRM OSC, it is analogous to the Army 100 and RAF 20 Badges. Awarded to all personnel, OR1 to OF9.

b. Only the highest-level badge is to be worn, e.g. If a Navy 10 Badge is earned, lower badges are to be removed and replaced with the higher award.

c. Marksmanship badges will generally be issued at the course, competition or exercise where they are earned.

ANNEX 39A

RN DRESS TABLES

1. No 1A Dress - Formal Dress/Undress

a. **Occasions For Wear:**

(1) When receiving The Sovereign, other Crowned Heads or Heads of State.

(2) When receiving Royalty unless ordered to the contrary by Fleet Commander.

(3) Inspections by Flag Officers.

(4) Funerals, Courts Martial, Divisions and other appropriate Ceremonial Events.

(5) Full Ceremonial State-Events as ordered.

b. **Description:** See table below.

Admirals	Other Officers	Warrant Officers and Senior Ratings	Junior Ratings
Peaked cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	Sailor's cap (Note 1)
Ceremonial day coat/Black reefer jacket (Note 2)	Black reefer jacket with sleeve rank lace	Black reefer jacket with rate badges	Black class II jumper
Gold laced trousers/black trousers/skirt (Note 7)	Black trousers/skirt (Note 7)	Black trousers/skirt (Note 7)	Black class II trousers
White long-sleeved shirt	White long-sleeved shirt	White long-sleeved shirt	Shirt uniform class II
Black Tie	Black Tie	Black Tie	Sailor's blue collar
Black socks/black tights/stockings (Note 7)	Black socks/black tights/stockings (Note 7)	Black socks/black tights/stockings (Note 7)	Black scarf assembly
Black shoes or mess boots/court shoes	Black shoes or mess boots/court shoes	Black shoes/court shoes	Lanyard
Sword with Admiral's scabbard (Note 9)	Sword (Note 3)	Sword (Note 3 & Note 6)	Black socks
Admiral's sword belt (Note 9)	Sword belt (Note 3)	Sword belt (Note 3 & Note 6)	Black boots
White gloves (Note 3)	White gloves (Note 3 & Note 9)	Black boots (Note 3 & Note 5)	White webbing (Note 3 & Note 5)
Brown gloves (Note 4)	Brown gloves (Note 4)	White webbing (Note 3 & Note 5)	"Frog" and bayonet (Note 3 & Note 5)
Greatcoat (Note 3)	Greatcoat (Note 3)	Greatcoat (Note 3)	Rifle as appropriate (Note 3 & Note 6)
	Black boots (Note 3 & Note 5)	Sword/rifle and bayonet (Note 6)	Greatcoat (Note 3)
		Brown gloves (Note 3, Note 4 & Note 10)	White gloves (Note 3 & Note 9)

Notes:

1. Junior Ratings' chin-stays are to be down when armed.

2. Ceremonial Day Coats are worn by members of the Royal Family attaining Flag Rank, First Sea Lord, Admirals of the Fleet, full Admirals and the Defence Services Secretary when a Naval Officer. Officer Uniform Grant Scale 217, 218, 220 payable as appropriate, by Unit HR Cell.

3. Ceremonial occasions when ordered by SCTO (Drawn from Loan Pool).

4. Worn only with greatcoat (see Note 8)

5. Worn on ceremonial parade with rifle and by Officers forming a guard with rifles (MMC).

6. Warrant Officer First Class, MAA and nominated Chief Petty Officers will carry black handled swords when escorting a White Ensign Ceremonial Kit (WECK), Senior and Junior Ratings may be armed with rifle and bayonet.

7. Service personnel to wear tights or stockings with skirts, socks are to be worn with trousers.

8. White gloves for ratings may be ordered for bi/tri-Service parades when Officers are to wear brown gloves (see also BRd 1834 Chap 5). The Colour Officer wears white gloves.

9. Only to be worn with the Ceremonial day coat.

10. Warrant Officers only.

c. **Decoration/Medals**:

(1) Collar and/or broad Riband.

(2) Up to four stars of orders.

(3) Up to three neck decorations.

(4) Medals.

4. No 2A Dress - Formal Evening Mess Dress

a. Occasions for Wear:

(1) Official or public balls, mess dinners and evening receptions of the formal nature.

(2) Full ceremonial evening events.

b. Description:

Admirals	Other Officers	Warrant Officers and Senior Ratings	Junior Ratings
Peaked cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	Warrant Officers & Senior Ratings wear 1C or 2B rig as directed.	As for 1C rig
Dress tailcoat with sleeve rank lace (Note 2)	Black mess jacket with sleeve rank lace (Note 2)		
Gold laced trousers/skirt (Note 4)	Black mess trousers/skirt (Note 4)		
Stiff fronted shirt with detached wing collar (Note 3)	White Marcella shirt		
Black bowtie	Black bowtie		
White waistcoat/black cummerbund (Note 5 & Note 6)	White waistcoat/black cummerbund (Note 5 & Note 6)		
Black socks/black tights/stockings	Black socks/black tights/stockings		
Black shoes or mess boots/court shoes	Black shoes or mess boots/court shoes		

Notes:

1 Optional at discretion of organising authority.

2. Dress tailcoat is an optional alternative to black mess jacket for officers of the rank of Captain and above.

3. Soft white Marcella shirt may, optionally, be worn.

4. Gold-laced trousers are an optional alternative to black mess trousers (for wear with either dress tailcoat or black mess jacket) for officers of the rank of Captain and above.

5. White waist coats or cummerbunds may be worn by officers as relaxed by Command.

6. Old style of servicewomen's mess dress may be worn until replaced by new pattern.

c. **Decorations/Medals:**

(1) Broad riband.

(2) Up to four stars of orders.

(3) One neck decoration.

(4) Miniature medals.

2A Dress - Formal Evening Mess Dress

Figure 39A-4b. Officers (Servicewomen)

Figure 39A-4c. Warrant Officers and Senior Ratings

Figure 39A-4d. Junior Ratings

5. No 2B Dress - Evening Mess Undress

a. Occasions for Wear:

(1) Dinner when 2A dress is not appropriate.

(2) Evening dances and entertainments.

(3) Evening duties.

b. Description:

Officers	Warrant Officers & Senior Ratings *1C with bowtie if mess kit not issued (Note 7):*		Junior Ratings
Peaked Cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	As for 1C rig
Black mess jacket with sleeve rank lace (Note 2 & Note 6)	Black reefer jacket with rate badges	Black mess jacket with rate badges (Note 6)	
Black mess trousers/skirt (Note 2, Note 3 & Note 6)	Black trousers/skirt	Black mess trousers/skirt (Note 6)	
White / Black waistcoat/black cummerbund (Note 4 & Note 5)	-	Black cummerbund (Note 4)	
White Marcella shirt	White long-sleeved shirt	White Marcella shirt	
Black bowtie	Black bowtie	Black bowtie	
Black socks/black tights/stockings (Note 6)	Black socks/black tights/stockings	Black socks/black tights/stockings (Note 6)	
Black court shoes or mess boots/court shoes (Note 6)	Black shoes/court shoes	Black shoes/court shoes (Note 6)	
Cultural Mess Dress may now be worn by entitled officers, Warrant Officers & Senior Rates (Note 7).			

Notes:

1. Optional at discretion of Command unless duty.

2. Dress tailcoat is an optional alternative to black mess jacket for officers of the rank of Captain and above.

3. Gold laced trousers are an optional alternative to black mess trousers (for wear with either dress tailcoat or black mess jacket) for officers of the rank of Captain and above.

4. Cummerbund optional in place of white / black waistcoat onboard HM Ships or exceptionally when approved by Command. A ship's cummerbund may be worn in lieu of plain black.

5. Old style of Servicewomen mess dress may be worn until replaced by new pattern.

6. A kilt with accoutrements may be worn optionally by personnel in place of black mess trousers, black socks and shoes. Long tartan skirts may also be worn by Servicewomen personnel.

7. Senior Ratings who have been eligible to receive (i.e. those promoted Petty Officer after 1 Apr 09) and claimed the grant for the purchase of Mess Dress uniform are to wear such uniform, as required by the mess occasion.

8. For Cultural Mess Dress, personnel will be required to maintain existing standards of identifiable Naval Uniform above the waist, i.e. mess jacket, shirt and bow tie. Further details regarding this policy can be found in Chapter 38.

c. **Decorations/Medals:**

(1) Up to two stars of orders.

(2) One neck decoration.

(3) Miniature medals.

2B – Cultural Mess Dress Examples

6. No 2C Dress - Formal Evening Dress/Undress

a. **Occasions for Wear:**

(1) "Red Sea Rig" at sea.

(2) Official receptions and events in HM Ships in tropical climes when No 2A/Bs are impractical.

(3) Informal evening uniform in ships and establishments.

b. **Description:**

Officers	Warrant Officers & Senior Ratings	Junior Ratings
Peaked cap/Tricorn hat (Note 1)	Peaked cap/Tricorn hat (Note 1)	Sailor's cap (Note 1)
Shoulder rank boards	Shoulder rate slides (Note 3)	Shoulder rate slides
White short sleeved shirt	White short sleeved shirt	White short sleeved shirt
Cummerbund (Note 2)	Cummerbund (Note 2)	Black trousers/skirt
Black trousers/skirt	Black trousers/skirt	Black socks/black tights/ stockings
Black socks/black tights/stockings	Black socks/black tights/stockings	Black shoes
Black shoes or mess boots/court shoes	Black shoes/court shoes	

Notes:

1. Unless duty, the wearing of the cap/Tricorn hat is optional at discretion of Command.

2. A ship's cummerbund may be worn in lieu of plain black.

3. Shoulder boards may be worn in lieu of slides.

c. **Decorations/Medals:** None.

2C Dress - Formal Evening Dress/Undress

Figure 39A-6a. Officers

Figure 39A-6b. Warrant Officers and Senior Ratings

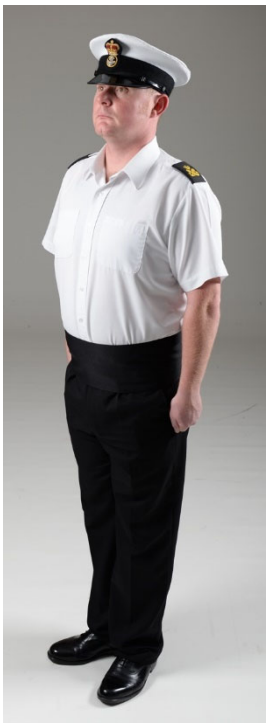

Figure 39A-6c. Junior Ratings

7. No 3A Dress - General Duty Rig

a. Occasions for Wear:

(1) Semi-formal day rig, worn ashore and afloat when No1 uniform is considered inappropriate

(2) Can be worn throughout the year.

b. Description:

Officers	Warrant Officers & Senior Ratings	Junior Ratings
Peaked cap/beret/Tricorn hat	Peaked cap/beret – See notes below/Tricorn hat	No equivalent rig
White long-sleeved shirt	White long-sleeved shirt	
Shoulder rank slides	Shoulder rate slides	
Black tie	Black tie	
Black trousers/skirt	Black trousers/skirt	
Black socks/black tights/stockings	Black socks/black tights/stockings	
Black shoes/court shoes	Black shoes/court shoes	

Notes:

1. The wearing of berets is optional only on the following occasions:

a. When travelling to or from units and/or whereby a cap or Tricorn hat may suffer damage in one's luggage.

b. At Air Stations if the wearing of caps is deemed unsafe or inappropriate.

c. At CO's discretion when deemed appropriate.

*2. The **routine** wearing of berets with No.3 uniform in shore establishments is not permitted.*

3. A leather flying jacket of the standard approved pattern may be purchased at personal expense and worn by all Aircrew with No 3A Dress or No 5 Dress (Mk16A/B or Mk17A/B one-piece flying coverall only (see Para 12)). If worn, the jacket zip slider is to be zipped up to at least 10cm from the top zip stop. In order to ensure uniformity on specific occasions, Commanding Officers should direct when leather flying jackets may not be worn. Clothing permissible for use in aircraft is governed by the aircraft's Release to Service and is not superseded by this Order.

c. **Decorations/Medals:** None.

10. RIG22 Dress

a. **Background.** RIG22 is a dynamic, multi-climate wear, clothing system which maximises fire protection that is functional, modern, and practical.

b. **Occasions For Wear:**

(1) Action Working Dress.

(2) Daily Working Rig at sea for all Ranks and Rates.

(3) Daily Working Rig alongside for all Ranks and Rates.

(4) Daily Working Rig ashore for all RN Personnel.

(5) Daily Working Dress for Armed Sentries and Boarding Teams.

c. **Description:**

<table>
<tr><th colspan="2">All Ranks and Rates</th></tr>
<tr><td colspan="2">A black wicking T-shirt replaces the current RNPCS blue cotton T-shirt throughout the Fleet; except for those personnel in Submarines (subject to toxicity testing). Submariners will continue to use the blue cotton type until either the black item is cleared for use, or a new item is brought into service.</td></tr>
<tr><td>Blue flame-resistant shirt (tucked in).</td><td>1. A White Ensign badge will be provided on initial issue. It is to be attached onto the factory fitted Velcro patch located on the upper left arm.

2. Branch, Skill at Arms and Qualification badges are to be worn as detailed in Chapter 39

3. Organisation, Unit Badges, Pins or substitution of factory-fitted badges (i.e. replacing the “Royal Navy” shoulder flashes with other shoulder flashes) is NOT permitted.

4. Personnel assigned directly to NATO and DIO are authorised to wear an Organisation or Unit badge on RIG22.

5. Rank slide to be worn on the shoulder straps.

6. A Name Tally for Life (NTfL) - 50mm x 135mm in size - Will be provided on initial issue. It is to be attached to the factory fitted Velcro patch located on the LHS breast of the RIG22 Shirt.</td></tr>
<tr><td colspan="2">Flame resistant trouser with a Blue Stable Belt</td></tr>
<tr><td colspan="2">Black Safety Boots.
Safety Boots to be worn at Sea and when alongside in Harbour.
Boarding Teams will wear RIG22 and ‘High Leg’ Boots when deployed.
(Trouser ties are to be used with the High Leg Boots).</td></tr>
<tr><td colspan="2">Black socks.</td></tr>
<tr><td colspan="2">Beret (Peaked Cap/Sailor’s Cap for parade/ceremonial purposes only – see Note 1 and Note 2)</td></tr>
<tr><td colspan="2">Optional - Inner Thermal and GORTEX Outer Layer Jackets to be worn over the shirt</td></tr>
</table>

(Continued)

All Ranks and Rates
The optional Inner Layer Jacket is to be worn over the RIG22 Shirt, as cold weather/cold ambient conditions dictate/require. The optional GORTEX Outer Layer Jacket is to be worn over the RIG22 Inner Layer Jacket and/or the RIG22 Shirt, as wet/windy weather conditions dictate/require. The GORTEX Outer Layer Jacket hood is to be rolled away – However, during heavy rain the hood may be worn (negative cap/beret) but it should be fully re-stowed when not in use and headgear replaced. The decision to wear the hood should be made by the CoC or i/c if working onboard/jetty as a group. However, if caught in a sudden downpour when walking or working independently, as individual may choose to wear the hood. The hood is to be fully stowed when no longer required or conditions allow and headgear is to be replaced.
An optional High Vis Belt may be worn during periods of darkness when transiting on foot in poor ambient light conditions.

RIG22 Relaxed – Relaxed Daily Working Dress - Options below
May be authorised by Command at sea or, exceptionally, for working parties in hot conditions (>29 deg C) in harbour (not outside confines of jetty). Although the options below are permitted at Command discretion, consideration should always be made towards the potential for personnel appearing in the public domain. If there is a likelihood of public visibility and/or photographs being taken of the Ship and Ship's Coy, RIG22 Relaxed options should not be used (e.g. Ship Open to Visitors, VIP Visits with high levels of Media coverage). In these cases, personnel should limit any RIG22 Relaxed options to between/below decks with full/correctly worn RIG22 being worn above decks or in the public eye.
RIG22 Shirts may be relaxed to an 'untucked' position at the discretion of the Command when operating in areas of extreme heat (>29 Deg C). Additionally, Shirts may be fully relaxed with individuals wearing T-Shirt only.
RIG22 trousers with blue stable belt
Black socks Black boots
Caveats: COs may allow RIG22 Relaxed where it is unlikely that immediate firefighting is required. However, the RIG22 Shirt must be readily available for basic firefighting. Command may authorise unit specific T-Shirts provided that they are cotton black.

Notes:

1. Sailor's Cap, Peaked Cap and Tricorn Hat may be worn with RIG22 for ceremonial purposes. For guidance, the following situations are deemed as 'ceremonial':

a. Parade or Guard duties/training.

b. Colours/Sunset party.

c. Entering/Leaving Harbour (Bridge, POS Safety personnel only. No sailor acting as a POS hand working ropes/lines/fenders should wear a Sailor's Cap).

d. Attendance at Church or similar religious/remembrance services.

e. Formal Rounds Parties.

f. Formal 'Clear Lower Deck' gatherings.

2. The wearing of caps for the following situations is not permitted:

a. Gangway Welcome parties.

b. Walking the upper deck or Jetty for routine purposes.

c. Routine movement within a Shore Establishment unless directly involved in Guard/Parade duties.

d. **Decorations/Medals:** None.

b. **Description:**

Officers and all Ratings
1. Occupational working rigs worn at sea and ashore for specific tasks (all ranks) (e.g. chefs, divers, flight deck crews, boats crews, medics, etc) 2. This includes Multi Terrain Pattern; see Note 4.

Notes:

1. White coveralls may be worn by officers and Warrant Officers and FOST staff when working in sterile environments as required.

2. Flight Deck Officers x 2 White Coveralls.

3. QARNNS new ward clinical uniform x 5 jacket and trousers. Compulsory for QARNNS Officers, Warrant Officers, Senior Ratings and Junior Ratings. Student Nurses under training will wear this uniform when on clinical placements.

4. For General Duty Dress: combat jacket (or shirt) is to be worn tucked inside the trouser waistband; sleeves are to be rolled up to above the elbow; only brown issued T-shirts are to be worn. For Combat Dress: (operations or exercise in the field) combat jacket may be worn loose, sleeves may be rolled up or down.

5. A leather flying jacket of the standard approved pattern may be purchased at personal expense and worn by all Aircrew with No 5 Dress (Mk16A/B or Mk17A/B one-piece flying coverall only or No 3A Dress or (see Para 7)). If worn, the jacket zip slider is to be zipped up to at least 10cm from the top zip stop. In order to ensure uniformity on specific occasions, Commanding Officers should direct when leather flying jackets may not be worn. Clothing permissible for use in aircraft is governed by the aircraft's Release to Service and is not superseded by this Order.

c. **Decorations/Medals:** None.

3AW Dress - General Duty Rig White

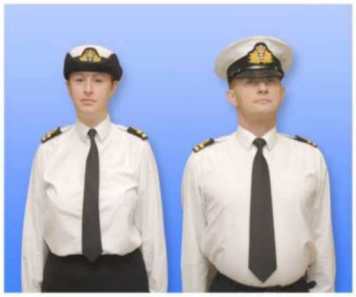
Figure 39A-18a. Officers

(To be inserted)

Figure 39A-18b. Warrant Officers and Senior Ratings

Figure 39A-18c. Junior Ratings

Figure 39A-19. Uniform Fitting Guide (Officers)



Cap Badges are to be in line with the seam on the peak cap and central of the tricorne Cap. Ties are to be of small knot and symetrical.

Creases to the sleeves of the blue reefer jacket are to the front and vertical.
Medals are worn on the left breast in one horizontal line, 90mm down, central from the shoulder blade.

Trouser creases are to be vertical and central to front and rear of the leg. Trousers should hang straight, with the hem hanging mid way between the top of the heel and the top of the shoe.

Cuff links should be Gold, Silver, Plain or Ships Own/RN Specific

Handkerchiefs are not to be worn on ceremonial occasions.

Distinction Mark of Rank - see below

Distinction Mark of Rank – Sleeve Lace

Sleeve lace consists of rows of gold lace with a circle or a curl on the top row only right round each cuff as follows;

Admiral of the Fleet	4 rows of 13mm lace above a band of 50mm lace.
Admiral	3 rows of 13mm lace above a band of 50mm lace.
Vice-Admiral	2 rows of 13mm lace above a band of 50mm lace.
Rear Admiral	1 row of 13mm lace above a band of 50mm lace.
Commodore	A band of 42mm lace with a circle of 13mm.
Captain	4 rows of 13mm lace.
Commander	3 rows of 13mm lace.
Lieutenant Commander	2 rows of 13mm lace with a row of 6mm lace between.
Lieutenant	2 rows of 13mm lace.
Sub Lieutenant	1 row of 13mm lace.

Figure 39A-20. Uniform Fitting Guide (WOs and SRs)

Cap Badges are to be in line with the seam on the peak cap and central of the tricorne Cap. Ties are to be of small knot and symetrical.

Creases to the sleeves of the blue reefer jacket are to the front and vertical.
Medals are worn on the left breast in one horizontal line, 90mm down, central from the shoulder blade.

Trouser creases are to be vertical and central to front and rear of the leg. Trousers should hang straight, with the hem hanging mid way between the top of the heel and the top of the shoe.

Cuff links should be Gold, Silver, Plain or Ships own/RN specific

Chief Petty Officer branch specialisation badges are to be worn on the lapels of the blue reefer jacket, that on the right lapel being the normal branch badge, that on the left its mirror image.

Warrant Officers are to wear the Royal Arms on both cuffs, with the bottom of the badge 127mm from the end of the sleeve.
Chief Petty Officers buttons are worn horizontal and centralised 127mm from the bottom of the sleeve and with a distance of 50mm between the buttons.
Petty Officers buttons are situated at the rear of sleeve, 25mm from the bottom and 25mm between buttons.

Petty Officer Rate badge is worn on the left arm and Branch badges on the right. Centre of the rate and branch badges are to be sewn to the flat of the sleeve, mid way between the shoulder and the elbow.

Figure 39A-21. Uniform Fitting Guide (Junior Rates)

Press shirt with outward crease down each arm and vertically down front centre.

Press 3 vertical creases in the collar. Centre crease downwards, outer creases upwards (see diagram)

Lanyard placed over the head, under both the collar and jumper then passed out through the right becket, looped round, passed back in through left becket. Tail passed around and tucked into left pocket. The loop of lanyard to be 7.5cm in diameter.

Fit jumper at waist so it does not bow at hem. Cuff length to finish mid way between wrist and end of thumb. Leg length to just rest on shoe.

Place the cap ribbon so that the middle letter is aligned with the cap's centre front seam.

Silk bow press stud webbing passed through both becket loops. Silk, folded edge nearest to the neck, passes under both the collar and jumper and over laps and fastens behind the neck at the required length.

Tie the bow directly over the left ear. Place the cap so that the centre front seam is over the nose.

Figure 39A-22. Tying a Cap Ribbon

1) Centre the tally with the centre letter including gaps, under the front seam of the cap. Tie an overhand knot directly under the left hand seam of the cap holding the tally firmly in position with the thumb until the bow is formed.

2) The upper tail is brought down and up again to form the first bight of the bow.

3) The lower tail is passed over the first bight and then up on the outside.

4) A bight is formed in the right hand tail and tucked behind the top end of the first bight.

5) The tally can be steamed over a boiling kettle and tails trimmed to shape.

6) The bow and knot is now carefully formed and tightened.

ANNEX 39B

RN AND QARNNS OFFICERS' OUTFIT SCALES

1. Scale 1A - RN Male Officers on Promotion from Rating

a. Entitlement to Scale.

(1) The uniform outfit shown at sub para b is to be issued to all Upper Yardman Officers on promotion from rating. For Senior Upper Yardmen see Scale 1B.

Overall white (Engineer Officers Only)	3	4

Note.

1. Optionally, black stockings may be worn.

2. Not to be maintained on completion of training.

3. To be issued by lead school on first occasion of need.

4. Only one to be issued to QARNNS Officers.

5. Gratuitous exchange for Officers serving onboard seagoing units only.

6. Only 4 pairs required to be maintained on completion of training.

7. Scale 5 - Officers Assigned to the United States of America

As a general rule, officers are to wear RN uniform. Exceptionally, as summer working uniform, khaki clothing may be worn.

a. RN Male Officers assigned for Service in the USA are paid a cash grant towards the cost of:

	Scale	Notes
Stone, collar attached shirts	3	2
Stone, drill, washable, trousers	2 prs	2
Stone, webbing belt	1	2
Collar, rank badges	1 set	3
Brown shoes		4
Stone tie		4
Cash grant paid automatically by UPO/Unit HR Cell on receipt of OAL (grants and Allowances Scale 202 refers).		

b. RN Female Officers assigned for Service in the USA are paid a cash grant towards the cost of:

	Scale	Notes
Stone, collar attached shirts	3	2
Stone, drill, washable trousers	2 prs	2
Stone, webbing, belt	1	2
USN woman officers belt, buckle and tip	1 set	2
Hat, woman officers, USN	1	2
Collar, rank badges	1 set	3
Cash grant paid automatically by Unit HR Cell on receipt of OAL (grants and Allowances Scale 200 refers).		

Notes:

1. Paid on first occasion of qualifying only.

2. Stone clothing can usually be obtained in the USA from USN sources.

3. Metal collar badges representing, in miniature, the USN officers distinction marks of rank may be worn optionally on the khaki shirt by officers assigned for duty, which necessitate their wearing of khaki uniform in the presence of US officers. The badge, available on repayment from CBNS, is to be worn on both sides of the collar with the centre approximately 2.5cm from the bottom. The badges are to be horizontal when the collar is fastened.

4. Optional item provided at officer's own expense.

8. Scale 6 – Flag Officers, Officers Assigned to Royal Navy Presentation Teams, AIB Board Members, Area Careers Liaison Officers, Ethnic Minority Liaison Officers, Naval Regional Commanders, Chiefs of Staff to Flag Officers, Naval Regional Commanders

	Scale	Notes

Socks, white	2 prs	
Trouser, white PV	2 prs	

Notes:

1. Engineer officers only.

2. RNR officers undertaking FTRS are entitled to a gratuitous issue of those items that make up the shortfall between Scales 15 and 3. Gratuitous items will be made on first appointment only.

3. Chaplains are expected to wear Daily Working Rig (DWR) as directed by their ship or unit. However, where practicable, they may wear a dark suit with a clerical collar (black or grey shirt) in place of DWR, unless directed otherwise.

4. Initial issue only as part of Accelerated Officer Programme; not maintained on completion of Phase 1 training. Issued to deploying personnel as part of operational/exercise supplement.

5. Issued on first occasion of need.

6. Scale of issue for Accelerated Officer Programme is 6 pairs; not maintained on completion of Phase 1 training.

7. Not maintained on completion of Phase 1 training.

8. Scale of 3 jackets only applicable to new joiners after Sep 16. Third jacket also applicable for deploying personnel in accordance with RNTM.

9. Additional 2 shirts issued as part of tropical supplement.

18. Scale 16 - Home Retention Kit for All RN RFR and Recall Reserve Officers

a. The Home Retention Kit listed below is to be retained on discharge from active service by Officers with a Reserve liability:

	Class I	Class II	Notes
Beret Badge	1	1	
Beret	1	1	
Bag, Travelling	1	1	
Disc, Identity, stainless steel	2	2	
Shoulder Rank Slides	2 pr	2 pr	
Safety Boots	1 pr	1 pr	
Inner Layer Thermal Jacket	1	1	
GORTEX Outer Layer Jacket	1	1	
Rig 22 – Shirt	3	3	
Rig 22 – Trousers	3	3	
Rig 22 – Belt	1	1	
Rig 22 – T-Shirts	3	3	
Rig 22 – RN Ensign Shoulder Badge	3	3	
Rig 22 – Name Tally (NTfL)	3	3	

19. Scale 17 - RN and RNR Officers (Including Chaplains) Serving in RM and RMR Units

As a general rule, RN and RNR officers are to wear RN uniform. Exceptionally, officers in Commando units (including CTCRM) may wear combat dress on operations or field exercises, and military working dress on appropriate occasions when ordered locally. Officers wear shoulder badges of rank on all occasions and black-on-green ‘ROYAL NAVY’ flashes on both shoulders of the olive green heavy wool jersey. RN chaplains when in the field will be required to wear combat dress or military working dress with the chaplain’s badge on the shoulder, and the shoulder title ‘Royal Navy’ on each arm. The clerical collar and stock are to be worn with military working dress.

a. **Items Issued from Service Sources.**

	RN and RNR Officers (including Chaplains) Serving in RM Commando Units and CTCRM (including personnel under training at CTCRM)	RNR Officers Attached to RMR Units
Badge, beret, Chaplain's, embroidered	1 (Note 4)	1
Beret blue, RN	1	1
Beret, green	1 (Note 1)	1 (Note 1)
Boots, ankle, DMS	1 pr	1 pr
Defenders, ear - Gunfender	1 pr	-
Drawers olive, drab	2 prs (Note 2)	-
Flashes, 'Royal Navy'	2	2
Gloves, knitted polyester, olive drab	1 pr	-
Holdall	1	-
Jersey, wool, heavy, olive drab	1	1
Knife, fork and spoon set	1	-
Lanyard, blue	1	-
Puttee, short	1 pr	-
Shirt, combat	2	2
Shoulder badges EBG	3 prs	3 prs
Socks, polyester, olive drab	3 prs	2 prs
Stockings, khaki	3 prs (Note 3)	-
Towels, hand, green	2 (Note 2)	-
Trousers, men's, lightweight	2 prs (Note 5)	1 pr (Note 5)
Vest, olive drab	2 (Note 2)	-

Notes:

1. To be issued to RN and RNR officers on Commando qualification.

2. To be issued on personal loan.

3. To be provided as required and only whilst tropical outfits include olive drab hats, shirts, shorts and trousers on personal loan from unit holdings.

4. An additional badge may be issued to Chaplains on qualification for a green beret.

5. Trousers, men's, lightweight/barrack dress are designed for clean fatigue wear. They may be used for light training in and around barracks. All personnel should be made aware that they can be a fire hazard: they burn rapidly and decompose into a molten material that adheres to the skin. Such burns are difficult to treat and slow to heal. Heat along from weapon flash or contact with hot metal will melt the material. All personnel should be made aware of the risks involved when wearing the trousers near field cookers, other naked flames or very hot surfaces.

6. Chaplains are expected to wear Daily Working Rig (DWR) as directed by their ship or unit. However, where practicable, they may wear a dark suit with a clerical collar (black or grey shirt) in place of DWR, unless directed otherwise.

20. Scale 18 - MSF Officers on Re-Entry

a. **Entitlement to Scale.** Only MSF officers who ceased active service more than 4 years before taking up their MSF appointment are entitled to a gratuitous issue of the items listed below. The appropriate Administrative Authority will give approval for the wearing of uniform by MSF officers. This approval annotated with the last day of active service is the authority for the issue of all items of uniform.

b. **Basic Outfit.**

(1) **Items Provided Under Contract.**

	Scale	Notes
Blue Barathea Suit	1	

(2) **Items Issued from Service Sources.**

	Scale	Notes
Badge, cap, RN officers	1	
Cap, detachable top. Hat Tricorn	1	
Inner Layer Thermal Jacket	1	
GORTEX Outer Layer Jacket	1	
Shirt, white, collar-attached	4	
Shirt, white, short sleeve	4	
Shoes, black leather, non-slip soles	1 pr	
Shoulder slides	2 prs	
Socks, thin, black	4 prs	
Tie, black	2	
Trousers, working, worsted/polyester	2 prs	2

Notes:

1. MSF officers who take up their appointment after a break of less than 4 years are to be reimbursed in accordance with JSP 754.

2. Female MSF officers may draw two skirts WWP instead of trousers WWP or 1 skirt WWP and 1 pair of trousers WWP.

21. Scale 19 - Officers Uniform to be Returned on Early Discharge

a. Officers discharged within the first six months of service are to return all clothing issued in accordance with Chap 39 Annex 39B Para 5 and Para 6 Scale.

Slides, shoulder, rate badge	2 prs	As required	4 & 5
Socks, thin, black	4 prs	As required	
Tie, black	2	As required	

Notes:

1. These items are to be issued on initial entry into the Captain Recruit and Attract Service in addition to the Home Retention Scale of kit retained on discharge from active service in accordance with Scale 23.

2. The Captain Recruit and Attract Service breast badges, (one with pin fastener and one with magnetic fastener), to be provided by Captain Recruit and Attract contract.

3. These items may be exchanged for new items, if necessary, at the intervals specified or earlier if there is sufficient evidence that irreparable wear or damage is due to Service reasons beyond the owner's control.

4. A CA3 is entitled, on advancement to CA2, to a gratuitous initial issue, if not previously received, of the full range of CPO badges in accordance with the scales laid down in Annex 39D Para 1.

5. A CA2 is entitled, on advancement to CA1, to a gratuitous initial issue, if not previously received, of the full range of WO badges in accordance with the scales laid down in Annex 39D Para 1.

5. Scale 5 - RN Ratings Serving in North America

Senior Ratings serving in North America for a period of at least nine months. (As a general rule, ratings are to wear RN uniform. Exceptionally as a working uniform, khaki clothing may be worn. See Note 1).

	Scale	Notes
Belt, webbing, khaki	1	2
Collar rank badges	2	2
Shirt, khaki, short-sleeved	3	2
Trousers, khaki	2 prs	2

Notes:

1. Similar arrangements apply to ratings assigned for lesser periods. CBNS Washington or SSA SWS/CSSE, as appropriate, is to review, in each case, the need to provide khaki clothing.

2. Eligible ratings are to provide themselves with these items from US Service sources. Receipted invoices are to be forwarded to Royal Navy Overseas Support Unit, HMS NELSON.

6. Scale 6 - RN Ratings Serving in Commando Units and Medical Branch Male Ratings Serving in Other RM Units

a. As a general rule, RN personnel in RM units are to wear RN uniform. Class II Ratings are to wear cap ribbons lettered ‘ROYAL MARINES UNIT’. Exceptionally, RN personnel in commando units, including CTCRM, and RN Medical Branch Ratings only, in other RM units, may wear combat dress on operations or field exercises, and military working dress on appropriate occasions when ordered locally.

b. *For RIG22 Shirts , Branch, Skill at Arms and Qualification badges are to be worn as detailed in Chapter 39.*

*c. Organisation or Unit badges, pins, or substitution of factory-fitted badges (e.g. replacing the ‘ROYAL NAVY’ shoulder flashes with other flashes) are **NOT** permitted. Commanding Officers and the CoC are to enforce this policy*

d. Shoulder flashes lettered ‘ROYAL NAVY COMMANDO’ in black on green as appropriate, are worn by Commando qualified personnel. The shoulder flashes are to be worn as detailed in Chapter 40.

e. On combat dress and military working dress rank and rate badges are worn as follows:

(1) RN Warrant Officers black on green, or anodised badges, in the same manner as RM Warrant Officers.

(2) CPOs, POs and Leading Hands; black on green shoulder badges.

f. Black on green ‘ROYAL NAVY COMMANDO’ shoulder flashes are to be worn on olive green heavy wool jerseys and MTP as detailed in para 2.

g. Parachutist badge is to be worn on the right cuff and the Commando badge is to be worn on the left cuff of No 1 Dress, 127mm from the end of the sleeve. No other badges are to be worn on No 1 Dress.

	Scale	Notes
Beret, green	1	1

2. Replaces RN EOD.

3. Medical Officers, Paramedics and Medical Assistants who have achieved the prescribed Diving and Hyperbaric Medicine (DHM) training requirements and are formally accredited by the Defence Consultant Advisor (DCA) DHM/ Hd DHM will be awarded the DHM JPA competency and associated JPA sub-branch tag.

ANNEX 39F

ROYAL NAVAL VOLUNTEER BAND

1. Entitlement To Scale

a. Members of Royal Naval Volunteer Bands who are also serving members of any military Service, or non-military uniformed Service, are to wear their most appropriate uniform commensurate with the status of the band engagement.

b. Members of Royal Naval Volunteer Bands not entitled to wear other military Service uniforms, or other non-military Service uniforms, are entitled to wear a uniform as in Para 2 and Para 3 below.

c. Where at all possible, Clothing Stores are to recycle serviceable items of uniform for members of the RNVBA.

2. Concert Dress

Red Sea Rig, comprising White Short Sleeve Tropical Shirt with Black Trousers, or skirt for females (optional), Black Shoes, Volunteer Band Epaulettes.

3. Parade Dress

No 1 Suit with Band Service Lyre Badge Gold on Blue, Black Tie, Black Shoes, Peaked Cap/Tricorn Hat as appropriate with Band Service Lyre Badge Gold on Blue.

4. Royal Naval Volunteer Band Association (RNVBA) Long Service Award

a. In recognition of those who voluntarily give much of their spare time to further the interests of the Naval Service, in 2014 the Second Sea Lord instituted the RNVBA Long Service Award. This award is to be worn in No. 1 Dress only (not concert rig).

b. The design of the Long Service Award consists of a metal Lyre Badge with oak leaves:

(1) Royal Naval Junior Ratings (and drummers as required) are to wear the Long Service Award centrally on the lower left sleeve, 150mm above the cuff (see Fig 39F-1 below).

(2) All other Royal Naval Volunteer Band personnel are to wear the Long Service Award centrally on the left lapel of the jacket with the bottom of the badge 50mm below the step seam (see Fig 39F-2 below).

c. The RNVBA Long Service Award is awarded to RNVBA members at the discretion of the Staff Officer (Music) of the Royal Marines Band Service, based upon recommendation by the individual's Volunteer Band Instructor (VBI).

d. Qualification for the award is based on time served in the RNVBA. There are awards for 5 (silver), 15 (silver/gold) and 25 (gold) years' service.

e. Unlike the LS&GC, campaign medals etc the RNVBA Long Service Award is not from the Sovereign (tracking and eligibility criteria for the award do not allow for this). In order for the RNVBA President, in liaison with the RNVBA Secretary, to satisfy themselves that the award is warranted, VBIs are required to submit annual nominal rolls to the Assistant Secretary RNVBA of members who attend regular rehearsals and engagements (including notes of the amount of time previously served). VBIs are to use the annual return to nominate and recommend eligible members for the most appropriate Award.

f. Submissions are to be forwarded by 31 Jan annually.

CHAPTER 40

ROYAL MARINES OFFICERS AND OTHER RANKS

SECTION 1

INTRODUCTION

Note. *The contents of this Chapter should be read in conjunction with Chapter 37 and Chapter 38.*

4001. History

The history of Marines in the UK commenced on 28 October 1664 when King Charles II signed an Order in Council for the formation of The Duke of York and Albany's Maritime Regiment of Foot (or The Admiral's Regiment), a regiment distinguished by its yellow coats with red facings. The subsequent century saw various disbandments and the raising of new regiments of Marines, some twenty-three in all, as well as four Invalid Companies. All of these had their own uniforms and distinctions. These early Marine Regiments provided men trained as soldiers for service at sea but were part of the Army. Accordingly, Marine uniforms were military rather than naval in style and followed the Army fashions of the day. The disastrous campaign at Cartagena, in Columbia, in 1741, led Admiral Lord George Anson to conclude that a principal fault had been the chaotic organisation and poor administration of the ten Marine Regiments then in the Army Order of Battle. In 1747 he carried through radical reforms which ensured that any future Marines should only be raised and administered by the Admiralty. As First Lord of the Admiralty in 1755, when war threatened once more, he was able to enact these reforms and thus an Order in Council of 5 April 1755 specified the creation of a Corps of Marines under Admiralty control. This Corps retained the tradition of military style uniforms along with military ranks and rank badges. Since 1755, the Corps has been in continuous existence as a distinct and separate part of the Naval Service. On 29 April 1802, King George III recognised the Corps' loyal service by directing that the Corps should be styled 'Royal' and, in consequence, the white facings on their scarlet coats were replaced by the blue of a Royal regiment. Although Marine Artillery Companies were formed in 1804 and the Royal Marines were designated a Light Infantry corps in 1855, it was not until 1862 that the Corps was formally split into the Royal Marine Light Infantry (RMLI) and the Royal Marine Artillery (RMA). The former wore infantry style uniforms with scarlet tunics whilst the latter wore artillery style uniforms with navy blue tunics. In 1923, the two arms of the Corps were re-merged to become once again the Royal Marines. This amalgamation led to the adoption of navy blue tunics for day dress whilst scarlet was retained for evening wear on mess jackets by officers, WOs and SNCOs. Khaki uniforms were adopted for field service in World War 1 and various forms of khaki uniforms remained in service until 1964, whilst khaki drill (and later stone) uniforms were introduced for tropical wear. In 1964, a lovat green uniform replaced Khaki Service Dress and Battledress for wear as a day undress uniform or alternative parade uniform. In addition to khaki battledress, various forms of combat clothing have been worn since World War 2, often theatre specific. Latterly, these are often tri-service items. In the late 19th Century and up until the 1980s, various orders of blue working dress, such as blue battledress, have been worn, particularly by ships' detachments. In 1992, recruiting into the RM Band Service was opened to females so female variants of appropriate Orders of RM Dress were introduced. In 2023, the Corps commissioned a review into how senior Royal Marines Officers dress can be more closely aligned with the Royal Navy. Several changes were recommended, including

officers at the rank of Colonel and above adopting a cloth globe and laurel cap badge, returning letters ‘RM’ to rank slides and using letters ‘RM’ as post nominals. Additional changes included getting rid of gorget patches and removing mounted order as a form of dress. Further detail on the history of RM uniforms can be found in RM Historical Society Special Publication 41 - ’Personal Distinctions - 350 Years of RM Uniforms and Insignia’ by John Rawlinson, published in 2014 (ISBN 978-1-908123-09-1).

4002. Dress Tables

Approved orders of dress are promulgated in Dress Tables. Whilst these lay down the standard configurations, commanders should note that, in some cases, variations may be authorized by the appropriate senior officer. This is to take account of particular circumstances which may include factors such as weather, location and context, or practical considerations such as being afloat or taking passage in boats. Details for RM General Service personnel are given in the tables at Annex 40A, whilst those for RM Special Boat Service (SBS) personnel are in Annex 40F and those for RM Band Service personnel are in Annex 40G. Numbers and names are assigned to the various orders of dress for convenience when referring to them. For the Orders of Dress to be worn at Court functions, or at Joint Service functions when members of the Royal Family are present, see the Joint Services Ceremonial Dress Table in Chapter 43. Associated items of equipment worn with various orders of dress are given in the Dress Tables at Annex 40A.

4003. Dress When Serving with RN or Other Services

Royal Marines will conform, when possible, to the number of dress ordered for the Royal Navy. When serving with the other Services, they are to wear the nearest appropriate Dress. For certain ceremonial occasions, however, where RN personnel are wearing No. 1B Dress, the senior RM officer may order No 1A Blue Dress (negative swords) to be worn in lieu of No. 1B Lovat Dress.

4004. Ex Regular Royal Fleet Reserve (RFR) and Recall Reserve Uniform on the occasion of their callout or recall for service

Royal Marines Officers, WOs NCOs and Marines personnel who leave the service and maintain a legal callout liability are to retain kit as detailed at Annex 40B Scale 5 (Officers) and Annex 40C Scale 3 (WOs, NCOs & Other Ranks). Upon recall, Ex-Regular Royal Marines RFR and Recall Reserve personnel will wear the same uniform as regular RM personnel of the same rank however Lovat uniform is not generally issued. Further uniform required will be role dependant and will be issued as required during subsequent phases of their integration back into service.

SECTION 2

DISTINCTIONS IN UNIFORM

4005. General Officers

Articles of uniform for General Officers are of Corps pattern with the following modifications:

a. **Greatcoat.** Corps pattern blue greatcoats are worn without gorget patches or globe and laurel collar insignia. Ceremonial greatcoats are to be buttoned to the neck when worn by officers unless they are wearing Orders and Decorations, then the greatcoat can be worn open at the neck.

b. **High Collar Blue Tunic.** In No. 1A Dress on ceremonial occasions a blue tunic with stand-up collar (Army pattern No. 1) is worn. The accessories for wearing with this dress comprise:

(1) Gold shoulder cords with silver-embroidered rank badges. Letters 'RM' are not worn.

(2) Crimson and gold waist sash.

(3) General Officers' full-dress sword with metal scabbard, crimson and gold sword knot, gold sword slings.

(4) Plain white gloves.

(5) All buttons are 20mm Corps pattern.

(6) Collar badge, embroidered silver globe in gold braided laurel wreath.

c. **Badges.** Royal Marines General Officers wear an embroidered Corps badge on both cap and beret (see Fig 40E-1a). The black version of the cap badge is worn on the peaked cap whereas the green version is worn on the beret.

d. **Gorget Patches.** General Officers' gorget patches are no longer worn on any orders of dress.

e. **Cap.** White, plastic-topped, Corps pattern but with gold-embroidered oak leaves all-round the peak. i.e. two bands of oak leaves (see sub-para c above and Fig 40E-2a).

f. **Gloves.** White, cotton.

g. **Scarlet Mess Jacket.** Fitted with blue cloth shoulder straps edged with 13mm oak-leaf pattern gold lace and fastened at point with small 13mm officer's silver gilt lion and crown buttons. Silver-embroidered rank badges on shoulder straps. Corps badge (see Para 4015) on each lapel.

h. **White Mess Jacket.** Fitted with white drill shoulder straps fastened at point with small 13mm officers' silver gilt lion and crown buttons. Miniature anodised rank badges on shoulder straps. Corps badges fitted with Velcro as above.

i. **Blue Trousers.** Scarlet cloth stripe 64mm wide in place of 6mm welt.

j. **13mm General Officer's Button (Anodised and Bronze).** Raised round button 13mm in diameter with silver gilt lion and crown. Worn by officers on the shoulder straps of mess jackets (see Fig 40E-4a).

k. **20mm RM General Officer's Button.** A Corps pattern anodised button 20mm in diameter for wear only on high collar blue and white tunics.

l. Items such as General Officers' dress swords, scabbards, sword knots, sword belts and sashes can be obtained from the Ceremonial Store, details of which are as follows:

G4 SNCO
JSAU London
London Central Garrison
Wellington Barracks

CIV: 0207 414 3351/0207 799 2924
MIL: 94631 3351
rqmsmodmain@hotmail.co.uk

4006. Brigadiers and Colonels

Articles of uniform for Brigadiers and Colonels are of Corps pattern with the following modifications:

a. **Greatcoat.** Blue greatcoats are worn without globe and laurel collar insignia.

b. **Badges.** Royal Marines Brigadiers and Colonels wear an embroidered Corps badge on both cap and beret (see Fig 40E-1a). The black version of the cap badge is worn on the peaked cap whereas the green version is worn on the beret.

c. **Gorget Patches.** Staff gorget patches are no longer worn on any orders of dress.

d. **Cap.** White, plastic-topped, Corps pattern but with gold-embroidered oak leaves round the front of the peak (see Fig 40E-2b). Oak leaves also worn by Lt Col RM.

e. **Scarlet Mess Jacket.** As for General Officers, except that shoulder straps are edged with 13mm, Staff pattern gold lace.

f. **White Mess Jacket**. As for General Officers.

g. **Blue Trousers.** Scarlet cloth stripe 45mm wide in place of 6mm welt.

h. **13mm Button (Anodised and Bronze).** Raised round button 13mm in diameter with Corps silver gilt lion and crown. Worn by Colonels and Brigadiers on the shoulder straps of mess jackets.

4007. Colonels Commandant and Honorary Colonels

The policy for Colonels Commandant and Honorary Colonels uniforms is as follows:

a. **Colonels Commandant.** On special occasions Colonels Commandant of the Royal Marines may wear the uniform of their rank on retirement or the approved alternative, which is General Officer's uniform with Colonel's badges of rank.

b. **Honorary Colonels.** On special occasions, Honorary Colonels of the RM and RMR may wear the uniform of their rank on retirement or the approved alternative, which is Corps Uniform (i.e. uniform worn by Lieutenant Colonels RM and below) with Colonel's badges of rank and Colonels embroidered cap badge.

4008. Distinctions in Uniform - Band Officers

Articles of uniform for officers of the Royal Marines Band Service are of Corps pattern with the following modifications:

a. **No. 1 Dress - Ceremonial Blue Dress**. Blue cloth tunic with stand-up collar (pre-World War 2 Full Dress pattern); with the following accessories for wear with this Dress:

Either;

(1) Gold shoulder cords with silver-embroidered rank badges.

(2) Crimson waist sash.

(3) Dress sword with metal scabbard, gold sword knot and sword slings.

(4) Plain white cotton gloves.

Or;

(1) Blue frock coat with stand-up collar.

(2) Crimson sash.

(3) Gold embroidered rank badges.

b. **No. 1AW Dress - Tropical Ceremonial Dress.** White cloth tunic with stand-up collar, white trousers and white shoes. The accessories for wear with this Dress are as for Full Dress Blues above with anodised officers' pattern collar badges.

c. **Wellington Boots.** Patent leather officers' pattern Wellington boots may be worn for all appropriate occasions.

d. **Helmet Plate.** Officers of RM Band Portsmouth and RM Band CTCRM wear the same special insignia on the helmet plate (not cap or beret) as other ranks of these bands (see Para 4013).

e. **Blue Trousers and Overalls.** Scarlet cloth stripe 45mm wide in place of 6mm welt. Overalls may be worn on all appropriate musical occasions.

4009. Distinctions in Uniform - Warrant Officers Class 1

Articles of uniform for WO1s are of RM WOs, NCOs and Marines' pattern with the following modifications:

a. **Regimental Blue Uniform.** Officers' material and pattern, but tunics are to be fitted with a high collar worn with anodised officer pattern collar badges. Tunic sleeves are to have a subtle crease. Two buttons to be added to the tunic cuffs consistent with the officers' uniform. Rear skirting to be split and pockets modified consistent with the officers' uniform.

b. **Cap, Plastic, RM.** Officers' pattern.

c. **Helmet WP.** Officers' pattern helmet plate and ball ornament.

d. **Cap and Collar Badges.** Officers' pattern.

e. **Blue Lanyard.** Officers' pattern.

f. **Boots, Ankle.** Officers' pattern.

g. **Tie, Light Khaki Braided.** For wear with No. 1B and No. 1C Dress.

h. **Shoes, Black.** Officers' pattern.

4010. Distinction in Uniform - WO1 Bandmasters and WO1 Buglers

In addition to the articles at Para 4009, WO1 Bandmasters and WO1 Buglers are also entitled to the following articles of uniform:

a. **No. 1 Dress - Ceremonial Blue Dress.** Blue cloth tunic officers' pattern and blue frock coat, both as Para 4008 but with appropriate rank badges and worn with blue Band trousers and WO1 parade boots.

b. **No. 1AW Dress - Tropical Ceremonial Dress.** Officers' pattern as in Para 4008, with appropriate rank badges and worn with WO1 parade boots.

c. **No. 2C Dress - Red Sea Rig.** White short sleeved shirt, blue trousers (thick or thin stripe), red cummerbund, black shoes and white leather wrist strap for assignment or rank.

4011. Distinctions in Uniform - Drum Majors, Bugle Majors, Musicians and Buglers

Articles of uniform for ranks of the RM Band Service and Buglers are of RM WOs, NCOs and Marines pattern with the following modifications:

a. **No. 1 Dress - Ceremonial Blue Dress (Drum Majors' Pattern**). Drum Majors in complement billets are issued with a special, gold-braided ceremonial tunic.

b. **Wellington Boots and Overalls.** Officers' pattern Wellington boots and overalls will be worn by Drum Majors on ceremonial parades.

c. **Drum Majors' Ceremonial Accessories.** All Drum Majors to wear worsted scarlet sash, dress belt, dress sword with metal scabbard, white sword knot and slings (WO1 Drum Majors to wear gold sword knot and slings), blue sword belt (worn under tunic) and Drum Majors' pattern white gauntlets.

d. **Dress Cords Royal.** Dress Cords Royal, silk for Bugle Majors, worsted for other Buglers, are worn as ordered. The method of wearing is the hook at the tassel end is to be secured to a becket sewn underneath the left shoulder strap at the front, as near to the point of the shoulder as practicable. The tassels, when secured, should lie naturally at the front of the left shoulder. The running end should then be taken across the upper chest, over the right shoulder beneath the shoulder strap; the cord between the shoulders lying in a natural curve, being secured to the third button on No. 1 Dress – Ceremonial Blue Dress tunics, second button on No. 1A Dress - Regimental Blue Dress and No. 1AW Dress - Tropical Ceremonial Dress tunics and to the top button on No. 1B Dress - Lovat Dress tunics, between the two toggles provided. Securing of the cord is completed by bringing the running end round the back of the right shoulder, under the armpit, and, except for the lovat tunic, securing the eye at the end to the top button of the tunic. On the lovat tunic the eye is to be secured to a small hook sewn under the right lapel 90mm above the top button. The plait below the eye should curve naturally towards the right armpit. If a drum carriage is worn, the loop across the chest should be underneath, and that part of the cord running from the right armpit, secured over the top of the carriage.

e. **No. 1 Dress - Ceremonial Blue Dress.** A yellow-braided blue cloth tunic is provided for wear by Musicians and Buglers with No. 1 Dress – Ceremonial Blue Dress on appropriate occasions. For Band Sergeants, Sergeant Buglers and above the tunic is gold-braided.

f. **Blue Trousers.** Drum Majors and Musicians wear a broad scarlet stripe (45mm) on serge trousers. WO1 Drum Majors wear a thin stripe on serge trousers when in No. 1A, 1AS Dress and Frockcoat Order.

g. **Locket Union and White Belt.** All RMBS personnel (SNCO and below) are to wear a gold-plated locket union with lion and crown design surrounded by 'Gibraltar' above and regimental motto 'Per Mare Per Terram' below. Locket unions are to be attached to a solid plastic white belt in No. 1 Dress - Ceremonial Blue Dress (and other uniforms when ordered) and to be worn centrally around the waist. The plastic runners are to fit firmly against the metal bars with the 'tongue' behind (edge of plastic runners to point down). Metal side runners to be fitted as required, prong facing towards the front and pointing out.

h. **Cross Strap and Pouch with Device.** With the exception of SNCOs, bass players, bass drummers, tenor drummers and Buglers, all RMBS personnel in No. 1 Dress - Ceremonial Blue Dress are to wear a solid plastic cross strap and pouch. The cross strap is to be worn over the left shoulder with the brass buckle positioned immediately in front and below the left shoulder strap and is to lie diagonally across the front of the body, under the uppermost button on the tunic. The pouch is to be positioned centrally in the small of the back with the bottom of the device (lion and crown above regimental motto 'Per Mare Per Terram' scroll) fitted centrally on the pouch immediately above stitching.

i. **No. 1B/1C Dress - Lovat Dress.** Lovat suits are only to be issued and worn by Directors of Music, Bandmasters, Drum Majors, Bugle Majors (dress cords to be worn), HQBSRM SNCOs, Volunteer Band Instructors and designated RMBS personnel with authority from SO2 Band. Prince's Badge to be worn. Bandmaster, Drum Major and Bugle Major appointments to be worn (these badges are to be locally purchased as required). Musician and Bugler SQ badges are no longer worn (ranks already in possession of an SQ badge may continue to wear it).

j. **No. 1AW Dress - Tropical Ceremonial Dress.** White cloth tunic with stand-up collar, white trousers and white shoes. The accessories for wear with this dress are as for temperate No. 1 Full Dress Blues - Ceremonial Dress.

k. **No. 2C (Band) Dress - Red Sea Rig.** White short sleeved shirt, gold on red rank badges, sewn on white brassard, (WO2s white leather wrist strap for badge of rank or assignment), white epaulette slides with anodised letters 'RM', blue serge trousers, red cummerbund and black shoes. May be worn by RMBS personnel (SNCOs may wear No. 2C Dress in place of Mess Dress if performing as part of an ensemble) when performing on band engagements where guests are wearing No. 2B Mess Undress or No. 2C Red Sea Rig, with the permission of the Mess President. 'Royal Band' shoulder flash (on brassard) and Prince's badges (Velcro attachment) are to be worn in this uniform.

l. **Maternity Uniform.** Pregnant RMBS personnel are to wear Maternity Uniform iaw Para 3815. Rank/appointment badges and flashes to be worn iaw directions for Half Lovats (cardigan and shirts). Letters 'RM' (bronze) and rank (white on khaki) only to be worn on maternity dress (no Prince's Badge or shoulder flashes) with 'barely black' tights.

4012. Cap and Beret Badge

a. Officers and WO1s

(1) The Corps badge is worn by all officers and WO1. The embroidered badge is worn by Colonels and above.

(2) The Corps badge is in two parts: a globe in a laurel wreath and a lion on a crown; the globe in silver, remainder anodised (see Fig 40E-1b). The beret badge worn with Combat and Training Dress is similar but in bronze throughout. The manner of wearing on cap and beret is detailed below.

b. **WO2s.** A divided (split) badge (i.e. lion and crown separate from, and above, the globe and laurel) anodised (including the globe) or bronze, as appropriate, is worn by all WO2s (see Fig 40E-9b).

c. **NCOs, Marines, Musicians and Buglers.** The globe, laurel, lion and crown badge, anodised or bronze, as appropriate, is worn by all NCOs and Marines in one piece (composite) (see Fig 40E-9c), with the following exceptions:

(1) **RM Band Portsmouth.** On the cap only (not beret) WO2 Bandmaster, Drum Major/Corps Drum Major and all Musicians (excluding Director of Music and WO1 Bandmaster) of RM Band Portsmouth wear a gilt 'bursting grenade' on which is mounted the royal cypher GRV and a St Edward's crown in silver surrounded by a laurel wreath. The 'bursting grenade is to be fitted centrally with the tips of the laurel wreath just touching the white of the cap. The royal cypher EIIR/PP with crown in silver is worn centrally 10mm above the grenade. Corps Bugle Major/Bugle Major and Buglers do not wear these cyphers.

(2) **RM Band CTCRM.** On the cap only, band ranks (not beret) WO2 Bandmaster, Drum Major and all Musicians (excluding Director of Music and WO1 Bandmaster) of RM Band CTCRM wear the anodised divided cap badge with the Prince of Wales's plumes in silver between the globe and laurel and the lion and crown. The Globe and Laurel is to be fitted centrally with the tips of the laurel wreath just touching the stitching at the top of the red band. The Prince of Wales' plumes to be fitted above the globe and laurel with the bottom of the quills just touching the stitching. The lion and crown is to be worn centrally 10mm above the Prince of Wales's plumes. Buglers do not wear this cypher.

d. **Details for Wear**

(1) The composite badge is worn as follows:

(a) **Caps.** Centrally in front of the cap, with the top of the red band running through the crown.

(b) **Berets.** Immediately over the left eye: blue beret - centrally within the red patch; green beret - 5mm above the leather band. The lining is not to be removed.

(2) The divided badge is worn as follows:

(a) **Caps.** With the tips of the wreath level with the top of the scarlet band but below the scarlet welt. The base of the lion and crown is to be 10mm above the scarlet band. The lining is not to be removed.

(b) **Berets.** As in Para 4012 sub para b but with the crown 10mm above the globe.

e. SBS badged personnel wear the cloth SBS badge on their berets, 5mm above the leather band centrally over the left eye.

f. SBS(R) ranks wear the cloth badge on completion of JSF Selection Course, when they reach the level of Sabre Squadron Ready.

4013. Helmet Plate and Ball Ornament

a. Helmet Plate

(1) **Officers and WO1s.** A gilded metal eight-pointed star with dead and bright rays, and crown above (see Fig 40E-3). On the star a gilded metal laurel wreath and saw-pierced garter with regimental motto ‘Per Mare Per Terram’; above the garter a scroll ‘Gibraltar’ and below it an anchor, in the centre a silver globe. Under the saw-pierced garter, blue enamel. The plate is to be positioned centrally on the front of the helmet with the top crown and bottom central ray in line with the central seam. The points of the lower two rays (either side of the centre) are to just touch the top edge of the helmet band. Directors of Music of the RM Bands wear the appropriate cyphers as detailed in Para 4013.a sub para (3) and Para 4013.a sub para (4) below.

(2) **WO2s, NCOs, Marines, Musicians and Buglers.** A gold-plated metal eight-pointed star with dead and bright rays, and crown above (see Fig 40E-10). On the star a laurel wreath and saw-pierced garter with regimental motto ‘Per Mare Per Terram’; above the garter a scroll ‘Gibraltar’ and below it an anchor, in the centre a globe positioned iaw Para 4013.a sub para (1) above.

(3) **RM Band Portsmouth.** The Director of Music, WO1/WO2 Bandmaster, Corps Drum Major/Drum Major and all Musicians of RM Band Portsmouth wear two royal cyphers in silver attached to the helmet plate, the cypher GVR over the anchor and below the globe and the cypher EIIR/PP below the crown. Corps Bugle Major/Bugle Major and Buglers do not wear these cyphers. Positioned iaw Para 4013.a sub para (1) above.

(4) **RM Band CTCRM.** The Director of Music, WO1/WO2 Bandmaster, Drum Major and all Musicians of RM Band CTCRM wear the Prince of Wales’s plumes in silver centrally upon the helmet badge above the globe and partially covering the crown. Buglers do not wear this cypher. Positioned iaw Para 4013.a sub para (1) above.

b. Ball Ornament

(1) **Officers and WO1s.** A threaded gilded metal ball in a gilt leaf cup on a dome base with open vents. The ball ornament is to be worn on top of the helmet, screwed through the fitted lacquered metal ventilator with the central leaf of the cup in line with the front helmet seam and the middle vent hole of the dome in line with the rear helmet seam.

(2) **WO2s, NCOs, Marines, Musicians and Buglers.** A threaded gold-plated metal ball in a leaf cup on a dome base with closed vents. Worn iaw Para 4013.b sub para (1) above.

4014. Collar Badges

a. **Officers (General Officer).** An embroidered silver globe in gold braided laurel wreath (see Fig 40E-6) on high collar blue tunic. To be set centrally within the collar band, with the centre of the badge 50mm from the outside edge of the collar. A silver globe in anodised laurel wreath (see Fig 40E-5) is worn on 1AW Dress - Tropical Full Ceremonial Dress and the same badge all in bronze on lovats. Worn centrally on the step of the collar of lovat and stone prestige tunics.

b. **Officers (Colonel and Brigadier).** A silver globe in anodised laurel wreath (see Fig 40E-5) or the same badge all in bronze (the latter is only worn on lovat tunics). Worn centrally on the step of the collar of blue, lovat and stone prestige tunics. The badge is also worn on No. 1AW Dress - Tropical Full Ceremonial Dress.

c. **Officers (Lt Col and below) and WO1s.** A silver globe in anodised laurel wreath (see Fig 40E-11a) or the same badge all in bronze (the latter is only worn on lovat tunics). Worn centrally on the step of the collar of blue, lovat and stone prestige tunics (WO1s on blue tunics with badges set 4mm above the collar seam with the centre of the badge 50mm from the end of the collar). The badge is also worn on No. 1AW Dress - Tropical Full Ceremonial Dress. Worn in a miniature on each lapel of the mess jacket, both scarlet and white, with the centre of the badge 170mm below the neck point of the shoulder seam. On mess jackets, miniature medals are worn below the badge. On greatcoats, the badge is worn on the collar.

d. **WOs, NCOs Marines, Musicians and Buglers.** Metal globe and laurel badges on blue (see Fig 40E-11b) and lovat uniforms. On blue tunics the anodised badges are to be set 5mm above the collar seam with the centre of the badge 50mm from the end of the collar. On lovat tunics the bronze badges are to be worn centrally on the step of the collar, the bottom of the laurel wreath 5mm above the edge of the step. Worn in an anodised miniature version on each lapel of the mess jacket, both scarlet and white, with the centre of the badge 170mm below the neck point of the shoulder seam, by WO2s and SNCOs. On mess jackets, miniature medals are worn below the badge. Collar badges are not worn on other garments.

e. **RM Band Service Personnel**

(1) **No. 1 Dress – Ceremonial Blue Dress.** JNCOs, Musicians and Buglers wear embroidered yellow on scarlet collar badges on No. 1 Dress - Ceremonial Blue Dress. SNCOs wear braided gold on scarlet collar badges. To be set centrally within the collar band, with the centre of the badge 40mm from the end of the collar. Officers and WO1s wear solid silver globe in gold braided laurel wreath collar badges. To be set centrally within the collar band, with the centre of the badge 70mm from the outside edge of the collar.

(2) **No. 1 Dress – Ceremonial Blue Dress (Frockcoat Order).** Officers and WO1s wear solid silver globe in gold braided laurel wreath collar badges. To be set centrally within the collar band, with the centre of the badge 50mm from the outside edge of the collar. With the exception of officers and WO1s (Para 4014 sub para a), RM Band Service personnel do not wear collar badges on No. 1AW Dress - Tropical Ceremonial Dress.

f. **SBS Badged Personnel.** SBS badged personnel including SBS(R) personnel qualified Sabre Squadron Ready wear the metal SBS badge on lovat tunics. Officers and SNCOs wear a miniature SBS badge on each lapel of the mess jacket, with the centre of the badge 170mm below the neck point of the shoulder seam.

4015. Corps Badge (Mess Dress for General Officers, Brigadiers and Colonels)

The Corps badge (globe, laurel, lion and crown, battle honour 'Gibraltar', fouled anchor and Corps motto 'Per Mare Per Terram'), embroidered in gold, is worn by Colonels and above on each lapel of the mess jacket, both scarlet and white, with the centre of the globe 230mm below the neck point of the shoulder seam. On white jackets the badge is to be mounted on Velcro to permit removal when the jacket is washed. Miniature medals are worn above the badge. Miniature pilot's wings (if entitled) are worn above the miniature medals.

4016. Letters 'RM' and Corps Pattern Belt

a. **Block Letters (Size 13mm - Anodised or Bronze).**

(1) Worn in the centre of the shoulder straps below badges of rank and 10mm above the shoulder seam. Worn with all forms of No. 1 Dress, 2C, 3A, 3AW, and 3BW dresses. Not worn on raincoats, on General Officers high colour blue tunic or Band and Buglers' No. 1 Dress - Ceremonial Blue Dress.

(2) Badged SBS and Sabre Squadron Ready SBS(R) personnel wear the bronze letters SBS in place of RM in the centre of the shoulder straps below badges of rank and 10mm above the shoulder seam of the lovat suit.

b. **Corps Pattern Belt.** Worn with the leather buckle on left hip and silver buckle adjusted to fit centrally.

4017. Rank Badges

a. **Officers.** Rank badges are worn on the chest or shoulder straps, where fitted. On the mess jackets of officers below Colonel they are worn on both lapels, 5mm above the Corps badge.

(1) The following type of rank badges will be worn in the order of dress shown:

Bronze	No 1B Lovat Dress. No 1C Lovat Undress. No 3A Half Lovats.
Black on Olive Green	No 3C Half Lovats 3B and 3D Training Rig, 3E CU20 Field Uniform.
	No 4 and 4A Combat Dress.
Sand on MTP	No 4 Combat Dress for Operations (if directed by an operational theatre commander).
Anodised	Remaining orders of dress.

(2) The badges to be worn are as follows:

Second Lieutenant	Star
Lieutenant	2 Stars
Captain	3 Stars
Major	Crown
Lieutenant Colonel	Crown above 1 star
Colonel	Crown above 2 stars
Brigadier	Crown above 3 stars
Major General	Star above crossed sword and baton
Lieutenant General	Crown above crossed sword and baton
General	Crown above star above crossed sword and baton
Captain General (HM King Charles III)	Crown above crossed batons surrounded by a laurel wreath

(3) The devices, as in Para 4017 sub para a, above, are Army pattern. The sword and baton device reversed for right and left shoulders, with the point of the sword to the front in each case. Stars and crowns are to be 16mm size, except on the mess jacket of officers below Colonel, where they are to be 13mm. 13mm anodized miniature badges are also used by Colonels and above on white mess jackets. Crossed sword and baton badges worn on greatcoats, blue tunics, lovat tunics and stone tunics are to have batons which are 40mm long. White mess jackets are to have batons which are 33mm long. Army pattern crossed sword and baton of 48mm long worn on Army greatcoats are not worn by RM Generals. The distance apart of the devices is to be 5mm.

b. **WOs.** Rank badges are worn on the lower right arm only, except where Commando Uniform 20 (CU20) and Personal Clothing System Combat Uniform (PCS CU) Combat Jackets and Windproof Smocks are worn, badges are worn on the chest.

c. **SNCOs and Marines.** Rank badges are worn on the upper right arm only, except as follows:

(1) **Blue Greatcoat.** Gold on red - lower right arm only.

(2) **Commando Uniform 20 (CU20) and PCS CU Shirt, Combat Jacket and Windproof Smock.** Rank slide worn on chest.

d. A table showing details is at Annex 40D.

4018. Good Conduct Badges

a. 'V' shaped stripes, 13mm wide, 127mm across top. Worn point upwards on the left arm with the inner angle of the lowest stripe 7mm above the point of the sleeve slash on the regimental blue and stone tunics.

b. Good Conduct Badges are only to be worn by Marines, Musicians and Buglers and then only on the regimental blue and stone tunics. They are not worn on Musician and Bugler full dress blue or white ceremonial tunics.

4019. Branch, Specialist Qualification, Skill, and Special Badges

a. The category, description and wear of Branch, Specialist Qualification, Skill and Special badges is shown in Annex 40D.

b. **Stars and Crowns.** Stars and crowns are added to the basic specialist qualification badges to indicate the classes of qualification, as follows. When there are letters as part of the basic device, the letters are placed below the star.

(1) **Instructor.** Crown above basic device and two stars below.

(2) **First Class.** Crown above basic device.

(3) **Second Class.** Star above and star below basic device.

(4) **Third Class.** Star above basic device.

For a period of time, all classes of SQ wore the same basic device without crowns and stars. Uniforms with this basic device do not need to be altered.

c. **Badges Awarded During Former Service in RN, Army or RAF.** Badges from previous service are not to be worn unless they are badges currently authorised for wear by RM WOs, NCOs and Marines; provided also that the privilege of wearing the badge has not been withdrawn.

d. **RM Provost Armlets.** The ‘MP’ armband, as provided for the Royal Military Police, is to be worn immediately above the right elbow. When chevrons are worn on the upper arm, the armband should just cover the lower point of the bottom chevron, with the letters ‘M’ and ‘P’ on either wide of the apex of the chevron. When wearing CU20, a small black on red ’MP’ Velcro patch is worn on the right sleeve in place of a formation patch.

e. **Unit Police Armlets.** Ranks on unit police duties are to wear the authorised armlet (‘NP’, ‘RP’ or ‘RMP’ as appropriate) on the left sleeve immediately above the cuff of the tunic of greatcoat, or in a similar position on other uniform garments. The armlet is worn on the left wrist when long-sleeved garments are not worn.

f. **Flying Badges.** RN pilot’s wings, comprising gold embroidered wings extended behind a silver foul anchor with a crown above with a laurel wreath, are to be worn by all entitled personnel, including all RM personnel who qualified after 1996 via the Defence Elementary Flying Training School. Prior to the institution of Joint Services Flying Training, trainee pilots were awarded wings by the Service whose course they attended: pilots awarded Army or RAF wings may wear these instead of RN wings. The badge is worn as follows (but not with Commando Uniform 20 (CU20)):

(1) **Blue, Lovat and Stone Tunics and Stone Shirts.** Centrally 65mm above the top row of medal ribbons, or if no medal ribbons are worn, 65mm above the left breast pocket.

(2) **Mess Jackets.** For Lt Cols and below, flying badges are to be worn immediately below the globe and laurel badge on the left lapel, miniature

medals being lowered accordingly. The exception is that officers of Colonel's rank and above wear their wings above their miniature medals, which are worn above the Corps Badge.

(3) **PCS CU Combat Jackets and Windproof Smock.** Worn in approximately the same position as on blue, lovat or stone tunics, although these items do not have pockets.

g. **Parachutist Badge.** The Army pattern parachutist badge, a parachute with wings, should be worn on the right arm 50mm below the shoulder seam, by personnel who are qualified parachutists, as follows:

(1) **Blue and White Tunics.** The full-sized badge in gold on extra dark navy blue. On white tunics the badge is to be mounted on Velcro to permit removal for washing.

(2) **Lovat Tunics.** A two-thirds size badge in gold on green.

(3) **Mess Jackets.** The miniature badge (length 51mm, height 20mm) gold on scarlet. On white mess jackets the badge is to be mounted on Velcro to permit removal for washing.

(4) **Stone Tunics and Shirts.** The full-sized badge in light blue/white on khaki drill.

(5) **Commando Uniform 20 (CU20) and PCS CU Shirts, Combat Jackets and Windproof Smock.** Only the small black on green Velcro parachute badge is to be worn with CU20 (see Fig 40A-11c). The full-sized black on green badge is worn with PCS CU. If black on green badges are not available, the full-sized badge in light blue/white on khaki drill may be worn as an alternative. Foreign parachute wings may be worn just above the top right breast pocket on PCS CU, not on CU20, but only when serving with the Armed Forces that awarded the wings.

h. **King's Badge and Prince's Badge.** The King's Badge and Prince's Badge are to be worn on all orders of dress, including PCS CU, on the left arm, 50mm below the shoulder seam. A smaller Velcro badge is worn with CU20. The colours vary according to the order of dress, as follows:

(1) **Blue Tunics.** The full-sized badge in gold on extra dark navy blue.

(2) **Lovat Tunics.** A two-thirds size badge in gold on green.

(3) **Mess Jackets.** A two-thirds size badge in gold on scarlet.

(4) **Stone Tunics and Shirts.** The full-sized badge in khaki on khaki drill.

(5) **PCS CU Combat Jackets and Windproof Smocks.** The full-sized badge in black on olive green.

(6) **Commando Uniform 20 (CU20) Shirt and Jacket.** The reduced Velcro badge in black on olive green.

i. **The Commandant General's Shooting Badge.**

(1) The Commandant General's Badge is to be worn by RM personnel who represent the Royal Marines at the Defence Operational Shooting Competition (DefOSC) or equivalent overseas events assessed as eligible by the RNRA, for example Exercise LongShot.

(2) The Commandant General's Badge is a specialist badge to be worn centred on left sleave 6 mm above peak of cuff detail or 6mm above good conduct badges if worn. Unlike other specialist badges, the badge is to be worn by Officers and Warrant Officers who have achieved the high standards required.

j. **Royal Marines Commando Flashes.**

(1) All Royal Marines who have completed the Commando Course are to wear a red on extra dark navy blue 'ROYAL MARINES COMMANDO' flash on both sleeves of the jersey wool heavy. The flash is to be sewn centrally with its upper edge touching the shoulder seams.

(2) A black on green 'ROYAL MARINES COMMANDO' flash is to be worn by all RM Commando trained personnel on both sleeves of all PCS CU combat jackets and windproof smocks. The flash is to be sewn centrally with its upper edge touching the shoulder seam (see Fig 40A-10e).

(3) An oblong Velcro red on extra dark navy blue 'ROYAL MARINES COMMANDO' flash is to be worn by all RM Commando trained personnel on both sleeves of all CU20 shirts and jackets (see Fig 40A-11c).

k. **Royal Marines Band Service Flashes.**

(1) All RM Band Service personnel are to wear a red on extra dark navy blue 'ROYAL MARINES BAND SERVICE' flash on both sleeves of the jersey wool heavy and maternity cardigan. The flash is to be sewn centrally with its upper edge touching the shoulder seam.

(2) A black on green 'ROYAL MARINES BAND SERVICE' flash is to be worn by all RM Band Service trained personnel on both sleeves of all PCS CU combat jackets and windproof smocks. The flash is to be sewn centrally with its upper edge touching the shoulder seam.

l. **'Royal Band' Flash.** All Musicians and Buglers (including the Director of Music Bandmaster (WO1/WO2), Corps Drum Major/Drum Major, Corps Bugle Major/Bugle Major and Buglers) of RM Band Portsmouth wear a 'ROYAL BAND' shoulder flash, in appropriate colours, on the upper right sleeve of all uniforms (replacing the Royal Marines Band Service Badge on the jersey wool heavy/maternity cardigan). The badge is to be sewn centrally with its upper edge 20mm below the shoulder seam.

m. **Special Boat Service Parachutist's Badge.** The appropriate SBS pattern parachutist's wings should be worn on the right arm 50mm below the shoulder seam, by personnel qualified as follows:

(1) **Badged SBS.** On completion of the SF Parachute Course.

(2) **SBS(R).** On successful completion of the JSF Selection Hills Phase and completion of the SF Parachute Course.

n. **Special Forces Communicators' Parachutist's Badge.** SF Communicators pattern parachutists' wings should be worn on the right arm 50mm below the shoulder seam, by personnel qualified on successful completion of the Special Forces Communications Course and the SF Parachute Course. These wings are only awarded by the CO SBS.

o. **HUMINT Operator's Badge and Stable Belt.**

(1) The HUMINT badge, a gold trident on a black 'kite' background for Op SAMSON and a silver trident on a black 'kite' background for Op METIS, is to be worn on the left forearm above warrant officer rank (approximately 165mm from the cuff). It is only to be worn on No1A Regimental Blue Dress.

(2) The HUMINT Stable Belt with brushed-bronze locket is worn by all ranks qualified as HUMINT Operators whilst in service at the DHU and wider Defence Intelligence HUMINT tied positions only.

p. **Background and Attachment of Badges.** The instructions in Chapter 39 regarding Naval ratings' badges are also applicable, as far as appropriate, to Royal Marines badges.

q. **Formation Badges on Combat Dress.** Formation flashes are to be worn on the right sleeve patch of CU20 and PCS CU shirts, combat jackets and windproof smocks by personnel serving in those formations (see Figs 40A-10e and 40A-11c), as follows:

(1) **3 Commando Brigade RM Formation Badge.** When serving with 3 Cdo Bde RM, all personnel are to wear a black 'Commando Fighting Knife' badge on a green background on the right sleeve of CU20 and PCS CU combat jackets and windproof smocks. It is to be worn centrally on the Velcro patch provided on the upper arm.

(2) **Amphibious Assault Badge.** A black on green formation badge comprising the old Combined Operations device (anchor, eagle and rifle (pointing forwards)) surrounded by a circle, itself surrounded by the words 'Amphibious Assault' is to be worn centrally on the Velcro patch provided on the upper arm of the right sleeve of CU20 and PCS CU shirts, combat jackets and windproof smocks by personnel serving in the following units:

(a) Assault Squadrons RM of HM Ships.

(b) COMUKLS Staff.

(c) Royal Marines serving on FOST Staff.

r. **RN Tactical Ensign.** A black on green Velcro RN Ensign is to be worn centrally on the upper left arm and on the bottom of the Velcro patch (CU20 shirt) – see Fig 40A-10e and Fig 40A-11c. On the CU20 utility jacket, the placement of the lower badge is to have the top edge lined with the stitched cross on the Velcro – see Fig 40A-11k.

4020. Buttons

a. **Corps Button.** The Corps button is a raised round button, anodised or bronze. At the centre is a fouled anchor under a crown surrounded by a double rim enclosing the words 'Royal Marines', and this in turn surrounded by a laurel wreath. In two general sizes - 25mm and 18mm: the smaller button for pockets and shoulder straps. In addition, there are special 20mm buttons for use only by General Officers. All buttons are to face upwards with shoulder strap buttons orientated to face forwards on all uniforms.

b. **Lion and Crown Button.** The Lion and Crown button is a raised round gilt button with a mounted lion and crown in silver. It is worn on peaked caps, blue field service caps (an optional item), mess jackets and mess waistcoats.

4021. Remembrance Poppies

RBL red paper poppies should be worn behind the beret cap badge from 1 November until 2359 on 11 November or until 2359 on Remembrance Sunday when this is later than 11 November. Those ranks who cannot wear a poppy behind the cap badge are to wear one on the left chest. When wearing a peaked cap, the poppy is worn on the left side behind the button. Enamel poppies are not to be worn with any RM uniform.

SECTION 3 - AIGUILLETTES, CYPHERS AND LANYARDS

4022. Aiguillettes

a. Naval type aiguillettes are to be worn by the following Royal Marines officers in the same manner as prescribed for Naval officers (see Para 3913) and with equivalent dresses:

(1) ADCs to The Sovereign, Equerries and Extra Equerries to The Sovereign, or to other members of the Royal Family, and ADCs to Governors General.

(2) ADC to CGRM; officers specifically appointed as Flag Lieutenant to officers of Flag rank or Commodores; or as ADC or Military Assistant to officers of Flag, General or Air rank where the post is allowed by establishment; or as ADC to a Governor or Lieutenant Governor.

(3) Personal staffs of all members of the Defence Council and VCDS.

b. Officers at Para 4022.a.(1) wear aiguillettes as for ADCs to The Sovereign ('Palace' type) and those at Para 4022.a.(2) as for Flag Lieutenants ('Staff' type). Aiguillettes are only worn when the wearer is on the business that carries the entitlement. For example, it is inappropriate for a captain ADC to CGRM to wear his aiguillettes when attending a regimental dinner night without his general.

c. Aiguillette shoulder straps are not to be worn by Royal Marines officers. In Mess Dress, for officers below the rank of Colonel, the aiguillette is to be supported by a scarlet cloth shoulder strap of the same material as the jacket. In other dress, the shoulder strap of the garment is to be used, modified by the addition of a button to which the aiguillette cord is affixed.

d. Aiguillettes and the various accoutrements are issued on Individual Loan from the Uniform Clothing Store, HMS NELSON.

4023. Royal Cyphers

a. Royal Marines ADCs to The Sovereign, Equerries and Extra Equerries to The Sovereign are to wear the royal cypher and crown, in one piece, below their badges or rank; letters 'RM' are not worn. Equerries to other members of the Royal Family wear the cypher of that member in the same manner. In Mess Dress, Equerries and Extra Equerries wear the royal cypher and crown on shoulder straps of similar material. Cyphers are not worn on black on green rank badges.

b. The full-sized badge (35 x 35mm), in either dull silver metal or gilt metal, is worn as follows:

(1) **Dull Silver.** On full dress tunic, regimental blue tunic, blue greatcoat, scarlet mess jacket and white mess jacket.

(2) **Gilt Metal.** On stone tunic, stone bush jacket and stone shirt.

(3) **Bronze Metal.** On Lovat tunic.

c. Former ADCs to The Sovereign wear the badge similarly but in miniature (22 x 24 mm). ADCs to The Sovereign who vacate the appointment on promotion to the substantive rank of Major General are, however, to cease wearing the badge.

4024. Lanyards

a. **Lanyard, Blue, Officers' Pattern**. Braid of viscose rayon on cotton core. One end constructed with a loop closed with a Turk's head knot. Length of lanyard shall be no less than 800mm to be worn looped over the left shoulder. The running end is to be passed into the left side of the breast pocket and not allowed to hang loosely in a bight.

b. **Unit Lanyards.** Coloured lanyards are worn on the right shoulder in an ordinary loop with the running end passed directly into the right side of the breast pocket without forming a bight. All ranks on the posted strength of the following units are to wear a coloured lanyard with certain forms of dress as stated:

Unit	Lanyard Colour(s)
Office of the Commandant General	Maroon
Headquarters 3 Commando Brigade RM	Green
43 Commando Fleet Protection Group RM	Old gold on scarlet
Commando Logistics Regiment RM	Navy blue
Commando Helicopter Force	Light and dark blue
40 Commando RM	Light blue
42 Commando RM	White
45 Commando Group RM	Scarlet
Special Boat Service	Mid green, black and light blue
30 Commando Information Exploitation Group RM	Sand and green
47 Commando Raiding Group RM	Navy blue and scarlet
Royal Marines Reserve	Gold and green

ANNEX 40A

RM DRESS TABLES

1. 1A Dress - Regimental Blue Dress

a. Occasions for Wear.

(1) When receiving The Sovereign, other crowned heads or heads of state.

(2) When receiving royalty unless ordered to the contrary by the relevant senior officer.

(3) Full ceremonial state events as ordered.

(4) Inspections by Flag Officers and General Officers.

(5) Funerals, parades and other appropriate ceremonial events.

b. Description.

General Officers	Officers, WOs and SNCOs	Corporals and Marines
Cap (Note 2 and Note 9)	Cap/Wolseley pattern helmet (Note 2 and Note 3)	Cap/Wolseley pattern helmet (Note 2 and Note 9)
Blue high collar tunic (Note 10)	Blue tunic (Note 10)	Blue tunic
Blue trousers (Note 3)	Blue trousers (Note 3)	Blue trousers
White long-sleeved shirt	White long-sleeved shirt	Black socks
Black socks	Black tie (Note4)	Army pattern boots
Officer pattern boots	Officer pattern lanyard (Note 5)	White belt
General Officer's ceremonial sword	Black socks	Frog and bayonet (Note 6)
Crimson and gold sash	Officer pattern boots (Note 3)	Rifle (Note 6)
Gold shoulder cords	Sam Browne/WO sword belt/white belt/sash (Note 5)	Greatcoat (Note 1 and Note 2)
White gloves	Frog and bayonet (Note 6)	White gloves
Greatcoat (Note 1 and Note 2)	Sword/rifle (Note 6)	Braces
Braces	Greatcoat (Note1 and Note 2)	
	Gloves (Note 7)	
	Braces	

c. **Decorations/Medals.**

(1) Collar and/or broad riband.

(2) Up to 4 stars of orders.

(3) Up to 3 neck decorations.

(4) Medals.

d. **Rank Insignia.** See photographs at Annex 40D Para18 and Fig 40E-8.

Notes:

1. *Blue Corps pattern. Drawn from the loan pool in the RM Ceremonial Store at RMB Stonehouse. Greatcoat rank insignia photographed at Annex 40D Para 16. Blue tunics will not be worn under greatcoats, which will be worn with collars fastened up. RM Band Service follow the instructions in Annex 40G.*

2. *WP helmets and/or greatcoats to be worn when ordered.*

3. *Overalls, Wellington boots and silver spurs (i.e. Mounted Order) are no longer worn by Lt Cols and above, this includes Adjutants, Equerries, Military Assistants, Aides-de-Camp and Flag Lieutenants. All officers and WO1s wear officer pattern boots. WO2s and below wear Army pattern boots. Black shoes may be ordered in lieu of boots e.g. for indoor receptions or where paving/flooring is unsuitable for studded parade boots.*

4. *Officers only wear a tie. WO1s wear officer pattern lanyard.*

5. *Officers and WO1s wear a Sam Browne belt (highly waxed or polished in dark tan), which is always worn with a frog, whether carrying swords or not. WO2s wear a WO2's brown leather sword belt (highly waxed or polished in dark tan), and a scarlet sash. SNCOs wear a white belt with locket union and a scarlet sash. On certain occasions, e.g. indoor receptions, the senior officer may order that blue cloth belts are worn (usually without medals and gloves).*

6. *Swords/rifles are carried on parade or when ordered.*

(Continued)

Notes (Continued):

7. *WO2s, Drum and Bugle Majors on appointment and above wear brown cape gloves; the remainder wear white gloves. Gloves are normally worn on parade (all year round), when ordered and in winter. For those not on parade, gloves are not normally worn in summer (1 Apr to 30 Sep) and should normally be removed indoors.*

8. *For distinctions in RM Band Officers' Ceremonial Dress Uniform, see Para 4011 and Annex 40G.*

9. *Uniquely, the CTCRM King's Squad wear the peaked cap with the chin-stay down and a double white lanyard on the left shoulder. After the pass-out parade, the King's Squad, when ordered, may wear their green beret with blue dress on the day of the pass out parade only. On any occasion when peaked caps are worn, the relevant senior officer may order chin-stays to be worn down in high wind conditions, particularly afloat.*

10. *By exception, 4-Star Generals and Equerries to the Sovereign may wear a frock coat at appropriate events e.g. Royal Investitures.*

11. *For SBS No 1A Dress see Annex 40F.*

12. *When ordered, No 1A Dress (negative sword) may be worn without medals or gloves e.g. for Buckingham Palace garden parties and medal investitures.*

13. *When ordered, No 1A Dress (negative sword and Sam Browne/Sash) may be worn with cloth belt but without medals or gloves e.g. when a maritime or naval identity is required.*

2. 1B Dress - Lovat Dress

a. **Occasions for Wear.**

(1) Inspections by Flag Officers and General Officers.

(2) Minor ceremonial occasions as an alternative to 1A Dress.

(3) Courts martial as appropriate.

(4) Other occasions as ordered.

b. **Description.**

Officers	WOs and SNCOs	Corporals and Marines
Beret (Note 1)	Beret (Note 1)	Beret (Note 1)
Lovat suit	Lovat suit	Lovat suit
Lanyards (Note 2)	Lanyard (Note 8 and Note 2)	Unit lanyard (Note 2)
Stone long sleeved shirt	Stone long sleeved shirt	Stone long sleeved shirt
Light khaki tie	Khaki drab tie	Khaki drab tie
Lovat/green socks (Note 7)	Socks combat general service	Socks combat general service
Sam Browne belt (Note 3)	Ceremonial belt/sash (Note 3)	White belt
Sword (Note 4)	Frog and bayonet (Note 4)	Frog and bayonet (Note 4)
Officer pattern boots	Sword/rifle (Note 4)	Rifle (Note 4)
Brown cape gloves	Army pattern/officer pattern boots (Note 5)	Army pattern boots
	Gloves (Note 6)	White gloves

c. **Decorations/Medals.**

(1) Up to 2 stars of orders.

(2) 1 neck decoration.

(3) Medals.

d. **Rank Insignia.** See photographs at Annex 40D Para 20.

Notes:

1. *Beret with anodized cap badge for Lt Cols and below. General Officers, Brigs and Cols wear embroidered Corps cap badge. The King's Squad wear peaked caps with chin-stay down.*

2. *Blue officer pattern lanyard is worn on the left shoulder by officers and WO1s. An appropriate unit lanyard is worn on the right shoulder by all ranks serving in an entitled unit.*

3. *Officers and WO1s wear a Sam Browne belt (highly polished or waxed in dark tan), which is always worn with a frog, whether with sword or not. WO2s wear a WO2's brown leather sword belt (highly polished or waxed in dark tan) and scarlet sash. SNCOs wear white belts and a scarlet sash.*

4. *Swords/rifles are carried on parade or when ordered if Lovat Dress is to be used as an alternative to No. 1A Blue Dress e.g. for unit parades commemorating Commando actions.*

5. *WO2s and below wear Army pattern boots. Black shoes may be ordered in lieu of boots e.g. for indoor receptions or where paving/flooring is unsuitable for studded parade boots.*

6. *WO2s, Drum and Bugle Majors on appointment and above wear brown cape gloves; the remainder wear white gloves. Gloves are normally worn on parade (all year round), when ordered and in winter. For those not on parade, gloves are not normally worn in summer (1 Apr to 30 Sep) and should normally be removed indoors.*

7. *Lovat coloured socks may be purchased, or socks combat general service worn.*

8. *WO1s wear light khaki tie and OP lanyard.*

9. *For SBS this uniform will be worn as No 1A Dress, as well as No 1B and No 1C Dress (SBS collar badges, SBS cap badge, SBS belt and SBS shoulder titles). See Annex 40F.*

4. 2A Dress - Formal Evening Dress 'Mess Dress'

a. Occasions for Wear.

(1) Official or public balls, dinners and evening receptions of a formal nature.

(2) Full ceremonial evening events.

(3) Evening dances and entertainment.

b. Description.

Lt Colonels and Above (Note 5)	Other Officers	WOs and SNCOs	Corporals and Marines
Cap	Cap	Cap	Cap
Scarlet mess jacket (Note 4)	Scarlet mess jacket	Scarlet mess jacket	Blue tunic
Blue mess waistcoat	Blue mess waistcoat	Blue mess waistcoat	Blue trousers
White Marcella shirt (Note 3)	White Marcella shirt (Note 3)	White Marcella shirt	Blue cloth belt
Black bow tie	Blue mess trousers (Note 1)	Blue trousers	Black shoes
Blues mess trousers	Black bow tie	Black bow tie	Medals
Black socks	Black socks	Black socks	*(Optionally, JNCOs may wear white shirt, blue trousers, red cummerbund and black bow tie for mess dinners etc.)*
Officer pattern shoes	Officer pattern shoes	Black shoes	

c. Decorations/Medals.

(1) Broad riband.

(2) Up to 4 stars of orders.

(3) One neck decoration.

(4) Miniature medals.

d. Rank Insignia. See photographs at Annex 40D Para 21.

Notes:

1. *Overalls, Wellington boots and silver spurs are no longer worn by Royal Marines Officers.*

2. *Civilian equivalent dress is White Tie or Black Tie with medals and decorations as above.*

3. *Stiff-fronted shirt and wing collar (Wing Collar Order) is worn instead by Royal Equerries/Aides-de-Camp if acting in a Royal Household role when so required by Buckingham Palace or the relevant Royal Household.*

4. *Cols and above wear medals above the embroidered RM badge. Lt Cols and below wear medals below the Globe and Laurel badge.*

5. *2A and 2B Mess Dress are the same for Lt Col and above.*

Black bow tie	Black bow tie	Black bow tie	Medals
Black socks	Black socks	Black socks	
Officer pattern shoes	Officer pattern shoes	Black shoes	

c. Decorations/Medals.

(1) Up to 2 stars of orders.

(2) One neck decoration.

(3) Miniature medals.

d. Rank Insignia. See photographs at Annex 40D Para 21.

Notes:

1. *Civilian equivalent is black tie with medals and decorations as above.*

2. *Peaked caps are not usually worn unless ordered to do so or by senior officer taking the salute. Blue RM field service caps (also known as side hats) are optional items that may be purchased by officers and worn in lieu of peaked caps with Mess Undress and Red Sea Rig. They are particularly recommended for wear at sea in order to protect peaked caps from damage or dirt from low deckheads.*

(Continued)

Notes (Continued):

3. *A kilt with sporran, kilt pin, long stockings, dirk and highland evening shoes may be worn by personnel in place of blue mess trousers, black socks and black shoes. Alternatively, appropriate tartan trews may be worn.*

4. When ordered, JNCOs *may, optionally, wear a plain white long-sleeved shirt, blue trousers, scarlet cummerbund and black bow tie in lieu of Regimental Blues for mess dinners etc.*

5. *Cols and above wear medals above the embroidered RM badge. Lt Cols and below wear medals below the Globe and Laurel badge.*

6. *Lt Cols and above may wear a discontinued RM Band cloak in inclement weather.*

6. 2C Dress - Informal Evening Dress 'Red Sea Rig'

a. **Occasions for Wear.** Informal evening uniform in ships and establishments.

b. **Description.**

Officers	WOs and SNCOs	Corporals and Marines
Peaked cap or blue field service cap (Note 2)	No. 3A Shirt Sleeve Order Lovat Dress is to be worn	No. 3A Shirt Sleeve Order Lovat Dress is to be worn
Shoulder rank boards (Note 1)	Desert boots when ordered	Desert boots when ordered
White short sleeved shirt with epaulettes	Unit lanyard to be worn	Unit lanyard to be worn
Red cummerbund		
Blue trousers (Note 3)		
Black socks		
Black officer pattern shoes		

c. **Decorations/Medals.** None.

d. **Rank Insignia for Officers.** See photographs at Annex 40D Para 22.

Notes:

1. *White shoulder boards (privately purchased) with anodized rank badges are optional. Alternatively, anodized rank badges should be worn on a white slide fitted over the epaulette.*

2. *Blue RM field service caps (also known as side hats) are optional items that may be purchased by officers and worn in lieu of peaked caps with Mess Undress and Red Sea Rig. They are particularly recommended for wear at sea in order to protect peaked caps from damage or dirt from low deckheads.*

3. *Not mess trousers. Blue day trousers that do not show rear points for braces above the cummerbund are to be worn. Officers may optionally purchase a pair of blue trousers in order to preserve their best trousers for wear in No 1A Dress (lightweight material is recommended in order that these trousers may also be worn in Red Sea Rig).*

Figure 40A-6a. Junior officer in No. 2C Dress (Red Sea Rig)

Figure 40A-6b. SNCO in No. 2C Dress

Figure 40A-6c. Cpl in No. 2C Dress

7. 3A Dress - General Duty Dress 'Half Lovats' (Shirt Sleeve Order)

a. **Occasions for Wear.** Semi-formal day rig worn in summer in headquarters, barracks and for day-to-day duties by personnel not involved in field training or manual work. Worn by all ranks as night clothing at sea in temperate climates although No.2C Red Sea Rig should be worn for appropriate formal functions when at sea. Worn by drill instructors for parade training. The recommended rig for Commanding Officer's orderly rooms and other minor regimental occasions in units.

b. **Description.**

Officers	WOs and SNCOs	Corporals and Marines
Beret/Cap (Note 1)	Beret (Note 1)	Beret/Cap (Note 1)

c. **Decorations/Medals.** None.

d. **Rank Insignia.** See photographs at Annex 40D Para 23.

Notes:

1. *Beret with anodized cap badge for Lt Cols and below. General Officers, Brigs and Cols wear appropriate embroidered Corps cap badges. The King's Squad wear peaked caps with chin-stay down.*

2. *Collar worn open.*

3. *Barrack dress trousers, not from suit.*

4. *Worn in shoulder strap. Officers also wear bronze rank insignia in strap or on slides.*

5. *When Drill Order is ordered, officer pattern/Army pattern boots are to be worn in lieu for parade training. WO1s wear officer pattern shoes (or boots for Drill Order). When worn as night clothing at sea, desert boots should be worn.*

(Continued)

Notes (Continued):

6. *Corps pattern belt to be worn with leather buckle over the left hip and silver buckle adjusted to fit centrally. When Drill Order is ordered, ceremonial belts (Sam Browne, WO2 leather belt or white belt) are to be worn in lieu for parade training.*

7. *All ranks wear unit lanyard (right shoulder) where appropriate. Officers and WO1s also wear an officer pattern lanyard (left shoulder).*

8. *Mandatory for wear as dress of the day within Navy Command HQ and Staff College (course instructors and students).*

Combat socks	Combat socks	Combat socks
Boots (Note 5)	Boots (Note 5)	Boots (Note 5)
Belt (Note 6)	Belt (Note 6)	Belt (Note 6)

c. **Decorations/Medals.** None.

d. **Wearing of Badges on PCS CU.** See guidance relating to No. 4/4C/4T Dress.

Notes:

1. *With bronze badge.*

2. *Worn tucked inside combat trousers with sleeves rolled up above the elbow. Patches are always to be worn over the Velcro squares, which are never to be left uncovered. 'Royal Marines Commando' shoulder flashes are to be worn on both shoulders by entitled personnel. The RN Tactical Ensign is to be worn on the left arm patch. Personnel serving in entitled formations are to wear the appropriate formation flash on the right arm patch. Company logos are not to be worn. T-shirts are not to be worn underneath the PCS-CU combat jacket.*

3. *Black on green rank slides are to be worn.*

4. *Worn with elastics (not supplied) around top of boot.*

5. *One of the approved designs of brown combat boot is to be worn.*

(Continued)

Notes (Continued):

6. *PCS-CU web belt.*

7. *PCS-CU windproof smocks or waterproof clothing may be worn over this rig as ordered/required. Belts are not to be worn over windproof smocks. Windproof smock cords should be drawn tight.*

8. *Shirts may be worn outside of trousers when in tropical climates, as ordered.*

Figure 40A-8d. Cpl in No. 3B Dress (Windproof Smock Order)

9. 3C Dress - General Duty Rig 'Half Lovats' (Winter Order)

a. **Occasions for Wear.** Semi-formal day rig worn in winter in headquarters, barracks and for day-to-day duties by personnel not involved in field training or manual work. Worn by drill instructors for parade training. The recommended rig for Commanding Officer's orderly rooms and other minor regimental occasions in units.

b. **Description.**

Officers	WOs and SNCOs	Corporals and Marines
Beret (Note 1)	Beret (Note 1)	Beret (Note 1)
Stone long-sleeved shirt (Note 2)	Stone long-sleeved shirt (Note 2)	Stone long-sleeved shirt (Note 2)
Lovat trousers (Note 3)	Lovat trousers (Note 3)	Lovat trousers (Note 3)
Corps pattern belt (Note 6)	Corps pattern belt (Note 6)	Corps pattern belt (Note 6)
Lovat/combat socks/black socks	Lovat/combat socks/black socks	Lovat/combat socks/black socks
Jersey wool heavy (Note 7)	Jersey wool heavy (Note 7)	Jersey wool heavy (Note 7)
Officer pattern shoes (Note 4)	Black shoes (Note 4	Black shoes (Note 4)

c. **Decorations/Medal.** None.

Notes:

1. *Beret with anodized cap badge for Lt Cols and below. General Officers, Brigs and Cols wear appropriate embroidered Corps cap badges. The King's Squad wear peaked caps with chin-stay down.*

2. *Collar worn open.*

3. *Barrack dress trousers, not from suit.*

4. *When Drill Order is ordered, officer pattern/Army pattern boots are to be worn in lieu for parade training. WO1s wear officer pattern shoes (or boots for Drill Order).*

5. *Corps pattern belt to be worn through lovat trouser belt loops with leather buckle over the left hip. When Drill Order is ordered, ceremonial belts (Sam Browne, WO2 leather belt or white belt) are to be worn additionally over the jersey wool heavy for parade training.*

6. *Mandatory for wear as dress of the day within Navy Command HQ, Staff College (course instructors and students).*

7. *The jersey wool heavy may require a piece of string/cord inserted into the collar to ensure it remains tight and smart.*

Figure 40A-10f. No. 3D Dress (Jersey Wool Heavy Order)

11. 3E Dress - Commando Uniform 2020 (CU20)

a. **Occasions for Wear.** Informal day rig worn in camp as dress of the day in barracks and for day-to-day duties when engaged on military training or working party tasks. Dress standards will vary dependent upon the nature of the task and environmental conditions. CU20 garments, except for waterproofs, will not be worn in a 'mixed rig' configuration with PCS shirts, trousers, belt or combat jacketbookmark://_bookmark40/. CU20 (Field and Combat), however, may be worn interchangeably when justified by operational/tactical-training requirements. **Note:** CU20 will equate to RN dress number 3 and 4 as the principle daily working rig for all RM ranks (RNTM 04-008/20 dated 10 Nov 20 refers).

b. **Description.** CU20 is distinct from PCS: it uses the Multicam pattern as opposed to PCS which incorporates Multi Terrain Pattern but it retains a similar colour palette and similar shapes. CU20 has improved durability; improved drying time; improved ergonomics; and improved interoperability. Personnel not entitled to CU20 will continue to wear PCS, incorporating some amendments to insignia.

All Ranks
Beret (Note 1)
CU20 field shirt (Notes 2-5)
CU20 field trousers (Note 7)
CU20 utility jacket (Note 9)
Rank slides (Note 6)
Combat socks
Boots (Note 8)
Utility belt

c. **Decorations/Medals.** None.

d. **Wearing of Badges on CU20.** See Note 2.

Notes:

1. *With bronze badge.*

2. *Only CU20 insignia (including red on blue commando flashes, small para wings and reduced King's Badge) will be worn on CU20. Formation patches will only be worn on the right arm in lieu of the UK Commando Force dagger . CU20 insignia should be removed from CU20 items prior to laundering in order to prolong their usable life-span. Nothing should be sewn, glued or otherwise affixed to CU20. Insignia may be removed in tactical situations when ordered. As a principle, SQ badges will not be worn on CU20 unless there is a compelling justification. In cases where non-CU20 insignia do not fit, individuals should approach the relevant procurement authority.*

(Continued)

Notes: (Continued)

3. *RN Tactical Ensign. A black on green Velcro RN Ensign is to be worn centrally on the upper left arm and on the bottom of the Velcro patch (CU20 shirt) – see Fig 40A-10e and Fig 40A-11c. On the CU20 utility jacket, the placement of the lower badge is to have the top edge lined with the stitched cross on the Velcro – see Fig 40A-11k.*

4. *Shirts may be worn untucked in hot environments when ordered by the chain of command.*

5. *CU20 Shirts should not be worn over a t-shirt unless SME advice makes specific recommendation for environmental or other reasons.*

6. *CU20 can be worn with the Jersey Wool Heavy (JWH) but there will be no change to the insignia worn on the JWH.*

7. *Black on green rank slides are to be worn.*

8. *In-built trouser ties or elastic twisters will be used at the trouser 'cuffs' in all dress standards. Elastics will not be worn.*

9. *One of the approved designs of brown combat boot is to be worn.*

10. *The CU20 utility jacket may be worn over any combination of field tactical dress if prevailing conditions justify, the elastic draw cord is to be used.*

11. *PCS waterproof clothing may be worn over over any combination of field tactical dress if prevailing conditions justify.*

12. *The subdued RN Ensign patch is to be always worn on the left sleeve. For any loan service or service with other organisations, regardless of where they wear organisational patches; Royal Marines will only wear these on the right sleeve.*

Fleece (Note 2)	Fleece (Note 1 and Note 2)	PCS CU tropical combat trouser (Note 3)
PCS-CU combat trousers (Note 4)	PCS CU windproof smock (Note 2 and Note 8)	Combat socks
Combat socks	Windproof trousers	Belt (Note 5)
Rank slides (Note 7)	Rank slides (Note 7)	Rank slides (Note 7)
PCS CU windproof smock (Note 2 and Note 8)	Ski boots (Note 2 and Note 6)	
Combat boots (Note 3 and Note 6)	PCS CU windproof trousers	
Belt (Note 5)	Camouflage white smock and over-trousers (Note 1)	
Gloves (Note)	ECW gaiters	
	ECW glove assembly (Note 2)	
	Belt (Note 5)	

c. **Decorations/Medals.** None.

d. **Wearing of Badges on PCS-CU.** Badges are to be worn as follows:

(1) Black on green, but not CU20 red on blue, 'Royal Marines Commando' or 'Royal Marines Band Service' shoulder flashes are to be worn by entitled personnel at the top of the shoulder on both arms. They are to be sewn directly onto the following:

(a) Combat Jacket.

(b) Windproof Smock.

(c) UBAC Shirt.

(2) A black on green 'King's Badge' or 'Prince's Badge' is to be worn by entitled personnel immediately below the shoulder flash on the left arm of the combat jacket. It is to be sewn directly onto the combat jacket. Due to design constraints, these badges are not to be worn on windproof smocks or items of PCS CU other than the combat jacket.

(3) A black on green parachute wings qualification badge is to be worn by entitled personnel immediately below the shoulder flash on the right arm of the combat jacket. (Existing pattern badges may be worn until black on green parachute wings are issued.) It is to be sewn directly onto the combat jacket. This may be of regular, SF or SFC design as appropriate to the individual's qualification. Parachute wings may also be worn on windproof smocks when they are to be sewn onto the top pocket of the right arm blanking patch. Foreign parachute wings may be worn just above the top right breast pocket on combat uniforms, but only when serving with the Armed Forces that awarded the wings.

(4) Pocket blanking patches are provided to be worn over the Velcro squares on both sleeves of the combat jacket and windproof smock. The RN Tactical Ensign is to be worn centrally on the left arm and one of the following formation flashes is to be worn on the centre of the right arm blanking patch by personnel serving in relevant formations or units:

(a) **3 Cdo Bde RM units.** CU20 version of the 3 Cdo Bde RM formation flash (a black commando knife on a green background).

(b) **FOST and COMUKLS staffs.** Amphibious assault flash.

(c) **PJHQ staff.** PJHQ flash.

(5) Black on green pilot's badges may be worn by entitled personnel on the left breast of the combat jacket and the windproof smock.

Notes:

1. *As required/ordered. Beret worn with bronze cap badge.*

2. *Appropriate to environment.*

3. *One of the approved designs of brown combat boot is to be worn.*

4. *Waterproofs may be worn as ordered/required.*

5. *PCS-CU web belt.*

6. *Worn with elastics (not supplied) around top of boot.*

(Continued)

Notes: (Continued)

7. *Black on green rank slides are normally to be worn. However, if ordered by the theatre commander for operations, sand on MTP rank slides are to be worn in lieu.*

8. *Windproof smock cords should be drawn tight. Patches are always to be worn over the Velcro squares on the outermost garment, which are never to be left uncovered. 'Royal Marines Commando' shoulder flashes are to be worn on both shoulders by entitled personnel. Left arm patches are always to include the Union Flag at the top. Personnel serving in entitled formations are to wear the appropriate formation flash underneath the Union Flag on the left arm patch. Company logos are not to be worn.*

9. *Combat Dress may be worn with:*

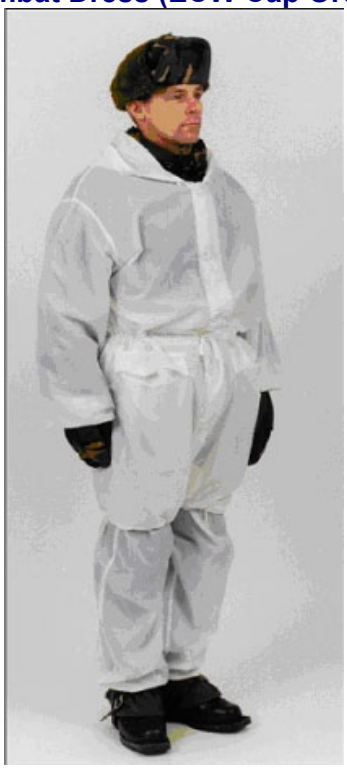
a. Fighting Order (web belt with pouches and yoke as ordered).

b. Patrol Order (Fighting Order plus daysack as ordered).

c. Marching Order (Fighting Order plus large pack as ordered).

Figure 40A-12a. Junior officer in No. 4 Combat Dress with beret

Figure 40A-12b. No. 4C Cold Weather Combat Dress (ECW Cap Order)



13. 4A Dress - Commando Uniform 2020 (CU20) Combat Dress

a. **Occasions for Wear.** CU20 Combat dress will be worn for Dismounted Close Combat training and operations. Dress standards will vary dependent on the nature of the task and environmental considerations. CU20 garments, except for waterproofs, will not be worn in a 'mixed rig' configuration with PCS shirts, trousers, belt or combat jacketbookmark://_bookmark40/. CU20 (Field and Combat), however, may be worn interchangeably when justified by operational/tactical-training requirements.

b. **Description.** CU20 is distinct from PCS: it uses the Multicam pattern as opposed to PCS which incorporates Multi Terrain Pattern but it retains a similar colour palette and similar shapes. CU20 has improved durability; improved drying time; improved ergonomics; and improved interoperability. Personnel not entitled to CU20 will continue to wear PCS, incorporating some amendments to insignia.

CU20 combat shirt (Notes 2-5)
CU20 combat trousers (Note 7)
CU20 utility jacket
Rank slides (Note 6)
Combat socks
Boots (Note 8)
Utility belt

c. **CU(Hot).** This paragraph provides guidance on the safe use of CU (Hot), a lightweight uniform designed to reduce heat injury in extreme environments but lacking no-melt/no-drip properties, which increases the risk of severe injury from fire or flash. CU (Hot) may be worn during embarkation, pre-disembarkation, and operations away from platforms (e.g., warships, boats, submarines, landing/raiding craft, and vehicles) only when the responsible commander determines that the risk of heat injury outweighs the risk of fire/flash injury, and after informing relevant platform commanders. It is not authorised for use by embarked military forces (EMF) on ships, boats, or submarines, nor for passengers on aviation platforms without Duty Holder approval. Use with partner forces must align with this UK policy. CU (Hot) use in environments with a credible or foreseeable fire/flash risk must first be risk assessed and accepted by the relevant commander, and all personnel must report safety impacts via MySafety to enable ongoing risk management. This policy ensures risks are managed in accordance with the dress state table below and reduced to ALARP. It does not alter existing Duty of Care or Duty Holding responsibilities.

d. **CU (Hot) dress state matrix table.**

Platform	Activity	Dress state
Warships and Boats, Royal Fleet Auxiliary, Submarines	Embarkation	CU (Hot) may be worn where the responsible commander[1] has deemed the risk of heat injury, greater than the risk of injury by fire / flash. Revert to EMF posture once embarked.
	EMF[2]	CU (Hot) not authorised
	Dis-embarkation	CU (Hot) may be worn pre-disembarkation and in discussion with the Ship's Captain, where the responsible commander has deemed the risk of heat injury, greater than the risk of injury by fire / flash.
	Operations away from platform[3]	CU (Hot) may be worn where the Operational[4] Commander has deemed the risk of heat injury, greater than the risk of injury by fire / flash. Ship's captain must be informed.
Landing or Raiding craft		CU (Hot) may be worn where the responsible commander has deemed the risk of heat injury, greater than the risk of injury by fire / flash. Craft commander must be informed.
Aircraft (Merlin Mk4 and Mk2, CH 47, Wildcat AH, Wildcat HMA)	Supernumerary crew	Dress state as directed by Aircraft Commander (who takes direction / policy from the relevant Duty Holder / Duty Holding chain)[5] CU (Hot) not authorised.
	Pax	CU (Hot) not authorised without Duty Holder approval.
Vehicles		CU (Hot) may be worn where the responsible commander has deemed the risk of heat injury, greater than the risk of injury by fire / flash.
IVO HAZMAT		No change to existing policy[6]
Partner forces		Use of CU (Hot) to be approved by responsible UK commander in line with the platform dress states set out in this RNTM.

Notes:

1. *PAM 21, Section 1 provides guidance on responsibilities associated with the Safe System of Work (SSoW). This guidance applies to all uses of the term 'responsible commander' to align RM risk management process with this issue.*

2. *IAW Ship state 1-3 detailed in BRd 2170, 'Action dress for EMF'.*

(Continued)

Notes: (Continued)

3. *Such as MIOPs as outlined in Ref BRd 167, Ch 23, para 2312.'warning statement.*

4. *The Operational Commander has the delegated authority to own the operational risk and move outside of the defined operating envelope only where there is an operational imperative to do so. JSP 815, annex C, para 12.*

5. *As per Joint Aviation Command FOB J2130.105.1*

6. *"Supervisors are to ensure that PPE is provided and worn, dependent upon a risk assessment based on the above-mentioned hazards". JSP 317, para 50 and (Ref B) JSP 375: Management of Health and Safety in Defence.*

e. **Decorations/Medals.** None.

f. **Wearing of Badges on CU20.** See Note 2.

Notes:

1. *With bronze badge.*

2. *Only CU20 insignia (including red on blue commando flashes, small para wings and reduced King's Badge) will be worn on CU20. Formation patches will be worn on the right arm and the RN Tactical Ensign will be worn on the left arm. CU20 insignia should be removed from CU20 items prior to laundering in order to prolong their usable life-span. Nothing should be sewn, glued or otherwise affixed to CU20. Insignia may be removed in tactical situations when ordered.*

3. *Shirts may be worn untucked in hot environments when ordered by the chain of command. Zips can be worn open or closed. Velcro cuffs should not be folded over.*

4. *CU20 Shirts should not be worn over a t-shirt unless SME advice makes specific recommendation for environmental or other reasons.*

5. *CU20 can be worn with the Jersey Wool Heavy (JWH) but there will be no change to the insignia worn on the JWH.*

6. *Black on green rank slides are to be worn.*

7. *In-built trouser ties or elastic twisters will be used at the trouser 'cuffs' in all dress standards. Elastics will not be worn.*

8. *One of the approved designs of brown combat boot is to be worn.*

(Continued)

Notes: (Continued)

9. *In cold environments, additional insulating layers are worn in accordance with personal issue and the tactical/environmental requirements. With the exception of a JWH, a Multicam or PCS outer is required at all times.*

10. *PCS waterproof clothing may be worn over this rig as ordered/required.*

	Light khaki tie		

c. **Decorations/Medals.**

(1) Collar and/or broad riband.

(2) Up to 4 stars of orders.

(3) Up to 3 neck decorations.

(4) Medals.

Notes:

1. *The following personnel are entitled to Tropical White Full Dress (Half Whites): certain overseas Defence Attachés and General Officers with their Military Assistants/Aides-de-Camp, as required, in exceptional circumstances. The uniform is normally only required for those required to attend major ceremonial occasions in tropical Commonwealth countries (e.g. ANZAC Day ceremonies in Canberra, Australia) and the USA. The uniform is to be routinely issued to the Commandant General Royal Marines and his personal staff and additionally to the Corps RSM.*

2. *All officers except General Officers wear white cloth shoulder straps and anodized badges of rank (Brigs to wear anodized badges of rank on white rank slide). General Officers wear gold embroidered shoulder boards. General Officers wear* solid silver globe in gold braided laurel wreath collar*. Brigs and below wear anodized officer pattern collar badges. General Officers wear 20mm RM anodized buttons. All others wear 25mm RM anodized buttons. Gold on extra dark navy badges may be worn mounted on Velcro patches by appropriately entitled personnel.*

3. *Except for the RM Band who wear white trousers, RM General Service personnel wear blues trousers with either officer pattern boots or black shoes, depending on the climate and the level of ceremonial event.*

(Continued)

Notes: (Continued)

4. *General Officers wear a General Officers' full-dress sword with Army No. 1 pattern General Officer's gold and crimson cord sword knot, metal scabbard, ceremonial sword belt assembly with long and short Army No. 1 pattern gold and crimson sword slings and gold and crimson waist sash. Brigs and Cols wear a RM (infantry) pattern sword with Army No. 2 pattern long gold cord sword knot, metal scabbard, ceremonial sword belt assembly with long and short Army No. 2 pattern sword slings and crimson sash. Other officers and WO1s wear a RM (infantry) pattern sword with Army No. 3 pattern gold ribbon sword knot (worn long for Lt Cols and above plus Equerries, ADCs and Adjutants or short for all others), metal scabbard, ceremonial sword belt assembly with long and short Army No. 3 pattern sword slings and crimson sash.*

5. *Helmet if ordered for wear on ceremonial parades.*

6. *White, or brown cape for officers and warrant officers (only when armed).*

7. *Blue officer pattern for officers and WO1s, plus unit lanyard.*

8. *WO1s wear Sam Browne belts. WO2s wear WO2 pattern brown leather sword belt and sword slings. WO2s and SNCOs wear scarlet sashes.*

9. *Stone Prestige Suits (Army No. 4 Dress) are issued to officers serving in staff appointments, as Defence Attaches or in ships' detachments. Stone Prestige Suits are not to be worn by officers on parade with troops: when on parade with troops, officers are to wear stone bush jackets.*

10. *Stone bush jacket suits are tri-service items also known as Army No. 6 Dress.*

ANNEX 40H

SPARE

ANNEX 40I

PROVISION OF TROPICAL DRESS UNIFORMS FOR ENTITLED ROYAL MARINES PERSONNEL

1. Introduction

In addition to CGRM and members of staff, RM personnel assigned to British Embassies and certain liaison posts in hot countries are entitled to an issue of tropical uniforms. These include; No. 1AW Dress (Tropical White Full Dress); No. 1BW Dress (Stone Prestige Suit Order); No. 2AW Mess (Tropical Mess Dress); and No. 3AW Dress (General Duty Dress 'Half Stones'). HMS NELSON provides these uniforms but cannot tailor them. Tailoring should therefore be undertaken by unit tailors or private military tailors.

2. Procedure

a. Entitled personnel should contact Viv Phillipson at HMS NELSON on Viv.Phillipson925@mod.gov.uk or Mil 9380 24319/Civ 02392 724319 at the earliest opportunity to request the required tropical uniforms and to book a fitting.

b. Once the uniforms have been provided, they can be tailored (e.g. uniform alterations plus the sewing on of badges, medal ribbons and gorget patches) by the individual's unit tailor at Crown expense.

c. Personnel serving in a unit that does not have tailoring facilities may submit uniforms to be tailored at a recognised military tailor of their choice (See Note), in line with standards directed within BRd 3(1) Ch 40 (RM Dress Regulations). In such cases, individuals will need to gain prior authorisation from their budget manager. They will be required to pay for the work and obtain a receipt before reclaiming the cost of tailoring via JPA Expenses in accordance with unit instructions.

3. NATO Store Numbers (NSNs)

To ease procurement of the tropical uniform listed above, the following may be useful.

Item	Description	NSNs
1	White high collar tunic	8405-99-225-9606
2	Stone prestige suit (tunic and trousers)	8405-99-130-7250 to 8405-99-130-7287 (depending on size)
3	White mess jacket	8405-99-851-1626
4	White waistcoat	8405-99-869-2349
5	Stone trousers (for No. 3AW Dress)	8405-99-977-7532 to 8405-99-977-7555 & 8405-99-132-8386 to 8405-99-132-8407 (depending on size)
6	Stone short sleeve shirts	8405-99-869-6160 to 8405-99-908-8257 (depending on size)
7	Stone socks	8440-99-908-8241 & 8440-99-908-8257 (depending on size)
8	Chukka boots	8430-99-241-6134 to 8430-99-241-6142 (depending on size)

Note. *In accordance with the Defence Logistics Framework: Clothing - Alterations and Repair.*

CHAPTER 41

ROYAL FLEET AUXILIARY OFFICERS AND RATINGS, AND STO(N) PERSONNEL SERVING IN RFAs

4101. Scale 1 - RFA Officers - Male Uniform Required on Initial Entry

a. **Entitlement to Scale.** The uniform outfit at sub para b is to be issued to all new entry RFA Officers.

b. **Basic Outfit**.

(1) **Items provided by means of a cash grant.**

	Scale	Notes
Epaulettes (shoulder boards) laced to Rank (+ infill if req'd)	1 pr	
Soft shoulder tabs laced to rank (+ infill if req'd)	2 prs	
Cash grant paid by RFA HR department		

(2) **Items provided by contract arrangement.**

	Scale	Notes
Male uniform No 1 laced to rank (+ infill if req'd) (Reefer jacket 8 RFA buttons)	1	
Male uniform No2 laced to rank (+ infill if req'd) (Mess jacket 6 RFA buttons + 2 link buttons, mess trousers)	1	
White mess jacket with eyelets to accept shoulder board epaulettes (No2BW) (+ 4 Medium size RFA Buttons and 2 Link Buttons)	1	

(3) **Items issued from Service stocks.**

	Scale	Notes
Bag, Travelling	1	
Bag, Day sack, black	1	
Belt, black uniform (for No3 trousers)	1	
Beret, officers, navy blue	1	
Cap, officers peaked, white plastic	1	
Cap badge, RFA officers	1	
Beret badge, RFA officers	1	
Cummerbund, officers black for No 2C (Red Sea Rig)	1	
Jacket, RN weatherproof, navy, to shoulder tabs	1	
Jumper, navy crewneck, uniform to accept shoulder tabs No 3C1	1	

(Continued)

	Scale	Notes
Shirt, tropical, short sleeve, uniform No 2C (with eyelets)	4	
Shirt, white, long sleeve, uniform No 3A (for soft shoulder tabs)	4	
Shirt, white, male Marcella mess dress	1	
Personal Clothing System (PCS) No 4	2 sets	
Shoes, black uniform	1	
Socks, black	4 prs	
Tie, officers black	1	
Tie, bow, black self-tie	1	
Trousers, black, No3 General Duty Rig	2	

c. **Tropical Outfit.**

	Scale	Notes
Jacket, bush, white, PV	1	
Trousers, white, PV	1	
Shoes, brown deck (for No 3CW dress)	1	
Shoes, white canvas (for No 3AW/3BW dress)	1	
Shorts, white	2	
Stocking, white	2	

d. **Personal Loan Items.**

	Scale	Notes
Personal Clothing System (PCS) No 4	2 sets	
Boots, DMS	1 pr	
Boots, combat assault	1 pr	Note 1
Boots, combat assault insoles	1	Note 1
Coveralls White		Note 2

Notes:

1. RFA Officers joining BRNC require Combat Assault Boots for various field training exercises.

2. 2 Pairs are required for (X) and (LS) Specialisation, 4 Pairs are required for (E) and (SE).

4102. Scale 2 - RFA Officers - Female Uniform Required on Initial Entry

a. **Entitlement to Scale.** The uniform outfit at sub para b is to be issued to all new entry RFA Officers.

b. **Basic Outfit.**

(1) **Items provided by means of a cash grant.**

	Scale	Notes
Beret badge, RFA officers	1	
Epaulettes (shoulder boards) laced to Rank (+ infill if req'd)	1 pr	
Soft shoulder tabs laced to rank (+ infill if req'd)	2 prs	
Cash grant paid by RFA HR department		

(2) **Items provided by contract arrangement.**

	Scale	Notes
Female uniform No 1 laced to rank (+ infill if req'd) (Reefer jacket and RFA buttons, skirt and trousers)	1	
Female uniform No 2 laced to rank (+ infill if req'd) (Mess jacket and RFA buttons, long full skirt and mess trousers)	1	
White mess jacket with eyelets to accept shoulder board epaulettes (No2BW) (+ 4 Medium size RFA Buttons and 2 Link Buttons)	1	

(3) **Items issued from Service stock.**

Beret badge, RFA officers	1	
Cummerbund, officers black for No 2C (Red Sea Rig)	1	
Hat, Tricorn, female officers	1	
Jacket, RN weatherproof, navy	1	
Jumper, navy crewneck, uniform to accept shoulder tabs No 3C	1	
Shirt, tropical, short sleeve, female officers uniform No 2C (with eyelets to accept epaulette shoulder boards)	4	
Shirt, white, long sleeve, female officers uniform No 3A (for soft shoulder tabs)	4	

(Continued)

	Scale	Notes
Shirt, white, female Marcella mess dress (for No 2B)	1	
Shoes, black court, female	1	
Socks, black	4 prs	
Tie, officers black	1	
Tie, bow, black self-tie	1	
Trousers, black, No3 General Duty Rig	2	
Personal Clothing System (PCS) (No 4)	2 sets	

c. **Tropical Outfit.**

	Scale	Notes
Shoes, brown deck (for No 3CW dress)	1	
Shoes, white canvas (for No 3AW/3BW dress)	1	
Shorts, white	2	
Skirt, female, white	1	
Stocking, white	2	
Jacket, bush, white, PV	1	
Trousers, white, PV	1	

d. **Personal Loan Items.**

	Scale	Notes
Personal Clothing System (PCS) (No 4)	2 sets	
Boots, DMS	1 pr	
Boots, combat assault	1 pr	Note 1
Boots, combat assault, insoles	1	Note 1
Coveralls White		Note 2

Notes:

1. RFA Officers joining BRNC require Combat Assault Boots for various field training exercises.

2. Pairs are required for (X) and (LS) Specialisation, 4 Pairs are required for (E) and (SE).

4103. Scale 3 - RFA Junior Ratings - Uniform Required on Initial Entry

a. **Entitlement To Scale.** The uniform outfit shown at sub para b. and sub para c. are to be issued to all new entry RFA Junior Ratings.

b. **Basic Kit.**

	Scale	Notes
Bag, travelling	1	
Day sack, black	1	
Badge, embroidered, name	6	
Beret, light blue, RFA	1	
Badge beret, RFA ratings, embroidered gold wire	1	
Jersey, H/W blue	1	
Shirt, PCS	2	
Trousers, PCS	2	
Socks, thick, black	4	
Jacket, weatherproof	1	
Trousers, working, polyester	1	
Belt, waist, black	1	
Shirt, white, short sleeve	2	
Tie, black	1	Note 1
Shirt, white, collar-attached	1	Note 2
Shorts, PT, blue	1	
Shirt, PT, blue	2	
Shoes, fitness	1	
Socks, white	2	

c. **Personal Loan Items.**

	Scale	Notes
Boots, DMS	1	Note 8
Coveralls, blue	1	

d. **Tropical Outfit (issued on first occasion of need).**

	Scale	Notes
Shoes, boat	1	
Shorts, blue	2	
Stockings, blue	2	

e. **Additional Items for Certain Ratings.**

(1) **RFA Seaman Grade 2**:

	Scale	Notes
Shoes, black, leather, DMS	1	Note 3

(2) **RFA Steward.**

	Scale	Notes
Shirt, white, short sleeve	1	Note 4
Shoes, black, leather, DMS	1	Note 4

(3) **RFA Cooks.**

	Scale	Notes
Shoes, black, leather, DMS	1	Note 5
Jacket, food handlers	6	Note 5
Neckerchief	6	Note 5
Trousers, food handlers	4prs	Note 5
Apron, food handlers	6	Note 5
Cap, food handlers	4	Note 5

(4) **RFA Motor Men 2.**

	Scale	Notes
Shoes, black, leather, DMS	1	Note 6
Shorts, PT, blue	1	Note 6
Shirt, PT, blue	2	Note 6
Shoes, fitness	1	Note 6
Socks, white	2	Note 6
Coveralls, blue	1	Note 7

Notes:

1. For wear with No1 dress loaned to individuals from RFA sources on ceremonial occasions.

2. For wear with No1 dress loaned to individuals from RFA sources on ceremonial occasions.

3. To be issued by HMS Raleigh.

4. To be issued by HMS Raleigh.

5. To be issued by HMS Raleigh.

6. To be issued by HMS Sultan.

7. To be issued by HMS Sultan, in addition to the original pair issued at HMS Raleigh.

8. Ratings who routinely work in wet conditions may, at the LO's discretion, be issued with an extra pair of DMS boots, issued on individual loan (S95).

4104. Scale 4 - RFA Senior Ratings - Uniform Required on Promotion to Petty Officer

a. **Entitlement to Scale.** The uniform outfit shown at sub para b. and sub para c. are to be issued to all RFA Ratings on promotion to Petty Officer.

b. **Basic Kit.**

	Scale	Notes
Cap, white, detachable top	1	
Tie, black	1	
Shirt, white, collar-attached	2	
Shirt, white, short sleeve	4	

c. **Tropical Outfit (issued on first occasion of need).**

	Scale	Notes
Shirt, white, short sleeve	2	
Shorts, white	2	
Stockings, white	2	

***Note**. Cap and beret badges, RFA Petty Officers, are obtained through RFA PERS.*

4105. Scale 5 - Male Non Industrial Civilians Appointed to RFAs and Wearing Officer Pattern Uniform

a. Basic Outfit.

	Scale	Notes
Blue barathea undress uniform suit with green distinction cloth, laced for Lt Cdr/Cdr	1	
Only to be issued to Band C1s and C2s		

b. Items provided by Contract Arrangement.

	Scale	Notes
Jacket, mess, white PV	1	Note 1
Clothing store to issue RN buttons and link		

c. Items Issued from Service Stocks.

	Scale	Notes
Badge beret	1	
Badge cap	1	
Belt, waist black	1	
Belt, waist white	1	Note 1
Beret, blue	1	
Boots, DMS	1pr	
Cap, plastic/Cap plastic detachable top (C1s only)	1	
Cummerbund, black	1	
Jacket, Wet Weather	1	
Jersey, H/W blue	2	
Shirt, evening collar attached	1	
Shirt, PCS, heavyweight	2	
Shirt, PCS, lightweight	2	
Shirt, white collar attached	4	
Shirt, white short sleeve	6	
Shoes, black leather, leather soles	1pr	
Shoes, black leather, slip resistant soles	1pr	
Shoes, boat	1pr	
Shoes, white	1pr	Note 1
Shorts, blue	2	
Shorts, white	6	Note 1

(Continued)

	Scale	Notes
Socks, thin black	4prs	
Socks, thick black	2prs	
Socks, white	2prs	Note 1
Stockings, white	6prs	Note 1
Tie, black polyester	2	
Tie, evening double ended	1	
Trousers, PCS	2prs	
Trousers, working polyester	3prs	
Trousers, white, PV	2prs	Note 1
Bush Jacket	2	Note 1
Belt buckles	2	Note 1
Belt hooks	2	Note 1
Operational travel bag	1	

Notes:

1. To be issued to STO(N) (Band C1), DSTO(N) (Band C2), Band D and E1 on first occasion of need i.e. only when deploying to hot climates and when the CO`s direction/expectation is that all ship`s officers will be required to wear 1CW dress when appropriate.

4106. Scale 6 - Female Non Industrial Civilians Appointed to RFAs and Wearing Officer Pattern Uniform

a. Basic Outfit.

	Scale	Notes
Blue barathea undress uniform suit with green distinction cloth, laced for Lt Cdr/Cdr	1	
Only to be issued to Band C1s and C2s		

b. Items provided by contract arrangement.

	Scale	Notes
Bush Jacket	2	Note 1
Skirt, white	2	Note 1
Jacket, mess, white PV	1	Note 1
Clothing store to issue RN buttons and link		

c. Items issued from Service stocks:

	Scale	Notes
Badge beret	1	
Badge cap	1	
Belt, waist black	1	
Belt, waist white	1	Note 1
Beret, blue	1	
Boots, DMS	1pr	
Hat, tricorne	1	
Cummerbund, black	1	
Jacket, Wet Weather	1	
Jersey, H/W blue	2	
Shirt, evening collar attached	1	
Shirt, PCS, heavyweight	2	
Shirt, PCS, lightweight	2	
Shirt, white collar attached	4	
Shirt, white short sleeve	6	
Shoes, black leather, leather soles	1pr	
Shoes, bleck leather, slip resistant soles	1pr	
Shoes, boat	1pr	
Shoes, white, court	1pr	Note 1
Shorts, blue	2	

(Continued)

	Scale	Notes
Shorts, white	6	Note 1
Socks, thin black	4prs	
Socks, thick black	2prs	
Socks, white	2prs	Note 1
Stockings, white	6prs	Note 1
Tie, black polyester	2	
Tie, evening double ended	1	
Trousers, PCS	2prs	
Trousers, working polyester	3prs	
Trousers, white, PV	2prs	Note 1
Belt buckles	2	Note 1
Belt hooks	2	Note 1
Operational travel bag	1	

Notes:

1. To be issued to STO(N) (Band C1), DSTO(N) (Band C2), Band D and E1 on first occasion of need i.e. only when deploying to hot climates and when the CO`s direction/expectation is that all ship`s officers will be required to wear 1CW dress when appropriate.

4107. Scale 7 - Industrial Male and Female DES/Partner Company Industrial Personnel Serving in RFAs

a. **Basic Outfit.**

b. **Items issued from Service stocks.**

	Scale	Notes
Boots, DMS	1pr	
Coverall, blue	2	
Jacket, windproof	1	
Jersey, H/W blue	2	
Shirt, AWD, heavyweight	2	Note 1
Shirt, AWD, lightweight	2	Note 1
Shorts, blue	3	
Socks, thin black	4prs	
Trousers, AWD	3prs	
T-shirt, white	4	
Operational travel bag	1	

Notes:

1. Retain your Kit Book for future use, if you require to exchange clothing on a one for one basis or if you go afloat in the future, you will need this document.

4108. RFA Personal Clothing System (RFA PCS)

a. **Background.** RFA PCS replaces the No 4 (AWD) uniform. No 4 (PCS) is a layered system for multi-climate wear.

b. **Occasions For Wear.**

(1) Action working dress.

(2) Daily working rig at sea.

(3) Daily working rig alongside for JRs, and Officers/SRs when required.

(4) Daily working rig ashore in assignments when MTP would previously have been worn.

(5) Daily working dress.

c. **Description.**

<table>
<tr><th colspan="2">All Ranks and Rates</th></tr>
<tr><td colspan="2">Navy blue T-shirt.</td></tr>
<tr><td>Blue fire retardant light weight jacket (tucked in).</td><td>Blue Ensign badge to be worn on left arm (unit specific badges are not permitted).
Embroidered blue name tape worn above left breast pocket when issued.
Embroidered Royal Fleet Auxiliary tape worn above right breast pocket.
Rank slide to be worn on front sternum strap.</td></tr>
<tr><td colspan="2">Blue fire retardant trousers with blue stable belt.</td></tr>
<tr><td colspan="2">Black socks.</td></tr>
<tr><td colspan="2">DMS Black boots.</td></tr>
<tr><td colspan="2">Beret when issued.</td></tr>
<tr><td colspan="2">Optional blue micro fleece to be worn over T-shirt and under light weight jacket.</td></tr>
<tr><td colspan="2">Optional foul weather jacket and trousers worn over light weight jacket and trousers
(hood of foul weather jacket to be rolled away – hood is only to be used in extreme conditions when authorised by Command).</td></tr>
<tr><th colspan="2">No 4R – relaxed daily working dress</th></tr>
<tr><td colspan="2">May be authorised by Command at sea or, exceptionally, for working parties in hot conditions in harbour (not outside confines of jetty).</td></tr>
<tr><td colspan="2">Blue fire retardant jacket may be relaxed and individuals wear T-shirt only or T-shirt and micro fleece.</td></tr>
<tr><td colspan="2">Blue fire retardant trousers with blue stable belt.
Black socks.
Black DMS boots.</td></tr>
<tr><td colspan="2">Command may allow optional baseball cap at sea.</td></tr>
<tr><td colspan="2">Caveats:
COs may allow 4R where it is unlikely that immediate firefighting is required.
Light weight jacket must be readily available for basic firefighting and when on Duty Watch.
Commands may authorise unit specific T-shirts provided that they are cotton navy blue.</td></tr>
</table>

d. **Insignia and Badges Worn with No 4 RFA Personal Clothing System (No 4 RFAPCS)**

(1) **Name Tapes.** Name tapes are to be sewn along the top of the left breast pocket on the PCS lightweight jacket for all ranks and rates, in line with the "Royal Fleet Auxiliary" tape. Name tapes are to contain only the surname of the individual; initials are not permitted. Name tape lettering is to be in 'Helvetica Condensed' font, lettering is to be 15mm in height and the name within the name tape length of 130mm. Names longer than 15-17 characters will be condensed to fit. As with the Royal Fleet Auxiliary tape; the colouring is white lettering on blue background. With names such as 'McDonald', a small c can be used on the name tape and the authoritative document will be the nominal list supplied by the unit.

(2) **Royal Fleet Auxiliary Tape.** This is pre-sewn along the top of the right breast pocket. The tape will be a standard issue with lettering of 'Helvetica Condensed' font, 15mm in height and contained within the tape length of 120mm. The tape is white lettering on blue background.

(3) **Royal Fleet Auxiliary Blue Ensign Badge.** This is pre-sewn onto the left arm. The badge is a standard size of 100mm by 50mm. The badge should be centralised and level when viewed from the left side. Exact vertical position will depend upon the sleeve length and shoulder shape of the individual but generally the top of the badge should be 70mm below the centre of the shoulder seam at the top of the sleeve.

(4) **Existing Rank Slides.** Slides will be attached to the front of the PCS jacket. In order to establish uniformity and maintain standards, officers shall wear the left shoulder slide on their lightweight jackets.

Trousers, working, polyester	1	
Tie, black	1	

b. **Personal Loan Items.**

	Scale	Notes
Boots, DMS	1	
Coverall, blue or white	1	Notes 3/4

Notes:

1. This is optional scaling and not mandated.

2. Optional, for those members of a Muslim faith an additional shirt collar attached can be issued in lieu of Shirt, white short sleeve.

3. Skill Zones 1 - 4 are issued blue coveralls.

4. Band E, D, C, B and Senior Civil Service (SCS) Band 1 - 3 are issued white coveralls.

4204. Scale 4-Armed Forces Parliamentary Scheme (Members of Parliament) – Kit Scales (Note 1)

a. **Basic Outfit.**

	Scale	Notes
MK IV Foul weather jacket	1	
Jersey, H/W	1	
Shirt, AWD	2	
Trousers, AWD	1	
Shirt, white, collar-attached	1	
Shirt, white, short sleeve	1	Note 2
Socks, thick, black	2 prs	
Socks, thin, black	2 prs	
Trousers, working, polyester	1	
Tie, black	1	
Beret	1	
Holdall Bag	1	

b. **Personal Loan Items.**

	Scale	Notes
Boots, DMS	1	

Notes:

1. The Armed Forces Parliamentary Scheme is endorsed by the Secretary of State for Defence and Chief of Defence Staff. It is designed to facilitate visits by Members of Parliament to units in non-operational theatres, usually for 4 - 5 days at a time. The Naval Service Lead Officer is CNS-NS-SEC1.

2. Optional, for those of a Muslim faith an additional shirt collar attached can be issued in lieu of shirt, white short sleeve.

CHAPTER 44

ORDERS AND DECORATIONS, MEDALS AND MEDAL RIBBONS – UNIFORM GUIDELINES

SECTION 1

GENERAL

4401. Authority For Wear

a. The King's Regulations for the Royal Navy require all personnel to wear the proper ribbons for the medals which have been awarded to them and to comply with the instructions respecting the manner of wearing orders, decorations and medals and the order in which they are to be worn, as laid down in these uniform regulations.

b. It is forbidden to wear any orders, decorations or medals without authority. Foreign orders, decorations and medals may be worn only when the Sovereign's permission has been given. This may be sought by application to Naval Secretary's Division. It should be noted, however, that permission is rarely granted and only in the most exceptional circumstances.

4402. Terms of Issue

a. The insignia of orders, decorations and medals and the Ribands to which they are attached are issued gratuitously on presentation; 229mm of medal ribbon for sewing on to garments is also supplied in the case of campaign medals.

b. Brooches for medals and medal ribbons are available from service stores. Officers purchase these items as required. Ratings and RM warrant officers, NCOs and ORs and associated reservists awarded a medal are given a gratuitous issue of one medal brooch and one medal ribbon brooch of the appropriate size.

c. Replacement brooches and ribbons are purchased as required.

d. Miniatures, ribbons and brooches for miniature medals and ribbons are not provided but may be purchased privately at the individual's expense.

4403. Order of Precedence

Orders, decorations, medals and medal ribbons are to be worn arranged in the order of sequence (or seniority) shown in JSP 761 'Honours and Awards in the Armed Forces' The number of each type of insignia of orders, which may be worn, with various dresses is shown in the Table of Dresses (Chapter 3 Annex 3A (RN)), (Chapter 4 Annex 4A (RM)). When the insignia of more than one order are worn, the one occupying the first position should be the most senior, unless for any reason a junior or foreign order is more appropriate to the occasion.

4404. Conditions Governing Awards

Extracts from the various Statutes and Warrants regulating the awards of Orders, Decorations and Medals are to be found in JSP 761. A number of Statutes and Warrants are in course of amendment, to take account of revised eligibility criteria introduced in 1994. Until such time as these are published, it should be noted that all gallantry awards are available at all ranks and rates.

4405. Spare

SECTION 2

MANNER OF WEAR

4406. Insignia of Orders

The insignia of the various orders are as follows:

a. **First Class**. Knights of the Garter, Thistle and St Patrick and Knights and Dames Grand Cross and Grand Commander. Broad riband (with badge attached). Collar when ordered.

b. **Second Class.** Knight and Dame Commander - star. Neck decoration (i.e. badge suspended on narrower riband, normally worn round neck).

c. **Third Class Companion and Commander**. Neck decoration (but the badges of companions of the Distinguished Service Order and Imperial Service Order are worn as medals only).

d. **Fourth and Fifth Classes.** Officers and members - badge worn as medal.

4407. Broad Riband

a. The broad riband of Knights of the Garter and Thistle is worn over the left shoulder, the bow from which the badge is suspended resting on the right hip. The broad riband of other orders is worn over the right shoulder, with the badge on the left hip. The ribands of orders when the riband alone is worn will be of the width of the ribands of the membership of the order. If there is no membership class the riband will be of the width of the riband of the companionship of the order.

b. With ball dress the broad riband is worn under the mess jacket and over the waistcoat (or dress).

c. With full dress the broad riband is required to pass under the shoulder strap, and in dresses which do not include shoulder straps the procedure is as follows:

(1) If an aiguillette is worn on the right shoulder the broad riband, other than that of the Garter and Thistle, is worn under the aiguillette shoulder strap. For the Garter or Thistle an additional aiguillette shoulder strap is worn on the left shoulder.

(2) If an aiguillette is not worn on the right shoulder the broad riband is worn under a blue cloth shoulder strap ornamented with gold and blue cord, of the pattern worn with ‘Staff’ type aiguillettes (Chapter 39, Para 3912).

4408. Collar

a. The collar of an order is worn on certain special occasions as ordered, instead of the broad riband, with full dress only (Nos. 1 and 1W Dresses). The collar is worn under the shoulder straps or epaulettes near the outer edge, hanging at an equal distance back and front, with the badge suspended below the front centre.

b. Collar Days[1], in accordance with instructions of the Central Chancery of the Orders of Knighthood are Easter Sunday, Ascension Day, Whit Sunday, Trinity Sunday, 1 January, 6 January (Epiphany), 25 January (Conversion of St Paul), 2 February (Presentation of Christ in the Temple), 6 February (The Queen's Accession), 1 March (St David), 17 March (St Patrick), 25 March (Lady Day), 21 April (The Queen's Birthday), 23 April (St George), 29 May (Restoration of the Royal Family),2 June (The Queen's Coronation), 24 June (St John Baptist), 4 August (Queen Elizabeth, The Queen Mother's Birthday), 6 August (Transfiguration), 29 September (St Michael and All Angels), 1 November (All Saint), 30 November (St Andrews), 25 December (Christmas Day), 26 December (St Stephen), 28 December (Innocent's Day), when His Majesty opens or prorogues Parliament and by those taking part in the Ceremony of an Introduction of a Peer in the House of Lords. In dresses that do not include shoulder straps, the procedure is as follows:

(1) If an aiguillette is worn on the right shoulder an additional aiguillette shoulder strap is worn on the left shoulder.

(2) If an aiguillette is not worn on the right shoulder a pair of blue cloth shoulder straps is worn.

c. The holder of more than one First Class Order, when wearing the collar of one order also wears the broad riband of the next order in sequence. Only one collar may be worn.

4409. Stars

a. Stars of orders are worn on the left side.

b. When only one star is worn it should be in the centre line of the breast pocket with the upper point not less than 25mm below the lip of the pocket, or in the corresponding position on garments without a breast pocket.

c. When two stars are worn the second star is placed directly below the first, with its upper point not less than 25mm below the lower point of the star above.

d. When three stars are worn the second and third stars are normally worn below the first, in horizontal line, with the second towards the wearer's right, but if in this position the stars interfere with the broad riband, the first and second stars may be worn in line, senior star to the right, with the third star beneath.

[1] To be revised when ordered by Buckingham Palace following the accession of HM The King.

e. When four stars are worn the first is worn above, the second and third in line below, senior star to the right, and the fourth below again, in vertical line with the first.

f. When either three or four stars are worn on the undress coat it is necessary to position the first so that the second is clear of the top left-hand button of the coat, for which purpose it is permissible for the top star to the worn with its upper point up to 13mm above the lip of the breast pocket.

g. With women officers' dresses which include a cape or bolero, stars are worn thereon - not on the dress.

4410. Neck Decorations and Court Mounting of Medals

a. With the ceremonial day coat, and with RM tunics and frockcoat with stand collar, the first or only badge is worn with the riband inside the coat or tunic collar, emerging between the hook and eye and the bottom of the collar. If a second badge is worn it is suspended from a small eye stitched inside the coat or tunic, on 76mm of ribbon emerging between the first and second button on the right-hand side.

b. With a turned-down collar and day tie the first or only riband is worn inside the collar and over the tie, with the badge immediately below the knot of the tie. The second riband, if any, is worn on naval-type uniforms immediately below the first, the lower part of the badge resting on the cross of the lapel of the coat. Chaplains may wear neck decorations in a corresponding manner with the clerical collar. On military type uniforms the second riband emerges 19mm below the top button of the jacket, being suspended from a small eye stitched inside.

c. With winged collar and bow tie (only to be worn in the evening) one neck decoration only may be worn and the riband is worn the collar but under the tie, the badge hanging as close as possible below the bow.

d. With the white tunic the first or only badge is worn with the riband inside the tunic collar and the badge emerging to hang 19mm below the collar, and other badges, if any, are worn emerging between the buttons of the tunic, each 25mm below the badge above.

e. Until replaced by the new mess dress, women officers' dresses which include a cape or bolero the riband is made up into a bow and worn with the badge attached below it on the left side of the cape or bolero, immediately below the medals, which should be moved up as necessary to provide room. When two badges are worn the senior badge is placed above and overlapping the junior. If a star is worn additionally (e.g. by a Dame Commander of an Order) it is positioned below the other decorations.

4411. Medals (Including Badges of The 4th And 5th Classes of Orders and Decorations Worn as Medals)

a. Medals, suspended from their ribands, are to be worn on the left breast in one horizontal line, with the highest in seniority at the end furthest from the shoulder. Medals awarded by a society for bravery in saving human life, if specially authorised to be worn, are to be worn on the right breast, similarly to those on the left and on the same horizontal line. All medals are worn observe outwards, i.e. with the head of the Sovereign showing.

b. The ribands are to be suspended from a bar, which they must completely cover, without gaps. The bar should be disposed centrally in the space available, without projecting outward beyond the shoulder or inward beyond the opening of the coat, or beyond the centre of a tunic or coat without opening. When the medals are too many to be suspended from the bar so as to be fully seen, they are to overlap, the most senior showing in full. In the case of ratings and ranks below officer, medals should, however, overlap whenever three or more are worn, the length of the bar to be 95mm for three medals up to a maximum of 171mm for larger numbers.

c. The bar should be of the brooch type, with the pin inserted through beckets sewn to the garment. It may, if necessary, come over the lapel of the garment, except when a rifle is carried, when the bar should be under the lapel, as a protection for the medals.

d. The medal bar is worn immediately above the top row of medal ribbons sewn to the garment, or in the same position, and using the same beckets, as the top row of detachable ribbons. See Para 4413 sub para e.

(1) For RMBS ranks wearing No. 1 Full Dress Blues - Ceremonial Dress the medal bar is worn centrally on the left breast using beckets, the top of the medal bar being positioned horizontally, slightly above the second button down.

(2) For RMBS ranks wearing No. 1AW Dress – Tropical Full Ceremonial Dress the medal bar is worn centrally on the left breast and is pinned directly onto the fabric 6mm above the top seam of the pocket. Medal ribbons are not worn by band ranks in this uniform.

e. The length of medal riband for medals of normal size is to be 44mm. When two or more medals are worn, the length of ribands of medals of other than normal size should be adjusted so that the lowest points of the medals are all in line. A 44mm medal riband will accommodate four clasps: if more than four are worn the length of riband should be adjusted as necessary, leaving 13mm clear riband above the top clasp.

f. When medals are worn with garments on which medal ribbons are sewn, care must be taken that the ribbons are completely covered. If necessary a piece of material can be attached to the medal bar for this purpose.

g. Where more than one medal has been awarded, the ribands are to be suspended from a bar, which should be of the brooch type, with the pin inserted through beckets sewn to the garment. Medal ribands should be placed side by side up to and including a quantity of 6 medals unless the width of these 6 medals extends past the left shoulder seam of the uniform. In this instance, the 6 medals may be overlapped.

h. **Court Mounting.** Medals may also be worn court mounted. In this method the ribands are mounted on a frame of which the lower edge is in line with the centre of the medals. Commencing from the lower edge of the frame each riband runs over the upper edge and down to the ring of the medal. The medals are stitched down to the ribands. Court mounted medals may also be overlapped however, personnel with 7 or more court mounted medals should always wear them overlapped.

i. RN and RM personnel who have been awarded with 6 or more medals may have them court mounted at crown expense. (Personnel with 5 or fewer medals who wish to have them court mounted may do so, but at their own personal expense). See also sub-para 4412(e.) with regards to Miniature Medals.

j. The court mounting of medals (6 or more) at crown expense is included in the naval service tailoring contract, such that entitled individuals are able to request this service via their local (UK) and where applicable overseas unit tailors without having to pay for it themselves.

k. All RN and RM personnel (only) who are assigned to overseas/isolated commands and units where no MOD expense type clothing services exist, are to make early provision ahead of taking up their assignment for their medals and ribands to be bar or Court Mounted in good time. However, when medals are issued whilst deployed, such personnel with no access to a UK based MOD approved contract tailor are to submit a unit claim for reimbursement of the cost of Bar Mounting or, for those eligible only, the Court Mounting of six (6) or more medals and ribands via JPA, with itemised receipts retained for auditing purposes. The following information must be used:

(1) Type of Claim: select **Miscellaneous**.

(2) Authority: input **"RNTM 01-011/23 Court Mounting of Medals"**.

(3) Have you been told to use a UIN other than your own units?: select **No**. (should be auto populated).

(4) Do You Have the Authority of the Budget Holder?: select **Yes**.

(5) Click **Next**.

(6) Click **Details**.

(7) Expense Type: select Medical, Dental, Opticians, Prescription Fees.

(8) Date expense incurred: **input date of payment**.

(9) Receipt amount: **input the cost of purchase**[2].

(10) Justification: input “Bar Mounting xx medals or Court Mounting 6 or more Full Size Medals iaw RNTM 01-111/23, include the following details: your unit, location and state why there is no access to MOD Approved Contractor”.

(11) Click **Return**.

(12) Tick **I accept the Terms and Conditions of the MOD’s Travel and Expense Policies**.

(13) Click **Submit**.

l. Badges of the 1st, 2nd and 3rd classes of orders are not worn as medals (other than miniatures - see Para 3811).

4412. Miniature Medals

a. These are half the size of the insignia, which they represent and on ribands 29mm long, are worn in the same manner as full-sized medals.

b. With some exceptions, as detailed in JSP 761, miniatures of all badges of orders and decorations are worn with miniature medals.

c. Except as in sub para d, miniature medals are worn with number 2A/2B Mess Dress/Undress on the lapel of the mess jacket. They may extend over the lapel towards the shoulder but not beyond the lapel on the inner side. The position on RM officers’ mess jackets is: Colonels and above, 102mm below the neck point of the shoulder seam; other officers 19mm below the Globe and laurel badge. Until replaced by the new mess dress the officers’ capes should be level with the top of the rank badge.

d. Drum Majors wear miniature medals horizontally on the Drum Major’s dress belt and centrally on the black band above the word “Gibraltar” so as not to obscure the battle honour.

e. RN and RM personnel may choose to have their Miniature Medals Court Mounted, however in all instances this is at the owners personal expense. The Court Mounting of Miniature Medals has not been included in the naval service tailoring contract, irrespective of the number of medals an individual has been awarded, and it is not covered under crown expense.

[2] At this point an error may show stating “Justification is required. The receipt amount exceeds the allowable daily limit for the number of days reported. Please include in your justification the reason for this expense”. Accept the error and move on.

4413. Medal Ribbons

a. When ribbons are worn apart from the orders, decorations and medals themselves a ribbon is worn for each medal, etc except the Garter, Thistle and St Patrick. The ribbon is the same for all classes of an order. The ribbon is to be worn from the date of the official notification of the award.

b. Length of ribbons to be worn: RN, and personnel - 13mm, but with more than five rows ribbons 10mm long may be worn. Royal Marines - 10mm all cases.

c. The width of the ribbon is to be that of the riband attached to the order, decoration or medal itself. For orders, the width is that of the riband of the lowest class. The normal width in each case is 32mm.

d. The ribbons are to be sewn on the garments, except on whites, tropical khaki and stone-coloured garments for which a detachable, brooch-type bar similar to the medal bar is to be used, with the pin inserted through beckets sewn in the correct positions. The ribbons are to be arranged in one or more rows as required, without either gaps or overlapping, in order of seniority as for medals, starting at the inside end of the top or only row. The rows should be 6mm apart for officers and Royal Marines and 3mm for others, but officers and Royal Marines may reduce the distance apart if necessary to accommodate a large number. The ribbons of orders, decorations and medals for which only private permission to wear has been given are not to be sewn on the garments.

e. The ribbons are to be worn on the breast, as for medals, positioned as follows:

(1) **RN Officers.** Top or only row 25mm below point of shoulder. When additional rows are sewn to the garment the number of ribbons in each row should be such that all visible, while preserving as symmetrical an arrangement as possible. The detachable bar may also have more than one row if necessary, in which case no row should be longer than the one above.

(2) **Royal Marines.** First row centrally over the breast pocket, 6mm above the top seam of the pocket. Additional rows centrally over the first, with no row shorter than the one above. Not more than five ribbons to a row, and no row to extend nearer than 19mm from the shoulder seam, but each row to be completed to maximum width before another is started.

(a) For female band ranks wearing No. 1A Regimental Dress Blues first row to be sewn centrally on the left breast being positioned horizontally, between the first and second button down so that the medal(s) sit at an appropriate height above the bust point. Additional rows as described above.

(b) For band officers and WO1s wearing No. 1 Full Dress Blues - Ceremonial Dress (Frockcoat Order) medal ribbons are to be sewn between the centre seam and left breast buttons with the first row being positioned horizontally, slightly above the second button down. Additional rows as described above. Medals are not worn in this uniform.

(3) **Ratings.** Top or only row: on jackets: level with the point of lapel; on blue jumpers: 114mm below point of shoulder; on white uniform: 51mm below point of shoulder. In each case, when there is more than one row, no row is to be shorter than the one above, and the whole display should be as symmetrical as possible about the vertical.

(4) Ribbons must not project outward beyond the point of the shoulder, or inward beyond the centre of the garment or under the lapel, and they must all be visible.

4414. Miniature Medal Ribbons

Ribbons 10mm long and 19mm wide, are worn only with mess dresses. They are not sewn to garments but are worn on detachable, brooch-type bars, in the same positions as miniature medals. See Para 4411 sub para c. Miniature medal ribbons are not worn by Royal Marine and Naval Officers except, in the latter case, for safety reasons when acting as Duty Officer.

4415. Rosettes

Rosettes are worn on certain medal ribbons and miniature medal ribbons to denote clasps to the medals or some special distinction.

4416. Wearing of Foreign Medals

a. The rules governing the wearing of foreign medals are contained in Foreign, Commonwealth & Development Office (FCDO) regulations. The MOD is required to seek and follow FCDO guidance if foreign medals are offered to Service or civilian personnel. The FCDO advises all foreign embassies of the British rule on a regular basis.

b. HM The King approves the receiving and wearing of all foreign medals, orders and decorations. In all cases, requests to receive or wear should be made through the Chain of Command to Naval Secretary for onward transmission, as necessary, to Defence Services Secretary. It will then be for DS Sec to staff the request formally to both the FCDO and the Ceremonial Branch of the Cabinet Office, whose agreement is required before His Majesty's permission is sought. There will inevitably be some delay during this process and it should be noted that permission to wear is given only rarely.

c. Individual foreign awards for gallantry or meritorious service follow the same staffing route. Both may be subject to scrutiny within the FCDO which must take account of the employment of Service personnel as State Servants, although it is usual that life-saving actions may be recognised by the appropriate Head of State.

d. No campaign medal for wearing, UK or foreign, may be claimed through concurrent service which gains another campaign medal.

e. Occasions may arise where foreign medals are presented to Service personnel abroad without prior warning. In such cases, individuals must exercise judgement as to whether refusal might give offence and the usual course of action is to accept the award. Thereafter, the Chain of Command is to be informed together with any request to wear and justification for it. Usually, the recipient will be allowed to keep the medal as a memento, not to be worn.

f. See JSP 761 'Honours and Awards in the Armed Forces', Chapter 12, Annex B for the official order of wear for foreign orders, decorations and medals which have been approved for wear.

4417. Wearing of Numerals or Bars Denoting Multiple Tours with UN, NATO or WEU

Rules for the wearing of numerals are derived from the instructions issued by the Secretaries of the UN, NATO or WEU, as amended by any bilateral agreement between the UK and the relevant organisation. The UN makes official provision for numerals, NATO and the WEU do not. In addition, some nations reward multiple tours by the wearing of a medal for each tour. However, the practice or customs of other nations in receipt of the same medals is NOT to be adopted by UK Service personnel unless explicitly authorised in DINs.

4418. Wearing of Unofficial Medals

a. Only those Honours, Decorations, Medals and Awards that have been formally approved by the Sovereign may be worn. This applies to the wearing in uniform and civilian clothing, and by retired members of the Armed Services. Commanding Officers are responsible for ensuring that individuals do not wear medals that are not approved or to which they are not entitled, as well as being responsible for ensuring individuals are in possession of medals to which they are entitled.

b. A number of private companies market unofficial commemorative medals and although there is no reason why individuals may not purchase these items they are still formally classified as unofficial and have not been given approval by the Sovereign, and thus may not been worn. The fact that an advertisement for such medals appears in "in house" Service magazines is not to be taken as an indication that a medal has been formally approved and may be worn.

c. Any queries on the status of any medal, or of an individual's entitlement to it, should, in the first instance, be made to single-Service medal offices.

4419. Wearing of Family Medals

Medals awarded to parents, grandparents, children, siblings or other family members, are not to be worn by serving personnel in uniform. Such 'family' medals may, however, be worn in civilian clothing on suits or blazers and female equivalent dress on the appropriate occasions, when they are customarily worn over the right breast.

SECTION 3

WEARING OF ORDERS, DECORATIONS AND MEDALS WITH CIVILIAN DRESS

4420. General Conformity

The following instructions, which conform to those promulgated by the Lord Chamberlain's Office in the London Gazette for the guidance of all concerned, apply to both serving and retired personnel when the civilian dress.

4421. Evening Dress

a. The occasions on which the insignia of orders and miniature medals and badges are worn with evening dress are as follows:

(1) At parties and dinners when any of the following members of the Royal Family are present:

- His Majesty The King; and
- Her Majesty The Queen.

Their Royal Highnesses:

- The Prince and Princess of Wales;
- The Duke and Duchess of Edinburgh;
- The Princess Royal;
- The Duke and Duchess of Gloucester;
- The Duke and Duchess of Kent;
- Prince and Princess Michael of Kent; and
- Princess Alexandra, the Honourable Mrs Angus Ogilvy.

(The host should notify their guests if any of these members of the Royal Family will be present.)

(2) At parties and dinners given in houses of Ambassadors and Ministers accredited to the Court, unless otherwise notified by the Ambassador or Minister concerned. (A decoration of the country concerned should be worn in preference to a British one, and if both are worn, the former should take precedence over the latter.)

(3) All official dinners and receptions, including Naval, Military and Air Force dinners, dinners of City Livery companies and public dinners. (The word 'Decorations' on the invitation card to be the intimation from the host that the entertainment is an official one.)

(4) On official occasions when entertained by:

- HM Lieutenant of a county within their county;
- The High Sheriff of a county within their county;
- Cabinet Ministers;
- Ex-cabinet Ministers;
- Knights of the Garter, Thistle and St Patrick;
- Great Officers of State and of The Kings Household;
- Lord Mayors and Mayors; and
- Lord Provosts and Provosts.

(The word 'Decorations' on the invitation card to be the intimation from the host that the entertainment is an official one.)

b. With Full Evening Dress the following may be worn:

- Broad riband;
- Up to 4 stars;
- Not more than 1 neck decoration; and
- Miniature medals.

c. With Dinner Jackets the following only may be worn:

- Not more than 1 star;
- Not more than 1 neck decoration; and
- Miniature medals.

d. On occasions when it is desired that decorations be worn, invitations should state either 'Evening Dress, Decorations' (for full evening dress) or 'Dinner Jacket', Decorations'. When 'Evening Dress, Decorations' is prescribed those not in possession of full evening dress may wear dinner jacket, with decorations, etc. as in Para 3819 sub para c.

e. With 'Dinner Jacket, Decorations' it is permissible to wear either a stiff evening collar or a soft collar

4422. Day Dress

The insignia of orders, decorations and medals (full size) may be worn with formal day dress on appropriate official occasions and at public functions. When decorations are worn with formal day dress on such occasions as a British Legion rally or ex-Servicemen's parade, it is customary to wear medals only, stars of orders and neck decorations not being worn.

4423. General

a. Nothing in the above shall affect in any way the practice of the Knights of the Orders of the Garter and Thistle, and Members of the Order of Merit, the Order of the Crown of India and the Order of the Companions of Honour with regard to wearing their insignia in accordance with previous custom.

b. Ladies in civilian dress may wear the orders, decorations and medals to which they are entitled under the same conditions as above, so far as appropriate.

c. The manner of wearing the insignia of orders, decorations and medals is the same as with corresponding items of uniform.

4510. Wearing of Uniform
4511. Wearing of Uniform by Honorary Officers

CHAPTER 45

MARITIME RESERVES UNIFORM REGULATIONS

4501. Maritime Reserves Uniform Regulations

a. The wearing and maintenance of uniform in the Maritime Reserves (MR) is to be in accordance with Chapter 38 and JSP 752 Chapter 15.

b. RNR Ratings and RMR Other Ranks with former service in the RN and RM may wear Good Conduct Badges due for such service.

c. All clothing and equipment issued to ratings and other ranks remain the property of the Crown. Personnel are responsible for ensuring that all such items are used for service purposes only, and for producing them in good condition when called upon to do so. On being first issued with the uniform and equipment, ratings/other ranks are to sign an undertaking to the effect that they will return it to their parent unit when they are discharged from the RNR/RMR.

d. The advice of RNR Unit Commanding Officers and, ultimately, CMR is to be sought in all cases of doubt or where it is deemed that permission to wear uniform is required.

4502. Provision of Uniform - MR Officers

a. The cost of uniform on appointment or promotion to officer rank will be borne by the Ministry of Defence. The authorised scales of uniform for MR officers are shown in the Annexes to Chapter 39 and Chapter 40.

b. **Eligibility.** No officer may qualify for more than one full outfit cash grant and set of free issues on account of membership of two sections of the Reserve, e.g. an officer holding a commission in the RNR who also has an appointment as an officer of the Sea Cadet Corps. However, they may be reimbursed actual costs to buy a different uniform and shoulder boards.

c. **Transfer from RN/RM and Re-entry into the MR.** The regulations for officers who transfer from the RN/RM or re-enter the MR are contained in JSP 752, Chapter 15.

d. **Payments of Cash Grants.** All cash grants will be paid through JPA without application, and no payments may be made by any other authority without specific authorisation.

e. **Kit Record Book (S2910).** All issues will be entered in the officer's Kit Record Book, any deficiencies being entered on the appropriate page. When the items become available they will be issued; the entry on the deficiency page is the authority for issue.

f. **Call Out for Permanent Service.** Officers of the MR called out for permanent service are required to take with them the complete scale of uniform and kit as issued, which will be specified in their Call Out Order.

g. **Additional Uniform.** MR Officers are permitted to purchase (from Ministry of Defence stocks), articles included in the authorised list of officers' clothing for wear as uniform. All purchases are to be strictly limited to immediate personal requirements.

4503. MR Officers' Uniform Grant Refund on Discharge

a. The following applies to Reserve officers who resign voluntarily or whose appointments are terminated compulsorily.

(1) **Voluntary Outflow (VO).** Applies to officers leaving the Service, and to those transferring to another branch/Service. Officers who voluntarily retire, including Midshipmen/2nd Lieutenants, will be required, at the discretion of MOD, to refund their initial uniform cash grants and the value of their initial outfit free issues as follows:

(a) Grants paid and issues made less than one year prior to date of VO (see Note) - in full.

(b) Grants paid and issues made over one year but less than 2 years from date of VO (see Note) - two-thirds.

(c) Grants paid and issues made over 2 years but less than 3 years from date of VO (see Note) - one-third.

Note. *Measured from "last day on Naval pay". Each grant and free issue will be considered separately for this purpose.*

(2) The amount of refund will be re-assessed in the light of any Kit Deficiency certificates handed in and any unused items of gratuitous issue returned in an unmarked condition. The value of these items will be reduced on the same basis as Para 4503.a sub para (1) above, each free issue being considered separately. Returned items of gratuitous issue cannot be offset against the liability to refund cash grants.

b. Officers whose appointments are terminated compulsorily before they have completed two years' service (from date of entry) are required to return the principal items of uniform and equipment, as directed by the MOD, charges being raised against them or, if under 18, their parent or guardian for any that they fail to return.

4504. MR Officers' Promotion Grants

Promotion grants are payable under the same conditions as for RN/RM officers, in accordance with JSP 752, Chapter 15 for the Rank to which promoted.

4505. Aiguillettes - MR Officers

MR officers appointed as ADCs, Honorary Physicians, or Honorary Surgeons to HM The Queen or as Equerries to members of the Royal Family should apply for a loan issue of aiguillettes and aiguillette shoulder straps when required and in accordance with Para 3913 and Para 4021. Articles issued on loan are to be returned as soon as possible after the ceremony or function for which they are supplied.

4506. Uniform Upkeep Allowance (UUA)

a. Except as provided in Para 4502, Para 4504 and Para 4505, no cash grants or free issues of articles of uniform from Service stocks will be made at any stage in an officer's career, except when authorised by DIN or CMR. JSP 752 Chapter 15 provides more detailed guidance upon issue and maintenance of uniform. Maintenance of uniform will be the officer's responsibility and UUA will be paid for this purpose provided the officer is in date for training and eligible for Bounty. The amount payable varies according to training list and is restricted to normal peacetime service in the Reserve, ceasing when officers are mobilised or serving on Full Time Reserve Service (FTRS) commitments. The allowance will be reduced proportionately when less than a full year's service has been rendered in the Reserve in any one year.

b. The allowance is payable annually in respect of each training year, ending 31 March, when Bounty has been earned. Payment will be made automatically through JPA. When an officer is, exceptionally, awarded a Bounty Waiver it does not automatically entitle them to the award of UUA.

c. **Membership of Two Sections of the Reserve.** A member of two sections of the Reserve, e.g. an RNR officer who also holds an appointment as an officer of the Sea Cadet Corps, may receive half the lower rate of UUA in addition to the full rate of the higher allowance authorised for the other appointment.

4507. Provision of Uniform

a. Ratings/Other Ranks are issued with items of uniform free of charge on being enrolled into the MR in accordance with the appropriate scales prescribed in Chapter 39 and Chapter 40 respectively. Subsequent replacements will be issued on a “one-for-one” basis in accordance with current regulations, subject to an assessment of “fair wear and tear”. Once issued, ratings/other ranks are responsible for maintaining their kit in a clean condition and in a good state of repair.

b. The initial issue is to be restricted to those items prescribed for the provisional New Entry Scheme in accordance with BRd 3(1) Chapter 39 and Chapter 40. Remaining items will be issued as required for their stage of training.

c. **RMR.**

(1) RMR Ranks who have qualified for the award of the Green Beret will be issued it by CTCRM on completion of their Commando training.

(2) On completion of Phase 2 training, men are to wear "Royal Marines Commando" shoulder flashes.

(3) All members of 2 Raiding Troop are to be issued with a Coxswain's standard scale of equipment.

4508. Return of Uniform on Discharge

a. On final discharge from the RNR/RMR, officers and ratings/other ranks are required to surrender all items of equipment and loan clothing issued to them. Whenever possible, action is to be taken against personnel who fail to return any of these items.

b. Ratings/Other Ranks discharged prior to completing their initial 5-year engagement will be required to return all items of kit issued or make good any deficiencies as follows:

(1) Under one year’s service - at full Fleet Issuing Price.

(2) Over one year’s service - at 50% Fleet Issuing Price.

c. The effects of personnel who die in service are to be disposed of in accordance with QRRN Chapter 55 Section II.

d. The kit of personnel discharged for misconduct whilst called out for permanent service is to be dealt with in accordance with the regulations for corresponding rank/rate in the RN/RM. For this purpose, the period of service is to be reckoned from the date upon which the individual concerned was called out.

4509. Full Time Reserve Service (FTRS) or Mobilisation

a. MR Officers and ratings/Other Ranks undertaking a period of FTRS or mobilisation will be issued with appropriate items of uniform to bring their outfit up to the scales authorised for regular personnel. For officers, additional cash grants may be payable.

b. Due to the nature of FTRS or mobilisation commitments, the issue of tailored uniforms, where necessary, should be based on the cheapest and quickest method available in the individual circumstances. The arrangements for the issue of tailored uniforms are to be through the LO HMS NELSON or, for RM/RMR, DSO CTCRM who may employ one of the following methods:

(1) Through the existing contract arrangements for new entry and SO(LE) officers.

(2) Exceptionally by a cash grant for the bespoke tailoring of new uniforms. This must be submitted to DNPSSC for prior approval.

c. RNR Junior ratings mobilised or on FTRS are to be issued with the cap ribbon appropriate to the ship or establishment to which they have been drafted.

4510. Wearing of Uniform

a. RNR/RMR uniform is to be worn on all occasions when undergoing training or other duties, paid or unpaid, in accordance with local orders and regulations contained in BRd 3(1) (see Para 3808-3811), unless otherwise ordered.

b. MR officers on the Active List and all serving RNR ratings/RM Other Ranks may also wear uniform on other appropriate occasions where, in doing so, the Service is not brought into disrepute or the security of the Reservist concerned is not endangered or compromised as a result. Appropriate occasions may include weddings, investitures, funerals, memorial services/parades or formal Service or civilian social occasions. Uniform should never be worn during political rallies or demonstrations, when appearing before a court of law as either witness or accused, outside the UK (without prior permission), or in a public house/night club where unwelcome attention may be derived through doing so.

c. The advice of MR Unit Commanding Officers and, ultimately, CMR is to be sought in all cases of doubt or where it is deemed that permission to wear uniform is required.

4511. Wearing of Uniform by Honorary Officers

Honorary officers of the RNR/RMR may wear the uniform of their rank on appropriate occasions. Following initial provision of a No1 suit and working rig, the maintenance of uniform will be their own liability.

CHAPTER 46

ROYAL CORPS OF NAVAL CONSTRUCTORS

(Sponsor: NAVY PEOPLE-PSP EXEC SO3)

CONTENTS

Para
4601. RCNC Uniform
4602. RCNC Uniformed Posts
4603. Uniform Schedules and Funding

CHAPTER 46

ROYAL CORPS OF NAVAL CONSTRUCTORS

4601. RCNC Uniform

As noted in QRRN Chapter 1, the Royal Corps of Naval Constructors (RCNC) is a civilian corps and an integrated part of the Defence Engineering and Science Group with its members wearing uniform in certain posts. It is not a part of the Naval Service, but RCNC uniform is very similar to Royal Navy uniform. As this subtle distinction is not understood by many, RN regulations for uniform shall be used as the guideline for the wearing of the equivalent RCNC uniform. RCNC members do not hold a commission and cannot be compelled to wear uniform. However, an individual who has volunteered to wear uniform shall follow naval traditions, marks of respect, etiquette and customs where reasonable and appropriate. For example, saluting a senior officer is reasonable and appropriate; being ordered into combat is not. RCNC members in uniform should be treated by other uniformed services with the same marks of respect and etiquette as they would treat a commissioned RN officer of the same rank.

4602. RCNC Uniformed Posts

This section discusses a method for identifying whether a post should be uniformed and how uniform should be worn appropriately. It does not consider the case of SCS grade Constructors and policy for this should be agreed on a case by case basis by Head of the RCNC[1] (HRCNC) and First Sea Lord.

a. In all cases the recent custom and practice of the RCNC shall be used to identify the RCNC rank equating to civil service grades. This aligns well with the common DE&S working equivalencies between uniformed and non-uniformed personnel but is not the same as noted in JSP755. The following equivalencies shall be used:

Table 46-1. RCNC Uniform Ranks

Substantive Civil Service Grade	Rank to be used on all RCNC Uniforms	JSP 755 Equivalencies
Band B1	Captain RCNC	No equivalent
Band B2	Commander RCNC	Captain RN
Band C1	Lt Commander RCNC	Commander RN
Band C2	Lieutenant RCNC	Lt Commander RN
DESG Graduate Engineer (Note 1)	Lieutenant RCNC (Note 2)	No equivalent

[1] As of this edition HRCNC is DE&S Director Ships. However the position is generally held by the most senior RCNC member currently employed by the MOD, and as such will rotate to that individual's post.

Notes:

1. Only when RCNC Graduate Member, only while training at sea.

2. Following previous RCNC precedent for "Probationary Assistant Constructors".

b. There are some anomalies between this grade-based table and a more historic-based view in which pre-1988 RCNC grade, and experience in that grade, were used to judge, for example, whether a person of the grade of Constructor should wear Lieutenant Commander or Commander rank. However to provide some clarity and reduce the amount of interpretation, the basis for rank worn shall be only current substantive civil service grade and not experience in that grade or any temporary promotion status.

c. For C2 staff and upwards, in all cases the act of gaining permission to wear uniform shall commence with the Constructor deciding to volunteer to wear uniform. The officer proposing to wear uniform shall gain approval from the post's line management and then the HRCNC to wear RCNC uniform.

d. For DESG Graduate Engineers undertaking training at sea, the engineer's Mentor shall initially decide whether the trainee is sufficiently experienced to wear uniform appropriately. Sea Time undertaken within six months of initial entry to the MOD shall generally not be undertaken in uniform. The officer proposing to wear uniform shall then gain approval from the Maritime Development partner and then the HRCNC to wear RCNC uniform on Sea Time.

e. When permission is sought from HRCNC to wear uniform, the proposed rank and schedule of uniform to be followed shall be identified.

f. Once a uniformed post proposal has been approved by HRCNC for an individual, the officer proposing to wear uniform shall:

(1) Familiarise themself with BRd 3(1) Part 6 and other relevant RN publications.

(2) Liaise with BRNC to arrange familiarisation training with regard to wearing the uniform and other elements of naval etiquette. Should this not prove practical, an appointment with the Base Warrant Officer of a Naval Base or Establishment Warrant Officer of a Shore Establishment shall be made to discuss informally the correct manner to wear uniform and discuss naval etiquette.

(3) For sea time, DESG trainees shall consult with the Fleet Constructor.

g. Any proposal to HRCNC for a post holder to adopt a uniformed posture shall consider the following to identify whether the post holder should be uniformed in one of the following categories:

(1) **Fully Uniformed Posting (Schedule A).** A post holder will wear RCNC uniform for all routine MOD events and circumstances.

(2) **Partially Uniformed Posting (Schedule B).** A post holder will wear RCNC uniform for specific MOD events and circumstances.

(3) **Sea Time (Schedule C).** Only for Graduate Member training purposes at sea.

(4) **Not Appropriate.** A post holder shall not wear uniform.

4603. Uniform Schedules and Funding

a. The uniform worn for any given event shall be that which a Marine Engineer General Service RN officer of the same rank could legitimately wear at the same event with the exception of certain distinctions noted below.

b. No 1 Uniform suit shall be obtained from HMS NELSON RN Clothing Store at public expense charged to the RN/RM Uniform Supply Fit contract. Initial issue of service stocked ancillary items (cap, shirt, shoes, tie, socks) may be issued free of charge. To minimise the cost of uniform supply Naval Constructors will not be issued PE kit, Combat Uniform or other specialist clothing unless these are required in performance of specific duties of their post. Overalls, boots, rucksack and day sack may be issued on request where normally an RN officer would use them. Upkeep of uniform shall be at personal expense unless promoted in rank from one uniformed post to another, in which case a cost not more than the relevant promotion grant afforded to RN officers may be incurred via local purchase transaction between NELSON Clothing Store and the on-site tailor to adjust uniform sleeve lacing. Ceremonial (No 1A, 1B, 1C and tropical equivalents), and formal mess uniforms (No 2A, 2B and tropical equivalents) shall not be justifiable as a crown expense unless occupying a fully uniformed post with an expectation of attending formal events as part of the post's remit. Where these uniforms are purchased at crown expense, the maximum cost shall be that charged in accordance with the RN/RM Uniform Supply Fit contract schedule.

c. Tropical uniforms shall not be drawn unless the post requires substantial overseas activity. RN guidance shall be followed on wearing tropical dress schedules.

d. The uniform schedule below shall be followed.

Table 46-2. RCNC Uniform Schedules

	Uniform Schedule		
	Fully Uniformed	**Partially Uniformed**	**Sea Time**
Circumstance			
MOD Main Building	No uniform	No uniform	No uniform
Other MOD, Naval Base or Industry Office	No. 3	No uniform	No uniform
Dockyard / Shipyard / Ship Visit in Harbour	No. 3	No. 3 or No uniform	No uniform
Ship visit at Sea / Sea Trials	Nos. 4 / 3 / 2C	No. 4 / 3 / 2C	No. 4 / 3 / 2C (Beret not Peaked Cap)
Deployment to Operational Theatre (CS95/PCP only with support of local command)	No. 4 (at Sea) / CS95/PCP (on Land)	No. 4 (at Sea) / CS95/PCP (on Land)	No uniform
Operational Training	CS95/PCP	CS95/PCP	No uniform
Naval Training	No. 4	No. 4	No. 4
Ceremonial	No. 1	Lounge Suit (or No.1. on official business overseas)	No uniform
Evening Mess Dress/Undress	No. 2A / 2B	Black Tie (or No.2A / 2B on official business overseas)	No uniform

e. The following specific distinctions apply to RCNC uniform. These supersede the equivalent regulations for RN uniform:

(1) Silver grey distinction cloth shall be worn on all badges of rank.

(2) A silver grey cummerbund, with or without RCNC crest, may be worn with No 2B and No 2C uniforms in lieu of the black cummerbund.

(3) Graduate Members on sea time shall wear a beret rather than a peaked cap.

(4) Where a standard uniform includes RN/RM/Army/RAF specific symbols of identification (i.e. Tactical Recognition Flashes on CS95/PCP or the RN Logo on Windproof jacket) for which there is no RCNC equivalent, RN practice shall be used.

(5) CS95 or PCP shall only be worn when on an operational training course, where this is the default rig for RN trainees or when deployed to an operational theatre (when on land, with the local command's support). A Silver grey, blue (RN) or plain green stable belt shall be worn when appropriate.

CHAPTER 47

DRY CLEANING AND LAUNDRY

4701. Laundry

Articles of clothing may be laundered or dry cleaned as appropriate, using one of the following methods:

a. By Civilian Contract.

b. Unit Laundry Facilities.

c. Individuals' private arrangements.

4702. Civilian Contracts

Contracts are normally arranged by the Contracts Branch and include attached schedules of clothing items that may be laundered or dry cleaned. Most laundry and dry cleaning contracts form part of a Multi Activity Contract (MAC) which has superseded the previous laundry systems. Forms used are provided by the contractor.

4703. Unit Laundry Facilities

Individuals may launder their own clothing when there are adequate unit facilities available. The cleaning of items not included in the schedules attached to the laundry and dry cleaning contracts are the responsibility of the individual. No allowance is payable and no issue of cleaning agent is to be made.

4704. Laundering and Dry Cleaning of Clothing at Public Expense for RN and RM Personnel Serving Ashore

Clothing provided in accordance with uniform outfits and kit scales is not to be laundered at Public expense, with the following exceptions:

a. **RN Ratings - Chefs/Stewards.** Working Dress, up to one chef's jacket, chef's or shirt white tropical and one pair trousers (chef)'s, per working day; and

b. **RN Ratings - Prolonged Ceremonial Duties and Parade Training Staff in Training Establishments.** RN Ratings employed on prolonged Ceremonial Duties and the Parade Training Staffs in Training Establishments may have No 1 Suits dry cleaned/laundered at Public expense, on an as required basis, at the Logistics Officer's discretion.

4705. Laundering of Specialist Clothing

a. The extent to which items of specialist clothing may be laundered or cleaned at Public expense is as follows:

(1) Clothing Issued on Personal-Loan:

(a) **Chef Ratings.** Up to one chef's cap and one chef's apron per working day;

(b) **Seagoing Personnel.** RNPCS, AWD, Overalls, Flight Deck Jerseys, Shirts KC (Dining Hall parties), Flying Clothing, and items of RM clothing similar to those listed above and sleeping bags.

(c) **All Other Users.** On ultimate return to store, if otherwise fit for re-issue.

(2) Clothing Issued on Individual and Temporary Loan:

(a) For Arctic Clothing, Action Overalls, Anti-flash Clothing, Fire-Fighting Clothing and Windproof Suits: as considered necessary by the Designated Laundry Officer;

(b) For all other items: on ultimate return to store, if otherwise fit for reissue.

b. **Clothing Issued on Permanent Loan[1] (Articles in Use).** Articles in Use (AinU) will include items held on Permanent Loan for subsequent issue on Individual or Temporary Loan within the department.

4706. Desk Instructions

Further detailed instructions for Ships Laundry Officers onboard major RN Warships are contained in the Navy Command Laundry Desk Instructions which is hosted on the Fleet Logistics Officers intranet webpage. Laundry queries should be directed to the Laundry mailbox (NAVYLOGINFRA-LAUNDRYMAILBOX@mod.uk) which is overseen by the Assistant Fleet Logistics Officer, based in Navy Command Headquarters.

[1] Items considered necessary by the Logistics Officer.

CHAPTER 48

ENTRY AND RE-ENTRY TO THE ROYAL NAVY

SECTION 1

DIRECT ENTRY (OFFICERS)

4801. Commissions on Entry - From 1 Apr 15

a. Following the New Employment Model, from 1 Apr 15 all Royal Navy officers join on a 12-year Initial Commission Stage (ICS)[1], with the exception of:

(1) Direct Entry Medical, Dental and QARNNS Officers - 6 years. Personnel who join from 1 Jan 24 are subject to harmonised Terms and Conditions in accordance with JSP 755 Part 2 Vol 2.

(2) Medical and Dental Cadets - 7 years. Personnel who join from 1 Jan 24 are subject to harmonised Terms and Conditions in accordance with JSP 755 Part 2 Vol 2.

(3) Chaplains - 6 years. RN Chaplains hold the Sovereign's Commission but no Naval rank; their status is defined in BRd 2. For pay and pensions, refer to JSP 754 and JSP 764. Chaplains rank relatively with each other on seniority of service (i.e. date of entry) (see also Para 4803.e).

b. **Career Commission Stage (CCS)[2].** For those joining on or after 1 Apr 15 or transferring from an ICS (or equivalent commission) after this date, transfer to a CCS automatically extends an officer's career through to 20 years' service from the date of entry or until age 40, whichever is the later, subject to retirement age.

c. **Full Commission Stage (FCS)[3].** Full Commission Stage (FCS) further extends an officer's career to a retirement age of 55.

4802. Commissions on Entry - 1 Apr 99 to 31 Mar 15

a. From 1 Apr 99, with the exception of Medical, Dental and Nursing Officers, all officers joined on the Three Tier Commission (3TC) structure, comprising:

(1) **Initial Commission (IC).**

(a) Warfare, Engineer, Logistics, Medical Services officers - 12 years.

(b) RM officers - 8 years (for RM Pilots - see Para 4917 sub para e).

(c) Chaplains - 6 years.

[1] For those Medical Personnel under UCM TACOS the ICS is known as Preliminary Commission (PC).
[2] For those Medical Personnel under UCM TACOS the CCS is known as Interim Commission (IC).
[3] For those Medical Personnel under UCM TACOS the FCS is known as Full Commission (FC).

(2) **Career Commission (CC).** For officers selected for a commission transfer between 1 Nov 13 and 31 Mar 15, transfer to a CC automatically extends an officer's career through to 20 years' service from the date of entry or until age 40, whichever is the later (known as a CC20/40), subject to retirement age. Officers selected for a CC before this date may continue to serve on either:

(a) A CC of 16 years from the age of 21 (if joining between 1 Apr 99 and 5 Apr 05) or

(b) A CC of 18 years' service or until age 40, if later, if joining between 6 Apr 05 and 31 Oct 13 or, if having joined before 6 Apr 05, transferring to AFPS05 or transferring to a longer commission during this period.

(3) **Full Term Commission (FTC).**

(a) This further extends an officer's career to retirement age, as shown at Para 5425 and Para 5427.

(b) Officers who were already serving prior to 1 Apr 15 remain on their existing commission until leaving the Service or transferring to a longer commission, at which point they will move to a NEM commission stage. For information about commissions pre 1 Apr 99, refer to archived copies of BRd 8373, which can be obtained from the Navy Command Terms of Service Team.

b. **Medical, Dental and Nursing Officers.** From 1 Apr 03 - 31 Mar 15, Medical, Dental and QARNNS Officers were subject to the Common Terms of Service (CTOS) commission structure, entering on a Short Commission (SC), with the opportunity thereafter to transfer to a Medium Commission (MC) and a Full Commission (FC):

(1) **SC.** Medical Officers - 6 years' reckonable service from full registration with the General Medical Council (GMC); Dental Officers - 7 years' reckonable service from full registration with the General Dental Council (GDC); QARNNS officers - 6 years' reckonable service from date of entry.

(2) **MC.** Medical and Dental Officers - 18 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA58; QARNNS Officers on AFPS05 - 18 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA55; QARNNS Officers on AFPS75 - 16 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA55.

(3) **FC.** This extended an officer's career to retirement age - 58 for Medical and Dental Officers; 55 for QARNNS Officers.

c. **Entry on or Before 31 Mar 03.** Prior to the introduction of CTOS on 1 Apr 03, officers served on a Short Career Commission (SCC), Medium Career Commission (MCC) or Full Career Commission (FCC) (details below).

(1) **SCC.** Medical Officers - 6 years; Dental and QARNNS Officers – 5 years.

(2) **MCC.** Sixteen years' officer service from the age of 21 or date of entry as an officer, whichever is later, subject to retirement age.

(3) **FCC.** To retirement age, which varied according to branch, rank and date of entering the Royal Navy.

4803. Rank and Seniority on Entry

a. **Warfare, Engineer, Logistics and RM Officers - Entry post 1 Sep 13**

(1) Regardless of an individual's age or educational qualifications held, all Direct Entry Warfare, Engineer and Logistics Officers join BRNC Dartmouth in the rank of Officer Cadet and promote to the rank of Midshipman on successful completion of Initial Naval Training (Officer) (INT(O)), (see Chapter 66 for the rules on subsequent promotion).

(2) Regardless of an individual's age or educational qualifications held, all Direct Entry and Corps Commission (CC)1 RM Officers join CTCRM Lympstone in the rank of Second Lieutenant and will remain in the rank until successful completion of the RM Officer initial training course, at which point they will be promoted to the rank of Lieutenant RM with seniority backdated to 12 months from date of entry if completing the training without delay (see Para 6635 sub para a for the rules on subsequent promotion).

b. **Warfare, Engineer, Logistics and RM Officers - Entry before 1 Sep 13**

(1) Between 1 Apr 07 and 31 Aug 13, the rank and seniority of individuals joining directly as Warfare, Engineer, Logistics and RM Officers was determined by their educational qualifications, as shown in Table 48-1. New entrants to BRNC and CTCRM joined with seniority of the first day of the month of entry i.e., 1 Sep for September entrants, 1 Jan for January entrants etc. The effect on subsequent promotion is shown at Chapter 66.

Table 48-1. Antedated Seniority Awards on Entry for all mainstream X, E, L and RM Officers (Entry 1 Apr 07 - 31 Aug 13)

Educational Qualification	Seniority Awarded	Rank and Seniority on Entry
Master's degree or equivalent	3½ years	Sub Lieutenant or Lieutenant RM with 18 months' seniority
Graduate or equivalent	3 years	Sub Lieutenant or Lieutenant RM with one year's seniority
Foundation degree or equivalent	2 years	Sub Lieutenant or Lieutenant RM
HNC or equivalent	1 year	Midshipman or Second Lieutenant RM with one year's seniority
Basic entrant - GCSEs, GNVQ and A levels	Nil	Midshipman or Second Lieutenant RM

(2) In addition to the baseline shown at Table 48-1, new entry Training Management (TM) Officers (including UY Officers) could be awarded additional seniority on entry to BRNC: an extra 3 years if holding a 1st or 2nd Class Honours degree (thereby entering as a Lieutenant with 1 years seniority) or one extra year for a Third Class Honours degree or Pass degree (the minimum entry qualification) (thereby entering as a Sub Lieutenant with 2 years' seniority). Additional seniority, calculated on a 50% 'pro rata' basis up to a maximum of 2 years, could also be granted for previous relevant post-graduate civilian experience which, in the opinion of the MOD, would be beneficial to the RN. As such, the maximum starting rank and seniority for a TM Officer was as a Lieutenant with 3 years' seniority.

(3) UY and CC Officers joined with a rank that reflects their antedated seniority e.g. 3 years' antedated seniority equated to a Sub Lieutenant with 1 year's seniority. RM CC Officers completed their initial training in the rank of Second Lieutenant and were awarded the same antedated seniority, dependent on educational qualifications, on completion of their initial training.

c. **Medical, Dental and QARNNS Officers[4].** Rank and seniority on entry is based on an individual's relevant post registration experience (for nurses this is as an RN(A) or RN MH). As a minimum, individuals enter as a Sub Lieutenant but can qualify for additional seniority depending on their post-registration experience:

(1) **Direct Entrant (DE), (Post-registered).** 75% of recognised civilian experience (expressed as time) within the speciality for which the applicant is to be employed will count towards military seniority. 50% of recognised civilian experience that was out of the speciality for which the applicant is applying, will also count towards military seniority. Time spent away from the practice of medicine, dentistry or nursing will not count. Part-Time Working (PTW) experience will be calculated according to the relevant percentage when compared to the standard working schedules of equivalent full-time workers.

[4] For Medical, Dental and QARNNS Officers joining the RN post 1 Jan 24, refer to individual Specialisation Annexes with JSP 755 Part 2 Vol 2.

(2) **DE, Specialist Post-graduate Accredited and Re-entry.** In addition to the statement above, 100% of recognised civilian and military experience from the date of Accreditation within the speciality for which the applicant is applying will also count towards military seniority.

(3) **Recognised Experience.** For the purposes of calculating seniority for both pay and rank purposes, recognised experience is defined as verifiable time spent in the practice of conventional medicine, dentistry or nursing, within the UK. Recognised training abroad will count towards determining seniority on entry, based on the UK training periodicity requirements for Core, Higher or Run Through training, or equivalent.

(4) **Maximum Seniority.** Seniority using career progression regulations and the formula above will determine rank on entry. For QARNNS officers, entry will be as a Sub Lieutenant, with additional seniority applied as follows: 4 years as a Sub Lieutenant and a maximum entry level as a Lieutenant with 2 years' seniority. For medical and dental officers, entry will be as a Surg Lieutenant, with seniority applied as follows: 5 years as a Surg Lieutenant and a maximum entry level as a Surg Lieutenant Commander with 8 years' seniority. Further promotion for all cadres is selective and will require a minimum of 2 years' service with appropriate recommendations in the annual reports prior to consideration at Promotions Board.

(5) **Salary.** Initial salary on entry will be determined by the applicant's rank, seniority and Accredited Practitioner status as outlined above and reflected in the Terms and Conditions of Service (TACOS) on entry (see JSP 754 Chapter 2).

d. **Medical Services Officers with an Environmental Health Practitioner (EHP) Qualification.** Direct Entry EHPs who hold either the Certificate of Registration from the Environmental Health Registration Board or Chartered Status with the Chartered Institute of Environmental Health will receive 3 years' seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant with 2 year's seniority. On leaving BRNC, Direct Entry EHPs meeting the aforementioned requirements will be assigned to OF2 positions on the trained strength in recognition of their competences as Subject Matter Experts (SMEs). Accordingly, they will be promoted to the rank of Lieutenant on the day after leaving BRNC. This date will also be recognised as the officer's basic seniority date as a Lieutenant and they will be placed on the IL1 pay spine for the rank. Graduate EHPs who do not hold either the Certificate of Registration from the Environmental Health Registration Board or Chartered Status with the Chartered Institute of Environmental Health will receive one years' seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant. These officers will be eligible for promotion to Lieutenant on attaining 30 months' seniority as a Sub Lieutenant as detailed in Chapter 66.

e. **Medical Services Officers (Submarines).** Direct Entry MSO (SM) will be required to hold a 2:2 or higher degree in Maths, Physics, Chemistry, or Biological Sciences, or for those who can demonstrate a relevant degree level qualification that supports the MoD Health Physicist role. Those who are suitably experienced and hold Member Status from the Society for Radiological Protection will receive 3 years' seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant with 2 year's seniority. On leaving BRNC, Direct Entry MSO (SM) meeting this requirement will be assigned to OF2 positions on the trained strength in recognition of their competences as Subject Matter Experts (SMEs). Accordingly, they will be promoted to the rank of Lieutenant on the day after leaving BRNC. This date will also be recognised as the officer's basic seniority date as a Lieutenant, and they will be placed on the IL1 pay spine for the rank. Graduates who do not hold Member Status will receive one years' seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant. These officers will be eligible for promotion to Lieutenant on attaining 30 months' seniority as a Sub Lieutenant as detailed in Chapter 66. Final eligibility will be through RADPOL SO2 and WFPT MED SO1 and any applicant must be able to complete the Developed Vetting process. A tailored Phase 2 and Phase 3 training package will be applied dependant on the applicant's background.

f. **Chaplains.** From 1 Apr 20, the antedating of seniority for Chaplains was discontinued. From that date, newly commissioned chaplains enter service on the Chaplain's pay range at IL 1 with their Increment Base Date (IBD) set as their first day of commissioned service[5].

[5] 2020DIN01-036 Implementation of Chaplain Pay 20 and JSP 754.

SECTION 2

DIRECT ENTRY (RATINGS AND OTHER RANKS)

4804. Engagement Structures - From 1 Apr 15[6]

From 1 Apr 15, ratings and other ranks join the Naval Service on a 12-year Engagement Stage 1 (ES1), with the possibility thereafter of transferring to an Engagement Stage 2 (ES2) – to 20 years' service or age 40, whichever is later – and then to an Engagement Stage 3 (ES3). Further details may be found at Para 4922 to Para 4924. Ratings and other ranks serving before the introduction of the new Engagement Stages will continue to serve on a Full Career (FC) or Open Engagement (OE) (see Para 4806), which will run in tandem with the ES structure until the final FC/OE expires.

4805. Tailored Career (Prior to 1 Jan 24)

a. Ratings and other ranks who have skills that are required to meet Service needs may be offered the opportunity to enter or re-enter to complete a Tailored Career (TC) of between 6 months and 11 years in length. The scope of the requirement and the applicable terms of service will be set out for each individual on a Form S3049 (Notice Form for Entry/Re-Entry into the Naval Service) which will include such details as an individual's sea-service liability, training required, return of service commitment, right to leave within 6 months if an individual has not previously served in the Naval Service or was discharged 'Not Finally Approved (Medical)' and reserve liability. TCs may be used as described below.

b. Where manning levels allow, individuals wishing to re-enter the Service, who have the required skills and experience but have insufficient time to complete the balance of a ES2, may enter on a TC. In the main, such individuals will be able to serve under the same terms as their peers on a ES2, including promotion, but individual terms may be tailored in accordance with Service needs.

c. Since qualified individuals, who may or may not have previous service and who have specific skills required by the Service, are being employed to fulfil a specific Service requirement, it is unlikely that they will be considered for promotion unless it is in the best interests of the Service.

4806. Tailored Career (from 1 Jan 24)

With effect from 1 Jan 24 the following will apply to personnel joining the RN on a Tailored Career:

a. An amended engagement structure provides for a rating/OR to enlist into Regular Service on an engagement of between 6 months and 22 years in length.

b. The legislative amendments also make it possible for those who enter via this route to be selected for an extended term of service, ending either after a period of 20 years from their date of entry into service, or date of enlistment (as the case may be) or on that persons 40th birthday, whichever is the later. If the option for selection to an extended term of service is to be available, the policy and process will be set out in the relevant sS or tri-service policy.

[6] For those Medical Personnel under UCM Terms and Conditions of Service ES1, ES2 and ES3 equate to Preliminary Engagement, Interim Engagement and Full Engagement.

c. These provisions will be utilised when there is a Service need to enter people into the RN/RM, other than by the ES1 and ES2 route currently detailed at BRd 3(1) 4804 which remains the default.

d. From 1 Jan 24, certain in medical ratings managed under UCM will enter Service under Reg 3(2) for the length of time stated for their profession, see para 6 and Ref B. In addition, they may be selected for an extended term of service to age 40/20 years as set out in JSP 755 Part 2.

e. From 1 Jan 24, Branch Managers, for any particular profession or discipline, will use the amended TC provisions. BMs must stipulate the length of initial service and availability or not, of selection for an extended term of service. Any new TC must be agreed with Navy People-WFPT Strat SO1, Navy Legal-Emp Law SO1 and Navy People-PSP Emp Pol SO1 before introduction and authorised by Navy People WFPT Head as a minimum although higher authorisation may be required.

f. **UCM Medical Ratings.** The UCM Med aligned Terms of Service (ToS) are applicable to an initial UCM Med cohort comprised of Regular personnel within the following rating disciplines as defined by UCM Med:

a. Nurse (Rating/Other Ranks) iaw JSP 755 Pt 2 Vol 2 Chapter 2. Annex F Nurse (Rating-Other Ranks).

b. Dental Nurse iaw JSP 755 Pt 2 Vol 2 Annex D Dental Nurse.

4807. Previous Engagements

a. **Full Career.** With the exception of those individuals entering on a TC (see Para 4805), ratings and other ranks entering the Royal Navy between 1 Nov 06 and 31 Mar 15 did so on a FC for 18 years from their date of entry or service up to and including their 40th birthday, whichever is later.

b. **Open Engagement.** Between 1 Sep 82 (for RN)/1 Sep 88 (for RM and former WRNS) and 31 Oct 06, ratings and other ranks entered the Royal Navy on an OE1 for a term ending on a date falling not later than 22 years from the age of 18 or their date of entry (if later). Individuals who joined the Service whilst under the age of 18 entered on the OE, served to age 18 and thereafter completed a period of 22 years' service.

4808. Reckonable Service for Career and Engagement Purposes

a. Deferment of an individual's termination date will be required in cases where ratings and other ranks forfeit time for reasons including periods of detention, imprisonment and Service Penalties, since forfeited time does not reckon towards completion of a ES1, ES2, FC or OE. The earliest date on which individuals may give notice to terminate their service (see Para 5403) may be deferred by any period of time forfeited whilst they are unqualified to give notice.

b. Individuals will be required to waive their right to give notice in consideration of a course of further career training (deferring the date on which they can submit their notice either by the length of the course or the course length plus any return of service, whichever is applicable). See Chapter 53 for more information.

SECTION 3

ENTRY FROM ANOTHER SERVICE

4809. Definitions and Terminology

Although there are limited opportunities to 'transfer' from another Service, occasionally requests are made to move from other Services to the Royal Navy or to join the RN from the RM and vice-versa. To be accurate, the process involves an individual's discharge from one Service and entry to another; as such, this is not strictly a 'transfer', but the term will be used as shorthand for the process in this Chapter. The Service in which the applicant is currently serving is referred to as the 'present Service' whereas the potential future Service is referred to as the 'gaining Service'. For transfers from the Royal Navy to other Services, see Chapter 52.

4810. Officer Transfers - Entry to the RN from the RM (and vice-versa)

a. **Untrained Strength.** A Young Officer (YO) who wishes to transfer to the RN from the RM or to the RM from the RN should thoroughly research the potential gaining Service in order to identify the branch/specialisation/regiment or corps that they wish to join. They should then follow the procedures below:

(1) Contact Rejoiners and Inter-Service Transfer Team (RISTT) to ensure that the gaining Service is currently recruiting and has vacancies, or is likely to have vacancies, in the proposed branch/specialisation.

(2) If RISTT indicates that there are vacancies and that, on the information available, the individual appears to be a suitable candidate, the YO should submit a request for transfer through their parent authority/command chain, copied to the appropriate branch/department in the gaining Service.

(3) The YO is to be interviewed by their current Commanding Officer, who is to discuss the request with the individual before forwarding the application, together with their recommendation, via the chain of command, to RISTT. At the interview, it is to be made clear that there is no automatic right to transfer between the Services and that the needs of the individual's present Service are paramount. RN YOs who request to transfer are to be advised that, in addition to the usual manning and suitability considerations, the success of their application will be dependent on the gaining Service's ability and willingness to agree an early joining date.

(4) It should also be made clear that the normal single Service rules governing voluntary withdrawal from training/voluntary retirement (see Chapter 54 Section 1) will apply and that the fact that the application is for a move to another Service will not attract preferential consideration. In addition, the YO is to be advised that, by voluntarily withdrawing from training, they may incur a financial liability (see Para 4810 a sub para (6)). Once a transfer request has been received, the appropriate policy staff should arrange the prompt release of the necessary security clearance, medical and confidential reports to the potential gaining Service. Arrangements should then be made to discuss and staff the case as soon as possible.

(5) Requests to transfer into the RM from the RN or vice-versa by Officer Cadets undertaking initial training will not normally be considered and approval will be given only in the most exceptional circumstances.

(6) Officers under training who transfer from the RN to the RM or vice-versa will not retain any seniority unless their previous service leads to a reduction in training time in the new Service. The Terms of Service Team should be consulted when it is considered that training time has been saved.

(7) Any outstanding return of service (ROS) obligation to the individual's present Service will be taken into consideration in reaching a decision and, if there is an outstanding financial liability for education costs associated with degree studies/bursary awards, the terms of the undertaking signed by the individual will transfer with the individual to the gaining Service, and will be included within their terms of service upon transfer. If the application is acceptable to both Services, (and subject to the provisions in sub-paras 2-5 above), a mutually convenient date for the transfer will be agreed so that there is no actual break in service. Transfers must normally be completed (i.e. the individual must join the gaining Service) within a period of 2 months from receipt of the formal transfer request. This timescale will be strictly adhered to and will be exceeded only in exceptional circumstances. Reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service. The gaining Service will confirm the terms and conditions of service as soon as is practicable which will be determined by the Terms of Service Team, on behalf of the Deputy Director People Delivery (DDPD), with the formal offer of transfer being made by R&A RISTT. The present Service should also, as soon as is practicable, inform the YO officially, in writing (copied to the Career Manager in the gaining Service), of the approval for their voluntary withdrawal from training and subsequently the termination date of their existing commission, which will be the day before commencement of their appointment to the gaining Service. Transfer will not take place until the individual has signed to accept the terms and conditions of service that will apply upon their transfer.

b. **Trained Strength.** There are limited opportunities for officers on the trained strength to transfer between the RN and RM. The policy and procedure are as follows:

(1) Officers who wish to transfer should contact the RISTT in the first instance in order to make sure they are currently recruiting and have vacancies, or are likely to have vacancies, in the branches in which they are interested.

(2) If the gaining Service has vacancies, applicants are to submit a transfer request through their chain of command to their Career Manager, copied to R&A and the appropriate branch within the gaining Service.

(3) Officers are to be interviewed by their Commanding Officer, who is to discuss the request with the individual before forwarding the application and their recommendation, via the chain of command, to the appropriate Career Manager. At the interview, the Commanding Officer is to make it clear that there is no automatic right to transfer between the Services and that the needs of the individual's present Service are paramount.

(4) The relevant Career Manager is to consider all applications for transfer to and from the RN or RM in conjunction with the People Capability Team before consultation with RISTT. If the application is acceptable to all concerned, the Career Manager will agree a mutually convenient date for transfer with RISTT. Any outstanding ROS obligation to the individual's present Service will be taken into consideration in reaching a decision. If the transfer is agreed by DDPD and DDPS, the normal single Service rules governing Early Termination will apply and no preferential consideration will be given to the fact that the application is for a move between the Services.

(5) Rank, seniority and other terms and conditions of service will be confirmed by the gaining Service as soon as is practicable. Detailed terms of service will be formally notified to the transferee, with a copy being sent to the present Service. As there is no actual break in service, there will be no effect on prospective entitlement to retired pay and terminal benefits, and reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service. Officers with military service prior to 1 Apr 99 who transfer will be subject to rank-related retirement ages (see Chapter 54).

(6) The present Service will issue an official letter to the officer (copied to R&A) explaining that the individual's existing commission will be terminated on the day before their assignment to a commission in the gaining Service, and that they will not be placed on the Retired List of the present Service, nor will they be subject to a recall liability to the present Service.

(7) The London Gazette will be annotated "Commission terminated (date) on transfer to..." (as appropriate).

(8) If the transfer request is not supported by R&A, officers will remain in their present Service, which will be responsible for providing official notification to the individual (copied to the proposed gaining Service).

4811. Officers - Entry from another Service or the Reserve

a. There are limited opportunities for individuals to transfer to the Royal Navy but, where approved, the following will apply. Prior to submitting a transfer request, Army/RAF Officers wishing to join the Royal Navy are advised to contact the appropriate Career Manager (details available from RISTT) for an informal discussion on the branch/specialisation they wish to join. They may be required to attend a special interview with RISTT.

b. Previous full-time commissioned service in the Army or RAF, Regular Forces of the Commonwealth or the Reserves may count where it leads to a reduction in RN/RM training required on entry to the Royal Navy. It must be noted that any nationality constraints must be resolved before transfer, taking particular note of the nationality requirements of the branch of entry and advising the individual of the branches to which they would be ineligible for any subsequent transfer.

c. Proposed offers should be made in close consultation with the Terms of Service Team and Navy People REM and the transfer process will be administered by R&A.

d. Officers with military service prior to 1 Apr 99 who transfer into the Royal Navy will be subject to rank related retirement ages (see Chapter 54).

4812. Ratings and Other Ranks - Entry to the RN from the RM (and vice-versa)

a. Commanding Officers who consider applicants suitable in all respects for transfer from their present Service to a specific RN or RM specialisation, having successfully completed any aptitudes or acquaints as appropriate, should submit an online application via the RN Careers website.

b. RISTT will forward details of those recommended and suitable for entry into the RM to PSO CTCRM Lympstone for allocation to a Royal Marine Candidate Preparation Course (RM CPC) at CTCRM. CTCRM will liaise directly with the parent ship or establishment to arrange the date of the RM CPC and ensure that the applicant is medically fit.

c. Ratings recommended for transfer to the RM, and all other ranks applying for transfer to the RN, will be processed as required by the RISTT, who will liaise with the Career Manager for a release date.

d. Personnel allowed release from the RN to enter the RM, or vice-versa, will cease to receive pay and allowances in the rank/rate they are leaving on the day before they enter the RN or are attested into the RM, as appropriate. Personnel will normally enter the RM in the rank of Marine 2, subject to requirement and DDPD approval.

e. Applications from individuals serving abroad will be considered but, if successful, transfer to the other Service will not take place until the individual returns to the UK in the normal course.

4813. Ratings and Other Ranks – Entry from another Service or the Reserve

a. Applications will be considered by the Profession Manager, in association with the Career Manager and RISTT, from those individuals with current or recent previous service in another Service. Each case will be considered on its merits, taking into account an individual's experience, the skills and qualifications that they have to offer, promotion prospects and their training requirements.

b. Proposed offers should be made in close consultation with the Terms of Service Team and Navy People REM and the transfer process will be administered by RISTT.

SECTION 4

RE-ENTRY

4814. Re-entry - General Instructions

a. No individual is to be re-entered in the Royal Navy after a break in service without the approval of RISTT. See Chapter 11 and Chapter 12 for detailed instructions for all others.

b. For those wishing to re-enter the Royal Navy, all previous reckonable service will count for length of service purposes, irrespective of the duration of any break in service.

c. Candidates for re-entry currently serving on a Full Time Reserve Service (FTRS) engagement should be aware that periods of FTRS cannot be added to periods of regular service, including former regular service, for the purposes of counting time towards service on a normal commission. Neither does FTRS count towards the determination of entitlement for terminal benefits (ss JSP 754 Ch 2 Para 1104).

d. For Medical personnel who left service under sS Terms of Service, re-joiners will see UCM Harmonisation Terms of Service applied.

4815. Re-entry of Officers - Trained Strength

a. Although contact with a prospective re-entrant is the remit of R&A, the process of re-entry is administered by DDPD. The process is thus dealt with in this section, with material specific to R&A at Chapter 11.

b. Officers re-entering the Service with former military service pre 1 Apr 99 are subject to rank-related retirement on re-entry but will not have reserved rights to promotion, i.e. former MCC or FCC Officers re-entering since 1 Apr 99 do not retain the right to automatic promotion to Lieutenant Commander/Major RM. Where a vacancy at the individual's former rank is not available, a post at a lower rank may be offered. Other terms of service for re-entrants will be considered on a case-by-case basis.

c. Individuals with former regular service are normally only permitted to re-enter the Service if they can complete the balance of their former commission. Exceptionally, individuals who completed their commission before they left may be allowed to return to complete an ICS (or part thereof) depending on the needs of the Service and will be subject to either normal retirement age or rank related retirement age (see Table 54-2).

d. All prospective officer re-entry candidates should contact the Admiralty Interview Board (AIB) in the first instance; R&A will issue the candidate with a re-entry application form. Re-entry candidate applications forwarded to any other authority, for example to the previous Career Manager, should be forwarded to R&A and the candidate informed. The following procedure will then be used:

(1) RISTT informs the appropriate Career Manager of the prospective applicant. The Career Manager retrieves all previous service documents. The DDPD Officer Strategic Workforce Planning Section determines the overall workforce structure requirements and whether approving the application is in the best interests of the Service, in particular with due regard to the strength and requirement of officers within the re-entrant candidate's Specialisation cohort.

(2) Before processing any application to re-enter, the Career Manager must sight the candidate's personal file in order to ascertain the reason(s) for leaving the Service. Those who were discharged on administrative, disciplinary or medical grounds will not be considered for re-entry. For others, Profession Managers and Career Managers determine whether the particular candidate, with their experience, skills and qualifications, meets branch and specialisation structure requirements and can be gainfully deployed by Career Managers - see Annex 48A for Advice for Career Managers on Re-Entrants. Career Managers may need to make direct contact with the candidate in order to determine the exact timing of any potential re-entry and the candidate's individual preferences on assignment. Additional discussions may include the re-entrant's need for bespoke training, probable career path and relevant promotion opportunities.

(3) If the application falls at any of the above hurdles, the RISTT will be notified with a view to sending a rejection letter. The reason for the rejection will be included.

(4) If the candidate is suitable for re-entry in all respects, the terms and conditions of re-entry will be finalised by the Officer Terms of Service Manager. These include: any reserved rights from service prior to 1 Apr 99, ROS liability for bespoke training (if appropriate), rank, seniority, commission, uniform issue, terminal date and the appropriate increment level of pay (this will be actioned in conjunction with Career Manager/Profession Manager/Promotions Section). Once completed, the personal file should be passed to Branch Managers to determine any entitlement to RRP, FRI payments, uniform issue/allowances, pension information and, in a small number of cases, gratuity repayment details (see JSP 754 05.232(i)). After clearance by NCHQ, RISTT will be notified to enable forwarding of an offer, subject to medical and security clearances, to the potential re-entry candidate.

(5) If candidates are in-date for the RN Fitness Test (i.e. carried out the test within the past 12 months – see Chapter 29 Section 3), they will not have to re-take the New Entry physical tests or the Naval Swimming Test. RISTT must stress to candidates, however, that they need to follow an appropriate form of fitness programme prior to entry. Otherwise, candidates out-of-date for the RN fitness test must undertake a fitness test within the first month of re-joining.

(6) If the re-entry candidate accepts the offer, RISTT will process the medical and security clearances for the candidate. Date of entry and the required entry establishment will be determined by the Career Manager.

(7) CMs are to make direct contact with the candidate in order to determine the exact timing of any potential re-entry and the candidate's individual preferences on assignment. Additional discussions should cover any bespoke training package, probable career path and promotion opportunities.

(8) Once an entry date has been allocated, candidates should be advised to contact their relevant Career Manager for advice. If eligible, candidates should also be advised that they may apply for Service Family Accommodation (see Chapter 25). The Career Manager should advise individuals to submit an application to the relevant Defence Estates' Housing Information Centre (HIC) in accordance with JSP 464.

(9) Trained re-entrants may use their own transport for joining their appointment. Those opting to use own transport may claim for duty travel on JPA using the receiving unit UIN. Alternatively, they may request a rail warrant from DDPD.

(10) Trained RN re-entrants will enter at a unit as directed by DDPD.

e. **Seniority for Previous Service in the Same Branch.** When an officer re-enters the Royal Navy, previous full-time commissioned service as an officer in the same branch will be taken into account. The previous seniority date will be adjusted to take account of the time that the officer has spent out of the Service, provided that the time out of the Service does not exceed five years. If the time does exceed five years, Career Managers, the Terms of Service Team and Branch Managers should be consulted.

f. **Seniority for Previous Service in a Different Branch/Specialisation of the Royal Navy.** Officers under training will not retain any seniority unless their previous service leads to a reduction in training time in the new Service. The Terms of Service Team should be consulted when it is considered that training time has been saved.

4816. Re-entry of Officers - Untrained Strength

For untrained re-entrants, RISTT and relevant Profession Manager will determine a candidate's suitability and Gains to the Trained Strength (GTS) requirements prior to entering the process above at Para 4815 d sub para (1).

4817. Re-entry of Ratings and Other Ranks

a. The administration of the process for the re-entry of ratings and other ranks is undertaken by RISTT. Ratings and other ranks wishing to re-enter the Service should contact RISTT (see Chapter 12 for detailed instructions). Rank, seniority and training requirements will be determined by the Profession Manager in association with RISTT, taking into account whether they are deemed to be trained, partially trained or untrained and what experience, skills etc, an individual has gained.

b. **Re-Entrant Training Status.** The amount of training required on re-entry will be determined both by the following definitions and the consideration of additional training requirements by the Profession Manager:

(1) **Trained Re-Entrant.** A fully trained and qualified junior or senior rating who applies to return to the RN in the same branch/specialisation from which they exited. Manning approval will be sought in all cases from relevant Branch Managers and training requirements will also need to be determined. Trained re-entrants join HMS RALEIGH for administrative purposes only. Trained re-entrants have no statutory right to claim discharge within six months of re-entry but do have the right to leave up to the age of 18, if applicable (see Para 5403 sub para b).

(2) **Partially Trained Re-Entrant.** A trainee who completes Phase 1 Training before electing to leave the Service and applies to return within 18 months. The majority of partially trained re-entry candidates will have left the Service immediately prior to, or during, Phase 2 Training, and may re-enter into their original branch/specialisation or into a different branch of choice (BOC). This category of re-entrant will join HMS RALEIGH for administrative purposes only and thereafter will be assigned to their appropriate Lead School for Phase 2 Training. The date of joining will generally coincide with the commencement of their Phase 2 Training course. Partially trained re-entrants have no statutory right to claim discharge within 6 months of re-entry, unless they were previously discharged 'Not Finally Approved (Medical)' in accordance with BR 1750A, but have a right to do so up until age 18 (see Para 5403 sub para b).

(3) **Untrained Re-entrant.** A recruit who did not complete Phase 1 Training prior to discharge. Untrained re-entrants will re-join in their original or a new BOC at HMS RALEIGH in order to undertake complete Phase 1 and Phase 2 Training. Unless previously discharged 'Not Finally Approved (Medical)' in accordance with BR 1750A, untrained re-entrants will have no statutory right to claim discharge within six months of re-entry but have a right to leave up to age 18 (see Para 5403 sub para b).

c. **Career Requirements.** Post 1 Apr 15, the following terms apply:

(1) **Re-Entry of Ratings and Other Ranks who Initially Joined Prior to 1 Apr 15 and Left on the Untrained Strength.** Individuals who did not reach the trained strength prior to their discharge will return to the Royal Navy on a new 12-year Engagement Stage 1 (ES1), irrespective of whether the previous engagement was an ES1/FC/OE1 or the time previously served.

(2) **Re-Entry in a New Specialisation - Ratings and Other Ranks who Initially Joined Prior to 1 Apr 15.** Irrespective of the rate/rank held on leaving, individuals who re-enter in a new specialisation will return on a new 12-year ES1.

(3) **Re-Entry in the Same Specialisation - Ratings and Other Ranks who Initially Joined Prior to 1 Apr 15 and Left on the Trained Strength as an AB/Marine.**

(a) Individuals who served less than 12 years served on an FC/OE1 will re-enter on an ES1, minus the previous reckonable regular service. Progression to ES2 is dependent on substantive promotion to OR4. Continued service on an ES1 beyond 12 years to allow the individual to qualify for selection for promotion may be enabled through a revised Engagement Expiry Date (EED).

(b) Individuals who served more than 12 years served on an FC/OE1 will re-enter on an ES1 with an Extended Career to enable completion of an equivalent engagement to the one the individual originally served on. Progression to ES2 is dependent on substantive promotion to OR4.

(4) **Re-Entry in the Same Specialisation - Ratings and Other Ranks who Initially Joined Prior to 1 Apr 15 and Left on the Trained Strength as a Leading Hand/Corporal or Higher.**

(a) Individuals who left on a FC/OE1 will re-enter on the balance of a 20-year ES2.

(b) Individuals who left on an EC/2OE will re-enter on an Engagement Stage 3 (ES3) of 5, 10 or 15 years' length of service.

d. **Minimum Time to Serve and Re-Training.** Re-entrants are required to serve for a minimum of 12 months from the date of re-entry or completion of any re-training required, whichever is the later, with the exception of the following:

(1) Where a bespoke package of training is required on re-entry, the individual will be informed of the applicable time to serve by R&A prior to joining.

(2) Where an individual previously left the Royal Navy before joining the trained strength or prior to completing the minimum time to serve period following initial training (e.g. if individuals left the Service before 18 years of age), re-entrants will be liable to provide the full minimum time to serve mandated in Chapter 54 on completion of any re-training required. This time must be served in full before any application for early termination.

(3) Where an individual's re-entry is linked to a financial payment e.g. a re-joining bounty, they will be informed of the required time to serve by R&A prior to joining.

e. **Rank and Seniority on Re-entry.**

(1) Applications for re-entry will be considered by the Branch Manager (in association with the Career Manager). Each case will be decided on its individual merits (it should be noted that there is no provision for the automatic award of previous rank and seniority). The Branch Manager will take into account the following:

(a) Type of career to be undertaken e.g. the balance of an ES1/ES2 or a Tailored Career.

(b) Relevant skills, experience and qualifications that the individual has to offer from both their previous service and any gained in civilian employment.

(c) Promotion prospects.

(d) Training requirements i.e. to ensure that an individual's skills are current, including the retaking of any courses, examinations or qualifications that are deemed to be out-of-date and undertaking new courses, examinations or qualifications that have been introduced since the individual left the Service.

(2) The proposed offers to individuals should be made in close consultation with the Terms of Service Team and the re-entry process will be administered by R&A (see Chapter 12).

4818. Re-entry – Use of Acting Higher Rank (AHR)

a. Use of Acting Higher (AHR) on re-entry seeks to incentivise those who have previously served to re-enter the RN, without disadvantaging those who remain in service[7]. It enables re-entry in Acting Higher Rank (AHR) where there is a clear requirement for their Knowledge, Skills, Experience, and Behaviours (KSEB) gained outside of service.

b. **Eligibility.** The following eligibility criteria and assumptions apply:

(1) AHR on re-entry is bounded as it is for in-service candidates i.e. one rank up[8]. This reduces the requirement for any significant re-training beyond that required in the normal course of assigning people, but Career Managers (CMs) will assess on a case-by-case basis.

(2) The individual should normally meet the in-Service medical standards. The pre-entry MEB may be used a vehicle to assess the employability of those with medical limitations, e.g. if they have valuable KSEB to ameliorate a pinch point.

[7] Ex-Regulars (Royal Fleet Reserve (RFR)) and Part Time Volunteer Reserves (PTVR)) can already apply for FTRS positions one rank up from their last rank or rank in the Reserves, but there is not yet any ability to promote substantively on FTRS.
[8] Exceptionally, promotion to 2* from OF5 is permitted as it is under current policy subject to FSOAB approval.

(3) All other criteria apply for re-joining if previously discharged in accordance with this chapter.

c. **Re-entry Process.**

(1) **Assessment of KSEB.** Using the guidance available at Annex 48A, Career Managers (CMs) should consider suitable candidates for re-entry in the AHR. To ensure delivery of a fair, robust and transparent process, any individual who is granted AHR on re-entry will be compared objectively, so far as practicable, against the relevant professional competency framework and typical role requirements at that rank/rate. This is particularly relevant in those professions/specialisations where the merit-based selection process is fiercely competitive. In other words, the assessment of KSEB will seek to ensure that those in service are not disadvantaged.

(2) This process will be conducted by R&A[9] with advice from the relevant CM, Professions Manager, Promotions and the Terms of Service policy desks to ensure that proper assessment of a person's CV is conducted, and there is parity across professions. A formal assessment interview is to be conducted (in line with existing FTRS format/guidance), led by the CM[10] and supported by the Re-joiners and In Service Transfer Team (RISTT). Relevant evidence of KSEB can also be garnered through:

(a) Academic qualifications gained since leaving.

(b) Membership of professional bodies or organisations.

(c) Any performance reports or references from civilian employers.

(d) Previous SJAR/OJARs.

(3) The assessment assumes that re-joiners will be employed primarily in their Profession. Where an individual is re-joining at a more experienced level and has KSEB that would make them employable in second-stage career fields, advice should be sought from the relevant CM. Any selection for professions under Unified Career Management (UCM) will need to be agreed with the UCM CM in StratCom.

[9] Re-joiners and In Service Transfer Team (RISTT).
[10] Minimum rank of OF3 for OR7 and below. Minimum rank of OF4 for OR8 and above.

d. **Award of AHR.** For those officers who are deemed suitable for the award of AHR, the relevant CM will follow policy in Chapter 66, Section 4 as part of re-entry process. Similarly, the award of AHR for OR2 to OR6 on a local acting basis[11] will follow extant policy. When authorised, AHR will be awarded for the duration of an assignment as directed by the CM, with their performance and potential captured as part on the annual reporting process. In the case of a re-entrant holding AHR that does not receive a recommendation for promotion after 12 months, they will be given a further 12 months in AHR. At 24 months, they may be reverted to substantive rank. Where a re-entrant is recommended for promotion but not selected, continued employment in AHR is permitted where it is in the service interest, however, it should be noted that there is no guarantee of continued employment in AHR beyond their FAD.

e. **Annual Appraisals.** On re-entry, normal reporting procedures will apply with the SP ordinarily being reported on at their next Common Reporting Date (CRD). Exceptionally, advanced/delayed Annual Appraisals (ARs) may be authorised, to allow a subject up to a 6-month reporting period prior to the next promotion board. Advanced or delayed ARs should only be considered where the subject is worthy of a clear unequivocal positive recommendation for promotion to the next rate/rank. In these circumstances it is vital that early dialogue takes place within the reporting chain and authorisation sought from the appropriate Board Secretary in the RN Workforce and Career Progression Team.

f. **Career Progression.** All re-entrants holding the AHR will be considered for selective promotion along with all other eligible candidates under extant policy[12]. Similarly, all re-entrants will assume the relevant engagement/commission under in accordance with Annex 48B. Re-entrants that have limited time to serve out existing engagement/commission will be managed by EOS/EED adjustment and presented for transfer at the next board.

g. **Non-recommendation for AHR.** Where an individual applies to re-enter but is unsuccessful in gaining approval for AHR, they may be offered employment in their previous rank, but consideration can be given for award of seniority to reflect their KSEB in line with existing policy.

h. **Warnings and Disciplinary.** Poor professional performance or disciplinary issues, including reversion and disrating will be in accordance with existing policy[13].

SECTION 5

MISCELLANEOUS

4819. Military Aviation Degree Scheme

a. **General.** The Fleet Air Arm (FAA) has formed, with the AAC and RAF, the UKAF Military Aviation Academy (UKAF MAA) for the award of Foundation and BSc (Hons) degrees in Aviation Systems Management for aircrew and Airspace Management for ATCOs. All the degrees are accredited by the Open University (OU) and include all flying training or ATC training up to Certificate of Competence (CoC)The degree scheme is open to all students.

b. **The Degree Programme.** The programme is in two distinct phases. The programme is in two distinct phases. The first is an OU Foundation Degree in Aviation Systems Management for aircrew and Airspace Management for ATCOs, which are completed at end of OCU for aircrew and one year after completing JATCC for ATCOs. The BSc (Hons) degrees of the same names are completed at CoC (Combat Ready for fast jet) or after completing the relevant adquals for ATCOs.

c. **Funding.** Funding is provided by the Service. There is no requirement for a student to pay anything.

d. **Failure in Training.** Failure to complete training will automatically result in undergraduates being withdrawn from the UKAF MAA Degree course. However, HE points accrued for completion of courses within the scheme may be retained for use in any self-funded degree programme outside the Service.

e. **Voluntary Withdrawal from Training.** If a student voluntarily withdraws from training, they will automatically be withdrawn from the programme and there will be no requirement to repay study costs.

f. **Advice to Students.** The UKAF MAA Programme Manager (UKAF MAA PM) runs the schemes for all three Services and is available to provide advice and guidance to students concerning these degree schemes. UKAF MAA PM works for Cdr FT at Navy Command and is contactable at NAVY CU-AIR UKAF MAA PM.

4820. Royal Navy Foundation Scheme

a. **General.** This paragraph details the terms and conditions of service associated with personnel serving on the Royal Navy Foundation Scheme (RNFS), **only where they differ from standard TACOS** associated with ratings joining on a regular ES1.

b. **Engagement Length & Transferability.**

(1) The RNFS offers a 1-year engagement only, with options to subsequently transfer onto ES1/IC. Transfers at or prior to the end of the foundation year are treated as branch transfers and are subject to service requirements and entry standards being met.

(2) Eligibility for branch transfer will be determined by the CM, who will access the candidates RITS information via the Recruit and Attract allocations team. This information, in conjunction with the JEM/DAA Threshold Matrix, will identify which roles the candidate is eligible for. Where candidates have received an SJAR at the point of application, recommendations in this SJAR should be considered; DAA waivers may be awarded at the PM's discretion. Thereafter the branch transfer will follow the process from para 5112 (ratings on the untrained strength), with a Ph.2 course allocated by UTS Ratings Pipeline Manager.

c. **Age Restrictions.** U18s are not permitted. Upper age limits remain aligned with standard RN Regular policy (40).

d. **Rank & Seniority.** Entrants join as substantive OR2 (AB2), as per standard entry.

e. **Statutory Right of Discharge.** The normal 6-month early termination period is extended to cover the entire foundation year, allowing exit on 14 days' notice after 28 days' service.

f. **Minimum Time to Serve (MTS).** No MTS applies; individuals may submit notice at any stage after the statutory period.

g. **Promotion Opportunities.** There are no promotion prospects during RNFS; opportunities only arise upon branch transfer to ES1/IC.

h. **Deployability & Training Status.** Personnel are considered to be on the Trained Strength immediately after Ph1, this is a reflection they have no Ph.2 training requirement. Following successful completion of BSSC, and having already completed of RNPES during Phase 1, personnel are deemed safe to be employed in surface ships, subject to local risk assessment and therefore should be considered fully deployable from this point.

i. **Pay & X-Factor.** RNFS personnel will receive Initial Pay for the first 26 weeks and then OR2-1 Supp 1 pay, both subject to 5% X-Factor. If they subsequently transfer to a different engagement seniority gained on the RNFS will be transferred as part of their new TCOS.

j. **Pension.** Due to the length of engagement personnel will not meet the vesting period for AFPS15 (2 years). If they leave the Service at the end of 12 months' service, they will receive a Cash Equivalent Transfer Value (CETV) which can be transferred to an alternative scheme.

k. **Leave Entitlement.** Annual Leave is reduced to 28 days including public holidays. Entitlement to sea going and terminal leave is as per JSP 760.

l. **Reserve Liability.** RNFS personnel have no reserve or recall liability.

4821. Medical and Dental Officers - Professional Registration

a. All Medical and Dental Officers serving in the Royal Navy are to be currently registered with the appropriate professional body.

b. The Medical Act 1983 requires all Medical practitioners to be fully registered to hold an appointment in the Armed Forces. Cadets provisionally register with the General Medical Council (GMC) of the United Kingdom having completed statutory training. All Direct Entry Medical Officer applicants, including re-entrants, must be fully registered with the GMC.

c. Dental cadets register with the General Dental Council (GDC) of the United Kingdom on completion of statutory training. All Direct Entry Dental Officer applicants, including re-entrants, must be fully registered with the GDC.

d. It is the responsibility of the single Service to verify an individual's registration with the GMC or GDC. The date of that statutory registration and subsequent re-registration is to be maintained in the individual's record of service. Any individual who is not registered with their professional organisation, for whatever reason, must be removed from clinical practice until registration has been reinstated.

4822. Medical Defence Organisation Membership

It is not a condition of service that Medical and Dental Officers belong to a medical defence organisation. The MOD accepts responsibility for defending or settling a claim arising from an officer's actions when attending entitled personnel, which includes civilian secondments in the NHS (the NHS normally underwrites individuals as part of any secondment 'contract'). Officers may wish to have defence organisation representation, however, to help protect their professional reputation in any professional interface with the GMC or GDC. Any officer who wishes to undertake 'private' practice whilst not on duty in accordance with MOD policy must have membership of a defence organisation.

4823. QARNNS Officers - Registration with the Nursing and Midwifery Council (NMC)

Candidates must be registered on an appropriate part of the Register of the NMC for Nursing, Midwifery and Health Visiting. When assessing post-registration experience, proof of working will be required. See also Para 4803 sub para c.

4824. Membership of the Royal College of Nursing

All QARNNS Officers are strongly advised to belong to the Royal College of Nursing. They are responsible for paying their own subscriptions.

ANNEX 48A

ADVICE FOR CAREER MANAGERS ON RE-ENTRANTS TO THE ROYAL NAVY

1. Process

Officer, rating and other rank re-entries to the Royal Navy are not uncommon and there is a well established process to administer an individual's return to uniform (for officers, this is given primarily in Chapter 48 but with some coverage in Chapter 12; for ratings and other ranks, this is given primarily in Chapter 12 but with some coverage in Chapter 48). The purpose of this guidance is to offer Career Managers a flexible approach when considering making an offer to an individual. Flexibility is crucial and is to be encouraged since the re-entrant may well be bringing niche skills that are in short supply within the Service and which have been enhanced by their civilian experience. The objective of any negotiations should be to provide a 'full and fair' offer to an individual, such that the Service is able to compete within the open market for suitable talent.

2. Considerations

The following points should be considered:

a. If necessary and considered appropriate, Career Managers should maintain databases of individuals who are leaving the Service who would be suitable for further service.

b. Identify individuals to re-join and consider making an approach. An approach could be made at any time after an individual leaves the Service. Previous subjective experience indicates that within the two to four year time scale is not un-reasonable. It is considered that personnel who might wish to re-join sooner will in most cases make contact under their own initiative.

c. Invite individuals to attend an interview at which the following issues need to be addressed:

- type of career or engagement;
- career pathway;
- rank and seniority on re-joining, including any awards of additional seniority for civilian experience and qualifications;
- promotion prospects and promotion board attendance;
- pension;
- uniform grants and kit issue;
- training, training gap analysis and re-familiarisation; and
- update on the wider benefits and allowances package including: Medical and Dental care; Housing; Sport and Adventurous Training; and Continuous Professional Development and Education.

d. Close consultation should take place with the Terms of Service team throughout the process.

ANNEX 48B

TERMS OF SERVICE ON RE-ENTRY OR TRANSFER TO THE ROYAL NAVY

1. Purpose

This Annex details the commissions or engagements to be awarded to individuals re-entering or transferring to the Royal Navy (note: all re-entries and transfers are subject to prevailing manning requirements). For completeness, all re-entry and transfer routes are included, including those in and out of the RNR and RMR and from the Volunteer Reserve forces of the Army and the Royal Air Force.

2. Re-entry and Transfer of Untrained Personnel

Personnel who have not been a 'Gain to the Trained Strength' in any Regular or Volunteer Reserve employment (ie. left the Service as Untrained personnel) will rejoin to complete a new initial engagement (ES1) or commission (ICS).

3. Re-entry and Transfer of Trained Personnel

The flow charts listed at Para 5 detail the standard offers that may be made without specific approval to the PPLAN Strategic Workforce Planners (SWPR SO1 and SWPO SO1). In addition, variations to the standard offers may be made by Branch Managers and, in some instances, subject to approval of the relevant Strategic Workforce Planner. Where an individual's circumstances are not addressed in the flow charts, advice is to be sought from NAVY PERS-CNPS TERMS SO1C.

4. Transfers between the RN, RM, RNR and RMR

Transfers between the RN and RM (and vice-versa) and between the RNR and RMR (and vice-versa) are to be treated as transfers between Services.

5. Flow Charts

Re-Entry/Transfer Route	Chart

CHAPTER 49

COMMISSION TRANSFERS AND CONTINUANCE IN SERVICE

SECTION 1

OFFICER COMMISSION TRANSFERS

4901. Instructions Applicable to all Commission Transfers

These rules apply to all officers in the Royal Navy regardless of the commission type.

4902. Overview

a. Transfers from an Initial Commission Stage (ICS) (or equivalent pre-April 2015 commission (Initial Commission (IC) or Short Commission (SC)) will normally be to the Career Commission Stage (CCS). This will extend an officer's career to 20 years' length of service or to age 40, whichever is later, but not beyond age 55.

b. Individuals serving on a CCS or equivalent pre-April 2015 commission (Career Commission, Medium Commission or Medium Career Commission) will, on selection, transfer to a Full Commission Stage (FCS), with service to age 55. Selection to FCS will guarantee service to age 55, even if the officer was previously subject to a rank related retirement age of 50 or 53.

c. FCS beyond age 55 will be known as Commission Extension (CE) and will be by selection and strictly to meet Service requirements. See Para 4917 for further details.

d. In addition to selective commission transfer there are also opportunities for automatic commission transfer. Officers who are not eligible for automatic transfer (see Para 4915) and who are not selected for transfer to a CCS or FCS may be able to continue to serve on an EOS basis if there is a Service need (see Section 3). They may be considered for selection to CCS/FCS if otherwise eligible.

e. Medical personnel are to refer to JSP 755 Part 2 Vol 2 - Unified Career Management (UCM) harmonised TACOS. Commission Transfer zones for medical personnel on legacy TACOS will be modified to the most beneficial between harmonised UCM or legacy timings, e.g. personnel will enter a Commission Transfer zone at the earlier of the two timings and exit the Commission Transfer zone at the latest of the two dates.

4903. Eligibility

a. All officers will be considered for transfer to a longer commission regardless of their volunteer status in JPA. To be eligible for a commission transfer, an officer must be on the trained strength and:

(1) Have achieved the following number of years' officer service on the Effective Date of Transfer (ETD)[1]:

(a) For transfer to CCS – 5 years[2] with the exception of Chaplains who become eligible for commission transfer on 3 years' officer service.

(b) For transfer to FCS – 8 years.

(2) Be able to complete a further period of service beyond the current commission up to retirement age (see Chapter 54 Section 4).

(3) Be serving on their current commission, including extensions of service, on the ETD.

(4) **MR Officers.** Must be either List 1, List 2 or List 5 (those on List 5 must have a MR Specialisation Short Appraisal Report (SAR)[3]) and have achieved Certificate of Efficiency for 4 out of the last 5 training years.

(5) Additionally for transfer to FCS:

(a) **TM Officers.** Must be in possession of the Post Graduate Diploma in either Training Management and Consultancy or Human Resource Development and Training Management, as part of the recognised TM CPD scheme. It is the individual's responsibility to ensure this is reflected as a competency in JPA before the commission transfer 'Files Out' date, as stated within the Boarding Programme available on the Promotions SharePoint[4].

(b) **Logistics Officers.** Be a substantive Lieutenant Commander on the Effective Transfer Date.

(c) **Engineer Officers (except WE/WESM(C) and TM).** From the date of the 2029 commission transfer boards, have achieved the professional registration title of Incorporated Engineer (IEng) with the Engineering Council, through a recognised Professional engineering Institute. Further details on how to gain IEng and CEng for all engineering Officers can be found in BRd 9962.

(d) **RMR Officers.** Successful completion of:

i. Walcheren Essay.

[1] 1 Feb for Lt RN/Capt RM and 1 May for Lt Cdr/Maj/Chaplain.
[2] Officers who commissioned through the WO1 Commissioning Scheme see Chapter 50 Section 4
[3] Officers who seamlessly enter from Regular service can be deemed to have achieved CoE for those years not as PTVR.
[4] Officer should seek clarification from their Career Manager if required.

ii. RMFT. And in-date RMFT is required at the OF2 CRD (31 May) and on the date of commission transfer eligibility checks/OF3 CPD (1 Oct). This will ensure commission transfer eligibility, OF2-OF3 promotion eligibility, and substantive promotion to OF3 if selected.

b. Officers who are otherwise eligible for transfer but who have submitted their Notice will remain eligible for consideration if they are still serving on the day the transfer board convenes.

4904. Medical Fitness

Officers and Ratings who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for further service. The following principles apply:

a. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for further service beyond the individual's current Tx date as part of their determination in retaining an individual in service. This determination will take into account age, experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in continued service. If the NSMEB deems that further service is appropriate, then they will be categorised as 'Eligible for Commission Transfer' or 'Eligible for ES'. If the NSMEB deems that further service is not appropriate, then they will be categorised as 'Not Eligible for Commission Transfer' or 'Not Eligible for ES'.

b. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for further service.

(2) Where an expectation that a temporary JMES would be removed and the individual will regain a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see para b above).

(3) Where an individual is pregnant and has the JMES code of E6, their fitness for further service should be assessed in light of their previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for further service. If she was previously in a permanently reduced JMES, she should be assessed as per their previous NSMEB determination (see para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for further service. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent

medical category to be awarded and their eligibility is to be determined by NSMEB.

(4) Where it likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for further service subject to the subsequent NSMBOS/ROHC and NSMEB recommendations.

(5) Any doubtful case is to be referred to the NSMEB.

4905. Officers Requesting Early Termination

Officers selected, or who have applied, for a transfer to a longer commission but who subsequently apply for Early Termination will not be transferred. Officers who later withdraw their Early Termination request may apply formally to Hd Proms through their CM for the transfer to be reinstated.

4906. Transfer Guidelines

a. The key criterion for commission transfer is employability in the current rank and not necessarily the potential for promotion to the next rank. For transfer to a FCS, officers will be expected to have demonstrated long term employability, to Lt Cdr/Maj or above, as well as satisfying the minimum professional standards.

b. To ensure the workforce requirement is captured accurately, candidates who have been selected for promotion, but are yet to be substantively promoted, will be presented at the commission transfer board for the higher rank.

4907. Confirmation of Transfer

Confirmation of selective transfer is subject to continued eligibility on the effective date of transfer. Officers selected must:

a. Continue to be recommended for transfer[5].

b. Not awaiting Court Martial or other disciplinary proceedings. Confirmation of transfer in each case will be dependent on the outcome of that process.

c. Be medically fit for transfer (see Para 4904).

d. Have not requested Early Termination (see Para 4905)

4908. Refusal of Commission Transfer

Officers who do not wish to accept transfer should discuss the implications of doing so with their Career Managers. A declaration of refusal must be made in writing to the appropriate Branch Promotion Board Secretary before the Effective Transfer Date. Officers will be considered at the next transfer selection board following refusal providing that they continue to meet the eligibility criteria. Similarly, any officer not wishing to be presented to a commission transfer board may withdraw at their own request. Any such request must be made in writing to the appropriate Branch Promotion Board Secretary, via the relevant Career Manager, prior to the commission transfer selection board. Selected officers who do

[5] This will be assumed unless an appraisal has been finalised with a NO recommendation after the selection process. In these circumstances the candidate will be deselected at ETD.

not indicate their intention to refuse will be assumed to be volunteers and will be transferred as appropriate.

4909. Officers Not Recommended for Commission Transfer

Officers who are not recommended for transfer to a longer commission, but who meet all other requirements listed at Para 4903, will also be considered by the Board for transfer. If any candidate receives less than a YES recommendation for transfer, the board is free to select that officer if they feel that other considerations outweigh the recommendation.

4910. Selection Boards, Membership and Transfer Dates

a. Commission Transfer selection boards will sit annually with dates published in the Officers Boarding Programme[7]. Candidates will first be considered at the Board immediately preceding their zone entry.

b. Effective Transfer Dates (ETD) are as follows:

(1) **OF2:** 1 Feb

(2) **OF3:** 1 May

c. The principles and procedures applied by Transfer Boards are similar to those defined for promotion (see Chapter 66). Selection Board membership is summarised in Table 49-1.

Table 49-1. Transfer Board Membership

Transfer Board	TSB Membership
Lt/Capt to CCS/FCS	Chair: Profession OF4 CM Profession OF4 Independent OF3 Sec: PROMOF-BS
Lt Cdr/Maj to CCS/FCS	Chair: Profession OF4 CM Profession OF4 Independent OF4 Sec: PROMOF-BS
Chaplains	Chair: NCS PSO SO1 (independent) Deputy Chaplain of the Fleet Profession member Sec: PROMOF-BSR

4911. Spare

4912. Spare

4913. Spare

[7] Found at: https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/Promotions.aspx

4914. Former Service - Effect on Transfer Zones

a. Former service will be taken into account when calculating transfer zones for the following officers:

(1) Those who re-enter the Royal Navy to complete the balance of their previous commission.

(2) Those who transfer from the Army or RAF to complete the balance of a comparable commission in the Royal Navy.

(3) Those who transfer between branches or specialisations without changing to a different commission.

b. If officers have been given a wholly new commission, for which former service has been, or not, allowed for pension or retired pay purposes, then the former service will also be allowed/not allowed when calculating transfer zones. In these cases, transfer zones will be calculated from the start of their new commissions and officers should be aware that this break in their service continuity may adversely affect their transfer prospects.

4915. Automatic Commission Transfers

a. Automatic Commission Transfer are subject to the needs of the Service and are Branch specific as set out in the sub-paras below. Individuals must also satisfy the baseline requirements at Paras 4903 and 4907, except for 4903.a(1) where transfer zones do not apply to automatic commission transfer.

b. An officer on ICS need not stage through CCS to FCS if they otherwise satisfy all eligibility criteria for automatic transfer.

c. **Application.** Application for an automatic transfer remains the responsibility of the individual and should be made through the Chain of Command to the Career Manager who, when satisfied the application meets the criteria at Para 4903, will direct the Promotions Office to action the transfer on JPA.

d. **Declining Transfer.** An officer being offered automatic transfer has no obligation to accept (see Para 4908). Subject to meeting all other eligibility criteria, any officer who declines an automatic CCS or FCS transfer will be transferred should they re-apply.

e. **RN/RM Fast Jet Pilots.** In view of the very small number of pilots qualified to fly fast jet aircraft and the high cost and length of training, on successful completion of Operational Conversion Unit (OCU) all pilots serving on an ICS will automatically be transferred to a CCS. Details of the return of service (ROS) for Fast Jet Pilot training are contained in Annex 53C.

f. **RN/RM Rotary Wing Pilots and Observers.** On achievement of Role Performance Statement (RPS), post Operational Conversion Unit (OCU) and successful award of Certificate of Competence (CofC), along with a recommendation from the CO on their OJAR and remaining fully medically fit, all pilots and observers will automatically be transferred to a CCS. Details of the ROS for Rotary Wing Pilot and Observer training is contained in Annex 53C.

g. **Warfare Officer CCS Transfers.** Automatic transfers to a CCS will be offered to officers at the following stages:

(1) On successful completion of any of the following courses:

(a) Fleet Navigation Officer Course (FNO) (SS).

(b) MM/PP Commanding Officers' Designate Course (CODC).

(c) Principal Warfare Officers' (PWO) Course (including pre-PWO technical course).

(2) On achievement of Role Performance Statement (RPS) and receipt of a CO’s recommendation in any of the following: FNO (SM), Mine Clearance Diver (MCD), Mine Warfare Officer (MWO), Fighter Controller (GSX FC), Intelligence (GSX INT), Hydrography (H), and Meteorology Oceanography (METOC).

(3) On completion of first operational tour within the Special Reconnaissance Regiment (SRR) or Defence Humint Unit (DHU).

(4) On appointment as the First Lieutenant of a River Class OPV. Transfer, once an individual has achieved a CQ1 qualification and received a recommendation from the Commander Overseas Patrol Squadron.

(5) Exceptionally, to grow maritime planning capability and to mitigate workforce shortfalls in the PWO cadre, a CCS transfer will be offered to all GSX Officers who complete the Maritime Planning Officer course and who complete a subsequent operational tour.

(6) Ordinarily, these automatic commission transfer opportunities above would negate the requirement for a GS/SM selective commission transfer board. However, in order to retain talent where non-traditional career profiles are evident, all officers in their final 3 years before ICS completion, will be presented to the commission transfer board for consideration, subject to Service requirement.

h. **Warfare Officer FCS Transfers.** Automatic transfers to a FCS will be offered to officers at the following stages:

(1) To PWOs and PWO (SM) watch leaders - on achieving RPS and receiving a CO's recommendation.

(2) To any GS(X) officer on successful completion of Specialist Navigator course (WAR 111 SPEC N).

(3) To X(HM) officers - on successfully attaining H or M Charge, providing they receive a CO's recommendation entered in JPA, are a volunteer for FCS transfer and meet the criteria at Para 4903 sub para b.

(4) To GS(X) officers - on successful completion of a junior SASB1 assignment, subject to receiving a Squadron Commander's recommendation and meeting the eligibility criteria at Para 4903 sub para b.

(5) To Pilots – on completion of qualification as a Qualified Flying Instructor (QFI)/Qualified Helicopter Instructor (QHI) and successful re-categorisation from B2 (Provisional) to B1 (Competent), along with a recommendation from their CO. For those selected as a Fast Track QFI/QHI, they must also meet the eligibility criteria laid out in Para 4915 sub para e or 4915 sub para f before automatically transferred to FCS.

(6) To Observers – on completion of qualification as a Qualified Observer Instructor (QOI) and successful re-categorisation from B2 (Provisional) to B1 (Competent), along with a recommendation from their CO.

(7) To any Aviation officer who successfully qualifies as a PWO(AV), along with a recommendation from their CO.

(8) To any Pilot who successfully completes ETPS, or any Pilot/Observer completing Aero-systems course, along with a recommendation from their CO.

i. **Air Traffic Control (ATC) Officers.** The bearing of ATC officers, including ATC Fighter Controllers, is very small and as such, is susceptible to short term fluctuations and early losses after the lengthy training process. It is necessary, therefore, to safeguard this cadre of personnel by awarding them an automatic transfer to a CCS once they have achieved Competence to Operate status as laid down in BRd 768. As a consequence, SUY ATC officers, who will already have achieved Competence to Operate status as ratings, will be offered transfer to CCS immediately on completion of initial officer training at BRNC. Automatic transfers will be offered to individuals subject to a satisfactory recommendation from their CO on their latest OJAR/Standard Report Form. Should an officer refuse the CCS transfer ('opt out'), they will no longer be considered for a CCS transfer until they formally request, through their CO, to be re-considered. The application will then be processed through the normal selective transfer route.

j. **Barrister Training.** Officers selected for Barrister training whilst serving on an ICS (or equivalent commission) will be committed to an automatic transfer to a CCS 1 month before completion of bar finals/upon successful completion of bar final examinations. The ROS liabilities for Barrister training (see Chapter 53) are unaffected by this automatic transfer.

k. **Logistics Officer CCS Transfer.** Automatic transfer to CCS for all Logistics Officers serving on ICS(12) will be offered on completion/achievement of the following:

(1) Yes recommend (or higher) for Commission Transfer in at least one OJAR.

And either:

(2) Successful completion of the Logistics Professional Command Board (LPCB), as determined by the award of the LPCB competence in JPA.

Or:

(3). Upon substantive promotion to OF3.

l. **Engineer Officer CCS Transfer.** Automatic transfer to CCS for all Engineer Officers serving on ICS will be offered on achieving the JPA competence ‘Charge Qualification’ (Engineer GS/SM) or ‘Certificate of Competence’ (Engineer FAA).

m. **Engineer Officer FCS Transfer.** All Engineer Officers, except TM, will be offered automatic transfer to FCS on substantive promotion to OF3.

n. **Royal Marine Officer CCS Transfer.** Automatic transfer to CCS for all RM OF2s serving on ICS (12) will be offered on achieving the following criteria. Where the criteria are not met but the subject and CoC request consideration, applications must be made in writing to SO1 OCM RM for arbitration. Only compelling cases will be considered.

(1) Yes recommend (or higher) for commission transfer in latest OJAR.

(2) In date for RMFT.

(3) Junior Officer Leadership Programme 2 (DE officers only).

(4) Completed Junior Officer Tactical Awareness Course (JOTAC) or Captain’s Warfare Course (CWC) before or during RY 24/25 (DE officers only). From 1 Jun 25 JOTAC will become the sole criteria for commission transfer

(5) Walcheren Essay (not RMBS officers).

(6) Director of Music Qualification (RMBS officers only).

o. **Promotion to Cdr/Lt Col.** Any officer not serving on a FCS selected for promotion to Cdr/Lt Col will be offered automatic transfer to FCS on the effective date of promotion.

p. **Training Management (TM) Officers.** Transfer to CCS for all Training Management Officers serving on ICS will be automatic on the completion/achievement of the following:

(1) Yes recommend (or higher) for commission transfer in an individual's last 2 OJARs.

Or:

(2) have achieved 60M Credits of the Post Graduate Diploma in either Training Management and Consultancy or Human Resource Development and Training Management, as part of the recognised TM CPD scheme.

Or:

(3) Upon substantive promotion to OF3.

4916. Transfer to Full Commission Stage (Aviator) (Professional Aviator Spine (PAS).

FCS(A) is no longer open to selections wef 1 Apr 25. JSP 754 Part 2 Section 23 covers the policy for all Officer Aircrew (OA) who have been selected and have chosen to serve on the PAS and specifically define the pay arrangements for all officers on this pay spine, otherwise pay for this group is governed by standard regulations.

4917. Commission Extension to Retirement Age 60 (CE60)

a. Commission Extension is a change in Engagement Expiry Date (EED) that extends the current commission stage. The profession and specialisation requirement will be generated annually and controlled by a Maximum Authorised Number (MAuN) - sometimes the MAuN will be zero. CE60 will take one of two forms:

(1) Officers serving on an FCS may have their commission stage extended up to age of 60.

(2) Officers serving on an ICS/IC or a CCS/CC that expires on their 55th birthday[8] may be selected to serve out the balance of their commission stage up to a maximum age of 60. Should an officer's commission not extend to age 60, selection for service beyond age 55 will include an automatic transfer to the next applicable commission stage (CCS/FCS).

c. Although not a commission transfer, the same principles outlined at 4901-4914 for commission transfers (for eligibility, medical fitness, confirmation, and refusal etc) apply for CE60.

[8] This will generally apply to the SUY/SCC cadre or other late entries to the Officer Corps e.g. Chaplains.

d. **MR Officers.** To be considered for CE60 MR officers must also not be identified as a Long Term Non-Participant.

e. **OF4 Selected for Promotion.** The principle of boarding in the appropriate rank for future employment (4906.b) applies equally to Officers who have been extracted from the OF5 promotion pool but have not promoted prior to an OF4 CE60 board. To ensure the workforce requirement is captured accurately, candidates who have had their promotion to Capt RN/Col RM approved by 1SL (Ch 66 Annex A para 3.e), will not be presented at the CE60 in their substantive rank. These candidates will move to Senior Officer Compulsory Retirement terms (Ch 66 Annex A para 3.g) on promotion. Officers who remain in the OF5 promotion pool but have not been extracted, will remain eligible for OF4 CE60.

SECTION 2

RATINGS AND OTHER RANKS - LONGER ENGAGEMENTS

4918. Transfer to Engagement Stage 2

a. Ratings and other ranks join on a 12-year Engagement Stage 1 (ES1). A transfer to Engagement Stage 2 (ES2) is awarded automatically when a rating or other rank has qualified in all respects for substantive promotion or advancement to Leading Hand or Corporal RM, i.e. they have passed all requisite professional and leadership courses, is in date for RNFT, is recommended as suitable and has reached the Common Promotion Date (CPD). An ES2 extends a rating/other rank's career to 20 years' length of service or age 40, whichever is later, in alignment with the AFPS 15 Early Departure Payment (EDP) point.

b. From 1 Jan 24, medical personnel[9] are to refer to JSP 755 Part 2 Vol 2 – Unified Career Management (UCM) harmonised TACOS.

c. Engagement extensions for medical Ratings under UCM has seen the link between Rank and engagement removed. For medical personnel, the most beneficial option between harmonised UCM or legacy TACOS will apply e.g. personnel may receive an engagement extension on completion of 2 years post Phase II training rather that aligning to promotion to OR4.

4919. Transfer to Extended Career at end of ES1

Ratings and other ranks who do not achieve substantive promotion to Leading Hand or Corporal will not be eligible for transfer to a ES2 but may have their career extended on ES1 past the 12-year length of service point via on the following mechanisms, though the Service requirements for such action are expected to be small:

a. **An Extended Career (EC).** Current regulations governing EC will continue to apply. Periods of EC are offered for a specific Service need and selection is based primarily on future employability.

b. **An Extension of Service.** In accordance with the rules at Para 4925.

c. **A revised Engagement Expiry Date (EED).** An AB/Mne who has not been able to qualify for selection for promotion to LH/Cpl e.g. due to Service reasons, maternity leave, career intermissions or a previous medical downgrade, may apply to have their career extended through a delay to their EED, thereby allowing them further time on ES1 to qualify for selection. PPLAN SWPR SO1 will ultimately decide whether such applications are approved, based on the prevailing workforce requirements.

[9] Excluding Medical Assistants as they are not currently under UCM harmonised TACOS.

4920. Transfer to Engagement Stage 3

a. **Introduction.** ES3 is awarded by selection and strictly to meet the needs of the Service. Service will be on identical terms to an Extended Career or 2OE, initially for 5, 10 or 15 years and thereafter in 5-year blocks. The final block offered which would take an individual's time in service to age 60 can be less than 5 years but must be at least 1 year in length. Individuals currently serving on an EC or 2OE (or an Extension of Active Service (EOAS) in the case of other ranks) will complete their current period but any offers of further service will be on ES3.

(1) Those serving on an ES2 who are not selected for transfer to ES3 may continue to serve past the 20 year/age 40 point on an EOS to meet a specific Service need. They will continue to be eligible for selection and late transfer to an ES3 from their EOS. Likewise, those who are selected for an ES3 but not for service past their initial 5, 10 or 15-year period on an ES3 may be selected to serve instead on an EOS to meet a specific Service need. They will continue to be eligible for selection and transfer from an EOS back to ES3.

(2) In accordance with Para 6705 sub para a, individuals serving on an ES3 will be eligible for promotion whereas those serving on an EOS will not in accordance with Para 6705 sub para d.

b. **Selections for ES3.** Transfer to an ES3 will be by selection at a Board convened annually by the Ratings' Promotion Section in Mar/Apr for senior ratings and Sep/Oct for junior ratings. Periods of ES3 are offered for a specific Service need, therefore there will be no opportunity to transfer between specialisations or branches, or between Submarine Service and General Service (or vice versa) unless it is in the interest of the Service or there are exceptional circumstances (such as medical reasons) to consider a change. The Royal Marines Other Ranks ES3 Board will be convened in Mar/Apr annually. Any other specific service need concerning the period of ES3 will be detailed in the ES3 signal.

c. **Eligibility.** All ratings and other ranks will be considered automatically for an ES3, or further ES3 (as required by Branch Managers), provided they:

(1) Are serving in the last 4 years of an ES2/FC/OE (or an extension of such – see also Para 4932 sub para e) or are on an ES3/EC which expires after the end of the calendar year in which the Selection Board sits. This includes those ratings who have submitted Notice and who would have been serving in the last 4 years of a regular engagement which would have expired after the end of the calendar year in which the Selection Board sits had it not been for the submission of Notice. Eligible ratings who have submitted their Notice must still be serving on the day after which the transfer board sits in order to be presented.

(2) Are recommended for further service on their latest SJAR.

(3) Are not serving on an EoS to fulfil a specific non-liability commitment outside of their profession/specialisation and are permanently removed from specialisation workforce requirement as agreed by PMs, CMs and the SP via an S61 and

d. **Quotas.** The Strategic Workforce Planner, in conjunction with Branch Managers, will formally set the requirement for the numbers of ES3 per rank and specialisation. This quota system is used to establish numbers of ES3 vacancies for each specialisation and rank; taking into account the numbers eligible for transfer, promotion prospects and the overall Service requirements. The quotas will also include vacancies that could be offered fairly to re-entrants who, having completed a 20-year ES2, 18-year FC or 22-year OE, are serving on an extension of service (see Para 4925).

e. **Basis of Selection.** Selection is based primarily on future employability and potential candidates should be aware that failure to acquire certain specific professional qualifications might significantly reduce their chance of selection. Candidates who have been selected for promotion but are yet to be substantively promoted will be presented at the board for the higher rate/rank, as the whole or majority of an ES3 will be served in the higher rate/rank, thus ensuring the workforce requirement is captured accurately. Further details can be provided by the relevant Branch Manager.

f. **Reserve Selection.** In order to meet unexpected shortfalls arising from a lower than anticipated acceptance rate, a limited number of reserve selections may also be made at the same time as the main selections. These selections will not be announced unless subsequently called forward. Reserves who are not called forward will be considered for reselection at the subsequent Boards if still eligible for ES3; any previous reserve selection will be lost.

g. **Offer Acceptance and Refusal.**

(1) Ratings/Other Ranks selected for further service on an ES3 will be notified via My Navy/SCIO and by a notification posted on DefNet. The notification will specify the new engagement expiry date, a date which is non-negotiable, and a deadline (approximately 2 months from date of notification) by which individuals can ‘opt out’ if they so choose. After the 2-month deadline has passed, provided no ‘opt-out’ request has been received, selectees will be transferred to their new ES3 contract subject to medical fitness as recorded in JPA (Para 4904) and continued recommendation (para 4923 sub para j).

(2) Ratings/Other Ranks are permitted to ‘opt-out’ and should discuss this with their Chain of Command. Individuals not wishing to accept ES3 should ‘opt-out’ by the published deadlines laid down in the ES3 notification. Where an individual chooses to ‘opt-out’, the ES3 offer will be withdrawn. Individuals who decide to ‘opt-out’ will be considered at the next ES3 board providing they are eligible in all respects in accordance with Para 4923 sub para b and are recommended by the CO on their latest SJAR.

h. **Effect on an Individual's Termination Date.** Provided no 'opt-out' request has been received, an individual's original/current Termination Date is cancelled, and they lose their right to leave on that date. The new Termination Date will be that offered in the ES3 notification and they will have to submit Notice and serve out the 12-month period if they wish to leave the Service before the end of the agreed new ES3. For engagement purposes, the period of an ES3 starts on completion of the original ES2/FC/OE.

i. **Medical Fitness Requirement.** See Para 4904.

j. **Withdrawal of an ES3 Offer.** If, during the period between an offer of further service on an ES3 being made and its commencement, the CO considers that an individual's performance has deteriorated due to misconduct or other serious reason (e.g. resulting in the award of a career check, warning, disrating or reversion) to the extent that the individual is no longer recommended for further service, this should be brought to the attention of the Ratings' Promotion Section for their consideration of the withdrawal of the ES3 offer. If the offer is withdrawn, the individual concerned will no longer be considered for an ES3 unless the CO considers that their personal and professional standards have improved to the point where they are deemed to merit a recommendation for ES3 once more.

k. **Active Service.** Ratings and other ranks serving on an ES3 will remain on active service and will retain any sea service liability (where applicable) although every effort will be made for the final 6-12 months of service to be served in a shore position - see also Para 5916.

l. **Unsatisfactory Ratings and Other Ranks**

(1) **Discharge to Pension.** Ratings or other ranks serving on an ES3 may be given 12 months' Notice of discharge to pension when their performance in any respect of their duties, possibly for reasons outside their control, falls below the level normally expected of their rank and seniority, but not to the extent where is such that they would be a candidate for discharge SHORE (see Para 5442). Before giving Notice to a rating or other rank, a CO should preferably have 6 months' knowledge of the individual's performance.

(2) **Warning and Process.** Ratings or other ranks are to be warned at the time Notice is given that their performance will be reviewed in 6 months' time. If there is a marked and sustained improvement in performance during this period, the CO may withdraw the Notice. Where there is no such improvement, the CO is to seek the approval of the Fleet Commander or Flag Officer for confirmation of the rating's or other rank's discharge to pension on completion of 12 months' Notice. The application, which is to contain the full circumstances of the case and be accompanied by the individual's full Service Documents, is to be forwarded to Navy Command Headquarters Casework Cell (see Annex 1E) for consideration by the Fleet Commander through the appropriate Administrative Authority and copied to the Career Manager. The application must also contain confirmation that the rating or other rank has been reminded at this point of their right to present the case and, if they elect to do so, their presentation must also be forwarded with the application.

(3) **Early Release when under Warning of Discharge.** A rating or other rank given Notice under this regulation may apply to be released early. Approval will be authorised by the appropriate Career Manager, subject to the needs of the Service.

(4) **Reversion at Own Request.** If a rating or other rank, other than a Warrant Officer, has been promoted while serving on an ES3, they may apply to be considered for reversion at their own request as an alternative to discharge to pension. Any such request is to be forwarded for consideration when the application for confirmation of discharge is submitted.

4921. Employment on Professional Aviators' Spine (PAS) – Non-Commissioned Aircrew

a. **Terms of Employment.** PAS is no longer open to selections wef 1 Apr 25. JSP 754 Part 2, Section 24 details the policy for all NCA / Army Air Corps (AAC) NCO Aircrew who have been selected and have chosen to serve on the PAS and defines the pay arrangements for all non-commissioned aircrew (NCA) personnel on the Professional Aviators' pay spine (PAS) / Pilot Employment Scheme (Army) (PES(A)), otherwise pay for this group is governed by standard regulations

b. **Medical Downgrading.** PAS NCA personnel who are temporarily medically downgraded will remain on the PAS. PAS NCA personnel who are permanently downgraded to a medical category that prevents them from being employed under the PAS NCA terms of employment, however, will be withdrawn from PAS NCA. In these circumstances, personnel will be offered a transfer back to the main aviation career stream (workforce requirement permitting) and reversion to APS2 and PS(A), or medically discharged from the Service.

c. **Promotion.** PAS NCA personnel remain eligible for promotion in competition with their non-PAS NCA counterparts. PAS NCA personnel who are promoted will not receive a pay rise as rates of pay on PAS NCA are determined by length of service rather than rank. Selection for PAS NCA will render the selectee ineligible for commissioned rank. However, should an individual wish to pursue commissioned rank, they will be transferred to the main pay spine on commencement of Officer Training or to APS1 if transferring to Pilot or Observer.

d. **Pay and Pensions.** Further details of pay and pensions for PAS NCA personnel can be found in JSP 754 Chapter 4 Section 7; JSP 764 (AFPS 05) and JSP 854 (AFPS 75) should also be consulted.

SECTION 3

EXTENSIONS OF SERVICE

4922. Introduction

Personnel may apply or be invited to apply to extend their service beyond the normal length of their commission/career/engagement or compulsory retirement age for various reasons. Opportunities for some extensions will depend on the shortage in applicants' professions, arms and specialisations and the individual's suitability and medical fitness. Before making formal application for an Extension of Service (EoS), which is not to be confused with transfer to a longer commission (see Section 1) or selection for an Engagement Stage 3 (see Para 4920), individuals should check current requirements with their Career Manager. The following information refers primarily to Regular Service personnel. For members of the Maritime Reserve (RNR and RMR), see BRd 3(2).

4923. Types of Extension

The principles for eligibility and appropriateness contained within this **must be applied to all EoS requests**.There are two principal types of Extension of Service, both of which are the responsibility of the Career Manager to administer and approve:

a. Full EoS – these are awarded when there is a requirement for the service person to be employed in a specific role for a full permanent assignment, normally for 24 – 36 months, and particularly where there are workforce scheduling issues, the cadre is considered a Workforce Capability Gap or if the SP has deep specialist skills or knowledge where there is a shortage.

b. Short term EoS – these are awarded when there is a need to extend a service person beyond their commission/engagement/career, largely for administrative purposes. These can include (but not limited to):

(1) To complete two years' service in a higher rank if subject to APFS75. The requirement to serve for 2 years in the higher rate is no longer a condition of promotion, however, under AFPS75, a minimum of 2 years' service is still required in the higher rank to safeguard a final pension in the higher rank (see Para 6706).

(2) Following an Early Termination request. Individuals who have submitted 12 months' Notice to leave the Service may apply for an EoS; if the reasons are deemed to be exceptional, a short EoS can be approved.

(3) To complete time for pension or gratuity for unpaid leave or unpaid service for officers, ratings and other ranks who have forfeited pensionable service, whether it be for unpaid leave, unpaid service or a Career Intermission. A delay in an individual's exit date that is equal to the length of the period of unpaid absence may be requested.

(4) When an individual's commission/career/engagement ends whilst serving overseas. Individuals who are entitled to claim their discharge on completion of their current commission/career/engagement before they have completed their period overseas may volunteer to remain overseas to complete their final tour.

(5) To complete Graduated Resettlement Time (GRT). An EoS may be granted to individuals who have insufficient time to complete all or part of their GRT allocation as a result of Service reasons. For further details about the GRT scheme, see JSP 534 (Tri Service Resettlement Manual).

(6) Following a Royal Navy Medical Employability Board (RNMEB) decision to discharge an individual from the Service on medical employability grounds. An EoS may be sought to allow the individual to undertake or complete further medical treatment, rehabilitation, resettlement and/or similar activities.

(7) In order to fulfil a training Return of Service requirement if an individual does not have sufficient time left to serve on their existing engagement (see Para 5304 sub para f).

4924. Situations In Which An EoS Is Not Appropriate

a. An EoS should not be awarded in the following cases:

(1) To undertake an ES3. Individuals will not be given an extension in order to have sufficient time to complete an ES3 under any circumstances.

(2) To delay the release of Medically Downgraded individuals. There are no grounds for delaying an individual's release from the Service when they are medically downgraded (see BR 1991 (Instructions for the Royal Naval Medical Service) Para 0829 e).

4925. Eligibility for an EoS

a. Officers serving on any commission and ratings/other ranks serving on any regular career or engagement may apply for an EoS.

b. Applicants must be certified as medically fit for service (normally medical category MFD A4L1M1E1). Applications from individuals in restricted medical categories may be considered in exceptional circumstances. See BRd1750A paras 0120 and 0117 for further information regarding reduced JMES.

c. Applicants should not have submitted an application for Early Termination unless there are exceptional circumstances as determined by the CM. When a service person cannot be given their prescribed shore service prior to leaving the service because of operational priorities a short EoS can be offered to give them the additional time for GRT and TL (see para 5916)

d. Applicants should be able to complete their EoS by the age of 60 (but see Para 4927 sub para b (3), for service beyond age 60 in exceptional circumstances).

e. Extensions to an ICS must not take officers beyond a maximum of 14 years' service under any circumstances. Similarly, the normal maximum extension which may be granted to officers serving on a CCS (or equivalent commission) is 5 years. The following cadres on ICS are also subject to thresholds:

(1) Medical and Dental officers on a 6 or 7-year ICS (or equivalent commission) may be extended up to 14 years' service.

(2) QARNNS officers on a 6-year ICS (or equivalent commission) may apply to extend their commission up to 8 years' service.

(3) Chaplains on a 4 or 6-year ICS (or equivalent commission) may be extended up to 10 years' service.

4926. Timing of an EoS Application

The timing of an EoS application is generally from 4 years to 1 year before the individual's current Engagement Expiry Date (EED). At this stage, it will usually be possible for a CM to predict shortages, which may generate a requirement for an EoS. In specific professions that are predicted to be in deficit, however, applications will be considered earlier than 4 years before the individual's current commission/career/engagement expiry date. The refusal of such an early application is no bar to subsequent applications closer to the individual's retirement age. Applications will also be considered exceptionally at less than 1 year before the individual's current commission/career/engagement expiry date but will not be considered once an individual has commenced their terminal leave.

4927. Staffing and Approval of an EoS Application

a. **Application.**

(1) After discussion with their CM, an individual wishing to apply for an EoS should complete a RN Form S61, which can be found under 'Forms (Royal Navy)' in the A-Z of the Royal Navy SharePoint site, and forward it through their Commanding Officer to the appropriate CM. In the case of Chaplains, EoS applications should be sent directly to the Chaplain of the Fleet or, where appropriate, to the Principal Chaplain.

(2) An individual's Medical Documents are to be scrutinised and a signature from a Medical Officer required on Form S61 declaring whether the individual is fully fit to continue in service in any part of the world and giving details of any restricted medical category (not required for a Career Manager EoS). See flowchart at Annex 49B.

(3) Applicants should have a recommendation on their suitability for further service on their current AR (if the recommendation is not articulated or the AR is more than 6 months old, a special AR should be raised).

b. **Authority to Approve an EoS.**

(1) SO1 CMs (officers) and SO2 CMs (ratings) have delegated authority to approve EoS. Authority for granting an EoS for RM Other Ranks lies with the RM Corps Drafting Officer (CDO). All EoS applications should be staffed appropriately, assessed against the eligibility criteria in para 4925 and must be approved in conjunction with advice from the relevant Professions Managers.

(2) **Post NSMEB.** Authority for granting an EoS to allow an individual to undertake or complete further medical treatment, rehabilitation, resettlement and/or similar activities rests solely with the appropriate Dir P&T Strategic Workforce Planning team.

4928. Withdrawal of an EoS Offer

An EoS offer may be withdrawn in the period between an EoS offer being made and its commencement in the following circumstances:

a. If a Commanding Officer considers that the individual's performance has deteriorated due to misconduct or other serious reason (e.g. a career check, warning, disrating or reversion, warning) to the extent that the individual is no longer considered to be suitable for further service, they should raise their concern with the Career Manager and, if appropriate, ask for them to consider withdrawing the EoS offer. If the offer is withdrawn, the individual will not be considered further for an EoS unless the Commanding Officer considers that the individual has attained and maintained the required personal and professional standards to the point where the individual could be recommended for an EoS again.

b. If an individual has been granted an EoS with the sole intention of carrying out a specific specialist role but subsequently refuses an Assignment Order.

4929. Applicable Terms of Service Whilst Serving on an EoS

a. **Assignment.** All medically fit personnel will be fully assignable on an EoS.

b. **Early Termination.** Normal ET rules apply to personnel who have been accepted for, or who are serving on an EoS.

c. **Conduct of Ratings who have Served For More Than 20 years (on an ES2), 18 years (on an FC) or 22 years (on a OE1) Pensionable Service.** Such individuals whose conduct results in their being considered for Discharge SHORE for inadequacy should be dealt with in accordance with Para 5443 a (3) sub para (c)

d. **Recruitment Retention Pay (RRP).** RRP will be paid only in accordance with JSP 754 Ch 5 Sect 2.

e. **Terminal Leave.** When there is no break between completion of normal service and the commencement of an EoS, terminal leave is deferred until completion of the EoS and will not exceed the maximum of 20 working days. Where EoS follows a break in service, there is no entitlement to any further terminal leave.

f. **Terminal Benefits.** See JSP 754.

ANNEX 49A

RN/RM FULL COMMISSION STAGE (AVIATOR) (FCS(A))

1. Introduction

The FCS(A) is no longer open to selections wef 1 Apr 25. JSP 754 Part 2 Section 23 covers the policy for all Officer Aircrew (OA) who have been selected and have chosen to serve on the PAS and specifically define the pay arrangements for all officers on this pay spine, otherwise pay for this group is governed by standard regulations. FCS(A) and its associated Professional Aviators' pay Spine (PAS) is a financial incentive designed to retain aircrew in flying or flying related assignments, at or beyond their IPP/EDP. Following the introduction of Aircrew Renumeration (ARem), personnel on an FCS(A)/FTC(A) are not eligible for Aircrew Pay Spine 1 (APS1) or Professional Supplement (Aircrew) (PS(A)) as their basic rates of pay are enhanced to recognise their aircrew skills and restricted employment specifically in flying and flying related assignments.

2. Flying and Flying Related Assignments

A flying assignment requires an individual to undertake flying duties and maintain current flying practice. A flying related assignment includes, but is not limited to, aviation management and supervision at sea or ashore, aviation regulatory, safety and assurance roles, Operational Tours or aviation staff positions which do not necessarily require the incumbent to undertake actual flying duties.

3. Employment

FCS(A) officers will generally be employed in flying or flying related aviation positions with the primary focus in the cockpit at sea and ashore. Although individuals will remain eligible to compete for selection to AASB1 assignments and promotion, subject to meeting the relevant pre-requisite qualifications, aviation executive and command assignments will generally be limited only to those occasions when it is in the Service interest. Due to the decoupling of rank from pay there may also be occasions when an FCS(A) Lt Cdr will be assigned to an aviation post normally allocated to a Lt to provide additional expertise or experience.

4. Promotion

a. **Promotion from OF2 to OF3.** Lieutenants RN and Captains RM on FCS(A) remain eligible for promotion to Lieutenant Commander and Major respectively and compete alongside Lieutenants RN and Captains RM on a CCS/CC, FCS/FTC. If selected, they will remain on FCS(A). FCS(A) OF2 personnel who are promoted to OF3 will not receive a promotion related pay increase.

b. **Promotion from OF3 to OF4.** Lieutenant Commanders and Majors RM on FCS(A) are eligible for promotion to Commander and Lieutenant Colonel respectively and compete alongside Lieutenant Commanders and Majors RM on a CCS/CC and FCS/FTC. Officers who accept promotion will move to Main Pay plus PS(A) on the day they promote. Officers who elect to remain on FCS(A) will be deselected and will not be considered at the next annual promotion selection board following refusal. Officers will be presented to promotion boards thereafter providing that they continue to meet the eligibility criteria. Officers selected for promotion are required to notify their Career Manager in writing of their intentions within 30 days of the promotion signal.

c. **CE60 and Promotion to OF4.** FCS(A) Officers who are selected for promotion to OF4 will maintain CE60 if previously selected.

5. Reversion from FCS(A) to CCS/FCS

Should personnel wish to revert from FCS(A) to CCS/FCS, having already transferred to CE60, they will remain on that career extension. Officers who move onto APS1 and PS(A) on the day the revert to CCS/FCS.

6. Pay Structure

a. The rates of pay for PAS officers are recommended annually by the AFPRB and promulgated by CDP Remuneration in a Directed Letter.

b. The PAS is a sequence of 35 increments on one range that provides scope for yearly Incremental progression. Pay on the PAS is based on length of service rather than rank although pay bars exist for the following:

(1) At increment level 30 for all OF2 aircrew[1]

7. Pensions

a. Under AFPS75, pensions for PAS personnel will be enhanced by adding a daily supplement to the standard representative rank-based pension that an individual is entitled to on leaving the Services. This will be the CS standard representative rank-based pension. The supplements will be calculated each year to reflect the pension headroom differential between the normal maximum representative pay rate for rank and the maximum pay point on the PAS that an individual can reach. The appropriate daily supplement will be earned for each day of service on the PAS, provided that a minimum of five years paid and pensionable service on PAS terms has been given before retirement. The pension supplements are promulgated annually by Directed letter.

b. Personnel on AFPS 75 who exit the Service prior to completing five years' service on the PAS will receive the standard CS representative rank-based pension. Personnel should consult JSP 854 for further information.

c. Pensions for those serving under AFPS 05 will be based on the final pensionable salary; no supplements are payable under AFPS 05. Personnel leaving the service prior to age 55 will qualify for an EDP. Personnel should consult JSP 764 for further information.

d. Pensions for those serving under AFPS 15 will be based on 1/47th of their annual pensionable salary dictating their final pension pot value. Personnel leaving the service prior to age 60 will qualify for an EDP. Personnel should consult JSP 764 for further information.

[1] OF2 aircrew who transferred to the PAS on or before 31 Mar 10 remain eligible to continue to increment level 35.

e. FCS(A) and CE60 have significant implications to pension benefits, and all personnel considering application for transfer should consult the Armed Forces Pension Calculator and seek independent financial advice to ensure they fully understand any personal financial impact.

CHAPTER 50

PROMOTION TO OFFICER BY RATINGS AND OTHER RANKS

SECTION 1

GENERAL

5001. Schemes

a. Commissioning schemes are designed to provide opportunities for the promotion of ratings and other ranks on the Trained Strength to commissioned rank. Three In-Service Commissioning (ISC) pathways have been developed which provide access to all personnel throughout their career and builds upon the formal leadership training already delivered in-service. The pathways are: Initial, Intermediate and Advanced.

b. The Upper Yardman (UY) and RM Corps Commission (CC) schemes were designed to provide early opportunities for promotion to commissioned rank. For more experienced ratings and other ranks, there were the Senior Upper Yardman (SUY), the Senior Corps Commission (SCC), and the Warrant Officer Class 1 Commissioning (WOCS) schemes. Entry to the UY, SUY and WOC schemes is now closed to new applicants. Those already registered with the Recording Authority (RA) will remain eligible for selection, but where Phase 1 training has not yet commenced, they will align with the appropriate point of entry of the ISC pathways. The CC and SCC schemes will be reviewed to align with the ISC pathways but remain open to new applicants in the interim. Details of the closed UY/SUY/WOCS and the extant CC/SCC schemes were published in Annex 50M Version 7 (effective Mar 26) which has now been archived (available from Navy Warfare Publications).

5002. Selection

All officer candidates must pass selection by the AIB, which acts as the primary method of determining officer potential for these cadres, additionally those applying for a technical profession from a non-technical source profession must complete the Defence Aptitude Assessment (DAA) and achieve the score required for their chosen profession/specialisation. Those candidates recommended by the AIB are subsequently considered for selection to enter Britannia Royal Naval College (BRNC) Dartmouth, by a Final Selection Board (FSB). Selection Boards take place by profession or specialisation, chaired by the OF4 Profession or Career Manager of the profession or specialisation concerned along with two further OF3 board members, one of whom is to be independent of the Profession/Specialisation (for UCM the board must include input from the RN Profession Manager or a nominated representative). Selection is subject to the requirements of the Service and extraction limits may be placed on certain ranks/specialisations by the Profession Manager to protect the health of that cadre, as such the probability of selection to BRNC may vary depending upon profession/arm/specialisation.

5003. Profession and Specialisation

Ratings and other ranks may apply to be considered for any officer profession and, where appropriate, arm and specialisation, providing that they are able to satisfy the entry requirements. Their first choice of profession/arm/specialisation does not preclude them from being assessed for alternatives when appearing before the AIB. The offer of a commission may also be conditional on accepting service in submarines.

5004. Commissions

a. Successful candidates will be selected for an ICS of 12 years (or to age 55) with the exception of QARRNS, Environmental Health Officers and Allied Health Professional Officers, for whom the ICS will be 6 years. Where applicable, those commissioning via In Service Medical Officer will join the Medical Cadetship at Year 3 of training and follow this pathway[1] (see also sub para d). Warrant Officer Class One (including SCWO) will be awarded either an ICS of 12 years, or service to age 60 whichever ends sooner.

b. Those who commission through the ISC process will be awarded seniority as shown in the tables below:

Table 50-1. Seniority Awarded for Royal Navy ISC Candidates

Reckonable service for engagement purposes	RN rank/seniority on entry (X, E, L)	Time to promotion to Lieutenant (Promotion requirements as laid down in BRd 3(2) are to be met prior to promotion to Lt RNR)
Un-Trained Strength	Midshipman (considered direct entrant)	42 months
Ratings under 2 years	Sub Lieutenant with 0 months seniority	30 months
Ratings below WO1 with over 2 years	Sub Lieutenant with 12 months seniority	18 months
Ratings below WO1 with over 12 years	Sub Lieutenant with 12 months seniority and on promotion to Lieutenant awarded an additional 6 month's seniority	18 months
WO1s	Sub Lieutenant with 18 months seniority and on promotion to Lieutenant awarded an additional year's seniority	12 months
SCWO	Lieutenant with 12 months seniority	N/A

[1] Medical cohorts are subject to RN and Unified Career Management (UCM) harmonised Terms and Conditions iaw JSP 755 Part 2 Vol 2.

c. **QARNNS Officers.** The rank and seniority of QARNNS officers is based on relevant post-registration experience. As a minimum, individuals enter as a Sub Lieutenant but can qualify for additional seniority depending on their post-registration experience. The first two years of post-registration experience is counted in full, with the remaining years of relevant experience counted in half, up to a maximum of 6 years e.g. an individual with 4 years' post-registration experience would gain 3 years' seniority on entry (the first 2 years counting in full, with the remaining 2 years counting as 1 year's seniority). Individuals who qualify for less than 4 years' additional seniority based on the above calculation will enter as a Sub Lieutenant, with the appropriate seniority. Entrants who are entitled to receive more than 4 years' seniority on entry will enter as a Lieutenant, with a maximum seniority of 2 years in the rank.

d. **Medical Officers.** Where applicable, those personnel selected for commission as a Medical Officer from within Service will transfer to the Medical Cadet Scheme at Year 3. Personnel who are selected for training will remain on their existing pay spine for source branch during years 1 & 2 of training in Medical School. For years 3–5, personnel will be paid from the Main Officer Pay spine at OF1 with assimilation to the appropriate increment unless this is lower than the current pay. ISC should not be expected to be granted additional seniority, however at the point of transfer to the Medical Cadetship this may be considered iaw relevant policy (BR3d(1) and JSP 755) by RN REM.

5005. Commission Transfers

Time and recommendations permitting, there will be opportunities to be considered for transfer to longer commissions, e.g. to a Career Commission Stage (CCS), with the further opportunity of then transferring to a Full Commission Stage (FCS). Transfer to a longer commission is by selection. Officers who cannot complete a commission stage will retire upon reaching their retirement age. Specific information on commission transfers can be found at Chapter 49.

5006. Phase 1 training requirements

Candidates will not be required to repeat Initial Naval Training (Foundation) (INT(F)) at HMS RALEIGH, they will enter BRNC at a prescribed point based upon the leadership training undertaken in-service as rating as shown in Table 50-2.

Table 50-2. ISC Phase 1 entry points

ISC Pathway	Minimum course completed (note 1)	Phase 1 officer training requirement
Primary	Nil	Officer Commissioning Course Phase 1B & 1C
Intermediate	Leading Rates Leadership Course / Level 2 Leadership Course	Officer Commissioning Course Phase 1C (note 2)
Advanced	Senior Rates Leadership Course / Level 3 Leadership Course	Advanced Commissioning Course (note 3)

Notes:

1. This must include 12 months experience in gainful employment post course. This includes assignments in workforce requirement driving (permanent) positions, and temporary positions including augmentation and operational tours, but not in margin positions.

2. To enable completion of joining administration, candidates will join BRNC one week prior to the start of Phase 1C.

3. This course is currently in development, until it is ready for delivery those on the Advanced pathway will complete Phase 1C along with those on the Intermediate pathway.

5007. Unit Actions for Candidates

a. **Identification of Candidates.** Commanding Officers (COs) of ships, establishments and units are to make special arrangements to bring these regulations periodically to the notice of Divisional Officers/SJAR Reporting Officers. In addition, they are to explain the details to ratings and other ranks who may wish to be considered as candidates. Potential candidates are to register their interest with both the RA of their current profession and the RA of their potential future profession. The candidate is to submit a request to transfer profession, in accordance with BRd 3(1) Para 5126. Once both the donor and receiving Profession Managers have accepted the transfer request and manning clearance is given, the candidate may be considered an ISC candidate for the new profession. The candidate will be managed by the receiving profession RA from this point on. Further advice may also be sought from the relevant Profession Manager(s). It is of paramount importance that potential candidates are identified early in order for them to take full advantage of commissioning schemes.

b. **Encouragement.** Candidates are to be given every encouragement, help and advice to reach the required standards, COs are encouraged to endorse applications at the earliest opportunity allowing the AIB and subsequently the FSB to determine a candidate's suitability and readiness against others.

c. **Briefing.** It is the responsibility of COs and Recording Authorities (see Para 5007 and Annex 50A), who maintain a list of candidates, to ensure that individuals are fully briefed on the full range of opportunities available and that they have realistic expectations of the schemes. See also Annexes 50B to 50F for briefing on career expectations in each profession and/or specialisation.

5008. Recording Authorities Organisation

Each officer profession or specialisation listed at Annex 50A has a separate staff officer (Recording Authority) who maintains a list of candidates, collates Commissioning Reports (CRs) and is authorised to communicate directly with COs, relevant Profession Managers and Training Pipeline Managers as necessary. The Recording Authority is responsible for:

a. Verifying from the initial registration to the candidate's entry into BRNC or CTCRM that they are, and remain, eligible.

b. Monitoring a candidate's progress towards promotion to officer.

c. Ensuring that the candidate's educational qualifications have been authenticated by the Education Officer of the unit and shown on JPA.

d. Liaison with the ship or establishment and the AIB.

e. Advising candidates and Divisional Officers on procedures and regulations, providing advice as required including probability of success, consulting the relevant Profession Manager as necessary.

f. Maintaining oversight of candidates interested in commissioning within their profession, and those potentially transferring in from other professions, and out of the profession to others through the CW process.

g. Actively promoting the ISC schemes and promotion to the Officer Corps for certain deep specialist specialisations, such as C, AV or RN Police, to appropriate senior ratings who are eligible to be recruited and promoted to these specialisations.

h. Acting as Secretary to the relevant Selection Board.

Reporting Officers are encouraged to comment on the activity of those undertaking the role of Recording Authority in their annual appraisal. The appropriate Profession Manager can be approached to provide evidence where necessary.

5009. Reporting Procedures

See Chapter 57.

5010. Admiralty Interview Board

a. **Applications.** All candidates are eligible to sit their AIB Multistage Assessment process. For those applying from a non-technical, to a technical profession this is predicated on successful completion of their Defence Aptitude Assessment (DAA). The AIB is a virtual platform assessment meaning personnel do not need to be MFD to undergo this process. All candidates are to be nominated by completion of Annex 50G form which is to be submitted to the relevant Recording Authority located at Annex 50A. Recording Authorities will make note of the candidates' details, check their eligibility and upload the document to the AIB RA Teams Channel before notifying the AIB Operations team. While candidates are able to complete the AIB Multistage Assessment process in any Medical Category, they must meet the medical criteria to promote to the officer core in line with Chapter 50, para 5014. In the event that a candidate wishes to apply for a different Profession/Specialisation preference prior to attending AIB they must complete a further Annex 50G.

b. **Process.** It is the responsibility of the AIB Operations Team to liaise with candidates to facilitate their DAA. Once a candidate passes the DAA, candidates will normally be informed of the date of their AIB Multistage Assessment process at least one month in advance. All candidates will receive a link to RITS, which they must open and complete in order to proceed with their application. The AIB Operations Team will upload the completed electronic copy of the Annex 50G to the candidate's RITS account. The normal waiting time for an AIB is no more than 3 months. Recording Authorities will liaise with the AIB Operations Team and candidates to deconflict any front-line requirements to enable completion of AIB in time for the profession/specialisation Final Selection Board (FSB) where necessary. The AIB Operations Team will also liaise with In-Service candidates to establish candidate availability, prior to loading the candidate to the AIB Multistage Assessment process.

c. **AIB Multistage Assessment.** The AIB assessment process is 2 stages and is the same for RN, RM, RFA, RNR, RMR candidates, regardless of entry type (Direct Entry or In-Service). It is facilitated through contractual arrangements with Sopra Steria and is an online assessment which is accessed by laptop or a PC using the Tazio virtual platform. Candidates will receive instructions on the compatibility requirements of the technology required to conduct the Pre-Recorded Interview (PRI) and Group Planning Exercise (GPE) when loaded for their AIB. The format is as follows:

(1) **Pre Recorded Interview (PRI) – Stage 1.** Candidates will be loaded to a Candidate Cohort List and will receive a AIB Holding Notice within RITS. They will subsequently receive an invitation to conduct a PRI using a link which will be valid for 7 days from the point of being sent. On completion, all candidates will move forward to Stage 2. Candidates will be asked 8 questions and will have 2 minutes to provide their answer. Competencies which are assessed during Stage 1 are motivation, awareness, and communication skills.

(2) **Group Planning Exercise (GPE) – Stage 2.** Candidates will receive an email notification to book their GPE. Working against the clock, candidates must read the briefs provided and adopt teamwork and problem-solving skills to identify the issues and decide on the best available solution with the assets and resources at their disposal. At the end of the group session, candidates will be moved into a separate virtual room where they will be asked one to one questions, which centre around scenario information and changes which require dynamic decision making. Competencies which are assessed during Stage 2 are Teamwork and Collaboration, Problem Solving, Confidence and Resilience, Communication and Effective Intelligence.

d. **AIB Misconduct Policy.** The AIB has recently introduced a Misconduct Policy which provides a standard response to the detection or suspected detection of misconduct at any point during the AIB Multistage Assessment process. Misconduct in this respect, is considered to mean unacceptable or improper behaviour and can be described as, but is not limited to:

(1) **Plagiarism. To use another person's idea or a part of their work and pretend that it is your own.** This includes ideas or work, including paraphrasing, which originates from someone other than the candidate. This includes any material which is considered to have originated by someone who is in the current assessment process, as well as those who have taken part in any previous assessments, whether in the current AIB format or otherwise.

(2) **Collusion. To do something secretly with another person or group, in order to deceive or cheat others.** Whilst group work is utilised and encouraged at certain stages within the assessment, the following activities are prohibited:

(a) Secret or illegal co-operation, to cheat or deceive.

(b) Preparing a piece of work with others, then claiming it as your own.

(c) Allowing someone to copy your work, to subsequently present it as being their own. This includes the sharing of any interview questions or planning scenario details and questions.

(3) **Cheating. To behave in a way that is not honest or fair, to win something or gain something.** This is the use or attempted use of unauthorised assistance which is not permitted within the assessment process. It can be described as, but not limited to:

(a) Copying answers from another person(s) or candidate.

(b) To have a person(s) present in the room during any part of the assessment process.

(c) Communicating with any other person(s) during any part of the assessment process; unless authorised to do so by SSCL or AIB staff.

(d) Use of any unauthorised material including the use of AI technology or device. **Heavy reliance on notes** or **reading from a script** will have a **negative** impact on PRI scoring.

(e) The use of Group Planning Exercise documents/material, following direction to close down any windows or information relating to the assessment.

(f) Obtaining and using an unauthorised copy of any assessment paperwork or material.

(g) Impersonation.

(h) Plagiarism and collusion.

(4) **Fraud.** False representation in this context is when a candidate deliberately lies or misrepresents the truth when conducting their AIB Multistage Assessment process, to make a gain for themselves or a loss to another candidate.

e. **Misconduct Penalties.** Any candidate suspected of misconduct at any stage of the AIB Multistage Assessment process will be reported to Officer Commanding AIB (OC AIB) and a Misconduct Investigation will be initiated. Candidates will be informed of a potential breach of the AIB Misconduct Policy by a RITS Communication. On completion of a Misconduct Investigation, OC AIB will review recommendations made and finalise their decision. All candidates will be made aware of the decision by a RITS Communication or formal letter from OC AIB. Any candidate found on the *balance of probabilities* to have breached the AIB Misconduct Policy will not be permitted to re-attempt the AIB Multistage Assessment process for a minimum of 12 months, unless stated otherwise by OC AIB. Candidates may also be subject to disciplinary action and/or administrative sanctions.

f. **Exemptions.** Where a candidate changes their profession, arm or specialisation following successful completion of AIB, there may be a requirement to retake their AIB Multistage Assessment process. Recording Authorities should engage the AIB Operations team for advice on a case-by-case basis.

g. **Information Technology.** The ‘Tazio’ platform is not compatible with MODNET or DII Afloat. For those who are abroad or deployed, individual Chains of Command should make every effort ensure candidates can conduct their AIB using appropriate technology. Where possible, the AIB Operations Team will book a candidate on a AIB Multistage Assessment prior to deployment.

h. **Timing.** The AIB Multistage Assessment process is designed to be completed in quick succession. The maximum period between PRI and GPE should be no more than two months and where operational or other personal commitments impede this, candidates will be required to restart the process. Where candidates move or delay their AIB on more than two consecutive occasions, they will be required to commence the AIB assessment process in full. Recording Authorities will liaise with the AIB Operations Team and candidates to deconflict any front-line requirements to enable completion of AIB in time for the profession/specialisation Final Selection Board where necessary.

i. **Number of Attempts.** Candidates will be allowed a maximum of 2 attempts at the AIB, each appearance being separated by a minimum period of 3 months, provided they remain eligible. In exceptional circumstances, this timeline may be reduced at the discretion of OC AIB, where there is a Service need. Any justifiable request for a third attempt at AIB must be passed directly to AIB SO2 N5. Each request will be considered on a case-by-case basis by OC AIB and in only in the most exceptional circumstances will a third attempt be permitted. Candidates who are unsuccessful at AIB may reapply to commence the process 12 months from their final AIB attempt.

j. **Failure to Attend.** Where a candidate fails to attend their PRI or GPE, they will be removed from the AIB Multistage Assessment process, unless they contact SSCL to explain their absence. Where a candidate fails to attend a pre-arranged second attempt, they will be removed from the AIB process in its entirety and a score FAIL issued. The relevant Recording Authority will be notified to this effect. Candidates are reminded that both stages of their AIB (Pre-Recorded Interview and Group Planning Exercise) are equally important. Where candidates feel unwell, or where there are extenuating circumstances which are likely to adversely affect their performance at either Stage of their AIB, they must contact Sopra Steria at the earliest opportunity to request a pause in their AIB Multi-Stage Assessment, and to re-book as necessary.

k. **Results.** Candidates will receive their AIB results in the form of an 'AIB Outcome Letter' via RITS. The letter will be loaded to the AIB RA Microsoft Teams Channel for RA review and successful candidates will be awarded a JPA competency administered by the AIB Operations Team. The entire AIB Multistage Assessment process will take candidates 23 days and results will be released on the Tuesday of week 4.

l. **Validity of AIB Pass and AIB Retakes.** A pass at the AIB is valid for 5 years. Where a candidate requests to conduct a further AIB to improve their score, a formal request must be made via email to the AIB Operations Team. Requests will be considered on a case-by-case basis and authorised by CAIB. Candidates who choose to retake their AIB must be cognisant their most recent AIB score will always take primacy. Where a candidate changes their profession, arm or specialisation following successful completion of AIB, there may be a requirement to retake their AIB Multistage Assessment. CAs and RAs should engage the AIB Operations team for advice on a case-by-case basis.

m. **Aircrew and ATC Only:**

(1) Aircrew candidates are required to complete Computer Based Aptitude Tests (CBATs) at RAF Cranwell. CBATs and the AIB Multistage Assessment process can be completed concurrently. The AIB Operations Team will book CBATs for all aircrew candidates. Aircrew and ATC Medicals are booked via the R&A Allocations Team.

(2) Candidates who fail to meet the special requirements for an Aircrew specialisation, but who are appropriately qualified for other professions, arms or specialisations, may be considered for an alternative entry.

(3) Further detail can be found at Para 5016.

5011. Failure to Complete Officer Training

a. Individuals promoted to the Officer Corps who fail to make satisfactory progress and are compulsorily withdrawn from training may request to revert to their former rating or other rank profession/specialisation as an alternative to leaving the Service. For Engineer candidates who have completed the University of Portsmouth degree course, the Return of Service accrued through the degree course applies and hence if reversion is mandated, they are not permitted to leave the Service (see Para 5014 sub para e, Para 5306 and Para 5402 sub para k). Similarly, officers who have yet to reach their Premature Termination of Career Training (PTCT) point (see Para 5402) and have the opportunity to apply for voluntary withdrawal from training may ask to return to the ranks in their former profession/specialisation as an alternative to leaving the Royal Navy entirely. Approval to revert is subject to the discretion of the relevant Profession Manager and cannot be guaranteed. Once an officer joins the trained strength (see Table 53B-2), they will no longer have the option of reverting to their former rate or rank.

b. Those reverting to their previous rate or rank will surrender all items of officer uniform and equipment and will be re-equipped with appropriate uniform at public expense.

c. On reversion to the ranks, personnel will continue to serve the balance of their engagement as a rating or other rank. Time spent as an officer under training will count towards a rating or other rank's pension.

d. Every effort will be made to ensure that, as far as possible, ratings and other ranks suffer the minimum loss of seniority and pay through absence from their profession/specialisation. In cases where individuals were qualified in all respects for promotion, and had been selected, and would have expected to be promoted during the period of service as an officer, they may return to their rating or other rank service at the higher rate/rank, as determined by DDPD. In these instances, the appropriate backdated seniority (and pay level) will be applied. Where selected, but such promotion was not due during the period of officer service, selection will still be deemed to stand but enforced at a later date.

e. Those returning to the ranks in specialisations which mandate time and professional qualifications for promotion may have to qualify by passing the appropriate examination and by serving the full normal time. This may be necessary if experience in the lower rate/rank is essential for promotion. If so, no backdating of seniority can be allowed until the rate/rank of Petty Officer/Sergeant is attained, at which point seniority, but not pay, may be antedated by the amount of time spent out of the profession.

f. The Phase 1 or 2 Training Establishment is to inform the Navy Command Headquarters Terms of Service Team, as early as possible, of all requests to return to the ranks in order that revised terms and conditions of service can be prepared and agreed.

SECTION 2

ISC SCHEME

5012. General Criteria

All candidates must fulfil the following criteria:

a. Have the support of their CO (for SBS(LE) candidates this must be CO SBS).

b. Have accepted, or accept, a sea-going liability where appropriate.

c. Have not been subject to a Career Check within the last 3 years. A rating or other rank with less than 3 years' service may be registered as a candidate for promotion to officer rank provided they have not been the subject of a Career Check since their date of entry. A rating or other rank who is unable to satisfy the requirement may, however, be considered if deemed to be exceptionally deserving, or having distinguished themselves by special or meritorious service. Such cases are to be submitted to DDPD through Administrative Authorities with a full report of the circumstances.

d. Have not exercised, or be in the process of exercising, their notice option to leave the Service.

e. Satisfy the required educational criteria at Para 9635 and Para 9636.

Note. *Para 9635 and Para 9636 have not yet been updated to reflect the changes associated with ISC as detailed in this Chapter. Candidates should contact their RA for guidance on educational criteria.*

5013. Age Criteria

a. **Age on Entry to the Officer Corps.** Candidates for the ISC scheme must be aged over 17 and be able to serve for a minimum period of 4 years on the first day of the month that officer training commences.

b. Owing to the pipeline length and financial investment associated with flying training, Warfare (Aviation) candidates must commence officer training before age 26 with the exception of individuals who have achieved Certificate of Competence in either ASW or CDO Aircrewman (ACMN) roles who are eligible for extraction to Observer if they commence officer training before age 34.

c. **Waivers.** In exceptional circumstances, consideration may be given to granting a waiver to the limits above. COs should submit any case which is considered to deserve exceptional treatment to the appropriate Professions Manager for a decision which must be made in the best interests of the Service.

5014. University of Portsmouth Degree Scheme

a. **Eligibility.** The UoPDS is open to Engineering Technicians and source specialisation CIS ratings who are studying, or have completed, Engineering BTEC HND or Foundation degrees enabling them to meet the same academic entry requirements as their Direct Entry counterparts. Candidates must pass the AIB prior to provisional selection and will then be subsequently assigned to HMS NELSON to read for an Engineering degree (third year) at the University of Portsmouth. Candidates will undertake their degree training as ratings. Those who have progressed sufficiently in their career as a rating to not be required to complete the full Systems Engineering Management Course (SEMC) for their chosen specialisation are not eligible for the UoPDS.

b. **Academic Qualifications.** The academic requirements and pre-entry studies for UoPDS are shown at Annex 50I. The pre-entry enabling study listed will be provided by the University and is to be completed prior to commencement of degree training. Pre-entry courses will be arranged through the Base Education Officer, HMS NELSON.

c. **Remuneration.** Whilst at University, UoPDS candidates are paid at their basic salary depending on the rate held. They may be promoted until such time as they join BRNC.

d. **Post Degree Training.** After graduation, UoPDS candidates will undertake officer training at BRNC followed by professional training (SEMC) (see BRd 8374 Chapter 2).

e. **Financial Commitment and Training Return of Service.** See Para 5303 sub-para c.

5015. Medical Criteria and Physical Fitness

a. **Medical Standard.** The Medical Entry Standard (MES) for Direct Graduate Entrants (DGE) and Naval College Entrants (NCE) is in accordance with BR 1750A and JSP 950; all ISC candidates must be medically fully deployable (MFD). Furthermore, in light of the duty of care the Service has to those undergoing such training, the Executive may, having taken medical advice, return any individual to unit whose medical condition or physical fitness is assessed as posing a significant risk, either to themselves or to the completion of training.

b. Those applying to the Warfare profession are to have their eyesight examined and confirmed by the parent establishment for suitability for selection as mainstream Warfare officers before applying to the AIB for the first time.

Note. *WESM candidates who will undertake periscope and bridge watch-keeping duties will require the same visual standard as mainstream Warfare officers.*

c. **Additional Requirements for the Primary/Intermediate pathways.** In addition to the MFD requirement, those on the Primary and Intermediate pathways must achieve Category 2 (0.4-0.49) or Category 3 (0.5-0.59) for Waist Circumference to Height Ratio (WCHtR) as specified in BR3 Article 0720 and RNTM 01-133/24 prior to commencing training at BRNC.

d. **Physical fitness.** For all pathways, candidates must be in date RNPES on entry to BRNC. Those on the Primary and Intermediate pathways will also need to ensure that their cardiovascular fitness is sufficient to manage the demands of Phase 1 training alongside their Direct Entrant colleagues. As part of BRNC's risk assessment, a non-summative 2.4km run will be undertaken on arrival. To support candidate's physical preparation a 4-week pre-joining fitness programme is available either on the RN website or within the 'Navy Ready' App and all candidates are strongly encouraged to complete this programme and seek additional support from their Unit PTI if required prior to arrival at BRNC.

e. **Waiver of MFD Requirement.** Personnel permanently medically downgraded at a Royal Navy Medical Board of Survey (RNMBOS), whose retention in the Service has been approved by a Royal Navy Medical Employability Board (RNMEB) and who remain Medically Limited Deployable (MLD) with a limited set of Joint Medical Employability Standards as laid down in Para 6908, may seek a waiver of the MFD requirement via the Profession Manager who will consider each application on its merits and account will be taken of the potential effect that a medical restriction may have on the ability of a candidate to perform their duties as an officer. On receipt of applications, the Profession Manager will consult the appropriate medical authorities, the Strategic Workforce Planner (Officers) and, as necessary, the relevant Career Manager and Recording Authority, before approving the eligibility criteria waiver. Where a candidate, for whom the waiver of the MFD requirement has been approved, is subsequently medically downgraded for a medical condition that is unrelated to that considered earlier, this is to be reported to the Profession Manager who will review the situation further.

5016. Profession/Specialisation Specific Additional Criteria

a. **Aircrew.**

(1) In addition to the general selection qualifications starting at Para 5011, Aircrew candidates are also required to attend the Officer and Aircrew Selection Centre (OASC) at RAF Cranwell to undergo Computer Based Aptitude Tests (CBAT). Before submitting an application to undertake the CBAT, an application must have been made to the AIB and eligibility confirmed by the Recording Authority. Attendance at CBAT, Flying Grading (conducted at RNAS Yeovilton for Pilots and RNAS Culdrose for Observers) and AIB is concurrent activity. CBAT and Flying Grading does not necessarily need to be completed prior to completion of AIB Multistage Assessment, however, a pass at both CBAT (including relevant score for the role) and Flying Grading is required for Aircrew entry.

(2) Candidates who do not meet the CBAT standard will receive counselling from the Senior Naval Instructor RAF Cranwell regarding their potential future career paths. If the candidate is still considered suitable for entry into other alternative officer arms or specialisations, the RA or parent unit may, if appropriate, request the candidate is permitted to continue with their promotion opportunity. Where a candidate has already successfully completed an AIB, RAs should follow the process detailed at Para 5009 (l).

(3) Post AIB candidates will be allocated for an Aircrew Medical Examination by the R&A Allocations team. All successful aircrew candidates are subsequently considered for BRNC entry in either the Pilot or Observer specialisations by the FSB.

(4) Failure or voluntary withdrawal from flying training will be dealt with in accordance with Para 5125 (a)(3)(6).

(5) RM candidates selected for Observer/AV duties will commission as an RN officer.

b. **Air Traffic Control.**

(1) In addition to the general selection qualifications starting at Para 5011, Air Traffic Controller ratings are required to undergo CBATs at the OASC, RAF Cranwell; these can be completed concurrently with their AIB. Aircraft Controller (AC) ratings who have completed CBATs as an integral part of their AC training are exempt from the selection processes detailed in this Para. Before submitting an application to undertake CBATs, eligibility must be confirmed by the Recording Authority before a CBATs is made.

(2) Candidates who do not meet the ATC selection standard will receive counselling from the Senior Naval Instructor, RAF Cranwell regarding their potential future career paths. If the candidate is still considered suitable for entry into other alternative officer arms or specialisations, the RA or parent unit may, if appropriate, request the candidate is permitted to continue with their promotion opportunity. Where a candidate has already successfully completed an AIB, RAs should follow the process detailed at Para 5009 (l).

c. **Aviation.** Extraction to AV officer is open to senior ratings only and candidates must have experience of working in an aviation related field that enables them to carry out a role normally undertaken by an AV officer. Ratings/other ranks not from a FAA Warfare or AE specialisation should seek clarification of their eligibility from the Aviation Recording Authority in the first instance.

d. **Royal Marines.** See legacy policy at Annex 50M.

e. **Training Management.**

(1) In addition to the general selection qualifications above, starting at Para 5011, TM candidates must have an honours degree (BSc, BA etc) or Master's degree (MSc, MA etc) which is recognised in the UK, equivalents will not be accepted.

(2) Candidates will not normally be able to attend the AIB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of the relevant Profession Manager, will candidates be permitted to attend the AIB without written evidence of their degree results. It should be noted that entry into the Officer Corps will be on production of either the degree certificate or a document containing the candidate's final results.

f. **Intelligence**

(1) In addition to meeting the general selection qualifications above, starting at Para 5011, candidate should be cognisant of the key attributes and selection/training criteria laid out in BRd 8374.

(2) Candidates must complete the Defence Aptitude Assessment (DAA) regardless of current branch, trade or specialisation. Candidates who have already completed the DAA may be granted a waiver dependent on if they met the required GSX(INT) criteria.

(3) Candidates must complete the Naval Intelligence Aptitude Board (NIAB) at the Naval Intelligence Division, Defence Intelligence Academy (DefIntAc), Chicksands, prior to attending the AIB. NIABs are programmed in February and September of each year.

(4) GSX(INT) trainees will complete Ph1 training at BRNC before Common and Specialist Fleet Time in seagoing units/shore establishments prior to starting JMIC.

g. **Warfare (General Service).** The normal career path for Warfare (GS) mainstream officers will be watch-keeping at sea (OOW) through to PWO. There are some limited opportunities for certain Warfare (GS) Mainstream officers to specialise as FC, MCD, MW or HM. More detail on the career path of both mainstream and deep specialist Warfare officers is at Annex 50B.

(1) **Warfare Profession – Advanced Pathway Experience Form.** Those candidates who would undertake the Advanced pathway in Phase 1 must demonstrate an awareness of the roles of a warfare officer and that they have the potential to deliver as an officer. This is evidenced through acquaints to gain experience and awareness across the Warfare spectrum and must include Bridge and Operation Room experience. Acquaints could include P2000s/47 Cdo RG, Bridge Simulator, MCTS, Mine Warfare School, Dive School, Submarine School, HM School and Air Stations and any other appropriate Warfare experience. There is no set number of acquaints that need to be completed, but there should be no more than one from each area in each unit within a reporting period (e.g. bridge). Experiences may be combined if achieved in one unit (e.g. bridge and Ops Room in a FF/DD). More emphasis will be placed on quality of experience than quantity. An example of the Warfare Profession Experience Feedback Form is at Annex 50J. The form will be included in the reading pack for the FSB.

(2) **X(H) Sub-Specialisation.** If a potential candidate has completed the 'H2' course as part of the POSR/H career course, this foundation degree will satisfy the educational requirements to join the Officer Corps in the GSX(H) specialisation prior to attendance at BRNC and IWOC. The service person will then have to achieve H OPS as a GSX(H) Officer.

(3) **IW METOC.** If a potential candidate has completed the Forecaster's course as a Rating, this Foundation degree will satisfy the educational requirements to join the Officer Corps in the IW(METOC) sub-specialisation prior to attendance at BRNC. The service person will then have to achieve M OPS as a IW(METOC) Officer.

h. **Warfare Profession - Submarine Service.**

(1) Candidates are taken from Warfare Profession specialisations, including Submarine Coxswains. Their default career path will be the same as a direct entry submarine Warfare Officer. However, opportunities for a more bespoke career do exist if candidates have prior key skills and/or niche experience in specialist areas or are unlikely to compete for Submarine Command in future.

i. **Engineering Profession - General.** Routes to Engineer officer are described in Annex 50H.

j. **CIS Source Specialisation.** Source Specialisation CIS Senior Ratings, who have not cross trained to ET(WE)CIS/CISSM, will follow a route to WE C or WESM C extraction.

k. **Logistics and Personnel Profession.** Routes to Logistics officer are described in Annex 50E. In addition, prior to selection by the FSB:

(1) **Royal Navy Family and People Support (RN FPS) Candidates.**

(a) Must have served for not less than 3 years in a specialist welfare casework position within RN FPS since passing the Defence Specialist Welfare Workers Course (DSWWC).

(b) Must undertake selection and commissioning as SUY(Logistics) officers plus Phase 2 professional Logistics training.

(c) Must have passed the NS FPS Professional Board.

(d) **Prior to attending BRNC.** Candidates must hold a Degree in Social Work (Annex 50E Para 6) and be registered as a Social Worker with Social Work England.

(e) Must conduct a series of acquaints with Logistics departments, both at sea and ashore, in order to widen their knowledge of the profession and demonstrate to the FSB their ongoing commitment to the Logistics Profession. Further guidance on the requirement for acquaints and reporting will be provided by the Logistics Profession RA.

(2) **RN Police Specialisation.** (For RM Police Troop, see Annex M Para 5029 m sub para (4)) Divisional Officers and the Profession/Career Manager should consult with the RA (RN Police) and RNP Command Warrant Officer on potential RN Police and RM Police Troop Officer candidates' career development. All potential candidates will be considered on their own merits, but as a general rule should expect to have completed their apprenticeship scheme and attained substantive rank at OR4 and completed the Volume Crime Investigations Course (or equivalent qualification). Only in exceptional circumstances will Provost Marshal (Navy) (PM(N)) grant a waiver for this criteria having taken all other supporting information into account.

l. **Royal Marines and Royal Marines Band Service.** See legacy policy at Annex 50M.

m. **QARNNS.** In-Service candidates must hold a Sub part 1 or 2 registration with the Nursing and Midwifery Council (NMC) and must be a substantive Leading Hand or above. At the discretion of the QARNNS Recording Authority, candidates may be deferred when there are already too many nominations.

n. **Medical Services (MS)**

(1) MS officer candidates may be selected from any specialisation of the Medical and Dental specialisations or QARNNS or, exceptionally, as a sideways entry; all must be in the rank of at least confirmed Leading Hand or Corporal RM.

(2) Sideways Entry Candidates must apply in writing to the Medical Profession Manager who will then arrange for an interview to be conducted to ascertain motivation towards and suitability for service as an MS officer. Candidates will undertake a series of acquaints with Medical departments and organisations, in order to widen their knowledge of the profession and demonstrate to the FSB their ongoing commitment to MS. Further guidance on the requirement for acquaints and reporting will be provided by the MS profession RA.

(3) Exceptionally, professionally qualified MS officer candidates may be recruited via intra-service transfer or as direct entry officers for specific positions as identified by the Profession Manager, this includes but is not limited to MS Officer Submarines (Health Physicist), Environmental Health Officer, Allied Health Professional Officer.

5017. Period Between AIB and Final Selection

Final allocation to each entry takes place 6-8 weeks before entry to BRNC. Selection for the ISC scheme takes place annually and Table 50-4 details when the annual board for each sub-specialisation takes place. RN candidates who are qualified in all respects for entry will be allocated to the next entry at BRNC appropriate to their specialisation. RM candidates join CTCRM in Sep.

Table 50-4. Final Selection Board timetable

Specialisation	Typical FSB Date
Engineer – AE	3rd Week in Jul
Engineer – MEGS	3rd week in May
Engineer – MESM	
Engineer – WEGS	3rd week in Nov
Engineer – WESM	
Logistics and Personnel (incl RNP)	3rd week in Oct
Medical Services	2nd week in Oct
QARNNS	
Royal Marines – SCCO/WO1 C/S	3rd week in May
Training Manager	1st week in Sep
Warfare GSX, SM, Int	Last week in Nov
Warfare – AV, ATC, O, P	3rd week in Oct

5018. Final Selection

a. The names of all candidates considered suitable for officer training are submitted to the FSB, convened by SO1 Profession Manager (PM) or Officer Career Manager (CM). Should an alternate OF4 be selected as Chair, either the PM or CM must be included as a board member. This is of particular importance for UCM boards. Candidates must be qualified in all respects for promotion to the Officer Corps before final selection can be made. Those selected will be informed by notification in the My Navy application and signal on the Proms sharepoint site. COs will receive advanced notification on the day the signal is released.

b. In making their selections, the Board takes into account the candidate's Service record, performance at the AIB, professional aptitude testing (where appropriate), appraisal reports and previous trade experience in relation to the employment needs of the officer specialisation. The following should be noted:

(1) Selection Boards are required to select suitable ratings for promotion to officer, based primarily on their merit to meet the numerical profession/specialisation and, if appropriate, specialist requirements. The requirement for this selection is also derived from the Service need which may, on occasion, limit the extraction from a donating profession/specialisation in order to maintain sustainability of that profession/specialisation.

(2) Selection is primarily based on merit which includes factors such as seniority, experience and time to serve. Although the RN is exempt from the Age Discrimination legislation, it would not be proper to take account of age alone as a factor in selection. Although legitimate factors such as seniority, experience and time to serve are, in many cases, linked to age, it is important to note that they are separate considerations in selecting candidates. For example, if there is a Service requirement that candidates need to serve for a particular period in order to be capable of qualifying and serving up to a certain level, then age is a legitimate factor. Although it is likely to result in the exclusion of older candidates, this will be on the grounds they have insufficient time left to serve to meet an important Service requirement, and not their age alone. Similarly, if, for demonstrable profession/specialisation structural reasons, it is important to maintain a through flow of personnel, it may be appropriate to take into account length of remaining service (which may be determined by age) as a factor in candidate selection provided that other factors such as quality and experience are also taken into account. In other words, selection should not be made based on age, but rather merit together with the justifiable requirements and best interests of the Service.

c. Selection of candidates is subject to the requirements of the Service and, consequently, some candidates may not be offered their preferred choice of profession, arm or specialisation.

d. Candidates considered suitable for the UoPDS will be provisionally selected to attend the university as a rating. Initial officer training will take place upon successful graduation.

5019. Final Selection Board (FSB)

a. The names of all the candidates considered suitable for officer entry by the AIB are passed to SUY/UY Recording Authorities who will arrange FSBs for the next appropriate BRNC or CTCRM entry. Recording Authorities are essential members of the FSBs as they oversee the progress of each SUY/UY candidate and can advise on their preparation and achievement. Most FSBs include the appropriate Profession Manager and, in some cases, a Career Manager. These officers, together with profession, arm and specialisation specific personnel, are important members of the relevant Board.

b. Provided that they have passed the AIB, all fully qualified candidates will be considered on every occasion until they are promoted, cease to be eligible, or after 5 years when an AIB pass is no longer valid or advised by the FSB that their prospects in relation to other candidates suggests their candidature be terminated. As the nature of the various FSBs varies depending on the specialisation in question, the feedback process is to be standardised in a similar way to officer Promotion Boards and the same descriptors are to be used, as detailed below:

(1) ***A.*** Candidates who, in comparison with others of their profession and rank, are ready for selection and broad employment at this time;

(2) ***B+.*** Candidates who, in comparison with others of their profession and rank do not merit selection at this board but who are considered promising candidates, who stand every possibility, on current reporting, of being assessed A at the next board.

(3) ***B.*** Candidates who, in comparison with others of their profession and rank, do not merit selection at this board but have sufficient evidence to indicate the will be considered promising candidates in due course.

(4) ***C.*** Candidates who, in comparison with others of their profession and rank, do not merit selection at this board and have insufficient evidence to indicate when they will be considered as promising candidates.

(5) ***C+.*** Candidates who are nearing retirement for whom, for the period of their remaining service, no opportunities for employment in the higher rank currently exist, but who would otherwise have been graded A–B.

c. Amplifying detail should be added as appropriate. Recording Authorities should then record FSB results to make it possible to provide appropriate advice to qualified candidates in order to manage their expectations and enable better informed career decisions such as whether to persevere, consider an alternative specialisation or suspend their candidature.

d. FSBs, including additional FSBs, are to be convened at least six months before the relevant BRNC entry; the CTCRM FSB is held in March of the previous year (13 months' lead-time). If appropriate, FSBs may need to consider more than one entry (e.g. May and Jul). Additional FSBs will be required if there is a need to review the candidates selected at an earlier FSB or if circumstances change, for example, new candidates for available spaces. Supplements to the BRNC entry signals will be issued as necessary by DDPD-PPLAN SWPO SO1.

e. Following FSBs, Recording Authorities e-mail (or signal) the list of candidates selected for the relevant entries to BRNC to DDPD-PPLAN SWPO SO1, copy to relevant Profession Manager. A co-ordinated nomination signal will be sent by DDPD-PPLAN SWPO SO1 informing BRNC, relevant Profession and Career Managers and all nominated candidates six months before the relevant BRNC entry point.

f. SCC Recording Authorities e-mail (or signal) the list of candidates selected for the CTCRM Apr entry to CTCRM, copy to relevant Profession and Career Managers.

5020. Delays in attending BRNC and CTCRM

Occasionally, Service requirements may result in SUY and SCC candidates starting BRNC or CTCRM later than the entry date that is provisionally offered. In such cases, individuals will not be entitled to any further backdated seniority on becoming an officer.

5021. Senior Command Warrant Officer (SCWO) - Additional TACOS

a. Incumbents of SCWO positions will automatically be awarded OF2 with 12 months seniority in their existing Profession commencing at the start of their SCWO assignment. Owing to the selection and interview process for assignment to these positions, there is no requirement for SCWO to complete an AIB.

b. Incumbents will wear the rank of WO1 (acting lower rank unpaid) during their SCWO assignment but are to receive appraisal reports in line with OF2 reporting timelines. On completion of their SCWO assignment they are encouraged, but not mandated, to attend the ACC at BRNC Dartmouth or SCCO at CTC Lympstone as applicable, before taking up their first complement assignment as an OF2.

c. Those wishing to decline their commission and remain as a WO1 should inform DHd Proms at the earliest opportunity prior to commencing their SCWO assignment. Should they subsequently wish to apply to become an officer they are not entitled to back-dating of a commission and must follow the normal selection process detailed in this Chapter.

ANNEX 50B

WARFARE OFFICERS - ADVANCED PATHWAY CAREER EXPECTATIONS

1. Mainstream Warfare Officers' Career Path

a. The mainstream X officer will complete their Phase 1 training at BRNC before then commencing their 15 weeks professional training, Initial Warfare Officers (Foundation) Course (IWO(F)), before proceeding to the Maritime Warfare School to attend a 4 week navigation course (including WECDIS Course and Initial Warfare Officers Navigation (IWO NAV)). This will be followed by Specialist Fleet Training (SFT), which will last about 9 months (to include 600 hours of bridge watch-keeping). This period at sea, when coupled with the training prior to the assessment for the Navigation Watch-keeping Certificate (NWC), will meet the needs of the IMO Standards of Training Certification and Watch-keeping (STCW). Mainstream X officers will then be assigned to the 15-week Initial Warfare Officers' Course (IWOC) at the Maritime Warfare School, during which they will be examined prior to the award of the NWC. The certificate will permit an individual to keep an unsupervised navigational watch in a vessel in a benign warfare environment once Platform Endorsed (PE). Failure to achieve the NWC will result in withdrawal from training.

b. During the IWOC, the mainstream X officer may be selected to specialise SM, especially if from a submarine background, or in a very few cases H or FC. The vast majority, however, will proceed to their first ship for watch-keeping duties, with the aim of being selected for Principal Warfare Officer (PWO) training at the earliest appropriate opportunity. Early on in their First Complement Assignment (FCA), mainstream X officers will be required to gain a PE for the class of warship in which they are serving and then within their first year gain their Bridge Warfare Qualification (BWQ). The latter will permit an individual to keep an unsupervised navigational watch in a busy warfare environment and to subsequently take Ops Control as a Warfare Officer in the Operations Room.

c. Unlike Direct Entry officers, there is not the option to specialise as a Pilot or Observer, and only in exceptional circumstances train as an MCDO, (in particular if they have an MCD or MW background as a rating), after the FCA. This is due to there being insufficient time to specialise and subsequently be employed in specialist assignments before proceeding on the PWO course. Therefore, after one, two or occasionally three complement assignments (dependent on previous experience), the majority at sea, X mainstream officers will follow the PWO route. This usually comprises the Initial Command and Staff Course (Maritime) (ICSC(M)) and the PWO course in a package which lasts about 12 months.

d. During the PWO course, all students are trained generically and no longer streamed, although they will be assigned to their first ships in order to achieve Role Performance Standard (RPS). Limited options may be available to subsequently train as a PWO(N). Following at least one seagoing warfare assignment and achieving RPS, most PWOs have the opportunity to serve ashore. Apart from periods of shore-based training, this is likely to be the first shore assignment since promotion to the Officer Corps. Mainstream X officers will be competing for promotion with other warfare officers on merit but they have a much greater opportunity to achieve higher rank and a more diverse career than that available to their more specialist peers. This includes sea command. Competition is strong, however, so only the most able are likely to emerge successfully from the selection process.

e. MCD ratings selected to enter the MCD Officer cadre will be expected to remain in that specialisation although, in consultation with the Career Manager, PWO training will remain an option. The MCDO cadre has opportunities to promote to OF3, but officers require the PWO qualification to promote to OF4 and beyond.

2. Deep Specialist Warfare Officers Career

a. There remains a limited specialist requirement for ISC officers for Intelligence, METOC, etc. specialisations. The requirement for officers in these specialisations is relatively small and assignments and promotion prospects are more limited, so ratings who are considering this path may wish to discuss these issues with the appropriate Recording Authority (listed at Annex 50A) prior to requesting to become a candidate. There is no requirement for Specialist candidates to obtain a NWC or eyesight waiver.

b. Following Phase 1 training, the Specialist X officer will conduct the relevant sea training package and phase 2 training course before taking up their first complement assignment. Although they have a liability for sea service and Operational Tours, the majority of their employment will be ashore within their specialist area with very occasional opportunities for broadening. Deep Specialist X Officers will not receive any training in watch-keeping and will not be employed as an OOW. With promotion to requirement the main driver after merit, the prospects for promotion beyond Lieutenant Commander are limited for deep specialist warfare officers.

c. The General Service Warfare Intelligence (GSX INT) sub-specialisation, which subsumed the Electronic Warfare Deep Specialisation, was established in 2009. The GSX INT sub-specialisation has a strength of approximately 160 officers. ISC candidates will compete for promotion alongside their direct and sideways entry counterparts who have specialised after joining the Trained Strength. Deployable, sea and shore liability is increasing as intelligence becomes mainstream in the RN and Joint operations and broader career profiles, including Common Appointments, are possible. All GSX INT officers have the opportunity to reach OF5 rank based upon merit.

3. Warfare (ex-Warrant Officer) Officer's Career

a. There is a limited requirement for specialist officers to commission from Warrant Officer. As the requirement for officers in these specialisations is relatively small, however, and assignments and promotion prospects more limited, ratings who are considering this path may wish to discuss these issues with the appropriate Recording Authority (listed at Annex 50A) prior to becoming a candidate. There is no requirement for candidates to obtain a BWC or eyesight waiver.

b. Officers will join BRNC for Phase 1 training before taking up their first complement assignment. Where appointing profiles allow, they will then be assigned to the Initial Command and Staff Course (Maritime) (ICSC(M)) and extant Maritime Planning Officer training course, or the Joint Operational Planning Course before taking up their first complement assignment. A typical career is at Figure 50B-1.

Figure 50B-1. Typical Career Path

c. Although they have a liability for operational deployments, the majority of their employment will be ashore within their specialist area with very occasional opportunities for broadening. With promotion to requirement the main driver after merit, the prospects for promotion beyond Lieutenant Commander are extremely small for specialist Warfare officers.

4. Acknowledgement

Appendix 1 or Appendix 2 to this Annex as applicable, are to be signed by all potential X officers.

APPENDIX 1 TO ANNEX 50B

ACKNOWLEDGEMENT OF CAREER IMPLICATIONS FOR MAINSTREAM WARFARE OFFICERS ON THE ADVANCED PATHWAY

1. I hereby sign that I have read BRd 3(1) Chapter 50 Annex 50B paras 1a-e inclusive and acknowledge that a career as a mainstream Warfare Officer involves successive sea assignments (usually until reaching mid seniority Lt Cdr) and that the GS Arm career path will be OOW followed by PWO, even if selected for another specialisation during the early stages of a career as an officer.

Signed ..... Name .....

Rank/Rate ..... Date .....

This form is to be forwarded to BRNC for inclusion in the officer's E190.

APPENDIX 2 TO ANNEX 50B

ACKNOWLEDGEMENT OF CAREER IMPLICATIONS FOR WARFARE OFFICERS EXTRACTED AS A WARRANT OFFICER

1. I hereby sign that I have read BRd 3(1) Chapter 50 Annex 50B Para 3a-c inclusive and acknowledge that a career as a specialist Warfare officer (GS or SM) may involve sea assignments or Loan Foreign Service (LFS).

Signed ..... Name .....

Rank/Rate ..... Date .....

This form is to be forwarded to BRNC for inclusion in the officer's E190.

ANNEX 50C

GENERAL SERVICE AND SUBMARINE ARM ENGINEER OFFICERS - CAREER EXPECTATIONS

1. General

a. Marine and Weapon Engineer officers' career expectations and reach are affected primarily by the age of the officer on commissioning.

b. Broadly speaking, those aged 39 and under on commissioning should have expectations similar to their Graduate Entrant contemporaries, although the number of promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 40 or over on commissioning should probably have slightly more restricted expectations, due to time available, especially in terms of undertaking a Charge Assignment, and prospects for promotion to Commander.

2. Engineer Officers' Career Expectations - Age 39 and Under on Commissioning

a. On completion of Initial Officer Training at BRNC and the Lead Schools, officers will be career managed in the same way as graduate entrants. They are required to obtain a 'recommendation for Charge' in their first complement assignment, before undertaking the recognised foundation stage career through a range (2 to 4 in number) of core branch and broadening assignments. Once selected for promotion to Lieutenant Commander they should reasonably expect to complete a Professional Command Assignment. Progress thereafter is merit based.

b. Late promotion to Lieutenant Commander may preclude selection for a Charge Assignment. The Career Manager makes this discretionary decision, based primarily on the availability of Professional Command Assignments whilst balancing the Service requirement, career development needs and personal preference.

3. Engineer Officers' Career Expectations - Age 40 and Over on Commissioning

a. Those officers aged 40 or over on commissioning will invariably need to be slightly more limited in their career expectations. Whenever possible, they will be employed in the same way as their younger counterparts.

b. Where it is unlikely that the individual, on account of their age on commissioning and/or their age of promotion to Lt Cdr will have time to state a credible case for promotion to Commander, there may still be sufficient opportunity to conduct an SO2 Professional Command appointment subject to the Career Manager's discretion iaw Para 2.b.

c. Where it is unlikely that an individual, on account of their age on commissioning, will have an opportunity to be promoted to Lt Cdr and complete a Professional Command Assignment, special career progression arrangements may be considered, depending on the Service need and in particular the availability of First Complement Assignments.

d. It is crucial that prospective candidates receive accurate advice on their career opportunities an Engineer Officer. Anyone advising a potential or recorded candidate should ensure that the individual understands the above information. If further information is required, advice should be sought from the relevant Engineer Profession Career Manager.

ANNEX 50D

AIR ENGINEER OFFICERS - CAREER EXPECTATIONS

1. General

a. Air Engineer officers' career expectations and reach are affected primarily by the age of the officer on commissioning.

b. Broadly speaking, those aged 39 and under on commissioning should have expectations similar to their Graduate Entrant contemporaries, although the number of promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 40 or over on commissioning should probably have slightly more restricted expectations, due to time available, especially in terms of opportunity for a Professional Command Assignment, and prospects for promotion to Commander.

2. After Commissioning - Professional Command

a. On completion of Phase 1 Training at BRNC and RNAESS, officers will be career managed in the same way as graduate entrants. They are required to obtain a 'recommendation for Professional Command' in their first complement assignment, before undertaking the recognised Foundation Stage Career through a range (2-4 in number) of core Specialisation and broadening assignments. Once selected for promotion to Lieutenant Commander they can reasonably be expected to complete a Professional Command Assignment.

b. Late promotion to Lieutenant Commander may preclude selection for a Professional Command Assignment. The Career Manager makes this discretionary decision, based primarily on the availability of Professional Command Assignments whilst balancing the Service requirement, career development needs and personal preferences.

3. Aged 40 and over on Commissioning

a. Those officers aged 40 or above on commissioning will invariably be slightly more limited in their career opportunities. Whenever possible, they will be employed in the same way as their younger counterparts.

b. Where it is unlikely that the individual, on account of their age on commissioning and/or their age of promotion to Lt Cdr, will have time to state a credible case for promotion to Commander, there may be limitations in their ability to complete Professional Command Assignments.

c. Where it is unlikely that an individual, on account of their age on commissioning, will have an opportunity to be promoted to Lt Cdr and complete a Professional Command Assignment, special career progression arrangements may be considered, depending on the Service need and in particular the availability of AAEO/DAEO First Complement Assignments.

d. It is crucial that prospective candidates receive accurate advice on their career opportunities as an Air Engineer Officer. Anyone advising a potential or recorded candidate should ensure that the individual understands the above information. If further information is required, advice should be sought from either the AE Profession or Career Manager.

ANNEX 50E

LOGISTICS OFFICERS - CAREER EXPECTATIONS

1. General

a. Logistics officers' career expectations and reach are affected by the age of the officer on commissioning.

b. Broadly speaking, those aged 39 and under on commissioning should have expectations broadly similar to their Graduate Entrant contemporaries, although the number of promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 40 or over on commissioning should probably have slightly more restricted expectations, due to time available, especially in terms of the opportunity for a Professional Command Assignment, and prospects for promotion to Commander.

2. After Commissioning - Professional Command

a. On completion of Phase 1 Training at BRNC and the Defence School of Logistics and Administration (DSLA), officers aged under 39 will be career managed in the same way as graduate entrants, with early assignments providing professional broadening. If selected for promotion to Lieutenant Commander, provided they have obtained a positive 'recommendation for Professional Command' during their previous sea assignment(s), and dependent on selection by the Logistics Professional Command Board (LPCB), they should reasonably expect to complete a Professional Command Assignment.

b. Late promotion to Lieutenant Commander may preclude selection for a Professional Command Assignment. The PCSB(L) makes this discretionary decision, based primarily on the ability of the individual and availability of Professional Command Assignments – whilst balancing the Service requirement, career development needs and personal preferences.

3. Aged 40 and Above on Commissioning

Those officers aged 40 and above on commissioning will invariably need to be slightly more limited in their career expectations. They will be employed in the same way as their younger counterparts, with the caveat that they will have limited opportunities for a Professional Command Assignment. This does not mean that they will not be considered. Normal career progression should see them promoted to Lieutenant Commander over the age of 43, which will leave them with less time to state a credible case for promotion for Commander. The performance of certain officers may warrant an exception being made to this general approach.

4. Advice to Candidates

It is crucial that prospective candidates receive accurate advice on their career opportunities as Logistics Officer. Anyone advising a potential or recorded candidate should ensure that the individual understands the above information. If further information is required, advice should be sought from either Logistics Profession or Career Manager.

5. Royal Navy Welfare (RNW) Social Work Degree Scheme (SWDS)

a. **Eligibility.** The SWDS is open to confirmed RNW ranks who have completed a minimum of 3 years following passing DSWWC in positions associated with RN FPS specialist welfare casework. Candidates must pass the AIB and the RN FPS Professional Board prior to the FSB. If extracted, and not held already, they will undertake a Social Work Degree (second and third years) at a specified university. Candidates will undertake their degree training as Senior Ratings or SNCOs.

b. **Academic Qualifications.** The minimum academic requirements are DSWWC and GCSEs at Grades A* - C (4 - 9) in english and mathematics or certified equivalents.

c. **Remuneration.** Whilst studying, SWDS candidates are paid at their basic salary depending on the rank/rate held. On joining BRNC, candidates will enter the officer stream and will be awarded the appropriate rank and pay.

d. **Return of Service.** See Chapter 53.

ANNEX 50F

ROYAL MARINES SCC OFFICERS - CAREER EXPECTATIONS

1. Senior Corps Commission Entry

a. All SCC candidates must have reached the minimum rank of Corporal, be aged over 26, but have a minimum of four years to serve as an officer until their retirement date from the first day of the month that their officer training is expected to commence. The minimum general educational qualifications required of a SCC candidate are four GCSEs at Grade C, or better, including English Language and Mathematics. The selection procedure for promotion to the Officer Corps follows the RN SUY boarding system; candidates attend the AIB and, if successful, are then considered by the Final Selection Board (FSB) for officer entry.

b. SCC officers enter the Corps on a RM Initial Commission of eight years (IC 8) and undertake the SCC Course, which is currently held annually between January and April each year at CTCRM. The number of commissions in the General Service (GS), the RM Band Service (RMBS) and the SBS is dictated by the requirement.

2. SCC Employment

a. GS SCC officers are commissioned specifically to undertake roles in G1 and G4[1], thereon providing the bedrock of desk-level expertise at unit and headquarters' level. SCC Officers in the RMBS and SBS will fulfil wider specialist employment within their SQ, although some positions may be within the G1/G4 field.

b. As a general rule, the Career Managers will seek to provide each SCC officer with two or three G1/G4 assignments prior to entering the OF3 promotion zone[2]. Upon completion of initial training all SCC officers will undertake a mainstream G1 or G4 role[3] in their first full assignment. In their second full assignment, subject to position availability and the Service's requirements, SCC officers may compete for some broadening positions. Thereafter, a SCC officer will undertake further, more demanding, G1 and G4 assignments[4] to build competency and experience to allow for an accurate assessment of suitability for promotion to Maj, and potential for subsequent employment in G1 and G4 positions as an SO2.

3. SCC Age and Promotion

a. Applicants for a SCC must have the recommendations from their chain of command. The younger a SCC officer is commissioned, the more time and opportunity they have to reach higher rank. As a general guide, if a rank seeks promotion to OF3, they must be commissioned by the time he is 40 years old to avoid being Out of Zone (OOZ) for promotion (aged 47). Similarly, ranks aspiring to OF4 must be realistically commissioned by age 38 to avoid being OOZ.

---

[1] There is a preponderance of G4 positions, vice G1, and this is where officers are likely to be employed for the most-part, hence G1 being second in terms of likelihood only, not importance.
[2] After 6 years as a substantive Capt.
[3] MTO, QM(T), UIRO, Sqn AO are examples.
[4] SO3 G4 Ops (HQ 3X), SO3 N4 Ops (CAF), AO (RMR), SO3 RCMRM (NPT(RM)) are examples.

b. Promotion is based on merit and SCC officers not only compete against each other, but also against their Direct Entry peers to fill a range of positions at the next higher rank, including the mainstream G1/G4 positions.

4. SCC Officer Attendance at ICSC(L)

Attendance at ICSC(L) is not assured and Career Managers will use their discretion dependent on a SCC officer's age on promotion to OF3, balanced against the Service's interest. The cut-off is generally 45 years old due to there being a very slim chance of promotion to OF4 for any SCC officers of that age or older.

ANNEX 50G

ISC SCHEME - AIB NOMINATION FORM

1. All RN and RM candidates are to be nominated by completion of this form which should be submitted to the relevant Recording Authority (contact details are listed at Annex 50A)

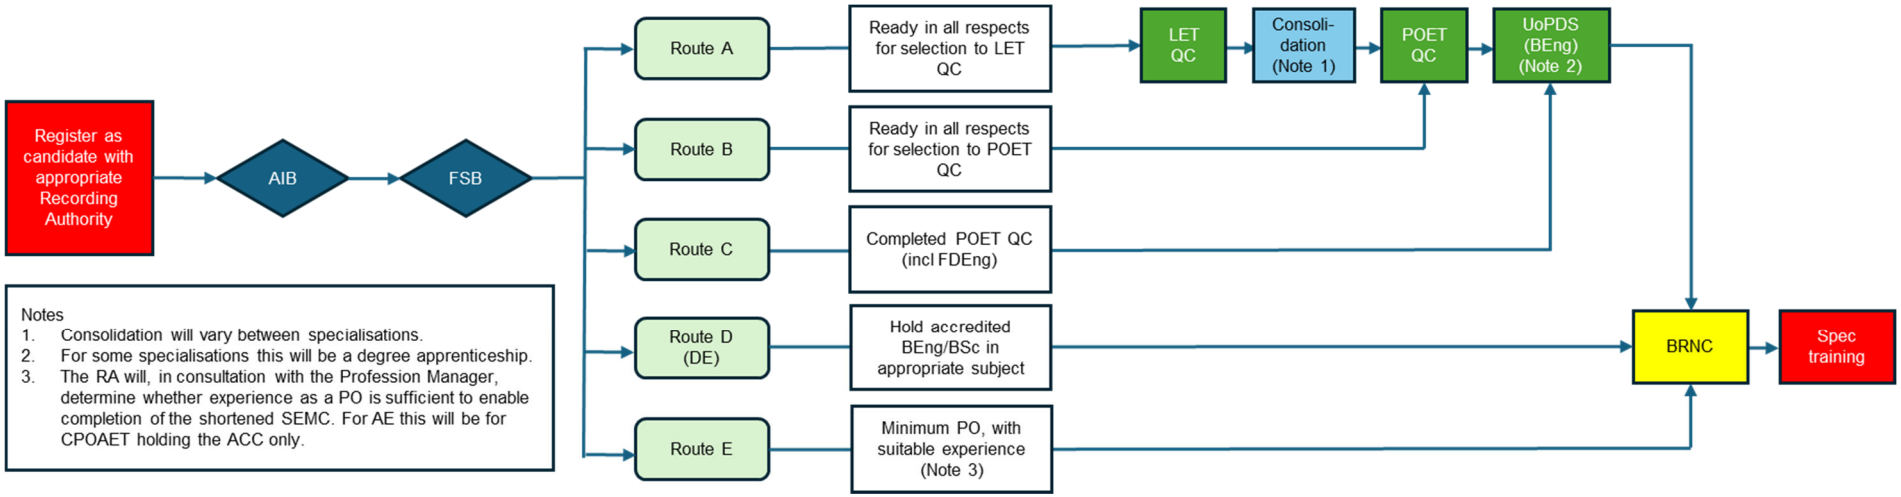
2. AIB Applicant Information

Rate/Rank	
Forename(s)	
Surname	
Service number	
Date of birth	
Civilian Email Address	
Personal Mobile Number	
Unit	
Current Career Manager email address	
Date of first expression of interest in ISC scheme entry	
Date Divisional Officer contacted Recording Authority	
Is applicant intending on entering on the Primary, Intermediate or Advanced pathway?	
Profession, arm and specialisation preference[1]	
AIB non-availability dates	
Forthcoming assignments(FAD)	
Is the applicant undergoing a course of instruction leading to the required educational qualifications or awaiting results? If yes, give details	
In submitting this application to attend AIB, I confirm that the information on this form is correct. I have discussed this application with my Divisional Officer/Troop Commander and understand the requirements of AIB and the officer training scheme. **Applicant's signature and date:**	
I confirm that (rate/rank/name) ……. has my support to attend AIB at the earliest opportunity. **Commanding Officer's rank/name/initials:** **Commanding Officer's signature and date:**	

[1] In the event of a change of preference at a later date, a new Annex 50H must be completed.

ANNEX 50H

ENGINEERING TECHNICIAN - ROUTES TO OFFICER



Notes
1. Consolidation will vary between specialisations.
2. For some specialisations this will be a degree apprenticeship.
3. The RA will, in consultation with the Profession Manager, determine whether experience as a PO is sufficient to enable completion of the shortened SEMC. For AE this will be for CPOAET holding the ACC only.

1. Failure Criteria

a. A candidate who fails to pass Qualifying Courses or who, for whatever reason, is deemed unsuitable for continued training towards becoming an officer will be returned to their specialisation in the last substantive rate held and employment commensurate with their QC achievement. Those candidates who have been selected for promotion to the next higher rate will be promoted at the Common Promotion Date once all the pre-promotion requirements are met.

b. Personnel failing on academic grounds, following the Training Establishments' (TE) normal warning processes, will have the opportunity to reapply at a later date. They may apply to re-enter from the beginning of the same or via an alternative route.

2. Rank and Pay

Ratings selected for any route will retain their current rate and pay throughout the training process until joining BRNC. They will not be eligible for selection to the next higher rate but will receive incremental pay awards in accordance with the regulations for their specialisation. Where the necessary qualifications cannot be achieved due to the training programme, waivers may be sought from the relevant Profession Manager who will assess each application on its own merits. On joining BRNC, candidates will enter the officer stream and will be awarded the appropriate rank and pay.

3. Return of Service

All stages of training may attract a ROS and these run concurrently through each of the routes.

4. UoP BEng may be achieved through a Degree Apprenticeship.

ANNEX 50I

UY(E) UNIVERSITY OF PORTSMOUTH DEGREE SCHEME - ACADEMIC QUALIFICATIONS

Degree	Eligible Specialisations	Academic Requirement	Enabling Subjects to be completed before start at University of Portsmouth (Delivered by the University of Portsmouth)
BEng(Hons) in Electronic Engineering including Degree Apprenticeships leading to the same Degree	WE (GS & SM) AE	Complete HND with minimum of 8 'H' level analytical based units at Merit that must include the following units: Unit 3: Analytical Methods Unit 23: Combinational & Sequential Logic Unit 8: Data Communication & Networks Unit 5: Electrical & Electronic Principles Unit 25: Electronics Unit 9: Microprocessor Systems	UoP Bridging Programme: Maths Element Microcontroller Element C-Programming Element
BSc in Mechanical & Manufacturing Engineering Course	ME (GS, SM (L & M)) WE (GS & SM)	Complete HND at Pass level OR Complete FD (ME only)	Complete Mathematics enabling course
BEng(Hons) in Mechanical & Manufacturing Engineering Course	AE ME (GS, SM (L & M))	Complete FD (ME Only), **OR** Complete HND with a minimum of 8 'H' level analytical based units at Merit that must include: Unit 3: Analytical Methods Unit 2: Engineering Science Unit 18: Mechanical Principles Unit 10: Marine Engineering Thermodynamics Unit 7: Fluid Mechanics **OR** Unit 8: Further Aerodynamics	Complete Mathematics enabling course

(Continued

UY(E) UNIVERSITY OF PORTSMOUTH DEGREE SCHEME - ACADEMIC QUALIFICATIONS (Continued)

Degree	Eligible Specialisations	Academic Requirement	Enabling Subjects to be completed before start at University of Portsmouth (Delivered by the University of Portsmouth)
BEng(Hons) in Electronic Engineering	WE (GS & SM) AE	Complete HND with minimum of 8 'H' level analytical based units at Merit, that must include the following units: Analytical Methods (BTEC Code 21717P) Combinational & Sequential Logic (BTEC Code 8685R) Data Communication & Networks (BTEC Code 9526M) Electrical & Electronic Principles (BTEC Code 21759P) Electronics (BTEC Code 21762P) Microprocessor Systems (BTEC Code 21794P)	UoP Bridging Programme: Maths Element Microcontroller Element C-Programming Element
BSc in Mechanical & Manufacturing Engineering Course	ME (GS, SM(L & M)) WE (GS & SM)	Complete HND at Pass level	Complete Mathematics enabling course
BEng(Hons) in Mechanical & Manufacturing Engineering Course	AE ME (GS, SM(L & M))	Complete HND with a minimum of 8 'H' level analytical based units at Merit, that must include: Analytical Methods (BTEC Codes 21717P, 21717) Engineering Science (BTEC Codes 21718P, 9499M) Mechanical Principles (BTEC Codes 21793P, 9503M) Engineering Thermodynamics (BTEC Codes 21769P, 9521M) Fluid Mechanics (BTEC Code c-d 21520P) OR Further Aerodynamics (BTEC Code 21773P)	Complete Mathematics enabling course
BSc(Hons) in Computer Networks and Security Course	WE (GS) - ET(CIS)	Complete FD ET(CIS) only OR similar academic Quals as required by UoP for Legacy CIS

Annex 51G: Profession Transfer Request Form - Officers on the Trained Strength

CHAPTER 51

PROFESSIONS, ARMS AND SPECIALISATIONS

SECTION 1

INTRODUCTION

5101. Profession, Arm and Specialisation Transfers

Guidance outlined in this chapter, unless otherwise stated, covers the policy regarding transfer between Professions, Arms and Specialisations for Regular Service (Royal Navy (RN) & Royal Marines (RM) personnel.

5102. Profession Management

Management of these Professions, Arms and Specialisations is conducted by a wide range of authorities. The structure of individual Professions, their sustainability and their population by Naval personnel is part of the Profession Management process, coordinated by Profession Managers. A description of this process and the policies that apply to it is at Chapter 62.

5103. Profession Selection

Personnel join the Royal Navy in an agreed Profession and Arm in the process and principles shown in Chapter 4. Opportunities to transfer between Profession, Arm and Specialisation are based primarily on the Service Requirement. Personnel have the option to apply for transfer between Profession, Arm and Specialisation based on the criteria within this Chapter; the Royal Navy has no obligation to uphold any application. Careful management of an individuals' expectations is a critical element of the process and must not be ignored by key members of the Command Chair and/or the Divisional/Regimental system.

SECTION 2

PROFESSION AND SPECIALISATION TRANSFERS - UNTRAINED STRENGTH

5104. Young Officer Transfers - General

a. Young Officers (YOs) are allocated to Professions on entry to meet the Service requirement and **it should not be assumed** therefore that officers who fail in training or do not wish to continue in their original Profession or specialisation will automatically be accepted into other Professions or specialisation, even if they are strongly recommended for transfer by their Commanding Officer (CO) and/or administrative authority. Due to this Service requirement and recruitment planning, Officers should achieve Trained Strength status before requesting to transfer between Professions and/or Specialisations. Before submitting a request, applicants should ensure the latest RNTM library has been consulted which may detail temporary restrictions or limitations on transfers into certain professions or specialisations.

b. Opportunities for transfer are very limited and all cases are considered on their merits. In reaching a decision, the Officer Training Pipeline Manager (NAVY PEOPLE-TRG TMG HQ UTSPM), the approving authority for Profession/ specialisation transfers of officers under initial training, will consider the workforce position and the recruiting and entry targets, together with the training time in the Professions and/or specialisations concerned. This includes P, O and ATC YOs who fail grading or request to transfer during Phase 1 Initial Officer Training at BRNC Dartmouth. Where required, from an interview with the Naval Advisory Board (NAB) - see Para 5739 - and/or the Career Manager.

c. During counselling, or when forwarding requests to the Officer Terms of Service Manager, authorities should avoid giving a YO the impression that they will automatically be accepted for transfer. A YO who is not recommended should be told so. It is to be made clear to the YO that there is no automatic right to transfer intra or inter-Service, and that the needs of their present Profession are paramount. Officers should be advised that their case is being referred to the Officer Terms of Service Manager for staffing prior to submission to the Officer Training Pipeline Manager.

d. A major factor when considering transfer requests is the number of officers likely to commence Phase 2 professional training in both of the specialisations affected. During the early stages of Initial Naval Training, there is significant risk of being withdrawn from training or back-termed, which introduces a degree of uncertainty into the decision-making process. So that a decision can be based on the best available information, transfer requests may only be submitted by Officer Cadets once they have reached Week 8 of the Marinisation term - requests submitted prior to this point will not be considered.

e. A YO is not to be transferred to a new training pipeline ahead of receipt of formal Headquarters approval and receipt of their signed acceptance of the terms of the transfer determined by the Officer Terms of Service Manager. Only in exceptional cases will the Officer Training Pipeline Manager consider authorising the move of an individual ahead of completion of the formal staffing process.

f. Requests for transfer from YOs under warning will be considered on their merits, however it is not guaranteed that all transfers will be approved.

g. Officers in a reduced medical category will not be considered for a Profession transfer on the untrained strength. For longer term medical downgrades of the untrained strength, profession transfers may be considered subject to the outcome of each trainee's Medical Employment Board (MEB).

h. It should be noted that transfers from the Submarine Service to General Service are very unlikely to be accepted except in extremely exceptional circumstances.

i. UTS Warfare Officers who wish to stream XSM or Hydrography from GSX at any phase of training no longer require the transfer request documentation as detailed below but should instead contact the UTS Pipeline Manager and/or Warfare Officer Professions Manager via email to declare an Expression of Interest.

5105. Young Officer Transfers during Phases 1 (including Aircrew Officers up to Grading) Training - Applications

a. The YO is to complete the Profession transfer application form at Annex 51E and submit this to the Officer Commanding Officer Training (OCOT), along with a supporting letter detailing the following:

(1) The reason why they wish to transfer to the Profession specified.

(2) Why they feel that they are suited to the prospective Profession.

(3) Details of the relevant skills and experience that they would bring to the prospective Profession.

(4) The research that they have undertaken with regard to the prospective Profession.

b. OCOT is to forward the YO's application form and letter, via a covering email, to the Officer Training Pipeline Manager (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM), advising whether or not the application is supported.

c. This process also applies to P and O YOs who fail grading and include ATC YOs who request to transfer during Phase 1 Initial Naval Training (Officer) at BRNC Dartmouth.

5106. Young Officer Transfers during Phases 1 or 2 (Aircrew Officers up to Grading) Training - Approval Process

a. On receipt of the application, the Officer Training Pipeline Manager will check that the individual is eligible to be considered for transfer and make a determination based on the Service need and available training opportunities. They will contact the Officer Terms of Service Manager for advice on any terms of service implications, noting that a seniority adjustment will not be necessary.

b. The Officer Training Pipeline Manager will inform OCOT of their decision by email. If approved, the email is the authority for the applicant to be re-streamed.

5107. Young Officer Transfers during Phase 2 Training - Applications

a. With the exception of Aircrew Officers who have yet to reach the end of their Aircrew Grading (see Para 5105), the YO is to complete the Profession transfer application form at Annex 51E and submit this to their CO, along with a supporting letter detailing as follows:

(1) The reason why they wish to transfer to the Profession specified.

(2) Why they feel that they are suited to the prospective Profession.

(3) Details of the relevant skills and experience that they would bring to the prospective Profession.

(4) The research that they have undertaken with regard to the prospective Profession.

b. The CO is then to write a letter advising whether or not the request is supported and ensure that the following are forwarded to the Officer Training Pipeline Manager by email to NAVY PEOPLE-TRG TMG HQ UTS PM:

(1) YO's application form and letter.

.

(2) Copies of any other documentation deemed to be relevant to, or supporting, the application: e.g. a CO's letter from a holdover period.

c. In forwarding recommendations to the Officer Training Pipeline Manager, authorities should consider the performance of the YO and their value to the Service and should take into account the reasons behind any request for transfer. They should satisfy themselves that the YO has had sufficient opportunity to comprehend the work of the preferred Profession or specialisation and, wherever possible, has received appropriate counselling, from officers of both the present and preferred Profession or specialisation, to put them in a position to exercise reasonable judgement. As far as possible, they should set the YO against the average standards of their contemporaries in the Profession or specialisation to which transfer is sought. However, as stated in para 5104, Young Officers (YOs) are allocated to Professions on entry to meet the Service requirement and therefore there is no guarantee that a transfer will be approved, even with CO endorsement.

d. YOs should be advised that their case is being referred to the Officer Training Pipeline Manager.

5108. Young Officer Transfers during Phase 2 Training - Approval Process

a. **Seniority Adjustments (see Para 5111).** When applications are received by the Officer Training Pipeline Manager, the Promotions section will be advised to suspend the YO's seniority pending the outcome of the application. If the individual is unsuccessful in their application, their seniority will be re-instated in full. If the application is successful, a YO may have their seniority adjusted, following which accrual of seniority will resume.

b. **Eligibility.** The Officer Training Pipeline Manager will liaise with the Untrained Strength Career Manager (UTS CM) to ascertain whether an individual is eligible to be considered for a transfer (MedCat, Nationality requirements for Submarines, required qualifications etc). If the individual is ineligible, the CO will be advised and the individual's seniority will be re-instated.

c. **Consideration of Applications.**

(1) **General Applications.** The UTS CM will engage with the Officer Training Pipeline Manager, the approving authority for Profession/specialisation transfers of officers on the untrained strength, and other stakeholders regarding consideration of the application. Opportunities for transfer are limited and all cases are considered on their merits. In reaching a decision, the Officer Training Pipeline Manager will consider the workforce position and the recruiting and entry targets, together with the training time in the Professions and/or specialisations concerned. Where required, a suitability interview will be conducted with the Career Manager or a delegated representative if the YO is unable to attend Navy Command Headquarters. Advice can be sought from the UTS CM.

(2) **FAA Transfer Applications (P to O/ATC, O to ATC).**

(a) During Phase 1 Training and Phase 2 Grading, the Officer Training Pipeline Manager has the overall authority to approve Profession and specialisation transfer requests but, in making a decision, will consult closely with Navy Command Flying Training staff and the FT Naval Aviation Advisor(see Para 5742) regarding a YO's suitability for transfer.

(b) During Phase 2 Professional Training, the authority to approve any transfer application (P to O; P/O to ATC) rests with COMNA and will be administered by FT Naval Aviation Advisor. Information about decisions taken, and the terms and conditions that will apply in the new Profession and/or specialisation if a transfer request is approved, will be formally conveyed to YOs by the Officer Terms of Service Manager.

(c) Transfers from O to P or ATC to P or O are not normally permitted but will be considered where a specific Service need is identified. The Service reserves the right in exceptional circumstances to offer such transfers to student Observers and ATC YOs who have particularly high aptitude scores for both Pilot and Observer and show potential to succeed as Aircrew. In such cases, the YOs will be expected to successfully complete both Pilot and Observer grading (or in the case of ATC YOs whichever specialisation they are considered for) and will then progress along the relevant Flying Training Pipeline. If, at any time up to the successful completion of the required training, they fail to demonstrate the required potential, they will be returned to their core specialisation training pipeline at no penalty. Once they have successfully completed flying training to the required standard, they will be formally transferred to the respective specialisation; any subsequent failure will be treated in the normal manner for their new specialisation. Information about decisions taken, and the terms and conditions of service that will apply in the new Profession and/or specialisation if a transfer request is approved, will be formally conveyed to YOs by letter from the Officer Terms of Service Manager.

(d) Transfer from P, O or ATC to the Aviation Profession (X(AV)) from UTS personnel is no longer a standard route due to the limitation of X(AV) not having a Phase 2 pipeline. However, it may be considered in exceptional circumstances on a case-by-case basis by the SO1 Aviation Professions Manager.

5109. Young Officer Transfers during Phase 2 Training - Notification of Decision

The Officer Terms of Service Manager will advise the YO, by formal letter via their CO, whether or not the application has been successful.

a. **Unsuccessful Applications.** If the application has not been successful, the Officer Terms of Service Manager will advise the Promotions section that the YO's seniority should be re-instated in full. YOs who are unable to continue in their original Profession, specialisation or training pattern due to failure during training, and are not selected for transfer, will be compulsorily withdrawn from training and their commission terminated (see Para 5440).

b. **Successful Applications.** If the application has been successful, a transfer offer letter will detail the revised terms and conditions that will apply on transfer and will include an acceptance pro forma. The YO should complete and return the proforma to the Officer Terms of Service Manager advising whether or not they wish to accept the offer. If the YO accepts the offer, their seniority will be adjusted on transfer to the new Profession in accordance with Para 5111. If the YO decides not to accept the offer, the Promotions Office will re-instate their seniority in full and the individual will remain in their current Profession.

5110. Young Officer Transfers - Timing of Transfers

A YO is not to be transferred to a new training pipeline ahead of receipt of formal Headquarters approval and receipt of their signed acceptance of the terms of the transfer as advised by the Officer Terms of Service Manager in the transfer offer letter. In exceptional cases, however, the Officer Training Pipeline Manager will consider authorising the move of an individual ahead of completion of the formal staffing process. The effective date of transfer will be advised in the transfer offer letter.

5111. Young Officers - Seniority Adjustments on Transfer

The implications for a Young Officer's rank and seniority are as follows:

a. Officers who are given approval to transfer Profession during Phase 1 Training will not lose any seniority as, for the majority, promotion from Midshipman to Sub Lieutenant is based on time served rather than seniority accrued.

b. If an officer applies for a transfer to a new Profession and/or specialisation whilst undertaking Phase 2 Training on the Untrained Strength, their seniority will be suspended until the transfer request has been considered. As such, an officer's imminent promotion to the rank of Lieutenant RN or Captain RM may be deferred. If the transfer request is declined, an officer's seniority will be reinstated in full and they will continue in their current Profession. If the request is upheld, however, an officer may have their seniority adjusted (see sub para c), following which accrual of seniority will resume.

c. Wherever possible, individuals should not be able to gain an advantage over their peers in the Profession and/or specialisation into which they are transferring. As a result, officers who are selected for a transfer will have their seniority in their current rank adjusted to reflect the total time spent undertaking Phase 2 Training that is not deemed to be relevant to the new Profession and/or specialisation. Officers will be able to retain seniority accrued during periods of training inactivity e.g. as a result of Service reasons (including holdovers) or non-Service reasons outwith their control (including medical or compassionate reasons). Advice on the relevance of training (and hence any seniority adjustment) will be provided by DDPD Untrained Strength Career Manager as part of the overall consideration of the Profession transfer request within the Navy Command Headquarters and will be shown in the offer letter sent to officers for their agreement. If the proposed seniority adjustment is greater than an officer's current seniority as a Sub Lieutenant or Lieutenant, their seniority in the rank will be reset to zero on the date of transfer. It should be noted that, whilst an officer can lose seniority in their current rank as a result of a successful transfer request, they cannot be reduced in rank.

d. The seniority of an officer transferring from or to a Profession where seniority is granted for a degree or relevant civilian experience (or both) may be adjusted by more than one year.

5112. Rating Transfers - General

a. The Untrained Strength (UTS) Profession transfer process is controlled by the Officer Training Pipeline Manager (see Points of Contact) and applies only to ratings who have not previously joined the Trained Strength. All requests will be considered on a case-by-case basis; responsibility for approval or refusal of requests lies with the Ratings Training Pipeline Manager.

b. Ratings have no right to transfer Profession or specialisation whilst on the UTS and, on joining, they sign MOD Form S3049 to this effect. A rating who is not content with their current Profession or is failing academically may request a Profession transfer through their Divisional Officer. Any request for transfer should be made by email to the UTS Ratings Training Pipeline Manager (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM); all requests will be considered on a case-by-case basis. Should any UTS rating be offered a transfer and subsequently fail in the new Profession, there is no right of transfer back to the original Profession or specialisation. If a Profession transfer is offered but refused, or if none is available, then the rating should be considered for DUDT (Contributory) – see Para 5446 b (4) (c)a. The failure from course would be categorised as follows:

(1) **Aptitude.** A failure to perform to the required standards as laid down by the Profession Managers, ARFSD RPS or TPS. Not necessarily an academic failure, but the incorrect approach or an attempt to circumvent training as mandated.

(2) **Commitment.** This will include the attitudinal TPS, i.e. the rating must display the correct attitude to training, both physically and mentally, which includes their acceptance of the need to maintain the physical fitness required for training.

c. **Ratings who are:**

(1) Downgraded Permanently Medically Unfit (PMU) for training in their specific Profession; or

(2) Downgraded Temporarily Medical Unfit (TMU) for a period of three months, with an expectation of a further downgrade for a 3-month period; or

(3) Downgraded TMU for a period totalling more than six months, may request or be offered the option of transfer where possible to a suitable Profession. If the trainee declines the offered Profession transfer, then they should be DUDT (Contributory). Where a rating is unable to complete their Profession training or their Task Book because of restrictions imposed by a medical condition, of 12 months duration or more, they will be referred to a RNMBoS. This reference should be used for RNMBOS referrals in accordance with BRd 1991 Para 0804b.

5113. Rating Transfers - Submarines to General Service

Transfer requests from those recruited directly into the SM arm are normally only granted for medical reasons since SM recruits do not have the right to transfer to GS and any transfer is made in accordance with the needs of the Service. Ratings who are declared medically unfit for SM are to be dealt with as follows:

a. **PMU.** Wherever possible, all ratings are to be offered a transfer to their requested Profession. If the rating refuses the option to transfer, they are to be discharged or, if within their first six months' service, may exercise discharge as of right (in accordance with Para 5403).

b. **TMU for more than Three Months.** Ratings are to be offered the option of transfer to the GS affiliated Profession. If an individual accepts this option and is subsequently declared fit for SM, they are to be transferred back to SM. Approval to remain in the SM pipeline after being TMU for six months (including cumulative) may be given, exceptionally, by the specialisation Profession Manager.

5114. Rating Transfers - Divers

The full procedure at Para 5109 to transfer into the Diver profession is contained at Para 7803.

5115. Rating Transfers - General Service to Submarines

a. **Liability for Service in Submarines.** All individuals who are recruited as GS ratings are liable for service in submarines (SM service) and acknowledge such on Form S3049, which they sign when they enlist in the Service. Vacancies will be filled by volunteers, if available, subject to the conditions and eligibility criteria in Para 5127 sub para b and provided there is a requirement for a rating of equivalent rate and category in the SM service. Ratings will generally join whilst in the lowest rate of each category.

b. **Volunteers.** Volunteer applications from ratings who wish to transfer to SM service during their initial training are always to be given favourable consideration. The following guidance should be adopted:

(1) All applications should be discussed with the UTS Ratings Pipeline Manager (NAVY PEOPLE-TRG TMG HQ UTSPM) who can advise on the availability of SM Professions and entry criteria.

(2) Prior to any transfer being approved, it is strongly advised that the rating concerned is sent to the RNSMS for briefings.

(3) Ensure that the SP does not have any nationality restrictions preventing them from transferring to the submarine service.

5116. Rating Transfer Requests

a. All Profession and/or specialisation transfer requests from ratings on the UTS should be addressed to the UTS Ratings Pipeline Manager (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM) by Divisional Officers (DOs). Telephone enquiries are acceptable but all formal transfer requests must be made by e-mail (NAVY PEOPLE-TRG TMG HQ UTSPM) and should include the following:

(1) Rating's name, Service Number, Profession and Defence Aptitude Assessment (DAA) score.

(2) The Profession to which the individual wishes to transfer.

(3) Reason for the transfer request.

(4) DO's recommendation.

(5) Any disciplinary or medical issues.

b. Careful consideration will be given to the workforce situation in the exporting and importing Profession specialisations and to the rating's suitability for transfer (e.g. DAA score, eyesight, hearing, colour perception and nationality).

5117. Ratings - Failure in Training

Where a transfer request is submitted because a rating has failed to demonstrate the ability to complete training in their current Profession, Professions and/or specialisations which require a lower DAA qualifying score will normally only be offered.

5118. Ratings - Agreement to Transfer

Ratings may only be transferred from one Profession and/or specialisation to another if they agree to the transfer. In the case of ratings under the age of 18, parents/guardians should be consulted (subject to permission being given by the rating concerned).

5119. RM Other Rank Transfers

RM Other Ranks do not specialise until they join the Trained Strength; as such, there is no provision for them to transfer while they are under initial training.

SECTION 3

PROFESSION AND SPECIALISATION TRANSFERS - TRAINED STRENGTH

5120. Officer Transfers - General

a. Profession transfers are not encouraged but are permissible provided they are in the best interests of both the Service and the individual; **the priority will be to best meet the Service requirement**. Officers may also have to satisfy the nationality requirement of the receiving Profession/specialisation, which may differ from their source Profession/specialisation, and be required to successfully undertake a disclosure check prior to transfer.

b. Transfers of specialisation or between arms within a Profession may also be allowed, subject to the best interests of the Service.

c. Consideration may be given to assigning an applicant to one job in the new Profession or specialisation prior to the transfer being approved and the necessary cross-training package implemented.

d. Transfers may result in a loss of seniority and an additional Return of Service (ROS) being incurred, dependent upon the training undertaken.

e. Each case is considered on its merits and, if the transfer is approved, officers are subject to the assignment, training and promotion rules of the new Profession or specialisation. The following principles are adhered to in the consideration of requests:

(1) The transferee must not gain advantage over a comparable officer of the new Profession.

(2) Transfer must not be seen as a means of gaining additional seniority and, consequently, earlier promotion when compared with those officers in the new Profession who entered the RN at the same time as the transferee.

(3) The transferee should not be at a disadvantage in comparison with an officer who retires and then immediately re-enters in a different Profession.

f. **Commission.** If an insufficient ROS remains after training, then consideration will be given to either waiving a break point option or transferring the officer to a Career Commission stage (CCS). Those Direct Graduate Entry (DGE) officers on a CCS or Full Commission Stage (or equivalent) should maintain their current commission and start date. It is not envisaged that former Special Duties (SD) or Senior Upper Yardman (SUY) officers would be accepted for transfer to the Engineering Profession; however, should a former SD/SUY officer possess an acceptable degree, consideration will be given to entering them as a DGE based on their original commissioning date.

g. **Seniority.** Seniority credits will be assessed by adding the credits calculated under the following three headings:

(1) **Time.** The time between entry and transfer should normally count as a seniority credit, except for the time spent as a result of back classing or repeating professional course as a result of a failure.

(2) **Credits.** Any seniority credits the officer may have received from Naval General or Fleet Training.

(3) **Engineer Officers - Pre-Joining Training.** The officer's seniority is assessed as though they were entering the RN on the date of transfer, based on the current entry regulation for Engineer Officers. This method of calculation will therefore take into account credits appropriate to an Engineer Officer for their degree, and any professional experience obtained after the degree prior to entry into RN.

5121. Officer Transfers - Applications

a. Individuals are to complete the Profession transfer request form at Annex 51G and submit this to their Commanding Officer, along with a supporting letter detailing:

(1) The reason why they wish to transfer to the Profession specified.

(2) Why they feel that they are suited to the prospective Profession.

(3) The relevant skills and experience that they would bring to the prospective Profession.

(4) The research that they have undertaken with regard to the prospective Profession.

b. The CO is then to write a letter advising whether or not the request is supported and ensure that the following are forwarded to the Officer Terms of Service Manager:

(1) The officer's application form and letter.

(2) An up-to-date Appraisal Report (covering the Profession transfer request (occasion 'Special')) signed and dated by the officer, 1RO and 2RO (the 2RO must state they support the request as a minimum).

(3) Copies of any other documentation deemed to be relevant to, or supporting, the application.

c. **Flexible Service.** Officers are not permitted to transfer to a new Profession whilst undertaking a period of FS. Any agreement would need to be terminated prior to transfer and re-applied for once the individual has transferred to the new Profession; there is no guarantee that a new period (of FS) would be approved at that point.

5122. Officer Transfers - Headquarters Staffing

On receiving the Profession transfer application, the Officer Terms of Service Manager will engage with the appropriate Career Manager who, in turn, will consult relevant stakeholders in the Navy Command Headquarters about the merits of the request, determining the individual's eligibility (e.g. Med Cat, nationality, RNFT status) and considering the new terms and conditions of service that will apply if a transfer is agreed (e.g. training requirement, return of service, seniority etc). A final decision will be sent by letter to the individual's Commanding Officer at the earliest opportunity and, if the request is approved, will include a revised set of terms and conditions for the officer's agreement.

5123. Officers - GS Warfare Officers

The mainstream route for General Service (GS) Warfare officers is to qualify as Principal Warfare Officers (PWO). The majority of GS Warfare Profession officers are required to specialise before the PWO route; this sub-specialisation occurs either on joining the Trained Strength on completion of Initial Warfare Officers Continuation (IWOC) or following First Complement Assignment (FCA). Each year, the numbers joining the trained strength and completing FCA together with the requirement, strengths and training pipeline capacity of each Warfare Profession specialisation determine the numbers required. The 'Allocation to Specialisation' numbers required in each specialisation are determined by Dir P&T N5 staff. Career Management authorities are responsible for allocating individual officers to each sub-specialisation to meet the numerical target. For XSM Officers, the mainstream route is towards PWO(SM) and completion of Submarine Command Course.

a. **Sub-specialisations.** The GS Warfare Profession sub-specialisations are as follows:

(1) **PWO.** Progress towards as a PWO is the mainstream route followed by all GS Warfare officers from joining the Service. This is typically achieved after specialising via some of the careers below and enables the route to Command.

(2) **Hydrography (H).** Officers are no longer directly recruited but specialise after completing IWOC or an FCA. Expressions of interest in specialising H are advised to the Warfare Professions Manager. Depending on levels of inflow against the Needs of the Service, there may be a requirement for compulsory streaming from GSX to the H specialisation. Officers specialise as H, rather than transfer.

(3) **Fighter Controller (FC).** Officers are selected either post-IWOC or post-FCA and need to pass an Aptitude Test.

(4) **Mine Clearance Diving and Mine Warfare Officer (MCD/MW).** Officers are selected post-FCA and once Bridge Watchkeeper Qualified. MCD officers will need to have passed both an Aptitude Test and a Diving Medical.

(5) **Fleet Air Arm (FAA) - Aviation.** Officers are only selected post-FCA and once Bridge Watchkeeper Qualified. For details, see Para 5125.

(6) **Submarine (SM).** Officers are recruited directly and/or streamed during Phase 1 training. In extremis, there may be a requirement to stream XSM Officers from GSX during Phase 2 to meet workforce requirements.

(7) **Intelligence (Int).** Officers are streamed during Phase 1 training.

(8) **Navigation (Nav).** Officers are selected either post IWOC or FCA.

(9) **IW METOC.** Officers are selected via Direct Entry and limited opportunities exist for In Service Commission candidates or GTS Officers.

b. **Criteria for Selection of Sub-specialisation.** Individuals are nominated for each specialisation by a Board consisting of at least two Career Managers. Individual officers will be allocated to specialisations according to the following criteria:

(1) **The Service Requirement.** The number required by each Warfare Profession specialisation and the best interests of the Service.

(2) **Aptitude.** Where appropriate, individuals have to pass an aptitude test to become eligible for particular specialisations.

(3) **Age and Medical.** There may be age constraints where it is necessary for the Service to gain an adequate return on training investment. Similarly, some specialisations set more stringent medical standards than GS.

(4) **Recommendations.** Recommendations from Reporting Officers.

(5) **Spread of Talent.** In the best interests of the Service, a spread of talent should be achieved to ensure that particular specialisations do not receive a high proportion of either strong or weak individuals.

(6) **Preference of the Individual.** Individuals should clearly advise of their specialisation preferences either through their CO and the reporting process or direct to their Career Manager.

c. **Specialisation within FAA.** See Para 5125.

d. **Transfer to SM (War).** All UK national, RN officers are liable for service in submarines. Volunteers will fill vacancies but, where necessary, any shortfalls will be filled by suitably qualified officers selected during a suitable time in Phase 1 training. The minimum period of an officer's submarine service will be the completion of their first career assignment post Submarine Officers Training Course and successful completion of 'n' Course. Any officer who does not wish for further service in submarines should apply in writing to NAVY PEOPLE-CM OF WAR SM SO2 to transfer back to GS. Each application will be assessed against the needs of the Service and successful applicants will be transferred to NAVY PEOPLE-CM OF WAR JO SO2.

5124. Officers - GS to SM Transfers

a. **SM Liability.** All UK national, RN officers are liable for service in submarines. Volunteers will fill vacancies but, where necessary, any shortfalls will be filled by suitably qualified officers selected during time at BRNC/RAL. If XSM vacancies are required to be filled in future, this will be completed within Phase 1 training as part of Recruit by Profession.

b. **Return to General Service.** If an Officer is compulsorily streamed to the Submarine Service, i.e. they have not volunteered to transfer, an application may be made to transfer to the equivalent GS Profession at a suitable point in their career. These points are defined as:

(1) **Warfare Officers.** On completion of their first complement assignment as a Junior Warfare Officer post Submarine Officers Training Course and following successful completion of Preliminary Navigating Officers (PNO) Course. In this case an application is to be made to NAVY PEOPLE-CM OF WAR SM SO2. Each application will be assessed against the needs of the service.

(2) **Engineering Officers.** On completion of their complement AMEO or WE Section Officer Assignment (as applicable) or after 5 years since qualifying as a submariner, whichever is the later.

(3) **Logistics Officers.** On completion of their first complement submarine assignment following OTC/NGC training. The LO will remain in the wider Logistics Officers workforce plot, but as an L(SM) will be considered for assignment into roles related to SM service up to and including the rank of OF4.

(4) **Medical Officers.** On completion of their first complement GDMO assignment.

c. It should be noted that transfer to the GS is likely to require an element of re-training, particularly in the Engineering Professions. When an application is submitted a detailed bespoke re-training plan will be developed based on the individual’s previous experience and qualifications and parity to the equivalent GS Profession.

5125. Officers - Warfare, Air Engineer and RM - Transfer to Flying Duties

There are opportunities for Warfare, Air Engineer and RM officers to undergo flying training. Selection for flying training involves a transfer of specialisation under the general rules in Para 5120. Applications will be considered in the light of service requirements and the numbers of transfers will be strictly limited.

a. **Warfare Officers.** Opportunities exist for a very small number of GSX Warfare Profession officers, other than direct entry Fleet Air Arm (FAA), to undergo flying training and specialise as Pilot, Observer or ATC officer. The rationale for this is that, whilst the vast majority of the FAA officer requirement is met by direct recruitment, the FAA does benefit from a few GS officers with a Bridge Warfare Qualification (BWQ) specialising in aviation following their FCA (the GSX/FAA/PWO Stream). The cross-pollination that GSX bring to FAA is of considerable benefit as it enlightens those who are less familiar with GS practices; GSX/FAA/PWO Stream officers then return to GS with FAA expertise. Applications will be considered in the light of Service requirements and the numbers of such transfers will be strictly limited. Such officers 'specialise FAA' rather than 'transfer' and will be expected to specialise as PWOs later in their careers and to conduct at least two PWO tours.

(1) **Implications.** The drawback of the above is that these officers take up valuable training positions to gain their Navigation Watch-keeping Certificate (NWC) and BWQ but do not subsequently fill watch-keeping positions. They are also required to fill PWO assignments so there is little time for them to get the most out of their FAA training before commencing PWO training. As it takes four years to be fully trained as a GSX officer and then tested in a complement assignment; a future return on this four-year investment is required. Post-FCA, any officer selected for FAA specialisation will then have to complete on average four years flying/ATC training prior to FAA employment and returning to the GS Arm for PWO training. To ensure that the FAA has a return on this substantial flying training investment, the GSX/FAA/PWO stream should conduct a minimum of two flying tours post flying training. This ensures adequate aviation experience and credibility when competing for senior FAA Executive assignments post-PWO tours.

(2) **Eligibility.** Officers may apply for flying duty specialisation at any time after completion of the IWOC, provided that – in order to avoid undue career compression - they are able to commence flying training before their 27th birthday (exceptionally, an age waiver may be granted as agreed by the XAV Professions Manager). Officers will not be allowed to start flying training until they have obtained their NWC and BWQ; they must be volunteers, and recommended for transfer to a CCS. Exceptional cases may be forwarded to Navy Command/Cdr Aviation Training for consideration, however, it is stressed that such applications must be particularly merit-worthy and that particular circumstances are deemed to apply. Career Managers will ensure that all GSX officers specialising within the FAA are given explicit briefing on career patterns and Service expectations, including PWO.

(3) **Application and Selection.** The procedure for application and selection is as follows:

(a) RN officers who meet the conditions laid down in Para 5125a sub para (2) should submit their applications in writing to their CO.

(b) COs recommending candidates for transfer will arrange for them to attend RAF Cranwell for Aircrew/ATC Aptitude Tests through the Aviation Pipeline Manager (NAVY PEOPLE-TMG FT PIPELINE MGR) and, for those who are successful, examination by the Aviation Medicine Division (AvMed), Institute of Naval Medicine (INM), to determine their fitness for flying/controlling duties. Arrangements for these tests should be made as follows, quoting availability and whether or not accommodation is required:

(1) Aircrew/ATC Aptitude Tests - CAIB)
) Copy NPT(X)
(2) Aircrew Medical/ATC – Av Med)

(c) On successful completion of these tests, COs should forward applications to the Assistant Chief of Naval Staff (Personnel)/Naval Secretary, together with their recommendations and a special Appraisal Report.

(d) Those applicants who pass both Aptitude Test and Initial Flying Medical at the Aviation Medicine Division, INM will be considered by the AIB and may be provisionally selected for either Observer or Pilot training, dependent upon their aptitude and the requirements of the Service. Once provisionally selected, officers will be required to take and pass the appropriate Pilot or Observer grading course (20 weeks and 2 weeks respectively) before becoming eligible for flying training. Officers are to arrange grading through Navy Command NAvn Cdr Aviation Training and the Aviation Pipeline Manager (NAVY PEOPLE-TMG FT PIPELINE MGR). It should be noted that officers selected for Observer duties may not subsequently transfer to Pilot duties and those selected for ATC may not subsequently transfer to Observer or Pilot duties.

(e) Successful candidates for Profession transfer to flying duties will be moved to Aircrew Professional Pay (APP) (as per JSP 754) on day 1 of Flying Training Ground School.

(4) **Commission.** Officers who specialise in flying duties will remain on their existing commission unless selected for a longer commission in the normal course. It should be clearly understood that, on successful completion of Operational Conversion Unit (OCU), those officers who are unable to complete the designated ROS within their current commission will have that commission automatically extended to fulfil the required period of service. Officers transferring to the Aircrew specialisation who are unable to complete either flying training, including OCU, within their Initial Commission Stage or the appropriate ROS, will be required to apply and be selected for transfer to a Career Commission Stage (CCS). The rules on commissions for Warfare officers who undertake Fast Jet pilot training or who transfer to ATC are at Para 4916 sub para c and Para 4916 sub para g respectively.

(5) **ROS.** Details of the ROS required of Warfare officers, including details of flying/ATC training, are shown in Annex 53C. Officers who transfer to flying duties are liable for the Initial Flying Training ROS.

(6) **Failure.** Officers who fail or voluntarily withdraw from flying/ATC training having transferred from X(GS) will normally be required to revert to mainstream GS Warfare Officer duties on their IC or CC and complete any outstanding ROS liability from their Warfare training in the X Profession. Time spent in flying training will not count towards this ROS. Personnel will no longer be entitled to APP and will therefore revert to Main Pay.

b. **RM Officers.** RM officers may apply for transfer to Pilot flying training following successful completion of initial training provided they are under the age of 26 when the application is submitted, and they will not be more than 27 years of age at the start of flying training. RM officers who wish to specialise as a pilot should apply through OCM RM. RM officers are not eligible to be considered for Observer duties.

(1) **Training.** RM officers will follow the same initial procedure as their RN counterparts, as detailed in Para 5125a(3)). On successful completion of their medical and aptitude tests, they will attend 20 weeks' Flying Grading whilst being held by their parent unit, before being selected (subject to requirement and suitability) for flying training. OCM RM is to be kept informed of their passage through the initial training pipeline. RM will continue to support Fast Jet pilot requirement when suitable candidates are identified. Successful candidates for Profession transfer to flying duties will be moved to Aircrew Professional Pay (APP) (as per JSP 754) on day 1 of Flying Training Ground School.

(2) **Commission.** The rules on commissions for RM officers who undertake pilot training are at Para 4916 sub para e.

(3) **Failure.** RM officers who fail or voluntarily withdraw from flying training will normally be required to revert to GS duties and complete any outstanding ROS liability from any previous training. The ROS for RM flying training is detailed in Annex 53C. Personnel will no longer be entitled to APP and will therefore revert to Main Pay.

c. **Air Engineer (AE) Officers.** AE officers normally apply to be considered for Pilot flying training for ultimate employment in the Test Pilot cadre during their SEMC and will need to be less than 27 years of age at the start of flying training. They must be volunteers and recommended for transfer to a CCS. They will not normally be allowed to start flying training until they have obtained their Certificate of Competence. A very small number of AE officers may be selected for training as Observers to fulfil Maintenance Test Observer billets. Successful candidates for subspecialisation in flying duties will be moved to Aircrew Professional Pay (APP) (as per JSP 754) on day 1 of Flying Training Ground School. Personnel who fail to meet the required standard or withdraw themselves from training, will no longer be entitled to APP and will therefore revert to Main Pay.

5126. Ratings - Profession Transfer and Sideways Entry - General

POC: NAVY PEOPLE-CM COMD POLICY SO2C

a. **Definitions.** Transfer to a specialisation where there is normally no direct entry from basic training is known as Sideways Entry to that specialisation whereas transfer to a specialisation or Profession where there is a direct entry from basic training is known as a Profession transfer. However, there are also specialisations that are open to both direct and sideways entry such as Naval Nurse (NN), RN Police (RNP), Aircrewman (ACMN), Diver (D), Aircraft Controller (AC), Physical Trainer (PT) Medical and Dental Servicing Support (MDSS) and Medical Technician (MT). A summary of Sideways Entry specialisations is at Annex 51A.

b. **Requests.** Applications to transfer from one Profession and/or specialisation to another by ratings who have completed their initial training (see Para 5302) and joined the trained strength should be made as follows:

(1) **Ratings.**

(a) **Applications for approval to arrange/attend Aptitude/ Assessment/FATS. (RNP/PT/ACMN/AC/DIVER)** Applications for approval to arrange/attend Aptitude/Assessment/FATS (Annex 51B), are to be made by the applicants Divisional Officer by email to NAVY PEOPLE-CM MAILBOX. Minimum Information required on the email:

i. Service Number.

ii. Full Name.

iii. Current Rank and Spec.

iv. Spec applying to transfer to.

v. SP in Date Physical Employment Standard (PES).

vi. Applicants JMES.

(b) Before applying, the applicants DO is to ensure the applicant meets all criteria required to attend the respective Aptitude/Assessment/FATS (using JPA). Some common omissions/errors in criteria are:

i. JMES (not being MFD).

ii. No positive recommendation for promotion in latest SJAR.

iii. Not educationally qualified.

iv. No full civilian driving license recorded on JPA.

v. Out of date Physical Employment Standard (PES).

(c) On receipt, the request will be logged and forwarded to the WO CM for the cadre to which the SP has requested to join. They will use JPA to check that the applicant does meet the criteria to attend Aptitude/Assessment/FATS.

(d) Staffing of applications to arrange/attend Aptitude /Assessment /FATS will ordinarily take no longer than 10 working days (around leave periods).

(e) **Applications for full clearance. (NN/MT/MDSS/Exec/CT/INT/NS FPS/CYBER/Other Specialisations).** Applications for full clearance post successful Aptitude/Assessment/FATS or for specs that DO NOT require an aptitude/Assessment/FATS are to be made by the applicants Divisional Officer by email to NAVY PEOPLE-CM MAILBOX (See Annex 51C). Minimum Information required on the email:

i. Service Number.

ii. Full Name.

iii. Current Rank and Spec.

iv. Spec applying to transfer to.

v. SP in Date Physical Employment Standard (PES).

vi. Applicants JMES.

vii. Date applicant passed Aptitude/Assessment/FATS (if required).

viii. NVQ Level 3 and above, certification in engineering (electronic) (MDSS Only)

(f) Staffing of applications for full clearance will ordinarily take no longer than 28 working days (around leave periods and availability of the relevant Career and Profession Managers).

Notes:

1. Applications by Other Ranks to transfer to the Aircrewman specialisations are to be made in accordance with Para 5126 sub para b. (1).

2. Applications by those of the former RM K Specialisation, currently managed by RN Logistics Profession, to transfer to the RN Catering Services Specialisation, are to be made in accordance with Para 5126 sub para b. (1).

c. **Conditions.** Transfer applications should be considered only if the following conditions have been fulfilled:

(1) The applicant is recommended, possesses the necessary aptitude (including Defence Aptitude Assessment (DAA) score, which will be established by the relevant WO CM through liaison with the RAL Training Pipeline Manager) and is eligible (including nationality criteria) to join the new Profession and/or specialisation and has passed the respective Aptitude/Assessment/FATS if required. Requests for transfers to sideways entry specialisations should not be accepted until it has been established that the applicant is eligible to do so in accordance with the requirements listed in the individual Profession chapters of Part 8 (Promotions).

(2) Ratings must be medically fit and deployable for the Profession into which they wish to transfer (normally MFD A4/L1/M1/E1) and be in date for the Royal Naval Physical Employment Standard (PES). RM Other Ranks must meet the physical standards applicable to their chosen specialisation. Individuals who are pregnant (E6) should be considered on their JMES medical category immediately before confirmation of pregnancy and any potential transfer carry the caveat that PES should be passed within three months of returning to work.

(3) Ratings without a sea service liability must become volunteers for sea service.

(4) Transfers may result in a loss of seniority and an additional Return of Service (ROS) being incurred, dependent upon the training undertaken in accordance with Para 5303.

d. **Decision.** As acknowledged by ratings and other ranks on Form S3049 on enlisting in the Service, Profession transfers are not a right. On receipt of a transfer request, Career Managers (in conjunction with Profession Managers) will take into consideration the current and future status of the donor and receiving Professions. In cases where there may be competing requirements (e.g. both Professions are in significant shortage), the final decision will rest with Ratings Strategic Workforce Planners in consultation with Hd N5. From receipt of application, DDPD aims to respond to applications to arrange/attend Aptitude/Assessment/FATS within 10 working days and to applications for full clearance within 28 working days (around leave periods and Career/Profession Manager availability).

(1) Decisions on transfer clearance are released by email from the relevant Career Manager, one for applications to attend Aptitude/Assessment/FATS/selection boards/interviews and the other for Profession Transfer applications.

(2) The Email will include contacts for lead schools to arrange Aptitude/Assessment/FATS and for full clearance will as far as possible, include course dates for those who have been approved to Profession transfer, assignment action for these courses being taken by HMS RALEIGH (usually 6-8 weeks prior to commencement of course); ratings are advised to check that an Assignment Order has been received. Those who have been approved to transfer to a sideways entry specialisation will be assigned to aptitude assessment/courses by Career Managers/Lead Schools.

(3) Clearance, if approved, is valid for two years. This period allows time for the applicant to attend any aptitude tests or acquaints and also gives appropriate time for assignment notice.

(4) If transfer clearance is refused, a reason and any recommendation will be stated in the email.

e. **Refusal.** Common reasons for refusal of transfer clearance include the following:

(1) The donor specialisation is in, or forecast to be in, deficit; any further outflow of personnel will only exacerbate the situation.

(2) The receiving specialisation is in, or forecast to be in, balance/overborne or there are no spaces available on Phase 2 courses for the foreseeable future.

(3) The applicant does not qualify in accordance with Para 5126 sub para c.

f. **Consultation.** For ratings under the age of 18, parents/guardians should be consulted after approval has been given, but before the transfer is completed (subject to permission being given by the rating concerned.

g. **Disclosure Check Vetting.** Under the provisions of the Criminal Justice and Court Services Act 2001 Working with Children and Vulnerable Adults, individuals seeking transfer to Medical, Dental, Nursing, Service Police and Physical Training specialisations will be subject to Disclosure Check vetting undertaken by the Disclosure Barring Service. Where required, request for Disclosure Check Vetting is to be initiated by the SP current Career Manager.

h. The procedure for transfer to the Medical Assistant Profession may be found at Annex 51D.

i. **Flexible Service (FS).** Ratings cannot transfer to a new Profession whilst employed on FS terms; any transfer would be delayed until completion of the declared period unless they terminate their FS agreement.

5127. Rating Transfers - General Service to Submarines

POC: Navy People-WFPM WESM PMSO2

a. **Liability for Service in Submarines.** All individuals who are recruited as GS ratings are liable for service in submarines (SM service) and acknowledge such on Form S3049, which they sign when they enlist in the Service. Vacancies will be filled by volunteers, if available, subject to the conditions in Para 5127 sub para b and provided there is a requirement for a rating of equivalent rate and category in the SM service. Ratings will generally join whilst in the lowest rate of each category.

b. **Eligibility.** To be eligible for SM service, ratings must satisfy the following criteria:

(1) **Engagement.** Ratings will normally be assigned to submarines only if they have at least three years to serve.

(2) **Medical.** Ratings must be declared medically fit for service in submarines.

(3) **Nationality.** Ratings must be UK nationals (but can hold dual nationality where the other nationality does not appear on the US State Department Policies Embargoes List). Personnel serving in the Strategic Weapons Systems specialisation must be sole UK nationals.

c. **Volunteers.** Eligible ratings may volunteer at any point of their career (subject to Para 5127 sub para b).

(1) A rating who wishes to volunteer for SM service must submit a Profession transfer request in accordance with Para 5116.

(2) Any changes in the medical fitness of a rating who has already received workforce clearance for SM service, which may render them ineligible for such service, are to be reported immediately to the WO CM for the relevant SM cadre.

(3) As a volunteer for SM service, a rating will remain in such service until any one of the following factors applies:

(a) Their ES2/FC/OE ends and is not extended.

(b) They are no longer medically fit for SM service.

(c) They are no longer suitable for SM service.

(d) They are advanced to a rate in their specialisation for which there is no requirement in the SM service.

(e) A Profession transfer request in accordance with Para 5116 is approved.

(4) **Non-volunteers.** Ratings who are compulsorily streamed to submarines will be able to apply for transfer to the equivalent Profession within General Service after a minimum period of service in Submarines. This period is defined as 5 years from the point of initial submarine qualification. Provided the minimum period of service has been completed, an application will follow the normal procedure defined within existing policy for trained strength transfers but will be automatically approved by Profession Managers unless exceptional extenuating circumstances exist. NAVY PEOPLE-WFPM Head will be the final arbiter in the event of transfer being refused for service reasons. Execution of the transfer will normally be aligned with the completion of the individual's current assignment and to enter any relevant training pipeline.

(5) Submariners who are awarded an ES3 whilst in the SM Service are selected for such an engagement specifically to meet the needs of the SM Service. Individuals who leave for the reasons in Para 5127c sub para (3) do not automatically transfer their ES3 in conjunction with a transfer to GS. They will normally revert to their original Termination Date or be offered an alternative ES3 that meets the needs of the receiving specialisation as determined by the appropriate Profession Manager.

5128. Rating Transfers between Specialisations

a. **Counting of Time.** Normally, when ratings transfer from one specialisation to another, time in their previous specialisation is not counted for promotion or advancement purposes in the specialisation to which they transfer. For the purpose of applying the instructions of this paragraph, any change in Profession, specialisation or sub specialisation is regarded as a transfer in specialisation. Precise rules for the calculation of seniority in the new specialisation for ratings who transfer at their own request are as follows:

(1) **AB2.** Transfer will be at AB2 level with existing seniority. AB2s who become due and are qualified for advancement to AB1 in their former specialisation whilst undergoing conversion training are to be stood over and, subject to successful completion of training, are to be advanced as follows:

(a) Ratings transferring to specialisations where successful completion of Part 2/3 Training is the only professional qualification for award of AB1 - to be rated AB1 on completion of course, with pay from that date and with seniority antedated to the date they became due by service.

(b) Ratings transferring to specialisations where qualifications, additional to completion of Part II/III training, are required for advancement to AB1 - to be rated AB1, on an acting basis, on completion of course, with pay from that date and seniority ante-dated to the date they became due by service. They are then to be confirmed as an AB1 on attaining the necessary professional qualifications for the rate.

(2) **AB1 and Above.** Transfer to be at a rate and seniority that is determined by the Profession Manager of the receiving specialisation. Usually, this should be in line with those non-transferees on the same course; however, where there is a clear Service reason for this to be different then, on a case by case basis, consideration of which should include but not be limited to demand for personnel in that specialisation, the training required to provide the transferee with the appropriate qualifications or experience and the consequential effect on other ratings' promotion prospects, the rate on transfer may be higher. The rate in new specialisation should be no higher, and the seniority no earlier, than that held immediately prior to transfer, and the rate should be held on an acting basis from the date of transfer (see Para 5128 sub para b below). Confirmation in the rate will be attained on successful completion of any necessary transfer training, successful completion of Task Book (if applicable) and completion of sea-time qualifications in the new specialisation (if applicable). In each case, the new rate and seniority is to be confirmed with DDPD and Profession Managers are to set out the agreed terms and conditions associated with each transfer in a letter to the Service person[1]. In order to reduce the incidence of subsequent misunderstanding, and to simplify the course of any retrospective investigation, Career Managers are also to retain comprehensive records which accurately document these terms and conditions.

[1] In all cases JSP 754 Ch 2 Sect 11 has primacy, including the future treatment of pay when discretion has been applied on transfer.

b. **Taking Effect.** Except for 'sideways entry' specialisations and the other exceptions in Para 5128 sub para c, transfers are to be effected immediately the rating commences training for the new specialisation and should not be delayed pending successful completion of course. See Para 5128c sub para (4) for action necessary following failure on course.

c. **Special Cases.** For ratings who transfer for one of the following reasons, special rules apply, as follows:

(1) On Call for Volunteers Issued by the MOD. The DIN promulgating the requirement will contain the details of special conditions offered.

(2) **For Medical Reasons.** (e.g. voluntary transfer as an alternative to medically invaliding at Royal Navy Medical Employability Board (RNMEB) or Discharge SHORE). Applications from LHs and above will be considered by the Profession Managers and any special conditions will be clearly stated in the letter of approval. In the majority of cases, transfer will involve reversion to AB1 in the new specialisation.

(3) **Transfer to Specialisations or Sub-Specialisations Recruited or Partially Recruited from Serving Personnel.** Sideways Entry specialisations are listed at Annex 51A.

(4) **Compulsory Re-Transfer to Source Specialisation and Re-Transfer to Source Specialisation at Own Request.** Ratings who fail their re-training course examination or are subsequently found to be unsatisfactory in their new specialisation within 12 months of transfer will be compulsorily transferred back to their original specialisation (but see Chapter 83 for the procedure applicable to SM Coxswain specialisation and Para 5128c sub para (4) (e) for the Aircrewman specialisation). Approval may also be given to ratings who voluntarily request to re-transfer to their original specialisation within 12 months of beginning training for their new specialisation. Ratings will be re-instated in the rate held before undergoing retraining course as follows:

(a) Ratings who transferred in existing rates will re-transfer in the same rate with original seniority post-dated by the time spent in the new specialisation.

(b) Ratings transferring in a rate below that held in their original specialisation will re-transfer in the lower rate for one day and be reinstated in their previous rate on the following day with original seniority post-dated by the time spent in the new specialisation plus the one day spent in the lower rate on re-transfer.

(c) Ratings who have been promoted or advanced since transfer will be retransferred to the rate held prior to original transfer with original seniority post-dated by time spent in the new specialisation.

(d) In the case of ratings in specialisations at Para 5128c sub para (3), re-transfer will be in the rate held in their source specialisation prior to commencing sideways entry specialisation training. Those ratings will retain their original seniority but any basic date for advancement to the next higher rate will be post-dated by the time spent in the new specialisation. Following satisfactory completion of the probationary period. Ratings may not be compulsorily re-transferred.

(e) In the case of the Aircrewman specialisation, for ratings who are suspended from flying duties for reasons beyond their control, the following procedure will apply. Leading Aircrewmen will normally be returned to their source specialisation in the rate held at the time of transfer and with their original seniority. Petty Officer Aircrewmen and above, who are permanently grounded for reasons beyond their control, may be retained in the Aircrewman specialisation and be employed on non-flying duties until the end of their current engagement provided that they remain medically fit for General Service. They will cease to be eligible for their relevant RRP from the date of grounding. They will not be eligible for further promotion and will therefore be given the option of Discharge SHORE with normal terminal benefits (including eligibility for pre-release voluntary training).

(f) For Warfare Profession ratings in the SM service who are returned to GS, the procedure in Chapter 79 will apply.

(5) **Naval Swimming Test.** Where a transfer involves promotion or advancement to Leading Hand, ratings must have passed a Naval Swimming Test before commencing training for the new specialisation.

(6) **Requirement for Career Check-Free Service.** Where a transfer involves promotion or advancement in rate (e.g. to Leading RNP or Leading Physical Trainer) the requirement for Career Check-free service, as applicable to promotion or advancement in the new specialisation, must be satisfied before the transfer may take place.

5129. RM Other Ranks - Transfer between Specialisations

a. **General Instructions.** All transfers between RM Specialisations will be on a service needs basis and the RM Profession Manager WO will make the final decision on any transfer approvals. Ranks wishing to transfer between specialisations of the Corps must be presented to the monthly Specialisations Transfer Board which is chaired by the RM Profession Manager WO. To be considered at the transfer board ranks must be MFD or be in a permanent medical category, free from any G1 issues, have no outstanding RoS, including from the Direct Specialisation Scheme (DSS) (this will be considered on a case-by-case basis) and have not submitted a request for early termination of service. Ranks that have submitted early termination of service can be presented to the transfer board but will not be approved to transfer until they have submitted a withdrawal of early termination (WoET) and it has been approved by RM CM. Ranks must also complete the following:

(1) Discuss their transfer with their current and prospective Specialisation Advisers to ensure that they understand the implications of transferring specialisations.

(2) Update their first Job Preference on JPA and input a comment to state that they wish to be considered as a volunteer to transfer to a new specialisation. Those ranks that wish to transfer will be identified by the bi-weekly JPA Transfer Board Trawl conducted by NAVY PEOPLE-CM RM RMCA1.

All matters relating to pay in this context are contained in JSP 754.

b. **Conditions of Transfer.**

(1) Any transfer between specialisations may result in one or all of the following: reduction in rank, reduction in pay (if their relevant RRP is received in their old PSQ); or adjustment of seniority. Such reductions will depend upon whether the transfer is at the individual's request, at the direction of the Service (e.g. RNMBOS or DSS), and as the result of a comparison of promotion factors within the specialisations concerned.

(2) The effective seniority dates of individuals transferring in specialisations are to be decided by the RM Promotion WO. Ordinarily, for Cpls and above, all seniority is lost on transferring between PSQs.

(3) The effective date of transfer is to be the date on which the individual passes the required PSQ training course and is awarded the qualification. Any former PSQ qualifications will be relinquished on that date.

(4) NCOs who transfer will not normally be required to revert to Mne. They will have their seniority adjusted on gaining a 2nd Class qualification.

(5) NCOs who are reverted to a lower rank will be given the seniority of the date of their transfer to the new specialisation.

(6) A JNCO who retains their rank on transfer must obtain the appropriate 2nd Class qualification within two years of transfer or they may be required to revert to Mne.

(7) A SNCO who retains their rank on transfer must obtain the appropriate 1st Class qualification within 2½ years of transfer or they may be required to revert to Cpl, or even to Mne if they fail to achieve a 2nd Class qualification.

(8) A Mne holding civilian qualifications or qualifications from other Services may apply to DDPD (RM) (through the Specialisation Adviser) to have these accepted as RM qualifications.

c. **Failure to Comply with Conditions of Transfer.** When an NCO is accepted for transfer and subsequently fails to comply with the conditions under which the transfer was approved, the RM Profession Manager/CDO are to decide whether:

(1) The NCO must return to the specialisation from whence they came, in which case they will be granted their original seniority in that specialisation, adjusted for the period of time spent out of it; or

(2) The NCO is to be offered the opportunity to relinquish the rank for which they failed to qualify and assume the highest rank for which they are qualified in the new specialisation.

d. **Loss of Seniority.** This paragraph should be considered in conjunction with Para 5129 sub para b. Ranks who have successfully completed their Cpl Pathway, and hold substantive rank, may opt to transfer to a PSQ2 level entry specialisation (Comms, DL, GM, IM, Log(SC), PT, PW, and RMIS) as long as they have achieved all the criteria required for joining the new PSQ. Further details on pre-requisites can be requested from the respective Specialisation Adviser. Substantive Cpls will retain their rank; however, their new seniority will be activated from their PSQ2 qualification, which will normally be the course end date.

e. **Ranks Selected for Promotion.** Normally a rank transferring from one specialisation to another will have to be selected for promotion in the gaining specialisation. This also applies to ranks who are not substantive on transfer. Under exceptional circumstances, for example where critical shortages exist, the CDO may grant approval for ranks to retain their selection in their previous Specialisation, subject to passing command training, for a predetermined period until qualified by SQ in the gaining specialisation. On such occasions, CPD will be re-determined accordingly.

f. **RMBS to RMGS.**

(1) **Bugler/Musician (Bug/Musn).**

(a) Bugs/Musns who have served a minimum of four years from completion of training, and who are not in a shortage instrumental category, may be considered for transfer.

(b) Bugs/Musns who prove to be musically unsuitable may be considered for transfer at any time.

(2) **Selection.** Applicants for transfer between RMBS and RMGS are required to attend a Candidates Preparation Course (CPC) at CTCRM to assess their suitability for transfer before selection. Successful candidates cannot be guaranteed selection as this is dependent on vacancies. Those candidates successful at CPC will be required to complete normal recruit training.

(3) **Failures.** Applicants who fail the CPC will continue in their normal employment.

g. **RMBS - Applications for Transfer.** Applications from Bug/Musns to transfer to the RMGS specialisations are to be forwarded to the RM Profession Manager via the RM Transfer Board iaw Para 5129 sub para a and are to include a medical certificate confirming that the applicant conforms to the physical requirements, together with a recommendation from the Commanding Officer regarding the applicant's suitability for transfer. On approval, they are to attend CTCRM for CPC and, if successful, will be assigned to recruit training.

5130. Pay, Recruitment and Retention Pay and Retention Payments

Personnel who transfer between Professions (for the Naval Service this includes moves between the RN/RM/RMBS/QARNNS) and specialisations are to be made aware that such changes may have an effect on their entitlement to a particular rate of pay. Changes include moving between pay supplements, a cessation of entitlement to any form of Recruitment and Retention Pay, and an altered entitlement to any Financial Retention Initiatives (e.g. Golden Hello) in force at the time of transfer. All workforce decisions will be based on the principle that individuals are fully aware of these potential changes. Full details are contained in JSP 754 (Tri-Service Regulations for Pay and Charges) Chapter 2 – Basic Pay and Chapter 5 – Recruitment and Retention Pay.

5131. Female Non-Sea Volunteers

a. Non-Sea Volunteers (NSVs) who transfer Profession and/or specialisation must satisfy any sea service requirement conditions of their new specialisation prior to application.

b. NSV ratings may volunteer for sea service at any time. Successful applicants will be given a six-month transition period from the date of joining their first seagoing ship during which they may apply to withdraw their application to serve at sea and be reverted to NSV status. Any NSV who wishes to apply for sea service should do so, in writing to their Career Manager through the chain of command.

c. NSV ratings who apply for promotion to the Officer Corps can only do so as sea service volunteers. CW candidate ratings who revoke their NSV status but then subsequently withdraw, or are withdrawn from, CW candidature at any time, will be permitted to revert to their previous NSV status. Officers under training who were former NSV ratings and who revert to rating status during their initial officer training will also be permitted to revert to their previous NSV status.

d. Personnel should be aware that, if reverting to NSV status, there can be no guarantee that they will be able to return to their previous unit or geographical location. There is also no guarantee that personnel will be relieved in their seagoing job at less than normal assignment notice (five months). Personnel are reminded of the need to keep their Career Manager informed of their assignment preferences on JPA.

e. Ratings who are accepted for sea service must successfully complete a Basic Sea Safety Course (BSSC).

f. In order to be eligible for promotion as a VOLSHIP, ratings must hold one of the following qualifications: a NAMET score of 5:5, the equivalent Literacy and Numeracy Testing and Education in the Royal Navy (LANTERN) requirement (Grade D in Mathematics and English Language or Level 1 Certificates in Adult Literacy and Numeracy) or other equivalent educational qualifications.

g. **Carrying and Use of Weapons.** Some NSV personnel have continued to exercise their preserved right not to carry or use weapons, however, such ratings have the option to revoke that decision at any time. It should be noted that, once this right is revoked, personnel will be unable to revert to the ‘no gun’ restriction.

ANNEX 51A

SUMMARY OF SIDEWAYS ENTRY SPECIALISATIONS

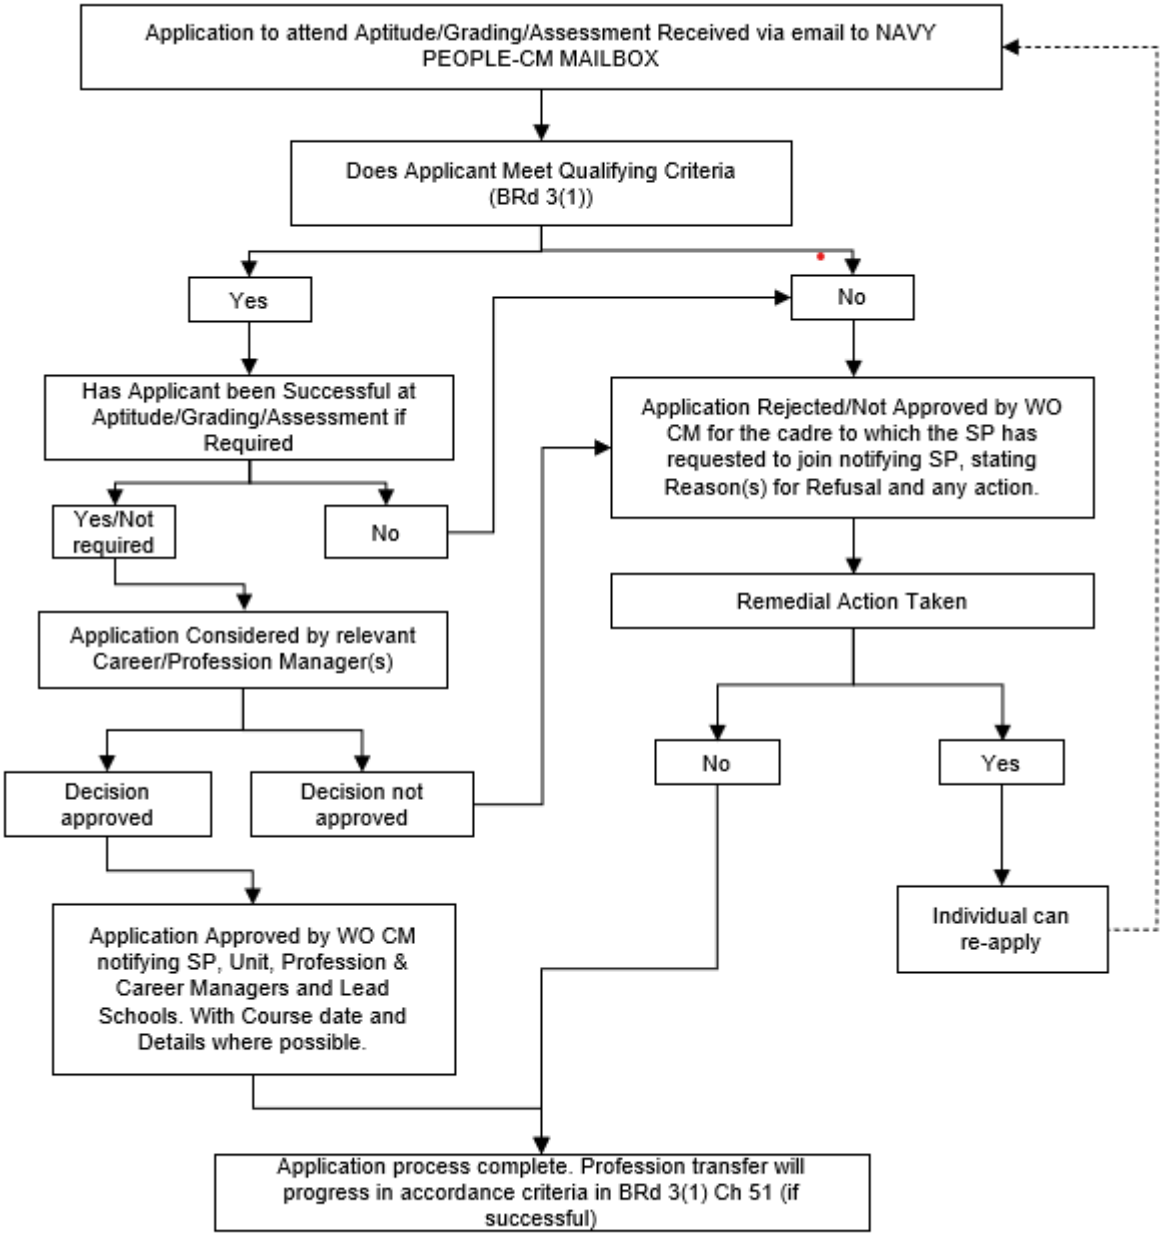
(See individual specialisation Chapters in Part 8 (Promotions) for full details)

Specialisation	Eligibility	Rate Eligibility	Grading/Assessment	Nationality Requirement		
				Sole Brit	Dual Nationality	Commonwealth or Irish National
Aircrewman ASW	BR3(1) Pt8 Chap 81 Annex 81B	Able Rate (AB) or Leading Hand (LH)	Grading/FATS	Yes	Yes	No
Aircrewman CDO (RM/RN)	BR3(1) Pt8 Chap 81 Annex 81B	Marine (Mne) or Corporal (Cpl), AB or LH	Grading/FATS	Yes	Yes	No
Royal Navy Family and People Support (RN FPS)	BR3(1) Pt8 Chap 86 Para 8604	LH or Cpl (recommended for promotion to PO or Sgt)	Selection Board	Yes	Yes	Yes
Medical Technician (MT)	BR3(1) Pt8 Chap 87 Para 8705	AB to PO	Selection Board	Yes	Yes	Yes
Aircraft Controller (AC)	BR3(1) Pt8 Chap 81 Annex 81C	AB or LH	Grading/FATS	Yes	Yes	No
Medical Assistant (MDSS)	BR3(1) Pt8 Chap 87 Para 8707	AB to PO	Selection Board	Yes	Yes	Yes
Naval Nurse (NN)	BR3(1) Pt8 Chap 89 Para 8903	AB to PO	Selection Board	Yes	Yes	Yes
Photographer (Phot)	BR3(1) Pt8 Chap 92 Para 9203	AB or LH, Mne or Cpl	Aptitude	Yes	Yes	Yes
Physical Training (PT)	BR3(1) Pt8 Chap 82 Para 8202	AB or LH, Mne or Cpl	Aptitude	Yes	Yes	Yes
RN Police (RNP)	BR3(1) Pt8 Chap 80 Para 8003	AB or LH, Mne or Cpl, (PO or Sgt on case by case basis)	Aptitude/Assessment	Yes	Yes	Yes
Coxswain Submarine (COXN)	BR3(1) Pt8 Chap 83 Para 8301	PO or CPO SM	Selection Board	Yes	Yes	No
Diver (D)	BR3(1) Pt8 Chap 78 Para 7803	AB or LH, Mne or Cpl	Aptitude	Yes	Yes[1]	No
Cryptological Technician (CT)	BR3(1) Pt8 Chap 84 Para 8403	AB or LH	Interview	Yes	No	No
Intelligence Specialist (INT)	BR3(1) Pt8 Chap 94 Para 9404	AB to PO	Selection Board	Yes	No	No
CYBER	TBC	TBC	TBC	TBC	TBC	TBC
Executive Discipline (EXEC)	BR3(1) Pt8 Chap 71 Para 7103	WO1 or WO2	Selection Board	Yes	Yes	Must have approval for dual nationality confirmed before transferring to the Executive Branch

[1] Not Dual National with Tier 1 or Tier 2 country.

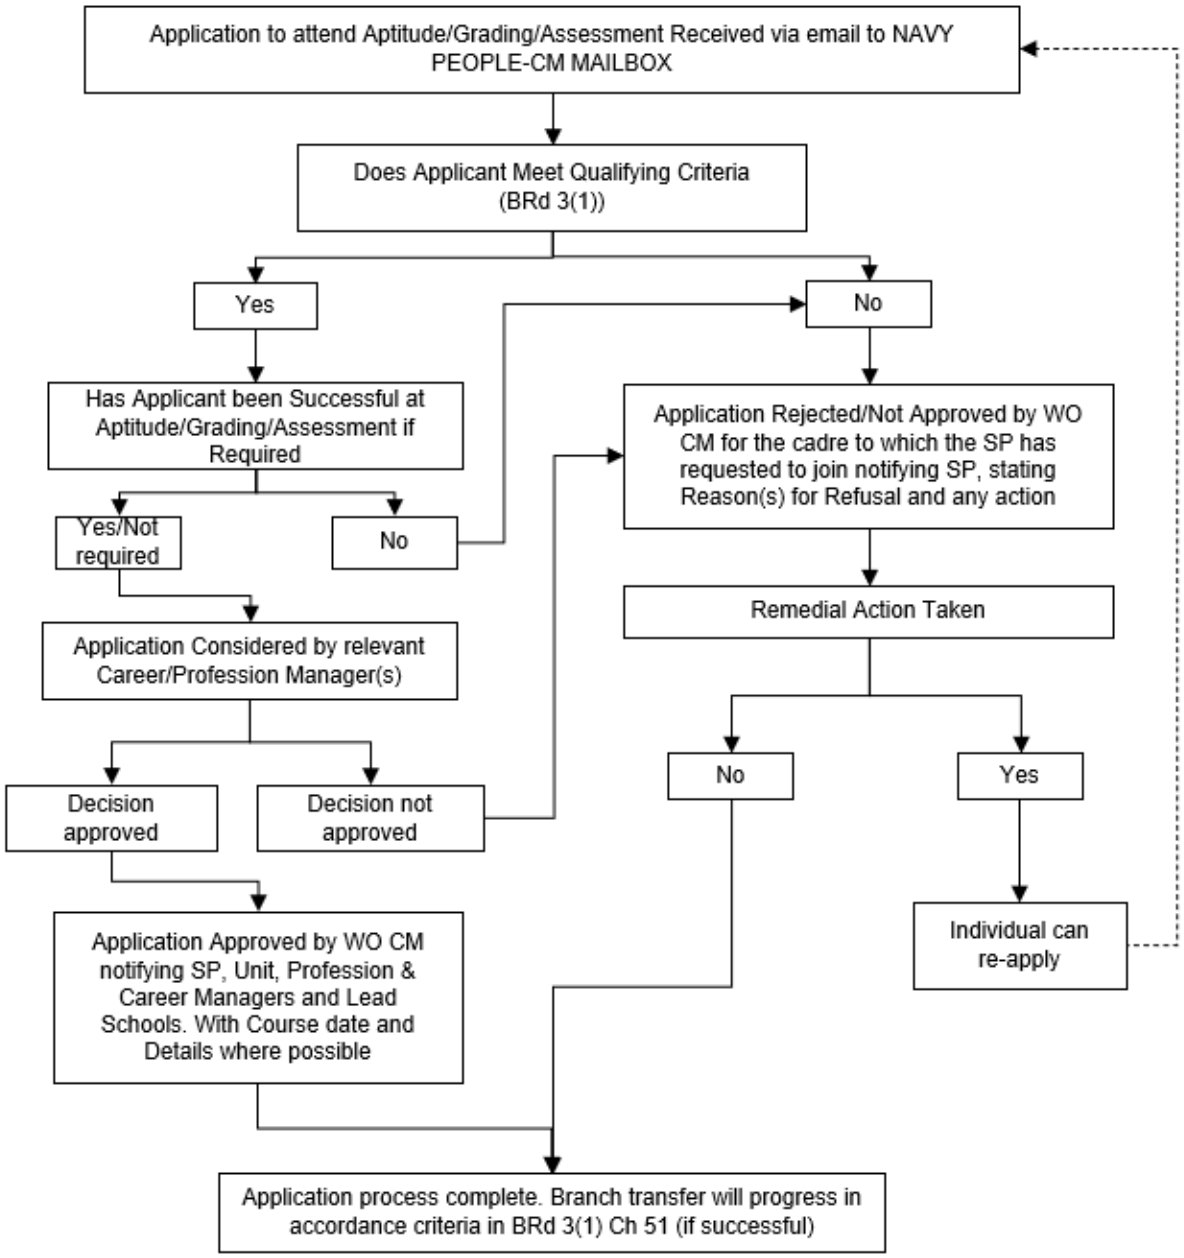
ANNEX 51B

APPLICATION AND STAFFING PROCESS FOR SPECIALISATIONS THAT REQUIRE GRADING/APTITUDE/ASSESSMENT



ANNEX 51C

APPLICATION AND STAFFING PROCESS FOR FULL CLEARANCE AND SPECIALISATIONS THAT DO NOT REQUIRE GRADING/APTITUDE/ASSESSMENT



ANNEX 51D

TRANSFER TO THE MEDICAL PROFESSION AS A MEDICAL ASSISTANT

1. Acquaint and Interview Requirements for Royal Marine Personnel Requesting Transfer to Royal Marine Medical Assistant.

a. The entry level from RM to RMMA will be at OR2 only. There will be opportunity for a maximum of 20 RM per annum to transfer to the MA Spec. Career management, including selection for promotion, will remain with WFPT (Logistics & Medical).

b. All RM personnel requesting transfer to RM Medical assistant should update their first Job Preference on JPA and input a comment to state they wish to volunteer to join the RM Medical Assistant Specialisation. Ranks must then gain workforce clearance from RM Career Management and the RM Profession Manager WO. DBS checks will then be initiated by the rank's career manager.

c. Once clearance has been granted, the Chain of Command of personnel requesting transfer are to contact the Medical Profession Specialist Adviser to the RM, WO1(MA) Med United Kingdom Commando Force (UKCF) (RMB Stonehouse Tel: 9375 36411/e-mail 3CDOX-HQ MED WO) to request the arrangement for a two-week acquaint at a Unit Medical Centre. The purpose of the acquaint is to allow the individual to be assessed with regard to suitability to transfer and also give them insight into the range of clinical and administrative work undertaken by the Medical Assistant. A programme will be set by the Establishment Practice Manager for individuals to maximise their short exposure to the role of the MA in the Unit Medical Centre and as a Coy MA.

d. On completion of the acquaint, the Establishment Practice Manager are to raise any concerns with regards to the suitability to transfer. This is to be forwarded to the Medical Profession Specialist Adviser to the RM, WO1(MA Med UKCF. WO1 (MA) Med UKCF will then raise any concerns with RM Career Management and the RM Profession Manager WO.

e. Once the DBS check number has been issued, RM Career Management Course Loading WO will inform NAVY PEOPLE-TRG TMG HQ UTSPM RTG to load individuals to a course. Ranks will be informed of their course loading and start date by RM Career Management.

f. The applicant must be medically fit and deployable (normally MFD A4/L1/M1/E1) and be in date RM BFT or hold the appropriate waiver.

g. All further actions required to progress the transfer following a successful acquaint will be initiated by the Medical Ratings Profession Manager.

ANNEX 51E

PROFESSION TRANSFER REQUEST FORM - YOUNG OFFICERS UNDERTAKING PHASE 1 TRAINING (INCLUDING AIRCREW OFFICERS UP TO GRADING)

In accordance with BRd 3(1) Chapter 51, I wish to apply for a profession transfer as detailed below.

Part 1 - Individual's Application

Full Name: .....

Service Number: .....Unit: .....

Rank: .....MEDCAT: .....

Nationality: .....PES Pass Date: .....

Current Profession and Specialisation:

.....

Prospective Profession and Specialisation:

.....

I have attached a letter of application in which I have provided:

a. Reasons why I wish to transfer to the profession specified.

b. Reasons why I feel that I am suited to the prospective profession.

c. Details of the relevant skills and experience that I believe I would bring to the profession.

d. Details of the research that I have undertaken with regard to the profession.

Please tick box to confirm the above: ☐

Applicant's Signature: ..... Date: .....

ON COMPLETION OF PART 1, FORWARD APPLICATION AND LETTER TO OFFICER COMMANDING OFFICER TRAINING (OCOT)

Part 2 - Officer Commanding Officer Training Declaration

I support the transfer request: ☐ (tick if applicable)

I do not support the transfer request: ☐ (tick if applicable)

The reasons behind whether or not the application is supported are provided in my email. Please find attached/scanned copies of the following (See note):

a. The applicant's letter.

b. This application form.

Name (Caps): ..... Rank: .....

Signature: ..... Date: .....

Note. *If the forms cannot be scanned and emailed, please email NAVY PEOPLE-TRG TMG HQ SO2 UTSPM for alternative arrangements.*

ON COMPLETION OF PART 2, OCOT IS TO SEND EMAIL TO THE OFFICER TRAINING PIPELINE MANAGER (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM)

ANNEX 51F

PROFESSION TRANSFER REQUEST FORM - YOUNG OFFICERS UNDERTAKING PHASE 2 TRAINING[1]

In accordance with Chapter 51, I wish to apply for a profession transfer as detailed below.

Part 1 - Individual's Application

Full Name: .....

Service Number: .....Unit: .....

Rank: .....MEDCAT: .....

Nationality: .....PES Pass Date: .....

Current Profession and Specialisation:

.....

Prospective Profession and Specialisation:

.....

I have attached a letter of application in which I have provided:

a. Reasons why I wish to transfer to the profession specified.

b. Reasons why I feel that I am suited to the prospective profession.

c. Details of the relevant skills and experience that I believe I would bring to the profession.

d. Details of the research that I have undertaken with regard to the profession.

Please tick box to confirm the above: ☐

Applicant's Signature: ..... Date: .....

ON COMPLETION OF PART 1, FORWARD APPLICATION AND LETTER TO COMMANDING OFFICER

[1] Aircrew Officers who have yet to reach the end of Grading should complete Annex 51D.

Part 2 - Commanding Officer's Declaration

I support the transfer request: ☐ (tick if applicable)

I do not support the transfer request: ☐ (tick if applicable)

The reasons behind whether or not the application is supported are provided in my letter. Please find attached copies of the following:

a. The applicant's letter to the Commanding Officer.

b. The Commanding Officer's letter of recommendation.

c. A Standard Report Form (covering the profession transfer request) signed and dated by the applicant.

d. A copy of the full E190.

e. Copies of other documentation deemed relevant to the application.

Name (Caps): ..... Rank: .....

Signature: ..... Date: .....

ON COMPLETION, EMAIL/SEND TO THE OFFICER TERMS OF SERVICE MANAGER PEOPLE AND TRAINING HEADQUARTERS BY EMAIL TO: NAVY PEOPLE-PSP EMP POL (MULTIUSER) <NAVYPEOPLE-PSPEMPPOL@mod.gov.uk>

ANNEX 51G

PROFESSION TRANSFER REQUEST FORM - OFFICERS ON THE TRAINED STRENGTH

In accordance with Chapter 51, I wish to apply for a profession transfer as detailed below.

Part 1 - Individuals Application

Full Name: .....

Service Number: .....Unit: .....

Rank: .....MEDCAT: .....

Nationality: .....PES Pass Date: .....

Current Profession and Specialisation:

.....

Prospective Profession and Specialisation:

.....

I have attached a letter of application in which I have provided:

a. Reasons why I wish to transfer to the profession specified.

b. Reasons why I feel that I am suited to the prospective profession.

c. Details of the relevant skills and experience that I believe I would bring to the profession.

d. Details of the research that I have undertaken with regard to the profession.

Please tick box to confirm the above: ☐

Applicant's Signature: ..... Date: .....

ON COMPLETION OF PART 1, FORWARD APPLICATION AND LETTER TO COMMANDING OFFICER

Part 2 - Commanding Officer's Declaration

I support the transfer request: ☐ (tick if applicable)

I do not support the transfer request: ☐ (tick if applicable)

The reasons behind whether or not the application is supported are provided in my letter. Please find attached copies of the following:

a. The applicant's letter the Commanding Officer.

b. The Commanding Officer's letter of recommendation.

c. An Appraisal Report (covering the profession transfer request), signed and dated by the applicant, 1RO and 2RO.

d. Copies of other documentation deemed relevant to the application.

Name (Caps): ..... Rank: .....

Signature: ..... Date: .....

ON COMPLETION, EMAIL/SEND TO THE OFFICER TERMS OF SERVICE MANAGER, PEOPLE AND TRAINING HEADQUARTERS, BY EMAIL TO: NAVY PEOPLE-PSP EMP POL (MULTIUSER) <NAVYPEOPLE-PSPEMPPOL@mod.gov.uk>

CHAPTER 52

'TRANSFERS' FROM THE ROYAL NAVY[1] TO ANOTHER SERVICE

5201. Definitions and Terminology

Personnel occasionally request to move from the Royal Navy to one of the other Services, a process which involves their discharge from the RN or RM and subsequent entry into the new Service. As such, this is not strictly a 'transfer' but the term will be used as shorthand for the process in this chapter. The Service in which the applicant is currently serving is referred to as the 'present Service'; the potential future Service is referred to as the 'gaining Service'. For the rules regarding transfers between the RN and RM or vice-versa, see Chapter 48.

5202. Officer Transfers to the Army or RAF – Untrained Strength

Officers undertaking initial training (hereafter referred to as Young Officers (YOs)) may request permission to withdraw from training up until their Premature Termination of Career Training (PTCT) point (and may make their own arrangements to join the Army or RAF thereafter if they so wish). On passing their PTCT point, officers are required to complete their initial training and serve the specified return of service (ROS) for the training received, details of which are shown in Table 53B-1 and, as such, are unable to seek release to join another Service. However, if a decision has been taken to discharge an individual under the provisions of Para 5437 and the reasons are such that the individual would not be debarred from applying for the Army or RAF, Commanding Officers have the option of forwarding a letter of Recommendation and a copy of the YO's E190/Training Record direct to the Personnel Management Authority of the Service concerned. Contact details for the Army and the RAF are as follows:

a. **Army.**

SO1 MS8
Army Personnel Centre
Kentigern House
65 Brown Street
Glasgow
G2 8EX

b. **RAF.**

OASC4e(RAF) MOD
PO Box 1000
Cranwell
Sleaford
Lincolnshire
NG34 8GZ

[1] Royal Navy, Royal Marines, QARNNS and all parts of the Maritime Reserves.

5203. Officer Transfers to the Army or RAF - Trained Strength

There are limited opportunities for officers on the trained strength to transfer to the Army or RAF. The policy and procedure is as follows:

a. Officers who wish to transfer to the Army or RAF should first contact the Service they wish to join in order to make sure it is currently recruiting and has vacancies, or is likely to have vacancies, in the branches in which they are interested. Contact details are at Para 5202.

b. If the gaining Service has vacancies, applicants are to submit a request for transfer through their Command chain to their Career Manager, copied to the agency specified at Para 5202 and the appropriate branch within the gaining Service:

Military Secretary for Army.

Air Secretary (attn: PM(AR)1a(RAF)) for RAF.

c. Officers are to be interviewed by their Commanding Officer who is to discuss the request with the individual before forwarding the application and recommendation, via the Command chain, to the appropriate Career Manager. At the interview, the Commanding Officer is to make it clear that there is no automatic right to transfer between the Services and that the needs of the individual's present Service are paramount.

d. The relevant Career Manager is to consider all applications for transfer from the RN or RM in conjunction with Navy People-CM Head before consultation with the personnel authorities of the potential gaining Service. If the application is acceptable to all concerned, the Career Manager will agree a mutually convenient date for transfer with the gaining Service. Any outstanding ROS obligation to the individual's present Service will be taken into consideration in reaching a decision (see Para 5202). If the transfer is agreed by Navy People-Delivery DPTY DIR and Navy People-Strat DPTY DIR, the normal Single Service rules governing Early Termination (see Chapter 54 for RN/RM; AGAI for Army; and GAI 6028 for RAF) will apply and no preferential consideration will be given to the fact that the application is for a move between the Services.

e. Rank, seniority and other terms and conditions of service will be confirmed by the gaining Service as soon as is practicable. For transferees to the Army, the terms of service rules are contained in Army Commissioning Regulations and, for the RAF, in AP3393. Detailed terms of service will be formally notified to the transferee, with a copy being sent to the present Service. As there is no actual break in service, there will be no effect on prospective entitlement to retired pay and terminal benefits, and reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service.

f. The present Service will issue an official letter to the officer (copied to the gaining Service) explaining that the individual's existing commission will be terminated on the day before their assignment to a commission in the gaining Service and that they will not be placed on the Retired List of the present Service, nor will they be subject to a recall liability to the present Service.

g. The London Gazette will be annotated "Commission terminated (date) on transfer to...(as appropriate)".

h. If the transfer request is not supported by the gaining Service, officers will remain in their present Service, which will be responsible for providing official notification to the individual (copied to the proposed gaining Service).

5204. Ratings and Other Ranks - Eligibility to Seek Release to Join the Army or RAF - Untrained Strength

Whilst ratings and other ranks have a statutory right to leave within their first 6 months' service or until their 18th birthday (if later) (and may make their own arrangements to join the Army or RAF thereafter if they so wish), beyond this point individuals are ineligible to submit their notice until completing a minimum of 2½ years on the trained strength (see Para 5403) and, as such, are unable to seek release to join another Service. However, if a decision has been taken to discharge an individual under the provisions of Para 5442 and the reasons are such that the individual would not be debarred from applying for the Army or RAF, Commanding Officers of establishments have the option of forwarding a letter of recommendation (the form at Annex 52A should not be used in such cases) and a copy of the individual's full Service Documents direct to the Personnel Management Authority of the Service concerned.

5205. Ratings and Other Ranks - Early Release to Join the Army or RAF - Trained Strength

a. Individuals who wish to apply for early release to join the Army or the RAF before the end of their career or engagement may do so once they have reached the point at which they are eligible to submit 12 months' notice to leave the Royal Navy (see Para 5302 sub para b) and only if they are not subject to either a further training or financial ROS (see Para 5303 and 5415(2) for a waiver in exceptional circumstances). There are two normal methods for applying:

(1) If an individual chooses to seek a transfer through Service channels, and personnel clearance is given to do so, successful applicants will be able to leave the Royal Navy on the day before entering the other Service. In this way the individual retains continuity of service which may have beneficial implications on pay and pensions. It may also be possible, if both Services agree, to allow the transfer in less than the normal 12 months' notice period, but the actual timing will depend on a variety of factors. If release is not possible at less than 12 months' notice it should normally be granted at the 12 month point. Further advice can be sought from Navy People-PSP Emp Pol SO1

(2) The alternative is for the rating or other rank to submit 12 months' notice and apply independently to enter the gaining Service, without involving their present Service. Under these circumstances it will not be possible to arrange the same continuity of service. Individuals who have already submitted notice, and who are serving out the 12 months' notice period, or who have already been offered a place in the Army of RAF through their own efforts, are not eligible to be considered for release iaw Para 5205 a sub para (1), but may be eligible to apply for release at less than 12 months' notice (see Para 5413).

b. Before applying for release from the Royal Navy to join another Service through Service channels iaw Para 5205.a sub para (1), ratings and other ranks who are considering a career in another Service should make appropriate enquiries at a Careers Office, namely, to confirm that they meet the entry requirements and that the gaining Service is currently recruiting for that specialisation. Commanding Officers are required to confirm that the individual has made these enquiries before forwarding a request.

c. **Forwarding of Requests.** An application form for release from the Royal Navy, iaw Para 5205.a sub para (1), to join the Army or RAF can be found at Annex 52A. Forms must be completed fully, including the recommendation and signature of the Commanding Officer, and returned with a copy of the full Service Documents to Navy Command Ratings Terms of Service Manager. Individuals should not apply for Early Termination on JPA in such cases.

d. Approval for early release to join the Army or RAF is subject, in all cases, to Royal Navy personnel requirements and approval will only be given in exceptional circumstances, such as where an individual's talents could be better utilised in the other Service. Requests based on personal reasons for wanting to join another Service, such as a notion that an individual will encounter less family separation, will not be considered and therefore must not be forwarded.

e. **Unsuccessful Applications.** Should an individual not gain workforce clearance to join the Army or RAF or be unsuccessful in their application to join another Service, they will remain in the Royal Navy until such time that they reach the end of their career/engagement or submit 12 months' notice to leave via JPA, if sooner.

f. **Failure to Enter the Army/RAF after Successful Application.** In the unlikely event that an individual does not enter the gaining Service, after having gained workforce clearance for release from the Royal Navy and having successfully applied for their chosen Service, a decision will be taken in respect of their future, based on the individual merits of the case. Whilst individuals who have reached this stage of the application process are deemed to have submitted their notice option, due consideration will be given to their wishes, either to continue in the Royal Navy or to complete the 12 month notice period (starting from the date that the application form is signed) and thereby leave. Commanding Officers should forward details of the circumstances, their recommendation and the wishes of the applicant to the Ratings Terms of Service Manager.

ANNEX 52A

APPLICATION FOR RELEASE FROM THE ROYAL NAVY TO ENTER THE ARMY OR RAF - RATINGS AND OTHER RANKS ON TRAINED STRENGTH

SECTION 1 - APPLICANT'S DETAILS (in Capitals)

Surname:		Initials:
Service Number:		Rate/Rank:
Date of Entry:	Current Engagement:	Expiry Date:
Full Address of Ship or Establishment:		Nationality at Birth of: Applicant: Father: Mother:
Applicant's Email Address:		POC onboard Ship or Establishment: Email address for POC:
Applicant's Career Manager's Email Address:		Applicant's Branch Manager's Email Address:

SECTION 2 - DECLARATION OF APPLICANT

To: The Commanding Officer

I wish to apply for premature discharge from the Naval Service to enter the Army/RAF* in accordance with BRd 3(1) Para 5205 and I can confirm that, in accordance with BRd 3(1) Chapter 53 and Chapter 54, I am on the trained strength and became eligible to submit 12 months' notice on:

(calculated by adding the requisite minimum time to serve to the Standard Initial Training Period) _____

I can confirm that I have no outstanding Return of Service for any training received since completing my initial training.

I can confirm that I have not submitted or am currently serving out 12 months' notice of discharge.

I have made appropriate enquiries of the other Service at the Armed Forces Careers Office at:

_____

regarding the specialisation of: _____

I can confirm that: I meet the qualifications required: ☐ and that the specialisation is open to recruitment: ☐

I am/am not* willing to undertake a regular engagement in the Army/RAF*.

If workforce approval is given, I give/do not give* authority for a copy of my Service Documents to be forwarded to the Recruiting Authority of the Service I am applying to enter.

* Delete accordingly

Signature: Date:

N.B. In the unlikely event that an individual, who has gained workforce clearance and been successful in their application, does not then enter that Service, a decision will made regarding their future on its individual merits. Whilst an individual is deemed to have submitted their notice, due consideration will be given to an applicant's wish to continue in the Royal Navy or to complete the 12 month notice period (counting from the date that this form is signed) and leave. Individuals whose application is unsuccessful at any stage will automatically remain in the Royal Navy

SECTION 3 - APPLICANT'S QUALIFICATIONS

Details of Qualifications (showing grade achieved) (enclose additional sheet if necessary).

SECTION 4 - COMMANDING OFFICER'S STATEMENT

I can confirm that the applicant has a medical category of:

and became eligible to submit their notice option on

(please confirm date shown at Section 1 of the Applicant's Declaration)

My recommendation is as follows:

Name and Rank (in Capitals):

Signature: Date:

On completion, this form and a COPY of the relevant documentation should be e-mailed to: NAVY NPS-STRATPOL TERMS OR SO3C

In the event that it is subsequently discovered that an individual was ineligible to submit their notice, the application will be rendered void and no further action will be taken.

In accordance with the General Data Protection Regulations (2018), the MOD will collect and process the information supplied on this form in connection with matters concerning personnel administration and policies. In order to comply with statutory obligations, the data will be retained and reviewed as necessary and may be transferred to electronic media. The MOD is committed to ensuring that your personal data is kept securely and that it will not be disclosed unlawfully.

CHAPTER 53

RETURN OF SERVICE

5301. General

a. Joint policy for Return of Service (ROS) is contained in JSP 750 Chapter 3. All those responsible for the management and administration of RoS must make themselves conversant with the instructions contained in JSP 750.

b. When RN and RM personnel undertake specific courses of training, studies or receive financial bonuses, the Royal Navy requires a return on its investment. The normal requirement is that individuals complete an effective period of service called a ROS which is a legally enforceable period of time that an individual who has undertaken a course of funded training, taken up a secondment or placement within industry or been assigned into a designated command appointment shall be required to serve in order to give a reasonable return on the investment made by the MOD. Training falls into two areas: initial training, that undertaken by officers, ratings and other ranks prior to joining the trained strength; and further training, that undertaken by officers, ratings and other ranks who have joined the trained strength.

c. The Service not only invests in its people by means of training but also by appointing individuals into key roles, including command, where they acquire a breadth of experience and depth of knowledge which can be reinvested in subsequent positions, invaluable for the conduct of current operations, the administration of the Royal Navy and the future planning of Defence. It would be illogical for the Service to appoint individuals into such key roles without seeking an assurance that it will be able to reap the benefits of the experience and knowledge which they have gained during the relevant appointment. In order to ensure that the Service is investing in those from whom it can gain such a return, certain command appointments will carry a ROS (see Para 5308).

d. It is the responsibility of individuals to acquaint themselves with the ROS requirements and regulations prior to applying for courses/training, selection for SASB2/AASB2) appointments or before receiving bonuses. It will be necessary to complete the appropriate ROS undertaking form in order to undertake further training, take up command appointments or receive Financial Retention Initiative (FRI) bonuses (see Para 5303 sub para c or Para 5308 sub para b).

5302. ROS for Initial Training

a. Officers.

(1) Officers can voluntarily withdraw from initial training up to a defined point in their training pipeline known as the Premature Termination of Career Training (PTCT) point. Details of the PTCT and the voluntary withdrawal from training process can be found at Para 5402.

(2) Beyond the PTCT point, RN and RM officers are required to give a ROS in recognition of the cost of their initial training. For SUY/SCC officers promoted from the ranks, initial officer training is considered to be complete once individuals commence their first effective assignment. For all (except those promoted under the Senior Upper Yardman (SUY)/Senior Corps Commission (SCC) schemes) this is defined as the training completed prior to joining the trained strength (eg. Phase 1 training at BRNC Dartmouth and CTCRM Lympstone; Phase 2 professional training such as IWOC, ILOC(M) and SEMC).

(3) Details of the applicable initial training ROS are at Table 53B-1, whilst Table 53B-2 shows the point at which initial training is completed in all officer specialisations. Para 5305 contains information concerning ROS waivers.

b. **Ratings and Other Ranks.**

(1) All new recruits enlisting in the Royal Navy, who have not previously so enlisted, have a statutory right to claim discharge within their first six months of service, provided that they have completed a minimum four weeks' service (excluding leave periods and any forfeited service) from their date of entry, or until the day before their 18th birthday, if this comes after the end of the six month period. Full details can be found at Para 5403.

(2) **Minimum Time to Serve (MTS).** For ratings and other ranks, a ROS is required to consolidate an individual's training and give a reasonable return on the investment made by the Service. Having completed six months' service, or reached the age of 18 (if this comes after the end of the six month period), and subject to the exceptions that follow, ratings and other ranks become eligible to submit an application for Early Termination (12 months' notice) 2 ½ years after they have joined the Trained Strength; this is on completion of Phase 1 and Phase 2 training. This means that for the majority of Ratings and OR they will serve a minimum of 3½ years in total from the point they join the trained strength.

(3) The exceptions to the 2½ year rule are Student Naval Nurses and Medical Technicians who must complete a minimum of 3 and 3½ years respectively after joining the Trained Strength, on completion of training, before they can submit notice. This means Student Naval Nurses and Medical Technicians will serve a minimum of 4 and 4 ½ years respectively.

(4) Unlike the ROS for further career training, the MTS period cannot run concurrently with the notice period. An individual must complete the MTS period before they become eligible to apply for Early Termination.

(5) When a rating or other rank voluntarily transfers from one specialisation to another having already joined the Trained Strength, an additional ROS may be applied in accordance with Para 5125.c(4) and Para 5303.

5303. ROS for Further Training, Branch Transfer, Sideways Transfer and Financial Remuneration

a. **Training ROS.**

(1) A zero ROS is the normal standard for Service personnel attending further training courses i.e. that which follows the completion of initial training. Some tri-Service and single-Service further training courses and qualifications, however, exceptionally attract a training ROS (i.e. as a result of being demonstrably expensive; lead to highly marketable skills or qualifications; normally of at least six months' duration, including modules of a course that add up to six months or more; in areas where there is a significant current or forecast operational or manning pinch points and failure to retain the individual would have a direct impact on the immediate output or operational capability of the organisation; where workforce organisations require a long lead time to trawl, nominate and assign an individual to a training course). These courses are published regularly by DIN, in JSP 750 Chapter 3 (Annex A for Joint and Tri Service non-Medical training and Annex B for Joint and Tri Service Medical training) and Table 53C for RN only courses.

(2) A training ROS will normally only be applied where an individual attends a discrete course of training away from normal duty. It is accepted that some training is delivered in the course of normal duties, but such training would not normally attract a training ROS unless it resulted in a recognised qualification in a transferable skill.

(3) A Training ROS may also be applied to a Phase 2 course where it is completed by an individual as part of a transfer between branches, trades, specialisation or Service after completion of the training in their original branch; commencement of the ROS will be in accordance with Para 5304.a. All personnel will be required to complete Form S2658 prior to commencement of training.

(4) A training ROS is applied to all Sideways transfer branch courses; commencement of the ROS will be in accordance with Para 5304.a. All personnel will be required to complete Form S2658 prior to commencement of training.

b. **Financial ROS**

(1) **Bonus Payments or Financial Retention Incentives.** From time to time, bonuses may be offered to personnel in shortage categories as a retention measure, with a financial ROS required in return - see JSP 754 (Tri Service Regulations for Pay and Charges) for more details. In general terms, the ROS will run concurrently with any other ROS required by courses or training. Individuals wishing to submit an Application for Early Termination whilst still bound by this type of ROS will be required to pay back some or all of the money they received.

c. **The 'ROS Declaration' for Further Training Courses and FRIs**

(1) Individuals who are eligible to apply for Early Termination will be required to waive that right for a period equal to the length of the training course (if there is no ROS attached to the course) or the length of the course plus any ROS required for volunteering to attend a further training course.

(2) It is a condition of undertaking any course or accepting any FRI which attracts a ROS that all personnel must sign a written undertaking to state that they understand and accept the ROS requirement. A ROS Declaration (for officers, see Annex 53A; for ratings and other ranks, use Form S2658), will be issued to the individual by either the Training Establishment or the Career Manager with instructions for its completion in the Remarks of the Assignment Order which assigns them to the course. The completed and signed undertaking must be returned as required (once an individual has applied for and been accepted for an FRI or bonus, the Unit HR informs DBS JPAC to take the appropriate payment action and forwards the original completed and signed application form to the Career Manager) and the individual's Earliest Exit date in JPA will be amended by the Career Manager. Mistakes found subsequently on the form itself or the loss of a signed form will not necessarily exempt the individual from being obliged to complete the ROS in force at the time; each case will be considered on its merits. Career Managers should store the signed form by scanning the document into JPA and attaching it as a public document to the Scribble Pad area and, vitally, forward the form to the DBS JPAC Records Office, since it will be required in the event that the SP challenges the ROS liability. Refusal to sign the form, when presented, will debar the individual from starting the course and the individual will be reassigned.

(3) Once an individual has applied for and been accepted for an FRI or bonus, the Unit HR informs DGS JPAC to take the appropriate payment action and forwards the original completed and signed application form to the Career Manager. On receipt of the form, the Career Manager is to update the individual's JPA record with the ROS name, ROS date and Earliest Exit Date.

(4) All individuals may serve out their notice period concurrently with the final 12 months of any outstanding ROS.

5304. ROS General Points

a. **ROS Starting Point.** Whilst a training ROS will normally commence on the completion of the course, the ROS obligation is incurred from the start date of the course and may be applied, subject to Service needs, at any time, irrespective of the final course outcome.

b. **Concurrency.** All periods of training ROS, whether for initial or further training, together with any time an individual is committed to serve as part of their Service engagement, will run concurrently unless otherwise specified. Employers and Career Managers are to ensure that an individual has sufficient service remaining in order to complete the relevant training ROS prior to formally committing the individual to a training course.

c. **Withdrawal from Training - Impact on ROS**

(1) Individuals who embark on a course of further training are not permitted to apply for Early Termination during the training.

(2) Individuals who are withdrawn from further training (for whatever reason), or who effectively withdraw themselves from training, will need to 'work off' a period of ROS. As a rule, this period will be determined by the Navy Command Headquarters Terms of Service Team (in conjunction with the appropriate Career Manager and Branch Manager), taking into consideration a number of factors. These include the amount of the course that has been completed, the perceived value of the training to potential external employers, the course length, course frequency and number of places per course, the attractiveness of the course to Royal Navy personnel, the loss to the Service if the individual does not complete the training, the ability of the Service to select, assign and train replacement personnel and, finally, the reason for not completing the course eg. compassionate or career change.

(3) As a general rule, personnel who leave or fail to complete those courses which are highly sought after and embrace easily transferred skills, such as management accountancy and barrister training, are likely to be required to complete the majority, if not all, of their ROS commitment.

(4) However, individuals will, if they are otherwise qualified, be permitted to apply for Early Termination with effect from the date of failure or withdrawal from training. Individuals who have requested an extension of service in order to qualify under Para 5304 sub para f will not have their extension cancelled if they fail or withdraw from the course but will become eligible to apply for Early Termination.

d. **Transfer within Services, between Services and to the Reserve.** See JSP 750 Chapter 3 para 29 - 32.

e. Personnel who apply to exit prematurely from their Service while undertaking a training course that attracts a training ROS will be removed from the course immediately, unless it is in the Service interest to do otherwise.

f. **Extension of Service to Complete Course or ROS.** Personnel assigned to training courses who do not have sufficient time to serve in order to fulfil the ROS requirement must agree to request an extension of service (see Para 4926) to cover the length of course and its associated ROS. In these circumstances, Form S61 should be completed and forwarded to the appropriate Career Manager prior to the commencement of training. The S61 should be completed to the effect that the individual understands that any new career/engagement and/or extension will remain valid in the event of course failure.

g. **Selection Procedure for Individuals Formerly Ineligible for Courses.** Individuals who are ineligible for courses as a result of submitting their notice, or are nearing completion of a commission or engagement stage, and subsequently withdraw their notice or re-enlist, will not necessarily be selected for the next available course for which they become eligible. Such individuals may be assigned to sea service, if due, with courses being arranged during their next period of shore service.

h. **Individuals subject to Administrative or Medical Discharge whilst completing ROS.** Individuals who are administratively discharged whilst under an FRI ROS obligation will be referred to the JPA termination debt recovery cell to make arrangements for recovery of the bonus. Arrangements for recovery of any payment following medical discharge will be on a case-by-case basis, in accordance with JSP 754.

i. **Time Spent in Acting Higher Rank.** Time spent in the acting higher rank by officers, ratings and other ranks does not generate a ROS.

j. **Transfer to a Longer Commission.** Transfer to a longer commission by officers does not attract a ROS.

k. **Non-reckonable Service.** Periods of non-reckonable service do not count against a ROS and, if approved, will extend the ROS end date accordingly.

5305. ROS Waivers

a. Requests for a ROS waiver will be considered on a case-by-case basis by a RoS Board which for OF4 and below will consist of Navy People-PSP Emp Pol SO1 and the relevant Branch Manager (or WFPT Head) with advice from Navy Legal. For OF5 and above the Board will consist of Navy People SOCTM NA, Navy People-SOCTM Head and WFPT Head. The Board will also consider the recovery of any costs for Training or other ROS.

b. Early release from a ROS commitment is not a right and should therefore not be relied upon if applying for civilian employment. Individuals must not accept an offer of employment which would commence earlier than the end date of the ROS period until their application for a ROS waiver is approved officially. Every effort must be made to ensure that there are no delays in forwarding any request for a waiver of ROS (especially those submitted for compassionate reasons) for staffing. If granted, a ROS waiver will enable individuals to apply for Early Termination, however release within 12 months will be subject to the agreement of the appropriate Competent Authority (see Annex 54A). A ROS waiver does not negate the requirement to repay any financial liability for a course, bursary or cadetship. See Para 5413 for further information regarding Non-Standard Early Termination (including ROS waivers), early release criteria and the application process.

c. If a ROS waiver is sought on medical grounds (further training only), the request must be accompanied by a medical certificate signed by a Service Medical Officer.

d. All ROS waivers, where granted, are to be reported to Navy People-PSP Emp Pol SO1.

5306. ROS for UY(E) University of Portsmouth (UoP) Degree Course

a. UY(E) officers who complete the UoP degree course as a precursor to joining the Officer Corps, but do not subsequently become a Gain to the Trained Strength in the Officer Corps (whether through voluntary or compulsory withdrawal from training), will have to return to the Ratings Corps (preferably in their source branch) to complete the balance of any ROS accrued whilst they were a rating on the trained strength. Completion of the ROS in full as a rating will cancel the financial liability that individuals would otherwise have (if leaving as officers) in lieu of their Service funded degree; failure to complete the ROS (for whatever reason) will mean that individuals potentially remain liable to refund education costs in full. Annex 53D refers.

b. The balance of the ROS (deemed to start upon posting of final results) to be served by a UY(E) officer on returning to the Ratings Corps will be determined by the ROS that was outstanding when they joined BRNC, less any time served as an officer.

c. In an exceptional case (medical, compassionate or welfare; not professional or educational failure) and for reasons outwith their control, should a UY(E) fail to complete the UoP course or is unable to complete the ROS as a rating, then the liability to repay education costs in lieu will be reviewed. Each case will be considered on its individual merits.

5307. ROS for Transfers and Re-entry Requiring Bespoke Training

Personnel re-entering or transferring into the Royal Navy, or transferring between branches and/or specialisations, who are required to undertake a period of bespoke training may be required to accept a ROS liability for such training. The bespoke training ROS will be determined on a case-by-case basis by the Terms of Service Team, in consultation with key Headquarters personnel, who will provide written notification to the individual of the ROS liability.

5308. ROS for Undertaking Command Assignments

a. **General.** Command is a privilege and the essence of service as an officer in the Royal Navy. It is an opportunity given only to the very best and it carries certain obligations and responsibilities. These are most evident whilst in an assignment, but the experience gained in command is unique. Additionally, there are some appointments at OF4 level and above that, by necessity, draw on previous Sea Appointment Selection Board (SASB2)/Air Appointment Selection Board (AASB2) command experience. It is, therefore, in the best interests of the Service that it should seek a return on its investment in assigning individuals to command. Command appointments are therefore reserved for those officers who are prepared to show exceptional commitment by providing an assurance of continued service which will allow both them and the Service to capitalise upon their command experience to the overall benefit of Defence and in the interests of national security. An officer who is not prepared to accept command under these terms will not have their assignment confirmed and may be removed from any future command considerations.

b. **ROS Starting Point.** Officers undertaking their first assignments after selection by the annual Jun/Jul SASB2/AASB2 will be required to provide a 24-month ROS. Whilst the obligation to complete the ROS is incurred from the date that command is assumed i.e. the start date of the SASB2/AASB2 command assignment, the ROS period will commence on completion of their command tour (or the date of earlier re-assignment if applicable). Such a ROS may also be applied to other command assignments (eg. RM, Shore Command, Charge, SASB1 etc.) if deemed appropriate and/or necessary[1]. In such cases, the ROS starting point and liability will be calculated in the same manner. Officers will be notified of the ROS attached to a future command assignment on the Assignment Order and must complete a ROS Declaration Form (Annex 53E). The officer will be given the opportunity to decline the appointment offer.

c. **Impact of Applications for Early Termination.** Applications for Non-Standard Early Termination are to be made in accordance with Para 5413, however, it should be understood that Non-Standard Early Termination is not a right and officers should not seek or accept future employment in the expectation that an application will be approved.

[1] Where ROS requirement for any Command Appointment is to be changed an Equality Analysis (EQIA) is to be raised to justify the change.

ANNEX 53A

RETURN OF SERVICE UNDERTAKING FOR FURTHER TRAINING

Refer to JSP 750, Chapter 3, Annex E or Annex F.

ANNEX 53B

INITIAL TRAINING ROS

Table 53B-1. Minimum ROS for Initial Training undertaken by RN and RM Officers

Entry Type	Branch	ROS Rule
University Cadet Entrant (UCE) and Naval College Entrant (NCE) taking a full-time in-service degree (see Note)	Warfare, Logistics, Engineering and Royal Marines	5 years commissioned service from completion of an officer's initial training (i.e. including professional training)
Defence Technical Undergraduate Scheme (DTUS) - Bursar	Engineering (excludes officers promoted from the Rating Corps who enter as NCE in-Service degree officers)	3 years from completion of an officer's initial training (includes professional training such as the SEMC)
Direct Graduate Entrant (DGE) and NCE not taking full-time in-Service degrees (see Note)	Logistics, Engineering (including TM), Warfare (except aircrew and ATCO), Royal Marines and Medical / Dental Officer.	3 years from completion of an officer's initial training
Air Traffic Controller	Warfare	3 years from completion of Joint Air Traffic Control Course or equivalent ATM Course.
Aircrew	Warfare/Royal Marines	6 years from completion of Operational Conversion Unit (OCU)for both rotary and fixed wing training
Medical Cadet	Medical	Commences at the beginning of the pre-registration year and runs for 6 years from the date of full registration with the General Medical Council
Dental Cadet	Medical	7 years from registration with the General Dental Council

Note. *The in-service degree known as 'Foundation for the Future (F3)' which NCE Logistics and Warfare officers (except Aircrew and ATCO) undertake during initial training is not a full-time in-service degree.*

Table 53B-2. Completion of Initial Training - All Officer Branches

Officers (inc. SUY)	GTS Point
X(GS)	Completion of Initial Warfare Officers Course (IWOC)
X(SM)	Completion of IWOC
X(INT)	Completion of JMIC
X(IW METOC)	Completion of SFT(IW METOC) inc. Air Forecasting Qualification
X(P)	Completion of OCU
X(O)	Completion of OCU
X(ATC)	Completion of JATCC or ATM equivalent course
E(AE)	Completion of Certificate of Competence
E(ME)	Award of MEQ
E(MESM)	Award of Cat A1 EOOW qualification
E(WE) - Direct Entry	Completion of SFT(WE)
E(WE) - SUY	Completion of SEMC 3A
E(WESM)	Completion of DWEO (Desig) or SWS OEC
TM - Direct Entry	Completion of TMOC
TM - SUY	Completion of TMOC
L	Completion of Basic Logistics Officers Course (Maritime)
MS(EHO) & MS(SM) DE	Completion of INT(O)
Medical - Cadet/DE	Completion of NEMO Course
Dentist	Completion of INT(O)1A
QARNNS	Completion of INT(O)1A
Chaplain	Successful completion of Chaplaincy Fleet Board
SUY Deep Specialist (INT, C, HM, RNP, AV, ATC, MS)	Completion of SUY Course
RM GD	Completion of Phase 2 training
RM SCC/RM Band	Completion of SCC Course

Table 53B-3. Completion of Initial Training - All Rating and Other Rank Branches

See Para 5304 sub para b for more details.

Warfare Branch	Completion of Initial Training (note1)
Warfare Specialist	Completion of PH2 training; AWT - AWT270 (T23) / 271 (T45) AWW - AWW249 (T23) / AWW250 (T45) UW - UW 235 EW - EW 237 DELAC - AIR 201
Warfare Specialist Sensors (Submarine)	On completion of the AB WS (SSM) Career course (SSM 001) and either SMQ Vanguard (SMQ 002) or SMQ Astute (ACTS 41) Dry phase of training
Warfare Specialist Tactical (Submarine)	On completion of the AB WS (SSM) Career course (SSM 001) and either SMQ Vanguard (SMQ 002) or SMQ Astute (ACTS 41) Dry phase of training
Mine Warfare Specialist	On completion of the AB (MW) Career course (MW 200) and AB Seamanship (Sea 105) course
Hydrographic and Meteorological (H) Specialist	On completion of the AB HM (H) Career course (HM 200) and AB Seamanship (Sea 105) course
Hydrographic and Meteorological (M) Specialist	On completion of the AB HM (M) Career course (HM 215)
Seaman Specialist	Completion of Phase 2 training
Naval Airman (Aircraft Handler)	Completion of NAQC (RNSFDO)
Direct Entry Aircrewman	Completion of OCU (see note 2)
Aircraft Controller	Completion of LACQC (RNSAC)
Direct Entry Diver	On completion of the AB (D) Career course (DDS 100), DEMS 0807 and DEMS 0805 EOD courses (see note 3)
Direct Entry Cryptologic Technician	(See note 4)

(Continued)

Engineering Profession	
Accelerated Apprentice	(See notes 5, 6, 7 and 8)
Air Engineering Technician	Completion of AET QC, WT (Phase 2 training) and completion of QM assessment.
Survival Equipment Technician	Completion of SET QC, SET WT (Phase 2B training) and completion of QM assessment.
Engineering Technician (Marine Engineering)	MEGS completion of ETICC.
Engineering Technician (Weapon Engineering)	Completion of ET(WE) GS .
Engineering Technician (Communications Information Systems) Specialist	Completion of ET(CIS) CIS Career Course.
Engineering Technician (Marine Engineering Submarines)	Completion of SMQ Dry
Engineering Technician (Weapon Engineering Submarines)	Completion of Phase 2A (WE107), Phase 2B (UW441 or SWS105 or SWS106) and SMQ Dry
Communications Information Systems Specialist (Submarine)	Completion of Phase 2A (WE107), Phase 2B (UW172) and SMQ Dry
Logistics Branch	
Logistician (Writer)	Completion of SIPAC(M)
Logistician (Catering Services)	Completion of all Ph2 Trg modules at FSTW, DSLA
Logistician (Supply Chain)	Completion of Basic Supply Chain Specialist Course
Medical Branch	
Dental Nurse	On completion of Ph 2 DN training (BCU)
Medical Assistant	On completion of Ph 2 MA training (DMA)
Medical Assistant Submarines	On completion of Ph2 MA training (DMA), MASM1, SMQ Dry, SMERAS and SM FF.
Student Naval Nurse	On completion of Ph 2 NN training (BCU)
Medical Technician	On completion of Ph 2 MT training (BCU)
Direct Entry Naval Nurse	On completion of INT(R)
Direct Entry Medical Technician	On completion of INT(R)
Direct Entry Dental Hygienist	On completion of INT(R)
Royal Marines	
Recruit training	32 weeks On completion of Royal Marines King Squad Passout (KSPO)
Bugler	105 weeks On completion of SQB3 cse
Musician	135 weeks On completion of SQM3 cse

Notes:

1. *The table indicates the point at which a Rating or normally joins the trained strength on completion of Phase 1 and Phase 2 training. On occasion courses may run in different order and assignment to first complement billet will indicate the date they join the trained strength if this is the case and for Minimum Time to Serve (MTS) purposes.*

2. *The RoS for Aircrewman Training is 72 months from completion of OCU which runs concurrently with and extends beyond the MTS period. Aircrewman are able to submit a request for Early Termination after 60 months on the trained strength.*

3. *To be usable as a Diver individuals have to completed basic Diver training at the Defence Diving (DDS) and Explosive Ordnance Disposal (EOD) training at the Defence EOD, Munitions and Search (DEMS) Training Regiment. The ROS period will commence when Diver and EOD training has been completed.*

4. *CT Candidates will be considered as Gains to the Trained Strength (GTS) on completion of SCC at DITG CHICKSANDS, up to 15 months from this point they become eligible for advancement LH. 24-month RoS commences on completion SCC and runs concurrently with MTS.*

5. *WEGS Ratings on the Accelerated Apprentice Scheme will GTS* on completion of all of INT(R), LRLC and LETQC *IAW Ch 75. Their MTS, IAW 5302, will commence at this point (see note 1).*

6. *MEGS Ratings on the Accelerated Apprentice Petty Officer Scheme will GTS* on completion of all of INT(R), LRLC, LETQC, POETQC, SRLC and subsequent streamed training IAW Ch 74. *Their MTS, IAW 5302, will commence at this point (see note 1).*

7. *AA MESM and WESM GTS point is in accordance with Para 7304.*

8. *AA AE GTS point is on completion of both LAETQC and LRLC.*

ANNEX 53C

FURTHER TRAINING ROS

1. Details of ROS for Joint and tri-Service training for non-medical and medical courses is contained in JSP 750 Chapter 3, Annexes A and B.

Table 53C - ROS for Further Training - Royal Navy Only

Training	ROS (months)	Remarks
Officers		
Advanced Survey	30	
Air Warfare Instructors Course (X/RM)	30	
Landing Craft Officers Qualification	24	
Legal training – Post Graduate Diploma (Law), Bar Vocational Training and Pupillage	60	See Note 1
Legal training – Bar Vocational Training and Pupillage	48	See Note 1
Legal training – Pupillage	36	See Note 1
Mine Warfare Clearance Diving (LMCDO)	30	
Aircrew Instructor Course (Air 145)	24	Crewed and Uncrewed operators
RM Communications Officer	30	
RM Mountain Leader Officer	30	
SUY Degree Course (3 years)	48	
Upper Yardman (Engineering) – University of Portsmouth Degree Course	36	See Note 2
Warfare Officer streamed HM Aeronautical Meteorological Forecaster	30	See Note 3
Warfare Officer streamed HM Hydrographer	24	See Note 3
Ratings and Other Ranks		
Defence Specialist Welfare Worker Course (DSWWC)	36	On specialisation transfer (see Note 4)
Degree in Social Work	36	
Leading Aircraft Controller Qualifying Course	36	Specialisation transfer
Joint Air Traffic Controller Course or equivalent ATM course	36	Note 4
Leading Air Engineering Technician Qualifying Course	24	Avionics or Mechanical (see Note 8)
Leading Engineering Technician (Marine Engineering) Qualifying Course	24	Technician, Mechanical or Electrical (See Note 5)
Accelerated Apprentices (ME)	24	See Note 6
Accelerated Apprentices (WE)	24	All streams
Direct Entry Technician (ME)	30	See Note 7
Leading Engineering Technician (Marine Engineering Submariner) Qualifying Course – ME176	24	Mechanical or Electrical (see note 9)
Leading Engineering Technician (Weapon Engineering) Qualifying Course	24	All streams

(Continued)

Training	ROS (months)	Remarks
Ratings and Other Ranks		
Leading Engineering Technician (Weapon Engineering Submariner) Qualifying Course	24	All streams (see Note 10)
Leading Physical Trainer Qualifying Course	36	On specialisation transfer (See Note 4)
Leading Hand Hydrographic and Meteorological Qualifying Courses	24	On completion of the LH HM(M) (HM 216 course) or the LH HM(H) (HM 202 course)
Petty Officer Air Engineering Technician Qualifying Course	24	Avionics or Mechanical
Petty Officer Engineering Technician (Marine Engineering) Qualifying Course	24	Technician, Mechanical or Electrical (See Note 5)
Petty Officer Engineering Technician (Marine Engineering Submariner) Qualifying Course – ME264	36	Mechanical or Electrical (see note 9)
Petty Officer Engineering Technician (Weapon Engineering) Qualifying Course	24	All streams
Petty Officer Engineering Technician (Weapon Engineering Submariner) Qualifying Course	36	All streams (note 10)
Petty Officer Hydrographic and Meteorological (Hydrographer) Qualifying Course	24	On completion of the PO HM(H) (HM 203 course)
Aeronautical Meteorological Forecaster	30	On completion of the HM 300 course
Communication Technician Course	36	
Chief Petty Officer Engineering Technician (Marine Engineering Submariner) Qualifying Course – Nuclear Propulsion Supervisors Course (NPSupC) – ME305	36	See note 9
Coxswain Submariner Qualifying Course	24	On specialisation transfer (See Note 4)
Maritime Manoeuvre Wing (SBS Boats) – SF Boat Operators' Course	36	
RN Police Initial Course	36	On specialisation transfer (See Note 4)
RN/RM Aircrew – Aircrew Instructor Course (Air 145)	24	Crewed and Uncrewed operators
RM Weapons Technician 3rd Class	36	
RM Artificer (Vehicle (AV)	36	
RM Artificer Electronic Systems (AES)	36	
RM Bandmaster (BDMR)	36	
RM Foreman of Signals (Information Systems) (FofS(IS))	36	RM Colour Sergeants undertake Information Systems training courses run by the Army
RM Cyber Engineer Upgrader (Class 1)	36	
RM Communications Exploitation (RMCX)	36	
RM Level 3 Boarding Course (RMBC)	24	
RM Combat Intelligence 2nd Class	24	
RM Landing Craft 2nd Class (LC2) Course	24	
RM Landing Craft 3rd Class (LC3) Course	24	

(Continued)

Training	ROS (months)	Remarks
Ratings and Other Ranks		
RM Fabrication Technician (FT) 3rd Class	36	
RM Military Police 2nd Class	30	
RM Mountain Leader 1st and 2nd Class	30	
RM Physical Training Instructor 2nd Class (PT2) Qualifying Course	24	
RM Information Systems (RMIS) 3rd Class	24	RM Sergeants undertake Information Systems training courses run by the Army
RM Technician Electronic Systems (TES) 1st and 2nd Class	36	
RM Vehicle Technician (VT) 3rd Class	36	
RM Yeoman of Signals	36	

Notes:

1. *The differences in legal training ROS recognise that some individuals will be part-qualified on starting courses and will therefore require less training. For officers who successfully complete barrister training, the ROS liability will start to be 'worked off' from completion of pupillage. If, however, pupillage has to be split into 2 periods before and after another assignment, the ROS will be measured from date of completion of the first period.*

2. *Individuals who are withdrawn from officer training (voluntarily or compulsorily) before becoming a gain to the trained strength (GTS) will be required to return to the ranks to complete the balance of the 3 year ROS period.*

3. *Officers used to be trained in both Hydrographic and Meteorological, but now they are streamed H or M. The Officers streamed M complete the same HM 300 course as ratings and a ROS of 30 months is applied, while Officers streamed H complete similar training as a PO HM(H), therefore a ROS of 24 months is applied.*

4. *The ROS will start to be 'worked off' from the end of the training shown.*

5. *The ROS for MEGS is to be applied as follows:*

a. ME151A & C and ME152 A & C will be on completion of the respective Craft Training packages.

b. ME151B and ME152B will be on completion of the streamed qualifying course.

c. ME153 (All streams) will be on completion of the respective streamed qualifying course.

d. ME151T and ME153T will be on completion of the qualifying course for Technician.

(Continued)

Notes: (Continued)

6. *The RoS linked the ME151 to the series of training, noting a MTS in accordance with Para 5302 b(2) and (4), is also applicable the AA scheme.*

7. *In accordance with Para 5302 b(2) and (4), the MTS for DET is 30 months from completion of Phase 1 and Phase 2 Training. They also come under the TRoS associated with the respective Phase 2 course training.*

8. *The ROS period for Leading Air Engineering Qualifying Course will commence on successful completion of LAET Workplace Training and the award of Certificate of Competence to Supervise Aircraft Maintenance.*

9. *The ROS for MESM courses is to be applied as follows:*

a. ROS starts from completion of ME176 and all elements of the LET(MESM) training pipeline.

b. ROS starts from completion of ME264 and all elements of the POET(MESM) training pipeline.

c. ROS starts from completion of Nuclear Propulsion Supervisors Course (NPSupC) - ME305.

10. *The RoS for WESM courses is to be applied as follows:*

a. For LET, RoS starts on completion of LETQC and all elements of the LET(WESM) training pipeline (inc equipment and platform specific specialist training).

b. For POET, RoS starts on completion of POETQC and all elements of the POET(WESM) training pipeline (inc equipment and platform specific specialist training).

ANNEX 53D

UY(E) OFFICER CANDIDATES - UNDERTAKING TO WAIVE RIGHT TO GIVE NOTICE AND, IF APPLICABLE, TO REPAY THE COSTS OF SPONSORSHIP IN RETURN FOR UNDERTAKING FURTHER CAREER TRAINING/EDUCATION AND DEVELOPMENT

In consideration of the Secretary of State for Defence supporting me (under the terms set out in the attached document) while I am undergoing training at the University of Portsmouth (UoP) with a view to obtaining a Service funded degree required to become a UY(E) officer.

I, ...

of .....

.....

HEREBY AGREE AND UNDERTAKE that:

1. I will use my best endeavours to complete the studies.

2. In accordance with BRd 3(1) Para 5306 and upon completion of my final examinations on the UoP degree course, if, other than by reason of redundancy, I should subsequently:

a. Be withdrawn from officer training voluntarily before my Gain to the Trained Strength (GTS) point (having joined BRNC as a UY(E) officer), I will return to the rating corps (preferably in my source branch) to complete the balance of a 3 year ROS[1] – the length to be determined by the ROS outstanding on joining BRNC less any time served as an officer - in recognition of the fact that I will obtain a full time funded degree from the RN as a rating.

b. Be removed from officer training compulsorily before my GTS point (having joined BRNC as a UY(E) officer), I will return to the rating corps (preferably in my source branch) to complete the balance of a 3 year ROS - determined by the ROS outstanding on joining BRNC less any time served as an officer - in recognition of the fact that I will have obtained a full time funded degree from the RN as a rating.

c. Withdraw voluntarily or be withdrawn from the UY(E) scheme before entry to BRNC, I will be liable to complete a 3 year ROS as a rating (preferably in my source branch).

3. If I fail to complete the UoP course, I will be liable to repay costs incurred[2].

4. I understand that if I return to the rating corps and serve out of the required ROS in full, it will negate any financial commitment for the degree training received.

---

[1] This will start upon posting of final results.
[2] In an exceptional case (Medical, compassionate or welfare, but not professional or educational failure), and for reasons out with my control, should a UY(E) fail to complete the UoP course or is unable to complete the ROS as a rating, then the liability to repay education costs in lieu may be reviewed by the Naval Personnel Team (E). Each case will be considered on its individual merits.

5. If, for any other reason, a ROS cannot be served in full, I shall be liable to repay costs. I will, if required to do so, pay to the Secretary of State an amount equal to the total of the costs incurred on my behalf by the Secretary of State in respect of, or in connection with, my studies and subsequent service. I understand that these costs include the tuition fees for the UoP degree course, an amount equivalent to the education grant received by University Cadet Entrants for the period of sponsored studies and the value of cash grants issued.

6. I agree that, if I cease to be a member of the RN, any costs that may be repayable to the Secretary of State pursuant to this understanding may be set off against any pay, allowances, pension benefits or other payments due to me. If this is not possible then recovery will pass to PACCC Recoveries & Write Offs.

The reasons for the Secretary of State requiring this undertaking have been explained to me.

Dated the …….. day of …… 20…….

ANNEX 53E

RETURN OF SERVICE UNDERTAKING FOR SASB2/AASB2 COMMAND ASSIGNMENTS

To: [CM OF WAR SO1 / CM OF WAR AIR SO1]
1 Deck
Navy Command Headquarters
Leach Building
PORTSMOUTH
Hants
PO2 8BY

1. I understand and accept that:

a. My future appointment in Command of ..... has a return of service (ROS) of 24 months from completion of my tenure.

b. I recognise that, due to the unique experience gained in Command, it is in the best interests of the Service to seek a return on that investment and that I will be subject to the ROS liability from the date my Command is relinquished. I also understand that the precise ROS to be completed will be calculated by the Navy Command Headquarters Terms of Service Manager, who will take into account factors such as the ability of the Service to select, assign and train a replacement.

2. I have read and understood the regulations pertaining to ROS, Early Termination and/or Resignation described in JSP 750 and BRd 3(1).

Signed: .....

Name (in Block Capitals) .....

Service Number: .....

Date: .....

Once completed, this form will be placed on the individual's Personal File and retained.

Annex 54K: Optional Exit Points for Submarine Service Personnel
Appendix 1: Application to Leave the Service at an Optional Exit Point

CHAPTER 54

LEAVING THE SERVICE

SECTION 1

EARLY TERMINATION

5401. Introduction

a. Individuals who are not due for compulsory retirement but who wish to leave the Service, for whatever reason, before reaching the end of their commission or engagement may apply for Early Termination provided the conditions outlined in the Paras below are met.

b. Notwithstanding anything contained in this chapter, pregnant Servicewomen (UTS or GTS) may exercise the right to leave the Service on the grounds of pregnancy by giving notice using Maternity Notice JPA Form R00555 during pregnancy and maternity. Where the SP exercising this right is subject to a Training RoS, and the RoS would not be fully expended by the leaving date, the outstanding RoS will be waived by the RN, and no cost recovery will be sought (JSP 750 Chapter 3 para 28 refers).

5402. Earliest Date to Apply for Early Termination - Officers

a. Officers undertaking initial training (hereafter referred to as Young Officers (YOs)) may request permission to withdraw from training up until their Premature Termination of Career Training (PTCT) point. Requests for officers attending BRNC will be considered provided that they have completed a minimum of 4 weeks of INT(O) training (not including leave periods). The requirement to have served a minimum of 4 weeks may be reduced or waived only in exceptional circumstances; this will be at the discretion of CO BRNC. Requests will normally be granted provided the YO has not passed beyond the stage of training specified in Table 54-1, although student Aircrew/Air Traffic Control Officers will still be required to be interviewed by the FT Naval Aviation Advisor in their capacity as Chair to the NAAB in accordance with Para 5742 to investigate the circumstances surrounding their request to leave. On passing their PTCT point, officers are required to complete their initial training and serve the specified return of service (ROS) for the training received, details of which are shown in Table 53B-1. Only in exceptional circumstances will the Navy Command Headquarters Terms of Service Team, on behalf of the Director (Personnel and Training)/Naval Secretary, consider voluntary withdrawal from training (VWFT) requests submitted by individuals who have passed their PTCT point – see Para 5412 and Para 5415.

b. Medical and Dental officers selected for specialisation courses lasting two or more years are required to waive their right to voluntary retirement.

Table 54-1 - Premature Termination of Career Training

Branch/Specialisation	PTCT Point
Warfare (non-Aircrew), Engineering, Logistics and Medical Services (EHOs)	Day before passing out of Initial Naval Training (Officers) at BRNC Dartmouth
Aircrew (Pilot, Observer and Air Traffic Control)	Day before completion of Grading and ATC familiarisation
Medical and Dental Cadets (cadetships awarded after 1 Mar 07)	Medical Cadets One calendar year after joining the RN. Dental Cadets. One calendar year after joining the RN or on achieving GDC registration, whichever is the earlier
Medical and Dental Cadets (cadetships awarded prior to 1 Mar 07)	Throughout training up until one month before publication of the final examination results leading to their basic professional qualification (i.e. the point at which the cadets qualify professionally as doctors (and end of the 3 years maximum sponsorship period)
Royal Marines	Day before completion of Phase 1 training (end of week 36)

c. The CO BRNC has delegated authority for the management of VWFT requests submitted by YOs during the period up to passing out of INT(O) at BRNC.

d. Although the Commandant CTCRM has delegated authority for the management of VWFT requests submitted by RM Officers during Phase 1 Training, this will routinely be sub-delegated to the CO of Command Wing (CW), CTCRM who has direct visibility and oversight of all YOs.

e. The CO BRNC/CO CW CTCRM is responsible for informing the YO in writing of the outcome of their VWFT request and, if appropriate, provide details of any resultant financial liability.

f. The CO BRNC/CO CW CTCRM and their staff must ensure that all Officers are fully counselled before accepting and approving the request. If, after counselling, it is established that an individual wishes to transfer branch/specialisation (or in the case of a RM YO, wishes to join the RN), the CO BRNC/CO CW CTCRM is to submit the request, together with their recommendation, to the Officer Terms of Service Manager (NAVY PEOPLE-PSP EMP TOS OF) who, in turn, will consult the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS), the approving authority for YO branch/specialisation transfers (see Para 5104).

g. Throughout the process, it is important that the CO BRNC/CO CW CTCRM continues to liaise closely with the Officer Training Pipeline Manager so as to ensure that both current and future manning requirements against Fleet Gains to the Trained Strength (GTS) targets remain as balanced as possible.

h. **Aircrew and ATC Officers.** A YO who wishes to apply for VWFT should submit a request in writing through the chain of command to their CO who, in turn, should interview the YO to satisfy themselves as to the reasons for the request and remind the YO of the requirement to acknowledge their uniform/equipment and education costs. If the YO still wishes to proceed, their letter, together with a letter of recommendation from the CO and all of the appropriate documentation, including the YO's full training record, should be forwarded to the Officer Terms of Service Manager for approval (IAW Annex 54A), who will inform the YO in writing of the final decision (copied to DDIR NAVN and the NAAB). Officers who request to VWFT who are in receipt of Aircrew Remuneration (ARem) are to be transferred to the XUT profession with effect from the date of their VWFT application letter. Transfer to XUT will terminate entitlement to ARem from that same date. Any resulting overpayments of ARem will be subject to recovery iaw JSP 754.

i. Where an inter-FAA transfer is approved by Navy Command DDIR NAVN, the FT Naval Aviation Advisor will forward the approval to the Officer Terms of Service Manager for agreement of the terms and conditions of the transfer.

j. **Upper Yardman (Engineering) UY(E) Scheme.** UY(E) officers who, having completed the University of Portsmouth (UoP) degree course as a precursor to joining the Officer Corps, do not subsequently become an officer on the trained strength, whether through voluntary or compulsory withdrawal from training, will return to the Ratings Corps (preferably in their source specialisation) to complete the balance of any ROS accrued (for completing the UoP degree course) as a rating on the trained strength. See Para 5014 and Para 5306 for more details.

5403. Earliest Date to Apply for Early Termination - Ratings and Other Ranks

a. **Statutory Discharge Within First Six Months of Service.**

(1) All new recruits enlisting in the Royal Navy, who have not previously so enlisted, have a statutory right to claim discharge within their first 6 months of service provided that they have completed a minimum of 4 weeks' service (excluding leave periods and any forfeited service) from the date of entry. From this point, recruits exercising their right to leave the Service will be entitled to release no later than 14 days after giving notice in writing to their CO and recording their request to leave on JPA. Procedures for 'Applying for Early Termination' can be found in the JPA Employee Self Service Assistance Guide. The 14 days' notice period will commence from the date on which the recruit records the request on JPA unless they are in detention (see Para 5403 a sub para (5)). COs have the discretion to reduce the 14 days' notice period when special circumstances warrant such action.

(2) **Re-entry.** Discharge under the provisions of this paragraph cannot be exercised by individuals who re-enlist in the same Service, i.e. it is only allowed when a former rating re-joins as an RM recruit and vice versa, with the RN and RM being considered as separate Services for the purposes of this paragraph. However, recruits who are discharged 'Not Finally Approved (Medical)' (NFA(Med)) (in accordance with Para 5418 and BR1750A) retain their right to statutory discharge on re-enlisting in the same Service.

(3) **Ratings and Other Ranks Recruited Abroad.** Any recruit who was domiciled outside the UK and was accepted in that country for regular service in the RN, RM or QARNNS is entitled, on discharge, to conveyance at public expense to a selected place of residence in the UK (or Irish Republic if recruited from or normally domiciled there) or in the country from which they were recruited for service in the regular Royal Navy. Travel at public expense to any other destination outside the UK or Irish Republic is not permitted.

(4) **Absence from Duty.** Recruits are to be instructed that, should they wish to claim their discharge during a period of absence on leave or for any other reason, they are to inform their CO by Recorded Delivery letter. Where appropriate, the 14-day notice period for recruits will count from the date of receipt of the letter by the CO. Applicants for discharge will, however, be required to return to duty before their discharge can be completed.

(5) **Effect of a Sentence of Detention.** A sentence of detention or imprisonment will run its normal course irrespective of whether a recruit exercises their option before or during it.

(6) **Outstanding Disciplinary Action.** See Para 5444 sub para l.

b. **Statutory Discharge Until Age 18.**

(1) Further to Para 5403 sub para a, ratings and other ranks who have served for 6 months retain a statutory right to end their service up until their 18th birthday by giving notice in writing to their CO. Ratings and other ranks wishing to leave the Service under this regulation will be required to complete a notice period of 3 months. This will act as a cooling-off period, providing the safeguard of a period for reflection in which the Under 18 may rescind a hasty and subsequently regretted decision and, as such, if an individual revokes their written notice to the CO, their entitlement to be discharged as of right will cease. There will be no limit to the number of occasions on which someone can apply to leave before their 18th birthday. An individual who gives notice at the final opportunity, namely the day before their 18th birthday, may serve until the day before they reach the age of 18 years 3 months.

(2) Where a person under the age of 18 submits notice under this regulation, the 3-month notice period may be reduced to a lesser period if agreed between the individual and their CO. As with those leaving within their first 6 months' service, individuals who exercise their right to leave before reaching age 18 will not have any reserve or recall liability. The provisions described in this paragraph should be used instead of the former Discharge SHORE Unhappy Under 18 category which is now obsolete. COs retain the power to discharge an individual regardless of age for other reasons, but they should generally not consider individuals unsuitable because they have previously exercised the right both to apply for discharge and to remove that notice.

(3) On reaching the age of 18, ratings and other ranks who are still within their 6-month statutory discharge period as a new recruit will have the balance of this period to decide whether or not to leave.

(4) **Parental Consent.** The right of recruits aged under 18 to exercise their discharge option is without regard to parental consent but COs are to notify parents or guardians in advance of the date and reason for the recruit's discharge and also inform them that the recruit will be issued with a railway warrant to their home unless the parents or guardians indicate otherwise.

c. Beyond the 6-month service point and age 18, ratings and other ranks must complete their initial training (if applicable) and become eligible to apply for Early Termination on completion of a Minimum Time to Serve (MTS) - see Para 5302 for more information. An individual's earliest date of discharge will have been recorded on the S3049 which individuals sign on enlisting in the Service (a copy of which is given to individuals). That date is then entered in JPA.

5404. Application for Early Termination

a. **Process.** With the exception of officers on the untrained strength, applications for Early Termination are to be made via the JPA workflow system. Procedures for submitting an application can be found under 'Application for Early Termination' in the JPA User Guide which also gives procedures and guidance on the handling of applications for Line Managers, COs and Career Managers. If personnel are unable to access JPA they should follow the procedure for Proxy Application through the JPAC Enquiry Centre. An application from an officer to exercise their notice option or to resign should initially be submitted through the CO and be accompanied by a certificate of an officer's conduct.

(1) **Exit Interviews.** Exit interviews are an important stage in the leaving process. Interviews should be conducted by the Divisional Officer or CO with meaningful comments entered into the JPA free-text box regarding context for reasons for leaving. If it becomes clear during the exit interview that the reasons for leaving could be mitigated by discretionary action from the Career Manager, then the DO/CO should encourage the potential leaver to contact their Career Manager, with the caveat of there being no guarantee of problem resolution.

(2) **Leavers' Intention Survey (LIS).** In addition to an exit interview, all individuals are encouraged to complete the Leaver's Intention Survey (LIS). It is not a mandatory part of the leaving process. An email invitation to complete the LIS will be automatically issued once the VO request shows as approved on JPA. Responses are held and analysed by PIIAC team.

b. Before applying for Early Termination, personnel should be aware of the possible implications of this type of release on matters such as pay and allowances (including RRP and FRIs), advances of pay (LSAP/FHTB), resettlement grants, annual and terminal leave, Graduated Resettlement Time, Medical Discharge and immigration status (Para 5465). Queries on these issues should, in the first instance, be forwarded to the Unit Personnel Office. Individuals must also be aware that withdrawal of an application for Early Termination is not a right (see Para 5409).

c. **Waiting Period.**

(1) Subject to the special provisions at sub para (2) being in force, an individual's date of discharge will be 12 calendar months from the date of their application, subject to confirmation by the relevant Career Manager. Personnel may apply to leave at less than the normal waiting period and such applications will be considered in accordance with Para 5413.

(2) When circumstances dictate, under accelerated notice provisions, the Royal Navy is legally empowered to impose shorter notice periods, subject to a minimum of 6 months. In such cases, Navy Command Headquarters will issue an RNTM giving advance notice of any specialisation where the normal 12-month notice period will be reduced and specify the revised notice period that will apply. Under no circumstances will a notice period be reduced retrospectively. In cases where the notice period is reduced, individuals will, within one month of submitting their notice to the CO, receive confirmation via the JPA workflow system of their revised Terminal Expiry (TERMINATION) date from an appropriate Competent Authority (see Annex 54A).

d. **ROS.** Personnel who have waived their right or opportunity to leave in return for training, financial remuneration or any other reason may not apply for Early Termination until they are within a year of completing any outstanding ROS accrued. The ROS requirement should be reflected by the Earliest Exit Date recorded in JPA however, if this date is not recorded correctly it does not override the requirement to complete the ROS term. Personnel may serve out their waiting period concurrently with the final 12 months of any outstanding ROS (see Chapter 53 for more information). For initial training RoS personnel may not submit notice until completion of their MTS (i.e. the RoS does not run concurrently with their notice period (see 5302 b (2) and (4)).

e. **Application for Early Termination having Accepted the Offer of a Commission Transfer or Engagement Stage 3 (ES3).** Individuals who accept an offer of a commission transfer or ES3 will not be able to leave on their original Termination Date but will be required to submit an application for Early Termination if they wish to leave before the end of the longer commission/engagement stage that they have accepted (see Chapter 49 Section 1 (Officer Commission Transfers) and Para 4924 (ES3)).

f. **Applications for Early Termination from Officers under Quarterly Report.** Officers will not be permitted to exercise the notice option in order to avoid compulsory retirement for unsuitability or inefficiency, except in exceptional circumstances e.g. in accordance with Para 5412. Applications from officers under Quarterly Report will be placed in abeyance until they have been removed from Quarterly Report. The basic date for calculation of release date is, however, the date of the workflow application for Early Termination even if the officer applied whilst on quarterly report.

5405. Impact of an Application for Early Termination

a. **Spare.**

b. **On Financial Liability for Degree Studies (Officers).**

(1) Officers in receipt of sponsorship from the RN or RM in respect of a bursary or a university cadetship/nomination, including Medical and Dental Cadets, are liable to refund the costs of the sponsorship, namely tuition fees, bursary awards and/or education grants, in full if they withdraw, or are withdrawn (compulsorily or voluntarily), from training or apply for Early Termination. Officers whose appointments are terminated for whatever reason will be required to return their principal items of uniform and luggage. A charge will be made for any item(s) not returned.

(2) It should be noted that this financial liability is quite separate from the ROS liability and expiry of the liability to repay degree sponsorship costs in no way affects an officer's ROS liability.

c. **On LSAP.** Personnel in receipt of a LSAP will not normally be allowed to apply for, or be granted, Early Termination unless the LSAP has been repaid in full or they have made acceptable arrangements to repay the LSAP in full. Applications for Early Termination must include details of any LSAP balance outstanding, plus the applicant's proposals for its repayment. For full details, see JSP 752 Chapter 5 Para 05.0722.

d. **On FHTB.** Personnel in receipt of a FHTB advance will not normally be allowed to apply for, or be granted, Early Termination unless the FHTB advance has been repaid in full or they have made acceptable arrangements to repay FHTB in full. Applications for Early Termination must include details of any FHTB balance outstanding, plus the applicant's proposals for its repayment. For full details see JSP 464 Part 1 Chapter 12 Para 1234.

5406. Consideration of Applications for Early Termination

a. On receipt of a workflow Application for Early Termination, Career Managers are to check that the application has been submitted correctly, including Line Manager and CO's comments, and that there are no outstanding ROS commitments. The application will be processed in JPA in accordance with the JPA User Guide. Individuals will be notified as to whether their application has been approved and given an indication of when they can expect to be released i.e. their Last Day of Duty (LDD) or last day of paid service.

b. Individuals whose applications are rejected because they have not given sufficient effective service in return for their training or for any other reason, will be told the date on which they may re-submit their application if they so wish. Once an LDD has been approved by the Career Manager, personnel should not be released before or after this date without prior agreement from the individual.

c. Individuals who apply for Early Termination whilst undertaking further training will be immediately removed from training and re-assigned, unless it is in the Service interest to do otherwise. Rules for ROS in this instance can be found at Para 5304.

5407. Release Abroad

a. Individuals serving abroad, who would otherwise be sent home to the UK to be released from the service, either under notice or at the end of their commission/career/engagement may apply to be released from the station in which they are serving, by forwarding an application to the appropriate Career Management Authority. The application is to be accompanied by relevant details about the position of any dependants, in order that it can be confirmed that the applicant is making reasonable provision for the maintenance of any dependants in the United Kingdom. Career Managers will assign individuals who apply for release abroad to HMS NELSON for administration of the release process. Where individuals applying for discharge abroad, signify their intention to remain in the country of discharge for a considerable period after discharge, they should be instructed to check with the local authorities and, where necessary, through the British High Commission/British Embassy/Consulate that they can legally remain in the country of discharge. The CO is to check that all necessary immigration formalities have been completed before release.

b. Individuals serving abroad being discharged from the Service for other reasons may also apply to be discharged from the station in which they are serving using the same process outlined above.

5408. Application for Early Termination on Grounds of Conscientious Objection

a. Any officer, rating or other rank who claims to have developed a genuine conscientious objection to further service may apply for Early Termination without regard to length of service or the personnel situation in the branch. Whenever possible, the application should be accompanied by the individual's own written statement of the grounds on which they are applying.

b. It may be appropriate in certain cases to suggest that an applicant should defer a request for a week or two and give the matter further thought. Such a delay must however be of only short duration. For example, deferments of six months are not acceptable. If, after a short period of reflection, the officer/rating/other rank reaffirms the claim to conscientious objection, the application should be processed as soon as possible, and the claimant should be informed of the financial and other consequences.

c. This discharge concession requires all cases to be examined with particular care to avoid abuse by those who simply wish to circumvent the normal discharge procedures. It is, therefore, most important that the individual's CO and the Chaplain should do all they can to establish the genuine nature or otherwise of the person's convictions. COs should then submit the application, together with a report and their personal recommendations to the appropriate Administrative Authority. The report should be as full as possible and should cover the following points:

(1) The nature of the conscientious objection and how and when it began and an assessment of the veracity of the claim.

(2) Information about the individual's service and conduct including details of operational experience, relevant unspent offences and punishments imposed.

(3) The individual's general bearing and behaviour and whatever is known about their influence on shipmates.

(4) Whether the individual is due for a new assignment and at what date.

(5) Details of any counselling sought by individuals, and given, regarding conflicts between their personal beliefs and their military tasks.

d. **Applications.**

(1) Officers who have Completed Phase 1 Training. Officers who claim to develop a conscientious objection may apply to resign their commission. Application is to be made in writing and is to include a detailed statement of the grounds on which the officer is applying. The CO should then submit this application (see Annex 54F), together with a report and personal recommendation through the appropriate chain of command and the officer's Career Manager to the relevant Regional Legal Office (RLO) (see Annex 1E). The report should be as full as possible but only need cover Para 5408.c sub para (1), sub para (3) and sub para (5). The information required by Para 5408.c sub para (2) and sub para (4) will be provided by the Career Manager. Where it is accepted that resignation, with immediate effect, is appropriate, the Naval Secretary will approve the application. While any outstanding Return of Service may be waived in these circumstances, it will be a condition of release that the officer must agree to repay any uniform or educational costs for which they are liable. If, however, there is considered to be no case for allowing the officer to resign on the grounds of conscience, the officer will be advised accordingly and will be free to apply to leave in accordance with the terms of Chapter 54.

(2) **Officers Undertaking Phase 1 Training.** Resignation is only applicable to officers who have completed Phase 1 Training. Young Officers may request to withdraw voluntarily from training, through their chain of command, for any reason before their Premature Termination of Career Training (PTCT) point and this will normally be accepted. It will not be necessary for the Naval Secretary's approval to be sought where it is accepted that a voluntary withdrawal from training request is appropriate. This will result in automatic termination of an officer's commission.

(3) **Ratings and Other Ranks.** Application is to be made in writing to the CO. Applications made in accordance with this Article should be forwarded to the relevant RLO in accordance with the general procedure and format for administrative applications detailed at Annex 1E and Annex 54F. The application will be decided on its merits by the Director (Personnel and Training)/Naval Secretary. If approved, the discharge will be categorised as compassionate on JPA and release is to take place as soon as possible. There is no entitlement to terminal leave. Conscientious Objectors are invariably to be assessed as “Not recommended for further Royal Navy service in accordance with Para 5447" on Appraisal Reports raised by final employing units prior to joining their nominated Release Centres.

e. **The Advisory Committee on Conscientious Objectors.** An Advisory Committee, appointed by the Lord Chancellor, is available to hear appeals by Service personnel who claim a conscientious objection to further service and whose applications have been turned down by the Services. This Advisory Committee conducts its hearings in public and tenders its advice to the Secretary of State for Defence’s representative (in practice to the Central Legal Services division). The Advisory Committee is also available to consider applications that might arise from Reservists in the event of recall.

f. A successful appeal to the Advisory Committee will be accepted as decisive on the question of conscience and any person whose objection to further service is found by the Committee to be genuine will be granted a release under the terms of Para 5408.d sub para (1) and sub para (3). Any person whose case is rejected by the Committee will be required to continue their service, although they may of course apply for Early Termination in the normal way.

g. The procedure for an appeal to the Advisory Committee, which is separate from any statutory complaint submitted by Service Personnel in accordance with JSP 831, is as follows:

(1) Individuals are to complete and sign the application in the format shown at Annex 54B and may include in it a written statement of the case that they wish to make.

(2) The CO is to complete the statement at Annex 54C in duplicate to provide the necessary information and summary of the case for the Committee. Both forms should be forwarded to the relevant RLO through the appropriate chain of command which will add any other relevant information to the initial application.

(3) The RLO will forward the application, together with any supporting papers, to CLS-LegC, the secretariat branch for the Committee, which will convene a hearing and advise all participants accordingly.

(4) As the Committee prefers an officer with personal knowledge of the appellant to attend the hearing, the CO should state in a covering letter whether such an officer can be made available and if so, state their name.

(5) Arrangements for the hearing of the case, the attendance of the witnesses etc, will be notified to the CO. It is the responsibility of the appellant to notify any representatives and/or witnesses of the arrangements for their attendance.

(6) The finding of the Advisory Committee will be notified promptly by CLS-LegC to the CO; the CO is to inform the individual without delay. If the appeal is successful, the discharge of ratings/ranks will be authorised by the authorities listed in Para 5445 sub para b. Discharge of officers will be endorsed by the Admiralty Board or Naval Secretary as appropriate and notified by letter in due course.

h. **General Notes.**

(1) The procedure is unconnected with the commission of disciplinary offences. Should offences be committed, whether or not they are alleged to have been committed on grounds of conscience, they must be dealt with in the usual way. If appropriate, this point should be explained to any person professing conscientious objection, but if the applicant commits an offence which may be relevant to the case while a decision by the Administrative Authority or the Advisory Committee is pending, this should be reported without delay.

(2) While submission of an application will not in itself be regarded as justifying interference with normal assignment, the CO should draw special attention when submitting reports to any overseas assignments that may be imminent. The procedure will extend to any persons serving overseas under normal peacetime conditions at the time of their application or appeal and they will, if necessary, be brought back to the UK (costs to be borne locally) to appear before the Advisory Committee as soon as practicable.

5409. Withdrawal of an Application for Early Termination

a. The Service is committed to managing Early Termination (ET) and withdrawal requests promptly, fairly, and transparently. While withdrawal of an approved ET application is not guaranteed, each case will be assessed on its merits. The Service aims to balance individual needs with operational requirements to meet the Royal Navy's workforce demands. The revised application process outlined below should be followed.

b. **Service personnel** wishing to withdraw their Early Termination (ET) application must use the JPA workflow, following the steps outlined in the 'Application for Early Termination' section of the JPA User Guide, which includes the withdrawal process. Applicants are strongly encouraged to inform their immediate Chain of Command to ensure the application is promptly acknowledged and forwarded to the Career Manager.

c. **Units** are responsible for ensuring the timely processing of ET withdrawal requests and must not unduly delay or reject applications. They assist personnel in ET withdrawal, supporting the process through divisional channels. Once submitted on JPA, units should, where possible, ***process the request within five working days and forward the workflow***, with support comments recorded in the JPA workflow, to the Career Manager for action.

d. **Career Managers** are the sole authority to approve an application for the withdrawal of ET.

5410. Assignment Notice after Withdrawal of Notice for Early Termination

In cases where individuals successfully withdraw their notice for Early Termination, the portion of assignment notice that has expired prior to the date of original application will continue to count towards notice of the next assignment. For example, a rating who submits their notice two months after being assigned to sea service and who then applies to withdraw their application, will only receive 3 months' notice of any subsequent sea assignment.

5411. Re-application for Early Termination

Applications from individuals reapplying for Early Termination will be considered taking into account the requirements of the Service at that time. Each will be considered as if it was a new application and individuals will not necessarily be allowed to be released at the time originally approved.

5412. Optional Exit Points

Officers or ratings in receipt of RRP(SM) and serving on FTC/FCS engagements (but not serving on a subsequent EoS) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details may be found in Annex 54K.

SECTION 2

NON-STANDARD EARLY TERMINATION

5413. Non-standard Early Termination - General

Early release at less than the normal notice period or before the end of a ROS period (training or financial) is not a right and should not be relied upon if applying for civilian employment. Individuals must not accept an offer of employment which would commence earlier than the end date of the 12-month waiting period or ROS period until their application for early release is approved officially. Requests for non-standard Early Termination are considered on their individual merits however approval may only be given in exceptional circumstances if one or more of the following conditions are met:

a. The individual wishes to stand for Parliament.

b. A rating or other rank wishes to join the Army or RAF.

c. Compassionate reasons are presented, which are supported by the Royal Navy Family and People Support (RN FPS) organisation in a Social Inquiry Report e.g. when the personal circumstances of the applicant make their permanent presence at home essential, which is incompatible with continued service in the Royal Navy. In instances where the financial health of a family business is a factor, applications should be supported by documentary evidence relating to that business.

d. Single ratings, and other ranks under the age of 21, whose parents have emigrated to any Foreign or Commonwealth country since their son/daughter joined the Service, or are about to do so, may be allowed immediate compassionate discharge if there is evidence to suggest that they will be left with no close relatives, or home, in the UK and they do not wish to apply for release to join the RAN or RNZN in accordance with Para 5206 (or they apply and are not successful).

e. The release of the individual to take up civilian employment is deemed to be in the National Interest (supported by a comprehensive statement from a prospective employer which will allow a proper assessment of the case to be made)[1].

f. That it is in the best interests of the Service to allow early release. COs should articulate in their application what factors and knowledge exist to support this criterion.

g. The individual’s specialisation is overborne.

[1] e.g. Joining Royal Fleet Auxiliary, Doctors going to work in the NHS, Transferring to another Service.

5414. Early Release within Standard 12 month Waiting Period

a. **Applications.** Requests for release at less than 12 months should be made to the relevant Career Manager and must contain the recommendations of the individual's CO. It should indicate whether, if the application for early release were approved, the unit would be capable of bearing a gap until the individual's original date of Terminal Leave. Evidence must be provided to show why an individual should be allowed, exceptionally, to be released early. Applications will be considered when:

(1) One or more of the conditions at Para 5413 are met.

(2) No ROS commitment will be breached by early release.

(3) The applicant's CO has confirmed that any resulting gap is acceptable, or a relief will be in place by the time of the applicant's new (early) release date.

(4) The long-term personnel situation permits.

(5) For squadded personnel, even if the CO recommends the request, the Career Management team may reject the application as they may be able to employ the junior rating in another gapped unit.

b. **Impact on Terminal Leave.** All successful applicants are entitled to receive full terminal benefits according to the length of their service, including Terminal Leave (see JSP 760). If an application is submitted at short notice, however, such that there is insufficient time for all Terminal Leave to be taken prior to the new (early) release date, the individual concerned is to be granted as much leave as possible but must accept any shortfall. Career Managers are to ensure that acceptance of a shortfall in Terminal Leave is clearly stated in the application response, be it by signal, letter or e-mail.

5415. Ratings and Other Ranks - Requests for Non-standard Early Termination

a. Ratings and other ranks who have completed six months' service from enlistment and are over 18 (see Para 5403) may apply for non-standard Early Termination before the end of their MTS period. Similarly, ratings and other ranks, who have completed their MTS period but are ineligible to submit notice as a result of an outstanding need to provide a return of service (ROS) for undertaking further training or receipt of financial remuneration, have the opportunity to ask for non-standard Early Termination application through the award of a ROS waiver. Early release from a ROS commitment is not a right and is not guaranteed – see Para 5413. As such, ratings and other ranks should not rely on receiving a positive decision if they are considering application for civilian employment.

b. **Early Release Criteria.** Approval of a non-standard Early Termination request will only be granted in exceptional circumstances - see Para 5413 for more information.

c. **Applications.** Ratings and other ranks who are restricted in their right to give notice but wish to seek exceptional early release are, in the first instance, to apply in writing to their CO, providing reasons in support of their request for non-standard Early Termination. In turn, COs are to provide a covering submission, offering their view on whether the application is supported or not and providing any background information about the individual which is considered relevant (e.g. are there any compassionate grounds, have other authorities been consulted (RN FPS, pastoral), is the individual motivated or are there any disciplinary issues?) Ratings and other ranks who wish to leave early with a view to joining another Service should make this clear in their submission and provide a completed application form, contained at Annex 52A. See also (see Para 5413). Further details regarding the 'Service transfer' process can be found at Para 5205.

d. There is no need for COs to submit a special SJAR as part of their submission and, likewise, individuals do not need to be given the opportunity to make a representation given that they are already required to make an application in writing to their CO to leave early. On completion, the CO is to send the paperwork, whether for NSET or Service Transfer to the appropriate address:

(1) If a rating is still under training – to FOST-TA UTS Pipeline Manager, HMS RALEIGH, TORPOINT, Cornwall, PL11 2PD.

(2) If an RM other rank is still under training – to CO Commando Training Wing, CTCRM Lympstone, EXMOUTH, Devon, EX8 5AR.

(3) If a rating or other rank is on the trained strength – to the Ratings and Other Ranks Terms of Service Manager, NCHQ, Whale Island, Portsmouth, PO2 8DX (email: NAVY PEOPLE-PSP EMP TOS OR / NAVY PEOPLE-PSP EMP POL (MULTIUSER))

e. **Processing.** On receipt, the appropriate Competent Authority, shown at Annex 54A and acting with the delegated authority of the Naval Secretary, will consider the individual merits of the request, with particular emphasis given to the criteria set out at Para 5413. Ratings and other ranks will be informed of the decision via their CO, with a copy going to the Career Manager for information, as follows:

(1) If approval is granted, service transfer requests apart, a formal Early Termination application can then be made on JPA, effective from the date on which the permission was given (this will be communicated in the letter). As a result, an individual will be able to leave 12 months later unless an earlier release date is agreed by a Competent Authority (see Annex 54A) in consultation with the unit. As at Para 5413, ratings and other ranks wishing to take up civilian employment on leaving the Service should not rely on being released early within the standard 12-month notice period. It should be noted that a ROS waiver (release before the end of a ROS period) will, if granted, not negate an individual's obligation to repay any financial liability if appropriate e.g. a FRI (see para 5305).

(2) If approval is given for a request from a rating or other rank who wishes to leave the Royal Navy before the end of their MTS period or a ROS period with a view to joining the Army or RAF (see para 5205), the Terms of Service team will initiate action to process the 'transfer' application form submitted with the paperwork. Branch and Career Managers will be consulted to establish the individual's earliest possible discharge date prior to the information being sent to the appropriate Personnel Management Authority in the Army or RAF.

(3) If the request is rejected, advice will be given on alternative options that might be pursued by the chain of command.

5416. Officers - Requests for Non-Standard Early Termination

a. Officers who have passed their PTCT point (see Para 5402) but remain on the Untrained Strength have the opportunity to apply to Navy Command Headquarters for exceptional voluntary withdrawal from training (VWFT). Similarly, officers who are on the trained strength but are ineligible to submit notice as a result of an outstanding need to provide a return of service (ROS) for their initial training, further training or receipt of financial remuneration, have the opportunity to apply for a ROS waiver which, if approved, will allow officers to submit an Early Termination application in turn. Early release from a ROS commitment is not a right and is not guaranteed - see Para 5413. As such, officers should not rely on receiving a positive decision if they are considering an application for civilian employment.

b. **Early Release Criteria.** Approval of a non-standard Early Termination request (whether it is an exceptional VWFT or ROS waiver) will only be granted in exceptional circumstances - see Para 5413 for more information.

c. **Applications.** Officers who are ineligible to apply for Early Termination but wish to leave are to apply, in the first instance, in writing to their CO, providing reasons in support of the request to leave early. In turn, COs are to provide a covering submission, offering their view on whether the application is supported or not and providing any background information about the individual which is considered relevant (e.g. are there any compassionate grounds, have other authorities been consulted (RN FPS, pastoral), is the individual motivated or are there any disciplinary issues?) There is no need for COs to submit a 'Special' SJAR as part of their submission and, likewise, individuals do not need to be given the opportunity to make a representation given that they are already required to make an application in writing to their CO to leave early. On completion, the CO is to send the paperwork to the appropriate address:

(1) If an officer is still under training – to the Officer Terms of Service Manager, NCHQ, Whale Island, PORTSMOUTH PO2 8DX (email: NAVY PEOPLE_PSP EMP TOS OF / NAVY PEOPLE-PSP EMP POL (MULTIUSER)).

(2) If an officer is on the trained strength – to the appropriate Career Manager.

d. **Processing.** On receipt, the appropriate Competent Authority, shown at Annex 54A and acting with the delegated authority of the Naval Secretary, will consider the individual merits of the request, with particular emphasis given to the criteria set out at Para 5413. Officers will be informed of the decision via their CO.

(1) If approval is granted for exceptional VWFT, arrangements will be made for the officer's release at the earliest mutually convenient date (normally within three weeks of the approval).

(2) If approval is granted for a ROS waiver, a formal Early Termination application can then be made on JPA, effective from the date on which the permission was given (this will be communicated in the letter). As a result, an individual will be able to leave 12 months later unless an earlier release date is agreed by a Competent Authority (see Annex 54A) in consultation with the unit. As at Para 5413, officers wishing to take up civilian employment on leaving the Service should not rely on being released early within the standard 12-month notice period. It should be noted that a ROS waiver will, if granted, not negate an individual's obligation to repay any financial liability if appropriate, e.g. a FRI.

(3) If the request is rejected, advice will be given on alternative options that might be pursued by the chain of command.

SECTION 3

MEDICAL DISCHARGE

5417. Officers, Ratings and Other Ranks - Medical Discharge (including Temperamental Unsuitability)

a. In common with the detailed instruction in BR 1991, Royal Navy personnel found to be permanently unfit for full naval service will be brought before a Royal Navy Medical Board of Survey (RNMBOS) to determine their correct medical category in accordance with BR 1750A, JSP 950 Part 6 Chapter 7 and JSP 346 Chapter 5. The Board's remit is to set the highest safe JMES and it may recommend downgrading and either medical discharge from the Service or retention in a permanently reduced medical category. Guidelines where medical discharge is proposed in an individual's last year of service are available in BR 1991 Para 0809.

b. **Temperamental Unsuitability.** Royal Navy personnel may be considered for Discharge on grounds of Temperamental Unsuitability. Detailed instructions and procedures for this form of Discharge may be found at Annex 54D.

5418. Medical Discharge - Not Finally Approved (Medical)

a. **Eligibility.** Notwithstanding para 5417, Officers, Ratings and other ranks who, during Phase 1 Training, are found to be unfit under the terms of BR 1750A are to be discharged from the Service on medical grounds under the Not Finally Approved (Medical) (NFA (Med)) category. Full details may be found in BR 1750A, Chapter 3, Para 0308.

b. **Other Discharge Categories.** Recruits who are considered to be unfit for service, but who do not meet the NFA (Med) criteria should be subject to a full investigation and, if necessary, brought forward for surveying and medical discharge (Para 5419). In other circumstances, it may be more appropriate to consider Discharge SHORE routes such as 'Unsuitable' or 'Fraudulent Entry' (Para 5443).

5419. Royal Navy Medical Employability Board

The Royal Navy Medical Employability Board (RNMEB) considers, on paper, every case where a RNMBOS has awarded an individual a permanent JMES and decides if an individual should be retained or discharged from the Royal Navy. Its task is to ensure that personnel whose medical category falls below the standard normally expected (i.e. Medically Fully Deployable (MFD) without caveats) have sufficient employability within their medical limitations, to be given the opportunity to complete their chosen career. The Board is composed of NAVY PEOPLE-PSP Hd as President, the RNMBOS President to provide medical advice as required, representatives of Navy People WFPT Hd (Strategic Planning Officers and Ratings) and a legal adviser. The factors considered by the RNMEB, and the policy regarding the Boarding process are set out in BRd 1991, Chapter 8,

5420. Spare.

5421. Refunds and Return of Service

Liability for refunds in accordance with Para 5405 sub para b and fulfilment of ROS (Chapter 53) will be waived.

5422. Invaliding Benefits

a. Service Invaliding Retired Pay (SIRP) and a tax-free terminal grant of three times the annual rate of SIRP may be awarded to officers who have given two years' service over age 18. SIRP at enhanced rates is payable to officers with at least five years' service over age 18, of which two years have been served over the age of 21. If the cause of invaliding is found by Veterans UK to be directly attributable to service, the individual may be entitled to additional benefits from the DOH, Veterans UK and MOD, the amount being related to rank and degree of disability. The MOD award is known as Service Attributable Retired Pay (SARP) and both SIRP and SARP are index-linked.

b. SCC and IC officers on gratuity-earning commissions are not eligible for non-attributable invaliding benefits but may qualify for attributable benefits.

5423. Discretionary Awards Panel

Service invaliding benefits are at the discretion of the Secretary of State. Although they are normally awarded in full cases occur when, although invaliding may be the appropriate form of discharge, it would be wrong to award full invaliding benefits or, exceptionally, any invaliding benefits at all. Responsibility for considering cases where full invaliding benefits may not be appropriate is vested in the Discretionary Awards Panel (DAP), which is normally composed of representatives of the Second Sea Lord (2SL) and 2nd PUS. Referral to the DAP is rare. Each case is considered on its merits but, in practice, any reduction in invaliding benefits is restricted to those cases where the individual has contributed to their medical condition e.g. through excessive drinking or refusing treatment. The DAP award will not affect any decision on Service attributable benefits, which are determined by the Department for Work and Pensions.

SECTION 4

COMPLETION OF COMMISSIONS (OFFICERS)

5424. Introduction

Officers completing the period of service required by their respective commissions will retire in accordance with the following regulations. The Defence Council or Admiralty Board also have discretion to retire officers found medically unfit for further service at any age (see Para 5417 to Para 5423) and to remove officers from the Active List if they are found unfit for further service due to incapacity, unsuitability or misconduct (See Para 5436).

5425. Extensions of Service

Extensions of service beyond retirement age may be granted to meet Service requirements (see Chapter 49).

5426. Commission Transfers

Regulations for transfer of commission are contained in Chapter 49.

5427. End of Commissions for Non-Medical, Dental and QARNNS Officers

a. **Initial Commission Stage (ICS) (and Equivalent Commissions).** The retirement date for officers serving on an ICS or equivalent is determined by the length of that commission, subject to the regulations on Normal Retirement Age (NRA) or rank related retirement - the latter is appropriate to officers with military service prior to 1 Apr 99 and who had not opted for transfer to RA55 when offered in 2018 (see Table 54-2).

b. **Career Commission Stage (CCS) (and Equivalent Commissions).**

(1) Officers who entered before 6 Apr 05 and are serving on a CC will retire on completion of 16 years' reckonable service from age of 21 or the date of entry, whichever is later, subject to NRA55 or rank related retirement.

(2) Officers who entered post 6 Apr 05 (or entered before and subsequently elected to transfer to AFPS05) and were selected for a CC before 1 Nov 13 will retire on completion of 18 years' service from the date of entry or at age 40, whichever is later, subject to NRA55 and rank related retirement.

(3) Officers who entered post 6 Apr 05 and have been selected for a CC with an effective date of transfer between 1 Nov 13 and 31 Mar 15 will retire on completion of 20 years' service from the date of entry or at age 40, whichever is later, subject to NRA55 and rank related retirement.

(4) Officers who enter after 1 Apr 15, or are selected for a CCS after the same date, will retire on completion of 20 years' service from their date of entry or at age 40, whichever is later, subject to NRA55. Rank related retirement age policy will not apply to this group.

c. **Full Commission Stage (FCS) (and Equivalent Commissions).**

(1) For officers on a FCS or equivalent, termination of commission is on retirement. The retirement date for officers serving prior to 1 Apr 99 and transferring to the longest commission pre-1 Apr 15 is determined by the substantive rank held by the officer as shown at Table 54-2, unless the officer opted-in for transfer to RA55 in 2018, in which case their retirement age is 55 (unless promoted to OF5 post 1 Apr 20).

(2) The alignment of RM OF4/5 and 6 retirement ages (RA) with their RN counterparts and the transitional arrangements is detailed at Table 54-3.

(3) The NRA for officers joining after 1 Apr 99 and reaching a Full Term Commission before 31 Mar 15 is age 55, with the exception of OF5s who are subject to Senior Officers' Compulsory Retirement (SOCR) terms.

(4) Officers who enter after 1 Apr 15, or have been selected for a FCS after the same date, will retire at age 55 with the exception of OF5s who are subject to Senior Officers' Compulsory Retirement (SOCR) terms. Rank related retirement age policy will not apply to this group.

d. **Full Commission Stage (Aviator).** Officers serving on the FCS(A) scheme will retire at age 55, regardless of whether they have military service prior to 1 Apr 99.

5428. End of Commissions for Medical, Dental and QARNNS Officers

a. **Officers in-Service Prior to 1 Apr 03.**

(1) **Medium Career Commission (MCC).** Medical, Dental and QARNNS officers serving prior to 1 Apr 03 who did not elect to transfer to the new Common Terms of Service (CTOS) commission structure and have not been selected for transfer to a Full Commission (FC) will remain on their existing MCC until its completion or until their appropriate rank related retirement (see Table 54-2).

(2) **Full Career Commission (FCC).** Medical, Dental and QARNNS officers serving prior to 1 Apr 03, who did not elect to transfer to the new CTOS commission, will remain on their existing FCC until their appropriate rank related retirement age as shown in Table 54-2.

b. **Officers Entering On, or Transferring To, CTOS from 1 Apr 03 to 31 Mar 15.**

(1) **Short Commission (SC).** The SC for Medical Officers is six years reckonable service from full registration with the General Medical Council; for Dental Officers, the SC is seven years from full registration with the General Dental Council; for QARNNS Officers, the SC is six years from date of entry.

(2) **Medium Commission (MC).** The length of the MC is 18 years' reckonable service from date of commissioning or age 21 - whichever is the later - subject to NRA58. For QARNNS officers, completion of the MC is upon attaining 16 years' reckonable service from date of initial entry or age of 21 - whichever is the later - subject to NRA55.

(3) **Full Commission (FC).** For Medical and Dental officers, the FC ends upon reaching 58. For QARNNS officers, the FC ends upon reaching age 55.

c. **Officers Entering from 1 Apr 15, or Existing Officers Transferring to a Longer Commission from 1 Apr 15.**

(1) The retirement date for officers serving on an ICS or equivalent is determined by the length of that commission, subject to the regulations on NRA or rank related retirement - the latter is appropriate to officers with military service prior to 1 Apr 99 (see Table 54-2 and Table 54-3).

(2) Officers who enter after 1 Apr 15, or have been selected for a CCS after the same date, will retire on completion of 20 years' service from date of entry or at age 40, whichever is later, subject to NRA60.

(3) Officers who enter after 1 Apr 15, or have been selected for a FCS after the same date, will retire at age 60.

5429. Retirement Ages for Officers with Military Service prior to 1 Apr 99

All officers with legacy Rank Related Retirement Ages (RRRA) were given the opportunity to transfer to Retirement Age 55 (RA55) in 2018. Those non-volunteers for RA55 remain on the legacy retirement ages in Table 54-2 and Table 54-3. Officers on legacy RRRA who wish to transfer to RA55 may apply via their CM and each case will be considered on its merits, taking into account service need. Additionally, they can apply for CE60 (see para 4920) which will take their retirement age to 60, if selected.

5430. Senior Officer Compulsory Retirement

a. **Senior Officers (OF6 and above).** Compulsory retirement, either compensated or uncompensated, may be applied to senior officers (OF6 and above). The terms and conditions of when this might apply are detailed in the Terms and Conditions of Service letters that are issued by the Naval Assistant on promotion to OF6 and OF7 rank and/or acceptance of assignment. Details of compensated compulsory retirement, known as Directed Early Retirement, may be found in JSP 764 Part 6 Chap 1.

b. All Officers substantively promoted on appointment to OF6, OF7, OF8 or OF9 positions, or subsequently re-appointed in their current rank, will be employed on SOCR terms aligned to the duration of the appointment or a minimum of two years in rank, whichever is greater. Occasionally, shorter appointments are required, for example to fill an interim or temporary position. In these exceptional cases, the minimum duration of the appointment will be 12 months, which will be advertised or offered on this basis and made clear in the associated SOCR terms. Operational tours of 12 months duration or longer will be advertised as an appointment in the corresponding rank, attracting substantive promotion and SOCR terms of 2 years in total, commencing on arrival in appointment. The SOCR terms will encompass the period deployed, post operational leave (POL) and, if a follow-on appointment has not been secured in the intervening period, uninterrupted delivery of their career transition activity. Regardless of the planned duration of an appointment, the final period of employment may be increased to encompass a person's terminal benefits, allowing them to complete their appointment before concluding their career transition activity.

c. Unless selected for a further assignment or promotion during this period, uncompensated early retirement will follow on completion of the appointment. In the event of selection for a further assignment or promotion, the expected duration of the new appointment and the SOCR terms will be agreed before assignment action is taken. As there is no guarantee of Service beyond the initial appointment, whilst retirement ages are laid down in Table 54-2, it may be that individuals do not qualify for the maximum permissible pension (i.e. 34 years' service from age 21 or date of entry, whichever is the later).

d. Officers must note that each subsequent OF6/OF7 assignment represents a commitment by the Service to employ that officer for the declared duration of the appointment, but also a commitment by the officer to serve for that same period. As with the initial assignment, early release inside a 12-month notice period should therefore not be assumed unless it suits the Service interest.

e. **Senior Officers (OF5).** Officers who promoted substantively to OF5 from 1 Apr 20 are subject to compulsory retirement at the point of six years seniority in rank, or at their existing retirement age (whichever is the earlier), unless the Service need determines a requirement for further service, or the Officer promotes before 6 years' seniority. This policy also applies to OF4s who have been selected for Commission Extension to Retirement Age 60 and subsequently promote to OF5, i.e. they serve 6 years in rank or to their CE60 terminal date, whichever is the earlier.

(1) Those Officers selected for promotion, whose date of promotion is on or after 1 Apr 20, will be provided with a letter setting out the Terms and Conditions of Service (TACOS) by the Naval Assistant's office. Promotion will only be confirmed upon acceptance of the TACOS. Officers who do not accept these TACOS will remain on their extant TACOS as an OF4.

(2) An OF5 can continue to serve after 6 years' seniority provided there is a Service need.

(3) The introduction of SOCR does not affect an officer's ability to submit notice for early termination (PVR) or OEP application for submariners.

(4) Those accepting promotion to OF5 and thereby agreeing to compulsory retirement terms as above will not be eligible for the Directed Early Retirement (DER) Scheme and Special Capital Payment (SCP) (see JSP 764) as this is applicable to 1* only and above. This is primarily because employment at OF5 will be provided for the full 6 years or to existing retirement age (subject to any future redundancy programme). Conversely,1* appointments are managed on an assignment by assignment basis; SCP may be granted when an individual is forced to retire because their post is removed or regraded, and this could not have been foreseen or prevented at the time of the appointment, or an unplanned reduction is made in the number of posts available to the Service.

(5) As AFPS 15 is a Career Average Revalued Earnings (CARE) scheme, the introduction of SOCR has the potential to impact on the pension that officers are able to achieve in the future. It may also have an effect on those who claim, or may claim, CEA and those in receipt of Recruitment and Retention Pay. Those affected by this policy change are strongly advised to take independent advice, from an appropriate source, before accepting promotion on these terms.

Table 54-2. Rank Related Retirement Ages for Officers with Military Service Prior to 1 Apr 99

Rank	Retirement Age
Lieutenant (FTC50)	50
Captain RM (FTC50)	50
Lieutenant (Family Services)	50
Lieutenant Commander (FTC50)	50
Major RM (FTC50)	50
Surgeon Lieutenant Commander	48 or on completion of 16 years' full pay service, to maximum age of 60
Surgeon Lieutenant Commander (D)	48 or on completion of 16 years' full pay service, to maximum age of 55
Surgeon Lieutenant Commander(D) (FC)	58
Lieutenant Commander (FNS)	50 but with option to retire at 48
Lieutenant Commander QARNNS	53
Commander (FTC53) (former GL and SD)	53
Commander (FTC50) (former SL)	50
Lieutenant Colonel RM (FTC50)	50 - See Table 54-3
Surgeon Commander	60
Surgeon Commander (D)	55
Chaplain	55
Colonel RM (FTC51)	51 - See Table 54-3
Commander QARNNS	53
Captain (FTC55)	55 (or promotion date plus 3 years if on CE60 as an OF4, whichever is the longer)
Surgeon Captain	60
Surgeon Captain (D)	57
Principal Chaplain	55, or on ceasing to hold the assignment, whichever is earlier
Captain QARNNS	55, or on completion of assignment
Commodore (FTC55)	55, or on completion of assignment
Brigadier RM (FTC51)	51, or on completion of assignment, - See Table 54-3
Surgeon Commodore (D)	57 or on ceasing to hold the assignment
Chaplain of the Fleet	60 or on ceasing to hold the assignment, whichever is earlier
Commandant Nursing Officer Director of Defence Nursing Service	55 or on ceasing to hold the assignment, whichever is earlier
Rear Admiral	55 or until it is decided that the officer will no longer be employed

(Continued)

Table 54-2. Rank Related Retirement Ages for Officers with Military Service Prior to 1 Apr 99 (Continued)

Rank	Retirement Age
Major General RM	55 or until it is decided that the officer will no longer be employed
Surgeon Rear Admiral Medical Director General (Navy)	60 or on ceasing to hold the assignment, whichever is earlier
Surgeon Rear Admiral (D) CE/Director Dental Agency	60 or on ceasing to hold the assignment
Vice Admiral	55 or until it is decided that the officer will no longer be employed
Lieutenant General RM	55 or until it is decided that the officer will no longer be employed
Surgeon Vice Admiral Surgeon General	65 or on ceasing to hold the assignment
Admiral	55 or until it is decided that the officer will no longer be employed
Admiral of the Fleet	Borne on the Active List for life

Notes:

1. Except where otherwise indicated, officers will retire on the date that they reach their retirement age e.g. Lt Cdrs (FTC50) will retire on the day before their 50th birthday.

2. In Jul 01, with the exception of Medical and Dental officers, NRA55 was introduced for all Flag and General officers in the Royal Navy.

Table 54-3. RM Alignment of Retirement Ages - Transitional Arrangements

If TX date is	Lt Col	Lt Col Retained Rights	Colonel	Colonel Retained Rights	Brigadier	Brigadier Retained Rights
(a)	(b)	(c)	(d)	(e)	(f)	(g)
1/7/10 to 30/6/14	53	50	54	51	54	51
1/7/14 onwards	53	50	55	51	55	51

Note. *All RM OF4/5 and 6 will have their Retirement Ages (RA) extended by 1-4 years depending on their Termination date/RA [column (a)] and rank [columns (b), (d) and (f)], unless they choose to retain their reserved rights. This applies to officers in their substantive rank (GL, SO(LE) and Band Service).*

5431. Retirement Ages for SUY/SCC Officers with Military Service Prior to 1 Apr 99

a. **SUY/SCC Officers Promoted Prior to 1 Apr 99.** To maintain an equitable career opportunity for all officers serving before the introduction of the 3TC, SUY/SCC candidates promoted to the Officers Corps prior to 1 Apr 99 will serve to their existing officer rank related retirement age (RRRA) unless it is specifically extended for a particular rank. In this event, individuals so affected will retain the right to leave at the existing rank related retirement age if they so wish. Officers will also have had the opportunity to opt in for RA55 in 2018: if they did so their NRA is 55.

b. **SUY/SCC Officers Promoted from 1 Apr 99 to 31 Mar 15.** SUY and SCC officers who have insufficient time to complete an IC before their RRRA will retire on their officer rank related retirement date or on the day that their former rating engagement was due to end, whichever is the later. RM OF4 SO(LE) officers RA will align with their FTC(50)/(53) equivalent at Table 54-3. SUY/SCC officers who are able to complete an IC in full before their rank related retirement age will leave at the end of the IC unless they are selected for a longer commission. SUY/SCC officers will retire at their RRRA if they are serving on a CC or FTC at this point. Officers also had the opportunity to opt in for RA55 in 2018, if they did so their NRA is 55.

c. **SUY/SCC Officers Promoted Since 1 Apr 15.** Officers promoted from the ranks after 1 Apr 15 are no longer subject to RRRA policy if they have military service pre-1 Apr 99 and will retire at the end of their commission stage, subject to the normal retirement age.

SECTION 5

RESIGNATION BY OFFICERS

5432. Applications to Resign Commission by Officers

a. Early Termination option is the normal way of leaving the Service prematurely. In civilian life, the term ‘resignation’ is often used but resignation has a special meaning within the Royal Navy. Officers have no absolute right to resign their commission; however, they may be permitted to do so, in exceptional circumstances. Up to and including the rank of OF6, authority to accept resignation is delegated to the Naval Secretary. For officers of OF7 rank and above, acceptance of resignation is at the Admiralty Board's discretion. Resignation is appropriate when an officer wishes to sever all connection with the Service. Circumstances that would warrant resignation rather than the other types of discharge are where an individual holds actions or beliefs/attitudes that fundamentally conflict with the concept of military service. The primary consideration in acceptance of resignation is the best interests of the Service.

b. Resignation is only applicable to officers on the trained strength.

c. An application from an individual to resign their commission should be submitted through their CO to the Regional Legal Office (see Annex 1E).

5433. Waiting Period

Officers will not be allowed to resign until the appropriate authority has approved their application. If the application is approved, release is normally with immediate effect i.e. as soon as the administrative process allows. Whilst any outstanding ROS may be waived in these circumstances, it will be a condition of release that the officer must agree to repay any costs for which they may be liable (see Chapter 53).

5434. Consideration of Applications

a. Resignation applications, which should include a detailed statement of the grounds on which the officer is applying, are to be passed through the individual’s chain of command to the appropriate Career Manager and thence to the Regional Legal Office. Each case will be examined prior to submission to the decision maker to ensure the applicant is not confusing resignation with Early Termination and that there is no avoidance, inadvertent or otherwise, of administrative discharge procedures. Applications are then considered and decided upon by the appropriate authority. If the resignation is approved, release is with immediate effect. If, however, there is considered to be no case for allowing the officer to resign on the grounds submitted, the officer will be free to apply for Early Termination in accordance with Section 1.

b. Where officers make a prima facie case for resignation, they may be removed from their current assignment/course and re-assigned. If they are in or near the zone for promotion, they may not be considered further for promotion and they may not be eligible for redundancy.

5435. Withdrawal of Resignation Application

Officers have no right to withdraw an application to resign once it has been approved, however, they may be permitted to do so if the Naval Secretary determines that this will be in the best interests of the Service.

5436. Applications from Officers Subject to Disciplinary/Administrative Process

Officers are not normally allowed to resign when subject to disciplinary or administrative considerations, including Quarterly Reporting or discharge. Exceptionally, however, resignation may be accepted in these circumstances if it is considered that the interests of the Service will best be met by the early release of an officer.

5437. Consequences of Resignation

As with Early Termination, before requesting to resign, officers should make themselves aware of the possible implications of this type of release on matters such as retired pay, LSAP, resettlement grant (JSP 752 and JSP 754); annual and terminal leave (JSP 760) and graduated resettlement time (JSP 534).

5438. Optional Exit Points

Officers in receipt of RRP(SM) and serving on FTC/FCS engagements (but not serving on a subsequent EoS) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details may be found in Annex 54K.

5439. Reserve Liability

Officers who are permitted to resign will be removed from the Active List and will not be placed on the Retired or Emergency Lists. They totally sever their connection with the Service and will no longer hold any form of Royal Navy commission and will have no further entitlement to the use of their naval rank or to wear naval uniform. This does not, however, exempt them from any statutory liability that they may have under the National Service Acts and related legislation.

SECTION 6

OTHER DISCHARGES - OFFICERS

5440. Compulsory Withdrawal from Training - Officers on the Untrained Strength

a. **RN Officers - Phase 1 Training.** The CO BRNC has delegated authority for the management of compulsory withdrawal from training (CWFT) applications for all Young Officers (YOs) during the period up to passing out of BRNC on completion of Phase 1 Training (Initial Naval Training (Officer)).

b. When an officer's performance (professional or character and leadership) falls below the standard required and the appropriate warnings have been applied (see Chapter 57 Section 5) but they have still failed to achieve the standard required, Director of Training BRNC and COs during IFT may submit an application to the CO BRNC for their CWFT.

c. Where transfer is being recommended as an alternative to CWFT, the CO is to submit the transfer request to the Officer Terms of Service Manager for consideration under the YO transfer regulations (see Para 5104).

d. All YOs being considered for CWFT are to be interviewed by the establishment's Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated and informed of the following:

(1) Naval policy on Diversity and Inclusion (see Chapter 30).

(2) Definition of discrimination, harassment and bullying (JSP 763).

(3) Complaints procedure (see Chapter 23).

On completion of this interview, YOs are required to sign a 'Statement of D&I Advice' to confirm that they have received such advice.

e. Whilst a CWFT request is being considered, the CO BRNC must decide whether the officer should be sent home on leave or retained in the ship/establishment (if they are not considered to be a disruptive element to other YOs) until the decision of the CWFT application is known.

f. The CO BRNC is responsible for informing the YO in writing of the outcome of the CWFT decision. The letter must include details of any financial liability (see Para 5405 sub para b).

g. **RN Officers - Phase 2 Training (except Aircrew and ATC officers during Professional Training).** Where an officer's performance falls below the required standard on professional, character and leadership or temperament grounds (see Para 5731 to Para 5733 and Annex 54D) and the appropriate warnings have been applied, COs in the Fleet and Commodores and COs of Shore Establishments may submit a request for the officer's CWFT to Terms of Service Team in Navy People - People Strategy and Policy (PSP), the approving authority (on behalf of the Naval Secretary) for the CWFT of all officers during Phase 2 Training. In these cases, the request must be submitted with a recently completed SRF together with the YO's E190/Training Record and the contemporaneous record. In considering the request, the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS) and appropriate Career Manager will be consulted, and, in some cases, the YO may be called forward for interview by a Naval Advisory Board before a decision is made (see Para 5743).

h. Where transfer is being recommended as an alternative to CWFT, approval is subject to the YO transfer regulations (see Para 5107).

i. Before a CWFT request and accompanying paperwork is forwarded, the CO should decide in conjunction with the Career Manager whether the officer should be sent home on leave or retained in the ship/establishment (if they are not considered to be a disruptive element to other YOs) until the outcome of the CWFT decision.

j. The Terms of Service Team will inform the YO in writing of the Service's decision through their CO (notifying the YO direct if at home). All officers withdrawn from training will have their final day on Naval pay calculated by their release office and entitlement to terminal leave calculated in accordance with JSP 760.

k. **RN Officers - Aircrew and ATC Officers During Professional Training.** Following suspension from flying duties, similar procedures to those shown in Para 5402 sub para h and sub para i apply to Aircrew and ATC officers who are recommended for withdrawal from training and termination of commission. If an inter-FAA transfer is approved by DDIR NAVN as an alternative to CWFT, the Chair of the NAAB will ask the Terms of Service Team to determine the terms and conditions of the transfer. In the case of a branch/specialisation transfer outside the FAA, Navy Command/DDIR NAVN will recommend transfer to the Officer Terms of Service Manager.

l. **RM Officers.** The Commandant CTCRM has delegated authority for the management of CWFT applications for all YOs during the period up to the end of Phase 1 Training (Week 36).

m. All YOs undertaking Phase 1 Training who are being considered for CWFT are to be interviewed by the establishment's Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated, and informed of the following:

(1) Naval policy on Diversity and Inclusion (see Chapter 30).

(2) Definition of discrimination, harassment and bullying (JSP 763).

(3) Complaints procedure (see Chapter 23).

On completion of this interview, YOs are required to sign a 'Statement of D&I Advice' to confirm that they have received such advice.

n. For those in Phase 2 Training, the Commandant CTCRM may submit a recommendation to the Terms of Service Team in Navy People - People Strategy and Policy (PSP) for the CWFT of a RM officer whose performance has not met the required professional, character and leadership or temperament standards required of a RM officer following the issue of appropriate warnings (see Chapter 57 and Annex 54D). Where a Service transfer is being sought as an alternative to CWFT, approval is subject to the YO transfer regulations (see Para 5107).

o. Before a CWFT request and accompanying paperwork is forwarded, CTCRM should decide, in conjunction with the Career Manager, whether the officer should be sent home on leave or retained in the unit (if they are not considered to be a disruptive element to other YOs) until the outcome of the CWFT decision.

p. The Terms of Service Team will inform RM YOs in writing of the Services' decision through their CO (notifying the YO direct if at home). RM officers withdrawn from training will have their final day on pay calculated by their release office and entitlement to terminal leave calculated in accordance with JSP 760.

q. **Officer Candidates Promoted from the Lower Deck - Failure to Complete Initial Training.** See Para 5010.

r. **Representation.** Individuals who are being considered for CWFT must be given full disclosure of ALL paperwork related to their application. Subjects should be given a hard copy of the draft application and all supporting evidence. There may be exceptional circumstances where this is not possible; such circumstances must be discussed with and approved by the Navy Command Headquarters Terms of Service Team. This forms the case against them and allows them to properly represent their position. They should be given 24 hours to decide whether to make a representation against the application, or such longer period as is considered by the CO to be appropriate and necessary. Should the individual decide to make a representation, they should be given a further 48 hours to prepare that representation or such longer time as considered reasonable in the circumstances. In addition, the CO must ensure that the individual is afforded the services of an Assisting Officer. Those officers who choose not to submit a representation are to sign a waiver to this effect (an example is at Annex 54J). If the person decides to submit a representation, the CO should take this into account before finalising the application to the Terms of Service Team, acknowledging this formally in the application letter. In all cases COs must ensure that the points above are fully detailed and recorded. For Phase 2 Training cases, the application and all supporting evidence, including the finalised SPEC report, should be forwarded to the Terms of Service Team.

s. **Automatic Termination of Commission.** Any officer who leaves the RN or RM, whether voluntarily or involuntarily, whilst they are on the untrained strength will have their commission terminated automatically and will not be liable for reserve service or be entitled to wear Naval uniform after leaving.

5441. Administrative Discharge - Officers on the Trained Strength

a. **Introduction.** An officer whose performance or conduct falls short of the standards required may be discharged from the Active List. All applications for discharge of any officer of OF6 and below will be considered by the Naval Secretary. It is of paramount importance that correct procedures are followed. COs and Career Managers are therefore to seek the advice of the relevant RLO at an early stage in all cases where the outcome is likely to be administrative discharge.

b. **Types of Discharge.** An application for discharge may be made under the following categories:

(1) **Incapacity Due to Causes beyond an Officer's Control.** Incapacity due to causes beyond an officer's control may include, but are not limited to, an officer's inability to reach the required professional standards, temperamental unsuitability, and medical reasons not leading to MBOS.

(2) **Unsuitability Due to Causes within an Officer's Control.** Unsuitability due to causes within an officer's control may include inefficiency, unsatisfactory performance of duties including financial irresponsibility, failure to uphold Royal Navy core values and standards including a poor attitude towards the required standards of physical fitness, or other poor performance not warranting discharge for misconduct.

(3) **Misconduct.** Misconduct includes, but is not limited to, the commission of an offence, drugs misuse including CDT failure, continued inappropriate, malicious or vexatious correspondence with senior officers, or a succession of actions that demonstrate a failure to uphold the high standards expected of an officer and the traditions of the Royal Navy, rendering the officer unfit or unworthy of further employment. There is a rebuttable presumption of discharge (misconduct) when a Service Person who holds powers of punishment, as a Commanding Officer or Subordinate Commander, is charged with an offence listed in Schedule 2 of the Armed Forces Act 2006.

For specific information relating to the administrative discharge of officers on the grounds of Temperamental Unsuitability, see Para 5418 and Annex 54D.

c. **Procedure for Discharge.** An officer who is recommended for discharge due to incapacity or unsuitability will normally have been placed under quarterly reporting to provide for fair warning and monitoring with a view to recovering their professional or personal standing. A recommendation for discharge for misconduct may be without recourse to quarterly report procedures e.g. after a single act of serious misconduct.

(1) The application should be addressed to the RLO and should follow the general procedure and format for administrative applications detailed at Annex 1E and Annex 54F.

(2) In addition, other than in exceptional circumstances determined after liaison with the RLO, an application for administrative discharge must demonstrate the following:

(a) **Incapacity or Unsuitability.** For Incapacity or Unsuitability to be demonstrated, an individual must have had their failures clearly identified to them, have been afforded a reasonable time period to rectify their shortcomings and, having been afforded that opportunity, have failed to improve sufficiently to render their position in the Service tenable. It must be clearly explained why other measures, such as Removal from Assignment or seeking a branch transfer, are not appropriate in the circumstances.

(b) **Misconduct.** For Misconduct to be demonstrated, an individual's conduct must have fallen so far short of the standard expected of an officer as to have rendered their position in the Royal Navy to be untenable.

(3) Assessment must be made on whether the individual should retain their commission (Para 5436) and a recommendation made accordingly.

d. **Staffing Process.** The staffing process is both comprehensive and rigorous and is necessary to ensure the application is well founded, complies with the rules of disclosure and meets with the requirements of Administrative Law:

(1) **Individual's Unit.** The individual's CO is responsible for the submission of the application for discharge, fully detailing the reasons for applying and ensuring all the relevant paperwork is disclosed to the individual.

(2) **Regional Legal Office.** The RLO staffs the application, ensure it is procedurally correct and prepare a brief for the Deciding Authority (The Naval Secretary or the Admiralty Board). Legal advice is also provided by a Naval Barrister.

(3) **DDPD.** DDPD, in conjunction with the Career Manager, is to provide a brief to the Deciding Authority stating they have considered the application and outline whether or not they support it. This step is not required where discharge on the basis of misconduct is sought. In the brief, they must consider whether the individual is suitable for a branch transfer or an internal trade transfer e.g. a move to General Service from Submarine Service.

(4) **Naval Secretary's Office.** Where the subject of the application holds a substantive rank not exceeding OF6, the Naval Secretary will be the Deciding Authority. Discharges of officers of Flag rank will be forwarded to the Admiralty Board for consideration; the Naval Secretary will provide a brief stating that they have considered the application and whether or not they support it.

e. **Informing the Individual.** Once a decision has been made on the application, the individual's Commanding Officer will be notified in writing by the Naval Secretary and guidance will be provided on how to progress the outcome of the decision letter.

5442. Entitlements Following Administrative Discharge - Officers

a. **Termination of Commission on Administrative Discharge.**

(1) When officers are administratively discharged, consideration may be given to terminating their commission. If they retain the latter, they will be entitled to use their rank and wear uniform on state and certain ceremonial occasions (see Part 6).

(2) Officers administratively discharged who retain their commission may be placed on the Retired List or the Emergency List (the regulations are contained within BR 61). The letter notifying them of discharge will inform them of whether they will be placed on such a List. If placed on a List, they will be liable for recall in an emergency.

(3) Where an officer is administratively discharged for misconduct or for reasons within their control, it would usually be inappropriate for officers to continue to be associated with the Royal Navy. As such, their commission will normally be terminated unless there are exceptional circumstances justifying retention. In cases where officers are discharged for reasons outside their control, their commission will usually be retained, unless there are compelling reasons why it should not be. These might include un-officer like conduct or disregard for Naval core values and standards.

(4) Officers whose commission has been terminated are not entitled to wear uniform or to use their rank. They will not be listed in the Retired or Emergency Lists and will not be liable to recall in an emergency. This does not, however, provide exemption from any statutory liability under the National Service Acts and related legislation.

(5) Termination of commission of itself does not entail financial or other penalties besides the loss of those privileges accorded to an officer retained on the Retired or Emergency Lists, although other such penalties may flow from the reasons for discharge.

(6) An officer's liability for refunds of sponsorship or education costs (see Para 5405 sub para b) will normally be waived only in the event of discharge for incapacity (see Para 5437 a sub para (1)) whereas a ROS will be waived when an officer is administratively discharged under any of the categories in Para 5439 sub para a.

b. **Benefits.** Officers discharged due to causes beyond their control will be awarded the benefits appropriate to compulsory retirement. If discharged for causes within their control, any benefits admissible will be those which would have been awarded on voluntary retirement. Where discharge is for misconduct, the maximum award will be that admissible on voluntary retirement, but a lower award may be made where the Deciding Authority (the Admiralty Board or Naval Secretary) judges the offence to be particularly serious.

c. **Terminal Leave.** Where officers are discharged for incapacity or unsuitability, a recommendation will be made as to whether they should receive terminal leave. Officers discharged for misconduct or any other reason not amounting to misconduct, but of such a nature as may be deemed to render the grant of leave unjustified, will not be eligible for terminal leave.

5443. Dismissal

a. Officers charged with an offence under Military Discipline Legislation can be dealt with either by Summary Hearing or trial by Court Martial. In some cases, trial by court martial could result in dismissal or, exceptionally, dismissal with disgrace.

b. Officers dismissed by sentence of court martial are not eligible for terminal leave. Where appropriate, refunds will normally be required.

SECTION 7

DISCHARGES - RATINGS AND OTHER RANKS

5444. Discharges - General

a. **RN Ratings.** Discharges (except Invaliding) of ratings serving in the UK or in ships in home waters e.g. compassionate discharge, Discharge SHORE or SNLR, may be carried out as follows:

(1) For those serving in shore establishments (including RN Air Stations) or in self-accounting ships - direct from such establishment or ship.

(2) For those serving in non-self-accounting ships - through the parent ship or establishment bearing their accounts or, in urgent cases, through the nearest self-accounting ship or establishment.

(3) However, where it is at all practical, it is to the advantage of both the Royal Navy and the rating for the discharge procedure to be carried out at a Release Centre so that the rating receives the maximum benefit of discharge and resettlement information.

b. **Ratings' Documentation.** Ships and establishments are to ensure that ratings assigned to Release Centres for discharge are in possession of all necessary documentation (see Para 5442 sub para c). For appraisal reporting requirements see Para 5449, Para 5723 and Para 5724. Care is to be taken that all request action due e.g. award of Good Conduct Badges, has been completed. Service documents of ratings sentenced to dismissal and detention/imprisonment are to be forwarded to HMS NELSON Release Office. Medical documents, including completed Form F Med, 1 and 2, are to be forwarded in sufficient time to reach the Release Centre before the arrival of the rating.

c. **Ratings' Discharge Procedures.** Release Centres (or units carrying out the discharge of ratings in accordance with Para 5440 sub para a) are to ensure that discharge procedures are correctly followed, namely:

(1) Enrolment of eligible people into the Regular Reserve (see Section 9).

(2) Recording of cause of discharge and other notations.

(3) Rendering of pay-related documentation (JSP 754).

(4) Disposal of Service Documents.

(5) Issue of Form S1300 where appropriate.

(6) Issue of Discharge Certificate (Form S1560 or R111).

d. **Service Family Accommodation (SFA) and Hirings.** All discharges of ratings paying for SFA or hiring charges are to be reported by the unit via signal to DBS JPAC and the appropriate Defence Housing Executive Officer.

e. **RM Other Ranks Serving Under the Armed Forces Act.** Individuals whose discharge is approved or becomes due while they are serving under the Armed Forces Act (except those invalided from the Service while inpatients in Services Hospitals) will be discharged as follows:

(1) If serving in the Plymouth area - by Commando Logistic Regiment RM.

(2) If serving elsewhere - by RM Poole.

(3) At any other RM home unit with the approval of the Career Manager.

f. **Ratings and Other Ranks Serving Abroad.** Ratings and other ranks are to be sent home from abroad in time for discharge on completion of their career or engagement unless their service is being extended or prolonged (see Para 5811) or they have applied for discharge abroad (see Para 5407).

g. **Service in the Regular Reserves.** The liability and eligibility of individuals for service in the Royal Fleet Reserve (RFR) is to be assessed as part of the procedure to complete their release from the Active Service. Assessment and, where applicable, enrolment in the RFR is to be completed before individuals are dispersed to terminal leave in accordance with Para 5466.

h. **Parliamentary Correspondence.** When the question of an individual's discharge becomes the subject of Parliamentary Enquiry or correspondence, the case should be forwarded, with the full-Service Documents and other relevant papers, to the NAVY NPS-STRATPOL EMPLOY POL SO1 before any decision is taken (see Para 5444 sub para b).

i. **Postponement of Discharge and Transfer to the Reserve.** (See JSP 830 (Manual of Service Law) Vol 1 Chap 18 para 20). Members of the regular forces may be retained beyond their discharge date or transfer to the reserve date. The maximum extension period that can be authorised for an individual who would have transferred to the reserve is the same as that they could have been required to serve if called out as part of their regular reserve liability (under RFA 96 s.53(6), national danger etc. – 3 years; s.55(6), warlike operations – 12 months; s.57(6), certain operations – 9 months). For those who would have been discharged, the period for retention is a maximum of 12 months. This period accords with the time that a member of the reserve forces could be retained beyond the end of their current term if call out was authorised under RFA 96, section 52[2]. Individuals retained may be transferred to the reserve or discharged by the competent authority when services are no longer required. A person entitled to be transferred to the reserve or discharged may, by declaration to their CO[3], (see JSP 830 Chapter 18 Annexes C and D), remain in the Service if warlike operations exist and a call-out order is in force under RFA 96, section 54.

[2] In accordance with the powers under RFA 96, section 17(2).
[3] The Armed Forces (Discharge and Transfer to the Reserve Forces) (No.2) Regulations 2009/1091, regulation 8.

They are entitled to give three months' notice of this extension to their CO. Periods of extended service count towards reserve service. Individuals on extended service outside the UK are entitled to be discharged or transferred to the reserve in the UK, according with the provisions for individuals serving overseas under normal conditions of engagement.

j. JSP 830 (Manual of Service Law) Vol 1 Chapter 18 Annex A lists the competent authorities who may authorise a transfer to the Reserve.

k. **Discharge of Fraudulent Entrants.** When individuals are found to have made false statements, whether as to fitness (physical or mental) or as to previous service in the Forces or Reserves, in the documents signed on entry, the authorities in Para 5444 sub para b are authorised to approve their discharge, subject to any action required by Para 5442 k sub para (2) and having regard to their response to training and their future usefulness to the Service.

(1) If personnel are found to have enlisted while belonging to the Army, Army Reserve, RAF or RAF Reserve, reference should first be made to the Officer Commanding of the unit to which the individual belonged to ascertain whether it is desired to claim them under their original engagement. If they are not claimed, the question of retention or discharge will then be decided.

(2) In cases where discharge is authorised locally, the details of the discharge are to be recorded on JPA.

(3) **Royal Marines.** When an RM other rank is discovered either to have enlisted without having been discharged from a previous enlistment or to have made a false statement on enlisting in the RM, a report of the circumstances is to be forwarded to the RM Career Manager for instructions.

l. **Outstanding Disciplinary Action.** When an individual faces charges under the Armed Forces Act, the release procedure for the various types of Discharge SHORE categories should not normally be delayed. If in doubt, units should seek legal advice. If application is being made for an individual to be discharged SNLR (Unruly) or SNLR (CDT), legal advice should be sought if there are outstanding disciplinary matters.

m. **Right of Warrant Officers to Discharge after Reduction in Rank.** A Warrant Officer who has been reduced to the lowest rank or rate as a result of a sentence in Service proceedings has a right to claim discharge unless warlike operations exist, or a call-out order is in force under RFA 96 sections 52, 54 or 56. A claim for discharge should be made within one month of the reduction in rank and discharge must take place as soon as reasonably practicable. This allows former Warrant Officers to leave the Service promptly following conviction or administrative reduction in rank or rate if they do not wish to remain in the Service. Further details are at JSP 830 Chapter 18 Annex B.

n. **Types of Discharge.** Annex 54E outlines the minimum required documentation for each type of discharge. It can be used in conjunction with Annex 54F which sets out a step-by-step CO's guide to the discharge process.

o. **LGBT Restorative Action.** The MOD have accepted the LGBT Veterans Independent Review's recommendations to make retrospective changes to the service records of those impacted by the Ban on LGBT personnel serving in the Armed Forces between 1967 and 2000 (the Ban). In accordance with Implementation Order MOD/LGBTRestorativeAction/IO/001 dated 1 May 2024, Defence will enable those administratively discharged and/or demoted pursuant to the Ban, to apply to have their administrative discharge amended or annotated with the wording, 'Discharge was pursuant to a policy subsequently held by the European Court of Human Rights to be unlawful' and/or rank or commission restored to what it was immediately prior to discharge/dismissal.

p. The sS are to interrogate the Service records and make recommendations to Decision Makers on eligibility for Restorative Measures of qualification of administrative discharge and/or restoration of rank/commission based on eligibility criteria and reverse burden of proof on a balance of probabilities basis. Decision Makers for the Royal Navy will be the Naval Secretary (or their delegates) for applicants/deceased veterans of OF6 rank and below. For applications for veterans above OF6, the Defence Council shall be the Decision Maker who may delegate the decision-making function to the Admiralty Board, Air Force Board or Army Board.

5445. Discharge SHORE - General Instructions

a. Discharge SHORE is not a punishment. It is the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of unsuitability or possibly for reasons largely beyond their control, but whose discharge cannot appropriately be affected by any of the methods prescribed elsewhere in the regulations. It may be recommended in the circumstances set out in Para 5444 or where discharge is in the best interests of the Service.

b. **Authority Required.** Annex 54A details those personnel who are delegated authority to approve Discharge SHORE. Administrative action should be taken in accordance with Annex 54F and Annex 1E, advice should be sought from regional legal advisors as required. Where the case is subject to Parliamentary correspondence or enquiry, the Navy Command Policy Secretariat should be informed at the earliest opportunity and the RLO should be notified on receiving the application. If the CO has the authority to approve the discharge, the individual must still be given full disclosure of all documents and the opportunity to make representation in accordance with Annex 1E; in such cases copies of disclosure paperwork, any representation and the letter informing the individual of the CO's decision are to be forwarded to RLO(E) for archive.

c. **Warnings.** Full detail and explanation of the Warnings process is covered in Chapter 57 and should be read in full before any application for Discharge SHORE is made.

d. **Documentation Required.** If applicable, a specialist's report should be obtained to inform the decision to apply for discharge e.g. Psychologists/INM; see Annex 54E for further details of relevant documentation.

e. **Reporting Approval of Discharge SHORE.** When Discharge SHORE is approved, the Career Manager must be notified as an addressee on the decision letter and JPA is to be annotated accordingly (see JSP 760).

f. **Date of Discharge.** The operative date of Discharge SHORE should be the earliest date on which discharge formalities can be completed after the decision to discharge has been taken. Those discharged on grounds of inadequacy who have over 20 (ES2), 18 (FC) or 22 (OE) years' service will be given two months' notice, not including terminal leave. For such individuals serving abroad, the two months' notice should date from time of arrival in the UK (see JSP 760 for full details).

g. **Discharge of Personnel Serving Beyond their Initial Pensionable Engagement.** The Administrative Authority ordering discharge of any individual with 20 (ES2), 18 (FC), 22 (OE) or more years reckonable service is to send a copy to DBS JPAC. Individuals are to be told to seek advice from the JPAC regarding the calculation of their pension.

h. **Procedure.** Applications which cannot be approved locally should be addressed to the appropriate deciding officer or RLO as identified in Annex 54A and be in accordance with the general procedure and format for administrative applications detailed at Annex 1E.

i. Where a rating or other rank has been informed of the grounds for application for their discharge but the reason for discharge is subsequently amended, the subject must be advised of the change and given the opportunity to state further representation before any action is taken by the approving authority.

j. Individuals discharged should be reminded of their right to make a Service complaint in accordance with JSP 831.

k. Advice on pensions, terminal grants, terminal leave and resettlement entitlement can be sought by the individual from the relevant SMEs including JPAC, Resettlement Team, UPO, Career Manager and the individual's own JPA account.

l. Where discharge SHORE is deemed appropriate any outstanding ROS will be waived, but financial liabilities will only be waived at the discretion of the deciding officer following consultation with the Terms of Service Team/RLO.

5446. Circumstances In Which Discharge SHORE May Be Appropriate

The following are the different circumstances where Discharge SHORE may be appropriate. When placed on warnings, an individual is to be specifically informed which circumstance they are being warned for. An individual may be on more than one warning concurrently e.g. Inadequacy and Alcohol or Inadequacy and Discharge SNLR (Unruly):

a. **Discharge SHORE (Fraudulent Entry).**

(1) When individuals are found to have made false statements on any information elicited, for example, whether as to fitness (physical or mental) or as to previous service in the Forces or Reserves, in the documents signed on entry, the authorities in Annex 54A are authorised to approve their discharge, subject to any action required by Para 5445.a (1) sub para (c) and having regard to their response to training and their future usefulness to the Service.

(2) If personnel are found to have enlisted while belonging to the Army, Army Reserve, RAF or RAF Reserve, reference should first be made to the Officer Commanding of the unit to which the individual belonged to ascertain whether it is desired to claim them under their original engagement. If they are not claimed, the question of retention or discharge will then be decided.

(3) In cases where discharge is authorised locally, the details of the discharge are to be recorded on JPA.

(4) **Royal Marines.** When an RM other rank is discovered either to have enlisted without having been discharged from a previous enlistment or to have made a false statement on enlisting in the RM, a report of the circumstances is to be forwarded to the RM Career Manager for instructions.

b. **Discharge SHORE (Deemed Unsuitable During Training) (DUDT).**

(1) In establishments carrying out initial (Phase 1, 2 or 3) training, a rating or other rank who is reported to be unsuitable for retention for causes other than medical unfitness (but including enuresis) maybe discharged SHORE. Ratings in the Initial Training Pipeline (ITP) are effectively under probation and, should they fail to meet the required standard in accordance with Annex 54A, the Naval Secretary has delegated authority to certain officers within training establishments authorising them to end a rating's service on the grounds of Discharge SHORE 'Deemed Unsuitable During Training' (DUDT). Before doing so, the CO may consider whether the individual might prove suitable for another branch and/or specialisation dependent on the Service requirement.

(2) Discharge may be authorized only by those officers detailed in Annex 54A carrying out initial (Phase 1, 2 or 3) training in the case of Able Rates Branch Designator 2 (BD2) of the following branches: Warfare, Medical, Weapons Engineering, Marine Engineering, Air Engineering, Logistics and RM other ranks during their initial training. This authority cannot be sub delegated within the unit.

(3) The exception is in Phase 1 where the Deputy Stream Leader (normally CO HMS RALEIGH) Naval Core Training Stream has devolved authority from the Commodore Core Stream to approve Discharge SHORE DUDT. While COs of Training Establishments (of Capt RN rank or above in command) may approve such discharges without application to higher authority, it is important to maintain a clear audit trail of events leading to this decision.

(4) Chapter 57 articulates the warning procedures that are to be followed for all Naval ratings on the untrained strength (UTS). Training establishments should therefore refer to this Chapter in full. There are four distinct DUDT categories which can be applied:

(a) **DUDT Academic.** Encompasses all trainees who are unable to complete the academic requirements of their UTS training.

(b) **DUDT NGT.** For trainees who are unable to complete the requirement in the ARFSA RPS (All Ratings First Sea Assignment Role Performance Statement) and Training Performance Statement (TPS).

(c) **DUDT Contributory.** This will be applicable to any trainee who has failed to achieve the required standard on their professional course or is deemed by the Training School to be unsuitable for further training or unable to conduct their branch training and refuses any branch transfer which is offered by the Pipeline Manager.

(d) **DUDT Administrative.** Suitable for any trainee who leaves the Service due to an administrative issue.

(5) It is important that COs give unequivocal guidance on whether individuals who have been dismissed on the grounds of DUDT should be allowed to re-enter and, if so, the period of time that should be allowed to elapse between discharge and re-entry. Each of the four categories has a recommended guideline for re-applying to join the RN of:

(a) **DUDT Academic.** - 12-60 months.

(b) **DUDT NGT.** 18-60 months.

(c) **DUDT Contributory.** 18-36 months.

(d) **DUDT Administrative.** 3-60 months.

(6) All trainees being considered for Discharge SHORE DUDT are to be interviewed by the establishment's Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated, and informed of the following:

(a) Naval policy on Diversity and Inclusion (see Chapter 30).

(b) Definition of discrimination, harassment and bullying (JSP 763).

(c) Complaints procedure (see Chapter 23).

On completion of this interview, trainees are required to sign a 'Statement of D&I Advice' to confirm that they have received such advice.

c. **Discharge SHORE (Inadequacy).**

(1) It should be noted that ratings and other ranks that hold the rate of Leading Hand (or equivalent) and above and who are unable to perform their duties due to inadequacy must first be warned for reversion following the normal warning process and reverted in accordance with the relative rates table at Annex 65A. If ratings and other ranks are still unable to perform the duties of the lowest rank/rate to which they can be reverted because of physical or mental incapacity (not of a nature to warrant invaliding) or incompetence or they may be discharged SHORE. Proof of inadequacy should normally be given by individuals' SJAR, warning reports and Annex 57D (formal warning proforma). These documents catalogue their failing and show that they have been ineffective for a period long enough to rule out any possibility of improvement. In appropriate cases, individuals may volunteer for transfer to another branch (dependent upon the Service requirement) or be recommended for reversion to their original branch and/or specialisation, as an alternative to Discharge SHORE.

(2) Invariably if an individual is unable to perform their duties satisfactorily, this would be manifested in an inability to perform in their professional branch specialisation. An individual who is not currently employed in their core professional specialisation but is nonetheless failing to meet their Terms of Reference, however, may be warned for inadequacy at any given time. An example being when an individual assigned to the Recovery Cell/Waterfront organisation is given specific tasks to perform which are outside their core specialisation and fail to perform these to the required standard. In this instance they may be warned for inadequacy. Another example would be repeated incidents which demonstrate an individual's inability to comply with Naval Core Values and Standards. A possible example may be where despite repeated remedial instruction an individual is unable to comply with the most basic requirements of Service life such as cleanliness, presentation, punctuality etc. These examples are not exhaustive, and units should engage with the RLO if they consider they have a situation of this nature.

(3) **Discharge SHORE (Inadequacy - Attitude to Fitness).** The warning procedure for a poor attitude to the required levels of fitness is detailed in BR 51 Volume 2, Chapter 2 - (RNFT Policy, Protocols, Instructions and Guidance). Persistent poor attitude to fitness may result in Discharge SHORE on the grounds of inadequacy (see Para 5443.a(3) sub para (a)). Applications forwarded to the RLO for this reason should be accompanied by the relevant completed warning certificates, and relevant reports by INM, as appropriate and as detailed in BR 51 Volume 2.

(4) **Inadequacy of Individuals who have Completed more than 20 years (on an ES2), 18 years (on an FC) or 22 years (on an OE1) Pensionable Service.** The provisions of Para 5445 a (3) sub para (a) are not considered appropriate for individuals whose effectiveness deteriorates unduly after they have completed time for pension. The following procedure is to be followed therefore when ratings and other ranks who have completed more than 20 (ES2)/18 (FC)/22 (OE) years' pensionable service become so ineffective in the discharge of their duties that, if they had less service, the question of reversion would have to be considered:

(a) Individuals are first to be interviewed by their Head of Department and informed of their shortcomings. They are also to be warned in accordance with Chapter 57 (Level 2 warning) that, if no improvement takes place, their case will be reported to the CO with a view to early discharge from their engagement.

(b) If still dissatisfied, the Head of Department will report the case to the CO who will investigate it personally. Individuals are to be allowed to state their case with the assistance, if they wish, of an officer who need not be a Divisional Officer.

(c) If not satisfied, the CO is to warn such individuals in accordance with Chapter 57 (Level 3 warning) that an application will be made to the higher authority with a view to their discharge if a satisfactory improvement has not taken place at the end of one month.

(d) If, at the end of one month, the CO is still not satisfied, an application on the case, including the CO's opinion whether or not such person's ineffectiveness is within their own control, should be forwarded with the supporting evidence for decision to the administrative authority in accordance with Para 5442 sub para b above.

d. **Discharge SHORE (Failure of Naval Annual Personnel Weapons Test) (NAPWT**). After an appropriate warning period, persistent failure of a mandatory NAPWT may result in Discharge SHORE under this Para if the rating or other rank is on the trained strength or, in the case of New Entry ratings and other ranks, Discharge SHORE under Para 5447 a sub para (2) (DUDT). The NAPWT failure policy is detailed in BR 8988 Chapter 12.

e. **Discharge SHORE (Financial Irresponsibility).** Ratings and other ranks may be discharged SHORE for financial irresponsibility in accordance with QRRN Chapter 36.

f. **Discharge SHORE (Obesity).** Ratings and other ranks who are unable to perform their duties satisfactorily due to obesity may be discharged SHORE - see BR 1750A (Handbook of Naval Medical Standards).

g. **Discharge SHORE (Alcohol).** Addiction to alcohol is not compatible with service in the Armed Forces. Under circumstances where an individual's efficiency, physical condition or value to the Service becomes materially impaired, Discharge SHORE may be recommended. See Para 5769 for more information. JSP 835 contains guidance for those with alcohol issues. Any application should normally demonstrate that the full range of treatments available to the individual within the RN has been utilised prior to submission.

h. **Discharge SHORE (Medical Reasons).**

(1) Discharge SHORE of ratings and other ranks may be recommended on medical grounds, even where they may still be capable of performing satisfactorily the duties of the lowest rate/rank to which they can be reverted. These grounds include:

(a) Sea sickness.

(b) Enuresis, provided that it is not a symptom of a more serious illness.

(c) RM other ranks who have appeared before the Naval Service Medical Board of Survey (NSMBOS) and are assessed as being Physically Unsuitable for Commando Service or training.

(d) Discharge SHORE is not to be recommended for those who can more properly be dealt with by invaliding - see BR 1991 (Instructions for the RN Medical Service). Applications for discharge on medical grounds must be accompanied by appropriate supporting medical evidence.

(2) Recommendations for Discharge in relation to Para 5445 a (8) (a) sub para (iii) and sub para (iv) above are to be referred to the NSMBOS and NSMEB. A medical recommendation for Discharge SHORE for seasickness or enuresis is to be brought to the immediate attention of the CO of the ship or establishment to which individuals are sent after medical examination (see BR 1991). Unless, exceptionally, the Commodore, Captain RN or CO considers that the medical recommendation cannot be supported, discharge may be authorised in accordance with Para 5444 and Para 5445. The individual should remain with the establishment until a decision is communicated.

i. **Discharge SHORE (Temperamental Unsuitability).** Discharge SHORE of ratings and other ranks may be recommended for unsuitability of temperament, even where they may still be capable of satisfactorily performing the duties of the lowest rate/rank to which they can be reverted. Discharge SHORE on these grounds is an Executive responsibility but does require an assessment of the individual by a Medical Officer/Civilian Medical Practitioner in order to exclude any medical problem and to assess the severity of any degree of temperamental unsuitability. When a discharge is considered due to temperamental unsuitability, the application must be accompanied by supporting medical evidence. See Annex 54D for specific instructions.

(1) **Discharge of Ratings Approaching Pension.** Consideration of whether to discharge a rating approaching pension must take full account of the great financial consequences in loss of terminal grant and immediate pension. If an individual is within three years of pension, the case must be forwarded to the RLO for a decision. When a warning is appropriate under Chapter 57 Section 8, a record of the warning must be recorded on a Special SJAR and included in any submission for discharge.

(2) **Authority.** Discharge SHORE may be authorised as set out in Annex 54A.

j. **Discharge SHORE (Best Interests of the Service).** Although the above types of Discharge SHORE are the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of their unsuitability, it is not possible for the regulations to cover every eventuality. Where Command is unable to determine an appropriate method as detailed above, then an application may be considered on the basis of the Best Interests of the Service. This method of discharge will only be available in wholly exceptional circumstances. For example, a rating who won the National Lottery but who was behaving inappropriately, such as paying colleagues to cover their duties. This method is not to be used to capture a number of minor transgressions which are covered by other methods of discharge or to amalgamate them into sufficient reason to discharge an individual. Each instance must be considered on a case-by-case basis and advice should be sought in the first instance from the RLO or regional legal adviser

5447. Discharge Services No Longer Required (SNLR) - General Instructions

a. Discharge Services No Longer Required (SNLR) is not a punishment but neither is it an honourable release and it can impair a rating or other rank's prospects of employment on return to civil life. It will also normally prevent re-enlistment (see Para 1208).

b. Discharge SNLR is the appropriate method of dispensing with the services of personnel who have tested positive for prohibited/non-prescribed drugs, personnel who have involved themselves in the misuse of drugs (including the possession of drugs paraphernalia), personnel who are subject to administrative action for serious breaches of behavioural standards, or unruly or undisciplined individuals whose retention would be to the detriment of the Service but who have not committed an offence which, either in itself or in association with their past record, would justify a sentence of dismissal.

c. Discharge SNLR is not only appropriate to ratings and other ranks whose service conduct merits discharge but also when a conviction by the civil power makes their retention undesirable (see QRRN 3906.4). In the case of the latter, application for Discharge SNLR would be in the form of a Service Penalty (C57). Discharge SHORE may be considered as an alternative to Discharge SNLR in accordance with QRRN 3906.4.3.

d. It should not normally follow immediately after a sentence of detention but may do so exceptionally when it is obvious that the sentence has had no reformatory effect. In such a case, if it is considered that a rating should not return to the Fleet on completion of their sentence, even for a short time, a recommendation for a rating's discharge should be submitted. The exception to this is those individuals who have been sentenced to a period of detention following their conviction for a drugs related offence where application for their discharge would be the normal course of action. In all such cases, the advice of the RLO or regional legal advisor must be sought prior to any action being taken.

e. **Procedure.** A Discharge SNLR should be in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Additional documents relevant to the circumstances, such as CDT paperwork, police report or toxicology reports should be sourced and relied upon as required.

f. Where a rating or other rank has been informed of the grounds for consideration of their discharge, but the reason for discharge is subsequently amended, the subject must be advised of the change and given the opportunity to state further representation before any action is taken by the approving authority.

g. **Authority Required.** Annex 54A details those personnel who are delegated authority to approve Discharge SNLR. Action should be taken in accordance with the general instructions at Annex 1E. If the case is subject to Parliamentary correspondence or enquiry, it should be brought to the attention of the Navy Command Policy Secretariat at the earliest opportunity and the relevant Regional Legal Office on initial consideration of discharge.

h. **Warnings.** Full detail and explanation of the Warnings process is covered in Chapter 57 and should be read in full before any application for Discharge SNLR is made. In all cases (with the exceptions of CDT and drug abuse), it is expected that individuals will normally have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to reform as in Para 5444 sub para c (also see Chapter 57 Section 7) before an application is made for discharge. Para 5445 is to apply to warnings if the individual is approaching pension. This warning may be dispensed with in cases in which it would not be appropriate, for example after a serious civil conviction.

i. **Documentation Required.** As a minimum, prior to discharge the CO must prepare a letter either to higher authority or to the individual concerned (where the CO has authority to approve discharge) outlining the reasons for the proposed discharge and the relevant policy references. If applicable, any other documents relied on should be attached to this letter e.g. CDT report, warnings, discipline history (see Annex 54E). The individual should then provide either a signed Representation against discharge or a waiver of the right to submit a Representation (an example is at Annex 54J). This, together with the 'Special' SJAR, should be provided to the officer delegated to approve the potential discharge. They should then decide whether or not to approve discharge and write either to the applying CO or, where the CO is making the decision, to the individual, explaining what their decision is and the reasons why they have come to it.

j. **Reporting Approval of Discharge SNLR.** When Discharge SNLR is approved, the Career Manager must be advised and JPA is to be annotated accordingly (see JSP 760).

k. **Date of Discharge.** The operative date of Discharge SNLR should be the earliest date on which discharge formalities can be completed after the decision to discharge has been taken and notified. When a rating or other rank is approaching pension, the provisions of Para 5446 are to be applied. All individuals serving abroad will be returned to the UK for discharge formalities except those who are to be discharged on the station at own request (Para 5407) and those to be discharged as a Naval penalty who will complete their career or engagement whilst undergoing a sentence of imprisonment. Individuals who cannot carry out the normal discharge routine - i.e. those at home who have not returned to duty following civil conviction by the time approval is received to discharge them as a Naval Penalty, and those abroad who are to be discharged as a Naval Penalty and are not to return to the UK for discharge formalities - will be discharged while serving their civil sentence.

l. Individuals discharged should be reminded of their right of complaint against discharge in accordance with JSP 831.

m. Advice on pensions, terminal grants, terminal leave and resettlement entitlement can be sought by the individual from the relevant SMEs including JPAC, Resettlement Team, UPO, Career Manager and the individual's own JPA account.

n. **Forfeiture of Long Service and Good Conduct Medal.** Forfeiture of the Long Service and Good Conduct Medal is a consequential effect of Discharge SNLR (see QRRN Para 3906.5 and JSP 830 (Manual of Service Law)).

o. Where Discharge SNLR is deemed appropriate any outstanding ROS will be waived, but financial liabilities will only be waived in exceptional circumstances at the discretion of the deciding officer following consultation with the Terms of Service Team/RLO.

5448. Circumstances in which Discharge Services No Longer Required (SNLR) may be Appropriate

The following are the different circumstances where Discharge SNLR may be appropriate. When placed on warnings, an individual is to be specifically informed which circumstance they are being warned for. An individual may be on more than one warning concurrently e.g. Discharge SNLR (Unruly) and Discharge SHORE (Inadequacy).

a. **Discharge SNLR (Unruly).** When considering a decision to apply for Discharge SNLR in cases of unruliness, COs should be mindful that there should usually be evidence that the individual is on warnings for Discharge SNLR (Unruly) and has received either a sentence of detention or multiple lesser sentences in the past but has re-offended, thus demonstrating that the punishment(s) has not had the desired reformatory effect. Offences that have rehabilitated cannot be taken into account when considering administrative discharge.

b. **Discharge SNLR (Compulsory Drugs Test) (CDT) or (Drugs Misuse).** The unique position of the Armed Forces is such that misuse of drugs is incompatible with the Service. Positive results from CDT will result in Discharge SNLR in all but the most exceptional cases. COs are advised to consult tri-Service policy on a positive CDT result or drug misuse in JSP 835 and at Chapter 21 Section 4 (ethos, values, standards and personal matters).

c. **Discharge SNLR (Misconduct).** Individuals who have behaved in a way that is incompatible with Service values and standards and/or have been found to be in serious breach of Service policy may be discharged SNLR where appropriate. Situations that may give rise to discharge under this section may include, but are not limited to, bullying and harassment, serious social misconduct and behaviour demonstrating hostility to a person or group based on a protected characteristic.

5449. Complaints Against Discharge SHORE/SNLR

a. Ratings and other ranks who complain against a decision to discharge them authorised under the provisions of this Chapter will not be retained in the Service pending a decision on their complaint.

b. Service personnel due to be discharged are to be reminded of their right to submit a Service Complaint in accordance with JSP 831.

c. Guidelines on handling complaints are as follows:

(1) The Career Manager is to be advised without delay, where discharge is associated with a complaint under action.

(2) The MOD has no jurisdiction to restrict the movements of a discharged rating or other rank pending resolution of the individual's complaint.

(3) At the time an individual states a complaint, they should be informed that there may be some delay in finalising their pay and any monetary adjustments pending resolution of the complaint. Whilst immediate pension payments will be made at the appropriate date and recovered if the complaint is upheld, any lump sums due will be withheld pending resolution of the complaint.

(4) If the complainant is reinstated, individuals are to be paid as if they had not been discharged. The period between discharge and reinstatement, if attracting full salary, will count as reckonable service. Any Special Pay or other forms of additional pay, as specified in JSP 754, to which the individual was entitled during the period missed will be paid retrospectively.

(5) If the complainant is reinstated but disrated/reduced in rank, unless specified otherwise (e.g. in a decision on a Service Complaint), they are to receive back pay and special pay or additional pay to which they were entitled for the period between discharge and reinstatement at the lower rate/rank. For the purpose of re-advancement or re-promotion, time is to be counted from the day they re-enlist in the Service.

(6) The Career Manager will advise the Defence Housing Executive of any cases where the complainant is the occupant of Service Families Accommodation (SFA). Provided that the complaint is resolved within the 93-day notice to quit period, there should be no difficulty for entitled persons occupying married quarters whose complaint is subsequently upheld.

(7) Release Centres will hold documentation until the complaint has been resolved. The Service records need not be closed, and no record of discharge need appear if subsequently the complaint is upheld. At the time they state their complaints, individuals should be informed that their final documentation will be delayed pending the resolution of the complaint.

(8) Release Centres are to retain the complainant's kit until their discharge has been confirmed.

(9) Where a complaint is upheld, and the complainant does not wish to return to the Service, their release should be annotated as discharge as of right on notice with the notice period being waived, unless stipulated otherwise in the final decision.

5450. Assessment and Recommendations for Further Naval Service

a. All Naval officers, ratings and other ranks about to be discharged are to receive an appraisal report (Occasion: Prior to Retirement) from the final employing unit prior to joining the nominated Release Centre.

b. Those who leave the Service before normal retirement age, except for those for whom the reason for discharge precludes consideration for further service (officers administratively discharged; or ratings/other ranks discharged 'Deserted', 'Dismissed', 'SNLR', or 'SHORE', are to be assessed and a recommendation made as to their suitability for further Naval Service. The statement 'Recommended for further Naval Service' or 'Not recommended for further Naval Service' is to be included in the 2RO potential narrative.

c. Further detail may be found in Chapter 57 (Appraisal and Warnings) and Para 1211.

SECTION 8

RELEASE PROCEDURES AND PAYMENTS ON RETIREMENT

5451. Retirement Advice

A retirement package containing advice on future employment, civil and Service benefits, transition into civilian life and Naval Associations is provided to every officer leaving the Service by Veterans UK.

5452. Release Procedure

a. Officers placed on the Retired List, Emergency list or who are otherwise discharged from the Service will normally be assigned to HMS DRAKE, HMS NELSON or CTCRM for release procedures. Attendance at these Release Centres by the individual officer is not usually necessary.

b. **Ratings and Other Ranks Serving in the UK.** The discharge of individuals on completion of a Career or Engagement or on 12 months' notice is to be undertaken by Unit Release Centres. Ratings will be assigned to appropriate Unit Release Centres by their Career Manager, with a copy of the Assignment Order being sent to the Release Centre concerned.

5453. Release Actions

The following actions need to be completed:

a. **Medical Examination.** All personnel are to be given a final release medical examination before leaving the Service in accordance with BRd 1750A Para 0121.

b. **Personal Loan Items.** Personal loan items (e.g. respirators) are to be returned on release to the nearest Naval ship or establishment or to the Base Logistics Commander.

c. **Documentation.** Under current arrangements, all Service Leavers will receive a Service Leaver's Pack from the Termination Cell, Veterans UK(G), about 9 months prior to their termination date.

d. On release, personnel are to surrender MOD Form 90 (Service Identity Card), all Service rail and coach cards and other forms of security pass to their ship or establishment's administration office or Base Supply Officer.

e. Two copies of MOD Form 135 (Official Secrets Act) are included in the current termination packs and must be signed by all officers on release from the Service. Release Centres are to verify this or ensure that a copy of MOD Form 135 is signed in their presence and one copy forwarded to DBS JPAC (the other copy is to be retained by the officer).

5454. Promulgation of Release

The details of officers completing active service are promulgated in the Officers' Assignment List, which is the authority for release and gives the final date for pay. An entry in the London Gazette is made for officers leaving the Service on completion of commission, at a break point, on voluntary retirement, on invaliding, or on redundancy.

5455. Terminal Leave

Terminal leave is granted so that, entitled personnel may use their last weeks in the Service to seek employment and make appropriate domestic arrangements. Regulations concerning an individual's entitlement are contained in JSP 760.

Note. *Paras 5456-5464 should be read in conjunction with JSPs 764 and 905 and may be subject to significant change following publication of the McCloud Review in 2021.*

5456. Payments on Retirement

The detailed regulations for retired pay, gratuities and terminal grants are incorporated in JSP 754. Individual enquiries from personnel concerning entitlement should be addressed to Veterans UK, Kentigern House, 65, Brown Street, GLASGOW, G2 8EX.

5457. Retired Pay

a. An officer must have completed at least 16 years' reckonable service over the age of 21 to be awarded immediate retired pay. Awards are governed by rank and length of service with specific adjustments dependent upon the period of time substantive, higher and acting rank may have been held.

b. Retired pay is not normally index-linked until age 55 when interim and subsequent pension increases are applied.

5458. Terminal Grants

When immediate retired pay is awarded, a tax-free terminal grant is paid equal to three times the annual rate of basic retired pay.

5459. Commutation

Commutation is a method of raising a lump sum in addition to the terminal grant by agreeing to receive a lower rate of retired pay. Commutation is subject to medical fitness and MOD approval. Specific regulations are applied to the amount of resettlement and life commutation that may be paid.

5460. Preserved Pension

A preserved pension and, in certain circumstances, a preserved terminal grant, is awarded to those on pensionable terms who do not qualify for an immediate pension but have completed two years' service. A preserved terminal grant of three times the annual value of the pension may be payable in certain circumstances. The preserved pension and preserved terminal grant are payable at age 60, increased in value to restore the purchasing power which they had on first award and maintained at that level through annual pension increases. The preserved pension and preserved terminal grant are not awarded to officers on gratuity earning short career commissions.

5461. Resettlement Grant

Officers who leave the Service with the award of a preserved pension may be awarded a resettlement grant provided they have completed at least nine years' reckonable service.

5462. Death Benefits

On the death of a Service person, payment of their pay or pension, or proportions thereof, to the widow/widower and entitled children is dependent upon specific factors. Details are included in JSP 754.

5463. Premature Discharge Within Three Months of Completing Service and Pension Entitlement

a. **Eligibility (Armed Forces Pension Scheme 1975 (AFPS 75)).**

(1) Ratings and other ranks who are serving on an Open Engagement (OE1) and are members of AFPS 75 are eligible to apply for premature discharge under this rule. Such individuals may apply to their CO for permission to take premature discharge not more than 91 days before the discharge date for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the OE1 discharge date. Individuals who are serving on OE1 (and have not accepted Second Open Engagement (2OE) or Extended Career (EC)) must have completed at least 21 years 274 days' reckonable service before leaving in order to qualify for an immediate pension. Pension benefits will be calculated on the basis of reckonable service earned up until the actual date of leaving.

(2) Individuals who are serving on a 2OE/EC and are members of the AFPS 75 may also apply for premature discharge not more than 91 days before the discharge date for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the 2OE/EC discharge date. Individuals in this circumstance should have already fulfilled the reckonable service requirement for an immediate pension by having completed OE1[4].

b. **Eligibility (Armed Forces Pension Scheme 2005 (AFPS 05)).**

(1) Ordinarily under this pension scheme, any individual who applies for premature discharge before their Normal Retirement Age (NRA) of 55 will qualify for a tax-free Early Departure Payment (EDP) lump sum, equivalent to three times their annual preserved pension, and a monthly taxable EDP income worth not less than 50% of their annual preserved pension. This will increase to 75% of their preserved pension at age 55. Once they reach age 65, the monthly EDP income ceases and at this point the individual will receive their preserved pension and pension lump sum.

[4] The Naval and Marines Pensions (Armed Forces Pension Scheme 1975 and Attributable Benefits Scheme) Order 2010 effective 6 Apr 10 refers.

(2) Since 6 Apr 10, however, all officers, ratings and other ranks who are members of the AFPS 05 are also eligible to apply for premature discharge under 'the 91-day rule' as long as they are serving on a commission, career or engagement that will give them a NRA of 55. These individuals may apply to their CO for permission to take premature discharge not more than 91 days before their 55th birthday for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the discharge date. The period between their actual date of leaving and age 55 will be recognised as qualifying service but not reckonable service for pension purposes. That means that the calculation of their pension and pension lump sum will be based on reckonable service earned up until their actual date of leaving and paid when an individual reaches age 55 (JSP 764 Para 0301 refers).

c. **Ineligibility.** The following personnel cannot apply for premature discharge under this rule:

(1) Officers who are members of AFPS 75.

(2) Ratings and other ranks who are members of AFPS 75, are serving on an OE1 and have already accepted and signed up to a period of 2OE/EC, since their discharge date will already have been amended to reflect the end date of the 2OE/EC.

(3) Individuals who are members of AFPS 05 whose NRA is before age 55 or who applies for premature discharge to leave before age 55 (except where permitted under the 91-day rule).

d. **Authority for Premature Release.** COs may authorise premature discharge, subject to verification of the reasons why the offer could not be held open until the normal date of discharge and clarification of the individual's pension position. The appropriate Career/Branch Manager should be advised of the change in date of discharge, whereupon the necessary JPA action will be taken.

e. **Effects on Conditions of Service.**

(1) Individuals are strongly recommended to seek clarification of the effects that any early release may have on their pension entitlement from the Veterans UK (Pension Division), noting that generic printed advice and in particular the online Pensions Calculator are not sophisticated enough to incorporate the 91-day dispensation by design.

(2) The length of service requirement for 91-day rule applicability dictates that eligible individuals will necessarily qualify for maximum Graduated Resettlement Time (GRT) and Terminal Leave (TL). GRT is designed to be taken in the period 2 years prior to discharge whereas TL is granted on completion of service. It follows that circumstances will arise when all, some or no GRT has been taken at the time early discharge under the 91-day rule is approved.

In turn, the ability to take GRT during foreshortened service will depend on time remaining, the opportunity and permission to undertake specific GRT activity. It may be possible to take GRT in lieu of TL (JSP 534 Article 0356 applies), with the effect that the service leaver is 'on duty' and entitled to duty travel and subsistence. GRT cannot be used to defer an individual's discharge date (exceptionally allowed elsewhere where GRT entitlement cannot be utilised). Eligible personnel on Terminal Leave may undertake concurrent paid civilian employment in accordance with JSP 534 Article 0357.

(3) In all cases, individual circumstances should be discussed and agreed with Line Managers, COs and Branch/Career Managers at the earliest opportunity.

5464. Other Pension Arrangements

Detailed advice concerning the transfer of pension rights and the purchase of added years and other Additional Voluntary Contributions may be obtained from Veterans UK.

5465. Discharge - Additional Procedures to be Adopted for Foreign and Commonwealth Members of the Royal Navy

Non-British recruits who do not hold British citizenship and are granted 'Exempt from UK Immigration Control'[5][6]status on joining the Royal Navy lose this status at the point they are discharged from the RN or RM. In order to fulfil the MOD's duties as a responsible employer, the Home Office's UK Visa and Immigration Team must be notified of non-British personnel who are discharged, or about to be discharged, from the Royal Navy so that appropriate arrangements can be made to regularise their immigration status in the UK, post-discharge. Commanding Officers, Career Managers, Release Centres[7] and any other units that have responsibility for the release of non-British personnel must be aware of the legal and important need to ensure that the actions outlined below are being carried out.

a. Actions to be taken:

(1) **Inform Home Office in advance of Discharge.** Where the date of an individual's discharge is known in advance, the proforma at Annex 54H is to be completed by the unit and faxed to the Home Office to enable them to prepare any paperwork necessary.

(a) In order to assist the individual with a smooth transition to civilian life, this action should be taken, wherever possible, up to **18 weeks before the actual discharge date**.

(b) The names of any spouse/civil partner or dependent children should be included. The name and address, email, telephone and fax numbers of the discharging unit must also be added. The discharging unit is to retain the original proforma within the individual's discharge file.

[5] At the point that a F&C citizen enlists into the Armed Forces, they automatically become exempt from UK immigration control under Section 8(4)(a) of the Immigration Act 1971; any existing UK visa restrictions are suspended whilst serving.
[6] This is not required in the case of Irish or Malta/Cyprus (EU) nationals, all of whom have freedom of access to the UK and do not need a vignette.
[7] Where Naval personnel are discharged from MCTC, the MCTC is to liaise with the individual's former unit to ensure that their responsibility for briefing the individual and notifying the Home Office has been carried out. If it has not, then MCTC is to assume this responsibility.

(2) **Provide Advice to non-British members of the Royal Navy in Advance of their Discharge Date.** At least five months prior to discharge Commanding Officers, Career Managers and Release Centres are to ensure that officers, ratings or other ranks are informed of the following:

(a) That if they have not sought British citizenship and wish to apply for settlement, their applications for Indefinite Leave to Remain (ILR) may be submitted on **Form SET(AF)** or for Limited Leave to Remain on **Form FLR AF** to the Home Office up to 18 weeks prior to the date of discharge (see Para 5465 sub para b). If they apply at this point their transition to civilian life will be eased as the Home Office will provide them with an 'indicative' letter to assist them in making appropriate arrangements for employment after discharge and for liaising with the relevant authorities for housing, healthcare and benefits during transition to civilian life, and be able to grant them ILR the day after their discharge providing they meet the requirements of the Immigration Rules (immigration law does not permit Service personnel to be granted ILR whilst still serving and exempt from control).

(b) It is the service person's responsibility to regularise their immigration status and that of their dependants if they wish to remain in the UK[8] and seek work after their discharge. Units must provide officers, ratings or other ranks seeking discharge with the Home Office contact details at Para 5466 sub para i and assist them in obtaining the appropriate application forms and any further information they require.

(c) Those who have served for a period of four years or more in the RN/RM will have this time taken into account by the Home Office if they, their spouse/civil partner and their dependants apply for ILR/settlement in the UK (i.e. permission to reside and work in the UK for an indefinite period). Where an individual is being medically discharged with less than four years' Service directly due to injuries sustained on operations, special arrangements are in place for either **Limited leave to Remain or Indefinite Leave to Remain** applications; additional detail is provided at Para 5466 sub para g.

(3) **At the Time of Discharge.** Commanding Officers of Release Centres are to ensure that the following actions area taken:

(a) On the final day of service, or immediately if an officer, rating or other rank refuses to release their passport, and preferably on the same page as the "Exempt from immigration control" stamp or vignette (introduced in February 2010), the individual's passport should be endorsed with the cessation stamp (see below) plus the date of discharge stamp which should appear immediately below the cessation stamp.

[8] Individuals who have not already sought UK citizenship and who have completed 4 years' service with HM Forces may apply for settlement (also known as Indefinite Leave to Remain) up to 10 weeks prior to discharge – see sub-para b.

Neutral date stamps must be used: unit stamps that identify the individual as a current or former member of the Naval Service must not be used and the 'Exempt from immigration control' stamp must not be struck through. The format and wording to be used for the cessation stamp is as follows:

Reason for exemption from immigration control ceased on [Date]

Note. *In the absence of an available stamp, this wording and the date may be written in the passport in black ink on the same page (or on the page opposite) with the 'Exempt from immigration control' endorsement.*

(b) Prior to the individual's last day of discharge or on the actual last day, the Home Office will send a letter to the unit for the officer, rating or other rank (and separately for any spouse/civil partner and dependants). The letters will normally grant the individual and any dependants 28 days 'Leave to Remain' in the UK. During these 28 days, the spouse/civil partner or dependants may continue to work but all are required to apply for **Indefinite or Limited Leave to Remain** (as appropriate) or to leave the country before this period of leave expires. Once the individual and their dependants have lodged applications for Indefinite or Limited Leave to Remain, they are able to remain in the UK legally whilst their applications are processed. Where units are aware of individuals seeking employment immediately after discharge, who need advice about working legally and their immigration status, they should refer them to the Home Office for advice. Note: Discharged Foreign and Commonwealth (F&C) individuals are not permitted to seek or engage in employment after the 28 days have expired whilst the application is pending. They do not have a continuation of leave pursuant to Section 3 (C) of the 1971 Immigration Act. It is for this reason that it is prudent to submit **an application 10 weeks prior to discharge.**

(c) If the unit does not receive the letter(s) from Home Office on the day of discharge, they should contact the Home Office Armed Forces Team; contact details are at Para 5465 sub para i. One copy of the letter(s) should be handed directly to the officer, rating or other rank who should be asked to confirm receipt by signing the letter. If the individual is not present, or if they refuse to provide a signature of receipt, the discharging officer should sign and endorse the letter accordingly. The unit is to email a copy of the signed letter(s), together with a copy of the completed Annex 54H proforma (after updating column B), to the Home Office.

b. **Further Advice to be Given on Discharge.** When the officer, rating or other rank is in receipt of the letter(s) from Home Office, they should again be reminded by the Discharging Officer that a person discharged from the Armed Forces after 4 years' service or more may apply for settlement under the HM Forces rule. The individual must be made to understand that they are personally responsible for contacting the Home Office and for applying for **Indefinite** Leave to Remain or, otherwise, to leave the country before any leave to remain they may have been granted expires. Applications for ILR should be made on form **SET(AF)** and sent, with the appropriate fee, to the address given on the form. Individuals should make it clear on the **SET(AF)** application form, which is unique to those serving in HM Forces and their family members, that they are applying on discharge and tick the category within the AF Forms **'A Former Member of HM Forces on Discharge under Appendix Armed Forces'** and provide documentary evidence of time spent in the Armed Forces. Discharging units should assist by providing individuals with a unit letter confirming the period of service.

c. **Cases Where it is not Possible to Give the Home Office Advance Notification.** Discharging units should make every effort to give the Home Office advance warning of the date of discharge from the Naval Service, even if this is only possible on the day of discharge itself. There may be occasions, however, where this does not prove possible. In such cases, discharging units should at the very least attempt to endorse the individual's passport with the cessation stamp and ensure that a copy of Annex 54H proforma giving the individual's details (and those of any dependants), including their post-discharge UK address and column B details, is sent to the Home Office. The individual should also be given the advice detailed in Para 5465 sub para a and sub para b, plus the Home Office contact details.

d. **Imprisonment Leading to Discharge.** In cases where a non-British officer, rating or other rank has committed a criminal offence and is discharged from the Naval Service and sent to a UK prison, the officer, rating or other rank's passport is to be endorsed as above and notification provided to the Home Office along with details of the sentence. There is no specific authority entitling members of HM Forces to hold the passport of a non-British citizen and **therefore** it may be helpful (for instance at courts-martial) if the Judge Advocate directs that the individual is to surrender their passport for the appropriate action to be taken. The Home Office is responsible for any subsequent administrative action. Units should seek advice from the Home Office Armed Forces Team if required. Service support to families in such cases is provided in the same way as for British Citizens in respect of continued entitlement to Service Families Accommodation or Families Maintenance Grants and advice should be sought from the appropriate JSP.

e. **Advice for Units Administering Medical Dischargees with Serious Conditions.** Current Royal Navy medical discharge procedures apply (BR1991, Chapter 18, Royal Naval Medical Service, Medical Boards). Individuals with serious medical conditions who have served for 4 years and are eligible for ILR may apply up to 10 weeks prior to their actual discharge date along with any immediate family (spouse/civil partner and dependent children under the age of 18) citing any permanent need for medical care as the reason for this. Unit letters and medical evidence should support such applications.

The Home Office will consider such cases under the normal rules. If the officer, rating or other rank is eligible for ILR, the Home Office will provide the unit with an 'indicative' letter in advance of the discharge date confirming that ILR will be granted and that the individual and their dependants will be eligible to apply for public funds. This will enable the unit, in conjunction with the individual concerned, to arrange private accommodation or to facilitate an application to an appropriate UK Local Authority (LA) for accommodation and or specialist care. Individuals seeking support from a LA normally have to demonstrate recent residency or family ties. Support and aftercare is normally provided in the UK in accordance with current Service regulations and can include assistance through the Divisional System, NS FPS, JSHAO, Veterans UK and various Naval Service charities (e.g. RNBT) and the individual's own disability/legal representatives in conjunction with any local authority support.

f. It should be noted that the current legal position is that the Home Office is unable to grant settlement/ILR until the day an individual is actually discharged from HM Forces.

g. **Medical Discharge as a Direct Result of Injuries Sustained on Operations where Less than Four Years has been Served.** Where a non-British member of the Naval Service is medically discharged as a direct result of injury sustained in an operational theatre, the requirement for them to have completed at least 4 years' service before they can qualify for a grant of ILR will generally be waived. This means that individuals discharged in these circumstances will normally qualify for ILR even if they have not completed four years' RN/RM service. Where settlement is granted, the accompanying spouse/civil partner and dependent children will normally also qualify for ILR at the same time. Commanding Officers are to ensure that individuals are briefed that they will need to submit supporting medical evidence with their application.

h. **Other Forms of Discharge with Less than 4 Years' HM Forces Service.** Prior to deciding whether to submit an application for **Limited** or **Indefinite** Leave to Remain, individuals are advised to consult the rules and guidance published on the Home Office website in order to decide what type of application may be appropriate. All applications will be considered by the Home Office in accordance with the immigration rules and the relevant guidance. The Home Office has confirmed that each case will be decided on its merits, taking account of all factors, including misconduct or criminal behaviour, and any supporting evidence submitted by the applicant e.g. concerning the source and details of any injury or medical condition. Where discharge results from injury sustained during initial training or is due to a medical condition not attributable to Naval Service, it would not normally be appropriate to waive the requirement to have completed 4 years' service prior to discharge for the purpose of considering an application for settlement. Where a substantial part of the minimum four years' service requirement has been served prior to discharge, however, discretion may be exercised by the Home Office to allow settlement. These conditions would also apply if an application was raised for settlement from an individual medically discharged as a result of a pre-existing medical condition being exposed after enlistment.

SECTION 9

RESERVE LIABILITY

5467. Reserve Liability under the Reserve Forces Act 1996

a. **Background.** An ex-Regular currently has a defined period in the Royal Fleet Reserve (RFR) on leaving Service[9]. Those in the RFR can be called out for permanent service. The Reserve Forces Act 1996 sets out the occasions on which someone can be called out (national danger, great emergency, attack on UK, warlike operations, certain other purposes as stated by the Secretary of State) and sets a maximum duration (12 months).

b. Once RFR liability has expired, individuals may still be subject to recall. This is not a Reserve Force itself, (albeit it is referred to as the Recall Reserve (RR)) rather a collective term for those liable to recall. There are far fewer reasons when an individual can be recalled, making it essentially, the final opportunity to recall a former Service Person (SP). Recall can only be for national danger, great emergency or attack on the UK[10]. Currently:

(1) A rating/other rank cannot be recalled after the age of 55, or after a period of 6 years from the date discharged and transferred to the RFR.

(2) An officer can be recalled for as long as they hold a commission (which will be until death), unless they have resigned their commission, or had their commission terminated.

c. **Informing Service Leavers of their Reserve Liability.** Part of the leave well process includes signposting reserve liability and opportunities in wider Defence. Every officer and rating/other rank leaving Regular Service, receives a letter from Staff Officer Mobilisation (SO2 MOB), explaining their RFR and Recall liability.

d. **Annual Reporting Letter.** Once an individual has left regular Service, Defence Business Service (DBS) send an annual reporting letter, as both a reminder to the individual of their liability and to update contact details held**.**

e. **Records RFR and RR.** Records are maintained of all officers, ratings/ other ranks in the RFR and RR, by CM RES RFR ADMIN, for the duration of their liability. These records can be used by Career Managers (CM) for intelligent selection or mass mobilisation in the event that Call Out and/or Recall of the RFR and RR, respectively, has been authorised.

[9] Subject to a small number of exceptions stated in Annex 54I e.g. discharge for misconduct.
[10] Reserve Forces Act 1996 Section 68.

f. **Re-joiners.** If a re-joiner has had a period of Reserve Liability at the end of their previous service, each fresh period attracts the Reserve Liability commensurate with that length of service, noting that for a rating the age at which liability ends is currently maximum is currently age 55. Once an officer has aggregated 20 years of regular service, whether continuous or broken, RFR liability to age 60 will then apply. For those who have aggregated less than 20 years, the liability will be 6 years. Due to the meaning of the phrase of 'Regular Service' those joining with former Army or RAF regular Service will have that service counted for the calculation of any RN Reserve Liability – noting that when an individual joins a different Service, they relinquish all liability from their former service. Those who become UY/SUYs, fall under the liability for officers, those who do not complete UY/SUY training will have liability as a Rating/OR.

g. **Current Reserve Liability.** When an individual is being released from Service, their reserve liability is entered into JPA by the individual's CM in all situations. For details on Reserve Liability, see Annex 54I.

ANNEX 54A

DELEGATIONS OF POWERS TO APPROVE DISCHARGES AND OTHER ADMINISTRATIVE ACTIONS

1. Discharges

Service Person	Discharge Type			Competent Authority	Delegated Authority – see Note 10	Others
RN Ratings and RM Other Ranks	Discharge SNLR	CDT	BRd 3(1) Para 5448.b.	Defence Council, Admiralty Board, Naval Secretary or any person authorised by the Naval Secretary.	Yes	See also Note 1

All	Removal or suspension From Assignment (Fault/No fault/ Without Prejudice)		BRd 3(1) Para 6006/7	NAVSEC	Yes	Yes	Yes	See also Note 9

Notes:

Discharges and other administrative actions are a Full Command issue. <u>THESE DELEGATIONS ARE TO RN AND RM COMMANDING OFFICERS ONLY</u>. Army or RAF Commanding Officers who have RN/RM personnel under their Command MUST refer any discharge or other administrative actions to the appropriate single service (i.e. the RN) for advice and action. For RNR/RMR personnel refer to BRd 3(2).

1. Discharge may be authorised by the individual's CO (as defined for the purposes of Discipline in accordance with AFA 06), or for an individual in custody in MCTC the CO of the parent unit, provided the CO is OF4 rank or above. Where the individual's CO is OF3 or below, they must apply for discharge to the first superior officer in their discipline Chain of Command of OF4 rank or above. In the event that a CO of OF4 rank or above is unavailable, the action can pass to the first superior officer in their discipline Chain of Command. Where any CO considers that an individual is not culpable for their positive CDT result, application for retention must be made to the CO's 1 higher authority (for the purposes of AFA 06) or Dir P&T/NAVSEC where the 1* HA is not a member of the Naval Service. Any application for exceptional retention in cases concerning drugs misuse must be made to Dir P&T/NAVSEC. All Deciding Officers MUST take legal advice from the Regional Legal Office prior to disclosure AND prior to issuing a decision letter.*

2. Discharges and administrative actions annotated with "see also Note 2" always require an application. Where the CO is OF4 or below, these actions must be approved by the first OF5 in the individual's discipline Chain of Command (as defined for the purposes of discipline in accordance with AFA 06), or for an individual in custody in MCTC the discipline Chain of Command of the parent unit. Where the individual's or parent unit's CO is an OF5 or above, the action must pass to the 'immediate superior'. The deciding OF5 or above MUST take legal advice from the Regional Legal Office prior to disclosure AND prior to issuing a decision letter.

3. Discharges and Administrative actions annotated with "see also Note 3" may be approved by the individual's CO (as defined for the purposes of discipline in accordance with AFA 06), or for an individual in custody in MCTC the CO of the parent unit, unless the CO is OF3 rank or below in which case they must refer the matter to a first superior officer in the CO's discipline Chain of Command of OF4 rank or above. All Deciding Officers MUST take legal advice from Regional Legal Office prior to disclosure AND prior to issuing a decision letter.

(Continued)

Notes: (Continued)

4. **Discharge SHORE (DUDT).** Delegated post holders are:

HMS RALEIGH	Phase 1 Trainees	CO, Cdr INT and The Commander/XO
HMS RALEIGH	Phase 2 Trainees	CO, OC RNSMS, The Commander/XO and Cdr INT
DCLPA	Phase 2 Trainees	Head of Navy Training (CO FSTW)
CTCRM	Phase 1 & 2 Trainees	CO CTW and Commandant CTCRM
Royal Marines Band	Phase 1 & 2 Trainees	Commandant CTCRM and CO Specialist Wing
HMS COLLINGWOOD	Phase 2 Trainees	CO, OC Victory Sqn (OC VS) and The Commander/XO
HMTU	Phase 2 Trainees	CO CWD
HMS SULTAN	Phase 2 Trainees	XO HMS SULTAN, Cdr T, Cdr ME and OC RNAESS
RNAS CULDROSE	Phase 2 Trainees	Cdr A&T
RNAS YEOVILTON	Phase 2 Trainees	Cdr AE and Cdr A&T
CO Training Clyde	Phase 2 Trainees	CO Trg Clyde and OC SMTG
DMA	Phase 2 Trainees	CO Defence School of Healthcare Training (DSHT)

(Continued)

Notes: (Continued)

5. ***Discharge SHORE (TU).*** *Where a Senior Medical Officer or Civilian Medical Practitioner classifies the rating as having an irremediable degree of Temperamental Unsuitability, discharge may be approved by the first RN OF5 in the individual's discipline Chain of Command, or for an individual in custody in MCTC the discipline Chain of Command of the parent unit. For those who are assessed as having a potentially remedial degree of Temperamental Unsuitability, a minimum of 3 months' warning period applies; discharge may then be approved as above. Officers on the untrained strength who are considered to be Temperamentally Unsuitable will be Compulsory Withdrawn From Training.*

6. *Dir P&T/NAVSEC is authorised to approve discharge from the Service of officers on the trained strength up to and including OF6. Dir P&T/NAVSEC is authorised to remove an officer's commission for officers up to and including OF6. For officers of OF7 rank and above, approval for discharge / acceptance of resignation of commission is at the Admiralty Board's discretion.*

7. ***Officer Withdrawal from Training.*** *CO BRNC, CO HMS Raleigh and Cmdt CTCRM respectively are authorised to approve Compulsory Withdrawal from Training (CWFT) cases involving RN and RM officers undertaking Phase 1 training. Navy People Hd PSP and Navy People PSP Emp Pol SO1 are authorised to approve CWFT for all Phase 2 cases and Exceptional Voluntary Withdrawal from Training cases.*

8. ***Conscientious Objection.*** *Dir P&T/NAVSEC is authorised to approve early termination and resignation of commission for officers who have completed Phase 1 training as well as compassionate discharge for ratings and other ranks on the grounds of conscientious objection. Since resignation of commission is only applicable to officers who have completed Phase 1 training, officers under Phase 1 training may request to withdraw voluntarily from training for any reason prior to reaching their Premature Termination of Career Training (PTCT) point which will normally be accepted; it is not necessary for Dir P&T/NAVSEC to approve where a voluntary withdrawal from training request is appropriate.*

9. ***Removal from Assignment.*** *Dir P&T/NAVSEC has the authority to remove from assignment any member of the Naval Service below OF7, including those in Command assignments (Command assignments are those as stated in BRd 3(1) Ch 59 Appendix 1 to Annex A). Dpty Dir People Del has delegated authority to approve Removal from Assignment of OF3s and below providing they are not in Command. Hd CM, Hd WFP&T, Hd People Ops and Hd Policy, Strategy & Plans and Dpty Dir People Strat have delegated authority to approve the removal of ratings or other ranks from assignments.*

(Continued)

Notes: (Continued)

10. *The following have delegated authority to discharge a rating or other rank SHORE, SNLR or Compassionate in accordance with Chapter 54: Dpty Dir People Del, Dpty Dir People Strat, Hd Policy, Strategy & Plans, Hd CM, Hd WFP&T, Hd People Ops.*

11. *Administrative actions annotated with "see also Note 11" may only be approved by COs of 2* Rank - S332 AFA 06 refers. Otherwise, COs must apply to a superior officer in their discipline Chain of Command (as defined in BRd 3(1) Table 20-1) who is an OF5 or above. The deciding OF5, or above, MUST take legal advice from the Regional Legal Office prior to disclosure AND prior to issuing a decision letter.*

12. *Requests for a RoS waiver will be considered on a case-by-case basis by a RoS Board which for OF4 and below will consist of Navy People-PSP Emp Pol SO1 and the relevant Branch Manager (or WFPT Head) with advice from Navy Legal. For OF5 and above the Board will consist of Navy People SOCTM NA, Navy People-SOCTM Head and WFPT Head. The Board will also consider the recovery of any costs for Training or other RoS.*

ANNEX 54D

DISCHARGE ON THE GROUNDS OF TEMPERAMENTAL UNSUITABILITY

Points of Contact: CA Psych to MDG(N) and NAVY LEGAL-EMPLOYMENT LAW SO1

SECTION 1 - INTRODUCTION

1. Discharge Temperamentally Unsuitable - Policy

Service persons (both officers and ratings) may be discharged on the grounds of temperamental unsuitability (TU). The grounds for the compulsory withdrawal from training (untrained strength) or administrative discharge (trained strength) for officers is set out in Para 5440 and Para 5441 respectively; the discharge SHORE of ratings and other ranks is shown in Para 5445. Discharge on the grounds of TU is an executive action and not a form of medical discharge. Each application must be supported by a medical report. This Annex describes the referral and assessment process, which is the same for all personnel. The delegated powers to approve such discharges, are as detailed in Annex 54A.

2. Discharge TU Authorities

The CO should be involved in the instigation of a referral for assessment of TU. The Unit Medical Officer (MO)/Civilian Medical Practitioner (CMP) is responsible for distinguishing those who have mental health problems that are remediable or require medical discharge from those who need to be solely managed by the Executive. The MO/CMP, in cases considered to display TU (whether potentially remediable or irremediable – see below), will classify the degree of TU and will also indicate, in cases of Irremediable TU, the degree of urgency with regard to application for discharge. The CO is responsible for consideration of an application for discharge or any further administrative action recommended.

3. Explanation of TU Terms

The following paragraphs outline the meaning of terms with regard to TU.

4. Temperamental Unsuitability (TU)

Temperamental Unsuitability means a persistent[1] and obvious[2] failure by the individual to adapt to the basic, but unique demands of Service life. These demands include toleration of:

a. Separation from family.

b. Naval discipline and military hierarchy.

c. The need for self-discipline.

d. Close quarter living.

Although entry screening and initial training will identify most individuals who are unable to adapt to the requirements of the front line, in some individuals it will only become apparent after this period.

---

[1] Persistent - similar maladaptive behaviour or symptoms manifest in different service situations over a reasonable period of time, i.e. some months.
[2] Obvious - maladaptive behaviour or symptoms that are not trivial and that come to the attention of medical, welfare or executive authorities and that do not respond to appropriate management.

5. Temperamental Unsuitability - Potentially Remediable (TU(R))

This person presents with difficulties adapting to Service life, but there are reasonable grounds to believe that they might adapt with support.

6. Temperamental Unsuitability - Irremediable (TU(I))

This person's temperament is such that, in all probability, they will be incapable of making the necessary adaptation to Service life.

SECTION 2 - PROCESS FOR REFERRAL, ASSESSMENT AND APPLICATION FOR DISCHARGE

7. Procedure

a. Responsibilities for referral and assessment of personnel considered potentially TU are laid out below, starting at Para 10. In those personnel considered to display:

(1) **TU(R)** - the MO/CMP will use the following wording in their report:

"In accordance with Annex 54D, it is considered that [rank and name] displays Potentially Remediable Temperamental Unsuitability."

It is recommended that such individuals should be placed on a three-month CO's warning during which time they should receive appropriate medical, divisional or welfare support and administrative action to assist them in settling within the Service environment. If at the end of that period there is no indication of any improvement, consideration should be given to discharge action or a further period of warning. Further assessment by a MO/CMP would not normally be required for a discharge application to proceed.

(2) **TU(I)** - the MO/CMP will use the following wording in their report:

'In accordance with Annex 54D, it is considered that [rank and name] displays Irremediable Temperamental Unsuitability and it is recommended that [they] be (urgently) considered for [compulsory withdrawal from training/administrative discharge/discharge SHORE]."

It is normal in this case that action should be taken to apply for discharge unless there are other overriding Service considerations. Refusal to act on the recommendation would therefore be exceptional and may raise risk management issues. In such cases further discussion should occur between the CO and the recommending MO/CMP via a case conference[3]. In cases where an urgent consideration is recommended, discharge action should be considered immediately.

b. Cases referred for assessment, but considered not to display TU may be more appropriately managed in accordance with Para 10 sub para f. This also applies to those displaying some features of TU, but clearly motivated to remain in the Service.

8. Recommendations and Approval

a. Approval for discharge is IAW Annex 54A. The following rules will apply:

(1) Recommendations for officers (trained strength), ratings or other ranks administrative discharge or discharge SHORE on the grounds of TU, under the terms of this instruction, are to be forwarded to the relevant Regional Legal Office (see Annex 1E) for legal advice prior to consideration by the relevant Deciding Officer.

[3] It is recommended that this includes representatives from Medical/Welfare/Chaplaincy/Executive and the patient and their DO.

(2) Recommendations for the compulsory withdrawal from training of officers on the untrained strength on TU grounds are to be forwarded to the Navy Command Headquarters Terms of Service team.

9. Re-entry of those Discharged Temperamentally Unsuitable

If individuals who have previously been discharged as TU apply to re-enter the Service, the following mandatory guidelines will be applied:

a. If they have previously been assessed as displaying a Severe or Irremediable degree of TU, they will not be allowed to re-enter unless a specific caveat has been made at the time of their recommendation for discharge.

b. If they have previously been assessed as displaying a Mild, Moderate or Potentially Remediable degree of TU, but now appear to have matured significantly or undergone a change of circumstances, they may be considered for re-entry but must be referred to the office of the Senior Medical Officer (Service Entry) (SMO(SE)). Where there is doubt about re-entry , they will be referred to the Consultant Adviser in Psychiatry for formal psychiatric assessment by a Consultant Psychiatrist.

10. Responsibilities of the Executive

a. When it comes to either executive, medical or welfare attention that a person is failing to adapt to Service life, the first action is for the Divisional Officer to address the matter. Whilst TU is not a mental illness, behaviour can manifest as:

(1) Subjective symptoms of anxiety or depression specifically related to being in the Service, or some specific aspect of Service life.

(2) Poor motivation to remain in the Service.

(3) Maladaptive coping mechanisms such as deliberate self-harm[4], use of alcohol[5] or other substances to manage distress or disciplinary problems.

(4) Immaturity.

b. Sensitive enquiry into aspects of their performance should be conducted and simple adjustments to their environment considered. This may include:

(1) Divisional counselling and support.

(2) Compassionate action or other welfare support.

(3) A job change or new assignment.

(4) A branch change (which may include a Service arm change).

[4] See Para 2417 for advice on management of Deliberate Self Harm.
[5] Para 2138 and QRRN Chapter 36 give advice on the management of Alcohol problems.

(5) Psychological support from Primary Care or Mental Health services.

(6) Simply the passage of time.

c. Should this support be ineffective, the CO should consider, with medical staff, an assessment for TU.

d. COs have a responsibility to ensure that the MO/CMP is provided with as much information on the person referred as possible. For a valid assessment to be given, the person must be accompanied at assessment by full Medical and Service documentation, including an up-to-date and comprehensive F Med 1041 report from the ship, establishment or unit in which the individual has been serving. Any other relevant information should also be provided. The more information available to the MO/CMP, the more accurate and helpful will be the recommendations made. It is essential that the F Med 1041 on any individual for whom a discharge recommendation has been signed by the Commanding or Executive Officer of the ship, establishment or unit in which the individual is serving, in order to ensure that all other appropriate avenues of support or discharge have been properly considered. Individuals landed for assessment should be accompanied by F Med 1041 from the ship in addition to any report raised in their subsequent shore establishment. No recommendation for discharge will be made on an individual accompanied by F Med 1041 signed only by a Divisional Officer. Failure to provide necessary documentation may result in delay in any recommendation being made.

e. If a branch or arm change is recommended and the CO agrees, administrative action should be considered to test the individual's aptitude for different employment. Such a recommendation under the terms of this Annex should not lead to circumvention of usual procedures and requirements of a branch or arm change request. Should such a change prove not possible then administrative discharge should be considered. It should be noted that, as every branch involves sea-going liability, an individual's ability to live and work at sea should be the pre-eminent consideration.

f. If it is clear after medical assessment that the individual has the ability to adapt, but does not wish or try to do so, other executive forms of administrative discharge may be more appropriate. A warning for discharge under another category (e.g. Inadequacy or Character and Leadership) might be more appropriate.

g. Where an individual is considered to display a severe degree of TU and a recommendation is made for discharge, irrespective of their medical category, the person will be deemed unfit for their primary role in their current assignment.

h. Where a Service Person remains in service after a TU assessment and then adapts to the Service, as evidenced by an annual report, the paperwork within their personal files relating to their assessment should be destroyed.

11. Responsibilities of the Primary Care Medical Officer/Civilian Medical Practitioner

a. On occasion the Service Person will present to a MO/CMP before the Executive are aware of any problem. The MO/CMP, if satisfied that there is no formal psychiatric illness, should in the first instance refer the person back to their Divisional Officer for management as outlined in Para 1. In all cases, should a referral to a Psychiatrist be considered necessary for assessment of psychiatric illness, the MO/CMP should arrange for full medical documentation to be available to the Psychiatrist and assist the Executive with their responsibilities where required[6]. An appointment will not normally be allocated until this documentation is available.

b. Careful consideration should be given to medical downgrading of personnel awaiting assessment of TU or during a period of executive management of TU(R). Downgrading a person medically confers a powerful message that they have a medical problem and assistance to a person in adaptation is hindered if the person cannot work in a sea-going unit. Branch or arm changes can only proceed if the person is in a medical category of P2 (MFD) or another permanent medical category that allows deployment. If the Primary Care MO/CMP is in doubt as to most appropriate medical category to apply, then they should liaise with their Principal Medical Officer (PMO) or nearest Department of Community Mental Health.

c. In order to make an assessment of TU the Medical Officer or Civilian Medical Practitioner must be a qualified General Medical Practitioner registered with the GMC and have a minimum of three years military primary healthcare delivery experience.

d. In assessing an individual's temperamental suitability for continued service, sufficient time should be allocated by the MO/CMP to make a detailed and informed assessment. Consideration will be given to the person's pre-Service, Medical and Divisional records, personality traits and cultural factors with regard to the individual's ability to provide reliable service in their primary military task. The presence of potentially maladaptive personality traits does not in itself indicate that an individual is unable to adapt and may not necessarily lead to a discharge recommendation. Evidence of TU would normally become clear within the first 2-3 years of service, but occasionally individuals may not present until specific circumstances reveal their maladaptive traits. In cases where TU(I) may be in doubt the opinion of a Consultant Psychiatrist or Senior Psychiatrist should be sought.

e. The medical report is not a clinical assessment for medical treatment but an employment recommendation. Reports should be detailed enough to allow the executive authority responsible for considering discharge to appreciate the facts leading to the medical opinion. Nevertheless, although reports should carry the caveat OFFICIAL-SENSITIVE PERSONAL, attention should be paid to medical confidentiality. Good practice is to achieve written consent from the subject of the report for information to be passed to the CO. The report should usually include: brief circumstances of the referral; an outline of the performance problems emerging as evidence of poor service adaptation; and predisposing factors to poor service adaptation.

[6] Guidance for the Executive in compiling the F Med 1041 is available in Para 2813 Referral of a Service Person to Mental Health Services.

The medical report should be signed by the examining MO/CMP and countersigned/ratified by the Principal Medical Officer (PMO), Senior Medical Officer (SMO) or a senior CMP. Where only one doctor is available within a medical centre the medical report should be signed by the referring MO/CMP and a countersigning PMO/SMO/senior CMP from another medical centre or the Regional Clinical Director (RCD). An example medical report is available at Appendix 1 which may be used as a template.

f. The medical opinion should cover:

(1) A view on whether treatment or other environmental adjustment is likely to lead to improvement.

(2) A recommended medical category, which may be a reduced category even though formal psychiatric illness is absent.

(3) A recommendation for discharge using the proscribed format in Para 7 sub para a.

(4) A recommended medical category should discharge be recommended by the executive.

(5) Clarification, where possible, of the risk of any future maladaptive behaviour.

(6) Finally, the report should state that executive held copies should be destroyed once the service person has proved they have adapted to Service life.

g. In complex cases it may be appropriate to seek a second opinion from a Service Psychiatrist.

APPENDIX 1 TO ANNEX 54D

TEMPERAMENTAL UNSUITABILITY MEDICAL REPORT EXAMPLE/TEMPLATE

Temperamental Unsuitability Medical Report Example/Template can be found in the Forms area of the Homepage.

ANNEX 54E

TYPES OF DISCHARGE AND SUPPORTING DOCUMENTATION

Type of Discharge	Application letter from CO and enclosures (must be disclosed to subject to ensure subject knows case against them)	Representation or Waiver of right to make a Representation (signed) (the right to a fair hearing)	SPEC Report in support. (if App for discharge, then must state if recommended for further service or not)	Evidence of warning process (Warning forms/SJARs/quarterly reports)	C57 or report of civil conviction	Attitude to Fitness Warnings iaw RNFT Policy and Protocols Documents	Appropriate medical supporting documents	May be authorised by COs of OF5 and above	References / Comments

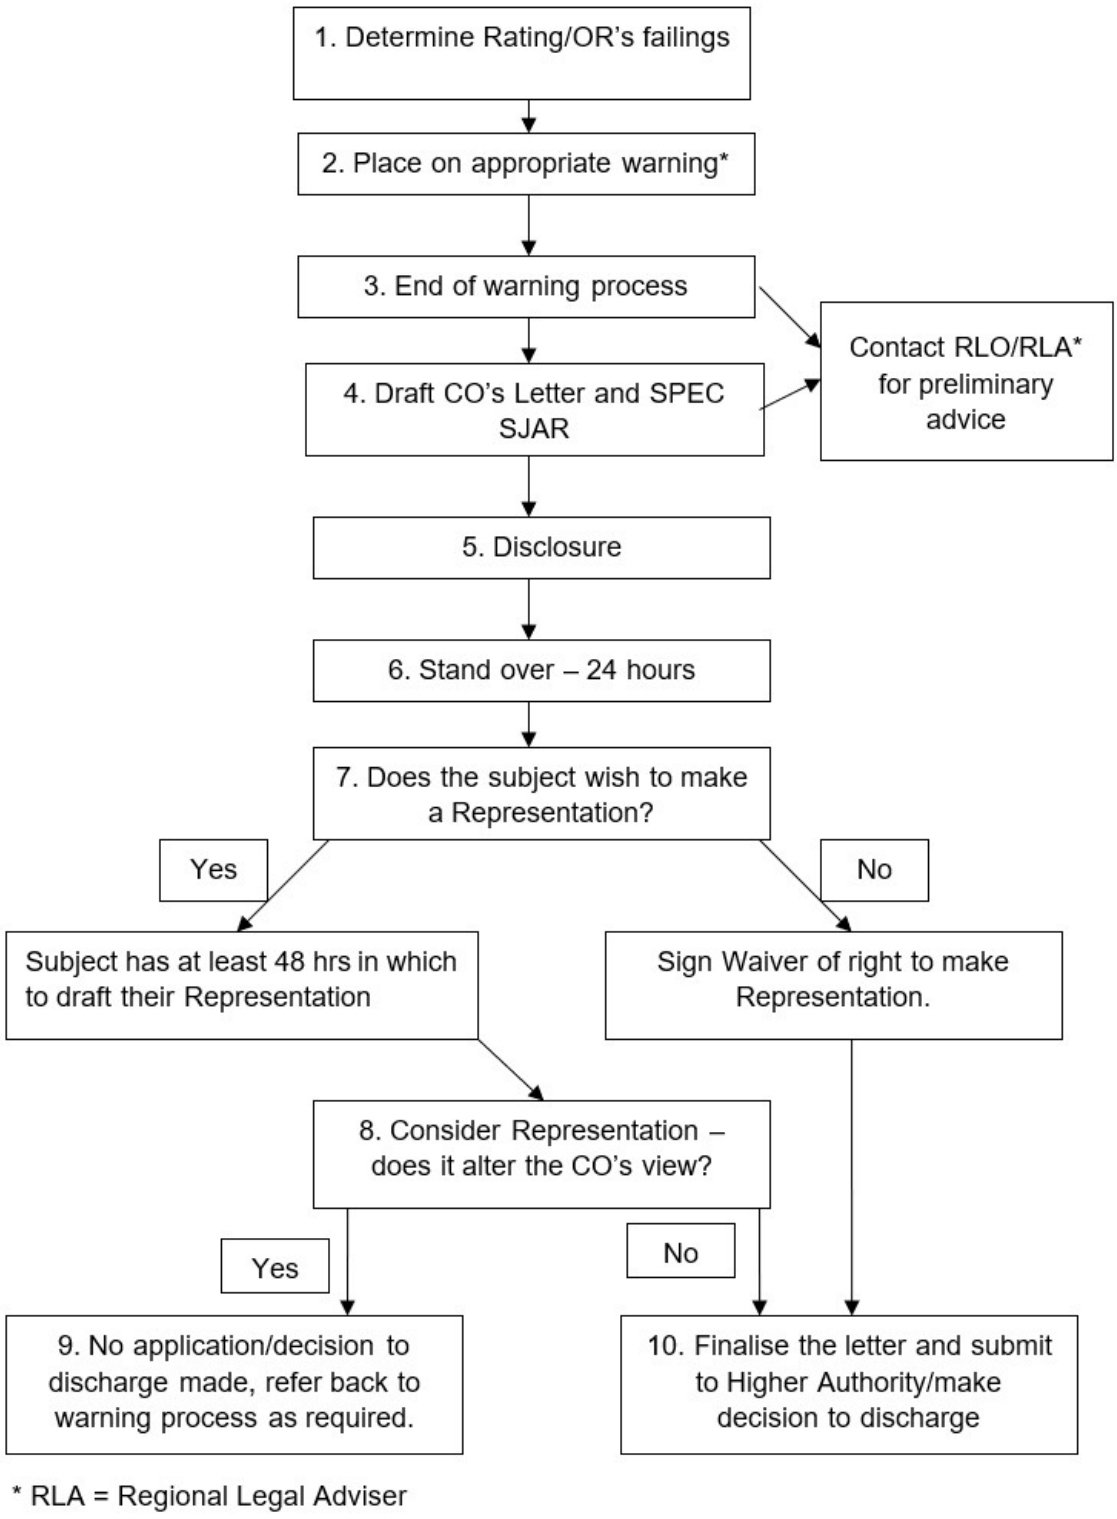
ANNEX 54F

COMMANDING OFFICER'S STEP BY STEP GUIDE TO THE DISCHARGE PROCESS

The following is intended as a guide to aid the Commanding Officer (CO) and must be used with reference to the relevant parts of Chapter 54.

Figure 54H-1. Discharge Process



* RLA = Regional Legal Adviser

* In cases of discharge for Drug misuse/CDT, compassionate, Temperamental Unsuitability, Best Interests of the Service or medical reasons, it is accepted that there is no necessity for previous warnings (Para 5442).

Explanatory Notes.

1. The subject's failings should be identified by their Line Manager or any alternative method which can be formally documented and called upon as evidence as required.

2. The subject should be placed on an appropriate warning (see Para 5443 and Para 5444).

3. The warning process must be followed in accordance with Chapter 57. At the end of the warning process, the CO must determine which course of action is most appropriate. If the CO decides that an application for the subjects discharge is the correct course of action, then the flow diagram is to be followed to completion.

4. A CO's letter is to be drafted in addition to a SPEC SJAR. The letter should be addressed to higher authority as required, or to the individual where the CO has power to authorise discharge. It should explain and contain all supporting evidence that justifies the CO's decision to consider discharge. Further guidance on the contents of this letter is at BRd 3(1) Annex 1E. Advice must be sought from the Navy Command Headquarters Casework Cell or appropriate Regional Legal Adviser prior to disclosure to the subject.

5. The CO's letter and supporting evidence must be disclosed to the subject. This ensures that the discharge, if approved, adheres to the Rules of Natural Justice and cannot provide recourse against the RN if the discharge is later challenged by the subject.

6. The subject must be given a period of at least 24 hours (or such longer period as considered/deemed reasonable in the circumstances) in which to read through the draft application.

7. If the subject decides to make a Representation, they are allowed a further 48 hours (or such longer period as considered reasonable in the circumstances) in which to complete their written comments (they should be provided with support by an assisting officer as required) and sign and date the Representation. If the subject decides against making a Representation, then they are to sign and date a waiver of their right to make a Representation against their discharge.

8. The CO must consider any Representation and determine whether any of the subject's comments alter the decision to consider their discharge.

9. If the CO's view is changed by the subject's comments, then no application is to be made and the subject is to be reviewed in accordance with the warnings process as required.

10. If the CO's view is unchanged by the subject's comments, then the application is to be finalised. The CO must make reference to the subject's Representation (or absence of a Representation) and state the reason why they do not consider them sufficient to deter the CO from continuing with the discharge.

11. If the CO is the officer authorised to approve discharge, they should seek legal advice before making his decision. The CO should then notify the individual of their decision in writing, giving full reasons for it and reminding the individual of their right to state a Service Complaint against discharge where appropriate. A full copy of all documents must then be sent to the Casework Cell for archive.

12. If the CO is applying to higher authority, the following must be submitted to the Deciding Officer:

a. Finalised application for the subject's discharge. It must be signed and dated by the CO (unsigned e-copies may be provided in the first instance but originals should be provided before the case will be presented to the Deciding Officer).

b. Signed and dated Subject's Representation or signed waiver (unsigned e-copies are unacceptable).

c. The documents listed in the table at Annex 54E.

d. Any other documents/evidence the CO considers relevant in support of the application and which have been disclosed to the individual.

13. The officer authorised to approve discharge should make their decision. The approving officer should then notify the CO of their decision in writing, giving full reasons for it and direct that the Subject be reminded of their right to state a Service Complaint against discharge where appropriate. A full copy of all documents must then be sent to the Casework Cell for archive.

14. Copy Addressees

a. The following copy addressees should be included on decision letters:

b. Drugs related matters - NAVY PEOPLE-TRG-HQ N9 EXEC SO1
WO1 NAVY NPS-EXEC CDT WO1

c. Decisions authorising discharge - UKSV-Exceptions-Grp (MULTIUSER)
NAVY PSYA-PERSONNEL SECURITY GRP (MULTIUSER)
NAVY PCAP-CM MAILBOX (MULTIUSER)
NAVY LEGAL-RLO MAILBOX (MULTIUSER)

15. The relevant Head of Fighting Arm is to be informed by the CO in all cases that have not led to the individual's discharge but where concerns are raised over an individual's suitability to perform their professional duties to a satisfactory standard that cannot be adequately addressed through the normal warnings process. For example, concern arises that a medical branch rating/officer may be misusing drugs/alcohol which does not lead to their discharge. This should be raised to ACOS Med.

HM FORCES/HOME OFFICE DISCHARGE PROFORMA

HM Forces/Home Office Discharge Proforma *(Downloadable version available in BRd 3(1) Forms Section)*

ANNEX 54I

RESERVE LIABILITY/ELIGIBILITY GUIDE

(Ratings and Other Ranks are hereinafter referred to as RANKS)

1. Introduction

The Reserve liability of every individual who leaves the Service must be addressed and the basic details recorded into JPA, which is used to populate their Certificate of Service upon termination; in all situations recording these details into JPA is the responsibility of the Career Manager (CM).

2. To which Reserve Forces Act (RFA) is the Service Person (SP) Subject?

There is no field on JPA that indicates whether a Service Person (SP) is subject to Reserve Forces Act 1996 or 1996(12) 3. To arrive at that decision, the CM must look at the SP's record and determine which RFA it is. So, in each individual case, the CM is required to look back at the SP's record and decide to which Act they are subject. The RFA the SP is subject to is defined as follows:

a. If the SP joined the Service before or has re-engaged before 1 Apr 15, they have a RFA 96 liability.

b. If the SP joined on or re-engaged after 1 Apr 15 then they will have a RFA 96(12) liability.

3. Eligibility

Other parameters must also be considered for eligibility. An SP is not eligible for Reserve service, irrespective of whether they're RFA 96 or RFA 96(12) and are not to be enrolled in the Reserves. If any of the following criteria applies:

a. **Officers.**

(1) Has not completed a minimum of 2 years in the Royal Navy.

(2) Has been discharged with a JMES that includes L6 or M6[1].

(3) Has been discharged for misconduct or is "Not recommended for further Naval Service" in their final OJAR.

(4) Has resigned their Commission or has had their Commission terminated.

(5) Is a female who joined the service before 1 Apr 97 (and has not volunteered for Reserve liability.

b. **Ranks.**

(1) Has not completed a minimum of 2 years in the Royal Navy.

[1] Joint Medical Employment Standard of L6 "Unfit for service in the land environment" and M6 "Unfit for any duties in the maritime environment".

(2) Has been discharged with a JMES that includes L6 or M6.

(3) Has been discharged SNLR or is "Not recommended for further Naval Service" in their final SJAR.

(4) Is a female who joined the service before 1 Apr 97 (and has not volunteered for reserve liability).

4. What Types of Reserve and their Liability

All eligible leavers will initially join the Royal Fleet Reserve (RFR). Officers, who have served less than 20 years, will transfer over to the Recall Reserve (RR) after 6 years' service in the RFR, as per the table below:

	20 years or more as a member of the regular forces	Type of Reserve	Liability
Officer	Yes	Royal Fleet Reserve	To age 60.
	No	Royal Fleet Reserve	6 years or until age 60 (whichever is sooner) in the RFR. Thereafter, Recall Reserve[2].
Rank	N/A	Royal Fleet Reserve	6 years or until age 55, whichever is the sooner.

5. Career Manager Actions

For all Service Leavers, the Career Manager (CM) is to carry out the following actions, detailed guidance can be found in the JPA user guide:

a. **Populating the Reserve Liability Supplementary Roles Field in JPA.** Using the guide above, the SP's CM, should be easily able to identify whether a SP has Reserve liability and complete the Supplementary Roles field in JPA. If the SP is not eligible (see para 3 above) then this field is annotated with 'No Reserve Liability'.

b. **Ensuring current contact details are correct.** It is important that the contact details of the SP are checked and correctly entered in JPA, by the CM, notably their personal email address, mobile telephone number, and permanent home address. These details are to be assured by Release Desks when processing a Service leaver and that the details are recorded in JPA.

c. **Transfer of Career Manager at termination.** The current CM is to transfer the individual to their new CM, on their SP's termination date, by amending their new CM tag in JPA to 'NCMRESRFR', who thereafter is responsible for managing their records after leaving the Service.

6. Queries

Any queries can be made to Royal Fleet Reserves,1-Deck, Henry Leach Building, Whale Island (NAVYPEOPLE-CMRESRFRMAILBOX@mod.gov.uk).

[2] Officers under RFA 96, are liable for recall for as long as they hold a commission, but it is unlikely that they will be recalled after the age of 60.

Date:

WAIVER OF RIGHT TO SUBMIT A REPRESENTATION

1. On [*Date*], I was seen by *Cdr A A Smith RN, Commanding Officer HMS CERES*. I was informed by *them* that application was being made to the Higher Authority for my *Discharge SHORE (Inadequacy - RNFT)* in accordance with *BRd 3(1) Para 5445 (3)c.*

2. I was reminded of my right to submit a Representation against this application in accordance with BR 3(1) Para 5449 sub para b. In order to aid my decision, I was given a copy of *Cdr Smith's* application letter and a copy of all associated paperwork that *they intend* to submit to the Higher Authority to support the application.

3. I was given a minimum of 24 hours to decide whether I wished to submit a Representation, however, I have waived this right and have chosen not to submit one.

4. I am aware that, if this application is approved, I will have the right to submit a Service Complaint in accordance with JSP831 against the decision.

ANNEX 54K

OPTIONAL EXIT POINTS FOR SUBMARINE SERVICE PERSONNEL

1. Introduction

JSP 754 provides single Services with the ability to implement Optional Exit Points[1] (OEP) as one of the workforce mechanisms aimed at promoting retention.

2. Optional Exits Points Structure

The OEP structure for all submariners came into force on 1 Feb 15 and is as follows (for clarity, examples are provided at Para 7):

a. Two fixed points in each calendar year: 31 May and 30 Nov.

b. Minimum notice for a particular OEP is 18 calendar months. This means that the latest date for application for a 31 May OEP is 30 Nov, 2 calendar years prior and for a 30 Nov OEP is 31 May in the preceding calendar year. Applications may be made at greater than 18 months' notice once an individual meets the eligibility criteria at Para 3 below.

c. There is no option to accelerate exit via OEP - see Para 6.b below.

d. Once an OEP application has been approved, this sets the earliest exit date by the OEP route. Therefore, there is no recourse to withdraw an OEP application and then submit another for an earlier date.

3. Eligibility

a. OEPs are available to personnel in the following categories, providing that they have sufficient time left to serve to fulfil the notice requirements at Para 2:

(1) Ratings serving on an EC who do not have preserved rights under the previous OEP structure detailed in Para 4 below. In effect, this encompasses personnel who accepted an EC/ES3 offer after 1 Mar 14.

(2) Ratings serving on an EC(15) who have preserved rights as detailed in Para 4 below, but who have passed the 32 years' reckonable service point[2].

(3) Officers serving beyond their Immediate Pension Point (IPP) or Early Departure Payment point (EDP)[3].

---

[1] Each Service operates manning mechanisms with the aim of 'pulling' personnel through to a certain period of service thus aiding retention.

[2] The distinction is provided because personnel on EC15 beyond 32 years' reckonable service have no opportunity to access the new OEP structure, whereas other individuals can access the structure detailed here by accepting a new EC offer.

[3] AFPS 75 IPP - 16 years' service beyond the age of 21. AFPS 05 EDP - 18 years from date of entry or age 40, whichever is later. AFPS 15 EDP - 20 years from date of entry or age 40, whichever is later. For individuals with preserved rights under AFPS 75 or AFPS 05, the IPP/EDP definition pertaining to the relevant legacy scheme will remain extant under AFPS 15.

(4) Ratings in the Submarine Service serving on an EC that was accepted during the period when OEPs were previously available (before 28 Feb 14) may apply with greater than 12 months' notice to leave at a pre-determined exit point as detailed below:

(a) 22 years reckonable service[4] (i.e. completion of the Open Engagement (OE)).

(b) 26 years reckonable service (i.e. completion of the OE and 4 years of an EC).

(c) 29 years reckonable service (i.e. completion of the OE and 7 years of an EC).

(d) 32 years reckonable service (i.e. completion of the OE and 10 years of an EC) (for those personnel serving on EC(15)).

b. To facilitate compatibility with New Employment Model (NEM) terminology, the terms 'Extended Career' and 'beyond the IPP/EDP' align with Employment Stage (ES) 3 under NEM. OEPs are only available to ratings on 2OE/EC/ES3 engagements, but not serving on a subsequent EoS, and to officers on FTC/FCS engagements, but not serving on a subsequent EoS. For individuals undertaking Tailored Careers, eligibility for OEPs is a matter for individual negotiation.

c. Only ratings holding the ranks of OR2–OF4 who draw RRP(SM) on a Continuous Career Basis will be entitled to the Reserve Band. Officers of OF5 draw RRP(SM) on a Non-Continuous Basis and have no entitlement to the Reserve Band therefore RRP(SM) will cease when the individual is assigned out of a RRP(SM) tagged PID whether an OEP has been submitted or not. OF6 and above have no entitlement to RRP(SM)[5].

4. Promotion Eligibility having Opted for an Optional Exit Point

a. The following promotion eligibility rules are in place for those personnel who opt for an OEP:

(1) Ratings who have had an OEP approved will remain eligible for selection for promotion, provided that their revised Termination Date is later than the CPD for that particular board. Subsequent promotion will be conditional on the individual applying to withdraw their OEP and that application being approved.

(2) Officers who have had an OEP approved will have their Termination Date revised. This will adjust their promotion zone exit point, as described in Annex 66B, and may result in them not being eligible for selection for promotion.

(3) Officers and ratings who submit an OEP after being selected for promotion will be considered to have submitted their notice as detailed in Para 6712.(e) and will automatically be presumed to have refused promotion and will have their selection cancelled.

[4] Reckonable service being that which counts for engagement purposes, i.e. from age 18 for those on the OE.
[5] The authority for the payment, and payment basis, of RRP(SM) is JSP 754 Chap 5 Sect 3.

b. Any rating who has submitted an OEP prior to 5 Mar 18 will retain legacy rights to the rules in RNTM 251/15 Para 10.

5. Application Process

a. Applications to leave at a pre-determined exit point must be made by completing the form at Appendix 1 to Annex 54K and forwarding it to the appropriate Career Manager. Applicants must not apply for Early Termination via JPA, as this will result in the removal of RRP(SM) and, where appropriate, RRP(NP). Career Managers are to retain a hard copy of all applications made.

b. OEP applications must be signed and dated by the Commanding Officer no later than the latest application date described in Para 2 above. Applications for a particular OEP must be received by the Career Manager within 14 days of latest application date, otherwise they will be automatically adjusted to reflect the next available OEP, and the applicant informed.

c. The first date for an individual to make a valid application is as follows:

(1) For ratings on an EC accepted after 1 Mar 14, the day after their termination date before accepting the current EC offer. In effect, this means that a minimum of 18 months' service on EC will be required to access an OEP.

(2) For ratings on EC15 accepted before 1 Mar 14, the day after the 32 year reckonable service point.

(3) For officers, the day after the IPP/EDP is reached.

6. Implementation

a. Following a successful application from an eligible individual, the Career Manager will enact the OEP by adjusting the individual's Termination Date on the JPA system to the appropriate OEP date[6]. A record of all OEPs enacted in this manner is to be retained and included in Management Information as adjusted Voluntary Outflow (VO) figures.

b. There is no option for earlier release than the OEP date made on the application. The nature of OEPs is that they are fixed, inflexible points in time once implemented and it is this characteristic that allows the benefits associated with SM Service to be retained. In particular, personnel who leave by Early Termination have their Recruiting and Retention Pay (RRP) removed in accordance with JSP 754 Art 05.0203.l. By leaving at a pre-determined exit point, as detailed above, an individual may continue to draw their full entitlement of RRP (Submarine) and, where appropriate, RRP (Nuclear Propulsion) over the remainder of their service (including the last 12 months).

[6] For clarity, an OEP remains a form of early release and this should be reflected in individual pension applications by ticking the 'Early Release' box in Part A of AFPS Pen Form 1 (M), or the equivalent option on any future editions of this form.

c. Any individual who wishes to leave outside of the OEP structure and before completion of their engagement/service should apply for Early Termination via the JPA system. This includes individuals who have submitted an OEP application who then wish to leave the Service more quickly. In such cases, release time scales will be in accordance with extant policy, noting that there is no entitlement to notice of less than 12 months.

d. Where an individual wishes to withdraw an OEP application, they should apply in writing to their Career Manager (as detailed on the original application form). The request will be considered by the Career and Branch Manager, in line with extant policy for the Withdrawal of an Application for Early Termination and, if approved, the Termination Date will be reset by the Career Manager to the original date. A note will be made on the individual's JPA record of their original OEP application and its withdrawal. Any subsequent OEP application may be made only for a point on or after any former application i.e. an individual may not withdraw an OEP and then apply for an earlier date than the previous application(s) in an attempt to shorten their notice period.

e. Should the needs of the Service preclude completion of resettlement activities before the OEP terminal date, then the provisions of Para 5916 apply.

7. Examples

The following examples are provided for guidance:

a. An individual who accepted EC10 in 2014 wishes to leave by OEP on 30 Nov 18. They must apply (application signed by CO) by 31 May 17 and the application must be received by the CM by 14 Jun 17. In this case, they make their application in Dec 15, at greater than the minimum 18 months' notice.

b. In Jun 16, the individual above applies to remove their OEP application and the request is approved. Any subsequent reapplication for OEP may not have a Termination Date earlier than was approved in the original application i.e. 30 Nov 18.

c. An individual on EC15 awarded before 1 Mar 14, but is beyond the 32 year reckonable service point and with more than 18 months to serve, wishes to leave by OEP on 31 May 17. Their application must be dated no later than 30 Nov 15 and received by the CM by 14 Dec 15.

d. Having applied for a 31 May 17 OEP, the individual above wishes to leave sooner. Their only option is to submit a request for Early Termination on JPA, accepting the extant terms associated with notice giving in terms of RRP. They may then negotiate for earlier release with their employer and CM, in accordance with BRd 3(1), noting that there is no entitlement to a notice period of less than 12 months.

e. An officer will reach the IPP/EDP on 1 Jun 18. The earliest application date is therefore 2 Jun 18, meaning that the first available OEP is 31 May 20.

f. An individual serving on EC15, accepted before 1 Mar 14, has completed 30 years' reckonable service. The earliest date for an OEP application is the day after completion of 32 years' reckonable service i.e. when preserved OEP rights no longer give access to any further OEPs.

APPENDIX 1 TO ANNEX 54K

APPLICATION TO LEAVE THE SERVICE AT AN OPTIONAL EXIT POINT

Name: ..... Initials: ..... Service Number: .....

Rank/Rate: ..... Main Trade: .....

Current Unit: .....

I confirm I am: (delete as appropriate):

a. Serving in the Submarine Service.

b. A rating serving on an Extended Career accepted after 1 Mar 14. My Tx date before accepting EC was: .....

c. A rating serving on EC(15) accepted before 1 Mar 14. I achieved 32 years reckonable service on: .....

d. An officer serving beyond the Immediate Pension Point/Early Departure Payment point, which fell on: .....

e. Serving on Employment Stage 3 under the New Employment Model.

I wish to apply to leave the Service using an Optional Exit Point on:.....
(dd/mm/yyyy)

I will be required to serve the entirety of this notice period.

Signed(by applicant).....Date.....

By Commanding Officer

I certify that this person has **not applied** for Early Termination on JPA.

Name: ..... Initials: .....

Rank: ..... Date: .....

Signed: .....

This form should be forwarded as follows:

For MESM/WESM Ratings:	For MESM/WESM Officers:	For Warfare SM Ratings:
NAVY PCAP-CM OR ENG SMSO2 Navy Command Headquarters Room 211 MP 2.1 West Battery Whale Island Portsmouth Hampshire PO2 8DX	NAVY PCAP-CM OF ENG SM SO1 Navy Command Headquarters Room 219 (thereafter as in Column 1)	NAVY PCAP-CM OR WAR UWSO2 Navy Command Headquarters Room 242 MP 2.2 (thereafter as in Column 1)

CHAPTER 55

HOLISTIC TRANSITION, LEAVE WELL AND VETERANS

SECTION 1

HOLISTIC TRANSITION AND LEAVE WELL

5501. Introduction

a. The ten-year vision of the Strategy for our Veterans is that those who have served in the UK Armed Forces, and their families, should transition smoothly back into civilian life and contribute fully to a society that understands and values what they have done and what they have to offer. The Armed Forces Covenant and Chief of Defence Peoples's Veterans Strategy and Families Strategy ensures MOD discharges its responsibility to help Service Personnel (SP) and their families to make suitable preparation in-Service and beyond. JSP 534 - The Tri-Service Resettlement & Employment Support Manual prepares Service Leavers (SL) in resettlement for civilian employment. JSP 100, the Defence Holistic Transition (HT) Policy, sets the single service (sS) policy to deliver wider transition activity, including through-career Life Skills and Veteran Services (formerly Defence Transition Service) referrals.

b. The Royal Navy's (RN) focus in delivering the requirements of JSP 100 is through the promotion of Holistic Transition support for SP and families, from Basic Training through to Resettlement. Uniquely, HT recognises the importance of empowering families to secure the 'home base' and support their SP's continued service.

5502. Context

a. Serving in the RN requires commitment, sacrifice, and dedication from an SP and equally the dedicated support of their family members. In return the RN has a moral duty of care to support and sustain its greatest asset, its people. In recognition of the unique demands of Service life, Defence and the RN support its people through a range of policies, procedures, and support to sustain the RN community from joining, through their military careers to the point of discharge, and when necessary, beyond. The intent of the People and Training Directorate is to support all SP, bringing significant benefits to the individual and their family as well as the RN.

b. **The Lived Experience.** The values, standards and ethos, as outlined in the Culture Blueprint and the 'Lived Experience' of an SP is markedly different to the public in society. All SP (and their families) will leave the RN at some point. Over half leave sooner than expected and some leave at short or very short notice.

c. **Transition.** This is the process of practical, physical, and emotional adjustments that the RN community must make when leaving military service to re-integrate into civilian society. It is about ensuring that those who have served in the RN, and their families, can use their experience to live positive and fulfilling lives.

d. **The Chain of Command.** The Chain of Command (CoC) leadership function includes the facilitation of whole life personal and professional development. The CoC (the Divisional and Regimental system) has an obligation and duty of care to offer Holistic Transition, through-career support, advice, and personal and professional development, to promote and provide opportunities for SP (and their families) to plan both for a successful military career, prepare for their inevitable return to civilian life and 'Leave Well'[1].

e. **Leaving Well and beyond.** This is best achieved throughout a SP career including personal development, planning, preparation, and informed decision making. It risks being compromised or undermined if left to the last minute. Leave Well aims to go beyond a simple career path model by taking a more holistic view of family life and involving them in planning for their future.

5503. Holistic Transition

In order that the term 'transition' is understood and viewed positively throughout a career, it is important to use a different term for earlier in-career 'transition' support, which is termed 'Life Skills'[2]. Life Skills are part of the Moral Component of Operational Capability. It builds emotional and social resilience to enable our SP (and families) to reduce the impact of everyday challenges in service life. For the SP, this means improving their Individual Operational Effectiveness, a critical component of military readiness and capability, ensuring that each member of the armed forces can contribute effectively to the overall mission success. This can be achieved by understanding the individual challenges a SP will face and mitigating them (whether knowledge gaps, health issues, culture change) and by building upon the positive aspects of Service. This extends to activity for the CoC to promote and provide opportunities to improve their SPs Life Skills, and to complete their annual Life Checker, with the individual SP responsible for undertaking Life Skills, choosing when and how to do so.

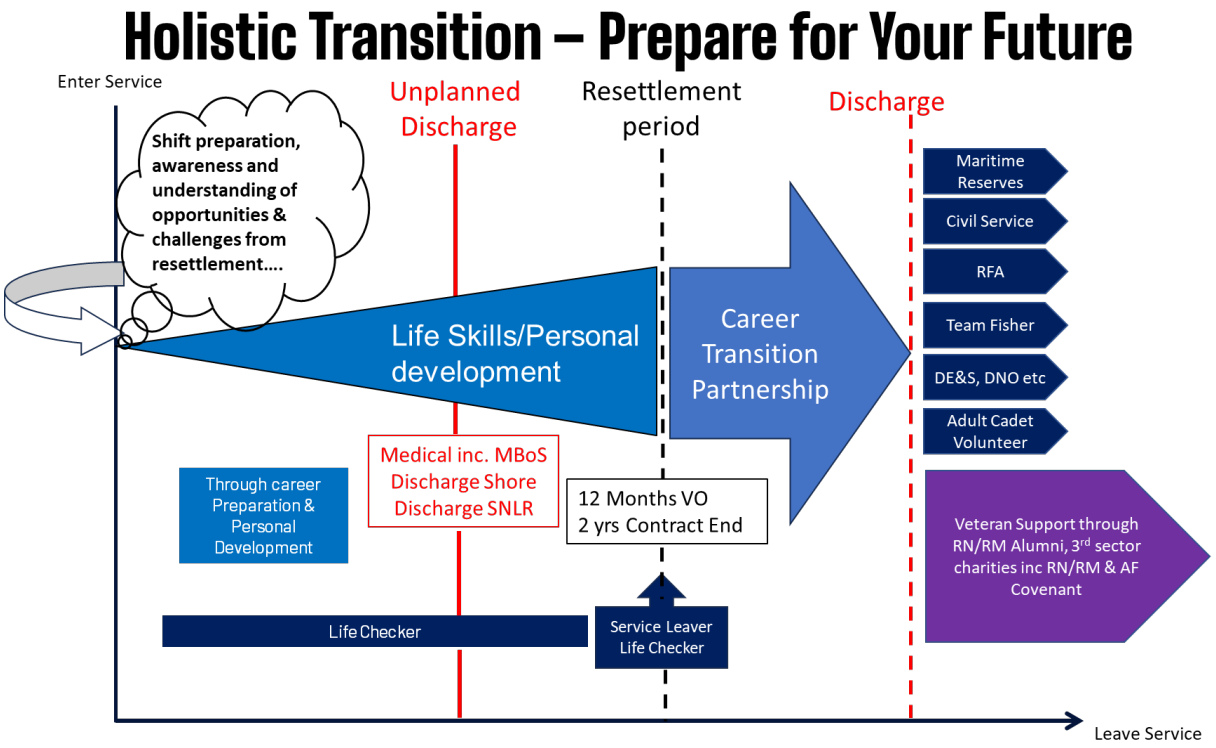
5504. Life Skills

a. Undertaking Life Skills as part of personal development opportunities also supports the understanding of the benefits and allowances that are available to our personnel during service. Engaging early with Life Skills will support not only the preparation for life beyond service, building personal resilience, awareness, experience, and confidence, but also the promotion and understanding of the new 'Navy Offer'. This enables SP to seek the support of the appropriate service or support organisation at the earliest opportunity, while supporting them and their family.

[1] JSP 100 defines 'Leave Well' as 'a Service Leaver that understands, and is well prepared for, the challenges faced with transitioning to civilian life'.
[2] Through-Career Advice, Information and Guidance on the core topics Finance, Education, Housing and (Mental) Wellbeing.

b. Life Skills are defined as 'those behaviours that underpin successful personal, social, work and civic outcomes. The accumulation of Life Skills enables SP and their families to plan and make provision, through sound decision-making, for their futures in the RN and subsequently when they transition[3] to civilian life. Life Skills builds personal resilience. It is retention positive and supports operational capability through the promotion of preventative health & wellbeing. The consequential effects will be a more resilient SP which will aid their in-service career, and a SL who is aligned to and understands wider society, knowing their options and opportunities.

Figure 55-1: Holistic Transition



[3] Transition encompasses the practical, physical and emotional adjustments that an individual (and family members), when leaving the Service, will aid successful reintegration into civilian life.

SECTION 2

PERSONAL RESILIENCE & INDIVIDUAL OPERATIONAL EFFECTIVENESS (LIFE SKILLS)

5505. Prepare for your Future

Planning for life after Service did not traditionally commence until resettlement eligibility was triggered, which was either two years prior to the end of the individuals' terms of service, as part of an administrative or disciplinary process or immediately if an individual had submitted their notice to resign. The decision for a SP to leave the service can result in a potentially stressful situation, and the RN recognises this. Earlier planning prepares the SP for a positive and successful transition for their family and the future. Underpinned by assurance, this approach comprises five elements:

a. **Inform.** Promoting CoC understanding and personal development through the provision of Life Skills information, in service benefits/opportunities and signposting to SP and families.

b. **Support.** Supporting professional development through the provision of Life Skills activity, a range of material, briefs, and advocacy by the CoC.

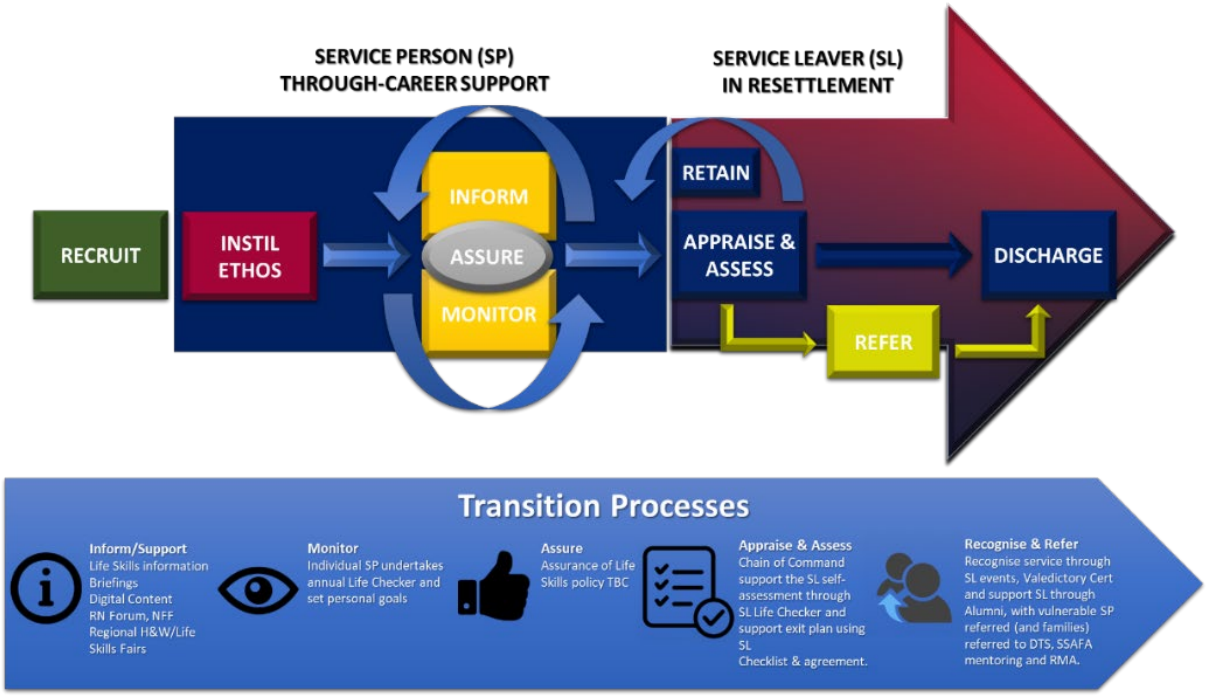
c. **Monitor.** Monitoring SP resilience and continuity of engagement with personal development & Life Skills. This is undertaken through an annual Life Checker.

d. **Appraise & Assess.** Appraising the SL on the measures and considerations that are required for a successful transition. Allowing them to assess[4] their preparedness as they enter resettlement, for life beyond the Services through a SL Life Checker and enhanced SL process, automated through SCIO.

e. **Recognise & Refer.** Referral of Personnel on Recovery Duty (PRD), Vulnerable Risk Management (VRM) SL and other SL / families with ongoing support requirements, to unit or 2nd line welfare support (RNFPS). Provide signposting to activities that acknowledge the service and commitment shown by our SP and their family, and to relevant referral agencies/organisations including Veteran Services (formerly Defence Transition Services) and the sS and tri-service (tS) charities. This must include a final check on the SL having a housing provision.

[4] Covers all categories of SL from the trained or untrained strength: Normal SL (incl. Redundancy & Compulsory Discharge), Medical SL and ESL (Early SL).

Figure 55-2: Transition Processes



5506. Inform

This is a fundamental component to the Whole Life Development (WLD) of our SP.

a. Key to development of Life Skills is the active support and promotion by the CoC. From CO through the Divisional and Regimental system, the Command maintain the obligation to ensure their SP are aware of Life Skills and of the need to maximise opportunities to develop themselves and their family. Additionally, this also aligns with the MoD 'Your Offer'. Both programmes are retention positive.

b. LDO Ops team will provide details of Life Skills within their LDO Ops brief to Units on request.

c. Life Skills briefs can be arranged for Unit Command Teams through their higher command (SUBFLOT, SURFLOT, etc), by emailing Holistic Transition & Veterans team: NAVYPEOPLE-PSPLEAVEWELL@mod.gov.uk.

5507. Support

Measures to provide Life Skills to SP and to provide the CoC with the tools to raise awareness of Holistic Transition and ensure opportunities for the WLD of their SP are being provided. These will made available online, at L&D Hubs and through the Holistic Transition team as they are developed. Annex 55A details the key allowances and entitlements on exit from the RN.

5508. Discover My Benefits (DMB)

Discover My Benefits is an online tool available both on the internet and through Defence Gateway, where SP can view the benefits and allowances for which they qualify. It is a core component of My Offer, aligns to the development of Life Skills and is tied to rank or rate, seniority, pay and other factors which are used to calculate benefits.

a. **Changing circumstances.** Benefits and allowances are recalculated when circumstances change, such as becoming a parent, deploying, or changing location. Any changes can be saved to the user's profile.

b. **My Offer.** The benefits and salary offered by the RN are rarely matched by civilian organisations. My Offer, within DMB, compares a SP's entitlement to the entitlement of someone outside of the Service. Each SP, after inputting their details, is given a tailored value for their individual reward package. SP can therefore make better informed decisions when considering leaving or extending their Service.

c. Discover My Benefits is available online[5] by searching for Discover my Benefits in your browser.

5509. Monitor

As part of the earlier preparation, all SP will be required to monitor their resilience and continuity of engagement with personal development and Life Skills. Completion of an annual 'Life Checker', a through-career self-assessment, focused on an increasing resilience, allowances, and benefits available in service is required. Life Checker provides SP with the guidance, advice and support pertinent to them across a wide range of personal and professional considerations to encourage personnel to maximise the in-service opportunities, increasing the individual's operational effectiveness. Life Checker focuses on the WLD of fundamental skills, aiming to better the SP knowledge in relation to health & wellbeing, housing/relocation, finance, children & family, learning & development.

a. The Life Checker is a mandatory requirement and **must be completed annually** by all personnel, regardless of rank or assignment:

(1) Within 4 months after starting a new assignment.

(2) Whenever an individual decides that an interim review is needed to access advice, guidance, and support.

b. Life Checker is available through MODNet on SCIO. It has also been made available through the SCIO app portal[6] which can be accessed via the Defence Gateway (including under MyNavy in Career Management section under Prepare for your Future).

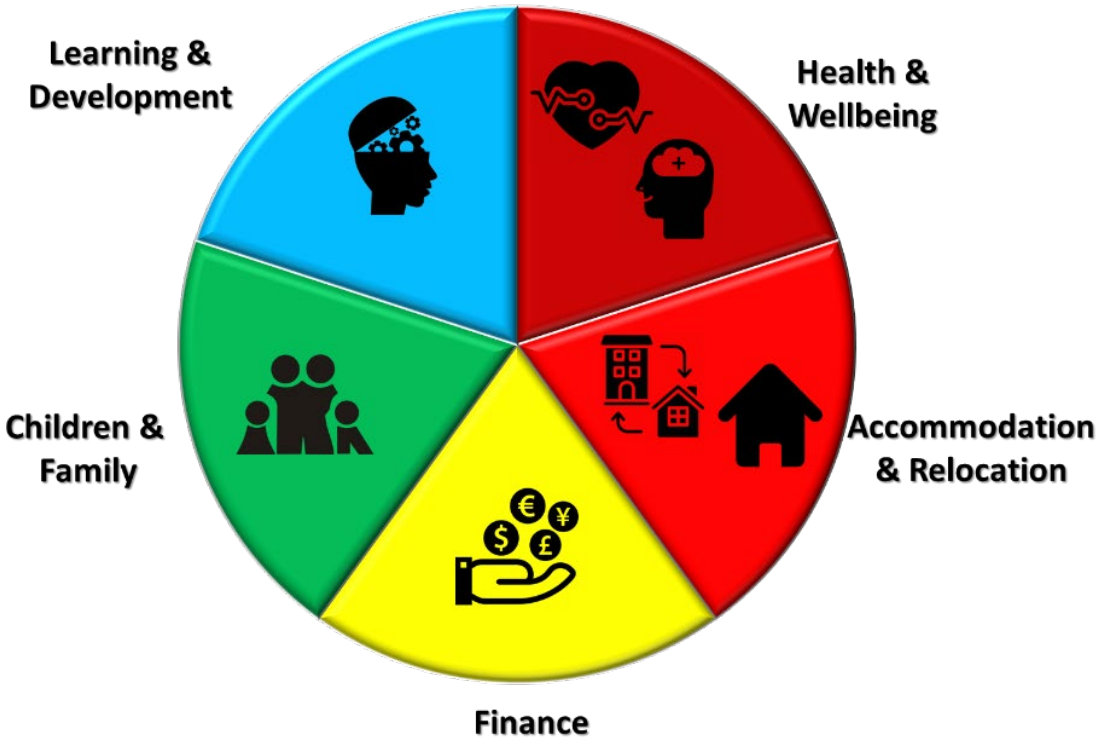
c. **Mandatory Notifications.** If a SP indicates that they are not happy with their mental health/fitness, an automated notification will be generated to the Line Manager (LM)/ Divisional Officer (DO)/Troop Commander (TC) on SCIO (Life Checker will provide a prompt to confirm this action).

[5] http://discovermybenefits.mod.gov.uk/
[6] https://scio.defencegateway.mod.uk/scio/r/myscio/mobile-theme110/home?session=304208586977160.

d. The wellbeing of a SP remains the responsibility of the CoC until the point of discharge.

e. Additional support and advice can be requested in an email to the Holistic Transition, Leave Well & Veterans team: NAVYPEOPLE-PSPLEAVEWELL@mod.gov.uk.

Figure 55-3: Life Checker components



SECTION 3

LEAVE WELL AND VETERANS

5510. Appraise & Assess

Appraising the SL on the measures and considerations that are required for a successful transition and resettlement to civilian life, along with time to consider their actions remains a CoC obligation. Allowing them to assess[7] their preparedness as they enter resettlement, for life beyond the Services through an enhanced SL process, has been automated through SCIO with the introduction of the Service Leaver Life Checker. This is a tool specifically for those leaving or at risk of leaving service. The policy for leaving the RN is detailed below. Specific guidance on termination and discharges for leaving the Service can be found within Chapter 54. Tri-Service resettlement policy is contained with JSP 534, with sS policy detailed at Para 5511 below. A detailed End to End SL process for all those leaving the RN is under development and details will be issued once this is completed. The Service Leaver Policy for the Maritime Reserves is contained in BRd 3(1) Chapter 101 and Annex 101B.

5511. Royal Navy Resettlement Policy

a. **General.** The RN adheres to the tri-Service resettlement policy[8], which is delivered by Capita personnel located within RN Learning and Development Hubs and deployable LDO Ops Officers in accordance with policies detailed in JSP 534 and where applicable JSP 100.

b. **Points of Contact.** Resettlement advice can be accessed at Learning and Development Hubs (L&D Hub) or via the Unit Education Officer (UEO), who should act as the initial point of contact for all resettlement queries. Any queries which cannot be answered should be directed, via the UEO, to the nearest regional L&D Hub.

c. Details of the resettlement process and L&D Hub support are provided at Annex 55B.

5512. Early Service Leaver Policy

a. **Scope.** JSP 534 outlines the issues and to provide guidance to units and individuals on what provision should be in place to assist Early Service Leavers (ESL) in their transition to civilian life. The aim of this section is to communicate how this policy is implemented in the RN.

b. **Definition.** An ESL is defined as a SL who is discharged[9], at their own request or for non RNMBOS reasons, from the trained or untrained strength, having completed fewer than 4 years' service at discharge.

---

[7] Service leaver Life Checker and subsequent SL checklist and agreement covers all categories of SL from the trained or untrained strength: Normal SL, those discharged for administrative or disciplinary reasons, WFT, VO, Medical SL and Early SL (ESL)**. See Ch54 for details of discharge and terminations.**

[8] JSP 534 Tri-Service Resettlement and Employment Support Manual.

[9] JSP 534, Section 3, Para 0302 provides the full definition.

c. **Provision.** ESLs are entitled to a reduced provision of resettlement support as detailed in JSP 534. As a minimum, they are to receive a mandatory resettlement brief from trained staff within a L&D Hub[10]. After which they will be automatically registered with the CTP Future Horizons Programme (FHP)[11]. An ESL may opt out of CTP FHP by exception, and this must be done by the ESL contacting their CTP FHP advisor after automatic registration.

(1) The Regional Service Resettlement Adviser/Education and Resettlement Officers/Personnel Support Officers/Unit Education Officers must ensure that all ESL (from both trained and untrained strength) are made aware of the enhanced provision and are processed in a timely manner so that the CTP/FHP staff can interview the ESL and determine level of transition support.

(2) It is incumbent upon the Regional Resettlement Advisor/LDA/UEO to ensure that JPA is updated with details for ESL within 10 working days.

5513. Royal Navy Medical Discharge Resettlement Policy

The Defence resettlement policy that applies to all personnel who are subject to Medical Discharge (MD) is outlined in JSP 534, Section 6. This policy acknowledges that different levels of support are required dependent on the need of the individual and personnel should be given the opportunity to access resettlement activities in a timely manner. The process for RN personnel to access resettlement is outlined in the JSP.

5514. Compulsory Discharge Entitlement

Service Personnel undergoing compulsory discharge retain all entitlements accrued due to time served. Line Managers must ensure that persons subject to discharge undertake a mandatory Resettlement Advisory Brief with the nearest regional L&D Hub. Post Discharge Resettlement Authority will normally be authorised for a period of 12 months post discharge.

5515. Recognise and Refer

Support of all SP Personnel (and families) regardless of reasons for transition, extends the CoC duty of care to the exit process. Signposting activity that recognises the service and commitment shown by our SP and their family, including the new RN/RM Alumni, and the promotion of events and activities along with a final CO interview prior to the SP moving into MA5 which will include a final check on the SL having housing provision.

a. The need to recognise the service of our SP and their families is essential. It recognises their service and commitment of both the SL and their family and ensures that the RN undertakes proactive actions to allow them to ‘Leave Well’.

b. Referring the SL and their families to information, guidance and advice that can help them manage their transition is crucial. This can take the form of links to help and support or physical referral for help. This also includes SL events as detailed in para 5516.

[10] Guidance on who should deliver these activities and the content of the briefing and interview is contained in JSP 534.
[11] The Future Horizons Programme is delivered through the Forces Employment Charity.

5516. Service Leavers Events (SLE)

The aim of SLEs is to thank the SL and their invited guests for their support of the RN/RM Service (Regular or Reserve), Civil Service and Royal Fleet Auxiliary (RFA) Service, however long they have served past the 4-year point on discharge. Hosted by a 2* officer, these events are held across the UK in RN establishments. They are key to recognising that the family/spouse/partner also provide significant support to our SP throughout their careers and deserve gratitude. To be eligible to attend an event, individuals need to be in resettlement (not eligible to attend are SNLR/CDT failure). LGBT Veterans affected by the pre-2000 ban are welcome and encouraged to attend a SLE, as per the LGBT Veterans Independent Review (2022)[12]. Events also provide an opportunity to publicly acknowledge the individual with presentation of Valedictory Certificates or Valedictory Letters (For Civil Service and RFA). Details of the SLEs can be found at Annex 55C.

5517. Valedictory Certificates

The guidance for Valedictory Certificates is detailed in Annex 55D.

5518. Long Service Recognition Award

As part of the Senior Command Warrant Officers' (SCWO) initiative to improve reward and recognition in the Royal Navy, this scheme in conjunction with the Royal Navy and Royal Marines Charity (RNRMC), has been introduced. As the standard length of Service is 20 years, with the potential for extensions to 35 years, this award would be to recognise a career of 40+ years of Regular Service, from the date of joining up or 40+ years combined service. If there is a break in Regular Service, that time will not count towards the award. **Personnel must be serving at the time of requesting the award; it will not be awarded retrospectively.** Further details are contained in Annex 55E.

5519. Homelessness

The Homelessness Reduction Act 2017 reformed England's homelessness legislation by placing duties on local housing authorities to intervene at earlier stages to prevent homelessness in their areas, and to provide appropriate services to those who are eligible. The Act places a specific duty on public authorities to refer individuals leaving their employment or care who are at risk of homelessness, to a local housing authority. Under the Act, the Secretary of State for Defence, in relation to members of the Regular Armed Forces, those from the Maritime Reserve on FTRS or mobilised service, is considered a public authority and as such is subject to the Duty to Refer policy. This act does not cover locations outside of England, but the RN retains a moral duty of care to all our personnel across the UK.

a. **Homeless Definition.** Someone is defined as being threatened with homelessness where they are likely to become homeless within 56 days or have been served with a valid notice under section 21 of the Housing Act 1988[13] by their landlord, which expires within 56 days.

[12] https://lgbtveterans.independent-review.uk/ As part of the LGBT Veterans Independent Review (IR) published in Jun 2022, recommendation 15 (R15) stated that veterans who have been affected by the pre-2000 ban should be offered the opportunity to attend a service event for restoration.

[13] https://www.legislation.gov.uk/ukpga/1988/50/section/21

b. **Statutory Duty to Refer**[14]**.** The duty requires all COs or others with duty of care (LM/1ROs) on behalf of the Secretary of State for Defence, to identify and refer SPs who may be homeless and those SLs who are leaving service and are homeless or may be threatened with homelessness, to a UK local housing authority of the SP's choice. The SP/SL must consent to the referral being made. The consent can be made in writing or given orally. A person is considered homeless if:

(1) They do not have any accommodation which is available for them which they have a legal right to occupy.

(2) It is not reasonable for the person to occupy their current accommodation, for example, because they would be at risk of domestic abuse (see paragraphs 6.3-6.4 of the Homelessness code of guidance[15]).

c. **Identifying when a referral might be required for SP.** It is a **statutory duty** to refer those at risk of homelessness to a local housing authority. SL who are at risk of becoming homeless should in the first instant seek advice from Veteran Services. Should the risk of homelessness be combined with additional welfare issues the SL/family should be referred to Veteran Services. COs or others with duty of care (LM/1ROs) will usually know if a SP begins 'sleeping rough' and is therefore actually homeless. They may also become aware of SP who are homeless but not roofless (sometimes described as 'sofa surfers') if they provide 'care of' addresses or frequently change their address. Identifying that a family, couple, or individual is threatened with homelessness is less straight forward. The following are factors that would indicate that a SP may be threatened with homelessness and should be asked about their housing circumstances:

(1) Problems with debt, particularly rent or mortgage arrears;

(2) Problems with a property owner (landlord), being threatened with eviction or served notice to leave;

(3) Being a victim of domestic abuse, other forms of violence, threats/intimidation;

(4) Approaching their end of Service date, with no accommodation available to them and/or their family. They must be provided an NTV/certificate of cessation to prove their loss of entitlement if in service accommodation.

[14] JSP 100 Ch 5.
[15] https://www.gov.uk/guidance/homelessness-code-of-guidance-for-local-authorities/chapter-6-homeless-or-threatened-with-homelessness

d. **Supporting the SL/SP and their family.** The provision allows a SL to choose which local housing authority they are referred to. In terms of the SP, this is likely to be their Base Port or area the family comes from, or is already settled into and, for SL, when exiting service. When discussing a referral and offering guidance, it is important to be aware that local housing authorities owe more duties towards homeless applicants who have a local connection with their area.

(1) The Armed Forces Covenant does not seek to provide our people or Veterans with advantage, merely remove any disadvantage[16].

(2) If a person asks to be referred to an area that they do not have a local connection to, the local housing authority might subsequently refer them on to another local housing authority to which they do have a local connection.

(3) In general, someone is likely to have a local connection to an area if they, or their spouse/partner live or have lived there, work there, including in previous assignments, or have a close family connection.

e. Details on the process to be followed to support those who may be at risk of homelessness can be found at Annex 55F.

5520. Release Office

Key to Leave Well is ensuring that the final interaction is a positive experience. The task of rendering the MoD 90 unusable for entry to MoD establishments should be undertaken sensitively, explaining that if the SL wishes to retain their ID Card, it is a PSYA requirement that the corners be snipped. Equally, the Release Office should also usually ask the SL if they/their family are at risk of homelessness upon discharge, signposting them to Veteran Services or SSAFA mentoring if they are at risk. The Release Office should also take the opportunity to inform the SL that they will receive their Veterans ID card and pin badge within 56 days of their termination date, and that they can replace their AF Railcard with the Veterans Railcard, receiving the same benefit.

5521. Alumni Platform

The RN hosts an Alumni platform on the Defence Gateway. This platform supports Service Leavers with information, guidance, mentoring, employment support and opportunities within the Continuum of Service[17]. RN Alumni members have lifelong access to the Alumni Platform.

[16] Homelessness code of guidance for local authorities - Chapter 24: Former members of the armed forces - Guidance - GOV.UK (www.gov.uk)
[17] Part Time Volunteer Reserve (Maritime Reserves), Full Time Reserve Service, Civil Service, RFA, MPGS, Team Fisher, DNE, DE&S, Cadet Force Adult Volunteer.

5522. Continuum of Employment and Spectrum of Service

Our future success as a nation is dependent on our ability to access and unlock the right talent and skills at the right time in the right place. Whilst there are opportunities in civilian life, there are further opportunities to support wider defence.

a. **Reserve Liability.** In most cases, there will be a requirement for those who leave regular service to hold a Reserve Liability for a period of time under the Reserve Forces Act 1980 or 1996. BRd 3(1) Chapter 54 provides further details on this.

b. **Re-entry.** Details on re-entry in the RN are detailed in BRd 3(1) Chapter 12.

c. **Further Service.** There are many opportunities available for SLs from wider defence and MoD partners, including the Civil Service, Part Time Volunteer Reserve; Maritime Reserves (The Firefly Scheme), Full Time Reserve Service (FTRS), Royal Fleet Auxiliary (RFA), Military Provost Guard Service (MGPS), Defence Equipment & Support (DE&S), Defence Nuclear Enterprise and Cadet Force Adult Volunteer (CFAV). These are just some of the many industries that recognise the different skill sets SLs have. All SP should be encouraged to consider continuing career opportunities within MoD supporting organisations. Many of these organisations have dedicated entry routes for ex-service personnel. Further details are contained in Annex 55G.

ANNEX 55A

ALLOWANCES & ENTITLEMENTS ON EXITING THE RN

Served (Date of Entry to Termination Date)	Resettlement Time	Warrants	Funding[1]	ELC Entitlement	Lump Sum[2]	Publicly Funded FE/HE Eligible[3]
<6 Years	0 Days	0	£0	£0	£0	N
6+ Years	20 Days	4	£534[1]	3 x £1000 1 x £3000	£0	Y
8+ Years	25 Days	5	£534[1]	3 x £2000	£0	Y
12+ Years	30 Days	6	£534[1]	3 x £2000	Resettlement Grant	Y
16+ Years	35 Days	7	£534[1]	3 x £2000	Resettlement Grant	Y
18+ Years (AFPS 05)	35 Days	7	£534[1]	3 x £2000	Early Departure Pension Payment Lump Sum (Must be aged 40+)[2]	Y
20+ Years (AFPS 15)	35 Days	7	£534[1]	3 x £2000	Early Departure Pension Payment Lump Sum (Must be aged 40+)[2]	Y

Notes:

1. £534 Funding – Equivalent to 20 days of contract funded courses with Career Transition Partnership (Providing up to £3000 worth of training).

2. A tax free Resettlement Grant £14,059 (Apr 25)). Use the Armed Forces Pension Calculator (online) to forecast your personal EDP Lump Sum and Annual Early Departure Payment Figures.

3. This scheme provides funded access from full state subsidised tuition fees for eligible SL undertaking their first FE or HE level qualification. Guidance on eligibility should be sought from Ed staff.

ANNEX 55B

RESETTLEMENT POLICY AND L&D HUB SUPPORT

Role	Resettlement Associated Responsibilities	Learning Credit Associated Responsibilities
LDA	1. Conduct 2nd Line support for all RN Service Leavers (SL) and for RAF and Army personnel employed on RN establishments and units. 2. Provide Resettlement Advisory Brief Mandated Interview for all TS SL iaw JSP 534. 3. JPA access to: • authorise workflows (inc. travel), • reassign personnel, • update GRT entitlement, 4. Initiate application for resettlement services and CTP registration. 5. Authorise UK Civilian Work Attachments (CWA), Training Attachments (CTA) and Individual Resettlement Preparation Activity (IRP) 6. Liaise with UPO over payments for IRTC and SLCs (some hub LDAs will make payments themselves). 7. Registration of non-standard medical SL (including completion of TAF section 4). 8. Signpost vulnerable SL to appropriate services (inc. but not limited to Veteran Services, RNRMC, Proj NOVA).	Provide advice on SLC, ELCs and PF FE/HE for both serving personnel and veterans. Update ELC account with email, TX date and postal address. Password resets. Authorise routine in service claims.
Regional Service Resettle-ment Adviser	1. As above plus: a. Act as JPA resettlement super users for all resettlement-oriented tasks. b. Staffing TAF to CRM SO1 where SEC support is required c. Post discharge resettlement support. d. Manage network of resettlement best practice. e. Raise queries with Resettlement Pillar Lead as required for all delivery issues. f. Raise queries with Resettlement Policy Lead as required for all policy issues. g. Provide resettlement staff training support and assurance. h. Maintain statistics on: Resettlement interviews/RABS conducted, Vulnerable SL and SL refusing RAB.	As above.

(Continued)

Role	Resettlement Associated Responsibilities	Learning Credit Associated Responsibilities
Regional L&D Officer	1. Authorise delegated Post Discharge Resettlement. 2. Oversee resettlement staff training support and assurance. 3. Oversee network of resettlement best practice. 4. Delegated Resettlement Pillar lead is RLDO(N). 5. Raise queries with NCHQ Policy lead as required.	Raise queries with NCHQ Policy lead as required.
NCHQ L&D Policy lead	1. Authorise overseas resettlement, Civilian Work and Training Attachments. 2. RN representation at Tri Service Level. 3. Authorise Post Discharge Resettlement Authority. 4. Policy advice and exceptions. 5. ELCAS Finance returns. 6. PQs and Service Complaints. 7. Liaison with ELCAS, CTP, sS, TSLD[1]. And Learning Providers. 8. ELC and PF FE/HE advice and guidance. 9. Veteran ELC support.	

[1] Talent Skills Learning and Development – formerly TESRR.

ANNEX 55C

SERVICE LEAVER EVENTS

1. The Service Leaver Event is part of improvements to the leaving process which seeks to form a positive narrative about the RN during the leaving process. This will ensure our leavers remain advocates for service in the RN with SLs able to maximise the opportunities within the Continuum of Employment within the wider Whole Force (Part Time Volunteer Reserve, Civil Service, RFA, Cadet Force Adult Volunteers).

a. **Event Structure.** These events will take the form of a drinks-reception-style event that includes light refreshments (food and beverages). For those who wish, Valedictory Certificates/Letters can be presented, accompanied by a citations outlining their career and contribution to the RN. Each SL eligible to attend can invite up to 2 guests to attend with them. Children and additional guests may attend subject to space and the SL should contact the event organisers for confirmation.

b. **Registration and Event Locations.** Registration, dates and event locations across the UK will be promulgated in an annual RNTM.

c. **Charities.** Several service charities will be invited to provide support and advice to those leaving. These may include the RN and RM Charity, Royal Naval Association, Royal Marines Association, the RM Charity, Association of RN Officers, the White Ensign Association and SSAFA Mentoring.

d. **Photographs.** There will be a photographer in attendance to take photographs of certificates as they are awarded as well as pictures of the SL with their guests. Photographs will then be emailed to participants of the event as part of the feedback process.

e. **Support.** An annual RNTM will detail the correct POC for events and also provide additional advice and guidance**.**

f. **Travel.** Resettlement travel warrants can be used to attend a SLE, subject to the SL having remaining resettlement warrants and suitable business insurance to use their private vehicle for themselves and their guests**.** All resettlement activity must adhere to the local training caveat, and it is anticipated SL will attend their local SLE. If a SL chooses to attend an event at a different location, additional T&S will not be authorised. In accordance with T&S policy if accommodation is required then service accommodation must be utilised in the first instance. If the SL is accompanied by guests who cannot utilise service accommodation, resettlement T&S will not be authorised for additional accommodation requirements.

g. **Dress Code.** No 1Bs for RN (medals, no sword) and 1C Dress – Lovat Undress for RM is the standard dress code for a SLE as shown in the images below. A suit/jacket and tie (or equivalent for those who wish) is a suitable alternative for those who do not wish to wear No 1 dress. Details for dress regulations are found in BRd 3(1) Ch 39 (RN Officers and Ratings), Ch 40 (RM Officers and Other Ranks) and Ch 41 (RFA Officers and Ratings).

ANNEX 55D

VALEDICTORY CERTIFICATES

1. The following information covers the valedictory process for OF4s and below. The current process for OF5s and above remains extant and any queries on this should be sent to the Naval Assistant's office at NAVYPEOPLE-TRG-SOCTM-Mailbox@mod.gov.uk.

a. Service in the RN (including RM) is recognised by the award of a Standard, Bronze, Silver, or Gold Valedictory Certificate dependent on the length of service. OF4s and below who complete a minimum of 4 years by their final day of service will receive a Valedictory Certificate on retirement.

Table 55-1: Qualifying times for Valedictory Certificates

Valedictory Certificate	Years of Service	Signatory Level	Administered by
Standard	4 to under 15 years	Commanding Officer or equivalent	The Individual's Unit
Bronze	15 to under 25 years	Dir P&T	The Office of Protocol
Silver	25 to under 35 years	2SL	The Office of Protocol
Gold	35 years and above	1SL	The Office of Protocol

b. Similar to Regular Service, Valedictory Certificates for Volunteer Reservists are assessed on length of reckonable service. Reckonable service is based on PTVRs serving on the following Lists: List 1, List 2, List 4 and List 5. Time served on List 3 will not count towards reckonable service and time spent in the URNU as a student cadet will also not count. The timeframe for the award of each level of Valedictory Certificate is the same for Regular Service as detailed in table 1 above. Bronze, Silver and Gold Valedictory Certificates for Reservists will not be automatically produced by the Office of Protocol and must be applied for by the Unit using the Form at Appendix 55D1. For planning purposes, the Line Manager / Divisional Officer (LM/DO) is advised to apply at least 6 months prior to the termination date.

c. Those who transfer seamlessly[1] to FTRS[2] commitments will not receive a Valedictory Certificate when leaving Regular Service. They will continue to accrue service towards their Valedictory Certificate and receive one certificate at the end of their final FTRS commitment which will reflect their combined length of service.

d. FTRS personnel who received a certificate on departure from Regular Service may opt to request a further Valedictory Certificate at the end of their total period of FTRS. The new certificate will reflect their combined length of service.

[1] For the purpose of Valedictory Certificates, a seamless transfer to FTRS is considered to be an FTRS commitment which starts within 3 months of the TX date from Regular Service.
[2] For the purposes of Valedictory Certificates, the policy for FTRS personnel will also apply to those working in the Royal Naval Careers Service.

e. Bronze, Silver and Gold Valedictory Certificates for FTRS personnel will not be automatically produced by the Office of Protocol and must be applied for using the proforma at Appendix 55D1; the LM/DO is to notify the Office of Protocol when a Valedictory Certificate is due. Similarly, if a Valedictory Certificate has been requested but the Service Person either extends or commences a new FTRS commitment, the LM/DO is to inform the Office of Protocol.

f. Those in ADC/VERRs commitments will be treated in accordance with sub-para e and their LM/DO can apply for a Valedictory Certificate if they meet the qualifying criteria.

g. Service personnel (SP) who undertake the UY/SUY/WOCS routes will receive their Valedictory Certificate on leaving the Service, unless they then commence a FTRS commitment (sub-para c).

h. SP who transfer between the RN and RM, and vice versa, without a break in service will receive a Valedictory Certificate at the end of their total engagement/commission.

i. SP who leave Regular Service and transfer to the RNR/RMR will receive the appropriate level of Valedictory Certificate at the point of leaving Regular Service. Any subsequent reckonable service within the Volunteer Reserves will be added to their previous Regular Service and the appropriate level of Valedictory Certificate will be presented on leaving the Volunteer Reserves to reflect their full combined service.

j. SP who transfer to the Army or RAF may apply for a Valedictory Certificate appropriate to their length of service in the RN at the time of transfer. The LM/DO should apply for this using the proforma at Appendix 55D1.

k. Civil Servants do not fall under these arrangements for Valedictory Certificates. Service in the Ministry of Defence as a Civil Servant (including those who transfer under TUPE arrangements) is recognised by the award of a Valedictory Letter after 10 years or more employment[3]. Civil Service Valedictory process is to be delivered by the Civil Service Centre of Excellence (CSCoE) and further information can be received by contacting NAVYPEOPLE-HQCSCOE@mod.gov.uk.

l. The Valedictory Certificate policy for the RFA is awarded for 10 years or more employment and is delivered by the RFA team. Contact navypeople-rfaleavewellteam@mod.gov.uk for advice.

m. SP who are Discharged SHORE will receive Valedictory Certificates in the normal manner. Valedictory Certificates will not be produced for those who are Discharged Services No Longer Required (SNLR) or for those who are Dismissed as a result of disciplinary action.

[3]Civil Service Leaving the Department Policy https://modgovuk.sharepoint.com/:w:/r/sites/IntranetCivilianHRPeoplePortal/_layouts/15/Doc.aspx?sourcedoc=%7B1AB8921B-D267-462A-8B16-B3F457DC83A9%7D&file=Leaving%20the%20Department%20Policy.docx&action=default&mobileredirect=true

n. In exceptional circumstances, a Commanding Officer may consider a Valedictory Certificate in cases of Dismissal or Discharge SNLR. A Standard Valedictory Certificate may be produced at the Commanding Officer's discretion. Exceptional cases for Bronze, Silver or Gold Valedictory Certificates must be referred to the Naval Secretary via the Office of Protocol (NAVYNAVSEC-PROTOCOLCofE@mod.gov.uk). These requests must include a summary of the circumstances leading to the Dismissal or Discharge SNLR, and an outline of why the Commanding Officer supports the case for exception.

o. A Valedictory Certificate will be issued in accordance with the eligibility criteria. LM/DO are responsible for ensuring Valedictory Certificates are applied for using Appendix 55D1 once medical discharge has been confirmed.

p. Commanding Officers are responsible for the administration of all Standard Valedictory Certificates. Templates can be downloaded from the links within the extant RNTM on Valedictory Certificate Process and are to be printed locally, in colour, on quality card and signed by the Commanding Officer.

q. The Office of Protocol will identify individuals in Regular Service who are entitled to a Bronze, Silver or Gold Valedictory Certificate. For Gold Valedictory Certificates, Appendix 55D1, which includes a personal citation, must be completed by the SPs LM/DO and sent to NAVYNAVSEC-PROTOCOLCofE@mod.gov.uk. The Valedictory Certificate will not be progressed until this is received. Guidance on writing a personal citation is provided at Appendix 55D1. For planning purposes, the LM/DO is advised to provide the citation at least 6 months prior to the termination date.

r. For Maritime Reservists, the Unit (working with the relevant Capability Area) is to notify the Office of Protocol when a Valedictory Certificate is required using the proforma at Appendix 55D1. Units are to establish the number of years of reckonable service an individual has achieved and confirm this on the proforma; this information can be confirmed via the relevant RSU. Note that time served on List 3 is non-reckonable. For planning purposes, the LM/DO is advised to apply at least 6 months prior to the termination date.

s. Using the proforma at Appendix 55D1, the LM/DO of personnel concluding their final FTRS commitment is to notify the Office of Protocol when a Valedictory Certificate is required. For planning purposes, the LM/DO is advised to apply at least 6 months prior to the termination date.

t. Some SP may receive an Extension of Service, often shortly before their original TX date. In this situation a Valedictory Certificate is not required, and they will receive one at the end of their service. Please contact the Office of Protocol if an EOS is likely or has been received so the Valedictory Certificate production can be paused, and/or, cancelled once the outcome of the EOS application is known.

u. If you are aware that an individual's service history is not fully shown in JPA, for example, previous service numbers or a long period with breaks in service, please contact the Office of Protocol. Provide the exact dates served so the length of service can be calculated, and certificates raised with the correct information.

v. When Acting Higher Rank (AHR) has been held in the final assignment, and for a minimum period of 2 years, the Valedictory Certificate will reflect the higher rank. This applies to Officers[4] and Ratings/RMORs. Where the AHR was held in previous assignments, but not the final assignment, or when the period of AHR was less than 24 months, the Valedictory Certificate will be produced in the substantive rank.

w. If a Gold Valedictory Certificate citation is required for a SP who has spent 6 months or less in a PSG immediately before leaving the Service, the PSG will work with the Office of Protocol to contact the individual's previous reporting chain to provide this. The previous reporting chain should expect to undertake Valedictory Certificate administration for SP who have been assigned to a PSG for a short period prior to leaving the Service.

x. SP not working in a RN/RM Unit during their last 12 months of service will need to make sure their Chain of Command are aware of this Valedictory Certificate process.

y. The LM/DO is to inform the Office of Protocol if a SP is leaving early. Every effort will be made to produce and obtain signatures for those leaving at short notice. However, the LM/DO should liaise with the Office of Protocol at the earliest opportunity.

z. Once signed, the Bronze, Silver and Gold Certificates will be despatched to the Commanding Officer / nominated individual of the recipient. All Valedictory Certificates should be presented at an appropriate occasion by the Chain of Command. For those wishing to have their Valedictory Certificate presented at a Service Leaver event should refer to para 5516 and Annex 55C.

[4] Officers who have held AHR for a minimum of 2 years are advised to read RNTM 01-075/23 Honorary Rank on retirement.

APPENDIX 1 TO ANNEX 55D

VALEDICTORY CERTIFICATES APPLICATION PROFORMA

1. The Valedictory Certificate Application Proforma is to be used for Regular Service Gold Valedictory Certificate citations and all FTRS and Maritime Reserve Bronze, Silver and Gold Valedictory Certificate applications. To be sent to the Office of Protocol NAVYNAVSEC-PROTOCOLCofE@mod.gov.uk).

Service Number	
Rank and Full Name (Branch titles to be iaw with BRd 3(1) Annex 65A)	
Final day of Service (Not last day in the office)	
Please provide exact service dates. This may include: • **Breaks in Service (such as Career Breaks).** • **Reserve and Regular Service.** • **Time spent on List 3 or in the URNU as a student for Part-Time Volunteer Reserves.** • **Periods on FTRS.**	
Total Length of Service in full years	
Citation of no more than 400 characters including spaces (Not 400 words) **See below for guidance on writing a citation**	**Only complete this section for SP with more than 35 years of Service.** *In particular, I wish to highlight….*
Current Unit Address and Commanding Officer or Line Managers name for the Valedictory Certificate to be sent to.	

GOLD CITATION GUIDANCE

1. LM/DOs are requested to read the pre-loaded text on the Gold Certificate, as displayed below, to avoid duplication of words or phrases. The citation is to be written in the same style as the pre-loaded text.

Pre-loaded text on the Gold Certificate.

On behalf of His Majesty The King and the Admiralty Board, I would like to record our sincere gratitude for your long service and dedication on the occasion of your retirement from the Royal Navy/Royal Marines on the (TX DATE).

Your extraordinary dedication to your Sovereign and the Nation through a remarkable (XX) years' service in the Royal Navy/Royal Marines is of the highest order and exemplifies the finest traditions of the Service. In responding to the many operational demands you have faced throughout your distinguished career, you have played a significant role in the safeguarding of the United Kingdom, the Commonwealth and our other allies, providing for the security of those who pass on the seas. Your successes are too numerous to record individually, but they have each been due to your infinite professionalism, dedication and loyalty; you should be justifiably proud of your achievements and the legacy you leave behind.

The Career Precis (as provided by the LM/DO) will be inserted here.

I trust that you and your family, without whose support this would not have been possible and for whose sacrifices we are also grateful, will always consider yourselves to be part of the Naval/ Corps family. The Board joins me in sending you our very best wishes for every happiness and success in the future.

2. Citations can be **400 characters (including spaces)** and must start 'In particular, I wish to highlight[1]'. Double spacing after full stops is to be used.

3. Consider including:

a. Any career highlights such as op tours or deployments, were there any particular ships, submarines, establishments or units they served with (include names if space), and any particular appointments held.

b. If referring to previous ships, please make it clear whether, at the time of their service, they belonged to Her Majesty or His Majesty.

c. Any particular successes, specialisms or traits they were known for.

d. Did they make an impact in a particular area?

e. Any assignments that can be singled out for praise, enjoyment or high profile.

f. Highlight State Honours, MSMs and any Commendations and why they received them. Avoid mentioning OSMs/GSMs and LS&GCMs.

[1] In particular, I wish to highlight' forms part of the 400 character total.

4. The following example citations may assist in preparing the content and tone of the personalised citation for approval by 1SL's Office:

In particular, I wish to highlight your exceptional career serving in a variety of ships including HMS ARGYLL as the XXXX. Delivering engineering excellence from the shore, your contribution to the Queen Elizabeth class aircraft carrier build project was outstanding. Your passion, vigour and impressive leadership skills have been the hallmarks of your remarkable service.

In particular, I wish to highlight your eminent career which has seen you serve as a XXXX above and below the water. You have deployed on Operations TELIC and HERRICK and have delivered extraordinary support and strategic effect around the globe in operationally focussed roles. An outstanding ambassador for the Service you were awarded the Meritorious Service Medal.

In particular, I wish to highlight your steadfast commitment to the Submarine Service since joining as a XXXX. You have delivered logistical excellence in HM Submarines TORBAY, TRAFALGAR and TRIUMPH before a final seagoing assignment in HMS VIGILANT. Your outstanding contribution has been justly recognised with the award of the MBE and a 3 Commendations.*

In particular, I wish to highlight your impressive career which saw you join as a XXXXX and leave as a Chief Petty Officer XXXX. Your contribution to the Fleet Air Arm was exemplary and you voluntarily supported the XXXX. Subsequently, you joined the Royal Naval Reserve and your service was justly recognised by the award of the Queen's Volunteer Reserve Medal.

In particular, I wish to highlight your remarkable commitment to the Royal Naval Reserve and your contribution to delivering operational output. You have served in numerous ships and undertaken appointments in NATO and NCHQ. Supporting unit activity, the pinnacle of your exemplary career was as the Commanding Officer of HMS XXXXX.

In particular, I wish to highlight your outstanding career which has included deploying with distinction on operational tours with 45 Commando, Commando Helicopter Force, Commando Logistic Regiment and 1 Assault Group. Your steadfast commitment to 3 Commando Brigade and the wider Corps family epitomises the ethos and core values of the Royal Marines.

In particular, I wish to highlight your exceptional career during which you have served with distinction in all theatres of warfare, specialised in amphibious operations and instructed at every level. Inspiring future generations through your appointments as XXXX and as the XXXX of XXXXX your Defence level impact has been rightly recognised through the award of the MSM and MBE.

In particular, I wish to highlight your distinguished career which has included serving in 11 warships and deploying on operations around the globe. Your coordination of Operation XXXXX and the Maritime Security Operation for XXXXX was outstanding. A true ambassador for the Service, your expertise as the XXXX supported operations in a key region.

ANNEX 55E

LONG SERVICE RECOGNITION AWARD

1. The Long Service Recognition Award is a gift, funded by the RNRMC, symbolising exceptional time in Service; it will be presented along with the Valedictory Certificate as an SP leaves the Royal Navy.

a. The opportunity to apply for the award is open to all ranks and rates, regular and reservist personnel. Qualifying Service is set at a minimum of 40 years, with no maximum limit. This is measured from the day of joining up, irrespective of age. Regular personnel are to have completed a minimum of 40 years since joining or 40 years combined service if they have had an authorised career break. Maritime Reserves will also be eligible and will have to meet the following requirements[1]. Either:

(1) Ex-Regulars (Royal Fleet Reserves) personnel may aggregate both Regular Service and FTRS. Ex Regulars that join the Maritime Reserves (MR) (RNR, RMR), the RNCS or undertake FTRS with aggregated Regular and Reservist time in Service accruing to 40+ years. There is to be no break in Service clause: all reckonable service will be counted, no matter how long the break in service was. However, any time spent out of service will not be counted towards the award including time when the individual was subject to a callout liability as part of the Regular Reserve of their parent Service.

(2) MR personnel (RNR, RMR), that have 40+ years' reckonable service on the MR Active Lists (List 1 List 2, List 4 and List 5) or various accrued Reserve time can count if there is no gap in service, e.g. 25 years RNR then 15 years RNCS.

b. **Award Criteria.** The award will be a gift up to the value of £250. The recipient selects one gift to a value of £250 which must have a connection to the Royal Navy and is approved by the SCWO Selection Board (detailed in sub-para c). Alternatively, they can use £250 as a part payment of a gift which has Royal Navy significance. If only part of the award is used, e.g., a gift costs £150, **the remainder cannot be used against any further gifts or for a cash payment.** The award is a one-time payment and should be used to purchase something which is relevant and worthy on a personal scale rather than the wish to place a monetary value on it. Some examples are given in Appendix 55E1[2]. There is an expectation that personnel would recognise the donation from the RNRMC in any media publicity.

[1] Advice may be sought from COMMARRES to confirm eligibility and acceptance of Service validation.
[2] These are not recommendations or endorsements but give an example as to what gifts carry Royal Navy significance. It is the responsibility of the Service Person leaving to research and negotiate all gifts. The award process is for the allocation of funds only.

c. **Selection Board.** Prior to submission of this application, the Divisional Officer/Troop Commander[3] is to verify via JPA that the qualifying criteria have been met and are then to complete Appendix 55E1 and email it to the Protocol WO1, NAVY PEOPLE-HQ PROTOCOL WO1, who will check the applicants details via JPA. The application form will be forwarded to the RNRMC for approval. It is emphasised that this is recognising Service in the Royal Navy and the award can only be used for gifts which have a Royal Navy significance. If there is any doubt, the SCWOs[4] will convene a Board and vote on the eligibility. The Protocol WO1 will then submit the form to the RNRMC for the release of funds for the gift.

d. **Funds.** The amount requested will be transferred to the requested bank account. It is the responsibility of the Service Person to ensure that all further monetary transactions are carried out correctly. The purchased gift is to be brought in ready for presentation. If the money is transferred to a personal account, once the gift has been purchased, the DO is required to email mygrant@rnrmc.org.uk a copy of the scanned receipt. Funds will only be released once a copy of the receipt has been provided.

e. **Presentation.** The presentation of the gift will be in addition to and at the same time as the Valedictory Certificate[5], before a Service Person leaves the RN. The onus is on the person leaving, along with their DO, to apply in plenty of time to achieve this **(a minimum of 21 days is required to release the funds).** The process cannot be rushed or abridged because of tight timescales. It would be presented ideally by a Senior Officer of Flag Rank[6] along with a representative of the RNRMC; however, it is recognised that this may not always be achievable and therefore may be deferred to the Commanding Officer. The DO is responsible for the organising of the presentation of the gift and Valedictory Certificate.

f. Further information regarding this award, can be gained from the Protocol WO1, or the SCWOs: NAVY-1SLCNSSeniorCommandWO@mod.gov.uk.

[3] This is further abbreviated as DO.
[4] SCWOs: Warrant Officer to the Royal Navy, Fleet Commander's Warrant Officer, Second Sea Lord's Warrant Officer, Royal Marines Corps RSM, and the DE&S Command Warrant Officer,
[5] This award process does not initiate the Valedictory Certificate process. The DO will still have to apply for that via the standard means.
[6] The Maritime Reserves gift would be presented to the individual as they leave the Maritime Reserves. Ideally by COMMARRES; however, if not available by a suitable Commanding Officer, Regular or Reservist.

APPENDIX 1 TO ANNEX 55E

LONG SERVICE RECOGNITION AWARD

REQUEST FOR FUNDS TO BE RELEASED

IMPORTANT DECLARATION:
I agree that the RNRMC may process personal data contained in this application as per the terms set out in the RNRMCs Privacy Policy.

YES/NO

Complete the LSRA application via the RNRMC website, at the following link: https://www2.grantrequest.co.uk/application.aspx?sid=140&fid=35025

On completing the form, it should be emailed to: WO1 Protocol, NAVY PEOPLE-HQ PROTOCOL WO1 for approval.

OFFICE USE ONLY:

Declaration and Approval by WO1 Protocol	
I confirm that I have verified via JPA that the recipient has completed a minimum of 40 years' service and that the gift requested has a Royal Navy significance.	
Approval is hereby given for the LSRA application to be processed by the RNRMC.	
Signature:	
Date:	

Examples (Google the stores):

1. **HMS Stores** – Various military style gifts.
2. **Pronto Images** – Various military style gifts.
3. **Hattons of London** – Bespoke Coins.
4. **Forever Jack** – Various military style gifts.
5. **CWC Watches** – Military style watches.
6. **Customised Charts with a Ship's Crest** - Nautical charts with a personalised crest.

These do not constitute endorsements or recommendations. The responsibility is on the person leaving the Service to ensure that the gift they are purchasing is available and of the quality they are looking for.

ANNEX 55F

HOMELESSNESS

The process for supporting our people with their housing to ensure they do not leave the RN without a home is a key task. The following process ensures the CoC support our SL.

1. **Obtaining Consent[1].** For those personnel in service, **Life Checker** may act as the initial indication as to potential challenges, and for housing issues, the DO/TC should refer SP to RN Family and People Support (RN FPS) via the 'RN FPS' portal. For those leaving the RN, the DO/TC (or LM/1RO) should be undertaking an exit discussion with the SL, and as part of this discussion, an assessment as to their preparation for return to civilian life should have been made. During discussions between the LM/1RO/DO/TC and the SL, an assessment as to their preparation for return to civilian life should be made. The SL Life Checker, undertaken by the SL but reviewed by the LM/1RO/DO/TCs, should determine if they are LIKELY to be at risk of homelessness. The Release Office should also usually ask the SL if they/their family are at risk of homelessness upon discharge.

   a. As a referral cannot be made without the SL's consent, COs, or their representatives, should ensure that the SL understands the purpose of the referral, and consents to information and contact details being passed on to aid with their housing needs.

   b. It is advisable to obtain the SL's signature to confirm that they have consented to a referral being made, however oral consent is acceptable. Consent should be informed, accounting for circumstances where the SL would not benefit from a referral being made. Some guidance is offered in Para 5520c 'Referral to Veteran Services with contact details at Para 4.e below.

2. **Referral Refusal.** If a SP/SL refuses to give consent for a referral to be made, this must be recorded by the CO on JPA. No further action is required, and the Armed Forces' 'Duty to Refer' is discharged, assuming appropriate signposting has been provided.

3. **Records.** Records must be kept so that COs can demonstrate their 'Duty to Refer' responsibilities have been discharged for governance purposes. It is recommended that a SL's housing situation and any associated risk, is identified and recorded as part of the exit interview, and the Release Office is informed to ensure this is recorded correctly. Release Office staff MUST ensure that both refusal to give consent and referrals to local authorities for those at risk of homelessness are recorded within the corresponding discharge documentation. Additionally, the CO may wish to record this in JPA when they undertake their discussions with the SL.

4. **Continued Welfare Support.** COs (or Line Manager/1RO) must continue to provide existing welfare support to refer those at risk of homelessness to the relevant the relevant Local Authority regardless of their location within UK. There is a responsibility to support SPs and SLs based in England, Scotland, Wales or Northern Ireland, as well as units based abroad.

[1] JSP100 Part 2

a. Those SLs who intend to settle in the Devolved Administrations, who are at risk of homelessness, and consent, should be referred to the Local Authority in a Devolved Administration they wish to locate/relocate to. This can be undertaken directly, or through the Veteran Services.

b. Whilst this is relatively easy for Army and RAF personnel, the nature of RN assignments and deployments with the potential for our people to already be located outside of base port areas or to relocate during their resettlement means that there is likely need for greater support.

c. COs should consider whether a SL is LIKELY to be homeless or become homeless during or after their discharge from service. If this appears to be LIKELY, COs and their representatives shall:

d. Assess what sort of help an SL might most benefit from Veteran Services[2] help for SL or SSAFA Mentoring.

e. Contact Veteran Services **DBSVets-DTS-Central@mod.gov.uk** who will provide support and guidance to access a range of appropriate health, financial and support services across government and charitable sources. They will support housing need as well as undertake a holistic assessment of all needs as per JSP100. In service refer guidance to Veteran Services using the DTRP1 form.

f. For those who are likely to benefit from more intensive 1-2-1 mentoring to motivate, support, build resilience and empower service leavers, refer to SSAFA Mentoring (**mentoring@ssafa.org.uk**).

g. Organisations exist, both internal and external, able to offer assistance/advice to the Command, and to the individual as required (not exhaustive):

(1) **https://www.royalnavy.mod.uk/community-and-support/advice-and-support/local-support.**

(2) For Housing Advice: **https://www.gov.uk/guidance/information-and-guidance-on-civilian-housing**

ANNEX 55G

CONTINUUM AND SPECTRUM OF EMPLOYMENT

There are a range of employment opportunities within wider Defence and MoD that may interest those leaving the RN.

1. Civil Service

The Great Place to Work for Veterans scheme is designed to encourage more veterans to join the Civil Service when they leave the armed forces, ensuring the Civil Service benefits from the wide range of skills and talents in the armed forces community. As part of the Government's ongoing commitment to those who served, this is an opt-in recruitment scheme which allows former members of the armed forces who meet the minimum criteria to progress to the next level with their application for most vacancies – whether that's an interview or an online test. All appointments will continue to be made on merit. Roles within the scheme are available at various grades, in functions and professions across the Civil Service. When applying for roles in civil service jobs, applicants will be prompted to enter whether they are eligible for *The Great Place to Work Initiative* by confirming that they have served in the armed forces. **www.civil-service-careers.gov.uk/great-place-to-work-for-veterans**.

2. Maritime Reserves (MR) – The Firefly Scheme

The *Firefly Scheme* was introduced to increase the awareness of the MR proposition to trained[1] RN and RM personnel and to introduce a fast-track entry process that enabled their seamless entry[2] to the MR as a Part-Time Volunteer Reservist (PTVR) immediately on leaving Regular service. Personnel earn their daily rate of pay and as long as they achieve annual commitment (currently 24 days). This qualifies PTRVs to their Certificate of Efficiency and additionally, an annual tax-free bounty of up to £2,209. Appendix 55G1 **Figure 55G1-3** details **joining criteria.**

a. To maximise opportunities for knowledgeable, skilled and experienced SLs to join the MR, the maximum period from which personnel can apply after leaving Regular service is **now extended to 36-months**.

b. The following eligibility criteria apply:

(1) **Age.** The maximum age to join the different Professions within the MR is detailed in the Job Eligibility Matrix (JEM)[3].

(2) **Medical.** The medical eligibility is determined within Appendix 1 and 2 and applicants should normally meet the in-Service medical standards. and the Pre-entry Medical Employability Board (MEB) may assess the employability of applicants with medical limitations.

[1] Completed Phase-1 and Phase-2 training.
[2] If applying before leaving Regular Service, which results in no break in service.
[3] https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/jem.aspx

(3) **Appraisal.** The last Appraisal should[4] have a positive recommendation for Further Naval Service[5].

(4) **Trained Status.** All fully trained[6] personnel are eligible to apply. Part-Trained[7] applicants are to apply via the Re-Joiners and Inter-Service Transfer Team (RISTT)[8] and will be considered for *Firefly* if this is deemed the optimal route for their entry to the MR.

(5) **Discharge Categories.** The discharge categories in BRd3(1), Ch 12[9] apply to all *Firefly* applications. RISTT must be contacted if there is any doubt about the validity of former service documents or discharge categories.

(6) All other routine entry criteria as detailed in BRd3(1), Ch 101[10].

b. **Firefly Application.** Expressions of interest (EOI) and requests for the Firefly Application Form are to be submitted to: **NAVYPEOPLE-CMRESFFMAILBOX@mod.gov.uk.**

(1) Applications are to be submitted no later than 3-months before the end of the eligibility period (i.e. three months before end of Service date, or 33-months after leaving Regular service).

(2) Prior to applying, personnel are encouraged to review the career opportunities within the MR via the RN's Recruit and Attract website[11].

(3) Applications received from OF4s and above will be discussed with CMRHQ[12] and approval will be dependent on SQEP and liability at the time of application.

(4) The application process is detailed in Appendix 3.

(5) The final decision to enter the MR therefore lies with the Registrar of Reserves[13].

[4] It is acknowledged that some service leavers may not have considered the MR as an option after Regular service and therefore this may have been omitted from their final Appraisal. Applications from personnel with a final Appraisals with a "no" recommend will be rejected.

[11] https://www.royalnavy.mod.uk/careers/royal-navy-reserves/firefly-scheme.
[12] Sent to NAVY PEOPLE-MR HQ Policy SO1.
[13] NAVY PEOPLE-CM RES SO1.

b. **Terms and Conditions of Service (TCOS).** All personnel entering the MR will be placed on new Reserve Service TCOS, which will account for the needs of the MR and Profession, and previous service, seniority, and rank/ rate. Each TCOS letter will be designed to make the offer attractive, whilst ensuring current PTVRs are not disadvantaged.

(1) **Training.** The TCOS letter will include any training activities required by the applicant where they are not already fully qualified for their chosen/ allocated MR Profession. Where an individual entering requires a branch transfer to a new specialisation, these training activities will include the elements of the individual's new training matrix below the rank that they enter, to ensure professional competency in new specialisation. Any waivers or exemptions to training are to be discussed/awarded at the entry point and are authorised by NAVY PEOPLE-WFPT STRAT RES SO2.

(2) **Rank/Rate.** Where possible, individuals will enter at the rank/rate they held when leaving the service. However, where there is a low workforce requirement, such as at OF4/5 and OR8/9, or when an individual is also branch transferring and is largely unqualified in their new specialisation, the entrant may be offered a lower substantive rank/rate. This is at the discretion of the NAVY PEOPLE-WFPT STRAT RES SO2.

(3) Personnel who were discharged from Regular service with an ill-health award are advised to seek professional advice on the impact that joining the MR will have on any financial award.

(4) If an individual subsequently leaves the MR, the balance of any ex-Regular Reserve Liability that may remain will then be resumed.

3. Full Time Reserve Service (FTRS)

FTRS provides full time RN employment opportunities for personnel from either former regular service or Maritime Reserve. Opportunities will exist on different TACOS and commitment level. All opportunities are advertised on the 'Serve - Find Forces Jobs' website[14]. Full details on FTRS service are in BRd3 (1) Chapter 102.

4. Royal Fleet Auxiliary (RFA)

If you are leaving regular service and still want a career at sea, then the RFA may be an alternative to consider. Whilst the recruitment process is based on your own personal circumstances, applicants must be British, Irish or Dual Nationality. Foreign and Commonwealth must have a Residence Permit with 'Indefinite Leave to Remain' or a UK Passport. You must be resident in the UK for at least 4 of the past 5 years. Certain branches are only open to sole UK Citizens. All current RFA vessels are compliant for Seafarers Earnings Deduction, whereby you are entitled to claim refunds on your income tax contributions subject to meeting the specific qualifying criteria set by HMRC. For more information, contact: **NAVYCNR-RFAGROUPMAILBOX@mod.gov.uk**.

[14] www.findforcesjobs.mod.gov.uk

5. Military Provost Guard Service (MGPS)

The primary role of the MPGS is to counter the terrorist threat posed to military bases within the UK mainland through the provision of armed guarding services. The MPGS is part of the Adjutant General's Corps and is under the direction of Provost Marshal (Army), who is the Director and Head of Service. MPGS units are formed under the command of their respective Head of Establishment, with Provost Marshal (Army) maintaining technical standards through assurance inspections. Army General Admin Instruction (AGAI) Volume 2, Chapter 43, Part 9: Adjutant General's Corps - Military Provost Guard Service (MPGS) provides full details and can be obtained by contacting APC Glasgow MPGS Sldr-2E1 (MPGS Transfers) **ArmyPM-MPGS-Recruitment@mod.gov.uk**.

a. **Terms and Conditions of Service (TCOS).** MPGS personnel are former regular personnel who have elected to serve on a Military Local Service Engagement (MLSE) which is a 3-year mutually agreed contracts, up to the age of 60.

(1) **Age.** You must be over 18 years and no more than 57 years of age at re-enlistment. Background: You must have served for at least three years on a previous engagement in any Arm or Service including Royal Navy, Army and RAF Reserves.

(2) **Career Break.** You should have less than six years gap between previous service and re-enlistment for all ranks. For those with a previous service gap of more than 6 years, and up to 10 years, the opportunity is available to re-enlist providing you previously held substantive OR4 or above.

(3) **Fitness.** You must be medically fit and have a Body Mass Index of < 32kg/m2.

(4) **Service Check.** Previous service records will be checked and final authorisation to proceed with the application must be given by the Army Personnel Centre.

(5) **Full UK Driving License.** Full driving license is required with less than 8 penalty points.

(6) **Rank on entry.** All MPGS SP start at OR2 (Pte Rank) regardless of rank in their previous service.

(7) **Promotion.** MPGS personnel are promoted on merit using the SJAR system & are subject to competitive boarding at the Army Personnel Centre, Glasgow. Promotion opportunities from OR2 – OR8.

6. Defence Equipment & Support (DE&S)

Defence Equipment & Support (DE&S) is a specialist procurement arm of the Ministry of Defence (MOD). DE&S employs around 12,500 people, operating at sites throughout the UK and around the world, negotiating and managing contracts with the UK and global defence industry. Responsible for developing, supplying and maintaining equipment for the UK Armed Forces, the Military Transition Scheme support those who are leaving the Armed Forces (including spouses/partners) across a wide range of professions, from project managers to engineers, and logistics experts to business managers and commercial specialists. For further information: **www.des.mod.uk/careers/military-leavers**.

7. Defence Nuclear Organisation

The Defence Nuclear Organisation (DNO), part of the MoD oversees all defence nuclear business, excluding operations, responsible for providing nuclear deterrence, overseeing the Defence Nuclear Enterprise (DNE), which includes all the organisations, programmes and people within government that sustain the UK's strategic nuclear deterrent and advising on UK nuclear policy, planning and international cooperation on nuclear matters. DNE is a partnership of organisations that operate, maintain, renew and sustain the UK's nuclear deterrent. DNO roles are advertised under CS jobs, and more information on roles with DNE are found at: **www.defencenuclearenterprise.com/careers**.

8. Cadet Force Adult Volunteer (CFAV)

A Cadet Force Adult Volunteer (CFAV) is someone who helps instruct and advise Sea, Army, or Air Cadets at their weekly training sessions. Volunteers work with other Adult Volunteers to deliver a programme of activities for young people aged 10 to 20 (depending on the Cadet Force), supporting some weekend activities and an Annual Camp in the summer. For more information, **www.adultvolunteer.org.**

APPENDIX 1 TO ANNEX 55G

FIREFLY APPLICATION PROCESS

Figure 55G1-1. Medical Eligibility and Process (Seamless Entry)

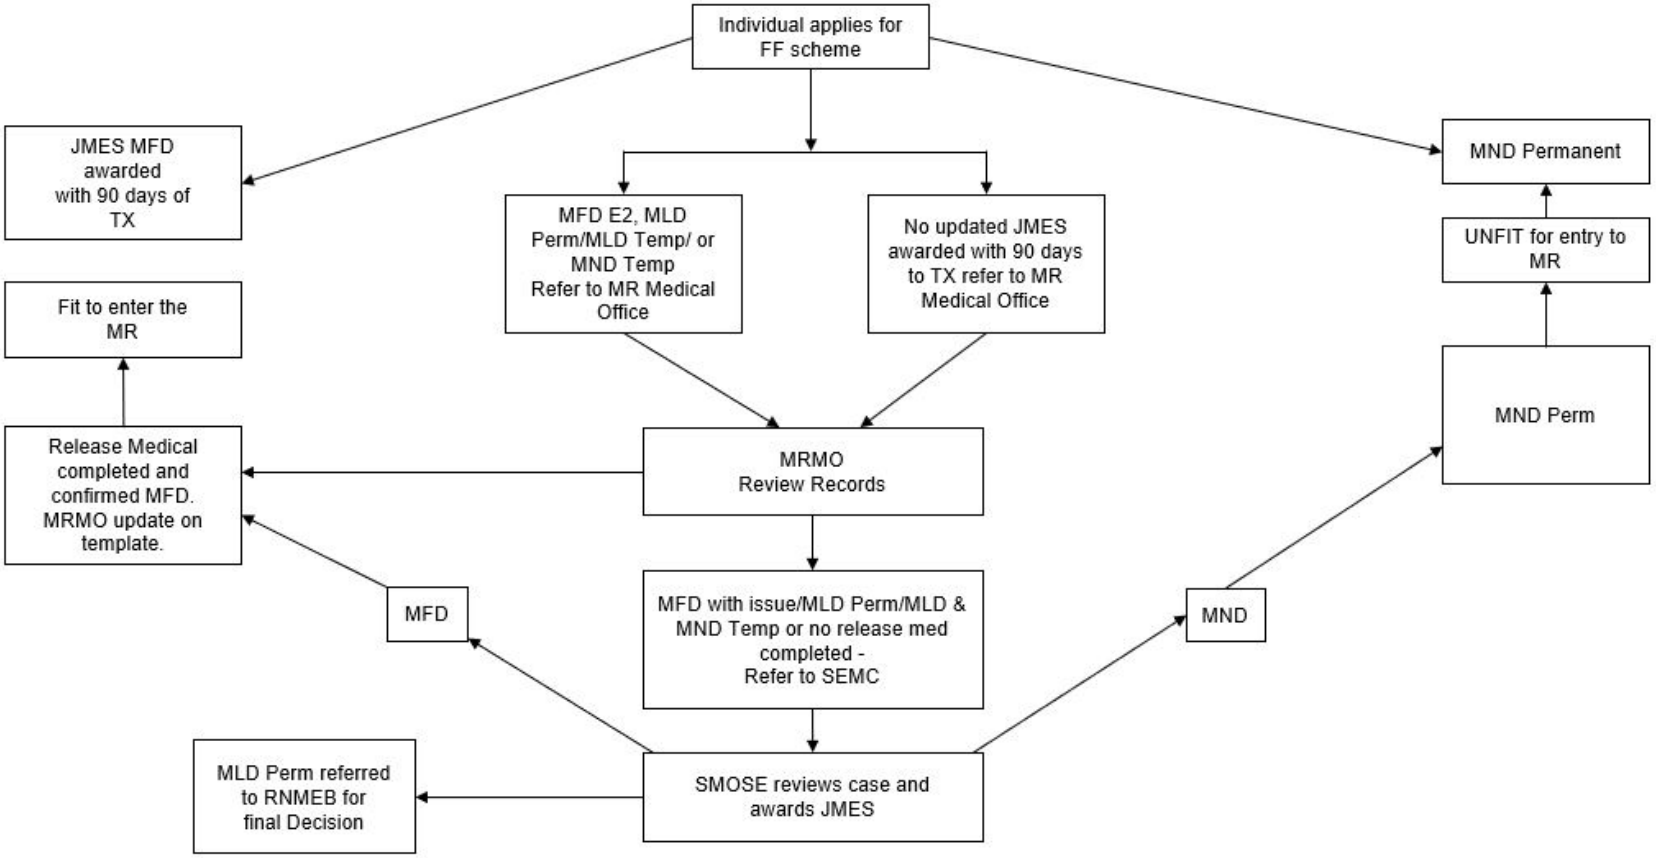

Figure 55G1-2. Firefly Process

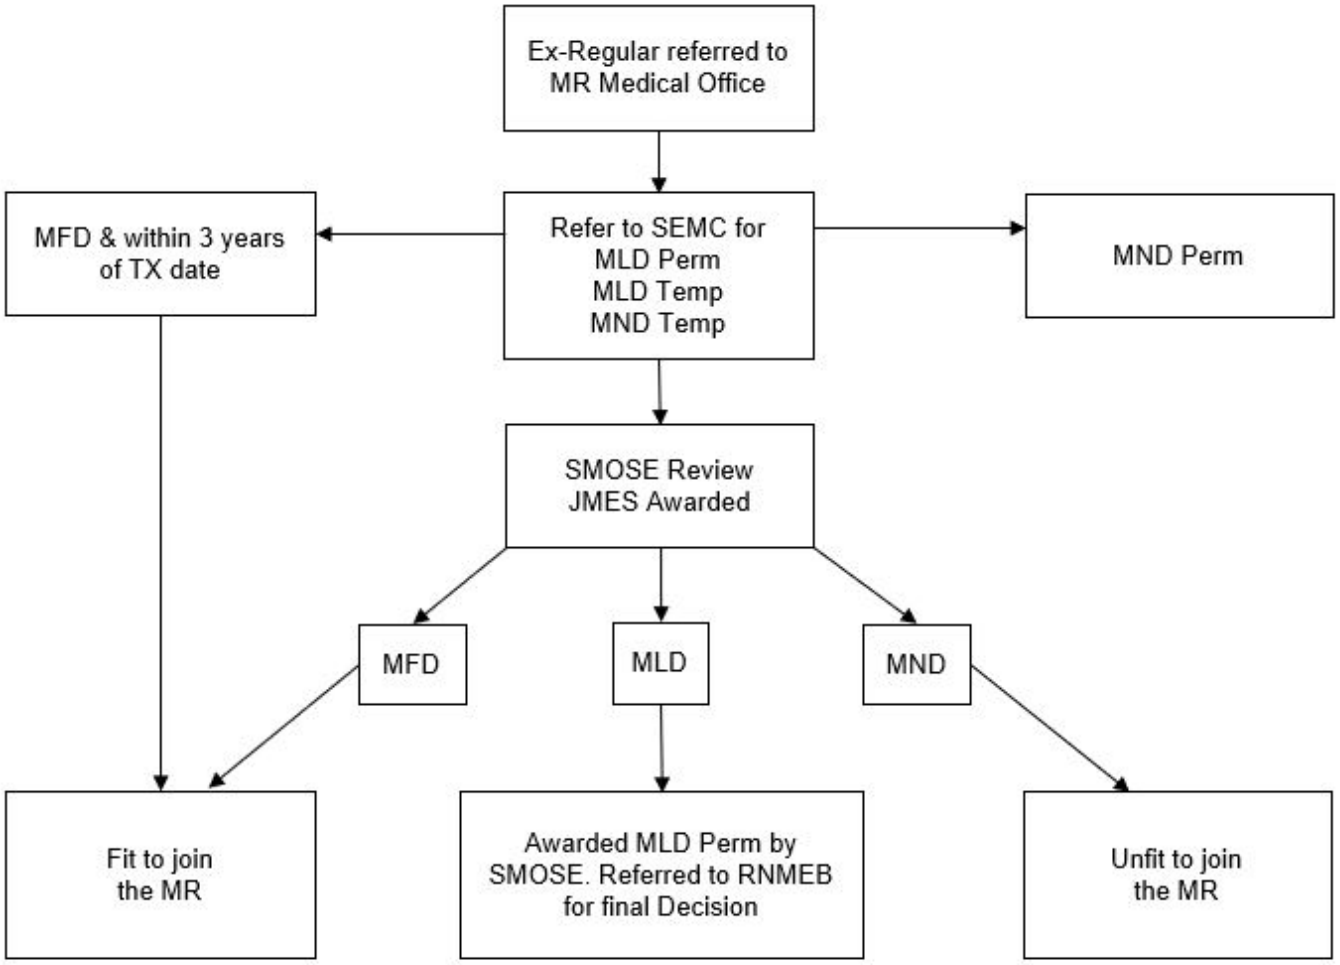

Note: Candidates applying to join the Maritime Reserves within **36 months** of their discharge medical examination and who were discharged MFD do not require further medical examination. This update will be reflected in BRd1750A Para 0315.b[1] at the next update.

RATINGS POLICY - LOANS TO AND FROM COMMONWEALTH NAVIES

(Sponsor: NAVY PEOPLE-CM COMD POLICY SO2C)

CONTENTS

Para
5601. Royal Australian Navy Ratings Serving with the Royal Navy
5602. Royal New Zealand Navy Ratings serving with the Royal Navy
5603. Royal Navy Ratings on Loan to Commonwealth Navies

CHAPTER 56

RATINGS POLICY - LOANS TO AND FROM COMMONWEALTH NAVIES

5601. Royal Australian Navy Ratings Serving with the Royal Navy

a. Advancements and reporting procedures are initiated via the Australian Naval Adviser, Australia House, Strand, London WC2.

b. Advancement notification for Royal Australian Navy (RAN) ratings serving with the RN will be forwarded to the Commanding Officer (CO) concerned, who may then advance the rating subject to a local recommendation. The action taken on receipt of the advancement notification is to be reported to Australia House.

c. When routine reports on RAN ratings serving with the RN are required, the necessary forms will be distributed to all COs with RAN ratings under their command.

d. COs should make any recommendations for advancement on the basis of comparison with RN personnel of similar rate.

e. Completed reports should be forwarded direct to Australia House.

5602. Royal New Zealand Navy Ratings Serving with the Royal Navy

a. In respect of Royal New Zealand Navy (RNZN) ratings serving with the RN, the applicable (branch dependent) Performance and Career Review Form, RNZN 184, is to be completed in accordance with the guidance contained in RNZN Form 185. RNZN ratings serving with the RN will provide copies of these forms to their Divisional Officer on joining their ship/unit. Completed RNZN Form 184s are to be forwarded direct to the Naval Adviser, New Zealand Defence Staff, New Zealand House, Haymarket, London SW1Y 4TQ.

b. Advancement Rosters are maintained by the Office of the Captain Fleet Personnel and Training, Naval Support Command, Auckland, New Zealand. When a rating becomes due for advancement, the Advancement Authority will issue a RNZN Form 106 authorising the action.

c. Forms RNZN 106 are sent to the Naval Adviser High Commissioner for New Zealand in London who arranges for the necessary transmission of the forms to the ships and establishments concerned. COs may then advance the ratings subject to a local recommendation. The action taken is to be reported, and the forms returned, to the authorities from which they are received.

d. Should a RNZN rating, serving with the RN, apply to take a professional or leadership examination or CBRNDC (Branch Knowledge) examination for either rostered or non-rostered advancement to Leading Hand or above, advice is to be sought from The Head, New Zealand Defence Liaison Staff, New Zealand House. The rating's Service Documents should be forwarded in every case. This procedure does not apply to an examination, which is the culmination of any course that the rating undertakes.

5603. Royal Navy Ratings on Loan to Commonwealth Navies

a. The conditions of promotion/advancement of ratings while on loan to Commonwealth Navies are generally similar to those in the RN.

b. Ratings, whose advancement is not subject to selection procedures, are to be advanced as provided for in accordance with Chapter 68. No reversion will take place on return to the RN.

c. A rating on loan to a Commonwealth Navy, who is eligible for consideration for promotion within the RN, will continue to have a selection dossier maintained and Appraisal Reports will need to be raised by the employing Service. DDPD will liaise accordingly. If a rating is subsequently selected for training/promotion during the period of loan service, then reference will be made to the Naval Secretary for communication to the Commonwealth authority concerned so that they may receive the higher pay etc. of their new rate. Should the Commonwealth Navy not require the services of the rating in the higher rate, they will be returned to the RN. The higher pay is not payable by the Commonwealth Navy where any promotion involves immediate return to the RN.

d. **Local Acting Rate.** Any local rate conferred on a rating whilst on loan to a Commonwealth Navy is to be noted on their SJAR. A rating so advanced will revert to the former rate on return to the RN.

e. **Report of Promotion/Advancement by Commonwealth Authority.** On each occasion of an RN rating being promoted or advanced while serving with a Commonwealth Navy, the CO should forward a certificate to DDPD stating under which of the Paras (Para 5603 sub para b or Para 5603 sub para c) the promotion or advancement was made.

f. **Return to the RN.** After service with a Commonwealth Navy, the rate held on return to the RN should be verified by the ship or establishment that the rating joins. Where advancement has taken place, enquiry should be made of DDPD as to the retention of the higher rate. In doubtful cases, DDPD is to refer the question to the Navy Command Headquarters Terms of Service Team for a decision.

g. **Appraisal Reports.** DDPD is to ensure that Appraisal Reports are received for ratings serving with Commonwealth Navies.

CHAPTER 57

APPRAISAL AND WARNINGS

SECTION 1 - APPRAISAL - PRINCIPLES AND NAVAL POLICY

5701. Compliance

Naval Appraisal Policy complies with JSP 757 (Appraisal Reporting). This chapter contains supplementary administrative guidance for Appraisal Reports on officers, ratings and other ranks.

5702. Purpose

Appraisal is one of the most important leadership functions; the proper selection of the most suitable officers, ratings and other ranks on merit to fill the range of assignments in the Service depends largely on the quality and accuracy of appraisal reports. An active interchange of views on a frequent basis between the Subject of the report and their Reporting Officers (ROs) and Line Managers is essential for individual development, efficient use of valuable workforce resources and good management practice.

5703. Appraisal Report Functions

The Appraisal Report (AR) has two distinct functions:

a. It informs the Subject, formally and honestly, how well they have done and identifies their potential. From this, the RO can advise the Subject how to improve performance and enhance potential.

b. When considered with all their previous reports, it is used for career management by the staff of DDPD, including selection processes for promotion, command, change of commission/extended career, future assignments and training.

5704. Reporting Officers

In the majority of cases, the Subject will require only 2 ROs, in accordance with the minimum signature level criteria, but in certain circumstances they may require a 3RO (see JSP 757 Part 1, Chapter 1, Annex B). As a general rule, the most suitable ROs are deemed to be those who have the most regular contact with the Subject's work and therefore are best able to give an accurate and realistic view of performance and potential, substantiated by evidence of achievement against agreed responsibilities, tasks and objectives.

5705. Performance and Potential

The AR provides for separate assessments of performance and potential, founded on a culture of regular consultation and the gathering of empirical evidence. The assessment of performance principally provides feedback to the Subject to promote development, enhance professional skills, highlight personal qualities and also forms the basis for the assessment of potential. The assessment of potential is critical for the selection of future leaders, as well as ensuring the Service gains the best from its officers, ratings and other ranks and that all personnel, regardless of rank, are given every opportunity to have a satisfying and rewarding career. It is important for the Subject to be involved throughout the appraisal process to ensure that their aspirations are considered and that they are made aware of their strengths and weaknesses. This will give the Subject the opportunity to develop strengths, reduce weaknesses and should ensure that nothing in the final report comes as a surprise.

5706. Promotion

JSP 757 states that the guiding principle on recommendations of potential for promotion is that each year, every officer, rating and other rank should receive an indication of potential for promotion by 1 rank, and by 2 ranks where applicable, to assist them in making career decisions. In compiling reports, ROs should note that this is regardless of whether the Subject is qualified for promotion and report narratives must be based on displayed potential to hold a higher rate/rank regardless of eligibility; recommendations must, however, be realistic and ROs should be careful not to raise false expectations.

5707. Finalisation of Appraisal Reports

Completed ARs must be approved/finalised by personnel so authorised to enable the report to be released on JPA to the Subject and the appropriate 'tagged' Career Manager. The reporting chain for all types of report is therefore to include the appropriate JPA Mailbox within the Officers' Promotion Section or an appraisal administrator with a 'finalise' capability within their parent unit for ratings. Holders of these roles must be appointed by Commanding Officers/Heads of Establishment who are to ensure the appropriate Code of Governance has been completed (see JSP 757 Part 1, Chapter 9 Annexes C – F).

5708. Employee Preferences and Objectives

The completion of Employee Preferences and Personal Objectives on JPA is not mandated (with the exception of 'Change of Commission' for officers). However, it should be recognised that, along with position Role and Responsibilities, the presence of this data is highly relevant to completion of the AR and furthermore, provides selection boards with a rounded picture of the Subject and their responsibilities and career aspirations.

5709. Mid Period Appraisal Review

The conduct of a Mid-Period Appraisal Review (MPAR) is mandatory and a fundamental part of the overall appraisal process. It is the method by which the Naval Service tells its people how they are performing to date and what they must do to enhance their potential. As part of the MPAR, an individual's RNFT status should be checked to identify those who are qualified and eligible for promotion as well as to ensure compliance with the Duty placed on all Service personnel to be in date. A written record of the MPAR is strongly recommended using the proforma at JSP 757 Part 1, Chapter 3, Annex A which should be signed, and copies retained by both Subject and 1RO. In normal course, a MPAR should be conducted at the mid-point or at least between 4 and 8 months of the annual reporting cycle. Ideally, the MPAR date is scheduled during the joining interview and thereafter, at the start of the next reporting period.

5710. Promotion Criteria

A high quality report will be inconsequential if the relevant competencies required to meet promotion eligibility are not recorded on JPA. It is imperative therefore that, in parallel with AR production, the RO ensures that all pre-promotion criteria, such as RNFT or Annual RPS requirements, are recorded on JPA.

5711. Complaints about Appraisal Reports

See Chapter 23 and JSP 831 Chapter 22.

5712. Alignment of Reports

Alignment is a valuable component within the appraisal of an individual. Commanding Officers (COs) are required, by means of consultation, to level out any inconsistencies in reporting standards and identify their best candidates with the most potential for promotion in comparison with their peers. The size of the peer group should be given and an indication of the individual's position within it, e.g. 'within the top third of 20'. The process is of considerable assistance to selection boards; further details can be found in JSP 757 Part 2, Vol 1, Chapter 1, Para 8.

5713. Amending Reports

ROs may have reason to alter their opinion of an officer, rating or other rank after a report has been raised. Such changes of opinion should be communicated to the Subject at the earliest opportunity and consideration should be given to conducting a formal MPAR. If the reason for the change of opinion cannot be resolved and the next Annual Report is not yet due, consideration should be given to raising a Special Circumstances report in accordance with Para 5719.

SECTION 2

APPRAISAL REPORTING OCCASIONS AND ADMINISTRATION

5714. Flag Officers

Reports are initiated by the Director People and Training/Naval Secretary, who will forward the appropriate Senior Officer Appraisal Report (SOAR) and instructions to nominated reporting officers.

5715. Officers and Ratings on the Trained Strength

In accordance with JSP 757, reports are to be rendered at least annually on JPA for all officers and ratings/other ranks on the trained strength (except 2 Star officers and above – see above) including Maritime Reserve personnel when mobilised for active service, serving on Full Time Reserve Service commitments or borne for training in peacetime. This includes Officers (X) and (E) previously qualified as GTS in their source Branch whilst undertaking Courses in the Flying Training pipeline for sub-specialisation as Aircrew, for whom (as a minimum) MOD 2020E Course Report (for OCU courses) and 2020G Aircrew Insert Slip are to be rendered in addition to the Form E190 III (Aircrew). Where sufficient knowledge of an individual is held by a unit in accordance with JSP 757, a 2020 Full OJAR is to be rendered at least annually. Exceptionally, United Nations and NATO formats and certain training Course reports or Short Stand Alone Tour (SST) reports are accepted in lieu of full ARs. JSP 757 Annex 2C provides full details about when officers, ratings and other ranks on the trained strength are to be reported on and the occasions for report.

5716. Officers Under Training

a. Formal reports on RN YOs are to be raised on the Standard Report Form (SRF) for inclusion in the Training Record (Form E190). The latter provides a complete record of an RN officer's training until they join the trained strength. It is started for every officer entrant to BRNC Dartmouth and passed from ship to ship. It is made up in the form of a booklet with four parts covering Naval General Training (NGT), Pre-Professional Training, Fleet Training and University Training.

b. For RM YOs, a MOD Form 2020E (Course Report – In Lieu of Appraisal) is to be raised on completion of initial training at CTCRM. A full AR is then to be raised after 12 months in their Troop Command assignment unless, by exception, they are deemed to be under-performing, in which case an OJAR (Occasion: 'Special Circumstance') is to be raised and forwarded to the Naval Secretary's Department (see Para 5744).

c. Ab-initio (not on the trained strength) Aircrew Officers undertaking Flying Training are to be reported on at each Flying course prior to Operational Conversion Unit (OCU) using the SRF (detailed at sub para a) and Form E190 III (Aircrew) for flying training progress in accordance with BRd 9469 Chapter 17. On completion of the OCU, in addition to the Form E190 III (Aircrew), MOD Forms 2020E and 2020G are to be raised just as for GTS Officers, as detailed in JSP 757 Appendix 1 to Annex A to Chapter 5. The MOD Form 2020E raised on completion of the OCU will be included in the candidate files presented to Transfer and Promotion Boards. Student aircrew undergoing training on joint or RAF training squadrons will be reported upon using the RAF 5000 series forms.

d. SRFs are to be raised on YOs in accordance with, and on the occasions described in, BRNC and other training establishments' local instructions. SRFs are to be raised: at the end of each stage of training and on the final completion of submarine training; where application is made for the imposition or removal of an Admiralty Board, Commodore/Captain's Warning, compulsory/voluntary withdrawal from training; and when branch/specialisation transfer is sought. The SRF should give an all-round picture of the officer with a clear analysis of their qualities of mind, character and personality. It should be complete in itself and, when necessary to refer to previous reports, should indicate the context. Five key areas should be covered; character, professional progress, leadership, personal qualities and a conclusion which includes a brief summary of potential and, if appropriate, recommendation (e.g. to be placed on Admiralty Board Warning (ABW) or for compulsory withdrawal from training). An example of the SRF to be used is at Annex 57E.

5717 Candidates for Commissioned Rank

a. The Upper Yardman (UY), Senior Upper Yardman (SUY), RM Corps Commission (CC) and RM Senior Corps Commission (SCC) schemes provide opportunities for the promotion of ratings and other ranks to commissioned rank, subject to competitive selection and criteria specific to branch and age. Appropriate personnel need to be identified early and encouraged to complete the relevant qualifications and competencies.

b. Ratings and other ranks who aspire to be commissioned officers should, in the first instance, post their intent by completing the 'Volunteer for Commission (Other Ranks)' field on JPA Self Service Employee under Information Types/Employee Preferences. This action alone does not infer that the individual is a formally recognised UY/SUY/CC/SCC candidate and the prospective candidate should also discuss their aspirations with their Divisional Officer.

c. Where a volunteer for officer candidature on JPA has not otherwise taken forward the request, the initiation of the annual AR will serve to alert the 1RO that an employee has indicated on JPA that they are a volunteer for commission, and that this will require a recommendation on the AR. The 1RO/DO should interview the individual as soon as practicable and provide advice and guidance on:

(1) Whether or not the type of commission selected on JPA is applicable and pertinent to the Royal Navy.

(2) Whether or not the Subject is eligible for a commission in accordance with current regulations and, if not, what they need to do to become eligible.

(3) The Subject's realistic chances of attaining a commission.

(4) What the Subject needs to do to have their candidature formally approved.

d. Where the 1RO/DO is a WO, senior rating or SNCO, they must consult the Commissioned Officer (OF2 or above) who will be formally appointed by the CO to act as mentor for the purposes of the rating's officer candidature, especially regarding application and preparation for the Admiralty Interview Board (AIB).

e. **Confirming Eligibility for Candidature.** The 1RO/DO should assess the individual's eligibility status for UY/SUY/CC/SCC candidature and attendance at the AIB, consulting as necessary with the Line Manager (LM) and officer mentor, who should check the relevant Competence Profile history held on JPA. The regulations at Chapter 50 pertaining to the type of commission and any Branch requirements for which the individual has volunteered must also be considered in detail.

f. **Formal Acceptance.**

(1) The CO (or Designated Officer) Request forum should be used to consider the suitability of an individual for candidature, or the resurrection of candidature following suspension. Where a period of probation is deemed necessary, the individual, along with the 1RO/DO, must be advised of the areas where further development is needed and when the request will be reviewed.

(2) Once formally approved, the relevant RA is to be informed by letter, copied to the candidate's Career Manager, providing:

(a) The full Service details of the candidate.

(b) The date candidature was approved.

(c) The branch/specialisation and type of commission.

(d) Details of any eligibility criteria the candidate is yet to achieve (e.g. Bridge Experience Certificate), according to JPA, before application for attendance at AIB.

(e) Details of any eligibility criteria the candidate must achieve (e.g. Educational qualifications), according to JPA, before they can be considered for extraction.

(f) A certificate confirming the candidate's current medical and visual eligibility for the preferred branch/specialisation.

g. **Personal Objectives.** The 1RO, on appointment, should consult with the candidate and their normal DO/LM to ensure that 'SMART' objectives are set on JPA that will assist the candidate's development and provide empirical evidence of the candidate's readiness to attend the AIB and hold a commission thereafter. While these specific objectives will appear on both the CR and the Annual SJAR, they should be distinct and be compatible with those already set by the LM for the annual SJAR purposes.

h. **Mid Period Appraisal Review (MPAR).** The 1RO nominated for the purposes of the CR is to conduct a MPAR insofar as it affects the Subject's officer candidature.

i. **Primary Evidence.** As the CR seeks to provide the RAs with objective opinion of potential for commission (rather than promotion within the rating and other rank structures), the primary source of evidence will come from the specific 'officer-related' personal objectives set at the beginning of the reporting year. If well-constructed, these objectives should assist ROs to evaluate suitability and preparedness for AIB and the strength of potential for extraction and officer training. The CO must ensure that the CR is founded on empirical evidence of leadership; effective intelligence; powers of communication; and courage and values, applied in terms of that expected of a commissioned officer.

j. **Misconduct and Poor Performance.** Where a candidate conducts themselves in a manner resulting in a Career Check or an Overall Performance Grade (OPG) of D is awarded in a routine SJAR, the CO is to review candidature with immediate effect. If, in all likelihood, their candidature is suspended, the individual may be considered for re-acceptance after completion of a further three years' service. The suspension is to be reported to the appropriate RA by letter.

k. **Suspension or Cancellation of Candidature.** Dependent upon the circumstances, officer candidature may be suspended for a period or cancelled by the CO. The criteria for suspending or cancelling candidature are as follows:

(1) **Suspension.** The candidate becomes ineligible (even if temporarily) due to disciplinary, medical, personal or welfare reasons.

(2) **Cancellation.** The candidate:

(a) Is considered by either the AIB or CO to be unlikely to develop the necessary competence and is therefore no longer recommended for consideration.

(b) Withdraws voluntarily from the scheme.

(c) Is or becomes over age for consideration.

(d) No longer meets the medical criteria and is deemed to be unlikely to regain the required standard.

(e) Has exercised their right to apply for early termination of service.

5718. Initial Career Reporting

a. The length of time between joining the Naval Service and attaining Gained Trained Strength (GTS) status for some trainees can be in excess of 40 months. This period is a key formative element for an individual and there remains a requirement to record, assess and report on performance while under Phase 1 and Phase 2 training (the Initial Career Reporting (ICR) period) at least annually and on completion of specific phases. Where possible, Training Establishments are to use JPA Appraisal applications for ICR reporting. For those that are unable to do so, an open reporting mechanism is to be in place that is fit for purpose and allows Subjects to sight and sign their reports. The JPA ICR appraisal:

(1) Provides formal feedback on progress to the trainee.

(2) Records training achievements and highlights any future potential for Career Managers, and thereby first employing units.

(3) Enables the identification of possible CW and Fast Track candidates.

(4) Builds a history for promotion to Leading Hand/Corporal, given that longer courses constitute a significant part of an individual's career prior to full eligibility being achieved.

b. **Branch Transfer and Re-Classing.** Where applicable, the Course Report (Non Appraisal) may be moved via the reporting chain to a new/additional RO to cover those trainees that branch transfer or are re-classed. Alternatively, where this is not appropriate, the report may be deleted by the AA (the 1RO can use the 'previous owner' function to return the report to the AA; this process will clear all information held in the report). Any divisional/training information of relevance to the new 1RO should be transferred using 'hot-handover' procedures, remembering that any written notes must be disclosed to the Subject under DPA legislation.

(1) When used, JPA requires appraisal reports to be initiated online and, once completed by the RO(s) and Subject, 'finalised' by a nominated AA with the Finaliser flag. Annex 57A describes the process for ICR.

(2) All professional/personal conduct warnings accrued during training are normally to be tracked and resolved within individual schools prior to transfer to GTS. However, where a trainee under CO's level of warning for Discharge SNLR successfully attains GTS, this is to be recorded in ICR and the CO of the first employing unit informed in writing.

5719. Special Reports

a. Special reports may be called for by the Navy Board or other authority; in the latter case the Naval Secretary is to be informed. Although they are normally raised only once, further special reports may be called for. They are to be made on MPAR (Occasion: 'Special Circumstance') and, if in response to a MOD letter, the appropriate reference should be quoted at the initial text in the First RO's performance narrative.

b. A request for a special report does not imply that the officer, rating or other rank has been adversely reported on and they are commonly required to support invited applications for a variety of purposes. In such cases, the AR is to contain a specific statement on whether or not the individual is recommended for that purpose.

5720. Officers on Exchange or Loan Service Overseas

Reports on officers and ratings on exchange or loan service overseas are to be initiated by British Defence Staff, British Defence Liaison Staff, Naval or Defence Attachés, or the Directorate of Overseas Military Activity, as appropriate using the Non-Standard Appraisal Report (NSAR) format where necessary (see JSP 757, Part 1, Chapter 8).

5721. Reports on Army and RAF Personnel

Responsibility for raising ARs on Army and RAF officers and ranks lies entirely with the owning CO, regardless of Service. Administrative guidance for ARs on Army and RAF personnel (including standard reporting dates) is contained in JSP 757.

5722. Reservist Personnel

a. **Volunteer Reserve (RNR/RMR) Personnel.** RNR/RMR personnel are to be reported on as follows:

(1) **Royal Naval Reserve/QARNNS Reserve.** Reports on OJAR/SJAR are to be completed on JPA on the same dates and occasions as for regular RN personnel (see JSP 757 Chapter 2, Annex C), restricted to:

(a) **Officers.**

i. In zone Officers, holding substantive rank of Lieutenant and above.

ii. Over zone Officers, when specifically requested by the individual.

iii. Lieutenants with less than five years' seniority and Sub Lieutenants should have Short Appraisal Reports raised annually.

(b) **Ratings.** When eligible for promotion.

(2) **Royal Marines Reserve - List 1.** Reports on OJAR/SJAR are to be compiled on JPA on the same dates and occasions as for regular RM personnel. Where RMR officers and other ranks are attached to RM units for periods of continuous training in excess of two weeks, the parent RMR Unit is responsible for ensuring that a request for a Detachment Insert Slip is made on JPA to inform the full OJAR/SJAR (see JSP 757 Chapter 5).

b. **Volunteer Reserve (RNR/RMR/QARNNS(R)) Personnel on Full Time Reserve Service (FTRS) or Mobilised Service.** Reports for RNR and RMR officers and ratings/other ranks serving on FTRS or mobilised service are to be completed on JPA on the same occasions as for RN/RM personnel. Where only part of the reporting year has been spent on an FTRS commitment or mobilised service, the parent RNR/RMR Unit should initiate the report with an Insert Slip provided by the FTRS or mobilised employer. Where a full year's FTRS or mobilised service has been completed, the FTRS or mobilised employer should initiate the report and an Insert Slip should be provided by any RNR/RMR unit attended and/or by the Head of the individual reservist's branch. In either case, liaison between FTRS/mobilised employer and Reserve unit is essential. Where a period of mobilisation is for 6 months or less, a Short Appraisal Report is to be raised (see JSP 757 Articles 5.08).

c. **Royal Fleet Reserve (RFR) ('Regular Reserve') Personnel on FTRS and Additional Duties Commitment (ADC).** Reports on RFR personnel on FTRS or ADC are to be completed on JPA by the employing Unit on the same occasions as for RN/RM personnel. Where a period of FTRS is for six months or less, a Short Appraisal Report is to be raised (see JSP 757 Chapter 5). In all cases, the final reporting officer is to include a statement regarding the suitability of the individual for further FTRS/ADC and, where appropriate, service in the acting higher rank/rate.

SECTION 3

REPORTING REQUIREMENTS ON IMMINENT DISCHARGE FROM THE SERVICE

5723. Reporting Requirements

Unless a report containing the appropriate recommendations has been raised in the last 6 months, all officers, ratings and other ranks about to retire or be discharged from the Service are to receive an appraisal report (Occasion: Prior to Retirement) from the final employing unit prior to joining the nominated Release Centre.

5724. Recommendation for Further Naval Service

a. Ratings and other ranks who leave the Service before normal retirement age, except for those for whom the reason for discharge precludes consideration for further service ('Deserted', 'Dismissed', 'SNLR', or 'SHORE') , are to be assessed and a recommendation made as to their suitability for further Naval service, including FTRS or transfer to the RNR/RMR. The statement ‘Recommended for further Naval Service’ or ‘Not recommended for further Naval Service' is to be included in the 2RO potential narrative.

b. Where a recommendation for further Naval service is made, this indicates that the individual is considered suitable in all respects for such service (including RFR and RNR/RMR enrolment). In the case of a rating or other rank, service during the last three years should be free of any career checks and their performance grade during this period commensurate with rate, qualifications and seniority.

c. Individuals not recommended for further service are to be informed and made aware of their rights in accordance with JSP 831 at the earliest opportunity to enable any subsequent representation to be concluded before release from the Service.

d. Assignment Orders to release ratings subsequently assigned to another ship or establishment prior to release before joining the Release Centre, or to the Release Centre three or more months before they are due to begin terminal leave, may be reassessed and a further recommendation made if, in the opinion of the new CO, their conduct justifies such action.

e. For officers, final OJARs should include recommendations as to suitability for further active service, FTRS or transfer to the RNR/RMR.

f. **Effects of Recommendation.**

(1) Where the cause of discharge is either ‘Engagement Completed’, ‘At 12 Months’ Notice’ or ‘Redundant’, a recommendation for further Naval service will indicate that Ratings are considered suitable for re-entry and, if they have a liability for the RFR, eligible for enrolment. See also Para 5447 and Part 4 (Recruiting).

(2) For all causes of discharge other than ‘Desertion’, Dismissal’, ‘Service No Longer Required’, ‘Pensioned’ or ‘SHORE’ (except Unhappy Under 18 year olds), the addition of an asterisk (*) to a recommendation for further Naval service indicates that, at the time of discharge, the rating’s personal circumstances were such as to preclude immediate consideration for such service or for immediate enrolment in the RFR, see Para 5724 g sub para (4).

(3) For all causes of discharge other than ‘Desertion’, ‘Dismissed’, ‘Service No Longer Required’, ‘Pensioned’ or ‘SHORE’ (except Unhappy Under 18 year olds), the notation ‘Not Recommended for Further Naval Service’ will indicate that a rating is not considered suitable either to re-enter the Service or for service in the RFR.

g. For a recommendation for further Naval service, a rating must be considered suitable in all respects for such service. When making a recommendation, the CO should take into account the following:

(1) **Cause of Discharge.** Where the cause of discharge does not preclude consideration for further Naval service (Desertion, Dismissed, SNLR or SHORE (except unhappy under 18 year olds), but is other than ‘Engagement Completed’, ‘At 12 Months’ Notice’, ‘Pensioned’ or ‘Redundant’), the circumstances which have led to the decision to discharge the rating should be disregarded as far as possible when assessing suitability for further Naval service. In this situation, the sole criterion should be whether, in normal circumstances, the rating would be considered suitable in all respects for Naval service and could be recommended as such.

(2) **Conduct and Effectiveness.** To be recommended as suitable for further Naval service, a rating’s service during their last three years should be free of any career checks. Their effectiveness assessments during the same period should also be commensurate with rate, experience, qualifications and seniority.

(3) **Medical and Security Considerations.** Ratings with a history of medical problems, or whose discretion on financial or other matters is questionable, which have not, of themselves, promoted an application for discharge from the Service, are to be recommended for further Naval service only if there are clear indications of improvement in these respects.

(4) **Domestic Problems.** Ratings with a history of domestic problems which, in the opinion of the CO would have warranted referral to the Royal Navy Family and People Support (RN FPS) had the rating applied to re-engage, are to be assessed as though the domestic problems did not exist, on the assumption that they may, in the future, be resolved. Ratings in these circumstances who would otherwise be recommended as suitable for further Naval service are to have an asterisk (*) added to their recorded recommendation (see Para 5724 f sub para (2)).

SECTION 4

APPRAISAL REPORTING - NON-UK PERSONNEL

5725. Foreign Officers Under Training

Foreign officers under training should be reported on in accordance with Chapter 8 of JSP 510 - International Defence Training.

5726. Personnel of the United States Navy (USN)

a. Fitness Reports will be made on USN personnel on the following occasions:

(1) Annually, according to rank (see Table 57-1).

(2) When the individual's US reporting senior changes.

(3) On completion of posting/exchange.

b. Fitness Reports are made on NAVPERS Form 1610/02 (03-02) and drafted by the officer on whom the report is being submitted and rendered to the US Personnel Exchange Program (PEP) Administration Office, Naples, Italy. In parallel, the host nation chain-of-command 2RO (minimum rank OF4) shall provide to the US reporting senior a letter for incorporation into the finalised fitness report. A formal request for the host nation letter will be generated by the PEP Admin office approximately 30 days before the report due date.

Table 57-1. Fitness Reporting Schedules on USN Personnel

Rank/Grade	Periodic Report Due Date	Mid-Term Counselling Due Date*
Warrant Officer 2 (W-2)	September	March
Warrant Officer 3/4/5 (W-3/4/5)	March	September
Ensign (O-1)	May	November
Lieutenant Junior-Grade (O-2)	February	August
Lieutenant (O-3)	January	July
Lieutenant Commander (O-4)	October	April
Commander (O-5)	April	November
Captain (O-6)	July	January

* Mid-term counselling affords the host nation chain of command an opportunity to provide the officer with an informal assessment of their strengths and weaknesses. This assessment is due within the month listed above and does not require any formal paperwork to be generated.

5727. Personnel Serving with the Royal Marines

a. **United States Marine Corps (USMC) - Foreign Personnel Exchange Programme (MCFPEP).** Performance evaluation reporting procedures for MCFPEP personnel shall be in accordance with the Marine Corps Performance Evaluation System (PES). As such, the Subject will provide a USMC fitness report to the nominated UK Reporting Officers, annotated in Section 1 that a foreign evaluation report is attached. Consequently, the appraisal is to be compiled using a normal Form MOD 2020 AR, Type 'Regular RM Officer' or 'RM Other Rank, as appropriate, but in the NSAR format. The normal OJAR/SJAR values of grades and recommendations are to be used. Once completed, it is to be signed and attached to the USMC fitness report and returned to the Subject, who will forward the documents via their administrative support unit to the USMC Reviewing Officer for action. On no account is the NSAR to be forwarded to the JPAC. USMC fitness reports are to be submitted within 30 days of the due date, as advised by the Subject.

b. **Royal Netherlands Marine Corps (RNLMC) Officers.** MOD 2020 (NSAR format) 'RM Officer's Appraisal' is to be used for reporting on officers in the RNLMC. This is to be submitted in hard copy only to NPT RM via the chain of command by 30 Nov each year and on termination of assignment.

5728. Officers of Commonwealth Naval Forces

a. **Canadian Forces (Naval).** Letters of 'Performance and Potential' are required to be rendered annually (on all ranks) for the reporting period 1 Apr – 31 Mar. The Canadian Defence Liaison Staff (London) (CDLS(L)) will initiate the reporting process in February each year and provide instructions and guidance on the evaluation requirements and the use of the master template for owning COs. CDLS(L) will also arrange a follow-up visit by the Naval Adviser and/or the Assistant Naval Adviser in early March.

b. **Royal Australian Navy (RAN).** Reports are to be rendered on all officers on exchange/loan postings by one of two methods:

(1) End of course report (for those on RN sponsored courses), or;

(2) As required by the RAN reporting system, on the following occasions:

(a) Those officers in zone for promotion, who have been observed for a minimum of 120 days by the officer's immediate line manager, annually, on 30 Jun.

(b) Those officers not in zone for promotion, on the anniversary of taking up the exchange/loan position when an officer's immediate line manager changes and has observed the officer for a minimum of 120 days.

(3) Reports on in-zone officers will be called for by the Naval Adviser, Australian Defence Staff and managed by the Assistant Naval Adviser (London) (ANA(L)). All in-country Australian Exchange/Loan officers are provided a CD, incorporating the electronic formats for the reporting forms and instructions for their completion. The ANA(L) will forward to the reporting authority a blank formatted disk, together with instructions and a covering letter in Feb and Jul each year. The completed report is to be forwarded directly to the Naval Adviser (London), Australian Defence Staff, Australia House, Strand, London, WC2B 4LA.

c. **Royal New Zealand Navy (RNZN).** Reports are to be rendered as follows:

(1) **Officers of Captain Rank.** Reports on Captains will be initiated by and on the direction of the RNZN Directorate of Naval Officers Career Management. Where an End of Course report is rendered for a significant period of instruction (e.g. RCDS), no other report is required.

(2) **Officers of Commander Rank and Below.** Reports for this category of officers are to be rendered on the following occasions. For Sub Lieutenants and below, this will only apply for those officers who hold all professional qualifications for promotion to Lieutenant:

(a) Annually on the Subject's birthday.

(b) When an officer's reporting officer changes.

(c) On completion of posting/exchange or training.

(d) For Lieutenants and above - for period ending 30 Nov, but only if no other report has been raised for any of the three previous listed occasions within the preceding four months.

(e) As called for by the Naval Adviser, NZDS London.

(3) Reports are rendered on Form MD 68, which are to be completed in accordance with the accompanying Form MD 69 (available on a CD issued to all RNZN officers on arrival in UK). Parts 2-5 are to be completed by the Head of Department and Part 6 by the CO. If, when acknowledging the report at Part 5, the individual indicates that they will be making comment on the report, the report remains incomplete and is not to be forwarded until such time as the comments are attached by the Subject, noting a deadline of 14 days. Parts 7-8 are reserved for the appropriate Headquarters Staff Officer's comments in New Zealand. All reports for RNZN officers on exchange/posting or under training in the UK should be forwarded through the Naval Adviser, NZDS, New Zealand High Commission, 80 The Haymarket, London SW1Y 4TQ, for onward transmission to the Director of Naval Officers Career Management, HQNZDF(NAVY). The MD68 is a completely open reporting system and the officer being reported on is sent a copy of the completed Form MD 68 once all Parts have been completed.

(4) **Junior Officers Under Training (JOUT).** JOUT is defined as those officers who have yet to gain their professional/specialist qualifications for promotion to Lieutenant (e.g. OOW(A) equivalent, WEQ or MEQ). Occasions for report are as follows:

(a) On completion of any Core Professional Course undertaken with the RN (e.g. SEMC) but not if a detailed End of Course report is rendered.

(b) On completion of a posting in excess of 28 days.

(c) On change of Reporting Officer, where there has been no prior report by the departing Reporting Officer.

(d) Should the above occasions not result in a RNZN 41 being raised for a period exceeding six months, a 6-monthly progress report is to be raised.

(e) On the officer attaining their final professional qualification to the rank of Lieutenant; all subsequent personal reports are to be rendered on Form MD 68 Personal Report – Officer (see Para 5728 c sub para (3)).

(f) As called for by the RNZN Junior Officer Career Management Cell, via the Naval Adviser, NZDS London.
